(2) Dividend Increased on Common.—Announced Feb. 26, 1917, that this company had declared a regular quarterly dividend of 1¼% on the common stock, thus placing it on a 7% basis, the former rate having been 6%. The regular dividends of 1¼% on the 1st and 2d pfd. stocks were also declared. All are payable April 1 to stock of record March 20.

—Mar.

(1) Dividend Payment Dates.—It was announced March 3, 1917, that the pfd. dividends recently declared by this company are payable May 1 to stock of record April 20 and the common dividend payable April 1 to stock of record March 20.

K-D CARBURETER CO.,

CLEVELAND, O.

(1) Incorporated on Jan. 20, 1917, in New York with a capital stock of \$275,000. Incorporators: Harrison B. McGraw, H. E. Downing, M. C. Russ, M. H. Gallagher and M. L. Thomsen.

—Feb.

(1) Reorganized.—It was announced on Jan. 29, 1917, that this company had been reorganized with an increase in capital stock to \$275,000. It had acquired the plant of the Atlas Bolt & Screw Co., into which it will move as soon as the latter company is settled in its new plant.

KEE LOX MANUFACTURING CO.,

ROCHESTER, N. Y.

(1) Incorporated on April 19, 1917, in Washington, with a capital of \$512,500. Incorporators: W. P. Pembroke, Chas. J. Pembroke and Jas. T. Miller.

KEEVER STARCH CO.,

COLUMBUS, O.

(1) Capital Increased.—On March 22, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$500,000 to \$750,000.

KEITH CAR & MANUFACTURING CO.

(1) Financial Condition.—It was announced April 2, 1917, that this company, incorporated under the laws of New York, had filed with the Massachusetts Secretary of State a statement of its financial condition, dated Dec. 31, 1916, which compares as follows:

	1916	1915
Assets—		
Real estate and machinery	\$1,532,868	\$1,397,650
Merchandise	1,122,086	494,944
Cash and debts receivable	720,547	402,711
Investment	368,500	368,500
Unaccruals	218,355	96,341
Good-will	95,700	95,700
Total	\$4,067,758	\$2,858,847
Liabilities—		
Capital stock	\$1,600,000	\$1,600,000
Accts. payable	310,351	26,154
Floating debt	1,600,000	700,000
Depr. reserve	255,145	243,492
Profit and loss	302,261	289,200
Total	\$4,067,758	\$2,858,847

KEITH RAILWAY EQUIPMENT CO.,

OHICAGO.

(1) Capital Increased.—On Dec. 27, 1916, the company filed notice at Springfield, Ill., of an increase in capital stock from \$5,000 to \$500,000.

KELLEY-CLARK CO., SEATTLE,

WASH.

(1) Capital Increased.—On Jan. 2, 1917, this company filed notice at Olympia, Wash., of an increase in its capital stock to \$300,000.

KELLEY ISLAND LIME & TRANSPORT CO.

(1) Merger.—See Ohio & Western Lime Co.—Item No. 1.

KELLOGG PEAK MINING CO.,

NORTH YAKIMA, WASH.

(1) Incorporated on March 15, 1917, in Washington, with a capital of \$1,000,000. Incorporators: B. F. McCurdy, John Sawbridge, John H. Needham, A. H. Blair and George Ker.

KELLOGG SWITCHBOARD CO.

(1) Stock Dividend.—Announced Jan. 16, 1917, that this company had declared the regular quarterly dividend of 2%, payable Feb. 4 to stock of record Feb. 2, also a stock dividend of 33¼%, payable Jan. 27 to stock of record Jan. 24.

The gross business of the company was reported as about \$4,000,000 over the previous year, or an increase of 40%.

KELLUM CO. (THE).

(1) Incorporated on March 7, 1917, in Delaware, with a capital of \$1,500,000, to trade and deal in and with coffees, teas, baking powder, etc. Incorporators: A. R. Kill, M. J. Kilroy, Sutton R. Layton, E. A. Scholer and F. C. Kile, Kansas City, Mo.

KELLY-SPRINGFIELD TIRE CO.

(1) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross profits.....	\$3,464,459	\$2,880,080
Net income.....	2,117,314	1,706,744
(2) Earnings on Stock. —It was stated Jan. 31, 1917, that this company's net income of \$2,117,314 for the year ended Dec. 31, 1916, is equal to 38.6% on \$4,007,200 common stock, after deducting \$215,598 dividends on pfd. stock.		

JANUARY 1 TO APRIL 30, 1917

***(3) Statement.**—It was announced Feb. 9, 1917, that Pres. Van H. Cartmell, of this company, in submitting the annual report to stockholders, said: "The result of the year's operations is gratifying and the constantly increasing demand for the company's different products has caused the directors to determine to build a new and larger factory at Cumberland, Md."

"The company did no war business in 1916."

***(4) Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$3,456,740, compared with \$2,128,739 Dec. 31, 1915.

***(1) Acquisition.**—It was announced March 7, 1917, that this company had taken over the Northland Rubber Co. of Buffalo, N. Y. The transaction was entirely a cash one. No new stock will be issued by the Kelly-Springfield concern to take care of the purchase.

The purchase of the Northland Co. is due entirely to the immediate need of greater capacity. It is expected that 500 tires a day will be turned out in the Northland plant by June, and that the capacity there will be brought up to 1,000 tires a day by the Fall of 1917.

***(2) Operations.**—It was stated March 7, 1917, that this company is 46,000 tires behind orders.

Purchase of the Northland Rubber Co. in no way interferes with the plans for the building of the plant for the Kelly Co. at Cumberland, Md. Officials know that it will take considerable time to complete the Cumberland plant, and with the pressure of orders on the books, an immediate increase in capacity to take care of the Spring and the Summer rush amounted to a necessity.

The Cumberland plant when completed will mean a minimum capacity at least four times that of the present plants in Akron and Wooster, Ohio.

Kelly-Springfield is covered on its crude rubber and fabric requirements for the remainder of 1917.

The Chicago manager of the company reported that his sales in dollars and cents to the Chicago distributors during January and February of 1917 were larger than the sales from Jan. 1 to May 15, 1916.

—Apr.

***(1) Ground Broken for New Plant.**—Ground was broken the week of April 8, 1917, for the new tire plant of this company at Cumberland, Md. This plant when completed will have a capacity at least four times that of the combined Akron, Wooster and Buffalo plants.

The wisdom of the selection of Cumberland for the new factory is attested by the opinion of the U. S. Government experts in the selection of the site for the \$11,000,000 armor plant. The investigating board, which selected Charleston, W. Va., declared that Cumberland ranked second in advantageous features.

• • •

• KELSEY WHEEL CO., INC.

***(1) Certificates Defined.**—It was announced Feb. 9, 1917, that the New York Curb Market Association had ruled that on and after Feb. 14, 1917, green certificates for 100 shares and brown certificates for fractional shares of this company shall be the only good delivery.

—Mar.

***(1) Report, Year Ended Dec. 31, 1916,** shows gross sales of \$8,178,921, and net profits for the year amounting to \$858,639, after deducting operating expenses, charges, and a depreciation reserve of \$219,932. Allowing for 7% dividend requirements on the \$3,000,000 pfd. stock, the balance of net profit is equal to 6.48% on the \$10,000,000 common stock.

***(2) Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$654,419.

KEMPSMITH MANUFACTURING CO., MILWAUKEE, WIS.

***(1) Capital Increased.**—It was announced March 15, 1917, that this company, manufacturer of milling mach-

ines, had increased its capital stock from \$250,000 to \$300,000. Extensive plant and power equipment improvements are being completed. Paul Thomas, Pres. and General Manager.

KENABEEK CONSOLIDATED SILVER MINES, LTD.

***(1) Incorporated** on March 2, 1917, in Canada, with a capital of \$2,000,000, divided into 2,000,000 shares of \$1 each, to maintain and manage gold, silver, copper, nickel, lead, coal, iron and other mines. Incorporators: Richard Tuson Heneker, Henry Noel Chauvin, Harold Earle Walker, John Noel Beauchamp and Hugh Wylie. Chief place of business, Montreal, Que.

KENAI PENINSULA PLACER MINES, SEATTLE, WASH.

***(1) Incorporated** on Feb. 14, 1917, in Washington, with a capital of \$500,000. Incorporators: John McDonald and Maurice D. Leehy.

KENNECOTT-BARRETT COPPER CO., SEATTLE, WASH.

***(1) Incorporated** on Jan. 10, 1917, in Washington, with a capital of \$1,500,000. Incorporators: Ed. Meath, Tacoma; Geo. Miller, Bremerton; T. C. Brownlee, W. A. Gaines and Geo. A. Lee, Seattle, Wash.

• KENNECOTT COPPER CORP.

***(1) Production, December, 1916.**—Announced Jan. 8, 1917, that this company in December produced 6,806,000 pounds of copper, compared with 7,080,000 in November, 7,300,000 in October, and 8,000,000 in September.

***(2) Production, 1916.**—On Jan. 9, 1917, the "Boston News Bureau" said that this company produced 111,536,000 pounds of copper from its Alaskan properties in 1916 and thereby became the fourth largest individual copper mining concern in the United States, being exceeded only by Anaconda, Utah and Inspiration.

The Phelps-Dodge total was greater than the Kennecott figure, but the former's operations included several smelters doing custom work in addition to treating the product from the Phelps-Dodge mines.

Now that Kennecott Copper Corp. holds in its treasury all but a few shares of Braden Copper Mines Co. stock, the operations of this latter property, located in Peru, become part and parcel of the Kennecott. Including, therefore, the 45,000,000 pounds of copper produced in 1916 by Braden in the Kennecott output, the company would forge ahead of Inspiration into third place with a total yield of approximately 156,000,000 pounds.

Production of the Alaskan and South American properties of this combination for the past two years compares as follows, in pounds:

	1916	1915
Kennecott	111,536,000	63,000,000
Braden	44,671,000	35,444,000

The 1915 production of Braden, however, cannot be regarded as contributing to Kennecott's total, for that was before the absorption of the former into the latter.

There was a range of about 4,000,000 pounds between the highest monthly yield at Kennecott and the lowest, which was December.

***(3) Merger Discussion.**—See Utah Copper Co.—Item No. 4.

***(4) Production in 1916 at 5.10 Cents a Pound.**—On Jan. 27, 1917, it was stated that it cost this company 5.10 cents a pound to produce its copper in 1916, this being the average at its Beatson and Bonanza properties in Alaska. The profit exceeded 20 cents per pound of copper, which, if applied to the 1916 output of 111,000,000 pounds, approximated \$22,200,000, equal to over \$8 per share on the 2,777,000 shares of stock. From its ownership of 404,000 shares of Utah Copper stock Kennecott benefited to the extent of \$4,873,470, representing dividends of \$12 per share received on this investment.

Kennecott has in cash and copper \$24,000,000, while including its equity in Utah Copper, Nevada Consolidated, Braden and steamship and railroad lines, this item would be no less than \$40,000,000.

With present equipment and under present conditions the normal monthly output from the Alaskan mines of this company may be regarded as about 7,000,000 pounds. By mid-year, capacity will have been increased at both the Beatson and Bonanza mines.

Development work at both properties continues satisfactory. At Beatson, in extending crosscuts, there was lately encountered some high-grade ore, which has been shipped direct to the Tacoma smelter for treatment. This product has ranged from 6% to 10% with about an 8% average. The high-grade ore was located away from the face of the principal working and sufficient development work has not yet been done to determine the extent of the ore body.

The Bonanza mine continues to hold its own as development work progresses. Thus far the fifth level has shown the richest ore, while the seventh, in its lateral development, has been the largest.

Development work has extended to both the eighth and ninth levels. The richness of ore in all these levels varies, showing no persistent trend toward either a higher or lower grade.

The Kennecott expansion includes enlargement of the mill on La Touche Island for the treatment of the Beatson ores. Its present capacity of about 600 tons daily should be increased to 1,500 tons by July. Beatson contributes about 1,000,000 pounds monthly to the Kennecott production.

—Feb.

***(1) Production, January, 1917.**—Announced Feb. 5, 1917, that this company in January produced 7,080,000 pounds of copper, compared with 6,806,000 in December and 7,080,000 in November, 1916.

***(2) Merger Discussion Ended.**—See Utah Copper Co.—Item No. 2.

***(3) Output Increased.**—It was stated Feb. 8, 1917, that from all its mines this company turned out 11,878,000 pounds of copper in January, which was a slight increase over the previous month. Both the Alaskan mines and Braden contributed to the gain, although the major part of the increase was from the former group.

Now that Kennecott owns all but a very few shares of Braden, to all intents and purposes the latter comprises an integral part of the Kennecott's operations and places this company in fifth position among the producing groups, being exceeded by Anaconda, Phelps, Dodge & Co., Utah and Inspiration.

Kennecott's normal output from the Bonanza and Beatson mines in Alaska may be regarded as about 7,000,000 pounds monthly, although for six consecutive months in 1916 this output exceeded 10,000,000 pounds.

Results secured at Kennecott have been of the best, with recoveries running 95% or better. This applies to the Bonanza and not to the operations on La Touche Island.

—Mar.

***(1) Status.**—It was stated Feb. 27, 1917, that this company had on hand at that time cash copper and securities amounting to more than \$25,000,000. After payment of dividend just declared, company will still have a balance of approximately \$21,000,000. Copper on hand heretofore referred to has been sold.

***(2) Production, February, 1917.**—Announced March 6, 1917, that this company in February produced 7,090,000 lbs. of copper, compared with 7,080,000 in January, 1917, and 9,750,000 in February, 1916.

***(3) Comment on February Production.**—On March 9, 1917, the "Wall Street Journal" said that, although February had fewer working days than the pre-

JANUARY 1 TO APRIL 30, 1917

ceding month, the Beatson and Bonanza mines of this company in Alaska turned out more copper than in January. This slight advantage was more than offset, however, by a drop of 1,300,000 pounds in the yield from Braden in South America, and the net result was a production of 10,540,000 pounds against 11,878,000 pounds in the previous month.

*(4) Acquisition of Utah Copper Stock.—On March 22, 1917, Pres. Stephen Birch, of this company, was quoted as saying that Kennecott had purchased in 12 months more than 200,000 shares of the Utah Copper Co.'s stock.

Kennecott Copper Corp. owns 604,504 shares of Utah Copper Co. stock out of 1,624,490 shares outstanding, thus giving Kennecott Corp. a dominating influence in Utah Copper Co.

Mr. Birch added that Kennecott's additional purchase of Utah shares was for investment purposes, and that it did not mean a merger of the two companies.

However, it is understood that plans have reached a stage where an official announcement might be looked for, giving all details for the taking over of Utah by Kennecott.

Mr. Birch also stated that payment would be made for the additional shares of Utah Copper Co. stock purchased from the Kennecott's surplus, and that there was some short-term financing in connection with the transaction. Kennecott announced cash and copper totaling \$25,447,000 on hand as of March 5, 1917.

*(5) Note Sale.—It was announced March 22, 1917, that this company had sold to J. P. Morgan & Co. \$16,000,000 two-year 6% notes to cover in part the purchase of the 200,000 shares of Utah Copper Co. stock which Kennecott had acquired.

The notes mature serially \$4,000,000 each six months during the life of the issue. The remaining \$4,000,000 necessary to cover the purchase come from the Kennecott surplus.

—Apr.

*(1) Production, March, 1917.—Announced April 6, 1917, that this company in March produced 7,076,000 pounds of copper, compared with 7,000,000 in February and 7,080,000 in January, 1917.

*(2) Operations—Production Estimates.—It was stated April 12, 1917, that the current production of this company of about 7,000,000 pounds per month from the Alaskan properties constitutes normal yield for this time of year. Through the Summer months operations will increase and output may again equal the high figures of a year previously, when for several months it ran above 10,000,000 pounds of copper.

Officials estimate that the current year will show fully as great a production from Alaska as did 1916, or approximately 110,000,000 pounds. Costs will be somewhat higher on account of the payment of higher wage bonuses. From the Beatson mine production runs slightly better than 1,000,000 pounds a month and by July capacity should be sufficiently increased to permit of a yield closer to 2,000,000 pounds a month.

Work on doubling capacity at the leaching plant at the Bonanza mine should be finished during the ensuing few months. This has a capacity of close to 500 tons daily and will be increased to handle 1,000 tons of tailings every day.

Sixty-five per cent. ore still figures prominently in shipments from the Bonanza mine. This direct smelting material along with concentrates and precipitates goes to the Tacoma smelter of the American Smelting & Refining Co.

Braden, in South America, must now be regarded as an integral part of Kennecott. Earnings have been sufficiently large to more than pay dividends on the new shares issued by the Kennecott Corp. in exchange for the Braden stock.

The Braden mill handles about 4,500 tons of ore daily. By July it should be able to treat 6,500 tons per day, thereby increasing production from around

5,000,000 to fully 7,000,000 pounds of copper monthly. Work on a 10,000-ton plant has been started.

Braden will soon report ore reserves in excess of 200,000,000 tons, averaging about 2.20% copper. Its mill is getting an 80% recovery.

*(3) First Annual Report, Year Ended Dec. 31, 1916, shows a summary of financial operations which compares with that for the period May 27, 1915, to Dec. 31, 1915, as follows:

	Year End. Dec. 31, '16	Period May 27 to Dec. 31, '15
Oper. rev.-----	\$28,732,857	\$10,656,848
Mining profit-----	22,540,435	7,738,611
Surp. after chgs., taxes, etc.-----	27,661,713	6,573,797
Bal. after divs.---	12,341,430	6,573,797

*(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$18,915,223, compared with \$6,573,797 Dec. 31, 1915.

*(5) Earned \$9.92 a Share on Capital in 1916.—This company's 1916 net income of \$27,661,713 is equivalent to \$9.92 a share earned on 2,786,679 shares of capital stock.

*(6) Equity in Earnings of Affiliated Companies for 1916.—On April 26, 1917, the "Wall Street Journal" stated that a study of this company's 1916 report and those of its subsidiaries, coupled with its equity in the earnings of affiliated companies, shows net earnings of \$14.05 a share, as will be seen from the following:

Alaskan Mines and Katalla Co.-----	\$22,105,778
Braden Mines-----	6,876,307
Copper River & Northwestern Ry. Co.-----	1,768,670
Alaska Steamship Co.-----	724,333
Utah Copper Co.-----	9,244,038
Nevada Con. Copper Co.-----	2,197,213
Gross earnings-----	\$42,016,341
Less:-----	
Deprec., depletion and misc.-----	3,757,706
Net earnings-----	\$39,158,635
Less:-----	
Dividends paid by Kennecott Corp. during year ended Dec. 31, 1916-----	15,320,283
Net surplus for year-----	\$23,838,352

*(7) Production, 1916, Shown in President's Statement.—Pres. Stephen Birch, of this company, in his annual remarks to stockholders April 25, 1917, said, in part: "There was produced from the corporation's Alaskan mines during the year a total of 126,087 tons of shipping ore and concentrates containing 56,141 net tons, or 112,282,000 pounds of copper, or an average copper tenor to the ton of 44.53%."

"At the Kennecott plant 229,717 dry tons of ore averaging 8.49% copper were milled during the year. Concentration ratio was 7.67. Concentrates produced amounted to 29,049 tons of an average grade of 53.6% copper. The average recovery was 82.27%."

"During the year plans and estimates for increasing the Beatson concentrator from its capacity of approximately 700 tons per day to 1,500 tons were completed and approved and the construction of this increased plant at a cost, including necessary additions and improvements in connection therewith, of approximately \$750,000 was authorized. It is anticipated that the plant will be on a 1,500-ton basis by the early fall of 1917."

"There was received at smelter during the year, after allowing for smelter deductions, 108,372,783 pounds of deliverable refined copper. Total cost of production per pound of copper was 5.10 cents."

"The average net selling price during the year after deduction of delivery expense was 25.34 cents per pound of copper."

*(8) Closer Relations with Utah Copper Co. Forecast by Election of Directors.—See Utah Copper Co.—Item No. 10.

*(9) Largest Stockholders of Utah Stock.—See Utah Copper Co.—Item No. 11.

KENNECOTT EXTENSION COPPER CO.

*(1) Incorporated on Jan. 10, 1917, in Delaware, with a capital of \$5,000,000, to prepare all kinds of metals and minerals for market and to do a general mining business. Incorporators: M. L. Rogers, L. A. Irwin and Harry W. Davis, Wilmington, Del.

KENOVA OIL CO.

*(1) Plant Enlargement.—Reported on March 27, 1917, that this company had completed a central pumping and storage station near Scottsville, Ky., which would permit the pipe line to take runs. It was stated that another well had been brought in, making five in all.

KENT MOTORS CORP.

*(1) Construction Work.—It was stated Jan. 25, 1917, that this company, New York, is making rapid progress in the construction of its automobile manufacturing plant, Hillside Park section, Belleville, N. J. The machine shop, assembling plant and body-building department are being completed; a metal-working shop is being erected. Contracts have been awarded for the construction of foundry, enameling ovens and executive offices. The plant will have a capacity of about 15,000 cars per year, and is estimated to cost \$300,000.

KENTUCKY COTTON YARN CO.

*(1) Sale of Property.—See McCord Co. Item No. 1.

KENTUCKY PETROLEUM PRODUCING CO.

*(1) Statement of Production.—Announcement was made on March 26, 1917, that this newly incorporated company owned considerable property throughout Kentucky. The most important holdings were in the Irvine field, which had recently come to the fore as a producing territory. The company is at present producing 150 barrels of crude a day, and as soon as the roads dry up extensive drilling will be started.

KENTUCKY PETROLEUM PRODUCTS CO. (THE).

*(1) Incorporated on Feb. 6, 1917, in Delaware, with a capital of \$1,000,000, to acquire and develop oil lands, drill and bore for oils, minerals, etc. Incorporators: Leroy Adams, John B. Chapman and Angela D. Sidley, Cleveland, Ohio.

—Apr.

*(1) New Directors Elected.—On April 17, 1917, this company at a special meeting elected E. DeGolyer and A. K. Alford directors. Officers of the company are: Le Roy Adams, Pres.; F. D. Potter, Vice-Pres.; A. K. Alford, Sec'y and Treas. Other members of the board are W. A. Chadbourne and A. J. Stone.

KENTUCKY PRODUCING & REFINING CO. (THE).

*(1) Incorporated on Jan. 29, 1917, in Delaware, with a capital of \$500,000, to acquire and develop oil and gas lands. Incorporators: A. G. Herrig, W. H. Kendall and M. C. Muddelman, Cleveland, O.

KENTUCKY PUBLIC ELEVATOR CO.

*(1) Damaged by Fire.—It was announced Feb. 25, 1917, that this company's elevators at Louisville, Ky., containing 500,000 bushels of wheat, corn, rye and oats, had been destroyed by fire, causing an estimated loss of \$1,000,000.

KENTUCKY-RIVER OIL CO.

*(1) Incorporated on March 27, 1917, in Delaware, with a capital of \$1,000,000 to acquire and develop oil and gas lands. Incorporators: E. R. Hansell, Geo. H. B. Martin and S. C. Seymour, Philadelphia, Pa.

KENTUCKY ROCK ASPHALT CO.

*(1) New Company.—Announcement was made at Frankfort, Ky., Jan. 1, 1917, that a consolidation of the Bee Spring

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Land & Mining Co. of Kentucky, and the Wadsworth Stone & Paving Corp., of Pittsburgh, had been effected under the above name.

The company has under its control over 40,000 acres of Kentucky rock asphalt field in Edmondson and adjoining counties.

Attorney-General Logan, former Attorney-General James Garnett, of Louisville; W. C. Thomas, of Pittsburgh, and W. E. Williams, of Lexington, were organizers of the Kentucky Rock Asphalt Co.

The merger company will have a \$500,000 capital stock.

—Feb.

²(1) Incorporated on Feb. 18, 1917, in Kentucky, with a capital of \$850,000, to deal in asphalt. Incorporators: M. M. Logan, W. C. Thomas, James Garnett and W. E. Williams.

KENTUCKY SECURITIES CORP.

²(1) Extra Dividend on Preferred.—Announced Jan. 3, 1917, that this company had declared the regular quarterly dividend of 1½% and an extra dividend of 1% on the pfd. stock, both payable Jan. 15. This clears up all accumulated dividends on the stock.

²(2) Listed in Philadelphia.—Announced Jan. 23, 1917, that \$69,000 additional pfd. stock of this company had been listed on the Philadelphia Stock Exchange.

KENTUCKY SOLVAY COKE CO.

²(1) Extra Dividend.—It was announced Jan. 25, 1917, that this company had declared the regular quarterly dividend of \$2 a share and an extra dividend of \$4 a share, payable Feb. 10 to stock of record Jan. 31, 1917; also a special dividend of \$12.50 a share, payable March 1 to stock of record Jan. 31, 1917.

Holders of common stock are given the privilege of subscribing to new common stock at par to the extent of 12½% of their holdings.

²(2) Stockholders' Rights.—It was announced Jan. 25, 1917, that the holders of the common stock of this company had been given the privilege of subscribing to the new common stock at par to the extent of 12½% of their holdings.

KEENE LAKE MINING CO.

²(1) Production, December, 1916.—Announced Jan. 8, 1917, that this company in December produced 190,160 ounces of silver, compared with 215,840 in November, 210,073 in October and 208,074 in September.

—Mar.

²(1) Production, February, 1917.—Announced March 12, 1917, that this company in February produced 206,474 ozs. of silver, compared with 215,206 ozs. in January, 190,180 ozs. in December, 215,840 ozs. in November and 210,073 ozs. in October, 1916.

—Apr.

²(1) March Production.—In March, 1917, this company produced 219,335 ounces of silver.

²(2) March Production Highest Since August, 1916.—"The Globe," Toronto, Ont., April 25, 1917, said that March production of the Kerr Lake was the highest since August. During the month ending March 31, 219,335 ounces were produced. This makes a total of 641,015 ounces for the first quarter of 1917, as compared with 563,594 ounces for the first quarter of 1916, or an increase of 77,421 ounces. The total production during 1916 was 2,533,806 ounces.

KEEN RIVER MINING CO.

²(1) Incorporated on April 19, 1917, in Delaware, with a capital of \$1,250,000, to do a general mining business in all its branches. Incorporators: Richard H. Holler, John A. Massen and M. M. Hunt, Chicago.

KERRY (THOMAS) CO., INC., MANHATTAN, N. Y.

²(1) Capital Increased.—On April 17, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$200,000 to \$600,000.

KEWEENAW COPPER CO.

²(1) Production.—A Houghton, Mich., dispatch Feb. 3, 1917, stated that this company continues to mill approximately 220 tons of rock every day, running the mill 18 hours a day. The rock all comes from the mine, none from the dump, and the mine is now able to keep the mill working all of the time.

No official figures are given out as to the percentage of copper in the rock, but there is a general belief that it is not very high and that the success of the Keweenaw operations depends entirely on the ability to open a large amount of ground and operate on a very large scale.

KEY BLOCK PAVING CO.

²(1) Incorporated on Feb. 20, 1917, in Delaware, with a capital of \$1,500,000, to manufacture and sell paving blocks of all kinds. Incorporators: F. D. Buck, Geo. W. Dillman and M. L. Horthy, Wilmington, Del.

KEY COUNTY OIL & GAS PRODUCING CO. (THE).

²(1) Incorporated on April 19, 1917, in Delaware, with a capital of \$1,000,000, to deal in and with gas mining leases. Incorporators: F. D. Buck, K. E. Longfield and M. L. Horthy, Wilmington, Del.

KEY COUNTY REFINING CO.

²(1) Incorporated on April 19, 1917, in Delaware, with a capital of \$1,250,000, to operate a refinery for refining crude petroleum, etc. Incorporators: F. D. Buck, K. E. Longfield and M. L. Horthy, Wilmington, Del.

⁴(3) To Be Link in Postal Trans-Continental System.—On April 16, 1917, the "Philadelphia News Bureau" said that tentative arrangements had been made whereby the telegraph lines of the Postal Telegraph-Cable Co. will be used for the transmission of telephone messages between the Keystone company and other independent companies throughout the United States. The plan was made public through Vice-Pres. E. M. Cooke, of the Keystone company. It provides for a traffic agreement only and does not call for the merging of the various telephone companies.

A trans-continental telephone system, with the prospect of lower rates for long-distance calls and the general extension of telephone service is included in the plan of the Postal company, which had been under consideration for a long time, Mr. Cooke said. It is to be carried out along the lines of the agreement existing between the Western Union Telegraph Co. and the American Telephone & Telegraph Co.

"The Postal company, it is understood, has entered into negotiations with independent companies in other cities, chief among them being Chicago, St. Louis, San Diego, Los Angeles, Buffalo, Syracuse and Rochester, with an idea of making these connections and later taking on smaller communities. To get proper service in New York and New England it is possible the Postal may start new companies.

"The idea of the Keystone going in with the Postal was first broached to us about five years ago," Mr. Cooke said. "The understanding was that for long-distance service the patrons of the company would get connection over the telegraph wires. The matter was reaffirmed a week ago.

"Our financial arrangement provides that the Postal receives 75% of the toll charges and the telephone company 25%. For example, if the rate to Pittsburgh is \$1, the telegraph company will receive 75 cents for relaying the message and 25 cents will go to the telephone company which originated the business."

It is estimated by the Keystone directors that the operation of the new system will add about 10% to yearly earnings. Based on 1916 earnings of \$1,400,000, it is expected \$140,000 will be realized.

It is by no means certain that the plan will be put into effect immediately, Mr. Cooke said, on account of setbacks in financing in war times.

KEYSTONE TIRE & RUBBER CO.

⁴(1) Extra Dividend on Preferred.—It was announced March 16, 1917, that this company had declared a quarterly dividend of 2% and an extra of $\frac{1}{4}$ of 1% on the pfd. stock; also a regular quarterly dividend of 3% on the common stock, all payable April 2 to stock of record March 23.

KEYSTONE WATCH CASE CO.

⁴(1) Financial Statement.—This company, incorporated under the laws of Pennsylvania, April 18, 1917, filed with the Massachusetts Secretary of State a statement of its financial condition, dated Jan. 1, 1917, which compares as follows:

Assets—	1916	1915

JANUARY 1 TO APRIL 30, 1917

to act as transporters and ship owners. Incorporators: G. Hoyer, J. P. McGill and W. L. Harris, Forest Hill.

KIRBY LUMBER CO.

¹(1) Interest Payments.—It was announced at Baltimore Jan. 18, 1917, that this company had paid to the Maryland Trust Co., trustee, the semi-annual payment of \$781,250, due Jan. 10, 1917, under the terms of its contract with the Houston Oil Co. of Texas. On Feb. 1 the Maryland Trust Co. will disburse \$163,890 in payment of interest due on outstanding new series timber certificates known in the market as Kirby contract 58. It will also retire \$215,000 of these certificates called for payment on that date.

At the same time the Mercantile Trust & Deposit Co. will disburse the sum of \$330,000 in payment of coupons on the accrued dividend certificates and dividend on the pfd. trust certificates.

KIRKLAND GOLD MINING CO.

¹(1) New Company.—It was stated March 14, 1917, that this company, capital \$2,000,000, had been formed to operate in the Kirkland Lake region. The property, 180 acres, was purchased from George Tough and associates, and is in the vicinity of the Teck-Hughes and McKane. A million shares of the stock of the new company was paid for the property, this stock being pooled for two years.

KLIPSTEIN & SONS CO.

¹(1) New Chemical Plant.—It was stated March 7, 1917, that this company, South Charleston, W. Va., had invested \$250,000 in its new chemical manufacturing plant, now practically completed.

KNICKERBOCKER NATIONAL BANK.

¹(1) New Bank Planned.—It was announced Jan. 12, 1917, that a new bank to be known as the Knickerbocker National Bank, is in process of formation, with a capital of \$200,000, for New York. Application had been made to the Comptroller of the Currency, it was stated.

KNICKERBOCKER WYOMING OIL CO.

¹(1) New Oil Co. to Operate in Wyoming.—"Financial America" April 27, 1917, said that this company was being formed to operate under the laws of Wyoming. It will have a capital stock of 1,000,000 shares of a par value of \$10 each, full paid and non-assessable. The company will have no pfd. stock or bonds.

The company will possess title to oil and gas leases totaling over 10,000 acres in the Big Muddy, Salt Creek, Cole Creek, Lost Soldier, Midway, Badger Basin and other Wyoming fields. The lands were selected by F. John Sur and one well has now been drilled for a depth of 1,240 feet.

The officers and directors are as follows: Pres., R. H. Walsh, Pres. First National Bank of Sheridan, Wyo.; Vice-Pres., William H. Grimes, Pres. Commercial Credit Co. of Baltimore; Sec'y and Treas., F. E. Brightman, of the Seattle Taxicab & Transfer Co. of Seattle, Wash.; Irving Shuman, formerly Asst. Treas. of United States, and L. N. Rosenbaum, of L. N. Rosenbaum & Co., 80 Wall Street, New York.

¹(2) Part of Stock Underwritten.—On April 27, 1917, "Financial America" stated that a limited amount of the stock of this company had been underwritten by Albert H. Ebert & Co., 60 Broadway, New York.

KNOX HAT MANUFACTURING CO.

¹(1) New Directors.—Announced Feb. 6, 1917, that at the annual meeting of this company Robert I. Barr, Frank Callahan and Robert J. McFarland had been elected directors.

¹(2) New President.—Announced Feb. 28, 1917, that C. J. Jennison had been elected Pres. and chairman of the finance and executive committees of this

company, succeeding W. B. Thompson, resigned.

KNOX PETROLEUM CO.

¹(1) Incorporated in March, 1917, in Oklahoma, with a capital of \$500,000. Incorporators: Geo. W. Knox, Abe Steinberger and C. C. Coombs.

KNOX PRESSED & WELDED STEEL CO.

¹(1) Expansion.—It was announced Jan. 18, 1917, that directors of this company had authorized an appropriation for increasing its capacity 100%. About \$250,000 will be expended.

KOERING CYANIDING PROCESS CO.

¹(1) Stock Offering.—It was announced March 17, 1917, that Kern, Killets & Smith, Detroit, are receiving subscriptions to an issue of 25,000 shares of pfd. stock of this company of Detroit. The company plans to manufacture a cyaniding machine which is in successful use in various mining camps. The stock, which is a 6% issue, is being offered at par, \$10, with a bonus of 100% in common stock.

KOHLSAAT (H. H.) & CO.

¹(1) Receivership Proceedings.—It was announced in Chicago on March 6, 1917, that receivership proceedings had begun in the bankruptcy court against this company, owner of a large bakery and a chain of bakery lunch rooms. The petitioners asked that the receiver continue the business. Counsel for the company said the business was solvent. The petitioners placed the liabilities at \$500,000 and the assets at \$325,000.

KOKOMO WATER WORKS CO., KOKOMO, IND.

¹(1) Capital Increased.—It was announced March 1, 1917, that this company had increased its capital stock from \$195,000 to \$325,000.

KOUWENHOVEN ESTATE, INC., NEW YORK.

¹(1) Capital Increased.—On March 28, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$1,200,000 to \$1,320,000.

KOZAK & McLOUGHLIN, INC., LONG ISLAND CITY, N. Y.

¹(1) Incorporated on March 1, 1917, in New York, with a capital of \$300,000, to deal in boots, shoes and footwear. Incorporators: H. E. McLoughlin, J. J. and F. J. Kozak, 14th St. and Governor Place, Long Island City.

KRATON DRUG CO.

¹(1) Incorporated on Jan. 29, 1917, in Delaware, with a capital of \$1,500,000, to manufacture, buy, sell and deal in chemicals and pharmaceutical preparations. Incorporators: Herbert E. Lat-ter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

KREBS COMMERCIAL CAR CO., CLYDE, O.

¹(1) Capital Increased.—On March 23, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$100,000 to \$500,000.

KRESGE (S. S.) CO., MICHIGAN.

¹(1) Sales, Week Ended Dec. 23, 1916, totaled \$1,602,443, compared with \$1,174,460 for the same period of 1915. This is an increase of \$517,983, or 44.1%, over the same period of 1915.

—Feb.

¹(1) Report, Year Ended Dec. 31, 1916, shows gains in net profits for the period, the last nine months of which cover operations of the reorganized corporation, following an increase from \$5,000,000 to \$10,000,000, in common stock, and from \$1,500,000 to \$2,000,000 of 7% cumulative pfd. stock in April, 1916.

Net profits for the year available for dividends, were \$2,129,348.17, which compares with \$1,293,219 reported by

the old company for the preceding year. Of the total \$320,222 is the proportion accrued prior to the beginning of operations by the new company.

Dividends amounting to \$105,000 were paid on the pfd. stock and \$300,000 on the common stock, leaving net surplus of \$1,404,126, which compares with accumulated surplus of \$2,520,583 held by the old corporation at the end of 1915.

Total assets on Dec. 31 were \$15,429,260, against \$11,116,826 at the end of 1915. Current assets amounted to \$4,987,536, against \$3,345,594. Current liabilities were \$1,710,134, against \$1,457,743 in 1915. Net working capital amounted to \$3,277,462, in contrast to \$2,784,267 in the year before.

Property assets, less depreciation allowances, aggregated \$9,941,566, comparing with \$7,770,292 at the end of 1915. Besides current liabilities the company's only listed obligation is a \$315,000 mortgage, representing the unpaid portion of a mortgage of \$325,000 given in 1914, when the company erected its 18-story building on West Adams Avenue, in Detroit.

¹(2) Financial Statement.—It was stated Feb. 21, 1917, that the balance sheet of this company, which succeeded the old Delaware corporation of the same name, shows following assets: Office building, less depreciation, \$781,214; furniture, fixtures and permanent improvements of fixed properties, less depreciation, \$3,170,985; leaseholds, organization, etc., \$5,982,400; merchandise at or below cost, \$4,530,128; accounts receivable, \$65,408; cash, \$392,002; rents paid in advance, unexpired insurance, supplies, stationery and other prepaid items, \$500,157, making total assets of \$15,429,260.

Liabilities are: Pfd. stock, \$2,000,000; common stock, \$10,000,000; mortgage payable, \$315,000; notes and accounts payable and managers' and buyers' commission, \$1,042,134; income tax and war insurance reserve, \$68,000, and surplus, \$1,404,126, making total liabilities of \$15,429,260.

—Mar.

¹(1) Sales—

	1917	1916
February	\$1,806,906	\$1,658,377
Two months	3,700,928	3,102,005

¹(2) Par Value Changed.—It was announced March 9, 1917, that at the annual meeting of this company the stockholders authorized the change in par value of the stock from \$10 to \$100. The dividend rate on the new common stock will be increased from 3% per annum to 4%.

● KRESS (S. H.) & CO.

¹(1) Sales, December, 1916.—Announced Jan. 5, 1917, that December sales of this company totaled \$2,633,561, an increase of \$416,918, or 18.8% over December, 1915. The 1916 sales totaled \$15,122,558, an increase of \$2,701,302.

—Feb.

¹(1) Report, Year Ended Dec. 31, 1916, shows a net profit amounting to \$1,354,002, compared with \$1,063,066 in 1915, an increase of \$291,026.

Sales in 1916 were \$15,069,682, compared with \$12,429,560, an increase of \$2,630,092.

¹(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,542,152.

—Mar.

¹(1) Sales, February and Two Months.—It was announced March 7, 1917, that the February sales of this company totaled \$990,008, an increase of \$83,087, or 9.2% over February, 1916.

In the two months to Feb. 28, the sales were \$1,926,925, an increase of \$279,724, or 17%, over the corresponding period of 1916.

—Apr.

¹(1) Sales, March, 1917.—Announced April 7, 1917, that March sales of this company totaled \$1,349,890, an increase of \$234,387, equivalent to 21% over 1916. For three months ended March 31, sales amounted to \$3,276,815, an increase of \$514,111, or 18.6%, over the corresponding period of 1916.

JANUARY 1 TO APRIL 30, 1917

KYLE MANUFACTURING CO.

¹(1) Receivership.—It was announced at Lancaster, O., Jan. 5, 1917, that this company, which had moved to that city in 1915 for the manufacture of stoves, had gone into the hands of a receiver.

LA BELLE IRON WORKS.

¹(1) Extra Dividend.—Announced Feb. 27, 1917, that this company had declared the regular dividend of 1% and an extra of 2%.

—Mar.

¹(2) Report, Year Ended Dec. 31, 1916, shows: 1916 1915
Net earnings— \$6,434,318 \$1,231,492
Bal. after chgs. 3,988,902 677,874
Surp. after divs. 2,000,446 281,238

¹(2) Earnings on Stock.—It was stated March 16, 1917, that after allowing for 8% dividends on pfd. stock, this company's 1916 balance, \$3,195,370, is equal to 32.22% on the \$9,915,400 common stock.

¹(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$5,656,764, compared with \$3,056,318 Dec. 31, 1915.

• LACKAWANNA STEEL CO.

¹(1) Earnings on Stock, Estimated.—On Jan. 12, 1917, the "Wall Street Journal" said that this company's December earnings were the largest in the company's history. They are estimated at between \$1,850,000 and \$1,400,000.

The company's earnings net for stock for 1916, based on profits so far reported, were between \$35 and \$36 a share. Year-end adjustments may alter these figures slightly, but what changes there are will probably be upward.

In December the company sold its Shenango ore properties and furnaces to the Bethlehem Steel Co. These properties, not being advantageously situated to operate with Lackawanna's other properties, have always been a losing proposition to Lackawanna. The sale, it is learned, was made at a profit, and the receipts therefrom will be reinvested, probably in new construction or in properties nearer home.

There are no immediate prospects of a further extra dividend on Lackawanna Steel. For November the directors declared 3% extra, in addition to the regular 6% established in August. The question of further extra disbursements may come up in the early Summer of 1917, but so far the matter has not been discussed.

¹(2) Earnings, 1916, Estimated.—On Jan. 19, 1917, the "Boston News Bureau" said there was very little doubt that during the 12 months to Dec. 31 net profits for the \$34,750,000 common of this company would reach a balance of nearly \$40 per share.

In 1917 the company's year seems as well assured as it is possible for an industrial to be guaranteed 12 months in advance.

It is understood that every ton of product the company can possibly manufacture during the 12 months to Dec. 31, 1917, is already sold ahead and under contracts which are not cancelable.

Lackawanna Steel, paying \$6 on its common, and facing a year with profits more than eight times that figure, has clearly not exhausted its liberality to stockholders. Great restraint in dividend distribution might be expected if the company were planning on a big increase in output above the present 1,200,000-ton capacity.

The \$50 which should be earned will be drawn down by the \$8 regular dividend and such extras as are paid. It seems probable that stockholders can count upon \$10 per share.

In 1916 and 1917 Lackawanna Steel is in a fair way to earn \$90 per share, or \$6 per share more than the present selling price.

—Feb.

¹(1) January Profits, Estimated.—On Feb. 2, 1917, the "Boston News Bureau" said it was understood that net profits of this company for January would show a balance for the \$34,750,000 com-

mon stock of fully \$4 per share. The company, like other big steel producers, is a sufferer from railroad freight congestion and lack of adequate shipping facilities.

A director of Lackawanna Steel estimates that could the company have obtained its full quota of desired shipping facilities, net profits for January would have reached \$6 per share, or a full year's dividend.

Lackawanna Steel is sold to capacity throughout 1917 and on contracts containing non-cancellable provisions.

¹(2) Report, Year Ended Dec. 31, 1916, shows earnings as follows:

	1916	1915
Net	\$10,090,858	\$5,977,470
Surp. aft. chgs.	12,218,234	2,409,100

¹(3) Earnings on Stock.—It was stated Feb. 16, 1917, that this company's 1916 surplus of \$12,218,234, after charges, is equal to 34.81% on \$35,096,500 on the outstanding common stock, compared with 20.66% earned on \$34,763,400 common stock in 1915.

¹(4) Unfilled Orders, Dec. 31, 1916, as reported by this company, amounted to 811,126 gross tons, compared with 812,680 gross tons in 1915, an increase of 1,554 tons. Unfilled orders as of Feb. 12, 1917, amounted to 1,032,651 gross tons.

¹(5) Comment on Annual Report.—On Feb. 20, 1917, the "Wall Street Journal," in commenting on the annual report of this company, said that profits for the final quarter of the year were the largest on record. They were \$3,839,132, compared with \$3,060,701 in the September quarter, and \$3,067,273 in the three months ended June 30, the previous record period.

All fixed charges were reduced \$194,672 during the year. The increased rate of operation necessarily caused increases in the charges for depreciation and exhaustion of minerals, which gained \$498,934.

An increase in the stock outstanding took place in the final quarter of the year. On Sept. 30 there was \$34,750,000 stock in the hands of the public and on Dec. 31, \$35,096,500. Part of this increase, \$250,000, is accounted for by the fact that that amount of stock was held by a subsidiary company, and sold. The remaining \$96,500 increase was due to the conversion of bonds.

That a gain in unfilled orders for the year was not shown can be attributed only to the attitude of the management, which was conservative in accepting new business offered.

Since the beginning of 1917 the volume of unfilled orders has increased substantially and, the report states, on Feb. 12, they amounted to 1,032,651 tons, a record figure and a year's business.

Whether earnings for the current quarter will establish a new high level or not depends largely on the outcome of the railroad situation.

—Mar.

¹(1) Rail Order.—See Pennsylvania R. R. Co.—Item No. 11.

¹(2) Earnings, 1917, Estimated.—On March 9, 1917, the "Wall Street Journal" said that this company's earnings in 1917 are likely to exceed by a substantial margin those of 1916, when \$34.81 per share was reported net for stock.

In the final quarter of 1916 the company earned \$3,839,132, an average of approximately \$1,280,000 a month. In November and December profits were in the neighborhood of \$1,300,000 monthly. These large earnings were exceeded in the two first months of 1917. January set a new high record and February, although a short month and one in which output was severely handicapped by the car shortage, passed the high-record month of 1916, falling only a little below January.

March earnings should be an improvement on January's, and the net for the quarter, it is probable, will approach \$4,500,000, or at the annual rate of between \$51 and \$52 a share.

The company is sold up to the end of 1917 on its steel production, having re-

ported unfilled orders of 1,032,651 tons on Feb. 12. Its steel and iron output in 1916, shown by the report, was 1,297,825 tons.

Practically all this business is specified and so continued large profits are assured throughout the year.

¹(3) Report, Year Ended Dec. 31, 1916, shows gross sales and earnings of this and subsidiary companies as \$53,970,836; net after taxes of \$10,090,858, and total profits of \$12,218,235.

¹(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$17,148,169.

¹(5) Statement by President.—It was announced that Pres. E. A. S. Clarke in his annual statement to stockholders of this company said in part: "Notwithstanding the additions to productive capacity during 1916 the demand upon the manufacturers of iron and steel in the United States exceeded production, and prices advanced continuously throughout the year, greatly exceeding, on the average, any previous high price records."

"The world-wide demand on this country for practically all classes of manufactures and supplies arising out of the conditions brought about by the European war, and the resulting financial and industrial prosperity, together created a domestic demand for your company's products that, judging from inquiries received, might have absorbed its entire productive capacity, although, as a matter of fact, about 22% of its shipments were for export."

"Costs increased owing to the higher prices of all classes of supplies used, as well as to the greater cost of labor, wages paid having been the highest in your company's history, and operating conditions have been difficult owing to labor shortage and transportation troubles."

"Shipments increased about 43 1/4% over those of 1915, more than doubling those of 1914, and exceeding by 215,310 tons—nearly 20%—those of 1910, the largest previous shipments. The average price per gross ton of \$41.59 received therefor is \$10.84 more than in 1915, an increase of 35.25%."

"Operations for the year, after the usual full allowances for depreciation and liberal charges against cost of special machinery and appliances, show a profit of \$12,218,235, equivalent to 34.81% on the \$35,096,500 of your company's outstanding common stock."

¹(6) Directorate Reduced.—It was announced March 14, 1917, that this company had reduced the number of its directors from 21 to 15. Those dropped from the list are: R. F. Howe, Hamilton F. Keane, Percy R. Pyne, H. R. Taylor, F. F. Graham, D. J. Hancy and W. J. Wilson.

The following were elected directors with terms expiring as indicated: J. H. Hammond, 1918; H. J. Dalton, 1919; George W. Burieligh, E. A. S. Clarke, Edwin S. Marston, Ogden L. Mills and C. H. McCullough, Jr., 1920. There were represented at the meeting 231,000 shares.

¹(7) Dividend Discussion.—On March 14, 1917, the "Wall Street Journal" said that the question of further extra dividends on this company's stock would not be considered by directors before mid-Summer, 1917. Earnings are running at the rate of about \$50 a share on the stock and the disbursement of part of these profits has been hoped for by some stockholders.

The company is already paying at the annual rate of 6%, and one extra dividend of \$3 was paid in December, 1916. Lackawanna Steel's bookings ensure full operations throughout the year.

—Apr.

¹(1) Report, Quarter Ended March 31, 1917, shows: 1917 1916
Net earnings— \$6,203,233 \$3,247,593
Surp. after chgs. 5,290,585 2,251,068

¹(2) Earnings on Stock.—It was stated April 11, 1917, that this company's surplus for the quarter ended March 31, 1917, are equal to \$15.07 a share on 350,965 shares of common stock, or at the annual rate of \$60.28 a share.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

“(3) Unfilled Orders, as of March 31, 1917, as reported by the company April 11, 1917, total 992,096 tons, an increase of 120,220 tons over the preceding year.

“(4) Comment on Quarterly Report.—On March 12, 1917, the “Wall Street Journal” said: “Early this year the assertion was made in some quarters that Lackawanna Steel had business then on its books to ensure earnings of \$25,000,000, or over \$70 a share, in 1917. This claim, extravagant as it appeared at the time, seems not over-sanguine now in view of the report of the company for the March quarter, which showed net profits applicable to stock at the rate of over \$60 per share.

“And, judging from the existing trade situation earnings throughout the year are likely to be progressive. Monthly earnings have steadily shown betterment, and it is understood that the company's net in March was fully 50% ahead of February.

“It is worthy of note that Lackawanna's earnings of \$5,290,585 in the first three months of 1917 were within \$28,000 of the combined profits of the first two quarters of last year. Compared with \$3,839,192 reported in the closing three months of last year, the previous record period, there was a gain of approximately 38%. Again, first quarter profits this year were equal to 43.3% of the profits of all of last year, and were nearly twice as large as those of the best year previous to that, or 1913, when \$2,755,883 was earned.

“In the past fifteen months Lackawanna Steel has earned net for stock \$40.88 cents. Dividends declared amount to 9%, leaving \$40.88 per share carried to surplus. Current earnings are at the rate of well over \$5 a share monthly, so that it is likely that in two years Lackawanna will have piled up a surplus approximately equal to the present selling price of its stock.

“Unfilled orders on March 31, 992,096 tons, were the largest ever reported at the conclusion of a three-month period. On Feb. 12, last, however, the company had orders booked amounting to 1,082,651 tons. The decline in tonnage from that date to the end of the quarter, was due to its being sold up, and unable to offer deliveries before next year.”

● LACLEDE GAS LIGHT CO.

“(1) Comment on Extra Dividend.—On Jan. 3, 1917, the “Wall Street Journal” said that the extra dividend of 10% on the \$10,700,000 common stock of this company, of St. Louis, paid the first week of 1917, came from a reserve for dividends on common stock which has been building up for some years.

It is stated by officers of the company that the company has been accumulating out of net earnings, for the past six years this dividend reserve, and, until the abnormal conditions of 1916 developed it was not considered wise to make any distribution out of this fund in addition to the regular dividends on the common stock.

In 1916 this reserve fund was largely added to, and under the circumstances the board felt that the stockholders were entitled to a distribution from it.

“(2) Development.—It was stated Jan. 3, 1917, that the new manufacturing plants, advantageous contracts and the unusual market developed for by-products of gas plants in 1916 contributed to reduce operating costs to such an extent that the board in July, 1916, reduced the prices for gas from 80 cents and 60 cents a thousand to 75 cents, 55 cents and 45 cents a thousand, according to the quantity used. These lower rates so far have resulted in a decrease in monthly gross revenues of around \$25,000 a month.

It is confidently expected that through the new industrial avenues which will be opened to the company through the 45-cent rate, gross revenues will soon be materially increased and that larger quantities of gas at a smaller rate of profit per thousand will be sold.

Officials of the company say that it is unlikely that present conditions, depending as they do largely on the war situation, will continue.

—Feb.

“(1) Bond Sale.—It was announced Feb. 1, 1917, that Halsey, Stewart & Co., Chicago, and G. H. Walker & Co., St. Louis, had sold \$800,000 Laclede Gas Light Co. of St. Louis 5% debentures, due Feb. 1, 1919, recently purchased from the company. The debentures are a part of an authorized issue of \$5,000,000, of which there are now outstanding \$3,850,000.

“(2) Statement, Year Ended Dec. 31, 1916, shows earnings as follows:

	1916	1915

LAKE SHORE MINES.

“(1) Stock Offering.—It was announced at Toronto, Ont., Jan. 11, 1917, that an issue of 20,000 shares of the treasury stock of this company is being made by J. T. Eastwood & Co., Toronto, mining brokers, at 50 cents per share.

The authorized capital of the company is \$2,000,000, of which \$1,350,783 has been issued. The stock has been listed on the Standard Stock Exchange at Toronto for a short time.

The property consists of four claims with an area of 160 acres, and is located in the gold belt at Kirkland Lake, adjoining the Teck-Hughes. A shaft has been sunk to the 300-foot level, at which depth approximately 800 feet of lateral work has been done during the past year. Some veins showing high gold values have been uncovered, assays averaging \$18 per ton.

● LAKE SUPERIOR CORP.

“(1) Statement Concerning Earnings.—On March 28, 1917, a Philadelphia interest commented as follows: “While the eight months report issued by the corporation under date of March 10, 1917, is filled with pessimism, the figures do not warrant it. The best showing is in unfilled orders of 411,000 tons, which is far beyond capacity. Production of finished steel, 84,500 tons for four months, and 167,000 tons for eight months is somewhat disappointing, but is 2,000 tons greater than for the first four months, notwithstanding railroad congestion and unusually severe weather.”

LAKE SUPERIOR PAPER CO., LTD.

“(1) Violation of Anti-Trust Law Alleged.—See International Paper Co.—Item No. 1.

LAKE WINNIPEG PAPER CO., LTD.

“(1) Incorporated in January, 1917, in Canada, with a capital of \$5,000,000, to carry on a lumbering, pulp and paper business, with headquarters at Ottawa. The provincial directors include Duncan B. McDonnell, Winnipeg; Edward Seybold, manufacturer, and A. W. Fraser, barrister, of Ottawa.

LAKEY FOUNDRY & MACHINE CO.

“(1) Expansion.—On Jan. 5, 1917, this company, Muskegon, Mich., announced plans for trebling of its output during 1917. A new factory building will add 62,000 square feet of floor space to its existing plant.

The present Lakey foundry produces about 40 tons of castings daily. When the new structure is completed and in

JANUARY 1 TO APRIL 30, 1917

full operation it will produce from 100 to 120 tons of castings a day, a 200% increase in output. The new structure is to be completed by July 1.

—Mar.

*(1) **Capital Increased.**—On March 8, 1917, the company filed notice at Lansing, Mich., of an increase in capital stock from \$70,000 to \$400,000.

LAMPORT & HOLT, LTD.

*(1) **Annual Report, Year Ended Dec. 31, 1916.**—It was stated late in March, 1917, that a dividend of 10% was recommended in the annual report of the directors of this company for the year ended Dec. 31, 1916. The report follows, in part:

"The profit for the year, after providing for depreciation, amounts to \$381,220, to which must be added \$57,177 brought forward from 1915, making a total of \$438,398.

"The board has placed \$150,000 to reserve (bringing the reserve account up to \$550,000, \$100,000 to insurance fund, \$10,000 to staff funds, and after payment of the dividend on the preference shares they recommend the payment of a dividend on the ordinary shares at the rate of 10% per annum, and that the balance of \$80,259 be carried forward.

"The company's fleet now consists of 38 steamers, besides sundry small craft, the total tonnage being 222,588 gross, thus showing a slight decrease during the year, owing to the sale of the steamer Canning, but actually an increase since the outbreak of war of 10,080 tons gross."

*(2) **Balance Sheet, as of Dec. 31, 1916,** shows profit and loss surplus of \$73,224.

LAMSON BROS. CO., TOLEDO, O.

*(1) **Capital Increased.**—On March 9, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$400,000 to \$500,000.

LANG BODY CO., CLEVELAND, O.

*(1) **Incorporated** in March, 1917, in Ohio, with a capital of \$500,000. Incorporators: E. J. Lang, H. Price, J. A. Alburn, R. F. Edwards and C. R. Alburn.

LANNIN REALTY CO., INC., GARDEN CITY, N. Y.

*(1) **Incorporated** on April 4, 1917, in New York, with a capital of \$400,000, to deal in realty, act as agent and to contract for construction work. Incorporators: J. J. and P. J. Lannin, Garden City Hotel, Garden City.

LAPEER TRACTOR CO.

*(1) **Organized.**—It was announced March 31, 1917, that this company had been organized at Lapeer, Mich., with the following officers: W. H. Tucker, Pres.; Thomas White, Vice Pres.; E. E. Mix, Sec'y, and Ray Carpenter, Treas. The directors are C. N. Smith, George Churchill, Thos. White, Ray Carpenter, S. B. Winn, Frank Thompson, W. H. Tucker, P. A. Snowman and E. E. Mix.

● **LA ROSE CONSOLIDATED MINES.**

*(1) **Report, Year Ended Dec. 31, 1916,** shows that the output was a great deal less than in the preceding years. During 1916 total production was only 740,065 ounces, compared with 1,135,142 ounces in 1915 and 1,368,247 in 1914. The net value of silver produced was \$449,734 and the net profit \$164,774, compared with net value of \$526,996 in 1915, and \$637,555 in 1914. The net profit during these two years was \$230,662, and \$217,979, respectively.

Dividends amounted to \$328,000, and \$36,248 was spent in examining property and so forth. Surplus carried forward from previous years amounted to \$928,444, and after payment of dividends, etc., there was a balance of \$727,169 carried forward into the new account. Operating cost during the year was heavy at 46.39 cents per ounce, as against selling price of 64.59 cents.

● **LA SALLE COPPER CO.**

*(1) **Development.**—It was stated Jan. 8, 1917, that this company continues to mine a grade of rock which carries a profit on the market, but which would be a loss on 15-cent metal. The Osceola find at 36th level runs into La Salle territory, but it would be poor mining policy for La Salle to go ahead with it until the Osceola has shown a greater tonnage of good rock. La Salle would have to drift over 2,000 feet or sink a shaft. Neither would pay unless more good ground is known to be in sight.

*(2) **Production, December and 12 Months.**—Announced Jan. 23, 1917, that this company in December produced 164,041 pounds of copper, against 135,220 in November.

During 1916 the production totaled 1,375,182, against 782,493 in 1915.

—Feb.

*(1) **Production.**—Announced Feb. 19, 1917, that this company in January produced 130,761 lbs. of copper.

—Mar.

*(1) **Production, February, 1917.**—Announced March 10, 1917, that this company in February produced 173,511 pounds of copper, compared with 130,761 in January, 1917.

*(2) **Report, Year Ended Dec. 31, 1916,** shows balance of assets Dec. 31, 1916, of \$173,491, an increase of \$78,855.

Production was 1,380,352 pounds, an increase of 597,869 pounds over 1915. Yield was 9.53 pounds copper per ton of rock, a decrease of .14 pound from previous year.

Copper was sold at average price of 25.68 cents.

There were 3,107 feet of development work done during 1916, compared with 1,125 previous year and 1,123 in 1914.

*(3) **Operating Results, 1916,** compare as follows:

	1916	1915
Tons rock treated—	144,829	80,959
Lbs. refined copper—	1,380,352	782,493
Lbs. cop. ton rock—	9.53	9.67

Total receipts were \$368,253, of which \$354,409 was from sales of copper, and \$13,843 from silver sales. Expenditures were \$239,397.

—Apr.

*(1) **Production, March, 1917.**—This company April 18, 1917, reported March production as 160,310 lbs. of copper, compared with 173,511 previous month.

LA SALLE OIL & GAS CO., INC.

*(1) **Incorporated** on April 19, 1917, in Delaware, with a capital of \$500,000, to acquire and develop oil lands. Incorporators: Isaac S. Holbrook, Larchmont, N. Y.; Augustus T. Holbrook, New York, and Wm. Arthur Bakon, South Orange, N. J.

LAS NOVEDADES PUBLISHERS, INC., MANHATTAN, N. Y.

*(1) **Incorporated** in February, 1917, in New York, with a capital of \$300,000, to engage in printing and advertising. Incorporators: M. Barsoni, 170 Fifth Ave., M. De F. Galvan, 561 West 143d St., and G. Lee 225 West 39th St., New York City.

LASSEN ELECTRIC CO.

*(1) **Report, Year Ended Dec. 31, 1916,** shows gross operating revenue of \$12,488, net of \$4,022 and surplus after charges of \$2,408.

*(2) **Balance Sheet, as of Dec. 31, 1916,** shows a profit and loss surplus of \$14,633, compared with \$13,666 Dec. 31, 1915.

LAST CHANCE MINING CO.

*(1) **Proposed Consolidation.**—See Batchelder Mining Co.—Item No. 1.

● **LAURENTIDE CO., LTD.**

*(1) **Dividend Increased.**—Announced March 21, 1917, that this company had declared a dividend of 2½% for the quarter ended March 31, payable April 2 to stock of record March 27. This is an increase from an 8% to 10% basis.

—Apr.

*(1) **Violation of Anti-Trust Law Alleged.**—See International Paper Co.—Item No. 1.

*(2) **Indicted Officers Plead Not Guilty.**—See International Paper Co.—Item No. 2.

LAURENTIDE POWER CO., LTD.

*(1) **Directors and Officers Re-elected.**—It was announced Feb. 27, 1917, that at the annual meeting of this company retiring directors were re-elected and the board organized with the same officers. The company started operations in July, 1916, and Pres. Aldred reported that the first six months of operation were satisfactory and the outlook for 1917 was excellent, as every kilowatt of power the company could produce was finding a ready market.

—Apr.

*(1) **Report, Year Ended Dec. 31, 1916,** shows gross of \$373,381, with operating costs of \$39,700, leaving net of \$335,622. Bond interest for the year was \$343,681, of which 50%, covering the first half of the year, was charged to capital account as construction expense, leaving a balance for the first year of operation of \$154,441.

Laurentide Power was not in condition to operate fully until the last half of 1916, but begins 1917 fully in operation, all construction work having been completed. Prospects for the sales of power for 1917 are excellent. The Shawinigan Water & Power Co. is at present taking all its available supply of current. From the surplus of \$154,441 for the first year \$100,000 was transferred to reserves and \$54,441 to contingent account.

Although 1916 was a year of construction the balance for the year was equivalent to 1.47% on the common stock and this is expected to be materially increased in 1917.

LAWYERS' MORTGAGE CO., NEW YORK.

*(1) **Annual Report** shows sales of mortgages during 1916 of \$41,761,187, a net increase in outstanding guaranteed mortgages of \$3,651,261 and a total guaranteed mortgages outstanding of \$148,015,794. Gross earnings amounted to \$1,028,117 and net to \$722,394. Total assets amount to \$9,362,410.

Customers of the company number over 6,000, including savings banks, trustees, charitable institutions, trust companies and insurance companies. During the year the total of real estate and mortgages in foreclosure was reduced by \$1,518,100.

LAX & BURGHEIMER, INC., MANHATTAN, N. Y.

*(1) **Capital Increased.**—On Dec. 30, 1916, the company filed notice at Albany, N. Y., of an increase in capital stock from \$350,000 to \$500,000.

LAZARUS (F. & R.) CO., COLUMBUS, O.

*(1) **Capital Increased.**—On March 9, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$750,000 to \$800,000.

LEAD QUEEN MINING & MILLING CO., SPOKANE, WASH.

*(1) **Incorporated** on Feb. 9, 1917, in Washington, with a capital of \$1,000,000. Incorporators: T. D. Bevans, A. S. Nichols, Louis Morgan, E. M. Steel and A. C. Shaw.

LEATH (A.) & CO., ELGIN, ILL.

*(1) **Capital Increased.**—On Feb. 27, 1917, the company filed notice at Springfield, Ill., of an increase in capital stock from \$300,000 to \$400,000.

LEBANON VALLEY ELECTRIC LIGHT CO.

*(1) **Merger Planned.**—See Reading Transit & Light Co.—Item No. 1.

LE DUC GOLD MINING CO.

*(1) **Incorporated** in February, 1917, in California, with a capital of \$500,000. Directors: B. A. Penhall and James Sampson.

JANUARY 1 TO APRIL 30, 1917

• LEE RUBBER & TIRE CO.

• (1) **Earnings Discussion.**—On Jan. 5, 1917, the "Wall Street Journal" stated that this company in the calendar year 1916 failed to earn its full \$300,000 dividend requirements, on account of adjustments which the company was forced to make in the closing months of the year on tires sold during the Summer, which, it developed, had been imperfectly cured.

In the first seven months the company earned \$358,000, sufficient to cover \$3 dividend requirements on the 100,000 shares and leave a surplus of \$58,000. Labor strikes in the Fall, however, and the adjustments which had to be made not only left no further additions to surplus, but reduced the profits of the earlier months.

Additional curing ovens and methods have been installed, and production should henceforth increase.

The directors meet late in January to take action on the dividend.

The continuance of the regular quarterly rate of 50 cents and the usual extra of 25 cents a share will depend on whether or not the directors feel that the adjustments have been completed.

• (2) **Dividends Passed.**—It was announced Jan. 24, 1917, that directors of this company had passed the usual quarterly dividend declaration of 50 cents regular and 25 cents extra.

• (3) **Announcement by President.**—Following the passing of the usual dividends by the Board of Directors of this company, Pres. Garthwaite made the following announcement:

"Higher labor costs caused by labor troubles and resulting in decreased production, together with a general increase in the cost of crude materials, have seriously affected the earnings of the company.

"The company has expended a considerable sum of money in completing a new mill for the manufacture of miscellaneous goods, in which operations have only recently been started, and is putting in additional machinery and equipment, which should be installed in the early part of the year and which will nearly double its capacity.

"While the operating company has a substantial surplus, the directors have considered it wise to conserve this surplus for the development of its business, and, therefore, recommended that no dividend be declared, as they feel that the interests of all stockholders would be best served by this policy."

—Mar.

• (1) **Report, Year Ended Dec. 31, 1916.**—It was announced March 7, 1917, that the first annual report of this company showed net sales for 1916 of \$3,587,761, net profits of \$237,337, and surplus after dividends of \$12,337.

• (2) **Earnings on Stock.**—It was stated March 7, 1917, that this company's 1916 net profit of \$237,337 is equal to \$2.37 per share on the 100,000 shares of stock outstanding.

• (3) **Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$16,395.

• (4) **Statement by President.**—It was announced March 7, 1917, that Pres. Albert A. Garthwaite, of this company, in his remarks to stockholders, said in part: "The earnings for the first half of the year were satisfactory, but labor troubles, together with the great increase in the cost of crude rubber and fabrics used in the manufacturing of our tires and the stationary selling price of our product prevailing during the year, caused the falling off in profits during the last six months."

"The additions made during the year of buildings and equipment permit the company to nearly double its manufacturing capacity. The company has also made some changes in the process of its manufacturing and is now producing not only the wrapped tread type of tire, but molded tires.

"The company has taken over the management of its selling department, which is now located at the factory.

• (5) **Production in 1917 at Increased Rate.**—It was stated March 13, 1917, that this company's affairs have been improving in a pronounced manner since the beginning of 1917. January output was 18,000 tires, February 26,000 and March production is at the rate of 30,000. The current manufacturing schedule is twice the average monthly production of 1916, and effectively indicates the complete change that has taken place at the Pennsylvania plants.

• (6) **Officers.**—Announced March 22, 1917, that at the organization meeting of this company John J. Watson, Jr., Vice-Pres. and Treas., had been elected Pres., and that A. A. Garthwaite, Pres., had been elected Vice-Pres. and Treas.

• (7) **Output.**—It was stated March 22, 1917, that at the annual meeting of this company John J. Watson, Jr., who presided, in answer to an inquiry by a stockholder said that the output of the company was running at the rate of 30,000 tires per month. This would mean an annual output of between 350,000 and 400,000 tires for 1917, compared with 225,000 in 1916.

In answer to further inquiries, Mr. Watson responded that, as far as he was concerned, he felt the policy of the Board of Directors should be to accumulate a substantial surplus account before dividend declarations should be resumed upon the stock. He said that the credit of the company was first rate.

LEES (JAMES) & SONS.

• (1) **Capital Increase Authorized.**—At a meeting of stockholders of this company, Bridgeport, Pa., April 21, the Board of Directors was authorized to increase the capital stock from \$1,000,000 to \$1,500,000.

LEHIGH BRICK CO., ALLENTOWN, PA.

• (1) **Contract for Plant Awarded.**—It was announced April 5, 1917, that this company, recently organized with a capital of \$250,000, had awarded contract for the erection of a plant at Salisbury, Pa. It will have an initial capacity of 50,000 bricks per day.

LEHIGH-BUFFALO TERMINAL RY. CORP.

• (1) **Bond Issue Authorized.**—On March 24, 1917, the New York Public Service Commission for the Second District authorized this company to mortgage its property for \$5,000,000 and issue a like amount of 4½% bonds. The bonds will be sold at 95, to net \$4,750,000, and the proceeds used toward discharging \$3,740,000 of 5% debentures outstanding on June 30, 1916, to discharge an indebtedness of \$301,984 owing to the Lehigh Valley Railroad Co. for advances, and toward further expenditures of \$1,067,655 upon the Lehigh terminal facilities in Buffalo.

• LEHIGH COAL & NAVIGATION CO.

• (1) **Production, 1916.**—It was stated Jan. 22, 1917, that this company produced and sold about 4,000,000 tons of anthracite during 1916.

The purchase by the company of a coal pocket in Worcester, Mass., for the supply of the trade in that vicinity is a business move based upon the success of the company's sales department in Portland, Me. In the latter city this move was attended by a greatly increased popularity of Lehigh coal. The capacity of the new Worcester coal pocket is given as about 7,000.

—Feb.

• (1) **Report, Year Ended Dec. 31, 1916,** shows:

Gross	1916	1915
-----	\$18,295,303	\$15,795,001
Net	4,827,737	4,528,411
Surp. aft. taxes		
and chgs.	2,788,347	2,298,340

• (2) **Earnings on Stock.**—It was stated Feb. 19, 1917, that this company's 1916 surplus of \$2,788,347 is equal to 10.4% earned on \$26,587,050 capital stock, compared with 8.6% in 1915, 9.3% in 1914, 8.9% in 1913 and 8.6% in 1912.

• (3) **Statement by President.**—It was announced Feb. 19, 1917, that Pres. S. D. Warriner, of this company, in his annual remarks to stockholders said, in part: "The year was one of abnormal industrial conditions throughout the country, and unusual difficulties occurred in the operation of anthracite collieries, due to the higher cost and the unrest of labor, as well as to the largely increased cost of supplies of all kinds, combined with a resulting decrease in daily capacity. These circumstances, together with the persistent demand for coal, especially during the latter months of the year, and the congested transportation facilities, required the continuous and patient efforts of operating officials—harassed as they were by investigations, both State and Federal—to successfully meet the economic conditions imposed."

"The proceedings against your company on account of the receipt by it of certain sums paid by the Central R. R. Co. of New Jersey, lessee, as additional rental in satisfaction of the tenth covenant of the agreement of March 31, 1871, whereby your company leased its Lehigh & Susquehanna R. R. branches to the Central Co. resulted in the conviction of your company and the imposition of a fine of \$100,000. An appeal from the verdict against your company was taken to the Circuit Court of Appeals of the Third Circuit and is still pending."

"Dividends and interest received upon stocks and bonds owned by your company, as well as the rentals paid by the Central R. R. Co. of New Jersey and income from Cranberry leasehold operations, are included in miscellaneous revenue."

"It will be noted that, while the commercial production per hour increased 60 tons over that of the previous year, the total commercial production decreased 164,737 tons, the breaker-hours worked being 1,890 less than in 1915, due principally to the substitution of an eight-hour day for a nine-hour day, under the provisions of the new agreement with the mine employees, which was signed on May 5, 1916."

"This new agreement provides for a substantial increase in rates of wages, and is effective from April 1, 1916, until March 31, 1920."

—Mar.

• (1) **Merger Plan of Controlled Co.**—See Lehigh Valley Transit Co.—Item No. 1.

• (2) **Bonds Called.**—It was stated March 3, 1917, that this company had called for redemption \$1,750,000 of its collateral trust 4½% bonds dated Nov. 1, 1910, due Nov. 1, 1930, at 102½, on May 1, 1917, on which date interest will cease.

• (3) **Bonds Listed in Philadelphia.**—It was announced March 6, 1917, that the Philadelphia Stock Exchange had admitted to the regular list \$829,000 additional Lehigh Coal & Navigation Co. consolidated mortgage 4½% sinking fund gold bonds, Series A.

• (4) **Merger Discussion.**—See Lehigh Navigation Electric Co.—Item No. 2.

• (5) **Listed in Philadelphia.**—It was announced March 12, 1917, that an additional \$829,000 of this company's consolidated mortgage 4½% sinking fund bonds, due 1954, had been added to the regular list of the Philadelphia Stock Exchange.

—Apr.

• (1) **Increased Production in Panther Creek Valley Assured.**—On April 23, 1917, the "Philadelphia Public Ledger" stated that additional production of 20,000 tons of coal a month had been insured through a new plan adopted by this company in its operations in the Panther Creek Valley. An appeal to the miners to discontinue the usual Saturday afternoon holiday and work through the full day had met with success. Overtime is paid the men and about 5,000 tons are produced in excess of the former average each week.

LEHIGH NAVIGATION ELECTRIC CO.¹(1) Merger Plan.—See Lehigh Valley Transit Co.—Item No. 1.

²(2) Record in 1916.—Merger Discussion.—It was stated March 12, 1917, that this company, a subsidiary of the Lehigh Coal & Navigation Co. but which had been sold to the Electric Bond & Share Co. as the principal factor in a consolidation of electric light and power plants in the Pennsylvania anthracite coal district, made a good record in 1916.

The maximum hourly demand load on the generating plant of the company in 1916 was 24,100 kilowatts, an increase of 6,700 kilowatts compared with the maximum hourly demand in 1915. At the close of 1916 112 customers were taking energy from the Hauto generating station, an increase of 37 in the year. Among the customers were five cement companies, which used 63% of the energy sold, and nine public utility corporations.

In 1916 122,252,773 kilowatt-hours of energy were sold, an increase of 19.10% over sales in 1915. In producing this energy in 1916 the company used 213,481 tons of small coal purchased from the Lehigh Coal & Navigation Co.

For 1916 gross of the company was \$328,623, with operating costs of \$477,868, leaving net earnings of \$350,755, an increase of \$74,123 compared with 1915. Net income for 1916, after deducting taxes, fixed charges, etc., was \$75,687. No depreciation charges have yet been made from income for the Hauto plant.

The market for electric power in the district is steadily growing and it was this which led to the promotion of the consolidation of Lehigh Navigation Electric, Lehigh Valley Transit, Northern Central Co. and other corporations operating in the territory.

The proposition was taken up by the Electric Bond & Share Co. and options were taken on the stocks of Lehigh Electric Navigation, Lehigh Valley Transit, the Northern Central Co. and others. It is understood that well in excess of a majority of all stocks in the companies concerned have assented to the terms of the consolidation.

Whether a new holding company would be organized or whether the Pennsylvania properties would become subsidiaries of the American Gas & Electric Co., controlled by General Electric interests, which also control Electric Bond & Share Co., was not announced at that time.

The Scranton Electric Co., which supplies all electric energy used for operation of electric railway lines, mining operations, industrial power and commercial and domestic power and lighting in the Scranton district, is a subsidiary of American Gas & Electric, and the new company would be a

logical addition to the group of properties in Pennsylvania already controlled by American Gas & Electric.

⁴(2) Extension to East Allentown, Pa., Planned.—On April 23, 1917, the "Philadelphia News Bureau," stated that a new 15-mile extension of this railroad, to be built in 1917 from Bethlehem to East Allentown, Pa., would give the company an entrance into Allentown and traverse a section of the country between Bethlehem and Allentown which is capable of great development.

It is anticipated that factory sites along the line will be occupied by industrial plants, which cannot now locate along the Lehigh Valley and New Jersey Central. These two lines run between Allentown and Bethlehem along the river, where there is not sufficient space for industrial plants to be built beside the railroad.

It is probable that the cost of the new line will not be in excess of \$500,000 to \$600,000.

LEHIGH PORTLAND CEMENT CO.

¹(1) Capital Increase.—Announced Jan. 17, 1917, that an increase in capitalization from \$12,000,000 to \$18,000,000 was authorized at the annual meeting of this company, when retiring directors were re-elected.

²(2) Acquisition.—At the annual meeting of this company Jan. 17, 1917, announcement was made of the acquisition of the plant of the Iola Portland Cement Co. at Iola, Pa. The Lehigh Portland is now the owner of 15 modern and highly productive cement mills.

Only a month previously it acquired the Chicago Portland mill at Oglesby, Ill.

The chain of plants extends from the Atlantic to the Pacific, and gives the company a strategic advantage in connection with every market in the United States.

LEHIGH TRANSIT CO.

³(1) Control Being Negotiated For.—See Northern Central Co. of Delaware.—Item No. 1.

LEHIGH VALLEY COAL SALES CO.

¹(1) Directors Re-elected.—Announced Jan. 29, 1917, that at this company's annual meeting retiring directors were re-elected.

LEHIGH VALLEY R. R. CO.

²(2) Denial of Coal Embargo Report.—On Jan. 3, 1917, this company issued a denial of the report that it had placed an embargo on coal shipments to New York.

"The published statement this morning to the effect that the Lehigh Valley Railroad yesterday placed a 48-hour

embargo on all shipments of coal over its lines destined for New York by way of its Perth Amboy terminals is absolutely incorrect," the statement read. "No embargo of any sort has been placed by the Lehigh Valley on coal for New York. There has been no interruption in the movement of this commodity, and the railroad management has prided itself on the excellent record it has made there."

³(3) President Re-elected.—Announced Jan. 16, 1917, that at the annual meeting of this company Pres. E. B. Thomas was re-elected.

—Feb.

¹(1) Electrification Planned.—It was reported from Hazelton, Pa., Feb. 8, 1917, that this company was preparing plans to electrify the line between Jersey City and Wilkes-Barre, Pa., and the main line from Mauch Chunk to Mt. Carmel.

²(2) Development Plans for 1917.—Announcement was made by the management of this company Feb. 17, 1917, of the adoption of plans calling for intensive development during 1917. The plans will involve expenditures of more than \$5,000,000, which will make \$11,000,000 spent in 1916 and 1917.

It is expected that the work to be undertaken will enable the road to handle a maximum tonnage at a minimum cost and provide for terminal requirements for many years.

Aside from terminal development the Lehigh Valley is giving its attention to the acquisition of heavy power, which will be put into service as fast as it can be delivered by the builders. During 1916 ninety heavy locomotives were purchased, and contracts have been awarded 56 more for delivery during 1917.

The installation of heavier power will result in heavier trainloads. To provide for this the Lehigh Valley will spend more than \$2,000,000 for bridge renewals.

¹ (1) Earnings—		
Jan. gross.....	\$3,658,141	\$3,532,978
Net after taxes.....	361,007	719,385

²(2) Comment on January Earnings.—On Feb. 27, 1917, the "Philadelphia News Bureau" said that the effect of traffic congestion is reflected strikingly in this company's January statement of earnings. The road was unable to move as much tonnage as a year previously, freight receipts falling off slightly, while conducting transportation cost rose sharply, absorbing an extraordinarily large proportion of year's earnings.

If it had not been for the passenger business Lehigh Valley total operating revenues in January would have been a decrease as compared with January, 1916, although materially ahead of two years previously. The same thing occurred in November, 1916, freight receipts being \$3,770,526, against \$3,794,650 in that month of 1915. October was the first and only month, so far, to show a decrease, as compared with a year previously, in total operating revenue.

No statement has been published for December and the operations for that month will be included in the report for the fiscal year, which has been

JANUARY 1 TO APRIL 30, 1917

changed to end of Dec. 31, 1916, in accordance with the Interstate Commerce Commission requirements. Anthracite shipments over the Lehigh Valley in January decreased 32,268 tons, which, while only a small falling off, would largely account for the lessened freight movement in that month. Severe cold weather hindered operations at the collieries and cut down shipments of anthracite coal.

(3) Dividend Discussion.—On March 10, 1917, the "Boston News Bureau" said there was ground for the belief that this company's dividend ultimately might come down to an 8% basis.

While Lehigh is more than earning the 10% dividend, it is felt that the margin is somewhat too small for comfort. For the seven months' period ended Jan. 31 net operating income was \$6,719,403, compared with \$7,372,716 for the corresponding period last year, a decrease of \$653,313, or 8.8%.

Making allowance for "other income" and for proportionate fixed charges for seven months, indicated surplus was about \$3,852,000, equivalent to 6.36% on the \$60,501,700 common stock, after deducting dividends on the small issue of preferred.

If earnings for the balance of the fiscal year broke even with the previous year, Lehigh could show a balance for the common of somewhat better than 12%; but at the rate net earnings have recently been falling behind 1915-16, indicated earnings for the full year would be equivalent to less than 10½% on the common. This does not take into consideration surplus earnings in the Lehigh Coal Co., which is controlled by Lehigh Valley R. R.

In other words, net earnings of Lehigh Valley in 1917 have fallen back to the 1914-15 level, when the balance for the common stock was equivalent to 10.45%, and when fears were also expressed for the 10% dividend.

Lehigh Valley has entered upon a period of intensive development. Plans for the year involve the expenditure of more than \$5,000,000, which will make \$11,000,000 spent in 1916 and 1917 largely for terminal development and acquisition of heavier motive power and equipment.

(4) Dividend Discussion.—It was announced March 13, 1917, that directors of this company would meet March 21 for action on the dividend, and that it could be stated on excellent authority that the 10% rate would not be changed. The road has earned its dividend requirements to date, notwithstanding that expenses in recent months have shown an upward tendency on this system, as on all other railroads.

It was late in 1904 that dividends were resumed on Lehigh Valley at a 4% rate. This was increased to 6% in 1907, and further to the present 10% rate in 1911.

(5) Denied Right to Operate Steamships.—On March 24, 1917, this company was denied the right to continue ownership and operation of its steamboat lines on the Great Lakes in a decision by the Supreme Court.

(2) Income Account, Year Ended Nov. 30, 1916, compares as follows:

	1916	1915
Gross.....	\$2,471,871	\$2,056,875
Net after taxes.....	953,751	852,488
Surp. aft. chgs.	468,476	328,387

(3) Earnings on Stock.—It was stated Jan. 10, 1917, that the \$468,476 surplus of this company for the year ended Nov. 30, 1916, is equal, after allowing for 5% annual dividend on \$4,979,687 cumulative pfd. stock, to 7.32% earned on \$2,997,350 common stock.

(4) Statement by President.—It was announced Jan. 10, 1917, that at the annual meeting of this company Pres. H. R. Fehr said, in part: "Revenue from transportation increased \$318,066, or 19.2%. Power sales advanced \$96,473, or 24.2%. Total operating revenue increased \$414,936, or 20.1%. Attention is called to the fact that this is the first year in which the company has paid the full 5% dividend on the pfd. stock. At the same time it has been able to add to its surplus account, which now stands at \$560,200."

(5) New Director.—Announced Jan. 10, 1917, that at the annual meeting of stockholders of this company Leonard Peckitt, of Catasauqua, Pa., was elected an additional member of the Board of Directors. Other directors were re-elected.

(6) Decrease in December Net.—On Jan. 27, 1917, the "Philadelphia News Bureau" said that the decrease of \$7,993 in net earnings of this company for December, as compared with December, 1915, was due to the increase of \$43,897 in operating expenses and depreciation. It is understood that nearly all the increase in this item is due to high operating expenses. During December, 1916, there was a good deal of snow, while there was practically none in December, 1915.

The increase of \$35,903 in gross operating revenue for the month more accurately reflects conditions. Traffic during the year 1916 showed a steady growth, with material gains over 1915. Sales of power are also increasing at a satisfactory rate.

No intimation has been given by the company as to plans that may be under consideration for payment of accumulated back dividends on the pfd. stock. These dividends now amount to \$7.25 per share, or 14½%. The sum due is \$722,054 on the \$4,979,687 stock outstanding.

(2) Letter to Stockholders.—It was announced Feb. 17, 1917, that letters had been sent to stockholders of this company by Edward B. Smith & Co. and Brown Bros. & Co. recommending that certificates of stock be deposited with the Girard Trust Co., subject to the conditions of the agreement in regard to the purchase of the stock at \$28 per share for the common and \$48 per share for the pfd.

—Mar.

(1) Merger Plan.—In February, 1917, Philadelphia banking interests proposed a merger of the important electric light, power and transit companies in the Lehigh Valley, to include this company, the Lehigh Navigation Electric Co. (controlled by the Lehigh Coal & Navigation Co.) and other electric generating and distributing companies.

An offer was made to the shareholders of the Lehigh Valley Transit Co. of \$48 per share (par \$50) for the pfd. stock and \$24 per share for the common stock. On Feb. 17, 1917, letters were sent to the stockholders by Edw. B. Smith & Co. and Brown Bros. & Co., of Philadelphia, recommending that shareholders deposit their stock certificates with the Girard Trust Co., of Philadelphia, according to the terms of the agreement to purchase the shares.

It was said that holders of more than a majority of both pfd. and common stocks of the Lehigh Valley Transit Co. had already agreed to deposit their stock for sale at the prices noted above.

(2) Merger Discussion.—See Lehigh Navigation Electric Co.—Item No. 2.

(1) Enough Stock Listed for Entry Into Merger.—On April 17, 1917, the "Philadelphia News Bureau" said the announcement by the Philadelphia Stock Exchange that there had been listed a total of \$2,250,500 of the Girard Trust Co. receipts for Lehigh Valley Transit common stock indicated that there has been deposited more than 70% of the common stock of this company that was required to bring the company into the merger of electric power companies. The requisite 70% of the pfd. stock was secured several weeks previously.

LEONARD FISHERIES, LTD.

(1) Incorporated on April 3, 1917, in Canada, with a capital of \$1,000,000, divided into 10,000 shares of \$100 each, to carry on a general fishing business. Incorporators: Henri Gerin-Lajole, Alexandre Lacoste, Thomas John Shallow, Joseph Henri Gerin-Lajole and Joseph Emile Cote. Chief place of business, Montreal, Que.

(2) New Company Takes Over Three Firms.—On April 21, 1917, "The Financial Post of Canada" said that this company, incorporated with a capital of \$1,000,000, had taken over the old-established fish firms of Leonard Bros., Montreal, St. John, N. B., and Grand River, Que.; Matthews & Scott, Queensport, Canso, and Cheticamp, N. S., and A. Wilson & Sons, Halifax, Canso, Igonish and Petit de Grat, N. S. The new corporation has also acquired the cold storage plant at Port Hawkesbury, N. S., which was purchased by the members of the firm of Leonard Bros., and which formerly belonged to the North Atlantic Fisheries, Ltd. This is one of the largest cold storage plants in Canada.

The Leonard Fisheries will be one of the largest fishing corporations on the continent.

W. F. Leonard and D. J. Byrne, of the firm of Leonard Bros., will be Pres. and Vice-Pres., respectively, of the new corporation. Mr. Byrne will be the general manager. The other members of the board are R. T. Matthews, S. Y. Wilson, and W. P. Scott.

The Leonard Fisheries will be a close corporation. No public offering of stock will be made, as all the financing has been arranged.

The head office of the company will be at Montreal.

LETCHER COUNTY COAL CORP.

(1) Development.—It was reported Feb. 1, 1917, that this company will develop coal mines in Letcher County, Ky. The company has been incorporated with a capital stock of \$500,000, with offices at Richmond, Va. Lucius F. Cary is Pres. and W. M. Cary is Sec. and Treas.

LETSON OIL CO.

(1) Incorporated in February, 1917, in Oklahoma, with a capital of \$250,000. Incorporators: W. A. Letson, H. H. Barrett and B. A. Lewis.

LEVY BROTHERS CLOTHING CO., ROCHESTER, N. Y.

(1) Capital Increased.—On Feb. 26, 1917, this company filed notice at Albany, N. Y., of an increase in capital stock from \$250,000 to \$275,000.

†Includes dividends from subsidiary companies.		

²(2) Earnings on Stock.—It was stated March 12, 1917, that this company's 1916 balance after pfd. dividends of \$5,512,189 is equal to 25.64% on \$21,496,400 common stock, compared with 26.61% earned on the same stock in 1915.

²(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$12,978,127, compared with \$10,905,362 Dec. 31, 1915.

²(4) Extra Dividend on Common.—Announced March 12, 1917, that this company had declared an extra dividend of 4% on the common stock, payable April 2.

LIMOUSINE TOP CO.

²(1) Addition.—On Feb. 1, 1917, this company announced plans for an addition that will double its capacity.

LINCOLN MANUFACTURING CO.

¹(1) Increased Dividend.—Announced Jan. 17, 1917, that this company had increased its quarterly dividend of 1% to 2½%, payable Feb. 1 to stock of record Jan. 20.

—Apr.

⁴(1) Stock Dividend Recommended.—Directors of this company April 16, 1917, voted to recommend to the stockholders an increase in capital to \$1,625,000 from \$1,250,000 by a stock dividend of 30%. This is in addition to a 2½% cash dividend.

**LINCOLN NATIONAL BANK,
NEW YORK.**

¹(1) New Directors.—Announced Jan. 8, 1917, that at the stockholders' meeting of this bank Henry C. Phipps retired. Two new directors, Edward W. Brown and Wm. S. Hawk, were elected.

**LINCOLN PHOTOPLAY CO., INC.,
NEWBURG, N. Y.**

²(1) Capital Increased.—On March 15, 1917, the company filed notice at Albany, N. Y., of an increase in capital from \$10,000 to \$500,000.

LINCO REFINING CO.

²(1) Application for Receiver.—It was announced at Chicago Feb. 14, 1917, that application to the Federal Court had been made by a stockholder for a receiver for this company.

**LINDE AIR PRODUCTS CO.,
CLEVELAND, O.**

²(1) Capital Increase.—It was announced Feb. 12, 1917, that at the annual meeting of this company an increase in the common capital stock of from \$8,000,000 to \$15,000,000 was authorized, this additional common to be offered to stockholders at par at the close of business March 5 to the amount of 30% of their present holdings, subscriptions payable one-half on or before March 15 and the other half on or before June 15.

Retiring directors were elected for the ensuing year.

²(2) Capital Increased.—On Feb. 20, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$8,750,000 to \$15,750,000.

**LINDERMAN STEEL & MACHINE
CO., AUGUSTA, ME.**

¹(1) Incorporated in December, 1916, in Maine, with a capital of \$1,800,000. Incorporators: John Q. Ross, Pres.; E. B. Turner, Treas., and C. L. Andrews, Augusta, Me., clerk.

LIT BROS. CORP.

¹(1) Extra Dividend.—Announced Jan. 20, 1917, that this company had declared a semi-annual dividend of 5% and an extra of 2½%, payable Feb. 20 to stock of record Jan. 31.

LITTLE (S. W.) COAL CO.

²(1) Option of Purchase May Be Exercised.—See Indiana Creek Coal Co.—Item No. 1.

LITTLE (A. E.) CO., LYNN, MASS.

²(1) Incorporated on Feb. 10, 1917, in Massachusetts, with a capital of \$6,500,000, composed of 20,000 shares 1st pfd., 15,000 2d pfd., par \$100, and 300,000 shares common, par \$10.

²(2) Officers and Directors.—It was stated Feb. 17, 1917, that this company, maker of the "Sorois" shoes and recently granted a new certificate of incorporation, with a capital of \$6,500,000, has officers as follows: Pres., Alexander E. E. Little, of Lynn; Vice-Pres., Walter S. Little, Lynn; Treas., George E. Noyes, Manchester, Mass.; clerk, Henry N. Berry, of Lynn. The directors include the foregoing officers and Harland G. Little, of Lynn; Harry B. Thomas, of Swampscott; Stacey A. Marble, of Marblehead; Charles F. Goller, of Boston; Arthur L. Howland, of Lynn, and Gardner L. Lewis, of Swampscott, Mass.

**LITTLE & ELSTROM MINING CO.,
SEATTLE, WASH.**

⁴(1) Incorporated on April 16, 1917, in Washington, with a capital of \$1,000,000. Incorporators: J. W. Little, Louis Little, John Wiles, Otto Elfstrom, Chas. Anderson and Axel Fodenburg.

LIVINGSTON (HARRY) CO.

⁴(1) Incorporated on April 19, 1917, in Delaware, with a capital of \$500,000, to manufacture all kinds of wearing apparel. Incorporators: Solomon A. Bacharach and R. Oak, New York, and David M. Landes, Mt. Vernon, N. Y.

JANUARY 1 TO APRIL 30, 1917

LIVINGSTON COUNTY LAND CO.

ROCHESTER, N. Y.

*(1) Capital Reduced.—On Jan. 29, 1917, the company filed notice at Albany, N. Y., of a reduction in capital stock from \$500,000 to \$200,000.

LOCKPORT PAPER CO.

LOCKPORT, N. Y.

*(1) Capital Reduced.—On Feb. 28, 1917, the company filed notice at Albany, N. Y., of a reduction in capital stock from \$300,000 to \$150,000.

*(1) Sale.—See Certain-Teed Products Corp.—Item No. 3.

LOEW'S HAMILTON THEATRES, LTD.

*(1) Incorporated on Feb. 6, 1917, in Canada, with a capital of \$1,000,000 divided into 10,000 shares of \$100 each, to construct theatres and other buildings and works convenient for the purposes thereof. Incorporators: Reginald Holland Parmenter, Arthur John Thomson, Samuel Davidson Fowler, Violet Moffat and Anna Latimer. Chief place of business, Toronto, Ont.

LOFT, INC.

*(1) Initial Quarterly Dividend.—Announced Jan. 10, 1917, that this company had declared an initial quarterly dividend of 1 1/4%, payable Feb. 1 to stock of record Jan. 17.

LOMAX CO. (THE), PORTLAND, ME.

*(1) Incorporated in January, 1917, in Maine, with a capital of \$1,000,000, to manufacture, bottle, etc., mineral waters, ginger ale and other non-alcoholic beverages.

LOMBARD TRACTOR COMPANIES, INC.

*(1) Incorporated on April 20, 1917, in Delaware, with a capital of \$8,000,000, to manufacture tractors, motors, wagons and spreaders, etc. Incorporators: A. W. Britton, S. B. Howard and H. B. Davis, New York.

LONE STAR GAS CO.

*(1) Earnings Statement, Year Ended Dec. 31, 1916, shows net revenues of \$517,720, after providing for operating expenses and carrying \$588,935 into depreciation reserve account. In 1916 the company reduced its funded debt \$175,000 and since Jan. 1, 1917, a further retirement of \$125,000 of bonds has been made, leaving the funded debt \$375,000. After dividends and other charges against profits in 1916 a surplus of \$192,719 was earned, which made total surplus Jan. 1, 1917, \$508,882.

In the year the company installed equipment for the manufacture of casinghead gasoline from natural gas, and it is now extracting about 12,000 gallons of gasoline daily from the gas which passes through its lines.

*(2) Extra Dividend.—Announced March 12, 1917, that this company had declared the regular quarterly dividend of 1 1/4% and an extra of one-half of 1%, payable April 2 to stock of record March 24.

LONE STAR OIL CO.

*(1) Incorporated on Jan. 15, 1917, in Delaware, with a capital of \$850,000, to drill and operate for petroleum, oil and gas. Incorporators: G. Wentworth Miller, Philadelphia, Pa., K. M. Dougherty and E. Lynch, Wilmington, Del.

LONE STAR SHIPBUILDING CO.

*(1) Incorporated on March 24, 1917, in Texas, with a capital stock of \$2,000,000. George B. Leighton is Pres. It was stated that contracts had been closed for construction of ten schooners.

—Apr.

*(1) Organized.—It was announced March 28, 1917, that this company had completed its organization with a capitalization of \$2,000,000 to build shipyards on the Neches River near Beaumont, Texas. It is understood that large contracts have been obtained for constructing vessels, and that details

existing mortgage, and for approval of the plan are being determined by the new company's officials, who include George B. Leighton, Pres., Boston, Mass.; McKee Duncan, consulting engineer; Walter J. Crawford, representative.

LONGFELLOW EXTENSION

COPPER CO., CLIFTON, ARIZ.

*(1) Incorporated in April 1917, in Arizona, with a capital of \$2,500,000. Incorporators: W. J. Riley, C. Henry Thompson, Neil Thompson, M. O. Simms and E. C. Bunker, all of Clifton, Ariz.

LONG ISLAND LIGHTING CO.

*(1) Acquisition Planned.—It was reported Jan. 26, 1917, that this company had filed a petition with the New York First District Public Service Commission to purchase Suffolk Light, Heat & Power Co., and to issue \$150,000 capital stock and \$225,000 1st mortgage gold bonds of the latter company.

*(2) Acquisition Permit Sought.—It was stated Jan. 26, 1917, that this company had petitioned the New York First District Public Service Commission for authority to purchase the stocks and bonds of the North Shore Electric Light & Power Co. and to issue an additional \$75,000 stock and \$270,000 first mortgage 50% bonds.

—Mar.

*(1) Capital Increased.—On March 7, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$1,000,000 to \$3,000,000.

*(2) Acquisition Authorized.—On March 27, 1917, the New York Public Service Commission for the Second District authorized this company to acquire the Suffolk Gas & Electric Co., South Shore Gas Co., Huntington Light & Power Co. and Huntington Gas Co.

*(3) Details of Consolidation.—Announced on March 20, 1917, that in connection with the plans of this company to consolidate a number of the small independent gas and electric companies operating on Long Island, the New York Public Service Commission for the Second District had approved a part of the program.

The Long Island Lighting Co. will issue \$200,000 of its own stock to be exchanged par for par for a like amount of the stock of the Suffolk Gas & Electric Co. and must write off and amortize serially \$94,647 of the book value of the merged company. It will also issue \$63,300 of its stock for a similar amount of stock of the South Shore Gas Co. and write off and amortize \$21,651 of its book values. For the acquisition of the Huntington Light & Power Co. and the Huntington Gas Co., Long Island Lighting is authorized to issue \$206,000 of its own 5% 25-year first mortgage bonds to be sold at 92 and \$120,000 of its common stock to be sold at par, thus paying in cash for the Huntington properties \$309,520.

—Apr.

*(1) Permit to Issue \$561,000 Bonds Sought.—This company April 27, 1917, petitioned the New York Second District Public Service Commission for authority to issue \$561,000 in first mortgage 5% 25-year gold bonds, under an a supplement to said mortgage.

Surp. after chgs.	263,531	†186,029
†Deficit.		

*(2) Bond Issue Authorized.—Announced at Albany, N. Y., Jan. 12, 1917, that the New York Second District Public Service Commission had authorized this company to issue \$1,252,048 4% ten-year debentures, at not less than par and accrued interest.

If sold, the proceeds are to be used in the liquidation of the company's in-

debtedness to the Pennsylvania R. R. Co. on account of advances for improvement and equipment in 1915.

*(3) Bonds for Minority.—It was stated Jan. 25, 1917, that this company would offer minority holders of its stock 5% debenture bonds in exchange for their holdings. Debentures are to run for 20 years and are to be secured by any future mortgage upon the property.

A special committee of the Long Island directors has agreed with the Pennsylvania R. R. upon a plan for readjustment of the finances of the Long Island R. R., which include the issue of 5% debentures to be exchanged for the minority stock, amounting to \$5,202,100, and the issuance of common stock, amounting to approximately \$25,000,000 to be issued to the Pennsylvania R. R. in payment of the Long Island's debt to that company.

The company states that the success of this plan depends upon its acceptance by the minority stockholders because the Pennsylvania has not obligated itself to carry any part of it into effect unless the owners of a satisfactory amount of the stock of the Long Island R. R. held by others than itself consent to its terms and agree to exchange their stock for debenture bonds.

*(2) Equipment Trusts.—It was announced Feb. 5, 1917, that this company had asked the New York Second District Public Service Commission for authority to execute the company's equipment trust series B and also to guarantee \$940,000 in 4 1/4% equipment trust certificates.

*(3) Letter to Stockholders.—It was announced Feb. 13, 1917, that letters were being sent to stockholders of this company setting forth the offer of 20-year 5% debentures for the minority stock, par for par, as previously made public. Assenting stock is required to be deposited with the United States Mortgage & Trust Co. on or before March 23. The bonds are to be issued as soon as the legal requirements permit.

*(4) Grade Crossing Elimination.—It was announced Feb. 27, 1917, that, after an expenditure of \$596,692, this company had completed the elimination of grade crossings at Fresh Pond Road, Metropolitan Ave. and Bushwick Junction, in Queens Borough, New York City. The New York First District Public Service Commission has, therefore, adopted a resolution authorizing a certificate of completion of the work, and the payment of certain balances due by the city and the State to the railroad company on this work. While the expenditures of the company reached almost \$600,000, it has been found that only \$482,345 were proper charges necessitated by the elimination.

Under the grade crossing elimination law, 50% of the amount expended must be borne by the railroad company, 25% by the city, and 25% by the State. In addition to 50% of \$482,345 the railroad company must also pay \$114,347, which is the difference between the actual cost of the elimination and the total cost of the work, which represents the purchase of property, certain alterations to structures, and betterments made.

The report of the chief engineer of the commission shows that \$40,050 is due to the railroad company from the State, and \$34,048 is due from the city on this work, partial payments having already been made by the city and State. The commission ordered the payment of these amounts.

January gross	\$1,051,065	\$968,369
Net after taxes	130,407	108,713

*(2) Accounting Proceedings.—It was stated at New York March 19, 1917,

JANUARY 1 TO APRIL 30, 1917

that a decision in the suit of Dick Bros. & Co., as minority stockholders, against this company, likely would be handed down the week of March 18 by Judge Lehman, who tried the case in April and June, 1916, in the Supreme Court. The suit is for an accounting of \$28,000,000 alleged to have been spent illegally by the company.

It is alleged in the bill of complaint that the Long Island R. R. Co. paid the amount to the Pennsylvania R. R. Co., which expended the money in connection with Long Island R. R. Co. properties.

*(3) **Suit for Receiver Dismissed.**—It was announced at New York March 20, 1917, that Supreme Court Justice Lehman had dismissed the complaint of Evans R. Dick, of the Dick Bros. Co., and other minority stockholders of the Long Island R. R., who brought suit against the Pennsylvania R. R. Co. and other majority stockholders of the Long Island for the purpose of having a receiver appointed and the line "reimbursed" for \$28,000,000, which the plaintiffs maintained had been diverted from a proper use.

The money was devoted, according to the testimony, to the construction of new stations, the improvement of roadway and the introduction of new rolling stock. Counsel for the Pennsylvania contended that this was part of a far-sighted policy which would result in a great improvement to the Long Island service.

*(4) **Report, Year Ended Dec. 31, 1916,**
shows:
1916 1915
Gross ----- \$14,971,838 \$13,553,780
Net ----- 4,837,036 4,220,227
Surp. after chgs. 241,735 161,150
P. and L. def. 7,064,435 7,133,980
†Deficit.

*(5) **Earnings on Stock.**—It was stated March 20, 1917, that this company's 1916 surplus after charges of \$241,735 is equal to 2.01% on \$12,000,000 stock.

*(6) **Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss deficit of \$7,064,435, compared with \$7,133,980 Dec. 31, 1915.

*(7) **Statement by President.**—It was announced March 20, 1917, that Pres. Ralph Peters of this company, in his annual remarks to stockholders, said, in part: "Passenger business created by new route to Pennsylvania Station continues to increase. Passengers handled in and out of the station amounted to 13,224,258, an increase of 1,410,746. Increase in commuters to and from all terminals was very large. In addition to profiting by increased export tonnage, your company was able to play a large part in relieving freight congestion at New York terminals.

"Operating expenses increased \$800,285. General wage adjustments were made amounting to \$300,000. Total paid to employees was \$6,708,883, which represents 44.8% of gross and 67.5% of total expenses.

"The Public Service Commission authorized the issue of \$1,252,048 debentures, the Pennsylvania Co. taking them at par on account of advances heretofore made for improvements.

"A new issue of equipment trust notes aggregating \$940,000 will be made early in 1917 to cover the cost of new equipment to be delivered this year.

"Particular attention is directed to the plan to strengthen the credit of your company, which has been submitted to the stockholders but which cannot become effective without their co-operation and the deposit of their stockholdings. A special meeting has been called for March 29 in order that stockholders may consider the subject and, if it meets their approval, may authorize such steps as may be necessary to make the plan effective.

"Effective Jan. 16, 1917, Mr. Samuel Rea resigned as a director of your company, and Mr. A. J. County was elected by the board to fill the vacancy."

*(8) **Debenture Bond Offer Accepted.**—It was stated March 26, 1917, that minority stockholders of this company, represented by the committee of which Evans R. Dick is chairman, have accepted the offer of the company's 5%

debenture bonds, dollar for dollar, and have deposited their stock, approximately 9,100 shares, for exchange. Another block of stock of about 13,000 shares, it is understood, has also been deposited. The railroad is expected to declare the plan for the readjustment of its capital organization effective within a day or two.

Long Island R. R. will probably apply to the Public Service Commission for authority to issue the debenture bonds and the required amount of additional stock to convert the bonds and claims for capital advanced, held by the Pennsylvania R. R., into stock.

*(9) **Application to List Stock.**—On March 23, 1917, the New York Stock Exchange received application to list \$5,202,100 of this company's capital stock.

*(10) **Equipment Trust Certificates Authorized.**—On March 27, 1917, the New York Public Service Commission for the Second District authorized issues of equipment trust certificates by the Long Island R. R. and the New York, Chicago & St. Louis. Long Island will spend \$1,175,000, and Nickel Plate \$4,280,000.

The Long Island will issue \$940,000 4½% certificates at 98½, to net \$925,000, paying balance, \$249,000, in cash from the treasury. Its certificates will mature semi-annually for ten years.

Nickel Plate will issue \$3,800,000 4½% equipment trust certificates, maturing serially for from ten to fifteen years, to be sold at not less than 95, netting \$3,610,000. The company will pay the balance of \$670,000 in cash from the treasury.

*(11) **Rate Increase Allowed.**—On March 26, 1917, the New York Public Service Commission for the Second District granted the company permission to increase its mileage-book rate from 2 cents to 2½ cents a mile. The commission found that in the last ten years the road's passenger business has not earned a fair return. The company asked for a book rate of 2½ cents per mile.

*(12) **Plan Approved.**—A special meeting of the stockholders of this company was held on March 29, 1917, to act upon a resolution of the directors increasing the capital stock from \$12,000,000 to \$40,000,000. There were represented by person and proxy 171,892 shares out of an outstanding issue of 240,000 shares, all of which was voted in favor of the resolution. The meeting was entirely routine and no one was present outside of representatives of the company.

Dick Brothers & Co., who recently deposited their stock in favor of the financial plan, sent their proxy to be voted in favor of it.

The directors met and took necessary action on an application to be filed promptly with the New York Public Service Commission for the Second District, asking for authority to issue the increased amount of capital stock and also the \$5,202,100 debentures provided for in the plan and which are to be taken by the Pennsylvania R. R. in payment of advances made to the Long Island.

As soon as the authority is granted by the commission the actual issuance of the new securities and the exchange of the old ones will take place. A large amount of the old stock has already been turned in in favor of the plan. It is expected that practically all of the minority holdings will soon be deposited.

*(2) **Stock and Bond Issue to Reimburse Pennsylvania.**—On April 14, 1917, this company and the Pennsylvania R. R. Co. applied to the New York Second District Public Service Commission at Albany for authority to increase the capital

stock of the former from \$12,000,000 to \$40,000,000 and to issue not exceeding \$25,477,863 of the increase. The Long Island also asked authority to issue \$5,202,100 in 5% debenture bonds to be delivered to the Pennsylvania in part payment of sums advanced by the controlling road.

The Pennsylvania asked authority to acquire all of the new stock to be issued by the Long Island in settlement of the remainder of the sums advanced, and to acquire all or any part of the existing stock of the Long Island it does not already own.

This application is in accordance with the plan of settlement between the minority stockholders of the Long Island and the Pennsylvania R. R., by which the former are to receive the 5% debentures in exchange for their stock.

*(3) **Possession of Stock by Pennsylvania Assured.**—See Pennsylvania R. R. Co.—Item No. 13.

*(4) **Capital Increased to \$40,000,000.**—On April 27, 1917, this company filed notice at Albany, N. Y., that it had increased its capital from \$12,000,000 to \$40,000,000.

LOOKOUT KNITTING MILLS.

*(1) **New Company Organized.**—It was announced Jan. 8, 1917, that this company had been organized, with E. B. Thomasson, Pres.; A. S. Revierle, Vice Pres., and E. M. Thomasson, Sec. Treas.

The company has leased 140x60 feet three-story mill building and 50x30 feet dye house of concrete construction, and will install twelve knitting machines, sewing machines, electric power drive, etc., at Chattanooga, Tenn., costing \$30,000.

LOOKOUT OIL & GAS CO. (THE).

*(1) **Incorporated** on April 19, 1917, in Delaware, with a capital of \$1,000,000, to acquire and develop oil and gas lands. Incorporators: Chas. G. Guyer, S. E. Becker and C. M. O'Hara, Wilmington, Del.

LOO LICK OIL CO., DOVER, DEL.

*(1) **Incorporated** in March, 1917, in Delaware, with a capital of \$250,000, to engage in an oil business.

LOOSE-WILES BISCUIT CO.

*(1) **Earnings Statement, Year Ended Dec. 31, 1916,** compares as follows:

	1916	1915
Net profits-----	\$1,028,216	\$386,371
Total income-----	1,057,994	422,371
Surp. after chgs. & 1st and 2d pf. divs.-----	408,201	1221,507
†Deficit.		

*(2) **Earnings on Stock.**—It was stated Feb. 24, 1917, that this company's 1916 surplus of \$408,201 is equal to 20.41% on the \$2,000,000 on the 2d pf. stock.

*(3) **Comment on Annual Report.**—On Feb. 24, 1917, the "Wall Street Journal" said that this company earned close to 5½% on its \$8,000,000 common stock in the year ended Dec. 31, 1916, after allowing for payment of the 7% dividend on the \$4,915,000 1st pf. stock and for the full 7% dividend on the \$2,000,000 2d pf., which dividend, however, was not paid. This is considered a surprisingly good showing in view of the high price of flour during the year and the failure of the market price of some of the company's products to make a relative advance. In the year ended Dec. 31, 1915, the company showed a deficit of \$221,507 after payment of the 1st pf. dividend. In the previous year it showed a surplus of \$13,500 after payment of the 1st and 2d pf. dividends.

The Loose-Wiles Company presents this year a clean balance sheet. The deferred charges of previous years have been wiped out and in their place is a prepaid expense of \$120,612. Deferred charges at the close of 1915 were \$259,757 and they were \$391,292 in 1914. Current assets are shown at \$5,804,710 and current liabilities at \$5,575,279. Working capital is thus shown to be about \$2,250,000.

JANUARY 1 TO APRIL 30, 1917

As a result of 1916 operations, Loose-Wiles is fully established in its field.

—Mar.

*(1) Directors Re-elected.—Announced March 12, 1917, that at the annual meeting of this company retiring directors were re-elected.

—Apr.

*(1) Prices of Products Increased.—On April 17, 1917, this company announced that it had raised its prices on 5, 10, 15 and 25-cent packages to 6, 12, 20 and 30 cents, respectively.

LORAIN COAL & DOCK CO.

*(1) Officers.—It was announced Feb. 16, 1917, that this company had elected Edward Johnson, chairman; Fred W. Braggins, Pres.; Roy L. Wildermuth, Vice-Pres. and Gen. Mgr.; R. L. Phelps, Sec'y and Treas., and W. M. Amos, Asst. Sec'y and Treas.

LORAIN CONSOLIDATED MINES.

*(1) New Vein Developed.—On April 19, 1917, the "Toronto World" said word had been received that the vein on the lower level of the Lorain Consolidated in the South Lorain district of the Cobalt camp gives every indication of developing silver values. The vein carries the typical smallite of Cobalt, and it has been the experience all over the camp that veins of this character become producing ore bodies as work proceeds.

LORAIN COUNTY ELECTRIC CO.

*(1) Lease.—It was announced Jan. 15, 1917, that this company, a subsidiary of Cities Service Co., had leased, with the privilege of purchase, the Citizens Gas & Electric Co., of Lorain, O. Current for Lorain will be furnished from the new central station of the Lorain County Electric Co.

While Lorain has a population of 33,000, there are less than 900 electric meters in the city.

LORAIN & WEST VIRGINIA R. R.

*(1) Sale Planned.—See Wheeling & Lake Erie Ry. Co.—Item No. 4.

● LORILLARD (P.) CO.

*(1) Cigarette Price Advance.—Announcement was made Jan. 8, 1917, that this company, the largest manufacturer of Turkish cigarettes in the United States, had advanced the price of Turkish brands all the way from 45 cents to \$1 a thousand. An immediate advance by the retailers throughout the country may be expected.

—Mar.

*(1) Extra Dividend on Common.—Announced March 7, 1917, that this company had declared the regular quarterly dividend of 3% on the common and 1% on the pfd., also an extra dividend of 6% on the common, payable April 2 to stock of record March 17. A year previously 5% extra was declared on the common stock.

*(2) Report, Year Ended Dec. 31, 1916, shows income account as follows:

	1916	1915
Net income.....	\$5,874,077	\$4,820,913
Bal. after chgs.		
& pfd. divs.....	3,813,293	2,755,330
Surp. after bond prem. & com. divs.	1,215,973	766,417

*(3) Earnings on Stock.—It was stated March 13, 1917, that this company's 1916 balance after pfd. dividends of \$3,813,293 is equal to 25.15% on \$15,155,060 common stock, compared with 18.18% earned on the same stock in 1915.

*(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$5,642,004, compared with \$4,426,031 Dec. 31, 1915.

LORTEX CO.

MANHATTAN, N. Y.

*(1) Capital Increased.—On Jan. 18, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$350,000 to \$700,000.

LOS ANGELES CREAMERY CO.

*(1) \$400,000 Bond Issue Permit Granted.—On April 20, 1917, the "San Francisco Chronicle" stated that California Commissioner of Corporations H. L. Carnahan, had granted this company permission to issue \$400,000 first mortgage bonds, to be sold for cash, to net the company not less than 90. The proceeds are to be used for payment of indebtedness to the amount of approximately \$167,000, the remainder to go into the extension of the business.

LOS ANGELES GAS & ELECTRIC CORP.

*(1) Report, Year Ended Dec. 31, 1916.—Report for the year 1916 showed gross of \$4,802,344, and net, including non-operating income, \$1,452,777. Total deductions, including interest, were \$446,422, which, with payment of dividends of \$720,000, left total surplus Jan. 1, 1917, of \$381,220, compared with \$94,035 on Jan. 1, 1916.

LOUISIANA CONSOLIDATED MINING CO.

*(1) New Director.—Announced Jan. 8, 1917, that Julius Siegbert had been elected a member of the Board of Directors of this company.

*(2) New Director.—It was announced Jan. 20, 1917, that James E. Osborn, of Fall River, Mass., Treas. of the Merchants' Mfg. Co. and of the American Linen Co., had been elected a director of this company.

—Feb.

*(1) Development.—See Nevada Smelting & Mining Corp.—Item No. 1.

*(2) Shipments.—It was announced Feb. 16, 1917, that this company had purchased a number of duplex trucks for immediate delivery at the Tybo and Tonopah mines, where shipments would be started by March 15, 1917, the first shipments to consist of silver, lead and gold averaging a net profit of over \$20 a ton. It is planned to ship ore from the 300 and 400-ft. levels later.

LOUISIANA EXPLORATION CO., INC., RICHMOND, VA.

*(1) Incorporated on Jan. 23, 1917, in Virginia, with a maximum capital of \$12,000,000 and a minimum \$1,000, par \$100. Incorporators: Harry H. Phillips, Pres., and Chas. J. Horn, Sec'y and Treas., both of Chicago, Ill.

LOUISIANA GAS CO.

*(1) Operation Plans.—See Louisiana Gas & Fuel Co.—Item No. 1.

LOUISIANA GAS & FUEL CO.

*(1) New Company.—It was announced Feb. 14, 1917, that extensive natural gas developments in the Louisiana field had been planned by this company, capital \$2,000,000, which had been chartered, with offices at Shreveport, La. It was stated that Honore Palmer, of Chicago, likely would be Pres., and O. A. Wright, of Shreveport, Vice-Pres. and Gen. Mgr. With these two, Potter Palmer, Jr., of Chicago, Francis T. Homer, George Bullock and E. G. Connette, of New York, are directors.

The purpose of the company is the purchase of all the natural gas properties of the Atlas Oil Co., Shreveport, embracing 21,000 acres of proven gas territory and believed to contain probably 600,000,000,000 cubic feet of natural gas.

The plans include furnishing gas under a long-time exclusive contract to the Louisiana Gas Co., to supply natural gas to large prospective consumers for industrial purposes, to build the necessary pipe lines for connecting the gas fields with the lines of the Louisiana Gas Co. at Shreveport and with a new industrial centre near Shreveport.

LOUISVILLE BRIDGE CO.

¹(1) Appeal Denied.—It was announced at Washington Jan. 8, 1917, that the appeal of this company on the injunction by the United States Secretary of War to prevent the construction of a bridge across the Ohio River at Louisville, Ky., on the ground that it would unreasonably obstruct navigation, had been denied by the United States Supreme Court.

LOUISVILLE GAS & ELECTRIC CO.

¹(1) Record Gains in 1916.—It was stated Jan. 5, 1917, that this company, a subsidiary of Standard Gas & Electric Co., made record gains in the electrical business in 1916.

Dec. 29, 1916, there were 4,357 more electric customers on its books than on Jan. 1 of the year. The gain in business includes 2,680 kilowatts of lighting and 2,637 horsepower in motors. Aggressive commercial department efforts were largely responsible for the new business gains, as 2,709 of the new electric customers were secured by the wiring of already built houses through contracts taken by this department. There are now over 30,000 houses in Louisville wired for electric service, and according to a recent canvass there remain 19,000 which are unwired.

The company's new business gains in the gas department for the year include 2,007 customers. The natural gas output, which has been running ahead of the increase in customers, is due to the largely increased use of gas for heating purposes. This, in turn, was due to the efforts of the commercial department, which secured during the year contracts for 4,842 gas-heating appliance installations.

—Mar.

²(1) Increase in Electrical Output.—See Standard Gas & Electric Co.—Item No. 8.

²(2) Gain in Output.—See Standard Gas & Electric Co.—Item No. 9.

—Apr.

⁴(1) Gain in Light and Power Customers.—It was stated that the commercial department of this company during the week ended March 31 secured 154 new electric light and power customers with 100 kilowatts of lighting and 33 horse-

power in motors, and took contracts for wiring 63 already built houses. New business connected to the company's lines includes 76 customers with 42 kilowatts of lighting and 16 horsepower in motors. Electric energy output shows an increase of 6.0% over the corresponding week of 1916. In the gas department there was a gain of 65 customers and contracts were closed covering 46 gas-heating appliance installations. Gas output for the week shows an increase of 16.3%.

¹(2) Pig Iron Rate Unreasonable.—It was announced at Washington Jan. 8, 1917, that the Interstate Commerce Commission had held that the rate of \$2 per long ton for transportation of pig iron in carloads from Birmingham, Ala., to Nashville, Tenn., over the Louisville & Nashville, was unreasonable to the extent that it exceeded a rate of \$1.65. Present rates to Nashville from Birmingham and other Southern producing points were ordered maintained as maximums for the future.

Net after taxes....	1,927,880	1,571,788

³(2) To Avoid Flood Damage.—It was stated March 8, 1917, that this company had prepared plans for a general improvement of its lines between New Orleans, La., and Pascagoula, Miss., 100 miles, at an estimated cost of \$4,000,000.

The general purpose is to raise the tracks sufficiently to place them from five to seven feet above the highest flood-water mark ever known along the Gulf coast in that region. This will also necessitate raising all the bridges on the line, which skirts the shores of Mississippi Sound, including the bridge over Lake Borgne, near New Orleans.

It had been contemplated to build an entirely new bridge over Lake Pontchartrain, farther removed from the sea, but this would have required a revision of line.

⁴(2) Retiring Directors Re-elected.—Announced April 4, 1917, that at the annual meeting of this company retiring directors were re-elected.

⁴(3) Report, Year Ended Dec. 31, 1916, shows net earnings amounting to \$116,962,810, an increase of \$5,825,909 over the preceding year. Gross operating revenues amounted to \$64,928,120, as compared with \$54,023,979 in 1915.

⁴(4) Protest Against New Meeting Date.—Stated on April 6, 1917, that Alonza E. Cottler, of New York, had entered a protest at Louisville & Nashville stockholders' meeting announcing the change in date of annual meeting, on the ground that it did not give sufficient time for them to prepare and properly present matters to the meeting. Behind this protest is said to be an effort to induce a large number of the stockholders to join in a movement to compel directors to increase the dividends or otherwise make a distribution of the surplus of the company.

⁴(5) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross revenue....	\$64,928,121	\$54,928,979
Net oper. inc....	20,430,866	13,275,690
Other income.....	5,250,105	3,640,621
Surp. after fixed chgs.	17,062,285	8,231,269
Per cent. on stk.	23.72	11.44

⁴(6) Comment on 1916 Report.—On April 16, 1917, the "Wall Street Journal" said that the showing made by this company for the year ended Dec. 31, 1916, was the best in the history of the system.

Gross earnings totaled \$64,928,121, a gain over 1915 of \$10,904,142, or 20%. Freight brought in \$47,727,974, an increase over the previous year of \$8,350,202, or 21.1%, and the passenger end of the business produced \$12,700,970, a gain of \$1,003,987, or 8.7%.

As a result of economies put into operation soon after the beginning of the war, which caused a collapse in earnings of southern lines, Louisville & Nashville is rapidly coming into its own. Earning \$23.72 a share on 719,172 shares of outstanding stock, the company was able to add \$16,962,810 to profit and loss account, compared with \$8,136,902 the year before.

⁴(7) New Road Incorporated.—See North Georgia Mineral Ry. Co.—Item No. 1.

⁴(8) Extension Contract Let.—On April 21 the "Railway Review" stated that this company had let a contract for an extension of the Clover Fork branch of the Kentucky & Virginia R. R., from Kilday to Seagrave Creek, including a mine spur up Seagrave Creek, a total of about 8½ miles.

LOUISVILLE PILLOW CO.

¹(1) Capital Increase.—In January, 1917, this company filed notice at Frankfort, Ky., of an increase in capital stock from \$100,000 to \$250,000.

LOUISVILLE RY. CO.

⁴(1) Dissolution of Holding Company to Be Consummated.—See Louisville Traction Co.—Item No. 1.

LOUISVILLE TOBACCO WAREHOUSE CO.

⁴(1) Dividend Resumed on Preferred.—On April 14, 1917, the "New York Chronicle" said this company had declared a semi-annual dividend of 4%, payable May 4. This is the first dividend declared on this stock since May, 1914.

LOUISVILLE TRACTION CO.

⁴(1) Dissolution Plans to Be Carried Out.—It was stated on April 9, 1917, that since the will of the late Lady McDonnell had been probated in New York, plans for the dissolution of this company, a New Jersey corporation and the holding company for the stock of the Louisville Ry. Co., were expected to be carried out rapidly.

The Lady McDonnell stock was that of the late Henry Alexander Davis and the dissolution of the holding company could not be carried out until its status was established, as there was more than \$3,000,000 of it. This stock was willed to Frederick S. Wicks, of Syracuse, N. Y., a grandson of the late Mr. Davis.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Mr. Wicks is a director of Louisville Traction Co. and executor of the estate.

The holding company is to be dissolved as a measure of economy, as it will result in the saving of between \$35,000 and \$40,000 annually in Federal and State taxes. The dissolution will be effected by exchanging the preferred stock of Louisville Traction par for par for the preferred stock of Louisville Ry. and Louisville Traction common for Louisville Ry. common on a basis of two shares of the latter for three shares of the former, thus reducing the capitalization from \$12,000,000 to \$8,000,000. The present dividend rate on Louisville Traction common is 4%, while the rate on the Louisville Ry. common to be exchanged for it will be 6%, and under this plan holders of Louisville Traction common will suffer no reduction in income from the exchange.

LOVELL-BUFFINGTON TOBACCO CO., COVINGTON, KY.

*(1) Capital Increased.—On April 2, 1917, the company filed notice at Frankfort, Ky., of an increase in capital stock from \$245,000 to \$365,500.

LOVEMAN, JOSEPH & LOEB, MANHATTAN, N. Y.

*(1) Capital Reduced.—On Feb. 19, 1917, the company filed notice at Albany, N. Y., of a reduction in capital stock from \$3,000,000 to \$2,622,000.

LOWE (GEO. A.) CO., OGDEN, UTAH.

*(1) Status (April, 1917).—On April 9, 1917, "Boston News Bureau" had the following: "Not being a manufacturing country, we cannot see wherein conditions will be materially changed whether the war stops or not, as we think there is going to be a demand for raw material for some time to come. We do not think the price of minerals is going to drop very materially, neither do we look for much of a drop in the price of grains or in livestock. So far as the inter-mountain country is concerned we see no reason why we should not have several years of good business. We see wherein possibly the end of the war might affect manufactured products, but in a section of the country where they are dependent all together on raw materials we cannot see where conditions are going to materially change."

"The volume of business the past year has been good and collections were good. We had to increase our working force about 25% over the year previous. There is possibly one item that might be affected in this territory by a cessation of hostilities and that is the sugar business, but this will not affect the farmers for this coming year for the reason that the sugar factories have already made contracts with the farmers agreeing to pay them \$7.00 per ton for beets whereas they only paid them \$5.50 per ton last year. These contracts are closed so far as the farmer is concerned and his beets are sold before they are planted."

LOW MOOR IRON CO.

*(1) Pig Iron Rate Controversy Settled.—Announcement was made at Washington, Jan. 10, 1917, that, issuing a supplemental decision in the case of this company, of Virginia, and others against the Chesapeake & Ohio and other railroads, the Interstate Commerce Commission had prescribed the divisions of joint rates on pig iron in carloads from certain Virginia furnaces to Baltimore, Philadelphia, New York, Boston and other points. In the previous decision the Commission ordered the roads to make reductions in these rates.

The divisions under these reductions were made upon the petition of the Norfolk & Western and the Chesapeake & Ohio railroads, which were unable to agree upon such divisions among themselves. The divisions found reasonable by the Commission are in the same proportion as were the divisions between the roads prior to the reductions ordered.

LOWNEY (WALTER M.) & CO.

*(1) Financial Condition.—It was announced April 2, 1917, that this company, incorporated under the laws of Massachusetts, had filed with the Massachusetts Secretary of State a statement of its financial condition, dated Dec. 31, 1916, which compares as follows:

	1916	1915
Assets—		
Real estate.....	\$293,000	\$556,061
Machinery and equipment	139,298	446,847

Profit and loss.....	595,479	486,745
Accruals	74,172	56,223
Total	\$2,237,861	\$2,158,357

LOZIER (H. A.), CLEVELAND, O.

*(1) Capital Reduced.—On April 18, 1917, the company filed notice at Columbus, O., of a reduction in capital stock from \$700,000 to \$70,000.

LUBEC SARDINE CO.

*(1) Sale of Plant.—See Booth Fisheries Co.—Item No. 5.

LUBRICATING METAL CO. (THE), NEW YORK.

*(1) Capital Increased.—On March 28, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$100,000 to \$500,000.

LUCE AUTO POWER CO.

*(1) Incorporated on April 3, 1917, in Delaware, with a capital of \$1,000,000, to manufacture, sell and deal in automobiles and parts. Incorporators: G. M. Brooks, New York; L. P. Van Duzer, Brooklyn, and M. F. Barr, Woodlawn, N. Y.

LUCE FURNITURE CO., GRAND RAPIDS, MICH.

*(1) Capital Increased.—It was announced March 16, 1917, that this company had increased its capital stock from \$250,000 to \$400,000.

LUCKY JACK CONSOLIDATED

MINING CO., SPOKANE, WASH.

*(1) Incorporated on March 10, 1917, in Washington, with a capital of \$1,500,000. Incorporators: Jas. Welch, P. T. McCurry and W. B. Pool.

LUCKY JIM ZINC MINES, LTD.

*(1) Control Sold.—It was stated Jan. 13, 1917, that control of this company had been secured by Walter J. Nichols, of Spokane, Wash., and associates. Arrangements have been made for the issuance of \$150,000 in bonds, which, it is believed, will be sufficient to pay off all liabilities. Andrew J. Larson has been retained as manager.

LUCKY STAR OIL CO., INC., NEW YORK.

*(1) Capital Increased.—On Jan. 17, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$50,000 to \$250,000.

LUCKY TIGER CONSOLIDATED

MINING CO.

*(1) Dividend Reduced.—Announced that this company on Jan. 20, 1917, paid a monthly dividend of 9 cents, which was a reduction of 1 cent from the last previous payment.

LUDINGTON MACHINE CO., WATERBURY, CONN.

*(1) Incorporated on Feb. 13, 1917, in Connecticut, with a capital of \$350,000, to manufacture machinery and tobacco products. Incorporators: F. E. Ludington, E. V. Ludington and H. G. Reynolds.

LUDLOW MANUFACTURING ASSOCIATES.

*(1) Special Dividend.—Announced Jan. 12, 1917, that this company had declared the regular quarterly dividend of \$1.50 a share and a special of \$1 a share, payable Feb. 1 to stock of record Jan. 12.

*(2) Most Successful Year.—On Jan. 25, 1917, the "Boston News Bureau" said that 1916 was the most successful in the history of this company. Sales of \$10,300,000 were 20% in excess of the previous best figures. Net earnings of rising \$2,000,000 were twice the 10% or \$1,000,000 dividends and by far the largest on record.

The new year promises as well for Ludlow. Demand is very brisk and indications are that the 1917 gross will exceed that of 1916. All departments are running full time, about 3,100 men being employed, as against some 2,500 in 1915.

—Apr.

*(1) Special Dividend of \$1.—The "Daily News Record," New York, April 19, 1917, said this company had declared the regular quarterly dividend of \$1.50 and a special dividend of \$1 a share, payable June 1 to stock of record May 1.

LUKIN SALVAGE & SHIPPING CORP.

*(1) Incorporated on April 23, 1917, in Delaware, with a capital of \$500,000, to locate and recover sunken ships and other cargoes and improve waterways. Incorporators: S. B. Howard, Arthur W. Britton and Harry R. Davis, New York.

LUKENS IRON & STEEL CO.

*(1) Formation of New Company.—See Lukens Steel Co.—Item No. 1.

LUKENS STEEL CO.

A complete description of this company appears in the "Miscellaneous Book" in your card cabinet.

*(1) Statement by President.—A statement issued by Pres. A. F. Huston, it was announced Jan. 5, 1917, said in part:

"In the 14 months ended Dec. 31, 1916, the net profits of the old company were \$1,000,000; in the year 1911, \$300,000; in 1912, \$850,000; in 1913, \$1,300,000; in 1914, \$150,000; in 10 months ended Oct. 31, 1915, \$300,000; and in 1916, \$3,000,000. Estimates based on the orders now on

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

the company's books place the net profits for 1917 at not less than \$8,000,000. The total net tangible assets of the company are in excess of \$10,000,000 including net quick assets of \$5,000,000.

"The new extensions that are being made to the plant represent an investment during the past year of \$1,300,000, with approximately \$1,500,000 yet to be expended to complete them. The capacity of the plant is now approximately 300,000 tons of plates per annum.

"With the completion of the new open-hearth furnace plant (four furnaces built in 1916 and two to be ready in February) and the new 204-inch plate mill, this capacity will be increased to approximately 450,000 tons per annum."

The company is successor to the Lukens Iron & Steel Co., Coatesville, Pa.

—Feb.

¹(1) Capital Increase Permit Sought.—Announced Feb. 19, 1917, that this company, Coatesville, Pa., had asked the Pennsylvania Public Service Commission for authority to increase its capital stock to \$22,500,000.

—Mar.

¹(1) Formation of New Company.—On March 29, 1917, this company made the following announcement: "The formation of Lukens Steel Co. to continue the business formerly carried on by the Lukens Iron & Steel Co. does not indicate any change of management or policy. The business of the Lukens Iron & Steel Co. has been steadily growing since it was founded in 1890, until it had reached a size out of all proportion to its nominal capital. A reorganization has been effected by the organization of a new company with a capital more nearly approaching the actual value of the business, and this company has acquired the assets of the old business with the same persons holding the controlling interest in the stock and in the management. The policy always pursued by the company of maintaining under all circumstances the standard of its products will be continued as well as the policy of keeping its mills and machinery up to the highest standard of efficiency and capacity demanded by the progressing conditions of the trade."

LUMBER, TIE & TIMBER VULCANIZING CO., NEW YORK.

¹(1) Capital Increased.—On March 15, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$1,000,000 to \$5,000,000.

LUPTON'S (DAVID) SONS CO.

¹(1) Sale of Stock.—It was announced March 6, 1917, that Morris Bros. & Co., Philadelphia, had offered the unsold balance of this company's new issue of \$1,000,000 7% cumulative pfd. stock at 98 and accrued dividends. The stock is pfd. as to dividends and assets, is tax-free in Pennsylvania and is redeemable on 90 days' notice at 110.

LUTHER MANUFACTURING CO.

¹(1) Increased Dividend.—Announced Jan. 16, 1917, that this company had declared a quarterly dividend of 5%, payable Feb. 1 to stock of record Jan. 15. It had been the custom to declare regular quarterly dividends of 2%.

LYMAN, LAY & CO., KEWANEE, ILL.

¹(1) Capital Increased.—On Jan. 8, 1917, the company filed notice at Springfield, Ill., of an increase in capital stock from \$300,000 to \$400,000.

LYMAN MILLS.

¹(1) Extra Dividend.—Announced Jan. 24, 1917, that this company had declared the regular semi-annual dividend of 3% and an extra of 1%, payable Feb. 1 to stock of record Jan. 24.

LYMAN TIMBER CO., SEATTLE.

¹(1) Incorporated on Jan. 5, 1917, in Washington, with a capital of \$1,000,000. Incorporators: E. G. English, Seattle;

A. K. English, Seattle; N. A. English, Anacortes; W. C. Butler and L. L. Crosby, all of Everett.

LYONS (CITY OF).

¹(1) Bonds.—See Bordeaux City of.—Item No. 1.

—Apr.

¹(1) Bonds Listed in New York.—The New York Stock Exchange announced April 19, 1917, that it had admitted to the list \$12,000,000 City of Lyons 6% three-year bonds, due Nov. 1, 1919.

LYRA PHONE CO. OF AMERICA, NEW YORK.

¹(1) Capital Increased.—On March 30, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$150,000 to \$250,000.

¹(2) Capital Increased.—On April 17, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$250,000 to \$2,100,000.

MacANDREWS & FORBES CO.

¹(1) Extra Dividend on Common.—Announced March 15, 1917, that this company had declared a regular quarterly dividend of 2½% and an extra of 2½% on the common stock; also a regular quarterly dividend of 1½% on the pfd. All dividends are payable April 16 to stock of record March 31.

MacAULEY (C. E.) PHOTO PLAYS, INC.

¹(1) Incorporated on March 19, 1917, in Delaware, with a capital of \$500,000, to conduct plays of amusement of all kinds. Incorporators: A. W. Britton, S. B. Howard and L. H. Gunther, all of New York.

MACBETH-EVANS GLASS CO., PITTSBURGH.

¹(1) Capital Increase Planned.—On April 21, 1917, the "Chronicle," New York, stated that stockholders of this company would vote June 21, 1917, on increasing the capital stock from \$2,000,000 to \$5,000,000.

MACDONALD (A.) CO., LTD.

¹(1) To Be Stricken from Toronto Exchange.—It was announced Jan. 24, 1917, that the common stock of this company would be stricken from the Toronto Stock Exchange on April 1 because it had not complied with the requirements of the Exchange to maintain a register and transfer office at Montreal.

—Mar.

¹(1) Preferred Dividend Withheld.—Stated on March 26, 1917, that the annual report was being mailed to shareholders. It conveys the information that no dividend will be paid this year to holders of the preferred stock. The directors, however, intimate that in another year's time a distribution on this stock may be expected, depending on the state of business. The statement also indicates that the directors will make no further effort at the present time to secure a reduction in the amount of common stock. Earnings of the company were about \$65,000 in excess of those of the previous year, amounting to \$219,015. The bank loans of the company were about \$65,000 in excess of 503,000. There is, however, a much larger increase in the corresponding inventory account.

MACEY-RODGERS CO.

¹(1) Incorporated on March 16, 1917, in Delaware, with a capital of \$250,000, to conduct a general mail order business. Incorporators: S. B. Howard, A. W. Britton and Harry B. Davis, New York.

MACHINERY WAREHOUSE & SALES CO.

¹(1) Incorporated on March 14, 1917, in Delaware, with a capital of \$1,000,000, to manufacture machinery of all kinds. Incorporators: H. W. Cooley, Benjamin E. Sherman and H. A. Cooley, all of Chicago.

MACKEY CO.'S (THE).

¹(1) Report, Year Ended Feb. 1, 1917, shows income from investments of \$4,683,265, a new high record. In the preceding year the figures were \$4,274,941. Dividends paid on pfd. and common shares amounted to \$4,069,000. Operating expenses were \$53,799, leaving a balance of \$537,445.

¹(2) Income Account, Year Ended Feb. 1, 1917, compares as follows:

	1917	1916
R. receipts	\$4,683,265	\$4,274,941
Bal. aft. chgs. & pfd. divs.	2,626,465	2,219,200
Surp. after com. divs.	557,445	150,180

¹(3) Earnings on Stock.—It was stated Feb. 15, 1917, that this company's balance of \$2,626,465, after pfd. dividends, is equal to 6.34% on the \$41,389,400 common stock, compared with 5.36% earned on the same stock in the preceding year.

¹(4) Balance Sheet, as of Feb. 1, 1917, shows as follows: Assets, investments in other companies, \$92,005,444; cash, \$1,288,299; total, \$93,293,744.

Liabilities, pfd. shares issued, \$50,000,000; common shares issued, \$41,389,400; surplus, \$1,913,344; total, \$93,293,744.

¹(5) Statement by President.—It was stated Feb. 15, 1917, that Pres. Clarence H. Mackay, of this company, in his annual remarks to stockholders, said, in part: "A higher rate of dividends and interest, even from the best of securities, is now necessary if such securities are to retain a reasonable market value and satisfy investors, and as the earnings of your company fully warrant, your trustees have under consideration the advisability of increasing the dividend upon the common shares from 5% to 6% per annum, or 1½% per quarter instead of 1¼% hitherto paid.

"Out of the dark background of the war the value and stability of submarine cable property stands out prominently. The service which it is rendering is inestimable. In the prime factors of secrecy, speed and accuracy it has no rival. Its position is strengthened rather than weakened by the results of wireless telegraphy. The few weak incursions of wireless into the wire domain are only of momentary interest."

—Mar.

¹(1) Dividend Increased on Common.—Announced Feb. 28, 1917, that this company had declared a quarterly dividend of 1½% on the common stock, an increase of one-fourth of 1% over the previous rate. The quarterly dividend of 1% on the pfd. stock was also declared. Both are payable April 2 to stock of record March 10.

MACK BRICK CO. (THE), LTD.

¹(1) Incorporated on Jan. 17, 1917, in Canada, with a capital of \$500,000, divided into 5,000 shares of \$100 each, to manufacture, buy, sell, import, export and deal in brick, terra cotta, tiles, drain and sewer pipes, fire brick and similar products and building material. Incorporators: Richard Tuson Heneker, Henry Noel Chauvin, Harold Earle Walker, John Noel Beauchamp and Hugh Wylie. Chief place of business, Montreal, Que.

MAC SIM BAR PAPER CO.

²(1) New Officers.—It was announced Feb. 9, 1917, that at the annual stockholders meeting of this company at Otsego, Mich., M. B. McClellan, S. W. Simpson, Geo. E. Bardeen, W. E. Kidder, J. A. Vanderveen, J. W. Thompson, S. B. Monroe, George D. Cobb, I. C. Hall, S. G. Marie and E. A. Stowe had been elected directors.

The directors re-elected the following officers: Pres. and Mgr., M. B. McClellan; Vice-Pres., S. W. Simpson; Sec'y-Treas., George E. Bardeen; Asst. Sec'y-Treas. and Asst. Mgr., A. B. Thomas.

MADISON MARINE RY & DOCK CO.

¹(1) To Be Taken Over.—See Howard Shipyards & Dock Co.—Item No. 2

MADISON REAL PROPERTY & SECURITY CO.

¹(1) Enjoined.—See Ohio Copper Mining Co.—Item No. 1.

MADRAS MARBLE CO., INC.

¹(1) Stock Offering.—Announced Jan. 10, 1917, that Fay & Higgins, managers of the syndicate that had underwritten the stock of this company, are offering the unsold balance of an issue of 40,000 shares at par \$10. The company owns approximately 91 acres of quarry land in Alabama.

MAGMA ARIZONA R. R. CO.

⁴(1) Earnings, 1916.—See Magma Copper Co.—Item No. 4.

MAGMA COPPER CO.

⁴(1) Report, Year Ended Dec. 31, 1916, shows income account and results of operations as follows:

	1916	1915
Sales of metal....	\$2,274,725	\$1,040,896
Net value prod....	2,555,936	1,023,676
Surp. after chgs.	1,097,333	611,729

⁴(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,028,129, compared with \$405,797 Dec. 31, 1915.

⁴(3) Earnings on Stock.—This company's 1916 surplus of \$1,097,333 is equivalent to \$4.57 a share earned on 240,000 shares of capital stock outstanding, compared with \$2.54 a share earned in 1915.

⁴(4) President Reports Increased Development.—Pres. Walter H. Aldridge, of this company, in his annual remarks to stockholders said the company owns a compact group of mining claims of about 531 acres, of which 153 acres have been patented, and also owns 108 acres of mill sites, of which 27 acres have been patented. In addition, the company also owns other interests and options on mining adjoining the Magma group.

During 1916 total development work amounted to 8,653 feet, compared with 5,619 feet during 1915 and 1,243 feet in 1910. Since the company started operations in 1910 a total of 26,236 feet of development has been completed.

Ore reserves at the close of the year amounted to 125,000 tons of reasonably assured copper sulphide ore, comprised of approximately 6.25% copper, 6.50 ounces of silver, and .03 ounces of gold; 20,000 tons of reasonably assured lead-zinc ore, comprised of 13.5% zinc, 2% lead and 12 ounces of gold; and 7,500 tons of probable silver sulphide ore, comprised of 0.4% copper, 30 ounces silver, 2.2% lead, 6.1% zinc and .05 ounces of gold.

All stoping of ore for 1916 was done above the 1,200-foot level. Work below this level was restricted to development. During the year 93,808 tons of ore were mined, of which 23.6% came from development work and 76.4% from stopes.

At the end of the year 184,765 tons of ore had been mined since the commencement of operations, of which 30.7% came from development work and 69.3% from stopes.

Net production of copper after deducting all smelting and refining losses was 8,473,580 pounds. The net value of gold and silver contents of the copper product was \$375,885, and the net value of lead and zinc product \$24,492.

On the 8,473,580 pounds of copper during 1916, after crediting gold, silver, zinc and lead, there was a profit of 13.919 cents per pound. The total operating profit was \$1,179,508. The average selling price of copper was 24.722 cents per pound, and the average cost of producing copper was 10.803 cents per pound.

The higher cost of labor and supplies and the heavy ground requiring close timbering materially increased the cost of mining operations during the year.

During 1916 the Magma Arizona R. R. Co., of which the company owns substantially all the stock, handled a total of 45,721 tons of freight. After marking off \$19,863 for depreciation the net profit for the company was \$9,350.

MAGNATE COPPER CO.

⁴(1) Listed on New York Curb.—Announced April 12, 1917, that the New York urb Market Association had listed 5,000,000 shares, par \$1, of this company's stock.

The company is a Delaware corporation operating a large tonnage porphyry development property in Pima County, about 31 miles southwest of Tucson, Ariz. Walter Harvey Weed, consulting engineer, is at the property directing diamond drilling for its commercial development.

MAGNOLIA PETROLEUM CO.

¹(1) Acquisition.—A Dallas, Tex., dispatch Jan. 3, 1917, stated that this company had purchased, for \$35,000,000, all the property, including production, oil on hand, tank farms, leases and other properties owned by the McMan Oil Co., of Kansas and Oklahoma, except its restricted department leases situated in Oklahoma within the territory of the Five Civilized Tribes.

The property transferred will embrace a large number of oil-producing leases from which there is a production of approximately 25,000 barrels of oil per day, and about 80,000 acres of leases and approximately 2,000,000 barrels of oil in storage.

The consideration is to be paid in cash and notes, payable at various dates to July 1, 1920.

By a separate transaction the Magnolia Petroleum Co. on Dec. 30, 1916, also purchased and took over the McMan Oil Co.'s eight-inch pipe line, extending from the Cushing, Okla., oil field to Addington, Okla., paying approximately \$1,300,000 cash, and posted a price for Cushing crude oil on that date, meeting the price paid by other pipe lines.

The Magnolia Petroleum Co. will operate the line hereafter as a common carrier and common purchaser pipe line.

—Mar.

³(1) Sale Probable.—See Standard Oil Co. of New York.—Item No. 1.

³(2) New Well.—On March 23, 1917, the company announced that it had brought in a new well in the Electra field in Texas, with an initial production of 3,000 barrels a day, on a lease adjoining the 100-year lease owned by the Federal Oil Co.

—Apr.

⁴(1) Report, Year Ended Dec. 31, 1916.—Operating income \$14,316,198 against \$3,928,188 last year; balance after fixed charges \$9,820,754 against \$1,674,629 last year; surplus after dividends \$8,620,754 against \$813,511 last year.

MAIN ISLAND CREEK COAL CO.

¹(1) Bond Issue and Increased Output Planned.—It was announced Jan. 24, 1917, that an annual output exceeding 2,000,000 tons of coal from 20 mines was being planned by this company, Charleston, W. Va., in connection with a bond issue of \$1,000,000.

An appropriation of \$350,000 is to be expended for the increased production, the company at present having eight mines, with an annual capacity of more than 1,000,000 tons.

—Feb.

²(1) Statement by President.—It was stated Feb. 1, 1917, that the proceeds of the \$1,000,000 bonds of this company, Charleston, W. Va., would be invested for additional developments on Main Island Creek, which would add 1,500,000 tons to the company's annual output. In regard to these developments, John Laing, Pres. of the company, stated:

"This money is to be spent in the further development of additional mines on the headwaters of Main Island Creek, in Logan County; \$350,000 will be expended in railroads, side tracks, tipples, etc., and the remaining \$650,000 will be used in the purchase of mine cars, locomotives, mining machinery, power station, etc. Orders for these supplies have already been placed. The machinery and supplies generally are now coming in, and we will be shipping coal from the eight additional mines by July 15.

"We will begin shipments from the first two mines under development on Feb. 15. The present capacity of our mines, now open for shipping coal, is 1,500,000 tons per year, and this new development will increase our capacity to 3,000,000 tons per year.

"The present mines are all being opened in what is known as Main Island Creek seam of coal, with an average thickness of 6 feet 2 inches, good top, with excellent mining conditions generally."

MAIN STREET HOTEL CORP.,

BUFFALO, N. Y.

⁴(1) Incorporated on April 16, 1917, in New York, with a capital of \$500,000, to conduct a hotel business. Incorporators: L. H. Utter, A. C. Werner and A. W. Sawyer, 89 Ashland Ave., Buffalo, N. Y.

MAJESTIC PETROLEUM CO.

¹(1) Incorporated in January, 1917, in Oklahoma, with a capital of \$1,800,000.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Incorporators: E. S. Horn, J. S. Meserve and J. E. Horn.

MAJORANA GRAPHOPHONE CO. (THE).

“(1) Incorporated on April 6, 1917, in Delaware, with a capital of \$3,000,000, to manufacture and deal in graphophones and other musical instruments. Incorporators: Filippo Majorana, Giuseppe Majorana and Michael Montisana, all of Brooklyn, N. Y.

MALLORY COAL CO.

“(1) Incorporated on Feb. 14, 1917, in West Virginia, with a capital of \$250,000. Incorporators: W. T. Smythe, O. B. Burton, J. E. Thomas and others.

MAMMOTH OIL CO.

“(1) Dissolution Petition.—It was announced at San Francisco, Cal., Jan. 16, 1917, that this company had petitioned the Superior Court of California for a dissolution of its incorporation. The company was capitalized for \$1,000,000. Directors named in the petition are C. J. Berry, H. F. Berry, C. T. Holbrook, Jr., and William L. McGuire.

MANCHESTER SHIP CANAL CO.

“(1) Dividend Discussion.—It was stated March 3, 1917, that the directors of this company likely would pay dividends of 2% on the pfd. and 1% on the ordinary shares.

MANHATTAN CONSOLIDATED MINES DEVELOPMENT CO.

“(1) Litigation Ended.—It was announced April 11, 1917, that this company had paid the White Cap Mining Co. \$54,000 in cash in full settlement of all claims, thereby ending all litigation. The west ore shoot is now crosscut for 22 feet on the 245-foot level, with no hanging wall in sight. Samples from this crosscut average \$41.50 a ton.

MANHATTAN ELECTRICAL SUPPLY CO., INC.

“(1) Sales, 1916.—It was announced Jan. 17, 1917, that total sales of this company for 1916 were \$4,929,853, as compared with \$3,755,823 in 1915, an increase of \$1,174,029, or about 31%.

The pfd. stock of this company was recently offered by Chandler & Co., Inc., of New York, and a syndicate of Eastern and Western bankers.

—Mar.

“(1) Annual Meeting March 13.—Announced March 6, 1917, that the annual meeting of this company would be held March 13.

“(2) Initial Dividend on Common.—Announced March 7, 1917, that this company had declared an initial quarterly dividend of 1% on the common stock, payable April 1 to stock of record March 20.

“(3) Engraved Certificates.—It was March 16, 1917, that the New York Curb Market Association had set March 21 as the date of delivery of permanent engraved certificates for the common and 1st pfd. shares of this company.

• MANHATTAN SHIRT CO.

“(1) Income Account, Year Ended Nov. 30, 1916, compares as follows:

	1916	1915
Net profits.....	\$821,019	\$450,454
Net income.....	846,676	484,033
Surp. after pfd. & com. divs....	542,676	227,908

“(2) Balance Sheet, as of Nov. 30, 1916, shows a profit and loss surplus of \$504,823 compared with \$457,134 Nov. 30, 1915.

“(3) Earnings on Stock.—It was stated Jan. 3, 1917, that this company's balance of \$692,676, after charging out pfd. dividends, is equal to 13.85% on \$5,000,000 common stock, against 6.06% on same stock previous year.

“(4) Statement by President.—In connection with the report of this company for the year ended Nov. 30, 1916, Pres.

Lewis Levi stated that arrangements had been made to retire additional pfd. stock during December, 1916, so that at the end of that year a total of \$1,400,000 of the issue had been redeemed, leaving \$1,600,000 outstanding.

Sufficient foreign dyes, he stated, are on hand for the 1917 year and additional looms had been ordered, increasing capacity. Orders on hand for the spring of 1917 are far in excess of any previous season.

MANITOBA (PROVINCE OF).

“(1) Sale of Bonds.—On March 27, 1917, it was announced that the Province of Manitoba had sold to National City Bank of New York \$2,000,000 five-year 5% gold bonds, payable in New York City at 98 and interest less underwriters' commission.

MANITOU SPRINGS WATER CO., INC.

“(1) Incorporated on Feb. 19, 1917, in New York, with a capital of \$1,000,000, to deal in spring, mineral, carbonated, aerated waters and ginger ale, and to operate restaurants and bathhouses. Incorporators W. and H. M. Haviland and J. B. Summerfield, 71 Wall St., New York.

MANOPHONE CO.

“(1) Organized.—It was announced Feb. 2, 1917, that stockholders of the Clough & Warren Co., Adrian, Mich., and the James Manoli Co., of New York, had completed the organization of this company, capitalized at \$500,000, to manufacture phonographs. Plans are being made to manufacture 30,000 phonographs during 1917.

The offices of the company will be at Adrian, Mich., with branch offices and salesrooms in Detroit and New York City. Officers: W. W. Cooke, Pres.; James Manoli, 1st Vice-Pres.; J. Addison Warren, Jr., 2nd Vice-Pres. and Treas.; and L. W. Essex, Sec'y.

The factory at Newburgh, N. Y., which has been manufacturing parts for the Manoli Co., will continue to manufacture parts of the Manophone. An export trade will be built up and a national advertising campaign will assist to market the new phonograph in the United States.

MANSFIELD ELECTRIC LIGHT & POWER CO.

“(1) Development.—It was stated March 16, 1917, that although the construction of the new central generating station of this company, a new subsidiary of Cities Service Co., is only under way, the power business already secured practically equals the capacity of the new station. More than 8,500 kilowatts of power contracts have been signed and are in prospect, not including the business which will be secured in Ashland.

MANSFIELD SHEET & TINPLATE CO.

“(1) Initial Dividend.—Announced Feb. 8, 1917, that this company had declared an initial dividend of 2% on the common stock.

MANSFIELD TIRE & RUBBER CO., MANSFIELD, O.

“(1) Capital Increased.—On Feb. 21, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$300,000 to \$1,250,000.

MANSS STEAMSHIP CORP.

“(1) Incorporated on Jan. 24, 1917, in Delaware, with a capital of \$705,000, to construct, operate and maintain steamers. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

MANUFACTURERS CORUNDUM CO.

“(1) Operations.—It was stated Feb. 15, 1917, that this company, Toronto, Ont., had resumed mining operations in Hastings County, Ontario. There has been little production in Ontario since the company's mill at Craighmont was burned in 1913. A new mill has been constructed at Jewellville and the deposits there are being mined. Jewellville is the post office at Palmer's Rapids, in Raglan Township.

MANUFACTURERS' HANDLING CORP.

“(1) Incorporated on April 4, 1917, in Delaware, with a capital of \$1,000,000, to act as commission brokers, shippers, etc. Incorporators: Linford P. Faucett, Robert T. Hart and James W. Faucett, Philadelphia.

• MANUFACTURERS' LIGHT & HEAT CO.

“(1) Extra Dividend.—Announced Jan. 24, 1917, that this company had declared an extra dividend of 2%, payable Feb. 27 to stock of record Feb. 15.

“(2) New Well.—It was stated Jan. 24, 1917, that this company had brought in a 90-barrel oil well in the Greene County field, which came into prominence recently when the Carnegie Natural Gas Co. struck a gusher there. Much territory in the district has been leased by the Manufacturers Co., which has eight other wells located and well under way. In Washington County, Pa., which adjoins Greene, the Manufacturers Co. has six wells under way.

—Feb.

“(1) Report, Year Ended Dec. 31, 1916, shows gross earnings of \$7,592,225; net income \$3,123,515; balance after depreciation of \$2,082,810 and a surplus after dividends of \$242,810.

MAPLE LEAF MILLING CO.

“(1) Dividend at 10% Rate Predicted.—It was stated at Toronto, Ont., March 21, 1917, that directors of this company at their meeting March 26 likely would increase the dividend rate to 10% by declaring a quarterly dividend of 2½%.

“(2) Stock on 10% Basis.—At a meeting on March 26, 1917, directors placed the stock on a 10% basis by declaring a dividend of 2½% for the current quarter. Holders of Maple Leaf common have been fortunate in the matter of dividends, the increases since disbursements on the common issue began having been quite rapid. The annual report is expected in April.

MARATHON TIRE & RUBBER CO.

“(1) Dividend Increased to 7%.—Directors of this company April 18, 1917, increased the dividend payable May 1 from 6% to 7%. In a report submitted to stockholders April 3 directors reported that business thus far for the fiscal year beginning Sept. 1 assured an increase of 73% over the previous year.

MARBLE CLIFF QUARRIES CO., COLUMBUS, O.

“(1) Capital Decreased.—On April 20, 1917, the “Finance,” Cleveland, O., stated that this company had decreased its capital stock from \$1,300,000 to \$1,100,000.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

MARCONI INTERNATIONAL MARINE COMMUNICATION CO.

¹(1) **Interim Dividend.**—Announced on Jan. 2, 1917, that this company had declared a 5% interim dividend.

MARCONI'S WIRELESS TELEGRAPH CO., LTD.

¹(1) **Status.**—It was stated March 1, 1917, that this company is an English corporation controlling operating companies in various parts of the world. It has outstanding 1,222,688 ordinary shares and 250,000 pfd., all of \$1 par value. Dividends have been paid on the pfd. stock to date. On ordinary shares 20% a year was paid from 1911 to 1913; then 10%. A semi-annual dividend of 5% was paid in February.

Business has been heavy for a year, but most of it has been done for the British Government and the company does not yet know just what its earnings are.

The Marconi Wireless Telegraph Co. of America is a subsidiary. It paid a dividend of 2% Aug. 1, 1913, and has reported none since then.

MARCONI WIRELESS TELEGRAPH CO. OF AMERICA.

¹(1) **Interim Dividend.**—Announced Jan. 2, 1917 that this company had declared a dividend of 7% on the pfd. stock and a 5% interim dividend on the ordinary stock.

¹(2) **Radio Control Bill Opposed.**—It was stated at Washington Jan. 4, 1917, that much interest had been centered in the views of E. J. Nally, Vice-Pres. and Gen. Mgr. of this company, upon Secretary of the Navy Daniels' advocacy of Government monopoly of radio communication as a measure of national safety.

Mr. Daniels had addressed a letter to the Commerce and Marine Committee of the United States Senate and House, in which he outlined the Navy Department's views on the pending radio control bill, drafted by the Inter-departmental Conference.

Briefly explained, the bill is a measure aiming to open all Navy Department wireless stations for commercial business and to give the Government power to acquire by purchase within two years any of the existing wireless stations owned by private corporations.

¹(3) **Statement by Vice-Pres. Nally.**—In a statement issued Jan. 4, 1917, by Vice-Pres. and Gen. Mgr. Nally, of this company, against the enactment by the United States Congress of the radio control bill, he said, in part:

"Government control will tend to hamper the art of radio communication, for the Government has not the stimulus of commercial competition and the hope of individual reward, and it is prone to take present accomplishments as finalities.

"The Marconi Co. vigorously protests against the proposed legislation, not only because it will effectively stifle the growth of wireless telegraphy, but because it amounts to the confiscation of private interests, and besides it is against the established principle of the American nation, which has heretofore allowed free scope for all work, and especially work of an experimental nature.

"There are already ample laws and regulations on the statute books giving the United States Government the necessary power for absolute control of all radio stations in time of war or public peril."

—Mar.

¹ (1) Income Account, Year Ended Dec. 31, 1916:	1916	1915
Gross revenues	\$862,501	\$748,238
Royalties	66,211	43,700
Net after royalties and expenses	237,923	184,061
Income from investments	98,107	104,932
Reserves	76,151	111,678
Surplus	259,888	177,316

¹(2) **Comment on Annual Report.**—On March 28, 1917, the "Wall Street Journal" said: "The operations for the fiscal year show, before allowing for reserves, a net income of \$336,040, as compared with \$288,994 for the year 1915. Receipts from ship messages showed an increase of 9%. Considering that the operations of the company are hampered by the British occupation of the stations on the English Coast, making useless the company's expensive installations at New Brunswick and Belmar, N. J., and at Marlon and Chatham, Mass., absolutely cutting off the transatlantic business and limiting the company to Pacific and ship-and-shore traffic, and manufacturing, the showing is excellent.

The income from investment of surplus funds amounting to \$98,107 increased \$6,824, due to the fact that \$8,961 of interest was received on stock subscriptions in 1916, against \$17,022 in 1915. After setting aside all reserves, the net profit for the year was \$259,888, an increase of 46.56%. This amount has been added to the surplus, increasing that fund to \$501,776 on Dec. 31, 1916, while the reserve for depreciation amounted to \$439,716 additional. The company has now 26,000 American stockholders."

—Apr.

¹(1) **Communication to Hawaii and Japan in Operation.**—Reported on April 9, 1917, that wireless communication to Hawaii and Japan was in full operation.

MARICOPA DATE GARDENS.

¹(1) **Incorporated in December, 1916, in Arizona, with a capital of \$300,000.** Directors: Geo. B. Byron, Jacob Friedlander and Robert B. Byron.

MARIETTA & LAKE R. R. CO.

¹(1) **Receiver Sought.**—It was announced at Columbus, O., Jan. 4, 1917, that Federal Judge Sater had been asked to appoint a receiver for this company, which operates between Lore City and Little Washington. Paul G. Sloeckert and Henry S. Saxe, Chicago, stockholders, in their petition declared N. A. Nelson, managing director, had entered into a contract to sell the road and equipment for \$10,500 to Columbus junk dealers.

MARIETTA PAINT & COLOR CO., MARIETTA, O.

¹(1) **Capital Increased.**—It was announced April 7, 1917, that this company had increased its capital stock from \$30,000 to \$500,000.

MARINA OIL CO.

¹(1) **Stock Sale Authorized.**—It was announced Jan. 11, 1917, that this company had been authorized by the California Commissioner of Corporations to sell 108,000 shares to F. B. Anderson, John Barneson and others at par, \$1 per share, net to the company; to issue 8,000 shares to John Barneson, E. J. de Sabla, Jr., and others, in payment of services rendered and money expended in the promotion of the company, and sell 44,000 additional shares to the public at par, net to the company.

The proceeds are to be used to purchase 160 acres of patented land in Kern County, Cal., about 26 miles west of Bakersfield, for \$160,000, and an undivided one-half of 160 acres for the sum of \$16,000, the property to be prospected for oil.

MARINE IRON WORKS.

¹(1) **New Shipbuilding Company Formed.**—On April 14, 1917, the Seattle "Post-Intelligencer" stated that this company was the newest shipbuilding enterprise to be launched in Seattle.

It has purchased through the office of Henry Broderick, Inc., a water front site in West Seattle, just south of the port ferry landing, for the conduct of its operations.

The property was purchased from the West Seattle Land & Improvement Co. The Marine Iron Works was incorporated, with Peter C. Peterson, Pres.;

Archibald McLean, Vice-Pres.; Frederick H. Batton, Sec'y & Treas. Prominent among the stockholders is C. J. Erickson.

The company intends to build wooden schooners from 60 to 150 feet in length. Contracts are already on hand which will occupy the capacity of the plant for several years.

MARINE OIL & REFINING CO., CEDAR GROVE, LA.

¹(1) **Incorporated in March, 1917, in Louisiana, with a capital of \$500,000.** G. Gates Howard, Pres., Houston, Tex.; H. R. Ratcliff, of Shreveport, and W. A. Caplis, of Elm Grove, La., Vice-Presidents; John C. Trichell, Treas., and John J. Bird, Secy.

—Apr.

¹(1) **Organized.**—It was announced March 29, 1917, that this company, Shreveport, La., had been organized with G. Gates Howard as Pres.; John J. Bird, Sec'y; Harold E. Ratcliff, Shreveport, and Alex. Caplis, Elm Grove, Vice-Presidents; John C. Trichell, Treas., and George J. D'Artois, chemist and refiner. The company has a capital of \$500,000. Steel and concrete buildings are to cost approximately \$150,000.

MARION COAL & LUMBER CO.

¹(1) **Incorporated on April 27, 1917, in Delaware, with a capital of \$1,000,000, to acquire and develop mineral and timber lands.** Incorporators: Herbert E. Latter and C. Rimplinger, Wilmington, Del., and Clement M. Egner, Elkton, Md.

MARION MINES CO.

¹(1) **Option on Property Secured.**—See Zinc Concentrating Co.—Item No. 1.

MARKET & FULTON NATIONAL BANK, NEW YORK.

¹(1) **New Directors.**—Announced Jan. 9, 1917, that Wm. B. Franklin and Frank C. Jennings had been elected directors of this bank. Retiring directors were re-elected.

MARKET STREET RY. CO.

¹(1) **Amended Plan.**—See United Railroads of San Francisco.—Item No. 3.

MARLIN ARMS CORPORATION, MANHATTAN, N. Y.

A complete description of this company appears in the "Miscellaneous Book" in your card cabinet.

¹(1) **Final Dividend on Preferred.**—It was announced Jan. 2, 1917, that this company had declared a final dividend of 27½ cents per share on the pfd. stock, payable Jan. 20 to stock of record Jan. 15.

Upon receipt of the dividend the voting trustees will distribute in pro rata to holders of pfd. stock trust certificates of record Jan. 15.

The Board of Directors has ordered the retirement of all the pfd. stock outstanding, amounting to 11,668 shares, by the payment of the par value on Jan. 15. Upon receipt of this payment the trustee will distribute in pro rata (\$33.34 per share) to holders of the trust certificates as of Jan. 15.

Delivery of the trust certificates must be made to the Bankers' Trust Co. after Jan. 15 for payment and cancellation.

¹(2) **Capital Reduced.**—On Jan. 6, 1917, the company filed notice at Albany, N. Y., of a reduction in capital stock from \$2,633,400 to \$1,466,800.

¹(3) **Earnings on Stock, 1916, Estimated.**—On Jan. 13, 1917, the "Boston News Bureau" said that among the disappointments in the munitions and rifle war business handled by American firms and corporations the record of this company shines brightly by contrast. This company, originally looked upon as a rather amateurish adventure in the field of war production, has made a record exceeded only by the big powder companies.

In order to finance an order for 12,000 machine guns the company sold \$3,500,000 7% pfd. stock. This was so tied up and hedged about by restrictions that

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

no dividends could be paid on the common until it was retired. Furthermore, it was provided that the company must retire this stock in three equal installments on Dec. 1, 1916, March 1 and June 1, 1917.

The company is six months ahead of its retirement schedule. The pfd. has all been called for payment, and in a few weeks the 60,000 shares of common (no par value) will own the entire property.

The Marlin Arms Corp. does not even own the patents for the machine gun it has made. It operates under a royalty from the Colt's Fire Arms Mfg. Co., of Hartford.

Marlin's original 12,000-gun contract was twice modified, the final figure calling for 9,000 guns, which have all been delivered. The company has some unsold guns, but they will be marketable. Any profit on them will accrue entirely to the common. This common is believed to have earned from \$10 to \$12 per share in 1916.

¹(4) **Capital Reduced.**—On Jan. 17, 1917, the company filed notice at Albany, N. Y., of a reduction in capital stock from \$1,466,800 to \$300,000.

¹(5) **New Russian Order.**—On Jan. 25, 1917, this company announced a new order for rapid-firing guns of Colt pattern for Russian Government. The company announced it had obtained all patents of Lester P. Bartow on aerial munitions, and plans are being made for the manufacture on a large scale of aerial torpedoes recently tested and adopted by the U. S. Government. The company finished delivery of last order for guns for Russia, started a year previously. The new order amounts to \$3,000,000.

—Feb.

²(2) **Record as a Producer.**—On Feb. 21, 1917, the "Boston News Bureau" said: "Marlin Arms Corp., which has made such a brilliant success of its machine gun order from the Allies, will be one of the plants to which the United States will naturally look for quick production of machine guns. Inevitably, whether this country becomes involved in trouble or not, it is felt that part of the preparedness move which is now under way will be accumulation of a large reserve supply of machine guns by this Government."

"Rumor has had it that Marlin Arms had closed a \$15,000,000 contract with the Government. This statement is not immediately true. But it is along the lines of the obvious that the company may make perhaps 5,000 to 10,000 machine guns for the Government. No contracts have, however, been signed."

"It is not improbable either that the Allies will want a further supply of machine guns, and in that event the Colt and Marlin would be the ones to divide the business."

"Marlin Arms has now retired all of its \$3,500,000 pfd., so that the 60,000 shares of common own the entire property."

"It is understood that the Marlin Arms management, not to be caught napping when peace comes, has practically concluded arrangements whereby its plants and machinery can be utilized in a profitable way in making something besides machine guns in the happier days of peace."

"The company has recently been asked by Russia to bid on 10,000 additional machine guns."

—Mar.

²(1) **Acquisition.**—It was announced Feb. 28, 1917, that this company, New Haven, Conn., had acquired the assets of the Standard Roller Bearing Co., of Philadelphia, and the Rockwell-Drake Corp., of Fairfield, Conn.

The Standard Roller Bearing Co. is one of the largest producers of roller and ball bearings in the United States and operates a manufacturing plant in West Philadelphia.

The Rockwell-Drake Co. is engaged in the manufacture of machinery in connection with the ball and roller bearing business and will be of espe-

cial value in connection with the Standard Roller Bearing Co.

By this purchase the Marlin Arms Corp. will no longer be dependent for its business on the continuance of war conditions, although its plant at New Haven will still be available for the manufacture of machine guns.

The Marlin Arms Corp. since its organization in December, 1915, has successfully completed an order for the manufacture of 9,000 Colt automatic machine guns for a foreign Government and is now nearing the completion of a supplemental order.

The corporation has retired its entire issue of pfd. stock, is substantially free of debt and has a large cash balance on hand.

²(2) **Special Meeting March 13.**—Announcement was made Feb. 28, 1917, that stockholders on March 13 would vote on the acquisition of the Standard Roller Bearing Co. and the Rockwell-Drake Corp. of Fairfield, Conn., for a total payment of \$2,270,000 in cash and 3,350 shares of Marlin stock.

²(3) **Letter to Stockholders.**—In a letter to shareholders of this company Feb. 28, 1917, Pres. A. F. Rockwell stated that the acquisition of the Standard Roller Bearing Co. and the Rockwell-Drake Corp., both of which have been engaged in the manufacture of roller and ball bearings, would assure the Marlin organization of an active business when the demand for munitions diminished.

In order to finance the purchases, the company has engaged to sell \$1,500,000 two-year 6% notes to William F. Bonbright & Co. and Kissel, Kinnicutt & Co. The notes are convertible into stock and the shareholders will be asked to increase the authorized capital at the meeting to provide for conversions and the other needs. The corporation's name will be changed in a way to reflect the new line of business.

The stockholders will also be asked to ratify a 15-year contract with Pres. Rockwell and set aside 4,150 shares of stock to be distributed among other officers as an inducement for them to sign long-term contracts also.

The letter to shareholders said the Standard Company's assets had recently been valued in excess of \$2,600,000. The company has been in receivership for some time. Mr. Rockwell is part owner of the Rockwell-Drake Corp.

²(4) **Machine Gun Business.**—On March 3, 1917, the "Philadelphia News Bureau" said that the determination of this company to branch out into the roller bearing business was not due to the "drying up" of machine gun orders, but rather to the desire of the management to inject a strong element of permanence and stability into its business.

Marlin is understood to have under negotiation an order from the United States Government for Colt guns, and negotiations for an order from a foreign government for 8,000 guns have so far progressed as to warrant the statement that it will positively be closed. The company is said to receive about \$1,000 per gun, on which it makes a profit of \$500 per gun. On this basis it is estimated that Marlin can earn \$8 a share for its 60,000 shares of stock on every 1,000 guns turned out. Consequently the 8,000-gun contract referred to will mean net of \$64 a share for the stock.

Marlin Arms succeeded where others failed; first, because the gun it makes is a demonstrated mechanical success, and, second, because the company became practically an extension of the Colt Co., and received the benefit of the brains of the Colt experts.

Marlin has completed 9,000 guns for Russia and is now cleaning up an order for 3,000 for England. The company has a capacity of 200 guns per day, which is half of the machine gun capacity of the United States.

It has been estimated that when the war started the central empires had more than 60,000 machine guns, while the Entente Allies had less than 5,000. Since then the Allies have obtained up-

wards of 25,000 guns in the American market, while there are inquiries for 40,000 more.

²(5) **Acquisitions Ratified.**—It was announced March 13, 1917, that at a special meeting of holders of voting trust certificates, representing common shares of this company, the purchase of the Standard Roller Bearing Co. for \$2,000,000 in cash and 2,000 shares of new Marlin Arms common stock, also the purchase of plants and assets of the Rockwell-Drake Corp. for \$270,000 in cash and 1,350 shares of new Marlin Arms common stock, were ratified.

Approval also was given to the proposal that 4,150 shares of common stock be issued and delivered to A. F. Rockwell, Pres. of the corporation, to be used by him in obtaining long-term contracts with Marlin Arms officials or employees other than himself, and that the manufacture of roller-bearings be conducted under Mr. Rockwell's supervision for a term of 15 years on a commission basis.

It was also proposed to change the name of Marlin Arms Corp. to Marlin-Rockwell Corp.

²(6) **Acquisition.**—Announcement was officially made on March 26, 1917, that this company had purchased the manufacturing plant and business of the Mayo Radiator Co., New Haven, Conn., and that the Marlin company in addition to its present operations in turning out machine guns, is going to make automobile radiators as well. This makes three industrial plants that have been taken over within a short time by the Marlin interests, the other two plants being the Rockwell-Drake Co. of Plainville, and a plant in Philadelphia.

The Marlin Co. officials said that the Mayo plant would continue to be operated where it is and that Virginus J. Mayo, the president, would be retained as the manufacturing head.

The concern was put in the hands of Attorney James E. Wheeler as receiver a few weeks previously, following a dispute among stockholders. New York interests opposed Mr. Mayo and tried to oust him and the trouble between the opposing interests led to the matter being taken to the Superior Court. The difficulty was adjusted and Mr. Mayo remained in control.

The Marlin people had no statement to give out as to the future plans for the Mayo plant except to say that the factory would be run as it is and that probably additions would be made.

—Apr.

²(1) **New Contracts.**—It was announced April 2, 1917, that this company had closed a contract for 2,500 machine guns for Russia, also two contracts for guns for the United States Navy, and that a contract for machine guns for the Army was under consideration.

²(2) **Prosperity Shown by Contracts.**—On April 3, 1917, it was stated that with the announcement of the closing by this company of contracts for the construction of 2,500 machine guns for Russia and two for guns for the United States Navy, as well as other contracts for Army requirements under consideration, it is interesting to note that when the company was incorporated in 1915 it was arranged that pfd. stock was to be retired in three equal installments on Dec. 1, 1916; March 1, 1917, and June 1, 1917, respectively, or callable at \$100 a share at any time. The company's stock was to be held in a voting trust until all pfd. had been retired.

Marlin Arms Corp. has enjoyed such prosperity since organization that the company was enabled to deposit the amount with the voting trust committee, for the retirement of its entire pfd. issue by Jan. 15, 1917. On Dec. 1, 1916, one-third of the outstanding pfd. stock (11,666 shares) was retired, in accordance with plans of organization. On Jan. 1, 11,666 shares were called, and on Jan. 15 the remaining 11,666 shares were called, so that the company has retired its whole pfd. issue. Dividend declaration on the 60,000 shares of out-

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

standing common stock is to be looked for early in 1917.

The company in manufacturing machine guns for the Allies succeeded where numerous others failed—first, because the gun it makes is a demonstrated mechanical success; and, second, because the company became practically an extension of the Colt Company and received the benefit of the Colt experts. Marlin's capacity is estimated at 200 machine guns a day, or half the machine-gun capacity of the United States.

*(3) Meeting of Acquired Co. Directors.—See Standard Roller Bearing Co.—Item No. 1.

*(4) Government Orders 500 More Machine Guns.—This company announced April 21, 1917, that it has received an additional order for 500 machine guns from the United States Government. The company recently sold 1,100 guns to the Government.

*(1) Bonds Listed in New York.—The New York Stock Exchange announced April 19, 1917, that it had admitted to the list \$12,000,000 City of Marseilles temporary three-year bonds, due Nov. 1, 1919.

MARSHALL & EAST TEXAS R. R.

*(1) Receiver Appointed.—It was announced Jan. 30, 1917, that the Texas Railroad Commission had been notified that this company had been placed in the hands of a receiver by the United States District Court upon application of the St. Louis Trust Co. Bryan Snyder, Vice-Pres. and Gen. Mgr., was appointed receiver.

The road is 90 miles long and runs between Winstboro and Elysian Fields. The line was built by St. Louis men, A. T. Perkins, of that city being Pres. The St. Louis Trust Co. is trustee for the bondholders, the bonded indebtedness aggregating \$1,180,000.

The Marshall & East Texas R. R. was formerly closely affiliated with the Frisco R. R.

MARSH MINES CONSOLIDATED CO.

*(1) Assessment No. 2.—Stockholders of this company were notified on Jan. 20, 1917, that assessment No. 2 of 1 ct. per share had been levied on the stock. The assessment must be paid by Feb. 20.

MARYLAND COAL CO.

*(1) Officers and Directors Elected.—At the annual meeting of the stockholders of this company at Lonaconing, Md., April 16, 1917, J. W. Galloway, of Baltimore, was re-elected Pres. and the following directors were chosen: J. W. Galloway, Baltimore; John T. Manson, New Haven; George Hewlett, New York; Wm. H. Van Kleeck, New York; T. A. Knickerbacker, Troy, N. Y.; Nathan Todd Porter, Jr., New York; Gordon Smith, Baltimore, and Howard S. Dickson, of Mount Vernon, N. Y.

MARYLAND DREDGING & CONTRACTING CO.

*(1) Contract for Dry Dock.—It was announced at Baltimore April 7, 1917, that this company had been awarded the contract by the Navy Department for the construction of a new dry dock at the Philadelphia Navy Yard.

The dry dock will be the largest in America, and will cost about \$3,000,000. It will accommodate the dreadnoughts which are being constructed in accordance with the preparedness plans of the Navy. It will be 1,100 feet long, 200 feet wide and 80 feet deep. It will take about 400,000 tons of concrete and 5,000,000 pounds of steel and re-enforcing bars.

MASON-SEAMAN

TRANSPORTATION CO.

*(1) Receivers Directed to Sell.—It was announced Jan. 18, 1917, that an order had been filed in the Federal District Court at New York by Judge Learned Hand directing Receivers Allan Lexow and A. Leo Everett to cease operation of the company's business.

The appraised part of the property, the order stated, is to be disposed of at not more than 25% under the appraised value. The Manhattan Machinery Exchange was offered \$45,000 cash for the unappraised property.

MASON TIRE & RUBBER CO., KENT, O.

*(1) Capital Increased.—On April 11, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$1,000,000 to \$3,000,000.

MASSACHUSETTS GAS CO.'S.

*(1) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$264,466, compared with \$338,397, Dec. 31, 1915.

*(2) Report, Year Ended Dec. 31, 1916, shows: Sales of gas, \$2,870, less cost of gas \$728, balance \$2,151; other income, \$25,963; total income, \$28,114; taxes, insurance, etc., \$47,707; interest on bonds, \$52,170; deficit, \$71,762. The balance sheet as of Dec. 31, 1916, shows cash in plus of \$264,466, and total assets and liabilities of \$2,791,976.

The company's mine has been shipping to the smelter about 400 tons per day.

MASSACHUSETTS GAS CO.'S.

*(1) Net Earnings, Subsidiaries, December, 1916.—Announced Jan. 18, 1917, that the combined net earnings available for dividends of the subsidiary companies of the Massachusetts Gas Co.'s for December were \$332,638, an increase of \$37,372, or 12.66%, compared with corresponding month in 1915.

*(2) Boat for Transatlantic Trade.—See New England Coal & Coke Co.—Item No. 2.

—Mar.

*(1) Earnings, Subsidiaries, January, 1917.—It was stated Feb. 28, 1917, that the combined earnings available for dividends of the subsidiary companies of this company for January were \$342,087, an increase of \$30,414, or 9.76%. These figures do not include a dividend of \$80,800 received in January by Massachusetts Gas Co. from New England Manufacturing Co. This amount, added to the \$342,087, shows the amount available for dividends in January \$422,887, which is an increase of \$81,204 over the previous year, or 29.27%.

*(2) Dividend on Owned Stock.—See New England Manufacturing Co.—Item No. 1.

*(3) Net Earnings, February.—On March 22, 1917, it was stated that combined net earnings available for dividends of subsidiaries for February were \$344,435, an increase of \$61,496, or 21.73% over a year previously.

Above figures do not include \$243,200, which will have been received in dividends by Massachusetts Gas Co.'s from New England Mfg. Co. during March.

Including \$243,200 referred to, total available for dividends is \$587,635, an increase of \$304,696, or 107.69% over February, 1915.

*(4) February Earnings.—On March 22, 1917, directors declared regular quarterly dividend of \$1.25 on common stock, payable May 1 to stock of record April 14. Combined net earnings available for dividends of subsidiaries for February were \$344,435, an increase of \$61,496, or 21.73%, over the previous year.

Above figures do not include \$243,200 which will have been received in dividends by Massachusetts Gas Co.'s from New England Mfg. Co. during March.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Including \$243,200 referred to, total available for dividends is \$587,635, an increase of \$304,686, or 107.69%, over a year ago. Federal Coal & Coke Co. also declared a dividend of 20% and New England Mfg. Co. a dividend of 51.2%, payable March 31 to stock of record March 22.

(5) Dividend Increase Probable.—On March 27, 1917, the "Wall Street Journal" said that there was every reason to believe that the 5% dividend rate on Massachusetts Gas common shares would be advanced at the June meeting of trustees, probably to 6%. It is the policy of the trustees to set aside in June a year's dividends, but of course this does not preclude the payment of extras. On the common shares 3% was paid in each of the fiscal years 1907-1910, 4% in 1911-1913, and 5% since.

Massachusetts Gas Co.'s will most certainly have concluded on June 30 next by far the best year in its history. Up to February 28 in the present fiscal year, with four of the best months still to be heard from, the subsidiary companies' earnings available for dividends totaled \$2,366,478. To this should be added \$364,900 which Massachusetts Gas Co.'s has received or will receive from dividends paid or declared by the New England Manufacturing Co., making the combined figure \$2,731,278. This sum, it is interesting to note, is substantially equal to the amount required to pay expenses, interest and pfd. and common dividends of the Massachusetts Gas Co.'s in the last full fiscal year. In other words, the remaining four months' increment will go to swell the margin above the present 5% dividend rate on the common.

—Apr.

(1) Earnings, March and Nine Months.—This company April 23, 1917, reported combined net earnings for March as \$354,223, an increase of \$58,128, or 19.63%, compared with March, 1915. For the nine months ended March 31 the combined net earnings were \$2,417,602, compared with \$2,065,570 the same period a year previously.

MASSACHUSETTS LIGHTING CO.'S.

(1) Net Sales, December, 1916.—\$129,800, an increase of \$17,303 over December, 1915, the largest monthly gain yet made by these properties.

(2) Net Sales, Six Months Ended Dec. 31.—\$708,582, an increase of \$90,000 over the six months ended Dec. 31, 1915.

—Feb.

(1) Net Sales, January.—It was announced Feb. 23, 1917, that net sales of controlled gas and electric companies were \$128,916, as compared with \$111,018 for January, 1916, an increase of \$17,897. This increase is the largest monthly gain ever made by these companies.

For the seven months ended Jan. 26, the net sales were \$837,508, as compared with \$729,550 for the same period previous year, an increase of \$107,958.

—Mar.

(1) Dividends.—Announced March 16, 1917, that this company had declared a dividend of \$1.50 a share on the pfd. stock and 25 cents a share on the new common stock, payable April 16 to stock of record March 26.

(2) Sales, February, 1917.—It was stated March 17, 1917, that this company had reported net sales of gas and electricity for February as \$122,400, an increase of \$17,693 over February, 1916. Net sales for the eight months ended Feb. 28 were \$959,906, an increase of \$125,651 over the corresponding eight months of the preceding fiscal year.

—Apr.

(1) Net Sales, Subsidiaries, March and Nine Months:

	1917	1916
March sales	\$107,871	\$95,868
Nine months	1,067,780	930,128

MASSAM CO., INC.,
SPRINGFIELD, MASS.

(1) Incorporated on March 9, 1917, in Massachusetts, with a capital of \$500,000, 50,000 shares, \$10 each, to manufacture mechanical and electrical equipment for autos, etc. Directors: Chas. F. Munder, Pres.; Frank W. Arthur, 126 Ft. Pleasant Ave., Springfield, Treas., and Geo. H. Morgenstern.

• MASS CONSOLIDATED MINING CO.

(1) Report, Year Ended Dec. 31, 1916, shows a mining profit from operations of \$525,084, equivalent to \$5.25 per share, compared with \$185,797, or \$1.85 per share in 1915. The gain in cash assets for the year was \$235,894, with balance Jan. 1, 1917, of \$449,255.

During the year \$94,556 was spent for additional buildings and equipment. Dividends paid amounted to \$194,634.

Production was 4,752,588 pounds of copper, an increase of 114,136 pounds over the previous year. Average price received was 28.276 cents per pound, compared with 18.363 cents in previous year.

(2) Statement by Superintendent.—In connection with the 1916 annual report of this company Supt. Walker said, in part: "Every effort has been made to increase production, but without material result, owing both to scarcity of labor and limited amount of power available. While the tonnage has been somewhat less than in previous year, this has been more than made up by the increased yield of copper per ton of rock stamped."

"The results obtained under ground have been very satisfactory, as the work done on the fifth level at C shaft seems to demonstrate that the Evergreen lode is well mineralized as far west as C shaft in entirely virgin territory, and there has been obtained from the Butler lode an increased production of stamp rock per unit of lode area. An increase of copper per ton of rock stamped has also been obtained from the mine as a whole."

"The labor cost has shown an increase of 18% over 1915 and it is safe to assume that all supplies have at least shown an equivalent increase, whereas the actual cost of producing copper has only increased about 6%."

"While the development work during the year has been less than in previous year, we have added to our reserves a tonnage somewhat in excess of our extraction. In addition to the reserves added by regular development work, we now have available all of the workings of the old Evergreen mine, which has been unwatered."

—Apr.

(1) Operating Successfully.—On April 1, 1917, the "Boston Evening Transcript" said: "The Mass Consolidated is as well supplied with men as it ever has been and is sending to the mill from 30 to 35 cars of fine looking rock every day. Furthermore, it is opening its property far ahead and is exploring practically every lode that gives promise of carrying commercial copper."

(2) Output Increasing Steadily in 1917.—On April 21, 1917, the "Boston Evening Transcript" said that this company continues to increase its output and in April should exceed, by from 50,000 to 100,000 pounds or more, the previous April figures. It is again milling around 1,200 tons of rock every day, and not only is pushing mining work at top speed, but is keeping its openings well ahead of present needs to prepare for a continuation of this production in the future. The Mass has an extensive territory and, unlike most Ontonagon County properties, can count on obtaining the same good values at depth. There are traces in its properties of practically all the paying or commercial lodes that traverse the Ontonagon district.

MASSILLON ELECTRIC & GAS CO.

(1) Earnings in 1917, Estimated.—It was stated Jan. 15, 1917, that this company, which in 1916 made the largest increases in business in its history, is

expected to more than duplicate the record in 1917.

Estimates are for a 21% gain in business in the first six months of the current year and for the last half new industrial plants now under construction will add 3,700 horsepower to the lines of the company.

The company hereafter will supply energy at wholesale to the Wooster Electric Co. and has a number of other large power contracts in prospect.

MASTER TRUCKS, INC.,
PORTLAND, ME.

(1) Incorporated in January, 1917, in Maine, with a capital of \$300,000, to manufacture, deal in and repair all kinds of motor vehicles. Pres., A. F. Jones, Portland.

• MATHIESON ALKALI WORKS.

(1) Admitted to List.—It was announced Feb. 15, 1917, that the New York Stock Exchange had admitted to the list this company's \$5,885,700 common stock temporary interchangeable certificates.

• Mathieson Alkali Works, and
Castner Electrolytic Co.

(2) Statement, Year Ended Dec. 31, 1916.—It was announced Feb. 14, 1917, that these companies, now listed on the New York Stock Exchange, had reported gross profits for 1916 as \$1,517,760; net after selling and administration expenses, depreciation, etc., \$1,439,166. The consolidated balance sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,247,552.

—Mar.

(1) Report, Year Ended Dec. 31, 1916, shows net profits of \$1,041,407. Net for dividends after interest, depreciation and taxes was \$1,439,166. The pfd. dividend on the \$3,100,000 issue requires \$203,383 so that there was a surplus for the \$5,885,700 common of \$1,235,783, or 20.9%, against \$635,407 in 1915, and an average of about \$425,000 for the four years before that. The common stock in 1915 earned slightly less than 10% and doubled its profits in the year just concluded.

It is understood that the present \$3, or 6%, rate on the common will be increased the middle of the year 1917 to either a \$4 or \$5 basis.

—Apr.

(1) Permanent Certificates for Common Listed.—On April 23, 1917, the New York Stock Exchange substituted on its list this company's permanent engraved interchangeable certificates for common stock for temporary certificates for common stock.

MATSON NAVIGATION CO.

(1) Report, Year Ended Dec. 31, 1916, shows gross earnings of \$2,076,498 and net profit of \$1,630,668.

(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,028,248.

MATTAGAMI PULP & PAPER CO.,
LTD.

(1) Financing.—It was stated Jan. 2, 1917, that the Royal Securities Co. had become associated with the financing of this company, along with W. D. Ross, Vice-Pres. of the Nova Scotia Steel & Coal Co.; E. P. Shove, of the Ray Consolidated Copper Co., of Colorado Springs; Duncan Chisholm, of Toronto, who has for many years been associated with the development of Northern Ontario; and Bruce McKelvie, of Hayden, Stone & Co., of New York.

The larger portion of the company's securities has been taken firm in the United States, but it is possible that a small portion of the company's securities may be underwritten in Canada.

The company's capitalization issued and paid up is \$2,000,000 bonds; \$1,500,000 pfd., and \$2,000,000 common stock.

This company owns 125 square miles freehold timber limits, and 840 miles of leasehold timber limits, situated on the Mattagami River, in Northern Ontario,

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

estimated to contain over 4,000,000 cords of spruce pulp wood, and has a power development of 9,000 horse power.

MAUMEE ICE & STORAGE CORP.

¹(1) Incorporated on Jan. 2, 1917, in New York, with a capital of \$700,000, to prepare, cut, gather, harvest and deal in all kinds of ice. Incorporators: D. Herman, I. H. Cohen and S. L. Marcus, 974 Prospect Ave., Bronx, New York.

MAVERICK MILLS.

²(1) Deferred Dividend.—It was announced March 13, 1917, that this company had declared a regular quarterly dividend of \$1.50 per share on the pfd. stock and \$4.50 per share on account of accumulated dividends. This will leave unpaid back dividends on the pfd. of \$15 per share. The dividends are payable April 2 to stock of record of March 20.

MAXEY JACKSON CO.

²(1) Incorporated on Jan. 26, 1917, in Washington, with a capital of \$600,000, to carry on business at North Yakima. Incorporators: Maxey Jackson, James A. McArthur and Frank B. Clark.

MAXIM MUNITIONS CORP.

²(1) Bond Issue Planned.—It was announced Feb. 19, 1917, that a special meeting of stockholders of this company had been called for March 5 for the purpose of considering a proposal to issue \$500,000 bonds, secured by mortgage on buildings and real estate.

²(2) Letter to Stockholders.—In a letter accompanying the call for a special meeting of the stockholders of this company March 5, 1917, Pres. O'Bannon said that orders for 30,000,000 cartridges for the Danish Government and 500,000 bayonets for Russia, as well as a contract for pistol cartridges for the United States Government, are among the munition contracts in hand and more working capital is needed.

"In the present conditions of our international relations," the letter continued, "an opportunity is presented which the company ought to embrace, as we have reason to expect large orders from our own Government and are also being importuned to consider large orders from foreign Governments."

—Mar.

²(1) Bond Issue.—It was announced March 6, 1917, that at a special meeting of this company's stockholders, an offering to stockholders of \$500,000 5-year convertible 6% bonds at 90% of par was approved. It was also voted to set aside 50,000 shares of the company's stock now in the treasury to provide for the conversion privilege, permitting the bondholders to convert their holdings into stock of the company at par.

²(2) Balance Sheet, as of March 1, 1917, shows total assets and liabilities of \$12,169,094, current assets of \$750,371, of which approximately \$121,000 is in cash; current liabilities of \$740,629 and surplus of \$949,322. The total appraised value of the property pledged as security for the bond issue as determined by independent appraisal was reported to be \$1,468,889.

—Apr.

²(1) Cartridge Contract.—On April 4, 1917, this company announced that it had signed a contract with the Italian Government for the manufacture of 250,000,000 cartridges, deliveries to cover 12 months. The United States Government, it was stated, has increased the order for cartridges recently placed with the company.

• MAXWELL MOTOR CO., INC.

²(1) Dividend Discussion.—On Jan. 31, 1917, the "Boston News Bureau" said that leading interests in Maxwell Motor had expressly stated that the 10% dividend on the company's \$12,778,000 common would continue unbroken, at least throughout the balance of 1917. The stock they consider is selling at an absurdly low level, considering its

strong earnings and the assurance that exists that the common dividend will be earned two to three times over.

²(2) Vice-Pres. Jay Resigns.—Announced Feb. 6, 1917, that John C. Jay had resigned as Vice-Pres. and director of this company. James C. Brady has succeeded Mr. Jay as Chairman of the Board of Directors.

—Apr.

²(1) Advance in Price of Car.—Announcement was made on April 10, 1917, that, effective May 1, this company had advanced the price of its touring car \$30 to \$605.

²(2) Sales, First Quarter, 1917.—The sales of this company for the first quarter of 1917 were more than 58% larger than for the corresponding period of 1916, according to its report. The total for the quarter was 19,000 cars, against 12,032 cars in the first quarter of 1916. According to interests in the company, indications are that after paying the usual dividends of \$3,000,000 and a possible Government tax of between \$500,000 and \$600,000, almost \$2,000,000 will be carried to surplus account.

• MAY DEPARTMENT STORES CO.

²(1) Yearly Earnings, Estimated.—On Jan. 6, 1917, the "Wall Street Journal" said:

"Sales of May Department Stores for the first ten months of its fiscal year, or to Nov. 30, 1916, showed a gain of approximately \$5,500,000, or 32%, over those of the corresponding period of 1915.

"Sales for the full year will undoubtedly establish a new record, and should be in the neighborhood of \$30,000,000, against \$23,309,802 last year and \$26,314,804 in the year ended January, 1914, the previous record period. This record will be established notwithstanding the sale of the company's Pittsburgh branch, which reduced the turnover about \$6,500,000.

"Earnings are also expected to set a new high record, and are estimated at close to \$20 a share on the \$15,000,000 common stock."

—Mar.

²(1) Report, Year Ended Jan. 31, 1917, shows earnings as follows:

	1917	1916
Net profit -----	\$3,422,362	\$2,161,101
Net after taxes -----	3,032,351	1,730,542
Bal. after pfd. dividends -----	2,519,820	1,196,355
Surp. after com. dividends -----	2,107,320	783,855

²(2) Earnings on Stock.—It was stated March 20, 1917, that this company's 1917 balance after pfd. dividends of \$2,519,820 is equal to 16.79% on \$15,000,000 common stock, compared with 7.97% earned on the same stock in 1915.

²(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$5,159,706, compared with \$3,073,660 Dec. 31, 1915.

—Apr.

²(1) New Director Elected.—At this company's annual meeting April 17, 1917, Jerome Dauby was elected a director to fill the vacancy caused by the death of L. A. Braham. All retiring directors were re-elected.

MAYFAIR CINEMA THEATRE CORP.

²(1) Incorporated on Feb. 3, 1917, in New York, with a capital of \$750,000, to engage in a theatrical business. Incorporators: F. Morris, A. Frick and F. W. Force, 175 5th Ave., New York.

• MAYFLOWER MINING CO.

²(1) Merger Approved.—It was announced Feb. 27, 1917, that stockholders of this company at a special meeting had approved the plan for consolidation of that company with Old Colony Copper Co. on a share-for-share basis, under name of "Mayflower-Old Colony Copper Co." At the meeting 68,402 shares voted to authorize the consolidation. There was no opposition.

²(2) Report, Year Ended Dec. 31, 1916, shows expenditures of \$17,728, of which

\$9,518 was for diamond drilling, etc. Balance of assets at close of year was \$45,314, together with \$7,236 of unpaid assessments.

Pres. Paine sets forth reasons for consolidation with Old Colony Copper Co. adjoining, stating that it is expected that a shaft will be started by the consolidated company when the snow is off the ground.

MAYFLOWER-OLD COLONY**COPPER CO.**

²(1) Successor Company.—See Mayflower Mining Co.—Item No. 1.

MAY LUMBER CO.

²(1) Organized.—It was announced Feb. 23, 1917, that this company had been organized at Flint, Mich., and had built extensive warehouses and yards.

MAYO RADIATOR CO.

²(1) Receiver's Report—Litigation Ended.—It was announced at New Haven, Conn., Feb. 7, 1917, that James E. Wheeler, receiver for this company, had filed his report in the Superior Court. It was accepted and the litigation ended, the court allowing the receiver \$1,500 for his services. His report showed the company's cash on hand to be \$24,209, and that the receipts during the time he was receiver amounted to \$49,252. The expenditures were about \$23,500.

As a result of the settlement of the difficulty, Virgilus St. J. Mayo becomes Pres. and Treas. and Carleton E. Hoadley, Sec'y. Mr. Mayo succeeds James D. Livingston, of New York, Pres., and Thomas J. Leavens, of New York, as Treas.

The stockholders voted to reduce the capital stock from \$2,000,000 to \$1,000,000.

—Mar.

²(1) Sale of Plant.—See Marlin Arms Corp.—Item No. 6.

MAYS CALCULATING MACHINE CO.

²(1) Incorporated on April 12, 1917, in Delaware, with a capital of \$2,500,000, to manufacture calculating machines of all kinds. Incorporators: Wm. F. O'Keefe, Geo. G. Steigler and N. T. Parsons, Wilmington, Del.

MAZAPIL COPPER & MINING CO.

²(1) Operations Resumed.—It was announced March 12, 1917, that this company, composed of American interests, had resumed operation of its smelter and mines at Concepcion del Oro, in the State of Zacatecas, Mexico.

MAZATZAL MINING CO.

²(1) Incorporated in February, 1917, in Arizona, with a capital of \$3,000,000. Directors: J. W. McKinnon and W. C. Stanley.

McCALL CORP.

²(1) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross sales -----	\$2,117,322	\$2,056,237
Oper. profit -----	283,911	281,982
Surp. after divs. -----	107,992	15,529

McCHORD (JAMES) CO., FORT WORTH, TEXAS.

²(1) Status (April, 1916).—On April 9, 1917, the "Boston News Bureau" said: "In regard to the present condition of business and outlook for the future, we beg to advise that everything is shipshape in this vicinity. Volume is larger and conditions are better than ever. Collections are splendid; in fact, everything is as good as we could ask or expect up to the present time. It is very likely these conditions will be influenced very soon by prospects of this season's crop. Should we have normal conditions for our growing crop, we will be in fine shape."

McCLOUD RIVER R. R. CO.

²(1) Rehearing of Sacramento Rate Cases Asked.—See Southern Pacific Co.—Item No. 1.

JANUARY 1 TO APRIL 30, 1917

**McCONNELLSBURG & FORT
LONDON R. R. CO.**

¹(1) Receiver.—A Sunbury, Pa., dispatch Feb. 2, 1917, stated that Federal Judge Charles B. Witmer had named C. H. Gerger, of Harrisburg, receiver for this company, which owns a steam road building through Fulton and Franklin Counties, Pa. W. F. Patterson, Jr., of Pittsburgh, was the petitioner. He holds more than \$30,000 worth of mechanics' liens for work done on the property and alleges there is no money with which to pay them.

McCORD CO.

¹(1) Acquisition.—Reported on March 28, 1917, that this company, manufacturers of cotton yarns, mop yarns, etc., had taken over the plant, business, etc., of the Kentucky Cotton Yarn Co. The plant of the Kentucky company will run to June 1, when it will be closed and the machinery shipped to Grahampston, Ky., where it will be installed in the plant being built there by the McCord Co. to replace the factory burned some time ago.

McCORD MANUFACTURING CO.

A complete description of this company appears in the "Miscellaneous Book" in your card cabinet.

¹(1) Net Earnings, Year Ended Dec. 31, 1917, amounted to \$675,088. Profits for January, 1917, show an increase of 75% over January, 1916.

McCRODY STORES CORP.

¹(1) Sales, Week Ended Dec. 23, 1916, were \$538,297, compared with \$383,070 for the same period of 1915. This is an increase of \$155,227, or 40.50%, and is the largest week's business in the company's history.

	1916	1915

MCDONALD (J. G.) CHOCOLATE CO.

¹(1) Status (April, 1917).—On April 9, 1917, the "Boston News Bureau" had the following: "We are very pleased to be able to inform you that we are running our factory at full capacity and it is with difficulty that we are able to fill our orders promptly. Collections have been very good and we are continually opening up new accounts. We have about 400 employees who work on an average of nine hours a day, the same as a year ago. Utah mines are very active, particularly the copper properties; profits being very good due to the high prices paid for metals."

**McELROY OIL SYNDICATE,
OKLAHOMA CITY, OKLA.**

¹(1) Incorporated in January, 1917, in Oklahoma, with a capital of \$500,000. Incorporators: F. B. McElroy, R. E. Stanley and F. E. Mangel.

McELWAIN (W. H.) CO.

¹(1) New Plant Planned.—On April 19, 1917, the "Boston News Bureau" said that this company's business had so ex-

panded that it had planned to erect a new plant, in addition to its present one at Manchester, N. H. The improvements would increase the company's annual payroll to about \$4,000,000.

The company operates six shoe and several large supply factories with a total floor area of over 25 acres. They are located in Boston and in Manchester, Nashua, Newport, Claremont and Merrimack, N. H.

The McElwain Co. promises to complete on May 31 a very successful year. During the first half of the year shoe shipments ran 25% ahead of any previous season.

In addition to regular business McElwain is now working on a contract for over 150,000 pairs of army shoes for the Government.

¹(2) Extra Dividends on Common and Pfd.—On April 21, 1917, this company declared an extra dividend of 3% on the common stock in addition to the regular quarterly dividends of 1½% on the common and 1st and 2d pfd. stocks, all payable May 1 to holders of record April 14. An extra dividend of 3% was also declared on the 2d pfd. stock, payable May 29 to holders of record May 15.

**McGRAW-HILL PUBLISHING
CO., INC.**

¹(1) New Company.—See McGraw Publishing Co., Inc.—Item No. 1.

—Mar.

¹(1) Incorporated on Feb. 28, 1917, in New York, with a capital of 50,000 shares of no par value, to carry on a printing and publishing business with \$2,500,000. Incorporators: E. P. Magoffin, L. D. Baldwin and M. Conboy, 27 Pine Street, New York.

McGRAW PUBLISHING CO., INC.

¹(1) Merger Completed.—It was announced Feb. 27, 1917, that this company and the Hill Publishing Co. of New York had consolidated as the McGraw-Hill Publishing Co., Inc. The new company acquires all the properties and interests of the two constituents, including the Electrical World, Electrical Merchandising, Electrical Railway Journal, The Contractor, Metallurgical and Chemical Engineering, American Machinist, Power, Engineering News, Engineering and Mining Journal and Coal Age.

The Engineering News and the Engineering Record will be consolidated as the Engineering News-Record, with Charles Whiting Baker as editor.

The officers of the new company are: James H. McGraw, Pres.; Arthur J. Baldwin, Vice-Pres. and Treas.; E. J. Mehren, Vice-Pres. and Gen. Mgr.

It is said that the new company will be the largest engineering publishing house in the world.

McGUIRE-CUMMINS MFG. CO.

¹(1) Status (March, 1917).—On March 26, 1917, the "Boston News Bureau" had the following: "The amount of business being placed now is less than a year ago, due to the high prices of all materials entering into the construction of cars. New orders are not as numerous as a year ago. Collections are satisfactory. The number of employees and our operating schedules are practically the same as a year ago. We do not look for an increase in business until the prices of raw materials are lowered, and from present indications there will be no reduction during the next six months."

**McINTYRE EXTENSION MINES,
LTD.**

¹(1) Merger Plan Approved.—See McIntyre-Porcupine Mines, Ltd.—Item No. 1.

McINTYRE JUPITER MINES, LTD.

¹(1) Merger Plan Approved.—See McIntyre-Porcupine Mines, Ltd.—Item No. 1.

McINTYRE-PORCUPINE MINES, LTD.

¹(1) Merger Plan Approved.—It was announced at Toronto, Ont., Dec. 28, 1916,

that no opposition to the proposal of the directors of this company to merge the McIntyre Extension Mines, Ltd., and the McIntyre Mines, Ltd., developed at the meeting of the shareholders on that date.

By-laws necessary for the increase in the capital of the company from \$2,000,000 to \$4,000,000; the issuing of 294,000 shares of McIntyre stock to the McIntyre Extension Co. and 316,298 shares of McIntyre stock to the Jupiter Co. for purchase of their respective properties and assets, were passed unanimously.

Pres. A. M. Hay announced that the directors had considered good policy to obtain an option on the Plenaunum property, which adjoins the Jupiter, and this had been done. The option secured runs for a year, and in that time the McIntyre Co. must expend \$53,000 in development. But if at the expiration of the time the McIntyre Co. does not exercise the option, treasury stock to the value of the amount spent by the McIntyre Co. will be issued by the Plenaunum Co. to them.

Col. Hay, in explanation, said that the geological conditions at the Plenaunum were such as to give almost certain guarantee that good ore bodies similar to those on the McIntyre and Hollinger were to be found at depth on the Plenaunum.

Announcement was made of the resignation of C. B. Flynn, formerly a director. His resignation was accepted.

¹(2) Initial Dividend.—Announced Jan. 19, 1917, that this company had declared an initial quarterly dividend of 5 cents a share, payable Feb. 15 to stock of record Feb. 5.

¹(3) Report, Quarter Ended Dec. 31, 1916, showed gross production amounted to \$356,504. Operating profits from the McIntyre were \$183,774, and from treating customers' ore, \$20,217, making a total of \$208,990, as against \$136,064 for the preceding period, an increase of about 50%.

There were 39,369 tons of ore milled, as against 35,810 tons, and the average grade of ore was higher at \$10.62 against \$9.08. Operating costs, on the other hand, were reduced from \$4.93 per ton to \$4.51.

In addition to the above profits during the quarter, 5,469 tons of ore from the Jupiter property were milled, at an average of \$13.25 per ton, resulting in a gross profit of \$23,081.60. Under the terms of consolidation this and all profits previously earned by the McIntyre-Jupiter Co. become the property of the McIntyre-Porcupine Co.

In the matter of development in all 1,584 ft. was done and 1,130 ft. of diamond drilling.

The amount expended during the quarter on McIntyre and McIntyre-Extension properties for mine equipment, buildings and plant amounted to \$46,242. This expenditure was largely in connection with operations at the main shaft, including crusher house, ore bins, aerial tramway and terminals at main shaft and mill.

¹(4) New Pres.—It was announced Jan. 26, 1917, that the directors of this company had elected J. P. Bickell Pres., to succeed A. M. Hay, deceased. E. F. B. Johnson was elected director to succeed Mr. Hay.

—Apr.

¹(1) March Production Sets New Record.—The output for March, as reported by this company, established a new record, surpassing that of February by approximately \$4,000. The gross production for March was \$147,792, as against \$143,801 in February and \$145,297 in January. The average grade of ore showed an increase running at \$10.82 per ton, as against \$10.65 in February and \$10.60 in January. The tons milled came to 14,377, as against 13,500 in February and 14,317 in January.

McKEESPORT CONNECTING R. R.

McKENNA INVESTMENT CO., PITTSBURGH, PA.

¹(1) Incorporated on March 7, 1917, in Pennsylvania, with a capital of \$400,000. Incorporator: Chas. H. McKenna.

McKINLEY CO.

¹(1) Acquisition.—It was announced Feb. 24, 1917, that this company had purchased the Northern Missouri Light & Power Co., at a cost of \$60,000, and had completed plans for a system to connect the rural districts with the large cities of the State.

McKINLEY-DARRAGH-SAVAGE MINES OF COBALT, LTD.

¹(1) Stock Allotment.—On Jan. 1, 1917, this company mailed checks representing the quarterly allotment of 3% of the capital stock registered Dec. 9, 1916, and payable at this date from the accumulated proceeds of the mines. To date the company has paid to its shareholders 220% of its issued capital stock, it was stated.

A statement of financial conditions as of Dec. 26, 1916, shows: Cash in bank, \$234,450; ore in transit and at smelter, \$61,900; ore at mine and ready for shipment, \$96,575; total, \$392,925.

¹(2) Development.—On Jan. 20, 1917, it was stated that this company is continuing its shaft to the 400-ft. level so that exploratory and development work carried on at that depth from a winze in the Summer of 1916 can be carried on easier.

A series of veins were cut and drifting on them showed up patches of high-grade ore. Sufficient encouragement was given this exploration work to continue the shaft.

It has been stated that the finding of these new veins considerably below other workings proved a new mine in McKinley-Darragh.

—Mar.

¹(1) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross profits---	\$304,637	\$260,423
Net profits---	275,670	231,432
Surp after divs---	12,582	133,066

¹(2) Production, 1916.—It was stated March 18, 1917, that the tons of ore treated by this company in 1916 amounted to 62,676; average tons treated per day, 180.17; average mill heads, 14.797 ozs. per ton; average mill tails, 2.683 ozs. per ton; percentage of extraction, 82.39; ounces of silver recovered in mill, 764,167.

¹(3) Balance Sheet, as of Dec. 31, 1916, shows cash in banks and on hand of \$238,709; accounts receivable, \$490; accounts payable, \$30,767; profit and loss surplus, \$264,942, and total assets and liabilities of \$2,628,333.

¹(4) Report, Year Ended Dec. 31, 1916, showed that the output of silver during the year amounted to 925,779 ounces. This is the smallest output since 1908. In spite of the advance in the price of silver the net profit per ounce, owing to the sharp advance in the cost of production, though greater than in 1915 and 1914, was not so large as in 1913, or several years previous.

The net value of ore produced with marketing costs deducted was \$595,316. Costs of production were \$290,679, leaving gross profit on operations of \$304,637. The net profit is given as \$282,304 as against \$236,656 in 1915. During the year four dividends amounting to \$269,723 were paid to shareholders.

—Apr.

¹(1) New Oil Flotation Plant.—It was announced March 31, 1917, that this company had placed an order for a second oil flotation plant. This unit will have a capacity of about 200 tons, thus raising the total to 400 tons per day.

The tailings will be reground in a Marathon mill, 4x8. This is the first Marathon mill to be installed at any of the Cobalt properties.

¹(2) Financial Statement as of April 1, 1917.—Showed cash in bank \$100,072; ore in transit and at smelter \$120,200, and ore at the mine ready for shipment \$84,450, making a total of \$356,728. There were no debts except current accounts. Total cash assets were \$365,728, compared with \$392,924 three months previously.

McMAN OIL CO.

¹(1) Sale.—See Magnolia Petroleum Co.—Item No. 1.

McRAE PORCUPINE GOLD MINES, LTD.

¹(1) Stock Offering.—It was announced Jan. 29, 1917, that S. G. Jackes & Co., members of the Standard Stock Exchange, Toronto, Ont., are offering 200,000 shares of this company's treasury stock at 50 cents a share. The stock will be used in development work.

¹(2) Status.—It was stated Jan. 31, 1917, that this company's property is situated in Delono Township, Ont., close to the Anchorite, which is being worked by the Conlagas Co. of Cobalt. The company owns outright an area of 92 acres, composed of three claims. Development work has been carried on for several years, the main shaft being from 40 to 60 feet and runs across the property for about 1,300 feet. Both the hanging wall and foot wall of the dyke are of a schist formation, and gold panning has been made throughout its entire length.

Two quartz veins intersect the dyke, one four feet and the other two feet wide. The four-foot vein has been traced for 1,500 feet, and the smaller vein about 500 feet.

The company has a complete modern plant and camp buildings. Assays taken from the veins and dyke run from \$4.80 to \$60 a ton in gold, and from samples covering the entire surface showings.

McWHIRTER (ALEXANDER) & CO.

¹(1) Incorporated on April 11, 1917, in Delaware, with a capital of \$500,000, to deal in and with investments of all kinds. Incorporators: Alexander McWhirter, S. Charles Adams, New York, and Gordon McWhirter, Buffalo, N. Y.

MEAD (G. H.) CO.

¹(1) Violation of Anti-Trust Law Alleged.—See International Paper Co.—Item No. 1.

MEADOW LAKE MINING CO., OF BOSTON, MASS.

¹(1) Change of Name.—It was stated April 11, 1917, at Dover, Del., that this company had filed notice of a change in name to the Brittiana Butte Copper & Zinc Mining Co.

MECHANICAL WINDOW GLASS CO.

¹(1) Incorporated on Jan. 24, 1917, in Delaware, with a capital of \$5,000,000, to manufacture and sell plate and bevel glass. Incorporators: Geo. C. Debray, Springfield, Pa.; Warren D. Gump, Arnold, Pa., and H. L. Schneid, Pittsburgh, Pa.

MECHANICS COTTON MILLS CORP.

¹(1) Increased Dividend.—Announced Jan. 16, 1917, that this company had declared a quarterly dividend of 2½%, payable Feb. 1 to stock of record Feb. 15. The last previous dividend was 1½%.

MECHANICS & METALS NATIONAL BANK, NEW YORK.

¹(1) New Director.—Announced Jan. 9, 1917, that Wm. E. S. Griswold had been elected a director of this bank.

—Feb.

¹(1) Dividend Increased.—Announced Feb. 7, 1917, that this bank had declared a quarterly dividend of 4% on \$6,000,000

capital stock. Previously the quarterly rate had been 3%.

MECHANICS MILLS.

¹(1) Dividend Increased to 3%.—This company, April 17, 1917, declared a quarterly dividend of 3%, payable April 16 to stock of record May 1. The last previous dividend, Feb. 1, was 2½%.

MEDITERRANEAN CO., LTD.

¹(1) Incorporated on April 3, 1917, in Canada, with a capital of \$500,000 divided into 5,000 shares of \$100 each, to manufacture, purchase or otherwise acquire goods, merchandise, etc. Incorporators: Richmond Wyllie Hart, Kenneth Duncan McKenzie, Wm. Walter Perry, Chas. Herbert Croft Leggett and Archibald Maclean Borthwick. Chief place of business, Toronto, Ont.

MELACHRINO TOBACCO TRADING CO., INC.

¹(1) Merger Completed.—Announced Jan. 5, 1917, that a certificate of consolidation of this company with the Tobacco Products Corp. had been filed at Albany, N. Y., on that date.

MELETIO SEA FOOD CO.

¹(1) Incorporated on April 12, 1917, in Delaware, with a capital of \$500,000, to each and sell sea food. Incorporators: Herbert E. Latter and C. L. Rimlinger, Wilmington, Del., and Clement M. Egner, Elkton, Md.

MEMORIAL PHOTOPLAY CORP.

¹(1) Incorporated on Feb. 10, 1917, in New York, with a capital of \$250,000, to deal in motion pictures. Incorporators: E. J. Ablitzer, R. S. French and H. E. Hueg, Woodhaven.

MEMPHIS COLD STORAGE WAREHOUSE CO.

¹(1) Status (April, 1917).—On April 9, 1917, the "Boston News Bureau" said: "Business conditions in our section are extremely good. The extremely high prices of all food commodities have failed, so far, to curtail consumption. Our business shows an increase for the past two months of about 25%. Our collections are much better than they were a year ago, and our operating costs have advanced about 10%. Our future business is dependent almost entirely upon the price of actual cotton, which the violent fluctuations in the future market have so far failed to affect. Should the price of cotton decline at the present high level of food commodities, it would bring about very quickly a distressing condition in our section."

MEMPHIS CONSOLIDATED GAS & ELECTRIC CO.

¹(1) Agreement with City.—Merger.—It was announced Jan. 2, 1917, that officials of the electric light and power companies at Memphis, Tenn., and the city authorities had reached an agreement and the city had cancelled the issue of \$1,500,000 bonds authorized for the construction of a municipal lighting plant. This company, controlled by New York interests, and the Merchants Power Co., controlled by Chicago interests, will be consolidated and competition in Memphis will be eliminated.

Under the agreement with the city the rate for electric current will be 6 cents for the first 80 kilowatt hours a month, with a descending scale to 3 cents a kilowatt hour for all monthly consumption above 300 kilowatt hours and a monthly service charge of 30 cents. Power rates will remain unchanged. Gas rates will be \$1 a thousand for the first 2,000 cubic feet and 80 cents a thousand for excess consumption, with a minimum monthly charge of 60 cents. Street lamps will be \$60 a year.

The Memphis Consolidated Gas & Electric and the Merchants Power Co. will pay the city \$100,000 in cash. The franchises of the consolidated companies will be extended to 1943, but these franchises are not to be consid-

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

ered as exclusive, nor will the city relinquish its right to build a municipal plant at any time. The new rates for gas and electric current are to go into effect Jan. 1, 1917, and will mean a saving of \$350,000 a year to consumers.

The extension of the lighting franchise to 1943 was made because the Memphis Consolidated Gas & Electric Co. has an issue of bonds running to that time, although its present franchise expires in 1935, and that of the Merchants Power Co. in 1930.

Under the reserved right of the city to build a municipal lighting plant at any time it may see fit, it is provided that when it does build its station and has erected 25 miles of lines the private company must meet the rates charged by the city plants.

MEMPHIS PAPER CO., MEMPHIS, TENN.

¹ (1) Status (March, 1917).—On March 26, 1917, the "Boston News Bureau" had the following: "Conditions in this territory, on account of a fair crop in general, are considered above the average and the outlook for the future is very good. The volume of business is better than it has been in years; so are collections, due to the fact that particularly the cotton crop in this section has yielded an enormous amount of money, which encourages buying and naturally makes collections easy also."

"As regards new orders. There was a lull during the months of January, due to the exceedingly heavy buying in previous months, but within the last two or three weeks, stocks evidently became depleted and the orders we have been getting lately, while not as numerous as they were last fall, indicate, nevertheless, a healthy demand for merchandise."

"This section was particularly fortunate last fall in its cotton and other crops, mainly cotton crops. We had a large cotton crop, whereas other sections of the cotton-growing districts suffered from various causes; thus we received the benefit, not only of the full crop, but also the top prices and the country throughout this section is more prosperous than it has been for years."

"Since we are mainly in the jobbing business it has not been imperative for us to increase the number of employees, except to a slight extent. We, however, have fully as many employees as we had last year, in fact we have increased the number to some extent. The operating schedule is full ten hours a day, about the same as it was a year ago."

MENTOR TRANSIT CO., MENTOR, O.

⁴ (1) Capital Increased.—It was announced April 7, 1917, that this company had increased its capital stock from \$150,000 to \$430,000.

MERCHANTS' MANUFACTURING CO.

¹ (1) Extra Dividend.—Announced Jan. 17, 1917, that this company had declared the regular dividend of 1½% and an extra of 2¼%, both payable Feb. 1 to stock of record Jan. 20.

—Apr.

⁴ (1) Stock Dividend of 25% Recommended.—This company, Fall River, Mass., April 17, 1917, recommended to stockholders an increase in capital from \$1,200,000 to \$1,500,000 by a stock dividend of 25%. The directors also declared a quarterly dividend of 4% in cash.

MERCHANTS' & MINERS' TRANSPORTATION CO.

¹ (1) Report, Year Ended Dec. 31, 1916, shows a gross business of \$6,061,000, or an increase of 20% over 1915. Operating expenses other than upkeep absorbed \$875,000 more revenue than in 1915, and after other deductions there remained, before depreciation charges, \$741,000, as compared with \$648,000 for 1915. A charge of \$293,000 was made to depreciation for 1916, against \$164,000 in 1915, and there was also set aside a new sink-

ing fund appropriation of \$180,000—a total of \$473,000, against \$164,000 in 1915.

After this write-off the Merchants' & Miners' will report an earnings balance for the past year of \$208,000, against \$483,000 in 1915, and equal to 7.15% on \$3,750,000 stock.

MERCHANTS NATIONAL BANK, NEW YORK.

¹ (1) New Officers and Directors.—It was announced Jan. 9, 1917, that at the annual meeting of this bank new officers and a new Board of Directors were elected.

The Board of Directors follows: Theodore E. Burton, Pres.; Walter S. Eddy, C. K. Eddy & Sons, Saginaw, Mich.; Eberhard Faber, manufacturer; Raymond E. Jones, New York agent Royal Bank of Canada; Arthur G. Meyer, Arthur G. Meyer & Co., dry goods commission; William E. Neu, Treas. Steel Rail Supply Co.; Charles E. Potts, Pres. and Treas. J. B. Locke & Potts, linens; W. Ross Proctor, New York; Robert Hamilton Rucker, New York; Carl F. Sturbahn, United States agent Russia Insurance Co.; William F. Wall, Pres. Wall Rope Works; P. S. Whitten, Laird & Co., Wilmington, Delaware.

The officers are: Theodore E. Burton, Pres.; Owen S. Paynter, cashier; Frank L. Hinton, assistant cashier; George S. Talbot, assistant cashier; Irving S. Gregory, assistant cashier.

Theodore E. Burton, former Senator from Ohio, the newly elected Pres., served in the House and Senate for 22 years.

A new feature in the administration was inaugurated in the appointment of an Advisory Council.

MERCHANTS POWER CO., MEMPHIS, TENN.

¹ (1) Agreement with City—Merger.—See Memphis Consolidated Gas & Electric Co.—Item No. 1.

MERCHANTS' PUBLISHING CO., KALAMAZOO, MICH.

⁴ (1) Capital Increased.—On April 11, 1917, the company filed notice at Lansing, Mich., of an increase in capital stock from \$200,000 to \$300,000.

MERCHANTS REFRIGERATING CO., NEW YORK.

² (1) Capital Increased.—On Feb. 26, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$4,000,000 to \$7,500,000.

—Mar.

⁴ (1) Bond Issue Planned.—It was announced March 22, 1917, that this company had arranged for a bond issue of \$3,500,000 for extensions. Of the issue \$2,000,000 will be arranged as a building fund.

MERCHANTS' RESERVE AGENCY CO., WILMINGTON, DEL.

⁴ (1) Incorporated in April, 1917, in Delaware, with a capital of \$250,000, to engage in a general brokerage business.

MERGENTHALER LINOTYPE CO.

² (1) Patent Decision Upheld.—See Inter-type Corp.—Item No. 1.

MERGER MINES CORP., LOS ANGELES, CAL.

¹ (1) Incorporated in February, 1917, in California, with a capital of \$1,000,000. Incorporators: G. W. Hughes, C. C. Caley, Fred. G. Heath and J. Henry Brackman.

MERIDIAN & MEMPHIS RY. CO.

¹ (1) Extension to Tombigbee River.—On Dec. 28, 1916, Vice-Pres. S. A. Neville, of this company, was quoted as saying that practically the same interests are behind his company as those which have developed the Meridian & Memphis Ry. west to Union, Miss., and still later the Jackson & Eastern Ry. west from Union into Leake County, Miss. These two lines tap an undeveloped territory.

Mr. Neville further said: "We are now about ready to begin construction east to the Tombigbee River, a distance of 42 miles. This will be done under the charter of the Meridian & Tombigbee River Ry. Co., which succeeds the Meridian & Deep Water R. R. Co., that was organized about four years ago."

"Work will begin early in January, and it is expected to have 27 miles complete during 1917, from Meridian to a point on the Alabama, Tennessee & Northern R. R."

MERRIMACK MANUFACTURING CO.

⁴ (1) Financial Statement.—It was announced April 5, 1917, that this company, incorporated under the laws of Massachusetts, had filed with the Massachusetts Secretary of State a statement of its financial condition, dated Dec. 30, 1916, which compares as follows:

Assets—	1916	1915
Real estate and machinery	\$3,036,168	\$3,707,041
Merchandise	2,364,870	1,840,506
Cash and debts receivable	1,036,373	2,001,264
Total	\$7,037,412	\$7,548,811
Liabilities—		
Capital stock	\$4,400,000	\$4,400,000
Floating debt	1,643,528	2,391,582
Profit and loss	1,053,883	757,228
Total	\$7,037,412	\$7,548,811

MERRIMACK WOOLEN CORP.

¹ (1) New Company Planned.—It was announced Feb. 21, 1917, that plans had been perfected for the organization of this company, under the laws of Massachusetts, to succeed to the business formerly conducted by the Merrimack Woolen Co., Lowell, Mass. The company will have a capital stock of \$300,000, consisting of \$100,000 pfd. and \$200,000 common stock.

MESTON LABORATORIES CO.

¹ (1) Incorporated in Delaware on Feb. 23, 1917, with a capital of \$700,000, to carry on business of research work along lines of scenic development. Incorporators: Herbert E. Latter and Harry T. Farrow, Wilmington, Del., and Clement M. Egner, Elkton, Md.

METAL BLOCK CORP.

¹ (1) Incorporated on March 21, 1917, in New York, with a capital of 1,000 shares of \$100 each, 30,000 shares, no par value, active capital \$250,000, to deal in brass and other alloys of copper and zinc, metal-working and fabricating machines. Incorporators: H. S. Gould, O. C. Duryea and H. Baker, 208 South La Salle St., Chicago, Ill.

METROPOLITAN ELECTRIC CO.

¹ (1) Merger Planned.—See Reading Transit & Light Co.—Item No. 1.

METROPOLITAN 5 TO 50 CENTS STORES, INC.

¹ (1) Incorporated on March 16, 1917, in Delaware, with a capital of \$2,000,000, to conduct stores in all parts of the world. Incorporators: A. W. Britton, Samuel B. Howard and L. H. Gunther, New York.

METROPOLITAN PAVING BRICK CO., CANTON, O.

² (1) Capital Increased.—On Feb. 23, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$3,000,000 to \$7,500,000.

—Mar.

² (1) Merger Planned.—See Bessmer Limestone Co.—Item No. 1.

² (2) Acquisition.—It was announced March 7, 1917, that this company had purchased the brick properties of the Bessmer Limestone Co., Hillsville, Pa., for approximately \$1,250,000.

METROPOLITAN SECURITIES CO., CLEVELAND, O.

² (1) Capital Increased.—On Feb. 21, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$500 to \$1,000,000.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

METROPOLITAN STEAMSHIP CO.

¹(1) **Decision in Stockholders' Suit.**—It was announced at Newark, N. J., Jan. 24, 1917, that Vice-Chancellor Lane had filed a decision in the action of J. R. Morse, sister of C. W. Morse, and other stockholders of this company, against Edward B. Robbins. He found that Mr. Robbins, who was a majority stockholder of the steamship company, was guilty of a breach of trust and must account to the other creditors for property he disposed of. The remedy will be designated later. The property includes the steamships Yale and Harvard and a number of freighters.

²(2) **Receivership Decision.**—It was announced Jan. 23, 1917, that stockholders, bondholders and other creditors of this company, of New Jersey, had been directed by Vice-Chancellor Lane, of New Jersey, to show cause by Feb. 7 why a receiver should not be appointed for the corporation. Mr. Lane explained that the proposed receivership would not be one in insolvency, but that the affairs might be taken charge of pending further order of the court. All the company's documents were ordered kept within the court's jurisdiction.

This action was the outcome of the decision that Miss Jennie R. Morse, sister of Charles W. Morse, had proved her charges of breach of trust against Edward D. Robbins, former Vice-President and general counsel of the New York, New Haven & Hartford R. R., in connection with the withdrawal of the Metropolitan's water competition with the steamboat lines operated by the railroad.

³(3) **Comment on Receivership Decision.**—On Jan. 30, 1917, the "Boston News Bureau" said that the order issued by the New Jersey Court to show cause why a receiver should not be appointed for this company should benefit rather than injure the position of the bondholders of that company. Of the original issue of \$3,000,000 6s, held in good part by New England investors, nearly half has been retired.

Receivership as proposed will be with a view to prosecuting the litigation for restoring to the treasury physical assets claimed to have been wrongfully diverted as a result of the many transactions around the time of the transfer of the company's steamers Harvard and Yale from Atlantic to Pacific waters.

This litigation will complete proceedings that have been going on several years. The complainant security-holders have maintained that E. D. Robbins, on behalf of the New Haven R. R., for which he was general counsel, entered into control, by purchase of certain securities, of the Metropolitan Steamship Co.

The court has favored the contention that this control was unlawful. Among other things, testimony that has been taken shows that there was paid to Mr. Robbins and his associates some \$804,000 and that additional payments of over \$900,000 were pending.

No one claims that Metropolitan Steamship Co. is either insolvent or bankrupt. Its solvency is admitted by all parties. It is equally apparent that any recoveries for the treasury will further strengthen the financial position of the company.

The current litigation may substantially enhance the value of the bonds. Another development bettering the company's earnings from which bond interest is paid has been the recent leasing for five years of its famous Harvard and Yale boats to the Pacific-Alaska Navigation Co. at a charter price of \$360,000 annually for the two vessels and in addition one-half the net operating profits.

—Feb.

¹(1) **Basis of Billard Settlement.**—On Feb. 10, 1917, the "Boston News Bureau" said, in part: "It has been freely intimated that those who are seeking substantial 'recoveries' for the Metropolitan Steamship Co. treasury have had an eye on the \$1,250,000 cash settle-

ment made to the New Haven R. R. in the so-called Billard litigation.

"On the part of the railroad, however, it is stated that no claim against it can successfully be established through the Metropolitan Co. proceedings. The interests which have brought about the receivership of this steamship company for the purpose of prosecuting the suit against E. D. Robbins, formerly general counsel of the New Haven, have believed that the road was really liable jointly with Mr. Robbins for alleged financial mismanagement of the Metropolitan.

"The 'Boston News Bureau,' however, is informed that the Billard settlement had in fact nothing whatever to do with the Metropolitan Steamship situation, but related rather to the transfers of the biggest block of Boston & Maine stock. This block came to the Billard people originally at 125 per share and was turned back by them at 150, representing an apparent profit of \$2,750,000.

"That was what the Billard suit was for. But the New Haven decided that \$1,250,000 was all the property there was to recover even if complete judgment for the larger amount were obtained, and was therefore quite disposed to accept a guaranteed check for that amount in settlement."

²(2) **Money Found Attached.**—It was stated Feb. 21, 1917, that one of the first acts of Edward M. Colle after appointment as receiver of this company was to go to Hartford, Conn., to take possession of \$100,000 cash assets supposed to be there. He discovered that all the moneys of the company had been attached. In consequence he filed a bill of complaint in the New Jersey courts, resulting in a restraining order designed to prevent any more attempts to touch the Metropolitan Co.'s assets.

This injunction is directed against the Pacific Co. of Connecticut, A. C. Greening, of Montclair, and others. Mr. Greening, as trustee under the second mortgage, has been ordered not to resign his position, although he advertised that he would do so, and has been enjoined from disposing of any of the Metropolitan Co.'s papers or documents except to the receiver.

The bill of the receiver asks that the second mortgage be canceled as invalid. The Pacific Co., organized by E. D. Robbins, late counsel for the New Haven R.R., has been restrained from taking any proceeding in any court to compel payment of bonds of the Metropolitan Co. secured by the mortgage to Greening, and from prosecuting writs of attachments against the Metropolitan Co.

—Apr.

¹(1) **Receivership Ordered Enforced.**—Enforcement of a receivership decree made in the Court of Chancery at Trenton, N. J., in a proceeding against this company was granted April 26, 1917, by the Court of Errors on an application of Edward M. Colle, a Newark attorney, who was appointed as receiver by the Chancery Court, as the result of a suit brought against the company by Miss Jennie R. Morse, sister of Charles W. Morse.

She charged that certain interests of stockholders, of which she was one, had been jeopardized and other rights usurped by negotiations furthered on behalf of the New York, New Haven & Hartford R. R.

The Chancery Court found in her favor. An appeal from the suit and the receivership has been taken to the higher court, but the receivership is to be enforced notwithstanding this appeal.

M. E. W. GOLD MINING CO.

¹(1) **Capital Increase.**—On Feb. 10, 1917, the company filed notice at Olympia, Wash., of an increase in capital stock to \$500,000.

MEXICAN EAGLE OIL CO., LTD.

¹(1) **Report, Year Ended Dec. 31, 1916.** shows profits (figures in Mexican gold)

for 1916 of \$18,082,411, against \$11,215,500 in 1915. Net profits were \$10,268,648, against \$5,951,377 the previous year.

MEXICAN GULF STEAMSHIP CO.

¹(1) **Incorporated** on March 29, 1917, in Delaware, with a capital of \$2,000,000, to construct boats of all kinds and operate the same. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

MEXICAN METALS CO.

¹(1) **Stock Assessment.**—It was announced March 6, 1917, that the directors of this company had called an assessment of 15 cents per share, payable on or before April 15 by stockholders of record March 6.

The proceeds of the assessment will be used for development and mining on the Ajax mine in the Cripple Creek district. The directors of the company have loaned \$60,800 to the company, but no part of this assessment will be used to reimburse them.

—Apr.

¹(1) **Development.**—On April 11, 1917, it was stated this company had notified shareholders that 876 feet of development work was done from Dec. 4, 1916, to April 1, 1917, on the Ajax property, which is being operated for the Mexican Metals stockholders. From development work 777 tons of ore were shipped, having a gross value of \$13,477, and a net value of \$8,982. Total net receipts for the period were \$9,443.

MEXICAN NORTHERN POWER CO., LTD.

¹(1) **Receiver Asked For.**—According to a writ filed at Toronto, Ont., April 11, 1917, the Montreal Trust Co. has brought an action against this company to enforce trust deeds and indentures of mortgage securing bonds or debentures of the defendant to the extent of \$13,000,000, and also asking for the appointment of a receiver.

²(2) **Status (April, 1917).**—The Toronto "Globe," April 12, 1917, stated that this company, which is a joint enterprise of London, Toronto and Montreal interests, has under construction a hydro-electric plant on the Conchos River, about 22 miles from Santa Rosalia, in the State of Chihuahua. When the revolution began the company had entered into contracts with mine owners in the Parral, Santa Eulalia, Santa Barbara and other mining districts of Chihuahua, as well as industrial concerns in the principal cities and towns of the State, for supplying them with electric power by means of a system of transmission lines that it planned to construct.

The company has spent more than \$5,000,000. It is stated, in its construction work at the time it was forced, on account of internal troubles of the country, to temporarily suspend its operations. Some work has been done from time to time during the revolutionary troubles, and the project is still in an incomplete state.

• MEXICAN PETROLEUM CO., LTD.

¹(1) **Plant Capacity Increased.**—It was announced Jan. 3, 1917, that this company is increasing the capacity of its plant at Tampico, Mex., to 50,000 barrels a day, making it rank with the largest refineries in America in point of size. Its new refinery at Destrahan, near New Orleans, La., has a capacity of about 6,000 to 7,000 barrels.

This Tampico plant is being used to top the gasoline off the crude oil. It puts the company in a position to place gasoline in the American market on better terms than most of the American companies.

The other big development which has taken place in the affairs of the company is the expansion of the fuel oil market in the United States. Mexican Petroleum previously has been the big fuel oil company so far as steamship lines are concerned, holding large contracts with American and British lines.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Arrangements are being made with manufacturers throughout the eastern section to substitute oil for coal because of high price and for natural gas, because of failing supply.

—Feb.

*(1) **Plant Enlargement.**—It was announced Feb. 2, 1917, that plans had been completed for the enlargement of the topping plant of this company at Tampico, Mexico, to enable it to handle 50,000 barrels a day.

—Mar.

*(1) **Production Comment.**—On March 27, 1917, the "Wall Street Journal" said that this company had produced about 70,000,000 barrels of oil since it had been in business, making it the largest producer of oil in Mexico. Close to 7,500,000 barrels of this total have been produced since February, 1916.

It is figured that Mexican Petroleum Co. has produced more than half of the total output of Mexico since records have been kept of the production of that country. Mexico's total production is placed at about 125,000,000 barrels since 1904.

Little was done in the way of production until 1911, when the yearly output jumped to more than 14,000,000 barrels from 3,000,000 barrels as a result of the bringing in the Mexican's Petroleum Co.'s big Casiano well. This well alone has produced more than 50,000,000 barrels.

Up to Dec. 21, 1911, the total production of Mexican Petroleum Co.'s Ebano group of properties was placed at 10,653,822, and of the Casiano wells 10,706,981. Up to Feb. 1, 1916, total Ebano production was 16,337,836 barrels, an increase of 5,684,014 barrels since December, 1911. Up to Feb. 15, 1916, total production of Casiano was 45,709,335 barrels, all of which except 206,981 barrels were produced by well No. 7. That represented an increase of 35,002,334 barrels since December, 1911. This was a total of slightly more than 62,000,000 barrels up to February of last year. Production of about 7,500,000 barrels since then makes a total of 69,500,000 to 70,000,000 barrels.

*(2) **New Well.**—Announcement was made on March 30, 1917, that this company had brought in a well which was flowing at the rate of 10,000 barrels a day. The new well is known as Chinampa No. 1 and is located just outside the famous Casiano basin. It was brought in alongside the company's pipe line to Tampico, with which connection immediately was made. Production of the new well is 100% greater than the output of wells drilled in by other companies in the district.

The Casiano pool, owned by the company, to date has proved the most prolific in Mexico, one well, Casiano No. 7, alone having produced more than 50,000,000 barrels in the last few years.

—Apr.

*(1) **Annual Meeting Postponed.**—Remarks of Vice-Pres.—The annual meeting of stockholders of this company called for April 10, 1917, was postponed till April 13. This adjournment was made necessary by the absence of E. L. Doheny, who holds over 50% of the stock and proxies.

In a short talk to stockholders, Dr. Norman Bridge, Vice-Pres., said, the stockholders would have to reconcile themselves to smaller profits during the next year or so, and that although so far the officers of the company had been able to keep on the best terms with various forms of Mexican Government, there was no denying that occasions might arise due to the war which would put the company to excessive expense. He said the company, in conjunction with several other oil companies operating in Mexico, was now engaged in widening and dredging the mouth of the harbor at Tampico. The cost of this is a considerable item, but the company will be reimbursed.

*(2) **New Directors.**—At the annual stockholders' meeting of this company April 13, 1917, the following directors were elected to fill vacancies: O. D. Ben-

net, William H. Smith, T. A. O'Donnell and E. L. Doheny, Jr. The term of office of the newly elected directors is four years.

*(3) **Shipping Service Extension.**—April 13, 1917, Herbert G. Wythe, manager of production and transportation, informed the stockholders that by the end of 1917 the company will be in possession of 250,000 tons of shipping service, as compared to a total to-day of approximately 46,000 tons. The new ships will be secured by charter from the Pan-American Petroleum & Transport Co., which is the largest stockholder in Mexican Petroleum.

With the added tonnage it is anticipated that the earnings of the Mexican Petroleum Co. will develop a large increase.

*(4) **New Well.**—On April 9, 1917, the "San Francisco Chronicle" said this company had brought in a well which is flowing at the rate of 10,000 barrels a day. The new well is known as Chinampa No. 1 and is located just outside the famous Casiano basin. It was brought in alongside the company's pipe line to Tampico, with which connection immediately was made. Production of the new well is 100% greater than the output of wells drilled in by other companies in the district.

*(5) **Record of Production.**—The "San Francisco Chronicle" April 9, 1917, said that this company had produced about 70,000,000 barrels of oil since it had been in business, making it the largest producer of oil in Mexico. Close to 7,500,000 barrels of this total had been produced since February, 1916.

It is figured that Mexican Petroleum Co. has produced more than half of the total output of Mexico since records have been kept of the production of that country. Mexico's total production is placed at about 125,000,000 barrels since 1904.

Little was done in the way of production until 1911, when the yearly output jumped to more than 14,000,000 barrels from 3,000,000 barrels as a result of the bringing in the company's big Casiano well. This well alone has produced more than 50,000,000 barrels.

Up to Dec. 21, 1911, the total production of the company's Ebano group of properties was placed at 10,653,822, and of the Casiano wells 10,706,981 barrels. Up to Feb. 1, 1916, total Ebano production was 16,337,836 barrels, an increase of 5,684,014 barrels since December, 1911. Up to Feb. 15, 1916, total production of Casiano was 45,709,335 barrels, all of which, except 206,981 barrels, were produced by well No. 7. That represented an increase of 35,002,334 barrels since December, 1911.

This was a total of slightly more than 62,000,000 barrels up to Feb. 1, 1916. Production of about 7,500,000 barrels since then makes a total of 69,500,000 to 70,000,000 barrels.

*(6) **Earnings in 1916 Estimated at \$7,153,059.**—On April 25, 1917, the "Boston Daily Advertiser" stated that the report of this company for the year ended Dec. 31, 1916, would show net earnings of \$7,153,059. From that amount about \$950,000 will be applied to pd. dividends, leaving a balance of nearly \$16 a share for the common. In 1915 the company reported approximately 5% for the common stock, and in 1914 3%.

Earnings for the current year will be much larger than reported in 1916, and the balance applicable to the common stock is estimated at between \$30 and \$35 a share.

• MEXICAN TELEGRAPH CO.

*(1) **Stock Dividend.**—Announced Feb. 5, 1917, that this company had declared a stock dividend of 38%.

The new stock, representing surplus net earnings, will be issued April 1 and will carry the right to all dividends declared subsequent to the usual April disbursement.

—Mar.

*(1) **Application to List.**—Announced March 3, 1917, that this company had made application to the New York Stock Exchange to list \$1,250,000 additional of its capital stock.

*(2) **Listed in New York.**—It was announced March 14, 1917, that the New York Stock Exchange had admitted to the list an additional \$1,250,000 of this company's capital stock, making total amount authorized to be listed \$5,000,000.

*(3) **Report, Year Ended Dec. 31, 1916,** shows: Gross receipts, \$1,389,148; operating expenses, taxes, etc., \$377,022; net receipts, \$1,012,126; dividends paid, \$358,040; surplus, \$653,186.

*(4) **Balance Sheet, as of Dec. 31, 1916,** shows a profit and loss surplus of \$5,412,198, compared with \$4,759,012 Dec. 31, 1915.

*(5) **Report, Year Ended Dec. 31, 1916.**—Gross, \$1,412,836, against \$1,161,061 last year; operating income, \$997,700, against \$789,358 last year; surplus after dividends, \$638,760, against \$450,418 last year.

*(6) **Earnings on Stock.**—The net earning of \$997,700 are equal to 27.29% on the \$3,589,400 capital stock outstanding.

*(7) **Balance Sheet as of Dec. 31, 1916,** showed profit and loss surplus of \$5,397,773, against \$4,759,011 last year.

MEXICO-COLORADO COAL & MINING CO.

*(1) **Bond Purchase.**—It was announced March 1, 1917, that L. Ladin Kellogg, chairman of the Reorganization Committee of this company, had bought at public sale at New York for \$1,535,000 bonds of the Yankee Fuel Co. and \$277,000 bonds of the Santa Fe, Raton & Eastern R. R.

The bonds were sold in the foreclosure suit instituted by the Equitable Trust Co., as trustee, under the issue dated July 27, 1911, guaranteed by the Mexico-Colorado Company. The upset price was \$6,000, and Mr. Kellogg's bid was \$8,000.

MEYER (ANDERSON) & CO., LTD.

*(1) **To Be Taken Over.**—See Pacific Development Corp.—Item No. 2.

MEYER (M.) CORP., HURON, S. D.

*(1) **Incorporated on April 7, 1917,** in New York, with a capital of \$250,000 to engage in a manufacturing and merchandising business and to operate mills, mines. Representative: Michael Meyer, 447 Ellicott Square, Buffalo, N. Y.

• MIAMI COPPER CO.

*(1) **Extra Dividend.**—Announced Jan. 2, 1917, that this company had declared an extra dividend of 50 cents a share, in addition to a quarterly dividend of \$1.50 a share, payable Feb. 15 to stock of record Feb. 1.

*(2) **Preparing for 75,000,000-Lb. Output.**—It was stated Jan. 2, 1917, that this company, having raised its production to a basis of 60,000,000 lbs. of copper per annum, will devote its attention for the first part of 1917 to a further increase of approximately 75,000,000 lbs.

Miami's pending increase will be due to increased tonnage of ore treated to 6,000 tons daily, finer grinding resulting in increased savings, and the saving of a large proportion of oxidized copper.

For the purpose of conducting experimental tests on the oxidized recovery a 100-ton plant has been erected.

Upon the outcome of these experiments will depend the treatment of the oxidized material.

The Miami concentrator will undergo alterations. The rolls at the head of each section of the mill will be replaced by Hardinge ball mills. In the shaft crusher house rolls will be replaced by Symons disc crushers. This should result in increased capacity and deliver a finer ore to the mill.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

During 1916 Miami has increased its reserves of low-grade ore, reported a year previously as being 17,000,000 tons, but has added nothing of consequence to its high-grade material.

(3) Production, December, 1916.—Announced Jan. 3, 1917, that this company produced in December 4,622,273 pounds of copper up to Christmas, compared with 4,968,500 pounds in November, 4,859,443 pounds in October, and 4,381,367 in September. December, 1915, production was 4,088,165 pounds.

(4) Comment on December Production.—On Jan. 4, 1917, the "Wall Street Journal" stated that this company's production of 4,622,273 pounds of copper in December was a decrease of about 300,000 pounds from November's output of 4,968,500 pounds, the high record for the company.

Miami during 1916 produced approximately 53,000,000 pounds of copper, compared with 43,000,000 in 1915 and 33,000,000 in 1914.

Plans of the company now under way should bring Miami's output for 1917 well over 60,000,000 pounds.

With the production of 53,000,000 pounds during 1916 and cost of approximately 9 cents a pound, it is estimated that Miami earned about \$12 a share on the 747,000 shares outstanding.

In view of the company's good showing in 1916 it is expected that the present dividend which it is at the rate of \$8 annually will be maintained during the whole of 1917.

(5) Flotation Results, December.—It was stated Jan. 15, 1917, that the value of this company's concentrates, f. o. b. plant, resulting from flotation operations in December, was \$278,513, compared with \$299,396 in November.

(6) Argument Started in Suit.—See Minerals Separation Co., Ltd.—Item No. 1.

—Feb.

(1) Production, January, 1917.—Announced Feb. 2, 1917, that this company had produced in January, 1917, 5,020,370 pounds of copper, compared with 4,622,273 pounds in December, 1916, and 4,968,500 in November, 1916. Production in January, 1916, totaled 3,910,000 pounds.

(2) Comment on January Production.—On Feb. 3, 1917, the "Wall Street Journal" said that this company's January production of 5,020,370 pounds of copper is a new high record and is in line with the plans of the company to bring production up to between 66,000,000 and 70,000,000 pounds during 1917. Total production during the 12 months of 1916 was approximately 53,000,000 pounds.

High record production in January was an increase of about 400,000 pounds increase over December, 1915, and over 1,000,000 pounds greater than output in January, 1916. Previous high record production was in November, 1916, when 4,968,500 pounds of copper was turned out.

As the company has been fortunate in receiving a high price for its copper, and officials state that they have sold part of output well into the second half of 1917, it is safe to estimate that Miami during 1917 will show earnings equal to approximately \$20 per share.

—Mar.

(1) Production, February, 1917.—Announced March 2, 1917, that this company in February produced 4,210,780 pounds of copper, compared with 5,020,370 pounds in January, 4,622,273 pounds in December and 3,990,936 pounds in February, 1916.

(2) Comment on February Production.—On March 2, 1917, the "Wall Street Journal" said that this company's February production fell off somewhat as compared with January, due to the fact that February was a short month and that one of the sections was closed down for six days to instal additional grinding machinery. It will be noted, however, by comparing with February, 1916, that the company's production for the month shows a substantial increase.

(3) Extra Dividend Probable.—On March 9, 1917, the "Wall Street Journal" said it would not be surprising if this company's directors at their meeting the first week in April declared an extra disbursement of \$1 a share, in addition to the quarterly dividend of \$1.50 a share.

This would mean an increase of 50 cents a share in the extra disbursement ordered in January. Miami would then be paying dividends at the rate of \$10 a share annually.

Miami earned around \$12 a share in 1916, but earnings of more than \$17 a share are expected in 1917. The company plans to bring production up to between 66,000,000 and 70,000,000 pounds in 1917.

Surplus on March 1 totaled about \$6,700,000, of which \$1,700,000 was cash. With a maintenance of high copper prices over the rest of the year, and an output of 66,000,000 pounds, returning an estimated profit of about 20 cents a pound, Miami stands an excellent chance of showing a net of something like \$11,000,000 for the remaining 11 months.

(4) Annual Meeting April 18.—Announced March 21, 1917, that the annual meeting of stockholders of this company would be held April 18. No stock can be voted which has been transferred on the books within 20 days preceding the election.

—Apr.

(1) Extra Dividend.—Announced April 2, 1917, that this company had declared an extra dividend of \$1 a share, in addition to a quarterly dividend of \$1.50 a share, payable May 15 to stock of record May 1. This is an increase of 50 cents a share in the extra disbursement declared three months previously, and represents the second dividend increase ordered since Jan. 1, 1917.

(2) Comment on Dividends.—On April 4, 1917, the "Wall Street Journal" said that the action of this company's directors in increasing the extra disbursement from 50 cents to \$1 a share quarterly was not surprising. In the first quarter of 1917 Miami earned \$2,700,000, or at the rate of about \$16 a share. The 1916 earnings were at the rate of around \$12 a share. Production through January and February ran at the rate of 54,000,000 pounds annually, but plans are under way to bring output up to between 66,000,000 and 70,000,000 pounds annually before the end of 1917.

Miami is well entrenched financially. Surplus on March 1 was in the neighborhood of \$6,700,000, of which \$1,700,000 was cash. This was after paying the first quarter's dividend of \$1.50 a share and 50 cents extra amounting to \$1,424,228.

The output is sold well ahead into the last quarter so that with high metal prices over the last three months of 1917 Miami stands an excellent chance of earning about \$12,000,000 for the full 12 months, which would leave a total surplus of approximately \$11,000,000 after dividends.

Miami paid dividends of \$1.50 a share in 1912, \$2 in 1913, \$1.50 in 1914, \$2.25 in 1915, \$3.75 in 1916, and has declared \$4.50 thus far in 1917.

(3) Production, March, 1917.—Announced April 3, 1917, that this company in March produced 5,217,903 pounds of copper, compared with 4,210,780 in February, 5,020,370 in January and 4,192,000 in March, 1916.

(4) Comment on February Production.—On April 4, 1917, the "Wall Street Journal" said that this company's new high record production in March of 5,217,903 pounds was an increase of 197,533 pounds over the previous high record output of 5,020,370 pounds registered in January, 1,007,123 pounds over February's output, and 1,125,903 pounds over the production for March, 1916.

Based on the February return, Miami is producing at the rate of approximately 63,000,000 pounds annually.

(5) Status.—It was stated April 4, 1917, that this company has a net surplus of \$7,632,000, of which \$2,619,000 is

cash and the balance copper sold but not delivered. At the end of December the surplus stood at \$6,388,000, of which \$1,512,000 was cash. Since that time the company has paid a dividend of \$1,494,228.

Through doubling the amount of its extra dividend Miami Copper Co. in May will pay a dividend at the rate of \$10 per annum. The regular rate is \$6 a year with the extra disbursement a flexible item depending in amount upon conditions.

Estimating its March yield at 5,218,000 pounds, a new high record, as indicated in preliminary advices from the mine, the first quarter's production approximated 14,500,000 pounds of copper against 11,900,000 pounds in the corresponding period a year ago.

By December it is expected that alterations necessary to the treatment of a larger tonnage with increased savings at the Miami mill will have been completed. The plant will then have a capacity of 6,000 tons of ore daily.

Further increase in production also will come from treatment of oxides on which experiments have been conducted for some time.

(6) Concentrates from Flotation in March Show Increase.—There was an increase of nearly \$100,000 in value of concentrates secured from flotation during March by this company over similar yield in February. The flotation value in March was \$359,652, against \$265,766 in February and \$318,628 in January.

(7) Report, Year Ended Dec. 31, 1916, shows income account as follows:

	1916	1915
Gross sales.....	\$13,072,440	\$7,262,884
Net incl. oth. inc.	7,336,196	3,408,562
Surp. after divs.	3,040,291	1,727,558

(8) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$6,215,636, compared with \$3,175,346 Dec. 31, 1915.

(9) Earnings on Stock \$9.81 a Share in 1916.—This company's 1916 net profit of \$7,336,196 is equivalent to \$9.81 a share earned on 747,114 shares of capital stock, as compared with \$4.56 a share earned in 1915.

(10) Net Production in 1916 53,518,331 Lbs.—J. Parke Channing, Vice-Pres. and managing director of this company, in his annual report to the Pres. and directors, stated that net production of copper in 1916 amounted to 53,518,331 pounds from the treatment of 1,842,017 tons of ore. Recovery in the concentrator was 73.88% of the total copper in the ore, of which 95% was returned in merchantable form, the difference being smeltery and refinery losses.

The cost of producing copper was 9.523 cents a pound. The company's copper account shows sales in 1916 of 53,433,863 pounds at 24.465 cents a pound.

Cost of renewals and repairs were charged to operating expenses. In addition there has been a direct charge to depreciation of \$239,817. There was set aside out of surplus for depletion of mine \$423,587. In the year 1916 the amount credited to development account exceeded the amount actually expended by \$241,713. Four quarterly dividends were paid during the year, totaling \$5.75 a share.

(11) Expansion in Operations Reported by Gen. Mgr.—Gen. Mgr. Gottsberger, of this company, in his 1916 report to stockholders, said in part:

"During the year a gradual expansion in scale of operations was brought about, the daily tonnage milled increasing from 4,400 in December, 1915, to 5,600 tons a day in the same month of 1916. A corresponding increase in copper production was obtained until at the present time monthly production amounts to about 5,000,000 pounds.

"No addition to the tonnage of high-grade ore was made during the year, and this figure is now 16,400,000 tons, averaging 2.40% copper. In the low-grade ore body some additional drifting was done and 10,825 feet of additional churn drilling was done. In all 16 new holes were put down and three old

JANUARY 1 TO APRIL 30, 1917

holes carried to greater depths.

"The result of this work has been the demonstration of a considerably greater tonnage than was figured in previous years, and it is now estimated that distinct from the old ore body in the mine, there is 28,000,000 tons of low-grade ore of an average of 1.06% copper."

"(12) Two New Directors Elected.—At the annual meeting of this company April 18, 1917, the retiring directors, with the exception of Herman Slicken, who is in Germany, were re-elected. S. S. Rosenstamm was elected to succeed him and E. H. Westlake was elected a director to fill a vacancy."

It was announced that the company's participation in the sale by copper producers to the Government of approximately 45,000,000 pounds of copper at 16.67 cents a pound amounted to less than 1,500,000 pounds.

MIAMI IRON & STEEL CO.

"(1) Blast Furnace Sold.—It was announced Feb. 28, 1917, that this company had sold its blast furnace, with a daily capacity of 350 tons, at Hamilton, O., to interests composed of H. W. Croft, Pres. Harbison-Walker Refractories Co., Pittsburgh; J. A. Savage, formerly Supt. of two ore mines in the Cuyuna range, Minn.; W. A. Chadbourne, New York attorney, and L. C. Turley, Portsmouth, O., a director of Harbison-Walker Co."

"(4) Earned \$36.48 a Share on Stock in 1916.—This company's 1916 surplus after fixed charges of \$6,837,436 is equivalent to \$36.48 a share earned on 187,380 shares of capital stock, compared with \$15.62 a share earned in 1915."

MICHIGAN COPPER & BRASS CO.

"(1) New Control.—It was announced Feb. 16, 1917, that control of this company, Detroit, Mich., had passed to a

group of men closely identified with the motor interests with which W. C. Durant is identified. The new interests voted 72,000 shares of stock out of 111,485 shares outstanding. Only three members of the company's old Board of Directors were re-elected, these being D. M. Ireland, James T. Whitehead and Alfred L. Simmons."

The new directors are: C. S. Mott, Walter Chrysler and H. J. Mallory, Flint; Alfred P. Sloan, Jr., New York; E. E. MacCrone and Hal H. Smith, Detroit. They fill places on the board formerly held by Fred M. Alger, George H. Barbour, Benjamin F. Brusstar, E. J. Corbett, Jeremiah Dwyer, William A. Gorby, James E. Danaher and Fred T. Moran, all of whom are understood to have sold their holdings."

MICHIGAN COPPER CO.

"(1) Stock Assessment.—On Jan. 8, 1917, it was stated that this company announced an assessment of \$1 per share on its stock, payable Feb. 15. This brings into the company's treasury \$100,000, which will be expended in exploration work."

MICHIGAN COPPER MINING CO.

"(1) Status.—It was stated Jan. 31, 1917, that with the payment on Feb. 15 of the recently levied assessment of \$1 per share there will have been paid in on stock of this company a total of \$22 per share, par \$25."

Since July, 1915, a shaft has been sunk 600 feet and three lodes located—the Butler, Ogima and the Evergreen. Commercial values have been encountered on all three."

During 1916 in the course of development work 60,000 pounds of copper were produced and sold at high prices."

MICHIGAN GAS & ELECTRIC CO.

"(1) Merger Planned.—It was stated March 3, 1917, that it was the plan of this company, a Michigan corporation, organized in February, 1917, with a nominal capital stock of \$1,000, in conjunction with the Marquette County Electric Ry. Co., to consolidate the following companies, for which it has asked the Michigan Public Service Commission to authorize the issuance and delivery of \$900,000 capital stock, and \$458,000 first and refunding mortgage gold bonds: Marquette County Gas & Electric Co., Constantine Hydraulic Co., Houghton County Gas & Coke Co., Three Rivers Gas Co., Three Rivers Light & Power Co., and the Milling & Power Co."

The financial plan is to replace \$1,603,000 of capital stock issued by the present companies with \$400,000 pfd. and \$500,000 common stock, in the Michigan Gas & Electric Co., and with \$25,000 stock in the Marquette County Ry. Co., the issuance of which that company also asked the commission to approve. All bonded indebtedness is assumed by the Michigan Gas & Electric Co., with the exception of \$175,000 worth of bonds to be assumed by the Marquette County Ry. Co."

A first and refunding mortgage is to be executed by the Michigan Gas & Electric Co., for \$300,000 worth of bonds, of which \$35,000 go to the Three Rivers Light & Power Co. and the Milling & Power Co., in lieu of stock in said corporations, and the remaining \$265,000 worth of bonds is to be sold at not less than 85% of par. The proceeds are to be applied to the discharge of floating indebtedness of the present corporations."

As a result, according to the petition filed, the capital stock will be reduced \$678,000; the bonded indebtedness increased \$300,000, and the floating indebtedness decreased \$225,250; making a total reduction of capital stock and indebtedness of \$603,250."

The figures filed with the commission shows that Dec. 31, 1916, the six companies had in their capital account \$2,835,764, distributed as follows: Capital stock outstanding, \$1,603,000; bonds outstanding, \$987,000; bills payable, \$211,074.02; accounts payable, \$32,594.99; miscellaneous, \$2,095.17."

MICHIGAN LIGHT CO.

JACKSON, MICH.

"(1) Capital Increased.—On Feb. 3, 1917, the company filed notice at Lansing, Mich., of an increase in capital stock from \$5,503,100 to \$5,925,900."

MICHIGAN WIRE CLOTH CO.

"(1) Officers.—It was announced Feb. 3, 1917, that at the annual meeting of this company Hugh O'Connor was elected Pres. and Treas.; Frank E. Croul, Vice-Pres.; and Clarence E. Botsford, Sec'y. Directors chosen are the foregoing William T. Barbour and Arthur C. O'Connor."

The annual report, filed with the Michigan Secretary of State, showed assets of \$304,340, with no liabilities."

MICHIGAN POWER & PAPER CO., LTD.

"(1) Development Plans.—On Jan. 5, 1917, it was stated that this company, recently incorporated with a capital stock of \$6,500,000, contemplates the construction of a 150-ton news mill at Michipicoten Harbor, about 120 miles west of Sault Ste. Marie, and also a 125-ton ground wood pulp mill."

The cost of the mills and the water power development is estimated at about \$6,000,000. Lewis Miller Wood, of Toronto, Pres. of the Standard Chemical Iron & Lumber Co., is at the head of the new company. The headquarters are in Toronto, Ont."

MICO OIL CO.

"(1) Incorporated on March 19, 1917, in Delaware, with a capital of \$2,000,000, to deal in and with crude oil, petroleum and their products. Incorporators: Ervin C. Wagner, David M. Baker and Frederick Barnhill, all of Indianapolis, Ind."

MIDCO GASOLINE CO.

"(1) New Electric Plant.—It was announced Feb. 23, 1917, that this company, Bartlesville, Okla., had started the construction of a municipal electric light plant, for which \$20,000 in bonds were recently voted."

MID-CONTINENT CONSOLIDATED OIL & UTILITIES CORP.

MILLBROOK, N. Y.

"(1) Capital Increased.—On Jan. 23, 1917, the company filed notice at Albany, N. Y., of an increase from 1,500 shares to 150,000 shares, to carry on business, \$7,500 to \$750,000."

—Apr.

"(1) Stock Offering.—On April 11, 1917, announcement was made by Keane, Zayas & Potts, New York, of the offering of stock of this company at \$12 a share, netting 10% at the dividend rate of 10 cents monthly. The company has a capital of 150,000 shares, no par value, of which 125,000 are issued. Transfer agents, Metropolitan Trust Co., New York, and Central Trust Co. of Illinois, Registrars, Security Transfer & Registrar Co., New York, and Fort Dearborn Trust & Savings Bank, Chicago."

MID-CONTINENT OIL CO., IRVINE, KY.

"(1) Improvements.—On March 8, 1917, it was announced that this company will erect a tankage at Irvine, Ky., with a capacity of 1,500,000 barrels of petroleum, in connection with a refinery

JANUARY 1 TO APRIL 30, 1917

which it is proposed to erect in Louisville or Cincinnati. It is estimated that cost of equipping the tankage plant will run to \$2,500,000. Harry Sinclair is Pres.

MIDDLE STATES WATER WORKS CO.

¹(1) Status.—It was stated Dec. 28, 1916, that this company was incorporated in Delaware in November, 1916, to take over and operate subsidiaries of the American Water Works & Electric Co., including the water works companies at Kokomo and Mount Vernon, Ind.; Merrill and Marinette, Wis.; Wichita, Kans.; Keokuk, Ia., and Louisiana, Mo. Most of these companies had been operating on a profitable basis.

The combination has reduced the outstanding bonded debt substantially by buying in all the mortgage bonds of subsidiaries and pledging them under a new bond issue, which is less than the sum of the original bonds. The new bonds have been issued to the amount of \$1,377,000, secured by first lien on all but the Wichita plant.

Combined earnings in the last year were nearly twice the bond interest. More bonds may be issued, but the interest charges must not exceed 66% of net earnings.

As the subsidiary plants have been operating for years and their earning power is established and known, the new bonds are well protected.

MIDDLE WEST UTILITIES CO.

¹(1) Initial Cash and Stock Dividends on Common.—Announced Jan. 24, 1917, that this company had declared an initial quarterly dividend of one-half of 1% in cash and a semi-annual dividend of 1% in common stock on its common stock, both payable April 2 to stock of record March 15.

The regular quarterly dividend of 1 1/4% on its pfd. stock was also declared, payable March 1 to stock of record Feb. 15.

¹(2) Statement by Board.—It was announced Jan. 24, 1917, that in connection with the declaration of dividends on the common stock of this company the Board of Directors issued the following statement: "It has been calculated that a portion of the surplus earnings of the company invested in its property and represented by the regular stock dividends will accomplish the twofold object of lessening the requirements of outside capital and greatly strengthening the equities behind the senior securities of the company and also their investment standing."

"From the viewpoint of the holder of common stock surplus earnings so invested will earn for him a larger return than it would be prudent for the company to pay in cash for a long time to come."

—Apr.

¹(1) \$128,700 Common Listed in Chicago.—The Chicago stock Exchange announced April 19, 1917, the listing of \$128,700 common stock of this company.

MIDLAND COUNTIES PUBLIC SERVICE CORP.

¹(1) Permit to Issue \$825,000 Bonds Bought.—On April 19, 1917, this company applied to the California Railroad Commission for authority to issue \$825,000 in bonds, of which \$219,000 are to be sold at once and the balance when net earnings are one and three-quarter times fixed charges.

To provide funds for discharging part of its floating debt the company plans to levy a 10% assessment on its stock and another 10% assessment will be made within a year if the commission grants the applications. There will thus be available within 12 months funds to discharge the current liabilities of \$408,000.

MIDLAND RY.

¹(1) Stock Increase Planned.—It was announced Feb. 21, 1917, that this company had applied to the Georgia Railroad Commission for authority to issue

\$423,600 additional capital stock, and also to create a first mortgage on all its properties to secure a total issue of \$1,000,000 of first consolidated mortgage bonds. The proceeds of this issue will be used to refund outstanding obligations and also to acquire certain properties. George M. Brinson, Savannah, is Pres.

MID-NATION IRON PRODUCTS CO., ST. LOUIS, MO.

¹(1) Incorporated on Jan. 20, 1917, in Missouri, with a capital of \$2,000,000. Incorporators: Earl A. Clemons, W. R. Leeper, Wm. C. Grotzinger, Chicago; A. F. Olson, St. Paul; Joseph W. and E. A. Lindsay and Frank J. Quinn, St. Louis.

¹(2) Blast Furnace Planned.—It was announced Feb. 22, 1917, that this company, organized with a capital of \$2,000,000, had begun preparations for the erection of a blast furnace at St. Louis and also for the development of about 25,000 acres of iron-ore lands in Wayne and Butler Counties, Missouri. It also has in contemplation plans for the sale of iron ore to other furnaces.

With a new short railroad it is expected to utilize the Mississippi River, with barges, for the transportation of ore. Earl A. Clemons, Chicago, is Pres.

MIDNIGHT MINING CO.

¹(1) Incorporated on Jan. 5, 1917, in Delaware, with a capital of \$1,000,000, to do general mining in all its branches. Incorporators: L. W. Baker, C. A. Plackett, L. F. Hocloz, Spokane, Wash.; W. P. Flood and E. J. Clark, Mullan, Idaho.

MIDPACIFIC TUNA CANNING CO., HONOLULU, HAWAII.

¹(1) New Company Organized.—It was announced on Jan. 20, 1917, that this company had been organized, with a capital of \$250,000, to build a tuna canning plant in the Hawaiian Islands, with a reduction plant in conjunction which will turn the waste into fertilizer for the sugar plantations.

• MIDVALE STEEL & ORDNANCE CO.

¹(1) Initial Dividend.—Announced Jan. 3, 1916, that this company had declared an initial quarterly dividend of \$1.50 a share, payable Feb. 1 to stock of record Jan. 20. This places the stock practically on a \$6 yearly basis.

¹(2) Report, Year Ended Dec. 31, 1916, shows: Gross earnings, \$38,061,276; subsidiary company charges, \$549,797; balance, \$37,511,479; depreciation, \$3,525,579; bond interest, \$1,816,736; surplus after charges, \$32,169,164; equal to \$16.08 per share, \$50 par value, on \$100,000,000 capital stock.

¹(3) Profit-Sharing Plan.—It was stated Jan. 3, 1917, that this company had announced an employee stock subscription plan which will enable the officials and employees of the company and of its

subsidiary companies to purchase the stock of the company, par value \$50, at \$60 a share. Under certain conditions, which are fully set forth in a circular, the company will guarantee an income of not less than \$6 a share a year for a five-year period.

¹(4) Comment on Yearly Earnings.—On Jan. 4, 1917, the "Wall Street Journal," in commenting on the yearly earnings of this company said that the net returns for the fourth quarter, amounting to \$13,233,976, were at the rate of approximately \$53,000,000 a year, whereas earnings for the full year 1916 were \$37,511,479. The surplus of \$32,169,164 for the year after all deductions was at the rate of \$16.08 a share on the 2,000,000 shares of stock outstanding.

It is evident from earnings that Midvale is in a strong position financially and that if earnings in 1917 are as large as they were in 1916 the surplus as of Jan. 1, 1918, will be almost equal to the purchase price of the Cambria Steel Co.

Midvale Steel & Ordnance Co. could well afford to pay more than \$6 a share annually, but it is maintaining a conservative attitude by putting back a large percentage of its earnings into property and working capital. The Cambria acquisition proved more profitable than expected. That subsidiary alone is understood to be earning between \$25,000,000 and \$30,000,000 annually.

Midvale Steel is booked into the latter part of the current year at high prices, and the outlook for the 12 months could not be more encouraging, it was stated.

¹(5) Acquisition.—It was announced Jan. 4, 1917, that this company had purchased the Pittsburgh & Westmoreland Coal Co. for \$9,000,000. The transaction involves 16,000 acres of gas, coal and coking coal in Westmoreland and Washington Counties, Pa. The property joins the 5,200 acres of the Marlanna Coal Co. which the Midvale Co. purchased about two months previously from the Union Trust Co. of Pittsburgh for \$3,500,000.

This gives the ordnance company 21,200 acres of coal property in Western Pennsylvania, and it is understood that it will purchase more early in 1917.

¹(6) Projectile Bids.—See Hadfields, Ltd.—Item No. 1.

¹(7) Stock Subscription Plan.—It was stated Jan. 8, 1917, that this company's plan for stock subscription by officials and employees of the company and its subsidiaries enables them to purchase the stock, par \$50, at \$60 a share.

Those receiving \$600 or less may subscribe for a maximum number of 2 shares; \$600 to \$1,200, 3 shares; \$1,200 to \$1,800, 4 shares; \$1,800 to \$2,400, 5 shares; \$2,400 to \$3,000, 6 shares; \$3,000 to \$4,200, 7 shares.

Employees receiving salaries in excess of \$4,200 per annum are entitled to subscribe for seven shares and in addition one share for each \$1,200 of the excess. Allotments are limited to 20 shares to each subscriber.

Employees keeping all the stock subscribed for after subscription payments have been completed are practically guaranteed an income of not less than \$6 a share each year for a five-year period commencing Jan. 1, 1918. This payment will be made from dividends declared in the usual manner of by way of special payment, the company guaranteeing in case dividends fall below \$6 a year to make up the difference.

Subscriptions are not to exceed an aggregate of 6,000 shares and are to be paid for in monthly instalments, beginning in February, 1917. No instalment shall be less than \$2 a share and shall not exceed one-quarter of any month's salary or wages.

Payment for the stock must be completed not later than Dec. 31, 1919. Subscriptions will be received until Jan. 29, 1918.

¹(8) Asset Value of Stock, Estimated.—On Jan. 25, 1917, the "Boston News Bureau" said that certain banking interests had calculated the asset value of Midvale Steel's \$100,000,000 stock at \$50 per share, or par. This calculation

JANUARY 1 TO APRIL 30, 1917

is perhaps the first serious attempt to place an asset value on the stock. It is interesting in this connection to know that several directors of Midvale Steel figured on the same proposition and from their inside knowledge of what the company owns and after making what they considered ultra-liberal allowances for Midvale's rifle contract they found an asset value of \$65 per share.

Further than that, it is expected that by Dec. 31, 1917, Midvale Steel will have property and net working capital assets equal to better than \$80 per share. This is after allowing for the present dividend of 12%, or \$6 per share.

The Midvale rifle contract is troubling the speculative fraternity much more than it is worrying the Midvale management. The rifle story has become a side issue in the company's operations. No profit is being counted upon, and any probable loss, it is felt, has been conservatively adjusted.

—Feb.

(1) New Government Contract.—It was reported on Feb. 9, 1917, that this company had received a new United States Government contract for 28 of the 16-inch naval type guns, to cost approximately \$75,000 each, or a total of \$2,000,000. Work on the order is to begin in June, 1917, and deliveries made in the "rough" in the corresponding months, 1918, the guns to be finished at the Government yards.

(2) Shell Contract.—It was announced Feb. 19, 1917, that the United States Navy Department had awarded contracts for 15,000 14-inch shells at \$500 each to this company, the Crucible Steel Co. of America and the Washington Steel & Ordnance Co., each company practically getting one-third of the award.

—Mar.

(1) Report, Year Ended Dec. 31, 1916, shows net profits after all deductions, including special reserves, of \$32,214,724, equal to 32.21% on the \$100,000,000 outstanding capital stock, or \$16.10 per share. Total net income, including net earnings from operations and interest earned, etc., amounted to \$37,608,017.

The consolidated balance sheet shows total current and working assets of \$78,268,938 and total current liabilities of \$17,903,304, leaving a net working balance of \$60,365,634.

The surplus account showed a total of \$33,656,610, from which there was deducted \$15,000,000 for special depreciation charged off property and plant account, leaving a final profit and loss balance of \$18,656,610.

The balance of liquid assets over current obligations was well in excess of the company's entire bonded and mortgage indebtedness, and about 60% as large as the outstanding capital stock.

Under a 999-year lease Cambria Steel Co., as a part of the rental thereunder, agrees to pay annually a sum equal to 4% on the par value of the \$3,468,000 stock of Cambria Iron Co.

Included in the report is a detailed statement of inventories, which on Dec. 31, 1916, totaled \$33,422,685. Cash on hand amounted to \$11,828,916; customers' accounts \$14,531,893; and bills and loans receivable were \$8,987,384, these being the four principal items included in the current assets.

Property and plant account is carried at \$135,708,33, and among the liabilities appear the item of \$11,113,668 reserves of which \$8,064,068 is for depreciation and mine exhaustion and \$3,059,600 for contingencies and miscellaneous.

The report shows that capital expenditures for the 15 months ended Dec. 31, 1916, were \$14,879,048 out of an authorized appropriation for the purpose of \$27,105,073, leaving an unexpended balance on this account of \$12,226,025. All of the money so expended has been taken from earnings of the company indicating a strong position in this respect, particularly in the face of the large profit and loss balance at the close of 1916.

The disbursement for capital purposes has materially increased the capacity of plants, details of the improvements and additions being set forth at considerable length in the report. This has resulted in an increase in the ingot capacity of the company's plants of about 25% since the taking over of the Cambria Steel Co.

(2) Statement by President.—In his annual remarks to stockholders of this company, Pres. Wm. E. Corey, it was announced March 5, 1917, said, in part:

"The conditions which may confront manufacturing interests in this country on the return of peace in Europe are the subject of much discussion among business men generally. We are hopeful that the vast amount of material wealth which has been transferred to this country during the past two years will be used for the development of domestic resources and for the extension of American trade with the neutral nations of the world. This would tend to stabilize trade conditions.

"The problem which confronts us, however, is so complex that it is only ordinary prudence to prepare for adverse trade conditions. The Board of Directors and officers of your company are fully alive to this possible contingency and are preparing for it by placing and keeping all properties in the highest state of efficiency and by conserving the financial resources of the company.

"Owing to ownership of raw materials, efficiency of mill operations and the adherence to a policy of fair dealing, high quality of product and service to customers our companies will no doubt be able to secure a reasonable share of domestic and export business under any conditions which may arise."

Pres. Corey also referred to the contracts with the British Government by the Remington Arms Co. of Delaware to manufacture 2,000,000 Lee-Enfield rifles. At the time these contracts were entered into normal business conditions prevailed and very large profits promised therefrom. Subsequent to that time, however, Mr. Corey pointed out, conditions changed materially, which rendered it necessary to somewhat modify the terms of these contracts. In this connection Mr. Corey said, in part:

"As a result the contracts were modified so as to provide that all manufacturing losses should be made good to the Remington Arms Co. of Delaware; and on behalf of the latter company it was arranged that it should continue to manufacture rifles up to an aggregate, including these already finished, of 1,176,471, at the British Government's expense. The modified contracts further provide that any additional rifles that may be called for by the British Government shall be manufactured at cost plus a profit to the company."

(3) Comment on 1916 Report.—On March 6, 1917, the "Wall Street Journal" said that the strong feature of this company's 1916 report is found in its working capital, which amounts to \$60,365,634, equal to nearly \$30.50 a share on the 2,000,000 shares outstanding. Its cash holdings amount to nearly \$12,000,000. This is a remarkable showing when the fact is taken into consideration that Midvale Steel up to Dec. 31 was in existence only 15 months.

While the company earned \$16.10 a share for the full year 1916, its rate of earnings at the present time is far in excess of the 1916 average. As an example, the net returns for the fourth quarter of 1916 were \$13,233,976, or at the rate of approximately \$53,000,000 a year. Assuming depreciation charges at the rate of \$4,000,000 a year, and interest on bonded debt at \$2,300,000 a year, there would be left available for dividends \$46,700,000, or at the rate of \$23.50 a share annually.

From the report for the last quarter of 1916 it can be assumed that Midvale is now earning at that rate per share a year, and in view of present orders on the books, and prices at which deliveries are being made, prospects for continuation of these large earnings are unusually good.

By the close of March Midvale Steel will have added something like \$8,000,000 to surplus since Jan. 1, so that it can be said that its working capital is very close to the \$70,000,000 mark, equal to \$35 a share.

That Midvale Steel is operating along very conservative and economic lines is evident from the fact that there was a special appropriation of \$15,000,000 for depreciation in 1916. While the Midvale Co. is spending a large amount of money for new construction, it is not running amuck in this respect, as is the case with a number of steel companies. Its expenditures are conservative and prompted by actual necessity.

The annual report of the Midvale Steel Co. shows that it is well fortified in iron ore, coal, limestone and other raw products.

(4) Earning Rate, 1917.—It was stated March 6, 1917, that earnings of this company are running between \$5,000,000 and \$6,000,000 a month, compared with the official average of \$4,408,000 a month in the last quarter of 1917. This would seem to indicate net profits available for the stock of close to \$30 a share. Midvale Steel earnings are now running close to those of Bethlehem Steel.

At the rate Midvale is now adding to its surplus, it is likely to have a working capital of close to \$100,000,000 by the close of the current year, against its \$100,000,000 capitalization.

(5) Earnings Increasing.—It was stated March 6, 1917, that the earnings of this company are running between \$5,000,000 and \$6,000,000 a month, compared with the official average of \$4,408,000 a month in the last quarter of 1916, which would seem to indicate net profits available for stock at approximately \$30 a share.

At its present rate, the company is likely to have a working capital of about \$100,000,000 by the end of 1917, against its \$100,000,000 capitalization.

(6) Interest in Controlled Co. Earnings.—See Cambria Steel Co.—Item No. 5.

(7) Application to List Stock.—On March 23, 1917, the New York Stock Exchange received application to list \$100,000,000 of this company's capital stock.

(8) Acquisition of Coal Lands.—Reported in March, 1917, that this company had formally taken over 15,300 acres of coal lands in Westmoreland and Washington Counties, Pa., formerly owned by Pitts Westmoreland Coal Co. The purchase includes eight mines and 300 coke ovens.

(9) Stock Admitted to List.—On March 28, 1917, the New York Stock Exchange admitted to the list \$100,000,000 of this company's capital stock.

—Apr.

(1) Dividends.—Announced April 4, 1917, that this company had declared a quarterly dividend of \$1.50 a share, payable May 1 to stock of record April 20. This is the same as the initial dividend three months previously. After the meeting of directors announcement was made that a statement of earnings for the first quarter of 1917 would be published after the meeting of directors on May 2.

(2) Earnings on Stock of Subsidiary.—On April 5, 1917, the "Wall Street Journal" said that this company had a subsidiary which undoubtedly bears off the palm for high percentage of earnings on its capital stock. The Worth Brothers Co. last year earned \$4,013,184 on a capitalization of \$250,000, or 1,605%, on the stock. This volume of net represented a six-fold increase over 1915. Dividends of 600% on the \$250,000 stock were paid last year. In the previous four years 30% was paid annually.

The old Midvale Steel Co., which was the nucleus of the present holding organization, earned 62.3% on its \$6,750,000 capital stock in the 14 months to Dec. 31 last. All but five shares are owned by the Midvale Steel & Ordnance Co. Despite these large earnings, which in dollars amounted to \$6,080,001, no

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

dividends were paid to the parent organization within the period.

*(3) Application to List.—Announced April 9, 1917, that application had been made to the New York Stock Exchange to list this company's \$46,619,000 20-year 5% convertible sinking fund bonds.

*(4) Admitted to List.—Announced April 19, 1917, that the New York Stock Exchange had admitted to the list this company's \$45,652,000 20-year collateral trust 5% convertible sinking fund bonds with authority to add \$84,000 in exchange for outstanding temporary bonds, and a further \$883,000 bonds prior to Jan. 1, 1918, when sold, making the total amount listed \$46,619,000.

*(5) Edystene Status.—See Edystene Ammunition Corp.—Item No. 3.

*(6) Stock and Bonds Listed in Philadelphia.—The Philadelphia Stock Exchange announced April 19, 1917, that the Board of Governors had approved the listing of the \$100,000,000 stock of this company and the \$46,736,000 convertible fund collateral trust 5% bonds.

*(7) Raise in Wages Announced.—This company announced, April 23, 1917, that the basic labor rate for its workers in its plants at Coatesville, Pa., and Johnstown, Pa., had been increased 8 to 10%. The increase does not affect the Midvale plant in Philadelphia, where a higher wage rate already prevails, it was announced.

MIDWAY GAS CO.

*(1) Government Seeks Oil Lands.—See Honolulu Consolidated Oil Co.—Item No. 1.

—Apr.

*(1) Report, Year Ended Dec. 31, 1916.—This company for the year 1916, reported gross of \$682,010, net of \$301,298, with deductions from net of \$144,604, leaving a surplus for the year of \$156,604. After all miscellaneous additions to and deductions from surplus the profit and loss deficit January 1, 1917, was \$75,817 compared with \$223,354 January 1, 1916.

MIDWEST-GOSHEN COAL CO.

*(1) Tenders Asked.—It was announced Feb. 14, 1917, that the United States Mortgage & Trust Co. had called for \$9,540 of first mortgage bonds of the Midwest-Goshen Coal Co., dated Sept. 1, 1914, and would accept tenders to exhaust this sum at a price not to exceed 105 and accrued interest. Proposals will be received until Feb. 28, 1917.

•MIDWEST OIL CO.

*(1) Extra Dividend on Preferred.—Announced Feb. 15, 1917, that this company had declared an extra dividend of 3 cents per share on the pfd. stock, on account of accumulated dividends, payable March 1 to stock of record Feb. 15.

—Mar.

*(1) Report, Year Ended Dec. 31, 1916, shows income account as follows:

	1916	1915
Gross	\$1,150,610	\$923,242
Net	466,863	281,548
Surp. after pfd. divs.	226,863	241,548

*(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$61,124, compared with \$451,835 Dec. 31, 1915.

*(3) New Directors.—It was announced March 7, 1917, that at this company's annual meeting Tyson S. Dines was elected to succeed J. L. Warren and Karl C. Schyler to succeed A. E. Wilson in the company's directorate.

•MIDWEST REFINING CO.

*(1) Report, Year Ended Dec. 31, 1916, indicates earnings on the \$19,336,000 capital stock at the rate of more than 50%. The company does not give an income account for the year, but earnings at this rate are indicated by a \$6,577,193 increase in surplus, \$3,000,000 reserve for depreciation and about \$1,250,000 dividend payments, or a total of more than \$10,827,193.

*(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$3,358,187, compared with \$1,780,994 Dec. 31, 1915.

*(3) Acquisition.—It was stated March 6, 1917, that the 1916 report of this company shows that it has acquired \$8,000,000 of the common stock of the Greybull Refining Co. (being the entire amount of the common stock issued) and \$1,200,000 of the pfd. stock of that company, leaving outstanding \$800,000 of the pfd. stock, retrievable at the option of the company at 110. The above stock was paid for partly in cash and partly in treasury stock of the company.

*(4) New Treasurer.—Announced March 7, 1917, that H. A. Jones had been elected Treas. of this company, succeeding T. A. Dines, who becomes a Vice-Pres.

*(5) Voting Trustees.—Announced March 10, 1917, that John Evans, Henry S. Osler and Raymond E. Jones had been appointed voting trustees, under an agreement dated Jan. 1, 1917, for this company's stock. The first named is Pres. of the International Trust Co., Denver, Colo.

MILBURY STEEL FOUNDRY CO.

*(1) New Heroult Furnace.—It was announced Dec. 28, 1916, that the United States Steel Corp. had granted a license to this company, Milbury, Mass., for a 2-ton electric steel furnace. This will be used to make steel castings from cold scrap. The company at present is operating a crucible steel foundry. This installation brings the total furnaces of this type in operation or contracted for in the United States and Canada to 83.

MILES-DETROIT THEATER CO.

*(1) Extra Dividend.—Announced Jan. 9, 1917, that this company had declared the regular semi-annual dividend of 3¼% and an extra of 1¼%, payable to stock of record Jan. 4.

MILFORD HOME BUILDING CO., MILFORD, O.

*(1) Capital Increased.—On March 23, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$1,000,000 to \$1,500,000.

MILLER AUTOMATIC RESTAURANT CORP.

*(1) Incorporated on Feb. 10, 1917, in Delaware, with a capital of \$900,000, to establish automatic waiter service in public restaurants. Incorporators: Harry H. Miller, Pittsburgh, Pa., W. I. N. Lofand and Geo. W. Morgan, Dover, Del.

MILLER BROS.

*(1) New Plant.—It was announced March 14, 1917, that this company, manufacturer of overalls, would build a \$500,000 cotton mill at Dallas, Tex. It will have a weekly output of 300,000 yards of denim, chambray, suiting, plaids, etc., with an equipment of machinery for indigo goods. It will have an installation of 50,000 spindles, with accompanying looms and other machinery, more than half of the output to be used in the Miller Bros. overalls factories. The two latter have an annual output of \$1,000,000 worth of overalls, and their capacity will be doubled.

It is understood that a corporation will be organized to own and operate this plant, several overalls manufacturers to be interested and to use a portion of the output in their factories.

MILLER MANUFACTURING CO.

*(1) Capital Increased.—It was announced Feb. 21, 1917, that this company had planned to increase its capital stock from \$25,000 to \$500,000.

MILLER SHOE MANUFACTURING CO., CINCINNATI, O.

*(1) Capital Reduced.—On Jan. 23, 1917, the company filed notice at Columbus, O., of a reduction in capital stock from \$300,000 to \$3,000.

MILLIKEN BROS., INC.

*(1) Sale Feb. 23.—It was announced Feb. 1, 1917, that the sale of the real estate and plant of this company is to be ratified at a meeting of stockholders on Feb. 23. The actual transfer, if approved, will take place in August. Terms of purchase are: \$100,000 cash on stockholders' approval of sale; \$150,000 by June 1, 1917, and \$250,000 cash by Aug. 1, 1917, and \$1,000,000 by Aug. 1, either in cash or by delivery of \$1,000,000, principal amount, of purchase money first mortgage 6% gold bonds of the new company to be organized by the purchaser to acquire the property.

Milliken Bros., in the three years since its organization, showed a net loss of \$75,000, although the 1916 year showed profit. Consideration was given to using the plant for shipbuilding, but to convert it would cost more than the company cared to spend. The United States Government was approached to purchase the property for the site of an armor plate plant, without results.

The offer of \$1,500,000 for the plant and real estate by interests represented by Wallace Downey is therefore received with favor, the price being in excess of the appraisal made at the time of the bankruptcy proceedings of the old company.

Wallace Downey stated that his syndicate had not been formed. The intention is to build 10,000-ton ships of standard design.

MILLIKEN CO., ST. LOUIS, MO.

*(1) Capital Increased.—On April 13, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$1,000,000 to \$5,000,000.

*(2) Capital Increased.—On April 23, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$5,000,000 to \$12,000,000.

MILLING & POWER CO.

*(1) Merger Planned.—See Michigan Gas & Electric Co.—Item No. 1.

MILLS & GIBB.

*(1) Suit for Recovery on Checks Dismissed.—It was announced Feb. 27, 1917, that Supreme Court Justice Greenbaum of New York had dismissed the complaint in a suit of the receivers of Mills & Gibb against Charles de Kay to recover the amount of a check drawn by William T. Evans, Pres. of the corporation, against the corporate funds for his personal use. If the higher courts sustain this ruling, scores of suits for sums aggregating \$700,000 against artists, art dealers, collectors, and others will also fail.

The action of Joseph B. Martindale and J. Harper Poor, the Mills & Gibb receivers, in bringing suit against all persons who received Mills & Gibb checks for personal expenditures of Mr. Evans caused much uneasiness, for among the payments involved were those given for paintings to Childre Haslam, J. Alden Weir, Lilham Genth and Ballard Williams, and for those acquired by Mr. Evans from the William Macbeth Galleries.

MILNER & NORTH SIDE R. R.

*(1) Sold.—See Zelnicker (Walter A.) Supply Co.—Item No. 1.

MILTONBERG & SOUTHEASTERN R. R. CO.

*(1) To Build New Railroad.—It was stated Jan. 4, 1917, that this company, of Alexandria, La., had been chartered to build a line both east and west from Miltonberg, which is about seven miles west of Alexandria, on the Alexandria & Western Rv.

The construction projected immediately is from Miltonberg southeast to a connection with the St. Louis, Iron Mountain & Southern R. R. at a point about eight miles south of Alexandria, but this may be extended further in the same direction if desired; also westward from Miltonberg to Leesville, La., about 40 miles. Other extensions may be made later.

JANUARY 1 TO APRIL 30, 1917

The capital stock is \$100,000. George B. Morley is the principal stockholder with 267 shares of \$100 each.

Walter D. Brewer is Pres. and Gen. Mgr.; Nauman S. Scott, Vice-Pres., and Ernest Bullington, Sec.-Treas.

MILWAUKEE ELECTRIC CRANE & MANUFACTURING CO.

¹(1) New Company.—It was stated Jan. 10, 1917, that this company, Milwaukee, Wis., was in process of organization. On March 1 it will begin the manufacture of electric traveling and hand cranes, hoists, etc., at West Allis, Wis., in the former plant of the Fred M. Prescott Steam Pump Co., just purchased from the Worthington interests.

The new company is organized by five former officials of the Pawling & Harnischfeger Co., Milwaukee, as follows: M. A. Beck, chief engineer; Arthur A. Fritsch, sales engineer; S. H. Squier, secretary and advertising manager; Arthur Mayer, chief estimator, and Leo Mayer, designer.

The articles of incorporation as planned name a capital stock of \$300,000, which later will be increased to \$1,000,000 to provide for an issue of \$300,000 pfd. and \$700,000 common stock.

The Prescott plant is being overhauled and made ready for the installation of new equipment.

—Feb.

²(1) Incorporated on Feb. 27, 1917, in New York, with a capital of 30,000 shares, \$100 each; 7,000 shares no par value, to carry on business with \$335,000 in electric machinery, appliances, cranes, hoists, mining coal and iron. Incorporators: H. S. Gould, A. Fritsch and M. P. O'Brien, 833 Wells Bldg., Milwaukee, Wis.

MILWAUKEE ELECTRIC RY. & LIGHT CO.

²(1) Acquisition Approved.—It was announced Feb. 21, 1917, that at the annual meetings of this company and the Milwaukee Light, Heat & Traction Co., subsidiaries of North American Co., all retiring directors were re-elected and the purchase of the Commonwealth Power Co. and the Continental Realty Co. and the acquisition of the property of the Milwaukee Light, Heat & Traction Co. by the Milwaukee Electric Ry. & Light Co. were approved.

—Mar.

²(1) Report, Year Ended Dec. 31, 1916, of this company, a subsidiary of the North American Co., shows increase in operating revenue of the railway department was \$700,455, or 17.91%, due in a large measure to the reduction of the competition of the "jitneys" and partly to the increase in general activity. The electric and steam heat department showed an expansion of \$288,980.

The company suffered like others of its kind from the high cost of material and labor and in addition set aside heavier reserves for both taxes and depreciation amounting to 22.25% in the railway department of the operating revenue, 18% in the electric light and power and 12% in the steam heating.

During the year there was \$1,005,631 spent in betterments.

The number of electric and steam heating consumers increased from 36,362 to 38,843, and the energy sold from 53,751,284 kilowatt-hours to 67,737,146 kilowatt-hours, an increase of 20.62%.

²(2) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross	\$6,961,151	\$5,971,715
Net after taxes..	2,029,827	1,806,834
Surp. after chgs.	1,347,607	1,042,686
Bal. after com. dividends	18,732	9,522

MILWAUKEE GAS LIGHT CO.

²(1) Acquisition by Milwaukee Planned.—A Milwaukee, Wis., dispatch Feb. 8, 1917, stated that City Attorney Williams had prepared a bill, to be introduced into the Wisconsin Legislature, which would authorize the city of Milwaukee

to mortgage the municipal water works property to procure funds to take over the property of this company, controlled by the American Light & Traction Co.

MILWAUKEE LIGHT, HEAT & TRACTION CO.

²(1) Deal Approved.—See Milwaukee Electric Ry. & Light Co.—Item. No. 1.

MILWAUKEE WESTERN RY. CO.

²(1) Incorporated on Feb. 16, 1917, in Delaware, with a capital of \$2,007,500, to operate railroads and railways outside of State of Delaware. Incorporators: H. E. Latter and N. P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

MINERAL POINT ZINC CO.

²(1) Capital Increase.—On Feb. 17, 1917, the company filed notice at Trenton, N. J., of an increase in capital stock from \$400,000 to \$500,000.

MINERAL REFINING & CHEMICAL CORP., ST. LOUIS, MO.

²(1) Addition.—It was announced on Feb. 13, 1917, that A. F. Versen, general manager, had completed plans for the expenditure of \$1,500,000 to increase the capacity of this company's plant for the manufacture of chemicals, white paint, pigment, etc.

MINERALS SEPARATION CO., LTD.

²(1) Argument Started in Suit.—It was announced at Philadelphia Jan. 30, 1917, that argument had been started in the United States Circuit Court of Appeals there in the suit of this company, of London, against the Miami Copper Co., which came up on an appeal from the District Court of Delaware.

—Apr.

²(1) Court Decision Reopens Case.—A Butte, Mont., dispatch April 18, 1917, stated that Judge Bourquin, in the Federal District Court, had decided against this company on its contention that the case against the Butte & Superior Mining Co. and that against

Hyde are one and the same. This ruling leaves the situation clear for the introduction of new evidence and amounts to a reopening of the entire case.

MINERALS SEPARATION NORTH AMERICAN CO.

²(1) Voting Trust—Initial Dividend.—It was announced Jan. 13, 1917, that the 500,000 shares, no par value, of this recently formed company had been placed in a five-year voting trust, and voting trust certificates for one-half this amount, or 250,000 shares, would be distributed to stockholders of the Minerals Separation, Ltd., the British parent company, as an initial dividend.

There was treated during 1916, under licenses granted by this company, about 14,000,000 tons of ore, against 4,500,000 tons in 1915. It is estimated that licensees in the United States treated close to 12,000,000 tons from which a gross revenue of approximately \$700,000 will be derived. The company further estimates that "the very numerous infringers" treated about 13,500,000 tons.

When the Anaconda Copper Mining Co. entered into its contract for the use of flotation concentration it agreed for itself and other companies included in the terms of the contract to pay to the Minerals Separation Co. a minimum of \$300,000 up to the time of the United States Supreme Court decision in the Hyde case, regardless of the outcome. The actual amount to be paid by Anaconda and Inspiration and others up to the time of the Supreme Court ruling is \$500,000.

Francis L. Gibbs, a director of the British company, estimates that the companies infringing on the Minerals Separation patents made profits of more than \$25,000,000 in excess of what could have been made without the process.

The Australian subsidiary has entered the dividend ranks with a quarterly disbursement at the rate of 15% per annum. The Braden mill, constituting the largest factor using flotation outside North America, treated in 1916 about 1,500,000 tons under this process.

Mr. Gibbs informed the stockholders at their annual meeting in London that "it is unreasonable to suppose that those who have been infringers will receive the same favorable terms as were granted to Anaconda before our position was established."

MINGO COAL & COKE CO.

²(1) Receiver Appointed.—On April 3, 1917, Judge E. T. Sanford, in the United States District Court at Nashville, Tenn., appointed J. D. Templin, of Middlesboro, receiver for this company, on petition of the Columbia Trust Co., Louisville, Ky.

MINING CORP. OF CANADA, LTD.

²(1) Reorganization Statement—Dividends.—It was announced March 5, 1917, that this company had sent to the Toronto Stock Exchange the following announcement:

"The old Canadian company had a capital of \$2,075,000 in shares of \$1 each. The English company owned approximately 92½% of the shares of the Canadian company, and was capitalized at \$1,000,000. A new company has been organized, with a capital of \$8,000,000, in shares of \$5 each.

"The shareholders of the old Canadian company will receive four times as much stock in the new company as they held in the old company. The shareholders in the English company will receive one share of \$5 in the new company for each \$1 share held in the English company.

"The English company will be wound up, and hereafter there will be only one company, operating under a Dominion charter, with head office in Toronto. The directors of the new company are: Sir Henry M. Pellatt, Pres.; J. P. Watson and D. R. P. Parker, Vice-Pres.; G. M. Clark, Captain J. Graeme Watson, all of Toronto, and D'Arcy Weatherbe and Captain R. E. G. van Gutssem of London, England.

JANUARY 1 TO APRIL 30, 1917

"For the year 1917 a quarterly dividend on the new shares of 12½ cents per share, with a bonus of 6½ cents per share, has been decided upon by the Board of Directors. The first dividend and bonus were declared on March 1, payable March 15 to shareholders of record March 1. In addition, an extra bonus has been declared, also payable March 15, of 18½ cents, making the entire March disbursement 37½ cents per share."

—Apr.

*(1) **Shipment Results.**—This company, April 11, 1917, reported final results of a shipment of Cobalt silver ore recently made as follows:

	Pounds	Tons
Net dry weight milled ore (pulp)	57,572.6	28.786
Net dry weight ball mill metallics	9,889.5	4.945
Net dry weight contents of car	67,462.1	33.731

28,786 tons pulp assayed	
4,614.85 ozs. per ton	132,843.07
4,945 tons metallics contained	108,588.39

Total silver contents

241,431.45

This is equal to 7,157.55 ozs. per ton.

The market value of silver bullion on the day of shipment of this car was 76½c. per ounce, making the gross value of the silver contents of the car \$184,695.06.

MINNEAPOLIS GAS LIGHT CO.

*(1) **Report, Year Ended Dec. 31, 1916,** shows: Gross income, \$2,101,196; operating expenses, depreciation and taxes, \$1,545,816; net earnings, \$555,380; surplus after charges, \$81,389.

*(2) **Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$465,998.

MISSISSIPPI DELTA PLANTING CO., MEMPHIS, TENN.

*(1) **Status (March, 1917).**—On March 26, 1917, the "Boston News Bureau" had the following: "Our business is entirely the growing and the marketing of cotton and the supplying of our tenants. We own and operate about 50,000 acres of cotton land in the Mississippi delta. The gross value of our crop last year was about \$2,000,000. We supply from our own stores all our tenant colored labor, a total of about 12,000 people."

"The great problem with us this year is the extreme high price of all materials, foodstuffs, etc., that is necessary for us to buy to furnish our tenants to make a crop, which will require a high price for cotton next year in order for the cotton producers to make any money. Our acreage in cotton will be fully as large as last year; we have more employes and laborers this year than last. It would appear to us that the prices of all products are nearly at a breaking-point, that is, it seems almost impossible for them to advance much higher under the existing conditions. Further, not only is the price almost prohibitive on everything we buy, to-wit: dry goods, groceries, mules, harness, tools, repair parts, etc., but are extremely hard to get at any price. We are pursuing the policy of buying from hand to mouth for reasons above stated and believe these extremely high prices cannot prevail much longer."

MISSISSIPPI LUMBER VULCANIZING CORP.

*(1) **Incorporated** on Feb. 14, 1917, in Delaware, with a capital of \$300,000, to treat wood and the products of wood. Incorporators: L. C. Wallace, S. F. Carlson, New York, and E. M. Pease, Port Chester, N. Y.

²(3) Discussion of Earnings.—On March 30, 1917, the "Wall Street Journal" said in part: "Gross revenues of Mississippi River & Power Co. have finally reached the amount predicted when the great generating station of the company at Keokuk was first opened to operation three years ago. At that time it was stated that gross revenues were estimated at \$1,750,000 a year, but until the present time they have failed to reach this figure. For the 12 months ended Feb. 28 gross was \$1,750,763, an increase of \$1,953 over the preceding 12 months.

"However, revenues will have to show a large increase before the holders of the preferred stock can hope to receive dividends on their shares as, for the last 12 months, after providing for interest charges, there was a balance of but \$111,234, a gain of \$53,373 over the 12 months ended Feb. 29, 1916. There is \$6,000,000 of the preferred outstanding, and as it requires \$360,000 a year to provide for these dividends, holders of these shares must continue to be patient for some time to come.

²(2) Department Reorganization.—It was stated Feb. 13, 1917, that reorganization of this company's purchasing and stores departments under one head had resulted in the same increase in efficiency and savings that followed similar measures on other roads. Notwithstanding high prices and the work of making good deferred maintenance, the reorganized stores department is turning its stock better than three times a year.

During November, 1916, disbursements of material and supplies reached a total of \$1,324,921. The balance on hand Nov. 30 was \$3,712,497, sufficient to cover the needs of less than 90 days. With prices high, and an extensive work of restoration in progress, this balance is considered as low as the remoteness of the Missouri, Kansas & Texas lines from sources of supply allows.

For November, the ratio of material and supply distribution to stock on hand and received was 26%. In the stock is included nearly \$400,000 worth of ballast recently burned and ready for distribution and application. If the Missouri, Kansas & Texas followed the more usual practice of carrying ballast as a general ledger item, outside of materials and supplies, this ratio for recent months would be improved.

²(3) Report on Conditions.—On Feb. 13, 1917, J. W. Kendrick, of Chicago, railroad expert, made public a report upon the Missouri, Kansas & Texas for New York banking interests, in which he estimated that the system would need the expenditure of \$65,000,000 in an eight-year period and that \$4,500,000 should be saved annually through increased efficiency made possible by the improvements resulting from such expenditure. In his opinion probably not more than \$10,000,000 could be expended advantageously in two years.

Certain of the economies in operation which he declares to be practicable Mr. Kendrick believes cannot be effected for some time, but he estimates that a net saving of \$1,400,000 should be possible in 1920. Of the \$65,000,000 capital expenditures, \$10,000,000 would be chargeable to operating expenses.

Mr. Kendrick makes full recognition of the fact that under C. E. Schaff, receiver, the road has already entered upon "a period of intensive restoration and improvement." His finding that the road will need \$65,000,000 indorses a budget prepared by Mr. Schaff embracing expenditures of that amount.

In a preface of the report Mr. Kendrick recalls that the road was built originally as a granger line, with grades conforming to the general surface of the territory traversed, light rails, narrow and undrained banks and cuts, light bridges and no engine terminals worthy of the name south of and few north of the Red River, the Texas boundary line. The engines were light and mostly of antiquated design; some of better design but too light were unwisely purchased just before the advent of the present management.

Former managements utterly failed to recognize the coming changes in transportation methods and paid dividends from 1906 to 1914 amounting to \$4,160,000 which had better gone into the

handicapped by a burden of interest charges, which compelled the management to starve it in respect to maintenance in order to preserve solvency.

For three years the present management kept up the struggle to pay interest, taking such steps toward modernization of the road as funds permitted.

Judging from increases shown in recent years, Mr. Kendrick estimates that gross earnings in 1920 will be about \$39,000,000, or approximately \$8,000,000 more than they were for the fiscal year ended June 30, 1916.

²(4) Income, 1920, Estimated.—In a report on conditions of this company, as made public Feb. 13, 1917, J. W. Kendrick estimated gross operating revenue for 1920 as \$39,400,000; net operating revenue, \$13,900,000; net after taxes, \$11,250,000; surplus after interest charges, \$3,120,000.

In making the estimate Mr. Kendrick allowed depreciation at 4.1% on the increased amount of equipment and added \$1,650,000 to the interest charges accrued in 1915, this being 6% interest on \$27,500,000, one-half of the proposed expenditures chargeable to property account. It was reported the reorganization would be planned to reduce the old interest charges by about one-half.

²(5) Suit for Foreclosure.—It was announced Feb. 14, 1917, that a bill of equity and judgment on second mortgage bonds amounting to \$20,000,000 had been filed in the United States District Court, Dallas, Tex., against this company by attorneys representing the Bankers Trust Co. of New York. No opposition was made.

This is the first foreclosure proceeding instituted by creditors since the receivership.

²(6) To Borrow \$3,000,000.—It was announced Feb. 22, 1917, that Judge Edward R. Meek, of the United States District Court, had granted the application of C. F. Schaff, receiver of this company, to borrow \$3,000,000 to be used for improvements to its lines in Texas and the building of new shops.

²(7) Receiver's Certificates.—It was announced Feb. 21, 1917, that Judge R. Meek, of the United States Supreme Court, had granted the application of C. E. Schaff, receiver for this company, to issue \$3,000,000 5% receiver's certificates, provided none of the sum was used to pay interest on any mortgage bonds, the proceeds to be used for improvements made since the beginning of the receivership, elimination of grade crossings, and for improvements in equipment, buildings and other property.

⁴(2) Receiver Disagrees with Income Estimate of J. W. Kendrick.—Receiver C. E. Schaff, of this company, April 18, 1917, sent a letter to bankers supporting plans to reorganize the property and setting forth deductions in respect to future improvements and earnings which differ substantially from the report submitted recently by J. W. Kendrick, a Chicago railroad expert.

JANUARY 1 TO APRIL 30, 1917

The Kendrick report said that probably not more than \$10,000,000 could be devoted with advantage to capital expenditures during the first two years under a reorganization plan.

Mr. Schaaf in his letter said that \$16,000,000 would be needed to meet the immediate needs of the road, to be divided equally between new road and shop facilities and new equipment.

The letter stated that, whereas many economies could be secured in operation, the savings outlined by the Kendrick report would be offset to a large extent by increased wages and cost of materials. Mr. Kendrick estimated that by 1920 operating expenses could be reduced by \$1,420,000 a year.

Mr. Schaaf estimated that the net savings would be no more than \$340,007, basing the assumption on the belief that a compensating rate increase would not be granted the railroads soon.

The probable income available for interest payments in 1912 Mr. Kendrick set at \$11,250,000, but Mr. Schaaf's findings called for no more than \$8,106,200.

MISSOURI PACIFIC R. R. CO.

(1) Incorporated March 5, 1917, in Missouri, with a capital stock of \$300,000, divided into 3,000,000 shares at \$100 each; \$100,000,000 pfd. and \$200,000,000 common.

MISSOURI PACIFIC RY. CO.

(1) Earnings—	1916	1915
Nov. gross	\$2,983,264	\$2,789,591
Net after taxes	556,652	612,196
5 mos. gross	15,064,034	13,218,094
Net after taxes	3,026,007	2,676,323

(2) Operations, Five Months Ended Nov. 30, 1916.—On Jan. 8, 1917, the "Wall Street Journal" said that this company spent liberally for maintenance of the property during November and the five months ended Nov. 30, 1916. These expenditures represented, respectively, 32.88% and 35.48% of gross. Nevertheless, the five months net available for fixed charges, including "other income" was \$9,005,000, or \$2,295,000 in excess of all deductions, including allowances for interest on defaulted bonds, etc.

This, however, represents a larger surplus equity for the stock if fixed charges are calculated on the proposed reorganization basis, which basis will be in effect as soon as reorganization is effected, probably in a month or two.

Under the reorganization, fixed charges will be reduced approximately \$3,000,000 per annum. Allowing for this reduction, it appears that the property for the five months earned a surplus of \$3,500,000 on the reorganized basis of charges, which is nearly equivalent to a full year's dividend on the new \$76,757,000 convertible pfd. stock to be issued under the plan.

There are many features of the property's operations which indicate that the receivership has not been harmful to its general well-being. Funds heretofore used to pay interest on bonds now in default are going into physical improvements.

Improved roadbed and track, better locomotives and more extensive repairs to all rolling stock and the purchase of new has had a telling effect on operating costs, hire of equipment deductions, etc.

A few years ago transportation expenses represented in excess of 40% of gross. Now they are under 30% of gross. For five months ended Nov. 30, the transportation ratio was 29.31% of gross, compared with 30.98% in 1915. In November transportation ratio was 29.38%, against 29.84% in 1915.

Hire of equipment in November amounted to only \$37,748, against \$102,170 in November, 1915, a reduction of \$64,422, or 63%. For five months these charges were \$310,000, against \$536,000 in the corresponding five months of 1915, a reduction in 1916 of \$226,000, or 42%.

The present basis of gross earnings is encouraging. In November gross was \$6,606,481, while the average monthly gross for five months to Nov. 30 was \$6,324,000. It was not so long ago when \$5,000,000 gross a month, was a record.

(3) Sale Fixed for Feb. 21.—Announcement was made at St. Louis Jan. 9, 1917, that the foreclosure sale of this company, in receivership, will take place in St. Louis on Feb. 21. It is expected the only bidder will be the reorganization committee.

(4) Bond Sale March 1.—On Jan. 16, 1917, Special Master James G. Graham announced the sale of first mortgage bonds affected by the decision in the case of the Bankers Trust Co. against this company, the Guaranty Trust Co. of New York, and Benjamin F. Edwards, as trustee, to be held at the Court House in New York City on March 1 at 11 A. M.

At 2 o'clock of the same day Mr. Graham will sell the first mortgage bonds affected by the decision in the case of the Union Trust Co. against the same defendants.

(5) Denial.—See Pennsylvania R. R. Co.—Item No. 13.

—Feb.

(1) Earnings—	1916	1915
Dec. gross	\$2,752,488	\$2,703,001
Net after taxes	419,649	651,447

6 mos. gross	17,816,523	15,921,695
Net after taxes	3,445,055	3,327,970

(2) Sold.—It was announced at St. Louis Feb. 21, 1917, that this company's railroad had been sold at auction on that date to Duncan A. Holmes and R. H. Neilson, of New York, representing the bondholders' reorganization committee, for \$16,151,000.

At the same time the St. Louis, Iron Mountain & Southern Ry. was sold under foreclosure to the same men for \$23,500,000.

Mr. Holmes, it was stated, also represents Kuhn, Loeb & Co.

The sale, it was said, marked the passage of the Gould interests from the Missouri Pacific system.

Plans call for the sale at foreclosure at Topeka, Kan., Feb. 23, presumably to representatives of the same banking firm. The three roads then will be formed into one corporation. While the lines have been operated as one system for several years, the Missouri Pacific and Iron Mountain had separate directorates.

Reorganization plans already have been approved by the Missouri Public Service Commission. United States Circuit Judge Hook, of Leavenworth, Kan., is expected to confirm the sale.

The prices bid were the minimum amounts acceptable to the Federal Court, and there were no other bidders. The minimum price fixed by the court for the Kansas & Colorado Pacific is \$90,800,000.

Under the reorganization plan the Missouri Pacific is to have a total capitalization of \$383,642,000, and the stock of the Missouri Pacific and of the Iron Mountain is to be assessed \$50 a share.

The Missouri Pacific-Iron Mountain system went into receivership in August, 1915.

(3) Comment on Sale.—On Feb. 23, 1917, the "Wall Street Journal" said that the sale under foreclosure of the physical properties of the Missouri Pacific and the St. Louis, Iron Mountain & Southern Rys. and the sale on March 1, in New York, of certain mortgages and collateral securities, indicated the early consummation of the reorganization of this system of railroad comprising over 7,000 miles of operated mileage.

After the sale on March 1, 1917, nothing but legal and clerical matters will remain to be cleared up, and by April 1 it would appear that the new company can be launched in business and the receivers of the old company discharged. No change in the management of the company is contemplated.

Under the receivership favorable results have been achieved in the further rehabilitation of the property begun under the present management which was installed in May, 1911, and which since that date has built the property up from one of the most inefficiently managed and physically unfit properties among the large systems of the West into one of the best-managed, best-equipped and physically up-to-standard railroads in that territory.

In 1911 gross earnings were only \$52,776,000. In 1912 they were \$54,000,000, and in 1913 \$62,155,000. In 1914 and 1915 under the prevailing business depression, gross dropped respectively to \$59,985,000 and \$58,209,000, but in 1916 they were back to \$63,372,000, and for the current year to end June 30, 1917, they should be considerably in excess of \$70,000,000.

Of equal importance in connection with these gains has been the ability of the management to show a constantly lowering cost of moving traffic. A reduction of more than 10% of gross has been accomplished in six years in the cost of moving traffic and for six months of the current year the transportation ratio was 29.72% of gross against the over 40% existing in 1911, and 31.03% in the same six months of 1915.

This means the retrieving of equities for the stockholders which formerly were dissipated in wasteful methods. It permits the Missouri Pacific to report for six months to Dec. 31, 1916, a net

JANUARY 1 TO APRIL 30, 1917

income over operating expenses of \$10,509,000 and a balance of \$11,166,000 available for interest and other deductions. This is at an annual rate of \$22,000,000 available for fixed charges, which on the reorganized basis, including interest, rentals, etc., are expected to approximate between \$12,000,000 and \$12,500,000 annually.

This total, after allowing for all deductions and the full dividends on the \$76,751,000 new 5% pfd. stock to be issued in reorganization, is equivalent to over 7% on the \$82,839,000 common stock to be issued in reorganization.

In this connection, also, it is worth noting that these indicated year's results are shown on the basis of abnormally heavy maintenance charges in the first six months, which represented over 34% of gross and which heavy program is about completed. The company's actual surplus earnings in the last six months, after allowing full interest on defaulted or defaulted bonds and other deductions, was approximately \$3,000,000.

—Mar.

*(1) Foreclosure Sale of Iron Mountain Stock.—See St. Louis, Iron Mountain & Southern Ry. Co.—Item No. 1.

*(2) Earnings.— 1917 1915
Jan. gross..... \$2,800,381 \$2,313,393
Net after taxes..... 506,005 273,222

*(3) Sale Confirmed.—Announcement was made at St. Louis March 6, 1917, that the sale of the Missouri Pacific and the St. Louis, Iron Mountain & Southern railroads at foreclosure on Feb. 21 had been confirmed by United States Circuit Court Judge Hook.

The court referred to a special master the claims of several hundred shippers that the sale be set aside. These shippers claimed that the railroads were indebted to them. The master was directed to report April 15 whether the shippers are to be considered as preferred creditors.

The two railroads were bought by the reorganization committee and the property is to be turned over to the new Missouri Pacific R. R. Co., which was incorporated under Missouri laws March 5.

It is understood that B. F. Bush, receiver, will be elected Pres. of the new company, which will absorb all the Missouri Pacific and Iron Mountain lines.

*(4) Comment on January Earnings.—On March 13, 1917, the "Wall Street Journal" said that January, 1917, was the best January, both as to gross and net, ever reported by this company.

The increase in gross for the month was the largest single month's increase ever reported, although the volume is a record only for January, inasmuch as a few of the Autumn months have produced larger gross totals. Net for the month was 1.7 times that reported in January, 1916, and twice that reported in 1915. It is nearly two and a half times the net reported in January, 1912.

Gross for the system was \$3,306,000, an increase of \$1,364,000, or 27.6% over January, 1916. Operating expenses were \$4,269,000, an increase of \$519,840, or 13.9% over 1916. Net was \$2,037,000, an increase of \$844,000, or 70.8%.

In these times of high operating costs, high material and supply prices and high fuel costs, it is worth noting that the Missouri Pacific saved 61.7 cents out of each dollar increase in gross for net.

Transportation expenses increased \$354,000, or 20.1%, the ratio to gross, however, this year being 33.6%, against 35.6% last year. Out of each dollar of increased gross, 26 cents went into increased transportation costs, much of which is due to an increase of 10 cents per ton in cost of fuel.

Maintenance of way and structure expenditures were increased \$184,000, or 27% over January, 1916, the ratio in 1917 being lower and representing only 13.9% of gross, against 14% in 1916.

Maintenance of equipment expenses show a decrease of \$32,000, or 3.2%, the ratio to gross being 15.9% against 20.9% the previous year.

The new company, which has been organized to complete the reorganization of the present Missouri Pacific system, will probably take over the active operation of the properties about June 1. The fiscal year of the new company will run from Jan. 1 to Dec. 31, this change being made in conformity with recommendations made to the Interstate Commerce Commission.

The fiscal year of the Denver & Rio Grande R. R., controlled by the Missouri Pacific, has also been changed to end Dec. 31, instead of June 30.

*(5) Comment on February Earnings.—On March 26, 1917, the "Wall Street Journal" said this road, in spite of bad weather and a one day shorter month than in 1916, earned \$906,000 more gross than in the same month the previous year.

Comparisons in February this year are with a 29-day month in 1916, yet for the short month the system earnings were \$5,629,000, an increase of approximately 12%, bringing total gross for eight months up to over \$50,000,000, which a few years ago would have represented a substantial twelve months' business.

Net earnings for February were \$1,646,000, an increase of \$693,000, or 72.7% over February, 1916. The eight months' net was therefore \$13,929,000, which is more than enough to take care of an entire year's interest, rentals and other deductions.

Missouri Pacific's fiscal year has been changed to conform with the calendar year, and it is therefore useless to estimate what the property will earn for the usual fiscal period ending as of June 30, next, although at the present rate of earnings a surplus of between \$6,000,000 and \$8,000,000 could safely be predicted.

The new reorganized company it is expected will take over the operations of the company about June 1, next. Notices of call for payment of assessments will probably be made around April 15, for payment about May 15. The \$25,000,000 twice-extended notes mature June 1, and, inasmuch as cash paid into the reorganization through assessment will be used to retire these notes, it is probable that final payment of assessments will be called not later than May 15.

—Apr.

*(1) Earnings.— 1917 1916
Feb. gross..... \$2,523,690 \$2,613,043
Net after taxes..... 416,204 432,977
2 mos. gross..... 5,324,072 4,926,430
Net after taxes..... 922,209 706,199

*(2) Assessments Under Reorganization Plan Must Be Paid by May 22.—On April 16, 1917, holders of certificates of deposit representing this company's stock were notified by the reorganization managers that assessments provided for in the plan of reorganization must be paid on or before May 22, 1917. The payment due is \$49.95 per share of stock, being the \$50 assessment provided for in the plan less an adjustment of interest on the general mortgage bonds issuable against the assessment payment.

Stockholders at their option may pay on or before May 22, \$12.45 per share and the remaining \$37.50 on or before Aug. 22, with interest at the rate of 6% on such deferred payments. Such deferred payments are to be secured by the stock deposited and also by the general mortgage 4% bonds and other benefits to which the stockholders shall be entitled upon making the payment in full.

*(3) Deposit Time Extended.—On April 16, 1917, this company's reorganization managers designated June 1, 1917, as the date on which the general mortgage 4% bonds will begin to bear interest. The time in which further deposits of stocks, bonds and assignment of claims against the company may be made under the plan and agreement or reorganization has been extended to and including May 22, 1917.

*(4) Special N. Y. Stock Exchange Clearance Contracts for Stock and Bonds.—Secy. Ely, of the New York

Stock Exchange, sent out circulars April 18, 1917, stating that there would be a special intermediate clearance of contracts when issued for Missouri Pacific pfd. and common stocks, 100-share and odd lots, first and refunding 5% bonds due 1923; first and refunding 5% bonds due 1926; first and refunding 5% bonds due 1905; general 4% bonds due 1975, on Friday, April 20, 1917. All sheets, tickets, checks and drafts must be dated April 24. Tickets must be exchanged direct between offices and not sent to distributing department.

MISSOURI PLATE GLASS CO., ST. LOUIS, MO.

*(1) Incorporated on Jan. 29, 1917, in Missouri, with a capital of \$1,500,000, to consolidate and operate plants at Crystal City and Valley Park, Mo. Incorporators: Geo. D. DeBachanne, Richard Francis, H. A. and R. R. Baumann and C. B. Johnson.

MISSOURI PUBLIC UTILITIES CO.

*(1) Bond Issue Planned.—Announced Feb. 8, 1917, that this company, operating many lighting plants in Missouri towns, had applied to the Missouri Public Service Commission for permission to issue mortgage bonds to the amount of \$316,000, to be used in enlarging plants.

MISSOURI ZINC MINES CO., OF ST. PAUL, MINN.

*(1) Capital Increased.—On March 19, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$100,000 to \$500,000.

MISTLETOE SILK MILLS, WEST HOBOKEN, N. J.

*(1) Incorporated on Jan. 19, 1917, in New Jersey, with a capital of \$1,000,000, to manufacture and deal in silk, wool and other textile fabrics. Incorporators: Gustav A. Hurlimann, Elizabeth F. Hurlimann, Weehawken, N. J., and Robert G. Hurlimann, Brooklyn, N. Y.

MITCHELL-LEWIS MOTOR CO.

*(1) Bonds Called.—On Jan. 26, 1917, S. W. Straus & Co. announced that all of this company's outstanding 1st mortgage 6% bonds of 1914 were being paid off at 102 and interest.

MITCHELL MOTORS CO., INC.

*(1) Report, Year Ended Oct. 31, 1916, shows net earnings, after interest, taxes and organization expenses, of \$1,188,397. This is equal to \$9.73 per share on the 125,000 shares of stock outstanding, of no par value.

*(2) Report, Year Ended Oct. 31, 1916, shows net income of \$1,188,397, or approximately \$9.50 per share on the company's 125,000 outstanding shares. The income account follows: Manufacturing profits, \$1,282,761; other income, \$119,354; net trading profits, \$1,403,116; taxes, interest, etc., \$213,718; net income, \$1,188,397; deducting old company's surplus, \$514,142; balance to surplus, \$674,255; special deductions, \$125,136; balance, \$549,119; dividends, \$187,500; surplus, \$361,619.

*(3) Balance Sheet, as of Oct. 31, 1916, shows a profit and loss surplus of \$4,880,046.

MITCHELL-POWERS HARDWARE CO., BRISTOL, CONN.

*(1) Status (April, 1917).—On April 9, 1917, the "Boston News Bureau" said: "The present volume of business is about 15% ahead of last year. The number of employees and operating expenses are slightly larger than last year. Collections are good and new orders are increasing."

MITCHELL VANCE CO., INC., MILLBROOK, N. Y.

*(1) Incorporated on March 15, 1917, in New York, with a capital of 1,000 shares of \$100 each, 1,000 shares no par value, active capital \$105,000, to deal in gas and electric fixtures, supplies, appurtenances, metallic figures, ornaments,

MOCTEZUMA COPPER CO.

¹(1) Taken Over.—See Phelps, Dodge & Co., Inc.—Item No. 1.

MOHAWK GAS CO.

¹(1) Sale Plans.—See Adirondack Electric Power Corp.—Item No. 1.

• MOHAWK MINING CO.

¹(1) Production, December, 1916.—Announced Jan. 5, 1917, that the copper output of this company in December was the largest in the history of the company, amounting to 2,618,000 pounds, compared with 1,980,000 pounds produced in November.

The figures indicate that the total production for 1916 was about 15,000,000 pounds, against 15,800,000 pounds in 1915.

—Feb.

¹(1) Operations, 1916.—It was stated Jan. 31, 1917, that there was treated at the mill of this company in 1916 a total of 667,438 tons of rock, which yielded 20.73 pounds of refined copper per ton. The resultant production of copper, 13,835,959 pounds, however, had been exceeded previously.

Operations at Mohawk, as at some others of the Lake mines, were handicapped by a shortage in labor in 1916, particularly among the trammers. It was this factor that held down Mohawk's output of copper, despite the excellent returns shown in the rock handled. The difficulty has been overcome.

With the single exception of September, 1915, Mohawk in December turned out a record production of 1,475,685 pounds of copper, from which yielded 24.11 pounds of copper per ton. This was in comparison with even better rock handled in the preceding month, as the November yield averaged 24.65 pounds of copper to the ton.

Mohawk has under consideration overtures proposed by representatives of Seneca Copper Corp. for the use of its No. 2 shaft. Should an offer sufficiently attractive be made for the use of this opening, which would greatly aid in starting development work of Seneca underground, Mohawk, by running crosscuts, could tap this territory from either of two shafts, Nos. 1 or 2.

—Mar.

¹(1) Production, January, 1917.—Announced Feb. 28, 1917, that this com-

pany in January produced 1,195,941 lbs. of copper, compared with 1,476,885 in December and 963,266 lbs. in January, 1916.

¹(2) Production, February, 1917.—Announced March 17, 1917, that this company in February produced 1,194,163 lbs. of copper, compared with 1,195,941 in January, 1917.

¹(3) Production Comment.—It was stated March 26, 1917, that the company's estimated earnings for February were \$300,000, against \$260,000 for January. The total for the first two months of the year was equal to \$5.60 a share, or at the rate of more than \$33 per annum.

Notwithstanding the fewer working days, February results were but 1,800 pounds of copper below the January output. This was due to the fact that there was an improvement of more than three pounds per ton in the copper recovered from rock treated.

¹(4) New Director.—On March 26, 1917, G. W. Desucker was elected a director of this company.

—Apr.

¹(1) Production, March, 1917.—This company April 17, 1917, announced its March production as 1,194,399 lbs. of copper, compared with 1,194,163 lbs. in February, and 1,195,941 in January, 1917.

MOHAWK VALLEY CO.

¹(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,427,533.

MOHICAN COPPER CO.

¹(1) Stock Offering Planned.—It was announced March 12, 1917, that James O'Brien & Co., of New York, in conjunction with Frank J. Smith & Co., of Boston, had completed arrangements for public offering at par, \$1 a share, of 200,000 shares of treasury stock of this company, whose properties are in Plomosa mining district of Arizona.

MOKI TABLE BEVERAGE CO.

¹(1) Incorporated on March 19, 1917, in Delaware, with a capital of \$300,000, to manufacture a table beverage known as "Moki Table Beverage." Incorporators: W. E. Sharps, Luther H. Leber, Philadelphia, Pa., and Chas. W. Gouert, Wilmington, Del.

MOLINE, ROCK ISLAND & EASTERN TRACTION CO.

¹(1) Stock Increase.—See Tri-City Ry. & Light Co.—Item No. 1.

MONARCH KNITTING CO., LTD.

¹(1) Report, Year Ended Nov. 30, 1916, shows net earnings of \$145,534, equal to 7.3% on the common, against \$83,523 in 1915, or 2.5% on the common stock. After paying pfd. dividends, both deferred and current, a surplus was left of \$97,400, and this, added to the balance carried forward from 1915, leaves a surplus brought forward into the current year of \$292,298. This is over 23% on the common stock.

During the year a new hosiery plant was established in St. Catharines, which brought assets of this nature to \$978,431, against \$781,329 a year previously.

MONARCH OIL CORP.

¹(1) Incorporated on Feb. 9, 1917, in Delaware, with a capital of \$1,250,000, to prospect for and develop oil. Incorporators: Arthur W. Britton, S. S. Howard and Henry B. Davis, all of New York.

MONARCH OIL CO., NEW YORK.

¹(1) Capital Increased.—On March 3, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$1,250,000 to \$3,000,000.

MONITOR MOTOR CAR CO., COLUMBUS, O.

¹(1) Expansion.—Announced Dec. 28, 1916, that this company is increasing the capacity of its plant for the manufacture of automobiles. It is capitalized at \$1,000,000 and its present output is 3,000 cars per annum.

MONOGRAM OIL & GAS CO. (THE).

¹(1) Incorporated on Feb. 20, 1917, in Delaware, with a capital of \$3,000,000, to acquire and develop oil and gas lands. Incorporators: E. P. Ray, Geo. W. Carl and M. L. Brown, all of Arkansas City, Ark.

¹(2) Acquisition—Dividend Increase.—It was announced March 21, 1917, that this company had concluded a deal for taking over the Kanawha Traction & Electric Co. The dividend on the stock of the company has been increased from \$1 to \$1.25 quarterly. The plan calls for the conversion of the par value of the Monongahela Valley Traction stock, both pfd. and common, into stock of par value of \$25. Monongahela Valley

JANUARY 1 TO APRIL 30, 1917

Traction Co.'s pfd. stock will be converted into 6% pfd. stock on the basis of 84 shares of new stock for 100 shares of the 5% stock. Kanawha Traction & Electric Co. will receive practically 44,000 shares of pfd. and 44,000 shares of common stock, par value \$25, which will be distributed by that company to the stockholders.

Kanawha Traction & Electric Co.'s property comprises a system of street railways, electric lighting, power plants and interurban railways in West Virginia and Ohio.

The railway system comprises street railways in Parkersburg, W. Va., and Marietta, O., an interurban railway extending from Parkersburg to Marietta and from Marietta through Lowell to Beverly, O., and the bridge across the Ohio River between Marietta, O., and Williamstown, W. Va.

The company supplies all electricity used for lighting and power in Parkersburg, Marietta, Williamstown, Lowell and Beverly, except street lighting in Marietta.

MONROE BINDER BOARD CO.

¹(1) Capital Increase—Stock and Cash Dividends.—It was announced Jan. 20, 1917, that an increase in capital stock from \$500,000 to \$1,000,000 had been voted by the stockholders of this company, Monroe, Mich.

A stock dividend of 60% also was voted, together with a 2½% cash dividend in addition to the regular quarterly dividend of 2½%.

Of the increased capitalization, \$85,000 is 7% pfd. stock and \$935,000 common stock; \$100,000 will be retained as treasury stock for future issue.

MONTANA BLACKFOOT MINING CO., SPOKANE, WASH.

¹(1) Incorporated in April, 1917, in Washington, with a capital of \$1,500,000. Directors: M. W. Neary, W. J. Maxwell, Nell McGinnis, D. G. Smith and N. Gunderson.

• MONTANA POWER CO.

¹(1) Railroad Electrification.—On Jan. 2, 1917, it was stated that, owing to the success obtained by the St. Paul in the electrification of its mountain division, it is now proposed to eventually electrify the road for a greater distance than was at first planned. It is also proposed to electrify the Great Northern and Northern Pacific roads through the mountains.

For these projects the Montana Power Co. will furnish the power. Although the last two named roads have their own power concessions, it is stated that arrangements will be made so that the Montana takes over the power sites of these companies, erects power plants and sells power to the roads at some concession from the usual rates.

Should Montana Power enter into contracts with these roads it probably will require new financing by the Montana Co., for, although earnings are large, they are not large enough to warrant the outlay of the amount of capital that will be needed for new construction.

Should the railroads be electrified through the mountains it will be necessary to have feeder lines across the State passing through undeveloped country rich in mining, timber and agricultural resources. This would not only develop that part of the country, but would mean further sales of electrical power.

The much-talked-of extension of the "Soo" line through central Montana, Idaho, and Nevada to the coast of Southern California may mean another large customer for Montana Power.

¹(2) Earnings, 1916, Estimated.—On Jan. 30, 1917, the "Boston News Bureau" said it is thought this company for its fiscal year ended Dec. 31, 1916, will show a balance for the approximately \$29,400,000 common stock now entitled to dividends of slightly better than 10%. For the nine months to Sept. 30 the company earned at the rate of 9¼% on its common. The final three months, however, were extremely strong earners.

During this period common share profits were at better than an annual 12% rate.

For 1917 earnings will almost certainly break into new high ground and it would be surprising if Montana Power did not earn better than 12% on its common stock in 1917.

The company has no surplus power and is pushing to completion construction work that will add nearly 35,000 new horse power.

Considerable has been hinted regarding additional railroad electrification which would look to Montana Power for current. This is an almost certain future development. The St. Paul electrification covering 440 miles has proven even more of a success than was originally claimed for it.

The St. Paul example in time will be followed by other important transcontinental lines crossing Montana, but such projects will hardly be undertaken until the price of copper and other essential materials is lower.

¹(3) Earnings on Stock.—It was stated March 12, 1917, that this company's 1916 surplus of \$3,083,547 is equal to 8.18% on \$29,407,500 of dividend-bearing common stock, after payment of \$677,226 on pfd. dividends.

¹(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,399,770, compared with \$1,096,239 Dec. 31, 1915.

¹(5) Statement by President.—It was announced March 12, 1917, that Pres. John D. Ryan, of this company, in his annual remarks to stockholders said that 1916 was the most successful in the company's history, with earnings that increased 44.34% in gross and 51.71% in net. Putting into operation the new plants at Thompson's Falls and Great Falls increased operating expenses considerably, but the ratio of operating cost to gross was lowered from 27% to 24%. There was an increase of 4,000 customers in the year.

Approximately \$3,400,000 was expended on construction during the year. The total generating capacity increased from 120,000 kilowatts to 150,000, and the kilowatt-hour output rose from 488,517,672 in 1915 to 867,940,326 in 1916.

With construction now under way, and the increased storage capacity of Hebgen Reservoir and Hauser Lake, increasing the low-water flow over Rainbow Falls, it was found practicable to install 10,000 kilowatts additional power that will be ready to go on the wires in the spring of 1917. Electrification work on the St. Paul Ry. was completed Feb. 23, giving 437 miles of main line and 127 miles of sidings electrically operated.

Mining operations were active all through the company's territory. The new electrolytic zinc plant of the Anaconda Copper Co. will require 30,000 kilowatts. The outlook for 1917, Mr. Ryan thinks, promises continued prosperity.

Early in 1916 \$3,708,000 of 5% bonds were sold to cover construction costs. On June 2, 1916, 25,000 shares of common stock became dividend-bearing, and on May 1, 1917, 25,000 more shares will pay dividends, the Thompson's Falls Power Co. having delivered its power to the railway continuously for six months.

On May 1, 1918, Instalment 8 of 25,000 shares become dividend-bearing, and

on June 2 of the following years up to and including 1921, 30,000 shares a year come under arrangement.

¹(6) Comment on 1916 Earnings.—It was reported on March 24, 1917, that this company during 1916 made a wonderful earning record, its gross revenues increasing \$1,885,497, with an increase of but \$299,709 in operating costs, making net for the year \$4,753,283, an increase of \$1,585,778. Interest charges, including bond discount, for the year were \$1,319,735, an increase of \$180,572, and depreciation charges were \$650,000, an increase of \$50,000, leaving a balance available for dividends of \$3,083,547, an increase of \$1,405,205, or almost 100 per cent. over the similar balance for 1915. After providing for dividends on the 7% preferred stock, there was left a balance for the common stock of \$2,406,521, or 8.2% on the amount of dividend-bearing stock now outstanding.

—Apr.

¹(1) Report, Year Ended Dec. 31, 1916, shows net profits of \$177,573, which is equal to 17.75% on the \$1,000,000 capital stock outstanding. Dividends were paid at the rate of 12%.

MONTECITO WATER CO., CALIFORNIA.

¹(1) Report, Year Ended Dec. 31, 1916, shows operating revenues of \$2,096; net corporate income before dividends, \$1,768, and surplus as of Dec. 31, \$3,727.

• MONTGOMERY WARD & CO.

¹(1) Report, Year Ended Dec. 31, 1916, shows net profits of \$4,200,791, an increase of \$1,728,133 over 1915. Gross sales were \$62,044,338, compared with \$49,308,587 in 1915. Dividends amounting to \$1,050,000 were distributed during the year. Inventories increased \$5,787,000, and assets increased \$18,977,000. The net profits are equal to \$4 on each share of the 300,000 common.

MONTOUR E. E.

¹(1) Stock Increase.—It was announced Feb. 23, 1917, that this company had completed arrangements for increasing its authorized capital stock from \$1,000,000 to \$5,000,000, to provide for readjustment of finances of the road recently built and extended. The road has 64 miles of main line.

MONTREAL COTTONS, LTD.

¹(1) Report, Year Ended Dec. 31, 1916, shows an increase in sales from \$3,053,366 1915 to \$4,397,823. Manufacturing profits for the year were \$473,088, compared with \$394,598 in 1915, and after dividends, bond interest, etc., the balance carried forward was \$116,732, against \$24,008 the previous year.

¹(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,214,426, compared with \$2,170,170 Dec. 31, 1915.

• MONTREAL LIGHT, HEAT & POWER CO.

¹(1) Apartment House Suit Won.—On April 14, 1917, the "Financial Times," Montreal, said, in part: "An important judgment in favor of the Montreal Light, Heat & Power Co., which if sustained in the higher courts will greatly fortify that company against competition, at any rate in the apartment house lighting business, was rendered this week by Mr. Justice MacLennan. The

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

suit was against the proprietors of the Linton Apartments on Sherbrooke St., and the Montreal Public Service Corp., who disconnected the power company's lighting service to tenants of the apartments on May 1 last year.

"As a result, the proprietors and the Public Service Corp. are restrained from interfering with the power company's meters and wires and the electric lighting service of the power company will accordingly be renewed to tenants in the apartments. Furthermore, the owners and the Public Service Corp. will have to pay the power company such damages as shall be fixed by experts.

"The power company sued for \$10,000."

MONTREAL & ST. LAMBERT TERMINAL DEVELOPMENT CO., LTD.

¹(1) Bonds Called.—Announced Jan. 26, 1917, that \$15,000 of this company's 1st gold 6s, due March 1, 1939, par \$100 and \$500, had been drawn for redemption at 105 and interest on March 1, 1917, at the National Trust Co., Ltd., Montreal, Can.

MONTREAL TRAMWAYS CO.

¹(1) Bond Purchase.—It was announced at San Francisco Dec. 27, 1916, that the Harris Trust & Savings Bank and Eastern associates had purchased \$2,000,000 Montreal Tramways Co. first and refunding 5% bonds, due July 1, 1941.

The Montreal Tramways Co. owns and controls the entire street railway system of Montreal and of the suburbs located on the island of Montreal, with the exception of about one mile of interurban line entering the city. The population served is about 600,000.

²(1) Order Before Board of Control.—It was announced March 28, 1917, that a question had been raised since this company placed an order totaling \$2,500,000 with the J. G. Brill Co. for 50 new cars. The franchise of the Montreal Tramways Co. provides, it is stated, that all plant, rolling stock, generators and motors must be manufactured within the city limits of Montreal and the matter of the order for cars placed in the United States has been put before the Board of Control of that city.

MONTREAL TRAMWAYS & POWER CO., LTD.

²(1) New Financing Plan.—Reported from Montreal, Que., on March 27, 1917, that this company had completed arrangements through its New York bankers for the taking up of the \$7,000,000 two-year 6% collateral notes which mature April 2. The financing will be done partly through a new issue of notes and partly through a cash payment. A new two-year 6% note issue to a par value of \$5,350,000, dating from the expiration of the issue which is about to mature, has been sold. This will provide for the bulk of the refinancing, the balance to be met by a cash payment. Holders of the outstanding notes will be given the option of having their notes redeemed in cash or by an exchange into notes of the new issue. As the new notes are to be offered to old noteholders on very favorable terms—namely, 98—it is believed that a large proportion of the holders will prefer the exchange option to their redemption right at par in cash.

In connection with the sale of the new notes the bankers will be able to report a satisfactory earnings situation. Gross earnings in the six months to Dec. 31, 1916, showed an increase of about 13%, and surplus after charges an increase of more than 20%.

²(2) Sale of Notes.—Reported on March 27, 1917, that this company had sold to Potter, Choate & Prentice \$5,350,000 2-year 6% secured notes, the proceeds of which will be used to retire on April 1 \$7,000,000 of the company's 2-year 6% collateral trust notes, the remainder to be paid in cash by the company.

The new issue will be secured by \$8,000,000 Montreal Tramways Co. 5% debenture stock and 16,000 shares of the common stock carrying the voting control of the Montreal Tramways Co., which owns the entire street railways system in Montreal. The aggregate market value of the collateral to be pledged at current quotations is \$7,600,000, or over 140% of the notes to be issued.

It is understood that holders of the maturing notes will be offered an opportunity subject to withdrawal without notice to exchange their holdings at par and interest for a like amount of new notes at 98 and interest, and that it is proposed to offer the unsold balance in the near future at 98½ and interest.

Stone & Webster have just completed an investigation of the property and their reports show that the replacement value now of the Montreal Tramways Co., whose securities are pledged under this issue of notes, based on normal prices for material and labor, substantially exceeds the amount of bonds and debenture stock issued by the company.

²(3) Notice to Noteholders.—On March 29, 1917, Potter, Choate & Prentice announced in connection with their purchase of \$5,350,000 of this company's two-year 6% secured notes, that holders of the maturing notes who desire to avail themselves of the privilege of exchanging their present holdings for new notes at 98 and interest should deposit their notes ex the April 1 coupon as soon as possible with the Trust Department of the Guaranty Trust Co., taking receipt therefor exchangeable April 2 for certificates representing the new notes, together with cash payment of \$20 per \$1,000 note.

As there are \$7,000,000 maturing notes and only \$5,350,000 notes of the new issue, the right is reserved to terminate the offer of exchange without notice. Notes not exchanged under this offer will be paid on presentation to the Bankers' Trust Co.

MONTREAL TRANSPORTATION CO., LTD.

²(1) Incorporated on March 26, 1917, in Canada, with a capital of \$4,000,000, divided into 40,000 shares of \$100 each, to carry on the business of forwarding and transporting goods and passengers, mails and freight of all kinds on land and water in the Dominion of Canada and elsewhere. Incorporators: Wm. Kenneth McKeown, Leopold Choquette, Geo. Edward Chart and Bertha Charlebois. Chief place of business, Montreal, Que.

¹(2) Earnings on Stock.—It was stated Jan. 15, 1917, that this company's net of \$3,832,213 for the year ended Nov. 4, 1916, is equal to 11¼% earned on a capital investment of \$34,000,000.

¹(3) Balance Sheet, as of Nov. 4, 1916, shows a profit and loss surplus of \$32,142,483, compared with \$29,510,271 Nov. 4, 1915.

—Mar.

²(1) Acquisition.—It was announced March 22, 1917, that this company, Chicago, had purchased the Crescent City Slaughter House Co. plant at New Orleans, for \$500,000, and planned extensive improvements with increases of facilities for killing and packing meat.

MORRIS (HERBERT) CRANE & HOIST CO.

²(1) New Factory for Canada.—It was announced March 19, 1917, that this company, Birmingham, Eng., had decided to locate a Canadian branch factory at Niagara Falls, Ont. Seven acres of land have been purchased as the site. The factory will employ 2,000 men.

MORROW STEAMSHIP CO., MENTOR, O.

²(1) Incorporated on Jan. 18, 1917, in Ohio, with a capital of \$250,000. Incorporators: J. A. Paisley, W. W. Woods, P. W. Sherman, A. E. R. Schneider and F. L. Leckie.

MORSE CORP.

²(1) Incorporated on April 12, 1917, in Delaware, with a capital of \$2,000,000, to acquire and develop oil and mineral lands. Incorporators: Wm. F. O'Keefe, Geo. G. Steigler and E. E. Wright, Wilmington, Del.

MORSE TWIST DRILL & MACHINE CO.

²(1) Stock Dividend Recommended.—A New Bedford, Mass., dispatch April 21, 1917, stated that this company would increase its capitalization from \$600,000 to \$2,000,000, to capitalize the accumulated earnings of the corporation, provided the stockholders adopt the recommendation of the directors.

The directors recommended that the par value of the 12,000 shares outstanding be increased from \$50 to \$100 and that the number of shares be increased to 20,000 by a stock dividend.

JANUARY 1 TO APRIL 30, 1917

MORTON SALT CO.

¹(1) **Expansion.**—It was announced Feb. 16, 1917, that this company, Ludington, Mich., would increase its plant capacity to 5,500 barrels of salt daily. The Peters salt block in Manistee, Mich., recently purchased by this company, will be dismantled and available portions of it used in constructing additions to the plant.

MOSSER (WM. F.) CO.

¹(1) **Additions.**—It was announced March 14, 1917, that this company, Richmond, W. Va., would expend \$250,000 to construct additional buildings and install additional new machinery.

MOSS METALLURGICAL & MINES CO., SPOKANE, WASH.

¹(1) **Incorporated** in Washington, Dec. 27, 1916, with a capital of \$1,000,000. Incorporators: R. H. Ross, C. A. Phillips.

MOTHER LODE COPPER MINES CO. OF ALASKA.

¹(1) **Report, Year Ended Dec. 31, 1916,** shows that the mine was operated 360 days and that the total drifage for the year was 2,785 feet, a gain of 288 feet over the previous year. Ore reserves in sight and estimated are placed at 114,328 tons, containing 17,770 tons of copper and 468,074 ounces of silver. The copper values at 30 cents per pound are placed at \$10,662,000 and silver values at 75 cents per ounce, \$351,055, making a total value of \$11,013,055, less mining costs of \$4 per ton, \$330,044, leaving net value at mine of \$10,682,611.

—Mar.

¹(1) **Operations.**—It was announced March 7, 1917, that this company's first shipment of 400 tons of ore to the Tacoma smelter shows 60.61% and 61.54% copper with 13.8% and 13.75% silver. It is estimated that this shipment has a market value of about \$147,500, the copper approximating \$144,000 and the silver \$3,500.

—Apr.

¹(1) **Proceeds from Bond Sale.**—On April 9, 1917, this company announced that the sale of \$200,000 first mortgage 6% 10-year convertible bonds to Pittsburgh stockholders, together with the net value of recent ore shipments, would amount, in round figures, to \$500,000, which would be sufficient to pay for the installation of the power plant, building of a wagon road, and erection of the concentrator, all of which would be completed before the end of 1917. Additional ore shipments are now on the way from the mine to the Tacoma smelter.

MOTION PICTURE PATENTS CO.

MOTOR GAS GUARANTY CO.

¹(1) **Incorporated** on Jan. 25, 1917, in Delaware, with a capital of \$1,000,000, to manufacture all kinds of gas engines. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

• MOTOR PRODUCTS CORP.

¹(1) **Note Issue Planned.**—It was announced Feb. 9, 1917, that this company had proposed to stockholders a plan for issuing \$1,000,000 notes, maturing serially every six months over a period of five years. The note issue will be

made to fund the purchase of the plant formerly occupied by the Lozier Motor Co., comprising 62 acres of ground. This plant was bought in 1916 and provided sufficient space for the consolidation of all operations by the Detroit plants of the Motor Products Corp. into a single unit.

It is announced that an agreement has already been made for the purchase of the notes on satisfactory terms, and a large percentage of the shareholders have given their consent to the issue.

In the eight months ended Dec. 31, 1916, the volume of business transacted amounted to \$4,072,043, or on a basis of \$6,108,064 per annum. The company has on its books unfilled orders amounting to \$6,000,000. The earnings for the eight months were on the basis of about \$11 a share per annum on the outstanding capital stock.

Upon the completion of the financing, as planned, the company will have no other liabilities than current accounts, and it is intimated by interests closely affiliated with the company that dividends on the stock will be inaugurated early in 1917.

¹(2) **Note Issue.**—It was announced Feb. 16, 1917, that this company had sold privately in Detroit a \$1,000,000 issue of 5-year notes, due semi-annually, the proceeds to be used to purchase the plant formerly occupied by the Lozier Motor Co., comprising 62 acres. The company's business in the eight months ended Dec. 31, 1916, it is reported, amounted to \$4,072,043 and unfilled orders \$6,000,000.

—Mar.

¹(1) **Initial Dividend.**—Announced March 10, 1917, that this company had declared an initial quarterly dividend of \$1 a share, payable April 3 to stock of record March 21, out of the earnings for the quarter ended March 31.

—Apr.

¹(1) **Sales, January and February, 1917,** as reported April 5, 1917, totaled \$1,517,000, an increase of 50% over a year ago. This compares with sales in the full calendar year 1916 of \$6,460,213, from which net earnings resulted of \$868,908.

The balance sheet as of Feb. 28 shows an excess of current assets over current liabilities of \$4,996,714 and a book value for the 80,000 shares of stock outstanding of \$47.58 a share.

Total floor space of the plants is 390,000 square feet and the number of men employed totals 2,100.

Unfilled orders on March 1 were between \$6,000,000 and \$7,000,000.

MURNAN SHIPBUILDING CORP.

¹(1) Incorporated on Feb. 24, 1917, in Delaware, with a capital of \$3,000,000, to construct, maintain and operate ships. Incorporators: John F. Glenn, Samuel J. Ferguson, Philadelphia, and John Davidson, Rutledge, Pa.

**MURRAY ELECTRIC LIGHT &
POWER CO.**

¹(1) Merger Permit Sought.—See Orange County Public Service Corp.—Item No. 1.

—Apr.

¹(1) Merger Authorized.—See Orange County Public Service Corp.—Item No. 1.

**MURRAY (J. W.) MFG. CO.,
DETROIT, MICH.**

¹(1) Status.—On Jan. 7, 1917, Keane, Higbie & Co., Detroit, Mich., who purchased and sold a large block of stock of this company, announced the application for the listing of the company's stock on the Detroit Stock Exchange.

As a manufacturer of hoods, fenders and a general line of sheet metal stampings the company is said to include a number of large automobile companies among its customers.

The company has outstanding \$350,000 of stock, par value \$10. Recent sales are reported to have been made at \$35 a share. The company's balance sheet on Oct. 31, 1916, showed assets of \$773,125, comprising property account, less reserve, \$410,362; current assets, \$359,843; deferred charges, \$3,520.41.

Besides \$350,000 of issued capital stock, the balance sheet shows current liabilities of \$95,130 and surplus of \$328,095.

The company's earnings in 1916 are reported to have been approximately \$240,000, equal to about 65% on the capital stock. Its earnings for the current year are estimated at \$300,000.

—Feb.

¹(1) Capital Increased.—On Jan. 29, 1917, the company filed notice at Lansing, Mich., of an increase in capital stock from \$500,000 to \$1,000,000.

**MURRAY-MOGRIDGE MINING CO.,
LTD.**

¹(1) Stock Offering Planned.—It was stated Jan. 6, 1917, that this company is planning to make a stock offering early in January.

The company was formed to develop the property which is located in the Wolfe Lake district, a short distance north of the Kirkland Lake camp. What is considered the longest unbroken gold-bearing vein in northern Ontario is reported to run across the property. All necessary arrangements for an aggressive development campaign are in progress.

¹(2) Stock Offering.—On Jan. 8, 1917, J. M. Childerhouse, Toronto, Ont., announced the offering of 100,000 shares of this company's stock at 60 cents per share, par \$1. The capital of the company is \$2,000,000. In the treasury 500,000 shares are being retained.

The company's property is located in the Kirkland Lake area in Canada. It consists of ten 40-acre farms. The statement says sufficient development has been done in three years to demonstrate that on the property is located what is reputed to be the longest known unbroken gold-bearing vein in northern Ontario. It is further stated that it offers assurances of becoming a big mine, as did the Hollinger when first offered to the public at \$3.50 a share.

—Apr.

¹(1) Machinery Installed.—On April 25, 1917, the "Boston Evening Transcript" said that with the completion of the installation of machinery at the Murray-Mogridge mine another has been added to the growing list of producing mines in the Kirkland and Wolf Lake gold area in northern Ontario. Within a few months the company has made exceptionally good progress, and with an extensive good progress, and with an and rich ore bodies indicated there would seem to be a good future for this property.

The main vein varies in width from 3 to 30 feet and has been traced over 3,000 feet. Working shafts have been sunk on the same vein about 800 yards apart to the 50-foot level.

**MUSCATINE, BURLINGTON &
SOUTHERN R. R.**

¹(1) Interstate Commerce Ruling.—See Chicago, Burlington & Quincy R. R.—Item No. 1.

**MUSKEGON HEIGHTS
AEROPLANE CO.**

¹(1) New Company.—It was stated Feb. 2, 1917, that the organization of this company, which will manufacture a super-aeroplane for the United States postal service and the United States naval service, had been completed at Muskegon, Mich.

The aeroplane will be of the triplane type, will have a wingspread of 72 feet, with a tail 48 feet long, and will be equipped with two 100-horsepower motors.

MUTUAL FUEL CORP.

¹(1) Incorporated on March 12, 1917, in New York, with a capital of \$500,000, to deal in coal, coke, wood, ice, hay, plaster, fertilizer, cereals, flour, feed, grain and agricultural implements. Incorporators: J. A. Fisco, W. O. H. MacGraw and D. W. Towill, 1 Union Square, New York.

MUTUAL TRUCK CO.

¹(1) Incorporated on March 16, 1917, in Delaware, with a capital of \$500,000, to manufacture automobiles, airplanes, etc. Incorporators: Arthur W. Britton, Harry B. Davis and Samuel B. Howard, New York.

MYRTLE COAL CO.

¹(1) New Breaker to Be Built.—The "Philadelphia Public Ledger" April 23, 1917, stated that this company, composed of Scranton, Pa., capitalists, had let the contract for the construction of its breaker on the southern border of Pottsville, Pa. The Myrtle company is operating in the "Pottsville conglomerate" which is the lower limit of the hard coal deposits.

**MYSTIC FILM CORP. (THE),
NEW YORK.**

¹(1) Incorporated on Jan. 25, 1917, in New York, with a capital of \$250,000, to deal in moving pictures. Incorporators: J. A. Buds, J. I. Johnson and J. Gorman, 1493 Broadway, New York.

**NAAMAN CREEK DEVELOPMENT
CO., WILMINGTON, DEL.**

¹(1) Incorporated in April, 1917, in Delaware, with a capital of \$250,000, to conduct a real estate, agency and brokerage business.

NAGLE STEEL CO.

¹(1) Acquisition.—It was announced Feb. 2, 1917, that this company had bought the iron plant of Potts Bros., Ltd., which had been idle for five years. Announcement was made that the plant would be remodeled.

NANKIVEL (CLAUDE M.) & CO., INC.

¹(1) Incorporated on Jan. 13, 1917, in New York, with a capital of \$300,000, to act as commission and selling agents and deal in furniture and personal property. Incorporators: W. B. Shelton, A. A. Snowden and C. M. Nankivel, 120 Broadway, New York.

**NAPIER SAW WORKS,
SPRINGFIELD, MASS.**

¹(1) Incorporated in January, 1917, in Massachusetts, with a capital of \$1,000,000. Directors: Chas. Napier, Pres.; Chas. H. Parsons, Springfield, Treas., and Fred T. Ley.

**NARRAGANSETT COPPER CO.,
TUCSON, ARIZ.**

¹(1) Incorporated in February, 1917, in Arizona, with a capital of \$300,000. Incorporators: Jas. S. Kelso, R. W. Langworthy and Jas. N. Corbett, all of Tucson, Ariz.

NARRAGANSETT COTTON MILLS.

¹(1) Extra Dividend.—Announced Jan. 24, 1917, that this company had declared the regular quarterly dividend of 1½% and an extra of 1%, both payable Feb. 1 to stock of record Jan. 23.

NARROW FABRIC CO.

¹(1) To Consider Stock Increase.—Announced on March 27, 1917, that this company, of Wyoming, Pa., had called a special meeting of stockholders for May 9, to consider an increase in capital stock from \$250,000 to \$2,000,000. The call, issued by Sec'y H. M. Fry, states that much of the new stock will be available for the thousand or more employees of the company.

NASHAWENA MILLS.

¹(1) Increased Dividend.—Announced Jan. 30, 1917, that this company had increased the dividend rate from 6 to 8% by the quarterly declaration of 2%, payable Feb. 6 to stock of record Jan. 30.

—Mar.

¹(1) Balance Sheet, as of Dec. 31, 1916, showed profit and loss surplus of \$699,315, against \$239,536 in 1915.

NASH MOTORS CO.

¹(1) Directors Re-elected.—Announced Jan. 10, 1917, that stockholders of this company at their annual meeting re-elected the retiring directors and approved their annual report. The report was not issued to the public.

¹(2) Statement by President.—It was announced Jan. 12, 1917, that at a meeting of this company's directors C. W. Nash was re-elected Pres.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Mr. Nash reported excellent progress. The cost of manufacture had been reduced substantially and the output of the company increased 50%.

The first sold trainload of pleasure cars ever shipped from the Nash plant at Kenosha had been started on its way to New England. The domestic truck business is increasing with great rapidity.

Company officials believe that the Jeffrey "quad" had apparently fully achieved the reputation of being the best four-wheel drive truck produced in the market, and orders for it are coming in fast.

The latter part of March the company will send to stockholders an earnings statement of the first full six months, covering the period from Aug. 16 to Feb. 1.

Asked for his views on the general situation in the automobile industry, Mr. Nash, who up to last Summer was head of the General Motors Co., replied: "I note no falling off in the demand for motor cars, and I believe that 1917 will be fully as big and probably bigger than 1916 in the motor trade. The industry, in my opinion, is in sound condition and its outlook is very bright."

"All companies are having trouble from the freight car shortage, which affects incoming shipments as well as shipments of automobiles. This situation should gradually improve, and is not peculiar to the motor industry."

—Mar.

(1) Increasing Production.—On March 30, 1917, the "Boston News Bureau" said that this company, which was financed by Lee, Higginson & Co. in July, 1916, and of which Charles W. Nash, former president of General Motors, is head and part owner, has been giving good account of itself. The production of cars for several months had been showing a 40% increase over the comparative figures of a year ago. What is also characteristic of the Nash management is that this gain has been achieved with a cut of nearly 20% in working forces.

The Nash Motors Co. is now making and selling the Jeffery car. Sometime this year it is expected to have completed and tested out the new Nash car, the advent of which is being watched with no little interest. This car will be sold as a Nash car.

• NASHVILLE, CHATTANOOGA & ST. LOUIS RY.

(1) Stricken from List.—Announced Jan. 2, 1917, that the New York Stock Exchange had stricken from the list this company's Tennessee & Pacific branch first mortgage 6% bonds and McMinnville & Manchester and Winchester & Alabama branches first mortgage 6% bonds.

(3) Telephone Operation Extended.—It was stated Jan. 10, 1917, that this company had purchased 445 additional miles of pole and wire lines from the Western Union Telegraph Co. along its tracks in Kentucky, Tennessee and Alabama, and soon would operate its trains there by telephone dispatching, as between Nashville and Chattanooga and Nashville and Hickman, Ky., a total of 322 miles.

With the added lines the company will soon have 767 miles operated with the use of telephones. It is the company's intent to convert all the rest of its lines, which total 1,236 miles, to telephonic operation.

(4) Extension.—Announced Jan. 13, 1917, that directors of this company had authorized the construction of a 12-mile extension of the Tracy City branch into the coal fields. The cost of the new line was placed at \$50,000.

(1) New Chairman and Director.—It was announced April 12, 1917, that at a meeting of directors of this company at Nashville, Whiteford R. Cole was elected chairman of the board to succeed the late Major E. C. Lewis. The stockholders at their meeting previously had named Judge Claude Waller, general counsel of the road, a director, he being the only new member of the board.

The directors re-elected the officials of the company.

Mr. Cole, the new chairman of the board, is a prominent business man of Nashville and had been a member of the board for many years. He is a son of the late E. W. Cole, one-time Pres. of the company.

NATAMOS WATER CO.

(1) Report, Year Ended Dec. 31, 1916, shows operating revenue of \$28,921; gross corporate income of \$17,526, and net corporate income for 1916 of \$11,376. Surplus after charges amounts to \$11,375.

(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$11,375, compared with \$8,977 Dec. 31, 1915.

NATIONAL ABRASIVE CO.

(1) Branch for Hamilton, Ont.—A Hamilton, Ont., dispatch April 21, 1917,

stated that this company, of Boston and Amesbury, Mass., would establish a branch at Hamilton. It has a contract for 2,000 horsepower from the Hamilton Hydro Commission and has purchased land for the plant.

NATIONAL ACME CO. (THE)

A complete description of this company appears in the "Miscellaneous Book" in your card cabinet.

(1) Prospects Outlined by Director.—It was stated Jan. 8, 1917, that this newly organized company, of Cleveland, O., shares of which were offered in New York and Boston in December by Hayden, Stone & Co. and Eastman, Dillon & Co., had its first full board meeting in Cleveland Jan. 6, 1917. Albert H. Wiggins, Herbert L. Dillon and Galen L. Stone, representing the new Eastern interests, were present. Mr. Stone said, in part, of the meeting and of the business in general:

"The entire Board of Directors, 11 in number, was present at the meeting on the 6th instant. The annual meeting of shareholders will take place on the 25th of this month, and at that time the number of directors will probably be increased to at least 14; the new members to include Messrs. Hopkins and Mitchell, already members of the active staff of the Acme Co., and Cyrus S. Eaton, of the firm of Otis & Co., Cleveland, through which firm there has recently developed a very large new Ohio investment in the Acme Co."

"I know that I may speak for Messrs. Wiggins and Dillon, as well as for myself, so far as to say that we were all extremely well pleased with the Acme business in all its aspects, so far as we had time to go into it. But especially were we taken with the personnel of the organization."

"At the annual meeting final figures covering the operations of the 1916 calendar year will doubtless be presented, but enough is known to warrant my saying that all of the statements as to the probable outcome of the year's business were fully justified. Profits will be about the six millions promised."

"Stockholders will naturally ask when and to what extent they may expect to share in these large profits in the way of dividends. The present thought is to pay quarterly dividends, beginning in March, at the rate of 6%. That would be at a rate of 7½% on the price at which the shares were recently issued."

"Six per cent. was the rate at which the old Acme Co. paid in cash. On the basis of that rate of disbursement and the accumulation of remaining profits in the form of fixed and quick assets, I believe that these Acme shares will prove most satisfactory to own."

(3) Initial Dividend.—Announced Jan. 27, 1917, that this company had declared an initial quarterly dividend of 1½%, payable March 1 to stock of record Feb. 15.

NATIONAL ANILINE & CHEMICAL CO.

(1) Merger Reported.—See Schoellkopf Aniline & Chemical Works, Inc.—Item No. 1.

(2) Merger Plans.—See National Aniline & Chemical Co., Inc.—Item No. 1.

(3) Schoellkopf Works Shipping Point for Finished Products.—On April 28, 1917, Dow, Jones & Co. stated it had been decided to make the Schoellkopf Aniline & Chemical Works of Buffalo, N. Y., the assembling and shipping point for the finished products of the National Aniline & Chemical Co. The W. Beckers Aniline & Chemical Works, the Benzol Products Co. and other plants will continue in their special lines.

The Benzol Products Co. manufactures coal tar intermediates, which form the bases from which springs the long line of coal tar products. Work has begun on the erection of a large still house which is expected to be completed within six months. Under the new arrangement the Benzol Products Co. will go ahead enlarging its

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

capacity as its intermediates will be needed by the Beckers, Schoellkopf and Standard Dye plants, all of which are included in the new merger.

This development will not only increase the chemical output of the Philadelphia district in coal tar products, but will also mean an increased consumption of acids by the benzol plant itself. This increased acid will probably be supplied by the General Chemical Co., which is a neighbor of the Benzol Products Co., and has a pipe system into the Benzol plant.

NATIONAL ANILINE & CHEMICAL CO., INC.

*(1) **New Company—Merger Plans.**—It was stated April 11, 1917, that this company, formed for the purpose of taking over the Schoellkopf Aniline & Chemical Works, with its line of dyestuffs, the Wm. Beckers Aniline & Chemical Works, with its line of dyestuffs, the Benzol Products Co., producers of aniline and salts, and the National Aniline & Chemical Co., as well as certain other coal tar intermediates, was planning to do a business in excess of \$50,000,000 annually.

The new company is not only to be an amalgamation of the above, but also will acquire certain minor interests and processes in coal tar intermediates already developed and being developed by the General Chemical Co., the Semet Solvay Co. and the Barrett Co. No one company is to have a controlling interest in the new corporation.

The W. Beckers Aniline & Chemical Works was organized soon after the beginning of hostilities in Europe. It is understood this company is employing something like 1,200 hands and has met with great success in the manufacture and sale of dyes. One large woolen company has been using the dyes of the Beckers Co. since soon after the war and no complaint has been received, and still another manufacturer recently met with great success in dyeing 20,000 yards of cloth of one quality with the Beckers product.

The General Chemical Co., Semet-Solvay Co. and Barrett Co. will not form part of the combination. However, the National Aniline & Chemical Co. will have the support of these large organizations, which are greatly interested in the development of the dyestuff industry of the United States.

There will be no financing to speak of in connection with the merger, as it will simply represent an exchange of subsidiary companies' securities for those of the parent company.

Prior to the war Germany practically controlled the entire dye and chemical business of the world, but it is hoped that with the co-operation of the Government the new company and other American concerns will be able to meet the foreign concerns on an even basis at the close of the war.

Declaration of war by the United States, it is felt by those posted on International Law, should open to American manufacturers the formulas and patents registered by German interests in Washington. These patents, while only few in number, are very important and of great value to the dye industry.

NATIONAL ARTIFICIAL SILK CO.

*(1) **First Unit Nearing Completion.**—Announced on April 5, 1917, that the first unit of the six to be erected by this company was nearing completion. This consists of three buildings, one 60x85 feet, three stories and basement; one 165x320 feet and one 65x180 feet, all with saw-tooth roofs. These buildings will cost in the neighborhood of \$510,000. Machinery worth \$400,000 will be installed in the plant.

NATIONAL AUTOMATIC FIRE ALARM CO.

*(1) **Extra Dividend.**—On Jan. 2, 1916, this company paid an extra dividend of 1% and the regular quarterly dividend of 2½% to stock of record Dec. 30.

NATIONAL AUTOMATIC FLYING MACHINE CO. OF AMERICA, INC.

*(1) **Incorporated** in February, 1917, in Maryland, with a capital of \$300,000. Incorporators: J. Frank Fox, E. A. Fairley and Wm. H. Logue, Jr.

NATIONAL BANK OF COMMERCE, NEW YORK.

*(1) **New Director.**—Announced Jan. 9, 1917, that at the annual meeting of this bank Charles E. Dunlap, of the Berwind-White Coal Mining Co., had been elected a director.

NATIONAL BISCUIT CO.

*(1) **Earnings, Year Ended Jan. 31, 1917**, compares as follows:

	1917	1916
Net	\$4,579,306	\$4,129,791
Surp. aft. divs.	796,471	346,956

*(2) **Balance Sheet** as of Jan. 31, 1917, shows a profit and loss surplus of \$15,569,266, compared with \$14,772,795 Jan. 31, 1916.

*(3) **Earnings on Stock.**—It was stated Feb. 13, 1917, that this company's yearly net earnings of \$4,579,306, after allowing for 7% dividends on the \$24,804,500 pfd. stock, amounted to \$2,842,991, which is equal to 9.72% on the \$29,236,000 common stock, compared with 8.18% earned on the common during the previous year.

*(4) **Comment on Annual Report.**—On Feb. 17, 1917, the "Boston News Bureau" said that much of this company's progress in 1916 did not measure itself in income for the 12 months to Jan. 31, 1917, although therein is shown an increase in net of \$449,515. The percentage of earnings on the common, which the previous year fell dangerously near the 7% dividend mark on the \$29,236,000 common stock, is this time up to 9.72%, the best figure in three years.

National Biscuit has consistently turned large amounts of surplus earnings back into the plant account, and such attentions are never wasted. Finally, this company has safeguarded its future by rigorous prosecution of all infringements of its trade-mark and trade names.

The value of the names "Uneeda Biscuit" and "Nabisco," for instance, are almost incalculable, and, as evidence of its strict policy, the company has records of nearly 1,000 cases where infringers have, upon warning, dropped the use of names to which it objected.

—Mar.

*(1) **New Directors.**—It was announced March 19, 1917, that at the annual meeting of stockholders of this company H. M. Hanna, Jr., was elected a director to succeed H. M. Hanna, Sr., who retired, and Edward F. Low, R. E. Tomlinson and Paul Moore were elected to vacancies caused by the deaths of J. W. Ogden, A. W. Green and J. B. Vredenburg. James McLennan was elected to succeed S. A. Sears, who retired. H. J. Evans and S. S. Marvin were re-elected.

—Apr.

*(1) **Cost of Production Causes Price Increase.**—This company announced April 17, 1917, that it had increased the prices of its products as follows: 50-cent goods are now 60 cents; \$1 are now \$1.20; \$1.50 are now \$1.75; \$2.50 are now \$3. The company stated that the increase in the cost of production caused this action to be taken.

NATIONAL BRASS CO., GRAND RAPIDS, MICH.

*(1) **Capital Increased.**—It was announced March 1, 1917, that this company had increased its capital stock from \$200,000 to \$275,000.

NATIONAL BRASS & COPPER TUBE CO.

*(1) **To be Taken Over by New Company.**—See National Conduit & Cable Co.—Item No. 4.

NATIONAL BREWERIES, LTD.

*(1) **Report, Year Ended Oct. 31, 1916**, as submitted at annual meeting, at Montreal, Que., Jan. 17, 1917, showed net of \$446,000, or \$6,000 less than in the previous year. The redemption of \$80,000 bonds under the 4% sinking fund, which went into operation in 1915, reduced interest charges for the year nearly \$5,000 to \$113,000; depreciation allowance was again just under \$80,000 and pfd. dividends took the usual sum, \$194,250.

After these deductions there remained a balance of \$37,800, against \$59,797 a year previously. The total at credit of profit and loss account is in excess of \$639,000.

Bonds to the par value of \$80,000 were again redeemed during the year.

NATIONAL CANDY CO.

*(1) **Dividends Resumed.**—It was announced Feb. 17, 1917, that this company had declared a dividend of \$1.50 a share on its capital stock. This is the first declaration on the issue since March 1, 1911, when a dividend of 1% was ordered. The usual semi-annual dividends of \$3.50 a share each on the 1st and 2d pfd. stocks were also declared.

*(2) **Balance Sheet**, as of Dec. 30, 1916, shows cash on hand as \$125,829; accounts and notes receivable, \$1,181,163; surplus, \$1,044,021; assets and liabilities, \$11,304,121.

NATIONAL CARBON COATED PAPER CO.

*(1) **Incorporated** on March 5, 1917, in Ohio, with a capital of \$300,000. Incorporators: C. L. Spence, H. E. Aulsebrook, R. G. Morrison, P. A. McCaskey and Lawrence G. King.

NATIONAL CARBON CO.

*(1) **Capital Readjustment Plan.**—It was stated Jan. 4, 1917, that the capital readjustment plan of this company involves the formation of a new company, which will issue four shares of new common of no par value for each share of common of the present company. It is understood that the \$5,000,000 7% cumulative pfd. will remain undisturbed or, in other words, will come in a one-for-one basis.

National Carbon now has outstanding \$9,965,000 common, or 99,650 shares of \$100 each. This will be increased to a total of practically 400,000 shares in the recapitalization plan. It has been understood in banking circles friendly to National Carbon that the new stock would start its dividend career on a \$4 basis. This would be equal to \$16 per share on the present common against 8% now being distributed.

National Carbon common has reached 320 on the Chicago Exchange. It is now listed in Chicago and Boston, but is extremely inactive. The shares of and Boston market and there will be the new company will have a New York size enough to the issue to render it comparatively active.

Company's present net is understood to be running at the rate of 40% on the approximately \$10,000,000 common stock.

*(2) **New Company Planned.**—Announcement was made at Cleveland, O., Jan. 12, 1917, that directors of this company had decided that it would be for the best interests of the stockholders to take steps looking to the acquisition of the property and assets of the New Jersey corporation and other properties by a new corporation under the laws of New York.

There will be organized a New York corporation known as National Carbon Co., Inc., having an authorized capital stock consisting of 1,056,000 shares, of which 56,000 shares, par \$100, are to be pfd. stock, and 1,000,000 shares, without nominal or par value, common stock. The pfd. stock will draw cumulative 8% dividends, payable quarterly on the first days of February, May, August and November, and will be redeemable at \$140 per share.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Every holder of any of the 7% cumulative pfd. stock of the New Jersey Corp. will be given an opportunity to exchange the same for a like amount, share for share, of the 8% cumulative pfd. stock of the New York Corp., and every holder of the New Jersey Corp. will be given an opportunity to exchange the same for common stock of the New York Corp. on the basis of one share of the common stock of the New Jersey Corp. for four shares of the common stock of the New York Corp.

¹(3) Incorporated on Jan. 15, 1917, in New York, with a capital of 56,000 shares, \$100 each, and 1,000,000 shares, no par value; to carry on business with \$10,600,000 in producing carbon and carbon specialties. Incorporators: M. T. Herrick, W. Cameron Forbes and C. Hubert, New York. (New Jersey Corp. dissolved.)

• NATIONAL CARBON CO., INC., NEW YORK.

¹(1) Initial Dividends.—Announced April 9, 1917, that this company had declared an initial dividend of 2% on the pfd. and \$1 a share on the common stock for the quarter ended April 30, 1917. Both are payable May 1 to stock of record April 20.

• NATIONAL CARBON CO., INC.

¹(1) Report, Year Ended Dec. 31, 1916, shows earnings as follows:

	1916	1915
Net -----	\$4,624,555	\$2,550,518
Bal. after pfd. & com. divs.---	3,236,005	1,560,588
Reserve -----	125,000	75,000
Surplus -----	3,211,005	1,485,588

¹Reserve for bonus to employees and subscribers to common stock.

¹(2) Earnings on Stock.—It was stated Feb. 26, 1917, that this company's 1916 net after pfd. dividends of \$4,232,555 is equal to 42.47% on \$9,965,500 common stock, compared with 25.59% earned on the same stock in 1915.

¹(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$5,852,449, compared with \$2,641,144 Dec. 31, 1915.

¹(4) Comment on Annual Report.—On Feb. 28, 1917, the "Boston News Bureau" said that this company in 1916 jumped from the mediocre to the major with decided emphasis. For years National Carbon has been in the class of \$2,000,000 net earners. In 1916 its net expanded to \$4,624,555. There was an actual gain in profits over the previous year of \$2,074,038, or 81.3%. The balance for the \$9,965,000 common fulfilled preliminary estimates and reached the high record figure of 42.4%. In 1916 the company earned 21.65% on its common and for two years before that profits were not above 15% yearly on the junior issue.

National Carbon has recently decided to revamp its capitalization, giving four shares of common stock of a new corporation for each one share of old stock now held. Roughly this will entail the issuance of 300,000 shares of new common stock of no par value.

While this seems to be a rather quick and optimistic appraisal of the earning strength developed during 1916, there are good reasons to believe that the National Carbon management is confident that the corporation has permanently developed big new earning power.

At the close of 1916 National Carbon had a net working capital of \$8,185,817, against \$6,487,506 in 1915 and \$5,423,649 in 1914. This is ample for its needs.

NATIONAL CASTING CO.

¹(1) Taken Over.—See United States Steel Casting Co.—Item No. 1.

NATIONAL CEMENT CO., WILMINGTON, DEL.

¹(1) Incorporated in April, 1917, in Delaware, with a capital of \$500,000, to manufacture cement of all kinds.

NATIONAL CITY BANK, NEW YORK.

¹(1) New Director and Officers.—Announced Jan. 9, 1917, that at the annual meeting of this bank Earl D. Babst, Pres. of the American Sugar Refining Co., was elected a director.

The directors appointed the following new officers: John H. Fulton, formerly Pres. of the Commercial National Bank of New Orleans, Vice-Pres.; George Edwin Gregory, formerly cashier, Vice-Pres.; Thomas A. Reynolds, formerly an assistant cashier, cashier; Andrew Mills, Jr., manager of the bond department, an assistant cashier, and E. P. Currier, formerly secretary to the Pres., assistant to the Pres.

• NATIONAL CLOAK & SUIT CO.

¹(1) Initial Dividend on Common.—It was announced Jan. 29, 1917, that this company had declared an initial quarterly dividend of 1¼% on the common stock, payable April 14 to stock of record March 31.

The regular quarterly dividend of 1¼% on the pfd. stock also was declared. It is payable March 1 to stock of record Feb. 19.

¹(2) Sales, Year Ended Dec. 31, 1916, were \$21,554,231, as compared with \$17,371,650 for the previous year.

Net profits for the year were \$2,041,053, as compared with \$1,005,437 the previous year.

—Feb.

¹(1) New Director.—It was announced Jan. 31, 1917, that Carl J. Schmidlapp, Vice-Pres. of the Chase National Bank, New York, had been elected director of this company, to fill the vacancy made by the resignation of Albert H. Wiggin.

¹(2) Stock Cancellation.—It was announced Jan. 31, 1917, that during the year ended Dec. 31, 1916, the company purchased and cancelled \$150,000 of its pfd. stock, making the total of the issue cancelled \$300,000 and reducing the outstanding pfd. to \$4,700,000, also taking care of pfd. amortization requirements until Oct. 15, 1918.

NATIONAL COLD STORAGE CO., INC., MANHATTAN, N. Y.

¹(1) Capital Increased.—On April 17, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$1,000 to \$500,000.

NATIONAL CONDENSED MILK CO., CHICAGO.

¹(1) Capital Decreased.—On Feb. 2, 1917, the company filed notice at Springfield, Ill., of a decrease in capital stock from \$250,000 to \$1,000.

NATIONAL CONDUIT & CABLE CO.

¹(1) Financing Planned.—It was stated April 2, 1917, that plans had been prepared for publicly financing this company, widely known as one of the largest consumers of copper, but more or less of a mystery from a financial standpoint. The plans include the offering of an issue of \$5,000,000 10-year 6% sinking fund first mortgage bonds by the National City Co. and Montgomery, Clothier & Tyler. A stock issue of 250,000 shares, no par value, will come out under the auspices of Millett, Roe & Hagen and Pritchett & Co., at \$35 per share. The underwriting on the stock issue was very quickly subscribed.

National Conduit earned about \$2,000,000 net in 1915, \$3,000,000 in 1916, and it is estimated that 1917 earnings will run above \$4,000,000. It is planned to place the stock on a \$4 dividend basis. The company makes conduits and cables, and has done some munitions work. The Western Electric Co. is its largest customer.

The new bonds are to have a 2½% sinking fund and provision is also made that after 4% is paid on the stock 50% of excess earnings will be used to retire the bonds.

National Conduit began business in 1888 with an investment of \$4,000 and has never done any public financing. The new company will have assets of \$13,500,000, of which \$8,000,000 will be net quick.

At no time have war orders exceeded 8% of its total gross.

¹(2) Stock Twice Oversubscribed.—It was announced at Boston April 3, 1917, that the 175,000 shares of this company's stock offered at \$35 by a syndicate headed by Millett, Roe & Hagen, had been twice oversubscribed and that the books had been closed.

¹(3) Earnings January and February.—It was stated on April 9, 1917, that net profits of this company for January and February were \$1,183,637 and it was estimated that the total net for 1917 would exceed \$4,000,000. Actual net profits for the calendar year 1916 were \$3,393,227, and average net profits for the past ten years, derived from an average investment of about one-half the present, amount to \$736,530.

As of March 1 the unfilled orders amounted to \$17,028,209, which is sufficient to keep the company's plants operating at the present rate for eight months. The plant and equipment have been appraised at \$6,550,000 and the net quick assets as of February 28, including \$1,500,000 of the proceeds of the new financing, amount to \$6,951,823, or a total tangible net assets of \$13,501,823. With a valuation of patents and good will at \$1, the balance sheet as of February 28 shows an asset value behind the 250,000 shares of stock, after allowing for the \$5,000,000 of bonds, of \$34 a share.

¹(4) Comment on Earnings.—On April 10, 1917, it was stated that this company, which had recently been refinanced, had on March 1 unfilled orders totalling more than \$17,000,000, or equal to eight months' operations at the present rate. This means gross business at the annual rate of \$25,500,000 for a company which was started thirty years ago with \$4,000 capital.

The National Conduit & Cable Co. (Inc.) is being incorporated to take over the National Conduit & Cable Co., the National Brass & Copper Tube Co., and the New York & Hastings Steamboat Co. The net profits of these concerns for the 1916 year were \$3,393,227; while for the months of January and February this year they totaled \$1,183,637. After a full year's interest on the \$5,000,000 6% bonds, but without sinking fund deductions, the two months' profits were equal to \$3.50 a share on the 250,000 shares. Profits are hardly likely, however, to persist at this rate throughout the year, but should easily exceed \$4,000,000 for the twelve months.

¹(5) Offering of Bonds.—It was stated April 9, 1917, that Montgomery, Clothier & Tyler and the National City Co. were offering \$5,000,000 of this company, first mortgage 10-year 6% sinking fund gold bonds at par and interest.

¹(6) Bond Offering.—Announced April 11, 1917, that the National City Co. and Montgomery, Clothier & Tyler are offering at par and interest \$5,000,000 of this company's first mortgage 6% 10-year sinking fund bonds. The bonds are redeemable at 102½ to April 1, 1919, and after at 105.

¹(7) Bonds All Sold.—The National City Co. and Montgomery, Clothier & Tyler, as head of the syndicate which underwrote the \$5,000,000 10-year 6% first mortgage bonds of this company, announced April 14, 1917, that the entire amount had been disposed of.

¹(8) Incorporated on April 25, 1917, in New York, with a capital of 250,000 shares common stock, no par value; active capital \$8,750,000; to manufacture wires, cables, electrical conductors, electrical railway, subway and conduit equipment. Incorporators: P. S. Williams, T. M. Malone and J. W. Rhodes, 530 West 113th St., Brooklyn, N. Y.

NATIONAL CONSOLIDATED INVESTMENTS, INC.

¹(1) Incorporated on Jan. 9, 1917, in Delaware, with a capital of \$1,000,000, to deal in and with investments of all kinds. Incorporators: M. L. Rogers, L. A. Irwin and Harry W. Davis, Wilmington, Del.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

**NATIONAL DRAWN STEEL CO.,
EAST LIVERPOOL, O.**

*(1) **Capital Increased.**—On March 13, 1917, the company filed notice at Columbus, O., of an increase in capital from \$150,000 to \$300,000.

**• NATIONAL ENAMELING &
STAMPING CO.**

*(1) **Earnings, 1916, Estimated.**—On Jan. 20, 1917, it was stated that the annual report of this company, to be made public in February, would show the common stock earned for 1916 about 13%, as compared with 3.01% earned in 1915.

Rolling mills operated in connection with Granite City works of the company produce all the steel used in the company's various manufacturing plants, and in addition turn out a considerable supply of sheet and bar steel for the general market. About one-half of the entire output was sold at high prices to outside consumers during 1916.

National Enameling & Stamping is well provided with raw materials and is the only company in its line fabricating all its products from the raw state to the finished article.

—Feb.

*(1) **Earnings Statement, Year Ended Dec. 31, 1916, compares as follows:**

	1916	1915
Gross profit.....	\$3,680,297	\$1,938,620
Net profit.....	2,731,183	1,066,242
Surp. after chgs. & pfd. divs....	1,819,541	\$15,480

*(2) **Earnings on Stock.**—It was stated Feb. 20, 1917, that this company's 1916 surplus of \$1,819,541 is equal to 11.6% on \$15,591,800 common stock, compared with 3.01% earned on the same stock in 1915.

*(3) **Initial Dividend on Common.**—Announced Feb. 21, 1917, that this company had declared an initial dividend of 4% on the common stock for the year, 2% payable May 15 to stock of record April 28 and 2% Nov. 15. Books close Oct. 27.

—Mar.

*(1) **Pamphlet Report, Year Ended Dec. 31, 1916, as made public Feb. 23, 1917, shows the balance sheet and discloses that the company has retired \$143,000 more of its bonds and thus reduced the outstanding amount to \$2,623,000. The issue originally amounted to \$3,500,000. It is also shown that the sinking fund reserve lacks only \$48,000 of aggregating \$1,000,000, as against \$805,500 at the close of 1915.**

Interest charges were reduced to \$128,145, as opposed to \$234,096 two years ago. Receivables and materials on hand were somewhat larger than at the end of the previous year, but payables were \$502,714 less, and working capital increased to \$5,877,718, as against \$4,061,695 in 1915.

The sum of \$500,000 was added to the general reserve account, which now totals \$2,000,000, and the aggregate surplus, including reserves and undivided profits, amounted to \$5,847,408 at the close of 1916, or \$1,906,040 more than a year previously.

*(2) **Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,895,408, compared with \$1,575,807 Dec. 31, 1915.**

*(3) **Earnings, January and February.**—It was announced March 21, 1917, that this company had earned during January and February, 1917, at the average rate of about 25% on its common stock, as compared with 11.6% earned on the common for the year ended Dec. 31, 1916.

*(4) **Prospect of Good Earnings.**—On March 26, 1917, the "Boston News Bureau" said that influential banking interests in New York and Boston had lately become interested in a speculative way in the common shares of this company, which had never made much of a record for its \$15,591,800 common up to the time of the war. Foreign competition has in normal times been a persistent factor in holding down

profits. In addition the asset value of the common has been low, not reaching \$20 per share until swelled by the 11.67% earned for this issue in 1916.

It is understood that during January and February net profits of National Enameling, after deducting the pro rata proportion of charges and preferred dividends, were at the rate of \$25 per share on the common. For all of 1917 it is expected by certain interests in the property that between 25% and 30% will be earned for the common stock. This issue is now on a \$4 basis, a year's dividends having been declared in advance.

The company produces about 100,000 tons of steel above its own requirements. Some 60,000 tons of this amount was sold some weeks ago at a profit of \$20 per ton. The other 100,000 tons it is expected will also show a handsome profit. On its steel sales alone the company has the possibility of earning in 1917 \$20 per share on its common. This is, of course, a purely temporary condition due to the abnormal steel market. The doubt in the National Enameling situation is obviously the position which its earnings will hold when the war is over and normal foreign competitive conditions are restored.

**NATIONAL ENVELOPE CO.,
KITTEERY, ME.**

*(1) **Incorporated in February, 1917, in Maine, with a capital of \$300,000, to operate plants, etc., for manufacturing all sorts of paper goods and do a general printing and publishing business.**

• NATIONAL FIREPROOFING CO.

*(1) **Earnings Statement, Year Ended Dec. 31, 1916, shows:**

	1916	1915
Earnings	\$100,412	\$198,907
Total deduct.....	170,029	100,000
Deficit	69,617	198,907

†Deficit.

*(2) **Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$852,636, compared with \$922,257 Dec. 31, 1915.**

—Apr.

*(1) **Booked Far Ahead.**—At the annual meeting of this company April 7, 1917, the following were elected to serve as directors for three years: J. J. Fisher, A. S. Beymer, S. F. Heckert and James J. Booth.

The financial condition of the company was gone into thoroughly. Mr. Heckert said that if the company should liquidate its affairs, it not only would be able to pay off its bonded indebtedness, but could pay preferred stockholders for the full value of their stock, and perhaps pay the common in full. He called attention to the fact that the company's property at Perth Amboy alone was worth more than the entire bonded indebtedness of the company.

Both Mr. Heckert and Mr. Gregg told the stockholders that they believed the present year would be one of the best in the history of the company, and Mr. Gregg said that he felt that unless something unforeseen happened, the preferred stock should pay a dividend this year. Mr. Heckert laid great stress upon the value of the Haydonville oil property, which is now being developed. Mr. Fisher, who will be one of the new members of the board, is an experienced oil man and was elected for that reason. Mr. Beymer is a well-known banker.

President W. D. Henry of the company read a report submitted to the board of directors of the company recently, showing how in the last eight or ten years the business of the fireproofing company had been revolutionized and plans put in operation that would this year save the stockholders many thousands of dollars in the cost of operation. The consensus of opinion was that the present would be an excellent year as Mr. Henry said the company was now in a position whereby it could refuse orders, so busy were the company's plants.

NATIONAL FUEL GAS CO.

*(1) **Capital Increase.**—Announced March 20, 1917, that directors of this company had adopted a resolution to increase the capital stock of this company from \$16,000,000 to \$32,000,000. Stockholders of the company will vote on the proposal at the annual meeting April 26, 1917. The transfer books close April 16 and reopen April 27.

—Apr.

*(1) **Report, Year Ended Dec. 31, 1916, shows:**

	1916	1915
Gross earnings..	\$7,278,091	\$6,416,732
Net after taxes..	3,928,230	3,263,141

The above includes only the proportion of the business of the underlying companies owned by the National Fuel Gas Co.

The total number of consumers supplied on Dec. 31, 1916, was 175,092, of which 152,719 represents the percentage of ownership by the National Fuel Gas Co.

*(2) **Balance Sheet, as of Dec. 31, 1916, shows cash amounting to \$695,060, accounts payable, \$864,801, and total assets and liabilities of \$29,076,398.**

*(3) **Capital Increased to \$32,000,000.**—Stockholders of this company April 28, 1917, authorized an increase in capital stock from \$16,000,000 to \$32,000,000. At a subsequent meeting of directors the question of new stock will be taken up.

**NATIONAL GARAGE ASSOCIATION,

pany, a subsidiary of the United States Rubber Co., was announced by the management on April 6, 1917. Men of 65 years and women of 60 may retire after 20 years of service, and employees who are unable to perform their duties by reason of disability after 15 years of service also may be pensioned. The minimum amount to be paid is \$20 a month.

• NATIONAL LEAD CO.

*(1) Report, Year Ended Dec. 31, 1916.—This company reports for the year ended Dec. 31, 1916, net earnings amounting to \$2,977,609, an increase of \$267,173 over the previous year. Deducting from net earnings pfd. dividends totaling \$1,705,732, the balance is equal to 6.15% on \$20,653,400 common stock, compared with 4.86% earned on same stock in 1915.

*(2) Balance Sheet of Dec. 31, 1916, showed profit and loss surplus of \$6,183,113, against \$5,737,302 in 1915.

*(3) Comment on Annual Report.—On March 29, 1917, the "Wall Street Journal" said that the earnings of this company showing 6.15% on the common stock were not as large as had been anticipated. Earlier expectations placed the earnings at 10%. It should be noted, however, that earnings of the U. S. Cartridge Co. are not included in the report. The moderate income is explained by the high operating expenses. The details of the increases in the cost of manufacture are not recounted in the report of Edward J. Cornish, president of the company, but the report makes mention of the increase in prices of raw metals and the increase in wages. The fact that the tonnage of white lead sold was the lowest in many years also served to keep down the earnings. There was an actual loss in this department. The war was not an aid to the company.

The company has acquired 51% of the capital stock of the Cinch Expansion Bolt & Engineering Co., which has an improved method for attaching anchors to the surface of masonry. Lead is used to attach the equipment. The use of this contrivance is growing in popularity. The report further announces that the new plant of the Carter White Lead Co., in Chicago, a subsidiary, is nearing completion. This plant will be the largest white lead corroding works in the world.

Regarding the National Lead Co.'s one-half interest in the United States Cartridge Co., the report says that the sales of shotgun ammunition are increasing, and that the prospects for the future are good.

—Apr.

*(1) New Tin Plant.—Announced on April 10, 1917, that the new tin plant of this company, which would be operated under the name of the William Harvey Corp., would be built on a 12-acre site at Mill Basin, on Jamaica Bay, L. I. The company plans to bring Bolivian tin ore here direct through the Panama Canal. New plant will have an annual capacity of 10,000 tons pig tin.

*(2) Directors and Officers Re-elected.—At the annual meeting of this company April 19, 1917, directors were re-elected. Directors organized by renaming the old officers.

*(3) Subsidiary Earned 250% on Capital in 1916.—See United States Cartridge Co.—Item No. 2.

NATIONAL LIGHT & POWER CO. (THE).

*(1) Incorporated on April 14, 1917, in Delaware, with a capital of \$5,000,000, to operate plants for the generation and distribution of gas. Incorporators: F. Lindale Smith, Cleveland, O.; Homer J. Smith and Geo. M. Fisher, Jr., Wyoming, Del.

NATIONAL LOCK CO., CHICAGO.

*(1) Capital Increased.—It was announced March 22, 1917, that this company had increased its capital stock from \$500,000 to \$1,000,000.

NATIONAL MILEMETER CO., DETROIT, MICH.

*(1) Incorporated in April, 1917, in Michigan, with a capital of \$350,000. Stockholders: John O. Templeton, Ernest S. Jackson and Cliff R. Cook.

NATIONAL MILL SUPPLY CO., FT. WAYNE, IND.

*(1) Capital Increased.—On Feb. 19, 1917, it was announced that this company had increased its capital stock from \$100,000 to \$500,000.

NATIONAL MORTGAGE CO., CLEVELAND, O.

*(1) Capital Increased.—On April 2, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$3,000,000 to \$5,000,000.

NATIONAL MOTOR CAR & VEHICLE CORP.

*(1) Syndicate Dissolved.—Announced Jan. 18, 1917, that the syndicate for this company's stock had been dissolved and checks distributed to syndicate members by Pyne, Kendall & Hollister and Leonard Snider & Co., syndicate managers.

*(2) Yearly Output Oversold.—On Jan. 22, 1917, it was stated that the output of this company for 1917 was largely oversold, the demand for "Nationals" being far in excess of capacity, even with the increased facilities.

Earnings of the new company for the year ending Nov. 30, 1917, are estimated at about \$1,000,000, or equivalent to \$12.50 per share on the 80,000 shares of stock outstanding. This compares with net of \$425,000 for the last year of the old company, or \$5.30 per share.

The question of dividends will probably be taken up for consideration after the close of the Spring selling season. Any dividend then declared would probably be paid early in July.

—Feb.

*(1) Output, January, 1917.—It was announced Feb. 5, 1917, that this company's shipments for January, 1917, were 100% greater than in January, 1916, and 50% ahead of requirements in order to dispose of the year's output.

*(2) Transfer Agent.—Announced Feb. 2, 1917, that the Bankers' Trust Co., New York, is now acting as transfer agent for this company.

NATIONAL MOTOR FINANCING CORP.

*(1) Incorporated on March 29, 1917, in Delaware, with a capital of \$2,000,000, to deal in and with investments of all kinds. Incorporators: F. R. Hansell, Geo. H. B. Martin and S. C. Seymour, Philadelphia, Pa.

NATIONAL MOTOR POWER CO., INC.

*(1) Incorporated on April 11, 1917, in Delaware, with a capital of \$5,000,000, to manufacture chemicals, drugs, etc. Incorporators: James H. Hughes, Mary S. Pollock and Mark W. Cole, Delaware.

NATIONAL PAPER CO., MILWAUKEE, WIS.

*(1) Incorporated in February, 1917, in Delaware, with a capital of \$550,000. A plant is being established at 578-598 Clinton Street, Milwaukee, to manufacture combination tin and paper can packages. Lewis C. Brooks is Pres. and Gen. Mgr.; Chas. W. Paeschke, of the Geuder-Paeschke-Frey Co., Milwaukee, is Vice-Pres.

NATIONAL PIANO CO., LTD., TORONTO, ONT.

*(1) Incorporated in February, 1917, in Canada, with a capital of \$1,000,000. Incorporators: Alexander Mullin, 31 Woodlawn Ave.; Wm. D. Toyle, 82 Waverly Rd., and others.

NATIONAL PIPE & FOUNDRY CO.

*(1) Plant Addition.—It was stated Feb. 28, 1917, that plans had been completed for the erection by this company,

Attalla, Ala., of an additional plant for manufacturing steam fittings, to have a daily capacity of from 15 to 20 tons.

NATIONAL PROPERTIES CO.

*(1) Gross Revenues, January, 1916, of this company's subsidiaries were \$805,200, an increase of \$11,706.

*(2) To Be Taken Over.—See National Utilities Co.—Item No. 1.

*(3) Merger.—See United National Utilities Co.—Item No. 2.

—Mar.

*(1) Merger Completed.—See United National Utilities Co.—Item No. 1.

*(2) Report, Year Ended Dec. 31, 1916, shows net income, including its proportion of undistributed net income of subsidiary companies, as \$812,541, from which were paid \$63,202 in pfd. and \$124,570 in common dividends, leaving a surplus for the year of \$624,768. Previous surplus was \$792,742, making the total surplus shown in the combined income statement \$1,417,510.

The balance sheet of Dec. 31, 1916, showed assets consisting of par value of stocks and bonds owned of \$11,410,450, carried at a book value of \$10,850,872, miscellaneous assets of \$38,228 and cash of \$12,617. Liabilities consisted of \$2,491,400 common stock, including \$7,900 of treasury stock, \$1,082,400 pfd. stock, \$6,429,500 bonds, \$6,804 accrued taxes, \$3,333 accrued pfd. dividends and profit and loss surplus of \$271,280.

While in the combined income account the total surplus earned to Jan. 1, 1917, was given as \$1,417,510, the profit and loss surplus as reported in the balance sheet was \$271,280, but no statement was given in the report showing the deductions made, which reduced the surplus to the amount as shown in the balance sheet of Dec. 31.

*(3) New Company Result of Merger.—See United National Utilities Co.—Item No. 4.

—Apr.

*(1) Exchange of United National Utilities Stock for Bonds Offered.—See Utilities Service Corp.—Item No. 1.

• NATIONAL RYS. OF MEXICO.

*(1) Directors.—Announced April 2, 1917, that at the adjourned meeting, held in the City of Mexico, stockholders of this company elected the following directors: Modico Basave, Mariano Cabrera, Elias S. A. de Lima, Jose Diego Fernandez, Aquiles Glorduy, Ignacio Enriquez, Fernando Gonzalez Ros, Eduardo Hay, Thomas Honey, Rafael Nieto, Alberto J. Pani, Leon Salinas, Justo Acevedo, Alfredo Caturegil, Ramon P. Denegri, J. J. Hanauer, J. Hirschman, L. F. Lorce, W. T. Rosen, C. H. Sabin and H. H. Wehrhane, the last nine constituting the New York local board.

*(2) Report, Year Ended Dec. 31, 1916, shows gross earnings of \$22,441. These figures compare with gross earnings of \$1,776,982 for 1915, \$34,273,341 for 1914 and \$57,370,282 for 1913. Operating expenses were \$418,340, leaving a deficit for the year of \$395,889, compared with a deficit of \$45,487 for 1915, and net earnings of \$2,379,000 and \$21,126,000, respectively, for 1914 and 1913.

Because of the conditions existing in Mexico for several years, the balance sheet for 1916 shows cash of only \$307,364, accounts receivable \$8,357,658, accounts payable \$13,586,494, notes payable \$67,324,263.

The profit and loss deficit for 1916 amounted to \$67,324,263, compared with a surplus of \$98,963 for 1913, a surplus of \$567,052 for 1912 and \$1,015,237 for 1910.

*(3) Statement by President.—In his annual report to shareholders Pres. Pani of this company, it was stated April 4, 1917, said, in part: "The shareholders will understand that it has been impossible for the company to meet its obligations which have matured in the period covered by this report. In each case instructions have been given to the assistant secretary in New York to ex-

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

press to the parties interested the firm resolve of the company to devote its earnest attention to this matter as soon as it may again acquire control of its properties. It is gratifying to state that neither the bankers nor the trustees have taken steps to seriously affect the interests of the company."

NATIONAL REFINING CO.

¹(1) **Extra Dividend on Common.**—Announced Jan. 18, 1917, that this company had declared an extra dividend of $2\frac{1}{2}\%$ on the common stock, in addition to the regular quarterly dividend of $1\frac{1}{2}\%$, payable Feb. 15 to stock of record Feb. 1.

—Apr.

¹(1) **No Dividend Action Until May 15.**—A Cleveland dispatch to the "Wall Street Journal" April 19, 1917, stated that directors of this company would take no action on the regular dividends until May 15. It was stated at the office of the company, however, that the rate would not be changed and that the dividend would be $1\frac{1}{2}\%$, with $2\frac{1}{2}\%$ extra.

NATIONAL RUBBER CO.

¹(1) **Incorporated** on March 22, 1917, in Delaware, with a capital of \$5,000,000, to manufacture rubber, gutta percha and all products of same. Incorporators: F. R. Hansell, Geo. H. B. Martin and S. C. Seymour, Philadelphia, Pa.

NATIONAL SEAMLESS BOAT CO.

¹(1) **Incorporated** March 2, 1917, in Delaware, with a capital of \$1,000,000, to construct, operate and maintain boats and sailing vessels of all kinds. Incorporators: F. D. Buck, Geo. W. Dillman and M. L. Harty, Wilmington, Del.

NATIONAL SECURITIES CORP.

¹(1) **Bond Sale by Controlled Co.**—See Idaho Power Co.—Item No. 1.

¹(2) **Tenders Asked.**—On March 27, 1917, this company, through the Guaranty Trust Co., New York, called for tenders until April 10 of sufficient of its 10-year 6% prior lien notes to exhaust \$978,122 available for the sinking fund.

—Apr.

¹(1) **Note Retirement Planned.**—It was announced April 2, 1917, that this company, a subsidiary of the Electric Bond & Share Co., had completed plans for retiring \$978,122 of its \$2,133,000 6% prior lien gold notes. The Guaranty Trust Co. has given notice that proposals at not over 101 and accrued interest will be opened at noon on April 10, 1917.

This retirement is the result of the sale of \$4,500,000 of Idaho Power first mortgage 30-year bonds, of which all but the \$978,000 was used for development and financing of the usual kind, while this amount has been set aside to offset the retirement of underlying obligations pledged by the Idaho Power Co. as security for the prior lien bonds.

The National Securities Corp. was incorporated in 1914 to reorganize a group of six Idaho utilities that were either on the verge of bankruptcy or already in the hands of receivers. Among the six companies there were 26 bond issues, and two committees, one in New York and the other in Chicago, were quarreling over the settlement of their respective claims.

In this crisis, the Electric Bond & Share was asked to take over the properties. To do the financing, it organized the Idaho Power Co., which consolidated the Idaho companies in a 400-mile crescent roughly from Pocatello, past Shoshone and Boise to Homestead, along the Snake river. The Idaho Power Co. is controlled by ownership of all its stock and short-time obligations by the National Securities Corp.

NATIONAL SHAWMUT BANK,**BOSTON.**

¹(1) **Directors.**—It was announced Jan. 9, 1917, that at the annual meeting of this bank directors were re-elected except the following, who resigned during 1916 on account of the Clayton Act:

Oliver Ames, E. F. Atkins, A. C. Du-maine, Charles Hayden and Moses Williams.

Benjamin Joy and Bayard Tuckerman, Jr., were added to the board.

NATIONAL SHIPBUILDING CO.,**SEATTLE, WASH.**

¹(1) **Reorganization.**—Captain O. D. Treiber of this company announced on March 31, 1917, the reorganization of the company with a capitalization of \$2,000,000, with W. T. Fisher, of Tacoma, president; Capt. O. D. Treiber, vice-president and general manager; Edward Meath, former state treasurer, and George A. Lee, of Seattle, secretary. Judge Zent, of Spokane, is a trustee of the company. The reorganized company plans extensive additions to the present plant and has a building program that contemplates the construction of several wooden ships for the market without waiting for contracts.

The plan of the rebuilt yards, as outlined by Captain Treiber, will be to make the plant of two units, with two building ways to each unit. The site occupies 12 acres on the Duwamish waterway.

¹(2) **Stock Offered at Par.**—On April 16, 1917, Catlin, Street & Powell, 60 Broadway, New York, announced the no bonds, mortgages or other forms of indebtedness.

Officers and directors of the company are as follows: Pres., F. G. Tacoma, Wash., State Treas. State of Fisher, Tacoma, Wash., capitalist offering at par, \$10, of 100,000 shares of the treasury stock of this company for the purpose of enlarging the plant and financing new business available. It was stated application would be made to list the stock on the New York Curb. The Security Transfer & Registrar Co., 60 Broadway, New York, is transfer agent.

¹(3) **Status April, 1917.**—This company, Seattle, Wash., with New York offices at 60 Broadway, was incorporated under the laws of the State of Washington with \$2,000,000 capital, divided into 200,000 shares, par \$10. In the treasury are 175,000 shares. There are Vice-Pres. and Gen. Mgr., Capt. O. D. Treiber, Seattle, Wash., naval architect and marine contractor; Secy. and Gen. Counsel, George A. Lee, formerly First Asst. Att'y-General and chairman of the Public Service Commission of the State of Washington; Treas., Edward Meath, Washington 1912-1916 and Vice-Pres. Pacific Building & Loan Assn.

The yards and plant are located at Seattle, Wash. With recent additions, the yards comprise $1\frac{1}{2}$ acres, fronting 1,500 ft. on deep water. Within 90 days over \$20,000,000 worth of shipbuilding has been negotiated for or offered to the company, a circular states.

NATIONAL SHIPPING CORP.

¹(1) **Incorporated** on April 19, 1917, in Delaware, with a capital of \$1,000,000, to build and operate boats of all kinds. Incorporators: Herbert E. Latter, C. L. Rimlinger and M. V. Haywood, Wilmington, Del.

NATIONAL SIGNALING CO.

¹(1) **Suit Won.**—Announcement was made April 2, 1917, that an infringement suit brought by the receivers of this company against the Atlantic Communication Company to restrain the latter from using the heterodyne, a device to make wireless messages clearer, had been decided in favor of the plaintiff by Judge Mayer of the Federal District Court at New York. The suit was brought by Samuel M. Kintner and Halsey M. Barrett, receivers for the National Signaling Co., against the Atlantic Communication Co., a German concern, that operated the wireless station at Sayville before the United States Government took possession of it. August Merchens, P. C. Schnltzer and K. C. Frank were co-defendants.

Asked whether the decision would affect the general wireless system in any way, Judge Mayer replied:

"The decision in no manner affects the use by the Government of the heterodyne-audion system. Where the Government avails itself of a patent the owner cannot restrain it, but may make his claim before the Court of Claims."

NATIONAL STARCH CO.

¹(1) **Acquisition.**—It was announced Feb. 2, 1917, that this company, New Jersey, had taken over the Oswego Maize Products Co.

—Mar.

¹(1) **Report, Year Ended Dec. 31, 1916,** shows:

	1916	1915
Oper. profits....	\$544,106	\$415,773
Net after taxes,		
etc.	287,983	208,442

Deficit.		

¹(2) **Balance Sheet, as of Dec. 31, 1916,** shows a profit and loss deficit of \$489,674.

NATIONAL STEEL CAR CO., LTD.

¹(1) **Pfd. Shareholders Not Likely to Get Dividends Soon.**—On April 12, 1917, the "Globe," Toronto, Ont., said: "A year ago the National Steel Car Co. issued its annual report for the year ending Nov. 30, 1915, and showed earnings of \$737,000, and net profits, after depreciation and writing off munition manufacturing equipment, of \$446,000. About the same time a dividend of 7% on the pfd. stock was declared. Another dividend was due on the first of this month, but pfd. shareholders are not likely to receive this nor any payment on the dividends in arrears."

"It is said that the company sustained some fairly important losses on its foreign contracts, which included a wide variety of field equipment for the British and French armies."

"It is said that business recently placed on the books of the company is proving quite profitable."

"At one time the pfd. shareholders had the option of accepting in settlement of the 21% which had accrued on Dec. 1, 1915, new pfd. shares to the amount of 14% and 7% in cash, but the proposal was abandoned because the consent of every shareholder could not be obtained."

NATIONAL SUPPLY CO. TOLEDO, O.

¹(1) **Capital Increased.**—Announced April 7, 1917, that this company had increased its capital stock from \$1,000,000 to \$12,000,000.

NATIONAL SURETY CO.

¹(1) **Sued by Russia.**—See Tennessee Copper & Chemical Corp.—Item No. 1.

—Mar.

¹(1) **Sued by Russia.**—See Tennessee Copper Co.—Item No. 1.

—Apr.

¹(1) **Blame for Fire Denied.**—See Tennessee Copper Co.—Item No. 1.

NATIONAL THRIFT BOND CORP.

¹(1) **Plans Outlined by President.**—On Feb. 10, 1917, Pres. Ingalls Kimball, of this new company, said that plans for it had been in process of formation four years. The purpose is to sell its certificates, drawn against gilt-edged bonds, to persons of moderate means who desire to invest \$10 at a time. The certificates, bearing 3% interest, are to be retailed by department stores, drug stores, cigar shops, etc.

Mr. Kimball said he talked the project over, after much investigation, with a number of leading banking and business men, who approved of the scheme. Finally Herbert R. Sands, of the New York Bureau of Municipal Research, made a survey of the existing agencies of thrift in the United States.

"What Mr. Sands reported," Mr. Kimball continued, "confirmed my own investigations. Then the company was organized to purchase tax-secured bonds, and issue against them very small certificates of interest, which we could sell everywhere at a fair profit."

JANUARY 1 TO APRIL 30, 1917

**NATIONAL TIRE & RUBBER CO.,
EAST PALESTINE, O.**

¹ (1) Incorporated on Feb. 10, 1917, in Ohio, with a capital of \$1,000,000. Incorporators: R. E. Waldo, H. A. Clark, H. B. Callahan, V. A. Sturgeon and H. C. Johnston.

NATIONAL TOOL CO.

¹ (1) Initial Dividends.—On March 27, 1917, directors declared initial quarterly dividends of 1¼% on the pfd. and of 2¼% on the common stocks, payable April 2 to holders of record March 29.

NATIONAL TRANSIT CO.

¹ (1) Report, Year Ended Dec. 31, 1916, shows earnings as follows:

	1916	1915
Net earnings....	\$1,206,891	\$1,024,031
Surp. aft. divs....	954,281	6424

² (2) Earnings on Stock.—It was stated Feb. 23, 1917, that this company's 1916 net of \$1,206,891 is equal to 19% on \$6,362,500 capital stock, compared with 8.05% earned on \$12,727,575 capitalization in 1915.

³ (3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$3,369,298, compared with \$2,415,017 Dec. 31, 1915.

NATIONAL TUBE CO.

¹ (1) Denial.—It was stated Jan. 23, 1917, that a report to the effect that this company, a subsidiary of the United States Steel Corp., had purchased 850 acres of land adjoining its plant at Lorain, O., had been denied by Judge Gary.

The land in question was said to be owned by the Fels estate, of Philadelphia, and according to the report the price paid was \$35,000,000. It was pointed out that property at Lorain did not have so great a value.

**NATIONAL UNDERWRITERS CO.
OF AMERICA.**

¹ (1) Incorporated on April 24, 1917, in Delaware, with a capital of \$500,000, to engage in a general insurance business. Incorporators: F. D. Buck, M. L. Horty and K. E. Longfield, Wilmington, Del.

NATIONAL UTILITIES CO.

¹ (1) New Holding Co.—It was announced Feb. 14, 1917, that this company, incorporated under the laws of Delaware, with an authorized capital of \$10,000,000 pfd. and \$10,000,000 common stock, would take over the National Properties Co., the National Gas, Electric Light & Power Co. and the Jersey Central Traction Co. At first \$4,000,000 common and \$3,000,000 pfd. stock will be issued and \$2,500,000 3-year 6% notes sold.

National Properties Co. controls the American Ry. Co., the Wilmington & Philadelphia Traction Co., the Tonopah Water Co., the Chester County Light & Power Co., the New Castle Electric Co. of Delaware and the electric transmission lines formerly owned by the E. I. duPont de Nemours Powder Co.

National Gas, Electric Light & Power Co. controls ten gas and electric companies in New York, Ohio, Indiana, Michigan, New Jersey, Pennsylvania and Illinois.

Jersey Central Traction operates 41 miles of electric railway connecting Perth Amboy, Keansburg, Red Bank and other New Jersey towns. In all, the companies under the new holding company will furnish electric light and power to 50 communities, gas to 11 cities and operate about 623 miles of electric railway.

Owners of pfd. stock of National Properties Co. are offered 90% of the par value of their holdings in new 6% collateral trust bonds of that corporation and 10% in pfd. stock of the new company. Holders of National Properties common are to receive \$47.64 in cash, 30% in 6% notes of the new holding company and \$20 in its new common stock for each share.

Van Horn Ely, Pres. of the National Properties, will be Pres. of the new corporation.

Combined earnings of all properties under the new holding company in 1916 were \$9,327,702.

NATOMAS CO. OF CALIFORNIA.

¹ (1) Underlying Liens Decreased.—This company decreased its underlying obligations from Jan. 1, 1915, to Dec. 29, 1916, by \$780,453, according to a statement issued Dec. 29, 1916, which is part of a call for meeting of bondholders for the purpose of amending the deed of trust under which the general and refunding bonds are issued. Frank B. Anderson, Pres., asks proxies from those who are unable to attend. The statement says the meeting is to be held on March 20, 1917, and is for the purpose of considering and acting upon a proposition to sanction the sale of bonds of Reclamation District No. 1,000, belonging to the company, and bonds of said reclamation district into which warrants belonging to the company may be converted, and to sanction the release of said bonds from the lien of the deed of trust of the company to Mercantile Trust Co. of San Francisco, dated Jan. 1, 1915, securing the general and refunding bonds.

If the sale of the bonds of the reclamation district is effected, the company will have in hand funds more than sufficient to retire the remainder of the \$2,475,000 gold notes, a few of which will have already been retired from proceeds of minor sales of property. Besides retiring the outstanding gold notes, this payment will release \$4,500,000 general and refunding mortgage bonds, which must be turned over to the Mercantile Trust Co., and cannot be reissued without calling a meeting of the general and refunding bondholders.

² (2) New Dredge.—It was stated Jan. 5, 1917, that this company had completed plans for building a new dredge to replace No. 5, at Folsom, Cal.

Dredge No. 5 has been in operation for 11 years, being now the oldest dredge in the Natomas service. The dredge is operating at the south end of the old Rebel Hill district.

—Apr.

¹ (1) Bonds.—Announcement was made March 31, 1917, that May 1 had been set as the date for the call of the \$2,475,000 6% gold notes of this company, due Jan. 1, 1920.

² (2) Notes.—See Natomas Water Co.—Item No. 1.

NATOMAS WATER CO.

¹ (1) Note Issue Authorized.—It was announced April 5, 1917, that the California Railroad Commission had authorized this company to issue to the Natomas Co. of California \$92,000 6% promissory notes for one year, in payment for other notes of the same amount owing the Natomas Co. of California.

² (2) Status.—It was stated April 5, 1917, that this company sells water for mining, mostly gold dredging, irrigation and commercial purposes in Sacramento and El Dorado Counties, Cal., diverting water from the south fork of the American River by means of the Salmon Falls dam, through the Natomas Canal. The water company has an authorized outstanding capital stock issue of \$5,000,000, which is entirely, with the exception of directors' shares, owned by the Natomas Co. of California.

The water company has no mortgages or note indebtedness except the \$92,000 of notes which it desires to renew.

The company for five years has declared a dividend each year equal to the entire amount of its surplus earnings. The amount of dividends for this period is \$70,875.30.

NATURAL COLOR PICTURE CO., INC.

¹ (1) Incorporated March 2, 1917, in Delaware, with a capital of \$850,000, to manufacture and sell natural color moving picture films. Incorporators: W. F. Fox, Whitestone, L. I.; A. P. Barnard and E. T. Farrell, New York.

**NAUGATUCK VALLEY CRUCIBLE
CO., SHELTON, CONN.**

¹ (1) Incorporated in March, 1917, in

Connecticut, with a capital of \$250,000. Incorporators: David N. Clark, Shelton; Wm. H. Carpenter, Seymour, Conn., and Ed. W. Kneen, Shelton.

—Apr.

¹ (1) Operations Started.—This company started operations the week of April 8, 1917, at Shelton, Conn., manufacturing crucibles in the plant of the Derby Paper Co., which had been remodeled to suit the needs of the new company. At the start 50 men were employed. D. N. Clark is Pres.

NAUMKEAG COTTON CO.

¹ (1) Report, 1916.—It was announced Jan. 17, 1917, that at the annual meeting of this company, at Salem, Mass., the report of the treasurer showed a production for the year of 10,426,176 pounds, or 17,397,586 yards of cloths. Sales for the year were 16,139,296 yards of cloth, the proceeds amounting to \$3,298,174.64. A total of 15,763 shares of stock was represented at the meeting.

NEILSON (WM.) CO.

¹ (1) Extra Dividend.—Announced Jan. 11, 1917, that this company had declared an extra dividend of 4% on the common, payable Feb. 1 to stock of record Jan. 10.

NEUBERGER (H.) CO., INC.

¹ (1) Incorporated on Feb. 9, 1917, in New York, with a capital of \$710,000, to deal in leaf tobacco and conduct a manufacturing and warehouse business. Incorporators: P. J. Dubois, P. M. Hahn and G. F. O'Neill, 120 Broadway, New York.

**NEUM (H. P.) CO., INC.,
ROCHESTER, N. Y.**

¹ (1) Incorporated on Dec. 30, 1916, in New York, with a capital of \$250,000, to manufacture and deal in boxes, chests, cartons and packing devices of paper or wood. Incorporators: D. E., G. L. and H. P. Neum, Rochester.

NEVADA CONSOLIDATED COPPER CO.

¹ (1) Production, November, 1916.—Announced Jan. 3, 1917, that this company in November produced 7,047,486 lbs. of copper, compared with 8,676,327 in October and 8,360,180 in September.

—Feb.

² (1) Production, December, 1916.—Announced Jan. 31, 1917, that this company produced in December 7,174,415 pounds of copper, compared with 7,047,486 in November and 8,676,327 in October, 1916.

² (2) Report, Quarter Ended Dec. 31, 1916, shows:

	1916	1915
Net earnings....	\$4,526,027	\$2,739,190
Surp. after chgs.		
& divs.....	1,262,598	1,514,515

Earnings for the fourth quarter are based on a copper price of 28.408 cents a pound, and 25.830 cents for the year.

JANUARY 1 TO APRIL 30, 1917

*** (3) Statement by President.**—It was announced Feb. 7, 1917, that Pres. S. W. Eccles, of this company, in his remarks to stockholders, said:

"The production of copper amounted to 22,898,228 pounds, as compared with 24,585,393 pounds for the preceding quarter.

"The costs of copper produced, including Steptoe plant depreciation and all charges except ore extinguishment, and after crediting all miscellaneous earnings, was 9.32 cents per pound, as compared with 8.07 cents for the previous quarter.

"Excluding the item of depreciation, the cost was 8.04 cents, as compared with 8.01 cents for the previous quarter. The higher cost for this quarter compared with the preceding quarter is due to adjustments made in December, applicable to the year's operation, the most important being the increase from 1 to 2% in the Federal income tax payable by corporations. No copper available for delivery remains unsold.

"There was a surplus for the quarter of \$1,528,842 after dividend payment on Dec. 30, amounting to \$2,999,185. There was set aside \$166,592 for plant and equipment depreciation and \$97,652 for ore extinguishment, leaving a net credit to earned surplus for the quarter of \$1,262,598 and a balance of \$12,353,642 in earned surplus."

*** (4) Balance Sheet,** as of Dec. 31, 1916, shows an earned surplus of \$12,353,642, compared with \$4,849,556 Dec. 31, 1915.

—Mar.

*** (1) Extra Dividend.**—Announced March 1, 1917, that this company had declared the regular quarterly dividend of 50 cents and an extra of 50 cents a share, payable March 31 to stock of record March 9. The extra dividend is a reduction of 50 cents from the \$1 extra declared in December.

*** (2) Production, January, 1917.**—Announced March 3, 1917, that this company in January produced 6,279,432 pounds of copper, compared with 7,174,415 pounds in December and 7,047,486 pounds in November, 1916.

*** (3) Production Increasing.**—It was announced March 8, 1917, that this company's production would be largely increased in the Spring of 1917. The company is producing at the rate of approximately 72,000,000 pounds a year, and it is expected that output will be running at the rate of 100,000,000 pounds before the Summer of 1917.

Nevada's life has recently been estimated at below 15 years, but as a result of exploration and development work it is expected that new ore reserves will increase the proven life of the property to more than 20 years.

*** (4) February Production.**—In February, 1917, this company produced 6,708,241 lbs. of copper, compared with 6,279,432 lbs. in January and 7,174,415 lbs. in December.

—Apr.

*** (1) Report, Year Ended Dec. 31, 1916,** shows income account as follows:

	1916	1915
Gross revenue....	\$24,366,291	\$11,685,276
Net oper. profit	14,370,268	5,140,683
Surp. after chgs.	15,002,050	5,558,115
Bal. after divs....	7,504,087	2,558,930

*** (2) Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$12,353,643, compared with \$4,849,556 Dec. 31, 1915.

*** (3) Earnings on Stock in 1916 Equal to \$7.50 a share.**—This company's 1916 surplus after charges and depreciation of \$15,002,050 is equivalent to \$7.50 a share earned on 1,999,644 shares of capital stock, compared with \$2.78 a share earned in 1915.

*** (4) President Comments on Increased Earnings.**—Pres. S. W. Eccles, of this company, in his remarks to stockholders April 18, 1917, said in part: "The increase in the developed ore reserves, and the assurance of still further developments, are most gratifying, and make certain a much longer life for the property than heretofore known. The net earnings, which far surpasses that of

any year in the history of the company, are due to increased production and the higher prices which prevailed for copper metal.

"Earnings for the year are computed on the basis of 25.83 cents per pound versus 17.047 cents for the preceding year. No copper available for delivery remained unsold at the end of the year. Net production of copper was 90,735,287 pounds, as compared with 62,726,651 pounds for the preceding year, an increase of over 44½% and represents the possible future production under normal conditions.

"Notwithstanding production for 1916 was greater than 1915, the operating expenses were also higher than in 1915, due to increased cost of labor, supplies, etc. Net cost of producing refined copper f. o. b. Atlantic seaboard, including plant and equipment depreciation and all charges, except that for ore extinguishment, and after crediting all miscellaneous earnings, was 10.17 cents per pound, versus 8.23 cents for the preceding year. Excluding the item of depreciation, the cost was 8.13 cents per pound, as compared with 7.45 cents for the year ended Dec. 31, 1915.

"Total dividend disbursement to Dec. 31, 1916, have been \$25,474,399, which, together with \$1,999,457 paid from surplus account, brings total distributed to stockholders to Dec. 31, 1916, up to \$27,473,856."

*** (5) Ore Reserves at Close of 1916.**—Managing Director D. C. Jackling, of this company, in his report April 18, 1917, gave a summary of ore reserves at the close of the fiscal year as follows:

	Tons Ore	%
Total developed ore to Dec. 31, 1915.....	75,291,204	1.65
Added during 1916....	14,475,519	1.38

Total developed to Dec. 31, 1916.....	89,766,723	1.60
Ore milled to Dec. 31, 1916.....	21,773,606	1.67

Recov. ore remaining Dec. 31, 1916.....	67,993,117	1.59
---	------------	------

"The year 1916 was the most successful, in all respects, in the company's history," said Mr. Jackling. "The outlook for the coming year is even more promising than the results of last year have been satisfactory."

*** (6) New Director Elected.**—At the annual stockholders' meeting of this company April 20, 1917, Steven Birch, Pres. of Kennecott Copper Corp., was added to the Board of Directors. Other directors were re-elected.

*** (7) Production, March, 1917, 6,864,675 Lbs.**—This company, April 27, 1917, reported a production of 6,864,675 lbs. of copper in March, compared with 5,708,214 in February, and 6,279,432 in January.

NEVADA COUNTY OIL CO.

*** (1) Operations.**—It was stated at McKittrick, Cal., Jan. 3, 1917, that this company, which took over the lease of the United States Oil & Mining Co., on section 8, 30-22, in the North McKittrick front, is drilling a new well. The company proposes to drill from 10 to 15 new wells on the property.

NEVADA-HUMBOLDT TUNGSTEN MINES CO.

*** (1) Incorporated in February, 1917, in Nevada,** with a capital of \$1,000,000. Directors: C. J. Jones, H. E. Loufek and J. P. Murrish.

NEVADA SMELTING & MINING CORP.

*** (1) Development.**—It was stated Jan. 30, 1917, that after being inactive for several years the stock of this company had resumed activity. The cause is attributed to the company's 30% holdings in the Tybo mine, the control of which has passed into the hands of the Louisiana Consolidated Mining Co., which has guaranteed to spend \$100,000 on its development and improvement. It holds a lease on the mine for 20 years. The engineers of the Louisiana Consolidated assert there is over \$1,000,000 of ore in sight in the Tybo mine.

NEVADA WONDER MINING CO.

*** (1) Report, Three Months Ended Dec. 30, 1916.**—It was stated Jan. 24, 1917, that this company had issued a report covering the period from Oct. 1 to Dec. 30, showing gross value of ore, \$861,096; expenses, \$571,831; dividends, \$211,251; net income, \$282,528; leaving a balance of \$71,277.

Tons filled were 57,281, of \$14.86 a ton; recovery, 92.72. Cash on hand, \$103,800; loans, \$175,000; bullion stored, 182,515 ounces, \$124,338; total quick assets, \$403,148.

—Apr.

*** (1) Report, Year Ended Dec. 31, 1916,** shows a net surplus of \$510,716, a decrease of \$104,124, compared with Sept. 30, 1915. Dividends paid in 1916 amounted to \$281,679.

NEVERDARN HOSIERY MILLS.

*** (1) New Factory.**—It was announced at Charlotte, N. C., Feb. 13, 1917, that this company, recently organized, had contracted for a one-story factory building at that place, costing \$8,000 to \$10,000.

NEW ARCADIAN COPPER CO.

*** (1) Development.**—It was stated Jan. 16, 1917, that this company from four test mill runs on 5,236 tons of vein rock had secured 111,516 pounds of copper, or an average yield of 21.30 pounds refined per ton.

The company has not attained a place among the steady copper-producers of Lake Superior, although every effort has been put forth to hasten the day when that position shall have been reached.

Robert H. Shields, Pres. of the New Arcadian, and also of the New Baltic Mining Co., stated that the latter company had started a shaft on the New Arcadian vein, which was reached after going through 64 feet of overburden. The vein was found to be highly mineralized. The shaft was sunk about 3,000 feet northeast of the New Arcadian shaft.

NEWARK NATURAL GAS CO.

*** (1) Gas Rate Decision Affirmed.**—Announced at Washington Jan. 8, 1917, that an injunction of the Ohio Supreme Court restraining this company from charging consumers more than 18 cents per 1,000 feet, the rate fixed in a city ordinance March 6, 1911, had been affirmed by the United States Supreme Court.

NEWARK TUBE & METAL WORKS, INC., MILLBROOK, N. Y.

*** (1) Incorporated on Feb. 5, 1917, in New York,** with a capital of 8,500 shares, \$100 each; 5,500 shares, no par value, to carry on business with \$377,500; to deal in metal tubes and rods. Incorporators: J. E. Gerhardt, H. S. Bareford and W. C. Allen, 501 Gramatan Ave., Mount Vernon, N. Y.

NEW BRITAIN MACHINE CO.

¹(1) Capital Increase.—On Jan. 22, 1917, it was announced that this company, New Britain, Conn., had decided to increase its capital stock from \$800,000 to \$1,000,000.

NEW BRUNSWICK INVESTMENT CO., LTD.

²(1) Acquisition Planned.—See St. John Ry. Co.—Item No. 1.

²(2) Acquisition Ratified.—See St. John Ry. Co.—Item No. 2.

NEW BRUNSWICK POWER CO.

²(1) Stock Sale.—It was announced March 7, 1917, that this company had sold to Bodell & Co., Providence, R. I., \$1,000,000 7% 1st pfd. stock, out of an authorized issue of \$3,500,000. The company has outstanding \$350,000 2d pfd. stock, \$2,000,000 common stock, and \$1,750,000 first mortgage 5% bonds.

The company was recently chartered by the Province of New Brunswick to take over the St. John Ry. Co. The company has been granted water power rights on the Maguadavic and Lepreau rivers, with an estimated development of 19,000 horsepower. The proceeds of the bonds and stocks now issued of the New Brunswick Power Co. provide for the acquisition of the utility properties in St. John and for the water power rights.

The company has 24½ miles of electric railway, and its generating station is of 7,500 horsepower.

NEWBURYPORT SHIPBUILDING CO., NEWBURYPORT, MASS.

⁴(1) Incorporated in April, 1917, in Massachusetts, with a capital of \$500,000. Incorporators: David J. Donahue, Boston; Harold V. Tillson, Brockton, and Forrest H. Abbott, Wollaston, Mass.

NEW CENTRAL COAL CO., WEST VIRGINIA.

⁴(1) Dividend at 4% Annual Rate.—This company April 20, 1917, declared a semi-annual dividend of 2%, payable May 1 to stock of record April 27, thus placing the stock on a 4% annual basis. Previously semi-annual dividends of 1% had been paid.

NEW CHESTER PROPERTY CORP.

⁴(1) Incorporated on April 9, 1917, in New York, with a capital of \$300,000 to engage in a realty, brokerage, development and agency business. Incorporators: H. E. Williams, T. Robinson and C. G. Walter, 215 West 88th St., New York.

NEW CORA COAL CO., OF CORA, W. VA.

⁴(1) Incorporated on April 8, 1917, in West Virginia, with a capital of \$250,000, to operate in Logan County, W. Va. Incorporators: W. E. Deegans and A. K. Shelton, of Huntington, W. Va.; J. B. McCorkle, A. B. Gray and J. Kenna Gentry, all of Logan, W. Va.

NEW ENGLAND BAKERY CO.

²(1) Earnings.—It was announced Feb. 8, 1917, that this company in its first fiscal period, from Nov. 1, 1915, to Dec. 23, 1916, earned \$164,703 on net sales of \$1,411,706. This is after depreciation and renewals aggregating 13% of the total value of buildings and equipment. Dividends on first and second pfd. took \$84,568.

The balance sheet shows \$179,920 current assets, as compared with \$52,187 total indebtedness.

—Apr.

⁴(1) Earnings Statement, as of Oct. 30, 1916, shows cash and debts receivable, \$80,950; surplus, \$30,298; reserve, \$14,281, and total assets and liabilities, \$2,002,067.

NEW ENGLAND COAL & COKE CO.

¹(1) Extra Dividend.—Announced Jan. 18, 1917, that this company had declared a dividend of 10%, payable Jan. 29 to stock of record Jan. 25.

¹(2) Boat for Transatlantic Trade.—It was announced Jan. 23, 1917, that this company, a subsidiary of the Massachusetts Gas Co.'s, had chartered one of its steam colliers, the Newton, 8,200 tons deadweight capacity, for transatlantic trade. The boat will start on its new service in February and will make a number of round trips that will probably require nearly a year. The company also has under consideration an offer to charter the Melrose, likewise 8,200 tons, on the same terms. The carrying capacity of both ships is about 7,300 tons.

Roughly, the vessel will earn in the vicinity of \$800,000 a year net.

NEW ENGLAND CO.**POWER SYSTEM.**

¹(1) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross	\$2,068,437	\$1,489,453
Net after taxes..	1,311,133	954,299
Surp. aft. chgs., pfd. & com. divs.	365,768	122,071

¹(2) Comment on Yearly Earnings.—On Jan. 25, 1917, it was stated this company for the 1916 year showed an increase of approximately \$600,000 in gross and \$400,000 in net earnings, with a surplus for the year equivalent to about \$1,000 a day.

The company reports the business outlook is excellent.

—Mar.

	1917	1916
² (1) Earnings—

Bal. after 1st & 2d pfd. divs.	45,426	35,918

NEW ENGLAND COTTON YARN CO.

²(1) Sale.—It was announced Feb. 5, 1917, that this company had made arrangements to sell about 50% of its spindleage. The Bennett and Columbia mills at New Bedford have been sold to Boston interests. The Fairhaven Mills, a Massachusetts corporation, has been formed by these interests, headed by Harding, Tilton & Co., commission merchants.

This is the fourth successive sale of a portion of its properties which New England Cotton Yarn has made. Previously it had sold its Ketch, Nemasket and Gosnold mills. In each instance the sale of mill properties has been accompanied by a decrease of the bonded debt.

The two mills just sold have 200,000 spindles. Approximately \$1,150,000 of new machinery has been installed in the mills, and requirements for replacement of machinery have been met for some time to come. Despite this the provisions of the Cotton Yarn pfd. stock require that \$110,000 a year be set aside to take care of depreciation and replacements.

The Fairhaven Mills have a paid capital stock of \$3,500,000, of which \$2,000,000 is 6% cumulative pfd. and

\$1,500,000 common. It will start operations with a surplus of net quick assets of about \$450,000.

Charles L. Harding is Pres. Other directors are: Charles M. Holmes, N. P. Ayer, C. Minot Weld, H. A. Wyman, Stephen W. Hayes and James Thomson, the Treas.

The Fairhaven Mills will produce combed cotton yarns and will have a range of operation covering practically all kinds of cotton yarns.

The sale leaves New England Cotton Yarn about 290,000 spindles, or about the same number as those of the Dartmouth, Wamsutta and Manomet mills in New Bedford. The property will be easier to manage, good times and bad than when it was operating 750,000 spindles.

The company has retained in New Bedford the New Bedford Spinning Co.; in Taunton, the Cohannet Mills and Department 20, and in Fall River, the Sanford and Globe mills.

—Mar.

²(1) Sale Planned.—It was announced March 29, 1917, that plans had been completed for the sale of the last of this company's plants in New Bedford, Mass., to the New Bedford Spinning Co.

NEW ENGLAND ELECTRIC SECURITIES CO.

²(1) Bond Offering.—It was stated Feb. 16, 1917, that Stranahan & Co. are offering \$350,000 of this company's first collateral trust 5% gold bonds at 91 and interest, with a 20% bonus in common stock.

The company, through ownership and control, serves an industrial, agricultural and manufacturing territory in southern New Hampshire furnishing electric light and power to Jaffrey, East Jaffrey, Troy, Fitzwilliam and Derry, N. H.; also the gas, electric light and traction companies in Yarmouth, N. S.

NEW ENGLAND MANUFACTURING COMPANY.

²(1) Dividend.—It was announced March 14, 1917, that this company, in which Massachusetts Gas has a 47½% stock interest, had declared dividend of 102.4% on its \$250,000 stock. The dividend follows a dividend of 51.2% paid in February, 1917; 51.2% paid in January, 1917, and 51.2% paid in December, 1916, making 256% paid in these four months.

²(2) Comment on Dividend.—On March 18, 1917, the "Boston News Bureau" said that this company, which had declared a dividend of 102.4% on its \$250,000 stock, is one of the enterprises engaged in the munitions business that has proved a success. Notwithstanding that its plant cost a good deal more money than originally expected, and that there were many unforeseen delays encountered in producing the manufactured materials at a satisfactory cost, it finally succeeded in paying for all of its plant out of profits just prior to Oct. 1, 1916.

—Apr.

⁴(1) Sixth Dividend Declared in 1917.—This company April 26, 1917, declared a dividend of 25.6%, payable May 10 to stock of record April 26. This is the sixth dividend declared since Jan. 10, 1917, making paid or payable 382.8%.

Net after taxes.....	638,883	271,348
12 mos. gross.....	20,971,274	18,484,825
Net after taxes.....	4,821,978	3,979,888

(2) New Directors.—It was announced Feb. 21, 1917, that at the annual meeting of stockholders of this company Henry D. Sharpe, Pres. of Brown & Sharpe Manufacturing Co., of Providence, R. I., and Joseph A. Skinner, Pres. of the Hadley Falls National Bank, Holyoke, Mass., were elected directors. One succeeds Edward K. Hall, resigned, and the other fills the vacancy caused by the death of Henry S. Hyde.

(3) Report, Year Ended Dec. 31, 1916, shows earnings as follows:

	1916	1915
Gross.....	\$20,971,274	\$18,484,824
Net after taxes.....	4,821,978	3,979,887
Surp. after chgs.	4,251,031	3,389,333
Bal. after div. appropriations	791,284	289,686

(4) Earnings on Stock.—It was stated Feb. 26, 1917, that this company's 1916 surplus of \$4,251,031 is equal to 7.68% on \$55,294,300 capital stock, compared with 7.15% earned on \$47,340,300 in 1915.

(5) Statement by President.—It was announced Feb. 24, 1917, that Pres. Spaulding, of this company, in his annual statement to stockholders, said, in part: "On April 1, 1916, \$412,000 of 5% debenture notes became due and were paid off. The money obtained from the sale of new stock offered to stockholders in August enabled the company to pay off its floating indebtedness and to take care of the unusual construction and other requirements for 1916. During the year 2,336 shares were issued to acquire certain minority holdings in your subsidiary companies.

"To help certain of your employees meet the unusual advance in living expenses your directors authorized in December special emergency payments amounting to approximately \$615,000. On Jan. 1, 1915, the American Telephone & Telegraph Co. offered your employees who had been in the service for two years or more the opportunity to purchase stock of that company, and on March 1, 1916, this offer was extended to employees of more than two years' service on that date.

"As of Dec. 31, 1916, 15,601 shares had been subscribed for by 4,986 employees."

NEW ERA ENGINEERING CO.

(1) Capital Increase.—It was announced Feb. 5, 1917, that this company, Joliet, Ill., had increased its capital stock from \$200,000 to \$1,000,000 and changed its name to the Elgin Motor Truck Co.

NEW HANOVER THREAD MILLS.

(1) Organized.—It was stated Feb. 21, 1917, that this company had been organized, with W. T. Rankin as Pres. and J. L. Bush as Sec'y, to produce combed yarn. A 50-acre site has been bought on the Carolina & Northwestern Ry., where a 4,000-spindle combed yarn mill will be built. The machinery has been purchased. Its capitalization is \$250,000.

NEW IDRIA QUICKSILVER MINING CO.

(1) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Net sales.....	\$733,594	\$405,991
Quicksilver on hand.....	\$200,000	98,850

Total.....\$933,594 \$504,841
Net profits.....419,235 159,029
Surp. after divs.19,235 9,029

†After deduction of \$98,850 for quicksilver carried over from 1915.
†Of the above amount, \$135,980 has been sold, but proceeds have not yet been collected.

(2) Earnings on Stock.—It was stated March 1, 1917, that this company's 1916 net profit of \$419,235 is equal to 83.84% on \$500,000 capital stock, compared with 31.81% earned on the same capitalization in 1915.

(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$118,128, compared with \$98,892 Dec. 31, 1915.

(4) President's Statement.—It was stated March 1, 1917, that Pres. E. H. Mason, of this company, in his report for the year ended Dec. 31, 1916, stated that average net price received during the year for quicksilver was \$89.57 per flask, compared with \$74.21 in 1915. The year started with a price of about \$95 per flask and during latter part of February and the month of March price ranged from \$275 down to \$175. From April 1 to June 15 price declined steadily to \$98 and from June 15 to Dec. 31 ranged between this price and \$80.

Production during the year of 10,828 flasks compared with 6,250 flasks in 1915, an increase of 4,578 flasks. Ore worked came from the New Idria mine upper levels and from San Carlos Mine upper levels. Completion of aerial tramway from San Carlos Mountain to the Idria furnaces, a cable length of one mile, allows the transportation of ore in small cars by gravity at a low cost and works continuously 24 hours each day.

Several changes in concentrating and smelting plants are under consideration to reduce costs and increase production.

(5) Dividend.—It was stated March 19, 1917, that this company had declared a quarterly dividend of \$1, payable March 31 to stock of record March 24. The five previous dividends were \$1 each. This dividend was more than earned in the first two months of 1917 alone. Price of quicksilver has been advanced from \$105 to \$115 per flask.

NEW JERSEY PRODUCTS CO., WEST ORANGE, N. J.

(1) Incorporated on April 17, 1917, in New Jersey, with a capital of \$500,000, to manufacture chemicals, glues, veneers, stains, shellac, paper products, phonographs, sound records and storage batteries, etc. Incorporators: Thomas A. Edison, Chas. Edison and R. H. Allen, West Orange; Stephen B. Mambert, East Orange, and A. C. Emery, Montclair, N. J.

NEW JERSEY PULLCLEAN TOWEL CO., NEWARK, N. J.

(1) Incorporated on Feb. 5, 1917, in New Jersey, with a capital of \$250,000, to manufacture and deal in towels, soap, toilet articles, etc. Incorporators: Ellis C. Hightman, Newark; Timothy A. Cashman, New York, and Joseph T. Cashman, Brooklyn, N. Y.

NEW JERSEY ZINC CO.

(1) Dividends in 1916.—It was stated Jan. 3, 1917, that this company, in 1916, paid dividends amounting to \$76 per share on its \$35,000,000 capital stock. Had the capital stock remained at \$10,000,000 dividends would have amounted to \$266 per share.

Not only was \$26,800,000 taken from the year's earnings for stockholders, but large sums were spent on plant improvements and equipment, while a material addition was made to surplus account.

—Feb.

(1) Statement, Quarter Ended Dec. 31, 1916, shows earnings, compared with previous quarter, as follows:

	Dec. 31	Sept. 30
Op. income.....	\$8,312,051	\$8,304,511
Net income.....	8,197,051	8,189,511
Surp. aft. divs. and profit-sharing.....	647,051	1,539,511

†Balance after deductions for expenses, taxes, maintenance, etc.

(2) Net Profits, 1916.—It was stated Feb. 3, 1917, that net profits of this company for 1916 approximated \$35,000,000. From this amount distributions were made to stockholders amounting to \$26,600,000.

From the four quarterly statements issued during 1916 it is possible to construct the following summary:

Net income.....	\$34,488,239
Surplus after dividends.....	7,888,239
Profit-sharing payments.....	900,000
Balance surplus.....	6,988,239

(3) Acquisition by Subsidiary.—See Empire Zinc Co.—Item No. 1.

—Mar.

(1) Extra Dividend.—Announced Feb. 28, 1917, that this company had declared an extra dividend of 4%, payable March 10 to stock of record March 2.

(2) Extra Dividend.—On March 28, 1917, directors declared the regular quarterly dividend of 4% and an extra dividend of 4%. The regular disbursement is payable May 10 to holders of record April 30, and the extra dividend will be paid April 10 to holders of record March 31.

—Apr.

(1) Extra Dividend.—Announced April 2, 1917, that this company had declared the regular quarterly dividend of 4% and an extra of 4%. The regular dividend is payable May 10 to stock of record April 30 and the extra is payable April 10 to stock of record March 31.

NEW LONDON & EAST LYME ST. RY.

(1) Sale Planned.—See Shore Line Electric Ry. Co.—Item No. 1.

 Net after taxes. 55,146 58,068

* (2) Sinking Fund for Bonds.—It was announced March 3, 1917, that directors of this company had authorized a sinking fund on the first mortgage 5% bonds, of which \$8,398,000 are outstanding. The sinking fund, which probably will be put into operation during 1917, is a voluntary one, as the mortgage has no sinking fund provision. It is the purpose of the management to provide that 20% of net income shall be utilized each year in the purchase of the first mortgage bonds, which will either be held in the sinking fund or cancelled.

Report for the year ended Dec. 31, 1916, shows net income of \$287,002, exceeding by \$34,151 the calendar year 1913, hitherto the best year of the company's history, and being \$278,001 in excess of 1915.

Notwithstanding the stringent car shortage, earnings for January, 1917, are well ahead of the previous year. Net income for the month after all charges amounts to \$23,693, compared with \$15,835 for January, 1916, an increase of \$13,058.

* (3) New Officers.—Announcement was made at New Orleans Jan. 9, 1917, that at a meeting of the Board of Directors of this company the following additional officers were elected:

T. C. Powell, Vice-Pres.; H. B. Spencer, Vice-Pres.; E. H. Coapman, Vice-Pres.; H. W. Miller, Vice-Pres.; H. C. Ansley, Treas.; A. H. Plant, Comptroller, and F. S. Wynn, Sec. All of these are officers of the Southern Ry. Mr. Powell is located in Cincinnati, Mr. Miller in Atlanta, Mr. Wynn in New York, and the others in Washington.

Following the meeting it was announced that the organization for the operation of the New Orleans & North Eastern would be as follows: T. C. Powell, Vice-Pres., executive officer, having general jurisdiction, representing the Pres., and Horace Baker, Gen. Mgr., with offices at Cincinnati.

The officers resident in New Orleans are: T. F. Steele, Vice-Pres. of the New Orleans & North Eastern and of the New Orleans Terminal Co. and General Agent of the executive department of the Southern Ry. system; J. P. Bannon, General Freight Agent, and M. P. Billups, Foreign Freight Agent.

An Assistant General Passenger Agent is to be elected, all to be officers of the Southern Ry. system as well as of the New Orleans & North Eastern.

* (4) Grouping Rearrangement.—See Southern Ry. Co.—Item No. 7.

* (2) Mortgage.—It was stated Feb. 10, 1917, that arrangements were being completed for the creation of a new mortgage for \$16,000,000 by this company, practically all of the \$6,000,000 of capital stock of which had been purchased by the Southern Ry. Co. from the Alabama, New Orleans & Texas Pacific Junction Ry. Co., Ltd., an English corporation.

The purpose of this new mortgage is to carry out a plan for the retirement of the outstanding bonds, and at the same time provide, when necessary, sufficient funds to finance certain improvement and extension work.

J. P. Morgan & Co. purchased from the English interests approximately \$7,000,000 of New Orleans & North Eastern R. R. Co. bonds, and it is un-

derstood that the bankers will accept bonds under the mortgage in exchange for their holdings.

* (1) New Director Elected.—On April 21, 1917, the "Chronicle," New York, stated that Frank Williams had succeeded Hugh McCloskey as a director.

NEW ORLEANS, TEXAS & MEXICO RY.

* (1) Protest Against Valuation.—It was announced at Washington Jan. 17, 1917, that this company had filed a protest with the Inter-State Commerce Commission against the valuation placed upon it by the valuation board.

The company protested against the failure of the Commission to report in its tentative valuation the original cost and the present value of stocks, bonds and other securities of the St. Louis, Brownsville & Mexico; Beaumont, Sour Lake & Western; the Orange & Northwestern Railroads. It said the failure of the Commission to report these costs and values rendered the tentative valuation incomplete and wholly insufficient to be considered as tentative valuation.

It asserted that the Commission made no report upon the amount of money and other current assets of the carrier actually on hand on valuation data, of which the amount of money was not less than \$343,965 and other current assets of \$1,125,195.

The protest further stated the Commission's report gave the sum of \$8,965,638 as the cost of reproduction now of the road and equipment. The carrier protested against these figures as wholly inadequate and stated that it should not be less than \$11,992,344.

**NEWPORT NEWS SHIPBUILDING
& DRY DOCK CO.**

¹(2) Plant Improvements.—On March 8, 1917, it was announced that this company had authorized improvements to its plant approximating in cost \$350,000, covering work on new buildings, alterations to the plant, purchase of machinery and yard improvements. The new structures will be of brick and steel.

NEWRAY MINES, LTD.

⁴(1) Distribution to Stockholders.—The "Canadian Mining News" made this announcement April 14, 1917: "Preliminary announcement is hereby made of a forthcoming change of name in the firm of Mark Harris & Co., Mr. Mark Harris having withdrawn from the firm. The holdings of Mr. Harris in the firm have been taken over by a group of banking and financial interests well known in Toronto and elsewhere.

"The initial act of the new firm will be the announcement of a distribution of profits from the past year's operations, amounting to at least one hundred and fifty thousand dollars (\$150,000) pro rata to the stockholders of Newray Mines, Ltd., and Boston Creek Gold Mining Company, Ltd."

⁴(2) Development Work Satisfactory.—On April 18, 1917, the "Toronto World" said: "Development work at the new vein on the 400-foot level of the Newray, which was located last month, is proceeding very satisfactorily, and the indications are that these operations will put into sight a very substantial tonnage of high-grade milling ore.

"The vein is the full width of the drift, and carries high values which are in keeping with those obtained from the diamond drill cores when the lead was first discovered in the drilling campaign last Autumn. The crosscut is being pushed rapidly."

NEWRAY MINING CO.

¹(1) Capital Increase Planned.—It was stated Jan. 10, 1917, that underground work had been started at this company's mine in Canada, the crosscutting having been started at the 400-foot level. The crosscut will be made to the three veins uncovered on the surface within a distance of about 700 feet from the shaft.

To provide for this and further development and a mill, an increase in capital of \$500,000 to \$1,500,000 will likely to be made.

It is the intention of the directors to call the annual meeting during January, when the shareholders will be asked to sanction the capital increase. It is not the company's intention to issue the whole of the increased stock, as it is thought that \$200,000 will accomplish all that is desired at the mine to put it into a satisfactory gold producer.

Offers for any block of the new stock at \$1 a share have already been received, but the present shareholders will be given the privilege of subscribing pro rata according to their holdings before any underwriting will be accepted by the company.

¹(2) Capital Increase.—Announced Jan. 23, 1917, that at the annual meeting of stockholders of this company it was decided to increase the authorized capital stock from \$1,000,000 to \$1,500,000. Of the increased issue \$200,000 will remain in the treasury for a short time.

¹(3) Syndicate.—It was announced Jan. 23, 1917, that a syndicate had underwritten \$300,000 of the authorized new

issue of this company's capital stock. These shares are to be offered first to existing shareholders and any stock not subscribed for will be taken up by the syndicate.

—Feb.

²(1) New Development.—It was stated Feb. 14, 1917, that at a depth of 104 feet a quartz vein four feet wide had been found on the property of this company. In this there is visible gold. The discovery is said to be the most favorable development in the operations of the Newray for a year.

NEW RIVER COAL CO.

⁴(1) Indicted by Federal Grand Jury.—See Berwind White Coal Mining Co.—Item No. 1.

NEW RIVER COLLIERIES CO.

²(1) Report, Year Ended Dec. 31, 1916, showed net earnings after interest payments of \$350,000, which compares with \$195,000 in 1915 and \$64,000 in 1914. The amount of coal produced was 1,125,000 net tons, a new high record.

Pres. J. K. MacGowan reported that there was a steady demand for coal and an additional tonnage could have been disposed of at good prices.

The properties were equipped to produce a larger quantity, but experienced the usual shortage both of cars and men.

NEW RIVER CO.

¹(1) Status.—On Jan. 5, 1917, the "Boston News Bureau" said that this company already had booked all the "bunker" business that it can possibly handle in 1917 at \$5 a ton, a heavy portion of which is for the British admiralty.

In contracting for "bunker" business New River, like all coal companies, guarantees to fill all bottoms that it may be called upon to fill upon notice so that there is some elasticity of requirements. Normally the bunker end represents about 15% to 20% of New River's business.

A year previous bunker contracts were being made at \$3.10 a ton. The advance of \$1.90 a ton, which will hold throughout the year obviously provides a real profit for New River. Notwithstanding advances in wages and other costs it would seem as though \$2 a ton profit would be minimum.

Coal conditions are such as to make inevitable as large an advance on April 1 on the big contracts as has been made in the bunker department. It would be no surprise to the trade to see New River name a price of at least \$5 a ton for the 1917-1918 coal year.

New River has been receiving \$2.85 a ton, so that a price for the next coal year of at least \$5 a ton should insure earnings hardly deemed creditable before. Regardless of spot coal sales New River stands to earn at least \$2 a ton in 1917, or a minimum of \$4,000,000 on a 2,000,000 ton output. This would be equal to nearly \$60 a share on the pfd.

—Feb.

²(1) Output, January, Passes 200,000-Ton Mark.—It was stated Feb. 8, 1917, that the output of this company in January for the first time passed the 200,000-ton mark.

In face of the prevailing car shortage New River's record operating achievement is more than ordinarily encouraging. It increases the probability of a 2,100,000-ton output for the year ending April 1, and holds out the promise of 2,500,000 tons for the 1917 fiscal year.

Developments which are calculated to put the treasury position of New River in a new light have been delayed because of legal and other red tape. Just as soon as they are cleared up it is probable that directors will give some attention to the resumption of dividends on the pfd. stock, probably early in the Spring of 1917.

It is estimated that New River should earn at least \$50 a share for its pfd. stock in 1917, based upon a 2,400,000-ton output and a minimum profit of \$1.50 a ton.

—Mar.

²(1) Drop in February Production.—It was stated on March 27, 1917, that owing to transportation difficulties, disruption of ocean sailings on account of the German submarine warfare and restricted production due to the shorter month and two holidays, this company's production in February dropped from the record mark of over 200,000 in January to 164,000 tons. As a result February earnings were less than half the rising \$90,000 reported in January.

To March 1 New River had earned net of over \$400,000, every month of the current fiscal year having shown a balance on the right side of the ledger with the exception of April, 1916. Allowing for between \$90,000 and \$95,000 earnings this month, which is showing up well, New River should close its fiscal year to April 1 with a balance after all charges of close to \$500,000 or say \$7 a share earned on the \$7,367,000 pfd. stock.

Beginning with April the new contract prices of \$3.50 to \$4 a ton at the mine go into effect. Given half a chance, New River should earn in its 1918 fiscal year between \$2,000,000 and \$2,500,000, or around \$30 a share on the preferred. A big hole will probably be made during that time in the accumulation of back dividends.

NEW YORK AIR BRAKE CO.

¹(1) Report, 1916, Estimated.—On Jan. 19, 1917, it was stated that the report of this company, to be submitted near the end of January, would likely show net earnings for the stock of between \$90 and \$95 a share.

New York Air Brake has orders on hand for equipment ensuring capacity operations until at least the middle of 1917, and its munitions orders run well into the Spring. Earnings for the first quarter of the current year should be at approximately the same rate as in 1916, but they are likely to fall off somewhat later.

Besides its small bonded debt, \$3,000,000, New York Air Brake has no indebtedness saving small current accounts.

New York Air Brake is paying dividends at the rate of 20% a year, half of which is represented by a regular 10% dividend and the remainder by an extra of 12½%, payable in five quarterly instalments. These dividends were declared over 1917 and the matter of further dividends will not be discussed until all munitions contracts are off the books.

—Feb.

²(1) War Profits in 1916.—On Feb. 13, 1917, the "Boston News Bureau" said that to this company belongs the credit of having scored the largest margin of profit on war work. The experience of a number of corporations handling shells, particularly shrapnel orders, has been unsatisfactory. American Can has been so dissatisfied with its war work that it will undertake no more.

On the other hand, New York Air Brake, American Locomotive and American Car & Foundry have had little or no trouble and all have realized handsome profits. The equipment companies seem to have fitted into the munitions game with little or no friction.

For its fiscal year to Dec. 31, 1916, it is understood that New York Air Brake realized net profits of slightly better than \$92 per share after all deductions.

The company has finished its shell production, but carried over into 1917 about \$5,000,000 of unfinished war orders, principally fuses and cartridge cases. On this business the company should make a profit of not less than \$15 per share on its \$10,000,000 stock.

The company is now on a regular 10% cash dividend basis, and in addition has voted to pay quarterly extras of 2½%, making 20% for the year. This 10% extra is out of 1916 earnings.

It is almost certain that profits from 1917 domestic production will run even better than in 1916. In fact, the regular 10% dividend is being much more than earned from regular lines of equipment work. New York Air

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Brake's munitions record has been so high that it would be surprising, if the United States became involved in war, if the Government did not award substantial shell contracts to this corporation.

On Dec. 31, 1916, New York Air Brake had assets for its stock of better than \$200 per share.

⁽²⁾ Report, Year Ended Dec. 31, 1916, shows, after all charges and a depreciation reserve of \$1,200,000, net profits for its \$10,000,000 stock of \$8,214,962, or \$2.15 a share. This compares with \$13.43 earned in 1915.

On a gross business of \$24,051,103 a factory profit of \$9,967,822 was shown. The gross was over five times as large as that of 1915, the previous record year, when \$4,731,529 business was done.

A noteworthy feature of the report is the large amount of cash on hand on Dec. 31, \$4,858,319, equivalent to \$48.58 for each share of stock.

⁽³⁾ Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross profits.....	\$10,061,715	\$4,731,529
Net after taxes and charges....	8,214,963	1,343,286
Surp. aft. divs..	7,065,837	743,742

⁽⁴⁾ Statement by President.—It was stated Feb. 15, 1917, that Pres. C. A. Starbuck, of this company, in his annual remarks to stockholders, said: "In your company's annual statement munitions are entitled to bulk largely in the aggregate, and now that munitions must sooner or later come to an end, it is assuring to know that the company's regular brake business has not only more than doubled the business of the previous year, but that the booked orders on hand, which amount to five times those of any previous year, indicate that the brake business of the company will be still more favorable, while munitions will continue to be profitable for some time.

"A year ago the quarterly dividends were advanced to 2%, and six months later advanced again to 2½%, and in December advanced to 2½% regular and 2½% extra, thus establishing for the present year 5% a quarter, or 20% a year. Thus your company has paid in the year 1916, 11½% and will pay in the present year 20%, which indicates your directors will see to it that stockholders will share in the profits of the business, though with conservatism and prudence.

"Your attention is also called to the fact that the company's business in 1915 amounted to \$4,731,529, and in 1916 to \$24,051,103, with practically the same organization."

⁽⁵⁾ Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$8,082,591, compared with \$1,016,754 Dec. 31, 1915.

⁽⁶⁾ Comment on 1916 Business.—On Feb. 21, 1917, the "Wall Street Journal" said that in the report of this company for 1916 there are several points worthy of particular notice. Of these, probably the most striking are the percentage of factory profits to total business done, the small expenditure for administration, and the heavy cash account shown as of Dec. 31.

Early in 1916 it was estimated that Air Brake was showing profits as high as 40% of the value of its output, but these estimates were not taken seriously in many quarters. The actual factory profit shown on the \$24,051,103 production for the year was \$9,967,822, or nearly 41½%. On the actual outlay for manufacturing the profit amounted to over 70%.

In 1915, on a gross business of \$4,731,529, administration expenses were \$437,249, or a little over 9%; while in 1914 they slightly exceeded 10%. In 1916, administration expenses, \$301,691, were actually less than those of 1915, although the volume of business done was over five times as large as in the earlier year, and they amounted to only 1½% of gross.

The book value of the stock, based on the balance sheet was \$194.83 at the end of 1916. This, however, includes patents. At what value the company carries its patents is not stated.

At the end of 1916 the company had working capital of \$9,471,708, of which \$4,858,319 was in cash, \$681,189 in securities, \$1,681,143 accounts and bills receivable, and \$2,514,168 inventories. Its current liabilities consisted only of \$233,061 accounts payable and \$30,000 accrued interest on bonds.

Pres. Starbuck tells stockholders that the directors "will see to it that stockholders will share in the profits of the business, though with conservatism and prudence." Whether this means that larger distributions are to be made is a matter of opinion, but it is generally understood that the directors are contemplating a special disbursement to stockholders as soon as munitions orders now on the books are completed, and the need for keeping large working capital lessened.

—Mar.

⁽¹⁾ Dividend Discussion.—It was stated March 14, 1917, that the statement made by Pres. Starbuck, of this company, to stockholders at their annual meeting that the company had nearly \$4,500,000 cash on hand gave good reason to hope substantial payments in the shape of extra dividends would be made either during 1917 or at its close.

Mr. Starbuck estimated that the company would do a gross business averaging over \$1,000,000 monthly through 1917. For this purpose it is evident that so large sum as reported need not be kept in cash.

Until munitions orders are completed, however, it is likely that all working capital assets will be conserved, and, so far as is known, the directors have not yet considered the question of further disbursements, but when volume of business becomes less with the finishing of war orders there seems no reason why the extra profits therefrom should not be divided among stockholders.

Of the \$82 per share earned in 1916 approximately three-quarters, or say \$60 a share, was made from munitions. In other words, earnings from regular air brake business were twice the amount required to pay the regular dividend. And of the \$60 earned from munitions only \$12.50 has been declared in extra dividends.

Earnings for the first quarter of 1917 should approximate \$20 a share, while for the full year profits are likely to exceed \$40 a share, or four times the regular dividend requirement.

This means that some time during 1917, or at its close, the directors could declare an extra dividend out of 1916-17 earnings of \$25 to \$30 a share without the slightest danger of embarrassing working capital. Cash on hand is equal to \$45 a share, and, if no extras are paid meanwhile, it might easily equal \$70 a share by the end of 1917.

NEW YORK CENTRAL R. R. CO.

Surp. after chgs..	40,147,110	23,748,768

⁽²⁾ Stockholders' Rights.—It was stated Jan. 2, 1917, that although stockholders as of Jan. 2 will have the right to subscribe to the New York Central stock, the securities committee of the New York Stock Exchange has ruled that the stock will not be quoted ex-rights until further notice; also that any certificates of the stock delivered after Jan. 2 must be accompanied by a due bill for the rights in prescribed form. This is because the issuance of the stock depends upon the approval of several State commissions.

⁽³⁾ Stricken from List.—Announced Jan. 2, 1917, that the New York Stock Exchange had stricken from the list this company's equipment of 1910 Guaranty Trust Co. 4½% certificates, Series G.

⁽⁴⁾ New York West Side Plans Approved.—It was stated Jan. 5, 1917, that in a report New York City real estate

men, comprising the Advisory Council of Real Estate Interests, through its executive committee, on its investigation of the proposed "West Side improvement," had given endorsement of the pending plans and urged action by the Board of Estimate.

The endorsement is signed by Cyrus C. Miller, chairman; Adolph Bloch, Clarence H. Kelsey, Alfred E. Marling and George T. Mortimer, members of the executive committee.

Mr. O'Malley, real estate expert of the Comptroller's office, stated that New York City gains about \$8,000,000 over the 1912 plan—that is, the city gives \$6,100,000 to the New York Central in land, while the railroad is required to expend \$14,000,000 for improvements outside of the actual amount necessary to construct the new line.

The city allows the railroad 33¼% of the value of the land now occupied by its railroad tracks, while the railroad company allows the city 50% of the value of land given to it for surface easements and 67½% is allowed the city for both surface and overhead easements.

⁽⁵⁾ Bond Issue Opposed.—It was announced at Columbus, O., Jan. 13, 1917, that James Pollitz and Clarence Vener, minority stockholders of this company, had asked the Ohio Supreme Court to strike out the authority given by the Ohio Public Utilities Commission to issue \$5,914,300 bonds.

⁽⁶⁾ Comment on November Earnings.—On Jan. 16, 1917, the "Wall Street Journal" said that the November net earnings of this company, including the Boston & Albany, decreased \$1,140,000 in the face of a little more than \$1,000,000 gain in gross. For the \$2,155,000 increase in expense, maintenance charges were responsible for \$854,000, and transportation expenses, \$1,095,000. The result was a decrease in surplus over charges for the month of nearly \$1,500,000.

Probably so great a decline in net will not be repeated in December figures, as that month brought better weather conditions in 1916 than 1915. But the surplus may fall off another \$500,000. In that case the year's margin for dividends and other purposes would be \$43,700,000, making it roughly \$16,000,000 ahead of 1915 and equaling 17.5% on the stock, as compared with 11.11% the year before. This does not include the Central's interest in surpluses over dividends of the subsidiary roads. It indicates a final surplus after dividends of \$31,000,000 from the year's operations and investment income.

The year's gross for the first time exceeded \$200,000,000. Only one other United States road, the Pennsylvania, is in the \$200,000,000 class. The Central's annual reports separate the Central proper from the Boston & Albany, but the former alone earned in the neighborhood of \$201,000,000. Together, these roads, really one system, will report \$223,000,000, or about \$37,000,000 more than the year before, a gain of 20%.

Of this gain increased maintenance charges will have absorbed around \$9,000,000, and heavier movement expenses around \$14,500,000.

New York Central's current decreases in net earnings from the high levels of a year previously are not exceptional. Wage and fuel bills have increased and the right kind of labor has been lacking, due to the activity and big profits of munition and other industries.

⁽⁷⁾ Hearing on Stock Issue Plan.—It was stated Jan. 18, 1917, that a hearing before the New York Second District Public Service Commission on the application of this company for authority to issue \$25,000,000 additional stock was held on that date. Vice-Pres. Harris, for the company, described the purposes of the issue and submitted detailed statistics. C. H. Vener appeared in opposition.

Mr. Harris intimated that the company expected the whole of the issue to be taken by the stockholders and that

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

if there was an unsubscribed balance it would not be disposed of to bankers, but would be retained and sold later at the convenience of the company.

(8) Construction Progress on Connecting R. R.—See New York Connecting R. R.—Item No. 2.

(9) Application to List.—Announced Jan. 20, 1917, that the New York Stock Exchange had received application to list \$25,000,000 additional capital stock of this company.

(10) Comment on Stock Offering.—On Jan. 22, 1917, the "Wall Street Journal" said that in offering \$25,000,000 of 5% stock for subscription at par this company is making an interesting experiment in railroad finance. The offering is not underwritten and the directors have no present intention of making any underwriting agreement.

(11) Directors Re-elected.—Announced Jan. 24, 1917, that at the annual meeting of this company retiring directors were re-elected.

(12) Suit for Recovery of Penalties.—It was announced Jan. 24, 1917, that by direction of the United States Department of Justice Assistant Attorney-General John P. Knox had filed suit in the United States District Court at New York for recovery of penalties amounting to \$19,000 and for other punishment for violations of the law which requires that cattle being transported in cars must be unloaded, fed and watered at least once in 28 hours.

The bill of complaint cites 38 instances of violations of this law by the company, the punishment for which is a \$500 fine for each violation, besides possible other punishment.

(13) Public Utility Merger Authorized.—See Rochester Ry. & Light Co.—Item No. 2.

(14) Stock Issue Authorized.—Announced Jan. 29, 1917, that the Ohio Public Utilities Commission had authorized this company to issue \$4,219,975 of common stock, to be used in meeting obligations incurred in the consolidation of the company with the Lake Shore.

(15) Stock Subscription Time Extended.—Announcement was made Jan. 30, 1917, that the time for the exercise of rights to subscribe to \$25,000,000 of this company's new stock had been extended from Feb. 5 to Feb. 13, and the time for payment for the stock subscribed extended to Feb. 16.

The extension is made because C. H. Venner appealed from the decision of the Ohio Utilities Commission allowing the stock increase to the Supreme Court of that State, which has postponed the effective date of the commission's order until after the court's decision on the appeal.

Argument on the appeal was set for Jan. 31.

—Feb.

(1) Stock Exchange Ruling.—It was announced Feb. 8, 1917, that, referring to the ruling of Dec. 27, 1916, and Jan. 4, 1917, in the matter of the right to subscribe for new stock of this company, the New York Stock Exchange had ruled that all transactions in the company's stock on Tuesday, Feb. 13, 1917, shall be "ex-rights"; that transactions in said rights must be settled on Tuesday, Feb. 13, after which date dealings shall be as in securities.

Attention is called to the announcement that the date for making both subscriptions and payments expires Feb. 16.

(2) Appraisal of Rights.—It was announced Feb. 13, 1917, that upon request of Governor Whitman the New York Second District Public Service Commission had adopted a resolution calling for an appraisal in money value of the rights and territory conceded by the New York Central to the City of New York, and those given in exchange by the City to the New York Central Co.

The difference between the New York Central claims and the claims of residents, the Board of Estimate and officials of the City of New York are so

irreconcilable that Governor Whitman intervened to settle the matter. Appraisers under the direction of the Public Service Commission will proceed with the valuation of the rights and concessions made by both parties in the elimination of the Central's West Side service tracks and the acquisition of territory along Riverside Drive in New York by the company. The report is to be made direct by the Public Service Commission to Governor Whitman.

(3) Announcement by President.—On Feb. 14, 1917, Pres. A. H. Smith, of this company, made the following announcement:

"When stockholders were given the right to subscribe for additional New York Central stock that stock was at a premium. The time within which subscriptions were to be made has not yet expired and the market value has now fallen below par.

"Holders of warrants who have signed their subscriptions may cancel them providing that on or before March 1, 1917, they notify Edward L. Kossiter, Treas., Grand Central Terminal, New York, of their election to do so. Payments made on subscription which are so cancelled will be returned by the company."

(4) Stock Offer Not Withdrawn.—It was stated Feb. 14, 1917, that the announcement of Pres. A. H. Smith, of this company, did not mean that the company was withdrawing the offer of new stock. That remains, and stockholders who care to do so may exercise their subscription rights if they wish.

Failure of the company to sell this stock to the stockholders, it was stated by officers of the company, would have no immediate effect upon the company's financial plans or position.

The new \$25,000,000 stock issue, except for such portions as may be subscribed, will be held in the company's treasury indefinitely. It will be available for sale without further offer to stockholders whenever an opportunity presents itself.

(5) Admitted to List.—It was announced Feb. 15, 1917, that an additional \$25,000,000 capital stock or this company had been admitted to the list by the New York Stock Exchange.

	1916	1915
December gross	\$16,159,949	\$15,936,075
Net after taxes	4,963,261	5,043,194
Surp. aft. chgs.	2,760,512	3,070,082
12 mos. gross	201,585,049	168,118,294
Net after taxes	63,347,224	50,125,313
Surp. aft. chgs.	42,907,622	26,818,860

(7) Comment on Yearly Earnings.—On Feb. 24, 1917, the "Wall Street Journal" said, in part:

"New York Central's application to the Stock Exchange for the listing of the \$25,000,000 vainly offered to the stockholders contains a full income account for 11 months, which simply confirms the showing of the monthly statements. It gives the final balance, after deducting 11-12 of the annual dividend requirements, as \$30,915,686. The road earned 16.95% on its stock in 11 months, or at the annual rate of 18.65%.

"Higher operating costs were reflected in a decrease in surplus for December, which item was \$2,751,000, as against a little more than \$3,000,000 for December, 1915. For the entire year the surplus available for dividends was \$45,650,200, or 18.28% on the stock. The balance remaining after the full year's dividends of 5% on \$249,595,400 stock was, roughly \$33,200,000. These figures include the results of the lease of the Boston & Albany, but not the undivided surpluses of independently operated subsidiaries, such as Michigan Central, Big Four and Pittsburgh & Lake Erie.

"New York Central's balance sheet, as of Nov. 30, 1916, shows 'cash and other assets' of \$77,300,000, but this includes such items as materials and supplies of \$15,000,000 or more. Against the total current assets are current liabilities of \$53,375,000. Net working capital thus appears to have been about \$24,000,000. But this balance sheet is so crudely condensed as to be worthless for comparative or analytical purposes.

"If the Stock Exchange authorities desire to make the balance sheet embodied in a listing application anything more than a formality they will have to exact a more detailed statement than this one."

—Mar.

	1917	1916
(1) Earnings—		
Jan. gross	\$15,901,873	\$14,889,054
Net after taxes	3,348,385	4,299,202
Surp. after chgs.	1,671,623	2,646,759

(2) Acquisition.—It was announced March 2, 1917, that the New York Second District Public Service Commission had granted permission to the New York Central R. R. Co. to purchase the Fulton Chain Ry. Co. and the Raquette Lake Ry. Co., valued at more than \$600,000, by assuming the indebtedness of the subsidiary lines. This amounts to about \$50,000. The arrangement was made with the consent of the stockholders of the smaller lines.

(3) Bond Guarantee Permit Refused.—A Columbus, O., dispatch March 20, 1917, stated that the Ohio Supreme Court had refused to permit this company to join with Michigan Central, Canada Southern and Canadian Pacific in guaranteeing payment of principal and interest on \$2,000,000 bonds of Toronto, Hamilton & Buffalo Ry. Co. and ordered the Utilities Commission to modify its order.

James Pollitz and Clarence Venner, minority stockholders of New York Central, appealed from the decision of Utilities Commission, and their contention was upheld in part. The court held that New York Central could guarantee bonds of its own companies, but no

—Apr.

	1917	1916
(1) Earnings—		
Feb. gross	\$13,633,817	\$15,231,375

(2) Bond Issue Permit Sought.—Announcement was made April 4, 1917, that this company had applied to the New York First District Public Service Commission for authority to issue \$10,000,000 4½% refunding and improvement mortgage bonds, to be disposed of at not less than 93½ net to the company. The commission set no date for the hearing on the application.

These bonds are to be issued under the company's large blanket mortgage executed early in 1914 for the refunding of existing debt as it matures and to provide for all future bond issues for improvements and acquisitions. Of these bonds \$40,000,000, the total of the issue outstanding, were sold in 1914.

(3) Bond Issue Permit Sought.—Announced at Albany, N. Y., April 12, 1917, that this company had asked for authority to issue \$10,000,000 4½% refunding and improvement mortgage bonds.

(4) Branch Line.—On April 12, 1917, Supt. D. T. Murray, of this company, stated that a new railroad from Hartford, O., to Farrell, Pa., touching Sharon, Pa., would be constructed. He was not able to say when construction would be started. This link will connect the Shenango Valley with Lake Erie at Ashtabula, O. It will mean less freight miles between the Shenango Valley and Lake Erie ore ports. The Shenango Valley freight will be routed over the new Farrell-Nutwood division and the Mahoning Valley freight will continue to be routed by way of Coalburg.

(5) \$10,000,000 One-Year Notes Sold to J. P. Morgan & Co. in Place of Bonds.—On April 18, 1917, this company completed a deal for the sale to J. P. Morgan & Co. \$10,000,000 one-year notes. They were sold in place of \$10,000,000 refunding and improvement bonds, application for authority to issue which is pending before the New York Second District Public Service Commission. The Government bond issue was considered an obstacle to the offering of the bonds at this time. Hence the notes were substituted.

JANUARY 1 TO APRIL 30, 1917

“(6) \$10,000,000 Notes Sold Privately.—On April 18, 1917, the “New York Times” said J. P. Morgan & Co., purchasers of the \$10,000,000 one-year 4½% notes of this company, had offered them privately on a 4.75% basis, and that the entire amount had been quickly placed.

“(7) Report, Year Ended Dec. 31, 1916, shows operating revenues of \$201,585,000, an increase of \$33,672,000 over 1915. Although expenses increased by \$20,344,000, the net revenue from railway operations amounted to \$71,846,000, an increase of \$13,328,000 compared with the figures for the previous year. The gross income aggregated nearly \$86,000,000, an increase of more than \$19,000,000 compared with 1915.

Among the interesting features of the report is the setting aside from net income \$2,500,000 for equipment depreciation account, after the payment of \$12,466,811 in dividends, leaving a surplus of \$30,692,606. This is more than double the surplus of the previous year, when nothing was set aside for depreciation of equipment.

The report also shows that the income derived from dividends from subsidiary companies amounted to \$11,099,697, an increase of more than \$4,000,000 compared with 1915.

“(8) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Miles operated—	5,688.79	5,640.23
Gross revenue—	\$201,585,049	\$167,912,333
Net after taxes—	63,347,223	50,178,735
Surp. after chgs.	45,659,217	27,711,473
Bal. after div. & deprec'n —	30,692,606	15,244,969

“(9) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss corporate surplus of \$65,642,319, compared with \$37,550,480 Dec. 31, 1915.

“(10) Earned \$18.28 a Share on Capital in 1916.—This company's 1916 net income of \$45,659,217 is equal to \$18.28 a share earned on 2,495,905 shares of capital stock, compared with \$11.10 a share earned in 1915.

“(11) 1916 Year Remarkable, Says Pres. Smith.—Pres. A. H. Smith, of this company, in commenting on the 1916 report, said, in part: “The year 1916 was remarkable in many ways. The extraordinary business pressure growing out of the demand for munitions, foodstuffs and other materials for export produced the largest traffic in the history of the road. For a part of the year this growth in traffic was profitable because the plant was adequate in condition and capacity.

“With the congestion of terminals which later developed, however, together with many changes in the markets reached by various productions upon our line, we arrived at a point where additional business was sometimes unprofitable because efficiency involved a dispatch of business and a co-operation by patrons that did not develop ratably with the demand for transportation.

“The causes for this are essentially beyond the company's control.

“Equipment is not the limiting factor so much as the facilities for the use of the equipment and the prompt co-operation of shippers and consignees in relieving the company from protracted and costly custody of traffic.

“The impressive fact is, therefore, that for additional growth of traffic beyond that witnessed during the year 1916 there are required in many places large investments in terminals and other facilities that will need extensive financial provision when reached.

“Because of the unusual demand for labor and the high prices offered by industries there has been difficulty in keeping full forces at shops, terminals and maintenance work, and there have been sporadic interruptions, which had to be remedied locally.

“It is not surprising, however, that the conditions and times have had such effect, but rather gratifying that we have cause to acknowledge the services rendered under these trying conditions by the officers and employees of the company, to whom thanks are hereby recorded.”

NEW YORK CHANCE MINING CO.

“(1) Proposed Consolidation.—See Batchelder Mining Co.—Item No. 1.

NEW YORK, CHICAGO & ST. LOUIS R. R. CO.

(1) Earnings—	1916	1915
Nov. gross—	\$1,300,267	\$1,230,289

“(2) Equipment Trusts.—It was announced Feb. 17, 1917, that this company had applied to the Ohio Public Utilities Commission for permission to issue \$3,800,000 equipment trust certificates, proceeds to be used in purchasing new equipment of 1,000 steel underframe automobile box cars, 35 Mikado freight locomotives, 10 switch engines and 750 hopper cars.

—Mar.

(1) Earnings—	1917	1916
January gross—	\$1,339,872	\$1,280,212
Net after taxes—	207,542	280,907

“(2) Equipment Trust Issue Authorized.—Announcement was made March 8, 1917, that the Ohio Utilities Commission had granted authority to this company to issue \$3,800,000 4½% trust certificates, to sell at 95, proceeds to be used in buying new equipment.

“(3) Equipment Trust Certificates Authorized.—See Long Island R. R.—Item No. 10.

—Apr.

(1) Earnings—	1917	1916
Feb. gross—	\$1,158,280	\$1,190,125
Net after taxes—	107,951	256,820
2 mos. gross—	2,408,152	2,450,338
Net after taxes—	315,493	543,728

“(2) Equipment Trust Issue Placed Privately.—William A. Read & Co. stated April 18, 1917, that they had placed privately practically the whole issue of \$3,800,000 5% sinking fund equipment trust certificates of this company.

The company agreed to pay the present normal income tax on these obligations. The price of the equipment trusts is 95.16, netting investors 5½%.

NEW YORK CONNECTING R. R.

“(1) Construction Work.—See Pennsylvania R. R. Co.—Item No. 1.

“(2) Construction Progress.—It was stated Jan. 17, 1917, that the opening of this company's line again had been delayed. There are motive-power questions yet to be worked out as regards freight-train movement along the new route. It is expected, however, that it will be in operation in April.

A link for through passenger train service between New England and the South and West will thus be afforded.

Cost to date has been about \$27,000,000. With commencement of operation, interest on the outstanding bonds, which has so far been charged to construction, will become a charge against the New Haven and the Pennsylvania, as equal owners of the road. It will be able to earn a return upon the investment, it would seem, only as it saves expense in comparison with existing routes or develops new business.

The Pennsylvania and the New York Connecting R. R. will be allotted, for use of the nine miles of line between the Pennsylvania terminal in New York City and the junction with the New Haven's tracks in the Bronx, compensation at the same rate per mile as the New York Central now receives for use of the 11 miles of its Harlem River division entering the Grand Central Station.

It is understood that numerous trains of the New Haven that now terminate their runs in the Metropolis will be routed to and from the Pennsylvania Station, instead of the Grand Central.

One of the greatest immediate advantages from the opening of the Connecting road will be relief to freight-traffic congestion at the western end of the New Haven. This will come about through substituting a short ferriage of freight cars in upper New York harbor in the vicinity of Bay Ridge, instead of continuing the present costly and slow 14-mile transfer through the busy waters of the lower harbor.

—Mar.

“(1) Dedicated to Public.—It was announced March 9, 1917, that, preparatory to the opening of this railroad—the Hell Gate Bridge Route—for through passenger service between New England and the West and South, the property on that date was dedicated to the service of the public by Samuel Rea, Pres. of the Pennsylvania R. R. Co. The dedication took place in the course of the inspection trip over the line by a party of directors and officers of the Pennsylvania R. R. and the New York, New Haven & Hartford R. R., by which the Connecting R. R. and the Hell Gate Bridge were jointly constructed.

The special train which conveyed the inspection party was the first train operated over the New York Connecting R. R.

In accepting the property from the hands of Mr. Lindenthall, the designer of the bridge, Mr. Rea said in part:

“The New York Connecting R. R. Co. was incorporated a quarter of a century ago, and its railroad and bridge have taken four years to construct. It exemplifies great engineering skill in its design and construction, and has cost over \$27,000,000 of money provided by the public on the guarantee of the Pennsylvania and New Haven systems.

“This railroad, with its East River bridge, on which we stand, is transferred to the New York, New Haven & Hartford R. R. Co. for operation as a part of its system, to replace the river service over the Hudson and East Rivers. It completes the direct rail connection, via New York City between the Pennsylvania and New Haven systems, and between the New England States and the States lying west and south of the Hudson and East Rivers.”

On behalf of the New York, New Haven & Hartford R. R., E. B. Buckland, Vice-Pres. of that company, acknowledged acceptance of the New York Connecting R. R. for the purpose of operation.

“(2) Passenger Service Agreement Approved.—See New York, New Haven & Hartford R. R. Co.—Item No. 11.

—Apr.

“(1) Bond Issue Permit Sought.—It was announced April 11, 1917, that application had been made to the New York First District Public Service Commission by this company, which is controlled by the Pennsylvania and the New York, New Haven & Hartford railroad companies, for authority to make an additional issue of \$1,500,000 4½% gold bonds under the mortgage dated May 31, 1913, to the Guaranty Trust Co., for \$30,000,000. The bonds to be issued are to bear date of Aug. 1, 1913, and to run for 40 years, maturing in 1953. The proceeds of the sale are to be applied for the completion of the railroad, the acquisition and improvement of real estate, additions and betterments and other corporate purposes.

There have already been issued under the first mortgage \$24,000,000 in three separate amounts of \$11,000,000, \$5,000,000 and \$8,000,000, respectively. The additional \$1,500,000 is requested for the completion of the work. The Public Service Commission fixed April 23 as the date for a public hearing on the application.

NEW YORK CONSOLIDATED R. R. CO.

“(1) Traffic, December, 1916.—On Feb. 20, 1917, the New York First District Public Service Commission issued a statement of passenger traffic on the lines operated by this company, show-

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

ing a total of 18,032,255 passengers carried during December, 1916, compared with 15,304,614 passengers handled the corresponding month in 1915, an increase of 2,727,641 passengers.

—Apr.

⁽¹⁾ Traffic, February, on Operated Lines.—On April 14, 1917, the New York First District Public Service Commission issued a statement of passenger traffic on the lines operated by this company for February, 1917.

Passengers carried totalled 16,206,078, compared with 14,734,238 in February, 1916, an increase of 1,571,840, or more than 10%. The increase for the first month of 1917 was about 20%.

Traffic returns from the Brooklyn Bridge section in Manhattan and the Lexington Ave., Fifth Ave., Brighton Beach and Sea Beach lines in Brooklyn continue to show a considerable falling off. February's decrease over the Fifth Ave. line alone amounted to more than 43%, compared with the corresponding month in 1916. The decrease in January, 1917, was only 30%.

Traffic through the six stations on the Culver Line to Coney Island showed an increase of more than 313% in February.

Traffic through the Centre Street loop in February showed an increase of more than 22%, compared with February, 1916, the gain for the Chambers Street station, amounting to 45%. Traffic through all the stations on the Fourth and New Utrecht Ave. divisions continues to show gains.

NEW YORK COUNTY NATIONAL BANK.

⁽¹⁾ New Directors.—Announced Jan. 9, 1917, that at the annual meeting of the stockholders of this bank Frank R. Leland and George L. Sherer were elected to fill vacancies on the board.

NEW YORK DISTRICT REALTY CORP.

⁽¹⁾ Sale of Bonds.—The purchase of \$1,100,000 first mortgage 6% serial bonds secured by the new Public Utility Steam Plant, New York, leased and operated by the New York Steam Co., was announced on April 5, 1917. The issuing corporation is the New York District Realty Corp., which is closely allied with the New York Steam Co. The issuance of these bonds completes the financing of this new plant, which is to serve the entire downtown district with steam for heating and power purposes.

⁽¹⁾ To be Taken over by New Company.—See National Conduit & Cable Co.—Item No. 4.

NEW YORK & HONDURAS ROSARIO MINING CO.

⁽¹⁾ Extra Dividend.—Announced Jan. 9, 1917, that this company had declared the regular quarterly dividend of 3% and extra of 2%, payable Jan. 27 to stock of record Jan. 17.

—Apr.

⁽¹⁾ New Directors.—It was announced April 4, 1917, that stockholders of this company had re-elected the retiring directors, with the addition of W. L. Saunders, chairman of the board of the Ingersoll-Rand Co., and William C. Langley of William C. Langley & Co. At a subsequent meeting of the board, retiring officers of the company were re-elected and the committees re-appointed.

⁽²⁾ Extra Dividend.—Announced April 10, 1917, that this company had declared an extra dividend of 2%, in addition to a quarterly dividend of 3%, payable April 27 to stock of record April 17. This is the same as declared three months previously.

NEW YORK HOTEL STATLER CO., INC., BUFFALO, N. Y.

⁽¹⁾ Incorporated on Jan. 19, 1917, in New York with a capital of 20,000 shares \$100 each, 40,000 shares no par value; to carry on business with \$2,200,000; to conduct hotel, restaurant, catering and cafe business. Incorporators: E. J. Smith, E. M. Statler and F. J. Matchette, 101 Park Ave., Manhattan, N. Y.

NEW YORK-KENTUCKY OIL & GAS CO., INC.

⁽¹⁾ Incorporated on March 26, 1917, in Delaware, with a capital of \$250,000 to acquire and develop by purchase or otherwise oil and gas lands. Incorporators: F. O'Keefe, Geo. G. Steigler and E. E. Wright, Wilmington, Del.

NEW YORK LIFE INSURANCE CO.

⁽¹⁾ Annual Report, 1916.—It was stated Jan. 10, 1917, that resources exceeding \$866,000,000 are shown by this company, in its 72d annual report. Darwin P. Kingsley, Pres., pointed out that this sum represented less than ten days' cost of the European war.

Total payments to policy holders in 1916 of \$81,000,000 are less, it is claimed, than one day's war expenditures.

The amount of insurance in force in the company at the end of 1916 was over \$2,500,000,000, slightly less than the monthly increase of Europe's war debts in that year.

New business of the company for 1916 was more than \$263,000,000, of which practically \$240,000,000 was secured in the United States. Total income for the year aggregated \$138,559,396, of which \$10,241,497 was derived from new business and \$28,843,015 from renewal of premiums.

⁽³⁾ Locomotives Ordered.—See American Locomotive Co.—Item No. 1.

⁽⁴⁾ December Earnings, Estimated.—On Jan. 12, 1917, the "Boston News Bureau" said that preliminary returns for December indicated \$700,000 surplus earnings for that month after charges. This contrasts with a \$25,000 deficit in December, 1915. Moreover, the other Winter months should compare very favorably with those of a year previously.

Although gross revenues show as much business being done as in 1915 at this time, the New Haven lines are handling their freight traffic with only about 42,000 cars on the rails, against some 55,000 a year previously.

It is understood that New Haven's bankers have given assurances that there will be no difficulty as regards renewal of the approximately \$42,000,000 floating debt due May 1, 1917. This consists of \$25,000,000 4½% year notes of the railroad itself and about \$17,000,000 three-year 6% collateral debentures of New England Navigation Co.

Of each of these debts, the management has paid off some \$3,000,000 from the original total.

⁽⁵⁾ Legislation Planned for Boston & Maine.—See Boston & Maine R. R.—Item No. 4.

⁽⁶⁾ Locomotive Order.—See American Locomotive Co.—Item No. 2.

⁽⁷⁾ Construction Progress on Connecting R. R.—See New York Connecting R. R.—Item No. 2.

⁽⁸⁾ Receivership Decision in Steamship Case.—See Metropolitan Steamship Co.—Item No. 2.

—Feb.

⁽¹⁾ Denial.—On Feb. 1, 1917, the "Wall Street Journal" said it could be asserted on the best of authority that the rumors of a possible receivership for this company are absolutely without foundation. All maturities which are due on May 1 will be taken care of and nothing but some drastic legislative action, of which there is no prospect, could by any possibility force the road out of the hands of the stockholders.

Net earnings for the past six months of the current fiscal year were from \$1,000,000 to \$1,400,000 in excess of the previous six months, and everything points to better results in the future, it was stated.

†Deficit.		

⁽³⁾ Denial of Receivership Report.—On Feb. 9, 1917, it was announced that authoritative assurance had been given to the effect that there is no foundation to the report of an impending receivership for this company. The statement, which came from one of the leading officials of the company, was made as a result of inquiries on behalf of 250 members of the Railway Investors' League who own stock in the company.

The management has to meet on May 1, 1917, \$25,000,000 of New Haven notes and \$20,000,000 of New England Navigation Co. notes. Preparations for taking care of both of these issues are well advanced. There is a possibility that the Navigation Co. may be liquidated before May 1.

Permanent financing has not been undertaken, and may be delayed until the company has an opportunity to sell subsidiary companies and properties ordered sold by the courts.

Earnings have been showing improvement. The preceding six months brought in \$5,000,000 net, an increase of \$1,400,000, and estimates for the ensuing half year anticipate \$4,000,000 net.

Edward J. Pearson, the new Vice-Pres., is giving attention to plans calling for large extensions of trackage, strengthening of bridges for larger power, additional equipment, and other improvement in facilities.

Pres. Howard Elliott, it was stated, likely will return to his desk April 1.

⁽⁴⁾ Basis of Billard Settlement.—See Metropolitan Steamship Co.—Item No. 1.

⁽⁵⁾ Statement by Directors.—On Feb. 20, 1917, the directors of this company, after a meeting, gave out a statement in which they said, in part:

"The company has every reason to believe that \$25,000,000 of its direct obligations and the \$18,000,000 remaining of the New England Navigation Co.'s notes in the hands of the public, both of which are due May 1, 1917, will be paid or refunded at or before maturity. The refunding of these for a further

JANUARY 1 TO APRIL 30, 1917

Steamship Co., the Hartford & New York Transportation and the New Bedford-Martha's Vineyard & Nantucket Steamboat Co.

The Board of Directors created a committee of intercorporate relations, which is to consist of the Pres. and Vice-Pres. of the various companies comprising the New Haven system. Mr. Elliott is to be chairman of this committee and work with the various presidents to co-ordinate and harmonize the activities of the various companies.

(14) Results Accomplished by Elliott and Pearson.—On April 20, 1917, the "Boston News Bureau" said: "A more difficult set of problems and complications probably never faced a railroad executive than confronted Howard Elliott when he assumed the presidency of the New York, New Haven & Hartford in 1913. Almost insuperable obstacles lay in his path in the matter of financing, legislation, investigations and public prejudice.

"He has performed creditable service. He has allayed public antipathy and brought the public, the public service bodies and the legislatures to a clearer understanding of the transportation problem. The broad basis has been laid for new progress, provided the financing problem can be solved.

"In this connection the passage of the so-called New Haven 'validation bill' by the Massachusetts Senate in substantially the same form that it was passed by the House and with the 5% dividend provision included, is a step in the right direction. This measure has the approval of the New Haven directors. Also the New Haven management hopes for the authority in both Massachusetts and Connecticut to issue \$50,000,000 pfd. stock to provide for its floating debt.

"Edward J. Pearson, who becomes Pres. of the New Haven on May 1, is a railroad man of broad experience and a strong penchant for achieving new economies and efficiencies in operation. In his capacity as Vice-Pres. in charge of operation he has accomplished important savings in many departments.

"He it was who conceived and worked out the enlargement of freight terminal and switching facilities at West Haven. It is figured that the \$15,000,000 expended in this work at that place will add \$6,000,000 to net earnings in two years. He has also saved \$200,000 annually for the New Haven on its scrap, has saved between \$300,000 and \$400,000 per annum in the purchasing department and has added greatly to the road's motive power. He has also introduced a new welding process in the shops which is resulting in substantial savings.

"The rise in expenses has, of course, been beyond all control of the management. The Adamson law will add approximately \$1,790,000 to the New Haven's labor bill. Coal at present rates is costing at least \$4,000,000 more a year than normally, and increased cost of materials and supplies is adding perhaps another \$5,000,000. But the savings that have been effected in the directions enumerated will in some measure counteract the irresistible rise in operating costs.

"Mr. Pearson has the utmost confidence of the Pennsylvania R. R. interests in the New Haven, and Pennsylvania policies are likely to be to an increasing extent the policies of the New Haven.

(15) Receivership Unless Requests Are Granted by State, Says Director.—A. Hartford, Conn., dispatch April 25, 1917, stated that Pres. Arthur T. Hadley, of Yale University, a director of the New Haven road, told the railroad committee of the General Assembly that unless the road was granted authority by the Assembly to issue \$50,000,000 pfd. stock and to borrow \$25,000,000 additional, a receivership in the interests of the State and the stockholders was the alternative.

(16) Report, Year Ended Dec. 31, 1916, the company having changed its fiscal

year to the calendar, shows income account as follows:

	1916	1915
Gross oper. rev.	\$90,432,167	\$70,106,596
Net oper inc.	23,049,037	22,057,371
Surp. after chgs.	5,564,977	4,659,139

(17) Earned \$3.53 on Capital in 1916.—This company's 1916 net income of \$5,564,977 is equivalent to \$3.53 a share earned on 1,571,199 shares of capital stock, compared with \$2.96 a share earned in 1915.

(18) Volume of Business in 1916 Heavy. Reports Pres. Elliott.—Pres. Howard Elliott, of this company, April 27, 1917, in connection with the 1916 annual report, said, in part: "The volume of business during the past year was exceedingly heavy due partly to the European war and to the expansion of general business throughout New England.

"Total operating revenues show an increase of \$10,325,580, or 14.73% over the previous year.

"Total operating expenses increased \$8,999,812, or 19.84%, over 1915. The increase in operating expenses is due to the unusually severe weather in January, February and March, the very large amount of business offered which caused serious congestion at many points, great unrest among men and many strikes, steadily increasing prices for fuel and material and rising wages.

"Taxes for the year were \$3,005,254, an increase of \$336,550, or 12.61%. Part of this increase in taxes is due to increase in the Federal income tax from 1% to 2% and to Federal capital stock tax and to larger revenues.

"Non-operating income for the year increased \$1,719,763, or 30.88%, due to increased dividends received from the Central New England Ry. Co. and New York, Ontario & Western Ry. Co., and to increased interest received from subsidiary companies.

"Owing to the increased volume of business some of the subsidiary companies were able to pay the interest on their obligations to this company and also to pay some of the back interest due the New Haven Co., which interest had not been taken into the income account of this company unless earned and paid in cash by subsidiary companies.

"Deductions from gross income increased \$1,813,204, or 7.89%, due entirely to hire of equipment, which increased \$2,163,300, or 182.85%, because of congestion of freight, embargoes and lack of facilities by shippers and the railroad which prevented prompt unloading of cars.

"Rent for leased roads, miscellaneous rents and interest on debt show decreases.

"As has been pointed out in the two previous annual reports there will be losses in the sales of some of the properties which must be disposed of under the degree of the Federal Court. No attempt has been made to carry these prospective losses into the balance sheet at the present time as the amount is undetermined and also because the losses will be offset in part by profits in properties of the company which have increased in value.

"The profit and loss surplus of \$12,959,774 represents, therefore, the credit to that account before any readjustments of values of securities or other properties, some of which cannot be made for several years."

NEW YORK & QUEENS COUNTY RY. CO.

(1) Ordered to Complete Line.—It was announced March 8, 1917, that Judge Aspinall, of the Kings County Supreme Court, New York, had issued a writ of mandamus compelling this company to complete construction of its line in accordance with the charter and franchise.

NEW YORK & QUEENS ELECTRIC LIGHT & POWER CO.

(1) Rate Reduction Offered.—On Jan. 24, 1917, it was announced that officials of this company had offered to reduce the maximum rate charged for electric current from 12 cents a kilowatt-hour to 9 cents. The company supplies all of Queens County, N. Y., except the Rockaways. In reply to many complaints concerning the alleged excessive rates, the Public Service Commission began an investigation.

If the offer is accepted by the Commission the new rate will go into effect on April 1, 1917, and will be followed on Jan. 1, 1918, by another reduction to 8½ cents.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

The company also offered to abolish its minimum charge of \$1 a month and substitute for it a meter charge of 60 cents, and to furnish lamps free.

—Apr.

*(1) **Reduced Rate Offer Accepted.**—It was announced April 12, 1917, that the New York First District Public Service Commission, following an investigation instituted in November, 1916, had accepted an offer of this company to reduce its maximum charge for electric current to 9 cents per kilowatt hour, plus a service or meter charge of 60 cents per month. The total charge is not to be at a greater rate than 11 cents per kilowatt hour. On Jan. 1, 1918, if business conditions warrant, a further reduction will be made to 8½ cents, plus the service charge.

The present rate is 12 cents, but with the provision that no monthly bill shall be less than \$1. The company serves most of the Borough of Queens, and the saving to consumers is estimated at \$100,000 per year.

NEW YORK QUININE & CHEMICAL WORKS, LTD., NEW YORK.

*(1) **Capital Reduced.**—On Jan. 29, 1917, the company filed notice at Albany, N. Y., of a reduction in capital stock from \$294,000 to \$10,000.

*(2) **Traffic, December, 1916.**—On Jan. 13, 1917, it was stated that December returns of this company showed a loss of 4,152,896 passengers over December, 1915, and of \$199,986 in revenue. Total passengers carried in December were 13,888,593, against 23,041,699 the previous December.

—Feb.

*(1) **Officers and Directors Re-elected.**—It was announced Feb. 20, 1917, that at the meeting of this company retiring officers and directors were re-elected. No action was taken as to interest on the 5% adjustment income bonds.

*(2) **Interest on Bonds Passed.**—Announcement was made Feb. 27, 1917, that this company had passed the interest on the outstanding \$30,626,977 30-year adjustment mortgage 5% income bonds, due 1942. This interest, which is usually adjusted on the basis of earnings for the six months ended Dec. 31, 1916, would have been due and payable April 1 next.

The action of the directors does not in any way affect either the Interborough Rapid Transit Co. or the Interborough Consolidated Corp. Neither of these companies has assumed any of the obligations of the New York Rys. Co., nor do they own any of the New York Rys. Co. bonds.

—Mar.

*(1) **Comment on Passing of Bond Interest.**—On March 5, 1917, the "Boston News Bureau" said that the decision of this company to pass the semi-annual interest on its \$30,626,977 income bonds simply registered the course of action prophesied when the strike of the Fall of 1916 cut so drastically into the company's gross and net earnings. It was stated at the time that this strike would cost the New York Rys. \$1,000,000 loss in net earnings. This probably about covers the actual loss involved.

It was felt by New York Rys. interests representing the income bonds that not all of this expense should be charged against the New York Rys. That company, it was asserted, carried on the fight for the subway and elevated lines. In other words, the surface lines did the suffering and the subway and elevated gained hugely in gross and net profits. Although technically correct, this argument was not susceptible of statistical demonstration.

New York Rys. directors have done the only thing possible and passed the April distribution. It is felt, however, that six months later some return will be coming to the holders of these bonds.

*(2) **Permit to Purchase Bleeker Street & Fulton Ferry R. R. Stock Sought.**—Pres. Theo. P. Shonts, for this company on April 24, 1917, applied to the New York First District Public Service Commission for authority to purchase 6,842 of the 9,000 shares of stock of the Bleeker Street & Fulton Ferry R. R. Co. at \$28.50, shares having a par value of \$100 each. The company will also purchase any of the remaining shares at the same terms if they are deposited with the Union Trust Co. and if authority is given.

The Bleeker Street Co. was organized in about 1864 and leased in 1876 to the Twenty-third Street Ry. Co., later becoming a part of the system of the old Metropolitan Street Ry. Co. It is stated in the petition that the stock purchase contemplated will assist in completing the plan of reorganization of the Metropolitan system.

The company has not operated any cars for years past except occasional franchise-holders, and has, in fact, formally abandoned parts of its routes, the most important portion now being operated by the New York Rys. Co. being in 14th Street, west of Broadway.

NEW YORK SHIPBUILDING CORP.

A complete description of this company appears in the "Miscellaneous Book" in your card cabinet.

*(1) **Construction.**—It was announced March 9, 1917, that this company, which is enlarging its plant 50% to take care of the construction of the battleships Colorado and Washington, had started work upon four standard 330-foot freighters, which it is building for its own account, and expects to have the vessels completed by the end of 1917.

NEW YORK STATE RYS. CO.

*(1) **Application to List.**—Announced Jan. 11, 1917, that the New York Stock Exchange had received application to list this company's \$6,532,000 additional 50-year first consolidated mortgage bonds, Series A, due Nov. 1, 1962.

*(2) **Passenger Traffic in Rochester.**—It was stated Jan. 19, 1917, that this company carried 69,229,777 passengers in Rochester in 1916, an increase of 18.01% above the preceding year. City cars traveled an aggregate distance in 1916 of 16,210,166 miles, an increase of 7.08% over the previous year. Suburban and interurban subsidiaries of the New York State Railways also showed large increases in passengers and mileage.

*(3) **Listed in New York.**—Announced Jan. 25, 1917, that the New York Stock Exchange had listed \$6,532,000 additional first consolidated mortgage 4½% bonds, Series A, due Nov. 1, 1962, of this company.

*(4) **Merger Authorized.**—See Rochester Ry. & Light Co.—Item No. 2.

—Feb.

*(1) **Lower Rate Permit Denied.**—It was announced Feb. 5, 1917, that the New York Second District Public Service Commission, finding that the rate of this company between Utica and Iliou is 1.23 cents a mile lower than any other comparable rate in the State, had denied a petition for a lower rate.

The commission found that while 1,000 residents of Iliou are employed in the Remington Arms, the Remington Typewriter and the Library Bureau plants, most of these are employed because of extraordinary activity in filling war contracts. "Were it probable that this activity would be continuous," the Commission says, "a commutation rate offering some reduction might be practicable, but the Commission finds that on account of the difficulty in restoring such a commutation rate to remunerative level when traffic drops off, no reduction should now be made."

*(2) **Report, Year Ended Dec. 31, 1916,** shows earnings as follows:

	1916	1915
Gross	\$8,256,470	\$7,264,675
Net	3,103,271	2,777,405
Surp. after chgs., pfd. and com. divs.	246,265	99,534

*(3) **Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$1,754,529.

NEW YORK STEAM CO.

*(1) **Development.**—It was stated Jan. 26, 1917, that this company's power station at Burling Slip and Water St., New York, had been progressing slowly on account of difficulties in getting materials, but already 8,000 h. p. out of 24,000 are being generated. The company plans to have the plant in full operation by the end of March.

—Feb.

*(1) **Bond Issue Authorized.**—It was announced Feb. 8, 1917, that the New York First District Public Service Commission had granted the application of this company for the execution of a mortgage to the Union Trust Co. of New York for \$10,000,000 and for the issuance of bonds thereunder in the amount of \$2,850,000 immediately.

The proceeds of the bond issue are to be used for the acquisition of property, for the construction, completion, extension and improvement of its facilities, and for the discharge or refunding of its obligations. Of this amount, \$285,000 is to be applied as discount and expenses of the sale of the bonds, and this amount may be charged to operating expenses or to income.

The bonds are to be dated Nov. 1, 1918, and to mature on Nov. 1, 1941. They are redeemable at 103, plus accrued interest at any semi-annual period. They shall bear interest at 6%.

The bonds must be sold to net the company not less than 90% of the face value.

²(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$28,786,912, compared with \$22,933,374 Dec. 31, 1915.

²(4) Operations, 1916.—The report of this company for the year ended Dec. 31, 1916, says that owing to the continued abnormal business throughout the year the demand for additional telephone and the increasing use of the service has proven a great tax upon the property and the organization. The result of these unprecedented conditions was reflected in the earnings, the book figures indicating a net return of 8.37% to investment, i. e., average plant and working capital, as compared with 6.70% for the previous year.

Properly and fully to provide for the increasing demands large property additions must be made during the current year, plans for which are under way.

Reference was made to the bonus to employees within the service three months or more and whose annual compensation was less than \$5,000, the total amount involved being \$1,900,000, which was shared in by 45,828 employees, or 88.5% of all employees in the eastern group of Bell operating companies.

On Dec. 31 there were 1,361,179 stations in the system directly operated by the company and its local connecting companies, an increase during the year of 114,656. Including associated and connecting companies there were in service at the end of the year 2,393,179 stations, an increase of 193,760 over the previous year.

NEW YORK TRANSATLANTIC STEAMSHIP CO.

¹(1) Compromise Approval Refused.—It was announced at New York, Jan. 23, 1917, that Judge Mayer in the U. S. District Court, had refused to approve a compromise reached by the Pres. of the prize court in England in regard to the seizure of the steamship "Maracas," and the cargo of meats and other packing products.

The New York Transatlantic Steamship Co. is going into bankruptcy. The company was incorporated in New York in 1914. In the fall of that year the company purchased from Trinidad Shipping & Trading Co., an English corporation, the steamship "Maracas," then under the British flag. The company placed the vessel under American registration and the American flag.

On March 9, 1915, the "Maracas" was seized by the British cruiser "Hilary," and taken to Kirkwall, Scotland, and afterward to the port of Hull, in England, as a prize.

On July 8, 1915, a petition in bankruptcy was filed in the United States District Court against the company and Judge Mayer gave his consent to the sale of the "Maracas" at £28,000 sterling.

The vessel was subsequently sold for \$30,000, of which \$9,000 was reserved as prize money, leaving \$21,000 for the owners. To this the packers who were paid in full for the cargo added \$5,000, and Judge Mayer now refuses to sanction the compromise of the difference of \$10,000.

NEW YORK TRANSIT CO.

¹(1) New Director.—It was announced Jan. 30, 1917, that at the annual meeting of this company James M. Sloan was elected a director to fill the vacancy caused by the death of H. R. Rowe. Other retiring directors were re-elected. At the directors' meeting the retiring officers were re-elected.

—Feb.

²(1) Income Account, Year Ended Dec. 31, 1916, compares as follows:

NIAGARA FALLS POWER CO.

	1916	1915
² (1) Report, Year Ended Dec. 31, 1916, shows:		
Gross	\$3,062,835	\$2,685,598
Net	2,210,939	1,896,838
Surp. after chgs.	1,362,116	1,028,057

²(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$6,089,184, compared with \$5,075,080 Dec. 31, 1915.

²(3) Statement by President.—On Feb. 2, 1917, it was stated that Pres. Edward A. Wicks had announced that the requirements of the Canadian Government had caused a decrease of 45,000 horsepower in the exported power of the Canadian Niagara Power Co. This increased the distress caused by the shortage of power in and around Buffalo.

The situation has been met partly by a grant of greater water consumption by the United States Government and the installation of the first of the Buffalo General Electric Co.'s steam units of 25,000 horsepower.

—Apr.

	1917	1916
⁴ (1) Combined Income Account, Quarter Ended March 31, 1917, of this company and the Canadian Niagara Power Co. show:		
Gross earnings	\$771,143	\$729,861
Net after taxes	524,342	520,661
Surp. after chgs.	314,590	306,222

NIAGARA, LOCKPORT & ONTARIO POWER CO.

²(1) Earnings, November and 11 Months, of this company and Salmon River Power Co., combined, are as follows, gross being after deduction of cost of purchased power:

	1916	1915
Nov. gross	\$126,154	\$92,261
Net after taxes	89,690	70,975
Bal. for int. and sinking funds	76,393	60,918
11 mos. gross	1,177,465	868,025
Net	859,068	628,944
Bal. for int. and sinking fund	735,750	572,777

For the 11 months, interest on first mortgage bonds of both companies, including bonds about to be issued for steam plant and other additions, was \$437,640, which included interest of \$22,856 on bonds not outstanding but held in the sinking fund.

NIAGARA OXYGEN CO.

²(1) Taken Over.—See Air Reduction Co.—Item No. 1.

NICHOLS COPPER CO.

²(1) Operations.—On March 12, 1917, it was stated that, despite reports to the contrary, this company's refinery at Long Island City was running. Workers to the number of 475 returned to the plant, leaving more than 1,000 still out on strike.

The company wrote the strikers, requesting them to return, and pointing out, among other things, that wages were voluntarily raised in 1916, the increase amounting to something like 8 cents an hour.

JANUARY 1 TO APRIL 30, 1917

NICKLAS MINING CO.

¹(1) Bonds.—It was stated Feb. 13, 1917, that this company had issued \$300,000 first mortgage 6% bonds, principal and interest being guaranteed by Breitung & Co., New York.

The mine is located in Nevada, 13 miles from the Southern Pacific R. R., to which transportation is by motor.

Under the previous management, with primitive methods the mine produced several thousand tons of high grade ore at a profit. Samples of ore taken at various points show an average value of \$9.55 per ton.

NILES-BEMENT-POND CO.

¹(1) Increased Dividend on Common.—Announced Feb. 7, 1917, that this company had declared the regular quarterly dividend of 1 1/4% on the pfd. and a dividend of 3% on the common. The last previous dividend on the common was 2 1/4%. The pfd. is payable Feb. 20 to stock of record Feb. 8, and the common March 20 to stock of record March 7.

¹(2) New Director.—Announced Feb. 7, 1917, that at the annual meeting of this company Thomas Bekitt was elected to the board, whose membership was reduced to 11 by the retirement of J. P. McKinney. R. C. McKinney, formerly chairman, died in October, 1916, and nobody was elected to succeed him.

At the meeting of directors retiring officers were re-elected, with the exception of A. C. Stebbins, who was retired as a Vice-Pres. Mr. Stebbins remains a director.

¹(3) Report, Year Ended Dec. 30, 1916, shows net profits amounting to \$5,090,259, an increase of \$1,320,283 over 1915. After deducting \$95,742 in pfd. dividends, the balance was \$4,994,517, equal to 58.75% on the \$8,500,000 common stock, compared with 43.22% earned in 1915.

¹(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$10,784,546, compared with \$6,907,141 Dec. 31, 1915.

NINTH NATIONAL BANK, PHILADELPHIA.

¹(1) Stock Increase Planned.—It was announced Feb. 28, 1917, that this bank would increase its capital stock \$100,000 to \$400,000. A special meeting of stockholders will be held April 3 to approve the increase. If approved, stockholders will be offered the new stock as of record April 5 at \$200 a share in proportion of one share to three. The last sale of the stock was at \$330 a share. The dividend rate is 12%. During the last five years deposits of the bank have doubled and now total \$6,500,000. The Ninth National is the largest outlying commercial bank in Philadelphia.

NIPISSING MINING CO., LTD.

¹(1) Report, Year Ended Dec. 31, 1916, of this company, controlled through ownership by the Nipissing Mines Co., shows:

	1916	1915
Ore value.....	\$3,027,609	\$2,222,256
Other income....	48,559	34,176
Total.....	3,076,228	2,256,432
Surp. after chgs.	2,028,866	1,403,485

¹(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,980,127, compared with \$1,786,261.

¹(3) Earned \$811 a Share in 1916.—This company's 1916 surplus after charges of \$2,028,866 is equivalent to \$811.14 a share earned on 2,500 shares of capital stock.

NIPISSING MINES CO.

¹(1) Production, December, 1916.—Announced Jan. 12, 1917, that this company in December mined ore of an estimated value of \$259,886 and shipped bullion from Nipissing and customs ores at an estimated net value of \$301,001.

No new important developments were encountered during the month, but current work of all kinds generally continued to be favorable.

—Feb.

¹(1) Production, December, 1916, Estimated.—It was stated Feb. 13, 1917, that

this company's production for December, 1916, is estimated at \$282,698, showing a profit of \$195,989.

¹(2) Production, January, 1917.—On Feb. 20, 1917, it was stated that the monthly report of R. B. Watson showed that during January this company mined ore of an estimated value of \$173,988 and made shipments of an estimated value of \$301,692. January production was less than usual on account of the closing of both mills for repairs and equipment.

—Mar.

¹(1) January Profits, Estimated.—It was stated March 1, 1917, that estimated profits of this company for January were \$95,249, somewhat under normal, due to a clean-up at the plant which precluded capacity operations. The production, as estimated, amounted to \$173,988.

The advance in silver has had a very beneficial effect on Nipissing, both as to current earnings and in raising the values of ore in reserve.

The company lately started an innovation in the shipment of bullion across the Canadian continent on its way to the Chinese and Indian markets, at times the most influential in the world.

¹(2) Production Profit, February, 1917.—It was stated March 19, 1917, that this company's production for February is valued at approximately \$271,527, showing a profit of \$192,873, compared with production in January valued at \$173,989, with a profit of \$92,249.

—Apr.

¹(1) Production, March, 1917.—This company April 14, 1917, reported ore mined during March as valued at approximately \$256,953. During the same period bullion from Nipissing and customs ore contained an estimated net value of \$401,038. The high-grade mill treated 117 tons and shipped 533,561 fine ounces of bullion. The low-grade mill treated 6,415 tons.

¹(2) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross.....	\$1,835,140	\$1,220,142
Net income.....	1,805,243	1,178,979
Surp. after div.....	5,243	21,021

¹(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$17,139, compared with \$7,895 Dec. 31, 1915.

¹(4) Earned \$1.50 a Share on Stock in 1916.—This company's 1916 net income of \$1,805,243 is equivalent to \$1.50 a share earned on 1,200,000 shares of capital stock.

¹(5) President Says 1916 Was One of Most Profitable in Company's History.—Pres. E. P. Earle, of this company, in his annual report to stockholders, said: "The past year was, with respect to net value of silver recovered through operations of Nipissing, one of the most profitable in its history. The high average price received during the year for silver, viz., 68.79 cents per ounce, was responsible for this very satisfactory result."

"On account of the abnormal cost of labor and supplies and because of largely increased taxes the production cost per ounce of silver was 24.13 cents, an advance over the cost of the previous year of about 5 cents per ounce."

"The production of fine silver was 4,044,668 ounces, the gross value being \$3,027,608. Production costs were \$976,185. The net result was \$2,051,483. The surplus was increased \$193,865 and now stands at \$1,980,127."

"Stockholders received during the year \$1,800,000, as against \$1,200,000 received during the previous year."

"The known ore reserves contain 9,153,139 ounces of silver, compared with 8,921,718 ounces the previous year. The value of the silver in the ore reserves is largely in excess of the value a year ago, by reason of the advance of approximately 27 cents per ounce in the price of silver."

"The mines and mills of the Nipissing Mines Co. are in excellent condition, and it is confidently expected that results this year will compare favorably with those of 1916."

¹(6) Report, 1916, of Controlled Co.—See Nipissing Mining Co., Ltd.—Item No. 1.

NIXON-NEVADA MINING CO.

¹(1) Stock Listed on New York Curb.—Announced Feb. 16, 1917, that the New York Curb Market Association had listed and admitted to trading 1,000,000 shares of the capital stock of this company, par \$1. The Registrar & Transfer Co. is the transfer agent and registrar.

NOME SUNSET MINES, INC.

¹(1) Incorporated on Jan. 20, 1917, in Delaware, with a capital stock of \$2,500,000, to engage in mining of all kinds. Incorporators: John L. Tobin, New York; Alexander F. McIntosh and Jas. Halpin, Nome, Alaska.

NONPAREIL MINES CO., SPOKANE, WASH.

¹(1) Incorporated on March 5, 1917, in Washington, with a capital of \$1,500,000. Incorporators: Clarence Marsh, Sr., and J. F. Blake.

NON-RUST TERNE PLATE CO.

¹(1) Incorporated on April 28, 1917, in Delaware, with a capital of \$500,000, to manufacture tin and tin plate. Incorporators: M. L. Hills, F. J. Cantlin and J. R. Kearns, New York.

NOOKSACK MINING CO., SEATTLE, WASH.

¹(1) Incorporated on Feb. 2, 1917, in Washington, with a capital of \$1,000,000. Incorporators: J. C. Eden, Wm. Jennings and S. L. Barnes.

NORFOLK & PORTSMOUTH BELT LINE R. R. CO.

¹(1) New President.—Announced April 11, 1917, that George S. Shafer, Gen. Mgr. of this company, had been elected Pres., succeeding W. A. Patten, of Philadelphia, who is Pres. of the New York, Philadelphia & Norfolk R. R. The company, it is stated, has completed plans for proceeding with the extension of its tracks to the municipal docks.

¹(2) New Director.—It was announced March 14, 1917, that at this company's annual meeting Adrian H. Larkin, New York, had been added to the directorate and retiring directors had been re-elected.

¹(3) Sale of Notes.—It was stated on March 26, 1917, that the company had sold to Harris, Forbes & Co. \$1,000,000 3-year 6% notes secured by \$1,575,000, par value, Norfolk & Southern first and refunding mortgage 5s of 1961. Proceeds will be used to retire a small underlying bond issue, for purchase of additional equipment and other improvements.

¹(4) New Director.—At the annual meeting held in March, 1917, A. H. Larkin of New York was elected a director of this company.

—Apr.

¹(1) Officers Re-elected.—Announced April 4, 1917, that at the organization meeting of directors of this company officers were re-elected for the ensuing year.

JANUARY 1 TO APRIL 30, 1917

• NORFOLK & WESTERN RY.

(1) Improvement Plans for 1917.—On Dec. 27, 1916, it was announced that this company contemplates building in 1917 two steamer warehouses at Lam-berts Point, Va., to cost \$1,800,000; second track from Alawick to Jee, W. Va., \$200,000; reconstruction of bridges, \$661,800, and extension of electrification from West Vivian to Farm, W. Va., and also on the Bluestone Branch, \$1,337,000. Total proposed expenditures, \$3,998,800, besides the installation of automatic signals on 120 miles of line, the cost of which is not stated.

During 1916 the company built 11.05 miles of second track, all in Virginia; side tracks, yard tracks, etc., 64.44 miles; freight station and yard changes at Winston-Salem, N. C., \$187,000, and it has also installed 70 miles of automatic block signals.

The system now has 743 miles of line controlled with automatic block signals. It operates passenger trains on 1,913 miles of line, of which 681 miles have automatic block signals and 905 miles non-automatic block signals.

(3) Pig Iron Rate Controversy Settled.—See Low Moor Iron Co.—Item No. 1.

(4) Extra Dividend on Common.—Announced Jan. 24, 1917, that this company had declared the regular quarterly dividend of 1% and an extra of \$1 per share on the common stock, both payable March 19 to stock of record Feb. 28.

(5) Comment on Dividends.—On Jan. 26, 1917, the "Wall Street Journal" said this is the one railroad company whose directors apparently believe in giving the stockholders the direct benefit of the extraordinary volume of current business. The "regular" dividend payable in June, 1916, 1%, raised the stock from a 6% to a 7% basis, and at the same time an extra dividend of 1% was paid. This made a total for the calendar year 1916 of 7%.

The dividend for 1917 will not be less than 8%, unless something revolutionary takes place in the company's traffic. If the extra dividend should be paid again in June the total for the year would be 9%. In some quarters it is expected that this will be done.

In the four years previous to 1916, Norfolk & Western paid 6% dividends; in 1911, 5 1/4%; in 1910, 5%; in 1909, 4 1/2%; in 1908, 4%; in 1907, 5%. The first dividend on the common stock after the reorganization of 1896 was paid in 1902, in which year two declarations of 1% each were made.

(2) Report, Six Months Ended Dec. 31, 1916.—It was announced March 22, 1917, that this company had issued its six months' report, changing its fiscal year to the calendar year. It shows a surplus for the common stock of \$10,336,739, equal to 8.7% on \$119,175,400 common stock outstanding Dec. 31. Surplus for the common stock in the calendar year 1916 was \$20,880,401, equal to 17.5% on the common stock.

(3) Contract for New Freight Depot.—Announced March 20, 1917, that this company had let the contract for its new freight depot at Roanoke, Va. It was stated it would cost \$180,000, but, including all improvements, the amount would be \$380,000.

(4) Income Account, Six Months Ended Dec. 31, 1916, compares as follows:

	6 mos. Ending Dec. 31, 1916	Year Ending Dec. 31, 1915
Gross.....	\$30,307,924	\$29,449,981

2 mos. gross.....	9,489,496	9,126,771
Net after taxes.....	3,453,432	3,610,407
Surp. after chgs.....	3,394,054	3,245,541

(2) Change in Fiscal Year and Annual Meeting Date.—It was announced April 12, 1917, that at a special meeting of this company's stockholders, held at Roanoke, Va., the fiscal year was changed to end Dec. 31, instead of June 30, and the date of the annual meeting was changed from the second Thursday in October to the second Thursday in April of each year.

The term of office of directors was extended to the second Thursday of April, 1918.

(3) Comment on February Earnings.—On April 10, 1917, the "Philadelphia News Bureau" said, in part: "Norfolk & Western has exhibited to a marked degree in recent years increased efficiency in operation, and a higher ratio in transportation expenses to gross revenue, now in evidence on this road as well as most others, is attributable to wage advances and greater costs of material and labor, etc."

"Latest earnings reported showed a slight falling off from a year ago on many roads, but only 1% in the case of Norfolk & Western's gross operating revenue. Its surplus over fixed charges for February decreased in greater proportion, and to all appearances expenses will absorb a larger percentage of profits than heretofore."

"The last two months of the eight did not add much to the rate of earnings for the reasons mentioned. In the six months ended Dec. 31, 1916, the surplus earned increased \$178,443, and in the last two months \$148,513, as compared with a year ago. The increase for the eight months is equal to 1.1% on \$119,175,000 Norfolk & Western common outstanding."

"The income in transportation costs, largely due to the charges on account of the Adamson act requirement, has occurred since the first of the year 1917. In January Norfolk & Western's ratio to operating revenue was 28.24 against 26.67 in the month of 1916; in February 29.46 against 25.78 in 1916. In the last six months of 1916 and of 1915 the ratio was very nearly the same. Total operating expenses also show an increase since Jan. 1, 1917."

NORMAN MILLING & GRAIN CO.

(1) Sale.—It was announced Feb. 16, 1917, that H. M. Byllesby & Co. had purchased the electric and ice utility properties of this company, Norman, Okla. The electric plant has a rated capacity of 310 k. w. in two units and the ice plant 12 tons a day. The company serves 800 metered customers. It has immediate prospects for 100 additional domestic customers and power business amounting to 1,000 horsepower. The gross in 1916 was \$45,000.

NORMAN MOTOR TRUCK CORP.

(1) Incorporated on Jan. 11, 1917, in Delaware, with a capital of \$5,000,000,

to manufacture motor vehicles and accessories of all kinds. Incorporators: Robert A. Crawford, Sarah A. Crawford and Thomas A. Ferguson, all of Streator, Ill.

NORTH AMERICA LIQUIDATION CO., INC., NEW YORK.

(1) Capital Reduced.—On March 30, 1917, the company filed notice at Albany, N. Y., of a reduction in capital stock from \$280,545 to \$168,327.

NORTH AMERICAN BRICK & CLAY PRODUCTS CO.

(1) Incorporated in February, 1917, in Ohio, with a capital of \$300,000. Incorporators: S. J. Colwell, W. W. Sharp, H. K. Becj, L. B. Lindley, J. Harvey Craig and others.

(2) Development.—It was announced Feb. 10, 1917, that this company had acquired 60 acres of shale land five miles northeast of Mansfield, O., and would begin the manufacture of building and paving brick, tile and hollow ware. Two continuous kilns 500 feet long will be erected. The company is capitalized at \$300,000. Dr. J. H. Kreis of Mansfield, O., is Pres.

Surp. aft. divs.....	672,253	815,112

(4) Earnings on Stock.—It was stated March 19, 1917, that this company's 1916 net income of \$2,161,918 is equal to 7.25% on the capital stock, compared with 6.05% for 1915.

(5) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$3,039,839, compared with \$2,367,587 Dec. 31, 1915.

(6) Report, Subsidiary, Year Ended Dec. 31, 1916.—See Milwaukee Electric Ry. & Light Co.—Item No. 1.

(7) Directors Re-elected.—It was announced March 21, 1917, that at this company's annual meeting retiring directors were re-elected.

(8) New Officers.—On March 27, 1917, directors of this company elected Henry H. Pierce Vice-Pres. and George R. Sheldon Treas. and Chairman of the board. Other retiring officials were re-elected.

(9) Petition for Rate Reduction by Subsidiary.—See Union Electric Light & Power Co.—Item No. 2.

NORTH AMERICAN LIGHT & POWER CO.

(1) Bond Sale.—Syndicate.—It was announced Jan. 26, 1917, that Powell,

JANUARY 1 TO APRIL 30, 1917

Garard & Co. and Warren, Gorrell & Co. had purchased \$2,155,000 of this company's first lien 6% bonds, and had formed a syndicate including the Chicago Savings Bank & Trust Co., National City Bank, Central Trust Co., the Second Ward Savings Bank of Milwaukee and Baker, Ayling & Co., Boston, to underwrite the issue. It was stated an offering soon would be made at a price of about par and interest.

—Feb.

¹(1) New Holding Co.—It was announced Feb. 8, 1917, that this company had been organized to take over 15 utility companies in the Middle West, five of which are in Missouri, nine in Oklahoma and one in Ohio. Additional properties are to be acquired.

The authorized capitalization consists of \$10,000,000 pfd., \$2,000,000 common stock, and \$25,000,000 6% first lien bonds, of which there have been issued \$2,155,000 bonds, \$2,000,000 common and \$850,000 preferred stock. The bonds have been sold to an Eastern banking syndicate for offering at par. Proceeds of the bonds will be used to retire the indebtedness of the company, to acquire outstanding bonds of operated properties, and for the purchase of additional properties.

Reproduction value of properties now controlled is placed in excess of \$2,840,000, and the present value of the properties and business at \$3,450,000.

The subsidiaries furnish service to 21 communities, and the business consists of 50.7% electric light and power, 22.3% gas, 21.3% ice, 4.8% heating, and a small amount of miscellaneous service.

Earnings of the operated properties for the year ended Dec. 31, 1916, were \$620,951 gross and \$259,139 net.

The controlling interests in the company are Chicago and South Bend, Ind., men. Clement Studebaker, Jr., of South Bend, is Pres., with William A. Baehr, of Chicago, as general manager.

—Apr.

⁴(1) Notes Called.—Announced April 6, 1917, that this company had called for redemption on May 1, through the First Trust & Savings Bank of Chicago, at 101 and interest, all its outstanding three-year first lien collateral trust notes.

NORTH AMERICAN MOTORS CO.

¹(1) Officers.—It was announced at Pottstown, Pa., Jan. 20, 1917, that Edmund J. Levine, Pres. of the Fibreoid Co., of New York, had been elected Pres. of this company, which in February would begin the construction of a large plant at Pottstown for the manufacture of gasoline motors for automobiles, etc. S. Cary Potter, Pottstown, was elected Vice-Pres., Norman S. Mackie Treas., George C. Lees Sec. and Treas., and Frank W. Fahringer Asst. Treas.

NORTHAMPTON PORTLAND CEMENT CO.

¹(1) Plant Sold.—See Atlantic Potash Co.—Item No. 1.

NORTH BUTTE MINING CO.

¹(1) Development Work.—On Dec. 30, 1916, the "Boston News Bureau" said it was not an unsatisfactory treasury position that caused this company's directors to maintain their former dividend rate of 75 cents quarterly for the first payment of 1917, but a desire on the part of the management to put through and pay from earnings the plan for developing the Butte east side mineral area.

Development work in this section has been satisfactory to date. Plans call for driving a tunnel 3,000 feet long to intercept mineral values as they occur along its route. On property contiguous to the North Butte holdings there have been some good showings in development work.

Zinc ore shipments from North Butte to the Great Falls zinc plant of the Anaconda Copper Mining Co. have been

going forward at the rate of about 500 tons a month. These shipments should increase.

It is understood that a large tonnage of zinc-bearing material is available for shipment from this mine.

¹(2) Production Rate, Two Months.—On Jan. 2, 1917, a Boston dispatch quoted Director W. F. Bartholomew, of this company, as stating that for November and December the mine produced at a rate of nearly 2,500,000 pounds of copper per month at a cost of 14 cents, a reduction of 3 cents per pound from costs of previous months.

For these two months earnings were at the rate of \$350,000 net per month, or at annual rate of \$10 per share.

¹(3) New Officer.—On Jan. 18, 1917, it was announced that Robt. Linton, a mining engineer, of Pittsburgh and Los Angeles, had been elected 1st Vice-Pres. and Asst. to the Pres. of this company, effective Feb. 1. These positions were made for the new incumbent.

Mining and development work will be under the direct charge of the new executive, who in turn will be responsible to Pres. I. F. Cole and the Board of Directors. He will make his headquarters in New York.

An extensive policy of development work was inaugurated at the East Side properties of the company in 1915, and it was largely by reason of this undertaking that dividends were not increased at the last session of the board. Earnings alone warranted the payment of at least \$1 per quarter.

¹(4) Report, Quarter Ended Dec. 31, 1916, shows surplus of \$5,274,941, after paying dividends amounting to \$322,500, compared with surplus of \$4,789,369 for the previous quarter. Earnings for the quarter, therefore, were approximately \$808,072, or at the rate of \$7.50 a share per annum on the 430,000 shares outstanding.

¹(5) Production.—Quarter Ended Dec. 31, 1916, it was stated, Jan. 27, 1917, amounted to 3,729,561 pounds of copper, 259,854 ounces of silver and 500 ounces of gold, compared with 3,074,742 pounds of copper, 264,400 ounces of silver and 442 ounces of gold produced in the previous quarter.

There were mined and shipped during the quarter 155,371 wet tons of ore and 16 wet tons of precipitates, and there were treated 150,048 dry tons of ore and 11 dry tons of precipitates, of which ore, 10,736 dry tons, or 7.2% were first class, 67,516 dry tons, or 44.9% were second class and 71,996 dry tons, or 47.9% were third class.

¹(6) Development.—It was stated Jan. 27, 1917, that a market had been opened for North Butte's zinc ores due to the erection of a zinc plant at Great Falls, Mont., by the Anaconda Copper Mining Co. Work preliminary to stopping operations is being done, and later a considerable tonnage of zinc ore will be shipped.

A cross-cut tunnel is being run as a preliminary to a permanent working shaft in the East Side properties. Small veins showing both sulphides and native copper have been cut and preliminary work is expected to be completed during the ensuing quarter. Total development work during the quarter ended Dec. 31, 1916, amounted to 6,186 linear feet.

Robert Linton, a well-known mining engineer, has been elected 1st Vice-Pres. of the company and will be assistant to the Pres. Effective Feb. 1, Mr. Linton will have direct charge of mining and development work and the treatment of ores, with headquarters at the general offices in New York City.

—Feb.

¹(1) Production, January, 1917.—Announced Feb. 17, 1917, that this company in January produced 2,000,000 lbs. of copper.

—Mar.

¹(1) Production, February, 1917.—It was stated March 15, 1917, that this company in February produced 2,800,000 pounds of copper and 143 ounces of silver.

¹(2) Dividend Discussion.—On March 22, 1917, it was reported that this company's earnings are running between \$300,000 and \$350,000 per month, or at the rate of close to \$10 per share on the company's 430,000 shares. Current costs are showing an improvement and are down to about 14 cents per pound.

The directors meet for dividend in New York March 27, and it is probable that the rate will be increased from a \$3 to a \$4 per annum basis.

¹(3) Dividend Increase.—On March 27, 1917, directors declared a quarterly dividend of \$1 a share on the stock, placing the issue on a \$4 per annum basis. Three months previously 75 cents per share was disbursed. The dividend is payable April 30 to stock of record April 17.

It was stated that the increase in the North Butte dividend did not come as a surprise to those well informed on the company's affairs, as something better than the 75 cents quarterly had been expected three months ago.

It is officially stated that the company is doing well, and in quarters usually close to the management it is said that the net earnings in February amounted to \$330,000, while March should exceed that amount according to estimates in these circles. Reports from the mines indicate that work is being pushed along as rapidly as possible.

¹(4) Income Account, Year Ended Dec. 31, 1916.—Total receipts, \$7,120,259, against \$4,155,522 last year; net profits, \$2,479,595, against \$1,127,616 last year; surplus after dividends, \$1,404,595, against \$740,646 last year.

¹(5) Balance Sheet, as of Dec. 31, 1916, showed profit and loss surplus of \$5,287,012, against \$3,882,417 last year.

¹(6) Statement by President.—In conjunction with the annual report, Pres. Thos. F. Cole said in part: "On October 1 a new contract was entered into with the Anaconda Copper Co. for treatment of our ores, by the terms of which we secured increased returns in copper, silver and gold, the ore being divided into three classes instead of two as heretofore. Of the total ore shipped 9.1% was first class, 77.7% was second class, and 12.2% was third class. In 1915 12¼% was first class and in 1914 18% was first class.

"Tonnage of ore mined and treated was considerably the largest in the history of the company. The high price of copper has made it possible to mine at a profit ores of a grade that previously would not have been considered commercial. Considerable tonnages of these low-grade ores have been mined, and they will continue to be mined as long as the price of copper will justify it, although by so doing the average grade is continually lowered and the cost of production raised.

"Changes in mining methods made towards the end of the year are resulting in a saving in underground expenses. The results of development work were satisfactory. The ore chutes show an encouraging continuation to the deeper levels, and in addition one entirely new ore body has been opened up in ground to the north of the veins previously worked. The ore reserves at the end of the year were larger than at the beginning.

Exploration of the east side properties was commenced in Autumn. Several small veins carrying copper ore have been encountered and the cross-cut will be extended until the veins outcropping above it shall have been cut. Total development work amounted to 21,694 linear feet. The mine was in operation 349½ days; the average number of men employed was 1,160; the average number of tons hoisted per day was 1,605."

—Apr.

¹(1) Comment on Annual Report.—On March 31, 1917, the "Wall Street Journal" said that the noteworthy feature of the North Butte annual report, just issued, is the extraordinary increase in the cost of producing its copper. This was due primarily to two causes; first, the heavy advances in labor and materials, and, second, the treatment of

JANUARY 1 TO APRIL 30, 1917

large quantities of low-grade ores which would have been left untouched on a normal metal market.

A conspicuous development in North Butte affairs has been the receding copper contents of the ore. Six years ago the average was 60 pounds of copper per ton; last year it was 45 pounds. An important factor in this situation has been the gradual recession in the percentage of first-class or direct smelting ore. This ore does not have to be concentrated, and the milling operation is entirely saved—quite a factor in the expense account. In 1916 of the entire ore tonnage only 9% was first-class; in 1914 the percentage was 18, while ten years ago the percentage of first-class ore was very high.

(2) **Production, March, 1917.**—Announced April 13, 1917, that this company in March treated 58,000 tons of copper ore, which yielded 2,801,375 pounds of copper and 137,768 ounces of silver. Production of zinc ores was 2,608 tons, which netted 578,000 pounds of zinc and 3,605 ounces of silver. Gross returns on all metals produced was close to \$1,000,000, breaking all records for receipts in any one month.

(3) **Shaft Started on Lilly Claim.**—The "Boston Evening Transcript" stated April 17, 1917, that this company had started a shaft on the Lilly claim in its east side holdings, this property being located just south of the holdings of the Tuolumne Copper Co., where the Spread Delight fissure was opened on the 700-foot level, showing one body of ore 15 feet in width and another 20 feet. From the Lilly shaft the North Butte will be in a position to crosscut to the Spread Delight vein and also the Tropic and the Torrid ledges.

The North Butte continues in ore in the 3,000-foot level of the Edith May vein, that fissure at that depth developing one of the longest and highest grade shoots in the district.

(4) **Closing Down Caused by Fire.**—A Butte, Mont., dispatch to the "Boston News Bureau," April 24, 1917, stated that on account of fire in Modoc mine this company had closed down the Granite Mountain and Speculator mines. These mines connect with Modoc and High Ore and great volumes of smoke from fire are pouring into lower levels of both North Butte mines.

The shut-down curtailed production 3,000 tons per day and affected 1,000 men.

NORTHEAST ELECTRIC CO., ROCHESTER, N. Y.

(1) **Capital Increased.**—On April 20, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$600,000 to \$1,000,000.

NORTHEAST PUBLIC SERVICE CO., AUGUSTA, ME.

(1) **Incorporated in February, 1917,** in Maine, with a capital of \$750,000, to construct, manage and improve public works of all kinds.

NORTH ELECTRIC MANUFACTURING CO., GALION, O.

(1) **Incorporated on March 23, 1917,** in Ohio, with a capital of \$1,000,000. Incorporators: C. H. North, Carl J. Gugler, Geo. C. Steele, F. W. Biehl and Geo. W. Dickerson.

NORTHERN BANK & TRUST CO., SEATTLE, WASH.

(1) **Closed.**—It was announced Jan. 30, 1917, that this bank had been closed, the books having been seized by the State Bank Examiner. The bank had a capital of \$100,000 and deposits of about \$1,500,000.

NORTHERN BOLT SCREW & WIRE CO., LTD.

(1) **Incorporated on Dec. 16, 1916,** in Canada, with a capital of \$500,000 divided into 5,000 shares of \$100 each, to manufacture, buy, sell and deal in nails, bolts, nuts, screws, rivets, tacks, taps and dies, wire and other kindred products, etc. Incorporators: John McEwen, Clarence Leroy Vanwyck, James Henry Van Overbeek, Lottie Day, John Wesley Ribbey, Emily Clow and Marjorie Kilbourn. Chief place of business, Town of Owen Sound, Ont.

NORTHERN CALIFORNIA POWER CO.

(1) **Report, Year Ended Dec. 31, 1916,** shows consolidated income account as follows:

	1916	1915
Gross opcr. rev.	\$846,227	\$776,973
Net income.....	481,657	425,354
Surp. aft. chgs.	128,222	61,753

(2) **Statement by President.**—It was announced Feb. 28, 1917, that Pres. W. F. Detert, of this company, in his annual statement to stockholders, said: "Interest paid during 1916 was \$9,075 less than the amount paid in 1915, and there was an increase of \$901 in the amount of interest charged to capital on account of construction work in progress during the year, so that the amount of interest properly chargeable to the year's operations was \$9,976 less than for the preceding year."

"Due to abandonment of operations, the company, during the year lost the patronage of two dredgers and one quartz mine, whose power bills in 1915 totaled \$26,003.10. The net decrease in revenue from these three consumers was \$17,496.25, which, however, was more than offset by increased operations by other consumers in the same class."

—Apr.

(1) **Report, Year Ended Dec. 31, 1916,** shows gross operating revenue of \$853,125, net operating revenue of \$481,425 and net corporate income of \$128,222.

(2) **Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$236,489.

NORTHERN CANADA POWER CO.

(1) **Plant Enlargement.**—Announcement was made March 15, 1917, that this company is raising the capacity of its plant from 8,000 to 13,000 horsepower. One unit of 2,500 h. p. is in the course of installation, and the second unit will be installed early in 1917.

It is also understood that a dam will be built across Redsucker Creek at a point below the mouth of Cripple Creek, for the purpose of diverting these waters through another channel into the Matagami river above Wawlatin Falls, the site of the plant.

NORTHERN CENTRAL CO. OF DELAWARE.

(1) **Change in Control.**—Announcement was made on March 26, 1917, that Brown Brothers and the Electric Bond & Share Co. of New York, and E. B. Smith, of Philadelphia, had purchased this property. This company owns or controls the Northern Central Gas Co. of Williamsport, Pa., the Hagerstown Light & Heat Co. of Hagerstown, Md., the Columbia & Mountour Electric Co. and the North Branch Transit Co. of Bloomsburg, Pa., and the Northumberland County Gas & Electric Co. of Sunbury, Pa. The terms of the purchase have not been announced.

It was stated that the same group had for some time been negotiating for the control of the Lehigh Navigation Electric Co., and the Lehigh Transit Co. In case the deal goes through, these two companies will probably be placed with the Northern Central, under a holding company, the underlying companies dissolved, their securities funded and their management overseen by a management company. If the plan is not successful, the future disposition of the Central Union Co. is undecided.

NORTHERN CENTRAL CO. OF PENNSYLVANIA.

(1) **Meetings to Vote on Sale.**—It was stated March 8, 1917, that a special meeting of stockholders of this company had been called for March 17 to act on the proposition made by the Electric Bond & Share Co. to pay \$90 a share for the pfd. and \$50 a share for the common stock of the company. The majority stockholders of the company have accepted this offer with the understanding that the same offer be made to the minority holders.

(2) **Merger Discussion.**—See Lehigh Navigation Electric Co.—Item No. 2.

NORTHERN CENTRAL RY. CO.

(1) **Report, Year Ended Dec. 31, 1916,** it was stated Feb. 16, 1917, covers the second full year under the lease to the Pennsylvania R. R. Co., which became effective June 30, 1914. The income statement for the year compares as follows:

	1916	1915
Rent from lease	\$2,529,821	\$2,533,100
Net income.....	2,168,177	2,166,368
Surp. after divs.	2,005	196

(2) **Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$3,618,026, compared with \$3,654,374 Dec. 31, 1915.

(3) **Statement by President.**—It was stated Feb. 16, 1917, that Pres. Samuel Rea, in his annual remarks to stockholders of this company, said, in part:

"This company, in accordance with the terms of the lease, will reimburse the lessee for the foregoing expenditures, amounting to \$2,370,410, and also the sum of \$75,877, representing the final payment on account of equipment trust obligations, which matured and were paid by the lessee during the year, and in consequence of which the equipment covered by such obligations became the property of your company, and also expenditures for redemption of ground rents, outstanding stock scrip and other miscellaneous items amounting to \$17,775, aggregating in all \$2,464,063."

"In making the necessary equipment replacements during the year, cost of the new equipment exceeded the original cost of that replaced, and \$157,871 of such excess was paid by the lessee."

"The general balance sheet of the company shows the reduction in the company's investments to pay capital expenditures of 1915 and a portion of those made in 1916, and also the changes resulting from the conversion of \$103,000 of Norfolk & Western Ry. Co. 10-25-year convertible 4½% coupon bonds for a like amount of common capital stock of that company."

"The increase of \$32,000 in the outstanding second general mortgage bonds of this company is due to the sale of these bonds, which formerly were held in your treasury, to be used to defray construction and equipment expenditures."

(4) **Directors Re-elected.**—It was announced Feb. 23, 1917, that at this company's annual meeting, retiring directors were re-elected.

NORTHERN CONTRACTING CO.

(1) **Incorporated on Jan. 3, 1917,** in Delaware, with a capital of \$500,000, to do a general contracting business. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

NORTHERN CROWN BANK

(1) **New President.**—It was announced at Winnipeg, Feb. 13, 1917, that Capt.

APRIL 30, 1917

Robinson had been elected Pres. of this bank, to fill the vacancy caused by the resignation of Sir Daniel MacMillan. J. H. Ashdown was elected Vice-Pres.

NORTHERN ELECTRIC CO.

“(1) Amended Reorganization Plan.—The “Electric Railway Journal,” April 21, 1917, said an amended plan for the reorganization of this company, Chico, Cal., was made public on April 1 by the reorganization committee, of which Frank B. Anderson is chairman. The plan provides for the issue of \$10,700,000 of securities of a new corporation in lieu of the existing securities of the component companies which form the Northern Electric system. All existing mortgages will be foreclosed and the properties bought in for the new company.

The new corporation to be organized as soon as the plan is approved by the California Railroad Commission will have 15 directors.

NORTHERN FISHERIES, INC., ANACORTES.

“(1) Incorporated on Jan. 10, 1917, in Washington, with a capital of \$1,500,000. Incorporators: D. Daun Egan, Anacortes, and W. J. Erskine, Alameda, Cal.

NORTHERN IDAHO & MONTANA POWER CO.

“(1) Statement About Receivership.—On Jan. 2, 1917, the following statement was issued in regard to the receivership for this company, a subsidiary of Standard Gas & Electric Co.:

“This action is preparatory to a friendly reorganization whereby the capitalization will be reduced and the company equipped with funds for the construction of immediate and future extensions. For several years Northern Idaho & Montana Power Co. has not earned its full bond interest charges, due to the failure of the communities served in Oregon, Washington, Montana and Idaho to develop in population and industries as rapidly as was expected when the original investments were made in the physical properties.

“The managers of the property, H. M. Byllesby & Co., have made every effort to place the company on a profitable basis without success. With the return of prosperity to the lumber industry and the resumption of agricultural development a considerable quantity of profitable new business may be obtained by making extensions which the company is unable to finance in its present condition.

“In order to best conserve the interests of security holders and to properly serve its field, reorganization is deemed necessary by the management.

“Northern Idaho & Montana Power Co. and its subsidiary, the Oregon Power Co., operate in territories with about 50,000 population, centering at Kallispel, Mont.; Sand Point, Idaho; Newport, Wash., and Albany, Eugene and Marshfield, Ore.”

—Apr.

“(1) Deposit Time Extended.—It was stated April 6, 1917, that the reorganization committee in charge of the readjustment of the finances of this company had reported that up to March 30 there had been deposited \$3,833,000 of bonds with the committee and 82% of the outstanding pfd. and 66% of the outstanding common stock. Feeling that a considerable amount of the securities had not been deposited because

NORTHERN OHIO ELECTRIC CORP.

of delays in mails from foreign countries and to deaths of holders, the committee has extended the original time for deposit of securities to June 1.

“(2) Majority of Securities Deposited Under Plan.—Announcement was made that on March 30, 1917, a total of \$3,833,000 par value of bonds had been deposited under the reorganization plan, which is an aggregate of more than 83% of the outstanding bonds. There had also been deposited in excess of 55% of the outstanding preferred and in excess of 66% of the outstanding common stock.

Feeling that there is a considerable amount of securities of the company which have not been deposited owing to delays in foreign countries and to deaths of holders, the original time for deposit (April 1) has been extended to June 1.

NORTHERN INSURANCE CO. OF NEW YORK.

“(1) Capital Increased to \$500,000.—On April 26, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$350,000 to \$500,000.

NORTHERN IOWA GAS & ELECTRIC CO.

“(1) Status, April, 1917.—This company, said the “Chicago Daily Tribune” April 16, 1917, was formed early in 1916 as a consolidation of lighting and power companies serving a dozen small communities, having a total population of 25,000. The company has issued \$425,000 of common stock, \$75,000 pfd. and \$573,500 of first mortgage bonds. Earnings have been increasing rapidly under the present management.

The report for the 11 months ended Jan. 31 shows gross, \$172,604; net, \$63,387; interest, \$30,534. Some new bonds were issued during the period and interest is at the rate of \$34.410 a year.

A sinking fund of 10% of gross earnings began operating in 1917. More bonds may be issued, but earnings in the preceding year must have been at least one and three-fourths times interest on all bonds, including the new ones.

NORTHERN LIGHT & POWER CO.

“(1) Charlton Plant Taken Over.—On April 25, 1917, “The Globe,” Toronto, Ont., stated that this company had taken over the power plant at Charlton. The energy, which consists of about 1,000 horsepower, will be utilized in the service of Charlton, Englehart, etc., and will be connected up with the company's Kirkland Lake power transmission line for use in northern mining camps.

NORTHERN MICHIGAN PULP CO.

“(1) New Company.—It was announced Feb. 2, 1917, that articles of incorporation for this company had been filed at Petoskey, Mich. The company was incorporated at Boston with three stockholders, Robert W. Fernald, Louis Cole and Clarence G. Guild.

The latter two men hold ten shares each of common stock, while Mr. Fernald holds 480 shares of common and 250 shares of pfd. stock, all of par value of \$100; \$50,000 has been paid in cash.

The company will maintain offices in Michigan at Petoskey, and Grand Rapids. It will take over the Petoskey paper plant and continue its operation.

NORTHERN MISSOURI LIGHT & POWER CO.

“(1) Sold.—See McKinley Co.—Item No. 1.

NORTHERN NEW YORK UTILITIES, INC.

“(1) Franchise Authorization.—Announced Jan. 18, 1917, that this company had been authorized by the New York Second District Public Service Commission to exercise franchises recently granted for electric plants and distributing lines in Orleans, Alexandria and Alexandria Bay.

“(2) Equipment Orders.—It was announced Jan. 27, 1917, that this company had placed orders for 35 new motor cars and 10 trailers. The new equipment will be in operation in June. The company also will construct important extensions in Akron and Canton and do a large amount of double-tracking on the private right-of-way between Cleveland and Akron.

In December a 7,500-kilowatt generating unit was installed in the Akron generating station to be used until two new 20,000-kilowatt units have been installed. The first of these new units has been delivered and will be in use in April. It is planned to have the second unit in operation in June.

About 4,000 horsepower additional boiler capacity will be installed in the latter part of 1917. The transmission and distributing lines of the company in the Canton-Akron district are to be extended materially this year.

—Feb.

“(1) Initial Dividend.—It was announced Feb. 14, 1917, that an initial dividend of 1½% had been declared on the pfd. stock of this company, payable March 1, 1917, to holders of record Feb. 16.

NORTHERN ONTARIO LIGHT & POWER CO., LTD.

¹(1) Report, Year Ended Dec. 31, 1916, shows gross operating revenue of \$804,639, compared with \$798,924 the previous year, an increase of \$5,605. Net income amounted to \$337,948, as compared with \$345,445 the previous year, a decrease of \$7,497.

During the year the company reduced its rates charged for light and power, which made a difference in revenues of 8%. The company announced that it expects to deliver power to the Kirkland Lake Gold camp early in March. This line has cost \$177,140 so far, and will cost another \$50,000 before completed. During the 1917 \$185,068 will be expended for extensions.

¹(2) New Equipment Orders.—It was stated Jan. 3, 1917, that orders for equipment placed by this company and additional orders which will be placed early in 1917, involving an outlay of \$7,000,000, had been announced by Pres. J. M. Hannaford. A portion of the equipment will be built in the company's St. Paul shops.

The order, one of the largest ever placed by the Northern Pacific, is in addition to the large order for right of way material announced some months previously. Steel was bought at that time for 1917 and 1918.

Included in the latest equipment order are 250 ore cars, 1,950 box cars, 500 automobile box cars, 500 coal cars, 500 refrigerator cars and 25 freight locomotives.

(1) Earnings—	1916	1915
Nov. gross—	\$581,254	\$502,888
Net	327,366	296,831
12 mos. gross—	5,988,130	5,048,152
Net	3,303,921	2,808,566

¹(2) Development in 1916.—It was stated Jan. 2, 1917, that the development of the business of this company was gratifying throughout 1916. There is every prospect of a continuation of these conditions during 1917. For the week ended Dec. 23 operated properties of the company reported a gain of 42.3% in electrical output over the corresponding week of 1915, and there were gains in new business of 258 kilowatts of lighting and 716 horsepower in motors.

¹(3) Option Warrant Time Extended.—Announcement was made Jan. 8, 1917, that this company had notified holders of its option stock warrants that the date on which the option given by these warrants for the purchase of the common stock at par had been advanced from April 1, 1918, to April 1, 1917.

There are \$8,000 of these option warrants outstanding. They were issued in 1915, when the company sold its \$8,000,000 notes, and give the holder the right to purchase one share of the common stock at par for each option warrant, or about \$8 a share under the present market price. The money derived from the sale of stock under the option warrants will go to retire the notes. In case all the option warrants are exercised, money sufficient to retire all the notes will be realized.

Under the laws of Delaware, in which State the company is incorporated, the pfd. stock of a corporation must not exceed double the amount of its common stock. Northern States Power Co. now has \$12,152,000 pfd. and \$5,975,000 common stock outstanding, so that unless more common stock is issued the company cannot issue any additional pfd. stock.

As the company desires to secure money for new construction by the sale of additional pfd. stock, the option in the warrants has been moved ahead a year to provide for the immediate purchase of new common stock by the holders of option warrants. With the exercise of these options the company will issue and sell additional pfd. stock.

¹(4) Earnings Increasing.—It was stated Jan. 8, 1917, that earnings of this company and its subsidiaries continue to improve. Minneapolis General Electric Co., its leading subsidiary, is reporting gains of over 31% in energy output, compared with a year previously. New business is being rapidly attached to the lines, and with the delivery of power to Northern States Power by Wisconsin-Minnesota Light & Power Co. from the new hydro-electric development of the latter on the Chippewa River much additional power business will be taken on in Minneapolis and St. Paul. The contract for this supply of power runs for 30 years, and will enable the company to secure a steady and large amount of power at a low rate.

The increase of the dividend on the common stock to 7% would appear to have been amply justified by recent revenues, as the company for 1916 earned in excess of 16% on its junior issue, after providing for all prior charges of every kind.

¹(5) Bonds Listed in New York.—Announcement was made Jan. 10, 1917, that the board of governors of the New York Stock Exchange had approved the listing of the \$18,000,000 of first and refunding 25-year, Series A, 5% bonds of this company, dated April 1, 1916, and maturing April 1, 1941.

The proceeds of the sale of these bonds were used, together with other proceeds from the sale of notes and pfd. stock, in retiring \$22,064,500 of un-

JANUARY 1 TO APRIL 30, 1917

derlying securities at a cost in redemption premiums and interest of \$23,906,915, and to provide \$2,000,000 for extensions and additions to properties.

(6) Operations.—It was announced Jan. 13, 1917, that the electric energy output of this company for the week ended Jan. 6 showed a gain of 37.4% over the corresponding week of 1916. The output of Minneapolis General Electric Co. increased 27% in the week and there was gain of 497 horsepower in connected power load.

The Interstate Light & Power Co. now has 30 zinc mining properties connected to its power lines, with energy requirements ranging from 200 horsepower to 400 horsepower each.

For December, 1916, 172 customers of Northern States Power Co. purchased \$105,300 of its preferred stock, making a total of 2,201 customer-stockholders holding \$1,206,900 par value of the preferred stock.

—Feb.

(1) New Hydro-Electric Plant.—It was announced Feb. 3, 1917, that this company, with the completion of the 40,000-kilowatt hydro-electric plant of the Wisconsin-Minnesota Light & Power Co. on the Chippewa River, in February, would be in a position to supply all the power requirements in the territory.

The increase of the Cannon Falls station of the Northern States Power to 2,500 horsepower, and the installation of 20,000 horsepower additional at the steam station in Minneapolis were not sufficient to care for the growing power demands of the customers of the company, so the contract for the energy from the Chippewa River hydro-electric station was made. The transmission lines connecting the station with the Minneapolis General Electric Co. has been completed.

(2) Directors Re-elected.—Announced Feb. 16, 1917, that at the annual meeting of this company all retiring directors were re-elected and the board organized by re-electing the officers. The annual report, to be issued early in March, will show that 1916 was by far the best year in the history of the company, both from an operating and a revenue producing standpoint, it was stated.

—Mar.

(1) Report, Year Ended Dec. 31, 1916, shows income account as follows:

	1916	1915
Gross earnings—	\$6,087,153	\$5,121,826
Net after taxes—	3,341,656	2,866,634
Surp. after fixed chgs. and pfd. dividends—	1,008,292	771,625
Bal. after com. divs., depr. & amortization—	179,479	-----

(2) Earnings on Stock.—It was stated March 22, 1917, that this company's 1916 balance after pfd. dividends of \$1,008,292 is equal to \$16.87 a share on the common stock, compared with \$12.91 in 1915.

(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$992,428, compared with \$814,053 Dec. 31, 1915.

(4) Comment on 1916 Report.—On March 23, 1917, the "Wall Street Journal" said that this company in 1916 improved greatly in financial position, as well as in earning power. From an earning viewpoint gross increased 18.8% over 1915, net 16.5%, the surplus after charges 28.7%, and the balance for the common stock and for depreciation 30.6%. The company earned, after all charges and pfd. dividends, \$16.87 a share on its common stock in 1916, compared with \$12.91 in 1915.

At the close of 1915 current assets were \$2,062,525, of which \$1,040,078 was in cash, with current liabilities of \$1,129,058, while at the close of 1916 current assets were \$2,189,526, of which \$832,093 was in cash, with current liabilities of \$1,569,752.

The great improvement in the financial position of the company, however, in 1916 was in the consolidation of its

funded debt. At the close of 1915 the company had \$6,434,500 of its own funded obligations outstanding, with \$23,940,000 of funded obligations of underlying companies. The work of consolidating these debts and making them obligations of the parent company was carried out, and at the close of 1916 the company had but three classes of funded obligations, in which but one, the \$7,628,000 of Minneapolis General Electric first 5s, were underlying with \$18,000,000 Northern States Power first and refunding 6s and \$8,000,000 Northern States Power 10-year 6% notes.

In connection with this refinancing the 7% pfd. stock outstanding was increased from \$8,386,700 to \$12,152,000. The new first and refunding mortgage, dated April 1, 1916, is of an authorized amount of \$100,000,000 and so will provide for all financing of the company for years to come.

The authorized pfd. stock was increased from \$10,000,000 to \$50,000,000, and the authorized common stock from \$14,000,000 to \$50,000,000, but no common stock was issued in the year.

Up to March 15, \$195,000 of common stock had been purchased, and \$195,000 of the 10-year notes redeemed, bringing outstanding common stock up to \$6,170,000, but reducing funded debt by a similar amount.

Expenditures for renewals and maintenance on the properties in 1916 were \$823,992, and total expenditures for new construction were \$2,816,824, much of this being for increasing steam generating capacity at Minneapolis and Galena and extensions to the hydro-electric plant at Cannon Falls. In the year 37 new towns were added to the system of the company, making 139, with a population of 875,898.

(5) Gains in New Business.—Reported on March 27, 1917, that this company's subsidiaries for March were reporting large gains in new business and increased output of energy. Minneapolis General Electric Co. for the week ended March 17 reported an increase of 30% in electric output, and in St. Paul a number of important power contracts were taken.

—Apr.

(1) New Business.—It was announced April 6, 1917, that this company at St. Paul, Minn., had secured 1,000 horsepower in new electric power business in March, and is negotiating for large additions to its power line load. Minneapolis General Electric Co. for the week ended March 31, secured 399 new customers and increased its output of electric energy 25%. At the election at Faribault, Minn., on the question of the city entering upon the business of generating and distributing electric energy from a municipal plant, the proposition was defeated by a vote of almost three to one.

NORTH GEORGIA MINERAL BY. CO.
(1) Incorporated April 13, 1917, in Georgia, with an authorized capital of \$1,250,000, for the purpose of constructing a railroad from Atlanta to Wofford's Crossing, Bartow County, where it will connect with the main line of the Louisville & Nashville R. R. It is understood the company is acting for the Louisville & Nashville. The charter is for a period of 101 years. Incorporators: Wm. G. Morrison, Alex. C. King, H. S. Collingsworth, Hughes Spalding, John Morris, A. E. Thornton, George S. Lowndes, Daniel McDonald and James S. Floyd, all of Atlanta, Ga.

NORTH LAKE MINING CO.

(1) Operations.—On Feb. 6, 1917, the Boston office of this company gave out a letter from the superintendent, from which the following is an extract:

"Northwest cross-cut at North Lake is now 775 feet from the shaft, making 14 feet opened during the past week."

"The west drift is now 24 feet from the southeast cross-cut, making 10 feet opened during past week. The east drift is now 25 feet from cross-cut, making 10 feet opened during past week. Both drifts are showing very good."

—Apr.

(1) Report, Year Ended Dec. 31, 1916, shows a balance of assets of \$28,587, compared with a balance of liabilities of \$15,556 at the end of the previous year. The treasurer's statement shows total receipts of \$100,332, of which \$100,000 came from assessment No. 2, and \$332 from interest received on deposits and assessments.

The balance sheet, as of Dec. 31, 1916, shows total assets and liabilities of \$1,006,519. Cash holdings amounted to \$26,682.

NORTHLAND RUBBER CO.

Surp after chgs	28,080	16,414

Northwestern Electric operates in Portland, Ore., and vicinity and its sales of electric light and power are showing steady gains, electric sales for February, 1917, being \$64,731, compared with \$52,884 for February, 1916. The increase in surplus for February, 1917, was 75% over February, 1916.

NORTHWESTERN GAS LIGHT & COKE CO.

¹(1) Notes Called.—See Public Service Co. of Northern Illinois.—Item No. 1.

NORTHWESTERN GOLD & COPPER MINING CO., SPOKANE, WASH.

¹(1) Incorporated on Jan. 25, 1917, in Washington, with a capital of \$1,000,000. Incorporators: Wm. Ulrich, Roy Timm and Chester Edwards.

NORTHWESTERN OHIO LIGHT CO.

¹(1) Improvements.—It was announced Feb. 9, 1917, that plans had been completed by this company, a subsidiary of Federal Power & Light Co., of Boston, for rebuilding of the transmission line between Delphos, O., and Van Wert, changing the voltage from 13,000 to 30,000, and requiring about 35 miles of wire. A concrete substation will be erected for the high-tension transformers, switches, lightning arresters, etc., and a coal conveying system will be installed. These improvements will cost approximately \$100,000.

¹(1) Capital Increased.—It was announced Feb. 12, 1917, that this company, Norwalk, Conn., had increased its capital from \$500,000 to \$1,000,000.

NORWICH GAS & ELECTRIC CO.

¹(1) Directors Re-elected.—Announced Jan. 26, 1917, that at this company's annual meeting retiring directors were re-elected.

NORWICH & WESTERLY TRACTION CO.

¹(1) Sale Planned.—See Shore Line Electric Ry. Co.—Item No. 1.

NOVA SCOTIA CARRIAGES, LTD.

¹(1) Litigation—Nearing End.—On March 17, 1917, the "Financial Post of Canada" said: "Nova Scotia Carriages, Ltd., a company with a somewhat inglorious career, whose factory and plant are at Amherst, N. S., is nearing its end, the liquidator, Percy C. Black, of Amherst, having had its affairs in hand for some time. He expects the whole business will be wound up in two or three months.

"This concern was formed by reorganization of the Nova Scotia Carriage & Motor Car Co., promoted four or five years ago with high hopes of success. The works were then situated at Kentville, but the company built a big factory at Amherst and moved there.

"No money was made from the first."

• NOVA SCOTIA STEEL & COAL CO., LTD.

¹(1) Dividend Discussion.—It was stated Jan. 2, 1917, that interests closely identified with this company are expecting that a meeting of the Board of Directors will be called in the near future to consider a dividend on the stock and possibly a stock dividend to shareholders.

The return of Col. Thomas Cantley, Pres. of the company, who has been in London and France for several weeks, has given strength to the reports of extra disbursements, and it is also expected that an important announcement will be made regarding negotiations carried on by Col. Cantley while in London.

The company is considering extensive improvements and extensions, particularly in the line of shipbuilding.

¹(2) Dividend of 7% Predicted.—It was stated Jan. 9, 1917, that a special meeting of directors of this company had been called for Feb. 1. It is believed that the board will then declare the full 7% dividend for the year. Gross earnings, according to unofficial estimates, are placed at about \$4,000,000, and net earnings at about \$2,500,000. These, if

they prove correct, would represent a surplus balance, after pfd. stock dividend, of around \$14 a share on the common stock.

¹(3) Orders.—It was announced at New Glasgow, N. S., Jan. 10, 1917, that the output of this company's plant in 1916 had increased more than 60% over the preceding year. Orders on hand are sufficient to keep the plant fully occupied for a large portion of the current year.

It was also announced that the Eastern Car Co. had received a further order for 3,000 cars for Europe, and that this, with other orders on hand, would be sufficient to keep the plant fully occupied the whole of 1917.

¹(4) Merger Plan Reported Dropped.—On Jan. 13, 1917, it was stated that the plan to merge this company with the Dominion Steel Foundry Co. had been dropped. It was planned to bring the companies together so as to give the Nova Scotia Steel & Iron Co. a large manufacturing capacity for its large supplies of raw material. A meeting of the Board of Directors was held, presumably for the purpose of discussing the merger.

No announcement, however, has been made as to the attitude of the board either on the merger or on the question of dividends.

It is expected that the Nova Scotia Steel Co. will proceed to furnish additional manufacturing capacity by new construction.

¹(5) Orders.—It was stated Jan. 17, 1917, that this company would manufacture 7,000 car axles for the Russian cars being built at the shops of the Eastern Car Co., a subsidiary of the Nova Scotia Steel Co.

This action follows the unsuccessful negotiation for this material in the United States. It is possible that the 24,000 car wheels needed for the same construction may also be made at the shops of the Nova Scotia Steel Co., which company enjoys the distinction of having a self-contained plant from the mining of iron ore to the completion of railroad cars of various types.

This company has not only manufactured cars for foreign countries, but has delivered the products of its shops in Russia and France. The transportation charges necessarily have been high, and on a recent lot of coal cars delivered in France something in excess of \$3,400 for each car was paid to the steel company.

On a late invoice of 50 cars for Russia—an installment for an order of 2,000 cars—\$1,750 a car at the shops was obtained.

The total capacity of these car shops for 1917 has been sold, almost entirely for export, and consequently the Eastern Car Co. is debarred from quoting prices on the 20,000 cars wanted by France and the 2,100 cars needed by Spain. The probability is that all of these orders will go to American merchant car builders.

¹(6) Earnings, 1916, Estimated.—On Jan. 23, 1917, the "Boston News Bureau" said that, based upon the assumption that 25% will satisfy the British war tax in 1916, it seemed practically assured that during its fiscal year to Dec. 31, 1916, Nova Scotia Steel earned better than \$40 per share on its \$7,500,000 common stock. This is after all interest and prior obligation charges. It compares favorably with the 20% earned in 1915.

Its entire productive capacity for 1917 is sold ahead. If more orders are taken it will be on the hypothesis that mill additions nearing completion or in middle processes of completion will be productive in time to make the taking of these orders feasible.

Nothing was done at the directors' meeting early in January, and there are strong interests in the property who feel that the present is not the time to undertake common dividends.

Orders at more than 100% capacity and inventories 100% greater than normal mean large working capital, and

JANUARY 1 TO APRIL 30, 1917

this can be better obtained by utilizing surplus earnings than by borrowing from the banks.

Nova Scotia Steel will have one new 2,700-ton steamship in commission in April, and a second of the same size should follow shortly after that.

—Feb.

¹(1) **Earnings, 1916, Estimated.**—On Feb. 9, 1917, the "Boston News Bureau" said, in part: "While the market action of Nova Scotia Steel common has been a keen disappointment to the former well-wishers of this property, there is nothing amiss in the earning situation. The fiscal year ended Dec. 31 and profits on the \$7,500,000 common after interest, pfd. dividend and war taxes were \$40 per share.

"This much the forthcoming annual statement will undoubtedly disclose. But in addition to the \$40 which the report is expected to show, the company had \$13 per share tucked away in certain subsidiaries which was not divided and which will not appear in the report itself.

"If 1917 proves the year anticipated, the company can easily pay out of surplus profits of 1916 and 1917 the greater portion of whatever it would cost to modernize its steel producing equipment. It would seem as if \$15,000,000 could do the job."

—Mar.

¹(1) **Report, Year Ended Dec. 31, 1916,** shows gross profits amounting to \$4,222,373. The net profits for the year are \$2,104,478, after deducting interest charges amounting to \$627,309 and after allowance of \$1,490,588 for depreciation, business profits tax, reserve for doubtful accounts, and patriotic contributions.

Orders for steel products on the company's books are equal to 74% of the 1916 shipments, and are sufficient to keep the plant fully employed for the ensuing six months.

¹(2) **Comment on 1916 Report.**—On March 5, 1917, the "Boston News Bureau" said: "Nova Scotia Steel's statement for its fiscal year to Dec. 31, showing net profits after interest of but \$2,104,478, equal to a trifle less than 28% on the \$7,500,000 common, would be decidedly disappointing were it the entire story. But it is not. The subsidiaries of Nova Scotia Steel by no means distributed their entire profits. It is understood that in the Eastern Car Co. alone Nova Scotia had an undivided balance of profits equal to an additional \$10 per share on its common. And the undivided profits of its steamship department were not far from another \$10 per share.

"If Nova Scotia Steel had been intent upon making a record in 1916 and had tried, it might have shown between \$40 and \$50 per share for its common.

"Nova Scotia Steel has at present a productive steel tonnage as great or greater than that of Lackawanna or Republic Iron & Steel. Its output possesses little variety and its plants are old-fashioned.

"But out of the earnings of 1915, 1916 and prospective profits for 1917 the company is likely to accumulate a balance that will be available for plant rejuvenation when the time comes.

"Its production of forged shells in 1916 was 90% greater in number and 120% greater in tonnage than the previous year. Finished steel shipments of all classes were 64% larger in 1916 than in the previous 12 months."

¹(3) **Dividend Deferred by Subsidiary.**—See Eastern Coal Co., Ltd.—Item No. 1.

¹(4) **Earnings Statement of Subsidiary.**—See Eastern Coal Co., Ltd.—Item No. 2.

NOVA SCOTIA STEEL CO.

¹(1) **Orders.**—See Nova Scotia Steel & Coal Co., Ltd.—Item No. 5.

NOVA SCOTIA TRAMWAYS & POWER CO., LTD.

¹(1) **Status.**—It was stated Jan. 12, 1917, that this company, the latest Canadian public utility corporation to

come to the United States, for its financing, is a merger, completed late in 1916, of the utility properties in and around Halifax, Nova Scotia.

The new company was incorporated by special act of the Legislature and took over the Halifax Tramways Co., with the gas and electric lighting and power properties, and also acquired water rights on the Gaspereaux River. The latter are capable of developing 12,000 horsepower of energy and are about 55 miles from Halifax.

The capitalization of the new corporation consists of \$2,250,000 5% first mortgage bonds which have been sold in the United States, \$1,500,000 6% pfd. and \$2,500,000 common stock.

The sale of the bonds, in addition to the proceeds of the stock issues, goes to pay for the acquired properties and water rights and to provide adequate working capital.

¹(2) **Bonds.**—It was stated Jan. 12, 1917, that the Public Utility Commissioners of Nova Scotia had approved the issue of \$750,000 additional bonds and \$1,000,000 additional pfd. stock of this company, the proceeds of which when sold will go to develop the hydro-electric power sites. June 15, 1915, the commissioners placed the physical value of the property of the new corporation at \$3,750,000. Since that time 4,000 horsepower has been added to its generating capacity and an entirely new gas plant has been built.

Gross revenues of the company for the year ended Oct. 31, 1916, were \$759,513 and net earnings were \$342,697. These figures showed approximately a gain of \$40,000 in gross and of \$11,000 in net over the preceding year.

The company has an authorized bonding power of \$10,000,000 and additional bonds may be issued for 75% of the actual cost of properties acquired or improvements made.

¹(3) **Operations.**—It was stated Jan. 12, 1917, that this company operates 21 miles of electric railway, has 7,300 horsepower generating capacity and 42 miles of gas distributing system. The population served is approximately 65,000. At Halifax the Canadian Government is constructing new railroad and steamship terminals to cost \$30,000,000, on which \$10,000,000 has already been expended. These terminals include 27 steamship berths with a depth of 45 feet of water at low tide.

Earnings of the company have shown a steady gain over a period of years. The street railway system carries about 8,100,000 passengers a year and the lighting and power properties have a satisfactory connected load.

¹(4) **Stockholders' Rights.**—It was stated Jan. 10, 1917, that in the new Nova Scotia Tramways & Power Co. the old stock of the Halifax Electric Tramway Co. would enter at a valuation of \$203.50 per share.

Notices have been sent to Halifax Tramway shareholders announcing that on this \$203 valuation they may exchange into shares of the new company on the basis of 75 for the new company's pfd. and 40 for the new company's common stock.

The bulk of the Halifax stock is in the hands of the group which bought into the company a few years previously, and the outside interest is presently very small. Of the 14,000 shares it is stated that all but 2,500 are owned by the controlling interest.

—Feb.

¹(1) **Transfer Agent.**—Announced Feb. 2, 1917, that the Bankers' Trust Co., New York, had been appointed transfer agent for this company.

NUMBERS MINING CO.

¹(1) **Incorporated** on April 17, 1917, in Delaware, with a capital of \$1,000,000, to acquire by appropriation, discovery or otherwise lands containing copper, lead, zinc, etc. Incorporators: Herbert E. Latter and C. L. Rumlinger, Wilmington, Del., and Clement M. Egner, Elkhon, Md.

NUREMBERG OF AMERICA TOYS, INC.

pany had increased its capital stock from \$1,000,000 to \$2,000,000.

OCEAN CITY & FENWICK ISLAND RY. CO.

¹(1) To Build New Railway.—It was announced Feb. 1, 1917, that this company had been organized at Ocean City, Md., to build an electric railway eight miles up the beach to Fenwick Island. The construction contract has been let to Thos. E. O'Connell, of Phoenixville, Pa., who is also the chief engineer. The line will be constructed parallel with the ocean front, but one block back from it.

It is planned to develop a new tract of land fronting on the ocean two miles north of Ocean City, where the beach is especially fine, and it is expected that a hotel will be built, as well as cottages, etc. Construction of the electric railway will begin immediately.

The incorporators are W. B. S. Powell, Pres.; C. Edward Shute, Sec'y; E. Frank Wagamon and Henry T. Moore, all of Ocean City, and Sherman E. Ayars, 308 Perry Building, Philadelphia. Harry J. Cropper is Vice-Pres. and Frank W. Truitt, Treas., both of Ocean City. They are also directors.

OCEAN LEATHER CO. (THE), INC.

¹(1) Incorporated on April 18, 1917, in Delaware, with a capital of \$41,000,000, to deal in and with hides and skins of whale and shark for the manufacture of leather for use in belting, machinery, etc. Incorporators: Herbert E. Latter and C. L. Rimlinger, Wilmington, Del., and Clement M. Egner, Elkton, Md.

OCOEE COPPER CO., OCOEE, TENN.

¹(1) Development.—It was stated March 8, 1917, that this company had encountered high-grade ore in four places, with diamond drill, on 120 acres. This company expects to sink a shaft, and will build a smelter. It was incorporated with \$1,250,000 capital, and has organized with these officers: J. L. Carter, Pres.; John Stagnaler and G. H. Miller, Vice-Pres.; Sam E. Whitaker, Sec'y and P. B. Carter, Treas. All are of Chattanooga, Tenn.

ODORLESS PAINT CO., ST. LOUIS, MO.

¹(1) Incorporated on April 24, 1917, in Delaware, with a capital of \$500,000, to manufacture paints, varnishes, etc. Incorporators: B. R. Fitz Williams, St. Louis, Mo., and Walter T. Turner, Larchmont, N. Y.

OGDENSBURG GAS CO.

OGDENSBURG POWER & LIGHT CO.

¹(1) Bond Issue Permit Sought.—It was announced Jan. 5, 1917, that this company had applied to the New York Second District Public Service Commission for authority to issue \$200,000 50-year 5% gold bonds.

OGDENSBURG STREET RY. CO.

¹(1) Bond Issue Permit Sought.—Announced Jan. 5, 1917, that this company had applied to the New York Second District Public Service Commission for authority to issue \$50,000 25-year 5% bonds.

OGILVIE FLOUR MILLS CO., LTD.

¹(1) Export Business at Standstill.—Stated on April 7, 1917, that with the exception of the Government contracts, for which the buyers were providing the tonnage, the export flour business from Canada was practically at a standstill. The company announced that since was not available for ordinary commercial business overseas. The Government orders, however, more than make up for the other export business which has been lost, and the company's

earnings are very satisfactory. The transportation congestion has been somewhat relieved, and with the opening of navigation in the near future the company expects that its troubles in this respect will be over.

OHIO BRASS CO.

¹(1) Stock Sale.—It was announced Feb. 9, 1917, that an issue of this company's 6% cumulative pfd. stock had been sold to Otis & Co. The issue will make the total outstanding pfd. \$978,400. There is also \$934,400 common stock outstanding. There is no bonded debt.

The company, which is located at Mansfield, O., was organized in 1888, with a capital of \$5,000. From this beginning it has developed into a company doing a business of \$3,500,000 yearly. The new stock is callable at \$105 a share. The plans call for listing on the Cleveland and Cincinnati exchanges.

¹(2) Stock Offering.—It was announced at Cleveland, O., Feb. 12, 1917, that Otis & Co. are offering at 97½ and accrued dividend, \$500,000 of the 6% cumulative pfd. stock of this company.

OHIO CITIES GAS CO.

¹(1) Earnings, Year Ended Oct. 31, 1916. Estimated.—It was stated Jan. 2, 1917, that officials estimate that for the 12 months ended Oct. 31, 1916, the combined net earnings of the old properties of this company and of the recently acquired Oklahoma oil-producing and refining properties, after providing for all underlying bond interest and other charges, were \$4,968,256. It would require \$300,000 a year to pay interest on the \$5,000,000 new 6% bonds issued in part payment for the Oklahoma properties. To provide for the sinking fund on these bonds would require \$1,250,000 a year additional.

This would leave, on the basis of earnings for the 12 months ended Oct. 31, a balance of \$3,418,256 to pay dividends on \$9,002,100 5¼% pfd. and \$9,031,500 common stock, including the \$1,000,000 common stock soon to be issued to stockholders at 85 for the \$25 par value shares. It would require \$472,710 to pay the pfd. dividends, leaving a balance of \$2,945,546, or 32.6% on the outstanding issue.

The earnings from the oil properties for the 12 months, however, were based on 90-cent oil in Oklahoma and \$2.40 oil in West Virginia, while the former is now selling at \$1.40 a barrel and the latter at \$2.85 a barrel.

¹(2) Development.—On Jan. 2, 1917, it was stated that with the completion of its new refinery in the Cabin Creek district in West Virginia and the erection of its stations for the extraction of gasoline from natural gas in West Virginia, this company's revenues should still further show material increases in the 1917 year.

West Virginia oil properties consist of 85,000 acres of leases, with 50 oil wells of a combined production of 2,500 barrels and 19 gas wells with a combined open flow capacity of 25,000,000 cubic feet. About 25,000 acres of the leases may be considered as proved oil territory. In Ohio the company has 61,200 acres of land, with 100 producing wells of 900 barrels daily production, with storage tanks, pipe lines, etc., in both States.

The newly acquired Oklahoma properties consist of 20,000 acres of undeveloped leases and 6,500 acres of proved leases in the Cushing, Nowater and Healdton fields. The 622 wells on these leases are producing about 5,500 barrels of oil daily. At Cushing the company acquired a station for the extraction of gasoline from natural gas.

The refining properties are located at Ardmore and Cushing, with a combined capacity of 11,000 barrels of crude oil daily. They include real estate, pipe lines, refinery equipment, 1,400,000 barrels of storage tanks, 500 tank cars, half of the latter being leased, with approximately 1,000,000 barrels of refined and crude oils on hand.

The proved leases will be developed further and work will be started early in 1917 on the development of the improved acreage.

¹(3) Stock Listed in New York.—Announcement was made Jan. 11, 1917, that the Board of Governors of the New York Stock Exchange had approved the listing of \$1,003,925, or 40,187 shares of the common stock of this company, making the total listed amount \$9,035,425, or 361,417 shares of common stock. The additional stock is that offered to stockholders of record Dec. 27 at \$85 a share for the \$25 par value shares.

The proceeds of the sale of this stock, together with those of the \$5,000,000 6% serial notes, will be used to pay the \$8,400,000 for the oil producing and refining properties in Oklahoma recently purchased.

¹(4) Extra Dividend.—Announced Jan. 22, 1917, that this company had declared the regular quarterly dividend of 2¼% and an extra dividend of one-half of 1% on its common stock, both payable March 1 to stock of record Feb. 15.

The extra dividend was declared to bring the dividends on the common stock for the fiscal year ending March 31 up to the full rate of 10%.

¹(5) To Manufacture Salt.—On Jan. 26, 1917, it was stated that this company, in addition to its natural gas, oil and gasoline business, was preparing to enter the salt manufacturing business.

Plans are being drawn for a salt manufacturing plant to cost \$500,000, to be located at the mouth of Cabin Creek, adjacent to the oil field.

In drilling for oil and gas large quantities of salt water have been discovered and the brine deposits are said to be practically inexhaustible. Salt made from West Virginia brine is said to be entirely free from sulphate. In addition to manufacturing salt, bromide and calcium magnesium chloride, Ohio Cities will use in the operation of the plant from 5,000,000 to 10,000,000 cubic feet daily of the natural gas, which it obtains from its oil wells, after the gas has been passed through its gasoline extraction stations.

The plant will handle about 12,000 barrels of brine daily and produce annually 38,000 tons of salt, 130,000 pounds of bromide and 7,000 tons of calcium magnesium chloride.

¹(6) Stock All Subscribed.—It was announced Jan. 26, 1917, that the \$1,000,000, or 40,000 shares of new common stock of this company, offered to shareholders at \$85 a share, had all been subscribed.

—Mar.

¹(1) Common Stock Issue—Stockholders' Rights.—Announced March 12, 1917, that at a meeting of the Board of Directors of this company the issue of the common stock in the treasury was authorized. Holders of the common stock have the right to subscribe to 10% of their holdings at 85.

¹(2) Statement by Directors.—On March 14, 1917, it was stated that holders of common stock of this company, in addition to the right of subscription to new common stock, likely would receive a substantial stock dividend. A statement from the Board of Directors says, in part:

"The authorized capital stock of Ohio Cities Gas Co. is \$10,000,000 pfd., of which \$9,021,000 is issued and \$100,000 common.

"The board will recommend to the shareholders that at the annual meeting June 5 they increase the authorized common stock of the company to an amount which, together with the present authorized pfd. stock, will more nearly reflect the actual value of the company's properties than obtains by the present capitalization, to the end that the corporation may continue the acquirement of additional properties, and if advisable, distribute to the common shareholders a larger share interest in the company as in the judgment of the board may be justified by the properties of the company and by the appraisal of properties above referred to.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

"In anticipation of such proceeding the board directs that \$964,575, or 38,583 shares of \$25 par value, of authorized common stock now in the treasury be issued and sold and that the privilege of subscribing thereto to the extent of 10% of their holdings be extended to holders of common stock at \$35 a share.

"The company is not in need of funds for the operation of its business, but it is the belief of your board that the proceeds of this stock can be profitably used at this time in the completion of the purchase of property now under consideration.

"Rights to subscribe to the additional 38,583 shares of common stock will accrue to holders at the close of business March 29 and fractional warrants must be surrendered for full warrants on or before April 20. Warrants will be mailed to stockholders immediately after March 29."

"(3) Proposed Stock Dividend.—It was stated at Chicago, Ill., on March 24, 1917, that this company, after the report of the committee of experts which will reappraise its oil and gas properties has been made, and after action at the annual meeting June 3 increasing its authorized common stock, will declare a stock dividend of 100% on the common stock.

"(4) Status, March, 1917.—On March 23, 1917, the "Wall Street Journal" said in part: "While the advance in common stock of Ohio Cities Gas Co. probably is largely predicated on the expectation that, with the report of the committee appointed to reappraise the oil and gas properties, at the annual meeting, the authorized common stock will be increased possibly to \$40,000,000 and a large stock dividend declared, a part of the advance is due to recent developments on the West Virginia oil properties of the company.

It is planned to increase the property account of the company more nearly to correspond with the actual value of the properties owned and to raise the surplus account of the company in proportion to this increase on the asset side of the balance sheet. Out of the increased surplus of the company will be declared probably a 100% dividend in common stock. While Ohio Cities Gas Co. now pays 10%, or \$2.50 a year a share, on its common stock, nothing has been said as to what will be the dividend rate on the increased stock, although it is generally expected that the present dividend rate will be maintained. The annual meeting will be held June 3 and there it is probable that the stock dividend will be announced soon after. There is also a report that steps may be taken to retire the preferred stock of the company on a basis of an exchange for common stock, but nothing definite is yet known in regard to this.

It is also stated that the company is planning to acquire additional refining properties and with these it will also come into control of an extensive system of oil and gasoline distributing stations in the Central West. This will give the company an outlet of its own for its products from its Oklahoma refineries and also for those from the new \$1,000,000 refinery being erected in the West Virginia oil field.

In the Ohio and West Virginia district the company has brought in within the last ten days between six and eight new oil wells, the last one of which came in this week in the Cabin Creek district. One of these wells had an initial production of 250 barrels daily. The Ohio wells are of smaller production running about 70 barrels daily. One of the new wells in the Cabin Creek district showed a good extension of the producing district, proving up a material amount of new territory.

—Apr.

"(1) Production Rate.—It was stated April 2, 1917, that this company has a daily production of approximately 9,500 barrels of oil daily. Of this production about 5,000 barrels are in the Oklahoma fields, 2,500 barrels in the West Virginia fields and 2,000 barrels in the Ohio field.

While the old refineries in Oklahoma are operating, work of construction is under way on the new refinery in West Virginia, and it is expected to be in operation July 1. The company as yet has no production of casinghead gasoline on a commercial basis, this awaiting the completion of stations for extraction of gasoline from natural gas.

Under the plan of subscription for the new stock payment for the fractional warrants for subscriptions must be made by April 20 and on the warrants for full shares before April 23.

"(2) Application to List.—Announced April 8, 1917, that application had been made to the New York Stock Exchange to list \$954,975 additional of this company's common stock.

"(3) Additional Stock Listed.—It was announced April 12, 1917, that the New York Stock Exchange had approved the listing of \$964,575 par value of Ohio Cities Gas common stock or 38,583 shares, making the total amount of the common stock now listed \$10,000,000 par value or 400,000 shares. It is the intention of the officers of the company to ask the stockholders at the annual meeting June 5 to authorize an increase in the common stock of the company to an amount more nearly representing the actual value of the assets of the company.

Under the laws of Ohio a corporation cannot increase its capital stock until all previously authorized stock has been issued and for this reason it was necessary to issue the stock just listed before increasing the present capitalization.

"(4) Financial Condition.—It was stated April 12, 1917, that the income account of this company for the ten months ended Jan. 31, 1917, showed gross income of \$2,500,232, expenses and taxes of \$310,614, net of \$2,189,618, interest charges and amortization of \$71,002, leaving net income of \$2,118,616. Dividends paid in the period were \$1,251,714, leaving a balance for the ten months, above charges and dividends, of \$866,902.

The balance sheet of Jan. 31, 1917, showed current assets of \$2,076,733, of which \$1,308,211 was in cash. Common stock was \$9,023,450, paid stock \$8,933,500 and serial notes \$5,000,000. Current liabilities were \$579,273 with reserves of \$495,331, premiums and discount on stock sold of \$3,269,521 and surplus of \$2,145,854.

"(5) Dividend on Common Increased to 6%.—This company April 23, 1917, declared a quarterly dividend of 6% on the common stock, payable June 1. The previous dividend was 2%.

"(6) Stock Dividend Planned.—On April 24, 1917, Dow, Jones & Co. stated that at the annual meeting of this company on June 5 the directors would recommend to the stockholders an increase in the authorized common stock from \$10,000,000 to \$100,000,000, and this large increase would be followed by the board in the declaration of substantial dividend in common stock to holders of the junior issue after the increase in capitalization had been perfected.

No statement has been officially made public in regard to the showing made in the recently completed appraisals of the properties owned by the company. The new valuations will be placed on the books of the company as of March 31, 1917, the close of the fiscal year, and these valuations will be many millions less than the appraisal figures as fixed by the experts. The company has purchased two compression gasoline extraction plants in the Cushing field of Oklahoma with a combined capacity of 15,000 gallons of gasoline daily.

Six new oil wells have been drilled in the Ohio fields with initial productions of 60, 80, 90, 110, 225 and 235 barrels each daily. The earnings of the Oklahoma properties are satisfactory to the directors, and the Ardmore and International refineries refined an average of 11,500 barrels daily in March.

The Cabin Creek district of West Virginia is averaging a production of 2,500 barrels of crude daily.

OHIO COPPER CO.

"(1) Acquisition.—Reported on March 29, 1917, that the management of this

company had recently purchased a large amount of the bonds and all the paid and common stock of the Bingham Central Ry. Co. This gives the mining company control of the transportation of its ores from the mine to the mill at Lark, Utah.

OHIO COPPER MINING CO.

"(1) Injunction Against Realty Co.—It was announced at New York Jan. 30, 1917, that Judge Mayer in the United States District Court had rendered an opinion granting an order in the bankruptcy proceedings against this company. The order enjoins the Madison Real Property & Security Co. from prosecuting any action in any court affecting the property of the Ohio Copper Co.

A motion for an injunction had been made asking that an injunction be granted against Arthur P. Heinze, the Western Development Co. and a number of other companies, but Judge Mayer held that these companies were not parties in any proper sense to the bankruptcy proceedings against the Ohio Copper, and so limited the scope of the injunction to the Madison Co.

In October, 1916, Heinze and the Madison Co. began an action in the Supreme Court against the property of the Ohio Copper Co. This injunction will apply in that case.

—Apr.

"(1) Production Increase.—It was stated April 12, 1917, that a production of 500,000 pounds of copper monthly had been attained by this company under its new management. During the second half of 1917 it will be increased.

Flotation has been decided upon and the Minerals Separation Co.'s license secured. This should tend greatly to increase extraction, which under former conditions and during the Heinze regime never reached much above 50%.

"(2) Acquisition.—It was announced April 12, 1917, that stock control of the Bingham Central Ry., owner of the Mascotte tunnel, had been secured by this company. This company operates a narrow-gauge railroad which hauls the Ohio ores from mine to mill.

OHIO FUEL OIL CO.

"(1) New Oil Well.—It was announced Feb. 27, 1917, that this company had brought in a new well on the Wright-Halstead lots, located at Fairfield, Kanawha County, W. Va., which is good for about 100 barrels a day and is first of a number of wells the company is drilling on these lots. The company is also drilling extensively on the Porter-Batton and Porter-Crawford lots, and on the J. D. Kittenger farm. Earnings of the company are running at the rate of approximately \$6 per share per annum.

—Mar.

"(1) Development.—It was stated March 19, 1917, that this company had drilled well No. 6 on the Isabelle Meyers Farm in West Virginia, which is showing for 40 barrels a day. The company brought in a well flowing 30 barrels a day on the Wright Halstead lots at Fairfield and extensive drilling is being done in other sections. A material increase has been effected in the manufacture of gasoline.

"(2) New Well.—It was announced March 26, 1917, that a new well flowing 25 barrels a day has been brought in by this company on the Isabell Myers farm in the district where a 40-barrel well was brought in recently. The company has commenced drilling in the Cabin Creek district besides drilling in other sections of West Virginia and in the Irvine field of Kentucky.

—Apr.

"(1) Operations.—It was stated April 11, 1917, that this company had brought in several wells within 30 days. The latest, it was stated, was a 90-barrel well in the Cabin Creek district of West Virginia. A 30-barrel well was also brought in on Blue Creek.

JANUARY 1 TO APRIL 30, 1917

● OHIO FUEL SUPPLY CO.

¹(1) Application to List.—Announced Feb. 1, 1917, that the New York Stock Exchange had received application to list \$19,813,000 capital stock of this company.

²(2) Listed on New York Stock Exchange.—It was announced Feb. 14, 1917, that the listing committee of the New York Stock Exchange had approved the listing of \$19,813,000, or 762,520 shares, par \$25, of this company. The stock is also listed on the Pittsburgh Stock Exchange. The company has paid dividends since 1902, the prevailing rate being 50 cents a share quarterly on the stock.

³(8) Earnings, Eight Months Ended Dec. 31, 1916.—It was stated that the earnings for the above period of this company, whose fiscal year ends April 30, were \$3,442,773, from operation, with interest of \$36,590 and dividends received on its 49% holdings of United Fuel Gas stock of \$617,400, making total revenues for the eight months \$4,006,762. Expenses were \$2,750,068, dividends \$489,210, interest on debentures, now retired, \$183,454, leaving a surplus of \$668,030.

⁴(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$9,222,599.

⁵(5) Admitted to List.—It was announced Feb. 15, 1917, that \$19,813,000 of this company's temporary interchangeable certificates had been admitted to the list of the New York Stock Exchange.

⁶(6) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$9,222,599.

⁷(7) Transfer Agent.—Announced Feb. 27, 1917, that the Bankers Trust Co., New York, had been appointed transfer agent for the stock of this company, recently listed on the New York Stock Exchange.

⁸(8) Earnings, Nine Months Ended Jan. 31, 1917, of this company, not including earnings from the United Fuel Gas Co., with comparisons, follow:

	1917	1916
Gross	\$0,081,959	\$4,525,387
Operat. expenses	4,191,845	3,478,900
Net after taxes..	1,890,114	1,046,487

—Mar.

¹(1) Dividend Increased.—Announced March 14, 1917, that this company had declared a quarterly dividend of 2½%, payable April 13 to stock of record March 31. This is an increase of ½ of 1% over the last previous quarterly dividend.

OHIO HYDRATE & SUPPLY CO.,
WOODVILLE, O.

¹(1) Capital Increase.—On April 7, 1917, the company filed notice at Columbus, O., of an increase in capital from \$125,000 to \$250,000.

OHIO IRON & STEEL CO.

¹(1) Extra Dividend of 8%.—This company April 20, 1917, declared an extra dividend of 8%, in addition to the regular annual dividend of 12%, the aggregate payable on the first of each month, at the rate of 1½%.

OHIO LIGHT & POWER CO.

¹(1) Merger Authorized.—See Canton Electric Co.—Item No. 1.

● OHIO OIL CO.

¹(1) Crude Oil Price Advance.—Announced Jan. 2, 1917, that this company had advanced North and South Lima, Wooster, Indiana, Illinois, Princeton and Plymouth grades of crude oil 10 cents a barrel.

²(2) Crude Oil Advance.—Announced Jan. 8, 1917, that this company had advanced the price of crude oil 10 cents a barrel for the following grades: North and South Lima to \$1.78, Illinois and Princeton to \$1.82, Wooster to \$2, Plymouth to \$1.53 and Indiana to \$1.63.

—Feb.

¹(1) Capital Increase Approved.—It was announced at Findlay, O., Jan. 31, 1917, that the stockholders of this com-

pany had approved the plan to increase the capital stock from \$15,000,000 to \$60,000,000 by changing the par value from \$25 to \$100. The company's surplus was estimated at \$75,000,000.

²(2) Stock and Extra Dividends.—Announced Feb. 1, 1917, that this company had declared a stock dividend of \$75 per share, also the regular quarterly dividend of \$1.25 and an extra dividend of \$4.75 per share, both payable March 20 to stock of record Feb. 15. Books close Feb. 15 and reopen March 15.

³(3) Deal.—See United Western Oil Co. Item No. 1.

⁴(4) Stock Increase Held Up.—It was announced Feb. 17, 1917, that the Attorney-General of Ohio had ruled that under the State laws this company cannot increase its capitalization of \$15,000,000 to \$60,000,000 by adding to the par value of the stock and not increasing the number of shares. He directed Secretary of State W. D. Fulton to refuse to authorize the application of the company to increase its capital stock in such a way.

—Mar.

¹(1) Statement About Stock Increase Plan.—It was announced March 20, 1917, that this company had issued the following statement to its stockholders: "Acting upon the opinion of the Attorney-General of Ohio holding that the capital stock of an Ohio corporation cannot be increased by raising the par value of the shares, the Secretary of State of Ohio has refused to file a certificate of the action of the stockholders of this company at their meeting Jan. 31, 1917, in voting an increase in capital stock from \$15,000,000 to \$60,000,000 in this manner. For this reason, the action of the stockholders aforesaid is ineffective and the directors of this company cannot declare the contemplated stock dividend of \$75 per share.

"The directors have not determined what other action, if any, will be taken in the matter. The stockholders will be duly notified should any action be taken."

²(2) Financial Statement.—It was stated March 20, 1917, that this company's financial statement for the year ended Dec. 31, 1916, shows total assets of \$82,773,218 as follows: Producing and merchandising property, \$15,515,290; non-producing property, \$1,406,842, and cash, other investments, accounts receivable, material, merchandise, etc., \$65,851,085. Liabilities include capital stock, \$15,000,000, accounts payable, \$926,296, and surplus, \$66,846,921.

—Apr.

¹(1) Oil Increased Five Cents a Barrel.—Five cents a barrel was added to the price of oil by this company at its general offices in Findlay, O., April 16, 1917.

OHIO PERMANENT HIGHWAYS
CORP.

¹(1) Incorporated on March 31, 1917, in Delaware, with a capital of \$3,000,000, to engage in building highways, streets, buildings, etc. Incorporators: Arthur W. Britton, Samuel B. Howard and Louis H. Gunther, all of New York.

OHIO RIVER POWER CO.

¹(1) Starting of Operations.—See American Gas & Electric Co.—Item No. 1.

OHIO RUBBER CO., CLEVELAND, O.

¹(1) Capital Increased.—On Jan. 31, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$250,000 to \$350,000.

OHIO STATE BRICK & STONE CO.,
COLUMBUS, O.

¹(1) Capital Increased.—On Jan. 31, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$10,000 to \$400,000.

OHIO STATE TELEPHONE CO.

¹(1) Bond Sale.—Syndicate.—Announced Jan. 10, 1917, that Bodell & Co., of Providence, and Otis & Co., of Cleveland, had purchased from J. P. Morgan & Co., \$5,000,000 of the bonds of this

company and were planning a public offering of the issue.

A syndicate is being formed for the sale of these bonds, which were taken by J. P. Morgan & Co. at the time the Ohio State Telephone Co. was formed from a number of independent telephone companies in Ohio controlled by the Morgan firm and including Cuyahoga Telephone Co., Toledo Home Telephone Co., Dayton Home Telephone Co., Columbus Citizens Telephone Co., United States Telephone Co. and others.

²(2) Report, 12 Months Ended Nov. 30, 1916, shows:

	1916	1915
Gross earnings...	\$3,642,130	\$3,214,581
Net after taxes..	1,513,859	1,242,695
Surp. aft. chgs.	937,044	697,735
Bal. after pfd. divs.	611,738	384,680

³(3) Status.—It was stated Jan. 16, 1917, that the principal companies forming this company came under control of J. P. Morgan & Co. for the purpose of consolidating the telephone business in Ohio, but, because of the attitude of the Government, the companies were forced to remain independent. Control of the companies was held by J. P. Morgan & Co. until early in 1914, when the Ohio men interested in their management purchased them from the Morgan firm and formed the Ohio State Telephone Co.

In all, 15 telephone companies were included in the new company, among them being those operating in Cleveland, Toledo, Columbus, Dayton, Youngstown, Akron and Canton. The company now has over 126,000 telephone stations and a comprehensive system of 34,000 miles of long distance lines covering Ohio and reaching into New York, Pennsylvania, West Virginia, Indiana and Michigan.

The long-distance lines of the American Telephone & Telegraph Co. are also open to the use of the subscribers of Ohio State Telephone Co.

Ohio State Telephone Co. has outstanding \$7,073,100 of underlying bonds and \$5,000,000 out of an authorized issue of \$20,000,000 consolidated and refunding bonds. The value of the physical property of the company July 23, 1914, as fixed by the Ohio Public Utilities Commission, was \$20,692,206. Since then \$1,000,000 additional has been spent for capital account, making the present value above \$24,690,000, against which but 53% of this amount in bonds is outstanding. The company has \$6,128,325 pfd. and \$5,205,475 common stock.

The mortgages of the underlying bonds are all closed and additional consolidated and refunding bonds may only be issued for the purchase of other telephone properties or for refunding underlying issues, all further construction expenditures having to be provided for by the issue of securities junior to the consolidated and refunding bonds.

The company charges into operating costs about 20% of gross revenues for maintenance, and in addition sets aside from surplus for depreciation reserve an average annual amount of 10% of gross revenues.

Until July 1, 1917, the bonds bear 4% interest and from that date interest rate will be 5%. All the outstanding securities of the company have been approved by the Ohio Public Utilities Commission.

⁴(4) Bonds.—It was announced Jan. 22, 1917, that Bodell & Co., of Providence, R. I., and Otis & Co., of Cleveland, Ohio, are receiving subscriptions at 93½ and interest for \$5,000,000 consolidated and refunding mortgage 5% bonds of this company, recently purchased from J. P. Morgan & Co.

Net earnings of this company are 2½ times interest charges.

⁵(5) Bonds Oversubscribed.—It was announced Jan. 25, 1917, that this company's \$5,000,000 5% first mortgage bonds, offered for subscription by Bodell & Co. and Otis & Co., had been almost four times oversubscribed and allotments would be made of the bonds to the subscribers.

JANUARY 1 TO APRIL 30, 1917

—Feb.

¹(1) **Earnings, December, 1916.**—It was stated Feb. 6, 1917, that this company had reported gross for December, 1916, of \$331,168, compared with \$287,607 for December, 1915, while net was \$121,276, compared with \$122,031. Surplus for the month was \$71,061, compared with \$76,221, and the balance for the common stock was \$42,077, as against \$50,133 for December, 1915.

²(2) **Bond Issue Permit Sought.**—It was announced Feb. 21, 1917, that this company had applied to the Ohio Utilities Commission for permission to issue \$5,355,200 5% bonds, to run 30 years from 1914, when the reorganization took place. They will be issued to take up bonds of subsidiary companies absorbed when the merger was effected.

—Mar.

¹(1) **Earnings Statement, January, 1917,** shows gross of \$321,795, an increase of \$34,815 over January, 1916. Net earnings were \$129,234, a gain of \$8,425, with a surplus of \$78,906, an increase of \$4,582. Pfd. dividends for the month were \$55,806, compared with \$26,088 in January, 1916, leaving a balance available for depreciation and distribution on the common stock of \$43,100, a decrease of \$5,136.

—Apr.

¹(1) **Report, Year Ended Dec. 31, 1916,** shows total revenue of \$3,689,607, compared with \$3,249,018 in 1915. The balance transferred to surplus was \$188,025, against \$103,144 in 1915.

²(2) **Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$1,131,565, compared with \$1,141,072 Dec. 31, 1916.

**OHIO STEEL FOUNDRY CO.,
LIMA, O.**

¹(1) **Capital Increased.**—On Feb. 28, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$300,000 to \$1,000,000.

—Apr.

¹(1) **Capital Increased.**—On April 10, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$1,300,000 to \$1,500,000.

OHIO TRAILER CO., CLEVELAND, O.
¹(1) **Incorporated** in March, 1917, in Ohio, with a capital of \$300,000. Incorporators: E. C. Spader, M. F. McFadden, N. H. Ficht, R. M. Schrod and M. C. Hayes.

OHIO VALLEY ELECTRIC RY. CO.

¹(1) **Bond Sale.**—It was announced Jan. 18, 1917, that this company had sold to the Fidelity Trust Co., Baltimore, \$800,000 first mortgage 5% 30-year bonds. The bonds are guaranteed principal and interest by the American Rys. Co. and there are \$1,675,000 of them outstanding, the proceeds having been used to retire all underlying bonds.

The company operates the electric railway systems of Huntington and Kenova, W. Va., Ashland and Catettsburgh, Ky., and Ironton, Ohio, with 46 miles of line and serving a population of 100,000. Earnings of the company for 1916 were \$547,000 gross and \$229,600 net.

—Apr.

¹(1) **Earnings, 12 Months Ended Dec. 31.**—This company's report for the 12 months ended Dec. 31, 1916, showed gross earnings of \$551,582 and net earnings applicable to interest of \$237,066. The actual earnings for this period were nearly \$7,500 more than estimated by the company in January, at the time the syndicate acquired by the Fidelity Trust Co. sold the first mortgage 5% 30-year gold bonds of the company. These bonds, of which \$1,675,000 are outstanding, are guaranteed principal and

interest by the American Railway Co. The bonds are a first mortgage, and the earnings of the company are at the rate of 2.83 times interest charges on bonds outstanding.

OHIO VALLEY OIL & GAS CO. (THE).

¹(1) **Incorporated** on Feb. 16, 1917, in Delaware, with a capital of \$1,000,000, to acquire and develop oil and gas lands. Incorporators: M. L. Rogers, L. A. Irwin and H. W. Davis, Wilmington, Del.

OHIO & WESTERN LIME CO.

¹(1) **Merger.**—Announcement was made at Cleveland, O., April 11, 1917, of the merger of this company with the Kelley Island Lime & Transport Co. By the merger 13 plants, with an annual capacity of 8,000,000 barrels, are brought under one management. The offices of the company are in Cleveland.

OIL CONCESSIONS OF MAYARS**(TRINIDAD), LTD.**

¹(1) **Taken Over.**—See Trinidad Central Oilfields, Ltd.—Item No. 1.

OIL MIST CORP.

¹(1) **Incorporated** on April 13, 1917, in Delaware, with a capital of \$1,000,000 to prospect for and market oils and natural gas. Incorporators: M. L. Gatchell, L. A. Irwin and H. W. Davis, Wilmington, Del.

OIL PRODUCTS & REFINING CO.,**OF KANSAS.**

¹(1) **Incorporated** on March 22, 1917, in Delaware, with a capital of \$250,000, to acquire by purchase or otherwise oil and gas lands, asphaltum, etc. Incorporators: Walter Weiss, Roscoe C. Ray and Clinton H. Montgomery, all of New York.

OIL PRODUCTS CORP.

¹(1) **Change in Name.**—On Feb. 9, 1917, the company filed notice at Dover, Del., of a change in name to the Tremley Oil Co., New York.

OKLAHOMA CO. (THE).

¹(1) **Incorporated** on March 14, 1917, in Delaware, with a capital of \$3,000,000, to acquire oil and gas wells and obtain and lease all kinds of mining and mineral rights. Incorporators: L. B. Phillips, M. M. Hiron and J. B. Bailey, Dover, Del.

**OKLAHOMA EXPLORATION OIL
& GAS CO.**

¹(1) **Incorporated** on Jan. 26, 1917, in Delaware, with a capital of \$1,500,000, to explore and develop lands containing oil and natural gas. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

**OKLAHOMA-KANSAS OIL & GAS
MANUFACTURING CO.**

¹(1) **Incorporated** on March 1, 1917, in Delaware, with a capital of \$2,000,000, to engage in a general oil and gas business. Incorporators: Lowry Vahey, Chas. L. Moore and Donald R. Bonfoe, all of Oklahoma City.

OKLAHOMA KENTUCKY OIL CO.

¹(1) **Incorporated** on Feb. 8, 1917, in Delaware, with a capital of \$3,000,000, to drill and bore for oils, sulphur, etc. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

**OKLAHOMA PRODUCING &
REFINING CO.**

¹(1) **Capital Increase Planned.**—It was stated Feb. 5, 1917, that at the annual meeting of this company Feb. 19 stockholders would vote on a proposition to increase the authorized capitalization of the company from \$5,000,000 to \$10,000,000. No announcement is given as to whether any of the increased capital stock, if voted, will be issued immediately. The increase, it is understood,

is in line with the company's plans for expanding producing properties in Oklahoma and Kansas.

²(2) **Oil Land Deal Approved.**—See Osage-Hominy Oil Co.—Item No. 1.

³(3) **Stock Increase Approved.**—Announced Feb. 19, 1917, that at the annual meeting of this company the stockholders approved of an increase in capital stock from \$5,000,000 to \$10,000,000.

⁴(4) **New Directors.**—Announced Feb. 19, 1917, that at the annual meeting of stockholders of this company John M. Crawford, D. B. Crawford, Harvey D. Gibson, Homer Preston and John L. Weeks were elected directors.

⁵(5) **Report, Year Ended Dec. 31, 1916,** shows earnings amounting to \$348,959, before providing for depreciation. Dividends amounting to \$197,782 were paid during the year, leaving a surplus of \$151,177.

⁶(6) **Balance Sheet,** as of Dec. 31, 1916, shows:

Assets—Operated properties, \$3,481,091; undeveloped lands and leases, \$174,156; pipe lines, buildings, machinery, etc., \$490,545; Osage-Hominy Oil Co. stock, \$3,187,500; miscellaneous investments, \$6,723; inventories of oil, etc., \$212,369; accounts receivable, \$233,169; bills receivable, \$19,065; cash in banks, \$1,089,989; deferred charges, \$6,485; total, \$8,910,092.
Liabilities—Capital stock, \$5,000,000; premium on sale of capital stock, \$1,097,548; capital stock of Muskogee Refining Co., \$2,737; bills payable, \$2,500,000; accounts payable, \$158,623; surplus, \$151,178; total, \$8,910,092.

—Mar.

¹(1) **Dividend.**—Announced March 6, 1917, that this company had declared a quarterly dividend of 2½% on its capital stock, payable March 30 to stock of record March 20.

²(2) **Capital Increased.**—On March 15, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$5,000,000 to \$10,000,000.

³(3) **New Well.**—It was stated March 15, 1917, that this company had brought in well No. 2 on the Penn Carter property, with a production of 125 barrels daily.

OKLAHOMA QUEEN OIL CO.

¹(1) **Incorporated** on April 25, 1917, in Delaware, with a capital of \$1,000,000, to engage in a general oil business. Incorporators: F. D. Buck, M. L. Harty and K. E. Longfield, Wilmington, Del.

OKLAHOMA SOUTHERN OIL CO.

¹(1) **Incorporated** on March 15, 1917, in Delaware, with a capital of \$1,000,000, to acquire and develop oil, coal and mineral lands. Incorporators: M. L. Gatchell, L. A. Irwin and Harry W. Davis, Wilmington, Del.

**OKMULGEE PRODUCING &
REFINING CO.**

¹(1) **New Company Organized.**—It was announced Feb. 2, 1917, that a merger of Oklahoma properties had been completed by the organization of this company in Delaware, with an authorized capital of \$5,000,000. E. W. Kimbley is Pres.; J. M. Moellendick and G. A. Simons, Vice-Pres.; J. P. Cook, Treas., and H. H. Hay, Sec'y., all of Okmulgee. A. B. Benesch, of Benesch & Co., New York, is interested in the financing of the new company.

The properties merged constitute leases in Okmulgee County, on which 60 wells producing 1,500 barrels a day are operated, 1,000 acres and the Tiger Refining Co. plant at Okmulgee.

—Apr.

¹(1) **Extra Dividend.**—Announced April 2, 1917, that this company had declared the regular quarterly dividend of 2½% and an extra of 1%, both payable April 30 to stock of record April 10.

²(2) **Listed on New York Curb.**—On April 13, 1917, the New York Curb Market Association admitted to the list this company's 1,000,000 capital shares,

JANUARY 1 TO APRIL 30, 1917

par \$5. Transfer agent, Empire Trust Co., New York; registrar, Registrar & Transfer Co.

OKO ZINC & LEAD CO., BOSTON, MASS.

*(1) Incorporated in February, 1917, in Massachusetts, with a capital of \$500,000. Pres., Arthur W. Pope; Treas., Malcolm Green, Boston; Clerk, Arthur L. King, Boston.

OLAA SUGAR CO., LTD.

*(1) Report, Year Ended Dec. 31, 1916, shows a profit on the year's crop of \$538,446. Other receipts, together with balance carried over from the previous year, total \$676,589. The company closed the year with a balance of \$225,220, after meeting dividends, labor bonus and bond-sinking requirements. Dividends paid (the first received by the stockholders) for the year were \$242,751.40, approximately \$1 per share on the 250,000 shares.

Manager C. F. Eckart reported the acreage cropped as 5,832, yielding 21,574 tons of sugar, or an average production over all of 3.70 tons per acre. It required, he observes, 9.03 tons of cane to produce one ton of sugar.

For 1917 the total area in crop is 6,098 acres, of which the plantation fields occupy 3,489 and the outside planters 3,209 acres. He placed the estimate for total sugar yields at 30,000 tons.

OLD COLONY COPPER CO.

*(1) Merger Approved.—See Mayflower Mining Co.—Item No. 1.

OLD COLONY GAS CO.

*(1) Output, March, 1917.—This company, April 14, 1917, reported that output for March was 7,373,000 cub. ft., compared with 6,005,000 cub. ft. for the same month of the previous year, an increase of 22%.

OLD COLONY STREET RY.

*(1) Mortgage.—See Bay State Street Ry. Co.—Item No. 3.

OLD DOMINION CHEMICAL CO., INC., YORKTOWN, VA.

*(1) Incorporated on Jan. 23, 1917, in Virginia, with a maximum capital of \$275,000 and a minimum \$100, par \$100, to manufacture chemicals. Incorporators: Andrew D. Christian, Pres., and E. S. Bolen, Sec'y and Treas., both of Richmond, Va.

OLD DOMINION CO.

*(1) Production, March, 1917.—Announced April 3, 1917, that this company's smelter output in March totaled 3,335,000 pounds, compared with 2,695,000 in February and 3,000,000 in January, 1917.

*(2) Net Income, Year Ended Dec. 31, 1916, amounted to \$3,532,126, an increase of \$2,142,729 over the preceding year. The net income is equivalent to \$12.04 a share on 293,353 shares outstanding. During the year dividends amounting to \$3,520,236 were paid.

OLD DOMINION CO. OF MAINE.

*(1) Output, December, 1916.—Announced Jan. 3, 1917, that the output of this company for December totaled 3,270,000 lbs., compared with output of 3,650,000 lbs. in November and 3,200,000 lbs. in October.

The output for 1916 totaled 40,437,000 lbs., compared with 27,860,000 lbs. in 1915.

—Feb.

*(1) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross	\$3,557,069	\$1,405,295
Net	3,532,125	1,389,396
Surp. after divs.	11,889	177,369
Deficit.		

*(2) Earnings on Stock.—It was stated Jan. 31, 1917, that this company's net of \$3,532,125 is equal to \$12.03 per share on its 293,353 shares.

*(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$367,586, compared with \$355,096.

*(4) Production, January, 1917.—Announced Feb. 6, 1917, that this company's smelter output in January totaled 3,000,000 pounds, compared with 3,370,000 in December, and 3,650,000 in November, 1916.

*(5) Operating Company to Be Dissolved.—See Old Dominion Copper Mining & Smelting Co., New Jersey.—Item No. 2.

—Mar.

*(1) Production, February, 1917.—It was announced March 9, 1917, that this company's smelter output in February totaled 2,695,000 pounds, compared with 3,000,000 in January.

*(2) Decreased Dividend.—Announced March 9, 1917, that this company had declared a quarterly dividend of \$3 a share, payable March 30 to stock of record March 14. The last previous dividend, paid Dec. 20, 1916, was \$3.50 a share.

*(3) Operating Company.—It was stated March 12, 1917, that through acquisition of assets and business of the Old Dominion Copper Mining & Smelting Co., of New Jersey, this company had changed from a purely holding concern to an operating mining company. Henceforth its earnings will come from direct operations, rather than through dividends paid into its treasury from subsidiary operating corporations.

OLD DOMINION COPPER MINING & SMELTING CO. OF NEW JERSEY.

*(1) Development.—It was stated Jan. 30, 1917, that in this company's smelter department there are three blast furnaces operating at this time. Copper production averages about 3,000,000 pounds per month. About 1,100 tons of flotation concentrates are being hoisted daily at the mine and are sent to the International Smelter at Miami. The flow of water is about 4,000,000 gal. per day.

Development work is proceeding east and west on the 18th level, which is the present lowest level. The "K" shaft is being sunk to the 18th level. At present it is down 100 feet from the 16th level. The concentrator is milling 900 tons per day, including some Arizona Commercial ore. The flotation plant is treating 300 tons per day. In the lower part of the old unit a flotation plant capable of treating 600 tons per day is being installed. Near the "A" shaft the Diesel engine foundation is completed.

*(2) To Be Dissolved.—It was stated Feb. 21, 1917, that in order to avoid the unnecessary duplication of corporate entities directors of this company had voted in favor of its dissolution. For the purpose of carrying out the plan it was stated stockholders would meet March 15 to vote upon the resolution.

The directors voted to sell all the assets for \$10,000,000 to the Old Dominion Co. of Maine, the holding company, which already owns all the outstanding stock of the United Globe Mines Co. and all except a small minority of the Old Dominion Co. of New Jersey.

By the terms of this sale the Maine company agrees to issue 2 shares of its stock for every one share of stock in the Old Dominion of New Jersey. Payment of the aforesaid \$10,000,000 has been made to the New Jersey company, and the assets have been conveyed and delivered.

Out of the \$10,000,000 the directors have declared a dividend in dissolution to all the stockholders of \$61.73 per share on the outstanding 162,000 shares.

The so-called Old Dominion trust, which has received dividends of \$12 per share from the proceeds of the Bigelow litigation, has practically turned into cash all of its assets, but one important item remaining unsettled. With the cleaning up of this at its face value there should be another \$1 distribution, making \$13 per share in all for the Old Dominion trust holders.

—Mar.

*(1) Sale.—See Old Dominion Co. of Maine.—Item No. 3.

—Apr.

*(1) Report, Year Ended Dec. 31, 1916.—This company reported for the year 1916, net earnings amounting to \$2,670,595, an increase of \$2,101,038 over 1915. Surplus after providing for depreciation of plant and mines, amounted to \$2,171,458, which was equivalent to \$13.40 a share on 162,000 shares of capital stock outstanding.

OLD DOMINION OIL CO.

*(1) Incorporated on Jan. 29, 1917, in Delaware, with a capital of \$250,000, to locate and develop oil lands. Incorporators: Geo. H. Swan, W. A. Stetler and Chas. L. Yancey, Muskogee, Okla.

OLD DOMINION POWER CO.

*(1) New Company.—A Norton, Va., dispatch, Jan. 6, 1917, stated that this company had been incorporated in Virginia with a capital of \$500,000. No announcement was made as to the plans, but Sec. W. W. Kemp is authority for the statement that preliminary work would be started early in 1917.

*(2) Plans.—On Jan. 11, 1917, it was announced that this company had been organized to take over the Norton Light & Power Co., the Coeburn Light & Power Co., the Glamorgan Light & Power Co., the Norton Water Co., and the New York Mining & Manufacturing Co., assuming charge of these properties Feb. 1.

The new company will have a 2,500-kilowatt generating station at Dorchester, Va., with 50 miles of high-tension transmission lines, and will furnish electric light and power to four towns and to eight coal-mining camps.

OLIVER PRODUCTS CO. OF CALIFORNIA.

*(1) Incorporated on March 6, 1917, in Delaware, with a capital of \$500,000, to acquire orchards and lands for the development of nuts, olives, etc. Incorporators: Arthur W. Britton, Samuel B. Howard and L. H. Gunther, all of New York.

OLYMPIAN KNIT GOODS CO., NEW HARTFORD.

*(1) Capital Increased.—On March 12, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$150,000 to \$300,000.

OLYMPIAN MOTORS CO.

*(1) Acquisition.—It was announced Feb. 16, 1917, that this company, Pontiac, Mich., had purchased the former Cartercar Co. plant, and would take possession April 1, 1917.

This factory consists of five factory buildings. The floor space at present is 225,000 square feet.

In addition to the Cartercar plant, which is located on five acres of land, the Olympian Motors Co. has purchased 15 acres adjoining the factory, and on this ground it proposes to erect a modern one-story assembling plant.

OMAHA, LINCOLN & BEATRICE INTERURBAN R. R.

*(1) Stock Issue.—Announced Jan. 10, 1917, that this company, Lincoln, Neb., had been authorized by the Nebraska Railroad Commission to issue \$2,000,000 of common stock and \$500,000 of pfd. stock, and \$2,500,000 of bonds for building and completing its line from Omaha to Lincoln.

OMAR OIL & GAS CO.

*(1) Operations.—It was announced Feb. 7, 1917, that in reporting well No. 5 in the Lost Soldier field of Wyoming, in which this company holds $\frac{1}{4}$ interest, the field superintendent sent the following:

"If you could see the No. 5 well flow through that 15 $\frac{1}{4}$ -inch hole you would think we had the world beaten. Really, when we ran the tools the last time it flowed eight feet above the mouth of the hole and fell over at the rate of at least 10,000 barrels per day."

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

151st STREET CONSTRUCTION CORP.

¹(1) Incorporated on March 14, 1917, in New York, with a capital of \$300,000, to act as a theatrical, moving pictures and vaudeville agency. Incorporators: B. S. and L. N. Moss and M. Suizberger, 240 East 72d St., New York.

ONEIDA KNITTING CO.

¹(1) Sold at Auction.—It was announced April 12, 1917, that this company's plant in Philadelphia had been sold at auction for \$190,000 to W. D. Campbell, of Campbell, Health & Co., New York. The company's plants at Oneida and Stittville, N. Y., were booked for sale April 13, 1917. The sale of these plants, comprising all of the company's property, was forced to meet the demands of a group of pfd. creditors.

ONEIDA MOTOR TRUCK CO., GREEN BAY, WIS.

¹(1) Incorporated in February, 1917, in Wisconsin, with a capital of \$300,000, to manufacture motor trucks and parts. Incorporators: Mitchell Joannes, J. H. Taylor, F. E. Burrall, J. C. Fogarty and several other business men of Green Bay. Although details were not divulged, it was reported that the company was organized to take to Green Bay the Menominee Motor Truck Co., of Menominee, Mich.

ONEIDA STEEL PULLEY CO.

¹(1) Sale.—See Dodge Manufacturing Co., Mishawaka, Ind.—Item No. 2.
¹(2) Sale of Property.—See Dodge Manufacturing Co.—Item No. 3.

ONOMEA SUGAR CO., HAWAII.

¹(1) Extra Dividend.—Announced that this company in January, 1917, paid a regular dividend of 40 cts. monthly and \$2.40 extra, or \$210,000.

—Mar.

¹(1) Report, Year Ended Dec. 31, 1916, shows a net profit carried to surplus account for the year of \$840,412, equivalent to more than \$11 per share, or in excess of 55% on the par value of the stock, which is \$20 per share. The manager estimates the 1917 crop at 19,798 tons. Dividends paid during the year amounted to \$825,000, or 55% on the par value of shares.

ONONDAGA MINES CO.

¹(1) Development.—Announcement was made at Georgetown, Col., Jan. 4, 1917, that the drift in the ground of this company west from No. 1 raise on the 450 level in the Capital ground had been advanced 100 feet. The sinking of the shaft from the Kane adit has been commenced by contractors, who have two shifts at work.

A bonus has been hung up for the contractor who first reaches the connecting point of the drift and shaft, there being about 540 feet of drifting in all from the top of No. 1 raise and about 270 feet of sinking.

A good tonnage of ore is blocked out between the 100 and 180 levels, and also above the 180, where a stope has been started between Nos. 2 and 3 raises.

ONONDAGA PETROLEUM CORP., TULLY, N. Y.

¹(1) Incorporated on March 22, 1917, in New York, with a capital of \$750,000, to deal in oil, gas, minerals and engage in mining, manufacturing and trading. Incorporators: F. L. Smith, L. Vinney and F. P. Assmann, Syracuse, N. Y.

ONTARIO LIGHT & TRACTION CO.

¹(1) Sale Authorized.—See Rochester Ry. & Light Co.—Item No. 2.

ONTARIO SILVER MINING CO.

¹(1) Shaft at 1,700-ft. Level Unwatered.—On April 14, 1917, this company announced that the shaft down to the 1,700-ft. level had been unwatered and the pumping station and level were found in good condition. The unwatering was accomplished without any difficulty.

¹(2) Shaft Restored to Good Condition.

—On April 23, 1917, the "Wall Street Journal" said that the shaft of this company, which had collapsed, flooding the workings, had been retimbered and rebuilt and is in good condition. The unwatering of the 1,700-foot level had permitted operations on new grounds and uncovered an ore body 30 feet wide. The company is in good financial condition, and leases which were given on the upper workings have defrayed the expense of operations on the deeper levels.

Pres. J. S. Bamberger is quoted as stating the company has on hand \$350,000, which is equal to \$2.30 a share on the 150,000 shares outstanding. The company also has on hand about 150,000 ounces of silver, which can now be disposed of at a profitable figure.

The Ontario Silver Mining Co. owns 1,100 acres of coal lands which it has been unable to operate, as the switch built from the Union Pacific could not handle the larger coal cars operated for the company. Ontario officials, however, hope for relief in this respect.

OPTIGRAPH FILM CORP.

¹(1) Incorporated on Jan. 25, 1917, in New York, with a capital of \$300,000, to deal in moving pictures, amusements and theatricals. Incorporators: F. D. Benham, C. Mathien and R. S. Welant, 518 Fifth Avenue, New York.

ORANGE COUNTY LIGHT CO.

¹(1) Merger Authorized.—See Orange County Public Service Corp.—Item No. 1.

¹(1) Merger Permit Sought.—See Orange County Public Service Corp.—Item No. 1.

—Apr.

¹(1) Merger Authorized.—See Orange County Public Service Corp.—Item No. 1.

ORANGE COUNTY PUBLIC SERVICE CORP.

¹(1) Merger Permit Sought.—It was announced Feb. 1, 1917, that this company had applied to the New York Second District Public Service Commission for authority to acquire the Murray Electric Light & Power Co., the Orange County Power Co., the Port Jervis Light & Power Co. and the Orange Lighting Co.

In connection with the consolidation approval is asked of the issue of \$1,200,000 at 87½, \$250,000 7% pfd. and \$350,000 common stock, at par.

—Apr.

¹(1) Acquisition Authorized.—Announcement was made April 5, 1917, that the New York Second District Public Service Commission had authorized this company to take over and consolidate the Murray Electric Light & Power Co., the Orange County Power Co., Port Jervis Light & Power Co., and the Orange County Light Co., for a consideration of \$1,600,000.

The new corporation will issue \$350,000 common and \$250,000 7% pfd. stock, at not less than par, and \$1,200,000 first mortgage 45-year 5% bonds at not less than 87½. Of the proceeds of the sale of these securities, \$50,000, in addition to the purchase price of the merged properties, will be devoted to the organization expenses of the new corporation, which also is required over the ensuing 15 years to write off and amortize \$58,000 of the assets to be acquired.

The new corporation has promised to increase and extend service to and between the communities in which the merged companies have been doing business. The commission in its order expressly declined to be bound in any complaint against future rates of the corporation by the capitalization now approved, reserving the right to make a further future investigation in that respect.

ORANGE LIGHTING CO.

¹(1) Merger Permit Sought.—See Orange County Public Service Corp.—Item No. 1.

ORANGE & ROCKLAND ELECTRIC CO.

¹(1) Acquisition Planned.—It was announced March 9, 1917, that this company had filed application with the New York Second District Public Service Commission to acquire all the assets of the Buttermilk Falls Electric Co. and to issue its pfd. stock and bonds in connection with this purchase.

OREGON & CALIFORNIA R. R.

¹(1) Government Brief Filed.—It was announced March 7, 1917, that the Government had filed its brief in the case against this company, a subsidiary of the Southern Pacific Co., involving 2,300,000 acres of land which the Government claims it has a right to recover at \$2.50 per acre.

—Apr.

¹(1) Land Suit Decree for Government Upheld by Supreme Court.—See Southern Pacific Co.—Item No. 8.

OREGON CITY MANUFACTURING CO.

¹(1) Addition.—Announcement was made at Oregon City, Ore., Jan. 11, 1917, that this company had completed plans for building a three-story addition, 80 by 250 feet, to increase its capacity 50% in the manufacturing of woolen goods and clothing.

ORIENTAL NAVIGATION CO.

¹(1) Reorganized.—It was announced Feb. 2, 1917, that this company had been reorganized, the capital having been increased from \$1,500,000 to \$2,000,000. The shareholders under the reorganization are the same as those in the old company. Officers are: Philip de Ronde, Pres.; Capt. John Sampson, 1st Vice-Pres.; R. A. Nicol, 2d Vice-Pres.; C. A. Sullivan, Freight Manager; Frank H. Hall, Sec.

ORIENTAL NAVIGATION CORP.

¹(1) Incorporated on Jan. 5, 1917, in New York, with a capital of \$2,000,000, to act as shipowners ship brokers, managers of shipping property and forwarding agents. Incorporators: F. H. Hall, J. Sampson and P. de Ronde, Englewood, N. J.

—Apr.

¹(1) Donald Line Acquired.—According to an official announcement April 26, 1917, this company has acquired the

JANUARY 1 TO APRIL 30, 1917

Donald Steamship Co., which owns four steamers with an aggregate tonnage of 7,000.

ORIENTAL TRUST GUARANTEE & EXCHANGE CO.

¹(1) Incorporated on Jan. 25, 1917, in Delaware, with a capital of \$10,000,000, to issue stocks and bonds and engage in the financing of companies. Incorporators: Yamamoto Hessaiki and Saito Renkichi, Tokio, Japan, and Midzino Tomero, Tokio Urban Prefecture.

ORIENT METALS, MINING & SMELTING CO., SPOKANE, WASH.

¹(1) Incorporated on Jan. 6, 1917, in Washington, with a capital of \$1,500,000. Incorporators: Nelson C. Titus, Spokane; A. B. Frost, T. Otto, T. B. Furnival and others, Syracuse, N. Y.

ORO ELECTRIC CORP.

¹(1) Sale Approved.—See Pacific Gas & Electric Co.—Item No. 3.

—Apr.

⁴(1) Report, Year Ended Dec. 31, 1916, shows gross operating revenue of \$174,208, net operating revenue of \$62,888 and net corporate loss for the year of \$69,494.

⁴(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$167.

ORO FINO EXPLORATION CO., HACKETTSTOWN, N. J.

¹(1) Incorporated on Jan. 4, 1917, in New Jersey with a capital of \$250,000, to explore for minerals and operate and deal in mines, oil and timber lands. Incorporators: Daniel Maxwell, Leonard Reeves, John F. Jansen, Hackettstown; Patrick W. Braniff, Montclair.

ORTOIRE SYNDICATE, LTD.

⁴(1) Taken Over.—See Trinidad Central Oilfields, Ltd.—Item No. 1.

OSAGE-HOMINY OIL CO.

¹(1) Status.—It was stated Jan. 3, 1917, that this is the new company organized by the Oklahoma Producing & Refining Co. to operate its half interest in 4,780 acres of oil lands in the Osage, about four miles north of Hominy, said to be one of the best pools in the territory and a healthy rival of the Shamrock pool which the Coaden Oil & Gas Co. took over from the Hill Oil & Gas interests.

Subsequent to the purchase by the Oklahoma Producing & Refining Co. of the Kennedy-Springer half interest in this Hominy pool, the Sinclair Oil interests purchased the other half interest from the Tidal Oil Co., a subsidiary of the Tidewater Oil Co.

Oklahoma Producing & Refining Co. is said to have paid more than \$8,000,000 for its half interest in this property, while the Sinclair half interest was acquired. It is announced, for \$8,500,000.

The Oklahoma's operating company, the Osage Oil & Gas Co., is, however, capitalized for \$5,000,000, represented by 1,000,000 shares of a par value of \$5 each, of which the Oklahoma Producing holds 51% and the balance was underwritten by a syndicate of bankers.

¹(2) Operations.—It was stated Jan. 12, 1917, that the new six-inch pipe line of the Tidal Oil Co. running into Hominy Pool in Oklahoma was rapidly nearing completion. When ready to take runs this line will have a capacity of approximately 10,000 barrels a day and will bring the capacity outlet from Hominy Pool up to about 20,000 barrels a day.

As soon as the pipe line construction is completed the production of the Osage-Hominy Oil Co. will be largely increased. The company is turning out 6,000 barrels a day with its well shut in. Production will be brought up close to 14,000 barrels a day.

—Feb.

²(1) Oil Land Deal Approved.—It was announced at Washington Feb. 9, 1917, that Secretary of the Interior Franklin K. Lane had approved of the assign-

ment covering the sale of the Kennedy-Springer half interest in the Osage oil land lease just north of Hominy, Okla.

This lease covers 4,780 acres in the Hominy pool, which may rival the Cushing field in both production and quality of the oil produced. The operation of this lease has been taken over by the Osage-Hominy Oil Co., formed for this purpose and which the Oklahoma Producing & Refining Co. controls through ownership of a majority of its stock.

This company is now in full possession of its interest in the Osage lease and is operating the entire property under a partnership agreement with the Sinclair Oil interest that recently purchased the other half interest in the lease.

There are 13 producing wells on the property, with a daily production of 12,000 barrels. Several more wells are nearing the sand. Nineteen other locations have been made and active efforts will be made to fully develop the property. There are three pipe lines running to the property with a daily capacity of 30,000 barrels.

—Mar.

²(1) Initial Dividend.—Announced March 6, 1917, that this company, a subsidiary of the Oklahoma Producing & Refining Co., had declared an initial quarterly dividend of $2\frac{1}{2}\%$ on the outstanding stock, payable March 26 to stock of record March 16.

²(2) Listed on Curb.—Announced March 14, 1917, that the New York Curb Market Association had listed 1,000,000 of this company's shares, par value \$5.

²(3) New Well Brought In.—Stated on March 29, 1917, that Well No. 28 on the properties of this company had been brought in with a production of 15 barrels an hour, or 360 barrels per day.

—Apr.

⁴(1) New Well.—Announced April 12, 1917, that this company had brought in a new well that is flowing natural gas at the rate of 100,000,000 cubic feet on the initial spurt. This well is located on the company's new property.

OSAGE & OKLAHOMA GAS CO.

⁴(1) Report, Year Ended Dec. 31.—This company reported gross for 1916 of \$518,751 and a deficit for the year after all charges and dividends of \$47,254.

OSBORN MILLS.

⁴(1) Report, Year Ended March 31, 1917, shows total quick assets of \$841,313; notes and accounts payable, \$384,838; net surplus of quick assets over active liabilities, \$256,475. A total net surplus of \$109,985 in quick assets was shown for April 1, 1916, the increase for the year being \$146,489. Dividends paid during the year amounted to \$87,000, 9% on the capital expenditures for new machinery and improvements amounted to \$13,000. The total of net earnings shown for the year was \$226,489. The plant has 68,420 spindles and 1,904 looms.

● OSCEOLA CONSOLIDATED MINING CO.

¹(1) Production, December and 12 Months.—Announced Jan. 23, 1917, that this company in December produced 1,632,255 pounds of copper, against 1,533,944 in November.

During 1916 production totaled 19,656,920 pounds, against 19,731,472 in 1915.

—Feb.

²(1) Production.—Announced Feb. 19, 1917, that this company in January produced 1,513,942 lbs. of copper.

—Mar.

²(1) Report, Year Ended, Dec. 31, 1916, shows gross receipts of \$5,065,134, net profits of \$2,776,159 and surplus after dividends of \$949,309. The net of \$2,776,159 equals \$27.76 a share. This compares with \$1,610,860, or \$16.75 a share in 1915, and with \$3.66 per share in 1914.

Production amounted to 19,586,501 lbs. of refined copper at a cost of 11.69 cents a lb. In the previous year production was 19,731,472 lbs. and the cost of production was 10.03 cents a lb.

²(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,677,546.

²(3) Statement by President.—It was stated March 5, 1917, that Pres. E. V. R. Thayer, of this company, in his annual remarks to stockholders, said in part:

"The Osceola branch has had another profitable year; the grade of rock mined was even better than last year, although various causes combined to reduce the total quantity produced. Snowstorms in January and March hindered operations considerably, and general scarcity of laborers throughout the district was especially marked at the Osceola from March through October."

"The restricted supply of trammers, together with an unusually high wage scale and the high cost of supplies was responsible for the increased costs this year."

²(4) Production, February, 1917.—Announced March 16, 1917, that this company in February produced 1,495,068 pounds of copper, compared with 1,513,944 in January, 1917.

—Apr.

⁴(1) Production, March, 1917.—This company April 18, 1917, reported March production as 1,533,218 lbs. of copper, compared with 1,495,068 previous month.

OSGOOD, BRADLEY CAR CO.

⁴(1) Balance Sheet.—As of Dec. 31, 1916, shows profit and loss surplus of \$1,074,311 against \$948,559 last year.

OSWEGO MAIZE PRODUCTS CO.

²(1) Taken Over.—See National Starch Co.—Item No. 1.

OTIS CO.

⁴(1) Extra Dividend of 10%.—On April 26, 1917, this company declared an extra dividend of 10%, in addition to the regular semi-annual dividend of 5%, payable May 1 to stock of record April 25.

OTIS ELEVATOR CO.

²(1) Bonus for Employees.—On March 1, 1917, 1,400 men, employed in the shops of this company at Yonkers, N. Y., were notified that, beginning April 1, they would receive a bonus of 8% a month. This applies to the man receiving less than 50 cents an hour, and means an increase of from \$5 to \$10 a month. The bonus will also be given in the company's plants at Harrison, N. J., Buffalo, N. Y., and Quincy, Ill.

²(2) Report, Year Ended Dec. 31, 1916, shows net earnings amounting to \$1,036,589, an increase of \$300,920 over the preceding year. After deducting pfd. dividends of \$390,000 and providing \$50,000 for pension fund, the balance is equal to 9.36% on the \$8,371,587 common stock, compared with 5.42% earned on \$8,375,300 common stock in 1915.

²(3) New Director.—Announced March 19, 1917, that at the annual meeting of this company Karl G. Roebeling was elected a director to succeed F. W. Roebeling, deceased. Other directors were re-elected.

²(4) Statement by President.—It was announced March 19, 1917, that in his annual remarks to stockholders Pres. W. D. Baldwin, of this company, said in part: "The volume of sales made in 1916 was largely in excess of the sales of 1915 and of a more satisfactory character, but the results of such increase in business are not fully reflected in the balance sheet for the year, as a large proportion of contracts taken in 1916 will not be completed until during the year 1917."

"The great difficulty in obtaining materials has made it imperative to accumulate an unusually large stock of raw and finished product to cover, as far as

JANUARY 1 TO APRIL 30, 1917

possible, contracts taken and under negotiation.

"The business contracted for since January first of this year is in excess of that of last year for the corresponding period, and with the uncompleted contracts carried over, together with the large number of important negotiations outstanding, the outlook for the year 1917 would seem to be promising.

"The condition of our business in belligerent countries is more satisfactory than might be expected under existing circumstances.

"During the year 1916 we have spent \$311,660.26 for additions to our manufacturing plants.

"Out of the earnings of last year's business your directors have declared the usual dividends on the pfd. stock and have declared a quarterly dividend of 1 1/4% on the common stock, payable April 16, 1917, and have reserved from the past earnings of the company a fund sufficient to provide for the declaration of subsequent 1 1/4% quarterly dividends on the common stock during the current year."

"(5) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,609,303, compared with \$2,581,288 Dec. 31, 1915.

• OTTAWA, LIGHT, HEAT & POWER CO.

"(1) Report, Year Ended Dec. 31, 1916, shows gross was \$334,192, compared with \$348,824 in 1915. The balance of income, after all charges, including interest on floating debt, was \$231,861, which made total surplus \$277,158. From this was paid \$209,947 in dividends, with \$3,333 credited to reserve for bad debts, leaving the surplus Jan. 1, 1917, \$58,877.

"(2) Operations, 1916.—It was stated Feb. 23, 1917, that on Jan. 1, 1916, the price of gas was reduced 10% by this company. It was this reduction that caused the decrease in the revenues of the year. In addition, in 1915, a similar reduction was made in the electric rates and the full effects of this reduction were not felt until 1916. All flat electric rates were changed to meter rates. In the year there was a large increase in the number of both gas and electric customers, and officers of the company say that the acquirement of new business is gradually overcoming the loss in revenues caused by the rate reductions.

OTTAWA TRACTION CO., LTD.

"(1) Extra Dividend.—On Jan. 2, 1917, this company, it was announced, paid the regular quarterly dividend of 1% and an extra of 1% to stockholders of record Dec. 30, 1916.

—Feb.

"(1) Report, Year Ended Dec. 31, 1916, showed gross earnings of \$1,154,912 and net of \$484,564, an increase of \$100,789 over the net earnings of the previous year. Dividends of 15% were paid during the year. The total number of passengers carried was 27,033,778, an increase of 2,671,911 over the previous year.

"(2) New Director.—It was announced Feb. 5, 1917, that at the annual meeting of this company A. J. Dawes, of Montreal, Que., was elected a director in place of Redmond Quain, deceased.

OUACHITA OIL & GAS CO.

"(1) Large Gas Flow Struck.—It was stated Jan. 3, 1917, that a 10,000,000-foot gas well had been drilled in by this company in Ouachita Parish, 15 miles north of Monroe, La. This is the third well brought in by this company in the Monroe-Bastrop field, and is much the largest. Gas will be piped to Monroe, the service to begin by March 1, 1917, it was announced.

OUTWEAR LEATHER CORP.

"(1) Incorporated on Jan. 9, 1917, in New York, with a capital of \$500,000, to deal in composition rubber articles. In-

corporators: M. T. Kelly, W. Phinny and G. H. Wyckoff, 115 Broadway, New York.

OVERMYER CO. (THE), TOLEDO, O.

"(1) Capital Increased.—On Jan. 13, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$125,000 to \$500,000.

OVERSEAS SHIPBUILDING & CONSTRUCTION CO., SEATTLE, WASH.

"(1) Incorporated on April 16, 1917, in Washington, with a capital of \$1,000,000. Incorporators: B. P. Kastner, Everett; E. W. Johnson, Patrick J. Donohoe, Jas. B. Metcalfe and Michael Earles, all of Seattle, Wash.

• OWENS BOTTLE-MACHINE CO.

"(1) Net Profit, Three Months Ended Dec. 31, 1916, was \$937,544. Net profit of controlled companies in the same period was \$380,029, making a total for all companies of \$1,297,573.

"(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$3,606,690.

—Mar.

"(1) Extra Dividend on Common.—Announced March 8, 1917, that this company had declared the regular quarterly dividends of 1 1/4% on the pfd. and 3% on the common stock, also an extra of 2% on the common, payable April 2. Books close March 22.

OWEN TRANSIT CO., MENTOR, O.

"(1) Capital Increased.—Announced April 7, 1917, that this company had increased its capital stock from \$70,000 to \$380,000.

OXFORD ELECTRIC LIGHT & POWER CO., LTD.

"(1) Bond Offering.—It was announced at Montreal, Que., Jan. 5, 1917, that the \$50,000 6% 30-year first mortgage gold bonds of this company, which were purchased on joint account by J. C. Macintosh & Co., and H. M. Bradford, of Halifax, N. S., are being offered publicly at 98 and interest with 30% of stock as a bonus.

The company has an authorized capital of \$100,000, of which \$50,000 is issued and \$100,000 authorized 6% bonds, of which \$50,000 will be issued. The company serves the town of Oxford, N. S., which is a flourishing industrial centre, containing the Oxford Woollen Mills, a foundry company, furniture company, flour mills, woodworking company and other minor concerns.

The directors include T. S. Rogers, of Halifax, as Pres.; C. C. McNeill, managing director; C. McG. Mitchell, H. M. Bradford and A. J. Macintosh.

OXWELD RAILROAD SERVICE CO., CHICAGO.

"(1) Capital Increased.—On Jan. 12, 1917, the company filed notice at Springfield, Ill., of an increase in capital stock from \$600,000 to \$1,500,000.

OXYTHERM CHEMICAL CO.

"(1) Stock Sale Permit.—It was announced Jan. 24, 1917, that this company, San Francisco, had been permitted by the California Commissioner of Corporations to sell 125,000 shares of its capital stock at par, \$1 per share, net to the company, conditional upon securing subscriptions for not less than 80,000 shares prior to June 1, 1917.

If the necessary number of subscriptions are secured, the company may issue a like number of shares to F. L. Sayles and Stephen P. Lalor in exchange for a secret formula.

OZARK & KANSAS MIDLAND RY. CO.

"(1) To Build New Road.—It was announced Jan. 2, 1917, that this company, capital \$750,000, had been incorporated in Arkansas to build a line from Rogers

to Kingston, 40 miles, and Bald Knob, Ark., about 125 miles farther. The Ozark Land & Timber Co.'s line, 8 miles long, from Monte Ne to Piney, Ark., will be taken over. Directors include G. G. Wright, C. M. Miller, L. B. Smith, Towne Young and R. F. Henderson, all of Dallas, Tex.; G. G. Wright, Jr., Senator John R. Duty, Dr. G. M. Love, Lee M. Harris and W. A. Mundell, of Rogers, Ark., and C. P. Hummell, of Monte Ne, Ark.

OZONOL CHEMICAL CORP.

"(1) Incorporated on April 19, 1917, in Delaware, with a capital of \$1,000,000, to manufacture drugs, chemicals, etc. Incorporators: Herbert E. Latter and C. L. Rimplinger, Wilmington, Del., and Clement M. Egner, Elyton, Md.

PACIFIC COAL STORAGE, TRANSPORT & MANUFACTURING CO., SEATTLE, WASH.

"(1) Incorporated on Feb. 5, 1917, in Washington, with a capital of \$1,500,000. Incorporators: F. W. Doty, W. L. Overman and Oscar P. Dix.

• PACIFIC COAST CO.

	1916	1915
(1) Earnings—		
Oct. gross.....	\$615,780	\$617,938
Net after taxes..	73,872	91,837
4 mos. gross.....	2,881,572	2,605,736
Net after taxes..	355,931	467,871

"(2) Common Dividend Resumed.—Announced Jan. 17, 1917, that this company pany had declared a dividend of 1% on the common stock, in addition to the regular quarterly dividends of 1 1/4% on the 1st pfd. and 1% on the 2d pfd., all payable Feb. 1 to stock of record Jan. 27. The last previous dividend on the common was 1%, paid May 1, 1915.

"(3) Comment on Dividend.—On Jan. 19, 1917, the "Boston News Bureau" said: "In connection with the resumption of dividends on the common stock of the Pacific Coast Co., it is understood that besides the great improvement in the shipping business, the coal business of the company, which has in the past been a great source of profit, has recently greatly improved, not only on account of the increased general business activity on the coast, but also because of the increased price of fuel oil, which has forced the consumers to return, to a certain extent, to the use of coal."

"(4) Earnings Discussion.—On Jan. 23, 1917, the "Boston News Bureau" said that the great improvement in general business conditions on the Pacific Coast and the increase in earnings of this company had culminated in resumption of dividends on the company's common stock. The expectation is that dividends of 1% will be paid quarterly, provided present conditions are maintained.

The company is earning considerably better than a 4% dividend rate on the common stock. It seems probable that surplus after charges in 1917 will be fully up to last, when 5.2% was earned on the \$7,000,000 common, after paying 5% on the \$1,525,000 1st pfd. stock and 4% on the \$4,000,000 2d pfd.

Resumption of dividends at this time was due in large measure to the great improvement in the shipping business and also in the coal business, which has in the past been a great source of profit to the company.

It is important to note that the Pacific Coast is one section of the country where business conditions are expected to make further improvement after the close of the war. Such prosperity as it is at present enjoying is not traceable to the war.

Substantial economies and increase of earnings are expected to result from the arrangement which went into effect Nov. 1, 1916, whereby ships of the Pacific Coast Co. and eight ships operated by the Pacific-Alaska Navigation Co. were taken over to be operated by a new company known as the Pacific Steamship Co.

¹(1) Comment of January Earnings.—On April 2, 1917, the "Boston News Bureau" said: "Net earnings of the Pacific Coast Co. for January were \$95,452 compared with \$27,853 in January, 1916, an increase of \$67,599. This was the best January the company has had in 10 years, and the second best in 19 years."

"Reports from the Pacific Coast indicate that business is increasing rapidly in volume as the season advances, with correspondingly favorable financial results. The coal business is steadily improving. Earnings from shipping also are excellent and earnings of the Pacific Coast Railroad Co., operating in the State of Washington, and of the Pacific Coast Railway Co. in the southern part of California, are also doing well."

"The Pacific Coast Co. is now earning a substantial surplus above the present 4% dividend on the \$7,000,000 common stock."

PACIFIC COAST BORAX CO.

²(1) New Plant Nearing Completion.—It was stated on March 29, 1917, that the potash plant being erected jointly by this company and the Solvay Process Co., near the former's patented land on Searles Lake, Cal., was to be ready for operation about April 1. Capacity estimated at 1,000 tons of muriate of potash per month, 80% or higher in purity.

PACIFIC COPPER CO.

²(1) Report, Year Ended Dec. 31, 1916, shows receipts of \$1,039 and expenditures of \$272. The total cash on hand Dec. 31, 1916, was \$27,707.

²(2) Status.—It was stated March 5, 1917, that this company was organized in 1890 and acquired at that time 900 acres of land in Houghton County, Mich., for which 20,000 shares of stock \$10 paid were issued. At the same time \$40,000 was raised by the sale of 20,000 shares of treasury stock on which a first subscription of \$2 per share was paid in.

From interest accumulations and these sales there has been distributed to the stockholders \$40,000 and 4,000 shares of Naumkeag Copper Co. stock.

PACIFIC DEVELOPMENT CORP.

²(1) Incorporated on Jan. 18, 1917, in New York, with a capital of \$5,000,000, to deal in stocks, bonds, securities, merchandise and agriculture, and do mining, warehousing, construction and

manufacturing. Incorporators: E. B. Bruce R. Victor and M. E. Loewenstein, 50 Broad St., New York.

²(2) To Take Over Commercial Co.—It was announced Jan. 24, 1917, that this company, formed with a capital of \$5,000,000, would take over the Pacific Commercial Co., said to be the largest American commercial trading company in the Philippine Islands, and Anderson Meyer & Co., Ltd., a firm trading with China.

Galen L. Stone, recently elected chairman, in discussing the purchase of the Commercial Co. said: "The commercial activities of the new company will be carried on through the Pacific Commercial Co. and Anderson Meyer & Co., Ltd. No changes will be made in the organization of these companies, Mr. Lowenstein continuing as Pres. of the Pacific Commercial Co. and Mr. Meyer as Pres. of Anderson Meyer & Co."

The Commercial Co. maintains offices at Manila, Seville, Iloilo, Zamboanga, Tacloban, Legaspi and Bigan in the Philippines; at Kobe, Japan; Sydney, Australia, and New York. Anderson Meyer & Co. have offices at Shanghai, Hong Kong, Tientsin, Peking, Hankow, Changhai, Kalgan, Mukden and Vladivostok.

Of the \$5,000,000 authorized capital \$1,000,000 has been subscribed in cash at par to provide working capital for the company and provision has been made to issue stock of the new company in exchange for stock of the Commercial Company and Anderson Meyer & Co.

—Mar.

²(1) To Acquire Hartman Bros., Inc.—It was stated on March 26, 1917, that arrangements had been completed whereby this company will acquire all of the capital stock of Hartman Bros., Inc.

The acquisition of Hartman Bros. is in line with the policy of the company in building up its trading business through well-established enterprises which will operate as independent units in their respective field, but co-operate with the other companies controlled by the corporation. Through its subsidiary companies the Pacific Development Corp. now has offices in the United States at New York, Boston, Philadelphia, Chicago, San Francisco and Seattle; in China at Shanghai, Hongkong, Tientsin, Peking, Hankow, Changhai, Kalgan and Mukden; in the Philippine Islands at Manila, Cebu, Iloilo, Zamboanga, Tacloban, Legaspi and Vigan; in the Argentine at Buenos Ayres; in Japan at Kobe; in Australia at Sydney; in Siberia, Vladivostok; and in London.

PACIFIC ELECTRIC RY. CO.

²(1) Los Angeles Petition Refused.—It was announced Feb. 7, 1917, that the California Railroad Commission had refused the petition of the city of Los Angeles for an order to force this company to make a straight five-cent fare to the city limits on its lines.

It was shown at the hearing that "jitney" competition in Los Angeles had reduced earnings of the electric railway from \$30,000 to \$40,000 a month, and the use of private automobiles also had still further affected the revenues.

During the hearing it was shown that only the support of the Southern Pacific R. R. which owns all the stock of Pacific Electric, had kept the company from being forced to adjust its finances. The losses in operation in 1916 were said to be \$821,734, and the reduction in rates demanded by Los Angeles would have increased this loss to over \$1,000,000 a year.

Div. after pfd.	141,194	166,394

PACIFIC GAS & ELECTRIC CO.

²(1) Exchange of Stock.—It was announced Jan. 9, 1917, that the California Railroad Commission had authorized this company to exchange, before July 1, 1917, all its outstanding original pfd. stock for its 1st pfd. stock on the basis of 102 shares of the latter for each 100 shares of the former.

²(2) Gross Earnings, Two and Eleven Months.—It was stated Jan. 10, 1917, that this company reported gross revenues for the two months ended Nov. 30 of \$3,154,743, a decrease of \$28,855 from the corresponding two months of 1915. Had temporary exposition revenues received in 1915 been excluded, normal revenues for the two months would have shown a gain of \$42,748.

For the 11 months ended Nov. 30, gross revenues were \$16,946,371, a gain of \$39,011 over the corresponding 11 months of 1915. With the elimination of the temporary exposition revenues in 1915 the gain on normal business was \$404,745. Owing to pending adjustments in accounting, complete income accounts for the last few months of the year cannot be presented until these have been completed.

In the 11 months ended Nov. 30, 1916, there was a net gain of 16,147 customers, making a total of 419,692 customers being served on that date, of which 231,749 were in the gas department and 123,723 in the electric department.

Oct. 31, Pacific Gas & Electric had 7,455 stockholders, of which 4,616 were residents of California and 322 outside the United States. The California stockholders owned 276,744 shares of stock, while 1,818 Eastern stockholders owned 213,601 shares of stock.

Showing how business of the company has grown in two years, the gross revenues for the 11 months ended Nov. 30, 1916, were \$1,583,141 larger than those for the 11 months ended Nov. 30, 1914.

²(3) Acquisition and Bond Issue Approved.—It was announced Jan. 16, 1917, that the California Railroad Commission had approved the purchase by this company of the Oro Electric Corp. and authorized the company to issue \$1,491,151 of its general and refunding bonds to reimburse its treasury for money expended in the purchase of Oro Electric Corp. bonds.

²(4) Bond Sale.—It was announced Jan. 16, 1917, that this company had sold to the National City Co. and Harris Forbes & Co. \$3,060,000 general and refunding 5% bonds, which would be offered to yield about 4.45%.

Proceeds of the issue go to pay for the Oro Electric properties, for funds advanced to pay off underlying bonds and for extensions and improvements. This issue makes \$32,988,000 of the general and refunding bonds outstanding.

²(5) Sales of Stock.—On Jan. 24, 1917, it was announced that officials of this company had stated that from Jan. 1 to Jan. 15 sales of the 1st pfd. stock of the company made direct to consumers totaled \$545,200. There are but 7,453 of this stock remaining unsold. Total sales of the 1st pfd. stock since the initial offering made in June, 1914, have been \$14,254,700. It is said that while much of this stock was sold in the East, it has been steadily finding its way back to California and eventually the bulk of it will be held in the territory supplied by the company.

²(6) Protest.—It was announced Jan. 25, 1917, that this company had filed with the California Railroad Commission a protest against the Great Western Power Co. of California being permitted to extend its high-tension transmission lines into Yuba County. The company stated that the building of this line would result in duplication of investment and service.

The Great Western Power line is being built to serve about 650 horsepower to a farm land company.

²(7) Stock Sale Time Extended.—It was announced Jan. 19, 1917, that this company had extended until Dec. 31, 1917, the time within which the com-

JANUARY 1 TO APRIL 30, 1917

pany may sell its first pfd. stock authorized by the Commission to be sold only until Dec. 31, 1916. A year previously the Railroad Commission authorized the company to sell \$2,500,000 of its first pfd. stock, and \$2,000,000 of its general and refunding mortgage gold bonds.

The company stated that it sold, in 1916, 12,095 shares of the 1st pfd. stock, and that since then, during 1917, by inadvertence, it had sold 4,831 more shares.

—Feb.

*(1) Preliminary Report, 1916, it was stated Feb. 8, 1917, shows that the surplus for the stocks, after interest charges and after providing liberally for maintenance and depreciation, was \$4,272,343. There is outstanding approximately \$24,389,000 of both classes of pfd. stock and to pay annual dividends on this amount would require \$1,463,376, leaving a balance for the approximately \$24,000,000 common stock of 8.25% for the year.

As the company is paying quarterly dividends of 1 1/4% on its junior issue this would indicate that something over 3% was earned in 1916 above the present dividend requirements for the common stock. With the complete audit of the income account for 1916, it may be that there will be some changes and adjustments made in the final surplus, but it is safe to say that for 1916 the company earned its pfd. dividend requirements more than three times and, after providing for pfd. dividends, earned in excess of 8% on the common stock.

The company has set a record in the sale of its first pfd. stock to its customers. Between Jan. 1 and Jan. 25 it sold \$680,100 par value of this stock to 364 customers, and it has but about \$600,000 of unsold stock remaining to fill orders from customers.

*(2) Income Account, Year Ended Dec. 31, 1916, as shown in preliminary report, compares as follows:

	1916	1915
Gross	\$18,615,498	\$18,530,301
Net aft. taxes	7,906,782	7,944,708
Surp. after chgs.	4,272,345	4,212,768
Bal. after pfd. divs.	2,882,086	3,119,380

*(3) Petition Dismissed.—It was announced Feb. 13, 1917, that the California Railroad Commission had dismissed the petition of this company against the Great Western Power Co. of California asking the commission to prohibit the latter company from extending its electric distributing lines into Contra Costa County, Cal.

The commission found that both companies had distribution lines into the county prior to the taking effect of the California public utilities law and that no certificate of convenience and necessity is required by either company unless it desires to exercise franchise rights. In this instance Great Western Power will extend its distribution lines on private right of way.

In issuing the order dismissing the petition the commission also held that a public utility does not have the right to select the class of consumers which it may desire to serve.

—Mar.

	1917	1916
*(1) Earnings—		
Jan. gross	\$1,773,565	\$1,762,713
Net incl. oth. inc.	786,397	895,048
Surp. after chgs.		
and pfd. divs.	327,100	438,072

The company's consumers Jan. 31, 1917, numbered 423,149, compared with 403,323 Jan. 31, 1916, a gain of 19,826.

*(2) Application to List Bonds.—It was announced March 14, 1917, that all of this company's \$3,060,000 general and refunding 5% bonds, recently taken by a syndicate of bankers, having been sold, application had been made to list them on the New York Stock Exchange, in addition to the \$30,982,000 already listed.

A recent compilation of the gas and electric business in California showed this company was doing 50.1% of the artificial gas and 36% of the entire electric business in the State.

*(3) Subalternity's Bonds Drawn for Redemption.—See Bay Counties Power Co.—Item No. 1.

*(4) Permit to Purchase Sought.—Announcement was made March 17, 1917, that this company had applied to the California Railroad Commission jointly with the Southern Pacific Co., the Central Pacific Ry. Co. and John Martin to purchase from the latter three parties a street railway in Sacramento built by the Southern Pacific in 1905, and since operated as a part of the electric railway system in Sacramento owned by the Pacific Gas & Electric.

The line never has paid expenses and the loss has been borne by the Southern Pacific. The Pacific Gas & Electric Co. can operate the line more economically, it is stated. Its original cost to the Southern Pacific was \$37,447, but it is to be sold for \$12,120.

*(5) Directors' Meeting March 31.—It was announced March 19, 1917, that a meeting of the Board of Directors of this company had been called for March 31 to declare the regular quarterly dividend of 1 1/4% on the common stock, payable April 16 to stock of record March 31.

—Apr.

	1917	1916
*(1) Earnings—

and deprec.	1,376,207	1,514,273
Total income	1,432,585	1,631,813
Surp. after chgs.		
and pfd. divs.	504,022	728,450

*(2) Comment on January and February Earnings.—On April 12, 1917, the "Wall Street Journal" said that while gross revenues of this company for the first two months of 1917 showed good gains, the increased expense in operating made itself felt in the net and the surplus revenues.

Gross for the two months ended Feb. 28 increased \$36,630, but operating expenses and taxes were \$172,186 higher, and \$2,510 more was set aside for depreciation than in the corresponding two months of 1916. Other income for the two months showed a decrease of \$61,162, so that total income for the two months of \$1,432,585 was \$199,228 less than for the first two months of 1916.

Bond interest decreased \$993 and discount charges increased \$977, with \$24,916 larger dividends for the pfd. stocks, so that the final balance for the common stock was \$504,022, compared with \$728,450 for the corresponding two months of the preceding year.

It is stated by men close to the company that much more rapid increases are now going on gross revenues and that the operating ratio has reached its high point and should decline from this time on, thus providing for a better showing in total income and in surplus for the common in the months to come. Even at the earning rate for the first two months of 1916 the balance for the common stock was approximately at an annual rate of 9% on the outstanding issue of \$34,000,000.

Up to March 18 Pacific Gas & Electric had disposed of all its pfd. stock except \$447,000 out of the \$15,000,000 originally offered and, of the stock sold, \$7,313,400, or more than 50%, was purchased by employees and customers of the company. Of the old pfd. stock 98.5% has been exchanged for the new pfd. The pfd. stock held April 1 was: 69% in California, 28% in other parts of the United States and 3% in Europe.

There are 4,666 holders of the pfd. stock in California, 1,491 elsewhere in the United States and 109 in Europe. Pacific Gas & Electric has 8,038 stockholders of all classes of its stocks, of which 4,852 are in California owning \$28,111,015 par value, 2,884 in other States owning \$27,172,222 par value and 302 in Europe owning \$3,496,401 par value.

A gratifying feature of the statement is the great increase in number of stockholders and amount of stock owned in California. In 1914 39% of the total number of stockholders were residents of California, while now over 60% of the stockholders of the company live in the State in which it operates.

*(3) Directors Re-elected.—Announced April 13, 1917, that the retiring directors of this company had been re-elected and the old executive committee, consisting of Frank Drum, Frank B. Anderson, C. O. G. Miller, John Britton and A. F. Hockenbeamer, will continue to serve.

PACIFIC GREAT EASTERN RY. CO.

*(1) Bond Interest Default.—Announcement was made at Winnipeg Jan. 4, 1917, that the Victoria Government had been notified by this company that it will be unable to meet payment of interest on its bonds guaranteed by the Province of British Columbia, which come due Jan. 15. This payment, which amounts to approximately \$320,000, will have to be met by the Province.

This will be the third interest payment which the Province has met, the other payments of \$316,016 each having fallen due in January and July, 1916. These bonds are held in New York City.

PACIFIC LIGHTING CORP.

*(1) Report by President, Year Ended Dec. 31, 1916.—It was announced Feb. 15, 1917, that Pres. C. O. G. Miller, of this company, in his annual report to stockholders, said, in part:

"The corporation is free from bonded and floating debt.

"Its revenue for the year was as follows: Dividends, \$776,625; other sources, \$25,279.87, a total of \$801,904.87, less taxes and licenses, \$8,015.13 and expenses, \$20,785.63, a total deduction of \$28,800.76, leaving a net profit for the year of \$773,104.11.

"During the year dividends were paid quarterly—upon the pfd. stock at the regular rate of \$5 per annum, amounting to \$208,100; upon the common stock the first two quarterly dividends were each at the rate of \$2 per share, and the last two quarterly dividends were each at the rate of \$2.50 per share, amounting to \$432,000, making the total of dividends paid \$640,100, leaving a surplus for the year of \$133,004.11."

²(4) Contract Offered by City.—See Southern California Edison Co.—Item No. 3.

PACIFIC LIME CO., LTD.

¹(1) Stock Offering.—It was announced Jan. 26, 1917, that Pingree & Co., Boston, and Goodrich & Co., Inc., New Haven, are offering a block of this company's 7% cumulative pfd. stock. This company has an authorized capital stock of \$500,000 7% cumulative pfd., par \$100, \$250,000 of which is outstanding and \$1,000,000 common, \$750,000 outstanding. Earnings for the year 1917 are estimated at \$80,000 net.

PACIFIC MAIL STEAMSHIP CO.

¹(1) Status.—It was stated Jan. 16, 1917, that this company's official statement probably would be given to shareholders during February.

It is understood that there were several months during 1916 in which net profits reached \$100,000 per month. This would be at the rate of \$1,200,000 yearly. It takes \$140,000 only to pay the 7% dividend on the \$2,000,000 pfd., so that earnings at this rate would leave a very large percentage for the small common stock issue of \$1,150,000.

It must be borne in mind, however, that the par of the common is but \$5 per share, so that at its present market price this common is selling for \$4,500,000 and is apparently earning at the rate of about 20% on its selling price.

Pacific Mail's capitalization is regarded as extremely conservative. The company has a fleet of 10 boats, aggregating about 68,000 tons. On a capitalization of \$3,150,000 these steamers have outstanding stock issued against them of less than \$50 per ton.

When it is recalled that the three large 10,000-ton Royal Dutch boats purchased early in 1916 cost \$3,300,000 to construct, this capitalization of but \$3,150,000 for a fleet of 10 steamers appears extremely modest.

Of the seven boats in the Panama fleet at present five are running in this service, while two are on outside charter.

Of the three Dutch boats two are in regular Oriental runs. The third boat was damaged just before delivery to Pacific Mail and will not be ready for service until some date in March.

—Feb.

²(1) Earnings Statement, Eight Months, Ended Dec. 31, 1916, compares with fiscal year ending April 30, 1916, as follows:

	8 Mos. End. Yr. Ended Dec. 31, '16	Apr. 30, '16
Gross earnings	\$1,607,188	\$4,264,477
Total income	1,620,051	4,370,056
Surp. after chgs.	75,550	502,497

²(2) Earnings on Stock.—It was stated Feb. 19, 1917, that this company's surplus of \$75,550 for the eight months ended Dec. 31, 1916, is equal to 2.3% on \$2,850,000 capital stock, compared with 50.24% earned on \$1,000,000 capitalization in preceding fiscal year.

²(3) Balance Sheet, 8 Months Ended Dec. 13, 1916, shows a profit and loss surplus of \$1,290,577, compared with the same amount for the 12 months ended April 30, 1916.

—Mar.

²(1) Directors Re-elected.—It was announced March 7, 1917, that at the annual meeting of this company retiring directors were re-elected. Opposition to two members of the board, Henry W.

de Forest and E. P. Swenson, was led by Alfred S. Koch, of Philadelphia, and Jacob Myers, of New York.

—Apr.

²(1) To Inaugurate Shipbuilding Campaign.—It was announced March 27, 1916, that John H. Rosseter, Vice-Pres., would lay before the Board of Directors plans to inaugurate an active shipbuilding campaign of 25,000-ton vessels. Mr. Rosseter stated that he believed the situation in the Far East was such as to warrant the company expanding.

PACIFIC MILLS.

²(1) Report, Year Ended Dec. 31, 1916.—It was stated Jan. 22, 1917, that during the six months to Dec. 31, 1916, net sales of this company amounted to \$13,878,232, while net profits reached \$1,534,217. For the 12 months to the close of December the company made net sales of \$27,795,776, against \$18,678,000 in all of 1915.

Net profits for the year reached the new high figures of \$2,749,774, against \$1,784,048 in 1915, and but \$681,155 in 1914.

Pacific Mills is now paying dividends of 8% and, on the basis of 1916 results, earned more than 22% for its stock after allowing for adequate depreciation.

—Feb.

²(1) Capital Increase.—It was announced Feb. 9, 1917, that directors of this company had voted to recommend to stockholders at annual meeting, Feb. 20, an increase in capital stock from \$12,000,000 to \$15,000,000. Additional stock will be distributed to stockholders as a stock dividend in proportion of one share for each four now held.

²(2) Stock Increase Authorized.—It was announced Feb. 20, 1917, that at a meeting of stockholders of this company on that date the capital stock was increased from \$12,000,000 to \$15,000,000, the additional \$3,000,000 stock being paid for in full by converting surplus assets accumulated prior to April 1, 1909, into permanent capital. It was further voted to distribute such stock to stockholders of record at the close of business March 1, 1917, in proportion to their respective holdings on that date.

Each holder of four shares or more of stock at the close of business March 1, 1917, will be entitled to one share of new stock for each four shares so held. Fractional certificates of stock will not be issued, but there will be issued to stockholders who would be entitled to fractional shares, if such were issued, certificates representing fractional shares, which will be exchangeable for a full share when presented in amounts representing a full share.

Until exchanged fractional certificates entitle the holder to no dividends or voting rights or other rights of a stockholder. They will be transferable. If not previously exchanged, they may be redeemed at the option of the directors after June 1, 1917, at \$25 for each quarter of a share they represent.

Certificates of stock and fractional certificates will be mailed stockholders as soon as they can be prepared after March 1, 1917.

PACIFIC PETROLEUM CO., SANTA BARBARA, CAL.

²(1) Incorporated in December, 1916, in California, with a capital of \$5,000,000. Incorporators: E. L. Doheny, C. F. Doheny, E. L. Doheny, Jr., Olin Welborn, Jr., and J. C. Anderson. Principal place of business, Casmalia, Cal. The company will develop the Bell ranch oil lands in Santa Barbara County, Cal.

PACIFIC PIPE LINE CO.

²(1) Bond Issue Planned.—It was announced Jan. 18, 1917, that this company had filed with the California Railroad Commission an application for authority to issue \$3,000,000 ten-year 6% bonds, dated July 1, 1916, and subject to redemption at a 5% premium after June. The company is building an

eight-inch oil pipe line from the Midway-Sunset Oil field in Kern County, to the harbor of Ventura, Ventura County, 67 miles long, exclusive of branches, side lines and feeders.

The application states that the company owns a continuous right-of-way for this line through Kern, Santa Barbara and Ventura Counties, including the United States Government forest reserve at Santa Barbara. The cost of this right-of-way is set down at \$150,000, and diligent efforts have been used since February, 1912, to obtain it, says the company.

A sinking fund is provided out of the gross earnings of the company equal to 10% of the par value of the bonds, and the company wants to use to buy oil lands \$212,500 of the bonds, \$150,000 for money already expended for rights-of-way, service, etc., and the remainder of the capital, secured by the sale of \$2,637,500 of the bonds, to build a pipe line, for storage, etc.

PACIFIC STATES TIRE & RUBBER CO.

²(1) New Subsidiary Planned.—See Bulls Eye Tread Tire Co., San Francisco, Cal.—Item No. 1.

PACIFIC TELEPHONE & TELEGRAPH CO.

²(1) Tenders Asked.—It was announced Jan. 2, 1917, that the Mercantile Trust Co., of San Francisco, had invited bids for the sale to it on March 2, 1917, of a sufficient number of this company's 1st mortgage and collateral trust 5% sinking fund bonds for the investment of \$249,965. No bond would be purchased at a price exceeding 110% of the par value and accrued interest.

²(2) Acquisition Authorized.—It was announced Jan. 3, 1917, that the California Railroad Commission had issued an order authorizing this company to acquire the entire issued capital stock of the Riverside Home Telephone & Telegraph Co. This is a step in the purchase of the system of the Riverside Home Telephone & Telegraph Co. by the Pacific company. The Pacific company has bought all the bonds of the Riverside company to the value of \$275,000, and paid for them \$168,253.44.

The Pacific company proposes to disincorporate the Riverside company and charge against its surplus the amount paid for the capital stock of the Riverside company, \$95,542.

²(3) Acquisition Authorized.—See Imperial Telephone Co.—Item No. 1.

—Feb.

²(1) Report, Year Ended Dec. 31, 1916, show earnings as follows:

This information, while not guaranteed, is believed to be correct.

PAGE BROS. BUGGY CO.

(1) Taken Over.—See All Season Body Co.—Item No. 1.

PAIHANG RUBBER CO., HAWAII.

(1) Dividend.—Announced that this company in January, 1917, paid a dividend of 10 cents a share, or \$3,000.

PAIGE-DETROIT MOTOR CAR CO.

(1) Statement by President.—Pres. H. M. Jewett, of this company, in a statement made in New York Jan. 10, 1917, said:

"Net earnings of the last ten months' operations are more than 13 times the annual pfd. dividend requirements and our company during 1916 produced very close to 15,000 cars.

"Dividend developments during the company's history should prove interesting in view of the recent authorization of \$1,500,000 par value of 7% cumulative serial pfd. stock.

"The Paige-Detroit Motor Car Co. was organized in 1909 in Michigan, with a capitalization of \$100,000, by a group of Detroit business men. We have adopted a conservative policy both as to the financial and manufacturing ends of our business, and our aim has always been to make the Paige car the standard of value and quality. The wonderful growth of our company in its seven years' history testifies to the wisdom of our policies.

"In 1910 we produced only 267 cars. Our output has grown steadily and in 1915 production was 7,740 cars. Production during the fiscal year up to Nov. 25, 1916, was 12,456 cars. In 1916, therefore, our output was fifty times what it was in 1910 and in 1917 our schedule provides for double that amount.

"We have always adopted a liberal attitude toward our stockholders in the matter of dividend payments. Since organization of the company in 1909 we have paid out 230% in stock dividends in addition to the cash declarations which are now 3% monthly. A statistician has estimated for me that \$1,000 invested in Paige stock prior to 1914 would be worth at its present price, with all dividends, about \$36,988.

"The present authorized capitalization of the company is \$1,500,000 7% cumulative pfd., of which \$1,000,000 has been issued and \$2,000,000 of common, of which \$1,500,000 is outstanding. The par value of the common is \$10.

"The Paige Company now occupies a modern plant built expressly for it and covering ten acres of floor space. It is held under an advantageous long term lease. In order to care for the company's growing business a four-story addition has been recently built. The company started in the business as manufacturers of four-cylinder cars, but now confines itself entirely to a line of six-cylinder cars.

"The total sales for the 13 months ended Dec. 31, 1915, were \$7,471,033, with a net income available for dividends of \$609,776. Total sales for the 10 months ending Oct. 31, 1916, were \$9,899,791, with net income available for dividends of \$964,442. The monthly turn-over is now about equal to company's capitalization."

(2) Listed on New York Curb.—Announced Jan. 25, 1917, that the New York Curb Market Association had listed 200,000 common and 150,000 pfd.

shares of this company, par value of each \$10.

PAINT PRODUCTS CO. OF CANADA, LTD.

(1) Incorporated on Feb. 8, 1917, in Canada, with a capital of \$500,000, divided into 50,000 shares of \$10 each, to manufacture, import, export and deal in goods, wares and merchandise. Incorporators: Jean Baptiste David Legare, Armand Mathieu, Robert Thomas Mullin, John Phelan Callaghan and Antonio Catelli. Chief place of business, Montreal, Que.

(2) New Company.—It was announced Feb. 24, 1917, that this company, incorporated in Canada with principal office at Montreal, Que., would take over and develop deposits of oxide of iron in the Laurentian Mountains, which have been pronounced by experts as suitable for the manufacture of paint. The promoter of the company is Jean Baptiste David Legare, real estate operator, of 11 St. James Str., Montreal, who owns the mineral deposits which are to be utilized. The company has an authorized capital of \$500,000.

Mr. Legare says that he has received offers of adequate financing from both New York and Montreal interests.

PALMERS BROS. CO.

(1) Capital Increased.—It was announced at New London, Conn., Jan. 17, 1917, that this company had increased its capital from \$500,000 to \$2,000,000.

PANAMA POWER & LIGHT CO.

(1) Capital Increased.—On April 11, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$1,050 to \$2,500,000, with an increase in the number of shares from 20 to 215,000, of which 200,000 are without par value.

PANAMA R. R.

(1) New President.—On March 14, 1917, Lieut.-Col. Chester Harding, Governor of the Panama Canal, was elected president of this company by the board of directors. Colonel Harding succeeds Maj.-Gen. George W. Goethals, resigned.

PAN-AMERICAN CO. OF COVINGTON, KY.

(1) Incorporated on April 15, 1917, in Kentucky, with a capital of \$250,000. Incorporators: E. M. Howell, H. Warren and L. A. Koehler.

PANHANDLE & WESTERN R. R. CO.

(1) Incorporated in March, 1917, in Oklahoma, with a capital of \$300,000, to build a line from Hooker, Okla., westward to a point at or near Kenton, Okla., about 65 miles. Incorporators: V. V. Grant and S. W. Walker, of Miami, Okla., and Coke Witt, of Oklahoma City, Okla.

PAN MOTOR CO.

(1) Incorporated on Jan. 8, 1917, in Delaware, with a capital of \$5,000,000,

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

to manufacture and sell motor cars and all accessories and to do a general wholesale and retail business. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

PARAFFINE PAINT CO.

¹(1) **New Factory.**—It was announced at Berkeley, Cal., Jan. 11, 1917, that plans had been prepared by this company, for the erection at their Berkeley and Emeryville, Cal., property of a \$1,000,000 linoleum factory.

The plant is expected to be in operation before the end of 1917, employing 250 men.

PARAGON REFINING CO.

²(1) **Net Profits, November and December.**—It was announced Feb. 5, 1917, that this company reported net profits of \$59,095 for November and \$109,799 for November and December, 1916.

The balance sheet as of Nov. 30, 1916, shows on hand \$442,567.

—Mar.

²(1) **Acquisition.**—It was announced March 12, 1917, that this company, whose main plant is located at Toledo, O., had entered entered the Mid-Continent oil fields through the acquisition of large oil-producing territory in Kansas. About \$2,500,000 is involved in the transactions.

The properties acquired are situated in the Augusta and Edo fields of Kansas and consist of a large developed acreage which now has a daily production of 2,000 barrels. Included with it are 17 steel storage tanks of 55,000 barrels capacity each.

In these tanks there is now in storage 425,000 barrels of oil with complete space line system.

²(2) **Financing Plans.**—It was stated March 15, 1917, that financing plans for the purchase of the recently acquired oil leases and oil lands in Kansas by this company include the issuing of \$400,000 in short-term notes and the putting out of \$700,000 of common stock heretofore authorized but unissued. The vendors of the Kansas properties will take \$500,000 of common stock at par as part of the purchase price.

PARAGON RUBBER CO.

¹(1) **Initial Dividends.**—Announced Jan. 2, 1917, that this company had declared initial dividends of 1½% on the pfd. and 1¼% on the common stock, payable Feb. 1 to stock of record Jan. 20.

PARALLA PLAYS, INC.

²(1) **Incorporated** on March 12, 1917, in New York, with a capital of \$3,000,000, to engage in motion pictures, theatres, photography and publishing. Incorporators: S. G. Weeks, O. Schultheis and S. R. Banks, 51 East 42d St., New York.

PARK COPPER CO., KINGMAN, ARIZ.

⁴(1) **Incorporated** in April, 1917, in Arizona, with a capital of \$1,000,000. Incorporators: R. C. Jacobson, Axel Ericson and Ora G. Gruninger, of Kingman, Ariz.

PARKE DAVIS & CO., DETROIT, MICH.

¹(1) **Capital Increased.**—On Jan. 26, 1917, the company filed notice at Lansing, Mich., of an increase in capital stock from \$10,000,000 to \$12,000,000.

PARKER HOSIERY MILLS & DYE WORKS CO.

⁴(1) **Johnson Mill Purchased.**—The "Journal of Commerce," New York, April 27, 1917, stated that this company, Portsmouth, Va., and Frostburg, Md., had purchased the entire block of Johnson mill property at Frostburg, Md., and would erect a two-story fireproof building on it. The estimated cost of the plant, when brought up to capacity, will be about \$200,000.

PARKERSBURG IRON CO.

¹(1) **Acquisition.**—It was announced Dec. 27, 1916, that this company,

Parkersburg, W. Va., had purchased the Spring City Bloom Works, Spring City, Pa., of which the E. P. Leaf Co., Philadelphia, was the principal owner.

The Spring City plant consists of eight forge fires, and for a number of years produced a fine quality of charcoal iron blooms. For some time, however, it has been idle. The new owner will remodel and overhaul the plant and place it in operation as soon as possible. The blooms will be shipped to Parkersburg, where they will be manufactured into charcoal iron tubes.

The tube mill of the Parkersburg Iron Co. has been falling behind in its orders because its plant at Parkersburg is unable to turn out blooms fast enough.

PARK HOTEL CO., AKRON, O.

²(1) **Capital Increased.**—It was announced March 10, 1917, that this company had increased its capital stock from \$10,000 to \$300,000.

PARK UTAH MINING CO.

¹(1) **Incorporated** on Jan. 24, 1917, in Delaware, with a capital of \$1,250,000, to carry on a general mining business. Incorporators: Hugh L. Nehring, New York; Jas. F. Rogan, Brooklyn, and Frederick Hilderbrandt, Tompkinsville, N. Y.

PAROQUETTE RECORD MANUFACTURING CO., INC., MANHATTAN, N. Y.

PATAPSCO & BACK RIVER R. R. CO.

¹(1) **New Railroad.**—See Bethlehem Steel Corp.—Item No. 5.

PATCH MANUFACTURING CO.

⁴(1) **Machine Works Bought.**—At Rutland, Vt., dispatch to the "Boston Evening Transcript" April 20, 1917, stated that this company had completed plans for the extension of its line of products by the manufacture of paper-making machinery. For this purpose it has closed a deal for the purchase of the Glens Falls (N. Y.) Machine Works.

PATENT VULCANITE ROOFING CO.

¹(1) **Bond Offering.**—It was announced Jan. 28, 1917, that Peabody, Houghtaling & Co. are offering \$250,000 1st mortgage 5¼% serial gold bonds, dated Dec. 1, 1916, due \$25,000 annually Dec. 1,

1917-26, inclusive, at par and interest, except the first maturity, which is offered to net 5%.

These bonds are redeemable in reverse of numerical order on Dec. 1, 1917, or on subsequent interest dates at 102 and interest.

PATERSON PARCHMENT PAPER CO.

¹(1) **Capital Increased.**—On Jan. 17, 1917, the company filed notice at Trenton, N. J., of an increase in capital stock from \$1,000,000 to \$3,000,000.

PATHE FRERES PHONOGRAPH CO., NEW YORK.

¹(1) **Capital Increased.**—On Jan. 26, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$1,300,000 to \$1,900,000.

PATHFINDER AUTOMOBILE CO., INDIANAPOLIS, IND.

²(1) **Capital Increased.**—It was announced March 29, 1917, that this company had increased its capital stock to \$5,000,000. The company has booked orders for three times the number of automobiles it had anticipated for this year and the plant will be enlarged at once. It will manufacture several parts that heretofore have been bought from other manufacturers.

PATHFINDER CO.

¹(1) **Refinancing.**—It was stated Jan. 9, 1917, that a refinancing of this company to provide for the increased production is now under negotiation. The Federation Motors Co. is being formed to take over the Pathfinder Co., and another automobile company. Boughton & Co. are syndicate managers in the transactions.

The Pathfinder Co., which exhibited at the New York Automobile Show its new model of unique design, is planning to double its output in 1917. The new model is revolutionary in car design in that it has a disappearing top and concealed compartment for spare wheel and tires.

¹(2) **Underwriting Syndicate for New Company.**—See Federated Motors Co.—Item No. 3.

PATHFINDERS CO. (THE).

²(1) **Incorporated** on March 10, 1917, in Delaware, with a capital of \$500,000, to manufacture and sell motors, cars and engines. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

PATON MANUFACTURING CO.

²(1) **Bonus for Stockholders.**—It was announced Feb. 21, 1917, that this company had declared the regular semi-annual dividend of 4% and a bonus of 2¼% for the half-year ended Jan. 31, 1917, payable March 15 to stock of record Feb. 28.

PATRIA MINING CO.

¹(1) **Incorporated** on Jan. 30, 1917, in Delaware, with a capital of \$1,000,000, to do general mining, milling, and refining of gold, silver, lead, copper, etc. Incorporators: F. D. Buck, Geo. W. Dillman and M. L. Harty, Wilmington, Del.

PAUL KNITTING MILLS.

²(1) **New Machinery.**—It was announced Feb. 21, 1917, that this company, Pulaski, Va., had completed plans for the installation of additional new machinery, to double its present capacity.

PEACE RIVER TRADING CO., LTD.

⁴(1) **Incorporated** on April 5, 1917, in Canada, with a capital of \$250,000, divided into 2,500 shares of \$100 each, to acquire, construct, own and operate stores in all lines of mercantile business. Incorporators: Chas. Frederick Law, Vernon Lloyd Owen, Robert Abercrombie Pringle, Louis Cote and Robert Harfield Pringle, Chief place of business, Vancouver, B. C.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

PEAVY-WILSON LUMBER CO.

*(1) Operations.—It was stated April 11, 1917, that this company, incorporated in December, 1916, with a capital of \$1,000,000, had awarded a contract for machinery to equip its new plant near Leesville, La. The mill will have a daily capacity of 200,000 feet of lumber. The timber lands are located in Vernon, Sabine and Natchitoches Parishes, La.

PECK-BURKETT LUMBER CO.

*(1) Company Sold.—See Danbury-Brewster Lumber Co.—Item No. 1.

PECK & HILLS FURNITURE CO.

*(1) Incorporated on April 17, 1917, in Delaware, with a capital of \$2,500,000, to manufacture and sell furniture of all kinds. Incorporators: G. G. Rheuby, B. B. Segue and A. M. Gorman, Wilmington, Del.

PEERLESS GOLD MINES, LTD.

*(1) Incorporated on Feb. 7, 1917, in Canada, with a capital of \$1,500,000, divided into 1,500,000 shares of \$1 each, to prospect for and develop gold, silver, copper, nickel, lead, coal, iron and other mines. Incorporators: Francis Joseph Curran, Louis Edward Curran, Joseph Dupuy, Florence Nightingale Swanston and Clarinda O'Hara. Chief place of business, Montreal. One

—Apr.

*(1) New Company Organized.—It was announced March 31, 1917, that this company had been organized to operate what were formerly the Cullen-Renaud and McCrea groups of claims. The company has a capitalization of \$1,500,000 in shares of \$1 par. The head office is in Montreal. Shirley Ogilvie is Pres., S. A. McMurtrey, Vice-Pres., and Alexander McKinnon, Sec'y-Treas.

The holdings of the company consist of eight 40-acre claims in the township of Pacaud and less than three miles from the station of Boston Creek, Canada. Considerable surface work has been done, and a shaft put down to a depth of about 90 feet.

The quartz veins, in which free gold has been discovered, are comparatively narrow, but are consistent.

**PEERLESS LIGHT CO.,
PORTLAND, ME.**

*(1) Incorporated in February, 1917, in Maine, with a capital of \$500,000, to deal in and install lighting fixtures and act as mechanical and electrical engineers.

PEERLESS OIL CO.

*(1) Extra Dividend.—Announced Feb. 1, 1917, that this company had declared an extra dividend of \$1.25.

PEERLESS REFINING CO.

*(1) Sale of One-Half Interest.—See Cosden & Co.—Item No. 1.

PEERLESS TRUCK & MOTOR CORP.

*(1) Report, Year Ended Dec. 31, 1916, shows net profits of \$1,358,810 after allowing for full year's interest on the \$5,000,000 notes outstanding, and after charging off \$550,837 as a net loss on munitions and special foreign contracts of the General Vehicle Co.

Balance of \$1,358,810, after deducting \$2,453 for pfd. dividends on stock of Peerless Motor Car Co. outstanding is equivalent to 13.56% on the \$10,000,000 capital stock, or \$0.78 per share, par value \$50.

Net profits in 1915 were \$2,555,773, which, after providing for full year's interest on the notes on which there actually accrued in 1915 only one month's interest, was at the rate of 22½%, or \$11.25 per share of Peerless Truck & Motor stock.

*(2) Balance Sheet, as of Dec. 31, 1916, showed profit and loss surplus of \$3,424,381, compared with \$2,274,734 in 1915.

—Apr.

*(1) Statement by President.—In connection with the annual report of this company, submitted the latter part of March, Pres. Frederick Gilbert said, in

part, to stockholders: "Net sales of the subsidiary companies of the Peerless Truck & Motor Corp. for the calendar year 1916, excluding munitions and special foreign contracts of General Vehicle Co. (Inc.), were \$13,525,023, an increase of \$1,234,057 over the sales of the preceding year. Your attention is called to this year's deductions for depreciation, reserves, etc., which have been liberal, as shown by the profit and loss account herewith: The net profit for the year carried to the balance sheet amounts to \$1,358,810. The balance sheet shows cash and marketable securities of \$2,077,152 on hand as of Dec. 31, 1916.

"The new model eight-cylinder Peerless car has been well received by the public and difficulty has been experienced in producing a sufficient number to supply the demand. New buildings are now practically completed which increase the manufacturing facilities at Cleveland more than 25%.

"This plant is working at maximum capacity on orders for trucks and automobiles. The company is now manufacturing a full line of two, three, four and five-ton trucks."

PEKIN COOPERAGE CO.

*(1) Capital Increase.—On March 1, 1917, the company filed notice at Springfield, Ill., of an increase in capital stock from \$1,700,000 to \$2,000,000.

PENDENNIS METALS CORP.

*(1) Merger.—See Beer, Sondheimer & Co., Inc.—Item No. 1.

**PENINSULA SHIPBUILDING CO.,
PORTLAND, ORE.**

*(1) Plant Enlargement.—It was announced March 7, 1917, that this company had prepared plans for doubling the capacity of its plant at a cost of \$250,000.

• PENMANS, LTD.

*(1) Earnings Statement, Year Ended Dec. 31, 1916, shows:

	1916	1915
Profits	\$864,779	\$779,933
Net earnings	738,753	643,148
Surp. aft. chgs. pfd. and com. divs.	52,593	89,124
Surplus	672,492	619,899

*(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$672,492, compared with \$619,899 Dec. 31, 1915.

*(3) Sales, 1916, totaled \$5,840,128, an increase of \$1,097,214 over 1915.

PENN COUNTIES TRUST CO.

*(1) Capital Reduction.—Announced at Allentown, Pa., Jan. 11, 1917, that stockholders of this company had voted to decrease the authorized capital stock from \$1,000,000 to \$300,000.

PENN IRON CO.

*(1) Resumption of Operations.—Announcement was made at Lancaster, Pa., Jan. 11, 1917, that this company, after an idleness of ten years, would resume operations Feb. 1. New York men bought the plant for the purpose of using it in the rolling of steel and iron bars.

PENN-MARY STEEL CO.

*(1) Retrenchment.—See Bethlehem Steel Corp.—Item No. 7.

—Mar.

*(1) Merger.—See American Iron & Steel Mfg. Co.—Item No. 1.

• PENN-MEX FUEL CO.

*(1) Balance Sheet, as of Dec. 31, 1916, showed undivided profits of \$330,589.

PENN SEABOARD STEEL CORP.

*(1) British Orders.—It was stated Jan. 22, 1917, that this company had received orders from the British Government involving upward of \$9,000,000 for steel billets for delivery through the calendar year 1917.

The company has constructed additional furnaces at New Castle and New Haven, and with these increased facilities the filling of the contracts will not interfere with the regular domestic business. Deliveries have already started under these contracts. All plants of the company are working to capacity, and there are sufficient orders on the books to assure this condition throughout 1917.

Penn Seaboard Corp. has a capitalization of 60,000 shares of no par value. At present market price of \$80 per share this makes a total capitalization of \$3,600,000. This figure compares favorably with the \$9,000,000 orders on the books.

—Apr.

*(1) Majority of Stockholders Give Option.—Stated on April 7, 1917, that stockholders of this company had been asked by banking and other interests in Philadelphia and New York to give options for the sale of their stock at \$62.50 per share, and a majority of the stock had done so. The options expire April 16.

It is believed that negotiations are under way for the purchase of control of the company by a large steel company, the Bethlehem Steel Corp. being mentioned, although no confirmation of this can be obtained from interests concerned.

The Penn Seaboard Steel Corp. is a merger of several corporations with plants located at Chester, Pa., and New Castle, Del. There are 60,000 shares of common stock outstanding of no par value. There are no bonds. The company manufactures steel castings, principally for naval and railway use.

PENNSYLVANIA CANAL CO.

*(1) Bondholders' Payment.—A Philadelphia dispatch Jan. 31, 1917, stated that bondholders of this company soon would receive \$1,923,488 from the Pennsylvania R. R. Co. Samuel Rea, Pres. of the railroad, as trustee of the mortgage, notified Judge Dickinson that he held the above amount and asked that the court give instructions and appoint a special master to arrange for the distribution of the sum to the bondholders.

This action followed a court decision holding the railroad company liable to the minority bondholders.

—Mar.

*(1) Bonds.—It was announced at Philadelphia Feb. 28, 1917, that the special master appointed by the court, David Wallerstein, had advertised that bonds of this company which well due July 1, 1910, and were unpaid, must be proven before him on March 5, 1917, or the holders will be debarred forever from claiming on the fund produced by the recent litigation in the Federal courts.

PENNSYLVANIA-DETROIT R. R. CO.

¹(1) Incorporated on Feb. 27, 1917, in Michigan, with a capital of \$5,000,000. It is stated this company is a branch of the Pennsylvania R. R. It is the intention of the company to construct 52 miles of road from Ohio-Michigan line to Detroit.

²(2) Organized.—It was announced March 4, 1917, that this company, Detroit, Mich., incorporated Feb. 27, in Lansing, Mich., had been organized and had elected the following officers: Pres., R. E. McCarty, Detroit; Vice-Pres., E. L. Peck, Pittsburgh; Chief Engineer, B. V. Sommerville, Detroit; Sec'y, S. H. Church, Pittsburgh; Asst. Sec'y, B. B. Young and J. L. Mason, Pittsburgh; General Counsel, C. B. Helserman, Pittsburgh; Treas., T. H. B. McKnight, Pittsburgh; Auditor, J. W. Orr, Pittsburgh; real estate agent, C. C. Urquhart, Pittsburgh.

Its officers are all connected with the Pennsylvania R. R. Co., which is extending its lines from Toledo to Detroit.

Tentative plans have been prepared in the Pennsylvania offices in Pittsburgh for a three-story steel freight station, which is to be erected for the Pennsylvania-Detroit R. R. Co. The building is to be of steel and concrete construction and will cost approximately \$1,000,000.

PENNSYLVANIA ENGINEERING CO.

¹(1) Bonus to Employees.—Announced Jan. 9, 1917, that this company, New Castle, Pa., had paid its 500 employees a 10% bonus.

—Feb.

¹(1) Officers.—Announced Feb. 1, 1917, that at the annual meeting of this company, New Castle, Pa., the following officers were elected: E. W. Beadel, Pres. and Gen. Mgr.; J. K. Furst, Vice-Pres. and chief engineer; C. L. Baldwin, Sec'y and Treas.; W. H. Shipley, Gen. Supt.

The company is increasing the capital of several departments of its plant to take care of the large volume of business for the erection of blast furnaces, metal mixers, and other iron and steel works equipment.

—Mar.

¹(1) Contract.—It was stated March 19, 1917, that this company, New Castle, Pa., had received the contract for construction and erection of a complete modern steel plant for the Tata Iron & Steel Co., at Calcutta, India. The contract amounts to several hundred

thousand dollars. The plant will consist of one 1,300-ton metal mixer, two 25-ton converters and one 200-ton rolling open-hearth furnace. The New Castle concern will also furnish all of the other equipment. The plant will be completed at New Castle, then knocked down and crated for export. The contract calls for completion in 1918.

PENNSYLVANIA HEAT, LIGHT & POWER CO.

¹(1) Sale Approved.—See Philadelphia Electric Co.—Item No. 2.

PENNSYLVANIA-KENTUCKY OIL & GASOLINE REFINING CORP.

¹(1) Incorporated on April 10, 1917, in Delaware, with a capital of \$1,000,000, to lease and develop oil and gas lands. Incorporators: L. M. Stephens, Wheeling, W. Va.; C. M. Watson, Woodfield, O., and J. M. Dubois, Bellaire, O.

²(2) Incorporated in April, 1917, in Kentucky, with a capital of \$1,000,000. Incorporators: L. M. Stephens, Wheeling, W. Va.; C. M. Watson, Woodfield, O., and J. M. Du Bois, of Bellaire, O.

PENNSYLVANIA KEYSTONE CO.

¹(1) Merger.—On Feb. 28, 1917, notice was filed at Dover, Del., of the consolidation of this company and Pennsylvania Keystone Graphite & Paint Co. under the name of the Pennsylvania Keystone Co., New York.

PENNSYLVANIA KEYSTONE CO., NEW YORK.

¹(1) New Name.—See Pennsylvania Keystone Co.—Item No. 1.

PENNSYLVANIA KEYSTONE GRAPHITE & PAINT CO.

¹(1) Merger.—See Pennsylvania Keystone Co.—Item No. 1.

PENNSYLVANIA LIGHTING CO.

¹(1) New Director.—It was announced March 3, 1917, that at a meeting of this company's Board of Directors F. W. Bacon had been elected a director to succeed S. Wynne Ffoulkes, resigned.

PENNSYLVANIA-OHIO OIL & GAS CORP.

¹(1) Incorporated on Jan. 20, 1917, in Delaware, with a capital of \$6,000,000, to acquire and develop lands containing petroleum and to deal in and with investments. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

PENNSYLVANIA R. R. CO.

¹(1) Construction Work in East.—On Jan. 1, 1917, it was stated that construction and improvement work under way on the directly operated lines of the Pennsylvania system from Pittsburgh east involved an estimated expenditure of \$36,800,000.

In addition, the Pennsylvania R. R. Co., jointly with the New York, New Haven & Hartford R. R. Co., is completing the New York Connecting Ry., which will join the two systems. The cost of this project, \$27,000,000, has been provided for by bonds on the property, guaranteed by both companies.

The Connecting Ry., with its steel arch bridge from Long Island across the East River, is expected to be ready for operation in the spring of 1917, and then through passenger service will be inaugurated by the two systems between New England and the South and West.

In Pittsburgh a terminal station and office building are to be constructed. This operation will cost about \$16,000,000. The electrification of the Germantown and Chestnut Hill branch of the Pennsylvania will cost \$1,200,000.

In New York Harbor two important improvements are in hand, the enlargement of the Meadows Yard, near Jersey City, and the construction at the Green-

ville export freight yard of a new covered pier, bulkheads, and track extensions.

The betterments at Greenville and Meadows Yards will cost \$2,000,000.

¹(2) Earnings on Property Investment.—On Jan. 2, 1917, it was stated that the fiscal report of this company, made public Jan. 1, showed that in 1916, the most prosperous year in the history of the railways of the United States, it earned a return of 6.82% on its property investment, the first year since 1910 in which the system earned more than the 6% the railroads maintain is necessary for the proper development of the transportation system of the United States.

The total operating revenue of the system, East and West, was \$465,429,307.84, an increase over 1915 of \$67,573,550.43, or 17%. The total operating expenses were \$302,204,802.98, an increase of \$41,839,434.12, or 15%. The net operating income was \$103,224,504.86, an increase of \$22,734,116.31, or 22%.

The Long Island Railroad's increase of net income was the largest proportionately in the Pennsylvania system. In 1915 it had a net deficit of nearly \$200,000. In 1916 it had net earnings of \$263,500.

As a commentary upon its efficiency and safety of operation the Pennsylvania system issued a statement in which it said that in 1916 it transported 196,294,146 passengers, as well as the heaviest freight traffic in its history.

The statement went on to say that for three years no passenger had been killed as a result of a train accident on any of its lines.

	1916	1915
¹ (3) Earnings—		
November gross	\$19,323,057	\$18,617,404
Net after taxes—	4,168,660	5,061,530
Surp. after chgs.	3,714,295	4,376,875
11 mos. gross—	211,553,021	178,457,483
Net after taxes—	51,784,169	42,045,400
Surp. after chgs.	47,228,385	36,764,300

¹(4) Gross Revenue in 1916.—It was stated Jan. 8, 1917, that this company finished 1916 with gross revenue approximately \$33,500,000 ahead of 1915, and the surplus applicable to dividends and uncanceled improvements almost \$10,000,000 more than the year before. Final figures will show the net earnings probably not more than \$8,000,000 higher, but investment and other outside sources of income have yielded, roughly, \$3,000,000 more than they did in 1915, with this gain offset to the extent of \$2,000,000 by heavier fixed charges.

Balance for dividends thus will be close to \$52,500,000, against the regular dividend requirements of \$29,952,000. Percentage earned on the stock was 10.5%, comparing with 8.5% in 1915, and 6.8% in 1914. The year's percentage on the stock is the highest since 1909, when it was 11%. These figures are exclusive of the company's interest in the surplus over dividends of the Pennsylvania Co., which for 1916 represented 1.4% additional on the parent company's stock.

Allowing for the usual sinking fund and reserves of about \$2,000,000, the Pennsylvania's year yielded \$20,000,000 to devote to improvements or carry to profit and loss surplus. In 1915 the corresponding item was \$10,500,000. In as much as the company spent fully \$30,000,000 on the lines east of Pittsburgh in 1916, and plans a larger expenditure for 1917, it presumably will have to do some financing to supplement its appropriations from income. The \$20,000,000 notes put out in July, 1916, mature April 1.

Pennsylvania spent upward of \$10,000,000 more on maintenance in 1916 than in 1915, but this increase is only in the same proportion as the increase in gross. The latter increased 19% for the year, maintenance 18%, and transportation expenses 18%.

Earnings of 10% or 11% on stock means something different with the Pennsylvania, which has almost twice as much stock as bonds, from what it

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

means with a company where the proportions of share capital to total capital are reversed.

Pennsylvania has practically \$500,000,000 stock outstanding, and under \$200,000,000 of bonds. This fact puts the stockholder in an exceptionally strong relation to the property and its earnings.

(5) Claim of Coal Co. Settled.—It was announced at Clearfield, Pa., Jan. 8, 1916, that this company on that date gave its check for \$188,339.71 to the Sonman Shaft Coal Co. in settlement of the judgment obtained against it by the Sonman Co. in the discrimination case which had been carried through many courts.

(6) Stockholders to Consider Indebtedness Increase.—It was stated Jan. 10, 1917, that at the annual meeting of this company March 13 the stockholders will be asked to approve an increase of the authorized indebtedness to the extent of \$75,000,000.

This will enable the Board of Directors to issue from time to time such amounts, either of general mortgage bonds or of capital stock that heretofore had been authorized by the stockholders, as may be necessary to provide for the company's capital requirements in the near future, including maturing obligations.

(7) Acquisition Agreement.—Announcement was made Jan. 10, 1917, following the meeting of this company's Board of Directors, that at the annual meeting of the stockholders they would be asked to approve the agreement for the acquisition of the property and franchises of the Harrisburg, Portsmouth, Mount Joy & Lancaster R. R. Co. The railroad of that company constitutes that portion of the main line of the Pennsylvania R. R. between Lancaster and Harrisburg. The Pennsylvania R. R. Co. owns over 80% of the stock.

The provision for increase in the indebtedness of the Pennsylvania R. R. will take care, among other things, of \$20,000,000 notes maturing in April, 1917.

(8) Bonds Listed.—Announced Jan. 10, 1917, that the New York Stock Exchange had listed this company's \$85,000,000 4½% general mortgage bonds, series A, due 1965.

(9) Must Pay Canal Bondholders.—Announcement was made at Philadelphia Jan. 10, 1917, that the Pennsylvania Supreme Court had decided in favor of the bondholders of the old Pennsylvania Canal who brought suit against the company for \$1,800,000. When the railroad came into possession of the canal, which was abandoned and the route utilized for a right of way, it guaranteed the interest on the bonds.

The bonds matured six years ago. The railroad contended that as owner of \$3,000,000 of the bonds it was a pfid. creditor.

The court denied this claim and ordered the road to pay \$1,800,000 on the minority bonds, amounting to about \$1,948,000 par value.

(10) Stock Issue Authorized.—Announced at Columbus, O., Jan. 10, 1917, that this company had been authorized by the Ohio Public Utilities Commission to issue \$4,000,000 in stock for use in exchange for stock and other securities in connection with the merger of the Pennsylvania Lines West of Pittsburgh.

(11) Construction Progress on Connecting R. R.—See New York Connecting R. R.—Item No. 2.

(12) Rate Ordered Lowered.—It was announced Jan. 19, 1917, that the Pennsylvania Public Service Commission, in an opinion by Commissioner Rilling, had ordered this company to establish a joint tariff not exceeding 60 cents per ton for the shipment of petroleum in tank cars from the Waverly Oil Works Company's plant in Pittsburgh, to that of the Etna Chemical Co., Benvenue. The railroad offered a rate of 60 cents.

The complainant alleged that the route taken was too long. The com-

pany answered that it routed the cars so as to avoid congestion of traffic in the Pittsburgh district.

(13) Denial.—On Jan. 24, 1917, Pres. Samuel Rea, of this company, authorized the following statement:

"The Pennsylvania R. R. Co. has not acquired any stock of the Missouri Pacific Ry. Co. and is not negotiating for any interest in that company."

(14) Gross Revenue, 1916, Estimated.—On Jan. 23, 1917, the "Philadelphia News Bureau" said: "Pennsylvania R. R. gross revenue for 1916 bulks large in comparison with all previous years. It is unofficially figured at about \$230,200,000. This compares with \$196,628,170 in 1915, and while the form of accounting has been changed somewhat in recent years, the great volume of the past year's business may be emphasized by contrasting it with the figures for 1912, when \$174,607,598 was reported.

"A jump in earnings occurred in 1913, followed by a slump following the outbreak of the European war. The succeeding year showed a recovery that made next best to the one just closed.

"For several years, the net income of the Pennsylvania R. R. available for dividends on the stock has hung around \$42,000,000 per annum, but a portion of the big gross earnings gain in 1916 has been saved for the net, bringing the figures close up to \$32,500,000. This amounts to 10.5% on \$499,235,000 stock outstanding.

"The best previous showing in recent years was 9.2% in 1912 on the smaller amount of stock then outstanding.

"In common with other roads, Pennsylvania has had in the past year the difficulties of operation attendant upon traffic congestion, but has managed nevertheless, to earn a good return for the stockholders, despite material increase in cost of conducting transportation."

(15) Bonds for Long Island Minority.—See Long Island R. R.—Item No. 3.

(16) Equipment Orders.—Announcement was made Jan. 29, 1917, by this company that orders would shortly be placed at its Altoona shops for the construction of 92 passenger cars (all steel), 225 locomotives and 2,100 freight cars, for use on the lines east of Pittsburgh and Erie.

All of these will be used to replace other cars and locomotives now in service and will apply on the company's 1917 equipment program.

(17) Embargo.—Announced Jan. 29, 1917, that this company had placed an embargo on lines west of Pittsburgh, applying to all eastbound shipments of carload freight which originate at Chicago.

—Feb.

(1) Canal Bondholders' Payment.—See Pennsylvania Canal Co.—Item No. 1.

	1916	1915
Dec. gross.....	\$18,725,512	\$18,171,066
Net after taxes....	3,271,842	4,206,524
Surp. after chgs....	3,044,995	3,714,112
12 months gross....	220,278,533	196,628,170
Net after taxes....	55,056,011	46,250,824
Surp. after chgs....	50,161,635	40,478,987

(3) Comment on December Earnings.—On Feb. 3, 1917, the "Wall Street Journal" stated that this company's December, 1916, freight earnings fell off 4%, compared with the same month of 1915, but passenger earnings increased 20% and total gross gained \$53,000, or 3%. In November the gain was 3.7%, and in October 6%. Net, after taxes, decreased \$934,682, or 40%. In December, as against losses of 30% in November and 8% in October.

The loss of net in December was due to the causes which made themselves felt in October and have been increasing in effect ever since. Transportation expenses increased more than the gain in revenue, and maintenance charges, especially on equipment, continued to increase.

December other income increased \$280,000 and fixed charges practically

stood still, so that the decrease in surplus for the month was held down to \$689,117. This brings the surplus for the year to \$50,161,635, as shown in the monthly statement, equivalent to a small fraction over 10% on the \$499,203,700 stock. But the fixed charges as given by this statement include sinking fund charges, which run close to \$2,000,000 annually.

As these sinking fund charges are not operating reserves, but reduce the capital obligations, they are more properly eliminated in figuring the earnings on stock. These were, therefore, approximately 10.4%.

Pennsylvania Co., which paid the Pennsylvania R. R. \$4,400,000 in dividends during the year, finished with a surplus over fixed charges of \$12,033,147, according to the December statement; but if the sinking fund charges of approximately \$1,900,000 be eliminated, the surplus was \$13,933,000, more than twice the dividend declared on the \$50,000,000 stock, all of which the Pennsylvania R. R. owns. The undistributed balance of \$7,533,000 is equivalent to an additional 1.50% on the parent company's stock. Thus the Pennsylvania virtually earned 11.90%, which compares with 9.48% in 1915 on the same basis.

Out of the \$33,650,000 gain in gross the Pennsylvania R. R. proper spent \$10,600,000 more than in 1915 on maintenance and \$11,744,300 more in transportation expenses. For the year the transportation ratio of 34.9% was almost exactly the same as in 1915, and the ratio of maintenance charges to gross was 32.4%, against 32%. It was well past the middle of the year before the rise in expenses began to overhaul the rise in revenues.

(4) Coal Property Sale.—It was stated Feb. 5, 1917, that this company had finally succeeded in disposing of its large holdings of anthracite properties in Luzerne, Northumberland, Schuylkill and Dauphin Counties, Pennsylvania, according to information from authoritative sources. Efforts to sell lands, held through Susquehanna Coal Co., were started about three years previously, following passage of the Federal act making it illegal for a railroad to hold direct or indirect interest in a commodity which it transports.

Under the agreement made and ratified by directorates of both roads, the Delaware & Hudson Co. will take over the Susquehanna Co. as soon as legal negotiations have been completed. It is understood payment will be made through purchase obligations maturing serially over about 20 years. The price to be paid will be between \$8,000,000 and \$12,000,000.

Pennsylvania Railroad owns \$2,136,600 stock of Susquehanna Coal Co. and \$8,101,500 of its debentures.

It is estimated that lands controlled by the company contain fully 90,000,000 tons of coal.

(5) New Outlet.—See Cambria Steel Co.—Item. No. 1.

(6) Rivalry for Control.—See Frontier Electric Ry. Co.—Item No. 1.

(7) New Cut-Off Ready by Fall of 1917.—On Feb. 10, 1917, Vice-Pres. Schroyer, of this company, was quoted in Chicago as saying that he expected the new line into Indianapolis to be finished in the Fall of 1917. The new line, a cut-off between Indianapolis and Frankfort, Ind., will be about 47 miles long and will give the Pennsylvania its first entrance into Indianapolis over its own tracks from Chicago. It has been using the Lake Erie & Western tracks from Kokomo. All freight and passenger trains between Chicago and Louisville, as well as to Indianapolis, will be handled over the new lines.

(8) Stockholders.—It was announced at Philadelphia Feb. 26, 1917, that on Feb. 1 there were 90,805 stockholders of the Pennsylvania R. R., as compared with 93,445 on Feb. 1, 1916, a decrease of 2,640. Of this number 45,242, or nearly half, were women. There were 9,985,314 shares outstanding, showing an average holding of 109 shares.

(9) Denial.—On Feb. 27, 1917, it was stated that Pres. Samuel Rea, of this

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

company, had denied rumors emanating from Boston that his road was seeking control of the New York New Haven & Hartford R. R. He did not take seriously rumors current of recent large purchases of stock of that road by the Pennsylvania. It had been said that 50,000 shares of New Haven had been purchased at under 50. It was pointed out that the Pennsylvania has no intention of increasing its already large interests.

The so-called Pennsylvania holdings of record early in 1917 amounted to 48,225 shares in the name of that road and 4,900 shares in the name of Director T. DeWitt Cuyler—a total of 53,025 shares out of the 1,571,179 shares outstanding.

It is intimated that James H. Hustis, Pres. and receiver of the Boston & Maine, is slated to be the ultimate successor to Howard Elliott as head of the New Haven.

—Mar.

*(1) Earnings—1917 1916
January gross—\$19,032,422 \$17,706,237

*(2) New Company to Enter Detroit.—See Pennsylvania-Detroit R. R. Co.—Item No. 1.
*(3) Report, Year Ended Dec. 31, 1916, shows income account as follows:

	1916	1915
Gross	\$230,278,533	\$196,628,170
Operat. income	55,056,011	46,250,925
Net income	52,276,504	42,425,322
Surp. after chgs.		

& divs. 7,256,582
*(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$33,514,208, compared with \$27,991,499 Dec. 31, 1915.

*(5) Earnings on Stock.—It was stated March 5, 1917, that this company's 1916 net income of \$52,276,504 is equal to 10.47% on \$499,204,700 capital stock before sinking fund deduction, compared with 8.49% earned on \$499,203,700 capital stock in 1915.

*(6) Statement by President.—It was announced March 6, 1917, that Pres. Samuel Rea, in his annual remarks to stockholders, said in part: "The necessity for higher rates is daily becoming more evident, for, while the results for the first eight months of 1916 showed a satisfactory increase, yet since then the net returns have shown a marked reduction due to higher costs.

"Your company, to avoid congestion and to handle the traffic economically and promptly, has expended, and is now expending, large amounts of capital upon which a return must be earned; it has made adjustments in employees' wages to retain them in the service and enable them to meet the higher living costs; and is paying extraordinary increases in the prices of materials and supplies, and in taxes; in addition to which it is burdened with conflicting and wasteful regulation and laws.

"These increased costs have made heavy inroads into your profits during the last few months, and it is expected that their effect will be even more acute in 1917.

"With such a widespread and pressing demand for larger terminals, greater facilities, and more equipment, it is essential (if they are to be provided) to grant the railroads the higher rates necessary to place them in a position to meet such rising costs, and give them the earning basis to attract new capital for the additional transportation facilities and service so urgently required.

"The lack of sufficient surplus for many years past has prevented the railroads from providing such additions and betterments in advance of traffic demands, and while labor and material costs were reasonable.

"That return is a great improvement compared with preceding years, but it was earned in a year when the country was enjoying the greatest prosperity in its history, and when so many of the industries, which are free to fix their prices to meet the market conditions, were earning many times 6%.

"The latter is a healthy condition, beneficial to the country at large, but it is also one in which the railroads, which must pay the greatly increased prices, wages and taxes, should be allowed to participate through higher rates upon the commodity they sell, viz., transportation.

"Under the existing international complications, and exceptional industrial activity, there should be no delay in placing the railroads in the strongest financial and physical condition."

*(7) Operating Results, Year Ended Dec. 31, 1916, of all Pennsylvania R. R. transportation companies east and west of Pittsburgh and Erie, owned, operated or controlled by or affiliated in interest with the Pennsylvania system, are compared as follows:

	1916	1915
Oper. rev.	\$443,338,365	\$374,939,046
Oper. income	108,877,039	87,914,401
Surp. aft. chgs., etc.	32,133,262	2,186,676

*(8) New Company Organized.—See Pennsylvania-Detroit R. R. Co.—Item No. 2.

*(9) Comment on 1916 Report.—On March 7, 1917, the "Wall Street Journal" said, in part: "At first glance, it was somewhat curious that in the same year, and almost the same territory, in which New York Central earned upward of \$17 a share on its stock, a larger proportion of profit than the road had had in a generation, the Pennsylvania Railroad's balance of 10.47% on the share capital should have fallen short of the 11% of 1909, or the 11.66% of 1906.

"There were doubtless many contributing causes of the discrepancy, but the primary explanation is to be found in the fact that with a capitalization of close to \$800,000,000 for the Pennsylvania R. R. proper, practically \$500,000,000 is represented by stock, whereas the New York Central's capital obligations are in excess of \$900,000,000, of which only \$250,000,000, in round numbers, is stock. In busy times the profits of the total capital employed converge upon an actually and relatively smaller volume of share capital in the case of the Central than with the Pennsylvania.

"Pennsylvania's traffic in 1916 was unprecedented in both passengers and freight, nor had the road ever had so great an increase over the preceding year in gross revenues. Ordinarily these conditions should have been accompanied by a more than proportionate increase in net earnings, on the theory that unit costs decline with expanding operations.

"In 1916 the gross gain was \$33,650,000, but the net gain only \$10,222,342, while taxes increased \$1,427,000. In the last four months of 1916 net earnings actually decreased, despite continuing gains in gross.

"Of the \$33,650,000 gain in gross revenues, additional maintenance expenditures absorbed \$10,654,850, but there was nothing disproportionate in the expenditures on the property. They represented 32.41% of gross, almost exactly the proportion of the year before and compare with 33.20% in 1914. Transportation expenses absorbed 34.91% of gross, as against 34.92% in 1915.

"While operating costs thus appear to have remained stationary, as a matter of fact they did so because operating economies permitted by the great volume of business largely offset the rise in the cost of labor, fuel and supplies.

"Thus the number of tons of freight hauled by the Pennsylvania increased 18%, while the mileage of freight trains increased only a little more than 8%. The saving in train movement was accomplished by increasing revenue trainload from 743 tons to 811 tons.

"The company's report for the most active year in the history of American railroads does not furnish the stockholder with any cause for uncontrollable enthusiasm. It shows such opportunities as the period offered improved and its cumulative difficulties intelligently and energetically opposed,

if not altogether surmounted. It reflects unmistakably the quick turn in the tide of railroad prosperity which is the familiar phenomenon of other boom periods."

*(10) Rail Orders.—It was announced March 7, 1917, that this company had distributed orders for 65,000 tons of standard section rails among the various mills, being nearly one-third of the tonnage originally asked to be reserved for 1917 shipment. The Buffalo mill is said to have taken 4,000 tons, but the United States Steel Corp. subsidiaries thus far have not accepted the portion allotted to them. It is understood that the corporation mills are asked to roll a little over 31,000 tons and the Bethlehem mills a little under 30,000 tons.

*(11) Rail Order.—It was announced March 8, 1917, that this company had placed orders for 68,332 tons of 100 and 130 pounds rails for delivery in 1918, covering the requirements of the system's lines east and west of Pittsburgh. For 1917 delivery the system's orders totalled 205,000 tons. The reduction in amount is attributed by the management to the difference in price, \$40.80 per ton for 1918 against \$30.80 for the current year's deliveries.

The 1918 order is divided as follows: Bethlehem Steel Corp., 19,133 tons; Cambria Steel Co. (Midvale), 15,033 tons; Lackawanna Steel Co., 4,100 tons; U. S. Steel Corp., 30,066 tons.

*(12) Dedication of New York Connecting R. R.—See New York Connecting R. R.—Item No. 1.

*(13) Acquisition Approved by Stockholders.—It was announced March 13, 1917, that at the annual meeting of stockholders of this company the following resolution was adopted: "Resolved, That the agreement between the Pennsylvania R. R. Co. and the Harrisburg, Portsmouth, Mount Joy & Lancaster R. R. Co., dated the 2d day of January, 1917, for the acquisition by the former of the franchises, corporate property, rights and credits of the latter, submitted to and considered at this meeting, be and the same is hereby approved."

*(14) Debt Increase Approved by Stockholders.—It was announced March 13, 1917, that at the annual meeting of stockholders of this company a resolution consenting to and authorizing an increase in the indebtedness of the company to the extent of \$75,000,000 was adopted, as was also a resolution providing that a stock vote be taken on the matter at the annual election March 27.

*(15) Arbitration Policy Approved.—It was announced March 13, 1917, that at the annual meeting of this company the stockholders unanimously approved the stand taken by the management that the wage demands of its employees can be equitably settled only by arbitration. This was done by the adoption of a resolution which was introduced by George E. Barton, a stockholder of the company and Pres. of the Philadelphia Bourse.

*(16) Cut-Off Planned.—It was reported March 12, 1917, that this company had completed plans for the erection of a five-mile cut-off at Tarentum, Pa., in the Summer of 1917. Two tracks are to be constructed, and the cost will approximate \$500,000.

*(17) Long Island Suit.—See Long Island R. R. Co.—Item No. 2.

*(18) Suit for Long Island Receiver Dismissed.—See Long Island R. R. Co.—Item No. 3.

*(19) New Wage Increase.—It was announced March 20, 1917, that the annual wage increase on the Pennsylvania system on account of the agreement with the brotherhoods would amount to approximately \$18,000,000, of which about \$12,000,000 will be borne by the lines east of Pittsburgh and \$6,000,000 by the lines west.

*(20) Acquisition Approved.—See Harrisburg, Portsmouth, Mount Joy & Lancaster R. R.—Item No. 1.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

* (21) Bond Offer Accepted by Long Island Shareholders.—See Long Island R. R.—Item No. 8.

* (22) New General Manager.—Announced on March 29, 1917, that Elisha Lee, assistant general manager, had been appointed general manager of the Pennsylvania Lines east of Pittsburgh and Erie, effective April 1. He succeeds S. C. Long, deceased. Mr. Lee has been acting as chairman of the National Conference Committee of all-road managers.

* (23) Sale of Bonds.—Announced on March 29, 1917, that Kuhn, Loeb & Co. had purchased \$80,000,000 Pennsylvania R. R. Co. general mortgage 4½% bonds, due June 1, 1935. The underwriting syndicate has been completed and a public offering of the bonds will shortly be made, probably early the coming week.

This is the first important railroad bond sale for nearly two years. Coming at a time when a number of railroads have resorted again to the use of notes to finance their requirements, it is believed in bond circles that this offering may bring railroad bonds again into favor among investors and pave the way for other offerings. It is considered likely that the offering price will be fixed at a figure to move the bonds quickly.

These bonds are secured by the large mortgage authorized in March, 1914. The company sold \$95,000,000 of bonds issued under this mortgage in May, 1915. Proceeds of the present sale will cover all of the company's requirements for 1917.

* (24) Offering Price of Bonds.—On March 30, 1917, Kuhn, Loeb & Co. announced that the price for the new issue of \$80,000,000 Pennsylvania R. R. Co. general mortgage 4½% gold bonds had been fixed at 97½% and accrued interest. The public issue will be made shortly at that price, in advance of which subscriptions are now being received subject to allotment.

* (25) Passenger Service Agreement Approved.—See New York, New Haven & Hartford R. R. Co.—Item No. 11.

* (26) Long Island Plan Approved.—See Long Island R. R.—Item No. 12.

—Apr.

* (1) Earnings, February and Two Months, as made public April 2, 1917, show increase or decrease over the same month the previous year as follows:

	1917	1916
Feb. gross.....	\$18,790,873	\$37,880
Net after taxes.....	729,569	2,361,706
Surp. after chgs.....	569,574	\$2,340,695
2 mos. gross.....	35,823,235	\$1,088,304
Net after taxes.....	3,213,708	2,639,956
Surp. after chgs.....	3,544,114	2,797,579
↑ increase.		

* (2) Bonds All Taken.—It was announced April 2, 1917, that Kuhn, Loeb & Co. stated that the subscription list for the \$80,000,000 of this company's general mortgage 4½% gold bonds had been closed, subscriptions received having been largely in excess of the amount offered.

* (3) Questioned by Illinois Commission.—It was announced April 2, 1917, that this company had been asked by the Illinois Public Utilities Commission why it had reissued \$35,476,703 gold bonds of 1915 without permission of the commission.

* (4) Coal and Coke Traffic, Feb., 1917, on lines east of Pittsburgh and Erie, was reported as follows:

	—(Short tons)—	
	Feb., 1917	Decrease
Anthracite coal.....	878,870	92,710
Bituminous coal.....	3,700,963	494,230
Coke.....	807,478	322,125
Total.....	5,393,311	909,065

* (5) Effect of Eight-Hour Law.—It was stated April 5, 1917, that on this company's railroad alone \$1,246,000, for increased wages to be paid under the Adamson law for the months of January and February, was charged against operating expenses in February, and on the entire system \$2,089,102 was so charged, a rate for the system of over

\$12,000,000 per annum. Aside from this, costs of material and other wage adjustments, and fuel costs have added largely to operating expenses.

Had not the Adamson law wage increases been included in the February statement, the total net earnings of the Pennsylvania R. R. would have been \$2,721,140 and those of the system \$2,726,831. The actual net in February, 1916, however, was much larger than this, the figures having been \$3,845,078 for the Pennsylvania R. R. and \$5,756,748 for the system.

The month's gross business was of about the same volume in each year, there being, however, some decrease. This is the first decrease in gross shown by the Pennsylvania during a long period of heavy traffic, but the 1917 figures will compare with results in a very prosperous year of record earnings.

Two months' added cost of the eight-hour law accounts in the main for the radically small net earnings in February, which were for the system only \$637,639, whereas for the month of January in 1917 \$5,682,658 net was shown. Comparative monthly gross and net have been:

Pennsylvania System.			
Total Operating Revenue.			
	1917	1916	
February.....	\$31,174,742	\$31,596,749	
January.....	35,451,551	32,081,430	
	1916	1915	
December.....	\$35,581,109	\$33,886,687	
November.....	36,965,080	34,935,002	
Net Operating Revenue.			
	1917	1916	
February.....	\$637,639	\$5,756,748	
January.....	5,682,658	6,958,480	
	1916	1915	
December.....	\$6,117,500	\$7,852,350	
November.....	8,297,053	9,676,640	

The Pennsylvania R. R. itself shows \$1,475,140 net in February, 1917. In comparison with the same month in 1916, railway operating revenue fell off \$237,880 and operating expenses increased \$2,132,057, of which increase \$1,818,509 was spent for transportation, the maintenance items being small increases. With succeeding months, including only a single month's charges on this account, net earnings should not be as unfavorable as those for February.

* (6) Bonds Listed in New York.—Announced April 5, 1917, that the New York Stock Exchange had admitted to the list this company's \$80,000,000 general mortgage 4½% bonds, series A, due June 1, 1935, "when issued."

* (7) Bond Issue Planned by Controlled Company.—See New York Connecting R. R.—Item No. 1.

* (8) Long Island Stock and Bond Issue Planned.—See Long Island R. R. Co.—Item No. 2.

* (9) Trackage, as of Dec. 31, 1916.—The "Philadelphia News Bureau" on April 23, 1917, said: "The record of transportation lines of the Pennsylvania System as of Dec. 31, 1916, shows a total mileage of 6,517 on the lines east of Pittsburgh and Erie, and 5,354 on the lines west of Pittsburgh, a total of 11,871 miles for the whole system. The Eastern lines comprise 15,406 miles of track, while the Western lines comprise 11,574 miles, making a total of 26,981 miles of track on the entire system."

The lines of the Pennsylvania System serve 13 States and the District of Columbia, 4,267 miles being in the State of Pennsylvania and 2,141 miles in Ohio.

The Pennsylvania R. R. Co. also operates 1.81 miles of ferries on the Delaware River between Philadelphia and Camden, and 2.13 miles of ferries on the Hudson River between New York and Jersey City. The United New Jersey R. R. & Canal Co.'s canal, between Bordentown and New Brunswick is 44 miles long, while the feeder, running from Raven Rock to Trenton, is 22 miles in length, making a total canal mileage of 66.

* (10) Dividend Dates Fixed.—A Philadelphia dispatch April 23, 1917, stated that the next dividend to be declared by directors of this company would be paid May 31 to stock of record May 1.

* (11) Bituminous Rates Ordered Extended.—See Johnstown Switching Co.—Item No. 1.

* (12) Negotiations for Lease of Pittsburgh & West Va. Ry. Reported.—See Pittsburgh & West Virginia Ry.—Item No. 6.

* (13) Complete Possession of Long Island R. R. Stock Assured.—An Albany, N. Y., dispatch to the "Philadelphia Public Ledger" April 25, 1917, stated that this company would be in complete possession of the stock of the Long Island R. R. and the Long Island would be relieved from approximately \$700,000 a year in interest charges through a transaction which on that date received the substantial approval of the New York Second District Public Service Commission.

The readjustment plan involves the issuing of \$22,000,000 of Long Island common stock and \$5,202,100 in 5% debenture bonds. The stock will be taken by the Pennsylvania in return for Long Island bonds which it holds, and on which the Long Island is paying interest at the rate of 4%.

These bonds are to be cancelled and the Pennsylvania will wait for a return on the money advanced to the Long Island until the common stock of that company earns a dividend.

The debenture bonds are to go to minority stockholders in return for their stock holdings, which will be turned over to the Pennsylvania R. R., the exchange to be made at par.

* (14) Stricken from New York List.—On April 27, 1917, this company's general mortgage 4½% series A bonds, due 1935, "when issued," were stricken from the list of the New York Stock Exchange.

* (15) Admitted to New York List.—On April 27, 1917, this company's temporary certificates for general mortgage 4½% series A bonds, due 1935, were admitted to the list by the New York Stock Exchange.

PENNSYLVANIA RUBBER CO., INC.

* (1) Officers and Directors.—It was announced Feb. 21, 1917, that at the annual meeting of this company the following directors were elected: Herbert Du Puy, H. Wilfred Du Puy, Charles M. Du Puy, S. G. Lewis, George W. Shiveley and G. A. McLaughlin.

Subsequently the following officers were elected: Herbert Du Puy, Chairman; H. Wilfred Du Puy, Pres. and Treas.; Charles M. Du Puy, Vice-Pres.; S. G. Lewis, Gen. Mgr.; George W. Shiveley, Sec'y, and Charles G. Morrill, Asst. Treas.

Quarterly dividends of 1¼% on the common stock and 1¼% on the pfd. stock were declared, payable March 31 to stock of record March 15.

●PENNSYLVANIA SALT MANUFACTURING CO.

* (1) To Pay off Remainder of Notes.—Announced on April 10, 1917, that it was this company's intention to pay off on June 1, the remaining \$500,000 of its three-year 5% notes in accordance with the provisions of the contract.

PENNSYLVANIA SHIPBUILDING CO.

* (1) Site Bought for Boiler Shop.—The "Philadelphia Public Ledger" April 21, 1917, stated that this new company had closed a deal for the acquisition of three city blocks, on which it would erect a boiler shop to accommodate 1,500 mechanics. The consideration was said to have exceeded \$30,000.

PENNSYLVANIA SUGAR CO.

* (1) Capital Increase to \$5,000,000 Planned.—On April 21, 1917, the "Philadelphia Public Ledger" said that in view of important developments to the plant of this company a special meeting of stockholders had been called for June 16 to vote on a proposal to increase the capital stock from \$2,600,000 to \$5,000,000. The company has arranged for the purchase of a plot of ground which will include two municipal plots. The capacity of the plant has been increased to 4,000 barrels a day.

JANUARY 1 TO APRIL 30, 1917

PENNSYLVANIA TANK CAR CO.

¹(1) Equipment Issue.—See Pennsylvania Tank Line Co.—Item No. 1.

PENNSYLVANIA TANK LINE CO.

¹(1) Equipment Issue.—It was announced Jan. 20, 1917, that this company and the Pennsylvania Tank Car Co., subsidiaries of the Petroleum Iron Works Co., had issued \$1,000,000 of 5% car trust equipment bonds, maturing serially one to eight years.

The equipment covered by the mortgage has a value of more than double the issue or over \$2,000,000, and the bankers, The First National Bank of Sharon and The Colonial Trust Co. of Farrell, Pa., advised that the issue was practically all sold to New York and Pittsburgh banks before the signing of the bonds.

PENNSYLVANIA TUNNEL & TERMINAL R. R. CO.

¹(1) Passenger Service Agreement Approved.—See New York, New Haven & Hartford R. R. Co.—Item No. 11.

PENNSYLVANIA UTILITIES CO.

¹(1) Sales, 1916.—It was announced Jan. 24, 1917, that this company, a subsidiary of General Gas & Electric, in 1916 sold 47,650,000 kilowatt hours, compared with 42,570,000 kilowatt hours in 1915. Of the energy sold 77.7% was steam generated, 20.8% hydro-electric and 1.7% purchased. The steam generated current increased 17.5%, the hydro-electric decreased 3.5% and purchased power decreased 10%. The company has five generating stations.

• PENNSYLVANIA WATER & POWER CO.

¹(1) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross	\$1,353,919	\$1,124,739
Net after taxes	1,140,999	948,331
Surp. after bond interest	619,850	434,053
From prev. year	21,797	709
Total	641,648	434,762
Dividends	329,275	339,800
Const. acct.	100,000	—
Deprec. reserve	150,000	73,165
Surp. to P. & L.	9,373	21,797

¹(2) Earnings on Stock.—It was stated Jan. 31, 1917, that this company's 1916 surplus of \$619,850, after bond interest, is equivalent to 7.3% on \$8,495,000 stock, compared with 5.10% in 1915.

¹(3) Report, Year Ended Dec. 31, 1916, showed that gross increased 20.8% over 1915, while net increased 42.8%. In five years there was a gain of 163.2% in gross and 836.3% in net. July 1, 1916, the dividend rate on the stock was increased from 4% to 5%, making dividend payments \$424,750 annually. Because of the high prices of materials, but little new construction was undertaken in 1916. Work now under way will be carried along slowly and spread over several years. The cost of this work is being paid out of income, rather than charged against capital account.

At present the hydro-electric station has 112,000 horsepower installed, but there is space for 34,000 horsepower additional in two units.

In 1916 the company, through a subsidiary, the Shawinigan Electro Products Co., began the manufacture of Ferro-Silicon, and this proved so successful that in July, 1916, it was decided to double the capacity of the plant. Within a short time the plant will have three times its original capacity, as a third unit is being installed. The entire output of the plant has been sold for 1917 at satisfactory prices.

In 1917 this plant will take 100,000,000 kilowatt hours of energy generated by Pennsylvania Water & Power Co., and the larger part of this energy would, without the use of the new plant, be unsalable.

Profits from the sale of the ferro-silicon products are also adding materially to the revenues of the parent corporation.

PENNSY MOTORS CO.

¹(1) Receiver Asked For.—It was announced at Pittsburgh Feb. 27, 1917, that in a bill in equity, filed in the United States District Court there, a temporary receiver was asked for this company. The bill was filed by G. W. Berger, Henry C. Wasmuth, John P. Rupp, L. H. McCracken and the Pennsy Motors Stockholders' Protective Association, which alleges that the business is mismanaged.

The bill sets forth that the company was incorporated on Nov. 22, 1915, capitalized at \$500,000, with 500,000 shares of stock.

PENROD MILLS (THE).

¹(1) Incorporated in April, 1917, in Massachusetts, with an authorized capital of \$600,000, all common shares, par \$100. Incorporators: Gay Gleason, Francis Lavelle and Arthur Britton.

PEOPLE'S BUILDING & LOAN CO. OF BROWNSVILLE, O.

¹(1) Capital Increased.—It was announced March 10, 1917, that this company had increased its capital stock from \$500,000 to \$750,000.

• PEOPLE'S GAS LIGHT & COKE CO.

¹(1) New Plant Ready.—On Feb. 6, 1917, this company announced that the construction of the largest gas plant in the world, consuming 1,500,000 tons of coal annually, awaited the granting by the Chicago City Council of a heat unit standard of quality of gas instead of the present candle power lighting unit of measurement.

The company plans to convey the coal from mines in Pennsylvania and West Virginia by its own fleet of lake steamers, to build which it will expend \$5,000,000.

	1916	1915
¹ (2) Report, Year Ended Dec. 31, 1916, shows:		
Gross	\$17,094,878	\$17,037,894
Net	5,746,009	6,906,456

Deficit aft. divs.	\$424,889	\$152,972
†Surplus.		

†To balance deficit caused by dividend payment, an amount has been withdrawn from contingent reserve.

¹(3) Earnings on Stock.—It was stated Feb. 8, 1917, that this company's 1916 surplus, after charges, is equal to 5.39% on \$38,500,000 capital stock, compared with 3.88% earned on the same capitalization in 1915.

¹(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$13,789,105, compared with \$13,800,295 Dec. 31, 1915.

¹(5) Comment on 1916 Report.—On Feb. 10, 1917, the "Wall Street Journal" said it was not the fault of business conditions or of any lack of efficiency in management that resulted in the making for 1916 one of the worst reports, from an earning viewpoint, in this company's history.

It is plainly set forth in the income account and in the remarks of Pres. Cowdry that the fault lies with the standard of gas which the company is compelled, under its present franchise, to supply to its customers. Under present day conditions gas is a heating and not an illuminating agent and coal gas may be manufactured at a much lower cost and sold at a proportionately lower rate than water or oil gas.

For a long period officials of People's Gas have been laboring with the city for a change in the standard of gas promising that if this is done the company will erect the largest coal gas plant in the world, costing over \$15,000,000, and thus arrange to supply the city with an ample quantity of gas at a low rate.

The committee in charge of gas affairs has now recommended to the council to establish a standard of 565 British thermal units for the gas, which is to be sold at 67 cents a thousand with a monthly service charge.

In case this recommendation is approved work will be started at once on the new gas plant and officials of the company expect that at the same time a change will come in the earning power of the company and that it will be made as great a success as has Commonwealth Edison of Chicago under the same management.

While gross revenues of the company for 1916 were \$47,000 larger than in 1915, net revenues were \$1,160,000 less. More than all this net increase is accounted for by the increased cost of gas oil.

In 1915 the company paid \$2,080,284 for its gas oil while in 1916 this cost was increased to \$3,295,751, a gain of \$1,215,467. In 1915 gas oil cost 4½ cents a gallon, while in 1916 it cost 5½ cents. Each increase of 1 cent a gallon in gas oil means an increase of 5 cents a thousand cubic feet in cost of manufactured gas and this additional cost in 1916 was more than 2% on the entire outstanding capital stock of the company.

As the company in 1916 earned but 5.39% on its capital stock and paid 6¼%, the rate having been reduced from 8% to 6% after one quarterly dividend of 2% had been paid for the year, the surplus of \$2,077,258 was insufficient for the full dividend and contingent reserve was drawn upon for \$424,889.

¹(6) Chairman's Statement to Stockholders.—It was announced at Chicago Feb. 14, 1917, that at the annual meeting of this company Samuel Insull, Chairman of the Board, assured stockholders that there would be no change in the dividend rate of 6%, but that it would continue to be paid.

Mr. Insull also told the stockholders that unless the city council gives the company prompt action on its demand for a change from the lighting standard to a heat unit standard in its gas all negotiations with the city may be called off and the company would appeal to the Illinois Public Service Commission for relief.

Mr. Insull asserted that by its inexcusable delay the council committee on gas, and its experts, had caused the company a loss of \$5,000,000. "It is absolutely necessary," Mr. Insull said, "for our company to change from the lighting to the heating standard of our gas. Our expenses, as our annual report shows, increased more than \$1,500,000 in 1916 over 1915 and a large part of that increase could have been avoided if the committee on gas had been willing 14 months ago to go with us to the State Public Utilities Commission and agree that we might have temporary relief pending the final settlement of our negotiations."

JANUARY 1 TO APRIL 30, 1917

(7) Permissive Ordinance Reported.—A Chicago dispatch Feb. 23, 1917, stated that new gas rates of approximately 70 cents per 1,000 feet and a profit-sharing scheme were the leading "outline provisions of a permissive ordinance" reported to the aldermanic committee on gas by its board of experts.

Peoples' Gas Light & Coke Co. will be allowed to drop all candle power requirements and make deductions of the amount of net earnings before sharing equally with its consumers all excess profits.

—Mar.

(1) Agreement on Rates.—It was announced March 7, 1917, that this company and the city of Chicago had agreed on rates under a proposed ordinance for 30 cents for the first 350 cubic feet and 70 cents for all gas above that amount. The company is permitted to lower the candle power from 22 to 9 and to decrease the heating unit to 565 British thermal units.

—Apr.

(1) Dividend Reduced.—Announced at Chicago April 13, 1917, that this company had declared a quarterly dividend of 1%, payable May 25 to stock of record May 1. In the previous quarter a dividend of 1½% was declared. Official announcement was made in connection with the declaration that the increased cost of gas-making materials and uncertainty as to the future owing to international complications had caused the reduction.

(2) Dividend Reduction Affects Stock.—On April 15, 1917, the "New York Times" said the reduction of the People's Gas dividend from 6% to 4% annually in Chicago on April 13 broke this issue down 9½ points and caused something of a shock in the market April 14 in Consolidated Gas. The decline of 3½ points in this issue was an exceptional movement, especially for a Saturday. Consolidated Gas shares have been inclined, however, to move off rather easily ever since the annual report appeared two months previously.

In his statement to shareholders Pres. Cortelyou referred with earnestness to rising costs. The gas companies are limited in profits, while not limited in expense. They may not charge higher than a certain level for their major product, while they are forced to pay the market price for fuel, oil, etc.

(3) Status (April, 1917).—On April 16, 1917, Dow, Jones & Co. said, in part: "In the past twenty years the dividend and price record of the People's Gas Light & Coke Co. has been rather checkered. From 1897, when the company attained prominence in Chicago by the absorption of seven other gas companies, till November, 1905, 6% was maintained. This record was, however, marred in February, 1906, by a reduction to 5%, which was kept till February, 1907, when the 6% rate was re-established.

"Till May 25, 1909, 6% was maintained, and on that date the payments were increased to 7%; and, in November, 1913, an 8% rate was commenced. Till May, 1916, 8% was paid, but on that date it was reduced to a 1½% quarterly basis that held until February, 1917.

"During the long period between 1897 and 1905, while the company was on a 6% basis, the price of the stock varied between 81¼ and 129¼, and even during the 5% payments the stock sold between 103 and 88; but during the panic years of 1907-8, it made a low of 80. Since 1909, and till the present time, the high was 129¼; and the low, in March, 1917, was 81¼. Saturday's low was 81.

"The trouble with People's Gas is that which all gas companies operating under a candle-power lighting standard are facing. Every advance of 1 cent a gallon in gas oil means an advance of approximately 5 cents a thousand cubic feet in the cost of manufacturing gas; and the companies with a lighting unit standard must use gas oil to bring their gas up to the proper standard.

"Coal gas companies, having a heat unit standard, do not have to use gas oil, and, in addition, the advance in the cost of their by-products has offset the advance in the price of the coal used in their retorts. The companies which have regular by-product gas plants have fared better than any other; and these companies, in their annual reports, show that the by-products have been bringing them more real surplus revenue than the sales of gas.

"People's Gas, in time, is to secure a heat unit standard, but it will cost the company between \$12,000,000 and \$15,000,000 to build its by-product plant, the site for which has already been secured.

"This financing, in addition to the reduction in dividends, is having its effect on the stock; but in time, with the adoption of the heat unit standard in Chicago, and the completion of the by-product gas plant, People's Gas should get back to its old revenue-producing possibilities."

(4) Immediate Payment Offered in Settlement of Rebate Litigation.—A Chicago dispatch April 26, 1916, stated that this company had offered to make a large payment immediately on settlement of pending \$10,000,000 rebate litigation instead of spreading refunds over five years; also to protect future customers and withdraw limitation as to refunding only to continuing customers.

PEOPLE'S NATURAL GAS & PIPEAGE CO.

(1) Extra Dividend.—Announced Feb. 15, 1917, that this company had declared an extra dividend of 2%, payable Feb. 26 to stock of record Feb. 21.

PEOPLE'S POWER CO.

(1) Stock Increase.—See Tri-City Ry. & Light Co.—Item No. 1.

PEPPERELL MFG. CO., BOSTON.

(1) Extra Dividend.—It was announced on Jan. 22, 1917, that this company had declared a regular semi-annual dividend of \$4 per share; also an extra dividend of \$8 a share, both payable Feb. 1 to stock of record Jan. 22, 1917.

PERE MARQUETTE R. R.

(1) Stock Allotment.—On Jan. 4, 1917, the reorganization managers of this company announced that \$540,000 of the new prior preference stock was not taken up by old stockholders and remained for allotment among holders of the application certificates.

Applications from holders of these certificates amounted to \$37,300,000 and the \$540,000 stock will be awarded on basis of about 1¼% of applications.

(2) Bonds.—On Jan. 8, 1917, the reorganization managers of this company, in a notice to holders of certificates of deposit issued under the agreement of April 8, 1912, for refunding mortgage 4% gold bonds, dated Jan. 2, 1905, bearing the endorsement of guaranty as to principal and interest of the Cincinnati, Hamilton & Dayton Ry. Co., announced the cancellation of the guaranty borne by the bonds, and that holders of certificates upon presentation to the Bankers Trust Co., New York, are entitled to receive \$12.50 in cash in respect of each \$1,000 principal amount.

(3) State Ownership Suggested.—A Lansing, Mich., dispatch Jan. 22, 1917, stated that State ownership and operation of this company's property to "put the road on its feet again" was the plan seriously proposed by Representative Thomas Read, of Oceana County, who would introduce a resolution in the House asking for a thorough investigation of the Pere Marquette's affairs with this end in view.

"In my section of the State," said Mr. Read to-night, "the Pere Marquette railroad is absolutely indispensable. No other road touches my county, and frankly we could not get along without the Pere Marquette. Of late the service given us has been very bad.

The excuse of the company is that it lacks equipment, lacks facilities to give better service, and back of all lacks money to get new equipment or better facilities."

(4) Order of Sale.—It was announced at Detroit Jan. 29, 1917, that Judge Tuttle had signed a decree and order of sale of this company's property for March 6, with an upset price of \$10,100,000. The Old and Detroit National Bank was made depository.

	1916	1915
(1) Earnings—		
Dec. gross—	\$1,942,231	\$1,876,147
Net ————	189,257	470,003
Def. after chgs.	†185,453	†103,189
6 mos. gross—	11,879,620	10,530,418
Net ————	2,714,009	2,709,690
Surp. after chgs.	339,404	516,136

†Deficit after charges is based on interest accruals, but interest actually paid by the receivers amounted to only \$92,907.

†Surplus.

(2) Comment on Six Months' Earnings.—On Feb. 10, 1917, the "Wall Street Journal" said that the earning statement of this company for the six months ended Dec. 31 showed surplus after charges of \$339,404, which was a decrease from the corresponding period in 1915 of \$178,671.

These figures, however, are based on the capitalization of the old company, as the property has not been taken over by the new company.

The reorganization plan has been declared operative and it is permissible to apply the earnings to the new capitalization to ascertain what showing has been made.

For the six months' period the balance after charges, including taxes, rentals and hire of equipment, amounted to \$2,714,009. From this there is to be deducted interest charges for the half year, which amount to \$843,880, leaving \$1,870,129 available for dividends on the various stock issues.

Dividend requirements on both the prior preference and pfd. stocks for the six months amount to \$590,725, which leaves \$1,279,404 available for the common stock.

Under the reorganization plan there is \$45,046,000 common, so that in the six months there was earned, after dividend requirements on both pfd. stocks, \$2.84 a share on the common, or at an annual rate of \$5.68 a share.

Like all other railroads, the Pere Marquette is encountering mounting operating costs of every kind. In this respect December was probably the worst month of the period, with operating expenses increasing \$262,560, while in the six months they increased \$1,100,806. The heaviest advance was the transportation item, which increased \$642,688 in the six months, due mainly to the high price of fuel and labor.

(3) Indiana Assets Ordered Sold.—It was announced at Indianapolis Feb. 10, 1917, that the sale of the Indiana assets of this company had been ordered sold by Judge A. B. Anderson in the Federal court there. The order is similar to the one made in Detroit, Mich., authorizing the sale of the road.

The upset price for the entire road has been fixed at \$10,100,000.

The reorganization plan provides for the purchase of the road at the foreclosure sale by a committee representing the bondholders and it is necessary that the sale be ordered by a Federal judge in each State through which the system is operated.

PERE MARQUETTE RY. CO.

*(1) New Name.—It was announced March 16, 1917, that in pursuance with the order of the Michigan Railroad Commission the Pere Marquette R. R. Co. had filed its articles of association at Lansing, Mich., March 12, 1917, under the name of the Pere Marquette Ry. Co. The capital stock totals \$68,675,000, distributed as follows: Prior pfd., \$11,200,000; pfd., \$12,429,000; common, \$45,046,000. The incorporators are Frank H. Alfred, John L. Cramer, Clarence S. Sikes and others. The term of existence is fixed as 999 years.

*(2) Sale of Bonds.—Announced on March 27, 1917, the reorganization managers had sold to Harris, Forbes & Co. \$6,000,000 first mortgage 5% bonds, due 1958.

It is understood that including the proceeds of this sale the new company will begin operations with cash on hand amounting to between \$8,000,000 and \$9,000,000. The new securities to be issued in exchange for those of the old companies will be ready some time in April.

—Apr.

*(1) Officers and Directors.—It was announced April 12, 1917, that officers of this new company had been elected as follows: Chairman of the board, Edward N. Brown, formerly Pres. of the National Rys. of Mexico, New York; Pres., Frank H. Alfred; Sec'y and Treas., John L. Cramer; General Auditor, Clarence S. Sikes, Detroit; Asst. Sec'y, E. M. Heberd; Asst. Treas., W. E. Martin, New York; Chief Counsel, Jollne Larkin & Rathbone, New York; General Counsel, Seward L. Merriam, Detroit.

Directors: E. N. Brown, L. F. Loree, Pres. of the Delaware & Hudson; William H. Porter, of J. P. Morgan & Co.; Franklin Q. Brown, Redmond & Co.; Beekman Winthrop, Robert Winthrop & Co.; Frederick Strauss and Charles D. Lithgow, J. & W. Sellman & Co., New York; E. V. R. Thayer, Francis R. Hart, Robert Winsor, Boston; John W. Stedman, of the Prudential Insurance Co., Newark; Frank H. Alfred and Stanford T. Crapo, Detroit; F. W. Stevens, Ann Arbor, Mich.; John A. Spoor, chairman of the board of the Union Stock Yards, Chicago.

The company's New York office is at 55 Liberty St. and the Detroit office in the Fort Street Union Depot.

*(2) Mortgages Filed at Detroit.—The owners of the Pere Marquette filed at Detroit, Mich., April 13, 1917, mortgages of \$30,450,000.

*(3) Transfer Agent Appointed.—On April 18, 1917, the Guaranty Trust Co., New York, was appointed transfer agent by this company for its prior preference, pfd. and common stocks.

*(4) Commission Blames Bankers for Failures.—Arraigning the persons who controlled the Pere Marquette and the Cincinnati, Hamilton & Dayton, the Interstate Commerce Commission April 20, 1917, submitted to Congress its report on the investigation of the physical and financial condition of those railroads.

On the Zimmermann-Hollins syndicate it placed the principal blame for "wrecking" the roads, while J. P. Morgan & Co., who furnished the money for the syndicate's operations, were censured for the aid extended.

The report to the House Commerce Committee on the corporate history of the two roads declared that the same general system was followed as in the New Haven and Rock Island cases. The commission declared revelations of the inquiry serve further to emphasize the need for Federal regulation of securities and for legislation giving the commission access to railroad files and correspondence.

The commission's arraignment of the promoters contains many counts. Its data was largely gathered by Louis D. Brandeis, of Boston, now associate justice of the Supreme Court. Mr. Brandeis was retained by the commission in 1914 as a special investigator in the case, and conducted hearings in Washington and in other cities.

PERFEKTONE CORP.

*(1) Incorporated on March 20, 1917, in Maryland, with an authorized capital of \$2,000,000, to manufacture phonographs and phonograph records, with an office in the Witherspoon Building, Philadelphia. Incorporators: Dr. Alva Jones, Pres.; Joseph B. Miller, Vice Pres.; Wm. J. Donaldson, Treas., and John S. Latta, Sec'y. The company owns 38 exclusive patents fully covered in various countries of Europe and America.

PERLMAN RIM CORP.

*(1) Injunction Asked For.—It was stated March 3, 1917, that this company had asked for a permanent injunction against the Firestone Tire & Rubber Co. for alleged patent infringements, also for an accounting of profits and triple damages.

PERMANENT HIGHWAYS CORP.

*(1) Incorporated on Feb. 14, 1917, in Delaware, with a capital of \$600,000, to construct public buildings, highways, etc. Incorporators: Arthur W. Britton, S. B. Howard and L. H. Gunther, all of New York.

PERMANENT MORTGAGE CORP., WILMINGTON, DEL.

*(1) Incorporated on March 3, 1917, in Delaware, with a capital of \$2,500,000, to transact a general real estate business. Incorporators: W. E. O'Keefe, Geo. G. Steigler and E. E. Wright, Wilmington, Del.

*(2) Incorporated on March 29, 1917, in New York, with a capital of \$2,500,000, to engage in a realty, agency and brokerage business. Representative: W. H. Allison, 44 Court St., Brooklyn, N. Y.

PERMANENT PRODUCE CO. (THE).

*(1) Incorporated on Jan. 8, 1917, in Delaware, with a capital of \$1,000,000, to manufacture and sell metal products of

all kinds. Incorporators: R. D. Stevenson, G. R. Stevenson, L. B. Foote, W. A. Thompson and A. J. Hudson, all of Cleveland, O.

PERRY COUNTY UTILITIES CORP.

*(1) To Be Taken Over.—See Union Electric Light & Power Co.—Item No. 1.

PETALUMA POWER & WATER CO.

*(1) Report, Year Ended Dec. 31, 1916, shows gross operating revenue of \$36,926, net operating revenue of \$21,480 and net corporate income of \$15,578.

*(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$15,573.

PETALUMA & SANTA ROSA RY.

*(1) Bondholders Asked to Waive Default.—It was announced Feb. 15, 1917, that E. H. Rollins & Sons, San Francisco, had invited bondholders of first mortgage bonds of this company to deposit their holdings with the Mercantile Trust Co., together with a waiver of past and future defaults in the sinking fund, provided the stockholders obtain a release and discharge of the 2d mortgage on or before March 1, 1918.

Of the authorized issue of \$1,000,000 of first mortgage 6% bonds, \$170,000 are reserved in escrow to be issued for improvements. Of the \$830,000 which have been issued, \$86,000 have been retired by the sinking fund, \$80,000 is in the treasury of the company and is being used as part security for the floating debt, and \$655,000 is outstanding in the hands of the public.

The entire authorized issue of \$250,000 of second mortgage 6% bonds, due April 1, 1915, has been issued.

The company was unable to pay these bonds at maturity and the holders of them agreed not to take any action to foreclose the mortgage until April 1, 1917, at which time provision for their payment should be made.

The company has \$4,000 of unsecured notes outstanding and \$76,600 of notes secured by \$80,000 of first mortgage 6s and \$33,000 of second mortgage 6s, or a total floating debt of \$80,600.

PETERBOROUGH MILK PRODUCTS, LTD.

*(1) Incorporated on Feb. 6, 1917, in Canada, with a capital of \$250,000, divided into 10,000 shares of \$25 each, to manufacture and deal in condensed, evaporated and all other manufactured forms of milk. Incorporators: Rupert Kenneth Grimshaw, Edward John Swift, Franklin Deios Read, Geo. Gordon Plaxton and Lily Davis. Chief place of business, Toronto, Ont.

PETERSON LAKE SILVER COBALT MINING CO.

*(1) Directorial Changes.—It was announced March 15, 1917, that W. A. Lambert, recently appointed to the board of this company, had resigned and been appointed Sec'y-Treas., succeeding C. H. Manaton. The names of Irving L. Erest and Max B. Bord, of New York, have been added to the board.

—Apr.

*(1) Quarterly Dividend Passed.—The "Globe," Toronto, Ont., April 16, 1917, said the first quarterly statement to be sent out by the new management of this company announced the passing of the usual quarterly dividend. The last dividend was paid Jan. 2 and amounted to 1 1/2%.

The balance sheet giving the position March 10, 1917, shows cash assets of \$57,924, against which are \$6,500 liabilities.

*(2) Injunction Restraining Dominion Co. from Taking Tallings.—The "Globe," Toronto, Ont., on April 21, 1917, stated that this company had secured an injunction restraining the Dominion Reduction Co. from taking tallings from Peterson Lake. The Dominion Reduction Co. has a second flotation unit in course of construction, with which it was purposed those tallings should be treated. It was stated a legal battle would likely follow.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

(2) Work at Nova Scotia Shaft Stopped.—The new management of this company, said the "Toronto World," April 26, 1916, had decided to stop work at the Nova Scotia shaft. On what was the Susquehanna lease a 200-foot shaft was sunk, and on the advice of Frank Loring, M. E., work will be taken up and actively pushed at this point. This is in close proximity to the Little Nipissing lease, from which much valuable ore was obtained.

PETOSKEY PORTLAND CEMENT CO., PETOSKEY, MICH.

(1) Capital Increased.—On April 19, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$1,000,000 to \$1,500,000.

PETROLEUM IRON WORKS CO.

(1) Car Orders.—See Texas Co.—Item No. 7.

(2) Equipment Issues by Subsidiaries.—See Pennsylvania Tank Line Co.—Item No. 1.

PETTIBONE MULLIKEN CO.

(1) Report, Year Ended Dec. 31, 1916, shows a net surplus of \$442,751, after the payment of pfd. dividends. This surplus compares with a deficit of \$181,141 at the close of the year ended Dec. 31, 1915.

(2) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Net income.....	\$617,752	\$232,811
Surp. after chgs. & pfd. divs....	172,725	184,140
Deficit.....		

(3) Earnings on Stock.—It was stated Feb. 6, 1917, that this company's 1916 surplus of \$172,725 is equal to 2.46% on \$7,000,000 common stock.

(4) Balance Sheet, as of Dec. 31, 1916, shows a total profit and loss surplus of \$949,052, compared with \$570,335 Dec. 31, 1915.

(5) Statement by President.—It was stated Feb. 6, 1916, that Pres. A. H. Mulliken, of this company, in his annual report to stockholders, said, in part: "If railway facilities increased each year to meet this growth, the business of your company would steadily improve. To bring this about, it is necessary for the railroads to receive a fair remuneration every year. Anything that you can do to influence the public mind and Congress in this direction at this time will benefit yourselves and the country at large."

"The improvement in railroad buying, which began in the last quarter of 1915, continued throughout 1916 and the business of your company has shown a steady increase. This increase is due to improvement in railroad buying during the last 12 months."

"The munition plant authorized in 1915 was completed during the year, but no war contracts offered for foreign governments were accepted. The prices were very low, the requirements of manufacture and inspection were very rigid, labor was scarce and high, and it appeared that such contracts would be more likely to show a loss than a profit."

"This plant, which was built very economically and could not be replaced at the present time for a 40% increase in its cost, is being gradually utilized in your regular business and will in time be completely used."

—Mar.

(1) Report, Year Ended Dec. 31, 1916, shows a net surplus of \$442,751, after payment of pfd. dividends, as compared with deficit of \$181,141 at close of 1915. This is equal to 2.46% on the \$7,000,000 common stock.

PETOSKEY PORTLAND CEMENT CO.

(1) Incorporated on Feb. 5, 1917, in Delaware, with a capital of \$1,000,000, to manufacture cement and all kinds of building materials. Incorporators: John L. A. Galstie, Albert B. Klese and Homer Sly, Petoskey, Mich.

PFANSTIEHL CO., INC., MILLBROOK, N. Y.

(1) Incorporated on March 13, 1917, in New York, with a capital of 4,000 shares, \$100 each, 1,000 shares no par value, working capital \$405,000, to deal in metals of all kinds and do mechanical and electrical engineering, mining and milling. Incorporators: H. S. Gould, A. L. Schwartz and J. N. Frank, 76 West Monroe Street, Chicago, Ill.

(2) Capital Increased.—On March 20, 1917, the company filed notice at Albany, N. Y., of an increase in shares from 1,000 to 40,000 and active capital \$405,000 to \$600,000.

• PHELPS, DODGE & CO.

(1) Improvement Plans.—It was stated Feb. 6, 1917, that this company, which had purchased what is known as the Tyrone and Leopold groups of copper mines, situated about 20 miles southwest of Silver City, N. M., had adopted plans for improvements to the property which call for an expenditure of approximately \$5,000,000. These are to include the construction of an ore concentrating plant and a large amount of other development work in preparation for making the mines among the largest producers in the Southwest.

—Mar.

(1) Extra Dividend.—Announced March 8, 1917, that this company had declared the regular quarterly dividend of \$2.50 and an extra of \$3.50 a share. Three months previously a dividend of \$10 extra per share was declared. The dividends are payable March 30 to stock of record March 20.

(2) Comment on Dividends.—On March 10, 1917, the "Boston News Bureau" said: "Playing a very conservative role, directors of Phelps, Dodge & Co. started 1917 dividends on a \$24 annual basis, the same as they did a year ago, yet the total disbursed during 1916 amounted to \$32.50 a share. This month the company will pay out \$2,700,000 to stockholders as a result of a regular quarterly dividend of \$2.50 a share and an extra of \$3.50."

"With production running close to 15,000,000 pounds monthly the Phelps, Dodge properties have advanced to a position where they contribute approximately 185,000,000 pounds of copper to the country's annual supply. The bulk of this comes from the company's own mines, Copper Queen and Detroit in Arizona, the Montezuma in Mexico and smaller properties in this country."

"Its smelters also handle a constantly increasing amount of custom ores, including a portion of the high-grade ores from United Verde Extension Mining Co."

(3) Merger of Subsidiaries Planned.—It was stated March 14, 1917, that preliminary steps had been taken to effect a unification of all the Phelps, Dodge & Co., Inc., subsidiaries beginning with the increase of the capital stock of the Copper Queen Consolidated Mining Co. from \$2,000,000 to \$50,000,000. All the stock of this company is owned by Phelps, Dodge & Co., Inc.

"This is a step in internal organization of Phelps, Dodge & Co., Inc.," according to a statement issued by Dexter, Church & Fleming, attorneys for the corporation, "and does not foreshadow an increase in the outstanding capital or the purchase of additional property or other matters external to the corporation. It is a measure to simplify the working of the company, particularly in the operating end."

"Copper Queen Consolidated Mining Co. is one of the subsidiaries of Phelps, Dodge & Co., and its stock has never been increased to correspond with its capital and surplus. This change will enable it to make its stock more nearly correspond with its capital and surplus and also will enable it to become the operating company for all of the Phelps, Dodge & Co. subsidiaries if that shall seem to be desirable. This course is now in contemplation."

The name of Copper Queen Consolidated Mining Co. is to be changed to Phelps, Dodge Corp., but no changes are looked for in the personnel of the officers and directors.

(4) Status.—It was stated March 14, 1917, that this company is a holding company. It was incorporated in 1908 with \$50,000,000 capital stock authorized; \$45,000,000 outstanding; par, \$100.

It owns the entire outstanding capital stock of Copper Queen Consolidated Mining Co., Montezuma Copper Co., Detroit Copper Co., of Arizona, Stag Canon Fuel Co., and controls through personal holdings of its officers the Old Dominion Co., Old Dominion Copper Mining & Smelting Co., United Globe Mines, Commercial Mining Co. and El Paso & Southwestern Ry.

Copper Queen Consolidated was incorporated in 1885 with \$2,000,000 capital stock, par value \$10.

(5) New President of Controlled Co.—See El Paso & Southwestern Co.—Item No. 2.

(6) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Earnings	\$24,030,905	\$10,981,512
Bal. after dep....	21,974,263	9,720,475
Surp. aft. divs....	7,349,263	720,475

(7) Earnings on Stock.—It was stated March 19, 1917, that this company's 1916 balance after depreciation of \$21,974,263 is equal to 48.33% on \$45,000,000 capital stock, compared with 21.6% earned on the same capitalization in 1915.

(8) Production, 1916.—It was announced March 19, 1917, that this company in 1916 produced 152,263,729 pounds of copper, 10,404,341 pounds of lead, 1,642,056 ounces of silver, and 28,873 ounces of gold. A heavy tonnage of ores was bought and refined and the total copper sold from the plants was 247,303,587 pounds, at an average price of 24.48 cents a pound, delivered at New York. Less than half the copper output went to the foreign trade.

(9) Statement by President.—It was stated March 19, 1917, that Pres. Frank Douglas of this company in his annual remarks to stockholders said that the extraordinary demand for copper was accounted for in part by the increased manufacture of goods which formerly were turned out by the warring nations.

"Political conditions in Sonora (Mexico)," he stated, "while far from normal, permitted the mine there to be operated with but few interruptions, and on only two occasions of short duration was it necessary for the American officials to seek refuge in the States. During their absence, as in previous years, the Mexican superintendents and foremen continued to operate the property."

"A heavy burden on production costs has been imposed through a levy of an export tax on copper and greatly increased taxes on mining claims in Mexico. These imposts have been made necessary by the almost total suspension of industrial enterprises in the republic, and the consequent reduction in revenue, and the assessment in case of the export tax, in contravention of the company's concession, is in the nature of a temporary measure, and will be withdrawn when financial conditions justify."

—Apr.

(1) Dissolution Plan.—On April 2, 1917, it was announced that Secy. George Notman had addressed a letter to stockholders revealing a plan for the dissolution of this company and for the distribution, in the liquidation of the \$45,000,000 stock of Phelps-Dodge Corp., share for share, to the holders of \$45,000,000 stock of the old company.

The letter stated in part: "Phelps, Dodge & Co. was incorporated in New York in December, 1908. It owns the entire capital stocks of Copper Queen Consolidated Mining Co., Detroit Copper Mining Co. of Arizona, Burro Mountain Copper Co., Stag Canon Fuel Co., Montezuma Copper Co., Bunker Hill Mines

JANUARY 1 TO APRIL 30, 1917

Co. and Phelps-Dodge Mercantile Co., but each of these companies has operated its own property.

"Since the organization of the company the policy of the Government has become more and more opposed to the holding company system of corporate management. In that system there is a burdensome and expensive duplication of accounts, of offices, of executive meetings and of taxes. For instance, income taxes must be paid on the incomes both of the subsidiaries and of the holding company.

"Copper Queen consolidated Mining Co., which owns the mines at Bisbee and the smelter at Douglas, has for years been authorized to carry on its business in Arizona as an owning and operating company. It antedates the present constitution of that State, and has thereby acquired certain legal rights of great value. The titles to a large part of your property are in that corporation. It has therefore seemed best to have that company absorb the other subsidiaries, and to issue its stock for the properties or the capital stocks thereof.

"In accordance with this plan, the name of Copper Queen Consolidated Mining Co. has been changed to Phelps-Dodge Corp., and its capital stock increased from \$2,000,000 to \$50,000,000, of which \$45,000,000 has been issued. The Detroit Copper Mining Co., Burro Mountain Copper Co. and Stag Canon Fuel Co. have transferred their properties to the Phelps-Dodge Corp., also the stocks of Mochtezuma Copper Co., Bunker Hill Mines Co. and Phelps-Dodge Mercantile Co., together with the remaining assets of Phelps, Dodge & Co. of comparatively minor value, have been transferred to Phelps-Dodge Corp., all for \$43,000,000 of its stock.

"Thus all of the properties and other assets formerly owned by Phelps, Dodge & Co. are now owned by Phelps-Dodge Corp., which has the same directors and the same management as Phelps, Dodge & Co.

"You are requested to deposit your Phelps, Dodge & Co. stock, endorsed in blank, at the office of the company, 99 John Street, New York, for which you will receive a temporary certificate for a like number of shares of the same par value in the Phelps-Dodge Corp. exchangeable for definitive certificate when engraved.

"The dividend declared by Phelps, Dodge & Co., payable March 29, will be the last dividend paid by that corporation, and thereafter dividends will be paid as declared by Phelps-Dodge Corp.

"It is proposed to list the stock of Phelps-Dodge Corp. on the New York Stock Exchange."

"(2) Directors Re-elected.—Announced April 3, 1917, that at the annual meeting of this company retiring directors were re-elected.

"(1) Compromise Offer.—It was announced Feb. 14, 1917, that the compromise offer of the protective committee of holders of pfd. stock of the United Traction Co. of Pittsburgh had been accepted by Philadelphia Co. Interests and that the controversy likely would be settled early in 1917. All the common stock of United Traction is owned by Pittsburgh Rys. Co. a subsidiary of Philadelphia Co. No dividends on the \$3,000,000 have been paid since July, 1912, and in April, 1916, the holders of the pfd. stock formed a protective committee to conserve their interests.

Under the plan approved holders of the pfd. stock may sell their stock to the Pittsburgh Rys. Co., taking in payment bonds of that company, to be guaranteed principal and interest by the Philadelphia Co. on the basis of 60% of the par value of their stock in the bonds, or they may sell their stock for cash on the basis of \$25 for the \$50 shares.

The two propositions place a value of 75 on the Pittsburgh Ry. bonds and the cash offer is made to care for the holders of United Traction pfd. who may own only a small amount of the stock.

—Mar.

"(1) Bond Redemption Plan.—It was announced March 5, 1917, that the banking firms of Ladenburg, Thalmann & Co., Hayden, Stone & Co., Brown Bros. & Co., Montgomery, Clothier & Tyler, and Jerome, Hill & Co., of Pittsburgh, had proposed to holders of the first mortgage and consolidated mortgage bonds of this company a sinking fund and redemption plan.

The proposal calls for a sinking fund of 2% a year for the first mortgage bonds, beginning March 1, 1918, with the callable price of the bonds 107½ and interest.

A similar sinking fund beginning May 1, 1918, is provided for the consolidated mortgage bonds with a callable price of 102½ and interest.

Deposits of bonds in acceptance of the plan have been called for.

"(2) Earnings, January and Ten Months.—Announced March 13, 1917, that this company had reported combined earnings of all departments for January and the ten months ended Jan. 31, 1917, as follows:

• PHILADELPHIA ELECTRIC CO.

"(1) Additions.—It was stated Jan. 5, 1917, that plans had been prepared for extensive additions and improvements to the building of this company in Philadelphia, involving an expenditure of about \$500,000.

The plans provide for the erection of a 9-story addition adjoining the building to the west and the erection of three additional stories on the corner property.

The John R. Wiggins Co. has been awarded contract.

"(2) Acquisition Approved.—It was announced Jan. 15, 1917, that the Pennsylvania Public Service Commission had approved the application of the Pennsylvania Heat, Light & Power Co. and 13 other companies to transfer their properties and franchises to this company. All the companies are located in Philadelphia.

—Feb.

"(1) Bonds.—It was stated Feb. 8 that this company's new first mortgage gold bonds can be redeemed at 105 for the 4% bonds and 110 for the 5% bonds on Oct. 1, 1921, or any interest date thereafter. For purposes of the sinking fund they are redeemable at 105 for the 5% and 100 for the 4% bonds. It is estimated that the sinking fund will retire approximately \$30,000,000 of the bonds at maturity.

Estimated net earnings of the company for the year 1916, applicable to the interest charges of \$1,750,033 on the \$35,335,000 bonds, will amount to about 2½ times the interest requirements, according to a statement by Pres. McCall.

There are now outstanding \$33,683,300 5% bonds and \$1,671,700 4% bonds, making a total of \$35,335,000 outstanding. The total authorized amount is \$60,000,000, leaving \$24,665,000 as a reserve for acquisitions or permanent additions, extensions, betterments or improvements under conservative restrictions.

"(2) Bonds.—It was announced Feb. 13, 1917, that this company's temporary first mortgage 5% and 4% sinking fund gold bonds had been admitted to the unlisted department of the Philadelphia Stock Exchange.

"(3) Capital Increase Permit Sought.—Announced Feb. 17, 1917, that this company had applied to the Pennsylvania Public Service Commission for authority to increase its capital from \$25,000,000 to \$50,000,000.

—Mar.

"(1) Capital Increased.—It was announced March 1, 1917, that this company had increased its capital stock

JANUARY 1 TO APRIL 30, 1917

from \$25,000,000 to \$50,000,000, to provide for proposed extensions in its electric power plants and system.

—Apr.

*(1) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross earnings—	\$10,280,072	\$8,777,924
Net income—	2,794,051	2,414,550
Surp. after divs.	1,219,738	840,239

*(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$3,050,622, compared with \$2,311,986 Dec. 31, 1915.

*(3) Earnings on Stock.—It was stated April 11, 1917, that this company's 1916 net income of \$2,794,051 is equal to 11.2% earned on \$24,987,750 capital stock, as against 9.6% earned in 1915.

*(4) Exchange of Stock Planned.—It was stated April 11, 1917, that this company's 1916 report set forth that the management hoped to be able to submit early in 1917 a plan for the exchange of the stock of the company for the stock of the Philadelphia Electric Co. of Pennsylvania.

Attention was called to the extraordinary increase in gross earnings of the properties during the year, as well as to the corresponding increase in the expenses.

It was stated it was obvious that if an abnormal increase in gross earnings, due principally to the unusual demand by large power installations and for railway purposes, had not prevailed, the reductions made in rates by all the companies owned by the company would have resulted in a reduction in dividend.

*(5) Comment on 1916 Report.—In commenting on the 1916 report of this company the "Philadelphia News Bureau" April 12, 1917, said: "One of the big items which figured in the increased operating expenses of the company during 1916 was the advance in the price of coal. The company has figured on requiring approximately 800,000 tons of coal for 1917, and contracts for about 750,000 tons of this amount have already been placed at prices generally better than \$3 per ton. Arrangements have been made by the purchase of land along the Delaware River for a large storage of coal during the open Summer season against the stress of Winter conditions.

"While it was said that the management hopes to be able to submit a plan for the exchange of the stock of the company for the stock of the Pennsylvania Co. within a month, legal and financial details yet to be arranged may delay the announcement until late Fall."

• PHILADELPHIA RAPID TRANSIT CO.

	1916	1915
December gross	\$2,487,287	\$2,213,472
Net	1,091,193	976,804
Surp. aft. chgs.	277,272	160,307
6 mos. gross—	13,857,145	12,416,972

Surp. aft. chgs.	1,268,092	568,243

*(6) Increased Dividend.—Announced Jan. 15, 1917, that this company had declared a semi-annual dividend of 2½% or \$1.25 per share, payable Jan. 31 to stock of record Jan. 22.

In September, 1916, the company declared a dividend of 2%, which was the first distribution ever made to the stockholders. That payment was out of the earnings for the fiscal year ended June 30, 1916, and the present dividend of 2½%, declared as a semi-annual payment, is in line with that provision of the proposed agreement with the city for operation of the new lines, which says that not more than 5% per annum shall be paid pending the beginning of operations under the agreement.

—Feb.

	1917	1916
January gross—	\$2,427,787	\$2,153,920
Net	1,042,371	953,382
Surplus	228,567	136,605
7 mos. gross—	16,284,933	14,570,892
Net	7,195,697	6,410,419
Surplus	1,494,660	697,849

*(2) Earnings on Stock, Estimated.—On Feb. 24, 1917, the "Philadelphia News Bureau" said: "Philadelphia Rapid Transit in each of two months this fiscal year has shown surplus earnings of over \$270,000, and while this rate may not be maintained, the January figures in fact having been \$228,567, each month since last August has returned over \$200,000 for stockholders.

"Therefore the company should find no difficulty in showing upward of \$1,000,000 earned on the stock in the last five months of the current fiscal year, which would make a total of over \$2,500,000 for the 12 months, or more than 8.3% on \$30,000,000 P. R. T. stock. In view of the size of the surplus earned in some recent months the amount for the year might easily be as much as 9%.

"For the seven months ended Jan. 31, 1917, the surplus over fixed charges is \$1,494,660, which is \$697,849 more than for the corresponding period the previous year. P. R. T. is now regarded as an established 5% dividend paying stock. The company earned 5.6% on its stock in the fiscal year ended June 30, 1916."

—Mar.

*(1) Listed in Philadelphia.—It was announced March 12, 1917, that the Philadelphia Stock Exchange had added to its regular list an additional \$497,000 of this company's extended voting trust certificates, making a total of \$24,227,350.

	1917	1916
Feb. gross—	\$2,205,349	\$2,030,166
Net after taxes—	931,091	885,423
Surp. after chgs.	117,413	68,685
8 mos. gross—	18,490,282	16,607,058
Net after taxes—	8,126,789	7,295,843
Surp. after chgs.	1,612,073	766,534

*(3) Comment on February Earnings.—On March 21, 1917, the "Philadelphia News Bureau" said that despite the fact of one less day in February, 1917, than in 1916, this company's gross passenger revenue increased 8.22%. For the eight months of the current fiscal year, the gain is 11.52%. The surplus earned was \$1,612,073, as against \$68,685 in February, 1916.

On the basis of an increase of 10% in gross revenue for the final four months of the present fiscal year, average monthly gross would be \$2,538,878, the total for the four months ended June 30, 1916, having been \$9,232,285, or an average of \$2,308,071.

Taking a conservative estimate of \$2,425,000 average a month, or \$9,700,000, for the period the total for the year would be \$28,190,282, the actual gross for eight months having been \$18,490,282.

Operating expenses to date have been 56.05% of gross revenue, and on a basis of say 57% with \$9,700,000 gross, there would be \$4,171,000 net and \$915,000 surplus over fixed charges, the final four months. Such result coupled with the actual surplus of \$1,612,073 earned in eight months, would give a total for the year of over \$2,527,000, or 8.4% on the \$30,000,000 stock.

*(1) Suit.—It was announced at Reading, Pa., Feb. 20, 1917, that this company had been sued there by the South

Mountain Land Co., Carlisle, Pa., for recovery of \$437,000 and another sum, about \$30,000, for alleged violation of a contract whereby the plaintiff leased to the Coal & Iron Co. ore lands located in Cumberland, Adams and York Counties, containing about 9,051 acres.

According to the plaintiff's statement, on Dec. 11, 1872, the plaintiff leased to the Coal & Iron Co. the ore lands. The plaintiff alleges that the defendant company took possession and opened iron ore banks and removed ore under the terms of the lease from 1873 to 1881 or 1882, since which latter date the defendant has not mined or removed any ore. The amounts sued for represent royalties for 36 years.

PHILADELPHIA & READING R. R. CO.

*(1) Electrification.—It was stated March 1, 1917, that this company is planning to electrify its system from Pottsville to Schuylkill Haven, Pa., and later to Reading, a total distance of 37 miles. The work, including equipment, is estimated to cost \$750,000.

*(2) New Equipment.—It was stated March 6, 1917, that this company had placed an order with Harlan & Hollingsworth, Wilmington, Del., for 40 passenger cars, and 10 combination baggage and passenger cars, all steel.

*(3) Locomotive Order.—It was announced March 7, 1917, that this company had placed an order with the Baldwin Locomotive Works for five Mallet locomotives and for 20 other heavy freight engines. This company has also arranged to build in its shops at Reading, Pa., 10 Pacific type passenger locomotives and 10 heavy switching engines.

—Apr.

*(1) New Officer.—Announcement was made April 12, 1917, of the appointment of F. M. Faick as assisting general manager of this company, with offices at Reading, Pa.

PHILADELPHIA WAREHOUSE CO.

¹(1) Dividends.—Announced Jan. 25, 1917, that this company had declared a dividend of 1½%, payable Feb. 1, to stock of record Jan. 27.

In adjusting its fiscal year to end with the calendar year the company has changed the dividend periods from May and November to February and August. As the dividend rate, 6% per annum, is payable semi-annually, the change would leave three months unaccounted for. Therefore the three months from Nov. 1 to Feb. 1 are covered by the 1½% dividend.

²(2) Comment on January Earnings.—On Feb. 19, 1917, the "Philadelphia News Bureau" said that the increase of \$2,649 in the operating expenses of this company for January was due to more severe weather conditions than were experienced in January, 1916.

Interests close to the management say that the increase of approximately 10% in gross represents normal gross resulting from development of the territory served by the company. It is expected that increases of 10% the current year should be looked for as regular.

PHOENIX CONSOLIDATED MINES CO.

¹(1) Incorporated in December, 1916, in Nevada, with a capital of \$1,000,000. Directors: A. Prose, C. Martel, C. E. Mack, Geo. S. Green and A. F. Lasker.

PHOENIX KNITTING WORKS.

¹(1) Addition.—See Textile Realty Co.—Item No. 1.

PICK (ALBERT) & CO.

¹(1) Extra Dividend.—Announced Jan. 24, 1917, that this company had declared an extra dividend of 1% in addition to the usual quarterly disbursement of 1½% on the common stock, payable Feb. 1.

—Feb.

²(1) Common on 10% Basis.—It was announced Feb. 21, 1917, that this company had raised the common dividend annual basis from 9% to 10% by declaring quarterly 2½% payable May 1 to stock of record April 23. Common dividends in 1916 were 1½% quarterly, with three extra disbursements of 1% each. The full 7% on the pfd. stock was also declared, payable in quarterly installments of 1½% each, as follows: April 1 to stock of record March 26, July 1 to stock of record June 26, Oct. 1 to stock of record Sept. 14, and Jan. 1 to stock of record Dec. 24.

PIERCE-ARROW MOTOR CAR CO.

¹(1) Meeting to Discuss Dividends.—It was stated Jan. 8, 1917, that the directors of this company at a meeting in April will consider the question of stating dividends on the common stock.

The company has a payroll of 7,200 at its Buffalo plant, and is turning out at the rate of over 5,000 pleasure cars and trucks annually.

—Mar.

³(1) Earnings Statement, Year Ended Dec. 31, 1916, shows net manufacturing profits of \$4,070,167, after providing \$352,545 for depreciation of properties; total income of \$4,140,009 and surplus after bond interest charges, \$4,070,259.

After \$800,000 dividend requirements on 8% cumulative convertible pfd. stock, the balance, \$3,270,259, is equal to \$13.08 a share on the 250,000 shares of common stock of no par value.

³(2) Pfd. Stock Sale.—It was announced March 5, 1917, that J. & W. Sellman & Co. had bought and resold \$10,000,000 8% cumulative convertible pfd. stock of this company. This issue is pfd. as to assets as well as dividends; is redeemable at the option of the company on any dividend date on 60 days' notice at 125 and accrued dividend. Quarterly dividends are payable on January, April, July and Oct. 1. There is also authorized and outstanding 250,000 shares of common stock without par value.

The physical assets of the Pierce-Arrow Co. on Dec. 31, 1916, after setting aside cash to retire the bonds of the old company, amounted to \$15,573,000, of which over \$11,000,000 represented net working assets.

Earnings since July 1, 1911, have been from one and one-half to five times the pfd. dividend. For the year ended Dec. 31, 1916, they were equal to over five times that requirement.

PIERCE-ARROW MOTOR CAR CORP.

³(1) Status.—It was stated Feb. 6, 1917, that plans were made for listing the securities of this company on the New York Stock Exchange.

There are 100,000 shares of 8% cumulative pfd. stock, par value \$100, and 250,000 shares of common stock, without par value. The company now has no bonded debt, its first mortgage bonds of \$1,250,000 having been called for payment on the first of this month. Cash for the payment of the bonds had already been set aside.

The annual report of the Pierce-Arrow Co. is expected to show earnings applicable to dividends of close to \$3,500,000, after liberal depreciation charges. This would mean a balance applicable to the common stock of between \$10 and \$11 a share. In this connection it can be stated that the question of placing the common stock on a dividend basis is now under consideration.

On Dec. 31, 1916, the physical assets were in excess of \$15,000,000, or \$5,000,000 in excess of the par value of the pfd. stock. Net working assets are approximately \$10,500,000.

The plants of the company are operating to full capacity. The demand is greatly in excess of capacity.

²(2) Net Earnings, 1916, it was stated Feb. 24, 1917, exceeded earlier expectations and totaled just over \$4,000,000 after all depreciation charges. This earning power is equivalent to \$12.80 a share on the 250,000 shares of common stock outstanding, no par value, after allowing for 8% dividend requirements on the \$10,000,000 pfd. stock outstanding.

Profits of \$4,000,000 in 1916 compare with \$4,301,000 in 1915, when a bulk of war business was done for Allied Governments. In 1916 some war orders were filled, but these did not approximate the volume of war contracts of the preceding year.

The Pierce-Arrow plants are working to capacity, and practically entirely on regular line business.

The continued prosperity of this automobile concern is of especial interest, in that it is one of the few motor companies in the United States which have followed a fixed policy of conservatism both mechanically and as regards output figures.

—Mar.

³(1) Stock Offering.—It was announced March 12, 1917, that Eugene Meyer, Jr., & Co. had bought from the syndicate managers the unsold balance of this company's common stock, which they are offering at \$46 per share, less a commission to bankers and brokers. It was stated that dividends probably would be begun shortly on the stock at the rate of \$1.25 per share quarterly.

³(2) Status.—It was stated March 12, 1917, that the acquisition by Eugene Meyer & Co. of the unsold balance of Pierce-Arrow common stock from the syndicate managers foreshadowed the early termination of the Pierce-Arrow syndicate.

The company was formed toward the close of 1916 with \$10,000,000 pfd. stock and 250,000 shares of common stock, no par value, to acquire the entire capital stock of former company and merge with it. The same management and policy were carried into the new company that had developed the former company to its successful position.

The \$1,250,000 first mortgage bonds of the old company were paid off on Feb. 1, so that the entire capitalization of the company consists of the pfd. and common stock.

In 1916 earnings totaled \$4,070,259, equal to \$13.10 per share on the common stock, after allowing for 8% dividend requirements on the pfd. These earnings compared with \$4,301,000 in 1915, the period when the bulk of the company's war orders from the allied governments for trucks were filled.

The balance sheet as of Dec. 31, 1916, shows total assets of \$17,115,038, compared with liabilities of \$1,585,078. Of the total assets, \$12,637,953 were quick assets.

The plants of the company are working to capacity. A larger output of pleasure cars is planned for 1917 than in 1916. The company is finishing a small truck order for the French Government. Otherwise the business of the company represents regular line domestic orders.

—Apr.

⁴(1) Directors Re-elected.—A Buffalo, N. Y., dispatch April 18, 1917, stated that at the annual meeting of this company retiring directors were re-elected.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

PIERCE-FORDYCE OIL ASSOCIATION.

* (1) Addition.—It was announced March 8, 1917, by H. Clay Pierce, Pres. of this company, that it will erect an addition to its oil refinery at Fort Worth, Tex., to cost \$500,000.

* (2) Sale Planned.—See Pierce Oil Corp.—Item No. 1.

PIERCE OIL CORP.

* (1) Best Year.—It was stated Jan. 2, 1917, that this company in 1916 had the best year since its organization in 1913. Net earnings, including subsidiary and affiliated companies, are estimated at over \$3,000,000, which leaves a balance after fixed charges of better than \$2,300,000. This is equivalent to almost 13% on the \$18,000,000 stock outstanding.

The company is developing its export business, and has already closed some large contracts for export during 1917.

—Mar.

* (1) Favorable Law Enacted in Texas.—Acquisition Planned.—It was announced March 13, 1917, that Gov. Ferguson, of Texas, had signed a law passed by the Texas Legislature permitting this company to do business in that State.

As a result of this law, permitting the return of corporations which had been convicted of violating anti-trust laws and enjoined from doing business in the State, the company, it is understood, will take over the Pierce-Fordyce Oil Association, a partnership operating Pierce interests in Texas.

With the new arrangement allowing freedom of operation between the various Pierce interests in the United States and Mexico, a considerable increase in earnings is considered certain. In addition to more than \$28,000,000 of oil lands, leases, pipe lines, refineries and distributing stations in this country, principally in the Southwest, Pierce Oil owns millions of dollars of property in Mexico, at present carried on the books at a nominal value of \$1. When the Mexican situation brightens it will be found that Pierce's properties there are of great value.

H. Clay Pierce, head of the company, stated in Fort Worth, Tex., that as a result of enactment of the law he and his associations will spend approximately \$1,000,000 in enlarging oil refining facilities in Texas.

PIERCE MANUFACTURING CO.

* (1) Financial Statement, issued by this company Feb. 20, 1917, shows that during 1916 the company had increased its depreciation and profit and loss accounts from \$972,000 to \$1,295,000, while paying out \$96,000 in dividends. These figures mean that the Pierce earned for depreciation, surplus and dividends about \$419,000, or just about 70%, on its \$600,000 of capital.

PIERCE PIPE LINE CO.

* (1) Incorporated in April, 1917, in Oklahoma, with a capital of \$300,000. Incorporators: J. C. Teal, Ardmore; M. J. Grogan, Tulsa, and J. E. Forest, Dallas.

PIGOT BAY GOLD MINING CO., TACOMA, WASH.

* (1) Incorporated on March 27, 1917, in Washington, with a capital of \$800,000. Incorporators: Geo. F. White, C. A. Ramsay, Walter J. Wiegand and F. K. Adams.

PILGRIM MOTOR CAR CO., DETROIT, MICH.

* (1) Incorporated on Jan. 15, 1917, in Delaware, with a capital of \$1,000,000, to manufacture machinery, trucks, aeroplanes, etc. Incorporators: C. H. Leet, Highland Park, Mich.; Ed. F. Sluhr, Detroit, Mich., and Robert S. Hascall, Lakewood, O.

PILLING BRASS CO.

* (1) New Factory.—Reported on March 23, 1917, that this company was having contractors figure on plans for a steel and brick factory 100 by 200 feet, one story, with two wings, one of which

will be 50 by 80 feet, and the other 50 by 100 feet. The contract for the steel work has been awarded.

PINE BLUFF CO.

* (1) Change in Control.—It was announced Feb. 9, 1917, that control of this company, which supplies water, electric light and power and street railway service to Pine Bluff, Ark., had been acquired by Arkansas interests. The new owners will increase the investment in the properties and make improvements and extensions. It is understood that there will be no change in the management.

The company has \$600,000 pfd. and \$600,000 common stock, with \$700,000 5% and \$160,000 6% bonds. The capital stock was recently increased to \$1,000,000 of each class, but it was said that none of the new stocks had been issued.

PIONEER TELEPHONE & TELEGRAPH CO.

* (1) Sale Authorized.—See Missouri & Kansas Telephone Co.—Item No. 1.

PISTON RING CO.**MUSKOGON, MICH.**

* (1) Capital Increased.—On March 19, 1917, the company filed notice at Lansing, Mich., of an increase in capital from \$13,000 to \$750,000.

PITTSBURGH BREWING CO.

* (1) Extra Dividend.—Announced Feb. 14, 1917, that this company had declared an extra dividend of one-fourth of 1% on account of back dividends, in addition to the usual quarterly dividend of 1 1/4% on the pfd. stock, payable Feb. 28 to stock of record Feb. 19.

PITTSBURGH & BUTLER EYS. CO.

* (1) Receiver Appointed.—It was announced Jan. 2, 1917, that the Pittsburgh Trust Co. had been named receiver for this company in Common Pleas Court at Pittsburgh. The appointment resulted from equity proceedings filed against the railway company by the Pittsburgh Trust Co. as trustee for some of the bondholders.

It is alleged that the railways company has outstanding bonds to the amount of \$1,500,000 and that the payment on the last two installments of interest has been defaulted.

PITTSBURGH BY-PRODUCTS COKE CO.

* (1) Acquisition.—It was announced Feb. 8, 1917, that this company, Pittsburgh, Pa., had acquired the Lehigh Coke Co., South Bethlehem, Pa., causing a change of directors and officials. This change of ownership will not affect the relations of the Lehigh Coke Co. with the Bethlehem Steel Co., established in 1910 by the German syndicate which built the plant. German interests in the business have been acquired by American parties.

* (2) Sale.—See Bethlehem Steel Corp.—Item No. 6.

PITTSBURGH BY-PRODUCTS CO., WILMINGTON, DEL.

* (1) Incorporated on April 2, 1917, in New York, with a capital of \$10,000,000, to deal in coke from coal and by-products. Representative: H. S. Gould.

PITTSBURGH, CINCINNATI, CHICAGO & ST. LOUIS R. R. CO.

* (1) Application to List Stock.—Announced Jan. 17, 1917, that the New York Stock Exchange had received application to list \$84,860,200 capital stock of this company.

* (2) Admitted to List.—Announced Jan. 25, 1917, that the New York Stock Exchange had listed \$84,860,200 capital stock of this company.

—Feb.

* (1) Admitted to List.—It was announced Feb. 13, 1917, that this company's capital stock had been added to the list by the New York Stock Exchange.

* (2) Directors.—A Pittsburgh dispatch April 10, 1917, stated that the first annual meeting of this recently formed company had been held there. The following directors were elected: For term ending April, 1918—G. L. Peck, W. H. Barnes, Samuel S. Dennis, A. M. Schoyer, W. H. Lee. Term ending April, 1919—J. D. Oliver, John P. Green, C. Stuart Patterson, J. J. Turner, Effingham B. Morris. Term ending April, 1920—D. T. McCabe, W. S. Rowe, T. DeW. Cuyler, Samuel Rea, Edward B. Taylor.

PITTSBURGH COAL CO.

* (1) Contracts.—A Pittsburgh dispatch Jan. 24, 1917, stated it had been learned on excellent authority that this company was renewing contracts with some of its most desirable customers at \$3 per net ton for the 12 months beginning April 1, or fully double the price involved in contracts about to expire. This is regarded as giving old customers preferential treatment and the open market on contract coal seems to be quotable at about \$3.25.

Three contracts for three-quarter inch gas coal have been closed at \$3.50, such coal being quotable at about 25 cents over ordinary mine-run steam coal.

Despite the Steel Corp. contract, which is at a relatively low price, and some contracts that still have a year to run, the Pittsburgh Coal Co. seems almost certain to sell more than half its output at \$3 and higher, say 10,000,000 tons, and possibly more.

—Feb.

* (1) Announcement to Stockholders.—On Feb. 21, 1917, the readjustment committee of this company, it was stated, sent out from Pittsburgh an announce-

JANUARY 1 TO APRIL 30, 1917

ment to stockholders that the suit filed in July, 1916, in New Jersey against the company, asking an injunction to restrain the carrying out of the readjustment plan, had been decided by the court in favor of the company.

The letter stated that the committee is engaged in working out the details for carrying out the plan and that it would be ready for announcement within ten days.

(2) Readjustment.—On Feb. 24, 1917, it was stated that the readjustment of this company involves the elimination of the New Jersey company which is a holding company, and cancellation of the accrued dividend of approximately \$45 a share on the pfd. through an increase of 33 1/4% in the pfd. That it, the holder of New Jersey company pfd. with 133 1/4% of holdings in pfd. stock of the Pittsburgh Coal Co. of Pennsylvania, clearing up the arrears of pfd. dividends. The common stock of the New Jersey company will be exchanged par for par for common stock of the Pennsylvania company.

Share capitalization of the Pennsylvania company, which is an operating company, will be \$32,169,200 common and \$36,000,750 pfd. outstanding. The pfd. stock of the Pennsylvania company will be entitled to 6% against 7% for the pfd. stock of the New Jersey holding company, but the Pennsylvania pfd. will share equally with the common stock in all dividends after the latter receives 6% a year.

The plan has been well received by the stockholders, all the stock having been deposited except a very small amount. Increase of 33 1/4% in the proportion of stock held by each pfd. share owner and placing of it forthwith on a 6% basis will have the same result to the holder immediately as if the dividentend on the New Jersey pfd. had been advanced to 8%.

In the current year Pittsburgh Coal Co. will enjoy the best year in its history in the way of earnings and balance available for dividends.

—Mar.

(1) Earnings, 1917, Estimated.—On Feb. 23, 1917, the "Wall Street Journal" said that the earnings of this company for 1917 would be the largest in the history of the company. It would not surprise important interests if balance available for the stock aggregated between \$9,000,000 and \$10,000,000, or roundly 13% to 14 1/4% on the \$68,169,950 combined share capitalization outstanding of Pittsburgh Coal Co. of Pennsylvania. The very least the company can possibly do is to earn 10% on pfd. and common stock, but \$9,000,000 or better is regarded as a probable figure.

As a result of readjustment the holding company will be eliminated and arrears of dividends on pfd. cleared off. Shares of the New Jersey holding company were exchanged for those of Pennsylvania operating company, common par for par and pfd. in ratio of 133 1/4% of Pennsylvania pfd. for New Jersey pfd. It was by means of this bonus of 33 1/4% that back dividends were adjusted.

On completion of the plan there will be outstanding \$32,169,200 of common and \$36,000,750 pfd. stock of Pennsylvania corporation. Pfd. is a 6% participating issue. After common has received 6% in any year, pfd. and common share equally in any further distribution above that rate.

Estimates of this share balance for 1917 of between 10% and 14 1/4% are away below some over-optimistic predictions of 30% and more.

With earnings of not less than 10% on the share capitalization indicated for 1917 and the company in a strong financial position, it is not too much to say that dividends on the common stock are now looming up.

(2) Report, Year Ended Dec. 31, 1916, shows earnings as follows:

	1916	1915
Net -----	\$5,562,799	\$4,219,837
Bal. after fixed charges -----	3,143,926	1,653,524
Surp. after pfd. dividends -----	1,793,028	299,934

(3) Earnings on Stock.—It was stated March 13, 1917, that this company's 1916 balance of \$3,143,926 is equal to 9.82% on \$32,000,000 pfd. stock, compared with 6.1% earned on \$27,071,800 pfd. stock in 1915.

(4) Consolidated Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$12,636,543, compared with \$10,843,515 Dec. 31, 1916.

(5) Statement by Chairman.—It was announced March 13, 1917, that Chairman M. T. Taylor, of this company's board, in his annual remarks to stockholders, said, in part: "Total tonnage produced and handled for the year, exclusive of outside coal purchased and handled by the indirect subsidiary companies, was 18,709,926 net tons, a decrease of 424,510 net tons, or 2.22%. Production in the Pittsburgh district fell off 1,502,389 net tons, or 8.65%. This loss was partially offset by tonnage gains in other districts and by increase in bought coal.

"Net working capital as of Dec. 31, 1916, was \$9,062,106, an increase of \$2,495,927. This increase is chiefly due to excess of earnings over dividends paid and unexpended depletion and depreciation reservations for the year.

"Expected results for 1916 were only partially realized as to net earnings, but not as to production. Both would have been larger had the use of the facilities provided been permitted by the always dominant factors of labor and transportation. To the general business improvement which developed during the last half of 1915 was added a further trade stimulus during the first quarter, by the uncertainty of a prompt labor settlement due April 1, 1916, and together increased the shipments 39.59% over the same period of the preceding year.

"The company had no free shipping month during the year; production fell under 1915—1,502,389 tons in the Pittsburgh district (partially made up as to tonnage by purchases of outside coal), and it was not able to do more than ratably meet any of its contract obligations for the year.

"Contracts made during the general contracting period were higher than for 1915, exclusive of the increase in labor scale effective April 1, 1916, were well in line with our competitors, but did not anticipate the runaway market which ruled for the last half of the year. Cost of production under the new wage scale, and especially the heavy advance in all supplies, was under-estimated on a decreased tonnage.

"The year during the greater part was chaotic in effort and uncertainty.

"Committee is now engaged in working out the details required for carrying out the plan of readjustment, following the decision of the court, and it is the expectation that the plan can very shortly be carried into effect and thereby the stockholders will receive the balance of the dividends for the year 1916, as provided by the plan of readjustment.

"There is no general lack of coal in place; it is a question of production and distribution.

"The demand for the year will be larger than can be produced under labor supply, even if transportation improves, and also taking our increased facilities to account. A higher average price will be secured upon all of the output, and the results from operations will be larger over 1916, under any outlook now indicated as probable."

(6) Earnings Increase in 1917.—It was stated March 21, 1917, that this company had made a good start in January on its new fiscal year. Net earnings increased over \$600,000, this increase alone being equivalent to approximately 2% on the \$32,000,000 common stock.

If that rate of increase be continued throughout the year it would give the company increase in net of fully \$7,500,000, bringing the balance for dividends in 1917 to about \$10,650,000 or better than 15 1/4% on the \$68,169,950 combined pfd. and common stock capitalization of the operating Pennsylvania company.

This is a better showing than the conservative estimates made by important factors in the company who had predicted that balance for dividends in 1917 would be at the very least equivalent to 10% on the combined share capitalization and perhaps would exceed 14%.

With a betterment in car service Pittsburgh Coal could register enormous earnings, since the demand for fuel is so great. At it was in the latter part of 1916 the irregularity in the supply of cars reacted on the supply of labor, making it a very unstable quantity.

Should the railroads be able to provide a steady and sufficient supply of cars in 1917 the worst of the coal company's problems would be solved. It can dispose of the coal and secure higher prices than in 1916.

In any event it is clearly established that earnings in 1917 will be the largest in the company's history, even though output of coal may not amount to as much as in 1916, when 18,700,000 tons were produced.

The way having been cleared for the carrying out of the readjustment plan, holders of certificates of deposit for the New Jersey holding company stock early in 1917 will receive shares in the Pittsburgh Coal Co. of Pennsylvania, the operating concern. When that operation is completed, the pfd. stock will be placed on the full 6% annual basis, which is equivalent to 8% on the pfd. stock of the holding company, since holders of the latter receive 33 1/4% more pfd. stock in the Pennsylvania company in settlement of arrears of dividends.

(7) To Take Final Action on Readjustment Plan.—Stockholders have been called to meet April 4, 1917, to take final action in carrying out the plans of readjustment which provide for the Pittsburgh Coal Co. of Pennsylvania taking over the present Pittsburgh Coal Co. of New Jersey.

—Apr.

(1) Coal Purchase.—A Pittsburgh dispatch April 2, 1917, stated that 4,000 acres of coal land east of Washington, Pa., on the proposed Chartiers Southern R. R., had been purchased by this company for \$1,320,000.

(2) Meetings Adjourned.—Announced April 4, 1917, that the annual meeting of this company had again been postponed, this time until April 10 at 11 o'clock. The special meeting also was adjourned until that time.

(3) Operating Costs Increased by Wage Advance.—On April 17, 1917, Dow, Jones & Co. said that the granting of a 20% increase to the bituminous coal miners outside of the miners of Illinois meant a large increase in the operating costs of the Pittsburgh Coal Co. and other coal concerns. The Pittsburgh Coal Co. produces close to 20,000,000 tons of coal a year and the increase in wages will amount to several million dollars annually. As there is little free coal for sale, any increase in coal prices would not offset increased wages to any extent.

The Illinois operators refused to grant the increase on the grounds that the delivery of soft coal was based on the present wage scale and that the granting of the raise would mean a net loss.

(4) Contracts Renewed on Higher Scale.—On April 17, 1917, Dow, Jones & Co. said that contracts of this company had all expired on April 1, with the exception of that with the United States Steel Corp. Renewals of these contracts were on a higher scale of prices than those just concluded. The contract with the Steel Corp is based on mining costs, so that this contract will absorb the increased costs resulting from the wage increase granted to the miners on that portion of the coal consumed by United States Steel. In round figures this amounts to 25% of the Pittsburgh Coal Co.'s output.

Operations indicate that gross earnings of the coal company in 1917 will be the largest in the company's history. It will easily earn over 10% on the common stock, although the amount of coal produced will not be as large as in some previous years. In January net

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

earnings increased over \$600,000, equivalent to about 2% on the common stock.

*(5) Coal Lands Purchased.—On April 19, 1917, the "Pittsburgh Gazette Times" stated that this company had purchased 153 acres of coal lands in Strabane Township, Pa., at a price of \$330 an acre.

PITTSBURGH COAL CO., NEW JERSEY.

*(1) Meeting April 4.—It was announced March 13, 1917, that the annual meeting of this company had been adjourned until April 4, at No. 15 Exchange Place, Jersey City, N. J., when the readjustment plan would be approved. The retiring directors were re-elected.

PITTSBURGH COLLATERAL CO.

*(1) Incorporated on April 25, 1917, in Delaware, with a capital of \$250,000, to deal in investments. Incorporators: M. L. Gatchell, L. A. Irwin and H. W. Davis, Wilmington, Del.

PITTSBURGH COPPER CO.

*(1) Directors Re-elected.—Announced April 3, 1917, that at the annual meeting of this company in Pittsburgh directors were re-elected. Pres. Robert C. Gross, of Boston, stated that the deferred dividends amounting to \$540,000 would be cleared early in 1917. The company has a surplus of \$1,592,512.

PITTSBURGH-HANOVER COAL CO.

*(1) Incorporated March 2, 1917, in Delaware, with a capital of \$1,000,000, to mine for, produce and market coal. Incorporators: M. L. Gatchell, L. A. Irwin and Harry W. Davis, Wilmington, Del.

PITTSBURGH-KENNEDY COAL CO., PITTSBURGH, PA.

*(1) Incorporated on April 24, 1917, in Delaware, with a capital of \$600,000, to open and develop mines, build tipples and to operate mines. Incorporators: Frank Wilbert, Jr., S. E. Shearon and J. S. Rosenbaum, all of Pittsburgh.

*(2) Earnings on Stock.—It was stated Feb. 20, 1916, that this company's 1916 balance of \$5,952,231, after pfd. divs., is equal to 26.33% on \$22,600,000 common stock.

*(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$10,008,414, compared with \$5,627,182 Dec. 31, 1915.

*(4) Statement by President.—It was stated Feb. 20, 1917, that Pres. W. L. Clause, in his annual remarks to the stockholders of this company, said:

"Additions and improvements were made at a cost of \$912,502, so that after deducting depreciation there was a small decrease in investment account. The earnings remaining after deducting dividends depreciation and reserves are represented principally by the increase of approximately \$2,500,000 in quick assets, and the liquidation of all bills payable, which amounted to \$1,950,000 a year ago.

"The investment account represents sound values, there being no good-will account, and only an insignificant amount for patents, although many valuable patents are owned by the company.

"During the year several additional patents of considerable importance were granted on processes developed within the organization. The natural gas property of the company was of unusual value, owing to the high price of coal. The window glass plants have shown a commendable improvement.

"The paint department had the most profitable year on record, and the manufacturing profit on paints and other commodities produced by our subsidiary companies was unusually large. Our Belgian plate glass factory is still intact, although, of course, not operating.

"The outlook for the coming year is very promising, but the uncertainty as to the outcome and effect on trade of the present grave political situation renders it unsafe and unwise to make any definite forecast for the future."

—Mar.

*(1) Stock Increase Approved by Stockholders.—Announced March 1, 1917, that at the annual meeting of this company an increase in the capital stock from \$22,750,000 to \$25,000,000 was approved by the stockholders.

—Apr.

*(1) Financial Statement.—It was announced April 4, 1917, that this company, incorporated under the laws of Pennsylvania, had filed with the Massachusetts Secretary of State a statement of its financial condition, dated Dec. 31, 1916, which compares as follows:

	1916	1915
Assets—		
Real estate and machinery	\$20,114,107	\$20,117,562
Merchandise	6,599,766	5,758,237
Cash and debts receivable	7,019,800	5,426,706
Total	\$33,733,674	\$31,302,506
Liabilities—

Insurance	122,936	110,649
Sinking fund....	92,967	84,784
Surplus	10,008,412	5,627,181
Total	\$33,733,674	\$31,302,506

PITTSBURGH RYS. CO.

*(1) Compromise Offer.—See Philadelphia Co.—Item No. 1.

PITTSBURGH RIVET CO.

*(1) New Owners.—Announcement was made Feb. 28, 1917, of the purchase of control of this company by new interests headed by R. W. Anderson, W. J. Reitz and M. A. Herald. Mr. Anderson, who will be Pres. of the new company, was formerly assistant to the late F. H. Eaton, Pres. of the American Car & Foundry Co., and was formerly associated with the Illinois Steel Co., Colorado Fuel & Iron Co. and Pittsburgh Steel Co.

Messrs. Reitz and Herald have been associated, respectively, with the sales and operating departments of the Pittsburgh Steel Co. Mr. Reitz becomes Vice-Pres. of the new company and Mr. Herald will be Sec'y, Treas. and Gen. Mgr.

The Pittsburgh Rivet Co. has a plant at Pittsburgh for the manufacture of boiler and structural rivets and forgings, bolts and heavy steel specialties. Extensions and improvements are contemplated by the new interests.

PITTSBURGH & SHAWMUT R. R. CO.

*(1) New \$1,500,000 Note Issue Sold.—On April 28, 1917, the "Wall Street Journal" stated that this company had sold to the National City Co. \$1,500,000 one-year collateral trust 5% notes, proceeds of which will be used to retire a similar amount of the \$4,500,000 first lien collateral trust 6% notes due May 1, 1917. All of the notes have been resold by the National City Co. All of the \$4,500,000 three-year notes maturing May 1, will be paid off, the balance of the funds necessary to retire this issue being provided by interests in control of the property on junior notes.

The new \$1,500,000 5% one-year notes will be secured by 130% of their par value in Stock Exchange collateral and the agreement provides that the market price of this collateral must be maintained at 130%.

Among this collateral is \$350,000 New York State 4½s, \$100,000 New York City 4½s, \$100,000 Union Pacific first 4s, \$200,000 Duluth & Iron Range first 4s, 500 shares of Pittsburgh, Fort Wayne & Chicago guaranteed stock and 1,000 shares of Lackawanna R. R. of New Jersey guaranteed stock.

*(2) Status, April, 1917.—The Pittsburgh & Shawmut R. R. was operated under lease by the Pittsburgh, Shawmut & Northern up to Sept. 1, 1916, when the lease was abrogated by the former. Since that date the company has been getting a much better division of the rate and earnings have been correspondingly improving.

Prior to the abrogation of the lease, the Pittsburgh & Shawmut was regularly operating at a deficit, but in September this deficit after interest charges, sinking funds, principal of maturing equipment notes, discounts, etc., was reduced to \$3,158.

In October the company reported a surplus of \$11,927 over all deductions, and in November the surplus was \$50,000.

JANUARY 1 TO APRIL 30, 1917

657. December's surplus was \$81,541; January's surplus \$112,441, and February's \$91,141.

● PITTSBURGH STEEL CO.

¹(1) **Special Dividend.**—Announced Jan. 2, 1917, that this company, in addition to declaring the regular quarterly dividend of \$2 a share on the common stock, had declared a special dividend of \$20 a share, amounting in all to \$1,540,000, payable Jan. 2.

—Feb.

¹(1) **Acquisition.**—It was announced Feb. 6, 1917, that this company had purchased the Tuit Works coal holdings, consisting of 700 acres in Cumberland Township, Greene County, Pa., for approximately \$500,000.

PITTSBURGH STEEL FOUNDRY CO.

¹(1) **Special Meeting.** April 24.—It was announced Feb. 28, 1917, that a special meeting of this company would be held April 24 for the purpose of voting on proposed increase of capital stock from \$1,000,000 to \$1,500,000.

—Mar.

¹(1) **Officers and Directors Elected.**—Announced on March 29, 1917, that W. H. Coverdale had been elected chairman of the board of this company, successor of the Wabash-Pittsburgh Terminal Ry. H. E. Farrell has been chosen Pres. of the road, and H. F. Baker former receiver, Vice-Pres. F. J. Brunner has been elected Secy. and H. O. Moore Treas.

On the executive committee are Haley Fiske, Vice-Pres. of the Metropolitan Life Insurance Co.; Richard Sutro of Sutro Bros. & Co.; James C. Chaplin of Pittsburgh; W. H. Coverdale and J. B. Dennis of Blair & Co.

The Board of Directors, in addition to those who are on the executive committee, includes Eugene V. R. Thayer, W. R. Nicholson, E. R. Tinker, A. M. Hall, Jr., Asa S. Wing, and Arnold S. Scheuer.

PITTSBURGH & WEST VIRGINIA RY. CO.

¹(1) **New Company Ready for Operations.**—It was stated April 2, 1917, that this company, successor to the Wabash-Pittsburgh Terminal Ry., had completed plans for taking over early in April the properties of the old company, which had been in receivership nine years.

The new company will occupy unique position among railroads, for it will be un-mortgaged. The only mortgage outstanding against the railroad property will be about \$800,000 in real estate mortgages on the property in Pittsburgh. The Pittsburgh Terminal R. R. & Coal Co., owned outright by the new company, owns about 15,000 acres of coal lands and will have outstanding only \$3,922,000 of first mortgage bonds.

Upon reorganization fixed interest charges on the combined properties will be approximately \$261,000. There will be \$9,100,000 6% pfd. stock issued for cash paid in through the medium of a \$300 assessment on each \$1,000 bond of the old \$30,236,000 first mortgage bonds and \$30,236,000 common stock issued in exchange for the old firsts, par for par. The coal properties furnish the basis

on which it is expected this new company will secure maximum results. These coal properties have been estimated as worth from \$1,000 to \$1,500 an acre.

The coal company earned \$120,000 net in December, 1916, and \$76,000 net in January, which is ordinarily a bad month. In February earnings were \$200,000 and in March they will be still higher. The significant thing about these earnings, moreover, is that they were made on an average price of \$1.97 a ton at the mine. All of the company's coal contracts expired March 31 and on April 2 the new contracts at \$3.50 at the mine became effective. On this basis earnings should be increased more than 50%. With plans under way for increased production, it is expected that the Pittsburgh & West Virginia, from coal and railroad earnings, will show net of \$4,000,000 in 1917.

The coal company's net is after charging out interest on its own bonds, so that after allowing for rentals, hire of equipment, etc., on the railroad property, it appears that the new company in 1917 will earn the full 6% dividends on its \$9,100,000 pfd. stock and more than 10% on its \$30,236,000 common stock.

The new management proposes to put the new pfd. stock on a 6% dividend basis. Present earnings and the outlook for the future justify this course. Pronounced activity in the full assessment paid old first mortgage bond certificates indicate expectations of much higher prices for these bonds, which are entitled to \$300 par value pfd. and \$1,000 par value common for each \$1,000 certificate.

¹(2) **Officers and Directors.**—It was announced April 2, 1917, that on March 29, 1917, officers, directors and an executive committee had been elected. H. E. Farrell was chosen Pres.; W. H. Coverdale, Chairman of the Board; H. F. Baker, former receiver, Vice-Pres. and general counsel; F. J. Brunner, Sec'y, and H. O. Moore, Treas.

On the executive committee are: Haley Fiske, Vice-Pres. of the Metropolitan Life Insurance Co.; Richard Sutro, of Sutro Bros. & Co., bankers; James C. Chaplin, of Pittsburgh; W. H. Coverdale and J. B. Dennis, of Blair & Co., bankers.

The Board of Directors is composed of Messrs. Farrell, Coverdale, Fiske, Chaplin, Dennis and Sutro, Eugene V. R. Thayer, W. R. Nicholson, E. R. Tinker, A. M. Hall, Jr., Asa S. Wing and Arnold Scheuer.

¹(3) **Temporary Stock Certificates.**—It was stated April 4, 1917, that temporary certificates for stocks of this company, the new company which succeeds the Wabash-Pittsburgh Terminal Ry., would be ready for delivery the end of the week of April 1. It had been planned to list the new stocks "when issued" on the New York Stock Exchange, but this plan was abandoned in view of the plan to deliver temporary certificates.

Since the new \$9,100,000 pfd. stock represents 100% in cash paid into the reorganization and the new \$30,500,000 common stock takes the place of \$50,236,000 old bonds and \$10,000,000 stock, it is concluded that the capitalization represents a property value of 100% on the outstanding securities.

The new company will own the entire capital stock of the Pittsburgh Terminal R. R. & Coal Co., which in turn owns 15,000 acres of coal lands in the Pittsburgh district and through stock ownership owns the West Side Belt Ry. The Coal Co. has outstanding only \$3,818,000 first mortgage bonds, and pays the interest and sinking funds thereon out of its own earnings. These earnings after deduction of interest were \$200,000 in February and will show up still larger in March.

For April new contract prices of \$3.50 a ton at the mine as compared with an average price of \$1.97 prior thereto, will be in effect and for April and subsequent months, barring unforeseen difficulties, earnings are expected to run as high as \$400,000 monthly.

Receiver H. F. Baker said: "Considering the value of the company's real estate holdings in Pittsburgh, its Pittsburgh connections, the coal which can

be produced by the coal company, the transportation of said coal, all of it over the lines of the West Side Belt Ry. and a large portion thereof over the line of the Pittsburgh & West Virginia, the developed and undeveloped coal along the Pittsburgh & West Virginia, the favorable connections and relations with the steel and iron producing properties in the Pittsburgh district, there should be no doubt of a large increase in the value of the company's properties."

¹(4) **Admitted to Dealings.**—Announced April 12, 1917, that the certificates of the common and pfd. stocks of this new company, the reorganization of the Wabash-Pittsburgh Terminal, had been admitted to dealings on the New York Stock Exchange.

¹(5) **New Company Starts with Favorable Prospects.**—On April 23, 1917, the "Wall Street Journal" stated that out of one of the most drastic railroad reorganizations ever promulgated, the old Wabash-Pittsburgh Terminal Ry. has emerged as the Pittsburgh & West Virginia Ry., with interest charges of only \$261,000 a year, no debts to worry over, cash in the bank, new equipment being delivered and great prosperity and activity in the territory where operations are to be carried on. And coal is selling at \$3.50 per ton, plus.

High coal prices which are hurting most other roads are going to prove a bonanza for the Pittsburgh & West Virginia, for every mile of its 60 miles of line is over an excellent grade of Pittsburgh steaming and coking coal, and the company, through its absolute ownership of the Pittsburgh Terminal R. R. & Coal Co. owns over 15,000 acres of these very valuable coal lands.

There are five of the company's mines operating with an annual capacity of 3,000,000 tons, but plans are under way for increasing this output to 4,000,000 tons.

It is said authoritatively that the coal company in 1917 will earn between \$5,000,000 and \$6,000,000 net after deduction of its own interest charges, while the railroad will earn net of \$1,000,000.

If, however, the coal company's net in 1917 is conservatively estimated at \$5,000,000 and the railroad's earnings at \$1,000,000, the total \$6,000,000 earnings of the property will be equivalent, after deduction of railroad interest charges, rentals, hire of equipment, etc., to the full 6% on the \$9,100,000 pfd. stock and about \$16 per share on the \$30,200,000 common stock. Some of the directors predict even higher earnings per share.

It is not at all unlikely that in the near future important and remunerative arrangements for closer relations and operations with a strong neighboring road will be consummated. These plans when completed will forever remove the sentimental antipathy felt toward this new road by many people because of its record in the prolonged receivership.

¹(6) **Negotiations for Lease by Pennsylvania Reported.**—The "Philadelphia News Bureau" April 25, 1917, said there were persistent reports that negotiations were in progress for the lease of the Pittsburgh & West Virginia Ry. by the Pennsylvania R. R. Co. It is said in some quarters that the Pennsylvania has offered an annual rental of \$500,000, but interests in close touch with Pittsburgh & West Virginia affairs in Philadelphia state that an offer at this figure would receive no consideration. It is pointed out this would not even pay the pfd. dividend.

The Pittsburgh & West Virginia would be of considerable value to Pennsylvania. In addition to belt line facilities, which would be available through West Side Belt R. R., controlled by the Pittsburgh & West Virginia through Pittsburgh Terminal R. R. & Coal Co., the 3,000,000 to 4,000,000 tons of coal mined on the lands of the coal company are estimated to return a net profit of about \$5,000,000 in 1917. It is also believed that the railroad will earn somewhere near \$1,000,000, in spite of higher operating costs.

PITTSFORD POWER CO.

¹(1) **Sales, 1916.**—See Rutland Railway & Light Co.—Item No. 1.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

PLANT (THOS. G.) CO.

¹(1) **Earnings on Stock.**—It was stated Jan. 12, 1917, that this company reported net profits of \$813,074 for the year ended Oct. 31, 1916. After deduction of pfd. dividends this is equal to 25.5% on \$2,500,000 common stock outstanding at end of year, common stock having been increased from \$1,250,000 to \$2,500,000 by declaration of a 100% stock dividend.

—Feb.

¹(1) **Admitted for Trading at Boston.**—It was announced Feb. 8, 1917, that the Boston Stock Exchange had admitted for trading 25,000 pfd. shares of this company.

PLUMAS INVESTMENT CO.

¹(1) **Bonds.**—See Spanish Peak Lumber Co.—Item No. 1.

PLYMOUTH CONSOLIDATED CRANBERRY CO.

¹(1) **Incorporated, in February, 1917, in Massachusetts, with a capital stock of \$250,000.**

PLYMOUTH MOTOR CASTINGS CO.

¹(1) **New Officers and Directors.**—It was announced Feb. 9, 1917, that at the annual stockholders' meeting the following directors were elected: N. E. Sherwood, J. B. Hickey, E. D. Warner, H. A. Sage and A. J. E. Torre. The directors elected the following officers: Pres., N. E. Sherwood; Vice-Pres. and Treas., J. B. Hickey; 1st Vice-Pres., E. D. Warner; Sec'y, A. J. E. Torre. N. E. Sherwood was appointed business and sales manager, and J. B. Hickey, production manager.

POCAHONTAS CONSOLIDATED COLLIERIES CO.

¹(1) **Report Year Ended Dec. 31, 1916.**—Gross \$2,489,153 against \$1,983,033 last year; net \$2,091,857 against \$1,596,715 last year; surplus after dividends \$507,378 against \$461,668 last year.

¹(2) **Balance Sheet as of Dec. 31, 1916,** showed cash amounting to \$1,362,389; accounts receivable \$1,237,129 and total assets and liabilities of \$16,766,793.

POCAHONTAS FUEL CO.

¹(1) **Indicted by Federal Grand Jury.**—See Berwind White Coal Mining Co.—Item No. 1.

POCASSET MANUFACTURING CO.

¹(1) **Financial Statement, year ended Jan. 27, 1917, shows:**

Assets.—Construction, \$1,200,000; cotton, cloth and stock in process, \$378,940; cash and accounts receivable, \$214,394; total, \$1,793,335.

Liabilities.—Capital stock, \$1,200,000; bills payable, \$457,000; improvement account, \$76,381.33; reserve for taxes, \$7,500; profit and loss, \$32,454; total, \$1,793,335.

A total net surplus of \$128,835 in quick assets over active debts is shown against a total net surplus of \$81,810 previous year, an increase of \$47,025.01. Dividends paid during the year amounted to \$66,000, 5½% of the capital.

POMIDORO CANNING CO.

¹(1) **Pfd. Stock Sale Approved.**—It was announced Feb. 15, 1917, that the California Commissioner of Corporations had approved the sale of 500 shares of this company's pfd. stock at \$100 par, net to the company, the proceeds to be used to build a factory and plant.

POUND CREEK COAL CO.

¹(1) **Earnings, 1917, Estimated.**—On March 21, 1917, the "Boston News Bureau" said that this company could sell every ton of unsold coal which it has in sight for 1917 at \$3.25 per ton. In fact, on one small contract recently taken the company secured a price of \$3.50 per ton. Other contracts at \$3 per ton have been renewed.

The best estimate of 1917 profits which is possible is a net for the year of \$6 to \$7 per share on the 200,000 shares of stock. January net was \$100,

000 and February slightly under \$90,000. March will be up again, as it is felt that February measured the worst condition in car supply and labor the coal trade will meet in 1917.

"Pond Creek Coal has plenty of labor. Its only trouble is lack of enough cars. If more cars were available production could easily be increased to 1,500,000 tons in 1917.

¹(2) **Sale Negotiations.**—A Boston dispatch March 21, 1917, stated that representatives of the principal ownership in this company had been asked by responsible financial interests to put a price on the entire property. While negotiations have gone no further than this, conditions of the coal trade are so unusual it seems not unlikely business may result. Any price put upon the property would amount to substantially more than current prices measured in the market. Pond Creek Coal has coal reserves estimated conservatively at 400,000,000 tons.

¹(3) **Negotiations for Sale Still in Progress.**—It was stated on March 24, 1917, that negotiations over sale of this company were still in progress. As in any trade point in argument is question of price. If the two parties can get together on matter of price there is not slightest doubt that a sale will be quickly consummated. It is understood that a spread of about \$7 a share separates the ideas of prospective buyer and seller. The trade if concluded will probably be in the form of payment part in cash and part in well secured bonds. The Semet-Solvay people have made a lot of money, but they could hardly afford to hand over \$7,000,000 cash in a lump.

—Apr.

¹(1) **Report, Year Ended Dec. 31, 1916, shows:**

	1916	1915
Earnings from coal, etc.	\$362,886	\$104,016
Profits	326,733	80,503
Surp. after chgs.	200,000	22,318

¹(2) **Statement by President.**—It was stated April 2, 1917, that Pres. Davis, of this company, in his annual remarks to stockholders said, in part: "Production of coal was 942,951 tons, an increase of 189,153. During last quarter output was seriously affected by railroad traffic congestion. Car shortage will also curtail natural increase in 1917 output unless conditions materially improve.

"Two new mines were opened up and both are now producing a satisfactory amount of coal for the stage of development they have reached.

"Additions to capital account amount to \$74,867.

"The company purchased \$254,000 of its bonds, which are being held as investments.

"The sum of \$25,409 was set aside to depreciation, representing 2½ cents per ton of coal produced. Beginning Jan. 1, 1917, additions to this fund will be made at rate of 6 cents per ton.

"Outlook for 1917 is one of continued prosperity. Several important contracts have been closed at prices that should insure a large profit. Indications are that it will be by far the best year in the company's history."

¹(3) **Dividend Discussion.**—On April 14, 1917, the "Boston News Bureau" said: "As the situation is now shaping, it is in the line of probability that directors of Pond Creek Coal will declare an initial dividend on the 200,000 shares of stock some time this Summer. The company should easily earn \$5 per share in 1917, and it is felt that, in view of the strong cash position and lack of a special call for further additions to working capital, an initial rate of \$2 per share would be eminently justified.

"Pond Creek Coal has reduced its outstanding bonds from \$2,000,000 to \$1,750,000. It could easily make another cut this year to \$1,500,000, and still start dividends at the \$2 rate."

¹(4) **Earnings in First Quarter of 1917 Twice Those of Whole of 1915.**—On April 26, 1917, the "Boston News Bureau" said: "True to expectations, Pond Creek Coal broke all earnings records in the quarter ended March 31. Profits were \$280,000. This compares with

\$362,886 for the whole of 1916 and \$104,016 for the year 1915.

"Of course, the big advance in coal prices tells the story. The profits for the three months referred to were based on an average of \$2.20 for coal at the mines, against 93 cents during same period in 1916.

"By reason of a larger amount of free coal Pond Creek jumped its profits faster than did its sister property, Island Creek. The latter is now coming into its big earnings and should smash all records in the current quarter."

POOLE ENGINEERING & MACHINE CO.

¹(1) **Rush Order.**—It was announced Feb. 8, 1917, that this company had received a \$1,000,000 rush order from the United States Government for gun carriages for heavy coast defence guns.

¹(2) **Bond Conversion Time Extended.**—It was announced Feb. 27, 1917, that, because of an error in the circular issued at the time this company's new convertible 6% bonds were issued, the time for conversion of these bonds had been extended from March 1 to May 1, 1917. It is likely that such bonds as are not converted on the extended date will soon thereafter be retired from funds in the treasury.

The issue was \$500,000 6% bonds convertible into eight shares of stock for each \$1,000 bond, or at 125 for the stock. Since these bonds were issued the stock has not sold at a price at which the conversion could be made to advantage.

Important developments, however, are expected before May 1. By that date the Russian contract for 5,000,000 one-pounder shells and for automatic rapid-fire one-pounder guns will be completed and the Poole company will be found to be one of the few companies that entered the munition business at the start of the war and emerged with a good balance on the credit side of the ledger.

—Mar.

¹(1) **Extra Dividend.**—Announced March 7, 1917, that this company had declared a quarterly dividend of 1½% and an extra of 3¼%.

—Apr.

¹(1) **Anti-Aircraft Gun Order.**—It was announced April 11, 1917, that this company had accepted an order from the United States Government for 500 anti-aircraft 3-inch guns. The total order approximates \$2,000,000.

This order will not interfere with the company's usual lines of output, which are one-pounder semi-automatic guns, one-pounder shells, heavy gears, barbettes for coast defence guns, etc.

Orders from the Government also for 500 one-pounder guns are practically assured. These guns are manufactured by the Poole Co. from its own designs on which it holds the basic patents. The company has also submitted bids for supplying the Government with 1,800,000 one-pounder shells, the same as those which the Russians have used with good effect.

The company has already delivered a large number of these guns to the Russian Government, and also has practically completed its order for 5,000,000 one-pounder shells for the same government.

A repeat order from the Russian Government for \$2,000,000 worth of these shells has been approved by the Russian commissioners and J. P. Morgan & Co., and accepted by the Poole Company.

The company's plant at Baltimore has been turning out 40,000 of these completely loaded shells per day. The first Russian order for 5,000,000 shells will be completed four months ahead of contract time.

POPPY-KNICKERBOCKER PLATINUM CO.

¹(1) **Incorporated in December, 1916, in Nevada, with a capital of \$1,000,000. Directors: H. K. Riddall, J. M. Sanders and O. F. Scharitz.**

JANUARY 1 TO APRIL 30, 1917

PORCELAIN ENAMEL & MANUFACTURING CO.

*(1) New Company.—It was announced at Baltimore Feb. 26, 1917, that this company, capitalized at \$1,500,000 had been organized to take over the plant and business of the Maryland Enamel & Sign Co., located at Highlandtown. This concern is owned by Karl and Heinrich Turk, who have the secret of an enameling process which is said to be the only one that has proved satisfactory on stoves and gas ranges. This company has been doing the enameling for the Gas Appliance Co.

The officers are to be: John L. Bailey, Chairman of the Board; Heinrich Turk, Pres.; Karl Turk, Vice-Pres., and W. Graham Boyes, Sec'y-Treas.

The plant of the new company will have a capacity at least four times larger than the old, with ample provision for practically unlimited growth.

PORCUPINE-CROWN MINES, LTD.

*(1) Report, Year Ended Dec. 31, 1916, of this company, made public Jan. 24, 1917, shows operating profits for the year were \$270,430, as against \$299,116 in 1915. The balance carried forward from 1915 amounted to \$269,977, less \$2,536 allowed for readjustments, and interest was shown as \$5,070.

Distribution was made as follows: In dividends, \$240,000; bonuses to employees, \$6,124; war taxes, \$20,793, leaving a surplus of \$297,882.

PORCUPINE VIPOND MINING CO.

*(1) New Directorate.—It was announced Feb. 12, 1917, that the following directors had been elected: Sir Henry Pellatt, N. Hill, R. T. Shillington and B. I. Jackson. Also the following officers were chosen: Pres., H. H. Ward; 1st Vice-Pres., F. H. Hamilton, and Vice-Pres., P. M. Fuller; Sec'y-Treas., R. J. Ward.

PORCUPINE V. N. T. GOLD MINES, LTD.

*(1) New Company.—It was announced March 1, 1917, that the amalgamation of the North Thompson and the Vipond mines in Canada had been completed, the new company being known as the Porcupine V. N. T. Gold Mines, Ltd. The property comprises four claims of 40 acres each, lying immediately south of the Hollinger Consolidated and east of the Porcupine Crown.

The North Thompson has been developed by an English company, under the management of N. J. Evered. There is now a large amount of ore in sight above the 500-foot level, and there are about 9,000 tons on the dump.

The main vein on the Vipond has a northeast strike. It is believed to have been met with in No. 14 shaft on the Hollinger Consolidated, 500 feet from the north boundary of the Vipond. The vein has a length of 2,000 feet on the Vipond and North Thompson, but on the latter it turns south, and then somewhat to the southeast.

The shaft on the North Thompson is down 600 feet, and a station has been cut at that depth. From the bottom of this shaft a drift will follow the vein to the north limit of the Vipond, thus opening up 2,000 feet of promising ground.

There is an up-to-date mill on the Vipond, and ore is being sent to it from the North Thompson.

This combination should soon take an important place among the producing mines of Porcupine.

PORPHYRY COPPER CO.

*(1) Listed on New York Curb.—On April 13, 1917, the New York Curb Market Association admitted to the list this company's 1,500,000 capital shares, par \$1, as a prospect. Transfer agent and registrar, Security Transfer & Registrar Co.

PORTAGE RUBBER CO.

*(1) Report, Year Ended Dec. 1, 1916.—It was announced Jan. 3, 1917, that at the annual meeting of this company, Barberton, O., Pres. James Christy reported sales for the year ended Dec. 1, 1916, of \$1,867,854, an increase of ap-

proximately \$800,000, or 75% over the preceding year. Net profits were \$232,286 in the latest twelve-month, against \$129,006 the previous year. The gain was 81%. After deducting the dividend on the pfd. stock outstanding at the end of the fiscal year, most of which had since been exchanged for common, the fiscal year's earnings were equivalent to 10½% on the common stock.

The company since the end of its fiscal year has reduced its good-will items by approximately \$111,000, taking \$96,000 of this off the "trade-marks, patents and good-will" item and cancelling a \$15,000 "patents pending" item carried in "all other assets."

The company proposes to issue \$1,000,000 7% cumulative pfd. stock in 1917. Of the proceeds \$300,000 will be used to construct a new tire plant and a new power plant, and upon completion of these the present plant will be utilized for production of solid motor truck tires, rubber footwear, horseshoe pads and other mechanical molded goods.

*(2) Balance Sheet, as of Dec. 1, 1916, shows a profit and loss surplus of \$208,404.

PORT ANGELES & GRAYS HARBOR RY. CO., PORT ANGELES.

*(1) Incorporated on Jan. 9, 1917, in Washington, with a capital of \$5,000,000. Incorporators: John Cain, J. W. Lindsay and Jas. W. Redden.

PORT ARTHUR PULP & PAPER CO., LTD. PORT ARTHUR, ONT.

*(1) New Mill.—It was announced Jan. 29, 1917, that this company would build a pulp and paper mill at Port Arthur, to cost \$1,000,000. A. G. Pounsford, 206 Bell Telephone Bldg., Toronto, is manager.

—Apr.

*(1) Incorporated on April 20, 1917, in Canada, with a capital of \$2,000,000, by Toronto capitalists. The company has awarded a contract for the construction of buildings to cost \$350,000. It is reported that the plant when completed will cost \$1,000,000.

PORT ARTHUR SHIPBUILDING CO., LTD.

*(1) New Company.—It was announced Jan. 5, 1917, that the Western Dry Dock & Shipbuilding Co., Port Arthur, Canada, recently purchased by John Burnham and others, had been reincorporated in Canada under the name of Port Arthur Shipbuilding Co., capital stock, \$2,500,000, part of which will be offered for public subscription.

*(2) Stock Offering.—It was announced at Chicago, Jan. 23, 1917, that a syndicate headed by John Burnham & Co. is privately offering the pfd. and common stock of this company, which is capitalized at \$1,000,000 pfd. and \$1,500,000 common. The latter shares are reported to have a book value of \$50 each. The syndicate managers stated:

"Based on present prices for vessels, it is believed the company's earnings for the next two years will about equal the total amount of pfd. stock. It is the intention of the directors to retire all of the pfd. during the next several years. The company is well protected in its steel requirements."

The company was organized to take over the Western Dry Dock and Shipbuilding Co. and is located at Port Arthur, Canada. It has the largest dry dock on the Canadian side of the Great Lakes.

PORTER BODY CO.

*(1) New Company.—It was announced Feb. 17, 1917, that this company had succeeded the Globe Truck Co. at Ypsilanti, Mich. The new company has completed plans for manufacturing auto trucks, bodies and trailers. Temporary work is being carried on in an old plant, but a factory building will be erected in the Spring of 1917. Officers have been elected as follows: Pres., David Killins, Ann Arbor; Vice-Pres., and Gen. Mgr., G. E. Porter, Ypsilanti; Treas., Glenn Killins, Ann Arbor;

Sec'y, Roy Killins, Ann Arbor. The Board of Directors is composed of these men, with Waldo Abbott added.

PORTER RUBBER CO., SALEM, O.

*(1) Capital Increased.—On Jan. 4, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$125,000 to \$250,000.

PORT HURON & NORTHWESTERN R. E.

*(1) Sale March 23.—It was announced at Port Huron, Mich., Feb. 21, 1917, that W. S. Sayres, Jr., acting for the Federal court, would offer that portion of the Pere Marquette Railroad system, formerly known as the Port Huron & Northwestern Railroad for sale in Port Huron, March 23.

Certified checks for \$182,000 must accompany each bid and no bid for less than \$1,200,000 will be received. The Port Huron & Northwestern Ry., which was the nucleus of the Pere Marquette system, was built by Port Huron capital.

PORTLAND, VANCOUVER & NORTHERN RY.

*(1) Change in Name.—It was stated on Feb. 16, 1917, that this company filed notice at Olympia, Wash., of a change

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

in name to the Pacific Coast Ry. The company holds a franchise to cross the military line at Vancouver.

PORT LIMON TRUST CORP.**NEW YORK.**

*(1) Capital Increase.—On Jan. 4, 1917, this company, Dover, Del., filed notice at Dover, Del., of an increase in capital from \$700,000 to \$6,000,000.

PORTO RICAN-AMERICAN TOBACCO CO.

*(1) Application to List.—Announced March 3, 1917, that this company had made application to the New York Stock Exchange to list \$3,632,700 of its capital stock.

*(2) Report, Six Months, Dec. 31, 1916, shows sales of \$3,972,912; net earnings, \$221,176; dividends from Industrial Co. of Porto Rico and Porto Rican Leaf Tobacco Co., \$108,740; interest on loans and deposits, \$26,429; income from other sources, \$144,650; total income, \$501,994; taxes, \$11,784; balance, \$480,260; dividends, \$594,472; deficit, \$104,212; previous surplus, \$1,777,267; total surplus, \$1,637,055.

*(3) Listed in New York.—Announced March 14, 1917, that the New York Stock Exchange had admitted to the list \$1,826,000 capital stock of this company, with \$1,805,900 to be added later, making the total amount authorized to be listed \$3,632,700.

*(4) Earnings Statement, Year Ended Dec. 31, 1916, as filed with the New York Stock Exchange, shows total sales amounting to \$3,972,912. Net profits, after deducting operating expenses, depreciation, taxes, etc., amount to \$490,260. During this period the company paid two cash dividends, totalling \$264,212, and an extra stock dividend of \$330,260.

PORTO RICO RYS. CO., LTD.

*(1) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross	\$829,066	\$747,180
Net after taxes	416,626	377,361
Total income	421,972	380,815

After providing for interest charges and dividends on the pfd. stock for 1916 there was a balance of \$151,439, which, with the previous surplus made total surplus Dec. 31 of \$200,239. Of this \$100,000 was transferred to depreciation reserve and \$10,000 to the office site reserve fund, leaving the surplus Jan. 1, 1917, \$90,239.

There was a total of \$22,484 charged out of earnings to capital account in the year, making a total of \$71,588 so charged out of income. The sinking fund redeemed and cancelled \$42,000 of bonds, making the total amount cancelled to date \$314,000.

*(2) Operations.—The operation ratio of this company in 1916, it was stated Feb. 13, 1917, was 49.74%, compared with 49.49% in 1915, and 52.28% in 1914. The freight traffic showed a good gain, 194,064 tons being handled in 1916, compared with 106,510 tons in 1915, and 101,524 tons in 1914. Passengers carried in 1916 were 5,203,192, compared with 6,109,000 in 1915.

*(3) New Director.—It was announced Feb. 13, 1917, that Sir Max Aitken, now Lord Beaverbrooke, had resigned as a director of this company and W. H. Chase elected to succeed him. The annual meeting time of the company is March 1; place, Toronto, Ont.

PRACTICAL CO-OPERATION FARMS, NEWARK, N. J.

*(1) Incorporated on March 22, 1917, in New Jersey, with a capital of \$250,000, to engage in farming. Incorporators: V. B. Boggott, Chappaqua; Max Wyner, New York; and Wm. P. Hurley, Nutley, N. J.

PRAIRIE OIL & GAS CO.

*(1) Crude Oil Advance.—Announced Jan. 3, 1917, that this company had made another advance of 10 cents in mid-continent crude oil to \$1.50 per barrel. This makes six advances in six weeks.

*(2) Crude Oil Advance.—Announced Jan. 11, 1917, that this company had advanced the price of mid-continent oil 10 cents a barrel to \$1.70.

—Mar.

*(1) Extra Dividend.—Announced March 14, 1917, that this company had declared a regular quarterly dividend of \$3 and an extra of \$2, payable April 30 to stock of record March 31.

—Apr.

*(1) Balance Sheet, as of Dec. 31, 1916, showed profit and loss surplus of \$47,197,183, compared with \$34,592,379 in 1915.

PRAIRIE PIPE LINE CO.

*(1) Directors and Officers Re-elected.—It was announced March 7, 1917, that at this company's annual meeting of stockholders, retiring directors were re-elected. Officers also were re-elected.

*(2) Extra Dividend.—Announced March 15, 1917, that this company had declared the regular quarterly dividend of \$5 and an extra of \$5, both payable April 30 to stock of record March 31.

*(3) Balance Sheet as of Dec. 31, 1916, showed profit and loss surplus of \$13,281,544, compared with \$11,798,741 last year.

PRATT & CADY CO., INC., MANHATTAN, N. Y.

*(1) Capital Increased.—On April 13, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$600,000 to \$1,000,000.

JANUARY 1 TO APRIL 30, 1917

PRATT CONSOLIDATED COAL CO.

¹(1) Resumption.—It was announced Jan. 10, 1917, that this company, Birmingham, Ala., would resume manufacturing coke at its Dora, Ala., plant on the St. Louis & San Francisco R. R. It has made a contract for the entire output of coke from this plant for one year, beginning at the time the ovens are put in blast.

**PRATT & LAMBERT, INC.,
LONG ISLAND CITY.**

¹(1) Capital Increased.—On Jan. 5, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$1,000,000 to \$2,000,000.

PRESCOTT GAS & ELECTRIC CO.

¹(1) Combined Income Account, Year Ended Dec. 31, 1916.—See Arizona Power Co.—Item No. 1.

PRESSED STEEL CAR CO.

¹(1) Car Orders.—See Chicago, Burlington & Quincy R. R. Co.—Item No. 2.

¹(2) Increased Dividend on Common.—Announced Jan. 24, 1917, that this company had declared a quarterly dividend of \$1.75 a share on the common stock and the regular quarterly dividend of \$1.75 a share on the pfd.

The common disbursement represents an increase of 25 cents a share over the \$1.50 dividend declared in October, 1916.

¹(3) Profits, 1916, Estimated.—It was stated Jan. 27, 1917, that this company's profits for the 1916 fiscal year were equal to between 25% and 30% on the \$12,500,000 common. This was after adequate depreciation and after charging into 1916 operations two years of the 7% dividend on the \$12,500,000 pfd.

Pressed Steel Car has a financial structure. There are no bonds and the \$25,000,000 stock, half and half pfd. and common, supported a gross business of nearly \$35,000,000 in the late year.

Actual profits of Pressed Steel Car itself in the year were over \$3,000,000. Added to this was \$1,000,000 earned by one of its subsidiaries. Other profits, if included, would bring the actual 1916 share earnings much above the 25% or 30% already stated.

A feature of 1916 results was that they were achieved practically without help of war orders. In fact, it may be claimed that over \$30,000,000 of 1916 gross sales represented the filling of domestic orders for new equipment.

—Feb.

¹(1) Directors Re-elected.—Announced Feb. 21, 1917, that at the annual meeting of this company the retiring directors were re-elected. There were represented at the meeting 158,356 shares out of 250,000 outstanding.

¹(2) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross sales.....	\$31,202,046	\$17,492,621
Net profits.....	3,061,152	1,324,815
Bal. after chgs.		
& pfd. divs.....	1,876,152	449,815
Surp. after com. divs.....	1,344,902	449,815

¹(3) Earnings on Stock.—It was stated Feb. 21, 1917, that this company's 1916 balance of \$1,876,152, after pfd. dividends, is equal to 15.01% on \$12,500,000 common stock, compared with 3.59% earned on the same stock in 1915.

¹(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$10,217,069, compared with \$8,872,167 Dec. 31, 1915.

¹(5) Statement by President.—It was stated Feb. 21, 1917, that Pres. F. N. Hoffstot, of this company, in his remarks to stockholders pointed out that the buying movement for domestic cars dropped off early in the year and was not resumed until the latter part of September. He added:

"Orders placed for the entire year, however, were larger than those placed in any year since 1906, but as these purchases were made late in the year the railroads will receive little benefit until the second half of 1917. The failure of the railroads to purchase more cars may be accounted for in part by the

agitation of employees for increased wages and in part by the fact that everything they use costs more.

"Shipments of the Russian cars, which was delayed owing to closing of the Panama Canal, inability to secure vessels, freight embargoes, etc., was completed during the year.

"Notwithstanding labor and material prices have advanced to a higher level, and there should result from those conditions a slowing down of demand, we feel confident domestic business has gained such impetus that there will be an increased demand for equipment, both at home and abroad, regardless of an immediate or delayed peace in Europe.

"We enter the year with a comfortable order book, mostly domestic, but the financial results for 1917 will largely depend on our ability to secure a regular supply of raw materials and labor. We are led to believe that if peace comes soon there will be an increased demand for replacement of rolling stock abroad.

"During the year \$620,885 was expended in construction and equipment of additions and also for special machinery needed for the manufacture of foreign cars. In addition, we disbursed \$68,524 for the purchase of additional land adjoining our McKees Rocks Works."

—Apr.

¹(1) Equipment Orders.—See Reading Co.—Item No. 2.

¹(2) Dividend of \$1.75 a Share on Common.—This company, April 25, 1917, declared a quarterly dividend of \$1.75 a share on the common stock, payable June 6 to stock of record May 16, in addition to the regular quarterly dividend of \$1.75 a share on the pfd. stock, payable May 23 to stock of record May 2.

Pressed Steel Car Co. resumed dividend payments on the junior shares July 25, 1916, with a declaration of \$1. This was increased to \$1.50 a share at the October meeting and to \$1.75 a share Jan. 24, 1917.

**PREST-O-LITE CO., INC.,
NEW YORK.**

¹(1) Capital Increase.—It was announced Jan. 3, 1917, that at a special meeting of stockholders of this company it was voted to increase the capital stock from 80,000 shares of no par value to 100,000 shares of no par value. The directors were authorized to take steps necessary to amend the certificates of incorporation in compliance with the adopted resolution.

¹(2) Increased Dividend.—Announced that on Jan. 31, 1917, this company would distribute to holders of record Jan. 20 a \$2 quarterly dividend, an increase of 50 cents over former payments.

¹(3) Capital Increased.—On Jan. 26, 1917, the company filed notice at Albany, N. Y., of an increase from 80,000 to 100,000 shares and working capital from \$800,000 to \$1,000,000.

PRICE BROS. & CO., LTD.

¹(1) Report, Year Ended Feb. 28, 1917, shows that the company earned a net surplus, after all charges except the Dominion profits tax of \$905,218, more than double the surplus earned in the 15-month period covered by the previous statement, and 3½% the surplus in the 12 months prior to that. Earnings were equal to 16.1% on the share capital, so after providing for the 6% dividend paid during the year, the first distribution the company has made to its stockholders, a balance of \$505,218 remained to be added to profit and loss account. That account now stands at \$1,908,787, or equal to \$38 a share on the capital stock.

**PRINCESS MOTOR CAR CORP.,
DETROIT, MICH.**

¹(1) Incorporated in December, 1916, in Michigan, with a capital of \$1,000,000.

PRINCIPAL REALTY CO.

¹(1) Sale.—See Frost Gas Co.—Item No. 1.

**PRINTZ C., INC. (THE),
JAMESTOWN, N. Y.**

¹(1) Capital Increased.—On March 26, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$30,000 to \$1,250,000.

**PRITCHARD-WHEELER LUMBER
CO., MEMPHIS, TENN.**

¹(1) Incorporated in April, 1917, in Tennessee, with a capital of \$300,000. Incorporators: Wm. Pritchard, C. L. Wheeler, C. G. Kadel, J. M. Clements, Paul Rush and others. The company has purchased 30,000 acres of timber land in Louisiana and at Wisner, La.

**PROCTOR AUTO SERVICE &
TRANSPORTATION CO.,
PROCTOR, MINN.**

¹(1) Incorporated in January, 1917, in Minnesota, with a capital of \$25,000,000, to deal in and repair automobiles and trucks. Incorporators: W. W. Westfall, S. P. Jones and L. D. Skyhawk, all of Proctor, Minn.

PRODUCERS ICE CO.

¹(1) Incorporated on March 8, 1917, in Delaware, with a capital of \$250,000, to manufacture and sell ice. Incorporators: Arthur W. Britton, Harry B. Davis and Samuel B. Howard, all of New York.

PRODUCERS' OIL CO.

¹(1) Sale Permitted by New Law.—See Texas Co.—Item No. 3.

**PROGRESSIVE EQUIPMENT CO.,
INC.**

¹(1) Incorporated on March 14, 1917, in New York, with a capital of 2,500 shares of \$100 each, 2,500 shares, no par value, active capital \$275,000, to deal in mechanical and electrical devices. Incorporators: C. Nicoll, L. A. Anderson and D. A. Fraser, 61 Broadway, New York.

PROSPECT CO., HOQUIAM, WASH.

¹(1) Incorporated on Feb. 2, 1917, in Washington, with a capital of 1,000,000 shares of no fixed value. Incorporators: Irving Matthews and Frits Anderson.

PROSPECT HILL CORP.

¹(1) Incorporated on March 27, 1917, in Delaware, with a capital of \$500,000, to improve real estate and personal property. Incorporators: A. W. Britton, Samuel B. Howard and L. H. Gunther, all of New York.

**PROVIDENCE GOLD MINING &
MILLING CO.,
NORTHEPORT, WASH.**

¹(1) Incorporated on Jan. 24, 1917, in Washington, with a capital of \$1,000,000. Incorporators: John Selmer, F. M. Turner, Chas. Johnson, H. L. Bjorlund and C. A. Lillisberg.

**PROVINCIAL PAPER MILLS CO.,
LTD.**

¹(1) Report, Year Ended Dec. 31, 1916.—Stated on March 27, 1917, that this company, which recently placed its 481,300 common stock on a 4% dividend basis, reported net earnings available for dividends of \$418,594 for the year ended Dec. 31, 1916. Allowing for a year's dividend on the pfd. stock, the balance was equal to 12% earned on the common shares. After all dividend payments for the year the company carried forward \$278,818.

The company owns mills at Mille Roches, Thorold and Georgetown, in Ontario. These were formerly operated separately as the St. Lawrence Paper Mill, the Montrose Paper Mill and the Barber Paper & Coating Mills, respectively. The Provincial company, which is headed by I. H. Weldon, of Toronto, was originally formed as a holding concern, but a year ago acquired the controlled properties outright.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

The company made application for listing privileges on the Montreal Stock Exchange, and some interest has developed in its securities in the past few months.

PRUDENTIAL OIL CO. OF TEXAS.

*(1) Incorporated on April 6, 1917, in Delaware, with a capital of \$1,000,000, to acquire and develop oil lands. Incorporators: Wm. F. O'Keefe, Geo. G. Steigler and E. E. Wright, Wilmington, Del.

PRUDENTIAL OUTFITTING CO. OF DELAWARE.

*(1) Incorporated on April 27, 1917, in Delaware, with a capital of \$2,500,000, to manufacture, sell and deal in all kinds of clothing. Incorporators: Ira I. Newmak, Fay Spears, New York.

PRUDENTIAL PICTURES CORP.

*(1) Incorporated on March 7, 1917, in Delaware, with a capital of \$5,000,000, to manufacture motion pictures and films. Incorporators: Wm. F. O'Keefe, Geo. G. Steigler and E. E. Wright, Wilmington, Del.

PRUDENTIAL TOBACCO CO.

*(1) Taken Over.—See Tobacco Products Corp.—Item No. 3.

PUBLIC BANK OF NEW YORK.

*(1) New Director.—Announced Jan. 10, 1917, that at the annual stockholders' meeting of this bank William D. Walker, Pres. of the American Thermos Bottle Co., was elected to the board. All retiring directors were re-elected.

—Apr.

*(1) New Branch.—It was announced March 31, 1917, that the New York State Superintendent of Banks had granted permission to this bank to open a branch in Brooklyn, N. Y.

PUBLIC LIGHT & POWER CO.

*(1) Earnings in 1916.—It was announced Jan. 10, 1917, that this company increased its gross revenues almost 100% in 1916 over 1915. It supplies power to a population of about 70,000 in a number of towns in Tennessee. The company owns both hydroelectric and steam-generating plants, and is steadily extending its service in the territory served, much of which until recently depended only upon oil for illumination, with no central power supply.

Earnings of the company are \$14,000 gross a month, and with the taking on of contracts already signed should go to above \$20,000 a month. Present revenues show fixed charges as well as pfd. dividend requirements substantially twice earned.

About \$300,000 from the sale of pfd. stock has been put into the property in addition to the bonds.

PUBLIC PACKING CO.

*(1) New Packing Co.—It was stated Jan. 20, 1917, that a new packing house was to be built in Chicago by this company, a Maine corporation, with a capital of \$750,000. It will issue \$100,000 pfd. stock. Peter E. Eckinger, of Chicago, will head the company.

• PUBLIC SERVICE CO. OF NORTHERN ILLINOIS.

*(1) Notes Called.—Announced Jan. 30, 1917, that this company had called for payment March 1 all of the \$3,836,000 6% notes of the Northwestern Gas Light & Coke Co., due Sept. 1, 1917, which were assumed by the former company when it absorbed the Northwestern Gas Light & Coke Co.

—Feb.

*(1) Bond Issue Approved.—It was announced Feb. 9, 1917, that the Illinois Public Utilities Commission had approved the issue and sale of \$5,000,000 bonds by this company. Part of the proceeds of the issue will be for the redemption March 1, 1917, of the \$3,834,000 Northwestern Gas Light & Coke Co. 5% coupon notes.

*(2) Report, Year Ended Dec. 31, 1916, shows gross of \$7,783,156; net of \$3,274,673 and a surplus of \$191,694, after charges and dividends.

*(3) Bond Sale.—It was announced Feb. 15, 1917, that Lee, Higginson & Co., associated with Halsey, Stuart & Co., Russell, Brewster & Co. and the Illinois Trust & Savings Bank of Chicago, had purchased \$5,000,000 Public Service Co. of Northern Illinois 6% gold debentures, due serially March 1, 1918-1922. The company owns all the properties formerly belonging to the North Shore Electric Co., Economy Light & Power Co., Chicago Suburban Light & Power Co., Illinois Valley Gas & Electric Co., Kankakee Gas & Electric Co., Pontiac Light & Water Co. and the Northwestern Gas Light & Coke Co.

Total funded debt, including this issue, is \$31,346,100. For the 1916 year the company earned \$3,274,673 net, or just about twice the annual interest on the entire outstanding funded debt, including the new debentures.

*(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$978,903, compared with \$915,846 Dec. 31, 1915.

*(5) Bond Offering.—It was stated Feb. 23, 1917, that Halsey, Stuart & Co., Russell, Brewster & Co., Lee, Higginson & Co. and the Illinois Trust & Savings Bank, Chicago, are offering \$5,000,000 of this company's 6% gold debentures, dated March 1, 1917, due serially March 1, 1918-1922. The prices, plus interest, for each \$1,000,000 annual maturity are: 1918, 101.45; 1919, 101.41; 1920, 101.37; 1921, 100.88, and 1922, 101.07.

The company has a total funded debt outstanding upon completion of the present financing of \$31,346,100. Trustee, Illinois Trust & Savings Bank, Chicago.

—Apr.

*(1) Questioned by Illinois Commission.—It was announced April 2, 1917, that this company had been asked by the Illinois Public Utilities Commission why it had issued \$900,000 of refunding mortgage bonds without authority from the commission.

• PUBLIC SERVICE CORP. OF NEW JERSEY.

*(1) Report, Year Ended Dec. 31, 1916, shows income as follows:

	1916	1915
Op. rev. of sub. companies	\$42,549,775	\$37,471,228
Net after taxes	16,694,920	15,376,550
Surp. after chgs.	2,947,693	1,846,304

*(2) Report, Year Ended Dec. 31, 1916, shows net income of \$2,947,694, after paying all interest and amortization charges, which is equivalent to 11.79% on the \$25,000,000 capital stock compared with 7.78% on a same amount of stock in 1915.

*(3) Balance Sheet of as Dec. 31, 1916, showed profit and loss surplus of \$3,718,286, against \$109,696,582 in 1915.

—Apr.

*(1) Directorate Reduced.—It was announced April 3, 1917, that at the annual meeting of this company the Board of Directors was reduced in numbers from 21 to 18, by the decision not to fill the vacancies caused by the retirement of George J. Roberts and P. F. Wanser and the deaths of John J. Burleigh, Edgar R. Ward and F. W. Roebbling.

Other retiring directors were re-elected. At the board meeting which followed, the numerical designation of the Vice-Pres. was dropped and Randolph Morgan, A. B. Kuser, E. W. Wakelee and Percy S. Young were elected to the offices. T. W. Van Middlesworth was elected Treas.; William S. Barker, Comptroller, and Farley Osgood, Vice-Pres. and Gen. Mgr. of the Public Service Electric Co. Other officials were re-elected.

John L. O'Toole and Dudley Farrand have been appointed assistants to Pres. Thomas N. McCarter, of the Public Service Corp. of New Jersey.

—Apr.

*(1) Equipment Orders.—See Reading Co.—Item No. 2.

PULLMAN MOTOR CAR CO.

*(1) Receivers.—It was announced Jan. 18, 1917, that Judge A. N. Hand, in the Federal District Court at New York, had appointed William A. Keyworth, Carlton L. Hoff and Henry D. Schmidt, ancillary receivers for this company, of York, Pa., with New York office at 1892 Broadway.

This action was taken in an equity suit brought by the Ryland & Brooks Lumber Co., of Maryland, and four other creditors. The three men named were made receivers in Pennsylvania the previous week.

JANUARY 1 TO APRIL 30, 1917

The liabilities are given as \$557,163 and the book value of the assets as \$1,306,832. It was stated the company's sales in 1916 reached \$3,343,000.

PULLMAN MOTOR CAR CORP.

¹(1) Incorporated on Jan. 25, 1917, in Delaware, with a capital of \$350,000, to manufacture motor cars of all kinds. Incorporators: F. D. Buck and Geo. W. Dillman, Wilmington, Del.

PULLMORE MOTOR TRUCK CO.

¹(1) Incorporated on March 15, 1917, in Delaware, with a capital of \$10,000,000, to manufacture automobiles and all parts thereof. Incorporators: Herbert E. Latter and Norman F. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

PUNCH PRODUCTS CO., CHICAGO.

¹(1) Capital Increased.—On March 20, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$500 to \$800,000.

PUNTA ALEGRE SUGAR CO.

¹(1) Status.—It was stated Jan. 9, 1917, that this company represents a merger, completed the middle of 1916, of the Trinidad Sugar Co., organized in 1892, and the Florida Sugar Co., which ground its first crop in 1916, with the Punta Alegre Sugar Co., which is just emerging from the construction stage and will start its grinding operations early in 1917.

The consolidated properties have retained the name of the newly constructed sugar mill and plantations. They start out with a prospective production this crop year of 300,000 bags, against 159,946 bags at Trinidad and Florida during the 1916 crop. On this 159,946-bag production these two mills in 1916 showed a combined net profit of \$724,668.

About \$525,000 was expended in enlargements and improvements at the Trinidad and Florida plants, the net result of which will be reflected in a reduced cost of production and in an increased output, the latter reaching 110,000 bags at each of these two mills.

Trinidad should increase its output from 86,000 bags to 110,000, a gain of 25,000 bags, or 30%. Florida should increase from 74,000 bags to 110,000, a gain of 35,000, or over 45%. The actual grinding capacity at each place is 125,000 bags, but labor and cane conditions will probably hold production down to not over 110,000.

The Punta Alegre mill and plantations are located on the north coast of Cuba; the Florida property is in the interior; while Trinidad is on the south coast.

The three properties own and control about 64,000 acres of sugar lands. At Punta Alegre, for the crop of 1917, no less than 7,000 acres have been planted, of which not much over 3,500 acres will be available for cane cutting this season.

The Punta Alegre mill was built in anticipation of a crop far larger than 80,000 bags, and with a small additional expenditure a maximum capacity of 300,000 bags will be attained.

Punta Alegre Sugar Co. has outstanding two issues of bonds aggregating \$4,250,000, on which annual interest calls for \$255,000. This property represents an actual cash investment of dollar for dollar of securities. Proceeds of sale of the stock at par went into the treasury.

—Feb.

¹(1) Status.—It was stated Jan. 31, 1916, that despite the fact that this company's shares are selling in the market at a discount of 20% from the actual cash paid in the operating end, the business is moving along the even tenor of its way.

The Boston office received a cable from Cuba stating that the new Punta Alegre mill would be ready to start grinding on Feb. 1, exactly the schedule mapped out three months previously.

The Trinidad and Florida mills have been grinding for several weeks and are operating at capacity. The management is confident of its ability to realize this crop year the 300,000 bags anticipated.

The company has no financing plans in mind beyond the possible issuance later of a small block of perhaps \$300,000 bonds. This will pay the balance of construction expenditures.

¹(2) Operations.—It was stated Feb. 5, 1917, that this company began grinding on Feb. 3 at its new mill at Punta Alegre, Cuba. The other two mills of the company, the Trinidad and Florida, have been in operation for nearly a month and are producing a maximum amount of sugar.

Punta Alegre, despite the fact that the shares are selling at a 40% discount from the actual cash paid in, will produce in 1917 300,000 bags of sugar and is expected to earn between \$10 and \$12 per share on its 63,000 shares of stock.

—Mar.

¹(1) Production Comment.—On March 30, 1917, the "Wall Street Journal" said that the Punta Alegre Sugar Co. situation had taken a decided turn for the better. At the beginning of the grinding season in Cuba the expectation was for a production totaling 300,000 bags from the combined Punta Alegre-Florida-Trinidad properties. Recently this estimate had to be revised downward, owing to grinding interruptions and burning of cane by the revolutionists, but it is understood that the Florida mill is now again operating at full capacity, and the other two nearly at capacity. If no further obstacles to continuous operation are encountered it is possible that the company will produce this season as much as 250,000 bags, whereas at one time it looked as if the outturn would not be much more than half the 300,000 bags originally estimated.

A distinctly favorable feature in view of the strength of the raw sugar market is the fact that Punta Alegre has a substantial amount of unsold sugar on hand. Cuban raws sold at 4½ cents yesterday. High prices will tend to offset in some degree the costly delays already experienced, and there is an excellent chance that earnings per share will not be as much less than the \$10 or \$12 at first anticipated as a prospective reduction of 50,000 bags would indicate.

PURE MILK CO., LTD.

¹(1) Incorporated on Jan. 19, 1917, in Canada, with a capital of \$400,000, divided into 8,000 shares of \$50 each, to produce and deal in milk and all products in which milk may be used. Incorporators: John Milne, Geo. Lynch-Staunton, Alfred Wavell Peene, Peter Alfred Thompson and Wm. Heard Forster. Chief place of business, Hamilton, Ont.

PURE OIL CO.

¹(1) Extra Dividend on Common.—Announced Jan. 24, 1917, that this company had declared the regular quarterly dividend of 6% on the common and an extra of 4%, both payable March 1 to stock of record Feb. 8.

—Mar.

¹(1) Option.—It was announced at Pittsburgh March 7, 1917, that P. J. White, of Oklahoma, had paid \$50,000 for a 30-day option on control of this company. The option is at \$28.75 a share, par \$5.

¹(2) President Dies.—Announced March 10, 1917, that Pres. Michael Murphy, of this company, had died at his home near Philadelphia.

¹(3) Report, Year Ended Dec. 31, 1916, shows net earnings as follows:

	1916	1915
Pure Oil Co.....	\$1,244,766	\$731,405
Other Companies	3,131,659	2,890,985
Total	\$4,376,425	\$3,612,390

Net earnings in 1914 were \$1,763,146; in 1913, \$2,186,636; in 1912, \$1,678,602. Earnings of controlled companies were not reported separately prior to 1915.

Assets above liabilities (Pure Oil Co.) amounted to \$5,916,747, and assets of Pure Oil Co. in other companies, \$2,903,733. Total assets above liabilities were \$8,820,481. During 1916 there was retired \$78,600 of the 6% cumulative pfd. stock, leaving \$101,500 outstanding Dec. 31, 1916.

—Apr.

¹(1) Extra Dividend of 4% Declared.—This company April 25, 1917, declared the regular quarterly dividend of 6% and an extra of 4%, both payable June 1 to stock of record May 15.

¹(2) President and General Manager Elected.—E. H. Jennings was elected Pres. of this company April 25, 1917, to fill the unexpired term of Michael Murphy, deceased. N. H. Weber, who had filled the offices of Sec'y. and Treas., was elected to the newly created position of Gen. Mgr.

PURITAN BRICK CO., VINTON COUNTY, O.

¹(1) Capital Increased.—On March 23, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$10,000 to \$375,000.

PURITY PAPER VESSELS CO.

¹(1) Incorporated in February, 1917, in Maryland, with a capital of \$250,000. Incorporators: Hans Von Marees and Wm. R. Lenderking, of Baltimore, and Sidney Frost, Washington, D. C.

PYRENE MANUFACTURING CO.

¹(1) Stock Increase Authorized.—Announcement was made Jan. 2, 1917, that at a special meeting of stockholders of this company it was voted to increase the common stock from 100,000 to 300,000 shares, par \$10, making the total authorized capital \$3,000,000, of which \$50,000 is pfd.

The stockholders further authorized the offering of 50,000 shares of the increased common stock for subscription at par, pro rata to the stockholders of record on the day following the filing of a certified copy of the amended certificate of incorporation.

The directors were authorized to sell at their discretion any part of the 50,000 shares not so subscribed at not less than par.

¹(2) Stockholders' Rights.—It was stated Jan. 8, 1917, that holders of record Jan. 5 may subscribe for the new stock of this company, par \$10, to the extent of 50% of their holdings. Rights expire Feb. 6, by which date full payment must be made.

PYRO IGNITION CO., INC., NEW YORK.

¹(1) Capital Increased.—On Feb. 19, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$50,000 to \$500,000.

QUAKER BRAID CO.

¹(1) Consolidation.—Announcement was made on March 26, 1917, that the Enoch-Hermes Braid Co., Inc., and George S. Justus & Co., both manufacturers of dress trimmings, had consolidated and formed the Quaker Braid Co. Joseph A. Hermes is President; George J. Justus, Vice-Pres.; W. S. Enoch, Secy., and John C. Diamond Treas. of the company.

QUAKER OATS CO.

¹(1) Special Meeting March 9.—It was stated Feb. 13, 1917, that at a special meeting of stockholders of this company March 9, stockholders would be asked to vote on an increase in the pfd. stock from \$9,000,000 to \$15,000,000, and the common stock from \$10,000,000 to \$15,000,000. For the purpose of the meeting, books close Feb. 17 and reopen March 8.

¹(2) Acquisition.—It was announced Feb. 15, 1917, that this company, Peterboro, Ont., had purchased the Canadian Flour & Cereal Mills Co., London, Ont.,

JANUARY 1 TO APRIL 30, 1917

having a capacity of 400 barrels per day, together with the right to manufacture the Tillson package brand of oatmeal. It was also stated that a 300-barrel mill at Neepawa, Ont., had been purchased.

³(3) **Earnings Statement, Year Ended Dec. 31, 1916**, compares as follows:

	1916	1915
Net profits.....	\$3,991,312	\$3,724,223
Bal. after chgs. & pfd. divs.	2,074,686	2,890,712
Surp. after com. & stock divs.	1,155,936	2,140,730

⁴(4) **Earnings on Stock**.—It was stated Feb. 21, 1917, that this company's 1916 balance after pfd. dividends of \$2,074,686 is equal to 32.42% on \$8,250,000 common stock, compared with 38.54% earned on \$7,500,000 common stock in 1915.

—Mar.

¹(1) **Capital Increase Approved**.—It was announced March 9, 1917, that at a special meeting of this company's stockholders the plan of the directors to increase the capitalization from \$19,000,000 to \$30,000,000 was approved. The new capital will consist of \$15,000,000 common and \$15,000,000 pfd., the former issue being increased by \$5,000,000 and the latter by \$8,000,000 new stock.

²(2) **Directors Re-elected**.—It was announced March 9, 1917, that at this company's annual meeting retiring directors were re-elected.

³(3) **To Rebuild Peterborough Plant**.—Information was given out on March 24, 1917, that this company intended to rebuild its Peterborough, Ont., plant destroyed by fire in December.

—Apr.

⁴(1) **Capital Stock Increase**.—Announced on April 7, 1917, that this company had increased its capital stock from \$19,000,000 to \$30,000,000. It was stated that there would be \$15,000,000 preferred and the same amount of common.

QUEBEC BANK.

¹(1) **Taken Over**.—See Royal Bank of Canada.—Item No. 1.

QUEBEC CEMENT CO., LTD.

¹(1) **Incorporated on Feb. 9, 1917**, in Canada, with a capital of \$1,250,000, divided into 12,500 shares of \$100 each, to manufacture, trade and deal in Portland and other cement, and the by-products thereof. Incorporators: Paul Joncas, Napoleon Eugene Rousseau, Antoine Crepin, Eugene Ernest Grenier and Arthur Delisle. Chief place of business, Quebec.

QUEBEC & SAGUENAY RY.

¹(1) **Government Purchase Settlement**.—It was announced Feb. 7, 1917, that the question of the purchase of this road by the Canadian Government would not be taken to court, as it is the intention of Frank Cochrane, Canadian Minister of Railways, to act according to Judge Cassel's suggestion that the matter be settled by the House, owing to the complexities of the undertaking. Judge Cassel rendered an unfavorable decision in the Exchequer Court Jan. 24, 1917. Accordingly a bill will be presented in the Legislature whereby the road will be purchased at a fixed price.

QUEEN CITY MARINE RY. & DOCK CO.

¹(1) **To Be Taken Over**.—See Howard Shipyards & Dock Co.—Item No. 2.

QUEEN CONSOLIDATED MINING CO., COLVILLE, WASH.

⁴(1) **Incorporated on April 20, 1917**, in Washington, with a capital of \$1,000,000. Incorporators: J. W. Douglas, Paul La Plant, Nora La Plant, J. C. Harrigan and others.

QUEENS TOBACCO MANUFACTURING CO., INC.

⁴(1) **Incorporated on April 16, 1917**, in New York, with a capital of \$500,000, to deal in tobacco and smokers' articles.

Incorporators: W. J. Roche, F. Briel and F. L. Skelly, 446 Essex St., Brooklyn, N. Y.

QUICKWORK CO. OF OHIO.

¹(1) **Incorporated in February, 1917**, in Ohio, with a capital stock of \$400,000, to take over and operate the sheet metal working machinery business of H. Collier Smith, Detroit, Mich. A plant has been purchased in St. Marys, Ohio. Mr. Smith, Pres. and manager, retains the controlling interest. H. E. Groves is Vice-Pres.; A. F. Smith, Sec'y and Treas.; K. J. O'Leary, production manager; R. H. Sims, sales manager, and Harry G. Smith, head of engineering department.

QUINCY MARKET COLD STORAGE & WAREHOUSE CO.

²(1) **Capital Increase**.—It was announced Feb. 1, 1917, that the stockholders of this company had voted to increase the capital stock \$500,000 by issuing \$250,000 5% pfd. and \$250,000 common stock for the purpose of obtaining funds for the erection of new buildings in Boston.

QUINCY MINING CO.

²(1) **Income Account, Year Ended Dec. 31, 1916**, compares as follows:

	1916	1915
Gross	\$5,400,875	\$3,983,958
Net profits.....	2,758,659	1,873,675

²(2) **Earnings on Stock**.—It was stated March 9, 1917, that this company's 1916 net profits of \$2,758,659 are equal to \$25 a share on 110,000 shares of capital stock, compared with \$17 a share in 1915.

³(3) **Balance Sheet**, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,663,614, compared with \$1,664,956 Dec. 31, 1915.

⁴(4) **Statement by President**.—Pres. Todd, of this company, it was announced March 10, 1917, in his annual remarks to stockholders, said, in part: "Copper produced during 1916 was sold at prices ranging from 17½ to 30¼ cents a pound, the average being about 25½ cents. Copper continues in good demand and estimated product of the mine up to June 1, 1917, has been sold at prices that average better than 30 cents a pound."

"Gen. Mgr. Lawton reported production of the mine was 1,204,026 tons of copper rock with a yield of 17½ pounds refined copper per ton. Development work totaled 29,910 feet. In all openings the lodes developed averaged fairly well for copper. No. 7 shaft produced 15,876 tons of copper rock; No. 2 shaft 416,282 tons of a better grade than the previous year. No. 6 shaft produced 331,269 tons of rock of good average grade, and No. 8, 446,600 tons."

"The year was an extremely busy one for the smelter, so much so that about Nov. 1 the briquetting plant, which had been idle for over five years, was again started in order to increase the capacity of works."

⁵(5) **Comment on 1916 Report**.—On March 16, 1917, the "Boston News Bureau" said a three-cent increase in the cost of making its copper was one of the outstanding features of 1916 operations conducted by this company. Wage advances, including bonuses, together with higher prices for all materials and supplies, were the chief contributing factors to this higher copper cost, but Quincy was again visited by air blasts which added its mite to increasing this item.

The 1916 average cost of producing copper was 12.4 cents a pound, against 9.6 cents in 1915, but in 1913 the average was up to 15.07 cents when there was not only a recurrence of the air blasts, but a strike of miners which tied up operations for a time.

Quincy was able to bring up the average extraction of copper from the rock handled from about 17 pounds in the previous year to 17½ pounds in 1916, which was a small offset to the higher production cost. Tonnage of rock fell below the previous year's total, due to

the forced curtailment in July, when the air blast occurred.

At the beginning of the year Quincy had cash and copper valued at \$1,824,785 and accounts receivable of \$624,780, against which there were accounts payable totalling \$246,167.

QUINCY, OMAHA & KANSAS CITY

QUISSETT MILLS.

¹(1) **Extra Dividend**.—Announced Jan. 29, 1917, that this company had declared an extra dividend of \$10 per share, in addition to the regular quarterly dividend of \$2, both payable Feb. 15 to stock of record Feb. 6.

—Feb.

²(1) **Financial Statement**, issued by this company Feb. 20, 1917, shows that it had increased its reserve for depreciation and its profit and loss surplus from \$748,000 to \$1,145,000, while paying out \$112,000 in dividends. This means that the Quissett earned for depreciation, surplus and dividends approximately \$512,000, or 33% on the \$1,505,000 of capital. If the \$18,000 which is required for the pfd. stock is subtracted from the total earnings and the balance figured on the common stock, it is seen that the Quissett earned 40% on its common.

RAAB (JOHN D.) CHAIR CO.

²(1) **Extra Dividend on Pfd.**—It was announced Feb. 16, 1917, that an extra dividend of 3% had been paid to pfd. stockholders of this company, Grand Rapids, Mich. Under the terms of the issue the pfd. stock is entitled to 7% annual dividends and to share in the earnings in excess of 10% on the common. The extra dividend was paid in compliance with this provision.

RACINE MOTOR TRUCK CO.

RACINE, WIS.

⁴(1) **New Enterprise**.—It was announced April 5, 1917, that this company was being organized with a capital of \$500,000 to erect a plant to manufacture motor trucks, etc. Details are indefinite. Charles F. and Fred H. Piggins, who have been engaged in wagon, axle and spring manufacture at Racine for some time, and Ira Miller, Los Angeles, Cal., are promoting the enterprise.

RACINE RUBBER CO.

¹(1) **Report, Year Ended Dec. 31, 1916**, as reported to the New York Stock Exchange, compares as follows:

	1916	1915
Gross income ..	\$4,788,171	\$3,248,665
Operating profit ..	1,219,285	885,404
Net after taxes, etc.	720,189	540,497

¹(2) **Balance Sheet**, as of Dec. 31, 1916, shows a profit and loss surplus of \$894,193.

RADIO TALKING PICTURE CORP., EDDYVILLE, N. Y.

¹(1) **Incorporated on Jan. 19, 1917**, in New York, with a capital of \$250,000, to synchronously with photographic record produce radio sound, music records,

JANUARY 1 TO APRIL 30, 1917

of moving animate objects and to conduct hotels and restaurants. Incorporators: L. Ring, W. E. Lennon and W. B. Van Sise, 233 Broadway, New York.

RADIUM CHEMICAL CO., AUGUSTA, ME.

*(1) Incorporated in January, 1917, in Maine, with a capital of \$750,000, to manufacture everything in chemistry and chemicals and tin containers.

RAILWAY ELECTRIC SWITCH & SUPPLY CO.

*(1) Incorporated on April 12, 1917, in Delaware, with a capital of \$1,500,000, to manufacture and sell electrical railway switches, etc. Incorporators: Wilber A. McCoy, Pittsburgh, Pa.; Chas. H. Jones and W. I. N. Lorland, Dover, Del.

RAILWAYS COMPANY GENERAL.

*(1) New Director.—It was announced Feb. 19, 1917, that at the annual meeting of this company the retiring directors were re-elected, with the exception of Wm. H. Crook, whose place was filled by Evans R. Dick, Jr.

*(2) Report, Year Ended Dec. 31, 1916, shows net income derived from interest on bonds and securities was \$29,648. Expenses and taxes amounted to \$5,591, leaving a net profit of \$23,957 for the year, with a total surplus Dec. 31, 1916, after deductions, of \$320,101, as against total surplus of \$320,583 Dec. 31, 1915.

RAILWAY STEEL-SPRING CO.

*(1) Report, Year Ended Dec. 30, 1916, shows income account as follows:

	1916	1915
Gross	\$14,086,499	\$7,043,957
Net	2,710,808	1,863,228
Bal. aft. pfd. div.	1,765,808	418,228
Surp. aft. com. div.	1,597,056	418,228

*(2) Earnings on Stock.—It was stated March 1, 1917, that this company's 1916 balance after pfd. dividend of \$1,597,056 is equal to 13.07% on \$13,500,000 common stock, compared with 3.09% earned on the same stock in 1915.

*(3) Balance Sheet, as of Dec. 30, 1916, shows a profit and loss surplus of \$5,969,941, compared with \$4,372,885 Dec. 30, 1915.

*(4) Statement by President.—In his annual remarks to stockholders Pres. F. F. Fitzpatrick, of this company, it was stated March 1, 1917, said: "Improved conditions existing during the latter part of 1915 continued throughout 1916, and the plants of your company have been operated to their fullest capacity all of the year, manufacturing its regular line of production, of which considerable volume has been sold for export, resulting in larger earnings, both gross and net, than in any other year since the incorporation of the company.

"To meet demands of this additional business, necessary alterations to properties have been made and capacity for output of manufactured material has been increased. The favorable conditions in your company's business are still prevailing, and the outlook for 1917 continues promising.

"Your Board of Directors has deemed it advisable to reserve \$1,000,000 from surplus earnings of the year for improvements, betterments and retirement of bonds. In addition, a charge of \$1,000,000 for depreciation of machinery, plants and gas wells has been made and applied to operating expense. After making these charges and those necessary for improvements and betterments, payment of interest on the 5% bonds secured by mortgages on the Latrobe plant and Inter-Ocean plant, and the necessary reservation for accrued interest on Inter-Ocean plant bonds, dividends of 7% per annum on the pfd. and a quarterly dividend of 1¼% on the common stock, there has been carried to surplus account \$1,597,056.

"Trustees for the sinking fund for Latrobe plant bonds redeemed and cancelled during the year \$138,000 in par value of the bonds. Likewise, there

were redeemed and cancelled \$182,000 in par value of Inter-Ocean plant bonds. Since their issue, total amount of Latrobe bonds redeemed through operation of sinking fund is \$1,506,000 in principal amount; and of Inter-Ocean bonds there have been similarly redeemed \$401,000 in principal amount. Reduction in interest through retirement and cancellation of these bonds amounts to \$75,800 and \$20,050 per annum for the respective issues.

"The plants of your company have been maintained in the best possible condition, and necessarily larger amounts than usual for maintenance have been made and charged to expense of operation."

*(5) Directors and Officers Re-elected.—Announced March 1, 1917, that at the organization meeting of this company the directors and officers were re-elected.

*(6) Comment on 1916 Report.—On March 2, 1917, the "Boston News Bureau" said that this company is unique among the equipment companies in that it has religiously abstained from taking war orders. It is highly interesting to note the high tide which its gross and net earnings reached during the fiscal 12 months to Dec. 31. In this period the company earned 20.4% for its \$13,500,000 common, against 3.09% in 1915 and a previous high in the best year it ever had, 1906, of 8.75%.

During 1916 Railway Steel-Spring produced \$14,086,499 of gross business, an increase of \$7,042,542 over the \$7,043,957 turned out in 1915. This is a gain within a mere fraction of 1% of a full 100% and is 40% larger than the gross of the biggest previous year the company ever had.

Actual earnings of Railway Steel-Spring were in fact better than the \$4,022,590 shown in the income account. For the four previous fiscal years the company's annual depreciation charge had averaged a bit over \$350,000. During 1916 the depreciation charge was increased by \$650,000 to \$1,000,000 and the entire \$1,000,000 was absorbed as an operating expense. This difference of \$650,000, as will be noted, is equal to an additional 4¼% on the common.

The \$13,500,000 common is now on a 5% basis. This is 1.5% larger than the average earned for the common from 1906 through 1915. But for the ensuing two or three years it is confidently believed that Railway Steel-Spring will have a very strong earning record and that this 5% with possible occasional extras can be maintained.

At the close of its fiscal year the corporation had net working capital of \$6,338,068, against \$4,638,314 on Dec. 31, 1915, an increase of over 36%.

*(7) Record Profits for 1917 Predicted.—On March 21, 1917, the "Boston News Bureau" said that this company promised to duplicate in 1917 its fine record of 1916, when a balance of 20.4% was shown for the \$13,500,000 common stock. Considering the fact that for the 10 years, 1907 to 1916, the average balance for the common was but 4.53%, the magnitude of the 1916 profits and the prospective earnings in 1917 are readily appreciated.

The company, under its present management, has multiplied its working capital nearly three times. If the current year results as it promises, by Dec. 31 the balance of net quick should be not far from \$8,500,000, which is clearly ample to sustain gross sales of \$15,000,000.

The directors feel that the 5% dividend is well established. An attempt to start dividends was made back in 1907 and 1906, but could not be maintained.

Railway Steel-Spring when running at capacity is able to secure a very low manufacturing expense. In 1916 the manufacturing profit was better than 35%. It may be a trifle less in 1917 on account of high costs of raw materials. On the other hand, selling prices are higher and gross sales should take up the greater portion of the increase in cost of production.

*(8) Comment on Annual Report.—This company's report for the 1916 year showed gross of \$14,086,499, an increase of \$7,042,542 over the \$7,043,957 gross turned out in 1915, or a gain of nearly 100%. The 13.07% earned on the common in 1916 compares with 3.09% earned in 1915, but net earnings of \$4,022,590 included a depreciation charge of \$1,000,000, against \$350,000 charged off in previous years. This difference is equal to more than 4% on the common.

Earnings applicable to common shares were figured after usual deductions for interest and pfd. dividends. An extra reserve of \$1,000,000 was also deducted for improvements, betterments and retirement of outstanding bonds. This charge was equal to more than 7% on the common stock.

This company as of Dec. 31, 1916, had net quick assets of \$7,940,465, against \$4,761,210 at the close of 1915, a gain of about 67%. In other words, there were on hand net quick assets which could be applied to paying off outstanding bonds at par and still show a balance of something like \$1,700,000 for the pfd. stock.

—Apr.

*(1) Plants Operating at 100% Capacity.—Stated on April 9, 1917, that F. F. Fitzpatrick, president of this company, had left for Chicago and St. Louis to inspect the western plants. Fitzpatrick said that all the Railway Steel-Spring plants were operating at 100% capacity.

RAINIER MOTOR CORP., NEW YORK.

*(1) Capital Increased.—On Feb. 21, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$600,000 to \$700,000.

RAINIER PRODUCTS CO.

*(1) Brewery Acquired for Fruit Drink Plant.—On April 16, 1917, a dispatch from Seattle, Wash., in the Boston "Evening Transcript," stated that this company had taken over the plant of the Seattle Brewery and Malling Co. and had installed new machinery for the manufacture of fruit drinks. Approximately \$250,000 additional will be expended in replacing the present equipment and preparing for operation.

RAINY RIVER PULP & PAPER CO.

*(1) Incorporated on Jan. 31, 1917, in Delaware, with a capital of \$1,000,000, to operate lumber mills, pulp and paper mills. Incorporators: M. J. Sweeney, J. M. Bengier, Spokane, Wash., and H. L. McNair, Wallace, Idaho.

—Apr.

*(1) New President Elected.—Robert Sweeney, April 21, 1917, was elected Pres. of this company, whose plants are located at Port Mellon, B. C. The company manufactures kraft pulp and paper.

RANLO MANUFACTURING CO.

*(1) Organized.—It was announced Jan. 24, 1917, that organization had been effected by this company, Gastonia, N. C., recently incorporated with a capitalization of \$500,000. This corporation plans to build a 6,000-spindle cotton mill for manufacturing fine combed yarns. Its officers are: John C. Rankin, Pres.; C. B. Gray, Vice-Pres., and W. T. Love, Sec.-Treas.

—Feb.

*(1) New Building.—It was announced Feb. 21, 1917, that this company had awarded the contract for constructing its main building. John C. Rankin, Gastonia, N. C., is Pres.

RAQUETTE LAKE RY. CO.

*(1) Sale.—See New York Central R. R. Co.—Item No. 2.

RAVENNA RUBBER CO., CLEVELAND, O.

*(1) Capital Increased.—It was announced March 3, 1917, that this company had increased its capital stock from \$100,000 to \$250,000.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

RAY CONSOLIDATED COPPER CO.

(1) Production, November, 1916.—Announced Jan. 3, 1917, that this company in November produced 6,894,736 lbs. of copper, compared with 7,590,038 in October and 6,360,937 in September.

(2) November Output Exceeded 7,000,000-Pound Mark.—It was stated Jan. 6, 1917, that the November output of this company for the second consecutive month exceeded the 7,000,000-pound mark. Corrected statement of the month's operations makes the November yield 7,164,736 pounds, against 7,590,038 pounds in October.

Ray contributed 15,000,000 pounds to the increase in the 1916 production of copper over that for 1915. At the outset of 1916 the company turned out copper at the rate of 50,000,000 pounds per annum, while it closed the year on the basis of 86,000,000 pounds a year.

With the maintenance of improved property conditions now prevailing, Ray Consolidated during the current year should turn out 90,000,000 pounds of copper, with the possibility of crossing 100,000,000 pounds.

Increased operations should automatically bring about reduced costs, so that in 1917 Ray stands to make an excellent showing and one in which the company will measure up better when compared with others of the same porphy group.

—Feb.

(1) Production, December, 1916.—Announced Jan. 31, 1917, that this company produced in December 7,838,132 pounds of copper, compared with 6,894,736 in November, and 7,590,038 in October, 1916.

(2) Report, Quarter Ended Dec. 31, 1916, compares with the corresponding quarter ended in 1915 as follows:

	1915	1916
Net op. profit—	\$3,553,516	\$1,791,599
Surp. after fixed chgs. & divs.	2,015,012	1,001,086

Earnings for the fourth quarter are based on a price of 26.250 cents a pound for copper, as compared with 27.722 cents for the third quarter of 1916.

(3) Statement by President.—On Feb. 6, 1917, it was stated that Pres. Sherwood Aldrich in his annual remarks to stockholders of this company, said:

"In addition to copper derived from concentrating ore, there was a total of 940,950 pounds of copper contained in ore shipped direct to smelter. This, combined with the copper contained in concentrates, brings total gross production for the quarter up to 22,592,906 pounds, as compared to 19,682,461 for the previous quarter.

The average mill extraction on concentrating ores for the quarter was 75.32% of total copper contained in such ores. This is the best metallurgical result achieved in the company's history and corresponds to an extraction of approximately 83% of the copper contained in unoxidized form. The average net cost per pound of all copper produced for the quarter was 9.769 cents.

"During the year the ore reserves have been recalculated with a view to including certain areas and zones of ore which were not included in original calculations or in estimates shown in previous reports. All of these things have now been demonstrated to an extent justifying a revision of the available ore reserves by adding over 20,000,000 tons of ore having an average copper content somewhat in excess of 1.5%.

"In general terms results will show over 91,000,000 tons of ore reserves remaining Dec. 31, 1916, average copper content of which is approximately 2.05%.

—Mar.

(1) Extra Dividend.—Announced March 1, 1917, that this company had declared the regular quarterly dividend of 75 cents and an extra of 25 cents a share, payable March 31 to stock of record March 9.

(2) Production, January, 1917.—Announced March 3, 1917, that this company in January produced 7,767,663 pounds of copper, compared with 7,838,132 pounds in December and 6,894,736 pounds in November, 1916.

(3) February Production.—In February, 1917, this company produced 7,177,808 lbs. of copper, compared with 7,767,663 lbs. in January and 7,838,132 lbs. in December.

—Apr.

(1) Annual Report, Year Ended Dec. 31, 1916.—Total receipts, \$20,060,783, against \$10,498,942 last year; operating income, \$11,860,150, against \$4,373,371 last year; other income, \$224,015, against \$376,891 last year; surplus after fixed charges, dividends and depreciation, \$7,378,473, against \$2,414,887 last year.

(2) Balance Sheet, as of Dec. 31, 1916, showed profit and loss surplus of \$13,813,178, against \$6,434,704 in 1915.

(3) Earnings on Stock.—The net profits for the year 1916, available for dividends, \$12,064,165, are equal to \$7.66 a share, compared with \$2.92 a share earned in 1915.

(4) Statement by President.—In conjunction with the annual report issued in March, 1917, Pres. Sherwood Aldrich said in part: "Ten years ago the company's present main properties were purchased from English owners who had made a complete failure with them. There were then approximately 600,000 tons of ore in sight. We have since developed a total of 106,667,080 tons, and have extracted and treated 13,293,854 tons. During these ten years we have expended for new development, construction, and equipment upon these properties a total of \$13,800,513. Of this amount \$6,908,448 came from the sale of capital securities, and the balance of \$6,892,065 came from earnings from operations. In these ten years (of which less than six have been productive years) the company has earned a total of \$25,501,974. Of this amount \$1,529,946 has been reserved for extinguishment of mine development costs, and \$1,227,749 for depreciation of mine and equipment, leaving a balance of \$22,744,277.

"Total dividends of \$8,931,100 have been paid to stockholders, and the balance of \$13,813,177 remains to earned surplus. This earned surplus is now represented by \$4,134,369 still invested in development, construction and equipment, and by \$6,678,808 represented by net current assets, consisting chiefly of metals in transit and of accounts receivable."

(5) New Director Elected.—At the annual meeting of this company April 20, 1917, L. S. Cates, mine manager, was elected to succeed A. Chester Beatty as a director.

(6) Production, March, 1917, 8,006,843 Lbs.—This company, April 27, 1917, reported a production of 8,006,843 lbs. of copper in March, 1917, compared with 7,177,808 in February and 7,767,663 in January.

RAYMOND HADLEY CORP., NEW YORK.

(1) Capital Increased.—On Feb. 1, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$500,000 to \$3,000,000.

RAYMOND SHIPBUILDING CO., RAYMOND, WASH.

(1) Incorporated on April 17, 1917, in Washington, with a capital of \$250,000. Incorporators: J. M. Frere, W. G. Shumway and C. E. Philbrick.

READ (WM.) & CO., WILMINGTON, DEL.

(1) Incorporated in April, 1917, in Delaware, with a capital of \$1,000,000, to build and operate boats of all kinds.

(2) Equipment Orders.—Announcement was made April 3, 1917, that this company had placed orders for 2,000 freight cars as follows: 500 box cars with American Car & Foundry Co.; 500 box cars with the Pullman Co.; 500 gondolas with the Standard Car Construction Co., and 500 gondolas with the Pressed Steel Car Co.

READING COAL & IRON CO.

(1) Reduction in Anthracite.—Reported on March 27, 1917, that the company had decided to make the usual Spring reduction of 50 cents a ton on the domestic size of anthracite, effective April 1. It is expected that the other big coal companies and operators will follow suit.

READING TRANSIT & LIGHT CO.

(1) Merger Planned.—It was announced Feb. 13, 1917, that this company, controlled by the Eastern Power & Light Corp., on Feb. 20 would file with the Pennsylvania Public Utilities Commission a petition for the purchase of the controlling interests in the United Traction Co.

The Metropolitan Electric Co., controlled by United Traction Co., also will ask to be permitted to acquire the Edison Electric Illuminating Co. and the Lebanon Valley Electric Light Co., both of Lebanon, Pa.

The consolidation of these properties is a step in the direction of preparing a foundation for financing which will make possible an extensive development of the railway and electric power service in Reading and vicinity. The operated properties are leased by the Reading Transit & Light for long terms and the purchase of them would obviate payment of rentals.

The plan provides for the acquisition of the two Lebanon companies and the Pennsylvania Utilities Co. by the Metropolitan Electric Co., these companies being connected by transmission lines with the large generating station of the Metropolitan company at West Reading. The companies are owned by the same financial interests as the Metropolitan company.

—Apr.

(1) Revenues, March, 1917.—It was announced April 5, 1917, that March gross revenue of this company, a subsidiary of the Eastern Power & Light Corp., were \$243,530, an increase of \$42,722, or 21.27% over March, 1916. The increase in revenue was equally divided between the lighting and power and the electric railway properties.

READING TRUCK CO.

(1) Stock Dividend.—Announced Jan. 26, 1917, that stockholders of this company had received a stock dividend of 33 1/4%.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

BEAHIL GOLD MINES CO., LTD.

⁽¹⁾ Incorporated in April, 1917, in Canada, with a capital of \$1,500,000. Provisional directors: G. E. Norton, C. G. Stewart and J. Reckman.

REDDEN MOTOR TRUCK CO., INC., MILLBROOK, N. Y.

⁽¹⁾ Incorporated on Feb. 7, 1917, in New York, with a capital of 200,000 shares, no par value, to carry on business with \$1,000,000; to take over business of New York corporation of same name and to manufacture all kinds of autos, motors and machines. Incorporators: L. B. Patterson, J. Wellesbach and H. K. Pritchitt, Yonkers, N. Y.

⁽²⁾ Organized.—It was announced Feb. 21, 1917, that this company had been organized for the manufacture of Redden-Truck-Makers, devices for converting new or used pleasure cars into trucks. The device is patented by Albert E. Cook.

The company plans 20 branch assembly plants in 20 of the leading cities of the United States. The main factory will be located either at Joliet, Ill.; Jackson, Mich., or Chicago.

Interests behind the company include Horace Dellisser, H. W. Cowan, C. A. Bickett, L. B. Patterson and W. K. Pritchitt.

⁽³⁾ Admitted to Trading on New York Curb.—Announced Feb. 21, 1917, that the stock of this company had been admitted to trading by the New York Curb Market Association, as and if issued.

RED LOCK PRODUCTS CO.

⁽¹⁾ Incorporated on March 12, 1917, in Delaware, with a capital of \$1,000,000, to manufacture and deal in and with drugs, chemicals, etc. Incorporators: Chas. H. Jones, Geo. W. Morgan and I. W. N. Lofland, Dover, Del.

REDONDO WATER CO.

⁽¹⁾ Report, Year Ended Dec. 31, 1916, shows a gross operating revenue of \$24,439, net operating revenue of \$2,165 and net corporate income of \$1,046.

⁽²⁾ Balance Sheet, as of Dec. 31, 1916, shows a profit and loss deficit of \$18,671.

BEECE BUTTON HOLE MACHINE CO.

⁽¹⁾ Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross	\$721,621	\$823,995
Net	203,236	294,862
Surp. after divs.	83,236	174,862

⁽²⁾ Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,996,005.

REED & GLASER CHASSIS CO., PORTLAND, ME.

⁽¹⁾ Incorporated in January, 1917, in Maine, with a capital of \$250,000, to manufacture, deal in, repair, etc., motor vehicles of all kinds.

REED-PRENTICE CO.

⁽¹⁾ Income Account Year Ended Dec. 31, 1916.—Gross revenues, including other income, \$946,919, against \$425,587 last year; surplus after taxes and fixed charges, \$811,060, against \$382,302 last year.

REGAL PRODUCTS CORP., BAYSHORE.

⁽¹⁾ Incorporated on Feb. 15, 1917, in New York, with a capital of \$600,000, to engage in manufacturing, jobbing and deal in manufactured products. Incorporators: C. T. Hancock, C. J. Juster and J. Meyer, Newark, N. J.

REGNOR BUILDERS, INC., MANHATTAN, N. Y.

⁽¹⁾ Incorporated in February, 1917, in New York, with a capital of \$250,000, to engage in a general contracting, carpentry and woodworking business. Incorporators: J. F. Sanger, R. B. Tietjen and W. A. Marden, New York.

REID, LANG & CO., DOVER, DEL.

⁽¹⁾ Incorporated in March, 1917, in Delaware, with a capital of \$500,000, to carry on a general mercantile business and a mail-order house.

RELANCE COAL & COKE CO.

⁽¹⁾ Acquisition.—It was reported Feb. 2, 1917, that this company had taken over the properties of the Tennessee Jellico Coal Corp. at a cost of approximately \$250,000. New machinery is to be installed in the mine and further extensions made to increase the output from 10,000 to 20,000 tons a month.

This company has also taken over the Comarga Coal Co. at Stearns, Ky., whose holdings there cover 1,900 acres John P. Gorman, Gen. Mgr. of the Hazard Coal Co. and the new mines taken over by the Reliance Coal & Coke Co., Cincinnati, O., is also a member of the Board of Directors of the Tennessee Jellico Coal Corp. and Gen. Supt. of all its mines.

RELANCE ENGINEERING CO.

⁽¹⁾ Receiver.—It was announced March 9, 1917, that Frank D. Eaman had been appointed receiver for this company, Lansing, Mich., on petition of Frederick Latta Smith, a stock and bond holder, whose complaint was the alleged failure to pay interest on the \$550,000 bonds outstanding.

RELANCE MFG. CO., MICHIGAN CITY, IND.

⁽¹⁾ Capital Increased.—On Feb. 13, 1917, it was stated that this company had decided to increase its capital stock from \$1,000,000 to \$1,500,000.

RELANCE PAINT CO.

⁽¹⁾ Capital Reduced.—On Feb. 13, 1917, the company, Cincinnati, O., filed notice at Columbus, O., of a decrease in capital stock from \$250,000 to \$30,000.

REMINGTON ARMS CO. OF DELAWARE.

⁽¹⁾ Production Speeded Up.—Stated on April 10, 1917, that Secretary of War Baker the previous week had inspected the plant of this company at Eddystone, Pa. The plant is engaged in manufacture of Lee-Enfield rifles for the British Government. Production has been speeded up recently, and it is understood that between 4,000 and 5,000 rifles are being turned out daily.

Although the Remington plant is not at present equipped to make the Springfield rifles used by the United States Army, which require more than 40 forged parts, as compared with only 14 in the Lee-Enfield rifle, the latter arm can be altered slightly to use the Springfield cartridge. The adopted Lee-Enfield could be made in the Remington plant.

⁽²⁾ Eddystone Status.—See Edystone Ammunition Corp.—Item No. 3.

REMINGTON PAPER & POWER CO.

⁽¹⁾ Fire Damage.—On March 27, 1917, the 8,000-cord pile of pulp wood at the Norfolk, N. Y., plant of this company, valued at \$125,000, and the company's sawmill were destroyed by fire.

REMINGTON TYPEWRITER CO.

⁽¹⁾ Earnings, 1916, Estimated.—On Feb. 1, 1917, the "Wall Street Journal" said it would be several weeks, at least, before final returns of this company's earnings for 1916 would be available, as the company's activities are world-wide and reports from various agencies are not yet at hand.

It is safe to say earnings over the last three months of 1917 were somewhat better, proportionately, than for first nine months, when approximately \$1,000,000 was earned after interest charges.

Balance sheet will show material improvement in the company's financial position. It is understood certain asset items have been reduced, clearing away

dead wood, and that there is a large amount of cash on hand and in banks.

No immediate action on dividends is contemplated, however, as \$550,000 has to be devoted annually to retirement of the \$5,500,000 bond issue.

The attitude of controlling interests is to put the company securely on its feet before making any disbursements to stockholders.

—Mar.

⁽¹⁾ Earnings Statement, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Net	\$2,015,946	\$1,127,687
Surp. after chgs.	1,415,460	529,100

⁽²⁾ Earnings on Stock.—It was stated March 12, 1917, that after full dividend requirements on the 1st and 2d pfd. stock, this company's 1916 balance, \$736,079, is equal to 7.36% on the \$9,996,000 common stock outstanding.

⁽³⁾ Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$3,206,291, compared with \$1,790,831 Dec. 31, 1915.

⁽⁴⁾ Comment on 1916 Report.—On March 14, 1917, the "Wall Street Journal" in commenting on the 1916 report of this company said that a promising change is shown in the balance sheet. Working capital increased from \$5,062,434 on Dec. 31, 1915, to \$11,077,087 at the close of 1916. Most of the gain was due to the conversion of its \$4,300,000 notes into funded indebtedness, bonds to the extent of \$5,500,000 having been issued to take up the notes. But even if the bond issue is deducted from working capital the remainder, \$5,577,087, would still be larger than it was a year previous.

By the conversion of floating into funded debt the company freed itself from pressing payments. Under the present conditions it is in a better position to take advantage of opportunities for expanding its business, and the results of 1916 indicate that the management has not been idle.

The necessity for meeting 10% of the bond issue annually will defer for the present the likelihood of the resumption of dividends on the pfd. stocks.

A big gain is shown in the amount of cash on hand, which on Dec. 31 amounted to \$2,683,980, compared with \$1,765,236 a year before and \$701,264 on Dec. 31, 1914. A substantial percentage of this cash, it is understood, is held in foreign countries, and the report states that such holdings are carried on the books at current exchange rates.

The book value of the common stock, as shown by the report, is \$139.23 a share, compared with \$117 the previous year. Both years' figures, however, include patents, good-will and other intangible assets, carried at \$131.88, making the present net tangible assets behind the common \$7.40 a share.

⁽⁵⁾ New Directors.—Announced March 21, 1917, that at the annual meeting of this company Maurice Coster was elected a director to succeed Robert Bradley, resigned, and that John F. Alvord was elected to succeed John W. Earle, deceased. Other retiring directors were re-elected.

RENFREW MANUFACTURING CO.

⁽¹⁾ Statement, as of Dec. 30, 1916, shows total assets of \$2,249,024 and a surplus of \$290,221.

RENNO-LESLIE MOTOR CO., PHILADELPHIA.

⁽¹⁾ Incorporated on April 9, 1917, in Delaware, with a capital of \$750,000, to manufacture automobiles and farm tractors. Incorporators: J. Williams Hills, Jr., Clarence H. Reed and Wm. L. Connor, Philadelphia.

RENO OIL CO.

⁽¹⁾ Acquisition.—A Marletta, O., dispatch Feb. 2, 1917, stated that this company and W. E. Sykes, of that city, had taken over the interests of the Consolidated Oil Co. in the Germantown fields.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

The tract acquired consists of 1,200 acres, on which there are 86 producing wells that yield a total of 60 barrels per day. The price paid was at the rate of \$3,000 a production barrel.

REO MOTOR CAR CO.

A complete description of this company appears in the "Miscellaneous Book" in your card cabinet.

¹(1) *Suit*.—It was announced at Detroit, Mich., March 9, 1917, that Wm. Barber, of New York, had sued this company for alleged infringing of patent rights in the United States District Court and had asked Judge Clarence W. Sessions to issue a permanent injunction restraining the company from using his mechanism.

The plaintiff also asks that he be paid \$2 each for every valve used by the company in the last six years, or a total of \$1,500,000.

Suit was started originally in New York against the Otis Motor Sales Co., a Reo distributor.

REPUBLIC IRON & STEEL CO.

¹(1) *Earnings on Stock*.—On Jan. 17, 1917, the "Wall Street Journal" said: "The surplus of the Republic Iron & Steel Co. available for the common stock last year was equal to \$45 a share on that issue. For the past three or four months it is understood that Republic has been earning at the rate of more than \$70 a share annually for its common stock. In 1915 and 1916, Republic earned approximately \$63 a share for its common."

"By May 1, 1917, based upon present rate of earnings, it is believed that the surplus available for the common for 1915 and 1916 and the first four months of this year, will equal the present selling price of the common."

—Feb.

¹(2) *Statement by Chairman*.—In his report to shareholders for the year ended Dec. 31, 1917, Chairman John A. Topping, of this company, it was stated Feb. 2, 1917, said, in part, as follows: "The extraordinary conditions of demand for iron and steel referred to in the last semi-annual report of this company was emphasized during the last half of the year, current demand being in excess of current production, but notwithstanding the substantial additions to the productive capacity of the country during the year, prices advanced. In fact, all previous high-price records for finished steel products were exceeded. While the steel trade in general has been benefited by the large and increasing demands for munitions steel, and this company has received indirect benefits, yet not over 7% of our sales was war steel, for the reason that our trade demanded the bulk of our production in commercial steel."

"Operating conditions have been exceedingly trying during the year, by reason of transportation troubles, and also on account of the character and supply of labor, but, notwithstanding these difficulties and consequent abnormal high costs, the year 1916 will go down in history as a record one in respect to output, high prices and earnings."

"All improvements referred to in previous reports, with the exception of No. 5 Hazelton Blast Furnace, have been completed, but numerous minor improvements were authorized during the past six months, none of which were on munition account, the total unexpended balance of all authorized improvements now under construction being \$2,500,000."

"Further appropriations from earnings are recommended and in contemplation, in order to continue the policy, commended by experience."

"Bonds to the par amount of \$990,000 have been purchased and are held in the treasury in anticipation of sinking fund requirements for the years 1917 and 1918."

¹(3) *Report, Year Ended Dec. 31, 1916*, shows net earnings of \$16,544,636. After deductions, including the regular 7% on the pfd. stock, there remains a balance of \$13,039,163, equal to \$47.95 on the common stock. Deducting back dividends of \$2,750,000 and the common dividend, leaves a surplus of \$8,881,293, compared with \$2,328,319 a year previously.

The company has \$9,008,139 cash on hand, compared with \$3,700,237 a year previously. Its working assets are \$19,721,350, compared with \$13,510,788 a year previously. Since organization the Republic has spent \$30,198,822 for new construction.

¹(4) *Balance Sheet*, as of Dec. 31, 1916, shows a profit and loss surplus of \$18,236,251, compared with \$8,354,954 Dec. 31, 1915.

¹(5) *Comment on 1916 Report*.—On Feb. 3, 1917, the "Wall Street Journal" said that in point of earnings on its common stock in 1916 this company came within a shade of bettering the United States Steel Corp.

For the first time in its history Republic is earning for its common stock more than U. S. Steel is earning for its common.

Republic's surplus available for the common for the 12 months ended Dec. 31, 1916, was equal to about \$48 a share on that issue, while the United States Steel Corp. reported \$48.48 a share. In the last quarter of 1916 Republic beat the United States Steel Corp. in the matter of percentage earnings on the common, Republic's earnings being at the rate of \$69.50 per annum on the common and U. S. Steel \$68.40.

Republic's earnings are even more remarkable than those of the U. S. Steel Corp. when it is remembered that heavy losses were encountered by the company in the early part of the year, due to the strike referred to in the semi-annual report of June 30, 1916.

As suggestive of the enormous gains made in Republic's position from the standpoint of investment value of its securities, it will be interesting to note that the actual cash on hand shown by the annual report of the company is over \$9,500,000, and its net quick assets over \$19,700,000.

In other words, its net quick assets are 20% in excess of all outstanding indebtedness, or approximately 120% of its bonds.

Republic's average earnings per ton, as shown for 1916, are something in excess of \$12.25 per ton.

It may be said that the Republic report is a model in publicity, full details of its various operations in all departments being very specifically referred to.

Republic's additions to surplus during 1915 and 1916 have added over \$65 per share to its common stock.

¹(6) *Bonds Strengthened by 1916 Report*.—On Feb. 9, 1917, the "Wall Street Journal" said that since publication of this company's 1916 report showing a balance of practically \$48 a share for the common stock, the company's sinking fund 5% bonds had appreciated a point from the low prices of February.

Of the total of \$19,889,000 bonds originally issued, authorized amount \$25,000,000, \$2,533,000 have already been retired by the sinking fund, while an additional \$990,000 are in the treasury of the company having been purchased in anticipation of sinking fund requirements for 1917 and 1918. There are thus \$16,346,000 of the bonds in investors' hands.

Republic Iron & Steel has outstanding \$194,000 bonds on the Martin & Palos Coke properties. Barring this latter issue, the sinking fund 5s are secured

by a first mortgage on all the property of the company. Republic also guarantees with the Tennessee Coal, Iron & R. R. Co. 5% first mortgage bonds of the Potter Ore Co., each company's proportion being \$255,500.

Entire interest charges for 1916 amounted to \$838,736, to provide for which Republic had a balance of income of \$15,647,899. That is, these charges were covered better than eighteen times. This is a wide margin of safety which the company cannot be expected to maintain indefinitely.

Net current assets of Republic Iron & Steel as of Dec. 31, 1916, amounted to \$19,721,351. That is the par value of the outstanding sinking fund 5s, with a margin of 20% to spare. Of current assets \$9,008,139 was in cash, equivalent to almost 60% of the bonds outstanding.

¹(7) *Dividends*.—Announced Feb. 10, 1917, that this company had declared a regular quarterly dividend of 1½% on the common stock, payable May 1 to stock of record April 20, in addition to the regular quarterly dividend of 1½% on the pfd., payable April 2 to stock of record March 20.

The company declared an initial cash dividend of 1½% on the common Dec. 19, 1916. Action on the common at this time, it was stated, merely anticipates the declaration which would have been made in March. Furthermore, it will enable the directors to take action at the same meeting.

¹(8) *Changes in Report Dates*.—On Feb. 17, 1917, Pres. John A. Topping, of this company, stated that the company after April 1 would institute a change in policy respecting the publication of the financial reports. After that date it will issue quarterly income statements and annual reports. The semi-annual reports will be discontinued.

—Mar.

¹(1) *New Furnace*.—It was announced March 22, 1917, that this company had completed and put in operation at Youngstown, O., another lap-weld furnace in its pipe mills. A new butt-weld furnace was recently started, making a total of three butt-weld furnaces and three lap-weld furnaces.

¹(2) *New Lap Weld Tube Mill*.—It was announced March 24, 1917, that this company had completed a new lap weld tube mill capable of making pipe up to 16 inches in diameter. The company recently completed a butt weld mill for making small pipe up to two inches in diameter. These two mills increase the corporation's pipe making capacity at Youngstown, O., 50%.

—Apr.

¹(1) *Bond Notes*.—It was announced April 2, 1917, that this company's first mortgage sinking fund 5s, 1940, are secured by a first mortgage on all the property of the company. They are redeemable at 105 for sinking fund purposes, commencing Oct. 1, 1911, and as a whole on any interest date, commencing April 1, 1920, upon eight weeks' notice. The sinking fund calls for the retirement of \$496,725 annually. Bonds outstanding amount to \$16,833,000.

Annual report for the year ended Dec. 31, 1916, showed the company earned 47.67% on the common stock; cash \$9,008,139, net working capital \$19,721,351, and profit and loss surplus, \$18,236,251. These bonds sold March 31, 1917, at 100½, to yield about 4.94%.

¹(2) *Business Reported Prosperous by Chairman*.—Quarterly Statements Hereafter.—At the annual meeting of this company in Jersey City, N. J., April 18, 1917, Chairman John A. Topping said: "As a general statement we, like all other steel companies, have been highly prosperous. Business has been very satisfactory, both in respect to volume and profit. As you well know, and like other companies, we have shared in the general prosperity."

"We have adopted a new policy in respect to extending our publicity of operations. On and after our next meeting of the Board of Directors we will issue quarterly statement of in-

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

come, which no doubt all the stockholders will approve. We might have adopted that policy earlier, and doubtless would have done so, but the company has been in the process of reconstruction ever since this administration took hold of it.

"Now that we have rounded out in a general way our operations, I feel that we can, with consistency, issue reports of that kind."

Replying to an inquiry of a stockholder regarding the profits of the Republic Iron & Steel, Mr. Topping said the earnings of the company are running much larger than the previous year.

There were voted at the meeting in person or by proxy 363,492 shares out of 521,910 shares. This is the largest number of shares ever voted at any annual meeting of the company. Directors were re-elected.

*(3) Report, Quarter Ended March 31, 1917, shows total net earnings of \$5,877,856, and a net profit of \$5,573,778. The sum of \$1,021,598 was reserved to cover the probable excess profits tax in the quarter, and after interest and pfd. stock dividends were paid a balance of \$3,906,777 remained for the common stock. This was equal to \$14.40 for each share of common stock outstanding, at the annual rate of more than \$57 a year.

The amount added to the surplus fund at the end of the quarter was \$3,501,561. The company reported unfilled orders on March 31, aggregating 593,019 tons, as compared with 617,950 tons at the end of the December quarter in 1916.

*(4) New Vice-Pres. and Director.—J. W. Detrick, former general manager of this company, was elected a director and Vice-Pres. April 19, 1917, the position of general manager having been discontinued. All other retiring officers were re-elected.

*(5) Earnings at Rate of 57% on Common.—On April 23, 1917, the "Boston News Bureau" said that this company started its 1917 year with a first quarter balance of \$3,910,427 for common stock, equal to better than 14.3% on the \$27,191,000 common. This is an annual rate of 57.2%.

More remarkable still is the fact that this rate of net profits was after deducting during the March three months the sum of \$1,021,598, its estimate of the excess profit tax. This sum may not be exactly what later collaboration with Government experts will show should be considered its full excess profits tax, but superficially it looks large and is certainly equal to more than 4% on the common. If the excess profits tax were not in existence Republic Iron would have earned at the rate of better than \$70 per share on its common during the March quarter.

Republic Iron & Steel in the fiscal year to Dec. 31, 1916, earned 47.9% on the common. If it should earn even as much as \$50 per share in 1917, it would mean a profit balance during 1916 and 1917 of \$98 per share, which is \$20 per share above the current market quotation for the common.

Republic Iron & Steel paying in dividends but \$6 per share and earning at the rate of practically \$60 per share on the junior stock promises to have a surplus of undivided profits in 1917 that will either increase its net working capital to a total of over \$33,000,000, against \$10,752,000 at the end of 1914, or else will serve as a cash fund to reduce still further the outstanding balance of bonds.

As of Dec. 31, 1916, the sinking fund bond issue stood at \$16,346,000, practically the only debt on the property. Republic has a very happy financial structure for a steel corporation. Its \$16,346,000 of bonds have behind them \$52,000,000 of pfd. and common stock.

• REPUBLIC MOTOR TRUCK CO., INC.

*(1) Acquisition—Stock Issue.—Announcement was made March 1, 1917, that this company had acquired control of the Torbensen Axle Co., which manu-

factures an internal gear-driven axle under valuable patents. The Torbensen Co. has a modern manufacturing plant at Cleveland, O. The Republic Co. has always been a large user of the Torbensen product.

The Republic Motor Truck Co. has secured authorization from its stockholders to increase the authorized common stock to 100,000 shares, no par value, of which 13,825 shares are to be issued for the purchase of the Torbensen Co.

*(2) Capital Increased.—On March 1, 1917, the company filed notice at Albany, N. Y., of an increase from 72,500 to 110,000 shares; working capital, from \$1,000,000 to \$1,500,000.

—Apr.

*(1) Report, Nine Months Ended March 31, 1917, showed net earnings of \$816,181, compared with \$268,255 in the corresponding period a year previously, and \$56,427 for the same period two years previously. This does not include the earnings of the subsidiary company, the Torbensen Axle Co.

Unfilled orders on hand are for more than 6,000 trucks.

REPUBLIC OIL CO., IRVINE, KY.

*(1) Incorporated in January, 1917, in Kentucky, with a capital of \$3,000,000. Incorporators: Jas. T. Masterson, Wm. C. Leonard, of New York; J. H. McClurkin, of Irvine, Ky., and others, to acquire and develop oil territory in Scottsville and Tennessee fields.

REPUBLIC OIL & REFINING CO., PHOENIX, ARIZ.

*(1) Incorporated in January, 1917, in Arizona, with a capital of \$500,000. Incorporators: Ed. C. Ryan, Henry Abelsouzen and W. G. Winstead.

Surp. after chgs.....	73,098	134,394
Bal. after pfd. divs.	21,184	82,480

Included in operating expenses for the two months is \$74,585, due to excess cost of fuel per kilowatt hour arising from abnormal price of coal in 1917, as compared with 1916 and accounting for the 40.22% increase in operating expenses for the period.

—Apr.

*(1) New Contract.—It was announced April 4, 1917, that this company had

closed a 5-year contract for one-third of the output of a mine producing the best grade of Pittsburgh No. 8 slack coal, on a sliding scale of prices averaging \$1.56 per ton. This contract provides the company with the grade of coal best adapted to its needs and covers a substantial part of the company's coal requirements.

*(2) Comment on New Contract.—On April 5, 1917, the "Wall Street Journal" said that this company appeared to be the first public utility corporation which has completed arrangements by which it will be able to cut down the high operating ratio due to the large excess cost of fuel for its generating stations.

The official announcement of the company that it had closed a five-year contract for a fuel supply with a large eastern Ohio coal company on a basis which will mean that net earnings subsequent to April 1 will show material improvement and that the large increase in gross earnings will begin again to be reflected in net revenues.

What the new contract will mean to the net earnings of the company is shown by the fact that for the first two months of 1917, while gross increased 17.38% over the corresponding two months of 1916, there was a decrease of 14% in net revenues, caused by a 40% increase in operating costs.

The cause for this large advance in operating expenses was that, on a kilowatt hour basis, the fuel of the company for the two months of 1917 cost \$74,585 more than in the first two months of 1916.

*(3) Comment on Annual Report.—On April 9, 1917, The "Wall Street Journal" said that the report of this company for the year ended Dec. 31, 1916, showed that gross earnings increased 27.75% and operating expenses and taxes gained 24.19%, while net earnings increased 33.11%. The gain for the year in total income was 34.60%. The larger part of the operating increase came in the last half of the year and was continued through the first quarter of 1917, owing to the largely increased cost of fuel for the generating stations.

April 1 a new coal contract, covering a period of years and on a most favorable basis to the company, with a guarantee regarding deliveries, went into effect and from now on net earnings should show a satisfactory increase. Revenues from the electric light and power business increased 37.5% over 1915 and from the electric railways 22.8%. Light and power customers increased 24% and the output of stations increased 41% in kilowatt hours over the preceding year. The company spent \$1,922,837 on improvements and betterments, of which \$1,264,037 was on the light and power department and \$658,800 on the electric railways.

Capacity of the main generating station at Lowellville was increased from 20,000 horsepower to 40,000 horsepower and a further extension of this station is now under way and will be completed the present year, giving it 60,000 horsepower capacity. Forty-one miles of high tension transmission lines and seventy-six miles of distribution lines were constructed in the year. Ten new cars for the electric railways were ordered and delivered. It is stated that all present conditions in the territory served indicate a continuance of industrial activity and increased demand on the company for light and power and transportation. The demand for electric power is steadily increasing and work is being rushed on the additional generating capacity to meet this demand. A new franchise for twenty-five years for light and power in Youngstown was granted in January, 1917, and will not expire until 1942.

New financing in the year consisted of the sale of \$3,500,000 Mahoning & Shenango Railway & Light 7% pfd. stock and the retirement of \$3,000,000 notes of Republic Railway & Light. Republic Railway & Light after all charges, various adjustments in surplus and payment of common and pfd. dividends had a surplus Jan. 1, 1917, of \$626,724. The surplus for 1916 was \$480,062 after payment of all dividends.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Financial position of the company at the close of the year was excellent. Notes and accounts receivable were \$308,186 and cash stood at \$628,750, while notes payable were but \$157,500 and accounts payable \$300,080.

(4) Contract Renewals.—It was announced April 12, 1917, that this company had renewed its most important power and lighting franchises in the Youngstown district for a period of 25 years, expiring in 1942. The territory comprised under these franchises produces about 60% of all the power and lighting revenues of the company, and the lighting rates have been fixed for a period of ten years. Practically all other power and light franchises under which the company is operating are without time limit.

The granting of this latest franchise, the conditions of which became effective April 1, 1917, puts the whole situation of the company as regards franchises in enviable condition for the operating of its lighting, power and railway business, it is stated.

	1917	1916
(5) Earnings—		
March gross.....	\$376,822	\$330,047
Net after taxes.....	131,058	131,359
Surp. after chgs.....	53,843	67,386
Bal. after pfd. dividends.....	27,886	41,429
12 mos. gross.....	4,143,046	3,355,281
Net after taxes.....	1,628,415	1,373,258
Surp. after chgs.....	778,568	662,128
Bal. after pfd. dividends.....	467,082	350,644

Increase in operating expenses for March of 23.7% was principally caused by an excess cost of \$26,338 for fuel. Owing to the high cost of coal, April 1, a new coal contract, on favorable terms and with guarantees of deliveries, went into effect, and from that date a much larger proportion of the gain in gross revenues is expected to be saved for net.

REPUBLIC RUBBER CO.

(1) Price Advance.—It was announced Jan. 5, 1917, that this company had announced an advance of 15% in auto tire casings, 10% on inner tubes and 10% on motor truck tires.

The Republic Co. has on its books 100% more business than a year previously. It has booked an order for 200,000 tires for 1917 delivery from Dodge Bros.

The company recently completed extensive plant alterations. Further additions to capacity may be necessary.

REPUBLIC STAMPING & ENAMELING CO.

(1) Sale.—See Holmes Automobile & Mfg. Co.—Item No. 1.

RESERVATION COPPER CO., SPOKANE, WASH.

(2) W. D. Duke Made General Superintendent.—The "Richmond Times-Dispatch" April 22, 1917, stated that W. D. Duke, formerly assistant to Pres. Wm. H. White, of this company, had been made general superintendent of that railroad and the Washington Southern Ry., a subsidiary corporation. At the same meeting, which was held in New York, Norman Call was made assistant to the Pres., with the duties now discharged by him, including those of Sec'y of the two companies. Both titles are effective May 1.

JANUARY 1 TO APRIL 30, 1917

RICHMOND LIGHT & R. R. CO.

¹(1) Merger.—It was announced Feb. 26, 1917, that upon application of this company and the Staten Island Midland R. Co. to consolidate, the New York First District Public Service Commission had ordered a public hearing to begin March 8. It is planned that a new company, to be known as the Staten Island Light & Traction Co., Inc., shall be formed to take over all the assets and liabilities of the two trolley companies in Staten Island.

Application has also been made to the commission that the new incorporation be empowered to execute a mortgage for \$7,500,000 covering all the assets of the two trolley companies, to the Farmers Loan & Trust Co. as trustee, and to issue immediately thereunder bonds to the amount of \$1,730,000.

The new company also plans to make a stock issue of \$1,650,000 in 6% cumulative pfd. and \$3,291,000 par value of common stock.

RICHMOND MINING & MILLING CO.

¹(1) Change in Control.—It was announced at Adair, Mont., Jan. 3, 1917, that control of this company, which owns and is operating a group of six copper claims near Adair, had been secured by New York capitalists for a reported price of \$350,000, or on a basis of approximately \$500,000 for the entire property. The deal, involving 500,000 shares of the issued capitalization of 652,000 shares, was negotiated by Hanner & Carter, Spokane brokers.

The new owners are already in charge of operations and are rushing shipments as much as possible. Twenty horses are employed in the 5½-mile haul to Salters, delivering 15 tons a day at the railroad tracks.

RICHMOND MINING, MILLING & REDUCTION CO.

¹(1) Admitted to Trading on New York Curb.—On April 13, 1917, the New York Curb Market Association admitted to trading this company's 1,000,000 capital shares, par \$1. Transfer agent and registrar, Empire Trust Co., New York.

RICHMOND TERMINAL R. R. CO.

¹(1) New Passenger Station.—It was announced Feb. 31, 1917, that plans had been completed for the new union passenger station at Richmond, Va., which will be used by the Richmond, Fredericksburg & Potomac R. R. and the Atlantic Coast Line.

The total cost of the entire terminal will be more than \$1,000,000. The station must be completed by Feb. 1, 1918.

RIDGEWOOD WATER CO.

¹(1) Incorporated on Jan. 26, 1917, in New Jersey, with a capital of \$250,000, to operate a water works. Incorporators: Clement K. Corbin, Summit; Chas. M. Corbin, Rahway and Carl M. Herbert, Manhattan, N. Y.

RIGHT OF WAY MINES, LTD.

¹(1) Dividend.—It was stated March 3, 1917, that this company's directors had declared a dividend of ½ of 1% on its stock, payable March 17 to stock of record March 10.

²(2) Report, Year Ended Dec. 31, 1916, shows the company earned \$33,297, of which \$25,282 was paid in dividends. After including the amount on hand as of Dec. 31, 1916, there was a balance of \$12,838 to the credit of the profit and loss account at the commencement of 1917.

RILLA MINING CO.

¹(1) Records Sought.—It was announced at Boston, Jan. 26, 1917, that a petition had been presented to Judge Morton in the United States District Court there by the Federal grand jury praying that George M. Foster, Sec'y of this company, be ordered to produce before the grand jurors on Feb. 13 the company's correspondence, mining reports and other records of the corporation.

It is set forth in the petition that the grand jurors regard the records as

necessary to the investigation of an alleged offense committed in connection with use of the mails in the sale of stocks of the company.

At the office of the United States District Attorney it was stated that the Rilla Mining Co. was formerly the O'Reilly Mining Co. The stock is listed on the Boston Curb Exchange.

RIOGRON PULP & PAPER CO., LTD.

¹(1) Increased and Extra Dividends on Common.—It was announced Jan. 29, 1917, that this company had declared a dividend of 1¼% and an extra of 1% on the common stock for the quarter ended Jan. 31, payable Feb. 15. The stock, previously on a 4% basis, thus goes on a 6% annual dividend basis.

—Apr.

⁴(1) Extra Dividend of 1%.—A Montreal dispatch April 26, 1917, stated this company had declared an extra dividend of 1% in addition to the usual quarterly dividend of 1¼% on the common stock, payable May 15 to holders of record May 8.

RIOGRON PULP & PAPER CO., LTD.

²(1) Report, Year Ended Dec. 31, 1916, shows a net profit of \$1,331,051, an increase of \$1,038,493, or 355% over 1915, the company's best year to date. It was in excess, by a fair margin, of the combined net profits of the five years from 1911 to 1915.

After providing for bond interest and pfd. stock dividend, there was a surplus balance available for the common stock of \$1,165,736, an increase as compared with 1915 of \$1,034,482, or close to 800%. This surplus balance

represented earnings at the rate of 25.9% on the \$4,500,000 common shares, against 2.9% in 1915.

After distributing 4¼% in dividends and bonus among shareholders, there still remained \$963,236, to be carried forward to surplus account. This surplus, however, is subject to the deduction of any amount that may be payable for the year under the business profits tax.

²(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,338,870, compared with \$375,634 Dec. 31, 1915.

²(3) New Sulphite Mill Planned.—It was announced Feb. 23, 1917, that this company, which established a roasting plant at Halleybury two years previously, was planning to erect a large sulphite plant in the same neighborhood. Surveys for the site of a 600-ton mill are now being carried out, and it is proposed to have the first unit of 100 tons ready by January, 1918. The mill, if completed to the 600-ton capacity under consideration, would be the largest of its kind in Canada.

—Mar.

²(1) To Erect Sulphite Plant.—Stated on March 29, 1917, that the company would erect a sulphite plant at Halleybury, Ont., to have a daily capacity of 500 tons.

BIO TINTO CO., LTD.

²(1) Dividend Increased.—Announced at London March 21, 1917, that this company had declared a dividend of 55s, covering the last half of 1916. This compares with 40s for the first half of 1916, and 35s for the last half of 1915.

—Apr.

⁴(1) Report, Year Ended Dec. 31, 1916, shows a net revenue of £2,198,092, which compares with \$1,292,260 for 1915. The surplus after dividends was \$283,330, against \$159,267 for 1915.

RIPPLEY BOAT CO., INC., MANHATTAN, N. Y.

⁴(1) Incorporated on April 18, 1917, in New York, with an active capital of \$120,000; 1,000 shares pfd. stock, \$100 each, 4,000 shares common stock, no par value; to engage in boat construction, equipment storage, wharfage and forwarding business. Incorporators: C. H. Fowler, C. B. Schwarz and F. M. Melas, 310 West 160th St., New York.

RIPSEY COPPER CO., PHOENIX, ARIZ.

²(1) Incorporated in February, 1917, in Arizona, with a capital of \$8,000,000. Directors: J. C. Phillips, Lyandale Cassidy and L. M. Wagner.

RISEING SUN MINING CO., SEATTLE, WASH.

¹(1) Incorporated on Jan. 23, 1917, in Washington, with a capital of \$400,000. Incorporators: Frederick S. Munson and Norman E. Helmick.

RIVER PLATE COMMERCIAL CO., INC., MANHATTAN, N. Y.

¹(1) Capital Decreased.—On Jan. 25, 1917, the company filed notice at Albany, N. Y., of a reduction in capital stock from \$2,250,000 to \$325,000.

—Feb.

²(1) Capital Increased.—On Feb. 27, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$325,000 to \$475,000.

RIVERSIDE EASTERN OIL CO.

¹(1) Initial Dividend on Common.—Announced Jan. 19, 1917, that this company had declared an initial dividend of three-fourths of 1% on the common stock, payable Feb. 24 to holders of record Jan. 31. The regular quarterly dividend of 1¼% on the pfd. stock, payable Feb. 5 to stock of record Jan. 31, was also declared.

²(2) Report Year Ended Dec. 31, 1916, shows net profits of \$123,069 and surplus after dividends of \$90,862.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

RIVERSIDE HOME TELEPHONE & TELEGRAPH CO.¹(1) Sale Authorized.—See Pacific Telephone & Telegraph Co.—Item No. 2.**RIVERSIDE WESTERN OIL CO.**¹(1) Report Year Ended Dec. 31, 1916, shows gross of \$201,424, net of \$185,424 and surplus after dividends of \$79,808; total surplus, \$119,474.¹(2) Increased Dividend on Common.—Announced Jan. 25, 1917, that company had declared a quarterly dividend of 1½% on the common stock, payable Feb. 24 to stock of record Jan. 31. This is an increase of ¼ of 1%.

The regular quarterly dividend of 1¼% on the pfd. stock was also declared, payable Feb. 5 to stock of record Jan. 31.

ROANE COUNTY OIL & GAS CO., PITTSBURGH, PA.¹(1) Incorporated in December, 1916, in West Virginia, with a capital of \$3,500,000. Incorporators: L. R. Martin, F. J. Holup, L. T. Sanders, E. C. McHugh and R. T. Rossehlitz, all of Pittsburgh, Pa.**ROANOKE IRON & STEEL CORP.**¹(1) Incorporated on April 3, 1917, in Delaware, with a capital of \$3,500,000, to manufacture iron, steel and their products. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.**ROARING CREEK & BELINGTON R. R.**¹(1) Readjustment.—See Coal & Coke Ry.—Item No. 1.**ROBBINS & MYERS CO., SPRINGFIELD, O.**¹(1) Capital Increase.—On Jan. 5, 1917, it was stated that this company had announced that it would increase its capital stock from \$1,000,000 to \$5,000,000, to take care of needed improvements and plant extensions. The company increased its capitalization from \$500,000 to \$1,000,000 two years previously, but the rapid increase in its business has necessitated further capital.

An issue of pfd. stock amounting to \$1,500,000 has been taken at \$105.

The company is employing 2,400 persons and expects to increase this number to 3,000.

—Feb.

¹(2) Capital Increased.—On Feb. 23, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$1,000,000 to \$5,000,000.**ROBINSON & CRAWFORD.**¹(1) Merger Planned.—See Acme Tea Co.—Item No. 4.**ROBERTS (JOHN J.) & CO., UTICA, N. Y.**¹(1) Capital Increased.—On Feb. 1, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$250,000 to \$350,000.**ROBERTS (C. J.) OIL & GAS CO.**¹(1) Incorporated in April, 1917, in Oklahoma, with a capital of \$250,000. Incorporators: C. J. Roberts, A. G. Patterson and J. O. Galloway.**ROBERTS-WIEGAND PICKLE CO.**¹(1) New Factory.—It was announced Jan. 22, 1917, that this company had established a \$100,000 pickle works in New Orleans, La. At its head will be P. H. Roberts, Mgr. of American Pickle & Canning Co., Wiggins, Miss., and George A. Wiegand and A. C. St. Marc, of New Orleans. The new company will not run in opposition to the Wiggins factory, but is intended to reach a larger source of supply of raw material than is available for that plant.**ROBLA RY.**¹(1) Engine Order.—See American Locomotive Co.—Item No. 2.**ROCHESTER HOME TRAIL MINES CO.**¹(1) Incorporated in December, 1916, in Nevada, with a capital of \$1,000,000. Directors: A. Proses, C. Martel, C. E. Mack, G. S. Green and A. F. Lasher.**ROCHESTER RY. & LIGHT CO.**¹(1) Directors.—Announced Jan. 19, 1917, that at the annual meeting of this company the following directors were elected: Horace E. Andrews, William K. Vanderbilt, Jr., Harold S. Vanderbilt, R. M. Searle, Granger A. Hollister, John Carstensen, Walter N. Kernan, A. H. Smith, D. M. Beach, T. W. Finucane, A. M. Lindsay, E. G. Miner and Edward Bausch. The board will meet in New York City later and organize.¹(2) Acquisition Authorized.—It was announced Jan. 26, 1917, that the New York Second District Public Service Commission had authorized this company to issue and sell to the Mohawk Valley Co. \$750,000 of its common stock at par. The proceeds of the new stock will be used to pay \$50,000 for the outstanding stock of the Canandaigua Gas Light Co., \$400,000 for the outstanding stock of the Despatch Heat, Light & Power Co., and \$250,000 for the outstanding stock of the Eastern Monroe Electric Light & Gas Co. Also \$175,500 will be paid for the property and franchises, other than the electric railway property, of the Ontario Light & Traction Co.

All these properties will be merged into the Rochester Ry. & Light Co. and their stock cancelled. Rochester Ry. & Light Co. is controlled by the New York Central, through the New York State Rys. Co. and the Mohawk Valley Co., the former owning the electric railway lines and the latter the electric light and power properties.

ROCHESTER, SYRACUSE & EASTERN R. R.¹(1) Reorganization Plan.—See Empire United Rys., Inc.—Item No. 1.**ROCKAWAY-PACIFIC CORP.**¹(1) Rockaway Beach Litigation.—On March 28, 1917, Judges Ward, Hough and Rogers, sitting as the Circuit Court of Appeals, New York, heard arguments by Gordon M. Buck on behalf of this company, which is a subsidiary of the Southern Pacific R. R., for an injunction to prevent the transfer of certain lands at Rockaway Beach, N. Y., by the city to the State or Federal Government under condemnation proceedings.

The argument of counsel led them to show that the appropriation of \$1,000,000 made by the State for the purchase of the land was not sufficient and that the land is of market value of about \$2,000,000.

Some days ago Judge Ward granted a temporary injunction which enjoined the members of the condemnation commission from filing maps and surveys of the land to be seized in the interests of the Federal Government, with the Secretary of State or with the County Clerk of Queens County. The filing of the maps and papers is necessary to complete the seizure of the land by the State under special legislation passed some time ago. The Government bought the lands for \$1,000,000, an appropriation for which amount has been made. The Rockaway-Pacific Corp. demands \$2,000,000 for the land. Arguments against the granting of the injunction were made by Alfred L. Becker. The Court reserved decision.

ROCK ISLAND CONSTRUCTION CO. (THE).¹(1) Incorporated on April 3, 1917, in Delaware, with a capital of \$500,000, to engage in a general construction business. Incorporators: M. L. Gatchell, L. A. Irwin and H. W. Davis, Wilmington, Del.**ROCKWELL (W. S.) CO., NEWARK, N. J.**¹(1) Capital Increased.—The "Iron Age" April 26, 1917, stated that this company, Balls Lane, Newark, N. J., manufacturer of furnaces, had increased its capital from \$100,000 to \$335,000.**ROCKWELL-DRAKE CORP.**¹(1) Sale.—See Marlin Arms Corp.—Item No. 1.¹(2) Deal Ratified.—See Marlin Arms Corp.—Item No. 5.**ROCKWELL MANUFACTURING CO., CAMDEN, ARK.**¹(1) New Plant.—It was announced April 5, 1917, that this company would equip a wood-working plant at a cost of about \$250,000 to replace one recently destroyed by fire.**ROCKWOOD & CO., BROOKLYN, N. Y.**¹(1) Capital Increased.—On March 20, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$1,250,000 to \$2,250,000.**ROESSLER & HASSLAUER CO.**¹(1) Building New Plant.—It was stated Jan. 10, 1917, that this company, Perth Amboy, N. J., had commenced the erection of its new plant for the manufacture of coal-tar products at St. Albans, near Charleston, W. Va. The plant is estimated to cost \$500,000.**ROGERS-BROWN IRON CO., BUFFALO, N. Y.**¹(1) Report, Year Ended Dec. 31, 1916, shows net sales of \$8,900,025, against \$6,721,326 in 1915, and a surplus after pfd. and common stock dividends of \$726,275, compared with \$166,648 in 1915. In 1916 there was paid a dividend of \$200,000 on the common stock, against nothing in 1915.**ROGERS (WM. A.), INC.**¹(1) Report, Year Ended Dec. 31, 1916, shows net profits of \$240,649 and surplus after common and pfd. dividends of \$226,148.¹(2) Statement by President.—On Feb. 19, 1917, it was stated at Toronto, Ont., that Pres. E. J. Moore, of this company, in his annual remarks to stockholders, said, in part: "The profits for the year, amounting to \$240,649, exceeded those of the previous year by \$60,888, and the increase is still greater over the operating profits of the year 1914. Much larger profits would have been realized if the company had not been seriously handicapped in obtaining supplies of metals. In common with most manufacturers we also felt severely the shortage of skilled labor."

"Turning to the balance sheet, you will observe that our fixed assets increased during the year \$39,440. This largely represents the cost of the addition to the hollow ware department, to which reference was made at the last meeting. Merchandise inventory is \$211,823 larger than the inventory of the preceding year, the increase being due entirely to the extra cost of materials and labor."

"The surplus of quick assets over all debts amounts to \$1,049,574."

"Early in the year a branch office and warehouse was opened in San Francisco, in order to more adequately provide for business on the Pacific Coast."

ROLLIN CHEMICAL CO., INC., NEW YORK.¹(1) Capital Increased.—On March 28, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$1,600,000 to \$2,600,000.**ROMANO-AMERICANA CO.**¹(1) Compensation for Loss Predicted.—See Standard Oil Co. of New Jersey.—Item No. 5.

—Feb.

¹(1) Roumanian Indemnity.—See Standard Oil Co. of New Jersey.—Item No. 1.

JANUARY 1 TO APRIL 30, 1917

**ROME CALK CO.,
PLANTSVILLE, CONN.**

*(1) Government Order.—Late in March, 1917, this company announced that it had secured a large contract from the United States Government for automobile chains.

**ROME GAS, ELECTRIC LIGHT &
POWER CO.**

*(1) Bond Issue Permit Sought.—Announced Jan. 4, 1917, that this company had applied to the New York Second District Public Service Commission for authority to issue \$3,500,000 first refunding 30-year 5% bonds, \$300,000 of the new bonds to be issued at once for the purpose of refunding an outstanding issue and to defray cost of construction work.

**ROME IRON MILLS, INC.,
ROME, N. Y.**

*(1) Incorporated on April 13, 1917, in New York, with a capital of \$2,000,000, to manufacture iron, steel and tools. Incorporators: F. E. Series, A. R. Palmer and H. G. Wenzel, 2 Ferry St., Woodhaven, N. Y.

ROSIN & TURPENTINE EXPORT CO.

*(1) Capital Increased.—On April 17, 1917, this company, Georgia, controlled by the American International Corp., increased its capital from \$300,000 to \$800,000. A block of pfd. of \$200,000 was purchased by W. R. Grace & Co. and Florida and Georgia interests purchased \$300,000 of common. The American International owns \$200,000 pfd. and the original \$100,000 in common stock is owned by local and Southern interests.

ROSS RIFLE CO.

*(1) Factory Closed.—A Quebec dispatch March 19, 1917, stated that the factory of this company had been closed at noon on that date. The following statement was issued by Sir Charles Ross:

"The management of the Ross Rifle Co. regret to announce that they have closed down their factory for an indefinite period on account of the cancellation of all existing orders for rifles by the Imperial and Canadian Governments.

"The Imperial cancellation reached us a few days ago, and is to take effect on the 31st instant. The cancellation by the Canadian authorities only arrived this morning, to take effect immediately, and this without previous warning or representation of any kind.

"In view of this we were with regret forced to close our doors, although we were capable and willing to continue operations."

ROTARY VEHICLE CO.

*(1) Incorporated on Feb. 17, 1917, in Delaware, with a capital of \$250,000, to engage in a general manufacturing and commercial business. Incorporators: Wm. H. O'Beirne, Stephen J. Owens and Seymour Standish, Wooddale, Ill.

**ROTHFUSS BROTHERS CO.,
TOLEDO, O.**

*(1) Capital Stock Increased.—On March 26, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$150,000 to \$500,000.

ROTH BUCK STORES, INC. (THE).

*(1) Incorporated on Feb. 15, 1917, in Delaware, with a capital of \$1,250,000, to carry on business of chemists, druggists, etc. Incorporators: F. D. Buck, Geo. W. Dillman and M. L. Harty, Wilmington, Del.

ROUBAIX MILLS.

*(1) Brodfeild Mills Purchased.—On April 19, 1917, the "Boston Evening Transcript" said this company, incorporated a year previously, had purchased the Brodfeild Mills, at Clinton, Mass.

ROVEDA CITY OF THE SUN CORP.

*(1) Incorporated on April 6, 1917, in New York, with a capital of \$500,000,

to engage in construction work under the Roveda system, contracting electrical work and realty business. Incorporators: J. Gutmann, R. Albertson and P. Roveda, 58 West 15th St., New York.

**ROWAN ELECTRIC
MANUFACTURING CORP.**

*(1) Incorporated in February, 1917, in Maryland, with a capital of \$400,000, to manufacture automatic starters, switchboards, etc. Incorporators: Benjamin H. Cram, D. Meredith Reese and John S. Rowan.

ROWLAND FIFTH & SONS CO.

*(1) Taken Over.—See Standard Process Steel Corp.—Item No. 1.

ROXANA PETROLEUM CO.

*(1) Sale.—See Roxana Petroleum Corp.—Item No. 2.

ROXANA PETROLEUM CORP.

*(1) Incorporated on March 8, 1917, in Virginia, with a capital of \$80,000,000, \$40,000,000 common and \$20,000,000 pfd. stock, to engage in general oil development enterprises. Thomas B. Gray, of Richmond, Pres.; Benjamin F. Rice, of Tulsa, Okla., Vice-Pres., and Wm. L. Mackgrady, of Bayonne, N. Y., Sec'y-Treas.

*(2) New Company.—It was announced March 8, 1917, that this company, incorporated in Virginia on that date with a capital of \$80,000,000, would take over the properties of the Roxana Petroleum Co., incorporated in Oklahoma, which holds leases on several thousand acres of oil lands, with refineries and pipe lines, in that State. The latter company is controlled by the Royal Dutch Co., the chief competitor of the Standard Oil organizations in world business.

Announcement was made that the new corporation would build a large refinery at St. Louis. It was learned some time previously that this step was in contemplation, together with the construction of a pipe line from Cushing, Okla., to St. Louis, a distance of 450 miles.

ROXFORD KNITTING CO.

*(1) \$58,627 Government Contract Secured.—On April 18, 1917, the "Philadelphia Public Ledger" said this company had been awarded a contract by the United States Government to supply 430,000 light cotton undershirts for army use. The contract price was \$58,627.

**ROYAL ARROW STEAMSHIP CO.,
INC.**

*(1) Incorporated on March 31, 1917, in Delaware, with a capital of \$1,000,000, to engage in building and operating steamships, etc. Incorporators: A. W. Britton, S. B. Howard and L. H. Gunther, all of New York.

ROYAL BANK OF CANADA.

*(1) Acquisition Completed.—It was announced Jan. 2, 1917, that the absorption of the Quebec Bank by the Royal Bank of Canada, with the approval of the Treasury Board at Ottawa, had become effective on that date.

The effect on banking arrangements in Montreal is slight, as all the Quebec branches will be continued as branches of the Royal, including the Quebec head office in the old New York Life Building, which will become known as the Place d'Armes Branch of the Royal.

Outside of Montreal branches will be closed at 18 points.

ROYAL DUTCH CO.

*(1) Holdings in Roumania.—It was announced Jan. 12, 1917, that, according to private cable advices, the Roumanian production of the Royal Dutch Shell combination is only 74% of the total production of the Royal Dutch combine. The total book value of the Royal Dutch holdings in Roumania is only \$2,300,000.

While the Royal Dutch combine has the control and direction of the Roumanian properties, these have been to

the major extent financed separately, so that their revenues have very little influence on the total income of the Royal Dutch Co.

It was stated that the occupation of Roumania had not injured the Royal Dutch Co. to any extent.

—Feb.

*(1) Oil Production.—See Shell Transport & Trading Co., Ltd.—Item No. 1.

—Mar.

*(1) Sale by Controlled Co.—See Roxana Petroleum Corp.—Item No. 2.

*(2) New Subsidiaries.—See Tampico-Panuco R. R.—Item No. 1.

*(3) Stock Sale.—On March 20, 1917, it was stated that a large block of this company's stock had been taken over by two prominent New York Stock Exchange houses. A percentage of the stock acquired has been placed with large private interests.

The Royal Dutch Co. has no funded debt. Common shares issued amount to \$33,338,734. There are \$11,457,000 4½% priority shares, and \$803,000 4% pfd. shares. The surplus amounts to \$21,500,000. In 1915 the company produced 28,400,000 barrels of oil.

*(4) Earnings Discussion.—On March 21, 1917, it was stated that according to a statement received from this company the semi-annual dividend would be about 34%, which would amount to about \$4.60 for an American share. This dividend probably will be declared about June 1 and will be paid to stockholders about the end of July.

The Royal Dutch Co. is making headway in development work in the United States. On March 21 the new refinery in the Cushing district was opened for distillation. This refinery has a capacity of about 10,000 barrels a day, and will be supplied with crude produced by the Roxana Co., of the Cushing district.

Shipment has been made of sufficient pipe to complete the pipe line from Healdton to Cushing, and the company expects to commence pumping about April 1. Crude in the Cushing district is selling at large premiums and the Roxana Co. is receiving from 60 to 70 cents in excess of the market price.

The Royal Dutch fleet consists of about 80 vessels, with a total tonnage of 280,000. Many vessels are being added to this fleet because of the company's activity in foreign fields.

Royal Dutch is to open a large refinery in the Danish West Indies, at Curacao, which lies in the path of all vessels going through the Panama Canal, and will be used as a fuel station for large vessels.

*(5) Circular About Stock.—It was stated March 22, 1917, that Chandler Bros. & Co. and Joseph Walker & Sons had issued a circular about this company. It sets forth that the company's holdings of shares have a face value of \$63,038,000, paying in dividends \$11,638,000, which capitalized on a 7% basis would give a value of \$166,428,000; add surplus \$21,470,000 holdings in United States at cost price \$13,266,000, a total of \$201,164,000, giving an equity of \$30.40 per American share.

They have excluded from the above the holdings of the Shell Transport Co. shares, worth at that date \$12,500,000, because this amount almost exactly covers the issue of the preference and priority shares.

**ROYAL GRAPHITE MINING &
CRUCIBLE CO.**

*(1) Development Plans.—It was announced April 11, 1917, that this company, organized at Birmingham, Ala., with a capital of \$500,000, had prepared plans for a daily output of 200 tons of graphite in connection with the development of 200 acres of graphite land at Goodwater, Ala.

This company was organized with the following officers: Eugene Argo, of Goodwater, Ala., Pres.; W. L. Shumate, Vice-Pres.; C. F. Shumate, Sec'y-Treas., and T. D. Eppes, Mgr.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

ROYAL IMPROVEMENT CO. (THE), COVINGTON, KY.

*(1) Incorporated on March 17, 1917, in Kentucky, with a capital of \$500,000. Incorporators: Emory F. Davis, Oscar Young and T. J. Kirkpatrick.

ROYAL TYPEWRITER CO.

*(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$3,590,159, compared with \$3,278,523 Dec. 31, 1915.

*(4) Earned \$6.94 a Share on Preferred in 1916.—This company's 1916 net income of \$909,887 is equivalent to \$8.94 a share on 90,576 shares of pfd. stock, against \$5.46 a share earned in 1915.

RUTLAND RY. & LIGHT CO.

*(1) Sales, 1916.—It was announced Feb. 1, 1917, that the distribution system served by this company, the Western Vermont Power & Light Co. and the Pittsford Power Co., had an increase of 2,738,000 k. w. hrs., or 21.5% in sales of electric current in 1916 over 1915. Of the energy distributed 81.7% was generated at hydro-electric stations and 18.3% was purchased, there being 6% less purchased power distributed in 1916 than in 1915.

RUTLAND RY., LIGHT & POW. CO.

*(1) Repair Work.—Reported on April 9, 1917, that about 10,000 ties would be needed by this company for repair work recently started on the main line. The company is reporting considerable activity in new lighting and power business.

RYAN FRUIT CO., SPOKANE, WASH.

*(1) Incorporated in Washington, Dec. 22, 1916, with a capital of \$1,000,000. Incorporators: A. J. Knievel, T. F. Ryan, L. M. Davenport, R. T. Dilworth and others.

RYAN SOAP CO., CINCINNATI, O.

*(1) Capital Increased.—On April 18, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$150,000 to \$300,000.

RYPANS CONSOLIDATED MINES.

*(1) Syndicate to Develop Claims.—It was announced at Toronto, Ont., Jan. 15, 1917, that a syndicate, headed by John Patterson, Pres. of the Patterson Candy Co., Ltd., and John W. Ryder, of J. W. Ryder & Co., real estate and insurance brokers, was being formed to

mond drilling, in the Spring of 1917.

Deloro, in which the Rypans Consolidated Mines is located, is fast coming take over and operate the Rypans group of gold claims in the Deloro group of Porcupine.

The Rypans Consolidated Mines is situated in a very promising district, a short distance south of the Big Dome, and in close proximity to the new operations of the La Rose and Conlagas properties in Deloro.

A considerable amount of surface work has been done on the claims and it is the intention to commence operations on a larger scale, including diamond drilling.

SACO-LOWELL SHOPS.

*(1) New Plant.—It was stated Feb. 21, 1917, that this company had asked the City of Lowell, Mass., for permission to erect a \$200,000 addition to its old plant.

SACRAMENTO GAS CO.

*(1) Report, Year Ended Dec. 31, 1916, shows gross of \$139,623, with a surplus after all charges and deductions of \$29,539. After payment of dividends of \$25,754 and various miscellaneous deduction from and addition to surplus, the latter Jan. 1, 1917, was \$20,929, compared with \$17,241 Jan. 1, 1916.

SACRAMENTO MINING CO.

*(1) Stock Issue.—Acquisition.—It was announced Jan. 16, 1917, that the California Commissioner of Corporations had authorized this company to issue 64,000 shares to Bour Mining Co. in exchange for an option to purchase properties in San Diego County, Cal., being mined for molybdenum. The company is also permitted to issue 11,033 shares to Wm. Bowden, C. G. Shinn, A. L. Hart, P. L. Shinn, M. C. Van Loben Sells and Jesse Wise in consideration of moneys advanced by them, and to sell 25,000 shares at par, \$1 per share, net to the company, for the purpose of installing additional equipment and developing the property.

The purchase price is \$50,000, of which \$1,000 has been paid.

SACRAMENTO TELEPHONE CO.

*(1) Report, Year Ended Dec. 31, 1916, of this company, operating in Red Bluff, Willows, Orland and vicinity in California, shows operating revenue of \$62,447 and net corporate loss of \$25,963.

*(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss deficit of \$29,555.

● SAFETY CAR HEATING & LIGHTING CO.

*(1) Dividends.—It was stated March 16, 1917, that this company's declaration of the 2% regular quarterly dividend marked the ninetieth consecutive disbursement which had been ordered since 1893, making a total of 310% declared in regular dividends, stock dividends and extra disbursements in a little over 23 years.

*(2) Business in 1916.—It was stated March 17, 1917, that this company's report for the year ended Dec. 31, 1916, should be available for publication in April. Net earnings for the year are expected to show a big increase over other years after heavy depreciation charges.

The 1915 net was not made public, but previous thereto the best year was in 1910, when net profits totaled \$1,326,874 and surplus \$242,064, after dividend payments of 11%. Business booked thus far in 1917 is understood to be on a par with last year.

Safety Car's decision to refuse all war order business in 1916 and hold to the manufacture of equipment for lighting and heating railroad cars, resulted in big orders from domestic sources, and consequently 1916 proved to be one of the best years in the history of the company.

"Had we gone into the munition business," said one official of the company, "though everything looked rosy at the

JANUARY 1 TO APRIL 30, 1917

time for large profits, our expectations might not have been realized, and, furthermore, our regular business would have suffered."

SAFETY & ECONOMY DAMPER CO., WILMINGTON, DEL.

*(1) Incorporated in February, 1917, in Delaware, with a capital of \$300,000, to make and dispose of automatic devices.

SAFETY SERVICE CORP.

*(1) Incorporated on April 6, 1917, in Delaware, with a capital of \$1,000,000, to do a general engineering and construction business. Incorporators: Herbert E. Latter and C. L. Risinger, Wilmington, Del., and Clement M. Egner, Elkton, Md.

SAGAMORE MANUFACTURING CO.

*(1) Reduced Dividend.—Announced Jan. 30, 1917, that this company had declared a quarterly dividend of 5%, payable Feb. 1. The last previous dividend was 11%.

—Apr. . . .

*(1) Extra Cash and Stock Dividends.—Announced April 4, 1917, that this company had declared an extra cash dividend of 20% and had voted to recommend an increase of capital to \$1,800,000 by a stock dividend of 50%.

A special meeting was called for April 25 to act on the capital increase proposition. The company paid 13% in dividends in the fiscal year ended Sept. 30, 1916, and since has paid 16% in two dividends. It has a production capacity of 150,000 spindles. It makes print cloth yarn goods.

*(2) Capital Increase by Stock Dividend Approved.—Stockholders of this company April 25, 1917, voted unanimously to adopt the recommendation of the directors to increase the capital stock to \$1,800,000 from \$1,200,000. The increase is to be by a 50% stock dividend, one share of new stock to be given for every two shares of old stock held.

SAGAMORE MINES CO.

*(1) Incorporated on Feb. 5, 1917, in Delaware, with a capital of \$1,000,000, to mine and mill for lead, zinc, copper, etc. Incorporators: Herbert E. Latter and Norman F. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

SAGINAW MALLEABLE CO.

*(1) To Build Plant.—It was announced Feb. 1, 1917, that this company, incorporated with a capital stock of \$350,000, would erect a malleable foundry at Saginaw, Mich. The initial installation will include two melting furnaces with an annual capacity of 12,000 tons. Provision is made for an ultimate capacity of 40,000 tons per year.

SAGINAW MALLEABLE IRON CO.

*(1) New Company Organized.—It was announced March 16, 1917, that articles of incorporation of this new company, Saginaw, Mich., had been filed in Michigan. The capital stock was increased from \$350,000 to \$400,000.

The officers and directors of the new company are: Pres., Charles F. Drozeski; Vice-Pres., W. J. Wickes; Sec'y, Julius E. Kirby; Treas., George H. Hannum; directors, W. J. Wickes, J. J. Kerns, C. T. Kerry, Charles F. Drozeski, Henry T. Robinson and George H. Hannum, of Saginaw; E. J. Lobdell, of Onaway, Mich.

ST. ANDREWS BAY DEVELOPMENT CO.

*(1) Receiver.—It was announced Feb. 21, 1917, that E. Bright Wilson had been appointed by Judge Manton, of New York, as receiver of this company in a friendly equity suit brought by Henry H. Hanson on behalf of himself and other creditors. William H. Lynn, of New York, is the Pres. of the company and holds more than half of the \$2,000,000 stock. The company is engaged in real estate development in the vicinity of St. Andrews Bay, Fla., and owns 23,000 acres of land and 3,300 city lots.

ST. ANTHONY MINING CO.

*(1) Stock Issue.—It was announced Feb. 24, 1917, that this company, San Francisco, had been permitted by California Commissioner of Corporations H. L. Carnahan to sell 100,000 shares, to net the company not less than 10 cents a share, and thereafter to sell 200,000 shares, to net the company not less than 15 cents a share, the proceeds to be used for the purpose of installing a compressing plant and conducting further development work on the company's claims located on Columbia Mountain, in the Yellow Pines mining district, Clark County, Nev.

The company has issued and outstanding 677,015 shares, of which 600,000 shares were issued in exchange for the property.

ST. JOHN RY. CO.

*(1) Sale Planned.—It was stated Feb. 5, 1917, that in a circular issued to stockholders of this company, controlling tramways, electric light, power and gas in St. John, N. B., a special meeting is called to consider an offer to purchase the entire assets of the company.

The New Brunswick Investment Co., Ltd., formed for the purpose, has offered \$1,300,000 for all the company's properties and franchises and in addition \$10 a share for each share transferred, making a total of \$140 per share net to the shareholders.

*(2) Sale Ratified.—It was announced at St. John, N. B., Feb. 16, 1917, that by a vote of shareholders representing 8,101 shares for, to 31 against, the decision of the directors to sell this company, including the gas and electric light utilities, to the New Brunswick Investment Co., Ltd., was ratified at a meeting of the shareholders. The price is \$1,300,000 and an additional \$10 a share for each share of the company's stock transferred, making \$140 a share net to the shareholders.

ST. JOSEPH LEAD CO.

*(1) Merger Planned.—It was stated Feb. 16, 1917, that preliminary steps had been taken by this company for merging one or more of its subsidiary companies into its own corporate identity.

The principal subsidiary is the Doe Run Lead Co., for the dissolution of which proceedings have been started in the Missouri courts.

The St. Joseph Co. has forged to second place among the lead producers of the United States and outranks all others among the so-called independent producers. Although exceeded in production by the American Smelting & Refining Co., the St. Joseph Lead Co. can lay claim to the distinction of getting every pound of lead produced from its own mines.

Between 180,000,000 and 200,000,000 pounds of lead constituted the contribution in 1916 of the St. Joseph Co. to the 1916 output of this metal in the

United States, as compared with about 165,000,000 pounds in the previous year.

*(2) Report, Year Ended Dec. 31, 1916, shows earnings as follows:

	1916	1915
Net profits.....	\$3,004,949	\$4,392,300
Bal. aft. chgs....	4,674,467	3,489,964
Surp. aft. divs....	3,265,001	1,998,883

*(3) Earnings on Stock.—It was stated Feb. 19, 1917, that this company's 1916 balance of \$4,674,467, after charges is equal to 33.16% on \$14,094,660 capital stock, compared with 24.75% earned in 1915.

*(4) Extra Dividend.—Announced Feb. 19, 1917, that this company had declared a distribution from the reserve for amortization of 50 cents a share, in addition to the regular quarterly dividend of 25 cents a share, payable March 20 to stock of record March 10.

*(5) Balance Sheet, as of Dec. 31, 1916, of this company and subsidiaries, shows a profit and loss surplus of \$11,054,997.

*(6) Production, 1916.—It was announced Feb. 23, 1917, that one-seventh of the lead production of the United States, estimated by the Government for 1916 at 622,000 tons, was produced by this company, with a smelter output of 91,000 tons. This company, with a yield of 182,000,000 pounds of lead for the year, was the second largest factor, being exceeded only by the American Smelting & Refining Co.

The company has adopted an amortization reserve either for the purchase of additional ore reserves or as a return to stockholders of capital invested. Several dividends have been declared from this reserve, and another of 50 cents a share has been ordered.

ST. JOSEPH RY., LIGHT, HEAT & POWER CO.

*(1) Bonds.—See St. Joseph & Savannah Interurban Ry. Co.—Item No. 1.

ST. JOSEPH & SAVANNAH INTERURBAN RY. CO.

*(1) Bonds Called.—It was stated Jan. 22, 1917, that through the Empire Trust Co. of St. Joseph, Mo., this company had called for payment at 102½ and interest on April 1, 1917, all its first mortgage bonds.

The company plans a merger with the St. Joseph Ry., Light, Heat & Power Co. and proceeds for the redemption of the bonds were secured by a sale of first and refunding 5% bonds of the St. Joseph Ry., Light, Heat & Power Co.

ST. LOUIS, IRON MOUNTAIN & SOUTHERN RY.—(Rec.)

¹(1) Stock Sale.—It was announced at New York Feb. 23, 1917, that in the Federal District Court ex-Judge E. Henry Lacombe as special master had filed his report of the sale of 372,550 shares of the capital stock of this company for \$15,200,000. The sale is the result of a decree in foreclosure entered July 24, 1916, in the proceedings instituted by the Bankers' Trust Co. as trustee against the Missouri Pacific Ry. Co. and Benjamin F. Bush as ancillary receiver of the property of that company, which was the capital stock of the St. Louis road.

²(2) Earnings on Stock.—It was stated Jan. 8, 1917, that the net income of this company for the five months ended Nov. 30, 1916, after deduction of the dividend on the \$1,000,000 5% pfd. stock, was equivalent to 3.82% on the \$10,000,000 common.

Officials state that although its output is the largest in its history, it is unable to meet the Western demand.

Forty new coke ovens have been blown in and 92 additional ovens are being built as rapidly as possible.

The output of both classes of fuel is fully booked for several months. All signs point to the present fiscal year being the banner year in the company's history.

³(3) Securities Listed in New York.—It was announced Jan. 6, 1917, that the securities issued under the plan for the reorganization of this company had been admitted to the list on the New York Stock Exchange. They consist of \$7,500,000 pfd. stock trust certificates (series "A") and \$46,432,000 common stock trust certificates. Authority is granted to add \$4,000,000 of common stock trust certificates on official notice of transfer from the reorganization managers.

⁴(4) New President.—It was announced Jan. 10, 1917, that at a meeting of directors of this company W. B. Biddle, formerly 1st Vice-Pres., had been elected Pres., succeeding the late W. C. Nixon. E. D. Levey, former 2d Vice-Pres. and Genl. Mgr., was elected 1st Vice-Pres. N. M. Rice was promoted from 3d Vice-Pres. to 2d Vice-Pres. Mr. Levey was also made a director, succeeding Mr. Nixon.

⁵(5) Inter-State Commerce Commission Ruling.—On Jan. 23, 1917, it was announced that advances of 1 and 2 cents per hundred pounds on hardwood lumber, putting it on the same rate basis as yellow pine, on this railroad and the Texas, Oklahoma & Eastern R. R. in Oklahoma points, both east and west of the Mississippi River,

had been approved. Similar advances proposed on yellow pine to basis of hardwood rates from Oklahoma and Arkansas to points east of the Mississippi River were denied.

6 mos. gross.....	28,768,044	24,035,769
Net after taxes.....	8,801,895	7,330,557

²(2) Bond Interest.—It was announced Feb. 7, 1917, that at a meeting of directors held on that date the six months' interest to Dec. 31, 1916, on the cumulative adjustment bonds was declared payable April 1, 1917.

The net income available for payment of interest on the cumulative adjustment bonds amounted to \$4,216,659, and the 3% payment requires about \$1,162,000.

³(3) Status.—It was stated Feb. 14, 1917, that this new company, incorporated in August, 1916, is fulfilling expectations for the system as reorganized. The results attained in the six months ended Dec. 31 were highly satisfactory.

Apparently the higher operating costs which are affecting net earnings on the Eastern roads are also being felt to a greater extent than was recently the case on the Western systems. Although gross in December increased \$435,329, or 10%, net operating revenue increased only \$133,574, or 8.7%, over the corresponding month of 1916.

Increased taxes and very much larger debits for car hire have affected total income to some extent. It is not surprising to find a road which is just in process of financial recuperation, like the 'Frisco, with a shortage of equipment to handle heavily increased traffic, carrying an unusually large number of foreign cars on its lines and heavier car hire charges.

For the six months ended Dec. 31 gross was \$28,768,044, an increase of \$4,732,275, or 19.7%, compared with the corresponding period of 1915. Net operating revenue of \$10,112,985 showed an increase of \$1,921,768, or 23.5%, over the same period of the previous year.

In the six months the balance available for interest charges was \$8,368,265, which means that fixed requirements were earned more than twice over. Total fixed interest-bearing obligations are about \$190,726,000, upon which fixed charges for the six months period were \$4,152,606. There are in addition, \$40,547,818 adjustment mortgage 6% cumulative income bonds and \$35,192,000 non-cumulative income mortgage bonds.

In the six months period the interest requirements on the adjustment bonds were earned over 3½ times and the interest on the income bonds nearly three times. Directors declared interest on the adjustment bonds payable April 1.

The fact that the 'Frisco has not thoroughly established itself as yet probably accounts for low prices for the bonds, which are regarded in conservative banking quarters as relatively cheap.

ST. MARY'S MINERAL LAND CO.

“(1) Dividends.—It was announced Feb. 2, 1917, that this company's stockholders of record Feb. 5 would receive on Feb. 26 a dividend of \$2 a share. The last previous dividend was paid Dec. 22, 1916.

—Mar.

“(1) Report, Year Ended Dec. 31, 1916, shows cash on hand of \$56,104, as against \$289,544 in 1915. The 1916 receipts were \$283,419; dividends paid amounted to \$480,000, and total expenditures were \$516,855.

As all except three Champion Copper dividends were paid direct to St. Mary's stockholders, these are not included in the receipts or payments, amounting altogether to \$3,040,000.

The real property of the company Dec. 31, 1916, consisted of 93,011 acres besides the mineral rights to 14,183 acres.

“(2) Dividend.—See Champion Copper Co.—Item No. 1.

—Apr.

“(1) Dividend.—Announced April 4, 1917, that stockholders of this company of record April 5 would receive April 28 a dividend of \$2 a share. The last previous dividend, \$2, was paid March 28, 1917.

ST. MAURICE PAPER CO., LTD.

“(1) New Mill Completed.—It was announced at Montreal, Que., Jan. 23, 1917, that this company's new paper mill, at Three Rivers, with a capacity of 100 tons of newsprint a day, had been completed and made ready for operation in January.

Concurrently with its construction, a 60-ton sulphite mill and a 50-ton sulphate mill have been under construction.

—Feb.

“(1) Operations Started.—It was announced at Montreal Feb. 5, 1917, that the new mill of this company at Three Rivers, Quebec, had begun operations. The first run on one of the two 50-ton units proved entirely successful. The capacity of the mill is placed at 100 tons.

A sulphite mill, built in connection with the newsprint mill, had been in operation several weeks.

The St. Maurice Pulp & Paper Co. is a subsidiary of the Union Bag & Paper Co., an American firm.

ST. NICHOLAS ZINC EXTENSION CO.

“(1) Incorporated on March 22, 1917, in Delaware, with a capital of \$1,000,000, to carry on a general contracting business for production of zinc, brass, etc. Incorporators: F. D. Buck, Geo. W. Dillman and M. L. Horty, Wilmington, Del.

ST. PAUL UNION STOCK YARDS CO.

“(1) Bond Offering.—It was announced Feb. 23, 1917, that R. C. Wight & Co., St. Paul, Minn., are offering for sale this company's 1st mortgage sinking fund 5% gold bonds, dated Oct. 2, 1916, and due Oct. 1, 1946, at 101½ and interest. The bonds are tax exempt in Minnesota and the company agrees to pay normal Federal income tax. Bonds are redeemable at 103 after 5 years on any interest date on 90 days' notice. The company has an authorized capital stock of \$2,500,000 and \$2,500,000 of first mortgage bonds. Trustee, Northwestern Trust Co., St. Paul.

SALEM GAS LIGHT CO.

“(1) Stock Issue Authorized.—It was announced Jan. 28, 1917, that the Massachusetts Gas and Electric Light Commission had approved an issue of 4,073 shares at \$130 by this company. The new stock is to fund the expenditure for an extension of the plant and new equipment.

SALEM & PENNSGROVE TRACTION CO.

“(1) Earnings Statement, 4½ Months Ended Dec. 31, 1916, shows a gross of \$35,796; net, after taxes of \$9,253, and a surplus after charges and taxes of \$1,708.

SALMON RIVER POWER CO.

“(1) Bond Authorization.—It was announced Jan. 18, 1917, that the New York Second District Public Service Commission had authorized the issue and sale at not less than 87 of \$216,000 of the first mortgage 5% bonds of this company. The bonds are guaranteed principal and interest by the Niagara, Lockport & Ontario Power Co. The proceeds are to be held in the treasury of the company, pending an investigation by the commission into their use, which is stated to be the acquisition of the Pulaski Electric Light Co. and certain new construction. Because of the favorable bond market the issue of the securities was approved by the commission at this time.

—Feb.

“(1) Earnings, November and 11 Months.—See Niagara, Lockport & Ontario Power Co.—Item No. 1.

SALT LAKE, GARFIELD & WESTERN RY.

“(1) Extension Plans.—It was stated Feb. 14, 1917, that this company, which operates a steam road from Salt Lake City to Saltair on the Great Salt Lake, plans to extend its lines to Garfield and to electrify the system.

At Garfield are the concentrating plants of the Utah Copper Co. and the smelters of the American Smelting & Refining Co., which draw their ore from the “copper mountain” of the Utah Copper Co. directly behind the city.

The poles, rails and ties are already on the ground for the extension and contracts have been made for equipment. The financing consists of a 6% first mortgage bond issue of \$300,000 out of an authorization of \$600,000. Following this issue are \$200,000 second mortgage bonds and \$300,000 stock held by Mormon Church interests.

For the year ending Dec. 31, 1916, the gross earnings were \$238,656, and net \$80,727 leaving a balance of \$62,727 after interest on the first mortgage bonds.

SALUX DRUG CO., EASTERN BRANCH, INC., BUFFALO, N. Y.

“(1) Incorporated on Jan. 8, 1917, in New York, with a capital of \$250,000, to deal in drugs and medicines. Incorporators: A. E. McBride, R. C. Taylor and F. C. Slee, 507 Iroquois Building, Buffalo, N. Y.

SAN ANTONIO, FREDERICKSBURG & NORTHERN RY.

¹(1) **Sale May 1.**—It was announced March 22, 1917, that this company would be sold at Fredericksburg, Tex., on May 1 by Joseph D. Sayers, special master, under a decree of the United States District Court. The upset price is \$125,000. The property consists of the line from Fredericksburg to Fredericksburg Junction, on the San Antonio & Aransas Pass Ry., about 24 miles, besides sidings and switches, making a total of about 26 miles.

SAN ANTONIO, UVALDE & GULF R. R. CO.

¹(1) **Bonds.**—See Bankers' Trust Co., St. Louis.—Item No. 1.

²(2) **Stock and Bonds Sold.**—It was announced Feb. 17, 1917, that the \$4,190,000 in stocks and bonds of this company, held by the Bankers Trust Co., New York, had been sold to A. R. Ponder, receiver for the road, for \$1,000,000 cash and other considerations. Among other things Ponder agreed to deed back to the trust company 2,000 acres of Texas lands held by the receiver and to assume indebtedness of the trust company to the railroad.

SAN DIEGUETO MUTUAL WATER CO.

¹(1) **New Company.**—It was announced at San Francisco March 27, 1917, that the Aatchison, Topeka & Santa Fe Ry. Co. and the Volcan Water Co. had formed a company under the above name to build two concrete irrigation dams. The incorporators of the new company are W. E. Hodges, E. O. Faulkner, Wm. Henshaw, Edw. Fletcher and S. S. Payson.

SANDERS CO., CHICAGO.

SAN FRANCISCO-OAKLAND TERMINAL RYS. CO.

¹(1) **Bond Interest Default.**—On Jan. 6, 1917, it was stated this company had announced its inability to meet the interest maturing late in 1916 and early in 1917 on its Key Route bonds, but had made arrangements with San Francisco and Oakland banks by which the latter will purchase the coupons from holders if accompanied by bills of sale.

The company stated that it will pay the various July, 1916, coupons as rapidly as funds being accumulated for that purpose are sufficient to make the necessary payments.

SANITARY MANUFACTURING CORP.

¹(1) **Incorporated** on Jan. 16, 1917, in Delaware, with a capital of \$500,000, to manufacture and sell sanitary refrigerating, cooling, storage and ice-making apparatus, machinery and devices. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

SAN JOAQUIN LIGHT & POWER CORP.

¹(1) **Earnings, Year Ended Dec. 31, 1916,** compare with previous year as follows:

Gross	\$1,838,463	\$1,774,457
Net after taxes	1,101,487	1,082,988
Surp. after chgs.	621,515	598,291

²(2) **Special Meeting April 20.**—It was announced Feb. 27, 1917, that a special meeting of this company had been called for April 20, to authorize the issue of 10-year 8% debentures. Of the debentures \$1,000,000 are to be sold at once to provide 25% of the cost of extensions and improvements. In the past the company has financed 85% of the cash cost of its improvements by

the sale of bonds and 15% from income.

Under the plan for the issue of the debentures 75% of the cash cost of improvements will be paid for by bonds and 25% from the proceeds of the debentures. Under this plan, after providing for depreciation and sinking funds, the company should be in position to resume payment of dividends on its pfd. stock.

—Apr.

⁴(1) **Debenture Bond Issue of \$4,500,000 Planned.**—On April 19, 1917, Dow, Jones & Co. stated that this company had applied to the California Railroad Commission for approval of an indenture securing \$4,500,000 10-year 6% debentures, of which \$1,000,000 are to be sold at once. The \$1,000,000 debentures are to be sold to reimburse the treasury for capital expenditures which have been made and for new improvements. The remaining \$3,500,000 are to provide the difference between the face value of the first and refunding bonds issued for improvements and extensions and the total cost of such improvements.

SAN JOSE & SANTA CLARA COUNTY R. R. CO.

¹(1) **Exchange of Bonds Planned.**—See Southern Pacific Co.—Item No. 4.

SAN PEDRO COCOANUT ESTATES CORP.

¹(1) **Incorporated** on Jan. 16, 1917, in Delaware, with a capital of \$700,000, to cultivate fruits and vegetables. Incorporators: Francis H. Dervoe, Ed. Fay Wilson and E. M. Mortensen, Chicago.

SANSOM TIRE & RUBBER CORP.

¹(1) **Incorporated** on Jan. 12, 1917, in Delaware, with a capital of \$1,000,000, to manufacture automobiles and tires. Incorporators: L. B. Phillips and J. B. Bailey, Philadelphia.

SANTA BARBARA GAS & ELECTRIC CO.

¹(1) **Report, Year Ended Dec. 31, 1916,** shows gross of \$375,274, with a surplus after all expenses and deductions of \$67,695. After payment of \$76,103 in dividends and other miscellaneous deductions and additions to surplus, this on Jan. 1, 1917, was \$12,620, compared with \$57,132 Jan. 1, 1916.

SANTA CECILIA SUGAR CO.

⁴(1) **Capital Readjustment Planned.**—On April 18, 1917, the "Wall Street Journal" said this company was preparing for announcement a plan for the voluntary readjustment of its capitalization. The plan, it was stated, had been underwritten by a firm of brokers.

It is planned to reduce the authorized mortgage on the property from \$1,500,000 to \$750,000. Holders of the \$750,000 8% cumulative participating pfd. stock will get 120% in new 7% cumulative pfd. stock, and 30% in new common stock. The status of the original \$1,500,000 common stock will remain unchanged.

Earnings of the company are running at the rate of over 40% on the proposed new pfd. stock, and immediate dividends on the new pfd. at the rate of 7% are anticipated.

²(2) **Status, April, 1917—Readjustment Plans.**—This company, brought to the front by the war, has become prosperous and, when the readjustment is completed will be known as the Santa Cecilia Sugar Corp., according to Dow, Jones & Co., April 23, 1917.

The Columbia Trust Co. is depository under the plan which has been formally announced. Rhoades & Co., bankers, formulated the plan in conjunction with the reorganization committee, composed of Robert I. Curran, C. D. Barnes, A. H. Lamborn, Chauncey H. Murphy and R. L. Cerero. The plan has been approved by the directors of the old company and has the sanction of a large percentage of the security holders. Holders will have until May 15 to deposit their securities.

Despite its larger earnings the old company was unable to pay dividends on its \$715,000 8% cumulative pfd. stock because of a technical default in the sinking fund for the company's authorized bond issue of \$1,500,000. There were 40% accrued dividends on the pfd. stock. The plan now proposed will close the mortgage at \$750,000 and wipe out all arrears in the sinking fund.

In commutation of the 40% back dividends the holders of pfd. will get 120% in new 7% cumulative pfd. stock and 30% in new common stock. The common stock issue will thus be increased from \$1,500,000 to \$1,750,000. The total pfd. outstanding will be \$1,000,000. Holders of the bonds, on a basis of 102½ for their present holdings, will receive new ten-year first mortgage sinking fund bonds at par and also a cash payment equal to 2½%.

The Santa Cecilia Sugar Co. passed through the recent Cuban political disturbance without any damage and grinding has been continuous since December. Present indications point to a crop of 65,000 to 80,000 bags of sugar. Minimum earnings are estimated at \$500,000 and if weather conditions continue good they may reach \$800,000. It will require \$45,000 to pay the bond interest and a maximum of \$75,000 for the sinking fund.

On a basis of \$500,000 net earnings there would be \$380,000 for the new \$1,000,000 pfd. stock, equivalent to \$38 a share on the pfd., or about \$18 a share on the common after paying 7% on the pfd.. It is proposed to set aside a special reserve fund of \$125,000 out of the 1917 earnings and even with this deduction the new pfd. should earn a minimum of \$25 a share.

The plan states that under the proposed readjustment the new securities "can be expected presently to share in the prosperity of the company and be afforded a stable and satisfactory market." It is understood that the new pfd. will be placed on a 7% basis as soon as the readjustment is completed. The new common stock should be in line for dividends within another year if the great prosperity in the sugar industry continues.

All the common stock of the new corporation will be held in a voting trust. The trustees are: Benjamin L. Allen, Charles H. Bushwell, Alfred A. Cook, Tracy A. Johnson and Montgomery H. Lewis.

SANTA CLARA COPPER CORP., DOVER, DEL.

¹(1) **Incorporated** in January, 1917, in Delaware, with a capital of \$4,000,000, to acquire and develop mining properties.

SANTA FE, RATON & EASTERN R. R.

¹(1) **Bond Sale.**—See Mexico-Colorado Coal & Mining Co.—Item No. 1.

SAPULPA REFINING CO.

¹(1) **Dividend on Quarterly Basis.**—It was announced Jan. 18, 1917, that this company had declared a quarterly dividend of 6%, payable Feb. 1 to stock of record Jan. 20.

This is at the same yearly rate as formerly, but is the first dividend on a quarterly basis, previous dividends having been declared monthly.

No announcement has been made by the company relating to a stock issue. At a recent meeting of stockholders the authorized amount was increased from \$1,000,000 to \$2,000,000.

²(2) **Stock Offering.**—It was announced Jan. 30, 1917, that this company is offering 100,000 shares at \$9 a share to stockholders of record Feb. 8. The proceeds will be used to pay for recent additions to the refining capacity and other improvements.

³(3) **Statement, Year Ended Dec. 31, 1916,** shows profit and loss account as follows: Net profit, \$497,369; interest and depreciation, \$107,453; previous surplus, \$58,868 and surplus from bond reserve, \$22,000. Deduct dividends paid, \$161,360, leaving surplus, Dec. 31, 1916, \$309,483.

JANUARY 1 TO APRIL 30, 1917

—Feb.

(1) Stockholders' Rights.—It was announced Jan. 29, 1917, that stockholders of this company have the privilege of subscribing to the new 200,000 shares, par \$5, to be issued at \$9 per share, in the proportion of 50% of stock of record of Feb. 8, when the transfer books close, to be reopened Feb. 20, at which time the privilege expires. Payment in full must be made either in Baltimore or New York funds to the Equitable Trust Co., Baltimore, or New York Trust Co., New York.

(2) Syndicate.—It was stated Jan. 29, 1917, that to assure the receipt of proceeds of all the new stock the Board of Directors of this company had entered into an agreement with an underwriting syndicate to subscribe and pay for stock not subscribed and paid for by stockholders before Feb. 20.

SAUNDERS MOTOR POWER CO., EAST ST. LOUIS.

(1) Capital Increased.—On Jan. 25, 1917, the company filed notice at Springfield, Ill., of an increase in capital stock from \$10,000 to \$1,500,000.

SAVAGE ARMS CO.

(1) Order for Lewis Machine Guns.—Announced on April 7, 1917, that as the result of a test held by the United States Marine Corps, at Winthrop, Md., on the corps' rifle range, Chief of the Bureau of Ordnance of the U. S. Navy Department, Admiral Ralph Earle, had placed an order for 2,000 Lewis machine guns, chambered for United States ammunition, with the Savage Arms Co., of Utica.

Savage Arms is controlled by the Driggs-Seabury Ordnance Co., which owns practically all its stock.

(2) Government Orders Secured for Lewis Guns.—See Driggs-Seabury Ordnance Co.—Item No. 3.

(3) Order for 3,500 Lewis Guns Closed.—The United States Navy Department, April 25, 1917, announced it had placed with this company an order for 3,500 Lewis machine guns. Other large orders have been awarded other companies.

SAVANNAH ENGINEERING & CONSTRUCTION CO.

(1) Ship Contract Awarded by Government.—A Savannah, Ga., dispatch April 25, 1917, stated that the United States Government had closed a contract with this company for the building of a number of wooden ships, which the Government has announced its determination to construct at the rate of three a day to fight the German submarine blockade. The ships will conform to a certain standard with a net tonnage of about 3,000 tons and will cost, exclusive of mechanism which the Government will provide, something over \$300,000 each.

SAVANNAH SUGAR REFINING CO.

(1) Capital Increase Consideration.—It was announced Jan. 8, 1917, that a meeting of stockholders of this company would be held in New York during the week of Jan. 7 to consider the question of increasing capital stock. It is understood the amount of increase, if authorized, will be about \$750,000. Capitalization at present consists of \$2,000,000 7% cumulative pfd. stock and 20,000 shares of common, no par value.

Savannah Sugar Refining Co. was organized in New York in January, 1910, and operates a refinery at Savannah, Ga., with a capacity of 150,000 tons.

(2) Stock Increase Authorized.—Announced Jan. 10, 1917, that the stockholders of this company at a special meeting had authorized an increase in the company's capital from \$2,000,000 to \$2,750,000. The increase in capital is to provide for an enlargement of capacity.

SAVOY OIL CO.

(1) Stock Issue—Shareholders' Rights.—It was announced Jan. 25, 1917, that this company had decided to offer 20,000 shares of new stock at par to stockholders of record Feb. 3, 1917, on the basis of one share of new stock for each five shares of stock held.

—Mar.

(1) Report, Year Ended Dec. 31, 1916, shows a deficit after dividends of \$10,801.

On Dec. 31 the company owned developed leases in Oklahoma and Louisiana amounting to 2,900 acres and undeveloped leases of 11,480 acres. It had 128 producing wells. Dividends of 20% were paid during the year.

(2) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross receipts	\$238,213	\$120,348
Net profits	89,199	443
Def. after divs.	10,801	39,557
Final surplus	26,079	36,880

(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$26,079, compared with \$36,880 Dec. 31, 1915.

SAXON CHINA CO., SEBRING, O.

(1) Capital Increased.—On March 10, 1917, the company filed notice at Columbus, O., of an increase in capital from \$180,000 to \$350,000.

SAXON MOTOR CAR CORP.

(1) Shipments, December, 1916.—It was stated Jan. 3, 1917, that shipments of this company in December totaled 3,016 cars, the largest December shipments since the organization of the company and the third largest month on record. Compared with December, 1915, they showed an increase of 1,629 cars, or 117%.

The three months ended Dec. 31, the second quarter of the fiscal year, showed shipments of 7,573 cars, compared with 5,197 for the same period of 1915, an increase of 2,376 cars, or 45.72%.

Pres. Harry W. Ford says that the demand for Saxon cars is 100% greater than at the same time the previous year. The company has contracts on hand for its entire output for the current fiscal year, which is expected to be about 40,000 cars, compared with 25,399 in the year ended June 30, 1916, and 12,099 in 1915.

No trouble is being experienced with raw materials, as the company has contracted for all materials required for its scheduled production of 40,000 cars. At the present time inventory of raw materials is probably the largest ever carried and shows a substantial increase over this time a year previously.

Effective Jan. 1, the company announced an increase of \$50 in the price of its six-cylinder car, which brings the price up to \$865 f. o. b. Detroit.

—Feb.

(1) Car Shipments.—It was announced Feb. 2, 1917, that shipments of this company in January are running at the highest rate on record, and should they continue at the present rate, January will show the biggest month's shipments in the history of the company. The previous best month was April, 1916, when 3,405 cars were shipped. Shipments in December were 3,016 cars, and for the three months ended December, 7,573 cars.

(2) Damage by Fire.—It was announced Feb. 3, 1917, that fire early this day almost destroyed the plant of this company, causing a loss estimated at \$200,000.

(3) Output, January, 1917.—It was announced Feb. 5, 1917, that this company shipped, during January, 1917, 2,886 cars, compared with 1,556 in January, 1916, an increase of 1,330 cars, or 85.5%. In the three months ended Jan. 31, 1917, shipments were 8,835 cars, an increase of 72.9% over the three months ended Jan. 31, 1916.

(4) Damage Covered by Insurance.—It was announced Feb. 4, 1917, that the plant of this company, damaged by fire, was insured for \$1,000,000 in the Western Factory Association, with \$1,000,000 additional of use and occupancy insurance.

—Apr.

(1) Shipments, March, 1917.—It was announced April 11, 1917, that shipments of this company in March were 3,268 cars, compared with 2,804 in March, 1916. Shipments in March were the largest of any month since the organization of the company, with the exception of April, 1916, when the total reached 3,405. March was the fourth month in which car shipments exceeded 3,000, the other three being April, 1916, the record month, June, 1916, with 3,122 cars, and December, 1916, with 3,016 cars.

Operations of the company in March represented a complete recovery from the effects of the fire at its plants in February, which restricted shipments in that month to 971.

Saxon Motor in the calendar year 1916 shipped 28,148 cars, compared with 18,755 in 1915 and 7,323 in 1914.

SCANDINAVIAN-AMERICAN SHIP-BUILDING CORP., SEATTLE, WASH.

(1) Incorporated in Washington, Dec. 27, 1916, with a capital of \$500,000. Incorporators: H. W. Bowerman and Carl W. Isakson.

SCANDINAVIAN TRUST CO. OF NEW YORK CITY.

(1) Incorporation.—On Jan. 12, 1917, it was announced that notice of intention to organize this company had been filed with State Superintendent of Banks. The company plans to have a capital of \$1,000,000 and a surplus of \$1,500,000.

The special purpose of the organization is to facilitate financial transactions in aid of trade and commerce between the United States and Scandinavian countries, especially Norway. Leading foreign bankers who are in sympathy with the Norwegian Government are interested.

The incorporators include: John R. Berwind, Samuel L. Fuller, Edwin O. Halter and E. A. Cappelen Smith, New York City; William R. Coe, Oyster Bay; Edward F. Geer, Westhampton Beach, L. I., and Frederick W. Hvoslef, Brooklyn, N. Y.

—Feb.

(1) Incorporated on Feb. 17, 1917, in New York, with a capital of \$1,000,000. Incorporators: John R. Berwind, Samuel L. Fuller, Edwin O. Halter, William R. Coe, Edward F. Greer, Frederick W. Hvoslef and E. A. Cappelen Smith.

SCARSDALE CO.

(1) Bankrupt.—Announced Feb. 1, 1917, that this company, operators in real estate, Scarsdale, N. Y., had filed a voluntary petition in bankruptcy in the United States District Court. Liabilities were given as \$466,736, mostly secured. Assets were placed at \$535,599. The petition was signed by Lean Woodworth, Secy. and Treas., and James D. Merriam, counsel.

S.-C. & BOND CLOTHING CO., CLEVELAND, O.

(1) Incorporated in February, in Ohio, with a capital stock of \$1,750,000. Incorporators: J. H. Orgill, J. E. Mathers, Maurice Maschke, Herbert O. Evans and E. E. Wagner.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

SCHENECTADY ILLUMINATING CO.

SCHNEIDER-BECKER DAIRY CO., CLEVELAND, O.
 * (1) Capital Stock Increased.—On March 28, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$200,000 to \$600,000.

SCHOELLKOPF ANILINE & CHEMICAL WORKS, INC.
 * (1) Merger Reported.—It was reported April 10, 1917, that negotiations were under way for the merger of several of the largest American dye and chemical companies into one corporation to be capitalized at about \$20,000,000. It was said that the organization was being perfected and an official announcement could be expected shortly. The companies expected to enter into the combination include:

Schoellkopf Aniline & Chemical Works, Inc., Buffalo, N. Y.	Capital. \$3,000,000
Wm. Beckers Aniline & Chemical Works, Inc., Brooklyn, N. Y.	5,000,000
Standard Aniline Products Co., Inc., New York	300,000
National Aniline & Chemical Co., New York	1,000,000

No official confirmation of the report could be obtained. Officers upon being interviewed refused to make comment one way or the other. It was said that the merger, if finally arranged, would represent the consolidation of the chief dye industries in the United States, and would place the industry in a stronger position to face the competition from Germany which is expected at the end of the war. In the last two years each of these concerns has expanded its facilities considerably to meet the larger demand from domestic consumers, and they have been enabled to increase their financial strength as a result of higher prices for dye and chemical materials. * (2) Merger Plans.—See National Aniline & Chemical Co., Inc.—Item No. 1. * (3) Shipping Point for New Company.—See National Aniline & Chemical Co.—Item No. 3.

 * (1) Incorporated in February, 1917, in New York, with a capital of \$1,000,000. Incorporators: B. Grantier, E. C. Grantier, Esperance, N. Y., and F. M. Landers, Duaneberg, N. Y.

SCHWARTZ (F. A. O.), INC., WILMINGTON, DEL.
 * (1) Incorporated on April 21, 1917, in Delaware, with a capital of \$500,000, to manufacture toys, novelties, etc. Incorporators: Herbert E. Latter and C. L. Rimlinger, Wilmington, Del., and Clement M. Egner, Elkton, Md.

SCHWIND REALTY CO., DAYTON, O.
 * (1) Incorporated on Jan. 11, 1917, in Ohio, with a capital of \$800,000. Incorporators: Harry S. Wagner, Wm. H. Makley, Matilda S. Burkhardt, Josephine Schwind and Wm. A. Keyes.

SCOTT PAPER CO.
 * (1) Removal Planned.—It was announced March 15, 1917, that this company, Philadelphia, manufacturer of tissue paper goods, was planning the removal of its entire plant to the site of its branch factory at Chester. Proposed extensions and additions to this plant were estimated to cost \$500,000. E. I. Scott is Pres.

SCOTT & WILLIAMS, INC.
 * (1) Taken Over.—It was announced April 11, 1917, that this company, New Jersey, had been taken over by a Massachusetts corporation of the same title, with larger capital and new financial interests, but with no change in the executive or managerial heads.

SCOVILL MANUFACTURING CO.
 * (1) Extra Dividend.—Announced Jan. 25, 1917, that this company had declared an extra dividend of 10%, payable Feb. 1 to stock of record Jan. 25. This is the tenth successive monthly dividend of 10% paid by the company. Dividends so far in 1916 were 10% extra and 2% regular, paid Jan. 1, making 22% in cash. A special dividend of 25% in Anglo-French bonds was paid on Jan. 5. Cash dividends paid in 1916 were 98% in extras and 8% regular, a total of 106%.

—Feb.
 * (1) Report, Year Ended Dec. 31, 1916, shows the largest business in the history of the company—more than twice the total in 1915, which was a record year. Net in 1916 was \$13,403,462, which is equivalent to \$268 a share on the \$5,000,000 capital stock. This compares with net of \$5,974,302 in 1915, or \$119.50 a share on the same amount of stock. Earnings in 1916 were undoubtedly greatly in excess of the \$13,403,462 shown. During the year the company spent out of earnings \$3,654,386 in plant additions and charged off about \$2,000,000 in depreciation.

In addition, inventory was increased by about \$1,800,000, a special reserve of \$2,200,000 was set up for Federal, State and city taxes and the general reserve for contingencies and improvements was increased from \$1,500,000 to \$4,000,000.

* (2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$15,991,670, compared with \$8,138,208 Dec. 31, 1915.

* (3) Status.—It was stated Feb. 14, 1917, that this company is one of the most successful of the American companies filling war orders for foreign governments. Its success is not only reflected in the manner in which it has been able to make its orders profitable, but it has been liberal with its stockholders as regards dividends.

It has paid \$8 per annum for a great many years. Since November, 1915, it has paid extra dividends each month. These extra dividends were \$5 a month from November, 1915, to March, 1916, inclusive, \$8 in April, and \$10 extra in each of the remaining months of 1916. Dividends in 1916 amounted to \$111 a share, being \$8 a share in regular and \$103 a share in extra dividends. In 1915, a total of \$18 a share was paid.

The company's orders from foreign governments have been for time fuses. In addition to its foreign business, which is responsible for the big increase in earnings, the company has been making time fuses for the United States Government for a great many years, having been in business since 1850.

The company's ordinary line of business is manufacturing brass goods of every description, the largest line being in brass buttons.

The balance sheet of the Scovill Company is different from that of other munitions companies in one essential, and that is the absence from the liability column of the item "advances on contracts." Many of the companies working on war orders have received large cash advances on their contracts.

The Scovill Company, without this aid, has increased its surplus account from \$3,063,845 in 1914, the year the war started, to \$15,991,670 in 1916. It has set up a reserve of \$4,000,000 where none existed two years previously; increased its plant account from \$4,357,656 to \$9,811,933 in the same period, and cash from \$343,560 to \$6,047,763.

Accounts and bills receivable in 1914 were \$1,000,633, and \$5,671,587 in 1916, while accounts and bills payable at the beginning of 1917, despite the heavy increase in business, were only \$800,567, compared with \$2,882,354 in 1915, and \$287,814 in 1914.

Another item which has increased is that of stocks and bonds owned, which was \$3,576,146 on Dec. 31, 1916, compared with \$46,288 on the same day in 1914.

This increase is undoubtedly due to the company taking over a block of Anglo-French bonds. A dividend of 25% in these bonds was paid Jan. 5, 1917.

—Mar.

* (1) Extra Dividend.—Announced March 24, 1917, that this company had declared the regular quarterly dividend of 2% and an extra of 10%, both payable April 1 to stock of record March 28.

SCRANTON RY. CO.
 * (1) Pfd. Stock Trust Certificates.—See American Ry. Co.—Item No. 1.

—Feb.

* (1) Bond Offering.—It was announced at Philadelphia Jan. 31, 1917, that Bioren & Co. and Newburger, Henderson & Loeb are offering the \$2,500,000 Scranton Ry. 5 bonds at 94 and interest.

Van Horn Ely, Pres. of the National Properties Co., says the American Ry. Co., which owns practically all of the Scranton Ry. stock, earned in 1916 applicable to dividends \$1,100,000 and 7% on \$4,000,000 pfd. and 4% on \$9,480,000 common stock.

Under the new Scranton Ry. mortgage, besides the \$2,500,000 present issue, \$4,955,500 are reserved to retire underlying bonds and \$7,544,500 are reserved for improvements under guarded restrictions. The Merchants Union Trust Co., Philadelphia, is trustee.

* (2) Acquisition.—A Tampa, Fla., dispatch April 11, 1917, stated that this company had taken over the Tampa & Gulf Coast R. R. and the East & West Coast R. R.

The former runs from Tampa to St. Petersburg, Fla., 55 miles, with a branch about 25 miles long from Tarpon Springs to Port Richey. The other road runs from Bradentown to Arcadia, Fla., 50 miles. Both have direct connections with the Seaboard system, with which they have had close relations for some time. They are feeders of the Seaboard.

JANUARY 1 TO APRIL 30, 1917

SEABOARD BY-PRODUCTS CO.

¹(1) **Damage of \$200,000 Caused by Explosion.**—An explosion at the benzol plant of this company at Kearney, N. J., April 21, 1917, caused an estimated loss of \$200,000. The plant was not to have been in full operation until July 1 and was owned by Pittsburgh interests.

SEABOARD OIL & REFINING CO.

¹(1) **Capital Increased.**—On Jan. 5, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$2,000,000 to \$2,250,000.

SEABOARD OIL & TRANSIT CO.

¹(1) **Capital Decreased.**—In December, 1916, the company filed notice at Sacramento, Cal., of a decrease in capital stock from \$10,000,000 to \$1,000,000.

SEACOAST CANNING CO.

¹(1) **Report, Year Ended Dec. 31, 1916,** shows surplus earnings after depreciation amounting to \$289,750, compared with \$98,975 in the previous year.

Earnings were equivalent to 23% on the \$1,000,000 common stock after allowing 6% on the \$1,000,000 pfd. In 1915 earnings were equivalent to 3.89% on the common stock after allowing 6% on the pfd.

In 1916 the company paid the regular 6% and 4% on account of back dividends and for 1917 declared the regular 6% dividend on the pfd, payable semi-annually, and a dividend of 10% on account of back dividends, bringing accumulated payments down to 24%.

The back dividends would require payment of \$240,000 and the prospect for their being paid off soon seems good in view of the cash item of \$390,961 which the company carried on its books Dec. 31, 1916, compared with \$244,760 at the close of 1915. Balance sheet shows net quick assets of \$809,784.

Increased earnings came largely from the heavy demand for the company's products in many parts of the United States.

**SEAGRAVE (W. E.) CO., LTD.,
WALKERVILLE, ONT.**

¹(1) **Incorporated in April, 1917,** in Canada, with a capital of \$400,000, to manufacture fire engines and apparatus, motor trucks, airships, fire department supplies, etc. Incorporators: Warren E. Seagrave, Walkerville; Geo. M. Malr, Windsor, Ont.; Wm. J. Burns, Sandwich, Ont., and others.

SEAMLESS RUBBER CO.

¹(1) **Sale.**—See United Drug Co.—Item No. 1.

¹(2) **Sale of Plant Approved.**—At a meeting of stockholders of this company before Judge E. H. Thomas in the United States District Court at New Haven, Conn., April 10, 1917, the court approved the sale of the plant to the United Drug Co., of Boston, for \$681,000 and allowed Vernal W. Bates \$7,500 instead of double that amount, which he claimed as receiver of the company. His counsel, Frank Patterson was allowed \$15,000.

SEARCHLIGHT CO.

¹(1) **Taken Over.**—See Air Reduction Co.—Item No. 1.

SEARS-CROSS CO.,**MANHATTAN, N. Y.**

¹(1) **Capital Increased.**—On April 25, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$250,000 to \$350,000.

SEARS, ROEBUCK & CO.

¹(1) **Stock Dividend.**—It was announced Jan. 24, 1917, that directors of this company had recommended a distribution of the equivalent of 25% of the capital in the shape of a stock dividend. This would increase the capital stock \$15,000,000, and that amount of the stock will be distributed to the holders of record March 15.

The directors also decided to increase the regular disbursement to the stockholders.

While the dividend for the present quarter has been declared and will be paid Feb. 15 at the quarterly rate of 1%, beginning with May 15 the quarterly disbursement will be 2%, or at the annual rate of 8%.

¹(2) **Comment on Stock Dividend.**—On Jan. 26, 1917, the "Boston News Bureau" said that this company's directors recognized the inevitable in their declaration of a 25% stock dividend.

In 1916 Sears, Roebuck handled the unprecedented total of \$146,838,507 of orders. On the basis of the customary profit of 11% this meant total net in 1916 of better than \$16,000,000, against \$11,739,924 in 1915. Reduced to terms of surplus it meant the probable increase in the surplus item to \$21,000,000 or \$22,000,000.

Of this, \$15,000,000 is now given to shareholders in the form of a 25% stock dividend.

Sears, Roebuck has declared two previous stock dividends, one of 33 1/4%, paid April 1, 1911, and a second of 50%, increasing common stock from \$40,000,000 to its present figures of \$60,000,000, and paid on April 1, 1915.

The new stock dividend is payable April 2, so that hereafter April 1 will be date to watch for any additional stock dividends the company may declare.

The increase in the regular dividend rate from 7% to 8% is also somewhat unexpected. It is an encouraging comment on the confidence which Sears, Roebuck directors feel of the business future.

¹(3) **Report, Year Ended Dec. 31, 1916,** shows:

	1916	1915
Gross sales.....	\$137,200,802	\$106,228,421
Net profits.....	16,488,622	11,100,388
Surp. after chgs. pfd. & com. divs.	11,317,344	6,091,440
Profit and loss surplus	21,458,773	10,141,429
†After deducting allowances, discounts, etc.		

¹(4) **Earnings on Stock.**—It was stated Jan. 27, 1917, that this company's 1916 balance of \$15,929,434, after payment of pfd. dividend, is equal to 26.54% on the \$60,000,000 common stock, as compared with 17.56% earned on the same stock in 1915.

¹(5) **Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$21,458,773, compared with \$10,141,429 Dec. 31, 1915.

¹(6) **Comment on Annual Report.**—On Jan. 31, 1917, the "Wall Street Journal" said that the net earnings of this company for the year ended Dec. 31, 1916, were \$16,488,622, far in excess of the most optimistic estimate.

The company in 1916 increased its ratio of net from each dollar's business. That is to say, while merchandise of every description has generally advanced to high prices the Sears, Roebuck organization actually increased its return per dollar's sales.

In 1915 the company had net sales of \$106,228,421 and profits of \$11,100,388, which meant a return of 10.45 cents on each dollar's business. In 1916, despite mounting costs of goods sold, profits from the \$137,200,802 net sales were \$16,488,622, or a return of 12 cents on each dollar's business.

Considering the enormous volume of the company's business in 1916, this extra cent and a half on each dollar was equivalent to \$2,058,000 more net than would have been realized on the basis of profits that prevailed in 1915.

Incidentally, this increased ratio of profits was equivalent to more than 25% of the entire \$9,000,000 pfd. stock issue and almost enough to pay dividends on that issue for four years.

Surplus was almost doubled by the 1916 business. As of Dec. 31, 1916, it was \$21,458,773, compared with \$10,141,428 in the previous year.

The record business handled by Sears, Roebuck in 1916 was mainly due to the prosperous condition of the United States, as the company has never sold a dollar's worth of goods outside this country. Within the

boundaries of the United States it has developed its business from \$64,000,000 in 1911 to \$137,200,000 in 1916.

Evidence of the extension of its lines is shown in the balance sheet, where advances to and investments in factories owned or factories whose output is chiefly taken by the company are listed at \$17,746,378, compared with \$13,706,361, while advances to and investment in branch houses increased from \$5,012,284 in 1915 to \$7,439,447 in 1916.

The record year was ended in a way favorable to the stockholders when the directors recently announced a 25% stock dividend to common stockholders, bringing that issue up to \$75,000,000, and an increase in the annual cash dividend from 7% to 8%.

—Feb.

¹(1) **Sales, January, 1917.**—Announced Feb. 2, 1917, that the sales of this company in January amounted to \$13,183,812, a gain of \$6,633,561, or 38%, over the same month in 1916.

¹(2) **Dividend Increased on Common.**—It was announced Feb. 28, 1917, that this company had declared a dividend of \$2 a share on the common stock, payable May 15 to stock of record April 30. This is an increase of 25 cents a share over the previous quarterly rate of \$1.75 a share.

¹(3) **Capital Increase Approved.**—Announced Feb. 28, 1917, that at a special meeting of stockholders of this company the proposition to increase the common stock capitalization from \$60,000,000 to \$75,000,000 was approved.

¹(4) **Stock Dividend.**—Announced Feb. 28, 1917, that at the special meeting of stockholders of this company a motion was approved authorizing the directors to distribute as a stock dividend on April 2 the \$15,000,000 new common stock to common stockholders of record March 15, on the basis of one new share for each four shares owned.

¹(5) **New Director.**—Announced Feb. 28, 1917, that at the special meeting of stockholders of this company L. J. Rosenwald, son of Pres. Rosenwald, was elected to succeed J. F. Skinner, deceased. Other directors were re-elected. Subsequently all officers were re-elected.

There was represented at the meeting by person or by proxy 412,869 shares out of a total of 680,000 outstanding.

¹(6) **Capital Increased.**—On Feb. 27, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$70,000,000 to \$85,000,000.

—Mar.

	1917	1916
¹ (1) Feb. sales..	\$13,183,812	\$9,554,905
Two months....	23,928,290	21,075,462

¹(2) **Application to List.**—It was announced March 12, 1917, that application had been made to the New York Stock Exchange to list an additional \$15,000,000 of this company's capital stock.

¹(3) **Listed in New York.**—Announced March 14, 1917, that the New York Stock Exchange had admitted to the list \$15,000,000 additional capital stock of this company, making the total amount authorized to be listed \$75,000,000.

—Apr.

¹(1) **Sales, March, 1917.**—It was announced April 2, 1917, that this company's sales in March totaled \$16,412,571, an increase of \$4,389,823, or 35.51%. For three months ended March 31 the sales total \$45,341,801, an increase of \$11,642,591, or 34.55%.

SEATTLE BREWERY & MALTING CO.

¹(1) **Property Sold for Fruit Drink Plant.**—See Rainier Products Co.—Item No. 1.

SEATTLE CONSTRUCTION & DRY DOCK CO.

¹(1) **Extensions.**—It was stated on Jan. 14, 1917, that this company, which recently completed improvements to its plant, costing \$100,000, plans to expend \$150,000 for additional extensions and

JANUARY 1 TO APRIL 30, 1917

equipment in 1917. A new pipe and boiler shop is included in the plans.

SEATTLE DOCK CO.

¹(1) Land Sold for Shipyard.—See Skinner & Eddy Shipbuilding Co.—Item No. 1.

SEATTLE HARDWARE CO., SEATTLE, WASH.

¹(1) Capital Increased.—On Jan. 24, 1917, the company filed notice at Olympia, Wash., of an increase in capital stock to \$1,250,000.

SECOND NATIONAL BANK, NEW YORK.

¹(1) New Directors.—Announced Jan. 9, 1917, that at the annual meeting of stockholders of this bank Thomas A. Howell and F. Colt Johnson were elected directors to succeed Frank A. Munsey and J. J. Sinclair. Other directors were re-elected.

SECURITIES CORP. GENERAL.

¹(1) Initial Dividend.—It was announced Jan. 4, 1917, that this company had declared an initial dividend of 1% on the common stock, payable Feb. 1 to stock of record Jan. 25. The regular quarterly dividend of 1 1/4% on the pfd. was also declared, payable Jan. 15 to stock of record Jan. 8.

¹(2) Net Earnings, Six Months Ended Dec. 31, 1916.—It was stated Jan. 5, 1917, that this company reported net earnings available for dividends for the six months of its fiscal year from July 1 to Dec. 31, 1916, of \$214,343. The pfd. dividend requirements for the period totaled \$72,000. The total earned surplus as of Dec. 31, 1916, was \$412,199.68. The capitalization consists of \$2,400,000 6% pfd. stock and \$2,725,000 common stock.

¹(3) Voting Trust Dissolved.—It was announced Jan. 5, 1917, that the voting trust on this company's common stock, of which R. Z. Mitchell, Howard A. Loeb and P. M. Chandler are voting trustees, had been dissolved preparatory to making application for listing of the pfd. and common stock on the New York and Philadelphia Stock Exchanges.

SECURITIES HOLDING CO., BOSTON, MASS.

¹(1) Incorporated in February, 1917, in Massachusetts, with a capital of \$1,000,000. Pres., Guy A. Ham, Newton; Treas., Wm. H. Taylor, Boston.

SECURITY OIL CO.

¹(1) New Well.—It was announced at Lost Hills, Cal., Jan. 5, 1917, that this company had brought in a new shallow well, with a production of 50 barrels of oil a day.

SECURITY PRODUCING & REFINING CO.

¹(1) Initial Dividend.—Announced Feb. 1, 1917, that this company had declared an initial dividend of 1%, payable March 1 and monthly thereafter to stock of record Feb. 15.

SEFTON MANUFACTURING CORP.

¹(1) Stock Offering.—It was announced Jan. 4, 1917, that Kean, Taylor & Co. are offering \$1,250,000 Sefton Mfg. Corp. 7% cumulative pfd. stock.

The principal products of this company are corrugated fibre boxes, corrugated fibre board, manila paper containers, boxes and folding cartons. This business was established in 1888.

¹(2) Stock Sold.—On July 17, 1917, Kean, Taylor & Co. announced that the \$1,250,000 7% pfd. stock of this company, offered at 101 and dividend, had all been sold.

—Feb.

¹(1) Listed in Chicago.—Announced Jan. 30, 1917, that the Chicago Stock Exchange had listed \$1,250,000 of this company's pfd. stock.

SEINSHMEIER (H. A.) CO., CINCINNATI, O.

¹(1) Incorporated on Dec. 29, 1916, in Ohio, with a capital of \$300,000, to deal

in clothing. Incorporators: John W. Milburn, A. L. Bowman, H. Lewin, A. Rosenberg and Henry A. Seinsheimer.

SEMET-SOLVAY CO.

¹(1) Capital Increase Planned.—Announced Feb. 1, 1917, that stockholders of this company would vote on an increase in capital from \$10,000,000 to \$20,000,000 Feb. 27. Of the increased capital \$2,000,000 is to be offered to shareholders on the basis of 20% of holdings March 1, according to the plan.

¹(2) Report, Eleven Months Ended Dec. 31, 1916, shows: Gross earnings, \$10,983,918; interest charges, \$28,986; depreciation and adjustment of accounts, \$418,321; total deduction, \$447,307; balance, \$10,536,611; dividends \$1,800,000; surplus, \$9,236,611; previous surplus, \$229,506; total surplus, \$9,466,117; reserves, \$987,272; final surplus, \$8,487,845.

¹(3) Extra and Special Dividends.—Announced Feb. 1, 1917, that this company had declared a regular dividend of 2% and an extra of 3%, payable Feb. 20 to stock of record Feb. 5; also a special dividend of 20%, payable April 16 to stock of record March 1, 1917.

—Mar.

¹(1) Capital Increase Approved by Stockholders.—It was stated Feb. 28, 1917, that stockholders of this company had approved an increase in capital stock from \$10,000,000 to \$20,000,000.

¹(2) Capital Increased.—On March 1, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$10,000,000 to \$20,000,000.

¹(3) Negotiations for Purchase Still in Progress.—See Pond Creek Coal Co.—Item No. 3.

—Apr.

¹(1) Sale of Processes.—See National Aniline & Chemical Co., Inc.—Item No. 1.

SEMINOLE COPPER MINES CO.

¹(1) Incorporated on March 19, 1917, in Delaware, with a capital of \$3,000,000, to do general mining, milling and refining of ores, metals, etc. Incorporators: Hollo N. Chaffee, L. J. Doran and A. E. Carmody, all of Duluth, Minn.

SENECA COPPER CO.

¹(1) Acquisition.—Officers.—It was stated Jan. 6, 1917, that this company had secured the control of the Gratiot property adjoining on the north and that the engineers of the Seneca plan are running a series of development tunnels from the Gratiot into the Seneca ground. The opinions of the leading engineers state that the Kearsarge lode will be found on that part of the Seneca ground immediately adjoining the Gratiot property.

At a meeting of the Board of Directors of the Seneca Copper Co., the following officers were elected: President, Frederick Lewisohn; Treas., Walter Lewisohn; Sec., E. C. Westervelt.

SENECA COPPER CORP.

¹(1) Listed on New York Curb.—Announced Jan. 25, 1917, that the New York Curb Market Association had listed 200,000 shares, without par value, of this company.

—Feb.

¹(1) Admitted for Trading at Boston.—It was announced Feb. 8, 1917, that the Boston Stock Exchange had admitted for trading 200,000 shares temporary certificates of this company.

—Mar.

¹(1) New Director.—It was announced March 21, 1917, that F. De C. Sullivan, New York, associated with Morton F. Plant, had been elected a director of this company.

SENORITA COPPER CORP.

¹(1) Mining Contract.—See White (J. G.) Engineering Corp.—Item No. 1.

SENTRY COAL & COKE CO., LTD., SPOKANE, WASH.

¹(1) Incorporated on Feb. 3, 1917, in Washington, with a capital of \$1,000,000. Incorporators: B. F. Bigbee, R. M. Marshall and Robert B. McClary.

SEQUIM GAS & OIL CO., OF PORT ANGELES.

¹(1) Capital Increased.—On Feb. 9, 1917, the company filed notice at Olympia, Wash., of an increase in capital stock to \$500,000.

SEQUIM VALLEY OIL CO., PORT ANGELES.

¹(1) Incorporated on April 14, 1917, in Washington, with a capital of \$500,000. Incorporators: H. Bingham, P. J. Woods and G. B. McMillan.

SEQUOYAH OIL & REFINING CO.

¹(1) Extra Dividend.—Announced Jan. 5, 1917, that this company had declared the regular monthly dividend of 1% and an extra of 1/2 of 1%, payable Jan. 20 to stock of record Jan. 10.

¹(2) New Well.—It was announced Jan. 27, 1917, that a gas well flowing at 1,000,000 cubic feet a day had been brought in on the property of this company. This brings the company's daily capacity up to over 60,000,000 cubic feet, or \$3,000 earnings per day from gas alone.

Nine rigs are drilling on the lease. J. C. Morse estimates that it will take 50 years to exhaust the gas possibilities of the company's holdings.

—Feb.

¹(1) Dividends Quarterly.—It was announced Feb. 8, 1917, that this company had discontinued monthly dividend payments and hereafter would make quarterly disbursements.

—Mar.

¹(1) New Well.—It was stated March 15, 1917, that a new well had been brought in on this company's lease in the Okmulgee district, good for 150 barrels.

SESEKINIKA LAKE GOLD MINES CO.

¹(1) Stock Offering Plans.—It was announced at Toronto, Ont., Feb. 10, 1917, that plans had been completed by this company for offering a block of stock to the public in February.

The company, which has an authorized capital of \$2,000,000, owns 53 acres of property in Maisonsville township, which is traversed by the T. & N. O. Ry. It is about twelve miles from the Kirkland Lake district in Canada.

According to the prospectus, considerable surface work has been done on the property and a shaft has been sunk to a depth of 24 feet on the No. 1 vein. Samples from this vein have been assayed and high values in gold and silver have been returned. The main vein has been traced for 1,200 feet on the surface.

With the proceeds of the sale of stock, the company plans to install a necessary plant and to explore the property by diamond drilling.

SEYBOLD MACHINE CO., DAYTON, O.

¹(1) Capital Increased.—On March 12, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$100,000 to \$1,000,000.

SHANNON COPPER CO.

¹(1) Production, December, 1916.—Announced Jan. 2, 1917, that this company's output in December was 977,000 pounds of copper, compared with 926,000 pounds in November.

¹(2) Property Title Cleared.—It was stated Jan. 3, 1917, that directors of this company had succeeded in definitely clearing up the title to a piece of property that the company had bought several years previously. The litigation involved a group of 10 mining claims. The final clearing up of the title is considered of great importance, espec-

JANUARY 1 TO APRIL 30, 1917

lally in view of the fact that developments at this property have shown a much better grade of ore than was expected.

Some persons who know the situation believe that the clearing up of the title to these claims adds a potential value of \$5 a share to Shannon stock.

(3) Extra Dividend.—Announced Jan. 8, 1917, that this company had declared the regular quarterly dividend of 25 cents per share and an extra of 25 cents, payable Feb. 15 to stock of record Jan. 31.

(4) Production Sold for Six Months.—On Jan. 8, 1917, it was stated that this company had sold about 70% of its copper production for the ensuing six months. The very favorable fact is that it will receive $3\frac{1}{2}$ cents per pound more for its copper in the first three months of 1917 than it did in the last three months of 1916, and about the same amount above the average for 1916, which was 26½ cents.

—Feb.

(1) Production, January, 1917.—Announced Feb. 6, 1917, that this company in January produced 759,000 lbs. of copper, compared with 977,000 in December and 926,000 in November, 1916.

(2) Report, Year Ended Dec. 31, 1916, Estimated.—On Feb. 26, 1917, the "Boston News Bureau" said that this company's annual report, to be issued early in March, would show net profits for 1916 of approximately \$508,000. This figure is arrived at after allowing about \$10,000 for expenses in January, 1916, when the mines were closed down owing to the strike. All the profits were made in 11 months.

Earnings were equivalent to somewhat less than \$3 per share on the 300,000 shares outstanding. Net profits in 1915 were \$209,878, or a trifle less than 70 cents per share. Profits of 1916 represent an increase of \$598,000, or 285%. The company paid dividends of \$150,000 in 1916 and added to surplus about \$658,000.

On Jan. 1, 1917, the company had cash and copper on hand of \$1,004,155, against \$440,342 on Jan. 1, 1916, an increase of \$567,813. This is equivalent to over \$3.30 per share of Shannon stock.

During 1916 Shannon bought up \$84,000 of the Shannon-Arizona Ry. bonds so that the company now has in its treasury \$466,000 of these bonds. The railway company through its own sinking fund has also retired, from time to time, a total of \$31,000 of these bonds, so that there are outstanding only \$104,000 of an original issue of \$800,000.

—Mar.

(1) Production, February, 1917.—Announced March 6, 1917, that this company in February produced 888,000 lbs. of copper, compared with 759,000 in January and 977,000 in December, 1916.

(2) New Director.—It was announced March 21, 1917, that at this company's annual meeting, Mark W. Cole, of Dover, Del., had been elected director to succeed James Virdin, of Delaware. Other directors were re-elected.

(3) Forecast of Annual Report.—It was announced March 24, 1917, that the company's report would show net profits of \$513,487, equivalent to \$2.71 per share. From sales of copper, gold and silver the company last year received \$2,620,950. Operative expenses were \$1,797,789, leaving operating profits of \$823,160. Surplus account of the year totaled \$1,331,653.

—Apr.

(1) Production, February, 1917.—Announced April 4, 1917, that this company had in March produced 950,000 pounds of copper, compared with 880,000 in February and 759,000 in January, 1917.

(2) President's Comment on 1916 Operations.—It was announced April 12, 1917, that Pres. N. L. Amster, of this company, in his annual remarks to stockholders said: "For 11 months operation the property produced 9,364,968 pounds of copper, 1,327 ounces of gold and 62,935 ounces of silver. Average

cost per pound of copper was 18.461 cents, and average selling price 27.244 cents per pound. The increased cost of production this year is due to the universal increase in wages and in cost of supplies.

"Profit per pound of copper produced and sold during the year was about 9 cents, or a total of \$321,054. Of this \$150,000 was paid in dividends last November, and balance, \$671,054, was transferred to surplus.

"During the year \$90,000 additional Shannon Arizona 6% mortgage bonds were bought and placed in the treasury, leaving only \$104,000 bonds outstanding. There has been charged off from surplus \$180,989 for plant depreciation, mine depletion and litigation adjustments.

"Construction of the new leaching plant was hampered by delays in delivery of needed material and machinery, but it will be completed and in operation before the end of April.

"The company is now well entrenched as to cash and other current assets. These items amounted on Dec. 31, 1916, to \$1,034,835 in excess of all current liabilities. Shannon has received during the year \$30,271 income from interest, quite in contrast to preceding years when the company had to pay from \$18,000 to \$20,000 interest charges annually for borrowed money with which to conduct its business. In addition to the \$1,034,835 excess cash and current assets, the company has \$465,000 of Shannon Arizona Railway bonds free in its treasury.

"A substantial amount of the 1917 output has already been sold for delivery throughout this year at an average price of about 30 cents per pound, making it reasonably certain that the company will receive approximately two cents per pound more for its copper than for the period covered by this report."

(3) Extra Dividend of 25 Cents.—This company April 20, 1917, declared the usual quarterly dividend of 25 cents a share and an extra of 25 cents a share payable May 15 to stock of record April 30.

SHARON STEEL HOOP CO.

(1) Acquisition.—See Youngstown Sheet & Tube Co.—Item No. 4.

(2) Acquisition.—It was announced Feb. 15, 1917, that this company had acquired the plant and property of the Youngstown Iron & Steel Co., at Youngstown, O. Included are the new steel plants at Lowellville and the finishing departments at East Youngstown, O. It is expected that the deal will involve the increasing of the capital stock of the Sharon Steel Hoop Co. to probably \$10,000,000.

Pres. Ker, of the Sharon company, said that the annual capacity of the two Youngstown properties, amounting to 35,000 tons, will be turned into finished products.

(3) Price for Youngstown Iron & Steel Stock.—See Youngstown Iron & Steel Co.—Item No. 3.

(4) Merger Plans.—See Youngstown Iron & Steel Co.—Item No. 4.

(5) Temporary Organization of Purchased Co.—See Youngstown Iron & Steel Co.—Item No. 6.

(6) Pres. of New Company.—See Youngstown Iron & Steel Co.—Item No. 7.

—Mar.

(1) Financing Discussion.—A Sharon, Pa., dispatch March 8, 1917, stated that plans for the new \$10,000,000 holding corporation and details of the absorption of the Youngstown Iron & Steel Co. were discussed at the directors' meeting of Sharon Steel Hoop Co.

Reports are current that Sharon Steel Hoop will declare a stock dividend and also issue \$2,000,000 bonds, of which \$800,000 will be used to retire a present issue and the remainder for financing the new deal. Severn P. Ker, Pres. of the company, refused to comment on these reports.

March 6 was the last day for stockholders of the Youngstown corporation to invest in the new company.

(2) Statement by President.—On March 10, 1917, it was announced that Pres. Severn P. Ker, of this company, had issued the following statement:

"The entire capital stock of the Youngstown Iron & Steel Co. has been purchased by the Sharon Steel Hoop Co. at \$200 a share. To complete the transaction an issue of bonds to the amount of \$2,000,000 has been arranged with the Farmers Deposit Trust Co. of Pittsburgh, as trustees, and the remaining stock not taken by the former stockholders of the Youngstown Iron & Steel Co. is being taken pro rata by the stockholders of the Sharon Steel Hoop Co. at par.

"The entire transaction will be closed out by proper exchange in securities March 13. The main offices will be in Sharon and the company will continue under the name of the Sharon Steel Hoop Co. There will be no change in the official organization of the company. The general office forces of the two companies will be consolidated at Sharon about April 1."

(3) Bond Issue Planned.—A Pittsburgh dispatch March 12, 1917, stated that this company, which had acquired the Youngstown Iron & Steel Co., had arranged to issue \$2,000,000 in bonds to finance the merger. The issue has been arranged with the Farmers Deposit Trust Co., Pittsburgh, as trustees.

(4) Acquisition Concluded.—It was announced March 15, 1917, that this company had made final payment of \$2,290,000 on the stock of the Youngstown Iron & Steel Co. The purchase price was \$4,000,000. Severn P. Ker, Pres. of Sharon Steel Hoop Co., was elected Pres. of the Youngstown Iron & Steel Co.

(5) Stock Dividend.—It was stated March 16, 1917, that a 200% stock dividend on the original \$2,500,000 capital of this company was paid as one of the features of the corporation's financing incident to the purchase of the Youngstown Iron & Steel Co., requiring an increase in authorization to \$10,000,000.

The Sharon Steel Hoop Co. also set aside under trusteeship \$500,000 of stock for distribution among employees under the direction of the board of trustees.

—Apr.

(1) Dividend Increased.—On March 30, 1917, directors declared a quarterly dividend of 2%, payable April 10; 1½% was paid Jan. 2. This is the first declaration since the company acquired the Youngstown Iron & Steel Co.

SHATTUCK ARIZONA COPPER CO.

(1) Production, December, 1916.—Announced Jan. 5, 1917, that this company in December produced 1,419,339 pounds of copper, 285,404 pounds of lead, 16,352 ounces of silver and 249.93 ounces of gold, compared with November production of 1,535 of copper, 458,143 pounds of lead, 22,531 ounces of silver and 283 ounces of gold.

(2) Earnings, 1916, Estimated.—On Jan. 6, 1917, the "Wall Street Journal" said that the annual report to be issued in January by the company will review one of the most prosperous years in its history. After the payment of dividends aggregating 47½%, or \$1,662,500, net earnings should be about \$3,000,000 for the year, or at the rate of approximately \$8.50 a share.

Dividends paid during 1916 totaled \$3 regular and \$2.75 extra. The quarterly dividend of \$1.25 a share recently declared, payable Jan. 20, or at the rate of \$5 annually, is expected to be maintained for some time, in view of the excellent earnings of 1916 and those assured for 1917.

New development work continues to disclose additional ore and Shattuck's reserves are being maintained slightly in excess of the district's established standard. All low-grade ores encountered net a handsome profit at the present price.

The company's policy of shutting down the mines while copper was selling under 15 cents a pound has been of

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

great importance to the stockholders, as Shattuck was in good shape physically and financially to make the most of the high prices during the past two years. Output is sold up into the last half of 1917.

Increased lead shipments contribute to the earnings of the company.

(3) Production and Profits, 1916.—It was stated Jan. 19, 1917, that this company in 1916 produced 13,161,763 pounds of copper, 3,413,445 pounds of lead, 314,915 ounces of silver and 4,721 ounces of gold. After crediting other metals, the net cost of copper was 8.768 cents per pound, as compared with 8.446 cents for the 1915 production of 11,154,211 pounds of copper.

After paying \$1,662,500 in dividends in 1916 the company credited \$1,375,000 to surplus account, compared with \$287,000 surplus in 1915 after paying \$375,000 dividend.

Quick assets, as of Dec. 31, 1916, will be shown in excess of \$2,900,000, of which about \$980,000 was cash. This compares with quick assets of \$1,497,000 Dec. 31, 1915, of which \$400,000 was cash. As of Dec. 31, 1916, sold copper in transit and money due for metal shipped represented about \$1,750,000.

(4) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross	\$5,100,924	\$2,368,548
Surp. aft. taxes, etc.	3,074,013	1,174,028
Net after divs.	1,411,513	299,028
Depreciation	34,936	31,364
Previous surp.	897,680	630,016
Surplus	2,274,256	897,680

—Feb.

(1) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,274,256, compared with \$897,680 Dec. 31, 1915.

(2) Average Price for 1916 Output.—It was stated Feb. 2, 1917, that the first officially announced average price received by any company for its copper in 1916 was 23.18 cents by this company.

The 23.18-cent average fell below the generally accepted quotation of 25 cents a pound as representing the 1916 business in copper, but it should be explained that the Shattuck Arizona figure takes account only of copper actually delivered during 1916 and not of sales made at the very highest prices, which call for delivery in 1917.

Despite the higher wages and greater outlay for materials, the average cost of producing copper at Shattuck Arizona increased but a trifle over the previous year, the 1916 average being 8.716 cents, against 8.446 cents in 1915.

Full advantage was taken of the high metal prices by increasing tonnage of ore handled. This resulted in an increase of about 70% in the copper contribution from 11,000,000 pounds in 1915 to 13,000,000 pounds in 1916.

(3) Production, January, 1917.—It was announced Feb. 6, 1917, that this company in January produced 1,415,303 lbs. of copper, 425,638 lbs. of lead, 19,105 ozs. of silver and 211 ounces of gold, compared with production in December, 1916, of 1,419,339 lbs. of copper, 285,404 lbs. of lead, 16,352 ozs. of silver and 250 ozs. of gold.

(4) Development, January, 1917.—It was announced Feb. 19, 1917, that the development work of this company in January totaled 2,100 feet. Ore shipments during the month averaged 550 tons daily of copper and 50 tons lead ore. The important ore developments were in cross-cut 6 on the 100-foot level, where encouraging copper values continue to be cut. Face of this cross-cut shows ore averaging 14% copper. On the 800-foot level, some of the sulphide ore found is expected to assay as high as 16% copper. Promising lead ore is being opened up on the 200-foot level.

The Copper Queen experimental mill for concentrating low-grade lead ores was turned over to the company on Jan. 27.

(5) Extra Dividend.—Announced Feb. 20, 1917, that this company had declared the regular quarterly dividend

of 50 cents a share and an extra of 75 cents, payable April 20 to stock of record March 31.

(6) Directors and Officers Re-elected.—Announced Feb. 26, 1917, that at the annual meeting of this company directors and officers were re-elected.

—Mar.

(1) Production, February, 1917.—Announced March 5, 1917, that this company in February produced 1,402,853 pounds of copper, 359,485 pounds of lead, 20,514 ounces of silver and 207 ounces of gold, compared with January production of 1,415,503 pounds of copper, 425,638 pounds of lead, 19,105 ounces of silver and 211 ounces of gold. February, 1916, production totaled 1,523,000 pounds of copper, 499,135 pounds of lead, 27,139 ounces of silver and 610 ounces of gold.

(2) Extra Dividend.—On March 28, 1917, directors declared a dividend of 50 cents and an extra of 75 cents, payable April 20 to stock of record March 31.

—Apr.

(1) Production, March, 1917.—Announced April 5, 1917, that this company in March produced 1,518,436 lbs. of copper, 278,778 lbs. of lead, 18,176 ounces of silver and 200 ounces of gold, compared with February production of 1,402,853 pounds of copper, 359,485 pounds of lead, 19,488 ounces of silver and 207 ounces of gold. March, 1916, production totaled 1,594,330 pounds of copper, 714,379 pounds of lead, 32,187 ounces of silver and 394 ounces of gold.

(2) Development.—This company reported a total of 2,248 feet of development work for the month ending March 31, 1917. The tonnage of copper ore shipments was slightly increased during the month, but on account of freight congestion at El Paso the El Paso Smelting Works cut off lead ore shipments, with the result that total shipments of lead fell off approximately 80,000 pounds. This congestion is expected to be relieved and shipments of lead for April probably will be up to the average.

During the month the experimental lead concentrating mill has made satisfactory savings in the lead, gold and silver values contained in the silicious low-grade lead ores. Preliminary figures indicate that Shattuck Arizona will make a better saving than at first anticipated.

The experimental mill was turned back to the Copper Queen Consolidated Mining Co. on April 1. From the results obtained Shattuck Arizona Copper Co., state they are prepared to design a mill to handle 300 tons per day of silicious lead ore, with the expectation of saving 90% of the lead, 80% of the silver and 85% of the gold values of the ore.

● SHAWINIGAN WATER & POWER CO.

(1) Earnings, 1916, Estimated.—It was stated Jan. 15, 1917, that the financial statement of this company for 1916, to be submitted at the annual meeting of shareholders in February, would likely show gross earnings of approximately \$2,300,000 against \$1,920,143 in 1915, while net revenue, which was \$1,169,032 in 1915, should be well on to \$1,400,000, or about 9½% on the capital stock outstanding at the end of the year.

The average monthly earnings through 1916 were \$160,000, against \$150,000 in 1915, \$141,000 in 1914; about \$103,000 in 1912, and \$88,000 in 1911. In the five-year period therefore the monthly returns have approximately doubled.

With earnings around 9½% on the stock, the company's surplus over dividends would rise to about \$375,000 for the year, leaving an ample sum for the usual appropriations to reserve funds.

—Feb.

(1) Report, Year Ended Dec. 31, 1916, shows gross earnings amounting to \$2,

325,872, an increase of \$405,729 over 1915. The net earnings show a return of 9½% on the average capital employed during the year, and from this dividends at the rate of 7% for the year have been paid, which called for a disbursement of \$989,006, as against \$787,131 for the previous year.

Following the policy of previous years, the directors set aside from the net earnings \$232,141 as additions to the reserve and sinking funds, which now amount to \$2,400,000, all of which is invested in marketable securities.

(2) Balance Sheet, as of Dec. 31, 1916, shows an undivided profit and loss surplus of \$44,279, compared with \$26,600 Dec. 31, 1915.

(3) Statement by President.—It was stated Feb. 20, 1917, that Pres. J. E. Aldred, of this company, at the annual meeting of stockholders on that date, made reference to the new issue of stock in May last, which was fully subscribed, and it was announced that faithful employees of long standing had been allotted \$26,250 of common stock to be paid for over a period of three years.

The arrangement by which \$2,500,000 two-year 5% notes were issued at a favorable price to meet the expenditure for the La Loutre dam and the Canadian Electro Products Co. was explained. The conditions provide for the reimbursement of the parent company, so that the requisite funds will be in the company's hands for the retirement of the notes on maturity.

Reference was also made to the gratifying development of the city and district of Three Rivers as a power-consuming field.

The total amount of kilowatt hours produced by Shawinigan and Laurentide power plants during the year was 478,540,000, an increase of 19% over the previous year's production as applying to the Shawinigan system.

(4) New Director.—Announced Feb. 20, 1917, that M. J. Curran had been elected a director of this company to fill a vacancy caused by the death of John Joyce.

(5) Report, Year Ended Dec. 31, 1916.—It was announced Feb. 27, 1917, that in the 1916 report of this company Pres. J. E. Aldred stated that during the year the company and Laurentide Power Co. sold 478,540,000 kilowatt hours of current, an increase of 19% over the preceding year. The Laurentide Power Co. is now in full operation and furnishing a large amount of energy to the system. The total amount of power now being used at Shawinigan Falls alone is close to 100,000 horsepower. A large increase also was made in the energy sold to Three Rivers and the surrounding district and in the year a number of additional industrial plants were connected to the power lines.

The new business of the Civic Investment & Industrial Co., in which Shawinigan is a large stockholder, made gratifying gains and more new contracts were taken than in any preceding year and these should increase the demand on Shawinigan by at least 25,000 horsepower in 1917. In 1917 Shawinigan established an electro-chemical plant for the manufacture of various products and this is expected to prove a large factor in revenues of the company in 1917. Mr. Alfred said that even after the close of the war this plant would prove a valuable asset.

All of the new stock offered at par to the stockholders in May, 1916, was subscribed and employees of long standing in the company have been allotted \$26,250 of common stock to be paid for over a period of three years. The arrangement by which \$2,500,000 of two-year 5% notes were sold to meet the expenditure for the La Loutre dam and the Canadian Electro Products Co. provides for the reimbursement of Shawinigan so that the requisite funds will be in the treasury of the company to retire the notes at their maturity.

STANDARD CORPORATION SERVICE

JANUARY 1 TO APRIL 30, 1917

²(6) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross	\$2,325,872	\$1,920,143
Net after taxes	1,897,944	1,695,105
Surp. aft. chgs.	1,853,736	1,169,032
Bal. aft. deprec.	1,253,736	1,169,032

²(7) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$44,279, compared with \$26,660 Dec. 31, 1915.

²(8) New Director.—It was announced Feb. 27, 1917, that at the annual meeting of this company, M. J. Curran had been elected to fill the place of John Joyce, deceased. Other members were re-elected. The board organized by the election of the same officers.

—Mar.

²(1) Earnings, January, amounted to \$192,000, which is at the rate of \$2,304,000 per annum. This compares with earnings of \$100,000 in January, 1916, which were at the rate of \$1,920,000 per annum. The increase for the month over 1916 is \$32,000.

SHAWSHEN CO.

²(1) To Be Taken Over.—See Katama Mills.—Item No. 1.

SHEEPSHEAD BAY & ROCKAWAY TRANSPORTATION CORP.

²(1) Incorporated on March 13, 1917, in New York, with a capital of \$250,000, to conduct a ferry, Sheepshead Bay to Rockaway Park. Incorporators: W. J. Spurr, F. W. Haldy and J. C. M. Ennsen, 255 Fort Washington Avenue, New York.

SHEKOMEKO OIL CO.

²(1) Incorporated on April 4, 1917, in Delaware, with a capital of \$1,000,000, to drill and bore for petroleum and natural gas. Incorporators: M. L. Gatchell, L. A. Irwin and Harry W. Davis, Wilmington, Del.

SHELDON (E. H.) & CO.

²(1) New Company.—It was announced March 9, 1917, that this company, Muskegon, had engaged in the manufacture and sale of industrial and scientific school and factory supplies with an authorized capital stock of \$350,000, of which amount \$300,000 had been subscribed and \$35,000 paid in cash.

SHELL TRANSPORT & TRADING CO., LTD.

²(1) Oil Production.—It was announced Feb. 15, 1917, that this company, which is closely allied with the Royal Dutch Co., has stated that the oil production owned and controlled by the Royal Dutch combination amounted in 1916 to 5,555,000 tons, about 33,500,000 barrels, as against 4,367,000 tons, about 28,400,000 barrels, in 1915, and 4,768,000 tons, about 31,100,000 barrels, in 1914.

It was also stated that the output would have been larger had it not been for the conditions prevailing in Mexico and the impossibility of obtaining steamers for shipment of oil from that country.

SHERBROOKE RY. & POWER CO., SHERBROOKE, QUE.

²(1) Exchange of Stock Plan.—It was stated Jan. 12, 1917, that the Southern Canada Power Co., Ltd., Drummondville, Que., had offered to take over 51% of the capital stock of this company, proposing to increase its own capital stock and create a 6% preference stock, cumulative from Jan. 1, 1920.

One share of this preference stock would be given in exchange for four shares of the capital stock of the Sherbrooke Ry. & Power Co.

It is reported that shareholders holding about one-fourth of the capital stock of the Sherbrooke Ry. & Power Co. had signified their intention of accepting the offer.

²(2) Absorption Predicted.—See Southern Canada Power Co., Ltd.—Item No. 2.

SHERMAN NATIONAL BANK, NEW YORK.

²(1) New Director and Vice-Pres.—Announced Jan. 9, 1917, that retiring directors of this bank had been elected and James M. Dixon, of the Tobacco Products Co., added to the board to fill a vacancy. At the subsequent meeting of directors W. Eltington was elected a Vice-Pres.

SHERWIN-WILLIAMS CO.

²(1) Special Meeting April 3.—It was announced March 9, 1917, that a special meeting of this company's stockholders would be held April 3, 1917, to authorize an increase in capital stock from \$9,000,000 to \$21,000,000, or such other amount as may be decided on at the meeting. It is planned that \$4,000,000 of the new stock will be pfd.

—Apr.

²(1) Stock Increase Authorized.—It was announced April 6, 1917, that shareholders of this company had authorized an increase in capital stock from \$9,000,000 to \$21,000,000, the new stock to consist of \$4,000,000 6% pfd. and \$8,000,000 of common. There is now authorized \$500,000 7% pfd. and \$1,500,000 of 6% pfd. No action was taken relative to the disposition of the common, but it was decided to issue from \$1,000,000 to \$2,000,000 of 6% pfd. at once. This will cover the cost of plant extensions, etc.

²(2) Capital Increased.—On April 24, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$9,000,000 to \$21,000,000.

SHEVLIN-HIXON CO.

²(1) Capital Increased.—On April 18, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$1,000,000 to \$3,000,000.

SHORE LINE ELECTRIC RY. CO.

²(1) Acquisition Planned.—It was announced Feb. 9, 1917, that this company was seeking from the New Jersey Legislature the right to increase its capital stock to \$8,000,000, to purchase the Norwich & Westerly, the Groton & Stonington, and the New London & East Lyme electric roads; also to merge and consolidate with electric lines operating in Rhode Island, and to sell electricity for power purposes to any manufacturing plant on its lines, except in certain designated cities and towns.

SHORE-SMITH OIL & GAS CO.

²(1) Incorporated in January, 1917, in West Virginia, with a capital of \$500,000. Incorporators: J. M. Maupin and J. W. Harbert, of Clarksburg; A. O. Kelley, of Wallace, W. Va., and others.

SHOVE MILLS.

²(1) Stock Dividend of 50% Recommended.—This company, Fall River, Mass., April 17, 1917, recommended to stockholders an increase in capital stock from \$550,000 to \$825,000 by a stock dividend of 50%.

²(2) Stock Dividend Recommendation Adopted by Stockholders.—At a special meeting April 26, 1917, stockholders of this company adopted the recommendation of the directors to increase, by a stock dividend of 50%, the capital stock from \$550,000 to \$825,000 and the number of shares correspondingly.

SHREDDED WHEAT CO.

²(1) Report, Year Ended Dec. 31, 1916, shows gross income, less operating expenses, taxes, etc., of \$1,375,839. This compares with \$1,015,693 a year previously. The gain is \$360,146. After subtracting \$57,648 for depreciation, an increase of \$5,000, and \$96,800 for wheat price protection, against only \$20,000 a year previously, and \$45,730 for war taxes, net income was \$1,175,759. After allowing \$78,000 for pfd. dividends, the surplus represented nearly 13% on the common stock.

With the surplus Jan. 1, 1916, the amount for distribution was \$1,606,367, and the balance carried forward into

the current year was \$348,827, after crediting good-will account with \$576,000. The rate of the year's surplus profits on the common stock in 1915 was slightly less than 10%.

The statement shows an increase in cash of \$25,000, amount held in reserve of \$237,500, accounts, products and materials \$1,473,360, an increase of \$372,000. Patents, copyrights, trade marks and good-wills were written off to the extent of \$1,000,000, and dividends declared on Nov. 25, 1916, increased from \$150,000 to \$237,500.

²(2) New President.—It was announced Feb. 18, 1917, that at the annual meeting of this company at Niagara Falls, N. Y., Andrew J. Porter, chairman of the board, was elected Pres.; Hortie G. Flint, Gen. Mgr., and R. Warren Ogden, Sec'y.

SHUR-LOC ELEVATOR SAFETY CO., INC., MANHATTAN, N. Y.

²(1) Capital Increased.—On Jan. 18, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$200,000 to \$300,000.

SHYMANSKI & SONS, LOUISVILLE, KY.

²(1) Capital Increased.—On Feb. 10, 1917, the company filed notice at Frankfort, Ky., of an increase in capital stock from \$50,000 to \$250,000.

SIEMS-CAREY RY. & CANAL CO.

²(1) New Chinese Contract.—It was announced Jan. 13, 1917, that the Chinese Government had contracted with this company, of St. Paul, Minn., for the construction of an additional 300 miles of railway to run from Chowkiakow, in Honan Province, into Hupeh Province.

Several months previously the government gave contracts to the company for the construction of more than 2,000 miles of railway, at a probable cost of \$100,000,000.

SIERRA MINING CORP.

²(1) Stock Issue to Purchase Ground.—This company was permitted April 10, 1917, by California Commissioner of Corporations H. L. Carnahan to issue 1,000 shares of its capital stock to John V. Powers in exchange for an option to purchase the Shamrock group of mining claims near Sierra City, Cal., and to sell 1,000 shares at par, \$100 per share, to net the company not less than \$0.

The purchase price of the property is \$100,000, of which \$5,000 has been paid.

SIERRA & SAN FRANCISCO POWER CO.

*(1) Application to List Bonds.—Announced Jan. 4, 1917, that the New York Stock Exchange had received application to list this company's \$1,000,000 additional first mortgage 40-year bonds, due 1949.

*(2) Bonds Listed.—It was announced Jan. 10, 1917, that this company had listed on the New York Stock Exchange an additional \$1,000,000 of its first mortgage 5% 40-year bonds, making the total amount listed \$7,500,000.

The proceeds of the additional bonds were used in reimbursing the treasury of the company for \$1,270,963 expended in additions and extensions to properties.

The report of the company for the ten months ended Oct. 31 showed income of \$768,306 available for payment of the \$270,833 interest on the first mortgage bonds and a balance after all interest charges of \$94,847.

SIEWEK TOOL & MACHINE WORKS, DETROIT, MICH.

*(1) Incorporated in February, 1917, in Michigan, with a capital of \$275,000, of which \$250,000 is paid in property. The principal stockholders are Walter J. and Otto H. Siewek.

SILENT POWDERLESS RAPID FIRE GUN CO.

*(1) Incorporated on Feb. 15, 1917, in Delaware, with a capital of \$2,000,000, to manufacture all kinds of firearms, ordnance, ammunition, torpedoes, etc. Incorporators: M. L. Rogers, L. A. Irwin and Harry W. Davis, Wilmington, Del.

SILK INDUSTRIES CORP. (THE).

*(1) Incorporated on April 21, 1917, in Delaware, with a capital of \$1,500,000, to manufacture silks and other textile fabrics. Incorporators: E. E. Vreeland, Theodore J. Goe and J. R. Hamford, New York.

SILL (E. L.) PNEUMATIC HORSE COLLAR CO.

*(1) Incorporated in April, 1917, in Oklahoma, with a capital of \$250,000. Incorporators: E. L. Sill, Chas. Wagner and Fred. Wagner, all of Woodward, Okla.

SILVER BASIN MINING CO., DAVENPORT.

*(1) Capital Increased.—On Jan. 2, 1917, this company filed notice at Olympia, Wash., of an increase in its capital stock to \$1,500,000.

SILVER CREEK GAS & IMPROVEMENT CO.

*(1) Sale.—See Frost Gas Co.—Item No. 1.

SILVER KING CONSOLIDATED MINING CO. OF UTAH.

*(1) Extra Dividend.—Announced March 5, 1917, that this company had declared a dividend of 10 cents a share and an extra of 6 cents, both payable March 31. Books close March 17 and reopen April 2.

*(2) Report, Year Ended Jan. 31, 1917, compares with previous year as follows:

	1917	1916
Receipts.....	\$676,305	\$539,295
Disbursements..	673,492	517,122
Net receipts.....	2,813	22,173
Previous surp....	232,644	210,417
Total surplus....	235,457	232,644

The amount of cash on hand on Jan. 31 was \$182,972; loans, \$27,360, and inventory, \$21,343.

SILVER PICK CONSOLIDATED MINES CO.

*(1) Stock Assessment.—It was stated that at a meeting March 7, 1917, directors of this company voted to levy an assessment of 1½ cents per share upon the capital stock, for the purpose of raising additional funds.

SILVERSMITHS CO.

*(1) Special Dividend.—Announced Jan. 27, 1917, that this company had declared a special dividend of 2% on its common stock, making a total of 6% authorized during the fiscal year ending Feb. 28, 1917. The regular quarterly dividend of 1¼% on the pfd. was also declared. Both are payable Feb. 15 to stock of record Feb. 5.

SIMPLEX MACHINE TOOL CO., CINCINNATI.

*(1) Capital Increased.—On Jan. 8, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$100,000 to \$300,000.

SIMPSON (ROBERT) CO.

*(1) Stock Dividends.—Report, Year Ended Jan. 31, 1917.—The annual report of this company, which conducts a retail and mail order business in Canada, shows that to the total net earnings of \$875,089—being \$693,829 on merchandise and \$181,260 from associated companies—was added \$563,226 brought forward from previous year, making a total in profit and loss account of \$1,438,315. Bond interest and preference dividends absorbed \$272,792, dividends on common stock, together with directors' fees, amounted to \$248,541, and \$120,000 was written off buildings, plant, equipment and leases, leaving a balance of \$796,981, which was \$233,755 in excess of the previous year.

Of this balance \$605,100 was distributed as a stock dividend on common stock, which makes the total common stock at the close of the year \$3,350,000.

The pfd. stock issued amounts to \$2,750,000, bearing 6% interest. Since the beginning of the year a similar increase (as in common) was made in pfd. by the issue and sale of 6,000 shares.

The interest on bonds was \$107,762.99, the dividend on preference stock \$105,000; there was \$100,000 written off for depreciation on buildings, plant and equipment (compared with \$50,000 in 1915 and 1916), \$20,000 written off leases and \$247,041 dividends on common stock, which works out a little over 7%.

*(2) Balance Sheet, as of Jan. 31, 1917, shows a profit and loss surplus of \$191,881, compared with \$422,208 Jan. 31, 1916.

SIMPSON CREEK COAL CO.

*(1) New Company.—It was announced Feb. 1, 1917, that permanent organization of this company, Simpson, W. Va., had been effected. Its capital is \$3,000,000. The company acquired the James Clark coal lands in Taylor and Barbour Counties, including the New York mine at Simpson. It also will develop two additional new mines on Simpson Creek, near Astor, from which point the Baltimore & Ohio R. R. Co. will build a branch railway to the property.

Near Astor a mining city will be built and electrical mining equipment will be installed. Officers are: Pres., J. W. Galloway, New York and Baltimore, also Pres. of Maryland Coal Co., W. Va., and the Maryland Coal Co., of Maryland; Vice-Pres., David Williamson, of Wendel, W. Va.; Sec.-Treas., J. M. McGowan, New York City.

*(2) Pfd. Stock Offering.—It was announced Feb. 16, 1917, that Pingree & Co., Boston, and Goodrich & Co., Inc., New Haven, Conn., had offered the 7% cumulative pfd. stock, par \$100, of this company.

The stock is redeemable at 115 and dividends on any dividend date and is convertible, at option of holder, into common stock at any time prior to July 1, 1923, share for share. No mortgage or

other securities having precedence over the pfd. stock can be placed without the consent of 66⅔% of the pfd. stock issued and outstanding; additional pfd. stock can be issued for extensions and improvements to 75% of cost.

The company has a capital stock of \$1,000,000 7% cumulative pfd., of which \$700,000 is outstanding and \$2,000,000 common, all outstanding.

SIMPSON CREEK COAL CO.

*(1) Initial Dividend on Preferred.—Announced March 22, 1917, that this company had declared an initial dividend of 1¼% on the pfd. stock, payable April 1.

SIMPSON, HOGUE & CO., PORTLAND, ME.

*(1) Incorporated in February, 1917, in Maine, with a capital of \$250,000, to deal in personal property of all kinds and act as agent and underwriter.

SIMS MAGNETO CO.

*(1) Incorporated on April 27, 1917, in New Jersey, with a capital of \$1,250,000, to manufacture and deal in electrical and mechanical apparatus, boats and aircraft. Incorporators: R. C. Anderson, E. O'Meara, New York, and A. A. Fisher, East Orange, N. J.

SINCLAIR CENTRAL AMERICAN OIL CORP., MILLBROOK, N. Y.

*(1) Incorporated on Jan. 26, 1917, in New York, with a capital of 1,000,000 shares, no par value, to carry on business with \$5,000,000; to deal in lands, oil, gas and mineral rights in Central American lands. Incorporators: A. J. Gathercole, F. H. Butehorn and H. Thomson, 37 Wall Street, Manhattan, N. Y.

—Mar.

*(1) Plans.—It was stated March 6, 1917, that this company, incorporated Jan. 26, 1917, in New York, is controlled by the American Oil Co., and Lincoln G. Valentine, who obtained 9,000,000 acres of land in Costa Rica to determine in advance of drilling where oil is likely to be found.

Donald F. MacDonald, who is in charge of the work, served as chief geologist under Major-General Goethals in building the Panama Canal. Others in the party are: Thomas W. White, Vice-Pres. of the Sinclair Central American Oil Co., and Lincoln G. Valentine, obtained the concession.

MacDonald already had made a careful study of geological formations and oil seepages in Costa Rica and will be no stranger to the task he has undertaken.

Although the concession covers 9,000,000 acres, the company must select within four years 1,000,000 acres for development. The property is within 150 miles of the Panama Canal and the concession covers all the territory on the sea coast both on the Atlantic and the Pacific sides. Samples secured from seepages show a lighter gravity of oil than the average gravity of Mexican oil.

SINCLAIR GULF CORP., MILLBROOK, N. Y.

*(1) Incorporated on Jan. 9, 1917, in New York, with a capital of 1,000,000 shares, no par value; to carry on business with \$5,000,000 in oil, gas, mineral lands and rights, products and petroleum. Incorporators: D. Havens, S. C. T. Dodd and H. S. Perrigo, 680 St. Nicholas Ave., Manhattan, N. Y.

—Feb.

*(1) New Oil Company.—It was announced Feb. 26, 1917, that an important new oil company, with the above name and twin to the Sinclair Oil & Refining Corp., had been formed, with an authorized capitalization of \$20,000,000 bonds and 1,000,000 shares of stock without par value. The new company, like the older company bearing H. F. Sinclair's name, will be under his personal pilotage. Of the \$20,000,000 bonds, which are first lien 10-year convertible 6s, \$7,000,000 have been sold to Kissel,

JANUARY 1 TO APRIL 30, 1917

Kinnicut & Co., White, Weld & Co. and Montgomery, Clothier & Tyler. The bonds are convertible into stock at \$70 a share.

¹(2) Properties.—It was stated Feb. 26, 1917, that this company's properties include interests in 7,000 acres of oil and gas leases in the Mid-Continent field, on which have been drilled 157 wells with a daily production of 16,000 barrels of oil. The share of the corporation's subsidiary companies in this production is approximately 10,000 barrels per day. Included in this acreage is an assignment of a one-half interest in an oil and gas lease upon 4,728 acres in the Osage Nation, north of Hominy, Okla. The actual transfer of title to this lease, however, cannot be effected until approved by the secretary of the interior.

Sinclair Gulf also, through a subsidiary company, owns a controlling interest in an oil concession granted and approved by the Republic of Costa Rica, covering approximately 9,000,000 acres of land. This is one of the largest concessions in existence, and because of very favorable geological reports and the occurrence of large oil seepages, has great possible value on a very limited amount of investment. The Costa Rica Government has relieved the holder of the concession from duties both for the importation of material and the exportation of petroleum during a period of 50 years.

Engineers and geologists have variously estimated the values of the properties in the Mid-Continent field, the lowest of which is \$21,000,000. In addition, the value of the oil in steel storage at present market prices is approximately \$1,000,000. These figures are exclusively of any value for the Costa Rican concession.

A contract has been let by Sinclair Gulf for the material and the laying of an eight-inch pipe line, approximately 500 miles long, from the Mid-Continent field to the Gulf of Mexico.

¹(3) Earnings, 12 Months, Estimated.—It was stated Feb. 26, 1917, that Pres. Sinclair, of this company, estimates earnings for the ensuing 12 months from the producing properties alone at approximately \$5,000,000. When the pipe line and refineries are completed, the earnings should, he estimates, be approximately doubled.

The 1,000,000 shares of stock will not all be presently issued; 352,941 shares have been issued to acquire assets; 235,715 are reserved to convert bonds; 25,000 have been sold for cash and 336,344 are available for future corporate requirements.

—Mar.

¹(1) Acquisition.—On March 1, 1917, this company announced the purchase of the Freeport & Tampico Fuel Oil Corp., including a refinery in New Orleans, about 500 new and modern tank cars, 17 ocean-going units, together with river fleets, barges and terminals at New Orleans, La.; Houston and Texas City, Texas; Jacksonville, Fla., and Staten Island, N. Y.

The Mexican holdings of E. F. Simms are included in the transaction, the combined deal involving properties capable of producing about 150,000 barrels of crude oil daily.

The purchase practically amounts to an exchange of the common stocks of the two companies. The entire organization of the Freeport & Tampico Co. will become part of the Sinclair Gulf organization, and the R. T. Wilson and Simms interests will be represented on the Board of Directors.

¹(2) Twenty-third Well.—Announced March 5, 1917, that the 23d well on this company's acreage in the Osage Nation had been brought in. It is producing about 750 barrels a day. This oil commands a premium of 25 cents, making the total price \$1.95 a barrel.

¹(3) Bonds Sold.—It was announced March 13, 1917, that Kissel, Kinnicut & Co., White, Weld & Co., and Montgomery, Clothier & Tyler, syndicate managers, had sold all this company's

\$7,000,000 first lien 6% bonds, recently purchased by them.

¹(4) Sale of Treasury Stock.—Announcement was made on March 30, 1917, that a syndicate under the management of Kissel, Kinnicut & Co., J. & W. Seligman & Co., White, Weld & Co., Montgomery, Clothier & Tyler, King, Farnum & Co., and H. P. Wright Investment Co., had purchased 225,000 shares of this company's treasury stock, and had agreed to give Sinclair Oil & Refining Co. stockholders opportunity to purchase 200,000 shares at \$40 a share, pro rata, in accordance with their respective holdings.

This offer will be made to Sinclair Oil & Refining stockholders April 9, and will expire April 25, 1917. Sinclair Gulf, which was recently formed to acquire oil production in the mid-continent field, Tampico, and Freeport oil properties, and 17 ocean-going ships, contemplates building a pipe line from the Healdton field, Oklahoma, to the Gulf of Mexico, coincident with the erection of a refinery at Houston, Texas.

With this financing completed, and the acquisition of properties under contemplation, it is stated that Sinclair Gulf will have assets totaling approximately \$55,000,000, of which about \$3,500,000 will consist of cash, and \$2,000,000 crude oil in storage. H. F. Sinclair, president of the new corporation, estimates that Sinclair Gulf's earnings for the twelve months beginning April 1 next will be approximately \$5,000,000.

—Apr.

¹(1) Balance Sheet, as it will appear after acquisition of properties and the exchange and sale of securities, follows:

Assets—	
Real estate, oil and gas leases and equipment, ships tank cars, refineries and investments in other companies	\$47,000,000
Inventories, crude oil	2,000,000
Cash in bank	6,435,696
Total	\$55,435,696
Liabilities—	
Bonds	11,500,000
Purchase money obligations	3,500,000
Balance due on ships	2,125,000
Capital stock (without par)	
Reserved for conv bonds	285,715
In hands of public	714,285
Value shareholders' equity	138,310,696
Total	\$55,435,696

†Or equal to \$53.63 per share on 714,285 shares outstanding in hands of public.

¹(2) Deep Oil-Bearing Sand Found in Oklahoma.—On April 18, 1917, the "Wall Street Journal" said a deep oil-bearing sand had been found on this company's acreage in the Healdton field, Okla.

According to Sinclair Gulf representatives in the field, a well has been brought in on the Holman property which is good for 400 barrels a day. On this same property four other wells are producing from the regular Healdton sand, and proof that the Simpson sand lies under the holdings of Sinclair Gulf Corp. is expected to add materially to its holdings.

¹(3) To Build New Refinery.—On April 19, 1917, the "Iron Age" stated that this company, which recently took over the oil properties of E. F. Simms and associates in the Gulf coast fields for approximately \$25,000,000, would soon begin the construction of an oil refinery upon the ship channel near Houston. The plant will cost approximately \$5,000,000.

SINCLAIR NAVIGATION CO.

¹(1) Incorporated on April 3, 1917, in Delaware, with a capital of \$1,000,000, to build and operate boats, etc. Incorporators: H. W. Davis, M. L. Gatchell and L. A. Irwin, Wilmington, Del.

SINCLAIR OIL & GAS CO.

¹(1) New Gas Well.—The "Oil City Weekly Derrick" said April 12, 1917, that this company had brought in a gas well which probably would mean an

extension to the shallow production at Garber, Okla., two miles north and one-half mile east. The well is located in section 18-22-3 west and is in the north-west corner of the Whitney farm. They are getting gas from 1,000 feet and the pay sand may be struck within the next 250 feet. The 1½-inch pipe has been set close to the bottom and the well is drilling at 1,050 feet.

SINCLAIR OIL & REFINING CORP.

¹(1) Crude Oil Advance.—Announced Jan. 3, 1917, that this company had made an advance in the price of mid-continent crude oil 10 cents to \$1.50 a barrel.

¹(2) Bonds.—Announcement was made Jan. 5, 1917, that this company's authorized issue of \$20,000,000 ten-year convertible 6% bonds, due May 1, 1926, had been sold, but that approximately \$3,000,000 had been retired through sinking fund or by conversion.

Bonds are callable up to May 1, 1917, at 110 and interest and thereafter at 115 and interest. The corporation proposes to call the bonds for redemption May 1, 1917. Bondholders may exchange them for shares of the corporation at the rate of \$110 for two shares of stock. This retirement will eliminate the only funded debt of Sinclair Oil & Refining Co., which will then have outstanding 1,000,000 shares.

Through the retirement of the \$17,000,000 bonds, \$4,016,000 of earnings now required for interest and sinking fund will be released, while dividends on the additional stock issued to retire the bonds, at the present rate of \$5 a share, will amount to but \$1,545,455.

¹(3) Underwriting Syndicate.—It was stated Jan. 5, 1917, that an underwriting syndicate, of which Kissel, Kinnicut & Co. shall be syndicate managers, will provide the corporation with funds to retire on May 1 any bonds not retired by conversion. The syndicate agrees to purchase from the corporation, at \$90.50 a share, such part of the 309,091 shares now reserved for conversion of the \$17,000,000 bonds as may not be required for that purpose.

¹(4) Price Advances.—It was stated Jan. 5, 1917, that this company is again making prices of gasoline and kerosene in the territory served by its subsidiary, the Cudahy Refining Co. For the first time in the history of this organization it has advanced the tank wagon price of gasoline one cent a gallon, and kerosene one-half cent a gallon over the Standard Oil Co.'s prices in the same territory.

¹(5) New Field.—On Jan. 5, 1917, this company announced that oil yielding 47½% gasoline—the highest yield found in the United States—had been struck in two new wells located in its 12,000-acre tract in the Garber district. Oil was found at the same depth as the Discovery well, which is about 1,100 feet. The cost of drilling these wells is understood to be much less than the cost in other fields, where deeper drilling is necessary.

According to oil experts, this field may ultimately prove to be one of the largest yet discovered. Sinclair officials point out that this tract is the one which was not taken seriously when the corporation was formed, and consequently its book value is comparatively small.

¹(6) Price Advance.—Announced Jan. 8, 1917, that this company again had advanced the price of mid-continent crude oil 10 cents to \$1.70 a barrel. This is the second time in ten days that the company has taken the lead in advancing the price of crude oil.

¹(7) Expansion Programme.—That this company's programme is proving successful, it was stated Jan. 8, 1917, appears in the announcement of a bankers' syndicate to provide funds to retire any of the company's outstanding \$17,000,000 convertible 6% bonds not retired by conversion May 1, 1917.

The syndicate managers are Kissel, Kinnicut & Co., J. & W. Seligman &

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Co., White, Weld & Co., Montgomery, Clothier & Tyler, King, Farnum & Co. and H. P. Wright Investment Co.

Sinclair was six months old Oct. 31, when it reported gross income of \$5,103,958, current assets of \$8,884,362, current liabilities of \$4,679,185 and a profit and loss surplus of \$3,177,487, after paying approximately \$1,500,000 in dividends. Inventories of oil and products were listed at \$3,935,437.

Sinclair should close its first fiscal year on April 30, 1917, with a surplus of approximately \$5,000,000, after making due allowance for depreciation, all charges and dividends of about \$4,800,000. The company's bonds will have been retired, interest and sinking fund requirements eliminated, and Sinclair will then be in a position to consider a substantial increase in the dividend, which is now \$1.25 quarterly.

The 800-mile pipe line from Cushing, Okla., to Whiting, Ind., should be completed early in the Summer of 1917, in time for the trade through the various lake ports. This will pave the way for doubling the capacity to 40,000 barrels daily.

With a continuation of current oil prices through the fiscal year beginning May 1, 1917, Sinclair Oil & Refining Co. should have earnings of approximately \$20 a share on the 1,000,000 shares which will then be outstanding.

(8) Bonds.—Announced Jan. 11, 1917, that this company had authorized a call for the redemption of the outstanding bonds, as of May 1, 1917. The bonds are callable at 110 and interest.

(9) Elimination of Funded Debt.—It was stated Jan. 11, 1917, that the outstanding \$17,000,000 6% convertible bonds of this company, called for payment May 1, are convertible into stock at \$55 a share 30 days after the call, providing holders give the trustee written notice of election to exchange same not later than 28 days after publication of notice.

This will eliminate Sinclair's only funded debt and release about \$4,000,000, now required for interest and sinking fund charges yearly, while dividends on the additional shares issued to retire bonds will approximate \$1,500,000.

(10) New Director.—It was announced Jan. 11, 1917, that C. E. Crawley had been elected a director of this company, succeeding E. B. Huston, resigned. Mr. Crawley had been in charge of the business of the Gulf Oil Co., of Oklahoma.

(11) Extension.—See Crystal Oil Co.—Item No. 1.

(12) Bond Redemption Comment.—On Jan. 30, 1917, the "Wall Street Journal" said that when the Sinclair Oil & Refining Co. convertible bonds were called for redemption at 110 a substantial percentage was owned by banks not permitted by law to own stocks. This caused heavy selling of bonds at market premiums, but a single house purchased \$2,500,000 in ten days.

Conversion of the bonds has provided stock to supply the open market demand, the house referred to having sold about 550,000 shares against the bonds purchased. In spite of such heavy arbitrage selling the shares have held firm between 61 and 62.

It is understood that the bonds are being converted rapidly, and indications are that there will be a comparatively small amount of stock left for the banking syndicate which contracted to buy all shares not called for by bondholders.

—Feb.

(1) Merger Report Denied.—On Feb. 2, 1917, Pres. H. F. Sinclair, of this company, had issued a statement positively denying the report of a contemplated merger between the Sinclair Oil & Refining Co. and the Cosden companies or the Texas Co.

(2) New Line Opened.—It was announced Feb. 5, 1917, that this company had started the pumps on its 6-inch pipe line from the El Dorado and Augusta districts to its refinery at Chanute, Kan. Oil is now going through the pipe.

This completed section, which is about 100 miles in length and has a capacity of about 12,000 barrels a day, is the first link in the company's 800-mile pipe line from Cushing, Okla., by way of Kansas City and Fort Madison, Ia., to Whiting, Ind.

(3) Bonds.—It was announced Feb. 13, 1917, that this company had retired \$18,370,500 of its \$20,000,000 10-year 6% bonds, which were issued less than a year previously. This leaves outstanding \$1,629,500, all of which will be paid off on May 1, 1917, leaving the corporation entirely free of funded debt. Of the \$18,370,500 retired, all were converted into stock, except \$419,000 which were retired by the sinking fund on Nov. 1.

(4) Application to List.—Announced Feb. 19, 1917, that the New York Stock Exchange had received application to list 1,000,000 shares of this company's capital stock, without nominal or par value.

—Mar.

(1) Syndicate Closed.—It was announced March 23, 1917, that the syndicate which underwrote the conversion of \$20,000,000 6% bonds of this company had been closed, all the securities having been sold.

(2) Comment on Earnings.—This company's earnings in January, 1917, were understood to have established a new high record, and interests close to the management expect the February figures to reach higher levels than those registered in the first month of the year. The last official statement showed that earnings tripled dividend requirements.

It is expected that from now on savings incident to construction of the new pipe line will begin to show themselves. The line from the Augusta, Kan., field to Chanute has been running oil to the refinery there for about a month, and work is progressing rapidly on the trunk line from Canada and Kansas City, where material is being assembled for a refinery.

(3) Earnings Up to Expectations.—It was reported on March 27, 1917, that monthly earnings of this company were running at a rate which sustains the hopes and expectations of its friends. It is understood that January net was slightly better than \$1,250,000 and that February did proportionally slightly better. If continued for a full twelve months this would mean a balance of net profits of \$15,000,000, or at the rate of \$15 per share on the 1,000,000 shares now outstanding since the conversion into stock of the 10-year convertible 6s.

The property is now free from bonded debt with earnings running strong at the rate of \$15 per share. When the new 800-mile pipe line into Chicago is finished it is figured that earnings will be increased from this source by between \$5,000,000 and \$6,000,000 yearly. In other words, there is a very good probability that if current prices for oil are maintained, this property will strike a period when its share profits will mount up to a \$20 per share rate, or four times the current dividend distribution.

(4) Bond Syndicate Closed.—It was announced on March 28, 1917, that the syndicate which underwrote the conversion of this company's \$20,000,000 6% convertible bonds had been closed, all securities underwritten having been sold.

(5) New Line to Save 80 Miles.—In its listing application to the New York Stock Exchange in March, 1917, this company stated that the section of the pipe line already completed from El Dorado, Kan., to Chanute, a distance of 80 miles, would save the Chanute refinery about \$30,000 a month in transportation charges.

It is expected that the section from Chanute to Kansas City will be completed about May 1, when the Kansas City refinery will be ready for operation. The line to the refinery at a Mississippi River point and the refinery

so located should be completed and in operation about August, 1917. The line extending from a Mississippi River point to East Chicago and the refinery there located should be completed by October, 1917.

Including the work under construction since May 1, 1916, the company's properties will embrace the following: Five refineries now in operation and three in process of construction; 1,400 miles of trunk and gathering lines; interests in about 20,500 acres of producing leaseholds, on which are located about 1,258 producing oil and gas wells, having a daily production of approximately 20,000 barrels net; about 159,525 acres of undrilled leaseholds scattered through the Mid-Continent oil fields in Kansas and Oklahoma and in Canada, Texas, Kentucky, Tennessee and New Jersey; steel storage tanks with a capacity of approximately 4,000,000 barrels, and 4,000 tank cars. There are now about 3,000 employees on the payroll of the company.

(6) Opportunity to Subscribe for Stock.—See Sinclair Gulf Corp.—Item No. 4.

—Apr.

(1) Dividend—Bond Payment.—It was stated April 4, 1917, that this company had declared the regular quarterly dividend of \$1.25 a share, payable May 19 to stock of record May 1, on which date all remaining outstanding bonds of the company will be paid in accordance with the formal call issued in January.

Consolidated income account for January and February shows net earnings of \$2,119,948, of which \$128,904 was required for fixed charges, leaving \$1,991,044 available for depreciation and dividends.

The amount of bonds to be paid on May 1 is \$1,629,500. This will leave Sinclair Oil & Refining Co. entirely free of funded debt.

(2) Stock Exchange Ruling on Rights.—On April 7, 1917, the committee on securities of the New York Stock Exchange ruled that transactions of the stock of this company on Monday, April 9, 1917, unless made specifically for cash, should be ex-rights. The rights may be dealt in on and after Monday, April 9. Transactions in rights must be settled on Thursday, April 19. The right to subscribe for the new stock at \$40 a share to the extent of 20% of present holdings of stockholders expires Wednesday, April 25.

(3) Oil Development.—It was stated April 11, 1917, that oil interests in the Southwest attach special importance to the latest oil strike on the Sinclair Oil property in the Garber district, Oklahoma. It is said that in what was virgin territory a few months the proven ground amounts to more than 1,000 acres. Deep tests are being made and it is generally believed that these will reveal another important oil-bearing strata. This is the district in which the company has about 12,000 acres and is carrying them on the books as a nominal value.

• SINGER MANUFACTURING CO.

(1) Equipment Order.—It was announced March 1 that this company, Elizabeth, N. J., had placed with the Cleveland Automatic Machine Co., Cleveland, an order for 500 machines. Not only is the value of the order considerably over \$500,000, but it is understood that the Singer Co. wants more machines of the same kind. They are to be used in fuse work.

—Apr.

(1) Contract for New Building.—Announced at Bridgeport, Conn., April 11, 1917, that this company had awarded a contract for the erection there of a five-story building to cost \$150,000. It will be a factory structure, of concrete, 60x250 feet.

SIVVER STEEL CASTING CO.
MILWAUKEE, WIS.

(1) Capital Increased.—In January, 1917, the company filed notice at Madison, Wis., of an increase in capital stock from \$300,000 to \$400,000 to accommodate its increased business.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

SIXTH AVE. R. R. CO.

¹ (1) **Dividends Resumed.**—On March 28, 1917, directors declared a dividend of 14% on the capital stock, payable April 10 to stock of record March 31. Last payment was made on Jan. 10, 1909.

SKEELE COAL CO.

¹ (1) **Receivers Appointed.**—It was announced at New York Jan. 30, 1917, that Judge A. M. Hand, of the United States District Court, had appointed Albert B. Kerr and William S. Stearn as receivers for this company, No. 70 West Street, New York, under a bond of \$50,000. The receivers were instructed to continue the business for 30 days and report to the court.

An involuntary petition in bankruptcy was filed against the company the week of Jan. 21.

SKINNER & EDDY CORP. OF SEATTLE

¹ (1) **Capital Increased.**—On April 8, 1917, the company filed notice at Olympia, Wash., of an increase in capital stock to \$2,500,000.

SKINNER & EDDY SHIPBUILDING CO.

¹ (1) **Site Purchased for Shipyards.**—The "Washington Post-Intelligencer" stated April 8, 1917, that this company had closed a deal for the purchase of a 15-acre tract, costing approximately \$1,500,000, from the Seattle Dock Co., the Centennial Mill Co. and the Hodus Estate. This company made the purchase in connection with its expansion plans. In connection with the real estate transaction the company announced that it would build its own engines.

SLOCUM, AVRAM & SLOCUM LABORATORIES, INC.

¹ (1) **Initial Dividend.**—Announced Jan. 3, 1917, that this company had declared a dividend of 6%, payable Jan. 15 to stock of record Dec. 30, 1916.

SLOCUM, AVRAM & SLOCUM TRADING CO., INC. WILMINGTON, DEL.

¹ (1) **Incorporated** on April 3, 1917, in New York, with a capital of \$500,000, to deal in realty, patent rights, trade marks, patents and merchandise. Representative: J. L. Feeny, 43 Exchange Place, New York.

SLOCUMB (J. T.) CO., BOSTON, MASS.

¹ (1) **Incorporated** in February, 1917, in Massachusetts, with a capital of \$500,000, to deal in iron, steel, lumber, etc. Directors: Jas. Drury, Pres.; Clifford L. Lyall, 33 State St., Boston, Treas., and Wm. D. McKimmon.

SLOSS-SHEFFIELD STEEL & IRON CO.

¹ (1) **Common on 6% Basis.**—Announced Jan. 5, 1917, that this company had declared a quarterly dividend of 1½% on its common stock, placing it on a 6% basis. It is payable Feb. 1 to stock of record Jan. 17.

The last previous dividend on this issue was in 1910, in which year total disbursements amounted to 3½%.

¹ (2) **Comment on Dividend Resumption.**—On Jan. 5, 1917, the "Wall Street Journal," in commenting on the dividend declared by this company, said it is now understood to be earning close to 20% on its common stock. In the first six months of 1916 it reported net for common at the annual rate of \$14.08 per share. Although it suffered somewhat from the car shortage in the final quarter, profits in the three months to December are believed to have been large enough to bring the year's earnings to between \$15 and \$16 per share.

Present operations are at full capacity, or nearly 550,000 tons a year, and, with the prevailing high prices for pig iron, profits should continue large for some time.

Previous dividends paid on Sloss-Sheffield common have been as follows:

1905, 5% and 3¾% stock; 1906, 5%; 1907, 5.83%; 1908, 4¼%; 1909, 5¼%; 1910, 3¾%.

¹ (3) **Operations.**—On Jan. 17, 1917, it was stated that this company, with 62,500 acres of coal lands and 40,400 acres of ore lands in Alabama, is fairly confident that there is oil under certain of its properties and is actively prospecting for it. Promising showings have been made in adjacent wells in the Democrat Ridge section, northwest of Birmingham.

This Democrat Ridge, which runs from Bryan on the Southern Ry. northwest to Burgin, near Dora, on the Frisco, is regarded by geologists as the most promising field for investigation in the State.

In what is known as the Drifton territory, in which some of Sloss-Sheffield's lands are located, also near the Bessie mines and the Ivy mines, no less than five wells have been bored at various times. In a well, at Barney, put down by ex-Gov. Haskell, of Oklahoma, on land leased from the Pratt Consolidated, oil was encountered. At a depth of 800 feet the drill penetrated the upper measures, bearing oil which was blown out to a height of several feet.

Preparations are being made to sink this well deeper and eventually "shoot" it, as there is apparently no doubt but that oil in considerable quantity will be reached. It was really this development which aroused renewed interest in the whole district. At a depth of 800 feet it is believed that this well will pump from 25 to 100 barrels of oil a day.

Sloss-Sheffield has land close to this last well at Barney, there being eight forties of mineral rights just south and within a half mile of it. The company also owns a tract at Dollska on the Southern Ry., just east of the last wells driven there.

At Cordova, on the Southern Ry., two wells have been drilled. One of these is in the city and is 1,300 feet down. The other, at Sulphur Springs, is down 1,100 feet. Oil is running out of these wells in small quantities all the time. It is also coming out of a well at Bryan, also on Southern Ry., a few miles from Cordova. This well is down 3,100 feet.

It is understood that the Sloss-Sheffield Company has been approached by some of the large oil companies to get option rights on some of the company's lands for drilling purposes.

—Feb.

¹ (1) **New Director.**—It was announced Feb. 13, 1917, that Henry Evans, Pres. of the Continental Insurance Co., had been elected a director of this company. The board had been increased from 11 to 12 members.

¹ (2) **New Development Energy.**—On Feb. 17, 1917, the "Boston News Bureau" said that new energy is to be put into this company with the general purpose to develop its production and sales to a point where a static gross of \$5,000,000 or \$6,000,000 yearly will not be considered satisfactory.

Sloss-Sheffield has a capacity of 550,000 tons yearly. The company earned net in 1916 not far from \$2,000,000 for its \$10,000,000 common stock. None of this was divided, so that as of Nov. 30, the close of its fiscal year, the corporation must have had the first adequate working capital it has possessed for many years.

—Mar.

¹ (1) **Board Enlarged.**—It was announced March 14, 1917, that at the annual meeting of this company, at which retiring directors were re-elected, the stockholders voted to increase the Board of Directors from 12 to 14 members. It was intimated that "strong interests" might later come into the company.

¹ (2) **Report, Year Ended Nov. 30, 1916.** shows total income of \$2,319,532, compared with \$909,075 previous year, and surplus after charges and pfd. dividends of \$1,521,675, compared with \$170,638 the previous year.

¹ (3) **Earnings on Stock.**—It was stated March 14, 1917, that this company's surplus of \$1,521,675 for the fiscal year ended Nov. 30, 1916, is equal to 15.22% on \$10,000,000 common stock, compared with 1.70% earned on the same stock in the previous year.

¹ (4) **Balance Sheet,** as of Nov. 30, 1916, shows a profit and loss surplus of \$5,467,070, compared with \$3,528,191 Nov. 30, 1915.

¹ (5) **Statement by President.**—It was announced March 14, 1917, that Pres. J. C. Maben, of this company, in his annual remarks to stockholders, said in part: "Your company had the largest output of any year since its formation, showing an increase in production of 57% over the previous year, and 71,000 tons greater than the largest output heretofore had, and the output would have been considerably larger but for the difficulty of keeping the furnaces supplied with ore and coke from the mines, owing to the scarcity of railroad cars.

"While the average price of iron delivered advanced each month, we will get most of the benefit during the new year, commencing with the first month of the present fiscal year. It should be borne in mind that the fiscal year of the company ends on Nov. 30 of each year. It has been deemed advisable to consider changing the fiscal year of the company to conform to the calendar year.

"There was in the yards at the close of the year 86,804 tons, transportation for which could not be had, and as no profit is shown on iron until shipped, earnings, of course, to that extent were reduced. At the same time the company has sold for future delivery about seven months' production at good figures, which should show a handsome profit during the present year.

"Two advances in wages were made during the year, which, of course, added to the cost of iron, but still the cost price was kept within reasonable bounds.

"During the year there was an average of 5½ furnaces in blast continuously.

"During the fiscal year the company produced 300,000 tons more coal than it ever produced since its organization, and over 400,000 tons more than the output of the previous year.

"The company produced over 510,000 tons of coke during the year.

"The output at the Sloss mines showed an increase of 240,000 tons over the previous year, an output much in excess of any previous year since the formation of the company.

¹ (6) **Earning Rate, 1917, Indicated.**—On March 16, 1917, the "Boston News Bureau" said that this company in January showed net profits, after interest on bonds, taxes and miscellaneous charges, of slightly over \$210,000. This is at the rate of \$2,400,000 a year, which would be the equivalent of 20% on the \$10,000,000 common stock after 7% had been paid on the \$6,700,000 pfd.

The company has experienced the difficulties confronting all shippers of raw material and has had trouble in getting coke and cars. Otherwise the January profits would have considerably exceeded \$210,000.

Some measure of the improvement in earnings is had when the January profits are contracted with the average net earnings after bond interest of not far from \$500,000 per annum for the six years of 1910 to 1915 inclusive.

The new interests which have recently gone on the board are determined that the company shall be re-energized and its gross sales developed to something better than \$5,000,000 per annum.

¹ (7) **Change in Management Planned.**—On March 16, 1917, the "Boston News Bureau" said it understood a change in this company's operating management soon would take place and that

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Pres. Mahen would be made chairman of the board. The office would be created for him to relieve him of some of the burdens of an operating executive. It is probable that J. N. Wallace, of the Central Trust Co., Boston, will serve as nominal Pres. until an A-1 iron man is found.

The directors have decided to start up 50 old but remodelled coke ovens, with a capacity of 75 tons per day. When these are in service the company will be making all of its own coke.

Such properties as the company owns which are not absolutely necessary and which can be sold to advantage will be disposed of and the proceeds applied to putting its active plants in first-class condition.

Sloss-Sheffield has a floating debt of \$620,000, but this is amply covered by current assets, as among other things it has 80,000 tons of pig iron on hand.

The directors have voted to change the date of the closing of the fiscal year so that it will end with the calendar year. At present the company year ends Nov. 30.

The firm of Ernst & Ernst will be appointed auditors. A. C. Ernst is now in Birmingham to make preliminary investigation of the company's accounts.

(8) Report, Quarter Ended Feb. 28, 1917. shows net operating profits amounting to \$734,498. Surplus, after deducting \$52,500 bond interest, \$24,000 accrued taxes, and \$117,250 pfd. dividend, amounts to \$540,748, equivalent to \$5.40 a share on the common stock. This is at the rate of \$21.60 a year.

Profits of \$5.40 a share reported on its common stock for the first quarter of the current fiscal year were made on deliveries of pig iron averaging about \$10 a ton less than prices received on more recent sales.

The company has withdrawn temporarily from the market as a seller of pig iron.

Reports that Sloss-Sheffield has been successful in its search for oil on its properties are premature, as drilling operations have not been started.

(9) New President.—Announced March 23, 1917, that Waddill Catchings, former Pres. of the Central Foundry Co., and more recently with J. P. Morgan & Co., had been elected Pres. of this company, succeeding James N. Wallace, who recently was chosen temporary Pres.

Mr. Wallace remains a director of the Sloss-Sheffield board, the membership in which has been increased from 12 to 14. The other vacancy created by the increase in membership was filled by the election of Major Sewall.

—Apr.

(1) Preparing Development Plan.—It was stated April 4, 1917, that the examination which the new interests in this company are having made of the property is well under way. These interests believe that the reports will demonstrate the existence of between 1,500,000,000 and 2,000,000,000 tons of coal, and 65,000 acres of ore lands. They assert that on this showing alone the stock is cheap at par.

Those in position to speak with authority concerning Sloss-Sheffield, state that they are increasingly impressed with its possibilities, and assert that all that it needs is up-to-date, aggressive and intelligent management.

Pres. Catchings has returned to New York, and has outlined a definite plan for submission to the executive committee and directors.

(2) Status (April, 1917).—On April 5, 1917, the "Wall Street Journal" said that the decline in this company's stock to 60½ was difficult to explain in view of the satisfactory report recently made for the first quarter of the year, profits shown on the common stock being at the rate of \$21.60 annually, and the confidence expressed by officials that progressive earnings will be reported for the remainder of the year.

It is learned that the company has a floating debt of \$750,000 borrowed for the purpose of carrying pig iron. Against this, however, the company has

due it \$1,100,000 for iron sold and delivered, and is also carrying in its yards 86,000 tons of iron already sold, but not yet delivered.

All of Sloss-Sheffield's estimated capacity for 1917 has been sold, except about 25,000 tons. In other words, the company is 95% sold up for the year. Recently it has been out of the market for this reason, but the directors have just authorized the sale of 100,000 tons for delivery next year, at price not under \$35 per ton.

Waddill Catchings, the new Pres. of the company, is now making an examination of its properties, but it will probably be several weeks before he will be ready to submit his findings to the directors. In the meantime expenditures of \$50,000 for the building of new houses for workmen and \$200,000 to be spent in improvements at the discretion of the Pres. have been authorized.

Directors are expected to meet next week for action on the quarterly dividend on the common stock. That the regular rate will be maintained seems a foregone conclusion.

(3) Dividend Comment.—On April 9, 1917, the "Boston News Bureau" had the following: "Although directors of Sloss-Sheffield Steel & Iron Co. in January last resumed dividends on the common stock, after a lapse of seven years, we understand there are conservative interests in the board opposed to continuance of these payments."

"It is rumored that the company's accounting methods stand in need of a thorough overhauling, and that depreciation write-offs have been sadly neglected. Until a stronger cash position has been built up, overdue accounts liquidated, and the whole physical and financial status of the company strengthened according to safe and sane standards a continuance of common stock dividends will be opposed by men in the board whose opinions carry weight."

(4) Meeting of Directors.—It was stated that while the directors of this company were scheduled to meet in New York April 13, 1917, it was not improbable that the meeting would be postponed until the following week in order that a larger representation might be had. There is some controversy over the wisdom of continuing dividends on the common stock, notwithstanding that they were resumed only in January, 1917, after a lapse of seven years.

There seems to be a sharp division of opinion as between some of the "old line" directors and some of the men who recently have been added to the board. The latter are understood to have discovered a deplorable condition in respect to the company's accounting methods, depreciation charges, etc. They are not willing to vote dividends until a real and adequate working capital has been built up, and property values and inventories appraised on the balance sheet at figures which will stand the test.

The company's iron and coal lands are believed to be worth their book values, but the new interests want competent expert opinion as to these valuations, as well as on various other phases of the company's operations.

(5) Meeting Adjourned to April 17.—Announced April 13, 1917, that because of the absence of Pres. Waddill Catchings, who was at Birmingham, Ala., the meeting of this company's directors, scheduled for that date, was adjourned until Tuesday, April 17.

(6) Dividend on Common Deferred.—Directors of this company April 17, 1917, deferred the dividend on the common stock for the current quarter. The issue was replaced on a dividend basis of 14¢ quarterly in January, 1917.

The management, it was learned, decided to build up a large working capital and to this end decided to keep as much of the earnings as possible in the treasury.

(7) Right to Relight Ovens in Birmingham Granted.—Birmingham, Ala., April 18, 1917, granted the right to this company to relight its beehive coke ovens in the city for three years, pending the building of the by-product plant in

North Birmingham. This will greatly facilitate furnace operations.

(8) Director, Opposed to Policy, Resigns.—On April 19, 1917, the "Montreal Gazette" said: "The passing of the dividend on the common stock of the Sloss-Sheffield Steel & Iron Co., following the election of a new Pres., has created a good deal of indignation among Canadian shareholders and has resulted in the resignation of Mr. A. E. Ames, who has been on the Sloss board for many years."

"In his letter of resignation, Mr. Ames, intimates that he is out of harmony with the action of the directors in interrupting common stock dividend payments during the most prosperous period the company has had."

(9) Dividends on Common Not Likely Early in 1917.—A Birmingham, Ala., dispatch to the "Boston News Bureau" April 26, 1917, stated: "The feeling here is that it will be some time before the Sloss-Sheffield directors resume dividends on the common stock."

"It will take two or three months before the directors can secure all the data required as to the actual physical condition of the company now being investigated by experts."

"If the coal and iron deposits are sufficient, the company's plant can be put in up-to-date shape for a few hundred thousand dollars. This does not include the building of a by-product plant, however, which at the present time would cost at least \$3,000,000; but if it were in existence to-day it would probably be earning the company a million dollars per annum."

SMART-WOODS, LTD.

(1) Report, Year Ended Dec. 31, 1916. shows a net manufacturing profit of \$516,190, against \$397,659 the previous year. After bond interest, depreciation, etc., and deducting \$68,698 as profits tax for two years, the balance available for pfd. stock was \$394,134.

This, after allowing a full year's dividend on the pfd. stock, would have left a balance of \$285,879, equal to 10.6% earned on the common stock.

In addition to the year's pfd. dividend, however, the company also made up arrears amounting to \$135,671, leaving the net balance to go forward to profit and loss account \$150,208. This brings the total at credit of profit and loss to \$689,049.

The working capital position was materially improved as the result of the earnings for the year, current assets amounting to \$1,587,454 against current liabilities of \$671,776.

SMITH (JOSEPH N.) & CO., DETROIT, MICH.

(1) Capital Increased.—On April 4, 1917, the company filed notice at Lansing, Mich., of an increase in capital stock from \$100,000 to \$500,000.

SMITH FORM-A-TRACTOR CO.

(1) Incorporated on April 10, 1917. in Delaware, with a capital of \$1,300,000, to manufacture motor trucks, tractors, etc. Incorporators: Samuel R. Howard, Arthur W. Britton and Harry B. Davis, New York.

SMITH-HAUSER & MACISAC, INC., MANHATTAN, N. Y.

(1) Capital Increased.—On April 2, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$500,000 to \$1,000,000.

SMITH (HOWARD) PAPER MILLS, LTD.

(1) Report, Year Ended Dec. 31, 1916.—It was announced March 5, 1917, that the fourth annual report of this company shows net profits of \$159,153, which, with \$33,659 balance from the previous year and sundry profits, made a total of \$193,097 for distribution. Of this there was deducted for patriotic fund, adjustments, and written off organization account, \$18,151, while reserve account against depreciation was credited with \$31,507, a total of \$49,659, leaving a balance of \$143,438. Of this

JANUARY 1 TO APRIL 30, 1917

dividends and provision therefore took \$99,638, leaving balance to profit and loss of \$43,800, from which there was a further deduction for war tax of \$10,950, leaving the balance to go forward \$32,850.

⁽²⁾ Sales, 1916.—It was stated March 5, 1917, that the sales of this company increased from \$399,711 in 1915 to \$694,966 in 1916, a gain of \$295,254.

SMITH & SONS CORP., BUFFALO, N. Y.

⁽¹⁾ Incorporated on Jan. 25, 1917, in New Jersey, with a capital of \$250,000, to deal in wool and cotton goods. Incorporators: Meyer K. Silber, Leo G. Straus and Wm. A. O'Rourke, Paterson, N. J.

—Apr.

⁽¹⁾ Capital Increased.—On April 23, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$260,000 to \$360,000.

SMITH (GEO. H.) STEEL CASTING CO.

⁽¹⁾ Improvements.—Reported late in March, 1917, that this company, which had operated three two-ton converters for years, was installing a three-ton acid open-hearth furnace of the McLain-Carter type, which would considerably increase the melting equipment. It was expected that the new furnace would be in operation about April 20. The capacity of the plant will then be about 1,000 tons per month, principally of small castings averaging about 18 to 20 pounds, and ranging from 1 ounce to 12,000 pounds in weight.

SMYRE (A. M.) MFG. CO.

⁽¹⁾ Incorporated in January, 1917, in North Carolina, with a capital of \$400,000, to build a cotton mill. Incorporators: A. M. Smyre, J. L. Robinson, D. M. Jones and associates.

SNOW MOUNTAIN WATER CO.

⁽¹⁾ Income Account, Year Ended Dec. 31, 1916, shows operating revenue of \$127,957, gross corporate income of \$96,439 and a net corporate loss for the year of \$2,605.

⁽²⁾ Balance Sheet, as of Dec. 31, 1916, shows a profit and loss deficit of \$122,897, compared with a deficit of \$120,292 Dec. 31, 1915.

SOLANO IRON WORKS.

⁽¹⁾ Acquisition.—It was announced Jan. 10, 1917, that more than \$750,000 dollars would be spent by this company in rehabilitating the old Van Emon Elevator Co. plant, at Berkeley, Cal. The plant will employ between 400 and 500 men.

⁽¹⁾ Report, Year Ended Dec. 31, 1916, shows earnings as follows:

	1916	1915
Net profit	\$1,104,601	\$353,908
Surp. after divs.	904,601	153,908

⁽²⁾ Earnings on Stock.—It was stated March 16, 1917, that this company's 1916 net profit of \$1,104,601 is equal to 55.23% on \$2,000,000 capital stock, compared with 17.69% earned on the same stock in 1915.

⁽³⁾ Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,251,800, compared with \$1,347,198 Dec. 31, 1915.

SOLVAY COLLIERIES CO.

⁽¹⁾ Report, Year Ended Dec. 31, 1916, shows gross earnings of \$311,635, and net of \$210,770. Surplus for the year amounts to \$114,922. Total undivided earnings as of Dec. 31, 1916, are \$328,244.

SOLVAY PROCESS CO.

⁽¹⁾ Extra Dividend.—Announced Jan. 31, 1917, that this company had declared the regular quarterly dividend of 2% and an extra of 3%.

SOULS MILLS.

⁽¹⁾ Increased Dividend.—Announced Feb. 7, 1917, that this company had increased its dividend rate from \$1 to \$1.50 per quarter.

SOUND PAPER CO., SEATTLE, WASH.

⁽¹⁾ Incorporated on Feb. 23, 1917, in Washington, with a capital of \$5,000,000. Incorporators: H. O. Pond, S. P. Weston, Scott Calhoun, Joseph Parkin and John A. Homer.

SOUTH CAROLINA VULCANIZING LUMBER CORP., CHARLES- TON, S. C.

⁽¹⁾ Incorporated in January, 1917, in South Carolina, with a capital of \$300,000. Incorporators: Fred. K. Fish Jr., Prest.-Secy.; Lambert K. Fish, V. P. and Treas., both of New York.

SOUTHERN BELL TELEPHONE CO.

⁽¹⁾ Report, Year Ended Dec. 31, 1916, shows gross earnings amounting to \$7,340,075, as compared with \$6,719,745; total net earnings, \$2,815,956, as compared with \$2,619,826; balance for dividends, \$1,746,314, as compared with \$1,577,484; and surplus after dividends and other deductions \$304,343, as compared with \$276,639.

SOUTHERN CALIFORNIA BOX & MANUFACTURING CO.

⁽¹⁾ Bond Issue.—Acquisition.—It was announced March 10, 1917, that California Corporation Commissioned Carahan had permitted this company to issue \$100,000 bonds to the Southern California Box Co. in part payment for a box manufacturing plant in Los Angeles. The bonds bear interest at the rate of 6% per annum and mature in series of \$5,000 annually for 20 years. They are secured by the real property and plant.

• SOUTHERN CALIFORNIA EDISON CO.

⁽¹⁾ Los Angeles to Vote on Purchase Feb. 2.—It was announced Jan. 3, 1917, that on Feb. 2 Los Angeles will vote on amendments to the city charter so that the municipality will be authorized to acquire the electric distributing systems within the city of this company and the Pacific Light & Power Co. At the same time the question of issuing \$12,000,000 in city bonds to pay for the distributing systems of the two companies will be before the people for approval.

The terms between the city and the two companies have been agreed upon and with the amendment of the charter and the approval of the bond issue the transaction can be rapidly completed.

⁽²⁾ Stock Issue Permit Sought.—It was announced Feb. 1, 1917, that this company had applied to the California Railroad Commission for permission to

issue 50,000 shares of its common stock, par \$100. This is in connection with the planned merger with the Pacific Light & Power Corp., both of which have offices at Los Angeles.

⁽³⁾ Syndicate.—It was announced Feb. 8, 1917, that William P. Bonbright & Co. and G. Ulbricht & Co. had underwritten a new issue of \$5,000,000 of common stock of this company for offering as soon as approval has been obtained from the California Railroad Commission and market conditions permit.

⁽⁴⁾ Stock Issue Approved.—It was announced Feb. 19, 1917, that the California Railroad Commission had approved the issue and sale of \$5,000,000 additional common stock by this company, in connection with the acquisition of the control of the Pacific Light & Power Co. from Henry E. Huntington.

⁽⁵⁾ Stock Sale Plan.—It was stated Feb. 20, 1917, that the \$5,000,000 new common stock of this company just authorized by the California Railroad Commission, would be sold to stockholders in proportion to their holdings of common stock at 95%. The stock will net the company 91%, as the underwriting syndicate will get a 3% commission. In addition, the firms organizing the syndicate will receive \$50,000 for services as managers of the underwriting syndicate.

Under the order of the commission \$4,000,000 of the new stock may be used to acquire \$5,000,000 face value of Pacific Light & Power bonds, of which the United States Mortgage & Trust Co. is trustee, or a sum not exceeding \$2,480,405 may be used to discharge notes of Pacific Light & Power Co. Any balance is to be used in paying for additions and extensions in 1917 and 1918, the total amount which it is planned to expend on such improvements in the two years totaling \$7,992,000.

The formal request of Southern California Edison Co. for approval of purchase of the control of Pacific Light & Power Co. is still pending before the commission for decision, and the use of the \$5,000,000 common stock of the former company just authorized for the purposes named is contingent upon the approval by the commission of the consolidation plan.

⁽³⁾ Contract Offered by City.—Stated on March 30, 1917, that the city of Los Angeles, Cal., in connection with its proposition to purchase the electric distributing systems within the city of the Southern California Edison and the Pacific Light & Power, had also tendered the companies a contract for the purchase of the energy to be distributed by the municipality. The contract provides that for ten years the city shall purchase a minimum annual amount of 25,000 horsepower from the companies; that during the period the city will sell to the companies any power not required for distribution within the city, and that for 20 years after the expiration of the first 10-year period the city will buy from the companies all the energy it needs in excess of that produced in its own generating stations. Under the offer for the distributing systems by the city, the purchase price will be \$8,270,000, with \$1,145,000 additional for damage by reason of the severance of the systems.

—Apr.

⁽¹⁾ Report, Year Ended Dec. 31, 1916, as filed with the California Railroad

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Commission, shows gross revenues for 1916 were \$4,901,375, with net of \$2,050,207 and total income of \$2,212,084. After deductions for interest and other charges amounting to \$1,066,083, surplus was \$1,146,001. Deductions from surplus for the year were dividends of \$900,272 and miscellaneous of \$174,799, with miscellaneous additions of \$303,088, making the total surplus of the company Jan. 1, 1917, \$887,852, compared with \$313,635, Jan. 1, 1916.

The balance sheet for Dec. 31, 1916, showed assets including fixed capital of \$31,235,724, cash of \$381,151, notes receivable of \$352,931, accounts receivable of \$724,032 and other current assets of \$16. Investments were \$1,065,934 and working assets \$1,081,140. Unamortized discount and expenses was \$1,387,005. Liabilities aside from capital liabilities consisted of \$500,000 notes payable, \$302,712 accounts payable and \$2,882,184 of reserves with surplus of \$687,852.

(2) Extensions.—On April 5, 1917, the "Wall Street Journal" said that with the taking over of Pacific Light & Power Co., which will be as soon as the merger is approved by the California Railroad Commission, this company would make still further extension of its hydro-electric generating facilities.

The company has applied to the California Water Commission for the right to appropriate water from the North Fork of the Kern River and from Salmon Creek in Tulare County for the generation of electric power. These water rights were acquired by the California Power Co. in 1901 and 1902 and since that time Southern California Edison has expended \$881,104 in their development. The cost of the proposed new development is given as \$4,118,295.

The new development will be Kern River Plant No. 3 and will involve a diversion dam 80 feet high and 240 feet long, of steel and concrete construction. Power will be developed by two turbines directly connected to generators of 15,000 kilowatts each, giving the new plant 30,000 kilowatts initial capacity.

(1) Note Issue to Purchase Beverly Hills Property Planned.—See Beverly Hills Utilities Co.—Item No. 1.

SOUTHERN CAMBRIA RY. CO.

(1) Receiver Appointed.—A Johnstown, Pa., dispatch Feb. 13, 1917, stated that the Cambria Trust Co., of that city, had been appointed receiver for this company, following the filing of a bill in equity by Harry Swank, a stockholder, and the Swank Hardware Co., alleging that within three months the company had become indebted to 40 persons. The total debts amount to \$3,000,000.

SOUTHERN CANADA POWER CO., LTD.

(1) Exchange of Stock Planned.—See Sherbrooke Ry. & Power Co.—Item No. 1.

(2) Acquisition Predicted.—It was stated Jan. 18, 1917, that official announcement of the absorption by this company of the Sherbrooke Ry. & Power Co. is expected before the end of January. Both companies operate in the same territory and the same interests control both corporations.

Southern Canada Power is building a transmission line to Sherbrooke and with current purchased from the Shawinigan Water & Power Co. will be able to give an ample power supply to Sherbrooke and vicinity.

At the annual meeting of Southern Canada Power the financial statement showed an increase of 100% in earnings in 1916. Retiring directors were re-elected. It was stated that the company controls six undeveloped water power sites capable of developing 150,000 horse-power. It has two hydro-electric plants and four steam generating plants and also purchases power from the Shawinigan Water & Power and the Montreal Light, Heat & Power Co.

F. W. Peel, until recently managing director of the Porto Rico Rys. Co., was elected Vice-Pres. and consulting director and J. B. Woodyatt was appointed general manager.

(3) Annual Report, 1916.—It was stated Jan. 15, 1917, that at the annual meeting of this company in Montreal, Que., the financial statement showed earnings of 100% greater than in the first year of the company's existence, and equal to the bond interest one and one-third times.

It was stated that the acquisition of the Sherbrooke Co. would not only benefit the Southern, by rounding out its territory in the Eastern townships, but would also strengthen the position of the bondholders of the Sherbrooke Co.

During the year the company made extensions at St. Johns, St. Hyacinthe, Iberville and Drummondville, and transmission lines were built connecting St. Johns and St. Hyacinthe, through Belle Isle.

The company owns and controls six undeveloped water powers with a total head of about 300 feet, with an ultimate capacity of about 150,000 h. p.

(4) Capital Increased.—On Jan. 20, 1917, letters-patent were issued in Canada increasing the capital stock of this company from \$3,000,000 to \$8,000,000. The increase consists of 30,000 shares of \$100 each.

—Feb.

(1) Acquisition.—It was announced at Montreal, Feb. 14, 1917, that this company had taken over the Brome Lake Electric Co., in extending its system through the Province of Quebec.

(2) Report, Quarter Ended Dec. 31, 1916, of this company and subsidiaries, shows:

	1916	1915	Inc.

SOUTHERN PACIFIC CO.

(1) Rehearing of Sacramento Rate Cases Asked.—It was announced Dec. 28, 1916, that this company had filed an application for a rehearing of the complaint of the San Francisco Chamber of Commerce against this company and the McCloud River R. R. Co. These cases are known as the Sacramento class rate cases, and involve the rates between San Francisco, San Jose and all points near there to and including the California-Oregon River R. R.

The decision reduced rates on the east side of the Sacramento valley, between Woodland and Tehama, but did not affect rates on the west side of the Sacramento valley between Roseville and Red Bluff.

The Commission said that these rates were subnormal.

The Southern Pacific Co. in its petition for a rehearing stated that the Commission's order was beyond the power which it could constitutionally exercise because it had undertaken to prescribe a relationship in the rates charged by the company between the points in California which directly interfere with interstate rates established by the Interstate Commerce Commission.

The Commission's decision is also beyond the powers confided to it by the Constitution of California and the public utility act, says the Southern Pacific, because the Commission has undertaken to establish absolute maximum rates between specific points, and is therefore beyond the only issue raised by the complainants.

The Southern Pacific Co. also says that the rates prescribed by the Commission are so low as to be confiscatory.

(2) Income Tax Suit Lost.—It was announced Jan. 6, 1917, that the United States Government's right to collect an income tax of \$183,882 from this company on dividends of \$18,361,597, received from the Central Pacific Ry. Co. in the first six months of 1914 had been upheld by a decision in the Federal Court in New York City.

The decision was rendered in a test suit brought by the Southern Pacific to recover the above amount assessed against it by the Collector of Internal Revenue.

This was the second of two test suits brought by the company, but by stipulation only the second was litigated, the first, involving taxes of \$131,563, being held in abeyance on the outcome of the second action.

(3) Bonds Listed in San Francisco.—Announced Jan. 3, 1917, that the San Francisco Stock and Bond Exchange had admitted to the list this company's convertible 5s and convertible 4s.

(4) Exchange of Bonds Planned.—It was announced Jan. 3, 1917, that California Railroad Commissioner H. D. Loveland had heard the application of this company and the San Jose Railroad for authority for the exchange of \$50,000 of Alum Rock first mortgage bonds, and \$200,000 of the San Jose and Santa Clara County R. R. Co. first mortgage sinking fund gold bonds, for

\$250,000 of San Jose and Santa Clara County R. R. Co. first and refunding sinking fund gold bonds.

The Southern Pacific Co. owns all the capital stock and bonds of the San Jose and Santa Clara County R. R. Co.

(5) Locomotives Ordered.—See American Locomotive Co.—Item No. 1.

(6) Bonus for Employees.—It was announced Jan. 13, 1917, that this company had given a bonus of 5% to employees earning less than \$2,500 a year. Another 5% bonus will be distributed July 15. January bonus amounted approximately to \$700,000.

(7) Nine Locomotives Ordered.—See Baldwin Locomotive Works.—Item No. 3.

(8) Denial.—On Jan. 17, 1917, it was stated that Pres. William Sproule, this company, had authorized officials to deny the report that he was to resign to accept a high executive position with the Guggenheims.

(9) Complaint Dismissed.—See California Packing Corp.—Item No. 3.

(10) Oil Suit Hearing.—It was stated Jan. 22, 1917, that how E. H. Harriman ordered the sale of 640 acres owned by this company, of which he was president, for \$2.50 to \$10 an acre, and how the purchasers later received about \$4,000,000 for oil which they extracted from this property in four years, was told on that date by Julius Kruttschnitt, Chairman of the Executive Committee of the railroad company, before Federal Judge Bledsoe of California.

Judge Bledsoe moved his court from Los Angeles to New York to continue hearings in the suit in which the Government is seeking to obtain \$75,000,000 damages, the return of 185,000 acres in the San Joaquin Valley, California, valued at \$300,000,000, and an accounting for vast quantities of oil said to have been taken from the property by the Southern Pacific Co. since 1899.

Mr. Kruttschnitt denied that there had been fraud in securing the lands for the company, as claimed by the Government, and added that the greater part of the land had been sold in ignorance of its special value as oil producing properties at low prices, varying from \$2 to \$10 an acre.

(11) Locomotive Orders, 1917.—On Jan. 22, 1917, this company announced the completion of arrangements for the purchase of locomotive equipment for 1917 delivery.

American Locomotive Co. will furnish 24 heavy freight locomotives of the 2-10-2 type (ten driving wheels), substantially all of them to be equipped with 63-inch drivers, and for the use of oil fuel. The weight per locomotive is to be approximately 274,000 pounds on drivers, 344,000 pounds total, not including the tender, which is to be of cylindrical design, and 10,000 gallons capacity. Deliveries are to be made in the Fall of 1917.

Baldwin Locomotive Works will furnish nine standard switching locomotives, each weighing approximately 154,600 pounds, exclusive of tender, which is to be of cylindrical design, 5,000 gallons capacity. Deliveries to be made in July, 1917.

(12) To Make Own Wooden Cars.—A San Francisco dispatch Jan. 22, 1917, stated that announcement that this company had adopted the plan of building all its wooden freight cars, such as box and flat cars, at its own shops, and would make them from lumber produced along its lines, was made by Pres. William Sproule upon his return from New York and other Eastern cities.

"The plan," said Mr. Sproule, "is in furtherance of our policy to favor home industry and will provide a good market for a great deal of Western timber. The construction will be done principally at our Sacramento shops. So our local payrolls and those of the mills supplying us will be increased. We plan to build as soon as possible 2,000 box, 450 stock and 500 flat cars.

"These, added to the 2,700 new refrigerator cars just ordered by the Pacific Fruit Express Co., of which about 1,000

will be built in California, will give us 5,650 new freight cars for the coming season—enough to ward off the hardships through shortages of railroad equipment experienced this season, provided we can get our cars returned to us after they are unloaded at destination. The Southern Pacific is half owner of the Pacific Fruit Express.

"The earnings of the Southern Pacific Co., which have improved along with other business, are giving us an opportunity to spend much money for betterments needed upon our property. While there are no new extensions contemplated, the shop forces are working full force at full time, and the maintenance of way crews are also busy."

(13) New Refrigerator Cars.—It was stated Jan. 25, 1917, that this company was having built for the Pacific Fruit Express 2,700 new refrigerator cars for delivery in April, in time for the last of the orange crop and the beginning of the deciduous fruit crop.

The additional cars will give the Pacific Fruit Express a total refrigerator equipment of 15,500 and will effectively prevent a 1917 shortage of refrigerator cars, even should the demand for them be as great as in 1916.

(14) Comment on December Earnings.—On Jan. 27, 1917, the "Wall Street Journal" said that the decrease of \$72,055 in the net income account of this company for December is explained by the fact that the company included under operating expenses for this month an item of \$1,068,000, which is approximately one-half of the additional compensation allowed certain employees on account of abnormal conditions brought about by war. Remaining one-half of this extra labor charge will be paid as of June 30, 1917.

Taxes for December were \$1,463,732, an increase of \$869,346. This increase is due to the additional assessment of 1% in the income tax.

	1916	1915
(15) Earnings—		
Dec. gross	\$15,396,828	\$12,758,223
Net after taxes	3,686,503	3,758,538
6 mos. gross	90,830,506	80,097,312
Net after taxes	31,568,065	27,746,536

(16) New Earning Record.—On Jan. 27, 1917, it was stated that gross revenues this company made a new high December record at \$15,396,000. It was the second largest month of business ever recorded by the company, being only \$296,000 under the record month of October, 1916. The increase in gross over December, 1915, was 21%.

Net returns for December were recorded in the official report as \$3,686,503, representing a decrease from the net earnings of December, 1915, of \$72,055. This is apt to be misleading. It will be recalled that Southern Pacific gave a large bonus to employees at Christmas time, amounting to over \$2,000,000. It was seen fit to charge half of this bonus, amounting to \$1,068,000, to operating expenses, increasing this item by 22%. The additional charges resulting from an increase in the Federal income tax rate, amounting to \$869,346, were also charged against the month's earnings. These two items make a total of about \$1,935,000.

Southern Pacific has proved that it can increase its gross income and at the same time show a proportional increase in net earnings on account of the new business. If the sum of money paid as a bonus to labor is deducted it will be seen that the operating expenses of this company increased 9%, while the gross business increased 21%.

In the fiscal year ended June 30, 1916, this railroad carried 36% more freight than in the previous fiscal year. In the six months ended Dec. 31 the company increased its freight business 33% over the corresponding six months of that year.

—Feb.

(1) Equipment Orders.—It was stated Feb. 21, 1917, that in addition to the order for 24 freight locomotives and 9 switch engines, recently announced, the Southern Pacific has placed orders

JANUARY 1 TO APRIL 30, 1917

for 600 oil tank cars, to be delivered between June and December, 800 for the Pacific system and 300 for the lines east of El Paso.

	1917	1916
January gross—	\$14,235,709	\$9,637,972
Net after taxes—	3,839,900	1,845,002

*(3) Comment on January Earnings.—On Feb. 24, 1917, the "Wall Street Journal" said that of this company's \$14,235,709 gross revenue for January, \$9,842,748 meant freight earnings, an increase of \$3,435,477 over January, 1916. Passenger earnings of \$3,214,917 were an increase of \$808,605. Whereas this is normally the low period of the year in railroad revenues, Southern Pacific's gross and net are now running at record levels. January gross increased 44%; net increased 185%.

Maintenance of equipment expenses for the month were \$2,106,896, an increase of \$246,611, with only \$2,904 increase over maintenance of way expenditures in the same month last year. Transportation expenses showed an increase of \$1,448,269, as the cost of living has been rising for railroads also.

Taxes for the month paid by Southern Pacific were \$771,483, maintaining the normal behavior for taxes by showing an increase of \$128,822.

—Mar.

*(1) Government Brief Filed Against Subsidiary.—See Oregon & California R. R. Item No. 1.

*(2) Dissolution Suit Won.—On March 10, 1917, it was announced that J. P. Blair, general counsel for this company, had issued the following statement:

"The suit of the United States against the Southern Pacific Co. and the Central Pacific Ry. Co. to divorce the Central Pacific from the Southern Pacific was decided in favor of the defendants."

This suit was instituted in the District Court of the United States for the district of Utah in February, 1914. The claim was made that the ownership of the Southern Pacific Co. of the Central Pacific violated the Sherman law, and also violated what are known as the Pacific R. R. Acts. Mr. Blair stated that he had received only a brief telegram that the decision was in favor of the defendants.

Judge Hook wrote the main opinion, Judge Sanborn a concurring opinion, and Judge Carlin a dissenting opinion.

The decision, said the general counsel, was not a surprise. The conditions complained of by the Government had been in existence for over 30 years and the communities that would have been injured if a violation of the Sherman law was involved had never complained and testified that they were perfectly satisfied. The Union Pacific, which would have been aggrieved if there had been a violation of the Pacific railroad act, had never complained and was satisfied.

*(3) Permit to Sell Sought.—See Pacific Gas & Electric Co.—Item No. 4.

	1917	1916
February gross—	\$13,450,272	\$11,180,101
Net after taxes—	3,672,164	2,492,737
2 mos. gross—	27,685,981	21,024,073
Net after taxes—	7,511,764	3,837,829

*(5) Comment on Earnings, February and Two Months.—On March 24, 1917, the "Wall Street Journal" said that of this company's February gross increase of \$2,264,172, freight revenue provided \$1,533,374, while the gain in passenger revenue was \$595,794. Change in maintenance expenses was negligible, while transportation expenses increased \$944,304, absorbing over 41% of the gain in gross revenues.

For the two months of the calendar, which is now the fiscal year, freight revenues showed an increase of \$4,968,852 and passenger revenues \$1,404,399, while of the total gross gain of \$8,061,909 transportation expenses increase absorbed \$2,392,573.

The February net earnings increase of \$1,179,427 compares with February gain in 1915 of \$1,409,253, in 1914 of \$1,772,341, and in 1913 \$1,307,531.

*(6) Morgan Line Embargo.—It was stated on March 28, 1917, that on account of an accumulation of freight at Galveston this company had placed an embargo on all goods northbound routed via Morgan Line steamers. Shipments intended for the use of United States Government are accepted. As soon as conditions at the southern port become normal the restrictions will be abolished.

*(7) Rockaway Beach Litigation.—See Rockaway-Pacific Corp.—Item No. 1.

—Apr.

*(1) Lease of Belt Line Planned.—See South San Francisco Belt Ry.—Item No. 1.

*(2) Report, Year Ended Dec. 31, 1916.—In its report for 1916, issued under the Interstate Commerce Commission's new order to make reports for the calendar year, instead of for the 12 months ending June 30, Southern Pacific shows \$12.63 a share earned for stock, against \$10 in the calendar year 1915, with the largest gross revenues in the history of the company, \$163,427,423, exceeding the previous calendar year by \$20,959,517, or 14.71%, and the year ended June 30, 1916, by \$10,733,194.

Net earnings after taxes were \$52,008,200, which was \$8,479,753, or 19.48%, more than in the year ended Dec. 31, 1915.

During 1916 dividends amounting to \$16,360,632 were paid to common stockholders.

*(3) Combined Income Account, Year Ended Dec. 31, 1916, including offsetting accounts, compares as follows:

	1916	1915
Gross —————	\$163,427,423	\$142,467,905
Net after taxes—	52,008,200	43,528,447
Surp. after chgs.	34,405,328	27,268,004

*(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$210,278,762, compared with \$192,133,630 Dec. 31, 1915.

*(5) Chairman Tells of Increased Earnings.—Chairman Julius Kruttschnitt, of this company's executive committee, in connection with the annual report made public April 19, 1917, said, in part, of the year's results: "The gross operating revenues, \$163,427,423, not only exceeded earnings during the previous calendar year by \$20,959,517, but surpassed the earnings during the fiscal year ended June 30, 1916, by \$10,733,194, and are the largest earnings of any year in the history of the company."

"The revenue from freight traffic increased \$26,129,277. The volume was augmented by business formerly handled by steamships, operating via the Isthmus of Tehuantepec and the Panama Canal, which have been temporarily diverted to more profitable transatlantic service; and the European war has stimulated a demand for the products of mines and agriculture, which has resulted in prosperity in all lines of endeavor, in addition to which a considerable revenue accrued from the transportation of supplies for the troops encamped along the Mexican border."

"Revenue from passenger business reflects a decrease of \$4,944,954, compared with the calendar year 1915, in which extraordinary travel was stimulated by the California Expositions. It is estimated that the competition of automobiles deprived your company's lines of earnings in excess of \$1,000,000. On the other hand, revenue of approximately \$1,150,000 was derived from the transportation of troops to, from, and between points adjacent to the Mexican border."

"Efficiency in conducting transportation is reflected in the following:

"The average load of freight moved in a loaded car increased 2.01 tons, or 9.30%.

"The percentage of loaded to total freight car mileage was increased from 69.87 to 72.52.

"The average freight train load was the highest on record, being 553.59 tons, an increase over the previous year of 71.50 tons, or 14.83%.

"Through heavier freight train loading there was saved the equivalent of 3,215,274 freight train miles.

"The average miles run per freight

car per day was 39.15, compared with 30.15 last year, an increase of 29.86%.

"Traffic conditions, brought about largely by the European war, drew many of our freight cars to the Atlantic seaboard territory, and there were fewer cars on our lines than in the previous year; yet, by better loading and movement, we handled 43.45% greater ton mileage of revenue freight than last year—two cars in 1916 were made to do the work of three cars in 1915.

"With an increase of 43.45% in revenue ton miles of freight, payments for loss and damage to freight decreased \$161,853, or 18.61%, consuming only 0.630% of freight revenues as compared with 1.008% in the previous year.

"The decrease in interest on funded debt—bonds and notes—is the result, principally, of the acquisition by the Southern Pacific Co. since Dec. 20, 1915, of approximately \$24,300,000 par value, of bonds issued under Central Pacific Ry. Co. 4% 35-year European loan of 1911, the interest on which has been excluded in the income statement, both from interest on funded debt and from income from funded securities.

"On Dec. 31, 1916, the principal of advances to the Southern Pacific R. R. Co. of Mexico amounted to \$40,397,943. Interest accruing on these advances has not been taken into the income of the Southern Pacific Co."

*(6) March Earnings Increased Despite Increased Labor Costs.—On April 24, 1917, the "Wall Street Journal" said: "Southern Pacific's March increase in net after taxes of \$370,866, in spite of increased expenditure of \$400,000, representing accrued labor costs since Jan. 1 under the Adamson 8-hour law, resulted from a gross earnings increase for the month of \$2,707,261. Of this \$1,825,870 was increased freight revenue and \$767,131 increased passenger revenue."

"With the three months' accrued wage increase mentioned above, transportation expenses for the month were \$1,592,279 more than in March, 1916. On maintenance of way \$193,680, and on maintenance of equipment \$296,077 more was spent than in March, 1916.

"Of the \$3,308,170 gross earnings increase for three months \$6,794,722 was from increased freight and \$2,171,530 from increased passenger traffic. With a maintenance increase outlay of around \$606,000 and transportation expenses increase of \$3,934,853, three months' net earnings after taxes showed an increase of \$4,044,802.

"The three months' net earnings of \$11,880,270 are over \$4,000,000 above the 1916 previous high record in the history of the company. March net earnings are also the new high record for the month, March, 1916, having been the previous top level."

	1917	1916
March gross—	\$15,480,819	\$12,773,558
Net after taxes—	4,368,506	3,997,640
3 mos. gross—	43,166,800	33,797,631
Net after taxes—	11,880,270	7,855,460

*(8) Land Suit Decree for Government Upheld by Supreme Court.—In deciding the Oregon-California land case April 23, 1917, the United States Supreme Court April 23, 1917, affirmed the Oregon Federal Court's decree enjoining the Southern Pacific from disposing of timber and minerals on its lands received by Congressional grant. By the same decision the Government won its suit against the Southern Pacific to regain nearly 2,300,000 acres of Oregon and Washington land worth \$30,000,000.

The Chamberlain-Ferris law of 1916 forfeiting and divesting the railroad's title to the lands granted by Congress in 1866, and providing for Federal sale of the lands, timber, and minerals, was upheld as constitutional.

The Chamberlain-Ferris Act was passed by Congress on June 9, 1916, following an investigation by the Government of the sale by the Southern Pacific of land in alleged violation of the Government's original grant. It provides that title to about 2,360,000 acres of valuable Western lands shall revert to the United States. The timber

JANUARY 1 TO APRIL 30, 1917

on these lands is said to make the lands worth \$25,000,000, and the Supreme Court's decision, it appears, means a large loss to the Southern Pacific, said the "Wall Street Journal" April 24, 1917.

The lands in question were originally granted to the Oregon & California R. R. and this road later passed to the Southern Pacific. It was specified that the land should be sold to actual settlers for \$2.50 an acre. The Government, in a suit brought against the railway, alleged that large tracts of the land had been sold for prices greatly in excess of \$2.50 an acre.

It was reported that the Southern Pacific already had received enough money out of the lands to compensate it for all of the land at the minimum price of \$2.50 an acre.

SOUTHERN PACIFIC R. R.

¹(1) Los Angeles Petition Refused.—See Pacific Electric Ry. Co.—Item No. 1.

—Mar.

¹(1) Retention of Water Lines Permitted.—It was announced March 6, 1917, that the Interstate Commerce Commission had ruled that this company may properly retain its Havana-New Orleans steamship line under the Panama Canal law. The law forbids railroads owning competing water lines and it is held there is no competition in this case.

As to the steamship lines between Galveston and New York, and New Orleans and New York, owned by the Southern Pacific, the commission gives the railroad 60 days in which to revise some of its practices. These, the commission feels, evade the jurisdiction of the commission.

—Apr.

¹(1) Directors Re-elected.—Announced April 4, 1917, that at the annual meeting of this company retiring directors were re-elected.

• SOUTHERN PIPE LINE.

¹(1) Report, Year Ended Dec. 31, 1916, showed: Profit, \$2,354,371; dividends, \$2,399,998; balance from profit and loss, \$45,627.

SOUTHERN POWER CO.

¹(1) New Generating Station.—It was announced March 1, 1917, that this company had let contracts for the construction of a new hydro-electric generating station at Wateree, S. C. The new station, which is to be completed by Nov. 1, 1918, will have an ultimate capacity of 100,000 horsepower and cost \$5,000,000. The new plant will be connected with the six other hydro-electric stations upon the same stream or its tributaries.

¹(2) Work Started on New Plant.—It was stated March 9, 1917, that construction had been started on the hydro-electric plant for this company, controlled by James B. Duke and his associates.

The new plant is to be completed by Nov. 1, 1918, and will cost \$5,000,000, the contract for the dam and power house, exclusive of all equipment, representing a contract price of over \$2,000,000. The plant will be erected on the Wateree River, seven miles from Camden, S. C. The contracting company recently completed the 40,000-horsepower hydro-electric station of the Southern Power Co. at Fishing Creek and is building another large generating station for the company at Bridgewater, north of Morganton, N. C.

SOUTHERN PUBLIC UTILITIES CO.

¹(1) Bond Offering.—It was announced March 10, 1917, that E. H. Rollins & Sons are offering at 96 this company's first and refunding mortgage 5% bonds, due 1943, to yield 5.28%.

• SOUTHERN RAILWAY CO.

¹(1) Earnings— 1916 1915

Net after taxes.. 2,362,422 2,000,248

5 mos. gross..... 32,840,858 28,686,768
Net after taxes.. 9,938,036 8,415,579

¹(2) Acquisition.—Official announcement was made Jan. 2, 1917, of the acquisition by this company of the New Orleans & North Eastern line, running from New Orleans to Meridian, Miss., and formerly a part of the Queen & Crescent system.

The announcement stated that in acquiring direct ownership in the controlling stock of the New Orleans & North Eastern the Southern had parted with all interest in the Alabama & Vicksburg Ry. and the Vicksburg, Shreveport & Pacific Ry., in which the Southern Ry. heretofore had held a minority of the stock.

Acquisition of the road will give the Southern system entrance into New Orleans over its own lines, as well as direct connection with the terminals of the New Orleans Terminal Co., of which it is sole owner.

¹(3) President's Statement About Acquisition.—Confirming the acquisition of the New Orleans & North Eastern R. R. by this company Pres. Fairfax Harrison, Jan. 2, 1917, said:

"The controlling stocks of the New Orleans & North Eastern R. R. Co., Alabama & Vicksburg Ry. Co. and Vicksburg, Shreveport & Pacific Ry. Co. have been held for many years by an English investment company known as the Junctions Co. The Southern Ry. Co. acquired in 1905 a minority holding of the shares of this English company.

"By a transaction made possible through the wish of the directors and other security holders of this English company to assist the British Government in securing American exchange, the Southern Ry. Co. has consolidated its investment by the acquisition in direct ownership of the controlling stock of the New Orleans & North Eastern heretofore held by the English company, and at the same time has parted with all interest, direct or indirect, in the Alabama & Vicksburg and Vicksburg, Shreveport & Pacific by the sale of its holdings of the shares of the Junctions Co. which are now held abroad.

"In consequence, the New Orleans & North Eastern will hereafter be operated as a part of the Southern Ry. system, thus affording the Southern's lines a direct entrance into New Orleans."

¹(4) New Mortgage Approved.—It was announced Jan. 5, 1917, that stockholders of this company, at a special meeting in Richmond approved the creation of the new refunding and improvement mortgage providing for a maximum bond issue of \$500,000,000. The plan provides for exchange of Series A of the new bonds, bearing 4½% interest and maturing in 1939, for the outstanding development and general 4s, and Series B of the new bonds, bearing 5% interest, for the development and general 4s in the company's treasury.

¹(5) New Officers of Subsidiary.—See New Orleans & North Eastern R. R.—Item No. 3.

¹(6) Permanent Financing.—It was stated Jan. 16, 1917, that this company's directors soon would approve plans for permanently financing the requirements for some time ahead, including the refunding of \$15,000,000 notes, \$5,000,000 of which came due in February, 1916, and were extended for a year, and \$10,000,000 due March 2, 1917.

Southern's financing will be under its new mortgage recently created to take the place of its development and general mortgage. There are nearly \$35,000,000 of these bonds in the treasury or pledged back of the above notes. They bear 5% interest, while the new bonds offered in exchange for the \$61,333,000 outstanding development 4s carry 4½% interest.

¹(7) Grouping Rearrangement.—Announcement was made Jan. 17, 1917, that the lines of this company, the Cincinnati, New Orleans & Texas Pacific Ry. Co., Alabama Great Southern R. R. Co., New Orleans & Northeastern R. R. Co. and the Northern Alabama Ry. Co. there-

after would be grouped for the purpose of administration as "Lines East" and "Lines West" of the Southern Ry. System.

The corporate identity of all lines affected is preserved. The "Lines East" are made up of those portions of the System East and North of the old E. T. V. & G. line from Chattanooga to Brunswick.

The "Lines West" are made up of the other lines of Southern Ry. Co. and including the C. N. O. & T. P. Ry., A. G. S. R. R., the N. O. & N. E. R. R. and the Northern Alabama Ry.

¹(8) Management Changes.—It was announced Jan. 17, 1917, by this company that by reason of the state of his health, J. M. Culp, for many years Vice-President in charge of the traffic department, had been retired from active duty and would serve in advisory capacity. Administration of the traffic department will be under T. C. Powell, Vice-President, at Cincinnati, and Lincoln Green, formerly freight traffic manager, who is promoted to be Vice-President with headquarters at Washington.

E. H. Coapman, formerly Vice-President and Gen. Mgr., is to be Vice-President in charge of operation of all lines. G. R. Loyall, formerly general superintendent of the middle district of the Southern Ry., is promoted to be Asst. Vice-President, with jurisdiction on all lines, under Mr. Coapman.

W. N. Foreacre, formerly General Superintendent of the eastern district of the Southern Ry., is promoted to be general manager of the "Lines East."

Horace Baker, formerly General Manager of the C. N. O. & T. P. Ry. and the A. G. S. R. R., is promoted to be General Manager of the "Lines West."

—Feb.

¹(1) Mortgage.—See New Orleans & North Eastern R. R. Co.—Item No. 2

¹(2) Mortgage Plan Abandoned.—Announcement was made Feb. 20, 1917, that directors of this company at a meeting on that date had decided to withdraw the plan provisionally adopted in the fall of 1916 for the creation of a new blanket mortgage and the exchange of bonds under the mortgage for outstanding development and general mortgage 4s. The announcement came as a surprise, as approval of the plan to create an improvement and refunding mortgage for \$500,000,000 had been voted at a meeting of stockholders Jan. 5.

The company has arranged a short-term loan to renew its maturing notes and to provide additional capital to carry on the plans for the continued enlargement of the physical plant to handle expanding traffic.

¹(3) Announcement by President.—Following a meeting of directors of this company Feb. 20, 1917, Pres. Fairfax Harrison made the following announcement: "The board has concluded that, in the present condition of the investment market, long-term bonds cannot be sold on terms sufficiently advantageous to the company to justify the assumption at the present time of the additional fixed charge contemplated by the plan for the creation of refunding and improvement mortgage and for the exchange of the development and general mortgage 4% bonds which has been under consideration.

Consequently, although the deposits of development and general mortgage 4% bonds in response to the circular of Oct. 25, 1916, have been very satisfactory, the board has determined not to proceed at once with the creation of the proposed refunding and improvement mortgage, and therefore the deposited bonds will upon request be released and no further deposits will be accepted."

¹(4) Note Sale.—Announcement was made Feb. 21, 1917, that this company

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

had sold to J. P. Morgan & Co., First National Bank and National City Bank \$25,000,000 2-year 5% notes, to be dated March 1.

These notes will be secured with deposit of development and general mortgage bonds with the usual margin. A syndicate will be formed in connection with the sale of the notes.

²(3) **Dividend Discussion.**—On Feb. 22, 1917, the "Wall Street Journal" said that with its new \$500,000,000 mortgage plan dropped and having sold \$25,000,000 notes to bankers, this company's 5% dividend on the pfd. stock likely would not be restored in the Spring of 1917.

When the new mortgage was proposed it was felt that the Southern could well restore its pfd. to the full dividend basis. In the fiscal year ended June 30, 1916, there was a balance after charges of \$9,333,899, equal to 15.56% on the \$60,000,000 pfd. stock, or 5% on the pfd. and 5.28% on the \$120,000,000 common.

In the current fiscal year a balance after charges of fully \$11,000,000 is expected, which would be equivalent to 18.3% on the pfd. After allowing 5% on that issue there would remain \$8,000,000 for the common, or 6.6%.

Of the money received on the \$25,000,000 new notes, \$21,000,000 will go for refunding \$15,000,000 notes maturing in February and March, and to meet a loan of \$4,000,000 in connection with the purchase of the New Orleans & Southeastern.

²(4) **Note Offering.**—J. P. Morgan & Co., the First National Bank and the National City Co., of New York City, announced on Feb. 27, 1917, the offering for subscription at 99 and interest, yielding slightly over 5½%, of \$25,000,000 of this company's two-year 5% secured gold notes dated March 2, 1917, with interest payable on that date and Sept. 2. These notes are redeemable in whole or in part at the option of the company at 101 and interest upon 60 days' notice.

The notes are secured by deposit with the trustee, the Guaranty Trust Co., of New York, of \$45,000,000 of Southern Ry. development and general mortgage 4% bonds. The proceeds are to be used to pay \$21,000,000 of maturing indebtedness and the remainder, in the anticipation of the sale of long-term bonds, to pay for improvements to increase revenue and reduce operating costs.

The notes, which are in denominations of \$1,000, \$5,000 and \$10,000, are due March 2, 1919.

Subscription books were opened at the office of J. P. Morgan & Co. Feb. 27 and will close at the opening of business March 5, or earlier in the discretion of the syndicate managers. Temporary notes will be delivered pending the engraving of the definitive notes.

—Mar.

7 mos. gross.....	46,697,920	40,654,234
Net after taxes....	14,678,915	12,114,317

²(2) **Note Issue Sold.**—It was announced March 3, 1917, that the \$25,000,000 two-year notes of this company, offered by a syndicate headed by J. P. Morgan & Co., had all been sold and books had been closed on that date.

²(3) **No Dividend Action March 3.**—It was announced March 3, 1917, that no action had been taken on the question of pfd. dividends at the meeting of this company's directors on that date. Prior to March, 1915, when the dividend was passed, it was customary for the board to declare dividends at their February or March meeting. Inasmuch as no action has been taken at this time, it is hardly likely that the 5% dividend on Southern Railway's pfd. stock will be restored in the Spring of 1917.

²(4) **Improvements.**—It was stated March 16, 1917, that every frame trestle on the 228 miles of this company's line between Morristown, Tenn., and Salisbury, N. C., would be replaced by permanent structures of steel and concrete when the work of strengthening this

line, which has been in progress for several months, is completed, according to an announcement made by Vice-Pres. Miller.

To facilitate the movement of the very heavy traffic which passes over this line, the Southern plans to put in service Santa Fe type freight locomotives, much heavier than the power now in use, and it therefore became necessary to replace or strengthen a large number of structures.

² (5) Earnings—	1917	1916

—Apr.

²(1) **Improvements.**—Announced on April 9, 1917, that final steps toward giving the Southern Ry. System a double-track line all the way from Washington to Atlanta, 649 miles, were taken when contracts were let for grading on 71.5 miles between Charlotte, N. C., and Mt. Zion, S. C., the only part of the line not already in service as double-track or under construction.

In June, 1914, President Fairfax Harrison announced that he had arranged to secure the necessary capital and that the work of double-tracking the entire line would be pushed to completion as rapidly as possible. How actively this work has been pursued will be seen from the fact that double-track is now in service on 477.5 miles, while construction is progressing on 100 miles, and is now to begin on the remaining 71.5 miles.

²(2) **Double-Tracking Contracts.**—It was announced April 11, 1917, that final steps toward giving this company's system a double-track line all the way from Washington to Atlanta, 649 miles, had been taken when contracts were let for grading on 71.5 miles between Charlotte, N. C., and Mount Zion, S. C., the only part of the line not already in service as double track or under construction.

SOUTHERN SIERRAS POWER CO.

²(1) **Bond Issue Time Extended.**—It was announced Jan. 4, 1917, that an order had been issued by the California Railroad Commission extending the time within which this company may issue the bonds authorized by the commission on July 13, 1916.

—Mar.

²(1) **Report, Year Ended Dec. 31, 1916,** shows gross of \$569,512, with total income of \$371,714. Deductions, including interest, were \$320,870, leaving a surplus for the year of \$50,844. Dividends of \$50,000 were paid, with miscellaneous deductions from surplus of \$11,065, making total surplus Jan. 1, 1917, \$282,521, compared with \$292,742, Jan. 1, 1916.

²(2) **Balance Sheet,** as of Dec. 31, 1916, shows cash of \$115,594, notes receivable of \$70,548 and bills receivable of \$165,318, with working assets of \$116,070. Unamortized discount and expense were \$5,352,559. The company has \$5,000,000 capital stock and \$3,608,000 funded debt, with notes payable of \$2,000 and accounts payable of \$1,363,210.

SOUTHERN SMELTING & REFINING CO.

²(1) **Incorporated** on March 30, 1917, in Delaware, with a capital of \$1,000,000 to do a general business of mining in all its branches. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

SOUTHERN WEST VIRGINIA OIL & GAS CO.

²(1) **Incorporated** in January, 1917, in West Virginia, with a capital of \$750,000. Incorporators: J. M. Hawkins and G. D. Miller, Huntington, W. Va.; R. R. Rucker and B. J. Prichard, Wayne, W. Va., and others. This company is a consolidation of the Wayne Light, Heat & Gas Co., Wayne Oil Gas Co., and Belvard Oil & Gas Co.

SOUTHERN WISCONSIN ELECTRIC CO.

²(1) **Bond Offering.**—It was announced March 19, 1917, that the First National Bank of Milwaukee and Morris F. Fox & Co., of Milwaukee, Wis., are offering at 100 and interest a block of first mortgage 6% gold bonds dated Jan. 1, 1916. Due Jan. 1, 1938.

SOUTH LAKE MINING CO.

²(1) **Report, Year Ended Dec. 31, 1916,** shows an excess of quick assets of \$2,212, which compares with an excess of \$19,958 at the close of 1915. Total receipts for the year were \$158,972, including \$77,500 for 10,000 shares sold at 7½ per share. Total expenses were \$173,718, including \$157,646 spent at the mine.

The report states that production began in May with 627 tons of rock treated at the Franklin Mill. This amount was increased gradually to 3,500 tons in December; a total amount of 20,057 tons being sent to the mill in the eight months from May to December, inclusive.

This yielded, including mass, 470,230 pounds of mineral.

• SPRINGFIELD BODY CORP.

*(1) Progress Reported by President.—It was announced Jan. 23, 1917, that at the annual stockholders' meeting of this company the President reported that great progress had been made in establishing the Springfield type body in the automobile world in 1916. He also

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

stated that the Detroit plant was 75% completed and that the Springfield Body Corp. would be shipping bodies from this new plant before the end of March.

He added that the company had licensed 13 manufacturers to build the Springfield type body on a royalty basis and 32 automobile companies had adopted it as standard equipment.

—Mar.

¹(1) Comment on 1916 Sales.—On Feb. 27, 1917, the "Boston News Bureau" said: "Springfield Body Co. of Springfield, Mass., realized a 1,000% increase in production and sales for 1916."

"Considering that this body has been manufactured on a custom order basis for some time prior to the last show, such a growth in volume of business is remarkable."

"The company is opening a new plant in Detroit for the manufacture of bodies on a quantity basis. An official of the company says he anticipates another sensational increase in business for the next 12 months."

SPRINGFIELD BUILDING & LOAN ASSOCIATION, SPRINGFIELD, O.

¹(1) Capital Increased.—On Feb. 21, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$10,000,000 to \$20,000,000.

SPRINGFIELD MOTORS CO.

¹(1) Stock Offering.—It was announced Jan. 8, 1917, that Winslow & Co., of No. 11 Wall Street, New York, are making an initial subscription offering of 500,000 shares, par \$10, of this company's stock.

¹(2) Officers.—It was stated Jan. 8, 1917, that the officers of this company are: Pres. H. C. Fisk, Treas. of Fisk Rubber Co.; Vice-Pres., E. C. Morse, Vice-Pres. and Gen. Mgr. of Chalmers Motor Co.; Vice-Pres. in charge of works, Frank H. Trego, former research engineer of Packard Motor Car Co., and chief engineer Knox Motors Co.; Sec.-Treas., Gerard Robers, attorney-at-law, New York City. Directors: E. S. Kelly, formerly chairman of Board of Directors of Kelly-Springfield Tire Co.; Robert Boettger, Sec. of Selas Co., director Silk Finishing Co. of America, and Pres. of Yonkers Trust Co.; John J. Cone, Vice-Pres. Robert W. Hunt & Co., engineers.

SPRINGFIELD RY. CO.

†Equals 2¼ times the annual interest requirements on funded debt.

SPRING VALLEY WATER CO.

¹(1) Rates.—It was announced Feb. 1, 1917, that this company had asked the California Railroad Commission for permission to raise the water rates in San Francisco. The company stated that within the ensuing five years it probably would be necessary for it to spend \$12,000,000 on additions to its plant.

The company was organized with a capital of \$28,000,000, divided into 280,000 shares of \$100 each, all issued and fully paid.

—Apr.

¹(1) Report, Year Ended Dec. 31, 1916, as submitted to the California Railroad Commission, shows net corporate income, after all interest and other deductions and before dividends, was \$1,054,278. Dividends amounting to \$980,000 were paid, this being 3¼% on the capitalization of \$28,000,000. In 1915 dividends were \$840,000, or 3% on the stock.

¹(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$682,638, an increase of \$85,000 over Dec. 31, 1915.

STABILITY INVESTMENT CO., WILMINGTON, DEL.

¹(1) Incorporated on March 29, 1917, in Delaware, with a capital of \$1,500,000 to deal in and with investments of all kinds. Incorporators: Herbert E. Larter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

STAFFORD MILLS.

¹(1) Extra 1% Dividend.—This company, April 17, 1917, declared an extra dividend of 1%, payable April 10 to stock of record May 1.

STAG CANON FUEL CO.

¹(1) Taken Over.—See Phelps, Dodge & Co., Inc.—Item No. 1.

STALCUP CO-OPERATIVE CO., WILMINGTON, DEL.

¹(1) Incorporated on March 20, 1917, in Delaware, with a capital of \$500,000, to manufacture food products of all kinds. Incorporators: Martin E. Smith, T. Morley Smith and Artemus Smith, Wilmington, Del.

STAMFORD ROLLING MILLS CO.

¹(1) Plans of New Subsidiary.—See Connecticut Smelting & Foundries Co.—Item No. 1.

STANDARD ANILINE PRODUCTS CO., INC.

¹(1) Sale of Property.—See Beckers (W.) Aniline & Chemical Works, Brooklyn, N. Y.—Item No. 1.

¹(2) Merger Reported.—See Schoellkopf Aniline & Chemical Works, Inc.—Item No. 1.

STANDARD AUTO HEATING CO.

¹(1) Incorporated on Feb. 7, 1917, in Delaware, with a capital of \$250,000, to manufacture automobile accessories. Incorporators: F. R. Hansell, Philadelphia; Geo. H. B. Martin and S. C. Seymour, Camden, N. J.

STANDARD AUTOMATIC MANUFACTURING CO., AUGUSTA, ME.

¹(1) Incorporated in February, 1917, in Maine, with a capital of \$2,500,000, to manufacture and deal in sound-producing and recording machines.

STANDARD CAR CONSTRUCTION CO.

¹(1) New Orders.—See Union Tank Line.—Item No. 1.

—Apr.

¹(1) Equipment Orders.—See Reading Co.—Item No. 2.

¹(2) New President Succeeds C. H. Todd.—On April 20, 1917, C. H. Todd, Pres. of this company, resigned and was succeeded by E. C. Miller, of Philadelphia. Mr. Todd formerly was head of the Petroleum Iron Co., and after leaving that company organized the Standard Car Construction Co.

STANDARD CAST IRON PIPE & FOUNDRY CO.

¹(1) Reorganization Planned.—It was announced Feb. 14, 1917, by Gen. Mgr. Wm. E. Dodds, of this company, Bristol, Pa., that the receivership imposed Feb. 3 meant reorganization along the lines of more capital and a wider range of output. Robert Vetherill, of Chester, Pa., is the receiver.

Mr. Dodds was quoted as saying that the growth of the company's business had made more capital necessary and that the receivership was arranged pending the raising of needed funds.

STANDARD CHEMICAL IRON & LUMBER CO. OF CANADA, LTD.

¹(1) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross profits	\$996,464	\$301,859
Net profits	457,590	169,108
Surplus	5,885	-----

¹(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$3,778, compared with \$5,885 Dec. 31, 1915.

¹(3) Statement by President.—It was stated at Montreal April 3, 1917, that

Pres. L. M. Wood of this company in his annual remarks to stockholders said, in part: "A special reserve of \$375,000 has been sent up to partially provide for excess valuation of iron furnaces and timber limits and losses in other investments caused by the war, leaving a surplus of \$3,776.48, which has been carried forward."

"Your directors are of the opinion that this special reserve account should be increased to \$600,000, and the indications are that the additional provision of \$225,000 can be made from the earnings for the first half of the current year, after which your directors hope to be able to favorably consider the resumption of dividends on the pfd. stock."

STANDARD-ELKHORN COAL CO.

¹(1) Officers.—It was announced Feb. 28, 1917, that A. J. Johnson had been elected Pres. and E. R. Price Sec'y-Treas. of this company, Garrett, Ky. The company plans to develop 700 acres of land, and to have a daily output of 1,000 tons of coal from its mines.

STANDARD EQUIPMENT CO., CLEVELAND.

¹(1) Capital Increased.—On Jan. 11, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$1,000 to \$300,000.

STANDARD GAS & ELECTRIC CO.

¹(1) Development of Subsidiaries.—It was stated Dec. 30, 1916, that this company's subsidiaries are reporting good gains in gross and net, and also are connecting a large amount of new business to their lines. Both the electric and gas output of the companies are running at an average rate above a year previously of 17%, and the outlook for 1917 at all the operated properties is excellent.

Muskogee Gas & Electric has taken on a large amount of new business, and the city is improving in both wealth and population.

Ottumwa Ry. & Light is steadily increasing its gross and net and the territory served shows good gain in all lines of business.

Oklahoma Gas & Electric has made a gain of 1,567 electric consumers and 936 gas consumers, and the company has built a large amount of new transmission and distributing lines into new territory and plans a large extension of these lines in 1917. Oklahoma City is said to have made a gain of 5,000 population in 1916.

Arkansas Valley Ry., Light & Power will build a considerable mileage of new transmission lines in 1917. The power load in the mining districts is showing a steady increase, and the outlook for the Colorado mining industry in 1917 is said to be the best in its history.

The Everett Gas Co., the Tacoma Gas Co. and the Oregon Power, the Northwest Pacific Coast subsidiaries, are steadily improving their financial and operating position, and revenues for 1917 will be much better than in former years.

Fort Smith Light & Traction, with which earning conditions have not been good until recently, is reporting gains of 20% in revenues over a year previously.

Western States Gas & Electric has arranged for the purchase of larger water rights, the acquisition of which will make its hydro-electric plants on the American River 100% effective the year round.

San Diego Consolidated Gas & Electric Co. is showing good gains, and its territory is growing in population and in industries.

Northern States Power Co., in which Standard Gas & Electric is interested, is developing at a highly satisfactory rate.

¹(2) Statement About Subsidiary's Receivership.—See Northern Idaho & Montana Power Co.—Item No. 1.

This information, while not guaranteed, is believed to be correct.

STANDARD CORPORATION SERVICE

JANUARY 1 TO APRIL 30, 1917

¹(3) Record Gains by Subsidiary.—See Louisville Gas & Electric Co.—Item No. 1.

¹(4) Operations, Subsidiaries, Week Ended Jan. 6.—It was stated Jan. 13, 1917, that subsidiaries of this company for the week ended Jan. 6 reported a combined output of electrical energy of 15,309,987 kilowatt hours, a gain of 24.2% over the corresponding week of 1916. New business connected to the lines for the week included 216 kilowatts in lighting and 135 horsepower in motors. Output of manufactured gas for the week increased 10.2%.

Louisville Gas & Electric Co. is steadily adding new customers to its lines, as is Oklahoma Gas & Electric Co. In 1916 Arkansas Valley Ry., Light & Power Co. constructed 69½ miles of high-tension transmission line to serve mining and agricultural districts and will build in 1917 ten miles of new line to serve irrigation districts.

Western States Gas & Electric Co. in its Stockton division built 400 miles of transmission and distributing lines to agricultural districts furnishing current to electric irrigation pumps and other farm machinery.

¹(5) Note Issue Planned by Subsidiary.—See Western States Gas & Electric Co.—Item No. 3.

¹(6) Note Sale by Subsidiary.—See Western States Gas & Electric Co.—Item No. 4.

¹(7) Earnings, Subsidiaries, Year Ended Oct. 31, 1916, compare, as follows:

	1916	1915
Gross	\$16,739,573	\$15,336,800
Net after taxes	8,244,574	7,428,031

¹(8) Income Account, Year Ended Oct. 31, 1916, compares as follows:

	1916	1915
Gross	\$1,679,116	\$1,521,609
Net after taxes	1,623,697	1,497,473
Surp. aft. chgs.	1,193,258	654,476

¹(9) Note Sale.—It was announced Jan. 23, 1917, that this company had sold an additional \$200,000 of its 6% notes, making the total issue now outstanding \$6,914,250. The authorized amount of these notes is \$15,000,000, the proceeds being used for corporate purposes of the holding company and its affiliated properties.

¹(10) Status.—It was stated Jan. 23, 1917, that this company now owns \$23,757,000 par value common stock, \$7,254,200 par value pfd. stock, \$502,919 face value notes and \$7,464,000 face value bonds of its affiliated corporations. It has outstanding \$9,343,150 common and \$11,734,950 pfd. stock. Its convertible bonds outstanding have been reduced from \$10,300,000 to \$6,971,000 and the 6% dividend script issued in lieu of cash dividends on the pfd. has been reduced from \$1,649,893 to \$331,957.

Total annual income of Standard Gas & Electric is now approximately \$1,665,000, with net income, after expenses, taxes and bond interest of \$1,177,000. After providing for interest on the 6% notes and the dividend script, and including in the balance the profit for the year on sales of securities, there was in 1916 a balance of \$1,193,258.

Including the profit on the sale of securities in 1916 this balance was an annual rate of 10% on the outstanding pfd. stock, or, if the profit from the sale of securities be eliminated, at an annual rate of 6.3% on the pfd. stock. The profit on sales of securities for the year was \$344,328, of which \$311,857 was on premium paid for bonds owned but called for redemption by the issuing companies.

¹(11) Revenues of Subsidiaries Gain.—It was stated Jan. 23, 1917, that revenues of Standard Gas & Electric subsidiaries continue to show good gains. For 1916 they were close to \$17,000,000, compared with \$15,500,000 in 1915. These subsidiaries, which serve a population of 1,800,000, are located in 275 communities in 16 States and operate electric light and power, natural and artificial gas, electric railways and other utilities.

The operated companies are showing good gains in earnings, and the esti-

mates of income of the holding company given above are based on the present rates of interest and dividends being paid on their bonds and stocks.

They do not take into consideration any increase above the usual rates, and it is probable that when the complete annual report for 1916 is issued an even better showing will be made for the securities of the holding company.

—Feb.

¹(1) Receivership for Subsidiaries.—See Everett Gas Co.—Item No. 1.

¹(2) Notes Called by Subsidiary.—See Western States Gas & Electric Co.—Item No. 1.

—Mar.

¹(1) Tenders Asked.—It was announced March 14, 1917, that this company, through the Philadelphia Trust Co., is asking for tenders until April 12 of sufficient of its convertible 6% sinking fund gold bonds dated Dec. 1, 1911, and maturing Dec. 1, 1920, to exhaust \$1,025,500 available for the sinking fund of this issue.

This sum of \$1,025,500 was secured by the sale of securities formerly held by the trustee as collateral for these bonds and consisting of \$1,465,000 par value of Northern Idaho & Montana Power first mortgage 6% bonds, \$25,000 par value of pfd. stock of said company, and \$1,000,000 par value of its common stock.

¹(2) Report, Year Ended Dec. 31, 1916, shows combined revenue as follows:

	1916	1915
Gross	\$17,127,134	\$15,539,281
Net after taxes	8,309,422	7,585,602
Surp. after chgs. and div.	1,073,225	1,322,792

¹(3) Income Account, Year Ended Dec. 31, 1916, of this company, compares as follows:

	1916	1915
Gross income	\$1,712,927	\$1,618,467
Net	1,664,199	1,575,441
Total income	1,976,057	1,575,441
Surp. after int. charges	1,186,294	742,377
Bal. aft. pf. div. & amort'n.	581,830	270,979

¹(4) Earnings on Stock.—It was stated March 19, 1917, that this company's 1916 surplus after charges of \$1,186,294 is equivalent to the full 8% on the pfd. stock and 2.6% on the common stock. If the item of "other income," which was from profit on bonds of subsidiaries called for redemption in 1916 be excluded, the surplus for 1916 is equivalent to 7.42% on the pfd. stock.

If the entire applicable income of Standard Gas & Electric from its holdings in subsidiary companies be included in the income account, instead of only amounts actually received in interest and dividends, the company earned in the year the full 8% on its pfd. stock and 8.83% on its common stock. On this basis in 1915 Standard Gas & Electric earned 4.33% on its common stock, in 1914 1.53%, and in 1913 2.5%, after providing for the full 8% on its pfd. issue.

¹(5) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,171,701, compared with \$784,074 Dec. 31, 1915.

¹(6) Statement by President.—It was stated March 19, 1917, that Pres. H. M. Byllesby, of this company, in referring to the increase in 1916 of pfd. dividend payments from 1% to 1½% quarterly and concerning the prospect of a resumption of the full 8% rate, said: "This dividend will be increased from time to time as fast as the earnings of the company justify, and it is believed that at no distant date the 8% per annum will again be distributed. In 1916 \$1,073,225 of the surplus earnings of subsidiaries were retained in their surplus accounts or allocated to depreciation reserve, and in addition \$15,300 was credited to depreciation reserves through operating accounts."

Mr. Byllesby added: "There was no change in the pfd. and common stock of the company in 1916, but from \$10,300,000 the 6% convertible

bonds were reduced to \$6,994,000 through operation of the sinking fund, from treasury cash and from proceeds of sales of underlying securities.

"Standard Gas & Electric is in excellent financial position, current assets on December 31 being \$3,184,068, against which there were current liabilities of but \$161,388. The combined excess of current liabilities over current assets of all controlled subsidiaries December 31 was \$1,120,000. All the controlled companies are in a position readily to finance their floating debts through the sale of their securities.

With the reorganization of Tacoma Gas and Everett Gas these subsidiaries will have increased earning power and will add to the income of the holding company. Northern Idaho & Montana Power, also in the hands of receivers, will be reorganized. Other subsidiaries are in excellent financial and earning position.

¹(7) Note Issue by Subsidiary Authorized.—See Western States Gas & Electric Co.—Item No. 3.

¹(8) Increase in Electrical Output.—Electric generating and distributing properties of this company for the week ended March 17, 1917, reported an increase of 23.11% in electric output over the corresponding week of 1916. New business placed under contract in the week included 380 kilowatts of lighting and 300 horsepower in motors.

Louisville Gas & Electric Co. in the last two years increased its connected power load to 28,500 kilowatts, a gain of 21.2%. For the week ended March 17 the company reported an increase of 10% in output of electric energy. There is a great revival of industrial activity in Louisville and the gas and electric company is prospering accordingly.

¹(9) Gain in Output.—Electric generating and distributing subsidiaries of this company for the week ended March 24, 1917, reported a gain of 21.6% in output of stations over the corresponding week of 1916. New business placed under contract in the week included 437 kilowatts of lighting, and 458 horsepower in motors. Louisville Gas & Electric Co. reported a gain of 8.8% in electric output for the week, with an increase of 18% in output of gas.

—Apr.

¹(1) Earnings, Year Ended Feb. 23, 1917.—It was announced April 6, 1917, that the combined earning statements of all properties in which this company is interested showed as follows for the year ended Feb. 23:

	1917	1916
Gross earnings	\$17,511,489	\$15,902,878
Net after taxes	8,405,966	7,785,594

¹(2) Retiring Directors Re-elected.—At the annual stockholders' meeting of this company April 18, 1917, retiring directors were re-elected.

STANDARD HEAT & VENTILATION CO.

¹(1) Merger.—See Vapor Car Heating Co., Inc.—Item No. 2.

STANDARD ICE & SERVICE CO.

¹(1) Incorporated on Jan. 20, 1917, in Delaware, with a capital of \$1,000,000, to manufacture, store and sell ice, etc. Incorporators: Herbert E. Latta and Norman F. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

STANDARD LIGHT, HEAT & POWER CO.

¹(1) Directors Re-elected.—Announced Jan. 23, 1917, that at this company's annual meeting retiring directors were re-elected.

STANDARD LUMBER CO.

¹(1) Acquisitions.—It was announced at Fostoria, O., Feb. 9, 1917, that this company had taken over the Coas-German plant at that place, the Schaffmaster plant at Toledo, O., and a number of other smaller companies in that vicinity.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

**STANDARD MANUFACTURING CO.,
BRIDGEPORT, CONN.**

¹(1) **Capital Increased.**—On April 16, 1917, this company increased its capital stock to \$281,300.

¹(2) **Merger Formed Under New Name.**—On April 26, 1917, "The Iron Age" stated that this company, Bridgeport, Conn., and the Parsons Foundry Co., of the same place, had been merged under the name of the Bilton Machine Tool Co., with a capital stock of \$600,000. C. E. Bilton is Pres. and Treas.; W. C. Henderson, Sec'y, and R. W. Ellingham, Sales Mgr.

The Standard Co. heretofore has made mostly milling machines, gear-cutting machines, drill presses, etc., but the new company will manufacture machine tools of all the kinds in common use. Pres. Bilton secured a controlling interest in the Parsons Foundry Co. in 1915 and recently erected a modern foundry plant on land adjoining that of the Standard Co.

STANDARD MORTGAGE CO.

¹(1) **Incorporated on Feb. 20, 1917,** in Delaware, with a capital of \$1,000,000, to deal in and with investments of all kinds. Incorporators: Herbert E. Latler and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

**STANDARD MOTOR
CONSTRUCTION CO.**

¹(1) **Dividends.**—It was announced March 5, 1917, that this company had declared a dividend of 6% on its capital stock, payable in two instalments, 3% on May 15 to stock of record April 16 and 3% on Nov. 15 to stock of record Oct. 16. Books close April 16 and Oct. 16 and reopen May 1 and Nov. 1.

¹(2) **Report, Year Ended Dec. 31, 1916.**—The company reports for the year ended Dec. 31, 1916, net earnings of \$396,377, equal to \$2.20 a share, or 22% on the \$1,800,000 stock. These earnings compare with \$277,959, or \$1.54 per share earned in 1915.

Balance sheet shows a material betterment in its financial condition. Current assets, including \$215,795 cash and \$274,507 investments, were \$820,413 at the close of 1916, compared with \$658,524, including only \$71,406 cash, a year previous. In the same time current liabilities decreased from \$160,744 to \$57,537. Working capital at the close of last year was \$762,876, against \$498,080 a year before. President Rlotte, in his report, says that prospects for 1917 are exceptional and that the plant is working beyond normal capacity. An order for 1,100 250-horsepower engines for the Elco Co. was completed during last year.

¹(3) **May Benefit from War Business.**—On March 28, 1917, the "Wall Street Journal" said that strength in this company's stock was attributed to the expectation that the company would benefit if this government goes to war and builds a fleet of submarine-chasers.

Last year the company completed an order for 1,100 motors which were used for the British mosquito fleet and have proven very satisfactory. Should the United States build fast motor boats to run down submarines it is practically certain that Standard Motors will get a substantial share of the business in its line.

STANDARD OIL CLOTH CO.

¹(1) **Extra Dividend on Common.**—Announced March 14, 1917, that this company had declared the usual quarterly dividends of 1% each on its pfd. A and B stocks, also 1% regular and 1% extra on its common stock, payable April 2 to stock of record March 15.

**STANDARD OIL CO. OF
CALIFORNIA.**

¹(1) **Development.**—It was stated at McKittrick, Cal. Jan. 5, 1917, that, contracting to sink a well on each of 15 40-acre tracts, work to begin within ninety days, this company had leased for a term of 20 years, at one-seventh royalty, from the Miller & Lux Co., 640 acres on the North McKittrick front.

Under the lease contract the Standard Oil Co. has the right to drill a total of 150 wells—ten on each of the 15 tracts. The lands thus acquired lie from seven to eight miles northwest of McKittrick and contiguous to the Belridge field.

¹(2) **Stock Dividend Authorized.**—It was announced Jan. 16, 1917, that this company had declared the regular quarterly dividend of \$2.50, payable March 15 to stock of record Feb. 15.

The directors also authorized at the same meeting, subject to the approval of the authorities of California, a stock dividend of 243,433 shares of treasury stock, representing 33 1/4% of the outstanding stock of the corporation, to be issued on April 16, 1917, and to be delivered to stockholders of record Feb. 15, 1917, at the rate of one-third of a share for each share of stock, fractional shares in proportion, held by them.

—Feb.

¹(1) **Statement About Dividends.**—On Feb. 2, 1917, it was stated that this company had informed its stockholders that by resolution of the Board of Directors it is provided that the stock dividend declared on Jan. 18, 1916, shall represent surplus of the company prior to March 1, 1913, amounting to \$20,353,068, and the first surplus profits earned thereafter up to \$4,490,259, and that the stock dividend declared Jan. 16, 1917, shall represent the first surplus profits of the company earned after March 1, 1913, over and above \$4,490,259.

In view of this action of the board, the office of the Commissioner of Internal Revenue in San Francisco has ruled that the proportion of the surplus of the company earned prior to March 1, 1913, and reflected in the stock dividend declared Jan. 18, 1916, may be eliminated by stockholders in their income tax returns for the year 1916. Therefore, under this ruling 18.0743% of the 1916 stock dividend is returnable for income tax purposes, and the remainder of the 1916 stock dividend is not taxable.

The stock dividend of Jan. 18, 1916, amounted to \$24,843,327, being 50% of the stock then outstanding. Of that amount, \$20,353,068 was earned prior to March 1, 1913.

The company declared another stock dividend on Jan. 16, 1917, also amounting to \$24,843,327, being 33 1/4% of the outstanding stock, and representing surplus profits since March 1, 1913. This \$24,843,327, together with the \$4,490,259 distributed as part of the Jan. 18, 1916, stock dividend, shows that surplus profits of Standard Oil Co. of California have totalled \$29,333,586 since March, 1913.

As the stock dividend declared Jan. 16, 1916, and the \$4,490,259 required as part of the stock dividend of a year previously called for distribution of \$29,333,000, it is apparent that more than \$7,000,000 must have been added to the company's surplus in 1916.

¹(2) **Report, Year Ended Dec. 31, 1916,** show earnings as follows:

	1916	1915
Net	\$17,605,304	\$9,529,946
Surp. after regul. and stock divs.	30,782,324	44,852,263

¹(3) **Earnings on Stock.**—It was stated Feb. 15, 1917, that this company's 1916 net of \$17,605,304 is equal to 23.62% on \$74,529,983 capital stock issued, compared with 19.18% earned on \$49,686,655 capital stock in 1915. Net earnings are after deduction of depreciation amounting to \$3,658,216.

¹(4) **Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$30,782,324, compared with \$44,852,263.

¹(5) **Statement by President.**—It was stated Feb. 16, 1917, that Pres. D. G. Scofield, of this company, in his annual remarks to stockholders, said, in part: "During the year our plant account was increased in all departments at an expenditure for new construction and additions to our producing department holdings of \$9,894,680."

"During 1916 the crude oil production

of the company from its own properties was slightly over 13,000,000 barrels, or a daily average of 35,632 barrels, or an increased daily average of 3,976 barrels over the 1915 production. The average daily production for December, 1916, was 38,811 barrels. There was added to our producing properties during the year 936 acres by purchase in fee and 15,601 acres in leasehold.

"Our own stocks of crude oil and its equivalent in storage Dec. 31, 1916, were 22,753,178 barrels, or a decrease of 3,928,886 over Dec. 31, 1915.

"The Marine Department added to its fleet the tank steamer 'D. J. Scofield,' of 80,000-barrel capacity. The total number of bulk barrels transported by our fleet during 1916 was over 15,250,000.

"We were exchanging with the Kern Trading & Oil Co. (Southern Pacific Co.) over 19,000 barrels a day of fuel oil for its refinable crudes, an arrangement that terminated on Dec. 31 of that year.

"Of the accounts payable, the balance due the Murphy Oil Co. on the purchase of its property has been reduced to \$1,000,000, half of which is payable during 1917, the balance in 1918. The company has no other indebtedness, except the Kern accounts for December, 1916, which were paid in January, 1917.

"The cash balance on Dec. 31, 1916, was \$2,646,755.

"During the year, owing to the falling off in general production, crude oil products in California materially advanced their base prices, as of Dec. 31, 1916, or an advance of 70%. Inventories of crude oil and products in storage on Dec. 31, 1916, amounted to \$26,166,271.

"Total sales for the year showed an increase of 45% over that of 1915."

¹(6) **Government Seeks Oil Lands.**—See Honolulu Consolidated Oil Co.—Item No. 1.

—Mar.

¹(1) **Stock Dividend Authorized.**—It was announced at San Francisco March 8, 1917, that the Commissioner of Corporations of the State of California and the Railroad Commission of California had authorized the issuance of the stock dividend declared by the directors of this company on Jan. 16, and the stock will be issued in accordance with the declaration.

¹(2) **New Office Created.**—Announcement was made March 8, 1917, that at the annual meeting of this company at San Francisco retiring directors were re-elected. At the directors' meeting a new office was created, that of chairman of the board. D. G. Scofield was elected to that position. Other officials elected were W. S. Rheem, Pres.; K. R. Kingsbury, W. S. Miller, Vice-Pres.; F. H. Hillman, Vice-Pres. and director of producing; R. J. Hanna, Treas. and director of manufacturing; H. M. Storey, Sec'y and director of pipe lines.

—Apr.

¹(1) **Shipping Oil to Europe.**—Development of Alaskan Property.—On April 23, 1917, the "Wall Street Journal" said that this company was making large shipments of lubricating oil from its Pacific coast refineries to the eastern seaboard. Big quantities are being sent to Europe through the ports of New York and Philadelphia.

The world-wide demand for California lubricating oil is due to its superior quality.

A great deal of California distillate, even of the lowest grade, has been taken by Europe. This is also true of distillate supplies in other refining centres of the United States.

Development of new oil fields in Alaska, where a few wells have been drilled, has attracted the attention of Standard of California interests, and some of them are of the opinion that a sizable field will be developed there. New producing fields on the Pacific coast are needed because of the situation in California, where supplies have been steadily drawn on for more than a year.

In March, 1917, there was a decrease of 850,000 barrels in surplus stocks.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

That, however, is the smallest decrease in over a year, the average monthly reduction being more than 1,000,000 barrels.

STANDARD OIL CO. OF INDIANA.

¹(1) **Gasoline Price Advanced.**—It was announced Jan. 2, 1917, that this company had advanced the price of gasoline one cent a gallon throughout its entire territory. The Chicago price now is 18½ cents a gallon, tank wagon basis. Naphtha has been advanced ½ cent a gallon to 18 cents.

¹(2) **Gasoline Price Advanced.**—Announced Jan. 15, 1917, that this company had advanced the price of gasoline ½ cent a gallon to 19 cents tank wagon, in its entire territory.

¹(3) **Extra Dividend.**—Announced Jan. 19, 1917, that this company had declared the regular quarterly dividend of 3% and an extra of 3%, both payable Feb. 28 to stock of record Feb. 1.

This is the first extra dividend declared by the company since October, 1914.

¹(4) **Capital Increase Planned.**—Announced Jan. 21, 1917, that the stockholders of this company at a meeting on March 1 would vote on an increase in the authorized capital stock from \$30,000,000 to \$100,000,000.

¹(5) **Extension Plans.**—It was announced Jan. 22, 1917, that in addition to increasing its capital stock from \$30,000,000 to \$100,000,000 this company also plans to put itself in a position where it can enter the production and transportation of oil business. At present it is a refining and sales company. At the meeting on March 1, when the stockholders will vote on the stock increase, they will also vote on an amendment to the charter of the company, enabling it to acquire lands for the production of oil and to build pipe lines and tank steamers.

It is thought the new stock, if issued, will be distributed as a stock dividend to shareholders.

¹(6) **Previous Capital Increases.**—On Jan. 22, 1917, it was stated that at the time of the dissolution of the old Standard of New Jersey this company was capitalized at \$1,000,000. In 1912 an increase to \$30,000,000 was effected through a stock dividend of 2,900%.

The expansion would give the company a capital equal to that of the one-time parent organization, of which it was but one of 34 constituents when the Standard of New Jersey was dissolved.

—Mar.

¹(1) **Stock Increase Authorized.**—It was announced March 1, 1917, that at the annual meeting of stockholders of this company an increase in capital stock from \$30,000,000 to \$100,000,000 was authorized.

¹(2) **Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$53,236,657, compared with \$26,793,042 Dec. 31, 1915.

¹(3) **Purchase.**—It was announced March 3, 1917, that this company had purchased the Karpen Building, Chicago, for \$3,500,000.

¹(4) **Capital Stock Increase.**—It was announced March 24, 1914, that at this company's annual meeting the stockholders had authorized an increase in the capital stock from \$30,000,000 to \$100,000,000. The annual report shows a total surplus of \$53,236,657. Retiring directors were re-elected.

—Apr.

¹(1) **War Effect.**—On April 10, 1917, a director of this company was quoted as saying: "The principal effect of the war on our business will be the loss of many young men, and we have none at all to spare. We have not heard of any Government orders as yet. They will affect seaboard refineries and producing centers and may strengthen prices somewhat. Our prices have not been changed for many weeks."

¹(2) **Extra Dividend on Common.**—This company April 23, 1917, declared the regular quarterly dividend of 3% and

an extra of 3%, the same as three months previously.

¹(3) **Gasoline Price Advanced.**—A Chicago dispatch April 23, 1917, stated that this company had advanced the price of gasoline one cent a gallon throughout all its territory. Refined oil was advanced ½ cent a gallon.

STANDARD OIL CO. OF KANSAS.

¹(1) **Extra Dividend.**—Announced Jan. 25, 1917, that this company had declared the regular quarterly dividend of \$3 a share and an extra of \$2, payable Feb. 20 to stock of record Feb. 14.

—Mar.

¹(1) **Balance Sheet,** as of Dec. 31, 1916, showed profit and loss surplus of \$2,418,683, against \$1,468,370 last year.

STANDARD OIL CO. OF KENTUCKY.

¹(1) **Gasoline Price Advance.**—It was announced Jan. 30, 1917, that this company had advanced the price of gasoline 1 cent, making the tank wagon price 22 cents; garage, 21 cents.

—Feb.

¹(1) **New Directors—Capital Increase.**—It was announced Feb. 1, 1917, that at the annual meeting of this company retiring directors were re-elected, with the exception of Logan C. Murray, who resigned and was succeeded by James B. Brown. The directors re-elected the retiring officers.

The stockholders authorized an increase in the capital stock from \$3,000,000 to \$6,000,000.

¹(2) **Report, Year Ended Dec. 31, 1916,** shows:

	1916	1915
Net profits.....	\$2,068,588	\$1,124,640
Surp. after divs.	1,468,598	644,640

¹(3) **Earnings on Stock.**—It was stated Feb. 2, 1917, that this company's 1916 net profits of \$2,068,588 is equal to 68.55% on the \$3,000,000 capital stock, as compared with 37.48% earned on the same stock in 1915.

¹(4) **Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$4,049,325, compared with \$2,580,727 Dec. 31, 1915.

¹(5) **Capital Increased.**—On Feb. 10, 1917, the company filed notice at Frankfort, Ky., of an increase in capital stock from \$3,000,000 to \$6,000,000.

¹(6) **Extra and Special Dividends.**—Announced Feb. 15, 1917, that this company had declared the regular quarterly dividend of \$1 per share and the usual \$1 extra, both payable April 2 to stock of record March 15.

A special dividend of \$100 per share, payable May 1 to stock of record April 16, was also declared. The new stock will be offered to stockholders at par and they are authorized to pay for it by applying the special dividend of \$100.

¹(7) **Statement to Stockholders.**—It was announced Feb. 23, 1917, that according to a statement sent to stockholders by this company the cash dividend of \$100 was declared out of profits prior and subsequent to March 1, 1913. It was stated \$1,382,334 was declared out of profits prior to March 1, 1913, and the remainder, \$1,617,666, was declared out of profits after March 1, 1913.

STANDARD OIL CO. OF LOUISIANA.

¹(1) **Price Advance.**—It was announced Jan. 23, 1917, that this company had advanced, effective that date, market prices of all grades of light Caddo, De Soto and Crichton crude 10 cents per barrel. No change was made in heavy Caddo oil. These changes make the prices of light Caddo \$1.70 per barrel, De Soto \$1.60 and Crichton \$1.30.

—Feb.

¹(1) **Advance in Crichton Crude Oil.**—It was announced Feb. 15, 1917, that this company had advanced the price of Crichton crude oil 10 cents a barrel to \$1.40.

STANDARD OIL CO. OF NEBRASKA.

¹(1) **Extra Disbursement Expected.**—On March 27, 1917, "Financial America" said that while the financial policy of the Standard Oil Co.'s during this period of international uncertainty has been of ultra-conservativeness and no extra cash distributions are likely to be had, it would not be surprising, according to a well-informed oil follower, if the Standard Oil Co. of Nebraska made some sort of a disbursement to stockholders.

The Nebraska company, which does not issue an annual report or financial statement of any kind, has been reaping tremendous earnings for the past two years, and, according to reports, is now earning at a rate of more than 40%.

STANDARD OIL CO. OF NEW JERSEY.

¹(1) **Statement by Vice-Pres. Weller.**—Announcement was made Jan. 9, 1917, that at the annual meeting of this company Vice-Pres. F. W. Weller made the following statement in response to questions by stockholders:

"Owing to the unprecedented demand for petroleum products, the year 1916 has been a prosperous one in all branches of the business.

"During the year the total production exceeded that of 1915, but the growth in the demand was greater than the increase in production, and this situation is being reflected by advancing prices in crude.

"The brisk demand for the past two years has so stimulated the construction of refining facilities that this capacity is now in excess of production of crude.

"Outside capital has been used largely in providing this excess, and when the lean years come, as they do with great regularity in this business, this new capital will be brought to a realizing sense that it is uneconomic to pay fancy prices for either production or refining capacity.

"However, concerns that have been conservatively operated will probably, on account of the demand, continue to enjoy, prosperity during the current year."

¹(2) **New Director.**—Announced Jan. 9, 1917, that Henry M. Tilford had been elected a director of this company, succeeding John D. Archbold, deceased. Retiring directors were re-elected.

¹(3) **New Officers.**—Announced Jan. 10, 1917, that at the meeting of directors of this company the following officers were elected: Pres., A. C. Bedford; Vice-Pres., F. H. Bedford, F. D. Asche and F. W. Weller; Treas., S. B. Hunt; Sec., C. T. White.

¹(4) **Damage by Fire.**—Announced Jan. 12, 1917, that fire on this date destroyed a building and tank, together with several wagons and equipment, causing a loss estimated at \$50,000.

¹(5) **Compensation for Roumanian Loss Predicted.**—It was stated Jan. 17, 1917, that this company's officials believe that the company will be compensated for the loss suffered by its subsidiary, the Romano-Americans Co., in the destruction of the Roumanian oil properties by a British Military Commission. Claims of this kind in previous wars have been recognized as entitled to compensation.

In this case it is believed the guaranty has been given by the Entente Governments, inasmuch as the Roumanian Commander-in-Chief and the Roumanian Prime Minister concurred with the British Military Commission in the destruction of the wells, refineries and stocks of the various oil companies operating there.

That the destruction was complete is admitted, but there remains doubt as to the total money loss. It is placed at \$150,000,000 by the British authorities and at \$80,000,000 by the Germans. The largest individual loss is thought to fall on the Standard Oil Co. of New Jersey.

—Feb.

¹(1) **Roumanian Indemnity.**—It was announced Feb. 27, 1917, that this com-

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

pany would seek indemnity for the destruction of its oil properties in Roumania at the time of the German invasion of that country.

This became known when the following statement was obtained at the company's offices:

"On inquiry at the offices of the Standard Oil Co. of New Jersey to-day, the statement was made that the company's Roumanian properties having been destroyed, indemnity would be sought, but that no determination had yet been reached as to ways and means."

Loss of the Standard Oil Co.'s wells and properties in Roumania, in any destruction of oil property in Roumania prior to the capture by the Central Powers, falls on the Romano-Americana Co., a subsidiary of the New Jersey Co., according to an announcement made by the Standard Oil on Dec. 23, 1916.

On the basis of production for 1915, the Romano-Americana Co. exceeded any of the large companies operating there. It produced 2,631,000 barrels of oil.

—Apr.

*(1) **Wages Raised at Refineries.**—Effective April 16, 1917, this company awarded increases in pay, ranging from 10% to 15%, to wage earners at its refineries. The order affects 12,000 day laborers, adding \$1,500,000 to the annual pay roll.

The company announced April 14 that it had taken this step after careful study and consideration of the living conditions surrounding its employees, and in recognition of the continued increase in the cost of living.

This is the fourth increase in pay since Aug. 1, 1915, and represents a total increase since that time of 55.25%. In September, 1915, the eight-hour day became effective among the employees of the company, and added 23% to the cost of labor per annum, making a total increased labor cost since Aug. 1, 1915, of 78.25%.

*(2) **New Director Elected.**—George H. Jones, assistant to Pres. A. C. Bedford, of this company, was elected a director April 18, 1917, to succeed W. H. Libby, deceased. He is Pres. of the Tuscarora Oil Co., Ltd., and of the Reserve Gas Co.

*(3) **Lack of Competition Among Standard Oil Companies Reported by Federal Trade Commission.**—The Federal Trade Commission, in a report transmitted to the United States Senate April 24, 1917, found that the Standard Oil interests substantially dominate the gasoline industry—refining, pipe line transportation and marketing.

Despite dissolution of the so-called "Oil Trust" by the United States Supreme Court, the commission concludes that Standard Oil domination has had a "fundamental bearing" upon gasoline prices, declared to have been arbitrarily increased.

In an exhaustive report of its investigation, under resolutions of Senators Gore and Owen of Oklahoma and its statutory authority, the commission declares, in substance, that real competition does not exist between the various Standard Oil companies because of interlocking stock ownership through the holding of a majority of shares in the constituent Standard companies by identical interests.

Legislation to meet these conditions is recommended by the commission; also its evidence and findings have been transmitted to the Attorney-General for appropriate action.

*(4) **Rise in Gasoline Price Natural, Asserts Pres. Bedford.**—Pres. A. C. Bedford, of this company, April 24, 1917, authorized the following statement in reference to the report of the Federal Trade Commission: "The Standard Oil Co. of New Jersey has maintained that the rise in the price of gasoline has been due to the natural operation of the law of supply and demand. The Federal Trade Commission now sustains that contention in principle and to a large extent in degree, for the commission finds:

"1. A marked decline during 1915 in

the gasoline content of the crude oil produced in that year.

"2. A rise in the cost of manufacture.

"3. An increased export demand for gasoline as well as an enormously increased domestic consumption, incidental to the large addition to the number of automobiles, etc.

"4. The Federal Trade Commission does intimate that a portion of the rise in the price of gasoline, at least in certain sections of the country, may be due to conditions which it characterizes as 'artificial.'

"5. We know of no artificial condition whatever which has affected prices, and the fact is that the operations of this company have been dictated solely by sound and legitimate business considerations.

"6. It is significant that while in the dissolution suit the Government adduced proof that the Standard Oil companies of that time controlled the sale of 87% of the gasoline marketed in this country, the Federal Trade Commission finds that these same companies now handle only 65% of this business.

"It is a matter of common knowledge that during the past few years a great number of new oil companies have been organized in this country and have invested hundreds of millions of dollars in the business. The Federal Trade Commission does not suggest that any practice favoring of unfair competition on the part of the former Standard Oil companies has restrained in any way the free and unhampered growth and success of these new or of any old companies.

"The fact is that the Standard Oil Co. of New Jersey has scrupulously obeyed the decree in the dissolution suit as affirmed by the Supreme Court. Our observance of the decree has been under the constant supervision of the Department of Justice and it has made no complaint against us. The Federal Trade Commission, in its report of an exhaustive inquiry into our business, does not intimate that any practice or policy of this company is at variance either with the law or that decree."

*(5) **Earned \$51,591,669 Net in 1915.**—The "Wall Street Journal" April 27, 1917, stated that this company earned \$51,591,599 net in 1915. Its surplus at the end of that year was \$149,979,868. During the year it added \$31,923,909 to surplus. The company's capital was \$100,000,000, and its net investment at the first of 1915 totaled \$249,979,868.

This is the first time earnings of the Standard Oil Co. of New Jersey have been available. The company has not issued financial statements, but the figures were obtained by the Federal Trade Commission in its search into the reasons for the advance in the price of gasoline.

• STANDARD OIL CO. OF NEW YORK.

*(1) **Export Oil Price Advance.**—Announced Jan. 10, 1917, that this company had advanced the export price of gasoline 1 cent a gallon and the export price of refined oil $\frac{1}{4}$ cent a gallon for all grades in packages.

—Feb.

*(1) **Dividend Discussion.**—On Feb. 7, 1917, the "Wall Street Journal" said that this company probably would declare a 33 $\frac{1}{3}$ % stock dividend early in 1917.

The basis of the proposed distribution is the great increase in value of the company's steamship properties. This appreciation in the value of ocean tonnage is not confined to the Standard Oil Co.'s fleet, but has occurred in every department of the shipping industry. In July, 1915, Standard Oil of New York Incorporated the Standard Transportation Co., with a capital stock of \$15,000,000, to take over the marine transportation department of its business.

The transportation company has a tonnage of 200,000 tons, which has so greatly increased in value that an addition to the volume of stock is necessary in order to make the capitalization correspond in some degree to the value of the properties.

New York and New England are the greatest sections in the country for the sale of gasoline, and Standard Oil of New York, with its extremely high-grade of gasoline, has a monopoly of this trade.

Not since 1913 has the Standard Oil of New York declared an extra distribution and it is credible that it would fall in line with the New Jersey, California and perhaps the Indiana companies and increase its capital stock to \$100,000,000.

Since the dissolution of the original company, Standard Oil of New York has paid the following dividends: 1912, 8%; 1913, 6%, with an additional stock dividend of 400%; 1914, 1915 and 1916, 8%.

*(2) **Denial.**—According to high officials, it was stated Feb. 7, 1917, this company is not considering increasing its capital stock from \$75,000,000 to \$100,000,000 through the distribution of a 33 $\frac{1}{3}$ % stock dividend to shareholders. These officials also stated that the company has no intention of distributing to its stockholders the \$15,000,000 capital stock of the Standard Transportation Co., its marine transportation subsidiary.

It is pointed out by the company's officials that present world affairs, especially as they relate to shipping conditions, make for caution.

Standard Oil Co. of New York's steamship properties naturally have increased in value in the last year, but what their value will be a year hence is another question.

—Mar.

*(1) **Operations in Texas.**—It was stated March 14, 1917, that one effect of the removal of the restrictions against certain corporations from doing business in Texas would be the open entry into Texas of this company, which was among those forbidden from continuing business there. According to reports, the company will build one or more large refineries, either at Houston or Port Arthur.

If it is found that as a result of the enactment of the bill enabling the Pierce Oil Corp. to re-enter Texas the Standard Oil Co. can resume business there, it probably will develop that the New York company also will acquire producing lands. The most logical way this could be accomplished, it is pointed out, would be through the acquisition of the Magnolia Petroleum Co., already closely controlled by Standard Oil interests.

Standard Oil of New York is mainly a marketing company in New York and New England with a rather small refining capacity, and with no production.

—Apr.

*(1) **Report, Year Ended Dec. 31, 1916,** shows:

	1916	1915
Net earnings.....	\$36,638,495	\$15,761,663
Surp. after divs.	30,638,495	9,761,663

*(2) **Balance Sheet, as of Dec. 31, 1916,** shows a profit and loss surplus of \$38,635,573, compared with \$20,463,254 Dec. 31, 1915.

*(3) **Earned \$48.85 a Share in 1916.**—This company's 1916 net earnings of \$36,638,495 is equivalent to \$48.85 a share earned on 750,000 shares of capital stock, compared with \$21 a share earned in 1915.

*(4) **March Earnings a Standard Oil Record.**—On April 23, 1917, Dow, Jones & Co. said that this company's statement of earnings for 1916 is one of the most remarkable ever made by a Standard Oil company. Its surplus of more than \$68,000,000 is equal to 90% on its entire capital stock.

Its surplus in 1916 increased more than \$42,000,000. In the past two years surplus has grown \$52,000,000.

Approximately \$11,000,000 of the increase in surplus in 1916 is due to appreciation in value of equipment of subsidiary companies, notably the Standard Transportation Co., its marine transportation company, which took over the marine business of the New York company in the latter half of 1915, and which had an exceedingly prosperous year in 1916.

JANUARY 1 TO APRIL 30, 1917

STANDARD OIL CO. OF OHIO.

(1) Dividend Payment.—On Feb. 18, 1917, Sec'y M. G. Vilas, of this company, was quoted as stating that in view of the recent ruling of the Treasury Department of the United States, the Board of Directors had determined that the stock dividend of May 20, 1916, in the sum of \$3,500,000, was declared out of surplus of \$4,040,345 existing on Dec. 31, 1912, as shown by the company's balance sheet of that date, leaving a balance of \$540,345 of said surplus of Dec. 31, 1912, available for further dividends.

—Mar.

(1) Extra Dividend.—Announced that this company had declared a regular quarterly dividend of \$3 a share and an extra of \$1, payable April 1. Books close March 2 and reopen March 22.

—Apr.

(1) Balance Sheet, as of Dec. 31, 1916, compares as follows:

Assets—	1916	1915
Plant	\$8,350,329	\$6,163,880
Merchandise	2,833,932	2,385,704
Cash	373,832	682,104
Accts. receivable & oth. invest.	3,234,112	2,619,958
Reas. for plant extensions	1,144,620	1,100,000
Total	\$15,936,832	\$12,951,706
Liabilities—		
Capital stock	\$7,000,000	\$3,500,000
Accts. payable	902,048	935,932
Depr. account	1,995,394	1,765,820
Surplus	6,039,390	6,749,954
Total	\$15,936,832	\$12,951,706

STANDARD PARTS CO.

(1) Initial Dividend.—On Jan. 1, 1917, this company paid to holders of record Dec. 28, 1916, a dividend of 51 cents on the pfd. stock. This is at the rate of 13% from Dec. 5, as of which date the stock was issued.

—Mar.

(1) Acquisition.—It was announced Feb. 24, 1917, that this company, Cleveland O., had purchased the business and plant of the Bock Bearing Co., Toledo, O. Pres. Wm. E. Bock, of the latter company, becomes a director of the Standard Parts Corp.

The Bock Bearing Co. is capitalized at \$1,200,000 common stock, of which \$1,175,000 is outstanding and \$450,000 pfd. stock, all outstanding. Payment for the Bock Bearing Co. stock is on the basis of one-third cash, one-third in Standard Parts pfd. stock at 101½ and one-third in common stock at 85.

—Apr.

(1) Status.—It was stated April 7, 1917, that this company in 1916 succeeded to the business of The Perfection Spring Co., and at the same time acquired the principal assets of The Standard Welding Co. These two plants furnish an output whose combined net sales were more than eight and a quarter millions of dollars in 1916.

The company has completed plans for making other properties a part of the organization, but with the product of the spring and tube and rim divisions alone the net sales of the company should run in the neighborhood of \$11,000,000 in 1917.

The capitalization is \$35,000,000, of which \$10,000,000 is 7% pfd. and \$25,000,000 common stock. Of the former \$5,000,000 has been issued, and of the common stock \$8,000,000 has been issued.

Christian Girl, founder of The Perfection Spring Co., is actively at the head of The Standard Parts Co. as Pres. P. A. Connolly, Sec'y of The Perfection Spring Co. from its beginning, is also The Standard Parts Sec'y; T. E. Borton is Treas.; F. F. Prentiss, 1st Vice-Pres., is Vice-Pres. of The Cleveland Twist Drill Co.; E. W. Farr, 2d Vice-Pres., is chairman of the Board of the Barkwell-Farr Brick Co.

The complete Standard Parts Co. directorate includes, also: H. P. McIntosh, Sr., Pres. of the Guardian Savings & Trust Co.; H. P. McIntosh, Jr., Vice-

Pres. of the Guardian Savings & Trust Co.; C. C. Bolton, Asst. Treas. of the Bourne-Fuller Co.; Arnold H. Goss, of Detroit, a director in the Chevrolet Motor Co., and a close personal associate of Mr. Gird, and Benjamin A. Gage, of Gage, Day, Wilkin & Wachner, attorneys; J. A. Kling, Pres. of the Cleveland Builders' Supply Co.; Maynard H. Murch, Vice-Pres. of The Maynard H. Murch Co., and W. E. Bock, Pres. of The Bock Bearing Co., and the man who designed and completed the Owens bottle-making machine.

The large manufacturing and financial success of The Perfection Spring Co., founded by Mr. Gird in 1906, is one of the so-called business romances of the automobile field. In a little room on Superior Avenue, in Cleveland, he began the work which now represents the largest plant of its kind in the world. The annual production of automobiles was then 30,000 cars, which, though the figure appears small indeed to-day, was at the time considered remarkable. The demand for Perfection springs increased rapidly and continues to grow. The company's capitalization of \$10,000 in 1906, became \$50,000 in 1907; then \$75,000, and so on to a capitalization of \$500,000 in 1911.

The rim and tube division of The Standard Parts Co. has had a somewhat similar history. The business was founded in a small shop in Cleveland. The use of electric welding processes was a prime factor in the growth of production. An increase of 70% in net sales noted in 1916 will be exceeded in 1917.

The heater division, manufacturing a successful device for heating automobiles by utilization of exhaust heat, otherwise wasted and lost, is growing rapidly and has been given great impetus by the increasing use of closed cars.

Additions will include axles, bearings, etc.

The benefits of the central organization as to volume in purchasing and various economies in avoidance of duplication, are already apparent as the business of 1918 comes on for consideration and closing.

STANDARD PROCESS STEEL CORP.

(1) Acquisition.—It was announced Feb. 28, 1917, that this company, Phillipsburg, N. J., had taken over the plant formerly operated by the Rowland Firth & Sons Co. It was incorporated in July, 1916, with a capital stock of \$300,000, and at that time Oscar L. Mills, Pittsburgh, was elected Pres. and James L. Monahan, Phillipsburg, was made Treas.

The plant has been put in operation and, with the completion of an extension, will have a maximum output of 350 to 400 tons of steel and "process" steel castings per month. It will specialize in hardened steel gears, pinions, sprockets, spindles, coupling boxes and track wheels.

STANDARD ROLLER BEARING CO.

(1) New Aldridge Reorganization Plan.—It was stated Jan. 30, 1917, that the Aldridge stockholders' protective committee of this company had presented a new reorganization plan as a result of the decree of the United States District Court of New Jersey directing the sale of all the property of the company. Creditors' claims are now estimated at \$1,800,000. An offer has been received. It is announced, for the purchase of the common and pfd. stock at \$7 per share.

The consent of at least 80% of the stock is required and also that the sale of the company's assets and properties take place by Feb. 27.

The New York syndicate which makes the offer has deposited \$10,000 as a guarantee of good faith. The committee requests deposits of stock with the Bankers' Trust Co. of New York.

—Feb.

(1) Sale Notice.—It was stated Feb. 5, 1917, that Judge Relistab, of the United States District Court at Trenton, N. J., had an order for creditors of this company to prove their claims on or before Feb. 23, and for anyone

objecting to the plan to show cause by Feb. 23 why the property should not be sold on or before Feb. 27.

Deposits of stock assenting to the plan have amounted to 95% of the 85,000 shares outstanding.

(2) Sold.—It was announced at Trenton, N. J., Feb. 23, 1917, that Judge Relistab had signed an order in the United States District Court confirming the sale of this company, Philadelphia, to Frank Smith, of that city, for \$1,000,000. Mr. Smith, the nominal purchaser, represents about 98% of the creditors and stockholders of the corporation. It was stated that creditors of the company, which has an indebtedness of \$1,000,000, will receive 60% of their claims.

—Mar.

(1) Sale.—See Marlin Arms Corp.—Item No. 1.

(2) Deal Ratified.—See Marlin Arms Corp.—Item No. 5.

—Apr.

(1) Directors Re-elected.—It was announced at Philadelphia April 12, 1917, that a formal meeting of stockholders of this company had been held there on that date. Although the retiring directors were re-elected, all action was perfunctory, the stockholders having been represented by one proxy. The meeting was necessary in order to fulfill legal requirements pending the complete transfer of the property to the Marlin Arms Corp.

STANDARD SANITARY MANUFACTURING CO.

(1) Acquisition.—It was announced Feb. 22, 1917, that this company had acquired control of the L. M. Rumsey Manufacturing Co., St. Louis. It is understood that the St. Louis plant will be operated in conjunction with the Ahrens & Ott Mfg. Co., Louisville, Ky., another of the allied subsidiaries of the Standard Co. The purchase of the Rumsey Co. includes all its property except its office and headquarters building, which has been leased.

The Rumsey Co. was organized more than 50 years ago and has grown steadily to large proportions, carrying a stock on hand at all times in excess of \$1,000,000.

STANDARD SCREW CO.

(1) Stockholder Asks to Inspect Books.—It was announced at Jersey City, N. J., Jan. 10, 1917, that George W. Shea, a stockholder, had asked the New Jersey Supreme Court for an order for an inspection of the books of this company. He stated that the stock, the par value of which is \$100, rose rapidly after the company had obtained contracts for war munitions, and that in November, 1916, it was quoted at \$603. He charged that as a result of the alleged leak in the recent note of President Wilson there was a drop to \$380. The court will hear the case on Jan. 13.

(2) Extra Dividend.—It was announced Jan. 25, 1917, that this company had declared an extra cash dividend of 50% on its common stock, payable Feb. 15, 1917, to stock of record Feb. 1, 1917. The directors also authorized the officers to take the necessary steps for redemption of all the outstanding \$3,000,000 pfd. B stock.

—Mar.

(1) Extra Dividend on Common.—Announced March 15, 1917, that this company had declared an extra dividend of 50% on the common stock, payable March 31 to holders of record March 20.

STANDARD SECURITIES CORP., NEW YORK.

(1) Capital Increased.—On March 26, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$50,000 to \$250,000.

STANDARD SCREW PRODUCTS CO.

(1) Stock Dividend.—Announced Jan. 10, 1917, that, in addition to declaring the regular monthly cash dividend of 1%, this company had declared a stock

JANUARY 1 TO APRIL 30, 1917

dividend of 50% in stock, in connection with an increase in the authorized capital from \$100,000 to \$250,000. The company recently distributed an extra cash dividend of 50%.

STANDARD SHIPBUILDING CORP.

¹(1) Control Sold.—It was announced Jan. 29, 1917, that a syndicate of Cuban capitalists, headed by Pres. Jose Mari-man, of the Spanish Bank of the Island of Cuba, had purchased control of this company.

The company was formed in 1915 with a capital of \$3,000,000. Wallace Downey, who sold all of his holdings in it, has purchased for cash Milliken Bros., Inc.

—Mar.

¹(1) Improvements.—It was stated March 1, 1917, that this company had filed plans for a new boiler and plate shop at its plant on Shooter's Island, Staten Island, to cost \$250,000.

STANDARD SILICON CO.

¹(1) Incorporated on April 10, 1917, in Delaware, with a capital of \$1,500,000, to manufacture silica and silica products. Incorporators: Andrew A. Ur-mann, Ridgeway, Pa., Francis A. Huber and Geo. S. Supprecht, St. Mary's, Pa.

STANDARD SILVER-LEAD MINING CO.

¹(1) Operations.—On Jan. 10, 1917, it was stated the 12 months of 1917 should constitute the best year in the history of this company. Operations at the mines are proceeding satisfactorily. Shipments of accumulated zinc concentrates have already started to the Anaconda zinc plant. It is understood that this material runs better than 40% zinc, and about 22% silver a ton.

Heretofore the company received substantially no return from its silver, as silver is not recoverable by the old process of zinc smelting. However, Anaconda's electro process recovers the silver, the lead and the zinc.

The company has discontinued monthly dividend payments in favor of quarterly disbursements.

¹(2) Report, November, 1916, shows receipts of \$52,189; disbursements, \$34,100; operating profit, \$18,080; other disbursements, \$16,457; actual operating profit, \$1,623; general expense, \$2,160; deficit, \$537; surplus, Nov. 1, 1916, \$202,699; balance for dividends, \$202,132; dividend, \$50,000; final surplus, \$152,132.

—Apr.

¹(1) Stock on 20% Basis.—It was announced April 2, 1917, that this company had declared a quarterly dividend of 5 cents a share, payable April 15 to stock of record March 31, 1917, putting the stock on a 20% annual dividend basis. From September, 1915, to Dec. 10, 1916, when the last monthly payment was made, the company paid a regular dividend of 2½ cents a month, or at the rate of 30% per annum.

¹(2) Earnings, February, 1917.—This company April 16, 1917, reported February net earnings as \$71,690, compared with \$53,811 in January. The balance on hand March 1 was \$250,808.

STANDARD SLAG CO., YOUNGSTOWN, O.

¹(1) Capital Increased.—On Jan. 4, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$250,000 to \$500,000.

—Apr.

¹(1) Capital Increased.—On April 5, 1917, the company filed notice at Columbus, Ohio, of an increase in capital stock from \$500,000 to \$550,000.

STANDARD STEEL CAR CO.

¹(1) Equipment Orders.—See Baltimore & Ohio R. R.—Item No. 4.

¹(2) Car Orders.—See Illinois Central R. R. Co.—Item No. 2.

STANDARD STEEL & TUBE CO., TOLEDO, O.

¹(1) Capital Increased.—On Jan. 12, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$275,000 to \$600,000.

STANDARD TIRE & RUBBER MANUFACTURING CO., WILLOUGHBY, OHIO.

¹(1) Capital Reduction.—On April 5, 1917, the company filed notice at Columbus, Ohio, of a reduction in capital stock from \$500,000 to \$400,000.

STANDARD TOOL CO., CLEVELAND, O.

¹(1) Capital Increased.—On Jan. 27, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$1,500,000 to \$2,000,000.

STANDARD UNDERGROUND CABLE CO.

¹(1) Stock Dividend.—It was announced at Pittsburgh, Jan. 24, 1917, that stockholders of this company had authorized an increase of the capital stock from \$3,500,000 at present outstanding to \$10,000,000.

The directors of the company declared a stock dividend of 50%, equal to \$1,750,000 par value.

With the payment of this dividend the company will have \$5,250,000 outstanding capital and \$4,750,000 authorized but unissued on its treasury, available for future corporate purposes.

This dividend payable in stock, is in addition to the dividend of \$11 a share declared in December and payable in cash in January amounting to \$385,000.

STANDARD UNDERGROUND CABLE CO. OF CANADA, LTD.

¹(1) Extra and Special Dividends.—Announced at Pittsburgh Jan. 2, 1917, that this company had declared the regular quarterly dividend of \$3 a share, an extra of \$3 and a special of \$5, making a total of \$11, representing \$385,000 cash, which will be distributed on Jan. 10.

¹(2) Annual Meeting Jan. 25.—It was stated Jan. 15, 1917, that at the annual meeting of this company Jan. 25 stockholders would be asked to approve an increase of capital stock from \$3,700,000 to \$10,000,000.

It is not the intention of directors to issue all of this new stock at once, but the board deems it wise to obtain the authority of stockholders for such an increase so as to provide for future requirements.

STANDARD WELDING CO., CLEVELAND, O.

¹(1) Capital Decreased.—It was announced March 10, 1917, that this company had decreased its capital stock from \$2,250,000 to \$10,000.

STANDARD WOVEN FABRIC CO.

¹(1) Initial Quarterly Dividend.—Announced that on Jan. 29, 1917, an initial quarterly dividend of 7% was declared, payable that date, on the new \$800,000 1st pfd. stock of this company, which was exchanged for the \$700,000 pfd. stock.

STANLEY MOTOR CARRIAGE CO.

¹(1) Incorporated on April 12, 1917, in Delaware, with a capital of \$13,100,000, to manufacture automobiles, tires, etc. Incorporators: Herbert E. Latter and C. L. Rimlinger, Wilmington, Del., and Clement M. Egner, Elkton, Md.

STAR UNION OIL CO.

¹(1) Incorporated on March 15, 1917, in Delaware, with a capital of \$1,000,000, to produce, transport and refine petroleum and its products. Incorporators: M. L. Gatchell, L. A. Irwin and H. W. Davis, Wilmington, Del.

STATE MOTOR CAR CO.

¹(1) Incorporated on March 10, 1917, in Delaware, with a capital of \$5,000,000, to manufacture and deal in motor cars, automobiles, etc. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

STATEN ISLAND DEVELOPMENT CO.

¹(1) Erection of Piers Started.—Announced on April 9, 1917, that this company had started to build three big piers between Clifton and Stapleton, S. I., to be over 1,000 feet in length and capable of accommodating ten ocean freighters with a combined capacity of 100,000 tons.

STATEN ISLAND MIDLAND RY. CO.

STATE SAVINGS & TRUST CO.

¹(1) Incorporated on Jan. 4, 1917, in Dover, Del., with a capital of \$1,000,000, to transact a general real estate agency and brokerage business. Incorporators: William Boyd, George W. Morgan, W. I. Loftand.

STATES MOTOR CAR MANUFACTURING CO.

¹(1) Reorganization.—See States Motor Co.—Item No. 1.

STATES MOTOR CO.

¹(1) Reorganization.—A Kalamazoo, Mich., dispatch March 16, 1917, stated that this company would be reorganized with an authorized capital of \$6,000,000. It will include the old States Motor Co. and the States Motor Car Mfg. Co. Of the stock, \$5,000,000 will be common, while the remainder will be pfd.

• STEEL CO. OF CANADA, LTD.

¹(1) Dividend on Common—Bonus.—It was announced March 15, 1917, that this company's common stock had been placed on a definite dividend basis on that date, when the directors declared a dividend of 1% for the current quarter, accompanied by a bonus of ½%.

It was said the earnings statement for 1916 would show a surplus of about \$3,200,000 available for the common stock, or earnings at the rate of 28 to 30%, after all deductions, except the 4% declared on the common shares toward the end of the year.

¹(2) Annual Report, Year Ended Dec. 31, 1916.—Net profits, \$5,021,391, against \$3,230,452 last year; surplus after fixed charges and pfd. dividends, \$2,092,855, against \$1,756,211 last year.

¹(3) Balance Sheet, as of Dec. 31, 1916, showed profit and loss surplus of \$4,647,497, against \$3,014,642 last year.

—Apr.

¹(1) By-Product Plant to Be Built.—On April 23, 1917, the "Financial America" said that this company had decided to build a by-product coke plant. The decision was reached at the annual

JANUARY 1 TO APRIL 30, 1917

meeting, when the recommendation of the officers of the company was approved.

STEELE PRODUCTS CO.

¹(1) Initial Dividend on Common.—Announced April 1, 1917, that this company had declared an initial dividend of 2% on the common stock, payable April 20 to stock of record April 5.

²(2) Incorporated in April, 1917, in Connecticut, with a capital of \$1,500,000. It commences business with a capital of \$100,000. Incorporators: Harry W. Williams, Joseph W. Connor and Raymond B. Berry, all of Hartford, Conn.

STEEL & RADIATION CO., LTD.

¹(1) Report, Year Ended Dec. 31, 1916, shows profits from munition contracts and other operations of \$372,319. After allowing \$68,717 for bond interest, \$46,529 for dividends on the 7% pfd. stock, and \$6,403 for reorganization expenses, the report shows a balance of \$252,000, equal to \$13.50 a share. Of this \$100,000 was set aside for depreciation and \$100,000 for amortization of the plants and equipment.

STEER-TURN AUTO HEADLIGHTS CO., WILMINGTON, DEL.

¹(1) Incorporated in February, 1917, in Delaware, with a capital of \$500,000, to manufacture a dirigible automobile lamp apparatus.

STEFFANSON & CO., INC., NEW YORK.

¹(1) Capital Increased.—On March 13, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$100,000 to \$1,000,000.

STENICA OIL CO., PHILADELPHIA.

¹(1) Incorporated on April 18, 1917, in Delaware, with a capital of \$400,000, to mine and bore for petroleum, natural gas, etc. Incorporators: Budd M. G. Nice, F. R. Hansell, Philadelphia, and S. C. Seymour, Camden, N. J.

STERLING CORD TIRE CO.

¹(1) Acquisition.—It was announced April 1, 1917, that this company, Chicago, capital \$2,000,000, had purchased the plant at Salem, O., formerly owned by the American Case & Register Co. As soon as machinery can be secured and installed it will transform it into an automobile tire and tube factory with a capacity of 500 tires per day.

STERLING ELECTRICAL CORP. CO., CLEVELAND, O.

¹(1) Incorporated on April 19, 1917, in Ohio, with a capital of \$250,000. Incorporators: Roy M. Hall, W. H. Fahrenbach, Clarence E. Edson, P. Hess and Antonio Longoria.

STERLING ENGINE CO.

¹(1) To Manufacture Sunbeam Engines.—It was stated Feb. 23, 1917, that this company, Buffalo, N. Y., had secured the rights of manufacturing in America the Sunbeam engines and planned to have on the market within a short time 12-cylinder motors of this type. The British Admiralty at the outset opposed the plan to export particulars of this engine, but this objection was finally overcome. The addition of the Sunbeam motor to commercial fields will add still another twin-six motor to America's manufacturing industries.

STERLING GUM CO.

¹(1) Dissolution.—It was announced Jan. 5, 1917, that at a special meeting of this company the stockholders voted in favor of the dissolution of the company. A two-thirds vote in favor of the plan was recorded.

The American Chiclet Co. takes over the assets.

STERLING TIRE CORP.

¹(1) Incorporated on Feb. 1, 1917, in Delaware, with a capital of \$2,500,000, to manufacture and sell rubber tires.

Incorporators: Joseph A. Miller, Ruth-erford, N. J.; Otto Basten, East Ruth-erford, N. J., and Bartlett Greene, Pas-saic, N. J.

STERN BROS.

¹(1) Report, Year Ended Jan. 31, 1917, shows profits of \$845,525, a gain of \$195,225 over the preceding year. Miscellaneous income totaled \$72,642, and the final net was \$537,613, an increase of \$196,402 over the same item in 1915.

In the annual statement Louis Stern called the attention of stockholders to stockholders to the cash balance of \$889,288, after meeting all notes payable, amounting to \$189,258, and \$100,000 of the equipment loan, due Aug. 15, 1916.

The balance sheet showed a profit and loss deficit at the end of the year of \$235,984, compared with a similar item amounting to \$797,171 a year before.

STERN-FAIRMONT COAL CO., WYATT, W. VA.

¹(1) Incorporated in Jan., 1917, in West Virginia, with a capital of \$1,000,000. Incorporators: Jos. Stern, Geo. W. Johnson, Parkersburg, W. Va.; Lee Stern, Bertha Stern and Rose Stern, Unlontown, Pa.

STERN (JOSEPH) & SONS, INC., NEW YORK.

¹(1) Capital Increased.—On March 19, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$1,000,000 to \$1,500,000.

STETSON (JOHN B.) CO.

¹(1) Output, Year Ended Oct. 31, 1916.—On Jan. 15, 1917, it was announced that Pres. Cummings, of this company, stated in the annual report that the shipments for the fiscal year ended Oct. 31, 1916, were 238,663 dozen, as against 199,249 dozen for 1915, showing an increase of 39,414 dozen, or 19.8%. The value of the output was \$7,682,525.

¹(2) Statement by President.—In connection with the annual report of this company, Pres. J. Howell Cummings, it was announced Jan. 10, 1917, said: "At the opening of the new fiscal year on Nov. 1, 1916, unfilled orders for large amounts of goods were carried forward, and as the orders received during the first two months of the new fiscal year have shown a considerable increase over those received in the corresponding period of last year, the indications are that the demand for our goods will be so large for the current year as to make prospects in this direction most favorable."

"The maintenance of the present rate of output is, however, dependent upon our ability to secure raw materials in sufficient quantities. The raw material market is highly abnormal, due to the fact that over 90% of the materials used in the business are procured in foreign countries involved in the European war."

STREUBENVILLE & EAST LIVERPOOL RY. & LIGHT CO.

¹(1) Lease.—See American Gas & Electric Co.—Item No. 1.

STEVENS GREASE & OIL CO., CLEVELAND, O.

¹(1) Capital Increased.—On March 28, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$150,000 to \$250,000.

STEWART IRON CO.

¹(1) Charter Renewal.—It was announced Feb. 14, 1917, that this company, Sharon, Pa., had adopted a resolution to renew its charter for 20 years.

STEWART MINING CO.

¹(1) Acquisition.—It was announced March 6, 1917, that this company had closed a contract for the acquisition of the lease of the Commonwealth and Nevada Queen properties and the ownership in fee of the Extra, 16 to 1, and also an adjoining fractional claim known as Surprise Fraction. These

properties have been examined and tested. The balance sheet of the Stewart Co., as of Dec. 31, 1916, shows: Cash, \$50,138; surplus, \$687,570; total assets, \$1,935,820.

²(2) Negotiating for Additional Property.—Reported on March 27, 1917, that management was negotiating for some property near the original Stewart claims in the Coeur D'Alene district, Idaho. These properties are said to carry values similar to the high grade values formerly secured by the operation of the original Stewart claims and from which their dividend record was made.

STEWART-WARNER SPEEDOMETER CORP.

¹(1) Admitted to List.—Announced Jan. 8, 1917, that this company's common stock had been admitted to the list by the New York Stock Exchange.

¹(2) Annual Meeting Feb. 20.—Announced Jan. 12, 1917, that the annual meeting of this company would be held at Richmond Feb. 20. The annual report, scheduled to be made public Feb. 5, will show net around 25% on the stock.

It was stated that the directors would likely declare an increase in the dividend rate from 1½% to 2% at their meeting Jan. 20.

¹(3) Net Earnings, 1916.—On Jan. 23, 1917, it was stated that this company had reported net earnings for the year ended Dec. 31, 1916, of \$2,215,043, an increase of \$184,423 over 1915.

These earnings are equivalent to approximately 21½% on the \$10,000,000 common stock after payment of dividends on pfd. stock now retired.

—Feb.

²(1) Infringement Suits.—It was announced at Chicago Feb. 13, 1917, that this company had filed two suits for infringement of patents on its vacuum fuel feed system, claiming that any system of vacuum feeding is an infringement. This is an important case, as it affects the company's second largest and most profitable accessory.

—Mar.

²(1) New Products.—It was stated March 21, 1917, that this company, the largest manufacturer of automobile accessories in the United States, had added two more products to its line of motor car equipment.

These two new Stewart products are known as the Stewart V-Ray Searchlight and Stewart Autoguard.

These products are a new type of searchlight (commonly known as "spotlight") and an original design of autoguard, or "bumper," as the latter is generally termed.

Arrangements have been made for quantity production of these new Stewart products in anticipation of a large demand.

—Apr.

²(1) New Foundries.—It was stated April 11, 1917, that in order to protect itself as regards prompt delivery of foundry castings this company had completed foundries at Beloit, Wis., consisting of two main buildings and five smaller structures, covering over 150,000 square feet.

²(2) Profits for March Quarter \$442,000.—The "Chicago Daily Tribune," April 21, 1917, said: "Friends of the Stewart-Warner Speedometer Corp. announced April 20, 1917, that earnings for the quarter ended March 31 were \$542,000, against \$551,000 for the corresponding quarter last year. An official of the company said the decrease was due to the higher cost of materials and increased taxes."

"The figures of earnings for the first quarter are at the rate of over 21% per annum. The stock, however, does not reflect such a showing."

STEWART WIRE WHEEL CORP., DOVER, DEL.

¹(1) Incorporated in March, 1917, in Delaware, with a capital of \$500,000, to manufacture wire wheels.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

**STOCKHOLDERS MINING CO. (THE),
PORTLAND, ME.**

¹(1) Incorporated in January, 1917, in Maine, with a capital of \$2,000,000, to engage in mining, quarrying, smelting and refining copper, gold, silver and all kinds of ores.

STOEHR & SONS, INC.

¹(1) Incorporated on Feb. 18, 1917, in New York, with a capital of \$250,000, to deal in textiles and products. Incorporators: A. Deliaque, B. G. Rohlig and M. W. Stoehr, 200 Fifth Avenue, New York.

STRAITHMORE WORSTED CO.

¹(1) New Issue of Preferred Stock.—Announcement was made on April 9, 1917, that this company had changed its authorized 3,500 shares into common stock and was to issue 1,750 new 7% cumulative preferred shares for cash. New issue is to be redeemable at \$100 at option of directors.

STREET RAILWAY SIGNAL CO.

¹(1) Receiver Asked For.—It was announced at Philadelphia Feb. 14, 1917, that the American Insulating Machinery Co., a creditor with a claim of \$4,169, had filed an equity suit in Common Pleas Court asking for the appointment of a receiver for this company. It is charged that the concern is insolvent and that its assets are being jeopardized by suits of creditors. The company, through its officers, admitted the averments of the bill and joined in the application for a receiver.

**STROMBERG CARBURETOR CO.
OF AMERICA, INC.**

¹(1) Initial Dividend.—Announced March 1, 1917, that this company had declared an initial quarterly dividend of 75 cents per share on its 50,000 shares, no par value, payable April 2 to stock of record March 15.

Net earnings of the Stromberg Motor Devices Co. of Illinois for 1916, all of the stock of which is owned by the Stromberg Carburetor Co. of America, Inc., were \$278,000, equal to \$5.50 per share on the Stromberg Carburetor stock.

¹(2) Report, Year Ended Dec. 31, 1916, shows net profits of \$278,219, equal to \$5.56 per share on the 50,000 shares of stock outstanding.

Comparison is made below of results of operations of the Stromberg Motor Devices Co., the operating company, the entire capital stock of which is owned by the Stromberg Carburetor Co., for 1916 and 1915:

	1916	1915
Net sales.....	\$1,208,443	\$888,076
Net profit.....	278,219	153,666
Net prof. to sales	23.02%	17.70%

¹(3) Statement by President.—It was announced March 5, 1917, that Pres. Charles W. Stiger, in his annual remarks to stockholders, said: "The number of unfilled orders on our books as of Jan. 1, 1917, compared with Jan. 1, 1916, showed an increase of 82%, indicating that this should be largest and most profitable year in our history."

"In November of 1916, contracts were awarded for an addition to the present factory, amounting to \$108,126. This building is now under construction, but owing to weather conditions progress is very slow and it probably will not be available until some time in June. When this addition is completed, we will practically double our present output."

"At about the same time, orders were placed for machinery for the equipment of this building, amounting to approximately \$45,000. Some of this machinery has already been received and paid for."

¹(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$933,745.

—Apr.

¹(1) Gross Sales, First Quarter of 1917 Were \$413,000, an increase of 55% over a year previously, according to report made public by the company April 25,

1917. Net profits for the same period were \$80,500, an increase of 42% over the March quarter of 1916.

**STROMBERG-CARLSON TELEPHONE
MANUFACTURING CO.,
ROCHESTER, N. Y.**

¹(1) Capital Increased.—On April 13, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$450,000 to \$1,000,000.

STUDEBAKER CORP.

¹(1) Status.—It was stated Jan. 4, 1917, that this company, which earned approximately \$10,000,000 net in 1916, or 30% on the common stock, closed the year with an actual assets value behind its common stock of \$96 a share, after allowing \$100 a share for the preferred issue. This asset value includes no valuation of good-will and patents which are carried on the books at \$19,807,276 and admittedly are of substantial value in the case of such an established company as Studebaker. This value compares with \$75 as of Dec. 31, 1915, \$50 in 1914, and \$35 in 1913.

In other words, whatever of "water" was in Studebaker common stock at its organization has been replaced by actual assets to within four points of par, stated the "Wall Street Journal" of that date. The balance sheet of the company, as of Dec. 31, will not be available until February, and the computation of \$96 asset value for the common is arrived at by adding the net asset value resulting for 1916 operations to the figures as of Dec. 31, 1915.

Thus, net profits of \$10,000,000 provide pfd. and com. dividends and leave a balance of \$6,200,000, which, added to the net balance of assets at the close of 1916, makes a total of \$28,750,000 or \$96 per share.

¹(2) Production in 1916.—It was stated Jan. 4, 1917, that 1916 was the best year in the history of the company. Officials are especially gratified that net was larger even than in 1915, when the total of \$9,067,425 included about \$3,250,000 from war orders. The company in 1916 produced and sold between 70,000 and 75,000 cars, and its \$10,000,000 profits were practically entirely from its legitimate business. The company in 1915 filled \$13,000,000 war contracts with complete satisfaction.

Studebaker now has a capacity, with the expenditure of comparatively small amounts for additional equipment, of 100,000 cars a year. The output for 1917 will run between 85,000 and this figure. All the motor companies have been suffering from the freight car shortage, but Studebaker is keeping its production and shipments up to between 1,400 and 1,500 cars a week.

A feature of Studebaker operations in 1916 was the increasing ratio of the number of six-cylinder cars sold to the total. At the beginning of the year, about 70% of the company's product was in four-cylinder cars, and only 30% in sixes. Now the ratio is about half and half. This development has a beneficial effect on Studebaker net earnings, as the profits in the six is larger than in the four.

Interests connected with the company expect that the profit per car in 1917 as a result of this increasing sale of the six, the price advances in both models, and the somewhat larger production will be just as great and perhaps greater than in 1916.

The company is well covered as regards raw materials for its entire production.

¹(3) Site for Assembly Plant.—It was announced Jan. 13, 1917, that this company had exchanged with the Staver Carriage Co. a nine-story warehouse in Kansas City for a 4½-acre tract in Chicago, improved with ten brick buildings, previously offered for sale at \$300,000, and would use the property for an assembly plant for its automobile business.

—Feb.

¹(1) Earnings, 1916, Estimated.—On Feb. 5, 1917, the "Boston News Bureau" said that despite the fact that it handled practically no war orders, this company in its fiscal year to Dec. 31, 1916, earned more for its \$30,000,000 common than in 1915. In the latter year the surplus for the common reached the new high total of 27.4%. The balance for the junior stock in 1916 is understood to have approximated \$10,500,000, or about 32% on the common.

Considering the fact that war orders realized net of over \$3,000,000 in 1915, against less than \$175,000 in the 12 months to Dec. 31, the ability to exceed the showing of the former year is a cause of satisfaction to the management and directors.

Just at the minute when production is heavy and sales are at the slowest season of the year, the company is borrowing \$1,000,000 or \$2,000,000. This will quickly liquidate during the ensuing two or three months. It is estimated that by Aug. 1, 1917, the company will have a large cash balance of not less than \$8,000,000.

Studebaker will not materially alter its car production during 1917. The schedules call for about 80,000 cars, for which there is an assured market. The company is not endeavoring to stimulate production much above this mark.

—Mar.

¹(1) Earnings Statement, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Net earnings.....	\$8,520,726	\$9,095,432
Bal. after chgs.		
& pfd. divs....	7,843,695	8,236,980
Surp. after com. divs.....	4,843,695	3,205,132

After allowing \$435,470 for depreciation in 1916, and \$397,991 depreciation in 1915.

¹(2) Earnings on Stock.—It was stated March 5, 1917, that this company's 1916 balance after pfd. dividends of \$7,843,695 is equal to 28.14% on \$30,000,000 common stock, compared with 27.45% earned on the same stock in 1915.

¹(3) Statement by President.—It was announced March 6, 1917, that Pres. A. R. Friskine in his annual remarks to the stockholders of this company, said: "Our total sales for the year amounted to \$61,988,594, from which we derived net profits of \$8,611,245, or 13.89%."

"While our volume of regular business, excluding so-called war orders, showed an increase of 37.71%, and our net profits an increase of 51.39%, results would have been still better had not the nation-wide shortage of transportation seriously handicapped us, and curtailed our volume in the last quarter. Fortunately this condition is improving. Based on the increase in the number of our dealers to over 6,500, we are planning to sell 75,000 cars this year against 65,885 in 1916."

"No war orders were sought or received by us during the year, but those referred to in our last report as being in process amounted to \$2,791,938, and were completed with a return of \$49,392 net profit. These figures compare with war orders of \$13,553,611, with net profits of \$3,412,112 in 1915."

¹(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$13,314,647, compared with \$8,470,932 Dec. 31, 1915.

¹(5) Comment on 1916 Report.—On March 8, 1917, the "Wall Street Journal" said that the extent to which the shortage of freight cars has interfered with operations of automobile companies in recent months is indicated by the Stude-

JANUARY 1 TO APRIL 30, 1917

baker report for 1916, which falls somewhat short of expectations, even though final surplus is equal to 26.1% on the \$30,000,000 common stock. In October, November and December the company earned net profits of only \$470,825, compared with \$1,984,928 in the same months of 1915.

Such conditions of operation necessitate larger inventories than ordinarily, which lock up funds. Thus, at the end of the year the Studebaker Corp. had inventories of \$21,477,857, against \$13,062,041 the previous year, and a natural consequence is the appearance of \$4,000,000 notes payable, in addition to the ordinary accounts payable of \$4,539,011. Quick assets, however, were 337% of current liabilities, as of December 31.

Output of cars was under the scheduled figure, being 65,885, against expectations of better than 70,000, and compared with 46,845 in 1915. The company completed \$2,791,936 of war orders left over from the year before, at the modest profit of \$49,393, or 1.8%. The bulk of Studebaker's war business was done in 1915, when contracts of \$13,553,611 were filled at the substantial profit of \$3,412,113, or 25.2%. Regular line business in 1916 increased 37.7% in volume over 1915, and 51.3% in net profits.

*(6) Comment on the 1916 Report.—On March 9, 1917, the "Boston News Bureau" said, in part:

"Studebaker fell down badly in the final quarter of its fiscal year to Dec. 31. This is the explanation of a balance for the \$30,000,000 common of \$7,843,685, equal to 26.1% against the 31% or 32% which had been generally anticipated.

"In its last quarter the company realized net profits of but \$470,825, against \$1,984,928 in the same three months of 1915. In the nine months to Sept. 30, net profits were \$3,140,420, or more than \$1,000,000 in excess of the \$7,062,497 earned in the same period of the 1915 year.

"The last quarter showed a comparative decline in net earnings from the previous year of \$1,514,103, equal to 5.1% on the \$30,000,000 common. Had net done no better in the last three months than in the year before the company would have earned nearly 32% for its junior stock last year.

"It is hardly fair to compare Studebaker operations in 1916 with those of 1915. In the former year the company executed \$13,553,611 of war orders on which it made profits of \$3,412,112. In 1916 but \$2,791,936 of war orders were finished and there was practically no profit, or but \$49,392.

"Studebaker is now well supplied with working capital. As of Dec. 31, last, the balance of net quick was equal to \$24,941,278, against \$21,270,836 12 months before. This is an increase of \$3,664,442, or better than 17%. Furthermore, this \$24,941,278 of working capital is equal to the par of the \$10,965,000 pfd. with a balance for the common of \$13,976,278, or about \$46.50 per share. Working capital would seem to bear a healthy ratio to sales. As of Dec. 31, working capital was equal to 40.2% of the year's turn-over, against 37.6% in 1915.

"If Studebaker gets proper railroad service in 1917 the company has the plant equipment and physical facilities to produce 85,000 cars. On this volume of business it should be able to establish a new high record of profits for the common, bettering the 29.5% attained in 1915.

"The company carried over undivided earnings last year of \$4,843,605. It should do better in 1917 and may be able to build its working capital balance up to between \$28,000,000 and \$29,000,000."

—Apr.

*(1) New Director.—Announced April 3, 1917, that at the annual meeting of stockholders of this company retiring directors were re-elected and J. M. Studebaker, Jr., was elected to the board to succeed his father.

*(2) Officers Re-elected.—Announcement was made April 3, 1917, that at the meeting of directors of this company the board organized for 1917 with the

same officers. The office of honorary Pres., which had been occupied by John M. Studebaker, was left unfilled.

The finance committee is composed of Messrs. Fish, Erskine, Hanch, Heaslet and George M. Studebaker. The executive committee is composed of Messrs. Fish, Delafield, Erskine, Goldman, Lehman and George M. Studebaker.

*(3) Statement by President.—A South Bend, Ind., dispatch April 5, 1917, quoted Pres. A. R. Erskine, of this company, as saying: "No change is contemplated in the dividend policy of the corporation.

"The automobile sales of this corporation for the first quarter of the year were record-breaking, amounting to 17,212 cars against 15,580 in the same period last year and 9,407 in 1915.

"The raises in prices made last Fall and again 30 days ago have insured a proper and satisfactory rate of profit without adversely affecting sales. Our profits from the sale of repair parts on 300,000 cars now in use amount at present to \$2,000,000 per annum, or two and one-half times the preferred dividend requirements.

"The horse-drawn vehicle and harness business is as it has been for over a year, taxing the capacity of our factories."

*(4) Status (April, 1917).—On April 6, 1917, Pres. Erskine, of this company, was quoted as saying: "No change is contemplated in the dividend policy of the corporation. Automobile sales for the first quarter of year were record-breaking, amounting to 17,212 cars, against 15,580 in same period last year, and 9,407 in 1915. Raises in prices made last Fall and again 30 days ago have insured a proper and satisfactory rate of profit without adversely affecting sales. Our profits from sale of repair parts on 300,000 cars now in use amount at present to \$2,000,000 per annum, or 2½ times the pfd. dividend requirements. The horse-drawn vehicle and harness business is, as it has been for over a year, taxing the capacity of our factories."

*(5) Production Comment.—On April 9, 1917, The "Wall Street Journal" said that if this company fulfilled its production schedule its car output during the fiscal year to December 31, 1917, would reach a total of 85,000 cars compared with actual sales during 1916 of 65,885 cars. This is an increase of 30%. If the company is able to attain this record its output will have to show a larger gain than was achieved in the first quarter. During this period car production gained less than 11%. It is probable, however, that this March quarter will prove the poorest three months the company will have to meet.

Automobile production today is largely a matter of railroad facilities. The freight congestion in and about Detroit has played havoc this Winter with production schedules of many auto companies and Studebaker is undoubtedly among the sufferers.

In 1916 the company earned net profits for its \$30,000,000 common of 24.1% which was about 5% less than expectations. The drop came entirely in the December quarter when freight congestion and car shortage cut into deliveries and curtailed profits by more than a corresponding amount.

Studebaker as things are going should be able in 1917 to earn between 20% and 25% for its common even under the supposition that production and sales do not go above 70,000 cars instead of the schedule of 85,000 cars. In view of the fact that the 10% common stock dividend is being earned between two and two and one-half times it seems improbable that any solid basis can exist for rumors of a reduction in the dividend rate. The company is borrowing some money, but it is inconsequential in ratio to its big volume of sales and will largely liquidate before August 1.

*(6) No Dividend Reduction Planned.—Floating Debt to Be Eliminated.—On April 23, 1917, the "Boston News Bureau" said: "The statement can be explicitly made that the question of any reduction in the present 10% dividend on Studebaker's \$30,000,000 com-

mon has not even been informally mentioned by any responsible official or director. There is every reason to anticipate the unbroken continuance of this dividend, which is being earned with a margin of safety of at least 150%.

"The point that Studebaker has a little floating debt need not cause any uneasiness. This floating debt is but about \$4,000,000 and will be entirely cleaned up by the end of July.

"Freight congestion and car shortage cut into shipments during the December and March quarters. But the situation is improving and there are very good reasons for the hope that the ending of the June quarter will make possible the presentation of figures for the half year showing profits for the common running at the rate of between 25% and 30%.

"Studebaker has made some very fortunate purchases of essential raw materials and is very well covered for a car schedule of 85,000 cars this year."

STURGES EGG PRODUCTS CORP.

BYE, N. Y.

*(1) Incorporated on Jan. 29, 1917, in New York, with a capital of \$800,000, to deal in desiccated eggs and do warehousing. Incorporators: W. F. McDermott, J. L. Farrell and P. B. Dur-yea, 165 Broadway, New York.

STURTEVANT (B. F.) CO.

*(1) Capital Increased to \$3,750,000.—The "Boston Evening Transcript," April 24, 1917, stated that this company had increased its authorized capital from \$2,500,000 aggregate par value consisting of 12,500 of pfd. and 12,500 of common shares to \$3,750,000 by an issue of 12,500 additional common shares to be sold for cash, making the total present authorized capital stock 12,500 of pfd. shares, and 25,000 common shares.

STUTZ MOTOR CAR CO. OF AMERICA.

*(1) Report, Year Ended Dec. 31, 1916, shows net profits in 1916 of \$649,042. This was equivalent to \$3.65 for each share of stock outstanding. In the final seven months of the year the value of motor cars sold was \$1,771,528, and from this a profit of \$381,051 was retained. The corporation produced 1,535 cars in 1916, an increase of 42% over the preceding year.

*(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,439,022.

*(3) Statement by President.—It was stated Feb. 15, 1917, that Pres. H. C. Stutz, of this company, in his annual remarks to stockholders said, in part: "Within the past year the company has completed its new building so that it now owns and occupies the entire square block from Tenth Street and Capital Avenue in Indianapolis. Its output was 42% more than in the preceding year. In addition to its new building the operating company has leased another building wherein it has installed new machinery at a cost of about \$75,000 for the manufacture of its new 16-valve motors.

"The entire expected maximum output of cars for 1917 has been contracted for. It is expected that the net profits for this year will be considerably in excess of those for 1916."

SUBMARINE BOAT CORP.

*(1) Dividend Discussion.—On Jan. 20, 1917, the "Boston News Bureau" quoted a large interest in this company as saying: "I expect that directors of Submarine Boat will have to bow to the inevitable and cut the dividend in two some time during 1917. It was a mistake to start dividends at the rate of \$60 per share on the old stock,—stock which for years was nearly worthless.

"There has been a regrettable lack of frankness on the part of Submarine Boat officials and irresponsible talk by certain minor officials who should have been muzzled in order to be safe.

"The company will earn better than \$10 per share in its fiscal year to Dec.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

31 last. This would mean a balance for the 765,000 shares of \$7,600,000, which makes the recent official figures of \$6,000,000, or better entirely conservative,—perhaps too much so."

It is understood that a new interest is going on the Submarine Boat board. This new accession will be a distinct addition to the substantial portion of the company's directorate. It is felt in some quarters that it is a sign promising better things ahead.

—Feb.

¹(1) **Earnings, 1916, Estimated.**—On Feb. 10, 1917, the "Boston News Bureau" said that for its fiscal year to Dec. 31, 1917, this company probably would send to shareholders a statement showing profits of between \$6,200,000 and \$6,300,000. This is equivalent to approximately \$8 per share on the 765,000 shares of stock.

Actual profits for 1916 were much greater than this amount.

Submarine Boat has subsidiaries whose profits it has not elected to draw down. Taking undivided earnings into consideration, the actual earnings of Submarine Boat for 1916 were in excess of \$8,500,000, or nearly double the \$4,500,000 which it has taken to pay the \$6 dividend.

Submarine Boat directors at the time of meeting for the April dividend are expected to reduce the dividend rate to either a \$3 or \$4 basis. There is considerable sentiment for the higher percentage.

On the other hand, if the company is to build submarines for the American Government, it will need working capital, and a 50% reduction in the dividend rate would be an inexpensive method of acquiring it.

²(2) **New Directors.**—It was announced Feb. 13, 1917, that at the annual meeting of this company A. L. Scheuer, Isaac L. Rice, Jr., and George W. Hoyt had been elected directors of this company, succeeding E. B. Frost, Norman Johnson and Thomas Cochran, resigned. Other directors were re-elected.

³(3) **Report, 1916.**—It was announced Feb. 13, 1917, that the report submitted at the annual meeting of stockholders of this company showed that all of the \$4,557,000 received by the Submarine Boat Corp. from the Electric Boat Co. in dividends was again paid out to the voting trust certificate holders of the Submarine Boat Corp. represented by the \$6 dividend per share disbursed during the year. The corporation showed a deficit of \$109,000 for office expenses, taxes, etc.

⁴(4) **Meeting Time Changed.**—It was announced Feb. 13, 1917, that at the annual meeting of stockholders of this company a resolution was passed for changing the date of annual meetings from the second Tuesday in February to the second Tuesday in March, the officers stating that this extra leeway was required in order to get the accounts for the fiscal year, which ends Dec. 31, in sufficient shape to present at the annual meeting.

⁵(5) **Conditions Shown at Annual Meeting.**—It was stated Feb. 13, 1917, that at the annual meeting of this company it was brought out that the New London Ship & Engine Building Co. which builds all the interior equipment for the submarine boats the company builds, had been putting its earnings back into plant and that the only part of this company's earnings showing in the Electric Boat's income is the 8% dividends on approximately half of the \$381,200 first pfd. stock which is owned by the Submarine Boat Corp. The latter company owns all of the New London company's second pfd. stock and all of the common stock.

That the Electric Boat Co., all of which company's stock except 206 shares is owned by the Submarine Boat Corp., is in itself a holding company and that its report shows only such earnings as it chooses to draw down from its subsidiaries, was also brought out.

Pres. Carse stated that these subsidiary companies were the Electric Dynamic Co., The Electric Launch Co., Holland Torpedo Boat Co., which owns the Holland patents, National Torpedo Co., Industrial Oxygen Co., French Submarine Co., New Jersey Development Co., the Consolidated Ry., Electric Light & Equipment Co. and the New London Ship & Engine Building Co.

In view of the fact that, for example, the Electric Launch Co. is capitalized nominally at \$30,000 but completed a \$23,000,000 contract in November on which the profits were in excess of \$8,000,000, it is apparent that the statement of the Electric Boat Co., which showed profits of \$6,479,448 before payment of dividends to the Submarine Boat Corp., shows not actual earnings of the so-called operating company, the Electric Boat Co., but only those which the subsidiary companies paid into that company's treasury.

It was further announced at the meeting that for purposes of avoiding double taxation, the question of eliminating one of the existing holding companies was under discussion. Either the Electric Boat Co. or the Submarine Boat Corp. will be eliminated.

Pres. Carse's statement that the Electric Boat Co. had \$29,000,000 of uncompleted orders on hand assures full operation for 1917. In order to meet the U. S. Government's needs, it was stated, the company would have to purchase new plant facilities.

⁶(6) **Comment on Annual Report.**—On Feb. 16, 1917, the "Wall Street Journal" said: "Submarine Boat carried \$1,525,000 less of a balance to profit and loss account at the end of 1916 than it did at the end of 1915, because dividends paid out in the last year exceeded those of 1915 by \$2,839,000. Balance available for dividends in 1916, as reported, was \$6,479,000, against \$5,165,706 in 1915. The profit and loss surplus on Dec. 31 last was \$6,166,684, against \$4,857,033 on the corresponding date of 1915."

"It was encouraging to learn that the unfinished business on the books at the close of 1916 was \$29,000,000, or \$3,000,000 in excess of the total business done during 1916. Much of this business is nearing completion, and payments henceforth should be coming in steadily."

"It is also important to note that the reported \$29,000,000 of unfinished business was as of Dec. 31, and that since that date the company has taken large additional orders. Chief among these are the orders for 21 submarines placed by the United States Government with the Electric Boat Co. during January, the total amount of which contract is \$17,000,000."

"In addition a new Russian contract has been entered into since the first of the year and additional orders have been taken from the British Government for high speed launches."

"These are of the same type as the initial 550, which the company turned out in record time or at better than one a day from the day the order was signed to the date of the last delivery. It is safe to say that uncompleted orders on the books now total over \$50,000,000."

"The average price of the United States boats under construction is \$700,000. If the Government orders any others 100 submarines, as provided for in a bill introduced in Congress, the total order will be close to \$80,000,000, inasmuch as 20 of these proposed boats will be of the sea-going type, which cost about \$1,500,000 each."

—Mar.

¹(1) **Dividend Decreased.**—Announced March 14, 1917, that this company had declared a quarterly dividend of 75 cents per share, payable April 16 to stock of record March 30. This is a reduction of 75 cents a share quarterly. The rate since the inauguration of dividends had been \$1.50 quarterly.

²(2) **President's Statement About Dividends.**—On March 14, 1917, Pres. Henry R. Carse, of this company, issued the following statement: "Owing to the

present condition of affairs and the necessity of the Electric Boat Co. conserving its resources to be used in every way possible in the construction of vessels called for in the programme of the United States Navy Department, it has been deemed wise by the directors not to make any larger payment of dividends at this time."

"The business of the company is very large, more work being offered than the company has facilities at present to handle, but the directors feel that it is the duty of the company to do everything in its power to assist the Government in its preparedness programme, and it may be necessary to acquire or construct additional plants to assist in this work."

—Apr.

¹(1) **Status.**—It was stated April 4, 1917, that directors of this company at a three-hour session had gone over all of the orders on the books. It was stated that matters are in excellent shape and the company is in position to make extensive deliveries of submarines early in 1917.

The company has under construction 32 submarines for the United States Government, a considerable number of which are nearing completion. The Government will soon open bids on 38 more submarines, the most of which will undoubtedly go to the Submarine Boat Corp., with the exception of a few which the Government will build in its own yards.

Orders on the company's books total over \$50,000,000 and it is expected that inside of three months an additional \$50,000,000 worth of orders will be taken. This company April 5 secured an order from the United States Government for construction of 16 110-foot submarine chasers.

Plans are being formulated by the management for largely increasing capacity of plants in anticipation of the immense Government requirements that will arise with the entrance of the United States into the war. These arrangements will include acquisition of a plant where the company can build its own hulls.

SUBMARINE SIGNAL CO.

¹(1) **Earnings on Stock, Estimated.**—It was stated Jan. 16, 1917, that this company Dec. 31, 1916, closed the best year in its history, showing earnings probably considerably in excess of 15% on its \$1,079,750 stock, the par value of which is \$23 per share. It is understood that in the current year it is earning nearer 20%.

Some of this business, statements from which were delayed, will be included under the report for the year ended Dec. 31, while more of it will fall into 1917.

Heretofore Submarine Signal has issued only a very meagre report of its operations, but it is probable that as business expands, stockholders, will be presented with a clearer idea of what the company is doing. It may be that some further concession may be made in this direction when the next report is issued, probably in April.

Against current earnings of perhaps 18% to 20% on the stock per annum, the company is paying dividends of 6%. It is believed that the company will soon be able to afford a more liberal distribution in view of earnings and prospects.

Submarine Signal is not a war stock and the effect of peace upon its business should be more favorable than otherwise. The company was doing a considerable business in Germany before the war and this has been entirely cut off.

A large asset for Submarine Signal is the extensive navy building programme which has been undertaken by the Government.

From time to time there have been rumors of an impending change of control of the company, but so far as is known nothing definite along that line has developed.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

—Mar.

* (1) Report, Year Ended Dec. 31, 1916, shows a total of 1,585 ships equipped, a gain of 12% over the number ordered in 1915. After charging off a conservative amount for depreciation, dividends of 8% were paid on the stock. The general balance sheet as of December 31, 1916, shows cash and notes receivable, \$202,684; accounts receivable, \$113,712; material on hand, \$114,458; patents, \$1,171,605; total assets, \$1,714,309. Accounts payable, \$22,059.

—Apr.

* (1) Earned 15% on Stock in 1916.—On April 21, 1916, the "Boston News Bureau" said this company in the year ended Dec. 31, 1916, completed another successful twelve-month, with earnings slightly better than those of 1915.

Although the company issues no income account the earnings indicated by the balance sheet were equivalent to about 15% on the \$1,692,250 stock outstanding.

In accordance with the policy which has prevailed for some years the company wrote off nearly \$91,800 on its patents, these being carried on the books at \$1,171,605 on Dec. 31. There was a decrease of about \$57,000 in cash and notes receivable, but accounts receivable showed an increase of nearly \$91,000, compared with the previous year. There was also a substantial increase in the value of material on hand and in process.

The company inaugurated dividends two years previously with an initial payment of 2%, later on increasing the rate to 3% semi-annually. Dividends in 1916 were at the rate of 6% per annum. With earnings of 15% on the stock this rate was 2½ times covered.

The company increased its working capital during the year from \$320,000 to over \$408,000.

SUFFOLK LIGHT, HEAT & POWER CO.

* (1) Sale Planned.—See Long Island Lighting Co.—Item No. 1.

SUGAR PLANTERS' CORP.

* (1) Organized.—Announcement was made Jan. 4, 1917, that this company had been permanently organized. The office of the company is at 27 William Street, New York, and the directorate is as follows:

Manuel Auriar, Senator of Havana, Cuba; De Witt Bailey, Vice-Pres. and counsel of the company; Sir William Beardmore, Bart., of Glasgow, Scotland; Thomas Cochran, of J. P. Morgan & Co., New York; Dr. Orestes Ferrara, Pres. of the Cuban House of Congress, Havana, Cuba; John S. Fiske, Pres. of the company; Frederic E. Gunnison, Vice-Pres. of the Lawyers Title & Trust Co.; August Heckscher, capitalist; T. A. Howell, of B. H. Howell, Son & Co., New York; Minor C. Keith, Vice-Pres. of the United Fruit Co., New York, and C. J. Schmidlapp, Vice-Pres. of the Chase National Bank, New York.

The Executive Committee is composed of Messrs. Bailey, Fiske, Gunnison, Howell, and Schmidlapp.

* (2) Status.—It was stated Jan. 4, 1917, that this newly organized company has a capitalization of \$750,000 7% cumulative pfd. stock and 7,500 shares of common, no par value. Stock will not be offered publicly, as it has already been oversubscribed.

The company will not engage in sugar manufacturing, but will confine its activities to advancing loans to Cuban sugar planters and assisting them in marketing their crops. Sugar growers are always rather hard pressed for

ready money in the dull period between crops, owing to expenses incurred from improvements made on mills, new machinery, and other incidentals of the off-season.

The result has been that appearance of new crop sugar in the market has always been marked by a drop in prices, owing to eagerness of planters to sell. Later prices stiffen, and sugar manufacturers like the Cuba Cane Sugar Corp., which enjoy a strong financial position and can afford to hold their output, are able to sell at a good profit.

It was with the idea of assisting the smaller planters over this period of financial stress and of lending them expert help in marketing their crops that the Sugar Planters Corp. was organized, it was stated.

SUN SHIPBUILDING CO.

* (1) Bond Offering.—It was announced at Philadelphia Jan. 10, 1917, that Elkins, Morris & Co. are offering \$2,000,000 first mortgage 5% serial gold bonds of this company at 100 and interest. The bonds are in coupon form and may be registered as to principal. They are redeemable in whole or in part at 102 and interest on 60 days' notice.

The Sun Shipbuilding Co. was organized in May, 1916, to construct merchant vessels. The object of the company is to limit construction to vessels of standard design. Property owned by the company includes 60 acres of land on the Delaware River, at Chester, Pa., on which are located the engine building plant of the Robert Wetherill Co., Inc., and the shipyard ways, which are of the most modern construction. The issue of \$2,000,000 bonds is secured by mortgage on property of the company, valued at upward of \$4,000,000.

—Mar.

* (1) Contracts.—It was stated March 3, 1917, that this company had received contracts for two 10,000-ton freight steamers for the Cunard Line at an approximate price of \$1,750,000 per ship, making a total of 12 ships now under contract with the company.

SUPERIOR & BOSTON COPPER CO.

* (1) Operations.—It was stated on Jan. 25, 1917, that work of cutting the station at the 1,400-ft. level of this company's mine at Globe, Ariz., is progressing. Two hundred feet of shaft down to the 1,400-ft. level was finished in December. Four or five hundred feet of cross-cutting will be undertaken early in 1917. The force of 90 men is largely employed in the oxidized zone. A new Nordberg pump, with a capacity of 500 gallons a minute, will be installed on the 12th level.

—Apr.

* (1) New Strike.—On April 11, 1917, it was announced that this company had made a new strike of chalcocite ore at the 100-foot level. The company received in March \$35,000 for ore shipped.

SUPERIOR COPPER CO.

* (1) Production, December and 12 Months.—Announced Jan. 23, 1917, that this company in December produced 248,644 pounds of copper, against 204,487 in November.

During 1916 production totaled 3,028,823 pounds, against 3,866,484 in 1915.

—Feb.

* (1) Production.—Announced Feb. 19, 1917, that this company in January produced 318,798 lbs. of copper.

—Mar.

* (1) Production, February, 1917.—On announced March 16, 1917, that this company in February produced 185,888 pounds of copper, compared with 318,798 in January, 1917.

* (2) Report, Year Ended Dec. 31, 1916, shows mining profit of \$331,933, or \$3.31 per share, compared with \$245,017 in previous year.

Production totaled 3,034,656 pounds of refined copper, compared with 3,866,484 pounds in previous year. Yield was 16.38 pounds of copper per ton of rock, compared with 18.23 in previous year, 16.79 in 1914 and 22.87 in 1913. Net cost per pound refined copper was 13.78 cents, against 11.79 cents in previous year and 11.93 cents in 1914.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Copper sold in 1916 was at average price of 24.67 cents a pound.
A dividend of \$1 per share was paid Oct. 10.

¹(3) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Copper sold ----	\$748,732	\$700,820
Silver sales ----	26,732	19,404
Total receipts ----	775,465	720,224
Min. profit ----	331,933	245,017
Bal. quick assets Dec. 31 ----	434,312	216,274

—Apr.

¹(1) Dividend.—Announced April 12, 1917, that this company had declared a dividend of \$1, payable April 30 to stock of record April 18. The initial dividend of \$1 was paid Oct. 10, 1916.

¹(2) Production, March, 1917.—This company April 18, 1917, reported March production as 209,960 lbs. of copper, compared with 185,888 previous month.

SUPERIOR OXYGEN CO.

¹(1) Taken Over.—See Air Reduction Co.—Item No. 1.

SUPERIOR PRODUCTS CO.

¹(1) Incorporated in January, 1917, in Illinois, with a capital of \$250,000, to manufacture chewing gum and its products. Incorporator: Clarence Lille, Granite City.

SUPERIOR SAND & GRAVEL CO., DETROIT, MICH.

¹(1) Capital Increased.—In February, 1917, the company filed notice at Lansing, Mich., of an increase in capital stock from \$200,000 to \$500,000.

SUPERIOR STEEL CO.

¹(1) Earnings, January and December.—It was stated Feb. 16, 1917, that this company had reported net earnings applicable to dividends for the months of December and January of \$436,645. After allowing for the part of the 8% per annum dividends on the \$3,500,000 1st pfd. and \$2,000,000 2nd pfd. stocks outstanding and sinking fund requirements, which is chargeable to the earnings for the two months, there is left \$335,712 applicable to dividends on the \$6,000,000 common stock outstanding, or at the rate of over \$33 per share per annum.

SUPERIOR STEEL CORP., RICHMOND, VA.

A complete description of this company appears in the "Miscellaneous Book" in your card cabinet.

¹(2) Officers and Directors.—It was announced Jan. 12, 1917, that the following had been elected officers of this company, recently purchased by a Philadelphia and New York banking syndicate: James H. Hammond, Pres.; Edward W. Harrison, Vice-Pres.; Joseph Hedges, Sec'y and Treas.

The directors chosen are: James H. Hammond, Edw. W. Harrison, Joseph Hedges, H. P. Devens, R. K. Cassatt, of Cassatt & Co., Edw. C. Lynch, of Merrill, Lynch & Co., Benjamin Clark, of White, Weld & Co., F. Wilson Pritchett, of Frazier & Co.

¹(3) Incorporated in January, 1917, in Virginia, with a capital of \$17,000,000. Main offices, Richmond, Va.

¹(4) Initial Dividend on Preferred.—Announced Jan. 30, 1917, that this company had declared an initial dividend amounting to \$1.11 per share on the 8% pfd. stock for the period from Dec. 26, 1916, the date of organization, to Feb. 15, 1917.

¹(5) New Officers.—Announced Jan. 30, 1917, that at the meeting of the Board of Directors of this company at Philadelphia on this date James H. Hammond was elected Chairman. E. W. Harrison, formerly Vice-Pres., was elected Pres. and H. F. Devens, formerly General Sales Manager, was chosen Vice-Pres.

—Mar.

¹(1) Listed on Curb.—Announced March 14, 1917, that the New York Curb Market Association had listed 115,000 com-

mon and 35,000 convertible 1st pfd. shares of this company's pfd. shares, par \$100.

SUPERIOR UNDERWEAR CO., PIQUA, O.

¹(1) Capital Increased.—It was announced April 14, 1917, that this company had increased its capital stock from \$50,000 to \$1,000,000.

SUPPLER-BIDDLE HARDWARE CO.

¹(1) New Vice-Pres.—Announced Jan. 30, 1917, that F. I. Hall had been elected Vice-Pres. of this company in place of J. S. Bonbright.

¹(2) Baum Interest Sold.—On Feb. 15, 1917, J. E. Baum announced that he had sold out his entire interest in this company to Heulings Lippincott, Pres. of the National State Bank of Camden; Marshall Morgan, of Philadelphia, and the Biddle interests. Mr. Baum was recently elected Pres. of the Empire Tire Co., of Trenton, N. J.

SUPPLER MILK CO.

¹(1) Initial Dividend on Pfd.—Announced Jan. 31, 1917, that this company, Philadelphia, had declared an initial dividend of 1 1/4% on the pfd. stock, payable March 1 to stock of record Feb. 20.

SUPREME MOTORS CORP. CO., CLEVELAND, O.

¹(1) Incorporated in March, 1917, in Ohio, with a capital of \$1,000,000. Incorporators: W. L. Quinn, M. E. Gimney, G. E. Buchheit, P. Bredel and H. I. Lodwick.

SURFACE COMBUSTION CO.

¹(1) Factory Established.—Announced Jan. 17, 1917, that this company, incorporated with a capital stock of \$600,000, had established its factory and laboratory at 15 Wilbur Avenue, Long Island City, N. Y. It manufactures ovens, furnaces and fuel-burning apparatus for burning gaseous mixtures, liquid and other fuels. W. B. Greeley is Pres., Linsee Blagden, Treas., and Charles E. Richardson, Sec.

SUSQUEHANNA COAL CO.

¹(1) Sale.—See Pennsylvania R. R. Co.—Item No. 4.

SUSQUEHANNA STEAMSHIP CO., INC., LONG BEACH.

¹(1) Incorporated on March 21, 1917, in New York, with a capital of \$500,000, to engage in a transportation, commerce and navigation business. Incorporators: A. L. Ehrman, F. and J. Auditors, 83 Linden Ave., Brooklyn, N. Y.

SUTTON CHEMICAL CO.

¹(1) Incorporated in January, 1917, in West Virginia, with a capital of \$500,000. Incorporators: Thos. McCabe, of Sutton; J. E. Clark, R. L. Henderson, B. L. Smith and Claude B. Sharpe, all of Pittsburgh, Pa.

SWAN & FINCH CO.

¹(1) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$530,114, compared with \$467,032 Dec. 31, 1915.

¹(2) Directors Re-elected.—At the annual meeting of this company April 16, 1917, retiring directors were re-elected.

SWASTIKA FLEXIBLE METALS CO., CLEVELAND, O.

¹(1) Incorporated on March 6, 1917, in Ohio, with a capital of \$250,000. Incorporators: Lewis C. Pritchard, Urah R. Talbot, Maurice Maschke, Edward M. Hirsh and James Mathews.

¹(2) Acquisition.—It was announced late in March, 1917, that this recently incorporated company had acquired the plant of the Alloys Foundry Co., Warwick, O., and would manufacture various alloy steels under a patent process. The plant is being enlarged.

SWEET, ORR & CO.

¹(1) Wage Advance.—Wage increases amounting to 10% were announced Jan.

5, 1917, by this company, the largest manufacturers of overalls in the United States. Approximately 8,000 workers are affected.

The increased scale will go into effect Feb. 1. The company also distributed recently a bonus of \$40,000 to the employees in its 12 factories.

SWIFT & CO.

¹(1) Report, Year Ended Sept. 30, 1916.—It was announced Jan. 4, 1917, that this company's earnings for the fiscal year 1916, based on \$75,000,000 capital, were 27%.

At the annual meeting the following directors were elected: Louis F. Swift, Edward F. Swift, Lewis L. Clarke, L. A. Carlton, M. B. Brainerd, Charles H. Swift and G. F. Swift, Jr.

At the directors' meeting officers were re-elected.

¹(2) Statement by President.—On Jan. 4, 1916, it was stated that Pres. L. F. Swift, in addressing the stockholders of this company, said in part:

"The fiscal year ending Sept. 30, 1916, witnessed a large increase in the supply of cattle and hogs marketed. The increased receipts at nine markets over 1915 were: cattle, more than 1,000,000 head, and hogs 4,000,000 head. Sheep receipts, however, were somewhat less than the year before, and were the smallest for many years. Consider this a mistake on the part of the producer.

"Prices for all kinds of live stock higher. Swift & Co.'s actual payments per hundredweight at all plants for all kinds of live stock during the fiscal year were:

	1915	1916
Cattle -----	\$7.10	\$7.21
Hogs -----	7.09	8.49
Sheep & lambs --	7.85	9.16

"We paid the live-stock raisers over \$300,000,000 for live stock in 1916. This is more than \$50,000,000 in excess of what we paid in 1915 or 1914.

"Beef averaged to sell, during the year, a little higher than in 1915. The comparative average wholesale prices of dressed beef at four large consuming centres for two years were as follows:

Fiscal Year:	1915	1916
New York -----	\$11.64	\$12.12
Philadelphia --	11.57	12.11
Washington --	11.63	11.86
Chicago -----	10.85	11.19

Average ----- \$11.42 \$11.82

"Values will not continue, however, to rise indefinitely, and this is the time when the prudent individual should conserve his resources against the reaction which his bound to follow.

"The total distributive sales for the 1916 fiscal year exceeded \$575,000,000.

"The wages of most employees have been advanced during the year, amounting to an increase in the Swift & Co. payroll of about \$5,000,000 per annum."

¹(3) Income Account, Year Ended Sept. 30, 1916, shows:

	1916	1915
Net profits -----	\$20,465,000	\$14,087,500
Surp. aft. divs. --	14,405,000	8,650,000

¹(4) Balance Sheet, as of Sept. 30, 1916, shows a profit and loss surplus of \$60,753,243, compared with \$45,850,000 Sept. 30, 1915.

¹(5) Acquisition.—A St. Paul, Minn., dispatch Jan. 3, 1917, said that a \$1,000,000 deal, closed by this company, insured a vast increase of business at South St. Paul. The firm bought outright the interests of the Nevada Packing Co., Reno, Nev., and about 60,000 head of cattle owned by that concern.

Arrangements probably to be made to bring a large amount of cattle into South St. Paul from Nevada from now on, a portion of the Nevada Company's stock being sent in first.

—Mar.

¹(1) Demurrage Charge Decision Affirmed.—See Hocking Valley Ry. Co.—Item No. 2.

¹(2) Order for Locomotive.—See Baldwin Locomotive Works.—Item No. 5.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Extra Dividend Expectations.—On March 28, 1917, the "Wall Street Journal" said that although it was only three months since this company paid an extra dividend of 33 1/4%, there was a strong rumor that another meion was in prospect for Spring.

The stock dividend paid in November capitalized surplus accumulated prior to March 1, 1915, when the income tax went into effect. It is pointed out that there has not yet been any division of the four years' surplus earnings since that date. If the books were audited today they would probably show a balance sheet surplus of around \$50,000,000, which would, of course, permit a 25% stock dividend on the \$100,000,000 capital if directors chose to order it.

Swift in its 1916 fiscal year to September 30 earned slightly more than \$27 a share on \$75,000,000 stock. Profits in the first six months of the current fiscal year are known to have been very much ahead of the same period a year ago, and on the \$100,000,000 stock it is estimated the company is earning at the rate of over \$30 a share. Wilson & Co.'s statement for January is a straw showing which way the wind is blowing for the packers. January net of Wilson & Co. was at the annual rate of \$45 a share on the common after a month's proportion of pfd. dividends, compared with about \$12 a share for the year 1916.

SYLVIAN OIL CO.

(1) Incorporated.—On March 24, 1917, this company was incorporated under the laws of Delaware to do a producing and refining business. Incorporators include J. French Miller, Secretary of Galena Signal Oil Co., and Daniel Grimm, one of the largest producers of oil in the Franklin field.

It was stated that the company had a settled production in Southeastern Ohio and West Virginia and will drill extensively during the summer of 1917. The concern will confine its activities principally to producing oil.

SYNDICATE MAIL ORDER CO., INC., NEW YORK.

(1) Capital Increased.—On Jan. 12, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$50,000 to \$250,000.

SYRACUSE, LAKE SHORE & NORTHERN RY.

(1) Bonds.—See Empire United Rys., Inc.—Item No. 1.

TABER MILLS.

(1) Extra Dividend.—Announced Feb. 7, 1917, that this company had declared a dividend of \$6 a share, in addition to the regular \$1.50 dividend.

—Mar.

(1) Stock Decrease.—It was announced March 1, 1917, that at the annual meeting of this company, it was voted to ratify and approve the action of the directors in buying 500 shares of Taber Mill stock. It was also voted that the capital stock of the corporation should be decreased \$50,000 by cancelling these shares bought. This purchase reduces the capitalization from \$1,250,000 to \$1,200,000.

(2) Earnings, 1916.—It was announced March 24, 1917, that at this company's annual meeting, earnings for year ended Dec. 31, 1916, were \$319,000, or about 26c on its capital stock.

TACOMA GAS CO.

(1) Receivership.—See Everett Gas Co.—Item No. 1.

TACOMA RY. & POWER CO.

(1) Improvements.—It was announced Feb. 10, 1917, by Louis H. Bean, Gen. Mgr. of this company, that approximately \$1,500,000 would be spent in Tacoma, Wash., in 1917, by that company and the Puget Sound Electric Ry. Co., both of which are controlled by the Puget Sound Traction, Light & Power Co.

A considerable amount of the funds appropriated will go into new equipment and for bettering the service.

TALBOT BOILER CO.

(1) Reorganization.—See Talbot Boiler & Engine Corp.—Item No. 1.

TALBOT BOILER & ENGINE CORP.

(1) Expansion.—On March 27, 1917, the New York "Commercial" said that owing to the demand for Talbot boilers in the campaign for naval preparedness the financial reorganization of the Talbot Boiler Co. became necessary. The Talbot Boiler & Engine Corp. was recently chartered under the laws of Delaware to take over the patents and assets of the original company with a capital of \$1,000,000. The newly incorporated company has purchased a large factory and tract of land at Plattsburgh, N. Y., and with its enlarged capacity will be in a position to make \$5,000,000 worth of boilers a year.

It has been decided to offer at par for public subscription \$320,000 of the preferred stock. This stock is a 7% participating issue with a par value of \$10 and constitutes part of a total issue of \$380,000 of that class of stock. The remainder of the capital consists of 620,000 shares of common stock of a par value of \$1 a share. In a statement made to C. W. Cannon & Co., the bankers who offer the stock, P. A. Talbot, Pres. of the corporation, states that the present volume of business of the company is large enough to meet all dividend requirements on both classes of stock.

TALKING PICTURES, INC.

(1) Incorporated in January, 1917, in California, with a capital of \$250,000. Directors: Chas. J. Post, E. H. Ferron, A. W. Allen, E. W. Gebauer and J. W. Schnell.

TALLAPOOSA MILLS, INC.

(1) Hutcheson Mfg. Co. Acquired.—See Hutcheson Manufacturing Co.—Item No. 2.

• TAMARACK MINING CO.

(1) Sale Negotiations.—It was stated Jan. 12, 1917, that Pres. Smith, of this company, had negotiated for sale of the company's property for \$4,000,000, approximately \$66 a share.

The sale is subject to the necessary vote of the stockholders.

(2) Production, December and 12 Months.—Announced Jan. 23, 1917, that this company in December produced 570,380 pounds of copper, against 504,831 in November.

During 1916 production totaled 6,606,620 lbs., against 3,883,150 in 1915.

—Feb.

(1) Production.—Announced Feb. 19, 1917, that this company in January produced 585,328 lbs. of copper.

(2) Meeting to Consider Sale.—It was announced Feb. 17, 1917, that a meeting of this company's stockholders to vote upon the question of selling the company to Calumet & Hecla would be held on March 16. The advertisements which must by law begin 30 days before the meeting have appeared in Houghton, Mich., papers.

A circular to Tamarack stockholders will probably be sent out also. Ropes, Gray, Boyden & Perkins represent Calumet in the transaction, and Attorney McClellan represents Tamarack.

(3) Circular to Stockholders.—It was stated Feb. 22, 1917, that in a circular to Tamarack stockholders notifying them of meeting called for March 16 to vote upon sale of the assets of the company to Calumet & Hecla Mining Co. for \$3,600,000, or \$60 per share, Pres. Smith stated that not less than three-fifths of the entire stock in the company should be voted favorably to assure consummation of the sale. Certificates are to be deposited with the Merchants National Bank, Boston. The \$60 per share will be payable immediately on the transfer to the Calumet & Hecla Mining Co. If no transfer is made, certificates are to be returned.

The letter of Pres. Smith and Sec'y Altmiller to Calumet & Hecla offering to sell Tamarack property was dated Feb. 13, 1917.

Calumet & Hecla accepted the offer in letter dated Feb. 20 and notified the Tamarack Co. that it has deposited \$3,600,000 in the Merchants National Bank.

—Mar.

(1) Production, February, 1917.—Announced March 16, 1917, that this company in February produced 529,315 pounds of copper, compared with 585,328 in January, 1917.

(2) Sale Authorized by Stockholders.—It was announced March 16, 1917, that stockholders of this company at a special meeting voted to sell the assets of the company to the Calumet & Hecla Mining Co. for \$3,600,000, or \$60 a share. There were 48,061 shares voted in favor of the sale, more than the three-fifths required.

—Apr.

(1) Property Transferred.—On March 20, 1917, stockholders were notified that, in accordance with vote passed at special meeting March 16 declaring a \$60 dividend in liquidation, the conveyances of the rights and assets of the Tamarack company had been delivered to Calumet & Hecla Mining Co., and on presentation of stock certificates or the receipts of the Merchants National Bank therefor, dividend would be paid at that bank.

(2) Production, March, 1917.—This company April 18, 1917, reported March production as 550,403 lbs. of copper, compared with 529,315 previous month.

TAMPA & GULF COAST R. R.
 * (1) Taken Over.—See Seaboard Air Line Ry.—Item No. 2.

TAMPICO-PANUOCO OIL FIELDS.
 * (1) Sold.—See Tampico-Panuco R. R.—Item No. 1.

TAMPICO-PANUOCO R. R.
 * (1) Sold.—A Tampico, Mex., dispatch March 14, 1917, stated that official notice had been received there from London that this company's railroad had been sold to interests that are closely identified with the Royal Dutch Co. Along with the sale of the railroad there was disposed of also the holdings of the Tampico-Panuco Oil Fields and the Choyles Oil Co., Ltd., which are situated in the Tampico region. The consideration involved is said to have been approximately \$5,000,000. The interests that have purchased these properties have organized what is known as the Anglo-Saxon Petroleum Co., which will take them over and operate them as subsidiaries of the Royal Dutch Co.

The Tampico-Panuco R. R. runs from Tampico to the town of Panuco and the Panuco oil field, 35 miles. It is planned by its new owners to make this railroad the nucleus of an extensive system that will afford transportation outlet for a number of oil fields of the Gulf coast region. The main line will be extended up the valley of the Panuco River for a distance of about 200 miles. The Anglo-Saxon Petroleum Co. also includes in its plans the construction of a large refinery which will represent, it is said, an investment of more than \$2,000,000 gold.

The Royal Dutch Co. already owns one well in the Panuco field which has a measured output of 118,000 barrels of oil per day. The lack of transportation and marketing facilities heretofore has prevented the utilization of this oil supply. A fleet of tank steamers will be put in service by the Anglo-Saxon Petroleum Co.

TASH-ORN MINES, LTD.
 * (1) Equipment.—It was stated March 13, 1917, that this company had purchased rails and ore cars for underground work. A dispatch states that in the northeast drift the average assay from 25 to 53 feet is \$16, and the southeast drift shows assays of \$96.
 * (2) Development.—Telegraphic advices state that development work in both the north and the south drifts on the vein at the 100-ft. level shows values far greater than the management had reason to anticipate a fortnight ago. A telegram received Monday reports that values, particularly in the north drift, show a steady increase. The vein is gradually widening and, according to information submitted to the underwriters, substantial results are expected to follow the announcement that a large ore body has been disclosed. It is stated that formal application for listing Tash-Orn on the New York Curb will be made shortly.

TATA IRON & STEEL CO. OF INDIA.
 * (1) Pig Iron Negotiations.—It was stated Jan. 24, 1917, that negotiations are under way between this company and Mitsui & Co., of Japan, for the purchase of 1,500,000 tons of pig iron from the Sakchi furnaces to be delivered in equal installments over the following ten years. This probably will prove to be one of the largest pig iron contracts on record.

—Mar.
 * (1) Contract.—See Pennsylvania Engineering Co.—Item No. 1.

TAUNTON-NEW BEDFORD COPPER CO.

* (1) Stock Dividend.—On April 16, 1917, this company declared a 50% stock dividend from surplus represented by in-

creases in permanent plant and other assets. It is payable to shareholders of record March 22. The capital increase raises the authorized stock from \$800,000 to \$1,200,000.

TAUNTON OIL CLOTH CO.

* (1) Stock Dividend.—On April 19, 1917, the "Daily News Record," New York, said this company, on the basis of its undivided profits, had increased its authorized capital stock from \$100,000 to \$300,000 (3,000 common shares). The new shares were distributed as a stock dividend among stockholders of record April 13.

TAYCO ROLLER BEARING CO., PROVIDENCE, R. I.

* (1) Incorporated on Feb. 16, 1917, in Rhode Island, with a capital of \$500,000; 5,000 shares \$100 each. Incorporators: Ralph M. Greenlaw, Chas. E. Tilley and Edwin J. Tetlow, all of Providence, R. I.

TAYLOR-WHARTON IRON & STEEL CO.

A complete description of this company appears in the "Miscellaneous Book" in your card cabinet.
 * (1) Report, Year Ended Dec. 31, 1916, shows net earnings after depreciation of \$359,374, and surplus after bond interest and pfd. dividends of \$79,205. The unfilled orders amounted to \$1,250,375.

—Apr.

* (1) Earnings Rate.—It was stated April 4, 1917, that net earnings of this company are running at the rate of \$50,000 a month. After allowing for the regular 7% on the \$1,876,350 pfd. stock this is at the annual rate of 29.4% on the \$1,597,000 common stock. This compares with 5.1% earned in the calendar year 1916, when losses were sustained at the company's plant in Easton, Pa.

In former years the common stock of the company paid as high as 10% in dividends. The last dividend of 8% was paid in 1914. The pfd., which is cumulative, has paid its dividends regularly.

The detailed report of the company for 1916 shows that the new plant at Easton, which manufactures high-grade manganese steel castings used in railroad equipment, was operated at a deficit of \$300,000. The loss was attributed to a shortage in skilled labor and to the unprecedented increase in the price of manganese iron which jumped from \$40 to \$175 a ton.

The 5.1% earnings on the common stock were made possible by the good showing of the company's plants at Philadelphia and at High Bridge, N. J.

The Easton plant has been made to pay, and the \$300,000 deficit, it is expected, will be turned into a profit in 1917. The other plants, which make high-grade steel for tools, are also increasing their earnings monthly. In January, it is understood, the combined plants earned net of \$19,030. In February this was increased to \$48,376, and March will show at least \$50,000. At the beginning of 1917 the Taylor-Wharton Co. had unfilled orders on hand amounting to over \$1,250,000.

A representative of the company estimates that Taylor-Wharton, after allowing for interest and sinking fund on its \$2,250,000 bonds and after allowing for the pfd. dividend, will earn about 33% on its common stock, par value \$100. On this basis a resumption of dividends on the common stock is anticipated.

* (2) Officers and Directors.—It was announced April 6, 1917, that at the annual meeting of this company the following officers were elected: Pres., Knox Taylor; Vice-Pres., V. Angerer, P. Chrystie and Dr. H. M. Howe; Sec'y-Treas., W. A. Ingram, and Asst. Sec'y-Treas., Llewellyn N. Aller.

The following directors were chosen: Theodore H. Banks, Throbridge Callaway, James Imbrie, William Selfridge, Dr. V. G. Simkhovitch, Knox Taylor and John F. Wallace.

TEACHOUT (A.) CO., CLEVELAND, O.

* (1) Capital Increased.—It was announced Feb. 24, 1917, that this company had increased its capital stock from \$200,000 to \$500,000.

TECUMSEH MILLS.

* (1) Extra Dividend.—Announced March 22, 1917, that this company had declared the regular quarterly dividend of 1½% and an extra of 2½%, both payable March 31 to stock of record March 20. The usual quarterly rate is 1½%. In the two previous quarters extra dividends of 3½% were paid.

TELLER-PROTECTOR CO., INC.

* (1) Incorporated on Jan. 12, 1917, in Delaware, with a capital of \$500,000, to manufacture devices for the protection of bank tellers. Incorporators: G. W. Lancaster, C. W. Rex and S. Wilson, Richmond, Va.

TELLICO OIL & GAS CO.

* (1) Merger.—See Crown Oil Co.—Item No. 2.

TEMISKAMING MINING CO., LTD.

* (1) Report, Year Ended Dec. 31, 1916, shows gross profits of \$708,877, with operating costs amounting to \$355,986, leaving a net of \$352,890.

Profit and loss account shows balance carried forward from 1915, \$396,800. Distribution was made as follows: In dividends, \$225,000 (as against \$75,000 in 1915); \$25,917 for depreciation on buildings and plant; transfers to contingent account re North Dome and Cobalt Hospital, \$322,527; old accounts written off, \$5,307. The balance carried forward therefore amounts to \$671,000.

The balance sheet gives cash in the bank, \$275,817, in addition to \$42,312 due from smelters, \$183,507 bullion in storage, which, with ore in transit and on hand, interest accrued, insurance and accounts receivable, amount to \$679,599 in quick assets.

Total assets are given at \$3,559,097, as against \$3,472,091 in the 1915 report. Current liabilities are shown as \$19,978.

* (2) Production, 1916, is given in the company's report at 1,263,848 ounces, as against 1,684,061 ounces during 1915, while the reserve for mill feed underground on timbers ready to treat was increased to 15,734 tons. The mill operated for 309 days, treating 32,897 tons of ore.

—Mar.

* (1) Injunction.—It was announced March 5, 1917, that on the application of Max S. Morganstern, a temporary injunction had been granted restraining this company from taking any action on the by-laws for the purchase of 600,000 shares of Kirkland Lake at 50 cents a share.

TEMISKAMING & NORTHERN ONTARIO RY.

* (1) \$876,000 Planned for Improvements. On April 21, 1917, the "Railway Review" stated that this company was planning an expenditure of \$876,000 for improvements, of which \$250,000 is for 100 new freight cars; \$100,000 for the erection of steel bridges; \$125,000 for extensions to the Kirkland Lake branch, and \$143,000 for general construction.

Net after taxes— 38,688.78 22,924.47

*(2) Sale Adjourned to May 3.—A Nashville, Tenn., dispatch April 3, 1917, stated that notwithstanding the upset price had been reduced by the court from \$1,350,000 to \$700,000 there were no bids for this property when it again was offered for sale on that date. The sale was adjourned to May 3. The previous offering was on Feb. 15.

The road is to be sold subject to the prior lien mortgage of \$4,014,000. It is further said it is possible that Nashville may acquire these bonds before the sale date at an option of 60 cents on the dollar.

TENNESSEE COAL, IRON & R. R. CO.

*(1) Stricken from List.—Announced Jan. 2, 1917, that the New York Stock Exchange had stricken from the list this company's Birmingham division list consolidated 6% bonds and Tennessee division first mortgage 6% bonds.

—Mar.

*(1) Property Transfer.—A Birmingham, Ala., dispatch March 8, 1917, stated that this company had filed a deed transferring all its title and interest in the Birmingham Southern R. R. to the latter, thus making it an absolutely independent property, although owners of the Tennessee Co. will continue to own it.

The Birmingham Southern has been declared a common carrier. It reaches mining and mill plants in Jefferson and Bibb Counties and is within nine miles of the Warrior River, to which it probably will be extended if the United States Steel gains its merger suit.

• TENNESSEE COPPER & CHEMICAL CORP.

*(1) Earnings, 1916, Estimated.—On Jan. 9, 1917, the "Wall Street Journal" said that until the various suits and other difficulties of the Tennessee Copper Co. which remained to be settled when that company was taken over by the new Tennessee Copper & Chemical Corp. are finally disposed of, it is impossible to make a report on the earnings of the company for 1916, or its financial standing at the close of the year.

The Russian claim, involving approximately \$1,150,000, in all likelihood will be compromised for a much smaller sum.

The new management has been making strenuous efforts to put the company's affairs in shape and to rehabilitate the plants, which had been permitted to run down.

Copper production in 1917 should be between 11,000,000 and 12,000,000 pounds, and sulphuric acid production over 200,000 tons. It will take some time to bring the acid output up to the company's capacity of 300,000 tons, as the older and larger acid plant is in need of repair.

Estimating earnings on a production basis of 12,000,000 pounds of copper and 250,000 tons of acid, the net yield for stock should be approximately \$1,000,000 a year, or \$2.50 per share on the 400,000 shares of the Copper & Chemical Co. This is assuming normal prices for both products.

Profits in 1917 should be larger. The company's copper output is sold up until mid-Summer at high prices and it is likely that a net of between \$3.75 and \$4 a share will be achieved.

Future earnings may be materially increased.

—Feb.

*(1) Sued by Russia.—Announcement was made at New York Jan. 31, 1917, that the Russian Government had filed suit against this company and the National Surety Co., its surety, to recover \$1,140,000 advanced to the Tennessee Copper Co., which was taken over by the Tennessee Copper & Chemical Co., on contracts for trinitrotoluol in 1915.

A large part of the advance payment was used to build a plant which was destroyed by fire in March, 1916.

Vice-Pres. Griffin, of the Surety Co., issued a statement that the Copper Co.'s treasury was strengthened under recent reorganization with a much larger sum than necessary to meet the Russian claim and that the Copper Co., which denies liability to Russia, is in a strong financial position.

—Mar.

*(1) Statement Concerning Russian Suit.—It was stated on March 28, 1917, that in the two suits of the former Imperial Russian Government against this company for recovery of \$1,368,000, the National Surety Co. is named as co-defendant in but one of the suits, instead of both as previously stated. The National Surety Co. as security for the due fulfillment of the terms of the contract on behalf of Tennessee Copper in connection with the advance of \$1,140,000 made to the copper company by the Russian Government, is named as co-defendant in that suit only.

The second suit against the company instituted by the Russian Government is for the collection of \$228,000 agreed upon in the contract as liquidated damages, for the non-fulfillment of the agreement.

William J. Griffin, Vice-Pres. of the National Surety Co., is authority for the statement that the surety company's protection is such that little, if any, loss will accrue to the company even if the suit be decided in favor of the Russian Government.

The statement has been made that the copper company is prepared to return to the Russian Government the total amount of the advance payment made on basis of the contract, in case the suit for liquidated damages be withdrawn.

—Apr.

*(1) First Annual Report Shows \$2,779,891 Cash on Hand.—On April 27, 1917, the "Boston News Bureau" stated that this company, formed to refinance the Tennessee Copper Co., had acquired over 95% of the latter's stock. Most of the claims and suits against the Tennessee Co. have been satisfactorily settled, while the claim of the Russian Government has been disputed by the company, with an action now pending in the courts. Settlement has been made with International Agricultural Chemical Corp., H. W. Stiner & Son and the By-Products Chemical Co.

Initial balance sheet of the Tennessee Copper & Chemical Corp. shows cash at the end of 1916 amounting to \$2,779,891. There was paid to bankers for underwriting the financing plan \$400,000.

• TENNESSEE COPPER CO.

*(1) Sued by Russia.—It was announced at New York March 7, 1917, that the Imperial Russian Government, through Couder Brothers, had brought suits against this company and the National Surety Co. to recover \$1,368,000. The litigation concerns a contract made by the Russian Government with the copper company for the delivery of 4,800,000 lbs. of trinitrotoluol at 95 cents a pound before Nov. 1, 1916.

To bind the agreement the Russian Government paid in advance \$1,400,000, and the Tennessee Copper Co. furnished a bond with the National Surety Co. to cover the amount.

The copper officials also promised to pay \$228,000 as liquidated damages in case of default. The Russian Government alleges a complete breach of contract.

—Apr.

*(1) Blame for Fire Denied.—This company filed its answer April 14, 1917, to

the suit begun in the Federal District Court in New York by the Russian Government to recover \$1,140,000 paid in advance on an order for a large quantity of explosives which were not delivered. The answer admits the receipt of the money, but says that it was used in altering its plant so that the contract might be carried out.

At midnight on March 20, 1916, the plant used for manufacturing the trinitrotoluol was destroyed by a fire and explosion that were not due to any neglect of the defendant. The National Surety Co., which guaranteed the carrying out of the contract and was made a co-defendant, filed an identical answer.

*(2) Over 95% of Stock Taken Up.—See Tennessee Copper & Chemical Corp.—Item No. 1.

*(3) Profit and Loss Statement for 1916 compares as follows:

	1916	1915
Oper. profits—	\$834,571	\$1,306,167
Interest, reserve & depreciation	446,913	248,009
Balance profit—	387,658	1,058,158

(4) Operations, 1916, Outlined by Treas. Westlake.—In connection with the profit and loss statement of this company for 1916 Treas. Westlake said that production from company ores for 1916 amounted to 9,404,295 pounds of copper, with recoveries of 55,790 ounces of silver and 219 ounces of gold. From custom ore there was produced 806,243 pounds of copper. Cost of production was 14.36 cents a pound.

Production of sulphuric acid amounted to 181,637 tons. Production for the first quarter of 1917 amounted to 3,119,471 pounds copper from the company's own ores and in the same period acid output totaled 55,967 tons. The March acid output was the best in the company's history, amounting to 23,000 tons, or at the rate of 276,000 tons per annum, against 181,000 tons produced in 1916.

There has been set aside in addition to general reserve for depreciation charged against earnings for the year, a special reserve out of surplus of \$1,200,000 partly to cover depreciation of No. 1 acid plant.

Since Jan. 1, 1917, the Tennessee Copper & Chemical Corp. has received from the Tennessee Copper Co. \$1,000,000 first mortgage 6% bonds as collateral security for money borrowed.

During 1916 numerous troubles, including cave-in, strikes and other labor troubles, combined to reduce output and increase the cost of copper. These causes also operated to reduce acid output.

TENNESSEE JELLICO COAL CORP.

*(1) Taken Over.—See Reliance Coal & Coke Co.—Item No. 1.

TENNESSEE LUMBER & COOPERAGE CORP., DOVER, DEL.

*(1) Incorporated on Feb. 24, 1917, in Delaware, with a capital of \$350,000, to acquire timber lands and to operate sawmills. Incorporators: Chas. H. Jones, W. I. N. Lofland and Geo. W. Morgan, Dover, Del.

TENNESSEE POWER CO.

*(1) Earnings, November, 1916.—Announced Jan. 5, 1917, that this company for November reported gross of \$154,470, a gain of 46% over November, 1915, while total income was \$27,835, a decrease of 47%, with a deficit after charges of \$11,720, compared with a surplus of \$13,341.

*(2) Operating Results Abnormal.—On Jan. 5, 1917, it was stated that the operating results of this company for November, 1916, were abnormal, being due

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

to the fact that the dry period of 1916 came just at a time when the car shortage was acute, and as a result prices for coal for the steam reserve plants advanced to almost prohibitive figures.

The requirements of the company for steam generation of power in November were heavy and the cost of coal for the plants was great, making the operating costs abnormal. The situation will adjust itself when the flow of streams used for the generation of hydro-electric power is restored by the winter rains, which began early in December.

(3) Operations.—It was stated Jan. 26, 1917, that this company, the principal generating subsidiary of Tennessee Ry., Light & Power Co., is distributing a load in excess of 132,500 kilowatts of energy. The first unit of the Great Falls hydro-electric plant has just been installed and placed in operation at a cost of \$500,000, exclusive of lands and other rights which cost an additional \$400,000.

The new unit has 10,000 kilowatts capacity and the company has in addition generating capacity of 20,000 kilowatts on the Ocoee River, 12,500 kilowatts at the new Parkville steam plant, 18,350 kilowatts at the Nashville steam plant, 5,500 kilowatts at the Chattanooga steam plant and 4,000 kilowatts at the Knoxville steam plant, and in addition purchases 40,000 kilowatts from the hydro-electric station near Chattanooga of the Chattanooga & Tennessee River Power Co., controlled by the Brady interests. The company has 520 miles of high-tension transmission lines now in operation.

—Feb.

(1) Earnings, December, 1916.—It was stated Feb. 7, 1917, that this company for December reported gross of \$130,111, a gain of \$30,214, or 27.7% over December, 1915, with net of \$46,663, a decrease of \$3,105, or 6.2%, and a balance after charges of \$8,198, a decrease of \$5,804, or 48.4%.

The cause for the decrease in net and surplus for the month was the large increase in operating expenses caused by the low water, necessitating the operation of the steam stations on a high cost of coal.

(1) Questioned by Illinois Commission.—It was announced April 2, 1917, that this company had been asked by the Illinois Public Utilities Commission why it had reissued \$800,000 notes, without permission of the commission.

• TEXAS CO.

(1) Crude Oil Advance.—Announced Jan. 3, 1917, that this company had advanced the prices of crude oil as follows: North Texas, Caddo Light and Thrall 10 cents a barrel to \$1.50% De Soto 10 cents to \$1.40 and Crichton 10 cents to \$1.20.

(2) New Oil Classification.—It was announced Jan. 4, 1917, that, effective immediately, this company had made a new classification of Oklahoma crude oil, posting three prices, as against two previously. The new price is for Cushing grade, 38 gravity or better, and it is placed at \$1.75 a barrel. The other two grades are Oklahoma, which is \$1.50 a barrel, and Haldilton, 80 cents a barrel. The last named is an advance of 5 cents over the last quoted price.

The new classification of Cushing oil has been recognized as necessary for several months, because of its much higher grade than the rest of mid-continent oil. During all that time Cushing grade has commanded liberal premiums over the other grades.

(3) Admitted to List.—Announced Jan. 4, 1917, that the New York Stock Exchange had admitted to the list this company's subscription receipts for capital stock, part and full paid.

(4) Gasoline Price Advance.—Announced Jan. 6, 1917, that, effective that date, this company had advanced the price of gasoline in Texas one cent a gallon to a maximum of 22 cents and a minimum of 20 cents, tank wagon basis.

(5) Cushing Crude Oil Advance.—It was announced Jan. 6, 1917, that this company had advanced the price of Cushing grade crude oil 10 cents a barrel to \$1.85, following the advance of 10 cents a barrel in the price of mid-continent crude to \$1.80.

(6) Cushman Grade Advance.—Announced Jan. 12, 1917, that this company had advanced the price of Cushman grade oil, 38 gravity or better, 10 cents a barrel to 95 cents.

(7) Cars Ordered.—Announced Jan. 15, 1917, that this company had ordered a number of tank cars from the Petroleum Iron Works Co., of Sharon, Pa., to be delivered late in 1917.

(8) Gasoline Price Advance in South.—Announced Jan. 17, 1917, that this company had made an advance of 1 cent a gallon in the price of gasoline in the South. The following are the new maximum and minimum prices: Maryland, 22-21 cents a gallon; Virginia, 23½-21½; North Carolina, 24-22; Georgia, 20-23½; Florida, 25½-23; Alabama, 27-23½, and Oklahoma, 23, tank wagon basis.

(9) Riparian Grant.—Announced at Trenton, N. J., Jan. 17, 1917, that this company had obtained a riparian grant of 60 acres at Bayonne, on Newark Bay, for \$14,000, from the Board of Commerce and Navigation.

—Feb.

(1) Merger Report Denied.—See Sinclair Oil & Refining Corp.—Item No. 1.

—Mar.

(1) New Contracts.—It was announced March 15, 1917, that this company had secured a contract for another merchant ship, making seven in all under contract. It is understood four will be cargo boats.

(2) Notes.—It was stated March 19, 1917, that this company is anticipating payment of \$1,200,000 6% notes at par. These notes do not finally mature until 1921. They are the outstanding part of an authorized issue of \$3,000,000, which matured annually at the rate of \$300,000.

(3) Absorption of Producers' Co. Permitted.—It was stated March 21, 1917, that comment on the material provisions of he act enacted by the Texas Legislature enabling this company to engage in the oil producing business had been made by the Texas Co. in the March issue of the "Texaco Star," the official publication of the company. The company stated that the new law would enable the Texas Co. to take over the stock of the Producers' Oil Co., or its physical properties.

It is now owned, not by the Texas Co., but by a syndicate of stockholders who are largely interested in the Texas Co. These stockholders have given the Texas Co. the benefit of the organization and its surplus profits.

The bill points out the way in which oil companies, if they own or operate pipe lines, may get into the oil producing business. They must first dispose of such pipe lines or turn them over to a separate corporation, which will be limited to the pipe line business and subject to regulation as a common carrier without hindrance or complication by reason of being engaged in other and additional lines of business.

(4) Application to List.—Announced March 22, 1917, that application had been made to the New York Stock Exchange to list \$11,000,000 additional capital stock of this company.

(5) Additional Stock Listed.—On March 28, 1917, the New York Stock Exchange admitted to the list \$11,000,000 additional capital stock of this company, making the total amount authorized to be listed \$55,500,000.

(6) Income Account, Six Months Ended Dec. 31, 1916.—Gross revenues, \$20,996,119; operating income \$7,720,498; surplus after dividends, \$4,924,687.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

¹(7) **To Redeem Notes.**—It was stated March 29, 1917, that this company on July 1 would redeem all its outstanding first mortgage 6% serial notes dated July 1, 1910. Payment will be made by the Lawyers' Title & Trust Co., New York, trustee.

²(8) **Status (March, 1917).**—On March 30, 1917, the "Boston News Bureau" said that sustained strength in the shares of this company which had been consistently maintained for the previous two or three months was not alone a reflection of the enormous profits which the company was making, but also of the new rights which might be confidently expected before 1917 passed into history.

The expansion program of the Texas Co. will last perhaps for three years more. During this time the present policy is to give shareholders an extra dividend each year in the form of rights to subscribe to additional stock. In other words, instead of coming out with one great, big \$30,000,000 or \$40,000,000 new stock issue, the process will be spread over several years, with continuous rights afforded shareholders.

In the fiscal year to June 30 last Texas Co. earned 41.4% on \$33,500,000 stock. There is now outstanding about \$14,000,000 stock, which will be increased before the year is over to about \$55,000,000. On this \$55,000,000 stock it is believed that the company will confess to profits nearly as great as the 41% acknowledged for the 1916 year. The real profits which a subsidiary system does not fully disclose are in excess of this amount.

Texas Co. has a very large steamship equity, about which almost nothing is heard. It is understood that the corporation owns 42 steamers which inside interests have recently appraised at \$22,000,000. They are not carried on the books at anything like this amount. In fact, there is a steamship equity in this corporation which would make a most fascinating study.

—Apr.

¹(1) **Distribution of Pipe Line Holdings Discussed.**—It was stated April 4, 1917, that as a result of the recent legislation in Texas to the effect that an oil corporation, owning or operating pipe lines, may get into the oil-producing business if it first disposes of such pipe lines or turns them over to a separate corporation, this company may be in a position to distribute its pipe-line holdings to stockholders in the form of a special distribution.

The Texas Co. owns a highly remunerative system of pipe lines from the midcontinent field to the Gulf. In the report of the Federal Trade Commission on pipe-line transportation of petroleum it was computed that the Texas Co.'s average trunk and gathering lines' earnings for 1911, 1912 and 1913 were 24 1/2%. The amount earned in 1911 was 18.53%; in 1912, 25.80%, and in 1913, 29.35%.

During the same three years the average rate of earnings on the net investment for the entire business, including producing, transporting, refining and marketing activities, for the Texas Co. was 11.71%.

²(2) **Stricken From List.**—Announced April 7, 1917, that the New York Stock Exchange had stricken from the list this company's subscription receipts for capital stock, part paid.

³(3) **Capital Increased.**—On April 14, 1917, the company filed notice at Austin, Tex., of an increase in capital stock from \$44,000,000 to \$55,000,000.

⁴(4) **Prices Advanced 1 Cent in Texas.**—On April 17, 1917, this company advanced the price of gasoline and kerosene one cent a gallon in Texas, making the maximum price of gasoline 24 cents and the minimum price 22 cents in that State.

⁵(5) **Stock Certificates Ready.**—This company announced April 18, 1917, that the regular stock certificates were ready and would be exchanged for full paid subscription certificates upon presentation to the office of the company.

⁶(6) **Refinery Capacity Increased.**—A Port Arthur, Tex., dispatch April 19, 1917, stated that this company was adding 70 stills to its refinery there. When this improvement is finished the plant will have a daily capacity of 30,000 barrels of refined oil.

⁷(7) **Standard Price Increase Met.**—A Chicago dispatch April 23, 1917, stated that this company and other independent oil companies had met the Standard's advance of one cent a gallon in gasoline and one-half cent a gallon in refined oil.

TEXAS ELECTRIC RY. CO.

¹(1) **New Company Organized.**—Announcement was made Feb. 6, 1917, of the completion of the organization of this company and its financing plans.

The company has taken over all properties and franchises of the Southern Traction Co. and the Texas Traction Co. It will operate 267 miles of electric railway lines extending from Dallas to Waco, and serving communities of a combined population of 250,000.

²(2) **Plans.**—It was stated Feb. 6, 1917, that plans of this new company include the construction of two new interurban lines out of Dallas, one to Terrell and the other to Sherman, each about 30 miles in length. J. F. Strickland has been elected Pres. and Burr Martin a Vice-Pres. and Gen. Mgr.

Capitalization of the new company consists of \$1,500,000 1st pfd., of which \$700,000 has been issued and \$800,000 is in the treasury, \$3,000,000 2d pfd., \$6,000,000 common, \$4,804,000 first and refunding 5% bonds and \$2,198,000 underlying bonds.

Earnings of the consolidated properties for the year ended Dec. 31, 1916, were \$1,829,000 gross, \$804,871 net and \$454,871 surplus after interest on all bonds. The 1st pfd. stock and the first and refunding bonds have been sold to Eastern bankers.

The Texas Electric Ry. Co. was chartered in Texas in July, 1916, with a capital stock of \$10,500,000, and at meetings of the Texas Traction and Southern Traction held July 18 the consolidation was approved.

Circumstances prevented the complete carrying out of the consolidation at that time, and the merger of the properties under the new company was approved the first of the year, while the final details were completed at a meeting in Chicago Feb. 5.

The properties are operated in close co-operation with the General Electric light and power properties in Texas. Mr. Strickland, Pres. of the new railway company, is also Pres. of the Texas Power & Light Co., a subsidiary of American Power & Light Co., controlled by the General Electric interests. C. W. Hobson, who is a Vice-Pres. and member of the executive committee of Texas Electric Ry. Co., is also the head of the new company organized by General Electric interests to take over the electric street railway properties in Dallas.

Mr. Strickland will have charge of the new corporation, which will take over the light and power properties in Dallas. Texas Power & Light Co. furnishes the current for the operation of the lines of Texas Electric Ry. Co.

³(3) **Exchange of Securities.**—On Feb. 14, 1917, it was stated that with the organization of this company for the consolidation of the Texas Traction Co. and the Southern Traction Co. the exchange of securities of the various corporations are to be as follows:

Of the \$1,500,000 1st pfd. stock of Texas Electric Ry., \$700,000 will be used to purchase or discharge obligations of the two underlying companies and \$800,000 will be held in the treasury for future corporate purposes. Of the \$3,000,000 2d pfd. stock of the new company \$1,200,000 will be delivered to the Texas Traction Co. for distribution among its pfd. stockholders in the ratio of \$120 of the 2d pfd. for each \$100 of Texas Traction pfd.; \$1,800,000 will be delivered to Southern Traction

Co. to be exchanged on the basis of \$107.20 of the 2d pfd. for each \$100 of Southern Traction pfd.

Of the \$6,000,000 common stock of the new company, \$2,000,000 will be exchanged par for par for Texas Traction common and \$4,000,000 will be exchanged on the basis of \$80 of the new stock for each \$100 of Southern Traction common.

Texas Electric Ry. also has authorized the issue and sale of \$4,804,000 5% first and refunding bonds and \$2,160,000 25-year 6% debentures. The proceeds of these issues will be for refunding or discharging the present outstanding bonds of the Southern Traction Co. and for refunding \$700,000 notes of Texas Traction Co.

Power for the operation of the 267 miles of electric railway of the new company will be purchased from Texas Power & Light Co., a subsidiary of American Power & Light Co.

In addition to its own bonds and stocks, the new company will have outstanding \$2,198,000 of underlying bonds, making total capitalization of \$19,600,000.

*(3) Locomotive Orders.—See Baldwin Locomotive Works.—Item No. 2.

*(4) Improvements Planned.—It was announced Feb. 21, 1917, that this company had completed plans to improve its passenger station at Fort Worth, Tex., and to eliminate a grade crossing which are awaiting approval by the Texas Railroad Commission. The improvements will cost approximately \$750,000. J. L. Lancaster is receiver for the road.

—Mar.

*(1) Equipment Trust Certificates.—It was announced March 2, 1917, that Kuhn, Loeb & Co. and Blair & Co. had purchased from the receivers of this company \$1,200,000 5% equipment trust certificates maturing in semi-annual instalments during ten years and representing 80% of the cost of the equipment purchased.

*(2) New Directors.—It was announced March 21, 1917, that at this company's annual meeting four new directors were elected to fill two existing vacancies and two caused by the retirement of Howard Gould and E. J. Pearson. The new directors elected were J. H. McClement, Finley J. Shepard, Alvin Krech and Samuel Sloan. Other directors were re-elected for a term of two years. Out of a total of 387,637 shares of stock, 255,631 were voted.

Net after taxes—	761,934	644,794

*(2) Geo. J. Gould Resigns as Pres. and Chairman.—George J. Gould on April 23, 1917, resigned as Pres. and Chairman of this company, now in receivership under the direction of Kuhn, Loeb & Co. and Blair & Co. The company went into the hands of receivers in October, 1916. Mr. Gould's retirement came at the first meeting of the new Board of Directors. He will continue as a director and hereafter the interests of the Gould family will be looked after in the executive staff by Kingdon Gould, who remains as a Vice-Pres.

Resignation from the Texas & Pacific severs Mr. Gould's connection as an officer from the last of the so-called group of Gould railroads. In the last four years he retired from the presidency of the Missouri Pacific, the Denver & Rio Grande, and the Western Pacific.

*(3) New Chairman and Director Elected.—At the meeting of the new Texas & Pacific Board of Directors April 23, 1917, Wm. Church was elected chairman at the suggestion of George J. Gould, resigned, and J. L. Lancaster, New Orleans, one of the receivers, was elected Pres. Mr. Osborn had been a director for several years. These directors were chosen as the executive committee for the ensuing year: Mr. Osborn, Kingdon Gould, Dunlevy Milbank, Norman S. Meldrum, and Finley J. Shepard.

C. W. Veitch was continued in office as Secy. and Treas., and Thomas J. Freeman will remain with the company as general solicitor.

• THIRD AVENUE RY. CO.

	1916	1915
*(1) Earnings—		
November gross—	\$620,188	\$904,849
Net	272,066	95,932
5 mos. gross—	3,018,849	4,737,432
Net	1,150,046	500,126

*(2) Comment on November Earnings.—On Jan. 2, 1917, the "Wall Street Journal" said that the November gross earnings of this company were \$284,681 smaller than in November, 1915. A deficit of \$272,066 was returned, compared with a surplus of \$95,932 in the corresponding month in 1915, a decrease of \$368,019.

Gross revenues for the five months to Nov. 30 totaled \$2,915,075, compared with \$4,612,314 for the corresponding period in 1915, a decrease of \$1,697,239. A deficit of \$1,150,046, compared with a surplus of \$500,126 in 1915, a decrease of \$1,650,173 for the five months.

This showing indicates the effect of the strike upon the company's earnings, but revenues have once more taken an upward trend and are showing healthy gains daily. The system shared to a large extent in the heavy holiday traffic.

*(3) Resolution for Deceased President.—Announced Jan. 3, 1917, that directors

JANUARY 1 TO APRIL 30, 1917

of this company at their meeting adopted a resolution of sympathy to be extended to the family of F. W. Whitridge, deceased, the former Pres. No other business was transacted.

⁽⁴⁾ **New President.**—Announced Jan. 26, 1917, that Edward A. Maher had been elected Pres. of this company to succeed Frederick W. Whitridge, deceased.

Mr. Maher was born in Albany, N. Y., in 1894. He had direct charge of meeting the strike situation that began in Yonkers, N. Y., in the Spring of 1916 and finally extended to the Third Avenue system.

—Feb.

⁽¹⁾ **Notice of Interest Payment.**—It was stated Feb. 16, 1917, that, pursuant to resolution of the directors of this company, adopted in accordance with the provisions of its adjustment income mortgage of Dec. 20, 1911, to the United States Mortgage & Trust Co., trustee, payment would be made April 2, 1917, of the semi-annual installment of interest, amounting to 2 3/4%, due April 1, 1917, for the six months ended Dec. 31, 1916, upon its \$22,536,000 outstanding adjustment mortgage 50-year 5% income gold bonds; secured by this mortgage.

—Mar.

⁽¹⁾ **Comment on January Earnings.**—On March 1, 1917, the "Wall Street Journal" said, in part: "Gross revenue of the Third Avenue system in January was \$69,383 smaller than in January a year ago. However, if reference is made to November, 1916, the last previous month for which an income statement was reported, it will be found that total operating revenues then ran \$284,663 behind November, 1915.

"A deficit of \$59.98 was returned in January, compared with a surplus of \$72,708 in January, 1916, a decrease of \$72,768. But the figures for the first month of this year, although showing a deficit, go a long way toward indicating the upward trend of both gross and net income. If reference is again made to November's income statement it will be found that the deficit for that month of \$272,066 represented a decrease of \$368,019, compared with November, 1915.

"The amounts charged to operating expenses for maintenance of way, power supply, depreciation and operation of cars were \$693,000 below those in the corresponding seven months of the previous fiscal year.

"However, this saving was more than offset by increases of \$46,150 covering maintenance of equipment, \$157,000 for injuries to persons and property, and \$309,211 for general and miscellaneous expenses, a total of \$712,000. Had it not been for these increased charges the seven months' deficit might have been reduced to \$634,000.

"It may be assumed that the seven months' increased operating expenses of \$712,000 practically wind up the heavy losses which Third Avenue incurred in last year's strike.

"Traffic over the system is registering a big recovery, and it is estimated that February returns will only show a falling off of approximately \$15,000, as compared with February, 1916. Officials of the road look for operations to return to normal in the early part of April."

†Surplus.		

⁽³⁾ **Comment on February Earnings.**—On March 28, 1917, the "Wall Street Journal" said that the statement of earnings for this company for February and the eight months ended Feb. 28, 1917, showed declines in operating revenues increased operating expenses and decreases in net income.

Gross revenues in February fell off \$50,089 and a deficit of \$55,030 was returned, compared with a surplus of \$2,460 in February, 1916, a decrease of \$57,480 in net income. The ratio of operating expenses to gross revenues showed an increase of 0.16%, the percentage being 71.87 for February, compared with 68.71 in the same month last year.

Gross revenues for the eight months fell off \$1,968,008, and a deficit of \$1,382,956 was returned, compared with a surplus of \$504,818 in the corresponding period in the previous fiscal year, a decrease of \$1,977,774 in net income. That last year's strike proved costly is indicated in the ratio of operating expenses to gross revenues, the percentage for the eight months period being 85.68, compared with 62.34 in the same period in the previous fiscal year, an increase of 23.34%.

THOMAS IRON CO.

⁽¹⁾ **Sale to Syndicate.**—It was announced March 16, 1917, that at a joint meeting held at Easton, Pa., the Board of Directors and stockholders' committee empowered to effect the sale of the Thomas Iron Works, a resolution was adopted by which Mr. Bilyeu, representing a syndicate, becomes the purchaser of the plant as soon as he complies with the arrangements fixed by the committee.

It is understood that a first payment has been made and that the total price to be paid will be \$3,500,000, the original price named in the negotiations.

THOMAS-MORSE AIR CRAFT CO., ITHACA, N. Y.

⁽¹⁾ **Incorporated on Jan. 31, 1917,** in New York, with a capital of \$400,000, to deal in airships, aeroplanes and hydroplanes, motors, engines and devices. Incorporators: J. A. Fried, W. T. Thomas and F. L. Morse, Ithaca, N. Y.

THOMAS PULP & PAPER CO.

⁽¹⁾ **Plans.**—It was stated Jan. 1, 1917, that this company, Vancouver, B. C., recently incorporated with \$2,000,000, had completed plans for the construction of a paper mill at Portland, Ore., to manufacture paper. It is stated the plant will cost \$1,000,000.

THOMPSON (J. WALTER) CO., MANHATTAN, N. Y.

⁽¹⁾ **Capital Reduced.**—On April 16, 1917, the company filed notice at Albany, N. Y., of a reduction in capital stock from \$500,000 to \$250,000.

THOMSON (FRED.) CO., LTD.

⁽¹⁾ **Capital Increased.**—On March 22, 1917, the company filed notice in Canada of an increase in capital stock from \$100,000 to \$250,000.

THORNE (JOHN W.) & CO., INC., BEDFORD.

⁽¹⁾ **Incorporated on March 20, 1917,** in New York, with a capital of \$1,000,000, to act as commission and shipping agent, forwarder, promote and finance mining, agricultural, realty and shipping projects. Incorporators: E. G. Peters, G. H. Makepeace and J. M. Ferry, 120 Broadway, Manhattan, N. Y.

THREE LINK OIL & GAS DEVELOPING CO.

⁽¹⁾ **Incorporated on April 26, 1917,** in Delaware, with a capital of \$500,000, to acquire and develop oil and gas lands. Incorporators: Herbert E. Latter, C. L. Rimplinger and E. L. Miller, Wilmington, Del.

THREE POINT TRUCK CORP.

⁽¹⁾ **Incorporated on March 13, 1917,** in New York, with a capital of \$300,000, to deal in motor vehicles, parts, equipment and accessories. Incorporators: O. Schultheis, G. S. Freeman and S. R. Banks, 51 East 42d Street, New York.

THREE RIVERS GAS CO.

⁽¹⁾ **Merger Planned.**—See Michigan Gas & Electric Co.—Item No. 1.

THREE RIVERS LIGHT & POWER CO.

⁽¹⁾ **Merger Planned.**—See Michigan Gas & Electric Co.—Item No. 1.

TICONDEROGA PULP & PAPER CO.

⁽¹⁾ **Report, Year Ended Dec. 31, 1916,** shows earnings for the year of \$509,675. After deducting \$38,806 for bond interest, and \$15,440 for pfd. dividend, there was a balance of \$455,429 for profit and loss surplus. As the outstanding common stock of the company is only \$500,000, the balance carried forward represented earnings at the rate of no less than 126.5% on the junior security. With a previous balance of \$547,016 total surplus is \$1,002,445.

The company originally issued \$193,000 pfd. stock, but of this all but \$80,800 has been bought in, and it is proposed to retire the balance at an early date, and clear off arrears owing in dividends. These accrued dividends appear among current liabilities at \$79,764.

•TIDE WATER OIL CO.

⁽¹⁾ **Stock Dividend Planned.**—It was announced Feb. 10, 1917, that a special meeting of stockholders of this company had been called for Feb. 20 to authorize an increase in the capital stock from \$30,000,000 to \$40,000,000 and to authorize the directors to distribute any part of the \$10,000,000 increase in the shape of a stock dividend as they may deem advisable. Books close for the meeting Feb. 10.

⁽²⁾ **Statement, Year Ended Dec. 31, 1916,** of this company and subsidiaries, shows earnings, after deducting all operating and marketing expenses, amounting to \$14,476,410. From this amount \$3,452,703 has been written off for depreciation in all departments, leaving net profits of \$11,022,708, or 38.01% on the outstanding capital stock of the Tide Water Oil Co., as compared with 19.25% in 1915.

⁽³⁾ **Consolidated Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$13,023,616, compared with \$4,292,138 Dec. 31, 1915.

⁽⁴⁾ **Stock Dividend.**—Announced Feb. 20, 1917, that this company had authorized an increase in capital stock from \$30,000,000 to \$40,000,000. Of the new \$10,000,000 stock \$2,900,000 will be distributed as a 10% stock dividend on the outstanding \$29,000,000 stock, payable to holders of record Feb. 28.

⁽⁵⁾ **Comment on Yearly Earnings.**—On Feb. 20, 1917, the "Boston News Bureau," in commenting on the 1916 earning statement of this company, said that the gain in profits of almost 200% was due not only to improved earnings from oil, but also to a highly picturesque transaction in oil lands, which the company concluded during 1916.

The company's 1916 net from its oil operations alone would not have been over \$7,000,000, or about 24% on the stock after a normal depreciation charge.

About two years previously the company purchased a parcel of land in the Oklahoma oil fields for less than \$20,000. It developed these fields and struck some remarkable oil wells. After taking out \$1,000,000 profits from this land the company received an offer of \$6,500,000.

JANUARY 1 TO APRIL 30, 1917

000 for the lands and sold them. Practically the entire \$8,500,000 was a clear profit, although not strictly speaking "earnings."

About \$3,000,000 of this oil land sale profit the Tide Water has apparently offset by increasing its depreciation charge. In 1915 the company charged to depreciation the sum of \$411,135, so that the \$3,452,703 charged off in 1916 is an apparent increase above normal of \$3,000,000.

The company's net plant account as of Dec. 31, 1915, was \$23,257,000 and the depreciation charge of the year was therefore equal to almost 15%. A fair normal charge would be 2% or 3%.

—Mar.

¹(1) Capital Increased.—On March 12, 1917, the company filed notice at Trenton, N. J., of an increase in capital stock from \$30,000,000 to \$40,000,000. R. D. Benson is Pres. and Geo. T. Webb, Sec'y.

TIDEWATER POWER CO.

¹(1) Controlling Interest Purchased by Scranton, Pa., Firm.—On April 25, 1917, the "Wall Street Journal" said the controlling interest in this company, Wilmington, N. C., had been purchased by Brooks & Co., of Scranton, Pa. The company controls the street railways in Wilmington, an interurban electric line, the electric and gas properties and 1,500 acres of suburban real estate. L. H. Conklin, general manager of the other Brooks & Co. properties, has taken charge of the Tidewater properties.

TIDEWATER SOUTHERN RY. CO.

¹(1) Sale Planned.—See Western Pacific R. R. Corp.—Item No. 2.

¹(2) Modified Commission Decision.—It was announced Feb. 16, 1917, that the California Railroad Commission had issued a first supplemental order, modifying its recent decision in the application of the company to issue common stock by permitting the company and Byron A. Bearce to terminate the special trust created for \$2,000,000 of its common stock by freeing therefrom 250,000 shares and surrendering and canceling the balance of 1,750,000 shares.

Under the decision, 1,750,000 shares are returned to the treasury and the remaining 250,000 shares created into a special trust, the stock to be withheld from sale for five years. If the properties are sold before five years, the 250,000 shares shall participate in the benefits of the sale only after the balance of the outstanding stock of the company shall have been paid at par.

—Mar.

¹(1) Sale Authorized.—See Western Pacific R. R. Co.—Item No. 2.

TIMKEN-DETROIT AXLE CO.

¹(1) Bonus for Employees.—It was announced March 2, 1917, that a dual bonus plan based upon regular attendance and length of service of employees of this company had become effective as of Jan. 1, 1917.

TIONESTA VALLEY CHEMICAL CO.

¹(1) Sale.—A Warren, Pa., dispatch Jan. 9, 1917, stated that a two-thirds interest in the plant, equipment and property of this company, known as the Mayburg plant, had been sold to T. H. Quinn & Co., of Olean, N. Y., and Wheeler & Dusenbury, of Endeavor, Pa. The consideration is understood to have been \$500,000.

The Mayburg plant was built in 1911 and 1912 at a cost of about \$800,000. It is one of the largest plants in the United States for the manufacture of wood alcohol. Its present capacity is 106 cords a day, and every 24 hours 4,200 bushels of charcoal, 23,000 pounds of acetate of lime, 700 gallons of refined wood alcohol, besides large quantities of creosote oil, are turned out.

TITAN TIRE & RUBBER CO., INC.,

HATAVIA, N. Y.

¹(1) Incorporated on Jan. 17, 1917, in New York, with a capital of \$1,200,000,

to deal in tires, rubber goods and do a general mercantile and contracting business. Incorporators: J. G. Kenlon, J. J. Gray and H. D. Newman, 329 West 48 Street, Manhattan, New York.

TOBACCO CORP. OF AMERICA,

NEW ROCHELLE, N. Y.

¹(1) Capital Increased.—On Dec. 29, 1916, the company filed notice at Albany, N. Y., of an increase in capital stock from \$10,000 to \$1,000,000.

TOBACCO PRODUCTS CORP.

RICHMOND, VA.

¹(1) Incorporated on Jan. 4, 1917, in New York, with a capital of \$50,000,000 to grow, treat and deal in tobacco in all forms. Representative, Gray Miller, 1800 Broadway, Manhattan, N. Y.

¹(2) Merger Completed.—See Melachrine Tobacco Trading Co.—Item No. 1.

¹(3) Distribution Plan.—On Jan. 15, 1917, this company announced a plan by which it would act as the distributor of the brands of all of its subsidiary companies, with the exception of Stephano Bros. and the Standard Tobacco Co. It is believed that this will increase the efficiency in the handling of the company's business. Formerly each of the subsidiary companies took care of its own business.

—Feb.

¹(1) Application to List.—It was announced Feb. 10, 1917, that this company had made application to the New York Stock Exchange to list \$850,000 additional of its pfd. stock.

¹(2) Admitted to List.—It was announced Feb. 15, 1917, that the New York Stock Exchange had admitted to the list an additional \$200,000 of this company's pfd. stock, with authority to add \$650,000, making the total amount authorized to be listed \$8,000,000.

—Mar.

¹(1) Report, Year Ended Dec. 30, 1916, shows net earnings, after paying pfd. dividends, of \$370,624, an increase of \$438,858 over 1915.

¹(2) Earnings on Stock.—It was stated March 1, 1917, that this company's 1916 net of \$370,624 is equal to 5.42% on the \$16,000,000 common stock, compared with 2.6% earned on the same stock in 1915.

¹(3) Acquisition.—It was announced March 1, 1917, that this company had taken over the Prudential Tobacco Co., which has an output of about 120,000,000 cigarettes annually. The transaction was entirely a cash one. No new stock will be issued for the purchase.

The Prudential Tobacco had been established for about 25 years. The company had a large supply of Turkish tobacco on hand, which, in view of the leaf situation, made the purchase particularly attractive.

With the purchase of this company the Tobacco Products Corp. owns seven operating tobacco concerns.

The purchase of the Prudential Co. became operative as of March 1.

¹(4) Balance Sheet, as of Dec. 30, 1916, shows a profit and loss surplus of \$2,022,274, compared with \$1,151,650 Dec. 30, 1915.

¹(5) Statement by Treasurer.—It was announced March 1, 1917, that in remarks to stockholders at the annual meeting of this company Treas. Gray Miller said: "Your company has acquired and now owns all of the \$1,500,000 par value 7% cumulative pfd. stock, and all but \$200,000 par value of the \$2,000,000 par value of the common stock of Schinasi Bros., Inc., a New York corporation, which owns all of the assets, including good-will trademarks, etc., of the old established business of Schinasi Bros., cigarette manufacturers, New York City.

"This transaction has been consummated by the expenditure by your company of \$3,100,000 in cash, and the sale of \$200,000 par value of its own pfd. stock, which it had from time to time purchased with its surplus cash in the open market.

"In August, 1916, your company issued \$150,000 par value of its pfd. stock in exchange for \$150,000 par value of the 7% cumulative pfd. stock of Stephano Brothers, Inc. Your company's proportionate holdings of the outstanding stock of Stephano Brothers, Inc., have not, however, been increased, in that \$300,000 par value of its holdings of 1st pfd. stock and \$10,000 par value of its holdings of 2nd pfd. stock in that company have been redeemed by that company at par out of its surplus cash.

"During the year 1916 your company commenced to extend its export business, and the progress made in that connection has been satisfactory.

"Only such earnings of the subsidiary companies as have been declared as dividends to your company are included in this statement."

¹(6) Initial Dividend on Common Predicted.—On March 17, 1917, the "Wall Street Journal" said that in connection with strength of both common and pfd. stocks of this company it was persistently reported that an initial dividend on the junior issue was not far off.

In the year ended Dec. 31, 1916, the company earned close to 6% for its common shares, as compared with 2.6% in 1915, and less than 2% in 1914. Earnings in the closing quarter of 1916 ran at the rate of 8% for the common.

It should be remembered that the company in 1917 will have the added revenue of the Prudential Tobacco Co., taken over March 1, and a full twelve months earnings of Schinasi Bros. Tobacco Products took over Schinasi, a big earner, during the first part of 1916, but only received dividends from this source during a nine months' period.

Another factor of prime importance in estimating earnings for the current year is the new price list on cigarettes, which should mean a considerable increase in earnings for the Products concern.

TODD SHIPYARDS CORP.

A complete description of this company appears in the "Miscellaneous Book" in your card cabinet.

¹(1) Report, Six Months Ended Dec. 31, 1916, shows net earnings of \$2,140,954, after depreciation and organization expenses, etc. Surplus after charges is \$1,359,967, or \$31.09 per share on 87,470 shares outstanding. During this period dividends amounting to \$303,723 were paid, leaving a surplus of \$1,056,244.

¹(2) Large Tonnage of Steel to be Used.—Announced on March 29, 1917, that this company would use 21,000 tons of steel in the first seven ships under contract. It is understood that steel ship contracts are being taken on a basis of \$155 a ton.

—Apr.

¹(1) Pres. Todd Says Yards Are Filled With Work.—On April 17, 1917, Wm. H. Todd, Pres. of this company, after an inspection of the Seattle and Tacoma yards, said: "The yards of the Seattle Construction Co. at Tacoma and Seattle are filled with work. There is now over \$30,000,000 worth of construction under way, including six ships for the Cunard Co. We were asked to take some wooden ship construction, but as we intend to confine ourselves to steel ships, we declined the orders. New shipyards on the Pacific coast have taken away some of our men, but there is still a fair supply of labor."

TOLEDO-DETROIT R. R.

¹(1) Earnings, February.—Gross, \$20,567; net after taxes, \$4,332.

Two Months.—Gross, \$47,354; net after taxes, \$19,377.

TOLEDO SEED & OIL CO., TOLEDO, O.

(1) Incorporated in April, 1917, in Ohio, with a capital of \$300,000. In-

corporators: Geo. A. Vradenburg, W. H. Prentiss, E. R. Uehlinger, D. D. Baldwin and M. E. Kennedy.

TOLEDO SHIPBUILDING CO.

(1) Contracts Received.—Announced on March 30, 1917, that this company had received contracts for 7 ships of a total gross tonnage of 19,000 tons. Six of the ships are for the Arthur K. Lewis Co., of New York, and one is for the Great Lakes Steamship Co.

TOLUCA MINING CO., (THE)

TOLUCA, ILL.

(1) Incorporated in April, 1917, in Illinois, with a capital of \$300,000, to engage in a mining business.

TOMBOY GOLD MINES CO., LTD.

(1) Operations, December, 1916.—It was stated Jan. 10, 1917, that this company, under the management of the Exploration Co., Ltd., of London, had reported for December: Mill ran 29 days, crushed 13,000 tons of ore, yielding bullion \$38,100; concentrates shipped, \$55,000; total, \$93,100; expenses, \$64,700; profit, \$28,400; profit from other sources, \$1,500.

• TONOPAH BELMONT DEVELOPMENT CO.

(1) Statement, Quarter Ended Nov. 30, 1916.—The combined endorsed statement of operations of this company and Belmont Milling for the quarter ended Nov. 30, 1916, compares with same quarter in 1915 as follows:

	1916	1915
Received for ore, bullion, etc.	\$641,591	\$526,355
Mtn., mill and admin. exp.	342,216	339,528
Net earnings	299,375	186,826
Misc. income	8,964	9,353
Total net income	308,340	196,180

(2) Net Profits, December.—It was announced Jan. 16, 1917, that the net profits of this company for December, 1916, were \$114,800, against \$121,000 for November and \$81,135 in December, 1915.

—Apr.

(1) Statement of Operations, Quarter Ended Feb. 28, 1916, including Belmont Milling Co., shows total net income of \$316,538. A total of \$658,076 was received for ore, bullion, etc. Expenses of mining, milling and administration amounted to \$349,513, leaving net earnings for quarter of \$308,563. Miscellaneous income amounted to \$8,276. Available resources on Feb. 28 amounted to \$1,256,511.

TONOPAH EXTENSION MINING CO.

(1) Earnings Statement, January, 1917, shows earnings amounting to \$163,827. Current expenses amounted to \$92,701, leaving a balance of \$71,126.

—Apr.

(1) February Receipts.—On March 31, 1917, the company reported that receipts from operations of mine and mill for month of February, 1917, amounted to \$121,439, current expenses, \$83,789, and operating profit, \$37,649.

• TORONTO RY. CO.

(1) Gross Receipts, December and Year 1916.—It was stated Jan. 5, 1917, that the gross receipts of this company for 1916 amounted to \$5,822,907.28, an increase of \$212,608.68, while the city's percentage amounted to \$910,080.90, an increase of \$92,436.24, as compared with 1915.

The receipts for December were \$626,795.15, and the city's percentage \$63,297.34.

—Feb.

(1) Report, Year Ended Dec. 31, 1916, it was stated Feb. 7, 1917, shows a recovery in earnings as compared with 1915, gross income being \$279,025, or 4.9% higher, net earnings after operating and maintenance costs, \$178,950, or

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

7.3% higher, and surplus available for dividends, \$148,303, or 12.4% higher. Gross income remains below that of 1914, although the balance before dividends was higher.

As compared with the banner year of 1913, when the company earned about 15% on the capital then outstanding, against 11.2% in 1916, there was a shrinkage of close to \$300,000 in the balance available for dividend distribution.

(2) Income Account, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross	\$5,973,161	\$5,694,136
Net	2,622,504	2,443,524
Surp. after chgs. & divs.	381,968	234,537

(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$5,408,875, compared with \$5,028,907 Dec. 31, 1915.

• TOBRINGTON CO.

(1) Extra Dividend on Common.—Announced March 13, 1917, that this company had declared the regular quarterly dividend of 3% and an extra of 2% on the common stock, payable April 2 to stock of record March 23.

TOULOUNNE RIVER GOLD MINES, INC.

(1) Incorporated on March 9, 1917, in Delaware, with a capital of \$1,000,000, to acquire and develop mining lands of all kinds. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

TOWN TAXI CO., INC., NEW YORK.

(1) Capital Increase.—On Jan. 4, 1917, this company, Manhattan, N. Y., filed notice at Albany, N. Y., of an increase in capital from \$200,000 to \$500,000.

TRACY & AVERY CO., MANSFIELD, O.

(1) Capital Increased.—On March 23, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$150,000 to \$300,000.

TRANSMISSISSIPPI TERMINAL E. CO.

(1) Expansion.—It was announced Feb. 8, 1917, that this company plans for a new train and classification yard at Westwego, La., at a cost of about \$150,000. It now has a small yard and elevators to handle its export grain and cotton business. Under the same plan it is also proposed to remove the shops and roundhouse from Goldsboro, on the Mississippi River immediately opposite New Orleans, to Westwego.

It is further planned to build a large warehouse on the New Orleans side. J. A. Shepherd is Pres. and Gen. Mgr. of the company.

TRANS-ST. MARY'S TRACTION CO.

(1) Foreclosure Proceedings.—It was stated March 16, 1917, that this company, of Sault Ste. Marie, Mich., had defaulted on the interest due on its 5% 15-year bonds Jan. 1, 1917, and that as a result the National Trust Co., of Toronto, Ont., as trustee for the bondholders, would institute proceedings in the Federal courts of the United States for the foreclosure of the mortgage. It was reported that Chicago persons were figuring on purchasing the property.

TRANSUE & WILLIAMS STEEL FORGING CORP.

(1) Earnings, Year Ended Dec. 31, 1916.—It was stated Jan. 10, 1917, that gross sales of this company for the year were \$6,149,690, and net earnings were \$1,287,232, equal to \$12.87 per share on the 100,000 shares of stock outstanding. Dividends are being paid quarterly at the rate of \$4 per annum.

Gross business for the last quarter of 1916 was by far larger than for the preceding quarters, amounting to 30% of the full year's business. Gross for the year increased 60% over 1915 and net gained 91%.

The company is the largest factor in the drop-forging business in the United States, and its stamping department has been growing rapidly. Increased facilities will enable the company henceforth to handle orders from the railroads and equipment companies. Heretofore it has been necessary to restrict this on account of the more urgent demand from the automobile companies.

(2) Earnings, Two Months and Year Ended Dec. 31, 1916.—It was announced Jan. 18, 1917, that the net earnings of this company for the two months ended Dec. 31, 1916, amounted to \$269,657. The company in October, 1916, took over the Transue & Williams Co., and the above represents its first two months of operations. This is at the rate of \$16 per annum on the 100,000 shares of stock outstanding. Gross business in these two months was \$1,219,368, or at the rate of \$7,300,000 for 12 months.

Earnings for the full year 1916 were \$1,287,232, or \$12.87 per share, on which dividends are being paid at the rate of \$4 per annum. Gross business for the year was \$6,149,690. The Transue & Williams Co. had been operating since 1894.

As of Dec. 31, 1916, the company had on hand cash and receivables of \$1,890,000. Net working capital was \$2,041,000.

(3) Admitted to List.—Announced Jan. 25, 1917, the New York Stock Exchange had listed this company's temporary certificates for 100,000 shares, without par value.

—Feb.

(1) Officers and Directors Re-elected.—It was announced Feb. 6, 1917, that at the first annual meeting of this company officers and retiring directors were re-elected.

—Mar.

(1) Operations.—It was stated March 20, 1917, that the railroad freight car shortage and traffic congestion had shown decided betterment in the Middle West, and operations of this company, located at Alliance, Ohio, would be practically at full capacity by the end of March.

The company is sold ahead well into 1918, and earnings will depend upon the rate at which shipments can be maintained. The full \$4 dividend requirements on the 100,000 shares of stock outstanding were practically earned in the first quarter.

(2) Earnings Discussion.—It was stated March 23, 1917, that earnings of this company in March were running at a rate justifying the prediction that they would exceed the combined profits of January and February. Operations are steadily expanding, and by June 1 the company will have in use 80 drop forging hammers, against about 70 a few months previously.

Further increase in output will be made as eight more hammers come into operation, making this company the largest factor in the custom drop-forging business in the United States in point of volume of forging tonnage.

(3) Extra Dividend Predicted.—It was stated March 23, 1917, that directors of this company would meet for dividend action March 30. As the company in the first three months of 1917 earned practically the full \$4 dividend requirements for the year on the 100,000 shares outstanding, it would not be surprising if the board decided on an extra disbursement to stockholders.

—Apr.

(1) April Profits Estimated at \$125,000.—Dow, Jones & Co., April 26, 1917, stated that gross business of this company for April, based upon shipments up to the 25th, could exceed \$500,000, and on this business net profits are expected of approximately \$125,000. This item of profits compares with \$107,000 in March and \$142,000 last November, before the freight car congestion became acute.

Production of the company has been steadily increasing as the freight congestion has diminished. Once transportation facilities are normal a

monthly gross of between \$700,000 and \$750,000 is expected, with resultant net profits of \$140,000 to \$175,000.

Earnings in 1916 were equal to \$12 a share on the 100,000 shares of stock outstanding, and total net in 1917 is conservatively predicted of \$1,500,000, which would be equal to \$15 a share.

TREMLEY OIL CO., NEW YORK.

(1) New Name.—See Oil Products Corp.—Item No. 1.

TREMONT & SUFFOLK MILLS.

(1) Financial Statement as of Dec. 31, 1916, discloses total assets of \$5,068,150, against \$4,803,547 the previous year. Cash and debts receivable stand at \$1,061,456, against \$1,198,303; and merchandise, material and stock in process amount to \$1,444,694, against \$1,085,243. The surplus is placed at \$3,066,150, against \$2,893,547 in 1915.

—Apr.

(1) Balance Sheet, as of Dec. 31, 1916, shows profit and loss surplus of \$3,066,150, compared with \$2,893,547 in 1915.

TRENTON POTTERIES CO.

(1) Extra Dividend on Pfd.—Announced Jan. 19, 1917, that this company had declared the regular quarterly dividend of 1½% and an additional dividend of ½% of 1 on its non-cumulative pfd. stock, payable Jan. 25 to stock of record Jan. 18.

—Apr.

(1) Extra Dividend on Pfd.—On April 21, 1917, this company declared the regularly quarterly dividend of 1½% and an extra of ½% on the pfd. stock, both payable April 25, 1917, to stock of record April 20.

TRIANGLE FILM CORP.

(1) Stock Increase Planned.—It was stated Jan. 20, 1917, that stockholders of this company, at a meeting at Richmond, Va., Feb. 2, would consider increasing the stock from \$5,000,000 to \$8,000,000. A sufficient proportion of the stockholders have announced their concurrence in the proposition to warrant its adoption.

Most of the new capital stock will be used to acquire the assets or stock of the producing companies supplying film to Triangle exchanges. The amount not used will be held in the treasury for corporate purposes.

It is understood that the property of the New York Motion Picture Corp. is to be taken over on the basis of an exchange of stock.

—Mar.

(1) To Absorb Manufacturing Agencies.—In March, 1917, H. E. Aitken, Pres. of this company, issued a circular to holders of the voting trust certificates for stock of the corporation, outlining plans for the absorption by the Triangle corporation of its manufacturing agencies. For the purpose of accomplishing this result the directors and stockholders have increased the authorized capital stock from \$5,000,000 to \$8,000,000, all common stock of the same class as the stocks heretofore issued, and the directors have authorized the acquisition of the capital stock of certain manufacturing corporations now supplying the product of the Triangle corporation and the payment therefor by the issue of Triangle corporation stock upon the following basis:

(1) For each \$100 par value stock of the New York Motion Picture Corp. (which has a capital of \$1,000,000), or voting trust certificates therefor, 24 shares of the stock of the Triangle Film Corp. of the aggregate par value of \$120.

(2) For each \$100 par value preferred stock of Reliance Motion Picture Corp. (which has a capital of \$1,000,000, of which \$200,000 is preferred and \$800,000 common), or voting trust certificates therefor, 13 shares of stock of the Triangle Film Corp. of the aggregate par value of \$65.

JANUARY 1 TO APRIL 30, 1917

(3) For each \$100 par value of common stock of Reliance Motion Picture Corp., or voting trust certificates therefor, 8 shares of stock of the Triangle Film Corp. of the aggregate par value of \$80.

(4) For each \$100 par value of stock of the Majestic Motion Picture Co. (which has a capital of \$120,000) \$200 of series "B" notes of Triangle Distribution Corp., which are now owned by the Triangle Film Corp., and 62 shares of the stock of Triangle Film Corp. of the aggregate par value of \$310.

TRIANGLE OIL & REFINING CO.

(1) Incorporated on March 29, 1917, in Delaware, with a capital of \$1,000,000, to produce, refine and deal in and with petroleum and its products. Incorporators: Chas. B. Bishop, M. L. Gatchell and E. E. Bishop, Wilmington, Del.

TRI-BULLION SMELTING & DEVELOPMENT CO.

(1) Report, Year Ended Dec. 31, 1916, shows total receipts of \$56,241, total disbursements of \$40,503 and balance of \$6,738.

(2) New Directors.—It was announced March 17, 1917, that at the annual meeting of stockholders of this company, held at Phoenix, Ariz., the management voted 456,000 shares and the opposition 306,000. The management elected five directors: Judson G. Wall, Gustavus Taylor, S. F. Dominick, John M. Henderson, and H. V. M. Dennis, Jr. The opposition elected four directors: Geo. C. Van Tuyl, Jr., Willis G. Nash, Arthur S. Somers, and Frank Coenen.

TRI-CITY RY. CO., ILLINOIS.

(1) Stock Increase.—See Tri-City Ry. & Light Co.—Item No. 1.

• TRI-CITY RY. & LIGHT CO.

(1) Stock Increase by Subsidiaries.—It was announced March 13, 1917, that the outstanding common stock of three subsidiaries of this company, controlled by United Light & Rys. Co., would be increased to cover recent expenditures made on their properties.

The Tri-City Ry. Co., of Illinois, will issue \$300,000, making its outstanding capital stock \$3,300,000; the People's Power Co. will issue \$275,000, making its capital stock \$3,275,000; the Moline, Rock Island & Eastern Traction Co. will issue \$20,000, making its capital stock \$195,000.

All the new stocks will be taken by the controlling companies to reimburse their treasuries for advances made for capital expenditures by the subsidiaries.

TRIMOUNTAIN MINING CO.

(1) Dissolution.—Announced at Houghton, Mich., Jan. 18, 1917, that Judge O'Brien had ordered the dissolution of this company and had appointed Frederick J. Bowden as receiver, subject to his acceptance.

TRINIDAD CENTRAL OILFIELDS, LTD.

(1) New Company.—It was announced March 31, 1917, that this company is a new British company with a capital of \$1,750,000, to take over the assets of the Trinidad Central Oilfields, Ltd., the Cruse Syndicate, Ltd., the Oil Concessions of Mayars (Trinidad), Ltd., and the Orlotre Syndicate, Ltd.

The business of refiner, producer, manufacturer, importer, exporter and dealer in mineral oils, natural gas, asphalt, pitch and other products will be carried on. The charter provides that as long as the company does business in Trinidad Island it shall remain a British subject, with a British chairman and a British majority on the board.

TRINIDAD ELECTRIC CO.

(1) Earnings, January, 1917, totaled \$23,179 gross, compared with \$21,972 for the same month in 1916, an increase of \$1,207. Net earnings amounted to \$9,690, as against \$8,385, an increase of \$1,305.

TRINIDAD MANGANESE CO.

(1) Incorporated on Feb. 19, 1917, in Delaware, with a capital of \$2,500,000, to carry on business of milling, mining and refining of copper, lead, zinc, etc. Incorporators: F. D. Buck, M. L. Harty and Geo. W. Dillman, Wilmington, Del.

TRIUMPH COMPOUND ENGINE CO.

(1) Incorporated on April 4, 1917, in California, with a capital of \$1,250,000. Incorporators: W. N. Hobart, L. A. Maddox, J. C. Hobart, J. H. Elcker-shoff and T. M. Hinkle.

TRIUMPH GOLD MINING & MILLING CO., OROVILLE, CAL.

(1) Issue of Stock for Claims Permitted.—On April 21, 1917, the "San Francisco Chronicle" stated that this company had been permitted by Commissioner of Corporations H. L. Carnahan to issue 70,000 shares to M. B. Sears and B. G. Sears in exchange for mining claims and timber land near Lumpkin, Butte County, and to sell 20,000 shares at 85 cents per share for the purpose of continuing development work and installing additional machinery.

TROXEL MANUFACTURING CO., ELYRIA, O.

(1) Incorporated on Jan. 28, 1917, in Ohio, with a capital of \$1,000,000, to deal in leather goods. Incorporators: Lee Stroup, R. H. Rice, F. L. Hamel, A. J. Plocher and J. W. Schmauch.

(2) Initial Dividend.—Announced Feb. 2, 1917, that this company had declared an initial quarterly dividend of 2½%, payable May 1.

(3) Status.—It was stated Feb. 2, 1917, that this company is a recapitalization of the Elyria, O., company of the same name. Plans were made for listing the shares on the Cleveland Stock Exchange. It is said to be the largest producer of bicycle saddles and tool kits in the United States.

The officers include: D. S. Troxel, Elyria, O., Pres.; E. E. Creswell, Vice-Pres.; L. B. Fauver, Sec'y, and J. W. Brandt, of Elyria, Treas. A. E. Taylor, of Elyria, and Forrest A. Graves, of Cleveland, have been made directors.

TROY-ARIZONA COPPER CO.

(1) First Shipment of Copper Ore.—It was announced Jan. 31, 1917, that this company on that date made its first shipment of ore. Shipments are to be made weekly. Transportation is to be made to the American Smelting & Refining smelter at Hayden.

TRUMBULL STEEL CO.

(1) Statement by President.—It was announced at Youngstown, O., Feb. 9, 1917, that gross business at the annual rate of \$15,000,000 was reported by Jonathan Warner, Pres. of this company, following its annual meeting. Sheet and tin plate orders to the amount of \$8,000,000 are on the company's books.

Earnings the last two months of 1916 were greater than during the first six months of that year. In addition to retiring \$250,000 of bonds, all outstanding, and paying common and pfd. dividends, over \$1,500,000 was carried to surplus, which now totals \$1,800,000.

Earnings available for average outstanding common in 1916 were \$56.12 a share. The inventory of the company is carried at \$1,500,000 less than current market prices for materials. Outstanding common has a book value of between \$160 and \$170 a share. Quick assets exceed quick liabilities \$3,000,000.

By end of current year the company will have outstanding \$9,250,000 of stock. It has been in operation but four years, starting with \$1,000,000 capital.

—Apr.

(1) Sale of Company Planned.—See Youngstown Sheet & Tube Co.—Item No. 1.

(2) Sale Plan Denied.—See Youngstown Sheet & Tube Co.—Item No. 2.

TUBELESS TIRE & RUBBER CO.

(1) Capital Increased.—On Jan. 15, 1917, notice was filed at Columbus, O., of an increase in capital stock of this company from \$75,000 to \$1,000,000.

TUCO PRODUCTS CORP., MANHATTAN, N. Y.

(1) Incorporated April 21, 1917, in New York, with a capital of \$500,000, to manufacture and deal in railway cars, doors and plastic flooring. Incorporators: H. G. Wenzel, W. H. O'Neill and J. Carty, 46 Cedar St., New York.

TUJUNGA WATER CO.

(1) Bond Issue Protest.—It was announced Jan. 25, 1917, that the city of Los Angeles, Cal., had filed with the California Railroad Commission a protest against the granting to this company authority to sell additional bonds of a value of \$150,000. The application of the company says that it owns valuable water and water rights in the Big Tujunga Canyon; that its present system does not pay interest on investment; that extensive improvements are needed, and that it can sell the bonds for 90 cents on a dollar.

TUNGSTEN MOUNTAIN MINES CO.

(1) Successor Company.—It was announced at Boulder, Col., Jan. 4, 1917, that this company had been formed as a reorganization of an old company in that district. The policy of the management of this company is to carry the development forward on a large plan. Little additional surface exploration will be done. The area will be under-

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

cut by two tunnels, one 1,000 feet above the other. These tunnels will explore the territory, and will give the avenues into the mines for lateral development. At their portals will be erected necessary mills, storehouses, power plants and shops.

TUOLUMNE COPPER MINING CO.

¹(1) Operations.—On Feb. 5, 1917, a Butte, Mont., dispatch said: "South cross-cut on the 700-foot level of the Tuolumne's main range mine has opened a heavy flow of water, which is believed to indicate the proximity of one of the fissures in the Roy Omore claims, the outcroppings of which indicate a vein of considerable size."

—Mar.

¹(1) Report, Year Ended Dec. 31, 1916, shows production of 26,371 tons of ore, from which were realized 1,403,999 pounds of copper, 76,245 ounces of silver and 100 ounces of gold.

Net smelter returns were \$470,282. Disbursements for mining development and administration expenses were \$283,831.

¹(2) Acquisition Offer.—It was stated March 12, 1917, that following the annual meeting of this company the re-elected directors voted to offer one share of Tuolumne stock for four shares of Colusa Leonard, or one share of Tuolumne for three shares of Butte Maine range stock, the offer to hold good until April 1.

—Apr.

¹(1) Hoisting Plant Ordered for Sinbad Shaft.—The "Boston Daily Advertiser" April 25, 1917, stated that this company had ordered a large electrical hoisting plant for its Sinbad shaft. In the east side properties where the Spread Delight vein disclosed one shoot of ore 35 feet wide and another 15 feet. The hoist will be a counterpart of Butte & Superior's new engine at latter's No. 2 shaft and will have capacity for 4,000 feet depth.

TURNER BROS., CANADA, LTD.

¹(1) Change in Name.—Announced Dec. 18, 1916, at Montreal, Canada, that letters patent had been issued changing the corporate name of this company to

TUXPAM STAR OIL CORP.

¹(1) Incorporated on Feb. 2, 1917, in Delaware, with a capital of \$1,000,000, to acquire and develop oil lands. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

TWIN BUTTES WATER CO.

¹(1) Incorporated in April, 1916, in California, with a capital of \$750,000. Directors: W. J. Hole, S. K. Rindge, R. W. Voris, T. C. Jameson, G. R. Freeman, Wm. Sargent and W. P. McVlaskey.

TWIN CITY BELT RY. CO.

¹(1) New Company.—It was announced Jan. 15, 1917, that this company had been incorporated in Minnesota to take care of increasing business in St. Paul and vicinity. The Great Northern, Northern Pacific and Burlington Roads are the incorporators. Ralph Budd, assistant to the Pres. of the Great Northern, is Pres.

Capital stock of the corporation is only \$100,000, but the authorized liability and amount of mortgage and indebtedness is \$10,000,000. The corporate existence is perpetual and the business will be to offer railroad terminal and freight transfer service from Inver Grove through Dakota, Ramsey, Washington, Hennepin and Anoka Counties.

The company will construct the first portion of its belt line to Gloucester, near White Bear, immediately, providing for ultimate double-tracking.

• TWIN CITY RAPID TRANSIT CO.

¹(1) Retiring Directors Re-elected.—It was announced Jan. 23, 1917, that at the

annual meeting of this company the retiring directors were re-elected, but the vacancy caused by the death of Wm. A. Read was not filled. It was stated that the annual report would be issued Jan. 23.

¹(2) Income Account, Year Ended Dec. 31, 1916, compares, as follows:

	1916	1915
Gross	\$10,188,054	\$9,453,964
Net after taxes	3,225,313	2,701,882
Surp. after fixed charges	2,237,548	1,712,275
Bal. aft. com. & pfd. divs., etc.	603,548	82,359

¹(3) Earnings on Stock.—It was stated Jan. 25, 1917, that after deducting the 7% dividend on \$3,000,000 pfd. stock, this company's balance, \$2,027,548, for the 1916 year, is equal to 9.22% on the \$22,000,000 common stock, against 8.53% the previous year.

¹(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,368,763, compared with \$764,890 Dec. 31, 1915.

¹(5) Statement by President.—On Jan. 25, 1917, it was stated that Pres. Lowry, of this company, in his annual report to the stockholders, said that the year ended Dec. 31, 1916, had been a prosperous one, and in view of the increase in earnings and the higher cost of living an increase of 2 cents per hour had been authorized in the wages of platform men, effective Oct. 1.

Progress was made in adjusting the franchise of the Minneapolis Street Ry. Co., and the year was devoted to making a valuation of the property of the company for the purpose of adjusting the franchise contract.

Pres. Lowry said that the strength of the company lies in the excellent physical condition of its property, and the fact that it desires full publicity in regard to all matters, believing that the better understanding the people of Minneapolis have of actual conditions, the more surely will an equitable agreement be reached.

In the year the company charged into operating expenses \$1,122,200 for depreciation. Now construction included 4.32 miles of track and 63 new cars were ordered, but delivery on a part of these had been delayed. The company purchased additional property for storage of cars in Minneapolis at a cost of \$85,048 and practically acquired all the land in St. Paul for a new operating station at a cost of \$40,000.

In 1916 dividends totalling \$1,530,000 were paid, being 7% on the pfd. and 6% on the common stock. The company carried 199,848,096 revenue passengers in 1916, compared with 185,654,985 in 1915, and 74,425,935 transfer passengers, compared with 69,259,787. In 1916 the ratio of operating expenses to gross revenues was 68.17%, compared with 71.24% in 1915. The company now operates 442 miles of track, occupying 234 miles of streets.

The gross revenue per mile of track operated in 1916 was \$22,779 and the gross revenue per mile of streets occupied was \$43,290.

The company's balance sheet for Dec. 31, 1916, showed it to be in excellent financial condition, with current assets of \$1,996,948, of which \$1,165,140 was in cash, against current liabilities of but \$421,494.

• UNDERWOOD TYPEWRITER CO.

¹(1) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Net earnings	\$2,548,671	\$1,464,787
Net profits	2,379,738	1,336,586
Bal. after pfd. divs.	2,076,988	1,019,836
Surp. after com. div. and employes' bonus	1,401,000	679,836

¹(2) Earnings on Stock.—It was stated Feb. 13, 1917, that this company's 1916 balance of \$2,076,988, after pfd. divs., is equal to 24.43% on the \$8,500,000 common stock, compared with 12% earned on the same stock in 1915.

¹(3) Statement by President.—It was announced Feb. 13, 1917, that Pres. John T. Underwood, of this company, in his annual statement to stockholders, said: "The selling organization throughout the domestic branches of the company has been greatly strengthened and in point of sales the showing is the best the company has ever made. The foreign business has shown equally gratifying results."

JANUARY 1 TO APRIL 30, 1917

"During the year four new sections have been added to the plant at Hartford. These buildings, embracing something more than six acres of additional floor space, were entirely completed in the month of December, and the company is commencing to receive the benefit of an increased output of machines by reason of these added facilities.

"While it is difficult in existing conditions to forecast the future, the current business of the company represented by orders actually in hand and carried over from last year was never larger, and we believe we are justified in repeating the statement of last year, that our reports all indicate a satisfactory output for the year 1917."

"(4) Comment on Annual Report.—On Feb. 14, 1917, the "Wall Street Journal" stated that this company had earned \$20.98 a share on its \$3,500,000 common stock, after a special bonus to employees, compared with \$12 a share in 1915, and \$16.27 a share in 1912, its best previous year.

Earnings on the junior stock before deducting the employees' bonus, were equal to \$24.43 a share, or more than double those of 1915.

During the seven years of its existence the company has reported average profits on its common stock of \$12.60 a year.

The balance sheet shows that working capital at the close of 1916 had been increased to \$7,463,811, against \$6,598,623 in 1915. Cash on hand on Dec. 31, 1916, was \$1,714,020, against \$1,035,174 at the end of 1915. An item of \$900,000 of notes payable shown a year previously was entirely eliminated during 1916.

Book value of the common stock on Dec. 31, 1916, was \$71.16 a share, against \$55 a year before. This is making no allowance for the book value of patents, trade-marks and good-will, carried at \$7,995,720, or \$94 a share.

Business now on hand is the largest in the company's history and there is every reason to believe that 1917 will be as profitable as was 1916.

—Mar.

"(1) Additional Common Stock Listed.—On March 28, 1917, the New York Stock Exchange admitted to the list \$500,000 additional common stock of this company, making the authorized amount to be listed \$9,000,000.

UNDERWRITERS SYNDICATE, KITTERY, ME.

"(1) Incorporated in February, 1917, in Maine, with a capital of \$500,000, to engage in a general brokerage and commission business and deal in stocks, bonds, etc.

UNEEDA BREWING CO.

"(1) Conversion Into Match Factory.—It was stated Jan. 10, 1917, that this company, Wheeling, W. Va., would convert its brewery into a factory with a capacity of 10,000,000 matches daily.

UNEXCELLED MFG. CO., INC.

"(1) Organization Plan Ratified.—It was announced Jan. 25, 1917, that at the annual meeting of the stockholders of this company the proposition to reorganize the corporation was ratified. The plan includes provisions for the change of capital stock from \$1,750,000, divided into 175,000 shares, with a par value of \$10 each, to 200,000 shares having neither nominal nor par value. The articles of incorporation will be revised and shall state the amount of capital to carry on business to be \$1,000,000. The directors were authorized to issue and sell all or any part of the newly authorized shares.

UNION AMERICAN CIGAR CO.

"(1) Extra Dividend.—Announced Jan. 30, 1917, that this company had declared a regular pfd. dividend of 1½% and an extra of 1½%, the latter being the dividend on Aug. 15, 1916, which was at that time passed. Both payable Feb. 15. Books close Jan. 27 and reopen Feb. 16.

• UNION BAG & PAPER CO.

"(1) Stricken from List.—Announced Jan. 3, 1917, that the New York Stock Exchange had stricken from the list the Union Bag & Paper Co. old pfd. stock.

• UNION BAG & PAPER CORP.

"(1) Acquisition.—It was announced Jan. 12, 1917, that this company had purchased the capital stock of the Badger Bag & Paper Co. of Wausau, Wisconsin. The Badger Co. manufactures paper bags and has a capacity for 3,000,000 daily.

This is the second acquisition by the Union Bag & Paper Corp. since its incorporation. The other company acquired was the Cheboygan Paper Co. of Michigan.

There will be no change for the present in the management or output of the Badger Co.

The St. Maurice paper mill in Canada, one of the larger subsidiaries of the Union Bag & Paper Corp., is expected to commence operations before Feb. 1.

"(2) Extra Dividend.—Announced Jan. 24, 1917, that this company had declared an extra dividend of 2%, payable Feb. 15 to stock of record Jan. 31.

"(3) Announcement to Stockholders.—It was stated Jan. 24, 1917, that in connection with the extra dividend of 2% declared by this company the following announcement was issued: "Stockholders in the old Union Bag & Paper Co. will observe that the above dividend is payable only to stockholders in the new corporation; so that in order to receive it they must exchange their certificates for certificates in the new corporation at the office of the Empire Trust Co., 120 Broadway, New York, on or before Jan. 31, 1917."

—Feb.

"(1) Plant of Subsidiary Started.—See St. Maurice Paper Co., Ltd.—Item No. 1.

"(2) Dividends.—It was announced Feb. 20, 1917, that this company had paid a second quarterly dividend of 1½%, payable March 15 to stock of record March 5.

This dividend is also payable to persons to whom stock of the corporation shall be issued of record on and after March 15 in respect to stock therefor or common stock of the Union Bag & Paper Co., payment to be made on March 15 in respect to stock therefor issued, and upon issuance in respect to stock thereafter issued. Approximately 95% of the new stock has already been issued.

The initial quarterly dividend of 1½% was declared on the company's stock three months previously.

"(1) Report, Year Ended Jan. 31, 1916, shows income account which compares with the earnings of the Union Bag & Paper Co., the old company, as follows:

	New Co.	Old Co.
1917		1916
Net earnings.....	\$2,832,277	\$363,909
Bal. after chgs..	1,582,792	†84,480
Surp. after divs.	1,232,792	†84,480
†Deficit.		

"(2) Earnings on Stock.—It was stated March 22, 1917, that this company's 1917 balance after charges of \$1,582,792 is equal to 18.89% on \$9,367,487 capital stock outstanding.

"(3) Balance Sheet, as of Jan. 31, 1917, shows a profit and loss surplus of \$1,232,792, compared with Union Bag & Paper Co. surplus of \$1,661,380 Jan. 31, 1916.

"(4) Statement by President.—It was stated March 22, 1917, that Pres. E. M. Wallace, of this company, in his annual remarks to stockholders said, in part: "The fiscal year ending Jan. 31, 1917, was the most prosperous period in the company's history and reflects the unusual business conditions prevailing generally throughout the country. The company is fortunate in controlling a large part of its raw material requirements, which fact, together with the economies and improvements made in its plants during the last few years, has contributed materially in profits.

"During the year the company's capitalization was reduced from \$27,000,000 to \$10,000,000 by allowing 80% of the new stock for the old preferred and 20% for the old common.

"On account of the unusual conditions in the paper industry and the fact that the company was a large purchaser of paper outside of its own manufacture, it became necessary, during the year, in order to insure its requirements, to acquire new properties, for which was expended \$766,190. Bonds to the amount of \$1,000,000 were assumed in the purchase of the Cheboygan Paper Co.

"During the last quarter the stock of the company was put on a 6% dividend basis, and an extra dividend of 2% was declared in January.

"The St. Maurice Paper Co., Ltd., of which Union Bag & Paper owns 75% of the stock, earned during its fiscal year ended Dec. 31, 1916, from its pulp and lumber operations, \$308,767. As dividends have not as yet been declared no part of these profits have been included in the income of Union Bag & Paper."

"(5) Comment on 1916 Report.—On March 24, 1917, the "Boston News Bureau" said: "The rejuvenated Union Bag & Paper Co. in 1916 produced the first substantial balance of earnings in its checkered career. The net earnings, \$2,832,277, compare with but \$363,909 in 1915 and \$333,505 in 1914. The balance after interest and depreciation, which must have been exceedingly liberal, was \$1,582,792, or 15.8% on the \$10,000,000 stock outstanding.

"Back in October it was stated that Union Bag & Paper was then earning at the rate of \$25 per share. This was the fact at that time. But it was not until Fall that Union Bag & Paper profits begin to pile up rapidly. The first half year was extremely mediocre. Beginning with September, however, the tide turned and earnings from then forward were at the rate of about \$300,000 net monthly, or nearly as much as was earned by the old company in all of 1915.

"Union Bag & Paper's interest charge is but \$187,000 per annum. The depreciation charge of about \$1,061,000 last year was exceedingly liberal and undoubtedly represents the cleaning up of a lot of dead wood, so that in the metamorphosis into the new company no doubtful or dead assets might be included.

"It is safe to assume that there was at least another 5% or 6% of actual stock profits concealed in the 1916 depreciation charge.

"Union Bag & Paper profits for 1917 should very much outstrip those of last year. For one thing, the St. Maurice Paper Co., of which Union Bag owns 75%, will have its production going this year, and this company is easily capable of contributing 5% to 8% to the share earnings of the parent organization. Nothing was drawn down from the St. Maurice Co. in 1916, although it earned, with only part of its plant completed, \$308,767.

—Apr.

"(1) Status (April, 1917).—M. B. Wallace, president of this company, at the annual meeting of stockholders said the past fiscal year had been one of the most important in the history of the company. The recapitalization was effected and the work of rehabilitating the properties completed. Directors had taken a trip to all the plants a short time ago and found them in excellent working condition.

The news mill of the St. Maurice Paper Co. (three-quarters of the stock of which company is owned by Union Bag & Paper) is about completed. One paper machine has been operating for some time and the other will be turning out paper in a day or so. The sulphite mill is running half capacity and the sulphate plant will be running about the first of May; and as the St. Maurice Paper Co. during 1916 earned \$308,767 from its pulp and lumber operations alone, Union Bag & Paper Co.'s holdings should prove very valuable.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

⁴(3) **New Officer.**—On April 10, 1917, Charles B. Sanders, of Montclair, N. J., was elected secretary, succeeding E. B. Murray, Vice-President.

UNION BANK OF CANADA.

⁴(1) **New York Agency.**—It was announced March 31, 1917, that the New York State Superintendent of Banks had granted a license to this bank to conduct an agency at 49 Wall St., New York City.

UNION BLEACHING & FINISHING CO.

⁴(1) **Plant Enlargement.**—It was announced Feb. 1, 1917, that this company, Greenville, S. C., had prepared plans for doubling the size of its plant at an outlay of approximately \$250,000. Officers are: John W. Arrington, Pres.; John W. Arrington, Jr., Treas.; R. W. Arrington, Sec'y., and R. W. Stephens, Supt.

UNION BORAX CO.

⁴(1) **Incorporated in April, 1917, in California,** with a capital of \$1,000,000. Directors: C. I. Hinman, A. G. Fraser, C. S. Fraser, C. S. Taylor, A. M. Buley and S. E. Vermilyea.

UNION BUILDING LOAN & TRUST CO., EAST LIVERPOOL, O.

⁴(1) **Capital Increased.**—It was announced March 10, 1917, that this company had increased its capital stock from \$1,000,000 to \$2,000,000.

UNION CARBIDE CO.

⁴(1) **Stock Increase Planned.**—It was announced March 10, 1917, that the stockholders of this company would hold a special meeting on April 3 to vote on the proposition of increasing the capital stock from \$30,000,000 to \$50,000,000.

—Apr.

⁴(1) **Capital Increase Authorized.**—It was announced April 3, 1917, that at the annual meeting of this company, held at Richmond, Va., the stockholders voted to increase the capital stock from \$30,000,000 to \$50,000,000. Retiring directors were re-elected.

⁴(2) **Price Advance.**—Announcement was made on April 6, 1917, that this company had advanced the price of calcium carbide to \$4.25 per 100 pounds for quantities in less than ton lots and to \$80 in ton lots.

⁴(3) **Capital Increased.**—On April 9, 1917, the company filed notice at Richmond, Va., of an increase in capital stock from \$30,000,000 to \$50,000,000.

UNION ELECTRIC LIGHT & POWER CO., ST. LOUIS.

⁴(1) **Merger Plans.**—It was stated Jan. 4, 1917, that plans are being completed for the consolidation of this company and the Electric Co. of Missouri, two subsidiaries of the North American Co.

The consolidation is designed to eliminate overhead expense and to place in effect of other economies.

The Missouri Public Service Commission will be asked to approve the consolidation in January.

Union Electric Light & Power Co. has \$9,885,000 stock and \$17,071,000 bonds, while Electric Co. of Missouri has \$2,000,000 stock, \$1,750,000 bonds and supplies electric energy to about 10,000 customers.

⁴(2) **Capital Increased.**—It was announced at St. Louis Jan. 23, 1917, that this company, a subsidiary of North American Co., had increased its authorized capital stock from \$18,000,000 to \$18,040,000. Of the authorized stock, \$9,885,000 is outstanding. The increase of \$40,000 in the capital stock represents the cost to the company of the acquisition of the Perry County Utilities Co. of Missouri.

⁴(3) **Stock Issue Permit Sought.**—It was announced Jan. 30, 1917, that this company, a subsidiary of North American Co., had applied to the Missouri Public Utility Commission for authority to issue \$3,000,000 additional capital stock. The commission approved an

additional bond issue of \$1,600,000. The company notified the commission that it had absorbed the Electric Co. of Missouri, which supplies electricity for light and power to St. Louis County, outside St. Louis.

—Feb.

⁴(1) **Acquisition.**—It was announced Jan. 29, 1917, that this company had been authorized by the Missouri Public Service Commission to acquire the Perry County Utilities Corp. and to issue \$3,040,000 capital stock and \$1,600,000 bonds. The authorized capital stock was increased from \$18,000,000 to \$21,040,000.

—Mar.

⁴(1) **Official Statement.**—It was announced March 15, 1917, that in an official statement issued by this company, a subsidiary of North American Co., it is asserted that there is "no water" in its capitalization. The company states that the depreciated valuation of the properties of the company, inside and outside St. Louis, exceeds \$28,000,000, and that in 1916 the Missouri Public Service Commission found that the depreciated value of the property used in serving the City of St. Louis alone exceeded \$23,000,000. It is stated that to reproduce the present properties would cost well in excess of \$28,000,000, and that the actual or going value of the properties, exclusive of all franchises, is in excess of the outstanding \$31,105,000 of stocks and bonds.

It is stated by the company that when the consolidation of the properties which go to make up the present corporation was made capitalization was somewhat in excess of actual value, but that since that time the company has put back into the properties, from income, much more than sufficient new plant and property value to absorb whatever excess capitalization might have been created at the time of consolidation.

In this connection the company says: "The 'water' was made good at the expense of the dividend rate. Our investors, for several years, have taken less than the fair return to which the State regulation entitles them, and the difference has been built into the properties."

⁴(2) **Petition for Rate Reduction.**—It was announced March 28, 1917, that this company, a subsidiary of the North American Co., had filed notice with the Missouri Public Service Commission of further reductions in electric rates. At present the maximum rate is 8 cents a kilowatt hour and was adopted when the number of consumers reached 75,000. The new schedule provides for a maximum rate of 7½ cents a kilowatt hour when the company has 93,750 consumers, 7 cents when the number is 112,500, 6½ cents when it is 131,250 and 6 cents when it is 150,000.

UNION EXCHANGE NATIONAL BANK, NEW YORK.

⁴(1) **New Director.**—Announced Jan. 9, 1917, that at the annual meeting of stockholders of this bank Louis J. Robertson was elected a director to succeed Albert H. Wiggin, resigned.

UNION GAS & ELECTRIC CO.

⁴(1) **Gas Rates Approved.**—It was stated Jan. 27, 1917, that this company had approved the schedule of rates for gas agreed upon by Cincinnati and this company, a subsidiary of the Columbia Gas & Electric Co. The ordinance thus adopted by the commission disposes of the gas rate question in Cincinnati for ten years.

According to officials of the company this settlement will greatly facilitate the expansion of the company's business and will permit the carrying out of extensions.

—Mar.

⁴(1) **Consolidated Balance Sheet.** as of Dec. 31, 1916—See Columbia Gas & Electric Co.—Item No. 6.

UNION GROCERY STORES CO.

⁴(1) **Incorporated in April, 1917, in California,** with a capital of \$250,000.

Directors: J. W. Dunham, B. A. Rooks, L. Cass, A. King, Juliette De Lashmett, A. B. Cass and Edith West.

UNION IRON WORKS.

⁴(1) **Government Order.**—It was stated on March 26, 1917, that Secretary Daniels had awarded contracts for construction of 24 torpedo-boat destroyers as follows: Union Iron Works, San Francisco, 10; Fore River Shipbuilding Corp., 8; William Cramp & Sons, 6. The price was stated to be cost plus 10% for all 24.

UNION METALS CORP.

⁴(1) **Golconda Consolidated Mines Purchased.**—See Golconda Consolidated Mines.—Item No. 1.

⁴(2) **Status, April, 1917.**—On April 9, 1917, the "Los Angeles Daily Times" stated that Pres. Frank E. Peard, who organized the Union Metals Corp., announced that all the properties for it had been acquired. In addition to the Fredonia and the Golden Gem group of Golconda Consolidated Mines, the new company will own the Golconda Annex, a producing property in the Cerbat Range, within a mile of the Fredonia, and Wallapai King, also near the great Golconda mine, two tungsten groups, one adjoining the Atolia mine at Randsburg and the other consisting of 160 acres, immediately next to the United Tungsten-Copper Mines in San Bernardino County.

The copper property to be developed by the Union Metals Corp. is within four miles of Victorville.

All of the Union Metals Corp. properties have been examined and passed upon by Engineer D. G. Kidder.

The stock to be offered the public was entirely underwritten by an eastern banking house.

UNION MILLS, INC.

⁴(1) **Balance Sheet,** as of Dec. 2, 1916, showed profit and loss surplus of \$891,520 against \$468,367 last year.

UNION NATIONAL BANK, CLEVELAND, O.

⁴(1) **Merger.**—Announcement was made Jan. 31, 1917, in Cleveland, O., of the merger of this bank, the Bank of Commerce and the Citizens' Savings & Trust Co. The two national banks, which will operate as a separate unit, have combined deposits of about \$50,000,000, while the Citizens', which will operate separately, has about \$60,000,000.

UNION NATURAL GAS CORP.

⁴(1) **Production Report, 1916.**—It was announced at Pittsburgh Feb. 27, 1917, that directors of this company, which has 162,584 customers in Indiana, Ohio and Pennsylvania, reported to the annual meeting of stockholders there that the company acquired 127,932 acres of new oil and gas territory in the fiscal year and now has 456,378 acres.

There were 146 wells drilled, of which 111 were productive. The company has 914 gas wells in Ohio, and through its ownership in the Reserve Gas Co. one-half interest in 546 wells in West Virginia.

The company owns also a large number of oil wells.

—Mar.

⁴(1) **Earnings Statement, Year Ended Dec. 31, 1916,** compares as follows:

	1916	1915
Gross	\$6,642,541	\$5,732,384
Net after taxes	3,443,517	2,495,404
Surp. after chgs.		
and divs.	1,270,754	275,512

UNION OIL CLOTH CO.

⁴(1) **Merger.**—See Columbus Union Oil Cloth Co., Columbus, O.—Item No. 1.

UNION OIL CO. OF CALIFORNIA.

⁴(1) **Income Account, Year Ended Dec. 31, 1916,** as reported in preliminary statement, compares as follows:

	1916	1915
Gross sales	\$27,750,000	\$19,248,141
Exp., depr., etc.	20,550,000	16,429,014
Surp. after chgs.	7,200,000	2,819,127

JANUARY 1 TO APRIL 30, 1917

During the year 1916 dividends were distributed to the amount of \$1,534,500, an increase of \$1,023,117 over 1915.

—Feb.

*(1) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross profit.....	\$11,206,268	\$8,321,648
Net after taxes.....	7,382,722	2,819,129
Surp. aft. bonus.....	7,224,564	2,819,129

*(2) Earnings on Stock.—It was stated Feb. 14, 1917, that this company's 1916 net earnings of \$7,382,722 are equal to 21.65% on \$34,062,200 capital stock, compared with 8.26% earned on the same capitalization in 1915.

*(3) Comment on Annual Report.—On Feb. 15, 1917, the "Wall Street Journal" said that this company, already one of the largest independent oil companies in the United States, is planning further to extend its business through the acquisition of more lands.

In arranging for the financing of these extensions the company has made application to the California Corporation Commissioner for a permit to offer 50,000 shares of the unissued capital stock at par—\$100.

The annual report shows current assets of \$15,204,573. These are almost 8 to 1 of current liabilities and more than all indebtedness of every character combined. Current assets are \$4,442,984 more and current liabilities \$137,334 less than at Dec. 31, 1915, so that there has been an increase in working capital during the year of \$4,580,318, or 53%.

Oil inventories are per actual stock reports and represent available net barrels, and are valued at or below cost, which is considerably below the present market value. The quantity of crude oil owned by the company is close to 11,000,000 net barrels, an increase in 1916 of 300,000 net barrels, the oil stored in the State decreasing during the year about 12,300,000 barrels.

The company's stocks, together with storage controlled through the agency, are about 13,300,000 net barrels, the total storage of the State being about 43,600,000 barrels, the lowest reserve carried since the year 1911.

Refined inventories are about 25% greater, which is due to the increasing cost and January export commitments.

The book value of the company's stock is \$149 a share, an increase during the year of \$15. This is conservatively stated in view of the value at which the assets are carried in the balance sheet.

The outlook for 1917 was reported as promising.

*(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$18,561,592, compared with \$1,617,351 Dec. 31, 1915.

—Mar.

*(1) To Offer Stock to Shareholders.—Reported on March 27, 1917, that according to present plans this company would offer shareholders \$3,409,220 stock at par. Proceeds of this sale will be used for extensive improvements.

It is rumored that the next dividend of the Union Oil Co. will be \$2.50 a share instead of \$1.50 a share, which will be equivalent to 10% a year. The United Petroleum Co. will soon dissolve and distribute its Union Oil stock to its stockholders.

—Apr.

*(1) Extra Dividend.—Announced April 3, 1917, that this company had declared the regular quarterly dividend of \$1.50 per share and an extra of \$1, both payable April 14 to stock of record March 31. This is the first extra dividend declared by the company.

*(2) Profits, Quarter Ended March 31, 1917.—The "Wall Street Journal" said April 14, 1917, that profits of this company for the first three months of 1917 from all operations, less general expenses, taxes, interest and employees' share of profits, were approximately \$2,720,000, an increase of \$1,020,000 over the same period in 1916. The net profit, making full provision for depreciation, was approximately \$2,050,000, an in-

crease of \$900,000, or 80% over the same period of 1916. The net profit for the quarter is stated, after deducting an increased provision for depreciation, of \$120,000, but includes an extraordinary operating profit of \$220,000. Eliminating the latter item from the results above, the profits before depreciation were equivalent to 30% and the net profit to 22% a year on the issued capital stock. Earnings of the principal subsidiaries are being maintained.

Production of the company and controlled companies approximated 1,570,000 net barrels, an increase of 152,000 barrels over the same period of 1916. Capital expenditures approximated \$500,000.

* UNION PACIFIC R. R.

	1916	1915
December gross.....	\$9,973,682	\$8,910,078
Net after taxes.....	3,049,677	3,474,067
6 mos. gross.....	63,715,631	54,020,029
Net after taxes.....	26,381,806	22,148,671

*(2) Comment on December Earnings.—On Jan. 30, 1917, the "Wall Street Journal" said that this company's decrease in net earnings for December is explained by the fact that the extra compensation allowed employees at Christmas time is charged to operating expenses for the month. The exact amount of this compensation has not been announced by Union Pacific.

The Union Pacific announces that its fiscal year hereafter will agree with the calendar year. This change is made in compliance with an order of the Interstate Commerce Commission requiring carriers to file annual reports for the 12 months ending Dec. 31. The change becomes effective as of Jan. 1.

Compilation made by the company of the results of operation, for the year ended Dec. 31, are as follows:

Gross, \$114,412,607, an increase of \$22,460,362, or 24.4%. The net after taxes was \$45,056,671, an increase of \$11,896,368, or 35.9%.

—Feb.

*(1) Extra Dividend on Common.—Announced Feb. 8, 1917, that this company had declared an extra dividend of one-half of 1% on the common stock, payable April 2 to stock of record March 1; also the regular semi-annual dividend of 2% on the pfd. and the regular quarterly dividend of 2% on the common. An extra dividend was also declared on the common stock on Dec. 21, 1916.

	1917	1916
January gross.....	\$8,483,594	\$7,404,021
Net after taxes.....	2,151,564	2,249,070

*(2) Comment on January Earnings.—On Feb. 28, 1917, the "Wall Street Journal" said that the decrease of \$97,507, or 4.3%, in Union Pacific's January net earnings, as compared with the same month in 1916, in striking contrast to Southern Pacific's January net increase of some 185% was due partly to a short period of snowbound tracks and partly to the fact that much of the grain had already moved East, but chiefly to the fact that Union Pacific's January net in 1916 was \$2,249,071, while Southern Pacific in January, 1916, earned a net of only \$1,345,092.

Union Pacific's gross increase for the month of \$1,079,573, or 14.6% resulted chiefly from a freight revenue increase of \$626,970, or 11.6%, and a passenger revenue increase of \$365,917, or 20%.

Maintenance expenses for the month advanced \$257,496, or 13.2%, and transportation expenses \$713,199, or 31.8%. Traffic expenses increased \$29,094, or 17.1%. Taxes behaved normally by advancing \$72,510, or 16.6%.

Southern Pacific's large January earnings were due largely to the heavy shipments of merchandise westward to supply the market created by opening up of all old and many new copper and other mines, employing a vast labor at high wages, also to the general demand for high class traffic in the West due to the sale of her products at high prices.

—Mar.

*(1) Locomotive Orders.—See Baldwin Locomotive Works.—Item No. 3.

*(2) Chairman Lovett Favors Compulsory Arbitration.—"There must ultimately be compulsory arbitration of industrial disputes: public interest demands it," declared Judge R. S. Lovett, chairman of the executive committee of the Union Pacific R. R., resuming his testimony before the joint Interstate Commerce Committee at Washington March 20, 1917. "We have just had a demonstration," he said, "of its need. We find that the railway trainmen have regard neither for the public, for Congress, for the Supreme Court—for nothing but their own arbitrary will." Judge Lovett attacked the Adamson eight-hour bill, which the Supreme Court held constitutional March 18, 1917.

"It is too sweeping," he told the committee. We must, after all, be fair. If we take away the right of employees to strike in concert then we must substitute some fair method for it. Compulsory arbitration is that method, I believe."

	1917	1916
February gross.....	\$7,586,560	\$8,012,375
Oper. income.....	1,582,100	2,779,583
2 mos. gross.....	16,070,154	15,416,396
Oper. income.....	3,733,664	5,028,683

*(4) Comment on February Earnings.

—On March 27, 1917, the "Wall Street Journal" said that the decrease of \$663,369 or 10.9% in February freight revenue and of \$56,106 or 17.9% in passenger revenue was due to snow storms which buried 18 miles of Union Pacific lines in Wyoming in spots as far as 20 feet under the snow surface so that tunnels were run through the snow in the effort to save the time required to clear the tracks. The decrease in gross operating revenue for the month compared with February, 1916, was 5.3%.

Transportation expenses for February increased \$569,598 or 27.6% due to inclusion of the increased wages for January and February under the Adamson Act, capital stock tax, excess profit tax and the inclusion of the extra 1% income tax as only 1% was charged against this last year. The decrease of \$1,107,483 in net earnings for February was a decrease of 43.1%.

The operating ratio for the month, including taxes, which showed the usual increase of 23.9%, was 72.01% of gross, an increase of 12.16% over February, 1916. Change in gross earnings for the two months was an increase of 4.2%, due principally to the gain of \$527,997 or 21.3% in passenger revenue. Net earnings for the two months, showing a decrease of 25.8%, suffered the loss chiefly through increased transportation expenses of \$1,302,797 or 29.7%.

*(5) Bad Track Conditions in West.

—Advises from Union Pacific officials in the West on March 27, 1917, report conditions on the lines the past few days worse than at any other time during the winter. Even the heavy snows and high winds of February have been exceeded, the winds making it impossible to keep the tracks open after the plows have been through. Yet March gross earnings so far are ahead of last year. In view of the high cost of operation due to the storms, however, together with the other added wage expenses and tax increases which boosted February outlay, March net is likely to show another considerable decrease.

• UNION SWITCH & SIGNAL CO.

*(1) Exchange of Stock.—It was announced Jan. 11, 1917, that 80% of the stock of this company had been deposited to be exchanged for Westinghouse Air Brake Co. stock in the merger of the two companies. Directors of the Air Brake Co. meet Jan. 12 to call a meeting of stockholders to authorize an increase in the company's capitalization from \$20,000,000 to \$30,000,000.

When the merger is completed the Air Brake Co. will declare a dividend of 20%, which will be payable to Air Brake and former Switch stockholders.

*(2) Merger Completed.—A Pittsburgh dispatch Jan. 12, 1917, stated that the plan for the merger of this company into the Westinghouse Air Brake Co. had been formally declared. At a meeting of the Board of Directors of the Air Brake Co. it was stated that practically all of the stock of the Union Switch & Signal Co. had been deposited in assent of the plan.

Later a meeting of the directors of the Switch Company was held for the purpose of reorganization and giving Air Brake officials representation on the board.

W. D. Uptegraff, Pres. of the Switch Co., resigned to become chairman of the board, and A. L. Humphrey was elected Pres.; John F. Miller, Vice-Pres.; T. W. Siemon, Vice-Pres. and Treas.; George A. Blackmore, Vice-Pres. in charge of sales; T. S. Grubbs, Acting Vice-Pres. and Sec'y; Charles A. Rowan, Comptroller, and F. V. Shannon, Auditor.

The directors of the Air Brake Company called a special meeting of stockholders for March 15 to ratify the merger and also to approve an increase in the capital of the company from \$20,000,000 to \$30,000,000 to finance the transaction.

Out of the increased capital it is planned to declare a stock dividend of 20% to holders of Air Brake stock, including the shares exchanged for the stock of Union Switch & Signal Co.

—Feb.

*(1) Damage by Fire.—On Feb. 10, 1917, a group of four buildings housing the machine shop and assembling departments of this company at Swissvale, Pa., was destroyed by fire. Pres. A. L. Humphrey, of the company, estimated the loss at \$4,500,000, of which \$1,000,000 was finished product. The remainder included machinery, equipment and buildings.

*(2) Rebuilding Plans.—On Feb. 11, 1917, it was announced that plans had been made and some of the machinery was on the way for the \$5,000,000 plant to be erected by this company on the ground occupied by the buildings destroyed by fire.

—Mar.

*(1) Westinghouse Meeting March 15.—See Westinghouse Air Brake Co.—Item No. 1.

*(2) Deal Approved.—See Westinghouse Air Brake Co.—Item No. 2.

*(3) Deal Ratified.—See Westinghouse Air Brake Co.—Item No. 4.

• UNION TANK LINE.

*(1) New Equipment.—It was stated March 19, 1917, that this company had placed orders for 1,000 tank cars with the Standard Construction Co. for delivery in 1917 and for 1,000 tank cars with the American Car & Foundry Co. for delivery in the early part of 1918. In addition to these orders, Union Tank Line will have delivered to it 2,000 cars in 1917.

—Apr.

*(1) Report, Year Ended Dec. 31, 1916, shows: 1916 1915
Net earnings—\$2,081,766 \$1,067,958
Surp. after divs. 1,481,766 467,954

*(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,354,262, compared with \$872,496 Dec. 31, 1915.

*(3) Earnings on Stock.—It was stated April 11, 1917, that this company's 1916 net earnings of \$2,081,766 are equivalent to \$17.34 on 120,000 shares of capital stock, compared with \$8.89 a share earned in 1915.

*(4) Officers Re-elected.—Announced April 11, 1917, that directors of this company had re-elected retiring officers for the ensuing year.

UNION TELEPHONE CO.

*(1) Capital Increased.—It was announced March 31, 1917, that this company, Owosso, Mich., had increased its capital stock from \$1,000,000 to \$1,500,000.

The company plans to rebuild its plants in five Michigan cities, including Corunna, as soon as the material is available. The cable system will be used in all of them. The company has just finished replacing the old system with cables in Owosso at a cost of about \$40,000.

*(2) Officers and Directors.—It was announced April 2, 1917, that with one exception the old Board of Directors of this company had been re-elected as follows: A. M. Bentley, J. B. Crawford, W. A. Bahke, J. H. Fildrew, E. O. Dewey, C. T. Babcock, F. G. Thiers, I. T. Millman, L. L. Conn, J. E. Gerow and R. G. Kirkland. R. H. Kirkland was the newly elected member of the board.

The directors elected the following officers: Pres., C. T. Babcock, of St. Johns; Vice-Pres., A. M. Bentley, of Owosso; Sec'y, L. L. Conn, of Owosso; Treas., E. O. Dewey, of Owosso, and Gen. Mgr., W. J. Melchers, of Owosso, Mich.

UNION TERMINAL COLD
STORAGE CO.

*(1) Increased Capital.—It was announced Feb. 7, 1917, that this company, Jersey City, N. J., had increased its capital from \$450,000 to \$750,000 for business extensions.

UNION TERMINAL RY. CO.

*(1) New Terminal Company Planned.—It was announced Feb. 21, 1917, that S. G. McLendon, of Atlanta, Ga., and associates, had completed plans for the construction of railroad terminals on Cabbage Island, near Savannah, Ga., and had applied for the incorporation of this company, with a capital stock of \$1,000,000. Mr. McLendon's associates are David C. Barrow, Emily Hand Barrow, H. K. Rickenbaker, B. U. Curry and H. L. McDonald, all of Pelham, Ga.; Samuel D. Hewlett and C. L. Pettigrew, of Atlanta.

Cabbage Island is at the head of Wassaw Sound, and the projectors of the enterprise propose to establish there, in addition to the terminals, a channel and anchorage for an almost unlimited number of ships with water

deep enough for the largest of vessels. Two options have been filed in the Superior Court on 1,700 or 1,800 acres of land desired for the site. The company plans to organize in March.

UNION TIMBER PRODUCTS CO.,
SEATTLE, WASH.

*(1) Incorporated on April 5, 1917, in Washington, with a capital of \$500,000. Incorporators: C. E. Evans, W. D. Totten, B. W. Sawyer, Albert Hess and S. L. Boyd.

UNION TRUST CO.,
ROCHESTER, N. Y.

*(1) Capital Increased.—On Jan. 24, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$500,000 to \$1,000,000.

UNION UTILITIES CO., CHICAGO.

*(1) Incorporated on April 12, 1917, in Delaware, with a capital of \$1,000,000, to produce and distribute artificial gas and its products and conduct a general utility business. Incorporators: Burrel J. Horn, E. B. White and G. M. Morley, Chicago, Ill.

UNITED AIRPLANES CO.

*(1) Incorporated on April 2, 1917, in Delaware, with a capital of \$1,000,000, to acquire patents on a spark plug, also to build airships of all kinds. Incorporators: John W. Hake, Walter P. Coltan and Arner Smith, all of Chicago, Ill.

• UNITED ALLOY STEEL CORP.

*(1) New Manager.—On Jan. 12, 1917, Pres. Harry R. Jones, of this company, announced that William A. Field, for 13 years general superintendent of the Illinois Steel Co., would become general manager in charge of operations of the United Alloy Steel Corp. The Illinois Steel Co. is the United States Steel operation at South Chicago.

*(2) New Furnace in Operation.—It was stated Jan. 20, 1917, that the new blast furnace of this company is in full operation, and beginning with the Spring monthly earnings would likely total over \$700,000. This is at the rate of three times the previous year's earnings.

If, as some experts believe, the highest prices have been made in pig iron, a drop will redound greatly to United Alloy's benefit, because the pig iron which it buys in the open market over and above its own blast furnace production is being bought at present high prices to be converted into finished products sold to a large extent under contracts made on the low prices of two years previously.

Consequently it is figured that the company stands to make more under normal conditions than when the price of pig iron is dictated by abnormal export conditions.

—Feb.

*(1) Meeting Time Changed.—It was announced Feb. 20, 1917, that at the annual meeting of this company officers and directors were re-elected. The date of the annual meeting was changed from the third Tuesday in February to the third Tuesday in April.

*(2) Statement by President.—It was stated Feb. 20, 1917, that Pres. Jones, of this company, in his annual remarks to stockholders said:

"On Oct. 25, 1916, the United Alloy Steel Corp. of New York took over the entire property, assets, etc., of the United Steel Co. Therefore this report deals with the affairs of the United Steel Co. to Oct. 25, 1916, and of the United Alloy Steel Co. from Oct. 25 to Dec. 31, 1916. The business has been the most successful of any year in our history.

"Our gross sales were \$16,704,635, against \$9,808,506 for 1915. Net profits were \$3,088,672, against \$2,630,232 for 1915. This result was attained notwithstanding the adverse effects of rising costs of raw materials and extraordinary difficulties in obtaining adequate

JANUARY 1 TO APRIL 30, 1917

supplies of both raw materials and labor.

"The corporation's new blast furnace, together with its by-product coke oven plant, was put in operation in November and at this time is in full and successful operation.

"During December the corporation's new blooming mill, known as plant B, was put in operation, together with six out of ten new open-hearth furnaces. Four open-hearth furnaces now building will be in operation about April 1, at which time plant B will be in full operation.

"It will be of interest to stockholders to know that the company's business in the past year has been entirely domestic business and our profits were not derived from war orders. Owing to the great increase in cost of raw materials and labor, our profits per ton have not been as large as some of our competitors.

"We have endeavored to take care of our domestic customers. While it is undoubtedly true that we have sacrificed some immediate profits in carrying out this policy, we believe that our future after the war is more nearly assured. Our business should be looked upon as a peace business and not a war business. Prospects for 1917 are encouraging, as we have our capacity sold to our regular domestic customers."

"(2) Application to List.—Announced Feb. 26, 1917, that this company had made application to the New York Stock Exchange to list 500,000 shares of its capital stock, without nominal or par value.

—Mar.

"(1) Listed in New York.—It was announced March 1, 1917, that the New York Stock Exchange had listed 500,000 shares of this company's capital stock without par value.

"(2) Earnings Statement, Oct. 25 to Dec. 31, 1916.—It was announced March 2, 1917, that this company had filed with the New York Stock Exchange the following statement of earnings for the period from Oct. 25 to Dec. 31, 1916:

Manufacturing profits.....	\$729,438
Interest and discount.....	9,663
Income, stocks and bonds.....	5
Profit, land sold.....	28,451
Total profits.....	\$767,559
Additional salaries and profit-sharing account.....	43,083
Depreciation.....	27,083
Voluntary relief.....	1,355
County taxes.....	8,000
Federal income tax.....	13,478
Manufacturing loss.....	655
Total charges.....	\$93,655
Net Profits.....	\$673,904

"(3) Capacity Increased.—It was announced March 8, 1917, that this company's new plant "B," which has been under construction for the past year, is practically completed, thereby increasing the capacity of the company to about 700,000 tons per annum.

"(4) Operations.—It was stated March 20, 1917, that practically the entire equipment of 21 furnaces of this company would be in operation by April 1 at the plant at Canton, Ohio.

The company is gradually approaching a position where it can depend upon its natural gas supply for fuel. With the two problems of fuel and transportation settled, the company should gradually work toward its capacity of over 700,000 steel products per annum.

"(5) Forecast of Production.—It was stated on March 24, 1917, that the present rate of output of the United Alloy Steel Corp. is approximately 40,000 tons of ingots per month. This compares with monthly output of 20,000 tons in the fall of 1916, an increase of 100% within six months.

A monthly rate of 40,000 tons represents about two-thirds of the total capacity of the plants, when the new construction now completed is in full operation. Weather and traffic conditions have improved substantially in the past

few weeks, and an increase to close to 60,000 tons per month is expected by the management in the near future.

—Apr.

"(1) Seventeen Open-hearth Furnaces in Operation.—This company, April 24, 1917, announced that 17 open-hearth furnaces were in operation at its plants, including nine of the new furnaces in plant B. The tenth new furnace will be in operation by May 1, and within ten days later operations are scheduled to be a 100% capacity.

The company has made a record unfilled tonnage and no more sales are being made for delivery in 1917. Transportation difficulties have practically disappeared, and the company's fuel requirements are well covered. The company is doing its part in providing high-speed steel to the United States Government.

UNITED AMERICAN CO., LOUISVILLE, KY.

"(1) Capital Decreased.—On Jan. 8, 1917, the company filed notice at Frankfort, Ky., of a decrease in capital stock from \$650,000 to \$550,000.

UNITED CARPET CLEANERS CO. OF NEW ENGLAND, INC., PROVIDENCE, R. I.

"(1) Incorporated on Feb. 7, 1917, in Rhode Island, with a capital of \$500,000. Incorporators: H. A. Gullfoyle, J. H. Walsh and P. J. Boyle, Providence, R. I.

—Apr.

"(1) Incorporated on April 3, 1917, in New York, with a capital of \$500,000, to deal in carpet cleaning compounds, renovate rugs and carpets. Representative: G. B. Undegrove, 37 Ninth Ave., Manhattan, N. Y.

UNITED CAST STONE CO., WILMINGTON, DEL.

"(1) Incorporated.—On April 13, 1917, in Delaware, with a capital of \$350,000, to manufacture a composition known as cast stone and other building materials. Incorporators: W. F. O'Keefe, Geo. G. Steigler and E. E. Wright, Wilmington, Del.

UNITED CHEMICAL & ORGANIC PRODUCTS CO.

"(1) Incorporated on April 24, 1917, in Delaware, with a capital of \$2,002,700, to manufacture glues, gelatine, etc. Incorporators: M. V. Haywood, Herbert E. Latter and C. L. Rimlinger, Wilmington, Del.

UNITED CIGAR MANUFACTURERS CO.

"(1) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross.....	\$4,553,656	\$3,582,581
Net.....	1,427,058	1,531,948
Surp. after chgs., pfd. and com. divs.....	239,705	398,823

"(2) Earnings on Stock.—It was stated Feb. 7, 1917, that this company's 1916 balance of \$963,865, after pfd. dividends, is equal to 5.32% on \$18,104,000 common stock, as compared with 6.20% earned on the same stock in 1915.

"(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$3,813,493, compared with \$3,573,788 Dec. 31, 1915.

"(4) Change in Name.—See General Cigar Co., Inc.—Item No. 1.

—Mar.

"(1) Listed in New York.—It was announced March 1, 1917, that the New York Stock Exchange had listed \$5,000,000 of this company's 7% cumulative pfd. and \$18,104,000 of its common stock bearing the name of the General Cigar Co., Inc., in exchange for present certificates.

"(2) Acquisition.—See Lichenstein Bros. Co.—Item No. 1.

UNITED CIGAR STORES CO. OF AMERICA.

"(1) Dividend Discussion.—It was stated Jan. 10, 1917, that inasmuch as accounts

for the full year are not in as yet, directors of this company did not consider any increase in the dividend rate on the common stock at the meeting on that date.

The last increase in common dividend was ordered at the April meeting of directors, and it would be natural that any consideration along these lines should come up at the April meeting. The annual report is ready in April and directors then have the result of the full year's operations before them.

Sales for the year just closed increased \$4,900,000 over 1915, bringing the total for the year up to \$36,000,000.

Net earnings for the 12 months were the largest in the history of the company.

"(2) Realty Transferred.—See United Stores Realty Corp.—Item No. 1.

—Feb.

"(1) Sales, January, 1917.—Announced Feb. 10, 1917, that sales of this company in January increased \$600,000 over the same month in 1916.

Inasmuch as sales of the company for the full year 1916 were \$36,000,000, a continuance of this rate of increase throughout the year would bring the total for 1917 above \$43,000,000. Sales in 1915 amounted to \$31,000,000.

—Mar.

"(1) Sales Discussion.—On March 15, 1917, the "Wall Street Journal" said that sales of this company in February increased approximately \$400,000 over the same month in 1916. February, 1917, had 28 working days for the United, as compared with 29 for 1916. This made a difference to the United of at least \$150,000. With the same number of working days the increase for the month would have been at least \$550,000.

Sales in January increased nearly \$600,000, which makes the total increase for the first two months of 1917 over the corresponding period in 1916 about \$1,000,000. Edward Wise, Pres. of the company, in a recent statement estimated that United's business in 1917 should show at least \$40,000,000, as compared with about \$36,000,000 for 1916.

"(2) Dividend Discussion.—It was stated March 22, 1917, that directors of this company at the meeting in April probably would authorize an extra for common stockholders. Whether this will take the form of an increase in the regular cash rate to 8%, an extra in cash, or an extra in stock, was not stated. The last common dividend was paid Feb. 15, which would make the next disbursement on May 15.

The initial dividend at the 7% rate was paid in August, 1915. From February, 1914, until August, 1915, the rate was 6%. From a year previous to that, 5% was the rate, although an extra of one-half of 1% was paid in February, 1913. This was at the time of the initial disbursement after the formation of the United Cigar Stores Co. of America.

"(3) Retiring Preferred Stock.—It was stated March 22, 1917, that this company had been buying in its pfd. stock in the open market. There is only \$4,500,000 of this 7% pfd. outstanding. The stock is retrievable on call at 140.

In view of the company's strong cash position directors are understood to favor a plan for the ultimate retirement of the entire issue of pfd., leaving all the earnings applicable to the \$27,000,000 common.

"(4) Expansion Plan.—Stated March 27, 1917, that expansion plan of this company called for the opening of 100 new stores during 1917. Several hundred agencies will also be added to the chain started a little over a year ago.

Sales of the United are now running at the rate of over \$41,000,000 a year. This compared with approximately \$36,000,000 in 1916 and \$31,000,000 in 1915. Although directors have not yet decided definitely on next month's dividend program indications point to an increase in the regular rate on the common stock from 7% to 8%.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

* (5) Annual Report, Year Ended Dec. 31, 1916.—Dividends and interest received \$2,892,072, against \$2,404,470 last year; surplus after dividends \$673,842, against \$322,050 last year.

* (6) Balance Sheet, as of Dec. 31, 1916, showed profit and loss of \$2,739,334, against \$2,065,492 last year.

—Apr.

* (1) Common on 5% Basis.—It was announced April 3, 1917, that this company had declared a regular quarterly dividend of 2% on the common stock. This is an increase in the annual rate to 8%. The company had paid 7% since Aug. 16, 1912.

* (2) Statement by Geo. J. Whelan.—On April 4, 1917, George J. Whelan, founder of this company, was quoted as saying: "The United Cigar Stores Co. will do a business of approximately \$10,000,000 more in 1917 than 1916, when the dividend was last raised. The shareholders are therefore entitled to at least 1% more, or 8%. War or peace have no effect on the earnings of this company."

* (3) Directors Re-elected.—Announced April 13, 1917, that at the annual meeting of this company retiring directors were re-elected.

* (4) Income Account, Year Ended Dec. 31, 1916, shows the combined results of operations of the parent company and its subsidiaries as follows: Net profits, 1916, \$3,059,933; balance after dividends on pfd. stock, \$2,743,000; surplus after dividends on common stock, \$841,703.

* (5) Consolidated Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$3,231,661.

* (6) Earnings on Stock.—It was stated April 13, 1917, that this company's 1916 balance after pfd. dividends of \$2,743,000 is equivalent to \$10.09 a share earned on 271,620 shares of common stock outstanding.

* (7) Development, 1916.—It was stated April 13, 1917, that although not shown in the annual report, the expenditures of this company in 1916 for development purposes amounted to over \$2,500,000, or considerably in excess of the amount paid out during the year in dividends.

* (8) Sales in March Show Large Increase.—On April 16, 1917, the "Wall Street Journal" said that sales of this company in March increased \$650,000 over the same month a year previously. This represents the largest gain of any month in the history of the company, with the exception of last December over December, 1915.

Sales of the United since Jan. 1, a three months period, increased \$1,600,000 over the first quarter of 1916. This indicates that the gain for the full year will run well above the forecast of \$4,000,000 made by President Edward Wise some time ago.

Continuance of the rate of increase throughout the 12 months would bring sales for 1917 up to more than \$42,000,000, as compared with \$36,000,000 in 1916.

* (9) Cost of Excess Profit Tax Figured by Experts.—See American Tobacco Co. Item No. 1.

* (10) Sales for Three Weeks of April Indicate \$500,000 Increase.—On April 27, 1917, the "Wall Street Journal" said that sales of this company for April would show an increase of \$500,000 over April, 1916, on the basis of the first three weeks' returns.

This means that the gain for the first four months of 1917 over the corresponding period of 1916 will show a minimum of \$2,000,000. The gain in January was about \$400,000; February \$400,000, and March \$650,000.

In a recent statement to stockholders Pres. Edward Wise made a forecast of an increase in sales during 1917 over 1916 of \$4,000,000. The figures above show that 50% of this gain at least will have been accumulated in the first four months of the year, which would lead to the belief that the full year's gain will run above \$5,000,000. Inasmuch as sales in 1916 were \$36,000,000, this would bring business in 1917 up to \$41,000,000. Sales in 1915 were \$31,000,000, which represents a gain in 1917 of \$10,000,000, or about 33% in two years.

UNITED COPPER MINING CO.

* (1) Listed on New York Curb.—On April 19, 1917, the New York Curb Market Association listed 1,000,000 of this company's capital shares, par value \$1.

UNITED DEALERS' CO-OPERATIVE ASSOCIATION, INC.

* (1) Incorporated on April 4, 1917, in Delaware, with a capital of \$3,000,000, to conduct a general advertising business. Incorporators: Frank A. Selah, Blanchard P. Atkinson, Brooklyn, and Frank A. Clarke, New York.

UNITED DRUG CO.

* (1) Earnings, 11 Months Ended Dec. 31, 1916.—On Feb. 26, 1917, it was announced that this company, which began business Feb. 4, 1916, had reported earnings for the 11 months to Dec. 31, 1916, as follows: Gross sales, \$33,404,866; net after taxes, \$2,499,428; surplus after charges, \$2,014,809.

* (2) Letter from President.—On Feb. 24, 1917, it was announced that Pres. Louis K. Liggett, in a letter to stockholders of this company, said: "These results are highly gratifying to the management because the task at the beginning of the year was not a task of making immediate profits, but primarily of putting together two large companies, each having a manufacturing and retail business, and, of course, separate organizations."

"We have accomplished the consolidation of the manufacturing business physically and made one organization of it, writing off all the expenses of doing it, and while doing it we increased its business 40% over the corresponding period last year, of the two separate businesses, reaching a total of \$13,075,000."

"We have consolidated the retail businesses; closed 12 stores and opened 13 others, eliminating duplicate stores, warehouses, etc., and have made one organization of it, and we charged off all the expenses of doing it. That has been the greater task of the two, and we did not look for an increased volume during the period, but we actually increased the retail business \$880,000, bringing its total for the 11 months up to \$20,329,494. We are now operating 151 Liggett-Riker-Hegeman stores."

"We are now able to lay our course for the year 1917 for the development of volume and of net profits, and secure the additional benefit of the economies created."

* (3) Comment on Statement, 11 Months Ended Dec. 31, 1916.—On Feb. 26, 1917, the "Boston News Bureau" said that the statement issued by this company, which began business Feb. 4, 1916, as the consolidation of the former United Drug Co. and Riker & Hegeman Co., shows a remarkable growth in earnings.

Sales exceeded all expectations. They were \$33,404,866 for the 11 months, or at the rate of better than \$36,000,000 per annum. Profits were likewise larger than anticipated, being \$3,070,480, or approximately 9% of gross.

After deducting taxes, depreciation of machinery and equipment and doubtful accounts receivable, and adding sundry income, total net profit was \$2,631,238, which is equivalent to about 8% on total sales.

From these profits the company wrote off \$618,427. This write-off included extraordinary taxes, legal expenses, real estate losses, etc., due wholly to the consolidation. It included also a \$300,000 charge for depreciation in merchandise.

The balance sheet underwent a great improvement. In the last six months of 1916 the company reduced notes payable \$2,398,000 and increased cash balances by \$398,000. The company has practically completed its new buildings, and shows in them an increased investment of \$398,500.

Net profits available for dividends were \$2,014,809. After paying all 1st pfd. and 2d pfd. dividends, as well as dividends on stocks of subsidiary companies outstanding, the balance was \$1,410,456, which is equivalent to 7% on the \$20,050,000 common stock.

Since reserves are carried separately, this surplus is all available for dividends. These reserves are \$1,503,000 additional, or 33% of the amount invested in improvements to leaseholds, furniture, store fixtures and machinery, to which they all apply.

—Mar.

* (1) Sales, January, 1917.—It was announced Feb. 23, 1917, that the January sales of this company were \$3,094,830, against \$2,736,221 in January, 1916. Net after expenses, including taxes and depreciation, slightly exceeded \$250,000. These amounts added to the first 11 months' operations show for full 12 months' period sales of \$36,499,696, net operating profit, \$2,749,428, and total net profit of \$2,881,236.

The company wrote off over \$600,000 for extraordinary expenses in consolidating with Riker & Hegeman, leaving available for dividends \$2,264,000. After pfd. dividends and the extraordinary write-offs, earnings amounted to more than 3% on the common, so that the final net balance was in excess of 8%.

* (2) Common on 5% Basis.—Announced Feb. 28, 1917, that the executive committee of this company had voted to place the \$20,050,000 common stock on a dividend basis of 5% a year, first quarterly payment to be made April 2 to stock of record March 17.

* (3) New Directors.—It was announced March 13, 1917, that at the annual meeting of this company the following new directors were elected: W. M. Sederman and Geo. W. Bence for term ending March, 1920; E. L. Scholtz and C. F. Buchholz for term ending March, 1919; Adolph Spiegel and Stephen Hexter for term ending March, 1918. At directors' meeting officers were re-elected.

—Apr.

* (1) Acquisition.—A New Haven, Conn., dispatch April 11, 1917, stated that this company had purchased the Seamless Rubber Co. at that place. The company makes druggists' sundries and has been in the hands of receivers.

* (2) Growth in 14 Years.—On April 14, 1917, the "Boston News Bureau" said that the inauguration of dividends at the rate of 5% per annum on the \$20,000,000 common stock of this company marked another important mile-post in the development of a company which from very modest beginnings had developed into a corporation doing a gross business of \$36,000,000 a year.

The company owns over 150 Liggett stores in the metropolitan cities of the United States, such as New York, Boston, Pittsburgh, Buffalo, Detroit, Atlanta, etc. But this is by no means the extent of its distributive power. It has established 8,000 agencies in the United States, Canada and Great Britain, known as "Rexall" stores, all of them handling the company's product on the exclusive agency plan.

An idea of the physical expansion of the United Drug Co. is gained when it is realized that the original plant in Boston in 1903 comprised but 60,000 square feet. The buildings occupied by the company in Boston, New York, Chicago, St. Louis and elsewhere show a combined floor space of 2,500,000 square feet.

* (3) Seamless Rubber Plant Deal Approved.—See Seamless Rubber Co.—Item No. 2.

UNITED DYES CORP.

* (1) New Company.—See Bothamley Chemical & Extract Co.—Item No. 1.

UNITED EASTERN MINING CO.

* (1) Operations.—It was stated April 12, 1917, that this company, in which considerable New York and New England capital is interested, has fared well since the beginning of 1917 in its operations on its property in the Oatman gold camp of Arizona.

The company's mill of 200 tons daily capacity was tuned up for commercial operations early in January and in that month treated 3,800 tons of ore, which

JANUARY 1 TO APRIL 30, 1917

assayed \$21.86 a ton, the gross value being \$83,090. The extraction was 92.8%, despite the fact that recoveries were affected adversely by cold weather.

There was an improvement in the following month, as extraction in February ran up to 95.2% in the milling of 5,383 tons of ore, which had an average value of \$22.33 a ton. The gross value of material that month was \$120,177.

*(2) **Production, March, 1917.**—Announced April 12, 1917, that for March this company reported 6,584 tons of ore milled. This showed a gross value of \$156,963, of which \$150,957 was recovered, indicating a saving of 96.15%.

UNITED ELECTRIC LIGHT CO., SPRINGFIELD, MASS.

*(1) **Petition to Increase Stock.**—On March 26, 1917, this company filed with the Massachusetts Gas Commission a petition to issue \$50,000 par value common stock in addition to \$2,000,000 outstanding to pay for plant improvement and extensions.

—Apr.

*(1) **Officials Rebuked for Seeking Stock Issue Permit.**—On April 14, 1917, the "Boston News Bureau" said that officials of this company were rebuked by Commissioner Lewenberg at a hearing before the Massachusetts Gas and Electric Light Commission on the company's petition for a new stock issue. He characterized the request as "the worst case" which had come before the commission within his knowledge.

Commissioner Lewenberg, addressing himself to Pres. Robert W. Day, of the Springfield company, said: "Your company, which last year declared a total dividend of 22% to stockholders, now wants to issue 5,000 shares of stock at \$185 a share when the stock is valued at \$275 a share. You are practically asking this commission to present your stockholders with another \$450,000. That's too much of a melon to cut, and I have not the slightest hesitancy in saying that I will oppose it."

Mr. Lewenberg further declared that the company's purchase of the Indian Orchard Co. by notes, the interest on which was paid by the consumers, was contrary to the spirit of the law.

UNITED ELECTRIC SECURITIES CO.

*(1) **Report, Year Ended Dec. 31, 1916.**—It was stated Jan. 30, 1917, that this company, one of the securities-holding corporations of the General Electric Co., had reported total income from all sources of \$552,062 for the year. Bond interest and expenses were \$353,891, leaving net income of \$198,171, which, with \$17,675 profit from sales of securities, made surplus of \$215,847 for the year.

Surplus Jan. 1, 1916, was \$1,005,716; \$70,000 was paid in pf'd. dividend in the year and \$100,000 in common dividends, leaving a surplus Jan. 1, 1917, of \$1,651,563.

The company had outstanding on Dec. 31, 1916, \$5,898,000 of collateral trust 5% bonds, against which were deposited \$3,365,000 face value underlying bonds appraised at \$6,087,543 and \$5,327 cash, leaving an equity of \$194,870. In addition the company held \$6,416,800 stocks appraised at \$2,108,891, and \$282,500 bonds appraised at \$133,496.

Syndicate and subscription accounts were \$12,000, notes receivable \$67,500, accounts receivable \$135,622, cash \$487,754 and accrued interest \$138,249. Liabilities consisted of \$1,000,000 pf'd. and \$500,000 common stock, \$122,875 accrued bond interest \$4,005 reserved for taxes and \$1,651,563 profit and loss surplus.

UNITED FILTER CORP.

*(1) **Incorporated on March 21, 1917,** in Delaware, with a capital of \$2,000,000, to manufacture filters, filter presses, etc. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

UNITED FRUIT CO.

*(1) **Status.**—It was stated Feb. 1, 1917, that this company's shares naturally had yielded to the crisis which Germany's ruthless submarine warfare plan had created. United Fruit has a big fleet of steamers aggregating 204,000 tons of boats.

Of this tonnage 19 steamers of 93,088 tons are under the British flag, while 23 boats of 111,065 tons are under the American flag. The American boats ply between tropical ports and the United States and will naturally be much more exempt from submarine danger than the English boats. In fact, unless Germany is able to extend its submarine activities to the American coast, these American boats of United Fruit should be in no particular danger.

The boats are fully covered with war-risk insurance. Through some sort of intuitive insight the management of United Fruit Co. about a week ago covered its entire American fleet with war-risk insurance and at cost figures which could not possibly be duplicated to-day.

No decision has been made as to what to do with the English boats. If the submarine blockade becomes potent the company will not run the risk of continuing them in operation. They could be largely utilized in the American fruit trade, or if passage to this side for some of them were too hazardous, they could be laid up in English harbors.

The company had another successful month in January. During the four months of October, November, December and January United Fruit Co. earned a balance for dividends, after all charges, of better than \$3,100,000, or 8½% on its stock. Its profits compare with a trifle over \$1,000,000 during the same period of the 1916 year. In other words, earnings are running three times as large as a year previously.

*(2) **New Vessels.**—It was announced at Boston Feb. 19, 1917, that contracts had been signed by this company with the Harlan & Hollingsworth Corp. of Wilmington, Del., for the construction of four new vessels. This will bring the number of ships in course of construction for the company in the United States to a total of eight, while in England there are seven ships building, which have been requisitioned by the British Admiralty.

—Mar.

*(1) **Notes.**—On March 1, 1917, the "Boston News Bureau" said it is not likely that this company will do anything in 1917 toward retirement of the \$10,000,000 5% gold notes maturing in May, 1918.

As things are moving, however, United Fruit is likely to keep itself in exceedingly strong cash position. The company has grown to like the looks of a \$10,000,000 bank deposit. The expansion is calling for considerable money for the tropics and \$4,000,000 to \$5,000,000 new steamers have been ordered during six months.

If the company were to pay off half the notes from surplus earnings it might find it necessary inside of two years to put out additional securities. If the present policy of paying for its growth entirely from surplus profits is continued then the need of any financing will be practically obviated.

*(2) **Earnings Discussion.**—On March 21, 1917, the "Boston News Bureau" said: "United Fruit Co. earnings are running at extraordinary figures. Since Oct. 1 the company has earned \$650,000 more than a full year's interest and dividends. By the end of March it is figured that the company will have a surplus above interest charges and the 8% dividend on the \$48,792,000 stock of more than \$1,500,000. This sum is equal to better than 3% additional on the stock."

"Given a reasonable break in weather and operating conditions from now until the fiscal year ends Sept. 30, there is no reason in the world why United Fruit should not earn 30% for its stock, and perhaps even more."

"United Fruit shares are now selling below the level of the days prior to the

war. Speculative interest has not been attracted to the company and the conservatism of turning surplus earnings back into property and toward reduction of bonded debt has not tended to bring the stock into speculative favor. There are good judges who feel that Fruit is emphatically a peace stock."

—Apr.

*(1) **Discussion of Earnings.**—It was announced April 10, 1917, that this company's net profits were running at the rate of fully \$550,000 per week. It takes \$4,831,689 to pay a year's fixed charges and 8% dividends on the stock.

Through the first week of April the company had earned a balance for interest and dividends of slightly better than \$6,900,000 which is almost \$2,100,000 in excess of the charges and interest requirements for the entire fiscal year to September 30, 1917. In other words, in six months and one week the company has earned all of a year's charges with between 12% and 13% for the stock.

*(2) **Government Not Likely to Requisition Ships Soon.**—See Atlantic, Gulf & West Indies Steamship Lines.—Item No. 7.

UNITED FUEL GAS CO.

	1916	1915

*(5) **Income Account, Year Ended Dec. 31, 1916.**—Gross revenues, \$4,752,589; operating income, \$2,955,808; surplus after charges, \$2,481,239.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

—Apr.

“(1) New Oil Well.—See Columbia Gas & Electric Co.—Item No. 2.

“(2) Stock Dividend of 11.1-9%.—Directors of this company, a subsidiary of Columbia Gas & Electric Co., April 19, 1917, declared a stock dividend of 11.1-9% from the accumulated surplus. This increases the outstanding stock of United Fuel Gas Co. from \$9,000,000 to \$10,000,000.

“(3) Bonds Listed on New York Stock Exchange.—The New York Stock Exchange April 26, 1917, announced the listing of United Fuel Gas Co. \$204,000 first mortgage 6% bonds, Series “A,” with authority to add \$1,502,500, making the total amount authorized \$1,500,000.

“(4) February Earnings as Reported to New York Stock Exchange.—This company April 25, 1917, reported to the New York Stock Exchange a statement of earnings for February, showing: Gross, \$300,399; operating expenses and taxes, \$200,082; interest charges, \$52,709; surplus, \$547,808.

UNITED GAS & ELECTRIC CORP.

“(1) Earnings, 12 Months Ended Nov. 30, 1916.—This company reported combined earnings of subsidiary companies, exclusive of American Cities Co., for the period as follows:

	1916	1915
Gross	\$15,044,843	\$13,365,211
Net after taxes	6,534,733	5,768,129
Surp. after chgs.	3,068,425	2,372,150

“(2) Improvements by Controlled Co.—See International Ry. Co.—Item No. 1.

—Mar.

“(1) Earnings, Subsidiaries, December and 12 Months, exclusive of American Cities Co.

	1916	1915
December gross	\$1,410,828	\$1,280,356
Net after taxes	568,078	603,159
Surp. after chgs.	296,820	318,252
12 months gross	15,180,157	13,472,278
Net after taxes	6,461,800	5,864,298
Surp. after chgs.	2,958,643	2,432,290

The income of the company from all sources after the deduction of all expenses, for the year ended Dec. 31, 1916, was \$1,335,879. From this \$502,204 of interest on bonds was charged and \$54,500 amortization, leaving a balance of \$779,086. The pfd. dividends were \$649,936, leaving a surplus of \$129,150.

“(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$625,027, compared with \$645,384. Dividends on the 1st pfd. stock to the extent of 8½% accrued, but were not declared.

“(3) Report, Year Ended Dec. 31, 1916, shows that during the year the management strengthened the credit of the operated companies by financing through the issue of stock rather than by bonds or notes. Promising oil and gas interests in Texas have been acquired through the stock and bonds of the Louisiana Gas & Fuel Co., Inc., which is earning sufficiently to pay 6% on the investment and amortize the debt in 15 years.

During the year \$2,045,720 was expended on renewals and replacements which was \$308,817 in excess of the appropriations for 1915. The surplus earnings of the subsidiaries was \$2,291,071, of which \$1,278,072 was paid to the holding company in stock dividends and the rest—44.31%—remained with the subsidiary companies, being passed to their surplus accounts.

After all adjustments for the year the companies had a combined surplus of \$2,142,019. Dec. 31, 1916, the American Cities Co. made a gain of \$1,318,918 in gross and increased the surplus applicable to dividends by \$335,754.

“(4) Subsidiary to Authorize Note Issue.—See Birmingham Ry., Light & Power Co.—Item No. 2.

—Apr.

“(1) Acquisition — New Company Planned.—It was announced April 4, 1917, that this company had completed arrangements for the purchase of a half-interest in about 514 acres of pro-

ducing gas and oil land in the Augusta Pool, Butler County, Kansas. The United Gas & Electric Corp., which operates street railway, gas and electric properties in some 25 cities in all parts of the United States, is itself a large user of oil and fuel. The purchase of this new property was made in part to offset the rising cost in these commodities and partly to develop a promising business opportunity.

The other half-interest was recently acquired by the Magnolia Petroleum Co., and that company is developing and operating the property.

To finance the purchase, a new oil company is to be organized to take over the newly acquired half-interest. This company will issue \$2,000,000 7% first mortgage five-year bonds with interest payable quarterly, and 80,000 shares of capital stock at \$5 par. The majority of the stock will be held by the United Gas & Electric Corp.

Through the sale of these bonds and the balance of the oil stock to a syndicate of bankers consisting of Bertron, Griscom & Co. and associates, the purchase funds have been obtained. The United Gas & Electric has reserved for its own stockholders the first right to subscription to the new bonds and stock.

The United Gas & Electric has further agreed that at any time within three months of April 1, 1917, the subscribers to the oil bonds may exchange par for par the oil bonds for 7% purchase-money certificates of indebtedness of the United Gas & Electric Corp., carrying the same redemption privileges as the oil bonds.

The United Gas & Electric engineers have estimated the net profits of the oil company—after reserving sufficient funds for development, working capital and interest—will redeem the bonds after two years, after which time the profits of the company will go to the stockholders.

“(2) Stock of Ry. Acquired by Controlled Co. Subsidiary.—See Birmingham, Ensley & Bessemer R. R.—Item No. 1.

UNITED GAS IMPROVEMENT CO.

“(1) Earnings Statement, Year Ended Dec. 31, 1916, compares as follows:

—Mar.

“(1) Stock Increase Planned.—It was announced March 1, 1917, that at a special meeting of the directors of this company, it was decided to recommend to the stockholders at the annual meeting on May 7 authorization of a 10% stock allotment to be offered pro rata to stockholders at par. Stockholders of record May 12 will have the privilege of subscribing to the new stock. As there is \$55,520,950 stock outstanding, this will provide over \$5,000,000 new capital.

At current prices for U. G. I., it is figured that the “right” on a share of stock should be worth about \$3.50 to \$3.62½.

“(2) Extra Dividend.—Announced March 15, 1917, that this company had declared the regular quarterly dividend of 2% on its capital stock and an extra dividend of 2%, the latter payable out of profits on the sale of securities. Both are payable April 14 to stock of record March 31.

“(3) Comment on Extra Dividend.—On March 15, 1917, the “Wall Street Journal” said the 2% extra cash dividend was the first of the kind ever declared by this company. In 1910 a stock dividend of 10% was declared and in 1896 a stock dividend was paid in addition to the regular cash dividends.

In 1916 United Gas Improvement earned slightly over 14½% on its stock, including \$622,576 profit on sale of securities. Since 1910 the amount earned on the stock has ranged between 13% to 14½%. To pay the extra dividend of 2% will require about \$1,110,000.

—Apr.

“(1) Report, Year Ended Dec. 31, 1916, shows:

	1915	1916
Gross	\$9,440,557	\$9,071,389
Net profits	7,269,331	7,190,420
Surp. aft. divs.	2,829,095	2,759,184

Sales of gas and electric properties in city of Philadelphia increased 5.64% over 1915; properties outside of Philadelphia manufactured gas 5.83% increase; natural gas, 20.61% increase; electric, 13.83% decrease.

“(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$35,415,244, compared with \$32,586,149 Dec. 31, 1915.

“(3) Capital Increase Recommended in President's Report.—Pres. Samuel T. Bodine, of this company, in the annual statement for 1916, said, in part: “The present cash resources of the company and those in sight are short of meeting requirements to the extent of \$5,500,000. The Board of Directors, therefore, recommended that at the annual meeting to be held on May 7 the shareholders approve an increase of the capital stock of the company to the extent of 111,042 shares of the par value of \$5,552,100.

“Should this increase be authorized, shareholders will be given the right to subscribe between May 24 and June 15, 1917, for new stock at its par value of \$50 a share to the extent of 10% of their registered holdings at the close of business on May 12, 1917, payable in two installments of \$25 a share each on June 15 and Oct. 1, 1917. Installments to bear interest at the rate of 5% per annum from the date of payment to Sept. 30, 1917. Provision will be made that subscribers for whole shares shall have the right at any time between May 24 and June 15, 1917, inclusive, to pay their subscriptions in full with interest thereon at the rate of 8% per annum from March 31, 1917, to the date of payment and receive stock certificates participating in all subsequent dividends.

“Subscriptions for fractions of shares will be payable in full in cash at the time of making the subscription and will be exchangeable between July 16 and Sept. 25, 1917, for stock certificates when presented in lots aggregating whole shares.

“After Sept. 25, 1917, whole paid certificates of subscriptions for fractions of shares shall not be exchanged for stock, but shall be redeemable in cash at the rate of \$50 a share on presentation at the office of the company duly assigned in blank. Certificates of subscription for fractions of shares shall not bear interest.”

UNITED GLOBE MINES CO.

“(1) Officers and Directors Re-elected.—Announced Jan. 9, 1917, that at the annual meeting of this company all retiring directors and officers were re-elected.

—Apr.

“(1) Income Account, Year Ended Dec. 31, 1916.—Annual report of this company for the year 1916 showed gross receipts amounting to \$3,291,862, and net earnings totaling \$2,063,077, an increase of \$1,240,826 over the preceding year. Surplus, after providing for depreciation of plant and mines, amounts to \$1,881,464, which is equivalent to \$81.80 a share on 23,000 shares outstanding. During the year dividends amounting to \$1,679,000 were paid.

UNITED GRAPHITE CO.

“(1) To Develop Alabama Graphite Properties.—On April 19, 1917, the “Manufacturers' Record,” Baltimore, said that graphite properties in Coosa County, Ala., would be developed by the United Graphite Co., of Goodwater, which had been organized by J. H. Dowling, of Odessa, Fla., and associates. The company will capitalize at \$500,000. Its Coosa County land comprises 17,000 acres, in addition to which it owns Clay County graphite lands.

UNITED HOTELS CO. OF AMERICA.

“(1) Incorporated on Feb. 16, 1917, in Delaware, with a capital of \$10,000,000.

This information, while not guaranteed, is believed to be correct.

²(3) Comment on Yearly Earnings.—On Feb. 21, 1917, the "Wall Street Journal," in commenting on the earnings of this company and subsidiaries, said, in part:

"United Light & Railways Co. for 1916 exceeded the estimates made at the opening of the year by its management, and the showing should be of a nature to please its stockholders. For 1916 the company earned approximately 8.6% on its common stock, compared to 6.1% in 1915.

"Earnings of the subsidiary properties for 1916 increased \$577,003, or 9.1% in gross, \$184,879, or 7.5%, in net, and \$181,521, or 16.6%, in surplus. In the later months of the year the increased cost of operation figured to some extent, but in December, while gross of the subsidiaries increased 8.1% over December, 1915, net gained 6.2% and surplus 8.6%.

"Income of the holding company for the year increased 18%, or \$292,629, this increase being made up of a gain of \$177,925, or 16.5% in earnings on stocks of subsidiaries owned, \$65,358, or 16%, in dividends and interests on investments and 36.3%, or \$48,846, in miscellaneous earnings.

"Expenses of the holding company increased \$19,592, or 15.4%, interest on bonds and notes increased \$63,520, or 12.8%, and there was a decrease of \$5,015 in amortization charges, leaving net income \$1,193,273, a gain of \$214,532, or 22%. First pfd. dividends increased \$70,003, while the conversion of the 2d pfd. stock into 1st pfd. resulted in a decrease of \$31,630 in 2d pfd. dividends, making the net increase in pfd. dividends for the year \$38,373.

"The balance for the \$6,899,782 common stock was \$597,480 in 1916, compared with \$421,321 in 1915, a gain of 41.8%. For December gross income of the holding company increased 12% over December, 1915, while net income increased 12.7% and the balance for the common stock for the month was \$93,716, compared with \$78,425 for December, 1915, a gain of 19.5%.

—Mar.

²(1) Stock Increase by Controlled Companies.—See Tri-City Ry. & Light Co.—Item No. 1.

²(2) New Directors.—Announced March 15, 1917, that at the annual meeting of this company L. P. Hammond, formerly operating manager of Colorado Power Co., and Charles H. McNider,

a banker of Masoc City, Ia., had been elected to the board to fill vacancies. Other retiring directors were re-elected.

²(3) Combined Earnings, Subsidiaries, Year Ended Dec. 31, 1916, compare as follows:

	1916	1915
Gross	\$6,885,779	\$6,308,777
Net	2,666,393	2,481,514
Bal. aft. chgs. & sub. pfd. divs.	1,275,880	1,094,459

²(4) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross	\$1,918,821	\$1,626,192
Tot. aft. exp. & taxes	1,771,913	1,498,876
Surp. aft. chgs.	1,193,273	978,740
Bal. after pfd. divs.	597,480	421,321

²(5) Earnings on Stock.—It was stated March 23, 1917, that this company's 1916 balance after pfd. dividends of \$597,480 is equivalent to \$8.65 a share on the common stock, compared with \$6.16 a share in 1915.

²(6) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$744,854, compared with \$513,061 Dec. 31, 1915.

²(7) Report, Year Ended Dec. 31, 1916, shows a gain for gas subsidiaries of 5.18%, electric light and power properties a gain of 18.47% and electric rys. 13.37%. Of the business of the company in 1916 19.66% was done by the gas properties, 37.58% by the electric light and power properties, 26.23% by the city street ry. companies and 12.61% by the electric interurban lines.

In financial position Dec. 31, 1916, the consolidated balance sheet of the company showed \$2,302,429 of current assets, of which \$1,169,388 was in cash, with current liabilities of but \$590,612, an excess of current assets over current liabilities of \$1,711,818. The company had no floating debt and the \$1,111,637 of notes payable in the balance sheet for 1915 were eliminated in 1916.

In regard to funded debt that of the holding company increased \$435,500 in the year to \$12,201,500, while the combined funded debt of subsidiaries was reduced \$704,954 to \$14,291,862. The common stock was unchanged and the pfd. increased \$108,600, with the 2d pfd. entirely retired.

With the surplus balance of \$513,061 Jan. 1, 1916, and the profit of \$1,223,938 in 1916, total surplus was \$1,736,999. From this were paid \$595,792 dividends on pfd. stock and \$69,000 dividends on common stock.

The company has continued the practice of acquiring, either by exchange of its securities or by purchase the securities of its subsidiary companies in the hands of the public, and Dec. 31, 1916, the public held \$3,196,199 of stocks of subsidiaries compared with \$3,418,249 Dec. 31, 1915. This policy will result in the gradual elimination of all subsidiary company stocks and bonds.

In 1916, \$271,079 was expended for capital account on the gas properties, \$537,474 on the electric properties, \$619,333 on electric rys., and \$46,388 on heating plants, a total of \$1,474,274.

UNITED LIVE STOCK CORP. (THE).

²(1) Incorporated on March 16, 1917, in Delaware, with a capital of \$1,000,000, to carry on a general live stock business in all its branches. Incorporators: Paul C. Young, New York, and Eason J. Clozman, Lloyd Mann, Sidney, Neb.

UNITED MARITIME CORP.

²(1) Incorporated on April 14, 1917, in Delaware, with a capital of \$2,500,000, to build and operate boats of all kinds. Incorporators: Allen E. Moore, Geo. F. Jebbett, New York, and F. H. Butehorn, Brooklyn, N. Y.

UNITED MERCANTILE CO., INC., WILMINGTON, DEL.

²(1) Incorporated on Jan. 23, 1917, in New York, with a capital of \$300,000, to deal in merchandise, coin slot machines and as brokers. Representative: Dudley McAdow, 1 Wall St., New York.

UNITED MOTORS CORP.

²(1) Gross Sales, Nine Months Ended March 31, 1917, were \$23,500,000, compared with \$17,200,000 in the corresponding period a year previously, according to Pres. Alfred B. Sloan, Jr. Indications are that the sales for the fiscal year to end June 30 will be approximately \$34,000,000, an increase of 40% over the previous year.

Mr. Sloan stated further: "Earnings are at the rate of \$9 a share, and this in spite of the great increase in cost of material and labor. The Harrison Radiator Corp., one of the new acquisitions of the United Motors Corp., has booked orders for between \$5,000,000 and \$6,000,000, for delivery beginning July 1 next. This additional volume of business will considerably increase the earnings of the corporation as a whole.

"The Harrison Co. is building extensive works in addition to its present plant in Lockford, N. Y., for the purpose of handling this business. The new ball plant of the New Departure Manufacturing Co., at Bristol, Conn., will be producing in June. This will considerably increase the earnings of that company. The corporation has actual contracts and orders in hand to insure the full operation of the different plants up to July 1, 1918, and if present conditions continue, the sales of the corporation for next year, even outside those from new properties, should considerably exceed those of this year.

"A complete operating statement will be issued as soon after the close of the first current fiscal year, June 30, as inventories and audits make possible."

UNITED MOTORS FUEL CO.

²(1) New Plant.—On March 22, 1917, this company, financed by members of New York Automobile Chamber of Commerce, New York, was reported as contemplating construction of a \$1,000,000 plant to manufacture gasoline. It has erected a one-story steel and brick construction building for experimental plant and is installing machinery for a daily capacity of 10,000 gals. of gasoline. It will manufacture fuel from Mexican crude oil, which in the past was wasted.

UNITED NATIONAL UTILITIES CO.

²(1) Incorporated on Feb. 26, 1917, in Delaware, with a capital of \$20,000,000, to do a public utility business. Incorporators: F. R. Hansell, Joseph F. Cotter, Philadelphia, and S. C. Seymour, Camden, N. J.

²(2) Merger.—It was announced at Philadelphia Feb. 26, 1917, that through the filing of an application for a charter under the name of the United National Utilities Co., at Dover, Del., it had become known that the first formal step for the consolidation of the National Properties Co., the National Gas, Electric Light & Power Co. and the Jersey Central Traction Co. was under way.

The United National Utilities Co. will have an authorized capital of \$20,000,000, of which \$10,000,000 will represent pfd. and an equal amount common stocks. It will be a holding company, and the companies entering the merger will pass into their new alignment March 1.

Van Horn Ely, Pres. of the National Properties Co. and its subsidiary, the American Railways Co., will be made Pres. of the new project. As a part of the plan \$1,800,000 three-year 6% notes will be put out. The issue already has been purchased by Bloren & Co. Besides this, \$2,500,000 pfd. stock and \$3,000,000 common stock will be issued. These three items represent the cost of the merger. The notes will be secured by the stocks of the subsidiary concerns.

The gross earnings of the companies involved were equal to \$12,000,000 in 1916. Forty-five per cent. of these earnings were contributed from electric and gas properties and 55% by street railways. The earnings available for the new securities are equal to the interest on the notes, 6% on the pfd. stock and 9% on the common.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

The companies included in the merger operate 623 miles of street railways and supply electric light and power to more than fifty cities and towns and gas to many others.

—Mar.

⁽¹⁾ **Successor Co.**—It was announced at Philadelphia March 1, 1917, that the merger of the National Properties Co., the National Gas Electric Light & Power Co. and the Jersey Central Traction Co. had been consummated under the name of the United National Utilities Co.

The new holding company has an authorized capital of \$20,000,000 to represent equal issue of pfd. and common stock. Part of the financing plan is the issue of \$1,800,000 three-year 6% notes. This issue has already been bought by Bioren & Co.

⁽²⁾ **Bond Sale by Subsidiary.**—See National Gas, Electric Light & Power Co.—Item No. 2.

⁽³⁾ **Report, Subsidiary, 1916.**—See American Ry. Co.—Item No. 2.

⁽⁴⁾ **New Company Result of Public Utility Merger.**—Stated March 24, 1917, that this company had been incorporated under the laws of Delaware with an authorized capital of \$10,000,000 preferred and \$10,000,000 common, to take over the National Properties Co., the National Gas, Electric Light & Power Co., and the Jersey Central Traction Co.

It was announced that the new company had placed \$1,800,000 6% 3-year notes with investors, these notes being secured by the deposit of \$2,500,000 common stock of National Properties Co. and \$570,000 American Railways Co. collateral trust 6% bonds. A syndicate will shortly offer \$2,500,000 of the 6% preferred stock of the new company at par with a bonus of 40% of common stock. For the twelve months ended Dec. 31, 1916, the combined earnings of the merged properties, after operating expenses and interest on underlying bonds, were \$528,161, which would give a surplus on the present outstanding common stock of the new company of \$270,161, equivalent to 9% on the \$3,000,000 which has been issued.

It is understood that under the terms of the merger holders of the common stock of National Properties Co. will have no option of taking securities in the new company, but will be paid \$100 a share for their stock. Holders of the common stock have substantially all agreed to the terms and there is but a small amount of preferred stock outstanding. Stockholders of National Gas, Electric Light & Power will receive \$47.64 in cash, \$30 in 3-year 6% notes and \$20 in United National Utilities common stock for each share of common and 90% in 6% collateral trust bonds and 10% in common stock for each share of pfd.

In regard to the new corporation and its business, Van Horn Ely, who is its president, said that the new company is in strong financial position, the capital interested being from New York, Philadelphia, Pittsburgh and Louisville. Gross business of operated properties in the merger was \$11,174,810 for 1916. The management of the American Railway Co. and its affiliated companies and of the National Properties Co. will continue substantially in the same hands as heretofore, and the business of the National Gas, Electric Light & Power Co. will be brought under this management also and headquarters will be moved to Philadelphia. In addition to Mr. Ely as president, officers of the United National Utilities Co. are William C. Sproul, vice-pres., and Walter W. Perkins, sec.-treas.

—Apr.

⁽¹⁾ **Officers and Directors—Stock Offering.**—The "Philadelphia Public Ledger," April 21, 1917, stated that Van Horn Ely is Pres. of the newly organized United National Utilities Co. and William C. Sproul is Vice-Pres. Directors are Van Horn Ely, William C. Sproul, John Gribbel, George A. Huhn, Jr., Walter H. Lippincott, Charles R.

Miller and E. Clarence Miller, of Philadelphia; W. W. Laird, Henry P. Scott and T. W. Wilson, of Wilmington; Henry Almstedt, Louisville; L. L. Dunham, New York; J. T. Lynn, Detroit, and Alexander C. Robinson, Pittsburgh.

For sale of the new securities the Utilities Service Corp., Real Estate Trust Building, Philadelphia, is offering \$2,500,000 6% cumulative pfd. stock at par, \$100 a share, together with a bonus of 50% in common stock.

⁽²⁾ **Exchange of Stock for National Properties Bonds Offered.**—See Utilities Service Corp.—Item No. 1.

UNITED PAPERBOARD CO.

A complete description of this company appears in the "Miscellaneous Book" in your card cabinet.

⁽¹⁾ **Net Earnings, Six Months.**—Announced Dec. 30, 1916, that the net earnings of this company for the first six months of its fiscal year, May 29 to Nov. 25, after deducting all expenses and interest charges, were \$808,661.

—Feb.

⁽¹⁾ **Extra Dividend.**—Announced Feb. 19, 1917, that this company had declared an extra dividend of 1½% on the pfd. stock, payable March 15 to stock of record March 1.

⁽²⁾ **Sinking Fund Created.**—It was announced Feb. 24, 1917, that the directors of this company had created a sinking fund for the purpose of reducing the pfd. stock. The stock is to be surrendered at not more than 110% of its face value.

UNITED PETROLEUM CO.

⁽¹⁾ **Report, Year Ended Dec. 31, 1916,** shows a net income of \$475,372; dividends, \$686,383; deficit, \$211,011; previous surplus, \$364,571; total surplus, \$163,560.

⁽²⁾ **Balance Sheet, as of Dec. 31, 1916,** shows cash amounting to \$10,904, and total assets and liabilities of \$3,248,004.

—Apr.

⁽¹⁾ **Dissolution Planned.**—On April 9, 1917, the "San Francisco Chronicle" said that plans of this company called for its annual meeting April 19. An extra dividend, probably of \$2 a share and approximating \$160,000, is to be declared at the meeting, according to the plans of the management. This dividend is to come out of the various assets of the corporation other than its holdings of Union Oil stock.

⁽²⁾ **Annual Meeting Postponed—Disincorporation Plan Reported.**—On April 21, 1917, the annual meeting of this company was postponed owing to lack of a quorum. Sixty days after that date the meeting probably will be held. It is understood that it was proposed to disincorporate the company transferring the outstanding shares of more than 80,700 at par for as many shares of the Union Petroleum Co. of California. This proposition is still being considered by the United Petroleum shareholders, and it is stated that the transaction is likely to be put through.

UNITED POWER & TRANSMISSION CO.

⁽¹⁾ **Increased Dividend.**—Announced Jan. 25, 1917, that this company had declared a dividend of \$1.55 per share, payable Jan. 30 to stock of record Jan. 16. The previous payment was \$1.43, in July, 1916.

—Feb.

⁽¹⁾ **Report, Year Ended Dec. 31, 1916,** shows income from stocks, bonds, etc., as \$821,564, compared with \$818,740 in 1915, and surplus after charges as \$429,294, compared with \$419,210 in 1915.

The total amount of money expended on the several properties, as given by the officers of the several lessee companies, in the report of Dec. 31, 1915, was \$4,855,497. The amount reported as expended from Jan. 1, 1916, to Dec. 31, 1916, was \$1,401,507, making a total of \$6,256,765 expended on the several properties since the dates of their respective leases.

UNITED PROFIT SHARING CORP.

⁽¹⁾ **Report, Year Ended Dec. 31, 1916,** shows total sales amounting to \$1,275,361 and net profit of \$253,703.

⁽²⁾ **Earnings on Stock.**—It was stated March 16, 1917, that this company's 1916 net of \$253,703 is equal to 61.94% on \$409,537 capital stock, compared with a deficit in 1915.

⁽³⁾ **Balance Sheet, as of Dec. 31, 1916,** shows a profit and loss surplus of \$33,136, compared with a deficit of \$220,568 Dec. 31, 1915.

UNITED RAILROADS OF SAN FRANCISCO.

⁽¹⁾ **Foreclosure Suit.**—It was announced Dec. 27, 1916, that a suit to foreclose on \$1,800,000 of the underlying bonds covering the heart of the United Railroads system in San Francisco had been begun in the Superior Court at San Francisco.

The issue was made in 1893 and the bonds matured on Jan. 1, 1913.

One of the effects of the filing of the foreclosure complaint will be to make imperative the reorganization of the United Railroads properties.

The bonds were issued by the Market Street Cable Ry. in 1893 and constitute a lien on a number of lines now operated by the United Railroads.

⁽²⁾ **Bondholders' Protective Committee.**—It was announced Jan. 5, 1917, that a protective committee, composed of John Henry Hammond, of Brown Brothers & Co., chairman; Donald G. Geddes, of Clark, Dodge & Co.; B. Howell Griswold, of Baltimore; A. S. H. Post, of Baltimore, and E. B. Smith, of Philadelphia, had been appointed for the 4% bonds of this company, a subsidiary of United Ry. Investment Co. The depositors for the bonds are the Union Trust of New York and the Mercantile Trust & Deposit of Baltimore.

The committee, in its notice to bondholders, states that it is acting at the request of holders of the bonds who have declined to assent to the reorganization plan of September, 1916, put forth by San Francisco bankers, and that in its opinion the San Francisco plan involves sacrifices by the 4% bondholders greater than the financial condition of the company warrants.

⁽³⁾ **Circular to Bondholders.**—It was announced Jan. 8, 1917, that the committee of San Francisco bankers which put forth a plan of reorganization for this company had issued a circular to holders of the 4% bonds stating that up to Jan. 1 there had been deposited with the committee \$9,500,000 of the bonds from 900 bondholders.

The committee extended the time for deposit of the bonds to Jan. 31 and announced that unless a majority of the 4% bonds has been deposited by that date the committee will feel compelled to abandon the plan, return the deposited bonds and retire from further connection with the reorganization of the company.

Meanwhile a new committee, composed of Baltimore, Philadelphia and New York men, has been formed and is asking for deposit of the bonds in opposition to the San Francisco plan. The San Francisco committee states that it is convinced that, under existing conditions, a more favorable plan for the bondholders can not be made, and that if its plan be abandoned, foreclosure suit will follow and the bondholders will be compelled to contend for their rights in the courts.

It calls attention to the foreclosure brought on the \$1,800,000 of Market Street Cable Ry. 6% bonds, and says that another foreclosure suit will be brought soon by holders of the \$400,000 Ferries & Cliff House bonds, and that immediate action by the holders of the 4% bonds is imperative.

The committee asserts that it is willing to do all in its power to help get the company out of its difficulties, but unless a majority of the 4% bonds are deposited by Jan. 31 it will give up its plan, as it will be unable to proceed further.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

¹(4) **Bond Deposits.**—On Jan. 18, 1917, it was announced that \$10,000,000, par value, of this company's general first sinking fund 4s had been deposited with the agencies of the San Francisco committee.

Meanwhile suit has been brought to foreclose the mortgage of the \$1,800,000 Market Street 6s; the \$400,000 Ferriss and Cliff House 6s are past due, and the holders of the \$7,000,000 Market Street 5s, the \$1,000,000 Sutter Street Railway first 5s and the Omnibus Cable Co.'s 6s may all take steps to protect themselves.

Another group has entered the field with an appeal to the holders to deposit with them, on the prospect of exacting better terms, complaining that the San Francisco committee's proposal of a settlement with the bondholders on the basis of 25% of the value of the 4% bonds in Market Street 5s with 44% of par value in pfd. stock is not liberal enough in the distribution of the pfd.

The California Railway Commission will have final jurisdiction on any plan presented.

¹(5) **Circular by Eastern Committee.**—On Jan. 18, 1917, it was announced that the protective committee for the 4% sinking fund bonds of this company, recently organized by Eastern bankers, and of which John Henry Hammond, of Brown Brothers & Co., is chairman, had issued a letter to holders of the bonds, pointing out what its members consider inequalities in the reorganization plan proposed by the San Francisco protective committee.

The Eastern committee asserts that the sacrifice of capital to the holders of the 4% bonds as contemplated under the San Francisco plan is not necessary and a reorganization can be accomplished without this sacrifice. In addition to this objection to the San Francisco plan the committee says that the latter does not adequately provide for the expiring franchises, the necessity of refunding the debt and the proper financing of the company, all of which are principal factors in the making necessary the reorganization.

The San Francisco plan of providing for the debts of the company, the committee says, is of too temporary a nature as the new securities would mature prior to Sept. 1, 1924, and thus might render a second reorganization necessary.

Future extensions, improvements and other capital requirements for the future are not provided for and the committee asks that it be given an opportunity to devise a more equitable plan, as the controversy over the reorganization is between the bondholders, who have no voice in the management of the property and the holders of the junior securities, who have controlled its management for 11 years.

The junior security holders have approved the San Francisco plan, but all bondholders have a common interest in securing more equitable terms for themselves.

The new committee says that it recognizes the sincerity of the San Francisco committee and desires to enter into negotiations with it for an amicable adjustment of differences and a satisfactory reorganization of the corporation and its finances.

¹(6) **Injunction Dissolved.**—It was announced Jan. 24, 1917, that the United States Court at San Francisco had dissolved the injunction obtained four months previously in the lower courts by this company, preventing the construction of tracks of the municipal street railway in lower Market Street paralleling the tracks of United Railroads.

The court held that the city had a right to construct tracks and operate extensions in any part of the city, and that the provision in the franchise of United Railroads that the city could not permit any other company to use the same street occupied by United Railroads, for more than five blocks, did not apply to the city.

—Feb.

²(1) **Application to List.**—Announced Feb. 1, 1917, that the New York Stock Exchange had received application to list United Railroads of San Francisco \$23,904,000 Union Trust Co. of New York certificates of deposit for 4% sinking fund bonds, due April 1, 1927.

²(2) **Protective Committees Confer.**—It was stated Feb. 8, 1917, that the two protective committees, representing holders of the 4% bonds of this company, may soon get together and the negotiations result in the selection of a joint committee, with its members representing the San Francisco committee which put forth the first reorganization plan and the committee of Eastern bankers, which was organized to oppose the San Francisco plan.

It was thought that at conferences started early in February a common ground for the reorganization of the company would be found and that an amended plan representing a compromise between the two committees would be put forth.

²(3) **New Reorganization Plan.**—It was announced Feb. 16, 1917, that the two protective committees for the 4% bonds of this company had agreed upon an amended reorganization plan by which the holders of the 4% bonds will receive 66⅔% of the face value of their holdings in bonds of the new company, instead of 25% under the former plan and instead of 45% of 1st pfd. stock will receive 8% and also 33⅓% in new common stock. This plan gives holders of the 4% bonds 108% of the face value of their bonds in new securities, instead of 70% under the first plan.

Under the recent decision of the courts on the Market Street extension of the municipal lines by which the latter will parallel United Railroads' tracks it is pointed out that this decision, if upheld, will reduce revenues of the company so that it would make the retirement of the \$2,500,000 debentures in the first plan exceedingly doubtful.

The new plans call for cash of \$3,000,000 from the United Railways Investment interests, this cash to be used to retire the Omnibus Cable and Sutter Street Railway bonds, while it is proposed under the new plan to retire the Market Street Cable bonds and the Ferriss & Cliff House bonds from income of the company up to April 1, 1918, coupons of the present bonds up to that date to be exchanged for new 6% bonds.

There will be but little change in total amount of securities to be issued under the first plan and the amended plan, the principal change being the increased amount of bonds to be issued under the latter and the correspondingly reduced amount of junior securities. The new corporation will issue \$15,600,000 6% bonds, \$2,000,000 1st pfd. stock, \$5,500,000 2d pfd. stock, and \$14,500,000 common stock.

In return for the present stocks, all claims for unpaid dividends and unsecured notes amounting to \$3,685,000 the new company will turn over to the creditors and stockholders notes of the Railroads & Power Development Co. and debentures of the United Railroads and of the investment company.

²(4) **Amended Reorganization Plan.**—It was stated Feb. 17, 1917, that the two protective committees for 4% bonds of United Railroads of San Francisco had agreed upon an amended reorganization plan by which holders of the 4% bonds will receive 66⅔% of the face value of their holdings in new bonds, instead of 25% under the former plan, and instead of 45% of 1st pfd. stock will receive 8% and also 33⅓% in new common stock.

This plan gives holders of the 4% bonds 108% of the face value of their bonds in new securities, instead of 70% under the first plan.

²(5) **Application to List.**—Announced Feb. 17, 1917, that the New York Stock Exchange had received application to list United Railroads of San Francisco

\$23,904,000 Union Trust of San Francisco and Equitable Trust Co. of New York certificates of deposit for 4% sinking fund bonds, due April 1, 1927; United Railroads of San Francisco \$23,904,000 Union Trust Co. of San Francisco certificates of deposit for 4% sinking fund bonds, due April 1, 1927.

—Mar.

²(1) **Meeting of California Ry. & Power Co.**—See California Ry. & Power Co.—Item No. 1.

²(2) **New Plan for Bondholders.**—It was stated March 16, 1917, that a new plan had been prepared for submission to holders of the 4% bonds of this company. Temporarily, the listing of the certificates was postponed.

²(3) **Amended Plan.**—Announcement was made March 16, 1917, that the California Ry. & Power Co., which as a subsidiary of United Ry. Investment Co. owns the common and pfd. stocks and other obligations of United Railroads of San Francisco, had sent to its stockholders a circular outlining the provisions of the amended plan of reorganization for the San Francisco property.

The amended plan contemplates that approximately \$2,000,000 of the amount necessary to pay underlying obligations of United Railroads will be contributed by holders of the 4% bonds of United Railroads by a funding of the interest on the 4% bonds for two years. This will relieve California Ry. & Power Co. of the necessity of purchasing \$2,500,000 par value of the \$5,500,000 which it was to purchase under the original plan.

Under the amended plan California Ry. & Power Co. will purchase at par \$3,000,000 of the Market Street Ry. 5% bonds, this amount to be a part of \$10,088,000 of these bonds to be outstanding.

With the moneys thus saved and contributed, together with other funds to be taken from earnings, United Railroads will be placed in position to pay off its underlying obligations.

The amended plan contemplates among its essential features that the holders of the 4% bonds of the United Railroads of San Francisco, of which there are outstanding in principal amount \$23,500,000, are to receive 58⅓% thereof, or \$13,788,000 in new 6% 20-yr. bonds, 8⅓% thereof, or \$1,958,000 in new pfd. stock, and the remainder, or \$3% thereof, or \$7,758,000 in new common stock; and they are to receive in addition 8%, or \$1,880,000 in new 6% bonds, to take the place of the interest for two years, the payment of which they will forego.

As part consideration for the purchase of the \$3,000,000 of Market Street Ry. Co. 5% bonds, the amended plan contemplates the issue for distribution in respect of the junior securities of United Railroads of San Francisco, the greater part of which are owned by California Ry. & Power, to wit: 5% gold notes of \$1,000,000, 7% gold notes of \$1,925,000, 1st pfd. stock, \$5,000,000, 2d pfd. stock, \$20,000,000 and common stock, \$17,948,000, the following new securities: New 2d pfd. stock of \$6,000,000 and new common stock of \$6,244,000. The amended plan contemplates further such adjustment of inter-company indebtedness as shall operate as a complete settlement between the holders of junior securities and, or their subsidiaries and United Railroads of San Francisco.

²(4) **Consummation of Alternative Plan Looked For.**—See California Ry. & Power Co.—Item No. 3.

—Apr.

²(1) **Admitted to List.**—Announced April 12, 1917, that the New York Stock Exchange had admitted to the list this company's \$1,539,000 interchangeable certificates of deposits of Equitable Trust Co. of New York and Union Trust Co. of San Francisco, representing 4% sinking fund gold bonds, with authority to add \$22,365,000, making the total \$23,904,000.

²(2) **Reorganization Plan Agreement.**—It was announced April 12, 1917, that

JANUARY 1 TO APRIL 30, 1917

the Anderson and Hammond Protective Committees, representing 4% sinking fund bonds of this company, had agreed upon a modified plan of reorganization. Holders of the 4s will receive 66% of the face of their holdings in a new common stock.

*(3) New Reorganization Plan Adopted by Committees.—Announcement was made April 25, 1917, of the adoption by the New York and San Francisco committees of the amended plan of reorganization of this company. Nearly 80% of the bonds have been deposited. The total capitalization is reduced from \$84,639,100 to \$47,011,100.

The main features of the reorganization plan provide for a cash requirement of \$5,200,000 to take care of underlying bonds maturing April 1, 1918; exchange of existing 4% bonds for new securities, consisting of bonds, 1st pfd. stock and common stock; the retirement of outstanding notes, pfd. stock and common stock by the issue of new 2d pfd. and common stock, and the sale of securities to meet the company's future capital requirements.

It is proposed to obtain the necessary cash for working capital by the use of income accumulated pending reorganization and the sale of non-operative property, these two items amounting to \$2,200,000, and the sale of \$3,000,000 of Market Street (San Francisco) bonds. This will leave the Market Street bonds as the only underlying security and reduce the amount of this bond to slightly over \$10,000,000.

For existing junior issues of the United Railroads, amounting to \$45,873,600, the new plan provided for new junior issues of 2d pfd. and common shares totaling \$12,244,000. Holders of the old junior issues also will be required to buy \$3,000,000 of Market Street Ry. 5% bonds, payment to be made at par.

The total interest-bearing debt of the company under the terms of the reorganization is reduced by \$12,959,000.

UNITED RYS. CO. OF ST. LOUIS.

*(1) New Directors.—It was announced Feb. 14, 1917, that at the annual meeting of this company, a subsidiary of North American Co., J. C. Roberts and A. K. Siegel, of St. Louis, H. C. Cole, of Chester, Ill., and George W. Norton, of Louisville, were elected to succeed James Adkins, H. P. Hilliard, J. D. Mortimer and Breckenridge Jones. Seven of the former directors were re-elected.

It is said that the four new directors are favorable to the contentions of the minority holders of the pfd. stock, who are urging some action in regard to their long deferred dividends. The meeting was 3,481,000 attended, there having been 3,481,000 shares of stock voted.

*(2) New Executive Committee.—It was announced Feb. 24, 1917, that at a meeting of the new board of this company, a subsidiary of the North American Co., a new executive committee was selected as follows: J. I. Beggs, D. R. Francis, Jr., A. L. Shapleigh, A. J. Siegel and G. W. Norton, the last two named representing the holders of the pfd. stock who elected four members of the new board.

H. S. Priest, the general counsel of the company, against whom the pfd. stockholders protested, was retained as general counsel in an advisory capacity, while Thomas E. Francis, a former assistant to Mr. Priest, was appointed general attorney.

At this meeting retiring officers were re-elected.

—Mar.

*(1) Court Decision on Commission Power.—It was announced March 1, 1917, that the Missouri Supreme Court had held that the Missouri Public Service Commission cannot compel this company to seek franchise from the city and cannot compel the city to grant franchises, the commission having only the right to regulate traffic operation and fares in streets on which franchisees exist.

The decision was rendered on an order of the commission which sought to compel the company to make track extensions and other improvements on streets in which it held no franchises. Under the decision the company does not have to make any such extensions.

*(2) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross oper. rev.	\$12,641,294	\$11,681,200
Total income	12,723,883	11,779,684
Surp. aft. chgs.	887,506	265,527

UNITED RYS. & ELECTRIC CO. OF BALTIMORE.

*(1) Dividends.—Announced March 22, 1917, that this company had declared a dividend of 50 cents per share (1%) on the common stock, payable April 14 to stock of record March 28.

—Apr.

*(1) New President.—Announced April 11, 1917, that Thomas A. Cross had been elected a director and Pres. of this company to succeed W. A. House.

*(2) Income Bond Interest Ruling.—Announcement was made April 10, 1917, that the Baltimore Stock Exchange had ruled that after June 1, 1917, this company's income bonds are to be traded in "and interest"; that is, the interest these bonds will have the time of purchase added to the price at the time of purchase. This has been a long-standing rule of the exchange so far as all mortgage bonds dealt in are concerned, but it will be the first time it has been made to apply to an income bond issue. The reason given for the action is that the company is in a position to make the interest on the income practically assured. It must be paid before any dividend is declared on the stock.

*(3) Report, Year Ended Dec. 31, 1916, shows income account as follows:

	1916	1915
Gross	\$9,914,051	\$9,028,144
Net after taxes	8,855,559	4,885,445
Surp. after chgs.	1,108,124	1,229,916
Bal. after pfd. com. divs. and misc. approp.	103,435	410,548

*(4) Earnings on Stock.—It was stated April 11, 1917, that this company's 1916 balance of \$1,213,171, after pfd. dividends, is equal to \$2.96 a share earned on \$20,461,200 common stock, compared with \$3 a share earned in 1915.

*(5) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,111,494, compared with \$1,008,058 Dec. 31, 1915.

*(6) Comment on 1916 Report.—On April 12, 1917, the "Philadelphia News Bureau" said, in part: "The industrial development which the City of Baltimore has enjoyed during the last year and a half is reflected in the improved earnings of the United Rys. & Electric Co. for the year 1916. Gross business for the year amounted to nearly \$10,000,000, an increase of 10.39%. Net earnings, after deduction of depreciation, which is charged against operating expenses for the first time, amounted to \$5,063,552, an increase of 12.9% over the 1915 figures adjusted for comparison. It is notable that the company devoted 13.41% of gross earnings to maintenance and depreciation."

"During the year the company carried over 280,000,000 passengers, an increase of more than 20,000,000. This increase in business was handled with difficulty, owing to the inability to secure promptly the new cars which had been ordered, as well as other equipment."

"Shortly after the great fire of 1904 the company adopted a comprehensive plan for the rehabilitation and extension of the company's service. About \$8,000,000 was made available for this purpose. Most of the main lines of track have been reconstructed with modern grooved rails, and 895 new cars have been acquired. The central power house has been reconstructed."

"The United Rys. & Electric Co. has a very advantageous long-term contract with the Pennsylvania Water & Power Co. by which the latter furnishes a large

block of electric current at a price lower than the cost of production in the Railways Co.'s own power station."

UNITED RYS. INVESTMENT CO.

*(1) Bondholders' Protective Committee for Subsidiary.—See United Railroads of San Francisco.—Item No. 2.

—Mar.

*(1) Amended Plan for San Francisco Financing.—See United Railroads of San Francisco.—Item No. 3.

UNITED SERVICE CO.

*(1) Income Account, Year Ended Dec. 31, 1916.—Gross, \$793,264, against \$686,906 last year; net, \$315,158, against \$277,091 last year; surplus after charges and dividends, \$58,189, against \$79,809 last year.

*(2) Statement by President.—In conjunction with the annual report issued in March, 1917, Pres. Brooks said that considering the effect on the net earnings by reason of the increased operating costs the results for the year must be considered satisfactory. Construction in 1916 was confined only to work absolutely necessary by reason of increased business. An additional 2,500 kilowatts of generating capacity was installed at Warren and 3,000 kilowatts at New Philadelphia. Improvements were made at the Coahocton plant also. New transmission lines were built to serve coal companies with power and the properties at Strasburg and Reynoldsville, Pa., were acquired and will be connected with the transmission lines of the company.

Operations at Bristol, because of the favorable contract with the Philadelphia Electric Co. made a gain of 34.1% in net revenues on a gain of 31.5% in gross revenues. If the present high cost of operation can be reduced prospects for 1917 are stated to be satisfactory. In 1916 the dividend rate on the common stock was increased from 3% to 4%.

UNITED SERVICE CO. OF AMERICA.

*(1) Incorporated on March 13, 1917, in Delaware, with a capital of \$750,000, to engage in a general investment business. Incorporators: Herbert W. Gwyn, Philadelphia; E. E. Berl and Frank C. Hughes, Wilmington, Del.

UNITED SHIPBUILDING CORP., SEATTLE, WASH.

*(1) Incorporated on April 7, 1917, in Washington, with a capital of \$500,000. Incorporators: Roy S. Fisher, Horace H. Guth and Howard A. Bernardo.

UNITED SHOE MACHINERY CO.

*(1) Government Brief Filed.—It was stated March 5, 1917, that the Government brief in this company's case had been filed in the Supreme Court at Washington by Attorney-General Gregory.

He stated that the object of the suit is to forbid the defendants from further engaging in unlawful combinations and from monopolizing the interstate and foreign commerce of the United States for machines used for the manufacture of shoes.

The United Shoe Machinery Co. of New Jersey is named as the principal defendant with ten other companies, and Sidney W. Winslow and other individuals.

*(2) Answer to Government Suit.—Denial that this company, of Boston, and its subsidiaries illegally monopolize the shoe machinery business, was made in briefs filed at Washington March 12, 1917, with the Supreme Court by the company in the Federal Government's dissolution suit begun in 1911. They ask the court to affirm Massachusetts decrees dismissing the Federal prosecution. The case was scheduled for argument the following week.

Such monopoly in the shoe machinery business as the combination enjoys, the defendants' brief assert, is legally had under patents on the machinery from the Government.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

**UNITED STATES ALLOYS CORP.,
NEW YORK.**

*(1) Capital Increased.—On April 10, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$400,000 to \$1,000,000.

**UNITED STATES BOBBIN &
SHUTTLE CO.**

*(1) Extra Dividend on Common.—Announced Jan. 19, 1917, that this company had declared the regular quarterly dividend of 1% and an extra of 1% on the common stock, also a quarterly dividend of 1¼% on the pfd. Books close Jan. 10 and reopen Feb. 1.

UNITED STATES CARTRIDGE CO.

*(1) Financial Statement.—This company, incorporated under the laws of Massachusetts, on April 21, 1917, filed with the Massachusetts Secretary of State a statement of its financial condition dated Dec. 31, 1916, which compares as follows:

Assets—	1916	1915
Real estate.....	\$514,358	\$708,055
Machinery.....	467,573	682,564
Merchandise.....	3,458,417	3,388,175
Cash and debts receivable.....	1,548,551	873,517
Investments.....	467,572	975,081
Miscellaneous.....	-----	15,259
Profit and loss.....	-----	-----

Total.....\$6,456,473\$6,643,254

Liabilities—	1916	1915
Capital stock.....	\$800,000	\$800,000
Accts. payable.....	1,688,600	\$3,937,777
Floating debt.....	1,575,000	1,500,000
Profit and loss.....	2,412,813	405,477

Total.....\$6,456,473\$6,643,254

*(2) Earned 250% on Capital in 1916.—Dow, Jones & Co. April 27, 1917, stated that the laws of Massachusetts compel this company, a subsidiary of the National Lead Co., to file an annual income of earnings with the Secretary of State. If it were not for these laws the stockholders of the National Lead Co. would go begging for information. It now comes to light that the U. S. Cartridge Co. earned in 1916 \$2,000,000, equivalent to 250% on its capital. This compares with 120% in 1915 and a deficit in 1914.

The National Lead Co. will get over \$1,000,000 of the 1916 earnings equivalent to about 5% on its common stock. The final earnings on the foreign war orders, in fact, may be better than the report indicates.

**UNITED STATES CAST IRON PIPE
& FOUNDRY CO.**

*(1) Argentine Order.—It was stated Jan. 17, 1917, that the second largest contract ever awarded by the Obras Sanitarias de la Nación of Buenos Ayres, Argentina, had been obtained by an American firm. According to consular reports the United States Cast Iron Pipe & Foundry Co. will supply 60,000 tons of pipe valued at \$3,500,000.

*(2) Dividend Question Referred to Committee.—It was announced Jan. 25, 1917, that at a meeting of directors of this company the question of dividends on the pfd. stock was referred to the Executive Committee. It can be stated that the dividend will not be less than 5%.

Earnings of the company in the year ended Dec. 31 were \$1,308,000. This is equivalent to 10.9% on the \$12,000,000 pfd. stock.

If the full 7% were allowed it would leave 3.9% on the common stock. On the basis of these earnings a 5% declaration would be considered very conservative.

In January, 1916, the company declared 2% payable in quarterly installments of ½ of 1% each. In November they added a 2% cash payment, making 4% for the full year.

A 5% declaration in 1917 would not preclude the possibility of an additional dividend at the end of the year.

*(3) Committee Meeting Time.—It was stated Jan. 23, 1917, that the Executive Committee of this company, which has

full authority to determine the rate of dividend on the pfd. stock, likely would meet during the week of Jan. 28.

A director of the company said: "The consensus of opinion is that a 5% dividend should be declared at this time. In any event, the rate will not be less than 5%."

—Feb.

*(1) South American Order.—It was announced at Chattanooga, Tenn., Jan. 28, 1917, that this company had cast the first steel pipe especially intended for South American trade which had ever been cast in the United States. This is the beginning of work on a \$3,500,000 drainage pipe order which the company received from the Argentine Government. Alfred Marino, municipal engineer of Buenos Ayres, was present to see the first metal poured, and an Argentine commission of engineers will inspect the drainage pipes as they are manufactured.

It is understood that this order is a part of the Argentine Government's plan of internal improvements, which will cost altogether \$70,000,000.

*(2) Dividends.—It was announced Feb. 13, 1917, that this company had declared a dividend of 5% on the pfd. stock, payable 1¼% quarterly, the first dividend to be paid March 15 to stock of record March 1.

The question of declaring an additional 2%, to make 7% for the year, was deferred to a later date.

—Mar.

*(1) Price Advance.—Announced Feb. 28, 1917, that this company had advanced prices of pipe \$1 a ton from shipment from its Southern foundries at Birmingham, Bessemer and Anniston, Ala., and Chattanooga, Tenn.

*(2) Additions.—It was announced March 15, 1917, that this company had plans under way for additions to its plant at Addyston, Ohio, to cost \$300,000. Part of this will be spent in extending the machine shop.

*(3) Report, Year Ended Dec. 31, 1916, shows net earnings, after operating expenses and charges, amounting to \$1,308,641, an increase of \$1,233,042 over the fiscal year ended May 31, 1915. Net earnings are equal to 10.9% on the \$12,000,000 pfd. stock, compared with 6.6% earned on \$12,500,000 pfd. stock in 1915.

*(4) Statement by President.—It was announced March 17, 1917, that Pres. L. R. Lemoine, of this company, in his report to stockholders, said that the results for the year, in view of the unusual difficulties, were very favorable. The earnings, he said, would have been much larger if the labor troubles, embargoes and the serious interference with the delivery of raw materials had not handicapped the company. Plants were not operated for more than 70% of their capacity during 1916.

Mr. Lemoine pointed out that domestic orders had been curtailed by high prices and said that the minimum requirements of the company's products in 1917 should not fall much, if any, below the 1916 tonnage. The total tonnage shipped in 1916 was about 5% less than in 1915.

Working capital on Dec. 31 was \$3,617,908, compared with \$3,398,329 a year previous.

*(5) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,387,446, compared with \$253,017 May 31, 1915.

*(6) Comment on 1916 Report.—On March 19, 1917, the "Wall Street Journal" said, in part: "Some significant information in the annual report of the United States Cast Iron Pipe Co. points to improved earnings in 1917, and to a greater development of this company as a competitor of Great Britain and Germany in the world's trade."

"When the first wave of war orders swept over this country the United States Cast Iron Pipe Co. was left out. It had to depend solely on do-

mestic business placed by the public utilities and gas and oil companies. The advance in raw materials caused the public utility companies to postpone their orders, and the pipe business became stagnant, so that the company's plants at one time were run on only a small percentage of capacity. It was feared for a time that business would get worse and worse."

"About the middle of 1916, however, there came a revival. Domestic buyers, particularly the oil companies, began to buy pipe, despite the high prices. Then inroads were made in South America, and even in Europe. By the end of the year orders were taken in all parts of the world, and business was flourishing. This new business brought up the average for the leaner months, so that the plants were operated toward the end of the year at 70% of capacity."

—Apr.

*(1) Prices Advanced.—On April 16, 1917, this company advanced prices of cast iron pipe \$5 per ton, effective that date, in the Birmingham, Ala., district. This makes a total advance of \$10 per ton since April in the Southern field. Six-inch pipe is held at \$50 per ton and 4-inch at \$53 per ton at Birmingham foundry. An advance of at least \$2 per ton is anticipated in this district momentarily; 6-inch pipe is now held at \$49 and 4-inch pipe at \$52 per ton at Northern foundries.

*(2) Two Vacancies Left on Board of Directors.—Stockholders of this company at the annual meeting April 19, 1917, re-elected 12 retiring directors. Frederick H. Stevens resigned as a director owing to illness. This vacancy and that of V. F. Overholt, deceased, were not filled.

**UNITED STATES ELECTRO
GALVANIZING CO.**

*(1) Expansion.—It was stated Dec. 23, 1916, then an extension of this company's plant, had been started with the purchase of an additional building at 278-284 Park Avenue, Brooklyn, N. Y. This building will be devoted to the manufacture of automatic machinery for nickel plating and electro galvanizing, of which the company has six patented types.

UNITED STATES ENVELOPE CO.

*(1) Extra Dividend on Common.—Announced Feb. 15, 1917, that this company had declared an extra dividend of 2¼% on the common stock. Dividends at the usual semi-annual rates of 3¼% on both common and pfd. issues were also declared.

(2) Report, Year Ended Dec. 31, 1916, shows:	1916	1915
Net profits.....	\$1,861,329	\$679,040
Surp. after chgs. & divs.	738,195	234,549

*(3) Comment on Annual Report.—On Feb. 16, 1917, the "Boston News Bureau" said that the 1916 report of this company shows 192% was earned on the common stock, as compared with 36% in 1915.

These earnings are before deduction of a reserve of \$105,000 for plant depreciation, and of \$900,000 for raw material depreciation. This item, however, is clearly anticipatory. In other words, it is a fund set up to meet a future drop in commodity prices. There has obviously been no shrinkage in the price of the raw materials which the company uses.

In the latter connection it is also notable that the inventory as of Jan. 1 still shows \$2,078,000, or \$899,000 higher than a year before, while cash of \$276,000 is \$118,000 larger.

UNITED STATES EXPRESS CO.

**UNITED STATES FLUORSPOR &
LEAD CO., WILMINGTON, DEL.**

*(1) Incorporated on March 2, 1917, in Delaware, with a capital of \$300,000, to

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

mine for minerals of all kinds. Incorporators: S. S. Adams, H. M. Kennedy and M. B. F. Hawkins, all of Wilmington.

UNITED STATES GUN OIL CO.

¹(1) Incorporated on Feb. 13, 1917, in Delaware, with a capital of \$500,000, to drill for oil and market oil. Incorporators: A. L. Dickinson, G. W. Hindman and W. C. Keeble, Houston, Tex.

UNITED STATES GYPSUM CO.

¹(1) Capital Increase.—It was announced at Chicago Feb. 24, 1917, that this company had filed in Illinois an amendment to its charter increasing the authorized capital stock from \$8,500,000 to \$10,000,000.

—Mar.

¹(1) Report, Year Ended Dec. 31, 1916, shows earnings as follows:

	1916	1915
Gross	\$1,092,178	\$811,419
Net sales	650,436	501,621
Surp. after pfd. divs.	306,469	192,375

¹(2) Earnings on Stock.—It was stated March 15, 1917, that this company's 1916 surplus after pfd. dividends of \$306,469, is equal to 7.85% on \$3,904,900 common stock.

UNITED STATES INDUSTRIAL ALCOHOL CO.

¹(1) Earnings, 1916, Estimated.—It was stated Jan. 16, 1917, that interests identified with this company expect that when final figures of the Cuba Distilling Co. are included in the parent company's results for 1916, the total will run close to \$7,000,000, instead of between \$5,000,000 and \$6,000,000, as had been previously estimated. This would compare with total profits in 1915 of \$3,987,574, and in 1914 of \$233,264.

After allowing for 7% dividends on the \$6,000,000 pfd. stock, net earnings of \$7,000,000 would be equivalent to 54% on the \$12,000,000 common, against 33.2% in 1915, and 1.94% in 1914.

The company in recent years expended on ships, new distilleries, and the acquisition of subsidiary properties, including the Cuba Distilling Co., upward of \$8,000,000, which has not been capitalized, and directors for some time have had under consideration plans for a readjustment of capitalization prior to placing the common stock on a dividend basis.

The profit and loss surplus as of Dec. 31, 1916, will be shown to be as large as the amount of common stock outstanding, \$12,000,000.

¹(3) Note Issue Denial.—On Jan. 18, 1917, it was stated that a director of this company had denied the report that it would put out a note or bond issue. The board for some time had under consideration various plans for readjustment of the capitalization. The common stock issue amounts to but \$12,000,000, and the profit and loss surplus, as of Dec. 31, 1916, is understood to be equal to this amount, or 100% on the common stock.

Certain interests on the board are desirous of increasing the amount of stock and placing it on a cash dividend basis. In recent years, the company added upwards of \$8,000,000 to its assets, which has not been capitalized. No dividend has ever been paid on the common stock.

¹(5) Denial of New Issue Report.—On Jan. 25, 1917, the "Wall Street Journal" stated that a director of this company had denied the current report that the company would put out a note or bond issue. The board for some time had under consideration various plans for readjustment of the capitalization. The common stock issue amounts to but \$12,000,000, and the profit and loss surplus, as of Dec. 31, 1916, is understood to be equal to this amount, or 100% on the common stock.

Certain interests on the board are desirous of increasing the amount of stock and placing it on a cash dividend

basis. In recent years the company has added upwards of \$8,000,000 to its assets which has not been capitalized. No dividend has ever been paid on the common stock.

Earnings in 1916 are expected to total between \$6,000,000 and \$7,000,000. The accounts of the Cuba Distilling Co. are being consolidated in the books of the parent company. This total would mean a 50% earning power on the common stock after allowing for 7% dividend requirements on the \$6,000,000 preferred issue. In 1915 joint surplus of the Alcohol Co. and Cuba Distilling was 33% on the common stock.

Based on orders on its books, interests connected with the company estimate that 1917 will be a larger year than 1916. Output up to the Fall is already contracted for and additional inquiries for alcohol are now in the market.

Should 1917 show profits of another \$6,000,000, the aggregate profits of this company for the three years' war period, 1915-17, would be approximately \$16,000,000.

¹(1) Report, Year Ended Dec. 31, 1916, shows earnings as follows:

	1916	1915
Gross	\$6,727,043	\$2,724,907
Surp. after chgs. & pfd. divs.	4,336,025	3,987,573

†After deduction of operating expenses.

¹(2) Earnings on Stock.—It was stated Feb. 24, 1917, that this company's 1916 surplus after pfd. dividends of \$4,336,025 is equal to 36.13% earned on \$12,000,000 common stock, compared with 33.22% on the same stock in 1915.

¹(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$10,693,827, compared with \$6,357,803 Dec. 31, 1915.

¹(4) Statement by President.—It was announced Feb. 24, 1917, that Pres. Frederic M. Harrison, of this company, in his annual remarks to stockholders said: "All merchandise has been inventoried at actual cost, which is less than its present market value, and the accounts and bills receivable have been included at net worth."

"The new plants, additions and improvements referred to in our report of last year have been completed, and while profits were adversely affected by increased cost of raw materials and manufacturing expense, the net results are considered satisfactory."

"Our entire capacity for the first six months of 1917 has been sold at prices materially higher than those prevailing last year, and in the opinion of your board the outlook for the future is promising."

¹(5) Comment on Annual Report.—On Feb. 27, 1917, the "Wall Street Journal" said that the annual report of this company is disappointing in that earnings on the common stock are shown at 36.1%, against expectations of nearer 50%, and in the appearance of accounts and bills payable of \$7,773,920. The current liabilities of the company, as of Dec. 31, 1916, are shown to be actually in excess of the quick assets to the extent of \$1,454,695.

This situation is due to the extensive capital improvements which this company has carried through in the last few years in new plants, boats and acquisition of subsidiary concerns from which it gets its raw materials. During 1916 the Board of Directors had under consideration several plans of financing for the permanent funding of these improvements. The balance sheet at the close of the year indicates that some action to this end is desirable.

A comparison of the figures of quick assets and current liabilities for four years shows how the big war-order business has tied up funds in fixed assets to the detriment of working capital.

Earnings of 36% on the common stock are disappointing only in that indications during the year were that they would be greater. Such an earning

power by this company exceeds the wildest hopes of ante-bellum days. Surplus of 36.1% in 1916 on the common compares with 33.2% in 1915, both these years, including the surplus of subsidiary companies, of which the Cuba Distilling Co. is the principal one.

In 1914 the surplus for the common stock was 1.9%, in 1913 the same, and in 1912 5.1%. The average earnings on the common stock in the five years 1910-14 were 2.9%.

—Mar.

¹(1) New Directors.—It was announced March 13, 1917, that at this company's annual meeting Edward W. Harden, E. W. McKenna, W. S. Kies and R. P. Tinsley had been elected directors. The following directors retired: Frederick S. Flower, Julius Kessler, James B. McGovern and Crawford Livingston. Other directors were re-elected.

¹(2) Statement About New Directors.—On March 13, referring to the election of W. S. Kies and R. P. Tinsley to the Board of Directors of this company, one of the officers of the company was quoted as saying: "In view of the increasing importance of the export business of the U. S. Industrial Alcohol Co., and because of the foreign trade facilities and organization of the American International Corp., two officers of that corporation, W. S. Kies and R. P. Tinsley, were invited to membership on our board."

¹(3) Officers.—It was announced March 15, 1917, that the new Board of Directors of this company had organized by electing Horatio S. Rubens chairman and Frederic M. Harrison Pres. The other officers elected are: Vice-Pres., P. J. McIntosh; Sec'y, James P. McGovern; Treas., Albert G. Robinson; Auditor, C. A. Flynn; General Counsel, Joline, Larkin & Rathbone; Asst. Sec'y-Treas., Joseph Malone.

The executive committee, appointed for the ensuing year, consists of William R. Coe, P. J. McIntosh, George S. Brewster, J. Horace Harding, Edward W. Harden, R. P. Tinsley, A. H. Larkin, and H. S. Rubens.

¹(4) Injunction Order Filed.—See Distilling Co. of America.—Item No. 5.

UNITED STATES LEATHER CO.

¹(1) To Rebuild Tannery.—It was announced at Old Fort, N. C., April 5, 1917, that this company would rebuild the tannery reported burned at a loss of \$750,000 to \$1,000,000.

UNITED STATES MANUFACTURING CO., SPRINGFIELD, MASS.

¹(1) Incorporated in April, 1917, in Massachusetts, with a capital of \$500,000, to manufacture machine guns and machinery of all kinds. Incorporators: Jas. Campbell, South Deerfield; Stuart M. Robson and Wm. Lawrence, Springfield, Mass.

UNITED STATES MORTGAGE CO.

¹(1) New Name.—See Fidelity Mortgage & Loan Co.—Item No. 1.

UNITED STATES PLAYING CARD CO.

¹(1) Dissolved.—On March 28, 1917, this company, capitalized at \$3,600,000, was dissolved as a New Jersey corporation.

UNITED STATES PREMIUM CORP.

¹(1) Incorporated on March 7, 1917, in Delaware, with a capital of \$1,000,000, to deal in and with trading stamps for premium purposes. Incorporators: Franklin L. Mettler, Kenneth A. Horner and W. F. Gallagher, Wilmington, Del.

• UNITED STATES REALTY & IMPROVEMENT CO.

(1) Status.—It was stated Jan. 17, 1917, that earnings of this company from its real estate and the George A. Fuller Co. were substantially higher in the eight months to Dec. 31, 1916, than in the same period of 1915.

At the present time no estimate can be made of the loss which the company will incur from building three sections of the dual system subway in New York. Two of the sections will be completed in March or April, while the third section will not be finished until the Spring of 1918.

High cost of materials and labor are mainly responsible for the loss in this construction work. According to one official, labor is 50% dearer and 50% less efficient than at the time when the contracts were taken. However, the company feels that it will be able to meet any losses from this work by its accumulated earnings.

In addition, it has a claim against New York City for losses incurred through delay in obtaining the blue prints to go ahead with the subway work. Legal authorities, according to the company, have expressed the opinion that the company will be able to collect its claims.

Income from the real estate investments are said to be larger than ever before. The George A. Fuller Co., the building construction subsidiary, has more than \$25,000,000 worth of business on its books. This is the largest amount of contracts which the company has ever had ahead of it.

The company has considerable money tied up in subway work and has had to borrow from banks. When the two sections are completed and accepted within a few months the company will get 15% of the total contract price which the city holds until the work is completed and accepted.

This money will undoubtedly go a long way toward relieving the shortage in cash working capital.

UNITED STATES REDUCTION & REFINING CO.

(1) Stricken from List.—Announced Jan. 2, 1917, that the New York Stock Exchange had stricken from the list this company's pfd. and common stocks.

UNITED STATES RUBBER CO.

(1) Tire Price Advance.—Announced Jan. 2, 1917, that this company had ordered an advance in tire prices, effective at once. The advance averages 15% for casings and 10% for tubes.

(2) Footwear Advance.—Announced Jan. 2, 1917, that this company had advanced the price of footwear 14%, effective at once. This is an advance of 19% over the prices prevailing on Jan. 1, 1916.

(3) Comment on Price Advance.—On Jan. 3, 1917, the "Boston News Bureau" said that the advance of 19% in footwear prices which this company had just authorized is probably the most important price revision the company ever ordered. So far as its influence upon 1917 gross and net profits are concerned, its effect will be most far-reaching. This increase in footwear prices is in reality a two years' advance compressed into a single change.

At the opening of 1916 United States Rubber did not alter its prices for rubber footwear. That it would have been justified in doing so was the general opinion of the trade at the time. As events turned out, the company has suffered in its 1916 net profits because of its unwillingness to revise prices upward. The 1916 margin of profit has been less satisfactory than for a number of years.

In 1915 the ratio of operating expenses to sales was 55.34%. In 1916 on gross sales of \$125,000,000, or \$33,000,000 more than in 1915, the company realized but little more net profit. The result probably will show an operating ratio in the year just ended of fully 88%.

With every raw material entering into the production of footwear costing 30% to 100% more than normal, a price increase was inevitable.

The four leading tire producers of the country have now announced their 1916 increase in prices. Goodrich, United States, Goodyear and Fisk combined make 80% of all the tires manufactured in the United States. Their decision to increase prices 5% to 15%, according to grade and size, undoubtedly will be followed by the smaller producers.

Until cotton goods, zinc and rubber decline very materially it seems futile to expect any downward tendency in tire prices.

(4) Bond Sale.—On Jan. 12, 1917, it was stated that Kuhn, Loeb & Co. announced that they had concluded negotiations covering the purchase of \$60,000,000 first and refunding 5% bonds of this company. The purpose of the issue is to provide for the payment of maturing obligations, for the funding of current indebtedness and additional working capital.

All existing bonds and liens upon the properties of the rubber company or its subsidiaries will be provided for by this issue, except \$9,000,000 debentures of the General Rubber Co., which are to be left undisturbed, as the company has under consideration other plans for dealing with its important crude rubber interests, and \$2,000,000 bonds of the Canadian Consolidated Rubber Co., Ltd., which are not due until Oct. 1, 1946.

It is understood that the American International Corp. is interested with Kuhn, Loeb & Co. in this transaction.

(5) Statement by Vice-President.—On Jan. 15, 1917, Vice-Pres. Lester Leland, of this company, was quoted as saying:

"Some people seem to misunderstand the clause in our refunding mortgage indenture referring to our inability to pay dividends on common stock unless quick assets are equal to total debts of all kinds.

"Our quick assets have always exceeded total indebtedness of all kinds excepted by \$10,000,000—so that the clause certainly has no adverse effect on the common dividend situation.

"As a matter of fact, the common stock dividend is brought nearer by this refunding—which is distinctly to advantage of both classes of stock; and, in my opinion, the future of United States Rubber was never brighter."

(6) Comment on Financing.—On Jan. 16, 1917, the "Boston News Bureau" stated that general satisfaction was felt over the successful conclusion of this company's financing plans.

For the first time in its history the company has created a bond mortgage, consolidating its debt and giving it a financing medium commensurate with a business which has developed into one of the largest industrial efforts in the United States.

By the sale of \$60,000,000 5% first and refunding mortgage bonds United States Rubber has unified its debt. Five different issues will, as soon as possible, be retired and paid off from the proceeds of these new bonds. The five issues which are thus to be eliminated aggregate \$24,697,000 and include the large issue of \$16,000,000 United States Rubber 6s.

The delicate compliment conveyed in the point that a 6% issue is to be superseded by a 5% first mortgage bond will not be lost to those who appreciate the steadily growing credit which United States Rubber is commanding in financial circles.

Of the balance of the \$60,000,000 issue perhaps \$24,000,000 to \$25,000,000 will be required to pay off the present floating debt.

The elimination of the company's floating obligations is an event of first-class importance. It gives the company a new credit basis, puts its financial position in the class of those seasoned industrials which are free from dependence upon banks for temporary credit.

With the proceeds of the \$60,000,000 bonds United States Rubber will be able to pay off all its bank loans in full and will have in addition about \$10,000,000 of new cash, which will serve as an immediate addition to working capital, providing, as it should, for expansion in sales and plant for the ensuing two, and perhaps three, years.

(7) New Directors Selected.—It was officially announced Jan. 16, 1917, that W. D. Kies, Vice-Pres. of the American International Corp.; C. B. Seger, Vice-Pres. of the Union Pacific R. R., and J. S. Alexander, Pres. of the National Bank of Commerce, New York, would be elected directors of this company.

(8) Underwriting Applications.—It was stated Jan. 16, 1917, that underwriting applications to the United States Rubber \$60,000,000 bond issue had come in to such an extent that the general allotment to underwriting participants would be no larger than 50% or 60% of the total application.

Underwriting applications are usually a fair index of the investment demand for bonds when they are offered to the public.

(9) Bond Offering.—On Jan. 17, 1917, this company announced the offering of \$60,000,000 first and refunding mortgage 5% bonds, series A, of this company, at 96% and accrued interest, to yield over 5.20%.

The proceeds are to be used to retire existing issues, to take up short-term obligations and to provide additional working capital. The \$9,000,000 debentures of the General Rubber Co. and the \$2,000,000 bonds of the Canadian Consolidated Rubber Co. will not be disturbed.

Any of the bonds to be refunded by the new issue will be accepted in payment for the new bonds on a 4% interest basis to maturity. The subscription books will be closed Jan. 23 or earlier.

(10) Merger Denied by President.—On Jan. 18, 1917, Pres. Samuel P. Colt, of this company, denied the report that negotiations were in progress looking to a merger of the company with the B. F. Goodrich Co., Goodyear Tire & Rubber Co. and the Firestone Co. Mr. Colt said there was no such plan contemplated.

It is learned, however, that if negotiations under consideration are carried out an arrangement will be made whereby the United States Rubber Co. will supply the various rubber companies with the crude. But as the situation now stands, according to an official of

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

one of the large companies mentioned, the whole matter is still in embryo.

It has been suggested that the various interests get together for the purpose of ensuring their supply of crude rubber, which might involve the purchase of plantation lands in the Far East.

(11) Special Meeting Feb. 14.—It was announced Jan. 22, 1917, that at a special meeting of directors of this company a special meeting of stockholders was called for Feb. 14 to conform with the action of directors calling for an issue of \$30,000,000 of bonds.

A special meeting of stockholders of the Rubber Goods Mfg. Co. has also been called for Feb. 14 to act on the general plan for a comprehensive bond issue. The Rubber Goods Co. is a subsidiary of the U. S. Rubber Co.

The two special meetings of stockholders will also take action on the proposed acquisition by the companies of plants and properties of which they already own all or substantially all of the capital stock.

(12) Statement by President.—On Jan. 22, 1917, it was stated that in connection with a call for a special meeting, Pres. Samuel P. Colt said, in part, to stockholders: "The growth of the company through the acquisition of additional subsidiaries and through the increase in the volume of business done by the company and its subsidiaries, has involved a corresponding need for additional capital."

"The consolidated floating indebtedness of the company now amounts to about \$25,000,000."

"Under normal conditions the refunding of the bonded debt might have been postponed until 1918. It is, however, deemed more prudent to take advantage of the present favorable conditions for placing securities and to refund now."

"I would point out that the proposed mortgage provisions which will require the keeping of unencumbered quick assets on hand equal to the entire indebtedness as a condition of the payment of cash dividends upon the common stock, and further that dividends on the pfd. stock after April, 1917, must be paid from earnings after Dec. 31, 1916, are not only a wise safeguard to the security of the bondholders, but are, at the same time, for the best interest of the company and its stockholders."

"The company's earnings for 1917 should be fully as large as those for 1916, which amount to nearly double the pfd. dividend requirements for that year."

"The management feels that the proposed issue of bonds will place the company in the strongest financial position that it has ever enjoyed, and will enable it to extend and develop its rapidly growing business, as well as establish thereby a most valuable banking connection."

In the special notice sent out to Rubber Goods stockholders, mention is made of the proposed creation of an issue of first and refunding mortgage gold bonds limited to \$27,293,100. Of this amount \$21,500,000 will presently be issued. This is not a new issue of bonds, but entirely a part of the comprehensive \$30,000,000 issue of the parent concern.

The transfer books for both special meetings will close on Jan. 27 and reopen on Feb. 15.

(13) Bonds Advanced.—It was announced Jan. 24, 1917, that the selling price for this company's first and refunding mortgage 5% gold bonds had been advanced to 97% and interest. More than \$37,000,000 of these bonds have been sold.

—Feb.

(1) Special Meeting Feb. 14.—It was announced Feb. 1, 1917, that directors of this company had called a meeting of the stockholders to be held at New Brunswick, N. J., Feb. 14, to consider the new \$30,000,000 bond issue and the taking over of a large number of subsidiary companies whose stock is owned by the parent organization.

Proxies are asked for in the name of Samuel P. Colt, James B. Ford, Lester

Leland, Walter S. Ballou and Nicholas F. Brady.

Pres. Colt issued a circular to stockholders emphasizing the need of the new financing.

(2) Bond Issue Authorized.—It was announced Feb. 14, 1917, that at a special meeting the stockholders of this company authorized the \$30,000,000 bond issue. They also voted in favor of taking over properties of various subsidiary companies.

(3) Bond Issue by Subsidiary Approved.—See Rubber Goods Manufacturing Co.—Item No. 1.

(4) Announcement by President.—On Feb. 14, 1917, Samuel P. Colt, Pres. of this company, was quoted as saying: "Our sales last year were about \$125,000,000. I do not see what is going to stop us from running well over \$150,000,000 this year."

"January was a big month. Our sales of footwear increased at least 20%; that is, in number of pairs sold. We had the benefit of a 20% advance in price, besides."

"Footwear sales of U. S. Rubber Co. for 1916 were approximately \$50,000,000. They should run up to \$70,000,000 this year."

"In making our comparison by months, as far as sales are concerned, we figure on the number of articles sold, not on the dollar basis. On the number basis mechanical goods sales increased at least 15% last month."

"Tire sales also showed very appreciable gain in the month just closed. Although tire prices were advanced last month, there is still no big margin of profit in the tire business. In fact, another advance in tire price this year is not at all unlikely."

"Not only did January show an increase in sales, but the gain in net was a very satisfactory one."

"Recently estimated, there is a net for 1916 of United States Rubber and subsidiary companies of \$12,500,000. When final figures are in we will probably show even better than that. Scarcity of labor is hampering us somewhat in many of our plants."

Referring to the new interests going into the company in connection with the \$30,000,000 bond issue, Col. Colt continued: "Public offering of our new \$30,000,000 bonds has been satisfactory. Probably \$40,000,000 have already been sold, and I do not think underwriters will have to take any of these bonds that remain."

"The new interests that have come into our company are strong ones, and have the confidence of the business world. They will gain formal representation on our directorate at annual meeting."

"Altogether the outlook for United States Rubber affairs never looked brighter to me than right now."

(5) Companies in Merger.—It was announced Feb. 14, 1917, that the action of the stockholders of this company in authorizing a bond issue and the acquisition of various plants meant the taking over of the following by the parent company: Revere Rubber Co., Rubber Regenerating Co., the Naugatuck Chemical Co., the Eureka Fire Hose Manufacturing Co., American Rubber Co., the Joseph Bangan Rubber Co., Boston Rubber Shoe Co., L. Candee Rubber Co., Goodyear's India Rubber Glove Manufacturing Co., Goodyear's Metallic Rubber Shoe Co., Hastings Wool Boot Co., National India Rubber Co., Shoe Hardware Co. and Woonsocket Rubber Co.

—Mar.

(1) Earnings Statement, Year Ended Dec. 31, 1916, of this company and subsidiary companies compares as follows:

	1916	1915
Net sales.....	\$126,750,129	\$92,861,016
Surp. after chgs.		
& pfd. divs....	5,443,113	2,045,076
Capital gain.....	\$73,700	25,000
+Gain in conversion of 2d pfd. stock into 1st pfd. stock.		

(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$28,479,135, compared with \$22,902,322 Dec. 31, 1915.

(3) Statement by President.—It was announced March 5, 1917, that Pres. Samuel P. Colt, of this company, in his annual remarks to stockholders, said, in part: "The most important event of the year has been the funding of the indebtedness of the company and its subsidiaries through the banking house of Messrs. Kuhn, Loeb & Co. Through the sale of \$30,000,000 first and refunding mortgage 5% bonds, the company is now provided with funds wherewith to pay its entire debt and the debts of its subsidiary companies, with the exception of \$9,000,000 General Rubber Co. debentures, due Dec. 1, 1918, and \$2,600,000 Canadian Co. bonds, due Oct. 1, 1916. In addition to the payment of the indebtedness, further working capital is also provided."

"With the funding of our debt, we will be able to simplify our organization and thereby bring about economies in administration in several ways, among which will be the liquidation of companies whose separate organization is now unnecessary. Steps to this end will be promptly taken."

"Our export business, now consolidated under one organization, the United States Rubber Export Co., Ltd., is being successfully pushed forward, although it is still relatively small, being only about 6½% of our total business in 1916 as against 5% in 1915."

"Our tire sales for 1916 show an increase of 57.9% over those of 1915."

"The development of our rubber plantations in Sumatra has steadily continued during the past year."

"While the profits of the company for 1916 were the largest in its history, the percentage of profits to sales was less than in the previous year, owing chiefly to the advance in materials and labor during the year. With the view of meeting these conditions an advance in prices of manufactured goods, varying from 10% to 20%, was made early this year."

"The names of James S. Alexander, Pres. of the National Bank of Commerce; William S. Kies, Vice-Pres. of the American International Corp., and Charles B. Seger, Vice-Pres. of the Union Pacific R. R., will be presented to the annual stockholders' meeting for election as directors in addition to the members of the present board."

"It is now just a quarter of a century since the United States Rubber Co. commenced business. In that time it has steadily grown. In the last 15 years its business has increased fivefold—thanks to the devotion of its working force."

(4) Acquisition.—It was announced March 7, 1917, at Bristol, R. I., that deeds conveying the property and rights of the National India Rubber Co. to this company had been filed on that date. The price was not made public, but the land, buildings and equipment have an assessed value of \$550,000. Samuel P. Colt, Pres. of the United States Rubber Co., is also Pres. of the National India Rubber Co.

(5) Bonds.—It was announced March 12, 1917, that this company had called on the underwriters to take up the balance of unsold bonds not distributed to investors at the time of the general offering of the \$30,000,000 issue in January. It is understood that this involves the taking over of approximately \$20,000,000 of the bonds.

(6) New Directors.—Announced March 20, 1917, that at the annual meeting of this company the 18 directors were re-elected and three more added to the board. They are: James E. Alexander, Pres. of the National Bank of Commerce; William S. Kies, Vice-Pres. of the American International Corp., and Charles B. Seger, Vice-Pres. of the Union Pacific R. R.

(7) Crude Rubber Production.—This company is able to turn out rubber from its own plantations in Sumatra at a cost of 17 cents a pound, according to Pres. Samuel P. Colt.

Discussing the position of the com-

JANUARY 1 TO APRIL 30, 1917

pany, as far as its future supplies of crude materials are concerned, Col. Colt said:

"All sorts of estimates have been made by various people as to what crude rubber supplies will cost our company. Some estimates have been as low as 25 cents a pound. The actual figures are 17 cents a pound.

"We have 14,000 employees on our plantation in Sumatra. All but 200 of these receive a 'salary' of 15 cents a day. For the same sort of work in the rubber forests of Brazil workers receive from \$1.50 to \$2 a day.

"We have about \$10,000,000 invested in our Far Eastern plantation. This includes an original investment of about \$8,000,000 and interest charges of about \$2,000,000. After this year we shall begin to make money on our investment in plantation rubber lands.

"About 15% of our crude rubber needs will be taken care of this year from our own plantations. This percentage will be increased to 25% in 1918.

"In 1921 the U. S. Rubber Co. should secure about half of its crude rubber requirements from our own plantations—that is half of the requirements on the basis of present sales of the company."

Referring to other departments of the company's business, Colonel Colt said: "Another advance in automobile tire prices is imminent. In fact, it may come within a month.

"United States Rubber Co. should easily do a business of \$150,000,000 this year. Personally, I think it may run as high as \$170,000,000. Sales during the first two months of the present year increased 20% in all departments over the same two months a year ago."

Sales of the United States Rubber Co. in 1916 were close to \$127,000,000.

—Apr.

*(1) Pension Plan.—Announcement was made on April 9, 1917, that this company was drawing up a pension plan for its employees. Details are expected to be made public shortly.

*(2) Annual Report of Canadian Subsidiary.—See Canadian Consolidated Rubber Co.—Item No. 1.

*(3) President Comments on Pension Plan.—On April 10, 1917, commenting on the pension plan of this company, Col. Samuel P. Colt, president, said in part: "After study of the subject and an examination of existing pension systems, the company has adopted a system whereby provision should be made for employees, who by long and faithful service have earned an honorable retirement. In taking this step the directors and officers recognize and approve the tendency of recent times for corporations to be regarded and administered as public institutions in which, necessarily, the human and personal equations are constantly increasing in importance."

*(4) Pension System for Subsidiary.—See National India Rubber Co.—Item No. 1.

*(5) Earning 20% on Common, According to Pres. Colt.—Pres. Samuel P. Colt, of this company, April 19, 1917, said that on the basis of the first quarter's earnings, and considering orders contracted for, the United States Rubber Co. should earn at least \$20 a share for its \$36,000,000 common, after pfd. dividends in 1917, as compared with \$15.12 a share for the same amount of common stock in 1916.

"Sales in the first quarter of the year gained 20% over the corresponding three months a year ago," said Col. Colt.

"By the end of January we had taken orders for practically all the footwear we can turn out until the end of 1917. If we had the capacity we could secure business for at least 50% additional.

"Our sales last year, including all departments, were divided as follows: Footwear, \$50,000,000; tires, \$40,000,000; mechanical goods and miscellaneous, \$35,000,000.

"Footwear sales this year should show a minimum of \$80,000,000 and may run

as high as \$70,000,000; tire sales will show at least \$50,000,000 and may run up to \$80,000,000; mechanical goods will show anywhere from \$40,000,000 to \$45,000,000.

"In other words, total sales of the United States Rubber Co. this year will be at least \$150,000,000 and may run as high as \$170,000,000.

"The remarkable increase in our tire business is shown by the fact that sales in this department in 1915 were about \$23,000,000. This means that 1917 tire business will show an increase of more than 100% over the business done two years ago.

"The financial position of the company was never as strong as right now.

"There has been no discussion of any plan for a resumption of dividends on the common stock in the near future. In fact, it is unlikely that there will be any common dividend this year. Times like these are times for conservation of resources. Our earnings are very large, but we think it the part of wisdom to keep them in our treasury."

*(6) Bond Syndicate Failure Discussed by Director.—A banker, member of the syndicate which underwrote the United States Rubber \$60,000,000 bond issue, said to the "Boston News Bureau" April 23, 1917: "The United States Rubber bond syndicate is no bigger failure than dozens of other bond underwriting syndicates have been in the past. The bonds came out on the very rag edge of the big absorptive bond market of 1916. Their offering price to the public was too high, quantity considered.

"And so, everything considered, the bankers did fairly well in selling 60% of the issue, leaving underwriters to take up about \$20,000,000. No one knows how low the bonds may drop before they settle on their natural level and begin the process of distribution and assimilation. But on general principles the shock of syndicate dissolution must have nearly expended itself.

"There is no question of the integrity and fundamental soundness of the bonds. They are worth more than they are selling for and this fact is what is going to insure the distribution to investors sooner or later of the bonds which members of the syndicate will have released to them in about 10 days."

• UNITED STATES SMELTING, REFINING & MINING CO.

*(1) Stock Exchange Ruling.—It was announced Jan. 2, 1917, that the committee on securities of the New York Stock Exchange had ruled that only definite engraved certificates for this company's common and pfd. stocks will be for delivery.

*(2) Railroad Operation.—It was stated Jan. 19, 1917, that this company is planning to exercise the privilege of operating its Utah R. R., now under lease to the Denver & Rio Grande. If satisfactory arrangements are concluded, as seems likely, the actual operation will be begun Nov. 30, 1917.

The Utah R. R. Co. will also take over the operation of the small Southern Utah R. R., which United States Smelting controls.

In connection with the assumption by United States Smelting of the actual charge of railroad in its coal fields, it is understood that an expenditure of \$2,000,000 is planned, mainly for additional rolling stock, and for enlarged terminal facilities at several points. This expenditure will be made from present funds.

The new railroad arrangement will permit the company to handle more efficiently and expeditiously coal shipments from its Utah fields and will permit an interchange of traffic with both Denver & Rio Grande and the Union Pacific through the latter's San Pedro R. R.

—Feb.

*(1) Profits at High Rate.—On Feb. 19, 1917, the "Boston News Bureau" said, in part: "At nine cents a pound, the highest price for lead reached since the war broke out, United States Smelting has been making large sales for immediate

delivery and at only slight concessions has been selling one or two months ahead. Considering that lead represents between 15% and 20% of Smelting's income and that last year's average selling price for the company was only 4½ cents a pound, the nine-cent price tells its own story.

"Silver has started out the year with a whoop, having advanced from 74½ cents on Jan. 13 to 79 cents, topping the 1916 high by 1½ cents and recording the highest level since the repeal of the Sherman silver purchase act. The manner of the latest advance is indicative of the possibilities of silver being the genuine 'peace metal sensation.' Ninety cents is being talked for silver before Spring and \$1 would be no surprise before peace negotiations actually begin.

"As with coal, where the shortage of freight cars persists, United States Smelting is not getting the full benefits of the bulge in silver by reason of restricted operations in Mexico. It is operating across the border at around 40% capacity, but is expected to increase output in real fashion next month, as cyanides are at last beginning to come through freely.

"In fact, beginning with March, earnings are expected to get back pretty close to the high average of the early months of last year, or within hailing distance of \$1,000,000 a month. As it is, they hold well up to the average of recent months, or around \$700,000."

—Mar.

*(1) Earnings, 1917, Estimated.—On March 9, 1917, the "Boston News Bureau" said that the sales and profits of this company indicate at least as good a year in 1917 as in 1916. Net earnings for the first quarter of the year bid fair to exceed \$2,250,000 each month since the first of the year showing a steady gain, with March promising close to \$1,000,000.

This is at the rate of \$11,000,000 for the full year, but is without assistance from Mexico, ordinarily one of the biggest earning departments for the smelting company.

In place of the steady losses during the second half of 1916, the company is about breaking even in Mexico. Operations are back to about 50% and really hold out the hope of a 25% betterment before May 1.

For the 12 months ended Dec. 31, 1916, United States Smelting earned something under \$10,000,000 net—the best showing in its history. Subject to special and final depreciation allowances, net profits were \$8,750,000, or considerably over \$2,000,000 greater than in 1915. After payment of pfd. dividends the balance for the common stock, therefore, was in the neighborhood of \$7,000,000, or about \$20 a share.

*(2) Statement by Directors.—On March 28, 1917, directors issued the following statement: "Earnings in 1916 were \$8,898,493 after all interest charges, including interest on the \$12,000,000 notes, and usual reserves for depreciation and exploration. These earnings were at rate of 7% on pfd. plus \$20.555 per share or 41.1% on the common. Additional reserves for depreciation, amounting to \$1,000,000, were provided out of profits at end of 1916.

"Earnings in January and February, 1917, were approximately \$1,166,233 after all interest charges and reserving about \$325,000 for depreciation and exploration and for expenses and losses in Mexico since Jan. 1, 1917. These earnings are at rate of 7% per annum on pfd., plus \$2.51 per share for two months on the common stock, or at rate of about \$15.08 per share per annum (30.1%) on the common."

*(3) Report, Year Ended Dec. 31, 1916.—Net earnings, \$9,737,664, against \$7,579,154 last year; surplus after dividends, \$5,704,000, against \$4,626,763 last year.

*(4) Balance Sheet, as of Dec. 31, 1916, showed profit and loss surplus of \$12,057,455, against \$8,263,455 last year.

*(5) Earnings on Stock.—The balance after preferred dividends for the year ended Dec. 31, 1916, \$7,196,239, is equal

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

to 40.99% on the \$17,555,750 common stock compared with 27.84% earned on the same stock in 1915.

—Apr.

“(1) **Statement by President.**—In conjunction with the annual report issued in March, 1917, W. G. Sharp, Pres., said in part: “The increasing prosperity of your company mentioned in the annual report for 1915 continued during 1916. Gross and net earnings increased over those for the previous year and made another high record. A favorable opportunity presented itself to acquire at Checotah, Okla., a zinc smelter designed for the use of gas on modern lines. Payment was made partly in cash and partly by transfer of the plant at Iola. Three hundred and fifty thousand dollars were written off the cost of zinc plants, which now stand at \$486,023. Entire cost of three zinc smelters purchased in 1915 is now written off and adequate depreciation of the new smelter at Checotah has been set aside.

“Output of coal for 1916 was 750,931 tons compared with 707,559 in 1915. Operations in Mexico have been hampered by a variety of difficulties, among which has been the inability to obtain sufficient supplies. During the first half of the year both mills in Mexico were able to operate. During the last half only one mill could operate. For the entire year the profits derived from Mexican operations only amount to 4.7% of total profits of your company. During the second quarter of this year we expect that both mills will be operating at approximately their capacity.”

UNITED STATES STEAMSHIP CO.

“(1) **Extra Dividend.**—Announced Jan. 18, 1917, that this company had declared an extra dividend of one-half of 1%, in addition to the regular bi-monthly dividend of 1%.

Heretofore the regular and extra dividends had been paid in alternating months.

“(2) **Extra Dividend.**—Announced Jan. 18, 1917, that this company had declared an extra dividend of $\frac{1}{2}$ of 1% and a regular dividend of 1%, payable March 1 to stock of record Feb. 15.

—Mar.

“(1) **Status.**—It was stated March 7, 1917, that net earnings of this company for the last six months of 1916 were \$313,923, against which there were dividends paid amounting to \$184,063, leaving a balance of \$129,860. January earnings were about \$200,000. This company was formed early in 1916 by C. W. Morse to acquire a number of vessels through stock control. High charters have made operations very profitable, as indicated by the statement that four ships, dating from January, went under a one year's charter to yield the company about \$85,000 per month. In addition, the company has five vessels out on one-trip charters at a high rate.

The company controls a fleet of about 18 vessels, with total tonnage of 62,000, doing a coastwise business, as well as performing the functions called for under charters. Upon the opening of the New York State barge canal, late in 1917, it is expected this company, through the New York & Buffalo S. S. Co., will inaugurate between the cities of New York and Buffalo a high speed barge service for package freight, the entire distance of 494 miles to be covered in 96 hours. The territory touched has over 86,000,000 tons of freight originating therein.

The Hudson Navigation Co., which the United States Co. also controls, has two valuable docks in New York City and at Albany, which will be utilized by the barge operations. This company in 1916 earned \$120,000, while current earnings from the shipyard are at the rate of \$80,000 monthly.

—Apr.

“(1) **Net Earnings for February.**—The company reports net earnings for February, 1917, of \$224,630. It was stated that an offer of \$350,000 for the 3,200-ton steamer William Castle Rhodes had been received.

UNITED STATES STEEL CASTING CO.

“(1) **Acquisition.**—It was announced Feb. 2, 1917, that this company, Steubenville, O., incorporated in West Virginia with a capital of \$1,000,000, had purchased the plant of the National Casting Co. at New Cumberland, W. Va. The purchaser will build several other steel foundries in that section of the valley, according to an announcement made Feb. 2.

UNITED STATES STEEL CORP.

“(1) **New Heroult Furnace.**—See Millbury Steel Foundry Co.—Item No. 1.

“(2) **Hot Mills of Subsidiary Started.**—See American Sheet & Tin Plate Co.—Item No. 1.

“(3) **Dividend Discussion.**—A Boston dispatch Jan. 3, 1917, stated that one of the highest officials of the company had expressed the opinion recently that at the January meeting directors will declare a dividend of \$5, to be designated as \$1.75 regular and \$3.25 extra, thus increasing the regular rate from \$5 to \$7.

“(4) **Business of Subsidiary in 1916.**—See American Bridge Co.—Item No. 1.

“(5) **Construction in 1916.**—On Jan. 3, 1917, it was stated that this company spent about \$60,000,000 for new steel construction in 1916, compared with \$15,337,432 in 1915 and \$23,171,013 in 1914. Expenditures would have been larger if more workmen had been available.

Since organization the company has spent approximately \$550,000,000 for new construction, a figure \$42,000,000 in excess of the par value of the common stock.

Construction expenditures in 1917 may be as large as they were in 1916. But on account of the scarcity of labor and high cost of construction, the company is exercising caution in new construction.

“(6) **Unfilled Orders, Dec. 31, 1916.**—This company's statement of unfilled orders, issued Jan. 10, 1917, shows as of Dec. 31, 1916, 11,547,286 tons, compared with 11,058,542 Nov. 30, 1916, an increase of 488,744 tons.

“(7) **Extension by Subsidiary.**—See American Steel & Wire Co.—Item No. 1.

“(8) **Comment on Unfilled Tonnage.**—On Jan. 11, 1917, the “Wall Street Journal” said:

“In view of the sold-up condition of the steel trade and the inability of manufacturers to accept orders except for distant deliveries, the increase of nearly half a million tons to the United States Steel Corp.'s bookings in December was gratifying evidence of the strong demand for steel products. The gain would in all probability have been more pronounced had it not been for the slowing up in orders during the holiday season.

“Part of the increase must be attributed to the car and coal shortage, which prevented full operations and handicapped deliveries over the month. Shipments for the month are estimated at approximately 1,100,000 tons, against 1,375,000, the record, reached earlier in the year. But even had shipments been at capacity the excess of orders would have been over 200,000 tons.

“Railroad equipment buying was largely responsible for the December activity in steel. The transportation system purchased freely all kinds of equipment, rail, car and locomotive orders being particularly heavy. The month's car orders aggregated over 32,000 cars, and locomotives contracted for were close to 800, the largest on record.

“Much of this equipment business was for export, foreign locomotives representing more than half of the December orders. Export business generally was good and included orders for plates from Italy and Japan, as well as shell and other steel for war uses.

“Present indications are that the activity in equipment material will continue. Early this month export contracts for 125 locomotives were closed and foreign governments are in the

market for a large number of cars.

Some important rail orders, moreover, are still pending, including the Pennsylvania Railroad's inquiry for over 200,000 tons.

“Of the 11,547,286 tons of business on the corporation's books, over 70% has been specified, and the remainder consists of what is regarded as ‘fast’ business. One of the features in buying that has proved an element of weakness in former years has been that much of the tonnage reported booked has been unspecified, and often speculative.

“The absence of speculative business in orders closed within the past year is an important safeguard to earnings of the immediate future.”

“(9) **New Rolling System.**—See American Sheet & Tin Plate Co.—Item No. 2.

“(10) **Bond Mortgage of Subsidiary.**—See American Steel & Wire Co.—Item No. 2.

“(11) **New Hot Mills Planned by Subsidiary.**—See American Sheet & Tin Plate Co.—Item No. 3.

“(12) **Denial of Purchase by Subsidiary.**—See National Tube Co.—Item No. 1.

“(13) **Curtailment by Subsidiary.**—See Carnegie Steel Co.—Item No. 3.

“(14) **Subsidiary in New District.**—See Carnegie Steel Co.—Item No. 4.

“(15) **Extra Dividend on Common.**—It was announced Dec. 30, 1917, that the directors of this company had declared the regular quarterly dividend of $\frac{1}{4}$ % and an extra dividend of $\frac{1}{4}$ % on the common stock. This compares with $\frac{1}{4}$ % regular and 1% extra in the two preceding quarters, making a total of $\frac{5}{4}$ % declared out of the earnings for 1916.

U. S. Steel pfd. dividends are payable Feb. 27. Books close Feb. 5 and open Feb. 9. Common dividends are payable March 30. Books close March 1 and open March 12.

	4th Quarter 1916	4th Quarter 1915

“(19) **Earnings on Stock, Year Ended Dec. 31, 1916.**—It was stated Jan. 30, 1917, that this company's surplus for the year of \$246,412,218, after pfd. dividends, is equal to 48.47% on \$508,302,500 common stock.

“(20) **Comment on Earnings, Quarter Ended Dec. 31, 1916.**—On Jan. 31, 1917, the “Wall Street Journal” said that the United States Steel Corp. net earnings of \$105,968,347 for the period were in excess of the later estimates, which ranged between \$95,000,000 and \$105,000,000. This was a remarkable showing when the fact is taken into consideration that the Steel Corp., due to inadequate transportation facilities, was compelled to pile up something like 300,000 tons of steel that could not be shipped. Had the railroads been able to handle all the freight consigned to them net earnings would probably be in excess of \$115,000,000.

Each month in the last quarter exceeded the previous high monthly record of \$30,420,158, reached in September, 1916. In this connection, however, monthly earnings in the third quarter of 1916 were on a rising scale, whereas, earnings in the last quarter were on a declining scale.

In the third quarter net earnings jumped from \$25,650,066 in July to \$30,420,158 in September; whereas, in the last quarter earnings were \$35,177,592 in October, \$36,443,543 in November, and

JANUARY 1 TO APRIL 30, 1917

\$34,247,411 in December. This small falling off in December may have been due largely to the holidays or poorer transportation facilities than in October or November.

The Steel Corp. in 1916 reported \$246,412,218 available for common dividends, equal to approximately \$48.50 a share on that issue. This is even better than estimated.

After all charges, including common dividends, there was a final surplus of \$201,935,749. This means that in addition to paying common shareholders 8%, the corporation added approximately \$40 a share to its surplus. In other words, that amount per share on the common was added to the value of U. S. Steel during the year. Of the \$201,935,747 final surplus probably \$60,000,000 was spent for new construction, leaving \$141,935,749 added to working capital.

In connection with earnings of \$333,625,068 in 1916, it is interesting to note that they were more than double the previous high record of \$160,964,673 reached in 1907.

Earnings for the last quarter of 1916 were larger than the full year's earnings in 1914, 1911, 1908 and 1904.

In the last quarter of 1916 U. S. Steel earned at the rate of \$338,026,672 annually available for dividends on the common stock, equal to a yearly rate of about \$66.50 on that issue.

Deliveries of steel will be made on a higher price basis in the current quarter than in the last quarter of 1916. With this in view it is to be expected that earnings for January, February and March will exceed the total reached in the last quarter of 1916, unless transportation facilities prove a greater handicap than was the case in the latter part of last year.

If normal shipments of steel prevail, which is hardly to be expected with the present congested condition of the railroads, earnings might reach a total of \$125,000,000 in the current quarter. In view of these uncertainties, estimates of \$115,000,000 for the first quarter of 1917 would be safer at this time.

It is rumored that one reason why U. S. Steel has been so conservative in its dividend declarations is because it contemplates using a large percentage of its surplus to retire certain underlying bond issues.

—Feb.

*(1) Earnings Rate Per Ton, 1916.—It was stated Jan. 31, 1917, that the extraordinary net earnings of this company during the last quarter of 1916 were at the rate of \$28.64 per ton of rolled products distributed, the shipments during the last quarter of 1916 being placed at 3,700,000 tons. The earnings in December, however, when shipments were heavily reduced, were at the rate of \$31.22 per ton.

During the last quarter of 1915 the earnings were at the rate of \$11.30 per ton. Thus the gain in the last three months of 1916 was over 150%. Net earnings during the first quarter of 1916 were at the rate of \$15.26 per ton; during the second quarter at the rate of \$20.70 per ton; during the third quarter at the rate of \$26.40 per ton, and during the fourth quarter, as previously noted, at the rate of \$28.64 per ton.

For the entire year of 1916 the net earnings were \$333,625,068 and shipments were approximately 14,845,000 tons, indicating net earnings at the rate of \$22.47 per ton in products distributed. The tonnage sold was nearly 4,000,000 tons greater than the actual shipments on contracts.

*(2) Earnings of \$400,000,000 Predicted for 1917.—On Feb. 2, 1917, it was stated a director of this company said that if shipments of products sold could have been made in the Dec. 31 quarter without delay or interruption, the profits for that period would easily have been \$125,000,000, instead of \$105,968,000.

While the operating net earnings for 1916 were rising \$333,000,000, inside interests do not see how they can be less

than \$400,000,000 in 1917—war or no war—and say they may even reach \$500,000,000.

The director referred to stated that in view of the company's extraordinary cash position and the millions which have been poured from earnings into property, the common stock is entitled to rank as a real investment at \$100 per share.

*(3) Unfilled Tonnage, Jan. 31, 1917.—This company's statement of unfilled tonnage, issued Feb. 10, 1917, shows, as of Jan. 31, 1917, 11,474,064, compared with 11,547,286 Dec. 31, 1916, a decrease of 73,222 tons.

*(4) Comment on Unfilled Tonnage Statement.—In commenting on this company's statement of unfilled tonnage, as of Jan. 31, 1917, the "Wall Street Journal" on Feb. 12, 1917, said:

"Unfilled tonnage on Nov. 30 was 11,058,542; on Oct. 31, 10,015,260 tons; on Sept. 30, 9,522,584 tons, and on Jan. 31, 1916, 7,922,767 tons.

"The slight decrease in the unfilled tonnage of the United States Steel Corp. last month was generally expected. It has been known for some time that incoming orders were less than in steamers, but this is due more to the congested condition of the mills than to anything else. Manufacturers, on account of oversold conditions, have not been able to accommodate consumers, particularly buyers who ask for deliveries in the first three quarters of the current year.

"The unfilled orders of the United States Steel Corp. now stand at 11,474,064 tons, and for some time past steel producers have been of the opinion that the maximum bookings had about been reached. If the Steel Corp. had the capacity, it could show a big increase in orders each month on a basis of present demand.

"There has been some hesitation among buyers since the breaking off of international relations with Germany, but with congested traffic conditions in view producers rather welcome a falling off in orders at this time. The mills are far behind in deliveries, and do not expect to catch up with them until the railroads are in a better position to handle freight.

"Incoming orders since the first of this month have been slightly less than reported in the corresponding period of January, and as the railroads cannot promise any relief in the matter of freight congestion, a slight falling off in unfilled orders in the current month would cause no surprise."

*(5) Tonnage Discussion.—On Feb. 14, 1917, the "Wall Street Journal" said: "A further slight shrinkage in unfilled orders of the United States Steel Corp. is looked for in February. This will not be due to any change for the worse in the steel business, but to congested conditions. The mills could sell more steel if they had the capacity. Buyers have covered pretty fully for the remainder of the year, and this is one reason for the falling off.

"Other consumers would like steel for early delivery but cannot get it. Europe is in the market for huge tonnages, notwithstanding the blockade. There has been a disposition on the part of many consumers to make no large future commitments until the international atmosphere clears."

*(6) Physical Valuation of Subsidiary.—See Elgin, Joliet & Eastern Ry. Co.—Item No. 2.

*(7) Government Files Brief in Dissolution Suit.—On Feb. 17, 1917, the Government filed in the United States Supreme Court at Washington a brief combating the efforts of this company toward retaining its corporate existence.

The Government urged that the case be remanded to the United States District Court of New Jersey, with directions that that tribunal work out a dissolution plan.

The New Jersey court declined to dissolve the corporation on the ground

that it does not alone control prices and is not an actual monopoly. The Government contends that the United States Steel Corp. is the holding company through which the alleged illegal combination is effected.

The late John W. Gates, Elbert H. Gary, J. P. Morgan & Co., W. H. Moore, Daniel G. Reid, James H. Moore and W. B. Leeds are named as the principal organizers. After the combination was effected, the brief charges, prices rose as the direct result of the suppression of competition among the units making up the trust. These units controlled from 85% to 90% of the business at the time of the organization, it is asserted.

It is stated that companies were brought in regardless of their proportionate value based on output and physical property, the compensation to them being based on the value to the trust of the cessation of their competition. This argument is used to refute the contention of the Steel Corporation that the combination was the natural normal result of business expansion.

While the companies named were the principal units making up the trust, it is stated that, including the small steel mills drawn into the super-combination, a total of 130 competing factors in the American steel industry made up the alleged trust.

*(8) Fuel Shortage Closes Mills of Subsidiary.—See Carnegie Steel Co.—Item No. 1.

—Mar.

*(1) Annual Report About March 20.—It was stated March 1, 1917, that unusual interest is centered in this company's report for 1916, due about March 20, because of the information expected to be contained about the corporation's holdings of British Treasury notes. It is understood that payment on a large scale for steel shipped to the Allied Governments has been made in these notes, and it has been reported that the corporation also has made substantial investments in British short-term obligations, thereby finding use for its big cash balances.

A possible total of \$150,000,000 lodged in British Treasury paper has been mentioned.

The working capital of the Steel Corp. is estimated to be in the neighborhood of \$500,000,000, compared with \$201,000,000 a year previously. This increase has been brought about partly by the accumulation of cash on a scale greater than ever before. No new financing is believed to be necessary for years.

*(2) Price Advance by Subsidiary.—See American Steel & Wire Co.—Item No. 1.

*(3) Rail Order.—See Pennsylvania R. R. Co.—Item No. 11.

*(4) Price Advance by Subsidiary.—See Carnegie Steel Co.—Item No. 1.

*(5) Arguments in Dissolution Suit Begun.—It was announced at Washington March 10, 1917, that arguments in the United States Government's suit to dissolve the United States Steel Corp. had been begun on that date before the Supreme Court. As he was Attorney-General when the suit was filed, Justice McReynolds is not sitting in the case and can have no voice in the decision. An array of counsel for both sides appeared in the hearing.

Federal attorneys opened the arguments, the Government having appealed from dismissal by the New Jersey Federal District Court of its suit, which was begun in 1911, in President Taft's Administration.

*(6) Unfilled Tonnage, Feb. 28, 1917.—This company's statement of unfilled tonnage, issued March 10, 1917, shows, as of Feb. 28, 1917, 11,576,697 tons, compared with 11,474,064 Jan. 31, 1917, an increase of 102,633 tons.

*(7) Comment on Unfilled Tonnage Report.—On March 12, 1917, the "Wall Street Journal" said that the gain of 102,633 tons in the unfilled tonnage of

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

this company reflected the continued good demand for steel products.

Shipments of steel fell off about 20% in February, due to congested traffic conditions, but the fact that the Steel Corp. can report a monthly gain in the face of congested order books and the necessity of turning down hundreds of thousands of tons of new business monthly are remarkable.

Although the increase in unfilled tonnage was small it was sufficient to enable the Steel Corp. to establish a new high record of 11,576,697 tons, which compares with the previous high record of 11,547,286 tons on Nov. 30, 1916.

The Steel Corp. has almost a year's business on its books and is selling hundreds of thousands of tons for delivery in 1918. In view of the congested condition of its order books it is evident that a great deal of discrimination must be used in taking on new business for delivery in the current year.

The gross value of the unfilled orders on the books of the United States Steel Corp. must be in excess of \$1,000,000,000.

The net profit represented in the tonnage remaining to be filled runs between \$300,000,000 and \$400,000,000.

From the above it is evident that certain steel manufacturers have good grounds for their claims that by the close of 1917 the United States Steel Corp. since organization will have put back into the company in the way of working capital, new construction, etc., a total approximately \$1,000,000,000.

(8) Report, Year Ended Dec. 31, 1916, shows total business, including that with the public and between the subsidiary companies, as \$1,231,473,779, an increase of \$504,754,190, or 63%, over the total for 1915. This is the best showing in the company's history. The surplus is \$201,835,584 for the year, which is above the net earnings for any previous year. The surplus resulted even after the deduction of dividends, which were \$38,122,687 in excess of the previous year. The surplus for 1916 was \$157,576,210 greater than that carried forward at the end of 1915.

Net earnings reached the new high mark of \$342,997,092, or \$202,747,026 over 1915. As earnings for the fourth quarter of the year were the best for any three months period during the year, the expansion in revenues is expected to continue in 1917.

The corporation's export business contributed only slightly to the increased total. Exports were 2,501,627 tons, or only 71,888 tons over 1915. Domestic business, however, totaled 14,833,621 tons, an increase of 3,950,873 tons, or 36%.

The payroll last year was the greatest in its history, and amounted to \$263,385,502, which was distributed among an average of 252,668 employees, who, exclusive of administrative and selling force, received an average daily wage of \$3.29. In 1915 the payroll totaled \$176,800,846 and was distributed among 191,126 employees, who received an average wage of \$2.92 daily.

The current assets are given as \$501,150,873, and current liabilities as \$92,942,436, leaving excess current assets of \$408,208,437, an increase of \$136,087,872. In addition to this increase in working assets, there was spent for new construction a total of \$59,563,983.

(9) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross rec.....	\$1,231,473,779	\$726,683,589
Net earnings.....	342,997,092	140,250,066
Surp. after chgs.	271,406,761	75,068,019
Bal. after pfd. & com. divs.....	201,835,584	44,260,375

(10) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$381,300,913, compared with \$180,025,329 Dec. 31, 1915.

(11) Production, Year Ended Dec. 31, 1916, including the totals of the major products and the raw materials going into them, is shown in tons in the annual report as follows:

	1916	1915
Steel ingots.....	20,910,589	16,376,492
Finished steel.....	15,400,792	11,762,639
Pig iron.....	17,412,049	13,517,598
Iron ore.....	33,355,169	23,669,676
Coal.....	32,768,381	26,628,482
Coke.....	18,901,962	14,500,818

(12) Statement by Chairman.—It was announced March 21, 1917, that Chairman E. H. Gary, in his annual remarks to stockholders, said in part: "The active demand for iron and steel products, for both the domestic and export trade, which prevailed at the opening of the year 1916, referred to in last year's annual report, continued during the entire year. These demands exceeded the capacities of the mills, and consequently prices advanced throughout the year.

"The tonnage of unfilled orders of the subsidiary companies at Dec. 31, 1916, was 11,547,286 tons of rolled steel products, the highest total ever recorded in the history of the corporation, and exceeding by 3,741,068 tons, or 47.9%, the unfilled tonnage at close of 1915. The character of the order book is excellent.

"The bulk of the tonnage covers the needs of buyers for definitive contract work or their requirements for operation and maintenance, thus encouraging the belief that the operation of the mills at their full capacity will be continued for at least the greater part of 1917.

"The export sales were for cash, and domestic sales were either for cash or on thirty- to sixty-day terms, in accordance with the custom of the trade as to various commodities. Collections have been unusually good.

"During the entire year 1916 the several producing properties and plants of the subsidiary companies were operated at substantially their maximum capacity, except as they were at times prevented by reason of the unusual conditions prevailing as to labor supply and railroad transportation.

"The production during the year of basic raw and semi-finished materials and of rolled and other finished products for sale to customers exceeded, except in respect of cement, the output in any previous year."

(13) Comment on 1916 Report.—On March 21, 1917, in commenting on this company's report, the "Wall Street Journal" said:

"The report of the United States Steel Corp. for the year 1916 shows a surplus applicable to the common stock of \$246,312,053, equal to \$48.46 a share on that issue.

"The Steel Corp. is now in the \$2,000,000,000 class by itself. Its resources on Dec. 31, 1916, are given as \$2,083,027,000, having exceeded the \$2,000,000,000 mark for the first time.

"In the matter of totals the statement for the year is the most remarkable ever issued by an industrial or railroad corporation.

"It shows a startling expansion in cash assets, and places the corporation in a position that justifies the statement that all the water injected into the property at time of organization has been drained out.

"The actual addition to assets from time of organization to Dec. 31, 1916, amounted to \$575,055,336, equal to \$113.13 a share on the common stock. This calculation is made on the assumption that the \$598,302,500 of common stock was worth absolutely nothing when the world's greatest combination was formed.

"It is safe to estimate an addition to the common stock of \$15 a share in assets since the first of this year, making the total actual addition to assets from organization to March 31, 1917, equal to \$128.13 a share on the common stock.

"Up to Dec. 31, 1915, there had been an actual addition to assets of \$373,719,728, equal to \$73.50 a share on the common, so that since then, from Jan. 1, 1915, to March 31, 1917, a period of 15 months, there has been a gain equal to \$54.63 a share on the common stock.

"If steel conditions continue as prosperous throughout the remainder of the year as they are now, it is possible that \$200,000,000 more will be added to actual assets in 1917, making over \$775,000,000 from time of organization to Dec. 31, 1917, a total equal to approximately \$152.50 a share on the common.

"The Steel Corp. has more ore, coal, limestone and other raw materials in reserve than it had at the time of organization. By the close of this year it may have a working capital of between \$600,000,000 and \$700,000,000, a total exceeding the deposits of the largest banking institution in the United States.

"Since organization it has more than doubled its capacity from surplus earnings. The amount unexpended on authorized appropriations for extensions on Dec. 31, 1916, was \$137,000,000.

(14) Government Order for Subsidiary.—See American Steel & Wire Co.—Item No. 2.

—Apr.

(1) New Construction.—It was stated April 3, 1917, that since this company's organization on April 1, 1901, to Dec. 31, 1916, it has spent or appropriated more than \$1,500,000,000 for new construction, depreciation and sinking funds and ordinary repairs.

The magnitude of this total can best be figured when compared with the corporation's property valuation of \$1,472,623,660, as reported at the close of 1916.

In brief, U. S. Steel has deducted from its earnings for construction, depreciation, etc., a total in excess of the present property valuation.

The following summarizes the expenditures or appropriations of U. S. Steel since organization for the above purposes: New construction, \$549,793,203; depreciation and sinking funds, \$451,697,612; ordinary repairs, \$548,000,000; total, \$1,547,495,815.

For new construction, depreciation, etc., U. S. Steel has averaged nearly \$100,000,000 per year, equal to \$20 a share annually on the common stock.

(2) Increase for Employees.—On April 3, 1917, this company announced that wages and salaries of workers receiving \$2 500 a year or less would be increased 10% on May 1. This applies to those in the steel works, blast furnaces, and offices. The schedules in the mines, railroads, and steamship lines will be adjusted to make the increase equal the advance in the manufacturing departments.

This is the fourth wage increase voted by the corporation since Jan. 1, 1916, each being of 10%. The increases in 1916 were on Feb. 1, May 1, and Dec. 15. When the latest goes into effect the men will receive slightly more than 40% more pay than before the first advance in 1916 was granted.

It was estimated that approximately 225,000 of the 252,000 employees would participate in the increase. The average daily wage of the workers in 1916, outside of the administrative and selling organizations, was \$3.20 a day.

Using this as a basis of computation, it is figured that the wage advance on May 1 will increase the corporation's annual outgo for wages and salaries by approximately \$30,000,000.

In 1916 a total of wages and salaries paid amounted to \$263,385,502, an increase of \$86,500,000 over the aggregate in 1915.

(3) Comment on Earnings.—On April 7, 1917, the "Wall Street Journal" said that if this company supplied half of the steel needed for the United States Navy at the prices agreed on between Secretary Daniels and the various steel companies, this would subtract from the corporation's profit this year, according to the estimates made by the Secretary of the Navy's savings from the agreement, approximately \$9,000,000, or less than \$2 per share on the corporation's common stock.

Estimates of the corporation's profits this year have ranged from \$50 to \$100 per share, with well informed opinion

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

in the steel trade favoring over 70%. The Navy's orders, therefore, will be a small matter in their effect on profits.

If the tonnage needed for the Navy were greater its effect on the corporation's profits, by reason of the necessity for giving it preference over all other work might be appreciable, but in view of the enormous rate of output it can hardly be material. On the other hand, the corporation is likely to make up what loss of earnings it suffers from this cause by higher prices for materials sold to other customers, as the market is already glutted with orders, with little tonnage offered, and what steel is available for consumption will almost certainly advance in price by reason of the withdrawing from sale of product required to meet the Government's needs.

*(4) **Wage Increase.**—Reported from Youngstown, Ohio, on April 7, 1917, that the common labor rate for steel workers, effective May 1, would be 30 cents an hour for both the United States Steel Corp. and independents. Up to January 1, 1916, the rate in the Youngstown district was 19.5 cents an hour.

*(5) **Unfilled Tonnage, as of March 31, 1917.**—Unfilled tonnage statement showed 11,711,644 tons as of March 31, 1917, against 11,576,697 Feb. 28, 11,474,004 Jan. 31, and 9,331,001 March 31, 1916.

*(6) **Government Contract by Subsidiary.**—See American Bridge Co.—Item No. 1.

*(7) **Stock Held Abroad.**—It was stated April 12, 1917, that this company's records show the amount of its common stock held abroad at the end of the first quarter of 1917 as only 8,249 shares less than the total as of Dec. 31, 1916.

In the preceding quarter the reduction was more than four times as great amounting to 35,177 shares. The total of Steel common shares owned by foreigners when the March quarter ended was 494,338 shares.

Pfd. stock holdings abroad declined 4,655 shares, in contrast with a drop of more than 85,000 shares in the three months ended Sept. 30, 1916. In the September quarter holdings of the common stock in foreign lands suffered a decline of 87,445 shares.

The return of Steel stocks to the home market in the quarter ended March 31 was smaller in amount, in respect to the common, than in any similar period since the war began. Aggregate holdings of the pfd. abroad on March 31 were 157,757 shares.

The records show that brokers' holdings of common stock on March 31 amounted to 53.16% of the outstanding shares, a reduction of about 5% in the quarter. Brokerage house holdings of pfd. shares also dropped, the total being 11.39% of all the stock. This represented a decline in the three months of about 1½%. Stocks returned went more into the hands of investors than to speculators.

The stock on March 31 was more heavily distributed in the Western States than at the end of 1916. A slight decrease occurred in the holdings of the Central Atlantic States, but in the South investments in Steel common and pfd. were larger than in the previous quarter.

*(8) **Quarterly Earnings Estimated.**—On April 16, 1917, Dow, Jones & Co. estimated the earnings of this company for the first quarter of 1917 as running between \$110,000,000 and \$120,000,000, compared with actual earnings of \$106,968,000 in the last quarter of 1916 and \$90,713,000 in the corresponding quarter of 1916.

If the Steel Corp. shows earnings of \$115,000,000 for the first quarter of 1917, it will mean a surplus of approximately \$93,500,000, or \$18.40 available for the common stock. This is at the rate of \$73.60 a share annually.

*(9) **Retiring Directors Re-elected.**—At the annual meeting of this company April 16, 1917, the retiring directors were re-elected. They were: Robert

Bacon, Samuel Mather, Thomas Morrison, John S. Phipps and Daniel G. Reid.

*(10) **Profits Depend on Taxation, States Chairman Gary.**—Chairman Elbert H. Gary at the annual meeting of stockholders of this company April 16, 1917, stated that special taxation already passed would increase the company's tax bill \$43,000,000 in 1917. Added to other taxation, it would make the total paid on this account between \$80,000,000 and \$85,000,000.

What would be the effect of farther taxes proposed could not yet be calculated, Judge Gary said, as it would depend on the attitude of the lawmakers and the action they adopted.

A tax of \$85,000,000 would be equivalent to more than \$12 a share of common stock outstanding. It would also be approximately three times the tax paid by the corporation in 1916. That it would not be an insuperable burden upon the company is evinced by the fact that net earnings in 1917 have been running at a rate in excess of \$50 annually for each share of common stock.

Nearly 100 stockholders attended the meeting. Judge Gary's statement was in reply to one of those who asked what the earnings would probably be in 1917.

"The burden which will be imposed by the Government on corporations and individuals," said Judge Gary, "will undoubtedly be very large. No loyal citizen can object to these taxes if they are equitably distributed. If it is the disposition of our lawmakers to secure by taxation as much money as possible, to be expended for all the purposes that have been suggested, then it is evident that all the earnings of corporations and incomes of individuals will be taken away. I don't believe that this will be the attitude of the lawmakers.

"If it is their disposition to secure only such money as may be absolutely necessary for the purposes of the Government, and if the distribution of the burden is equitable, then the earnings of the corporation this year should be very large."

Chairman Gary gave the stockholders the first official information to come from steel-making circles in respect to prices being quoted the Government for army and navy work.

"At the present time," he said, "we are selling standard plates from \$3.50 to \$4 per hundred pounds to the general trade, and at \$2.90 per hundred to the Government. We could sell the same product to the trade at from \$8 to \$10, the latter price having been recently bid. We have always endeavored to treat the public fairly by keeping it as fully informed as possible regarding the affairs of the corporation. Our books are well filled with orders. We have more unfilled orders than ever before, and enough to keep us busy throughout 1917, and in addition we have sold considerable product for 1918."

Judge Gary said he believed that Government orders would call in 1917 for no more than one-twentieth of the corporation's expected output of steel. The corporation's present capacity, which is constantly working full, is as large as the complete capacity of the steel works of Germany, he added, and twice that of England. The plants of the organization are producing from 40 to 45% of the total product of the mills of the United States.

"We have no desire nor disposition," the Chairman asserted, "to increase that percentage, so that we could be justly accused of endeavoring to secure a monopoly. If the corporation were disposed to take advantage of every opportunity, its earnings could be very much larger than they are. It has never been the purpose or intent of the management to secure the highest prices possible."

Judge Gary said that never until the last 18 months had the corporation been able to demonstrate its full earning power. Since its formation, he stated, the organization had increased its capacity more than 100%.

*(11) **Workman Tells of Loyalty.**—At the annual meeting of this company, April 16, 1917, Chairman Gary invited F. E. Smith, a heater in the sheet mill at Canal Dover, O., to speak, stating that Mr. Smith accompanied by two or three other delegates of employees, had spoken to stockholders four years previous and refuted criticisms of the U. S. Steel Corporation's treatment of its employees.

Mr. Smith said: "I don't know if I will be able to say anything of interest to stockholders except that it will interest you to know that the men who work for this corporation and its subsidiaries are first of all patriotic and loyal to the Government.

"The U. S. Steel men are mindful of the great advantage of the corporation's policy and hope that the same will be continued and not changed by any compulsory measures."

*(12) **Export Subsidiary Warns Against Possible Freight Rate Increase.**—See United States Steel Products Co.—Item No. 1.

*(13) **List of Large Stockholders.**—An examination of the books of the United States Steel Corp. April 16, 1917, showed the following as among the largest stockholders:

	Pfd.	Com.
James A. Farrell.....	2,671	1,374
Kidder, Peabody & Co.....	3,344	9,876

*(14) **Taxes in 1916 Totalled \$28,599,721.**—On April 17, 1917, the "Wall Street Journal" said this company's report for 1916 showed that \$28,599,721 was paid out in taxes, including allowance for accrued Federal taxes payable in 1917. Notwithstanding this heavy outlay the company earned \$333,574,177, in 1916.

If taxes reach \$65,000,000 in 1917, it will mean an increase over the preceding year of approximately \$38,000,000.

While taxes of \$65,000,000 would be large, they would make no great impression upon earnings. For example, net profits in the current quarter are estimated in excess of \$110,000,000, compared with \$60,700,000 in the corresponding quarter of 1916, an increase of nearly \$50,000,000.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

The increase in the first quarter of 1917 over the corresponding quarter of 1916 would come within \$15,000,000 of paying the corporation's estimated taxes of \$65,000,000 in the current year.

The corporation is expected to show \$110,000,000 net earnings for the current quarter; this after tax deductions. As taxes are deducted from the quarterly statements and not in a lump sum at the end of the year, the outlay will scarcely be noticed by shareholders.

Taxes of \$65,000,000 for the current year would be equal to less than \$4 a ton on U. S. Steel's production of finished steel for sale. That this is a comparatively small item is evident from the fact that the average price of eight leading steel commodities is close to \$90 a ton.

The taxes of the corporation have been increasing year by year. As an example, when it was organized it was paying in taxes not more than \$2,000,000 annually.

(18) Cash Not to Be Used to Retire Bonds.—On April 19, 1917, Dow, Jones & Co. announced: "There are no grounds for the reports that have been in circulation for some time that the United States Steel Corp. would employ its large cash holdings to retire part or all of its 5% sinking fund bonds. The report that the Steel Corp. was considering the segregation of its properties into three distinct companies; namely, railroad, mining and manufacturing, also is not correct."

"There is every reason to believe that the United States Steel Corp. will be a large subscriber to the new Government bond issue."

(19) Net Earnings \$113,121,018 for First Quarter of 1917.—Earnings reported by the United States Steel Corp. April 24, 1917, for the quarter ended March 31, 1917, showed net earnings of \$113,121,018. There was a balance of \$97,744,756 available for dividends. Deducting the pfd. dividends of \$6,304,919 left a balance available for the common of \$91,439,837, or approximately \$18 a share. This is at the rate of \$72 a share annually.

The balance carried to surplus after all charges was \$69,836,981.

If \$25,000,000 of the foregoing was spent for new construction in the first quarter the actual cash balance carried to surplus was close to \$45,000,000. Theoretically, this would give the Steel Corp. approximately \$254,000,000 of cash and sinking and reserve fund assets. It would also give United States Steel excess current assets over current liabilities of \$315,000,000 without taking into account sinking and reserve fund assets of nearly \$60,500,000 at the close of 1916, said the "Wall Street Journal" April 25, 1917.

A feature of the statement is found in growth in monthly earnings. They reached the record-breaking total of \$43,630,422 in March. This is at the rate of \$130,891,266 quarterly and \$523,568,064 annually.

U. S. Steel was not able to show its full earning power in the first quarter due to freight congestion in January and February, which cut down earnings materially. But in spite of this net earnings in January were \$36,074,425, and in February, \$33,416,171. January earnings were in excess of December, 1916, and February earnings slightly less than December.

(17) Earnings Statement, Quarter Ended March 31, 1917, compares with the corresponding period of the previous year as follows:

	1917	1916
Net earnings.....	\$113,121,018	\$80,713,624
Dep., s. f., etc.....	9,790,824	9,495,965
Net income.....	103,330,194	51,218,559
Int., U. S. S. B. & P.....	5,585,438	5,705,687
Balance.....	97,744,756	45,512,872
Div., pfd.....	6,304,919	6,304,919
Div., com.....	6,353,781	6,353,781
Ext. com.....	15,249,075	
Surplus.....	69,836,981	32,854,172

(18) Extra Dividend of 3% Declared on Common.—Directors of this company April 24, 1917, declared an extra dividend of 3% and the regular quarterly dividend of 14% on the common stock, payable June 29. Books close June 1

and re-open June 5. The regular pfd. dividend of 14% was also declared. It is payable May 29. Books close April 30 and re-open May 2.

The declaration of 3% extra on the junior shares, Judge Gary pointed out, when added to the 14% paid the previous quarter and the two extras of 1% each before that, reimbursed stockholders for the loss of dividends in 1914-15. For the full year of 1915 shareowners received no return, and a small payment only in the final quarter of 1914. With these extras, the common stock has paid 5% annually since 1910, and it is understood to be the intention of the management to keep it on that regular basis, irrespective of the size of earnings.

(19) To Subscribe for \$5,000,000 of Government 3% Certificates.—Directors of the company April 24, 1917, decided to subscribe for \$5,000,000 of the new United States Government 3% certificates of indebtedness and \$9,600,000 was set aside to pay the corporation's income tax for 1916 immediately on receipt of a bill, instead of waiting until the due date, June 15.

"The Government is in need of cash," said Chairman E. H. Gary after the meeting, "and as we are strong in cash it was decided to anticipate the income tax payment, following the request issued by Internal Revenue Collector Edwards to corporations and individuals to pay their tax as soon as possible. Subscriptions to the Government certificates may be considered practically as subscriptions to the forthcoming long-term Government bond issue, so it might be inferred that the corporation's participation in the big offering will be \$5,000,000 at least."

The Steel Corp. is the first prominent industrial organization to make public its plan in respect to the great war loan.

(20) Gift of \$50,000 Set Aside for Y. M. C. A.—Directors of the company at their meeting April 24, 1917, set \$50,000 from earnings as a gift to the Y. M. C. A. fund for army and navy work. This was done upon receipt of an appeal from leaders in the Association asking for aid in raising \$3,000,000.

(21) Results for First Quarter of 1917 Satisfactory, States Chairman Gary.—On April 24, 1917, commenting on the results for the first quarter of 1917, Chairman Gary said they were satisfactory and there seemed to be no let-up in the demand for steel products.

"The tendency of prices is still upward," he added, "which is a condition that I, personally, do not desire to see prolonged."

The report for the quarter showed unfilled orders as of March 31 amounting to 11,711,644 tons.

(22) Increased Earnings in 1917 Second Quarter Indicated by Car Supply.—The "Wall Street Journal," April 25, 1917, stated that in considering the quarterly earning statement of the United States Steel Corp., particular attention should be paid to the monthly changes in earnings, which in January were \$36,074,425, in February \$33,416,171, and in March \$43,630,422.

These monthly earnings reflect closely the effect on the corporation of the railroad car shortage. In January the corporation was compelled because of the car situation to reduce the operations of its finishing mills to around 75% of full capacity, while in February, in which month earnings were the least of the quarter, finishing mills operations fell to nearer 65%. The decline in February was also due to some extent to the obvious fact that the month is a short one.

In March, with an improving railroad situation, the corporation was able to increase finishing mill operations to an average of about 80%, with the result that earnings jumped over \$10,000,000 over those of February.

Had the corporation been compelled to reduce operations in all divisions as much as in the finishing departments the monthly contrast would have been more marked.

As the corporation is steadily working into higher price levels on its output

and as there seems good reason to hope that the railroad situation will improve—or at least not go backward—in the near future, it is presumable that operations and earnings will gain during the three months of the current quarter over those of March.

Some of the corporation's production, however, that supplied the United States Government, will yield only a small profit, but the gain in prices on other shipments should fully offset the effect on profits of this comparatively small factor.

On the whole, it is likely that monthly profits for the second quarter will average as high as in March, which would give the company net earnings of approximately \$131,000,000 for the three months ending June 30.

(23) Niles Furnace Started.—See Carnegie Steel Co.—Item No. 1.

(24) Addition of \$644,892,317 from Organization to March 31, 1917.—Dow, Jones & Co. April 23, 1917, stated that from the time of organization to March 31, 1917, the U. S. Steel Corp. made an actual addition to assets of \$644,892,317, equal to \$126.87 on the common stock.

When the U. S. Steel Corp. was organized it was stated that the common stock was all water. If this statement was true, then U. S. Steel common now has a value of \$126.87 a share. In other words, all the water injected into U. S. Steel at time of organization has been more than drained out.

The following table shows the actual addition to assets of U. S. Steel from the time it started business on April 1, 1901, to March 31, 1917:

Undivided surplus on hand Dec. 31, 1916.....	\$381,360,913
Deducted surplus provided at organization.....	25,000,000
Balance.....	\$356,360,913
Add appropriations from surplus to cover capital expended.....	55,000,000
Total.....	\$411,360,913
Payments from surplus for property construction.....	163,694,423
Total Dec. 21, 1916.....	\$247,666,490
Surplus for first quarter of 1917.....	69,836,981
Total.....	\$317,503,471

Equal to \$113.13 a share on the common stock.

Equal to \$126.87 a share on the common stock.

The Steel Corp. has more known ore, coal, limestone and other raw materials in reserve than it had at time of organization.

As it has charged against profits since organization more than \$1,000,000 for depreciation, sinking funds and ordinary repairs, has expended close to \$375,000,000 for new construction and more than doubled its capacity, it is evident that U. S. Steel has maintained its plants and properties up to the highest degree of efficiency.

The actual addition to assets in the first quarter of this year was equal to \$13.74 a share, and there is every reason to believe that there will be an even larger addition in the current quarter as earnings may reach \$130,000,000. This would mean an actual addition to assets from time of organization to June 30, 1917, of about \$145 a share on the common stock.

The earnings of the Steel Corp. in March reflect the wonderful earning power of U. S. Steel at the present time. If this average is maintained in April, May and June, U. S. Steel will show net earnings of \$130,890,000 for the second quarter.

UNITED STATES STEEL PRODUCTS CO.

(1) Letter Warns Customers Against Possible Freight Rate Increase.—On April 16, 1917, this company, the export subsidiary of the United States Steel Corp., issued a circular letter to customers warning them to be protected against a possible advance of 15% to 20% in freight rates when executing

JANUARY 1 TO APRIL 30, 1917

contracts for iron and steel products to be shipped abroad.

A short time previously the rail rate from the mills to the seaboard on foreign shipments was made the same as on domestic shipments. Consequently any future advance in freight rates sanctioned by the Interstate Commerce Commission will apply on foreign, as well as on domestic orders.

UNITED STATES TRUST CO., NEW YORK.

¹ (1) Capital Increase.—Dividend.—It was announced Jan. 12, 1917, that at a meeting of the stockholders of this company, the capital was increased from \$300,000 to \$1,000,000, and the directors also declared a cash dividend of \$100 per share out of surplus earnings.

Henry P. Tilden, Sec'y, was elected Vice-Pres., and Charles F. Ford, head paying teller, and Charles H. Coleman, head note teller, were elected assistant secretaries.

UNITED STATES WORSTED CO.

¹ (1) Report, Year Ended Dec. 31, 1916, shows total assets and liabilities of that date as \$16,682,282, compared with \$14,605,446. The total profit for the year, after charging interest on floating debt, but before deducting \$394,534 for repairs and maintenance, reserve for taxes, depreciation, etc., is given as \$1,005,706, compared with \$650,073 the previous year.

¹ (2) Statement by President.—It was announced March 3, 1917, that Pres. Andrew Adie, of this company, in his annual report to stockholders, said in part:

"The indications regarding the outlook for business, forecasted in my last report, were fulfilled and the outlook for this year is most promising if unforeseen complications in the commercial world, due to war or war measures, do not arise.

"Your Pres., feeling that the existence of the so-called Saxony option was undesirable and a cause of anxiety to the company, due in part to the annual payments called for by the terms of the option, but chiefly to the very large final payment to be made on Nov. 20, 1917, offered to relieve the situation by selling the Saxony Worsted Mills outright to the company, thus cancelling the option.

"Negotiations followed as to terms and conditions whereby this desirable end might be accomplished, resulting in a contract which provided that the Saxony Worsted Mills should be deeded to your company, and that payments of the amount then due on the option should be extended over a period of ten years. This has now been accomplished and the option has been cancelled.

"With a growing surplus, the question of dividends has been seriously considered by your Board of Directors."

¹ (3) Comment on 1916 Report.—On March 9, 1917, the "Boston News Bureau" said that this company had another satisfactory year in 1916, with a gain over 1915 in gross profits of \$355,693, pushing the total for the first time over \$1,000,000, and a balance for the \$5,000,000 1st pfd. of 12.2%. This compares with a pfd. share balance of 8.9% in 1915.

The gross turnover increased from \$7,500,000 in 1915 to \$9,300,000 and at the rate sales are running the total for 1917 should exceed \$10,000,000. This excludes inter-mill transactions, which would materially swell the volume, particularly with the Saxony now an integral part of the parent organization.

The directors and management are anxious to place the pfd. stock on a dividend basis as soon as possible, but it is doubtful if any steps can be taken in this direction early in 1917.

UNITED STORES REALTY CORP.

¹ (1) Acquisition.—On Jan. 19, 1917, Pres. James C. Bolger, of this company, announced that a consolidation had been effected, whereby that company took over the large and important real estate interests of the United Cigar

Stores Co. and that hereafter all real estate business of the cigar company would be handled by the Realty Co. exclusively.

The Cigar Co. and Realty Co. now control many of the most prominent properties in the country and the Realty Co. has a number of new locations under consideration.

UNITED SUGAR COMPANIES.

¹ (1) Stock Offering.—Announcement was made Jan. 15, 1917, that Toole, Henry & Co., members of the New York Stock Exchange, are offering 50,000 shares of common stock of the United Sugar Co.'s at \$35 a share.

The bankers stated the company had been in active operation 20 years and is the largest producer in Mexico, making a refined product in the form of granulated and cube sugar, distributed directly to the trade.

Earnings applicable to dividends on the common stock in 1916 were \$430,440, after allowing for the 7% pfd. dividend, and after retiring bonds.

¹ (2) Plants at Full Capacity.—On Jan. 22, 1917, Pres. B. F. Johnson, Pres. of this company, reported all plants running at full capacity and sold ahead on granulated and cube sugar at from 7 to 8 cents a pound in carload lots at mill, United States gold.

These prices are equal to the prices received by New York refiners for their products there and nearly double the price received by the Cuban companies at their mills for raw sugars.

—Mar.

¹ (1) Stock Subscription Withdrawal.—On March 2, 1917, Toole, Henry & Co. announced the withdrawal of the subscriptions for this company's common stock, allotments having been made on about a 50% basis. Temporary certificates will be delivered by the Guaranty Trust Co., New York.

UNITED THEATRE EQUIPMENT CORP.

¹ (1) Incorporated on March 21, 1917, in Delaware, with a capital of \$3,000,000, to construct and maintain moving picture theatres, etc. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

UNITED TRACTION CO., ALBANY, N. Y.

¹ (1) Report, Quarter Ended Dec. 31, 1916, of this company, subsidiary of the Delaware & Hudson Co., shows:

	1916	1915
Gross earnings...	\$614,390	\$601,937
Net after taxes...	124,284	13,956
Total income...	162,997	34,211
Surp. after chgs.	48,553	183,213
Deficit.		

¹ (2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$89,019.

UNITED TRACTION CO., LEBANON, PA.

¹ (1) Merger Planned.—See Reading Transit & Light Co.—Item No. 1.

UNITED TRACTION CO., PITTSBURGH.

¹ (1) Compromise Offer.—See Philadelphia Co.—Item No. 1.

—Mar.

¹ (1) Large Majority of Stock Deposited.—A number of the protective committee for pfd. stockholders speaking on March 26, 1917, of the compromise offer looking to the settlement of litigation said that fully nine-tenths of the stock had been deposited, and that he looked for a final settlement on or even before April 2.

UNITED TRUCK & EQUIPMENT CO., INC.

¹ (1) Initial Dividend.—It was announced March 9, 1917, that this company had declared an initial quarterly dividend of 1½% on its pfd. stock, payable March 1, 1917.

UNITED VERDE COPPER CO.

¹ (1) Extra Dividend.—Announced Jan. 2, 1917, that this company had declared the regular monthly dividend of 75 cents a share and an extra of 75 cents.

Counting the above, the company has distributed 18 consecutive monthly dividends of 75 cents and in addition has paid in 1916 seven extras of 75 cents each.

—Feb.

¹ (1) Extra Dividend.—It was announced Feb. 1, 1917, that this company had paid the regular monthly dividend of 75 cents a share and an extra dividend of 75 cents. Including present payment, the company has distributed 19 consecutive monthly dividends of 75 cents, and in addition eight extra dividends of 75 cents each.

—Mar.

¹ (1) Extra Dividend.—Announced March 1, 1917, that this company had declared the regular monthly dividend of 75 cents and an extra of 75 cents. This makes a total of 20 consecutive monthly dividends of 75 cents and nine extras of 75 cents each.

—Apr.

¹ (1) Extra Dividend.—Announced April 2, 1917, that this company had paid the regular monthly dividend of 75 cents a share and an extra of 75 cents. Including this payment, the company has distributed 21 consecutive monthly dividends of 75 cents and in addition has paid ten extra dividends of 75 cents each.

UNITED VERDE EXTENSION MINING CO.

¹ (1) Smelter and Railroad Extension.—It was announced Dec. 29, 1916, that the directors of this company, after declaring the regular quarterly dividend of 50 cents a share, voted to spend \$2,500,000 in building a smelter and six miles of railroad.

Earnings for the current year are \$5,000,000, against \$2,000,000 paid in dividends.

That the company has been paying as high as \$100,000 a month for freight on its ore shipments was an important factor in the decision to build a smelter. The company has nearly \$3,000,000 in cash in treasury, besides \$2,000,000 in bills receivable for copper sold.

—Feb.

¹ (1) Earnings Statement, as of Dec. 31, 1916, shows gross earnings for the year ended on that date as \$9,961,072; net after taxes, \$6,938,100, and surplus after dividends, \$5,888,100.

¹ (2) Report, Year Ended Dec. 31, 1916, shows that shipments of this company during the year amounted to 80,159 dry tons of ore containing 2,570 ounces of gold, 128,468 ounces of silver and 36,462,972 pounds of copper, or average of 0.032 ounces of gold, 1.62 ounces of silver and 454.1 pounds of copper per dry ton.

It is estimated that there are 1,000,000 tons of 16% ore in sight. During the present high price of copper it will be the policy of the company as far as consistent with good mining to continue production at the maximum capacity. In company with other industries, United Verde Extension is affected by the car shortage and output is governed by available supply of cars.

In addition to claims secured by option, nine claims were purchased during the year and the company's holdings now total 1,200 acres.

¹ (3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$8,228,763.

—Mar.

¹ (1) Operation Facilities Enlarged.—It was stated March 6, 1917, that this company had enlarged its operations so that normal monthly production of copper may be placed at between 3,000,000 and 3,500,000 pounds. In 1916 it cost this company 8.4 cents a pound to produce its copper, notwithstanding

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

that it shipped its product to custom smelters for treatment.

As the Extension ores go to several smelters for treatment it is probable that the copper finds its way to market through various channels rather than through a single selling agent.

*(2) **Production Rate Increased.**—It was announced March 6, 1917, that this company had increased its operations so that normal monthly production of copper may be placed at between 3,000,000 and 3,500,000 pounds. This company's cost of producing copper in 1916 was 6.4 cents per pound, notwithstanding the fact that it shipped its product to custom smelters for treatment.

*(3) **Denial by President.**—Concerning the report that surface rights of the Jerome Verde Copper Co., had been taken over by this company, Pres. Whitcher, of the latter company, was quoted March 16, 1917, as saying: "Nothing of the kind has taken place. We are going to build a wagon road over the Jerome Verde property which will benefit them as much as it will us, but that is as far as we are going. A working agreement between our company and the Jerome Verde has been in force for some time, and the Jerome has done some development work through our shaft."

Regarding reports of recent "big strikes" in the Verde district, Mr. Whitcher intimated that the success of certain properties in that district had fired the imagination of owners of "prospects." "Every time they get a haul of what looks like good ore they conclude they've made a big strike," he remarked.

*(4) **New Smelter.**—It was announced March 19, 1917, that this company had made an appropriation of \$2,500,000 for the erection and equipment of a smelter to be ready for operation early in 1918. No new financing will be necessary, as the company's treasury has ample funds to care for carrying out the plan.

From its first year as an operating property Verde Extension closed 1916 with a surplus of \$6,000,000, a large part of which was cash. Despite the fact that it was dependent upon custom smelters to handle its product, the company was able to make its copper at an average price of less than 6½ cents a pound.

The proposed smelter will have a nominal capacity of 1,000 tons of ore a day. Its equipment will consist of two reverberatories and two blast furnaces, but the management plans to have only one of each in operation at a time, the others being held in reserve.

—Apr.

*(1) **Extra Dividend.**—Announced April 4, 1917, that this company had declared a quarterly dividend of 50 cents a share and an extra of 25 cents, both payable May 1 to stock of record April 16.

*(2) **New Outlet.**—See Arizona Extension R. R.—Item No. 1.

UNITED WATER, GAS & ELECTRIC CO.

*(1) **Stock Sale.**—It was announced Jan. 15, 1917, that this company, of Hutchinson, Kansas, had sold to Henry Doherty & Co. and Hornblower & Weeks \$350,000 6% pfd. stock.

Earnings of the company are more than five times the dividend requirements on this stock. The sale completes the refinancing of the company, which in 1916 sold \$991,000 of first and refunding bonds and retired three underlying bond issues.

*(2) **Bonds Sold.**—Announced Jan. 19, 1917, by Hornblower & Weeks that the entire issue of this company's \$972,000 5% first and refunding bonds had been sold.

UNITED WESTERN OIL CO.

*(1) **Deal.**—It was stated Feb. 6, 1917, that this company, which had passed to the control of New York interests af-

filiated with the Ohio Oil Co., had secured 40,000 acres in the new Kansas oil fields. The company also acquired 220 acres of proven land adjoining the Merritt Oil Co. in the Big Muddy field.

It is thought that these developments portend a merger of many of the low priced oil companies under the head of the United Western Oil Co.

—Mar.

*(1) **New Well.**—It was stated March 7, 1917, that this company had brought in a new 100-barrel well on its Southern California property.

*(2) **Sale Planned.**—It was reported March 12, 1917, that a large Western oil producer had offered to take over this company at a figure slightly above market prices for its stock, representing a valuation in excess of \$500,000 for the property.

UNITED ZINC SMELTING CORP.

*(1) **Production at Capacity.**—On March 12, 1917, it was stated this company had announced that it is producing spelter and lead to capacity, now that the severe weather is past. The company reports an urgent demand for spelter, especially of the higher grade, which sells at 15 cents a pound and over, and of which half its production is constituted. It is also stated that the new smelter and acid plant will be completed and in operation about May 1.

This plant is situated at Moundsville, W. Va., and is most complete in every particular. It will increase spelter capacity to 60,000,000 pounds annually, and add materially to earning capacity through production of sulphuric acid as a by-product. This plant will have been paid for entirely out of earnings of the first year's operations.

UNIT MANUFACTURING CO., BOSTON, MASS.

*(1) **Incorporated** on Feb. 26, 1917, in Massachusetts, with a capital of \$600,000, 120,000 shares of \$5 each, to deal in autos. Directors: Fred. E. Crawford, Pres.; Howard D. Moore, 43 Tremont St., Boston, Treas., and L. W. Peters.

UNIVERSAL BLOCK SURFACING MACHINE CORP.

*(1) **Incorporated** on Feb. 21, 1917, in New York, with a capital of \$250,000, to manufacture resurfacing machines, foundry and factory supplies. Incorporators: A. S. Kirschenbaum, R. Gutchen and A. J. Marx, 198 Broadway, New York.

UNIVERSAL BY-PRODUCTS CO., SEATTLE, WASH.

*(1) **Incorporated** on Feb. 20, 1917, in Washington, with a capital of \$2,000,000. Incorporators: Roy H. Kirsch, C. R. Lawrence, Norman Lawrence, Chas. Lawrence and Robert L. Winborn.

UNIVERSAL CAN CORP.

*(1) **Incorporated** on Jan. 23, 1917, in Delaware, with a capital of \$1,500,000, to manufacture cans and boxes. Incorporators: F. B. Buck, Geo. W. Dillman and M. L. Harty, Wilmington, Del.

UNIVERSAL CONVEYING MACHINERY CORP.

*(1) **Incorporated** on Jan. 27, 1917, in New York, with a capital of \$1,500,000, to deal in conveying machinery, engines, ship-loaders and unloaders. Incorporators: L. B. Case, A. F. Upson and P. Crichton, 120 Broadway, New York.

UNIVERSAL FILM CO.

*(1) **New Company Planned.**—A Chicago dispatch Jan. 7, 1917, said: "Plans for a \$12,000,000 'movie' film corporation are under way. The new concern will be known as the Universal Film Co. and will be the result of consolidation by Carl Laemmle and Patrick Powers, who have fought a long feud in the motion picture business. Laemmle is to be Pres. of the new concern."

UNIVERSAL FILM MANUFACTURING CO.

*(1) **Favorable Decision in Patent Suit.**—In a decision handed down on April 9, 1917, the United States Supreme Court affirmed a decision of the Federal Court in New York holding that this company and other defendants had not infringed patents owned by the Motion Picture Patent Co. on apparatus for projecting of motion pictures.

The Motion Picture Patents Co. licensed the machines to be built, but alleged that the defendant made use of the machines which was contrary to certain restrictions placed on the notice contained on the plate attached to the apparatus.

UNIVERSAL MULTIPLANES, INC., SEATTLE, WASH.

*(1) **Incorporated** on Jan. 2, 1917, in Washington, with a capital of \$1,000,000. Incorporators: Henry and Lilly Disney and Wm. Bray.

UNIVERSAL RIFLE TRAINING CORP.

*(1) **Incorporated** on March 30, 1917, in Delaware, with a capital of \$1,000,000 to manufacture shooting practice attachments for use in connection with firearms. Incorporators: S. B. Howard, L. H. Gunther and A. W. Britton, all of New York.

UNIVERSAL VALVELESS CYCLE MOTOR CO.

*(1) **New Factory.**—It was announced Jan. 18, 1917, that this company, which builds engines at Toledo, O., had leased a 40-acre tract at Muskegon, Mich., and would build thereon a new factory.

UPPER ARLINGTON CO. (THE), COLUMBUS, O.

*(1) **Incorporated** on March 12, 1917, in Ohio, with a capital of \$1,600,000, to deal in real estate. Incorporators: King G. Thompson, Ben S. Thompson, D. C. Huddleson, E. G. Brown and Eugene C. Cushing.

UPSON CO. (THE), LOCKPORT, N. Y.

*(1) **Capital Stock Increased.**—On March 29 the company filed notice at Albany, N. Y., of an increase in capital stock from \$100,000 to \$1,000,000.

UPSON NUT CO., CLEVELAND, O.

*(1) **Capital Reduced.**—On Feb. 2, 1917, the company filed notice at Columbus, O., of a reduction in capital stock from \$8,200,000 to \$5,000,000.

URBAN SPIRAGRAPHER CORP.

*(1) **Incorporated** on Feb. 5, 1917, in New York, with a capital of \$1,000,000, to deal in motion picture machines and devices. Incorporators: E. D. Tolles, H. E. Nardin and H. A. Helser, 68 Broadway, New York.

U. S. & CENTRAL AMERICAN COMMERCIAL IMPROVEMENT CO., INC.

*(1) **Incorporated** on April 13, 1917, in Delaware, with a capital of \$250,000, to act as agents for commercial and industrial enterprises. Incorporators: S. B. Howard, L. H. Gunther and H. B. Davis, Wilmington, Del.

U. S. TOY CO., NEWARK, N. J.

*(1) **Incorporated** on April 18, 1917, in New Jersey, with a capital of \$250,000, to manufacture and deal in toys, ornaments, etc. Incorporators: Geo. W. Spurgeon, New York; Fred Engelke, Woodbridge, and Allen W. Shaw, Riverside, Conn.

USSING, POOLE & SIMMONS, INC., MILLBROOK, N. Y.

*(1) **Capital Increased.**—On Feb. 23, 1917, the company filed notice at Albany, N. Y., of an increase in shares from 40 to 25,000 and in working capital from \$500 to \$1,125,000.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

—Mar.

¹(1) Successor Company.—See White & Co., New York.—Item No. 1.

UTAH APEX MINING CO.

¹(1) Report, Six Months Ended Nov. 30, 1916, shows: Gross receipts, \$636,059; expenses, \$339,866; development, \$151,825; net earnings, \$133,394.

—Mar.

¹(1) Mine to Be Closed as Result of Fire.—According to reports received on March 29, 1917, flooding the workings in an effort to extinguish the fire raging in the Utah-Apex mine had been started.

Turning in the water means that the mine will be closed down several weeks, entailing a loss of many thousands of dollars. The company will lose not only from the damage the fire will do to the timbering of tunnels and shafts, but will suffer heavily from the cessation of work at a time when its product is bringing an unusually high price.

Except for a gang retained to attempt salvage of hoists, pumps and other machinery in the path of the flames, the entire crew of some 500 men has been laid off and the men are receiving their pay checks.

—Apr.

¹(1) Report on Property.—On April 9, 1917, the "Boston News Bureau" quoted in part from Pope Yeatman's report from examination of the property: "Geological conditions are decidedly complicated. The main ore bodies occurring mainly in three beds known as the York, the Parnell Limestone and the Parvenu Limestone. The Parnell beds have been pretty thoroughly prospected and there is little chance for further development except above the 200 level. Further development on the York bed is to be carried on and shows promise of further ore at depth."

"At present the principal ore body of the Parvenu has about 50,000 tons of ore above the 13th level and estimated to carry 14% lead and 14% zinc. This ore body seems to terminate close to the 1500 level."

"I consider your management and organization at the mine very much above the average; in fact, excellent, and I believe that under the circumstances the work has been carried on with intelligence and economy. The crux of the whole matter lies in the ore situation, and you must realize that over a very large area the favorable limestone beds have been worked out; that at best such deposits in limestone are to say the least erratic; and that your hope lies in a vigorous and energetic course of development to open up new ore."

UTAH CENTRAL R. R. CO.

¹(1) Stricken from List.—See Denver & Rio Grande R. R. Co.—Item No. 1.

UTAH CONDENSED MILK CO.

¹(1) Extensions.—This company, of Richmond, Utah, will spend \$750,000 in the erection of five plants in various parts of the Sacramento Valley, it was announced Jan. 1, 1917.

In addition to the condensery secured at Galt by J. M. Henderson, Jr., Pres. of the Sacramento Bank, a condensery probably will be established at Nicolaus, Sutter County, and a skimming and assembling plant at Elkhorn, Yolo County.

The company has two other sites under consideration, but they will not be announced until some time in the future.

• UTAH CONSOLIDATED MINING CO.

¹(1) Operations.—It was stated Feb. 17, 1917, that this company is producing at the rate of 2,000,000 pounds of lead monthly. The cost of lead production is not over 4 cents per pound, so that there is a theoretical profit of 5 cents per pound on sales made at the 9-cent level, or \$100,000 per month. On this basis the company is earning \$1 per share every quarter from lead operations alone.

It is the expectation of the company's officials that 1917 will show an average monthly production of 1,000,000 pounds of copper.

—Mar.

¹(1) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross	\$4,359,724	\$2,167,494
Net after taxes	1,924,177	1,128,122
Surp. after chgs. & divs.	738,427	415,928

¹(2) Earnings on Stock.—It was stated March 14, 1917, that this company's 1916 net after taxes of \$1,924,177 is equal to \$6.41 a share on 300,000 shares of capital stock outstanding, compared with \$3.76 a share earned in 1915.

¹(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,867,842, compared with \$1,129,415 Dec. 31, 1915.

¹(4) Comment on 1916 Report.—On March 16, 1917, the "Boston News Bureau," in commenting on the 1916 report of this company, said: "Utah Consolidated continues to surprise its stockholders. Notwithstanding each succeeding annual report would seem to point to the early exhaustion of ore reserves, the mine comes forward serenely the following twelve months with a very respectable output of copper, lead, silver and gold."

"Notwithstanding the presumption that the small amount of ore 'in sight' at the close of 1911 indicated the early exhaustion of profitable ore bodies, Utah Consolidated has managed to show net profits in the five following years of \$4,858,357, or better than \$16 per share on 300,000 shares of stock, only \$10.75 per share of which was paid out in dividends."

"The annual report just issued covering the operations for 1916, which by the way showed the largest net return since the copper days of 1906, states that at the close of the year there were only 180,000 tons of copper ore in sight and 23,400 tons of lead ore."

"It will be almost a miracle if the management is able during 1917 to maintain the splendid record of the past six years in the finding of new ore bodies or extension of old. But perhaps the stockholders have no more reason to be alarmed than they were six years ago."

¹(5) Report, Year Ended Dec. 31, 1916, shows a net profit of \$1,924,177, an increase of \$796,035 over 1915. Net profits are equal to \$6.41 a share on 300,000 shares of capital stock outstanding, compared with \$3.76 a share earned in 1915.

• UTAH COPPER CO.

¹(1) Expansion Plans.—On Jan. 2, 1917, it was stated that in connection with the expansion plans of this company the question of electrifying the company's Bingham & Garfield Ry. is being seriously considered. If the proposition is carried out the capital stock of the road, which is all owned by Utah Copper, will probably be increased from \$8,000,000 to \$10,000,000.

Estimates have been prepared by electrical manufacturing companies as to the cost of converting the road from steam to electricity, with estimates of the saving in the latter method of operation as against steam. Difficulty in securing early deliveries of materials and electrical machinery is such that electrification is not likely to begin immediately, but plans are to be made ready to begin work when it can be carried right through to completion without delay.

¹(2) Production, November, 1916.—Announced Jan. 3, 1917, that this company produced in November 16,421,192 lbs. of copper, compared with 20,325,520 in October, and 20,462,256 in September.

¹(3) Suspension Owing to Cold.—A Salt Lake City dispatch Jan. 8, 1917, stated that work had been suspended on this company's new leaching plant owing to extreme cold weather. Gen. Mgr. Gemmell said the plant will be completed by

the time machinery is delivered from the East. Utah Copper is handling 20,000 tons of ore daily. December production of less than 15,000,000 pounds was the smallest during 1916.

¹(4) Merger Discussion.—On Jan. 18, 1917, the "Boston News Bureau" said it is understood that all the differences which arose as to the executive management of the proposed merger of the Utah and Kennecott companies had been settled.

While the Morgan and Guggenheim interests, which dominate the Kennecott Corp., were favorable to the merger on the 2.2-shares-for-1 basis and might be able to secure sufficient proxies to put the merger through, it cannot be denied that opposition to any such plan has developed among some Utah Copper shareholders.

These shareholders believe that they are part owners in the world's greatest copper mine and do not take kindly to any scheme which links up its fortunes with those of any other mining undertaking.

As Kennecott owns in its treasury 404,000 shares of Utah Copper, and as the Guggenheims individually are believed to represent a total of at least 200,000 shares more, there is in the combined total a formidable aggregate of 600,000 shares, or almost 40% of Utah Copper's 1,600,000 shares.

The Guggenheims are believed to have been large buyers of Utah Copper. Whether this is being done to facilitate the merger is not known.

Utah Copper produced in 1916 190,000,000 pounds of copper. On this output the company must have cleared up no less than \$33,000,000. Including its 51% equity in Nevada Consolidated, Utah Copper's profits easily totalled \$40,000,000, or \$25 per share.

A prominent director stated that since the adverse decision of the Supreme Court in the Minerals Separation litigation whereby the copper companies which had not taken out licenses are prohibited from using less than 1% of oil in flotation process, Utah Copper had been making some extraordinary recoveries in use of a fraction over 1% of oil. Anything over 1% does not fall within the prohibitions of the patent.

¹(5) Production, December, 1916.—Announced Jan. 24, 1917, that this company's output for December totalled 13,976,533 lbs.

¹(6) Capital of Railroad Increased.—See Bingham & Garfield R. R. Co.—Item No. 3.

—Feb.

¹(1) Production, December, 1916.—Announced Jan. 31, 1917, that this company produced in December 13,976,533 pounds of copper, compared with 16,421,192 in November, and 20,325,520 in October, 1916.

¹(2) Merger Discussion Ended.—On Feb. 6, 1917, it was stated that any negotiations that had been in progress looking toward a merger of this company and the Kennecott Copper Corp. were no longer being discussed or followed up.

¹(3) Report, 1916.—It was announced at Salt Lake City, Utah, Feb. 7, 1917, that in a report filed with the Utah Board of Equalization this company placed its net earnings for 1916 at \$31,543,996. The 1917 production the report says, is valued at \$50,189,599. The production by metals was 46,241 fine ounces in gold, 511,771 fine ounces in silver, 275,155 pounds of lead, and 196,956,337 pounds of copper.

The expenses given are \$18,345,603. Mining expense was \$2,233,572, development expense \$37,993, and stripping \$1,999,033. Cost of construction and repairs was given as follows: Magma mill, \$120,438; Arthur mill, \$535,390; mines plant, \$211,850, and leaching plant \$300,467.

¹(4) Report, Quarter Ended Dec. 31, 1916, compares with same quarter in 1915 as follows:

	1916	1915
Net profit	\$8,503,926	\$5,771,252
Surp. after divs.	4,965,353	4,482,468

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Earnings for the fourth quarter are on the basis of 26.487 cents per pound for copper, against 25.364 cents, 26.758 cents, and 26.131 cents for the third, second and first quarters, respectively.

(5) Statement by President.—It was announced Feb. 10, 1917, that Pres. C. M. MacNeill, of this company, in his remarks to stockholders, pointed out that gross production for 1916 was 198,752,631 pounds, compared with 156,207,376 in 1915. He added:

"Total quantity of ore milled during quarter was 2,846,600 tons, being 557,700 tons less than preceding quarter when 3,404,300 tons were milled. Daily average of ore treated for fourth quarter was 30,941 tons. Average assay of ore was 1.4742% copper, compared with 1.4484% for third quarter, and average extraction was 60.44%.

"This low extraction was due partly to the fact that ore treated contained some copper in the form of carbonates, but principally to the unusually large tonnage milled, coupled with irregular ore supply and intermittent operations occasioned by extremely bad weather and by alterations that are in progress in three sections of the Arthur plant and one section at Magma for the purpose of increasing mill capacity.

"Throughout the last three weeks of November and all December the weather was cold with frequent snowstorms and during the last ten days of December this part of the country experienced the coldest weather, heaviest snowstorms and fiercest blizzards recorded in the last thirty-two years. This necessitated the suspension of operations entirely at the Arthur plant for two days and rendered them so difficult that an average of only 11,600 tons per day was milled at both plants in the last week of December, although every possible effort was made to increase tonnage.

"The average cost per pound of net copper produced during the quarter, after making allowance for smelter deductions and crediting miscellaneous income, including Bingham & Garfield earnings, was 7.498 cents."

(6) Earnings, Year Ended Dec. 31, 1916, as compiled from the four quarterly reports, compare with the actual figures of 1915 as follows:

	1916	1915
Net profit.....	\$33,649,650	\$15,023,834
Surp. after chgs.	39,738,674	17,366,747
Bal. after divs.	20,244,704	10,462,666

(7) Earnings on Stock.—It was stated Feb. 12, 1917, that this company's surplus of \$39,738,674, before dividends, is equal to \$24.40 a share on the 1,624,490 shares outstanding, compared with \$10.69 a share in 1915.

(8) Comment on Annual Report.—On Feb. 13, 1917, the "Wall Street Journal" said: "The excellent report of the Utah Copper Co. went almost unnoticed in the week-end market. Earnings for 1916 were \$39,000,000, compared with \$17,000,000 in 1915. The Utah Copper Co. received an average of 26.487 cents a pound for its copper in the fourth quarter of the year. The 30-cent copper is merged with the 24-cent copper in this average.

"The important thing to remember is that the average price for the first quarter of 1917 will be higher than ever. It should be above 27 cents a pound, or one-half cent a pound greater than the best previous quarter. On a production of 50,000,000 pounds a quarter a difference of ½-cent a pound makes a difference of \$250,000 in earnings.

"The average price for the second quarter of 1917 should also be about 27 cents a pound. For a full six months, therefore, Utah Copper can expect record earnings. Estimates of earnings for the full year of 1917 run to \$48,000,000."

(9) Tonnage Increased.—A Salt Lake City, Utah, dispatch Feb. 21, 1917, stated that this company had increased its tonnage nearly 50% over the low normal that existed during the latter part of November, through December and well into January.

More favorable weather conditions had made it possible to bring the daily tonnage up to 29,000 tons. Sixteen of the 22 big steam shovels are operating on the porphyry mountain in Bingham. It was roughly estimated that the January production would be somewhere near 13,500,000 pounds of copper.

—Mar.

(1) Extra Dividend.—Announced March 1, 1917, that this company had declared a regular quarterly dividend of \$2.50 and an extra of \$1 a share, payable March 31 to stock of record March 9.

(2) Production, January, 1917.—Announced March 3, 1917, that this company in January produced 13,913,511 pounds of copper, compared with 13,976,533 in December and 16,421,192 in November, 1916.

(3) Operations.—On March 19, 1917, the "Boston News Bureau" said: "Upon and Bingham. The transfer settled the consummation of plans during the next fifteen months for enlarging facilities and capacity, most of which have been outlined, Utah Copper from its own mine should be in position to handle 50,000 tons of ore daily and produce therefrom 300,000,000 pounds of copper per annum.

"The past Winter was the worst in the experience of the Utah Co. It was surprising that results were as good as shown. The current month should witness an important come-back in the matter of production from the 14,000,000 pounds turned out in January. April and May are expected to get back to the high water months of July, August, September and October, 1916, with over 20,000,000 pounds to the credit of each."

(4) Sale of Stock.—See Kennecott Copper Corp.—Item No. 4.

(5) Notes.—See Kennecott Copper Corp.—Item No. 5.

(6) February Production.—In February, 1917, this company produced 13,459,829 lbs. of copper, compared with 13,459,829 lbs. in January and 13,976,533 lbs. in December.

—Apr.

(1) Litigation Over Building of Railroad Ended.—A Salt Lake City dispatch April 16, 1917, stated that deeds had been filed transferring 12 claims belonging to Col. E. A. Wall to Utah Copper Co., the consideration being litigation in which damages amounting to \$12,000,000 were demanded for the building of the Bingham & Garfield R. R. over the property. The claims cover 90 acres.

Col. Wall also dropped his suit at Carson City against the Consolidated Coppermines Co., in which he demanded a receiver. The company is now making \$90,000 a month and has begun shipment of 10% copper from the old Giroux shaft.

(2) Report, Year Ended Dec. 31, 1916, shows income account, as follows:

	1916	1915
Gross	\$50,280,073	\$27,155,942
Net incl. oth. inc.	39,738,675	17,920,444

Bal. aft. divs.	19,655,063	10,462,667

(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$43,153,137, compared with \$23,498,074 Dec. 31, 1915.

(4) Earned \$21.09 a Share on Stock in 1916.—This company's 1916 surplus after charges of \$39,148,943 is equivalent to \$24.09 a share earned on 1,624,490 shares of capital stock, compared with \$10.69 a share earned in 1915.

(5) Gross Production in 1916, 196,752,631 Lbs.—The report of this company for 1916 shows gross production of copper in concentrates was 196,752,631 pounds. Shipments of crude ore contained an additional 664,849 pounds. After making smelter deductions net production for the year was 187,531,824 pounds, and the price received 26.139 cents a pound. Net cost of all copper produced during the year was 6.95 cents a pound, as compared with 6.612 cents for the pre-

vious year. The 1916 net cost resulted after deducting miscellaneous income, including that from the Bingham & Garfield Railway Co.'s operations.

(6) President's Comments on 1916 Report.—Pres. C. M. MacNeill, of this company, in his remarks to stockholders in connection with the 1916 report, said, in part: "Had it not been for the large increase particularly in labor cost and the large increase in taxation, the cost per pound would undoubtedly have shown a substantial decrease instead of an increase. No deductions were considered from the cost stated for dividends received on the stock owned in the Nevada Consolidated Copper Co.

"In addition there were produced 47,648 ounces of gold, for which the company received \$20 an ounce, and 461,596 ounces of silver, for which the company received 66.08 cents an ounce. "The total amount of dividends paid during the year was \$19,483,880, or \$12 per share. The usual amount of depreciation of plants and equipment, being a sum equal to 5% of the total cost, was set aside and amounted to \$589,731. This resulted in passing \$19,055,063 to the 'earned surplus' account. The total dividends up to and including dividends paid during the year aggregate \$52,215,777. The outstanding stock of the company remains the same, namely, 1,624,490 shares.

"Surplus from the sale of securities as shown has not been changed during the year. As mentioned in the past, this account should not in any way be confused with the item shown as 'earned surplus.' This 'earned surplus' in part represents the working capital of the company, prepaid stripping and other permanent capital expenditures derived from earnings."

(7) Managing Director's Report, 1916.—Managing Director D. C. Jackling, of this company, in his report for 1916, said, in part: "At the end of 1915 an ore-bearing area of 226 acres had been outlined by underground workings and churn drillings. No attempt was made in 1916 to add to this area, but churn drilling done during the year increased the calculated average thickness of developed and partially developed ore from 480 feet to 524 feet. Taking this into account, revised calculations show that previous to Jan. 1, 1917, there had been developed in the property 424,524,258 tons of ore, averaging 1.415% copper, of which quantity 270,000,000 tons are classed as fully developed and 154,524,258 tons as partially developed.

"Prior to Jan. 1, 1917, there was mined from the entire property a total of 54,678,700 tons of ore, averaging 1.449% copper, and, therefore, the total reserves remaining amount to 369,845,558 tons, averaging 1.41% copper. The year's addition to reported reserves was 34,524,258 tons.

"Accordingly there was developed 23,530,258 tons in excess of the quantity mined during that period. The ore reserves will be increased from time to time whenever churn drilling can be done without interfering with other operations.

"It is estimated that approximately three-fourths of the capping has been removed from the ore body as now developed on the westerly side of Bingham Canyon, and that a total of at least 300,000,000 tons of developed ore yet remains in part of the deposit.

"In reviewing the results of 1916 operations, the outstanding feature is the demonstrated ability of the mills to increase production to the extent of over 25%, as compared to the best previous periods while treating the same grade of ore, and without any additions whatever in grinding and concentrating machinery to what had been in use for several years."

(8) F. A. Schlirmer Resigns as Director.—A Boston dispatch to Dow Jones & Co. April 23, 1917, stated: "In line with his desire to sever official connection with all companies in which he is interested, Frank A. Schlirmer has resigned as a director of Utah Copper Co."

This information, while not guaranteed, is believed to be correct.

STANDARD CORPORATION SERVICE

JANUARY 1 TO APRIL 30, 1917

“(9) Production, March, 1917, 15,512,676 Lbs.—This company, April 27, 1917, announced that it produced 15,512,676 lbs. of copper in March, 1917, compared with 13,459,829 in February, and 13,913,811 in January.

“(10) Closer Relations with Kennecott Forecast by Election of Directors.—Closer relations between the Utah Copper Co. and the Kennecott Copper Corp. were forecast April 27, 1917, said the “New York Times” of that date, by the election of William P. Hamilton, of J. P. Morgan & Co., as a director of the former concern at the annual meeting in Jersey City. Mr. Hamilton is Vice-Pres. and a director of the Kennecott Corp. He succeeded on the Utah board F. A. Schirmer, of Boston, who retired. The Kennecott Corp. in the last two years has acquired nearly 600,000 shares of Utah Copper stock. At the current dividend rate, these shares bring to the Kennecott treasury \$8,400,000 a year, or more than half the dividends now being paid on Kennecott stock.

Stephen Birch, Pres. of Kennecott, was elected a Utah director, and R. C. Gemmell, who is Gen. Mgr. of the Utah properties, was also made a director. Other changes, it was learned, took place in 1916.

Edmund A. and Harry F. Guggenheim and W. C. Potter, of Guggenheim Bros., were elected directors, and Murry and S. R. Guggenheim withdrew, as well as William Loeb, Jr., and Kenneth K. McLaren.

“(11) Kennecott Holds Largest Amount of Stock.—The “New York Times” April 26, 1917, stated that examination of the Utah stock books showed the Kennecott Corp. to be the largest stockholders, with 596,004 shares. Other large owners of record were C. M. MacNeill, Pres. of the company, 30,000 shares; Spencer Penrose, 38,773; Richard A. F. Penrose, Jr., 32,202; Alvin Untermyer, 20,240; Samuel Untermyer, 4,000; Hayden, Stone & Co., 57,561; J. S. Bache & Co., 41,604, and Frederick Edey & Co., 17,370 shares. A block of stock comprising 84,311 shares is held in the name of the Bankers Trust Co. for French investors. Utah Copper shares have been popular in France for years and the exigencies of war have not yet caused their liquidation.

“(12) Shares Represented at Annual Meeting Totalled 1,300,000.—On April 28, 1917, total representation at the Utah meeting approximated 1,300,000 shares, out of about 1,600,000. The holdings of the Allen family, approximating 124,000 shares, were represented by John M. Perry, an attorney.

It is understood that the Allen holdings were opposed to any merger of Kennecott and Utah, such as was contemplated several months previously.

● UTAH-IDAHO SUGAR CO.

“(1) 100% Stock Dividend.—On March 26, 1917, directors declared a 100% stock dividend, payable in common stock.

UTAH METAL & TUNNEL CO.

“(1) Annual Report, Year Ended Dec. 31, 1916, shows a combined income from operations of \$1,535,214. Expenses were \$933,384, leaving an operating profit of \$601,831. Other income was \$18,102, and the net profit after taxes and interest on bonds was \$564,835. From this was deducted \$56,098 for depletion charge.

The output was 1,761,520 pounds of copper, 6,301,670 pounds of lead, 388,757 ounces of silver and 17,934 ounces of gold. Development work produced 6,559 tons of ore. The report says: “During the past year we have completed and paid for a flotation mill, and are adding a ball mill and grinder so that we can treat large quantities of low-grade iron copper ore profitably. Heretofore this grade of ore has been left in the mine because there were no facilities for treating it. We are now enabled to take out all ore found without making selection.”

—Apr.

“(1) Would Give Copper to Government.—Announced on April 9, 1917, that this company did not like the idea of

selling copper to the Government in the present crisis. It proposed to give a specified percentage of its copper and lead product if other producers would consent to do the same.

UTICA, CLINTON & BINGHAMTON R. R.

“(1) Dividend Rate Reduced.—Announced Jan. 26, 1917, that this company had declared a semi-annual dividend of 1½%, payable Feb. 10. Books close Jan. 31 and reopen Feb. 12. In August, 1916, a payment of 2% was made.

UTICA SPINNING CO., INC.,

UTICA, N. Y.

“(1) Capital Increased.—On Feb. 5, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$100,000 to \$300,000.

UTILITIES COAL CO

“(1) New Company Planned.—It was stated April 6, 1917, that this company is being organized by interests identi-

fied with the Eastern Power & Light Corp. and the General Gas & Electric Co. to take over a large operating coal property in West Virginia. The actual transfer of the coal property to the new company was planned for early in April, after which the output of the mines will be available for the use of the subsidiary companies of Eastern Power & Light and General Gas & Electric.

The output of the mines will be sold to the companies at the contract price in effect in October, 1916, before the abnormal coal prices prevailed. The purchased property covers 10,000,000 tons of coal.

UTILITIES SERVICE CORP.

“(1) Exchange of United Utilities Stock for National Properties Bonds Offered.—On April 26, 1917, the “Philadelphia News Bureau” said: “The Utilities Service Corp., which has acquired holdings of the recently organized United National Utilities Co. securities, offers to exchange stocks of that company for National Properties Co. 4-6% bonds, on the basis of \$700 in 6% pfd. and \$350 in common stock of the United National Utilities Co. for \$1,000 bond of the National Properties Co.”

UTILITY TRACTOR CO., INC.

“(1) Incorporated on April 13, 1917, in New York, with a capital of \$1,000,000, to deal in patented motor tractors: Incorporators: J. F. and J. F. Bark, Jr., and J. L. Goodwin, 165 Broadway, New York.

UVADA COPPER CO.

“(1) Stock Offering.—Announcement was made March 10, 1917, of the offering by S. K. Waltsfelder & Co., 25 Broad Street, New York, prior to active trading on the New York Curb, the unsold portion of the 211,782 shares of this company's capital stock at par, \$1.

The company, incorporated in Utah with a capital of \$600,000, has properties near Pioche, Lincoln County, Nev., consisting of 460 acres and comprising 30 contiguous claims known as the Day-Bristol group of mines. These are seven proven properties, said to be producing high-grade silver, copper, lead and zinc. A circular states the company is earning at the rate of 30% per annum on the capitalization and is paying at the rate of 1% a month.

The mining lands are over two miles long from east to west. The main camp is on the Bristol side of the Ely range of mountains. An aerial wire rope tramway, built at a cost of \$50,000, connects the main workings and camp on the Bristol side. Jack Rabbit, the easterly end, is reached by the Pioche Pacific R. R. narrow-gauge, 14 miles long, connecting the property with San Pedro, Los Angeles and Salt Lake R. R. at Pioche.

—Apr.

“(1) Report, Six Months Ended Dec. 31, 1916, shows a total of 8,744 tons of copper and lead shipped, with total net proceeds of \$73,289.

UVALDE OIL CO. (THE).

“(1) Incorporated on Feb. 17, 1917, in Delaware, with a capital of \$250,000, to produce and sell crude petroleum and natural gas. Incorporators: T. S. Hickman, D. A. McMillan and A. B. Douglas, Kansas City, Mo.

VACUUM GAS CO.

“(1) Output Contract.—It was announced at Toronto, Ont., Jan. 4, 1917, that this company contracted for the total output of oil wells under its control in the Thamesville district for the ensuing six months. Rapid progress is reported from the oil fields, where ten additional wells are in readiness to be linked up.

Prospective development has proved that the oil pool, which is the main source of supply for the big wells of the company, extends for a distance of at least two miles, which area, according to conservative estimates, will accommodate 500 wells.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

VACUUM GAS & OIL CO., LTD.

¹(1) Report, as of Jan. 31, 1917, shows cash on hand, \$17,391; due from oil shipped, \$156; due for Government money, \$650; oil ready for shipment, \$385; total, \$18,562.

—Apr.

¹(1) Main Well Has Greatly Increased Flow.—On April 18, 1917, the "Toronto World" said the Thamesville oil pool belonging to this company gave promise of being one of the most productive pools in southwestern Ontario. This company began to ship oil from a few wells in November, 1916, and during the months of January and February and half of the month of March pumping operations were seriously interfered with by the severity of the weather. Notwithstanding this the company has shipped 4,000 barrels of high-grade oil to date.

• VACUUM OIL CO.

¹(1) Additions.—It was stated Jan. 20, 1917, that in order to handle the increase in its business, this company had prepared plans for additional buildings and equipment to the value of \$235,000. The new buildings will include a can manufacturing plant, a box manufacturing factory and a new boiler house. The buildings will cost \$135,000 and \$100,000 will be spent to equip them with machinery and furnishings.

It is planned to have all buildings completed, equipped, and ready for operation by Sept. 1.

—Apr.

¹(1) Extra Dividend.—Announced April 3, 1917, that this company had declared the regular semi-annual dividend of 3% and an extra of 2%, both payable May 15 to stock of record May 1.

¹(2) Report, Year Ended Dec. 31, 1916, shows profits amounting to \$9,221,937, an increase of \$2,360,024 over profits of 1915. These profits are after charging off \$164,831 for insurance reserve, and are equal to \$61.47 a share on 150,000 shares of capital stock, compared with \$45.74 a share earned in the previous year.

¹(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$32,010,543, compared with \$23,988,600 Dec. 31, 1916.

¹(4) Financial Statement.—This company, incorporated under the laws of New York, April 24, 1917, filed with the Massachusetts Secretary of State a statement of its financial condition, dated Dec. 31, 1916, which compares as follows:

	1916	1915

VACUUM PULP PRODUCTS CORP.

¹(1) Capital Increased.—It was announced Feb. 21, 1917, that this company had increased its capital stock from \$100,000 to \$1,000,000.

VALDEZ GOLD & COPPER CO., SEATTLE, WASH.

¹(1) Incorporated on April 14, 1917, in Washington, with a capital of \$1,000,000. Incorporators: John J. Sullivan, Norman E. Coles, Lester E. Gondolfo, Frank C. Rippe and Francis J. Fitzsimmons.

VALDOSTA, MOULTRIE & WESTERN R. R.

¹(1) Sold.—It was announced Jan. 26, 1917, that on Jan. 20, 1917, this com-

pany's road was sold to B. P. Jones (the only bidder) for \$350,000, under order of Judge W. E. Thomas, of the Superior Court, Georgia. Terminal properties in Valdosta and Moultrie and warehouses in Savannah are to be sold Feb. 6. It was stated the terminals are subject to a lien prior to the bond issue and therefore were not sold with the road.

—Mar.

¹(1) New Name.—It was stated March 9, 1917, that this property, which had been purchased by B. P. Jones, is now operated by the Valdosta, Moultrie & Western Ry. Co. W. J. Whitfield, of Valdosta, is Treas.

—Apr.

¹(1) Stock Given to Chamber of Commerce.—It was announced April 2, 1917, that B. P. Jones, Valdosta, Ga., who recently bought this company for \$300,000, had given \$20,000 par value, or 200 shares, of the company's stock to the Valdosta Chamber of Commerce. It was also stated that Mr. Jones, who owned the entire bonded debt of the road before the sale, so that it was transferred to him free of debt, had decided to give the line to his sons, and he asked that three directors be named by the Chamber of Commerce to serve with them in the management. As a result of this request, O. D. Dalton, J. T. Mathias and J. J. Newman had been named and elected directors.

VALDOSTA, MOULTRIE & WESTERN RY. CO.

¹(1) New Company.—See Valdosta, Moultrie & Western R. R.—Item No. 1.

VALLEY MOLD & IRON CO.

¹(1) New Foundry Planned.—It was announced Feb. 20, 1917, that this company, Sharpsville, Pa., had completed plans for erecting an ingot mould foundry at West Middlesex, Pa., to have a daily output of from 75 to 100 moulds. It is planned to have the plant ready for operation by the end of July, 1917.

VALLEY MOLD & IRON CORP., MILLBROOK, N. Y.

¹(1) Incorporated March 2, 1917, in New York, with a capital stock of 20,000 shares, \$100 each; 100,000 shares no par value; working capital, \$2,500,000; to deal in iron, steel, and other metals, coal, oil and petroleum. Incorporators: A. E. Connelly, W. G. Dunnington, Jr., and H. T. Hartwell, 5 Nassau Street, New York.

¹(2) Directors.—It was announced March 22, 1917, that this company, Sharpsville, Pa., recently incorporated with a capital stock of \$2,000,000, would remain in the hands of George H. Boyd and his associates, but the directorate had been increased to seven members. The new directors are: John Sherwin, Pres. First National Bank, Cleveland, O.; Edward R. Tinker, Vice-Pres. Chase National Bank, New York; Henry Lockhart, Jr., Vice-Pres. Goodrich-Lockhart Co., New York. Pres. of the corporation is George H. Boyd; Vice-Pres., Floyd K. Smith; Gen. Mgr., Frank W. Tickner; Gen. Supt., Edward H. Boyd.

¹(3) Status of New Company.—On March 29, 1917, the "Wall Street Journal" had the following: "The Valley Mold & Iron Corp. of New York, which has purchased Valley Mold & Iron Co. of Pennsylvania, will have an issued capital of 100,000 shares, no par value, common stock; \$2,000,000 7% cumulative pfd., and \$4,000,000 2-year 6% gold notes.

"The corporation owns at sharpsville, Pa., the largest ingot mould foundry in the world, with a present capacity of 1,200 tons per day, and is building at Middlesex, Pa., an auxiliary foundry having a capacity of 400 tons per day. It also owns a blast furnace of 12,000 tons monthly capacity.

"The business of the corporation is the casting of ingot moulds and stools direct from Bessemer iron taken in molten form from blast furnaces, being

the only plant producing moulds direct. The moulds so produced are required by steel plants for casting liquid steel into solid ingots for rolling or forging, and their consumption bears a direct relation to the production of steel, inasmuch as about 30 pounds of moulds are required for each ton of steel produced. The Valley Corp. produces about two-thirds of all the merchant moulds used in this country.

"The Valley Company has been in operation for about 25 years, starting with a capacity of 40 tons per day. The present management, which has been connected with the company since its inception, will be continued.

"The new corporation was organized and financed privately by the Goodrich-Lockhart Co. of New York, John Sherwin, president of the First National Bank of Cleveland, and associated interests. Over \$6,000,000 was paid for the old company.

"The directors of the Valley Corporation are as follows: George H. Boyd, Pres., and Floyd K. Smith, Vice-Pres. of the Valley Mold & Iron Corporation; Henry Lockhart, Jr., Vice-Pres. the Goodrich-Lockhart Co.; John Sherwin, Pres. First National Bank of Cleveland; Frank W. Tickner, general manager Valley Mold & Iron Corporation; Edward R. Tinker, Vice-Pres. Chase National Bank, and Edward H. Boyd, superintendent Valley Mold & Iron Corporation. The company will maintain a New York office at No. 60 Broadway."

VALLEY SPRINGS LIME CO.

¹(1) Stock Issue to Buy Land.—It was announced April 6, 1917, that this company had been permitted by California Commissioner of Corporations H. L. Carnahan to sell 74,700 shares at par, \$1 per share, contingent upon securing subscriptions for not less than 50,000 shares, and the payment of \$10,000 on account of the purchase price on or before March 1, 1918.

The proceeds are to be used for the purchase of limestone deposits on 477 acres of land, four and a half miles from Valley Springs, Calaveras County, Cal., the purchase price being \$10,000 in money and 75,000 shares of the company's capital stock, to be issued to J. D. Fish and C. F. Tucker.

VAN BRUNT MANUFACTURING CO., HORICON, WIS.

¹(1) Capital Increased.—The "Iron Age" April 19, 1917, stated that this company, manufacturer of agricultural implements, had increased its capital stock from \$125,000 to \$500,000. F. H. Clausen is Pres. and Gen. Mgr.

VANCOUVER DRYDOCKS, LTD.

¹(1) Bond Issue—Improvements.—On Jan. 5, 1917, it was stated that this company, having been successful in placing a \$2,000,000 debenture issue, would begin construction of a floating drydock on the north shore of Burrard Inlet, opposite Vancouver.

The intention is to build a 16,000-ton multiple pontoon dock, capable of handling the largest vessel entering the harbor.

The promoters plan to have everything in readiness for operation by the end of 1917. The contracts for construction have been let.

JANUARY 1 TO APRIL 30, 1917

² (2) Stricken From List.—It was announced Feb. 13, 1917, that this company's capital stock had been stricken from the list of the New York Stock Exchange.

—Mar.

¹ (1) Report, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross	\$13,330,042	\$11,426,270
Net after taxes	3,003,124	2,290,375
Surp. aft. chgs.		
and divs.	31,662	211,640

² (2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,250,376, compared with \$1,208,043 Dec. 31, 1915.

VANGUILDER DOUBLE WALL CO., INC., ROCHESTER, N. Y.

¹ (1) Incorporated Feb. 23, 1917, in New York, with a capital of \$250,000, to deal in machinery, appliances, cement, concrete and plastic materials. Incorporators: F. Lord, H. V. Walker and W. H. Vanguilder, 77 South Ave., Rochester, N. Y.

VAN NORMAN MACHINE TOOL CO.

¹ (1) Capital Increase.—It was stated Jan. 17, 1917, that this company, Springfield, Mass., had voted to increase its capital from \$400,000 to \$1,000,000.

VAN SWARINGEN CO., SHAKER HEIGHTS, O.

¹ (1) Capital Increased.—On Jan. 4, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$3,500,000 to \$4,200,000.

VAPOR CAR HEATING CO., INC., EDDYVILLE, N. Y.

¹ (1) Incorporated on March 20, 1917, in New York, with a capital of \$3,500,000, to deal in heating, lighting, and ventilating devices. Incorporators: S. B. Howard, W. Gold and O. R. Barnett, 1520 Monadnock Block, Chicago, Ill.

² (2) New Enterprise.—It was stated on March 23, 1917, that application would be made shortly to incorporate this company under the laws of New York, with a capital of \$3,500,000, to consist of 11,000 shares of 7% cumulative pfd. and 24,000 shares of common stock, each with a par value of \$100. This company is to take over the Standard Heat & Ventilation Co., Inc., and the Chicago Car Heating Co. Egbert H. Gold, president of the latter, is to be the head of the new organization.

At a special meeting of the stockholders of the Standard company it was voted to sell to the new corporation all assets excepting those which were liquid and in excess of \$125,000 as of Dec. 31, 1916. In consideration of the Standard shareholders are to receive 6,000 shares of the preferred and 14,000 shares of the common stock of the new company, aggregating \$2,000,000. As this amount represents the Standard company's capitalization, the deal virtually will be an exchange of shares on the basis of par for par.

Under similar arrangements the stockholders of the Chicago concern, it is understood, will receive 5,000 shares of the preferred and 10,000 shares of the common stock of the new company. The stocks of the merging companies are closely held, it is stated, and seldom, if ever, have any been transferred. Both concerns manufacture under patents car heating and ventilation apparatus and their products are used in equipping cars in service on most of the railroad systems throughout this country as well as Canada and Mexico.

VENEZULEAN FIELDS, LTD.

¹ (1) Incorporated on April 2, 1917, in Delaware, with a capital of \$1,000,000, to carry on business of producing and selling crude oil, petroleum and its products. Incorporators: Herbert E. Latzer and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

• VENTURA CONSOLIDATED OIL FIELDS.

¹ (1) Issue of \$1,000,000 Convertible Bonds Planned.—The "Boston News Bu-

reau" on April 19, 1917, said it understood that directors of this company were planning an issue of \$1,000,000 convertible bonds, the proceeds to be used in extinguishing a floating debt of \$250,000, providing for needed expansion in plant equipment and furnishing adequate working capital.

The refinery has a capacity of 3,000 barrels per day. Of this amount the company's own wells are producing 1,700 barrels. The balance of the crude is purchased.

All petroleum products are selling at very high prices, and the company is particularly anxious to expand its lubricating oil department.

Ventura has a local market for all of its product, and is said to be making profits of between \$60,000 and \$75,000 per month, all of which it is turning back into the property.

Ventura has outstanding at present 495,877 shares. Since Jan. 1, 1916, the range in the stock has been from a high of \$13 to a low of \$6 per share.

VENTURA COUNTY POWER CO.

¹ (1) Report, Year Ended Dec. 31, 1916, of this company, operating in Oxnard, Ventura and Santa Paula, Calif., shows net corporate income of \$18,805.

² (2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,012.

VERDIPHONE RECORD CO.

¹ (1) Incorporated on Feb. 22, 1917, in Delaware, with a capital of \$500,000, to manufacture disk records for talking machines. Incorporators: Paul Dillon, Felix A. Chopin, Martin Rubenstein and Herman Gross, St. Louis, Mo.

VERMONT PRODUCTS CO., INC., UTICA, N. Y.

¹ (1) Incorporated on March 10, 1917, in New York, with a capital of \$500,000, to deal in standing timber, lumber lands, lumbering, wood products, paper, chemicals, cements, paints, oils and scientific apparatus. Incorporators: T. H. Ferris, D. F. Strobel and J. M. Richards, Herkimer.

VERNON MINING CO.

¹ (1) Development.—It was stated Jan. 25, 1917, that this company's shaft is being sunk at the 300-ft. level and that 4 ft. of ore, carrying from \$300 to \$500 per ton in copper and silver, had been opened at the 100-ft. level.

VETARTE COTTON CO. OF PERU.

¹ (1) Incorporated on Jan. 29, 1917, in Delaware, with a capital of \$1,000,000, to carry on business of spinning and dealing in and with cotton or other fabrics and substances. Incorporators: L. B. Phillips and J. B. Bailey, Dover, Del.

VICKERS, LTD.

¹ (1) Dividend Maintained at 12½%.—On April 28, 1917, the "New York Times" said that this company, the large steel-producing company of England, is maintaining its pre-war dividend rate

at 12½%, free of tax. The shares of the two leading armament companies, Vickers and Armstrongs, are at a level that before the war would have been considered very low, but the dividends paid by these concerns in good pre-war trade years are higher than the present rates.

VICTOR AMERICAN FUEL CO.

¹ (1) Italian Fuel Contract.—It was announced Jan. 15, 1917, that this company and the Sunnyside Coal Mining Co. had contracted with the Italian Government for 20,000 tons of bituminous coal per month. The contract amounts to \$2,800,000, and calls for delivery at Galveston. The price, at the mines in Southern Colorado, is about \$4 a ton.

VICTOR CEMENT CO.

¹ (1) Capital Decreased.—In December, 1916, the company filed notice at Sacramento, Cal., of a decrease in capital stock from \$4,000,000 to \$400,000.

• VICTORIA COPPER MINING CO.

¹ (1) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Total receipts	\$470,228	\$317,087
Net income	85,330	71,666

The balance sheet, as of Dec. 31, 1916, shows cash in banks of \$28,161 and total assets and liabilities of \$227,917.

The company produced in 1916 1,661,832 pounds of copper.

VICTORIA COTTON MILLS.

¹ (1) Capital Increase.—In December, 1916, this company, Rock Hill, S. C., filed notice in that State of an increase in capital from \$200,000 to \$250,000.

VICTOR TALKING MACHINE CO.

¹ (1) Business at Highest Mark.—On Jan. 19, 1917, the "Philadelphia News Bureau" said that some disappointment was expressed at the failure of the company to declare an extra dividend to be paid at the same time as the regular quarterly dividend of 5%. It is believed that this is due to the fact that the company lately laid in heavy supplies of materials in anticipation of an advancing market.

The company's business is at the highest point ever reached, with prospects of a still larger gross business for years to come. The plant is able to satisfy less than 50% of the present demand for machines and records, while it is almost impossible to get the new "Tungs-tone" needles. Contractors are working night and day on the additions to the plant of the company in Camden. In spite of this condition the company has recently inaugurated an educational campaign in schools, which is bringing excellent returns.

The strong financial position of the company is reflected in the undivided profits, which are understood to be well above \$15,000,000. The capital stock

JANUARY 1 TO APRIL 30, 1917

outstanding is \$5,000,900. All patents, territorial rights, etc., are carried on the books at \$1. The copper matrices used in making the records are also carried at \$1, although the value of the copper metal alone is in the neighborhood of \$1,000,000. The depreciation charged off on plant is 25% annually, so that all of the plant, which is over four years old, has been charged off.

Dividends paid in 1916 totaled 80%—20% regular and 60% extra. Recent sales were made at \$1,000. This represents a return of over 7½%. In 1911 the common stock was increased from \$1,200,000 to \$4,999,000, this being at the rate of more than three shares for one. The possibility of another such distribution is indicated by the constantly increasing profits of the company, which for the year 1916 are estimated by an authority usually well informed on Victor affairs at well over 100% on the common stock.

—Apr.

*(1) Unfavorable Court Decision.—On April 9, 1917, the United States Supreme Court pronounced unlawful the "limited license" plan under which Victor Talking Machine Co. and many other products are distributed. The suit was brought by the Victor Co. against the Macy Department Store, of New York.

The court held that patent grants for machines give others the right to use them, subject to the patent right, with "any appropriate material or supplies." This overturns the court's decisions in the Dick Mimeograph case.

The court did not decide legality of the Victor plan of limiting distribution solely through "licensed" dealers. Justices McKenna, Holmes, and Van Devanter dissented from the decisions in the Victor case. The Victor license plan was held to be mere price fixing "which would work injustice" to the purchasing public and designed to avoid the court's previous decisions.

VIDALIA OIL-MILLS.

*(1) Merger.—See Henderson Oil Mill Co.—Item No. 1.

VIGO STEAMSHIP CO., WILMINGTON, DEL.

*(1) Incorporated in March, 1917, in Delaware, with a capital of \$300,000, to build and operate steamships.

VILLAGE INVESTING CO., INC. BRONXVILLE, N. Y.

*(1) Capital Increased.—On Dec. 30, 1916, the company filed notice at Albany, N. Y., of an increase in capital stock from \$300,000 to \$1,250,000.

* VIRGINIA-CAROLINA CHEMICAL CO.

*(1) Comment on Dividend.—In commenting on the resumption of dividends on this company's common stock, the "Boston News Bureau," Jan. 2, 1917, said that the 75-cent declaration is labelled simply "a dividend," but it corresponds to the quarterly rate which was in effect up to 1913, and presumably means a \$3 annual basis.

Virginia-Carolina has wisely taken its time about reinstating the common stock in the dividend ranks. In the past three fiscal years, during which nothing has been paid on the common stock, working capital has increased from \$20,000,000 to \$27,500,000, or about 37%.

While this is a substantial gain, the company does not get the full benefit, inasmuch as the materially higher prices for the raw materials used by the cotton oil department nullify a part of the increase.

Virginia turned back into the business in the three years during which no common dividends were paid an amount equal to 21.3% on the common stock. Last year 10.4% was earned on the junior issue, compared with 7½% in the previous year, despite a reduction in tonnage sold. High prices for sulphuric acid and ammoniates and the

almost prohibitive price of potash naturally compelled commensurate prices for fertilizers.

During the present fiscal year, however, there has been still further recovery in the cotton belt from the prostration following the war, and the company should benefit correspondingly from the easier finances of its farmer customers.

—Mar.

*(1) Dividends.—Announced March 22, 1917, that this company had declared the regular quarterly dividend of 2% on the pfd. stock and a dividend of 75 cents a share on the common. The pfd. dividend is payable April 16 to stock of record March 31, and the common May 1 to stock of record April 14. Books do not close.

VIRGINIA-CAROLINA LUMBER VULCANIZING CORP.

*(1) New Name.—See Virginia Lumber Vulcanizing Corp.—Item No. 1.

VIRGINIA DARE MINING CO.

*(1) Incorporated on March 23, 1917, in Delaware, with a capital of \$1,000,000, to do a general mining business. Incorporators: S. W. Warrington, E. M. Hall and Chas. N. Riker, Washington, D. C.

* VIRGINIA IRON, COAL & COKE CO.

*(1) Price Advance.—Reported on March 27, 1917, that the company had again advanced the price of No. 2 foundry pig iron \$1 per ton to \$34 per ton at furnace for shipment over the first half of 1918. This is a total advance of \$2 per ton in the last few weeks for such delivery. The company also advanced the price of No. 2 foundry \$2 per ton to \$38 for shipment over the last half of this year for the small tonnage still unsold. Total sales by this interest are now between 40,000 and 50,000 tons for 1918 shipment, at \$31 to \$33 per ton at the furnace.

VIRGINIA LUMBER VULCANIZING CORP., NORFOLK, VA.

*(1) Change in Name.—Capital increased.—Announced at Richmond, Va., Jan. 23, 1917, that this company had filed notice of change in name to the Virginia-Carolina Lumber Vulcanizing Corp., and increasing its maximum capital stock from \$300,000 to \$600,000.

VIRGINIA NAVIGATION COAL CO.

*(1) Coal Briquet Plant.—It was announced Jan. 17, 1917, that all contracts had been awarded for the coal briquet plant to be built at Norfolk by the Virginia Navigation Coal Co., recently incorporated with \$500,000 capital, the investment to be \$425,000 for buildings and machinery.

The briquet plant proper will have a capacity of 40 long tons per hour of 16-ounce briquets. The buildings are designed for the machinery to double this capacity.

VIRGINIA ORES CORP.

*(1) Incorporated in April, 1917, in Virginia, with a capital of \$750,000, to develop 800 acres manganese land in Campbell County, and to have a daily output of 100 to 200 tons. Incorporators: L. C. Tetard, Pres., 44 Cedar Street, New York; R. H. Blevins, Vice-Pres., and R. O. Brannan, Lynchburg, Va., Sec'y-Treas.

*(2) New Company Orders Equipment.—It was announced April 11, 1917, that machinery equipment for a daily output of from 100 to 200 tons of manganese had been ordered by this company, incorporated with \$750,000 capital.

VIRGINIAN POTTERIES CO.

*(1) New Company Organized.—It was announced March 16, 1917, that porcelain electrical insulators for high and low tension tubes, knobs, cleats, etc., would be manufactured at South Charleston, W. Va., by this company, Charleston,

W. Va., incorporated with \$300,000 capital stock.

The initial investment will be \$25,000 for buildings, with accompanying construction, and \$75,000 for mechanical equipment and kilns. Three units of four kilns each are planned, beginning with one unit and then adding the others. A 1½-acre floor site will be utilized, and the buildings will include machine shop, warehouse, etc., of brick and steel fireproof construction, with concrete floors. Officers have been elected as follows: Herbert Frankenberg, Pres.; W. A. Abblitt, Vice-Pres.; F. S. Rodes, Secy-Treas., and C. V. Rodes, gen. mgr.

*(2) Comment on Earnings.—On Jan. 3, 1917, the "Wall Street Journal" said that at the present rate of improving earnings it would not be surprising if this company increased its pfd. A dividend rate to 5% during the first half of 1917. The initial dividend of 1% for the quarter was declared Dec. 28, payable Jan. 29 to stock of record Jan. 5.

Gross earnings for the calendar year 1916, 11 months actual and December partly estimated, are approximately \$37,750,000, and the surplus over all charges about \$5,370,000. The latter is equivalent to 5% on the pfd. A, 5% on the pfd. B and 1½% on the \$43,540,000 common stock.

The company's business during its first full fiscal year after reorganization exceeds by nearly \$3,000,000 the estimates put forth by the reorganization managers at the time the plan of reorganization was promulgated and the basis of operating costs is approximately 5% below their estimates.

The results for the year therefore are far ahead of the expectations of the company's reorganizers and by the same token a tribute to the soundness of the reorganization which was predicated not on what the company might be able to do in good years, but on a capitalization cut to the cloth of minimum earnings during possible adverse years.

Another development which can be expected in the near future is the creation of a large first and refunding mortgage to care for future maturities and provide for financing future improvements and betterments.

At present the company is in a comfortable cash position and there is no need for doing any financing inasmuch as the new capital raised in the reorganization has not yet been exhausted. Provision for these future financial requirements are, however, under discussion and undoubtedly will be followed by action.

*(2) Dividend Discussion.—On March 27, 1917, the "Wall Street Journal" said that directors would meet for dividend action the following day and it was expected that the regular quarterly dividend of 1% on the pfd. A stock would be declared.

Rumors have been in circulation that the pfd. A dividend rate would at this meeting be increased to 5% per annum, the full rate to which the stock is entitled, but in well informed quarters it is stated that nothing is likely to be done in this respect at the present time.

Such action before the close of the Summer would however occasion no surprise inasmuch as earnings last year furnished full justification for such action, and although results since the first of this calendar year have been more or less unsatisfactory, this condition is believed to be temporary.

In January the company reported a deficit of approximately \$30,000 after deduction of fixed charges. This showing was caused, however, by severe operating weather and particularly the freezing of the Detroit River which made it impossible to ferry cars across. This in effect cut the Wabash line in half, a severe handicap, in addition to all the other existing operating problems pressing in that month.

February earnings are expected to show a slight improvement over January, with a surplus of about \$25,000; while March is expected to show up very much better. Earnings have now begun to show more encouraging levels, while the severe traffic congestion of the initial months of the year has been largely cleared up. In three weeks of March gross increased \$125,000.

	1917	1916
February gross.....	\$2,718,334	\$2,833,995
Net after taxes.....	601,501	864,795
2 mos. gross.....	5,631,173	5,693,279
Net after taxes.....	1,296,070	1,652,255

*(4) Earnings Discussion.—On March 30, 1917, the "Wall Street Journal" said that the initial two months of the calendar year had not been particularly propitious for this company, although officials state that the peak of the company's difficulties has been passed. Bad weather, freezing of the Detroit River, which prevented ferrying of cars and which practically cut the system in half, freight congestion and car shortage all contributed to lower gross and lower net than was shown in 1916.

Gross was nevertheless only \$60,000 under the same period of last year, but on account of the extraordinary conditions which made for higher costs of operation, net income after expenses and taxes decrease \$370,000. The two months' net available for fixed charges was \$1,281,000, a decrease of \$339,000, which was \$20,413 short of interest, rentals, etc., making a deficit of that amount against a surplus of \$511,000 in the same two months of last year.

The disadvantageous operating conditions, coupled with the additional burdens imposed by the Adamson Law, caused an advance of 2% of gross in the cost of moving the company's traffic. Maintenance expenditures this year were at last year's level.

The most serious increase in expenses, however, is found in the debit charge for hire of equipment. In the first two months of 1916 this charge was only \$236,000. This year it totaled \$417,000, an increase of nearly 80%. But for this additional burden this year, it would have been possible for the company to have reported a surplus of \$160,000 instead of the deficit shown.

The company's car supply situation is now improving. So are general operating conditions. March is expected to be a considerably better month. Gross for three weeks increased \$120,000 and officials expect to show a surplus of between \$300,000 and \$350,000 over all charges for the third month of the year. In April operating conditions will be back to normal, although the application of the Adamson Law will increase the company's payrolls about \$500,000 per annum.

WABASH REFINING CO.

(1) Incorporated in January, 1917, in Oklahoma, with a capital of \$500,000. Incorporators: J. W. McNeal, C. E. King and D. G. Kehrer, Tulsa, Okla.

WABASH VALLEY ELECTRIC CO.

(1) Bond Offering.—On Feb. 14, 1917, it was stated that Howe, Snow, Corrigan & Bertles, Grand Rapids, Mich., and the Central Trust Co. of Illinois, Chicago, are offering \$200,000 of this company's first mortgage 5% sinking fund gold bonds, dated Dec. 1, 1916, and due Dec. 1, 1936, at 94 and interest, yielding 5½%.

(2) Status.—It was stated Feb. 14, 1917, that this company owns and operates without competition electric light and power properties located within and serving the cities of Clinton and Sullivan, Ind., and, by means of high tension transmission lines, furnishing current to nearby communities. The population served is estimated at 24,000.

The \$200,000 of bonds authorized by the Indiana Public Utilities Commission are secured by an absolute first mortgage on the entire property of the company, which has recently been appraised at over \$450,000 by the commission. The net earnings as certified by Haskins & Sells for the year ended Aug. 31, 1916, were \$47,920.05, which is better than 4% times the interest charges on the bonds.

The company holds indeterminate permits in the communities served, authorized by the Public Utilities law of Indiana, which gives the right to operate as long as satisfactory service is being rendered, without competition and upon a favorable basis, subject to commission control. The management is in the hands of efficient men.

According to the provision of the sinking fund, 50% of the present bonds will be retired before maturity.

All legal matters pertaining to this issue have been approved by Pam & Hurd, Chicago.

(2) Bond Offering.—It was announced Feb. 16, 1917, that Howe, Snow, Corrigan & Bertles, Grand Rapids, Mich., and the Central Trust Co. of Ill., Chicago, are offering first mortgage 5% sinking fund gold bonds, at 94 and interest, to net 5½%, covering this company's electric light and power properties.

The bonds are dated Dec. 1, 1916, and due Dec. 1, 1936. Amount authorized, \$600,000; outstanding, \$200,000. An absolute first mortgage is on property which the Public Utilities Commission of Indiana recently appraised at \$456,480. Central Trust Co. of Illinois and Aksel K. Bodholdt, are trustees.

WAGNER ELECTRIC MANUFACTURING CO.

(1) Capital Increase.—Announced Jan. 9, 1917, that stockholders of this company at their annual meeting in St. Louis voted to increase the capital stock from \$2,000,000 to \$5,000,000.

—Mar.

(1) Special Dividend.—It was announced at St. Louis March 2, 1917, that this company had declared an 80% special dividend of \$1,600,000, in addition to the regular quarterly dividend of 2%, payable April 2.

(2) Capital Increase.—Announced March 2, 1917, that this company had authorized an increase in capital from \$2,000,000 to \$5,000,000. The stockholders are given the choice of taking the special dividend in cash or new stock at par value of \$100. The balance of the additional stock will be kept in the treasury.

WAHLSTROM TOOL CO.

(1) Dividends.—Announced Feb. 1, 1917, that this company had declared a dividend of 14%, payable to stock of record Jan. 29.

WALCOTT LATHE CO., JACKSON, MICH.

(1) Capital Increased.—On April 4, 1917, the company filed notice at Lansing, Mich., of an increase in capital stock from \$100,000 to \$700,000.

WALDES & CO., INC.

(1) Incorporated on Feb. 20, 1917, in New York, with a capital of \$500,000, to deal in snap fasteners, snap fastener tapes, hatpins, buttons and collar supports. Incorporators: M. T. Dannechuter and H. and S. Basch, 983 St. Nicholas Ave., New York.

WALKER'S AUTOMATIC CATERING MACHINE CO., SEATTLE, WASH.

(1) Incorporated on Jan. 15, 1917, in Washington, with a capital of \$1,000,000. Incorporators: W. H. Walker, P. C. Coryell, M. B. Walker, H. J. Cochran and M. B. Coryell.

WALLACE-BARNES CO.,**BRISTOL, CONN.**

(1) Capital Increased.—It was announced March 1, 1917, that this company had increased its capital stock from \$30,000 to \$510,000.

WALLACE SANDSTONE QUARRIES, LTD.

(1) Damage by Fire.—It was announced Jan. 27, 1917, that this company's plant at Garson, Manitoba, had been destroyed by fire, at a loss of \$200,000, fully covered by insurance.

WALLINGTON YARN DYE CO.,**GARFIELD, N. J.**

(1) Incorporated on April 5, 1917, in New Jersey, with a capital of \$250,000, to engage in the business of dyeing, converting and winding of yarn, cotton, etc. Incorporators: Abraham Mitman, Garfield, N. J.; Morris Nelmark, Brooklyn, N. Y., and Jacob Lichtenstein, New York City.

WALTHAM WATCH CO.

(1) Dividends.—Announced Feb. 20, 1917, that this company had declared a dividend of \$1 per share on the pd. stock, payable March 1 to stock of record Feb. 20. This payment will complete the liquidation of deferred dividends on pd. shares. The next dividend will be one of \$3, on June 1.

WALWORTH MANUFACTURING CO.

(1) Financial Statement, as of Dec. 31, 1916, discloses total assets of \$3,885,136, compared with \$2,824,442 at the end of 1915. Merchandise is valued at \$2,064,348, against \$1,467,714, and cash and debts receivable stand at \$908,199, against \$521,718. Accounts payable are \$341,268, against \$245,419. The floating debt is \$912,751, against \$635,000, and the surplus is placed at \$2,231,117, against \$1,644,022 previously.

WAMPANOAG MILLS CORP.

(1) Statement, Year Ended Dec. 30, 1916, shows financial condition as follows:

Assets—Real estate, mill buildings and machinery, \$1,102,000; cotton, cloth and stock in process, \$246,449.87; cash and accounts receivable, \$129,366.10; total, \$1,477,815.77.

Liabilities—Capital stock, \$750,000; bills payable, \$449,500; reserved for depreciation, \$40,000; reserved for taxes, \$5,500; profit and loss, \$232,815.77; total, \$1,477,815.77.

The statement covers a period of 15 months, as a change in by-laws since the last annual meeting advanced the end of the corporate year from the last Saturday of September to the last Saturday of December.

A total of \$79,184.23 in net active debt over quick assets is shown, against a total net debt of \$211,538.75 shown for 1915, a decrease of \$132,352.52. Dividends paid during the year amounted to \$28,250, made up of two of 1% each and one of 1½%. The total of net earnings shown, not allowing for expenditures for new machinery and other improvements, is \$158,602.52. The plant has 84,760 spindles and 1,990 looms.

WARD BAKING CO.

(1) Financial Condition.—It was announced March 8, 1917, that this company, incorporated under the laws of New York, had filed with the Massachusetts Secretary of State a statement of its financial condition, dated Dec. 30, 1916, which compares as follows:

**WARDELL STEAM LAUNDRY CO.,
NEWARK, N. J.**

¹(1) Incorporated on Feb. 1, 1917, in New Jersey, with a capital of \$250,000, to conduct a laundry business. Incorporators: Geo. W. Wardell, East Orange; Chas. L. Wardell, Bloomfield, and Jerome T. Congleton, Newark, N. J.

WARD & WARD, INC.

¹(1) Incorporated on Jan. 19, 1917, in Delaware, with a capital of \$2,000,000, to deal in and with feed, bread, oatmeal, paste, candies, etc. Incorporators: L. B. Phillips and J. B. Bailey, Dover, Del.

**WAREHOUSE ARCHITECTURAL &
ENGINEERS CO.**

¹(1) New Terminal Warehouse.—It was announced Feb. 9, 1917, that plans had been completed by this company for the construction of a terminal warehouse in Louisville, Ky., to be equipped with electric elevators and electric trucks, and to provide accommodations for manufacturing plants. The improvements are to cost approximately \$2,500,000. C. H. Moores, Chicago, Ill., is Pres.

WARNER GEAR CO., MUNCIE, IND.

¹(1) Capital Increased.—On Feb. 13, 1917, it was stated that this company had decided to increase its capital stock from \$500,000 to \$1,500,000.

WARREN BROS. CO.

¹(1) Report, Year Ended Dec. 31, 1916, shows net earnings of \$452,244. This is equal to approximately 15% on the \$2,000,000 common stock, after taking out 6% on the \$2,000,000 1st prfd. and 7% on the \$500,000 2d prfd. Net profits for the 1915 year totaled \$452,597, and for 1914, \$427,602.

¹(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,239,927, compared with \$1,162,477 Dec. 31, 1915.

—Apr. . . .

¹(1) Increase in Par of Stocks Planned.—It was stated April 11, 1917, that owing to the confusion often caused by stocks whose par value is \$50 instead of the customary \$100 per share, this company was asking for a vote of stockholders authorizing the change from \$50 to a par value of \$100 for all classes of stock. At the same time, directors recommended listing all classes of stock on the Boston Stock Exchange.

A meeting of shareholders was called for April 17 to vote on changing the 90,000 shares of \$50 par to 45,000 shares of \$100 par.

During January, February and March of 1916 new business was secured for bitulthic city streets and Warrenite county roads amounting to 700,000 square yards. During the same months of 1917 1,374,000 square yards were secured, or practically double the yardage of 1916.

**WARREN ICE, COTTON OIL &
FERTILIZER CO.**

¹(1) Merger.—See Henderson Oil Mill Co.—Item No. 1.

WARREN SOAP CO.

¹(1) New Officers.—It was announced Feb. 1, 1917, that at a special meeting of this company Ralph L. Warren was elected Pres. and Treas. Two new directors were elected, including the Pres. and George C. Warren.

WARWICK MILLS.

¹(1) Extra Dividend.—Announced Jan. 15, 1917, that this company had declared the regular semi-annual dividend of 3% and an extra of 5%, payable Feb. 1 to stock of record Jan. 15.

WASHBURN WIRE CO.

¹(1) Dividend Discussion.—On April 7, 1917, the "Boston News Bureau" said: "Washburn Wire is a New England industrial whose profits have been enormously stimulated by war conditions. Recent weeks have seen a very sharp advance in the common shares. It is understood that the lowest offering price at present is \$251 per share. This is nearly 60 points above the price paid about five weeks ago."

"Washburn Wire has outstanding \$2,500,000 preferred and \$1,250,000 common. For years the common did not have a value of much above \$60 per share."

"It is understood that during 1915 and 1916 the company earned more than \$150 per share on its common. This added to the Dec. 31, 1914, surplus would give a total present surplus of over \$250 per share for the common stock."

"It is not unlikely that the company in the near future will declare a big stock dividend. A distribution of as much as 100% is not impossible."

**WASHINGTON, BALTIMORE &
ANNAPOLIS ELECTRIC R. R.**

¹(1) Report, Year Ended Dec. 31, 1916.—Gross revenues, \$946,202, against \$845,682 last year; operating revenues, \$434,685, against \$376,110 last year; other income, \$13,340, against \$12,465 last year; surplus after charges, \$147,094, against \$102,174 last year.

WASHINGTON CORP.

¹(1) Incorporated on Jan. 31, 1917, in Delaware, with a capital of \$500,000, to deal in and with investments of all kinds. Incorporators: Thomas M. Farrey, John A. McCort and Erwin H. Gueterman, New York.

**WASHINGTON-IDAHO WATER,
LIGHT & POWER CO.**

¹(1) Capital Increased.—On Jan. 18, 1917, the company filed notice at Olympia, Wash., increasing its capital stock to \$3,000,000.

**WASHINGTON MACHINERY &
EQUIPMENT CO.**

¹(1) New Name.—See Danley Machinery Exchange, Seattle, Wash.—Item No. 1.

**WASHINGTON MAGNESITE CO.,
SPOKANE, WASH.**

¹(1) Incorporated in Washington, Dec. 27, 1916, with a capital of \$450,000. Incorporators: R. S. Talbot and Seabury Merritt.

**WASHINGTON & MARYLAND RY.
CO.**

¹(1) Bond Issue Authorized.—It was announced Jan. 30, 1917, that the Public Utilities Commission of the District of Columbia had authorized this company to issue \$66,000 general 6% 30-year bonds and \$30,000 prior lien 5½% bonds.

The proceeds of the former issue are to be used to complete the purchase of the properties of the Baltimore & Washington Transit Co. and the 5½% prior lien bonds are for use as collateral for \$25,000 one-year 6% notes, the proceeds of which are to go for extensions and improvements.

¹(2) Operating Contract Approved.—See Capital Traction Co.—Item No. 2.

**WASHINGTON & NEWPORT NEWS
SHORT LINE.**

¹(1) New Line Over Potomac Assured.—On April 25, 1917, a Washington dispatch to "Financial America" said: "Secretary of War Baker is expected to give final approval within a few days to the plans for building a bridge over the Potomac River. The bridge will be constructed by the Washington & Newport News Short Line. The new railroad, which is to connect Baltimore with Southern Maryland and the western shore of Virginia, has leased the Shepherd's branch of the Baltimore & Ohio Railroad. Col. Clement A. F. Fligler, of the United States Engineer Corps, to whom the plans were referred by Secretary Baker, has approved them."

¹(2) Will Open Virgin Territory.—On April 24, 1917, the "Baltimore Sun" stated that the railroad planned by this company would open up a new territory in Southern Maryland and Eastern Virginia. The new line will give Baltimore direct rail connections with Prince George's County, Maryland, and the counties of King George, Westmoreland, Essex, Richmond, Northumberland, Lancaster, Middlesex, Gloucester, York and Elizabeth City, in Virginia, as well as with Newport News and Norfolk.

The Virginia counties through which it will pass have no railroad facilities. The Virginia Northern Neck counties of Westmoreland, Richmond, Northampton and Lancaster will be tapped by a branch line from Layton to Fairport, on the Chesapeake Bay, which is the centre of the menhaden fish industry of Virginia.

Norfolk will be reached by a viaduct over James River from Newport News to Sewall's Point. This viaduct will be patterned after the Florida East Coast R. R. viaduct to Key West and will have several draws for the passage of ships.

The new railroad also will give Indian Head a railroad outlet. It also will tap Hampton Roads and the York River, regarded as the best naval rendezvous on the Atlantic Coast.

Eighty per cent. of the right of way has been acquired through Maryland and Virginia. The new railroad is headed by Frank Gannon, former Pres. of the Norfolk & Southern R. R., and is said to have ample capital for its construction.

WASHINGTON WATER POWER CO.

¹(1) Contract.—See Intermountain Power Co.—Item No. 1.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

—Feb.

¹(1) Merger.—See Spokane Traction Co. Item No. 1.

²(2) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross	\$2,676,057	\$2,750,484
Net	1,856,855	1,510,880
Surp. aft. chg. & dep.	588,963	743,544
Dividends	658,325	851,950
Previous surp.	968,945	1,118,688
Total surp. aft. adj.	922,796	986,945

³(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$922,796, compared with \$986,945 Dec. 31, 1915.

⁴(4) Statement by President.—It was stated Feb. 13, 1917, that in his annual report to stockholders of this company Pres. Huntington said that \$293,671 had been expended on the electric light and power properties for betterments and extensions, and \$27,212 on the electric railways. There were purchased for sinking fund \$717,000 first refunding bonds, making the total cancelled to date \$795,000. There was a 6% increase in the year in maximum station load, 3% increase in horsepower of motors in Spokane and 8% outside the city, a 4% increase in the number of accounts and a 5% gain in the number of meters in use.

The output of the stations for the year was 162,824,400 kilowatt hours, a decrease of 1.86% from the output in 1915. The passengers carried on the electric railway lines in 1916 were 15,601,850, compared with 15,714,733 in 1915 and 17,840,796 in 1914.

The business of the company in the Coeur d'Alene mining district showed a decrease of 8.4% in volume and, owing to a decrease in rates, a decrease of 17% in revenues. Prospects for 1917 were stated to have improved in the district.

—Apr

¹(1) Contract.—On April 6, 1917, officials of the Chicago, Milwaukee & St. Paul Ry. Co. announced at Spokane, Wash., that the contract between the Intermountain Power Co., a subsidiary of Montana Power Co., and the Washington Water Power Co., had been completed. The Intermountain Power Co. will purchase an initial amount of 7,500 horsepower to be generated at the new hydro-electric station of Washington Water Power Co. at Long Lake, and this amount will be increased as required.

The power will be used for electrification of the railroad lines of the St. Paul in Washington along the same lines as Montana Power is furnishing current for use to the railroad company in Montana.

"We have felt all along," the officials of the Washington Water Power Co. say, "that the Intermountain Power Co. was contracting for our Long Lake power for the use of the St. Paul, although the company has all along refused to divulge this information, the buyers simply asking us not to inquire what use would be made of the purchased power."

WASHINGTON-WYOMING OIL CO., SEATTLE, WASH.

¹(1) Incorporated on March 26, 1917, in Washington, with a capital of \$6,000,000. Incorporators: Geo. W. Dutton and M. O. Blumh.

WATEREE MILLS.

¹(1) Sale of Property.—Announcement was made on March 27, 1917, that these mills had been sold by Lockwood, Greene & Co., to the Lewis Manufacturing Co., Walpole, Mass., and would be operated by them. The Wateree Mills belonged formerly to the Hampton group of the Parker Cotton Mills. They are equipped with 18,816 ring spindles and 492 looms for the manufacture of cotton goods. The Lewis Manufacturing Co. was reported last

month as having increased its capital stock from \$600,000 to \$1,400,000. Absorbent cotton and gauze are manufactured by this company, of which H. P. Kendall is the president and treasurer.

WATSON MANUFACTURING CO., JAMESTOWN, N. Y.

¹(1) Capital Increased.—On March 3, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$75,000 to \$750,000.

WAUCHULA DEVELOPMENT CO.

¹(1) Acquisition.—See Wauchula Manufacturing & Timber Co.—Item No. 1.

WAUCHULA MANUFACTURING & TIMBER CO.

¹(1) Sold.—It was announced at Wauchula, Fla., Feb. 6, 1917, that the plant and fixtures of this company, capital \$1,000,000, had been offered at trustee's sale on that date and bid in by J. W. Wright for the Wauchula Development Co. The price was \$10,000. Included in the transaction are the electric light and ice plants, several miles of railroad, known as the Atlantic, Wauchula & Gulf R. R., and the company's large crate factory, with 64,000 acres of land.

The new owners reorganized by electing C. H. Akers, of Phoenix, Ariz., Pres.; Homa B. Rainey, of Wauchula, Vice-Pres., and Thos. W. Reed of Wauchula, Sec'y. They have completed plans for resuming operations immediately on an active scale.

WAUGH MOTOR TRUCK CO.

¹(1) Incorporated on Jan. 4, 1917, in Massachusetts, with a capital of \$500,000, par \$5, to manufacture and deal in motor trucks.

WAYAGAMACK PULP & PAPER CO., LTD.

¹(1) Report, Year Ended June 30, 1916, showed earnings of \$979,363. Surplus after bond interest, depreciation and discount on bonds amounted to \$304,724, as against a net profit of \$286,873 earned in the 17 months ended with Nov. 30, 1915.

Total surplus was \$1,237,275, from which is deducted a war tax of \$90,000, and \$450,000 was transferred to depreciation reserve.

¹(2) New Directors.—It was announced Jan. 24, 1917, that five new directors had been elected to this company's board. They are: Sir William Price, Quebec; Alex. McLaren, Buckingham, Que.; G. H. Duggan and Alex. Pringle, Montreal, Que., and Hugh Mackay.

—Feb.

¹(1) New President.—It was announced Feb. 14, 1917, that C. R. Whitehead, formerly Vice-Pres., had succeeded J. N. Greenshields, resigned, as Pres. J. W. Pyke was elected 1st Vice-Pres., and Alex. Pringle 2d Vice-Pres.

Directors elected were: J. W. Pyke, Alex. Pringle, J. N. Greenshields, G. H. Duggan, Hugh Mackay, Sir William Price, Alex. McLaren and Henning Hells.

WAYLAND OIL & GAS CO.

¹(1) Initial Dividend on Common.—Announced Feb. 13, 1917, that this company had declared an initial dividend of 2% on the common stock, payable March 10 to stock of record March 1.

Previous to 1915 only one class of stock was outstanding, on which the last dividend paid was 1%, Aug. 1, 1914.

²(2) Report, Year Ended Dec. 31, 1916, showed gross earnings \$411,066, against \$304,047 for the preceding year. Net earnings were \$173,704, against \$115,264 for 1915, or 11.60% on the \$1,500,000 common stock, against 7.50% in 1915.

The company received an average price of \$2.62 a barrel for oil. Prices ranged from \$2.25 to \$2.85 a barrel. Present price of oil is \$3.05 a barrel.

The company contemplates entering the refining field. The company also is installing a plant for the absorption of gasoline from gas production, which at present ranges from 3,000,000 to 5,000,000 cubic feet a day.

—Apr.

¹(1) Dividends.—Announced April 12, 1917, that this company had declared the regular semi-annual dividend of 3% on the pfd. stock, payable May 10 to stock of record May 1; also a dividend of 2% on the common stock, payable June 11 to stock of record June 1.

WAYNE COAL CO.

¹(1) Incorporated on Jan. 29, 1917, in Delaware, with a capital of \$14,000,000, to buy, sell and deal in coal and its products, explore and develop all kinds of mineral lands. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

—Mar.

¹(1) Options Exercised.—It was announced March 13, 1917, that this company had exercised options on 100 farms near Steubenville, O., and would begin operations, at an approximate cost of \$150 per acre. Several thousand acres in nearby townships also are under option.

WAYNE LIGHT, HEAT & GAS CO.

¹(1) Merger.—See Southern West Virginia Oil & Gas Co.—Item No. 1.

WAYNE OIL & GAS CO.

¹(1) Merger.—See Southern West Virginia Oil & Gas Co.—Item No. 1.

WEETAMOE COTTON MILLS.

¹(1) Extra Dividend.—Announced Jan. 30, 1917, that this company had declared the regular quarterly dividend of 2% and an extra of 1%, payable Feb. 1.

WEISGLASS (S.) & CO., INC., BROOKLYN, N. Y.

¹(1) Incorporated on Jan. 3, 1917, in New York, with a capital of \$300,000, to export and import merchandise. Incorporators: C. I. Mencer, R. A. and S. Weisglass, 119 West St., Brooklyn, N. Y.

WELLMAN-SEAEVER-MORGAN CO.

¹(1) Dividend on Pfd. Passed.—The "Cleveland Leader" April 18, 1917, stated that directors of this company had passed the dividend on the pfd. stock in order to effect a reduction in the floating debt. It added that an appraisal made by the reorganization forces shows an actual value of over \$100 a share for the common stock. The cash position will be bettered \$100,000 by the sale of Akron, O. property.

²(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$211,410.

WELLS BROS. CONSTRUCTION CO.

¹(1) Incorporated in March, 1917, in Illinois, with a capital of \$500,000, to engage in a general contracting business.

WEST COAST CORP., SPOKANE, WASH.

* (1) Incorporated on Jan. 22, 1917, in Washington, with a capital of \$600,000, to engage in railroad and general construction work. Incorporators: C. W. Doughs, Spokane; E. K. Shaw and Albert Albrecht, San Francisco; Roy Hall, Fresno; E. J. Cannon, J. M. Cannon and E. L. Cardie, Spokane.

WEST COAST ELECTRIC RY.

* (1) To Operate Storage Battery Cars.—On April 26, 1917, the "Manufacturers Record" stated that this company, which had prepared plans for building a railway from Tampa to Venice, Fla., 68 miles, would be operated with Edison storage battery cars. E. M. Raymond, Philadelphia, is Pres., and A. E. Townsend, Sarasota, Fla., is Gen. Mgr. and chief engineer.

WESTCOTT EXPRESS CO.

* (1) Taxicab Order.—It was stated March 19, 1917, that this company, New York, had placed with the Willys-Overland Co. an order for 50 Willys-Knight taxicabs for immediate delivery.

WEST END STREET RY. CO.

* (1) Bond Issue Approved.—Announced at Boston Jan. 10, 1917, that the Massachusetts Public Service Commission had approved the petition of this company to issue \$2,700,000 bonds to fund a similar issue maturing Feb. 1, 1917. The bonds are to run for 30 years and to bear interest at not exceeding 6%.

* (2) Bonds.—It was announced at Boston, Jan. 15, 1917, that this company had asked from bond houses bids to be received up to 10 A. M., Jan. 19, for the purchase of \$2,700,000 bonds. Bidders are permitted to name their own interest rate and maturity, but must not exceed 6% interest and a 30-year maturity.

* (3) Bond Sale.—Announced at Boston Jan. 19, 1917, that this company had sold to Curtis & Sanger, F. S. Moseley

and Blogett & Co., \$2,700,000 5% five-year bonds, callable in August, 1919, at 102 and interest. The bankers are offering the bonds at 101½ to yield 4.60%.

WESTERN & ATLANTIC RY.

* (1) Decision Against Parallel Road at Atlanta, Ga., that the Georgia Supreme Court had declared unconstitutional the act of the Georgia Legislature prohibiting the paralleling of the Western & Atlantic Ry., the road owned by the State, this reversing the decision of the Superior Court of Fulton County, which had refused to issue a mandamus requiring the Secretary of State to issue a charter to the North Georgia Mineral Ry.

Whether the North Georgia Mineral Ry. will be built or not did not appear in the Atlanta report, but it was supposed that the Nashville, Chattanooga & St. Louis, the lessee of the State's railroad, was back of the proposed new line with the idea of utilizing the charter in case its lease was not renewed.

Recently, however, an agreement between the State and the railroad for a renewal of the lease was attained, and the details are now being carried out to extend it for 50 years when it expires Dec. 27, 1919.

WESTERN CANADA FLOUR MILLS CO., LTD.

* (1) British Government Order.—It was reported March 16, 1917, that this company had received a British war department order for 250 tons of oatmeal per month for six months, to be taken care of by the Strathcona plant.

WESTERN CHEMICAL CO.

* (1) Contract.—See Denver Gas & Electric Light Co.—Item No. 2.

WESTERN DEVELOPMENT CO.

WESTERN DRY DOCK & SHIPBUILDING CO.

* (1) Reincorporated.—See Port Arthur Shipbuilding Co.—Item No. 1.

WESTERN ELECTRIC CHEMICAL CO.

* (1) Stock Increase—To Enlarge Plant.—It was announced at San Francisco Feb. 11, 1917, that this company had increased its outstanding pfd. stock from \$600,000 to \$1,000,000 by the issuance to holders pro rata of an additional \$400,000, which was subscribed at par. The new money will be used to increase the capacity of the plant from 40 to 50 tons a day.

The plant has been in operation three months, but only recently had been brought to its full capacity. The present output comprises caustic soda and bleaching powder, while the liberated chlorine gas was employed in making chloride of lime. It is proposed to make the plant more flexible so that this gas may be used also in the manufacture of carbon tetra-chloride and liquid chloride.

• WESTERN ELECTRIC CO., INC.

* (1) Record Earnings in 1916.—On Feb. 12, 1917, the "Boston News Bureau" said that this company in its fiscal year to Dec. 31, 1916, broke into new high ground. The business for 1916 aggregated \$107,000,000, compared with approximately \$64,000,000 in 1915 and with \$78,000,000 in 1913, the previous largest year in its history. This was an increase in sales of \$43,000,000, or better than 65% as compared with 1915.

Unfilled orders on hand Jan. 1 amounted to about \$30,000,000.

Western Electric Co. did not during 1916, and at no time, manufacture war munitions. Yet with the development of the demands upon it, factories have been filled to over their full capacity, so that it made necessary in the Fall of 1916 the building of additional factories to the extent of approximately \$1,500,000.

The large amount of orders on hand and the demand for telephone apparatus and supplies for the development of telephone service in the United States indicate large business in 1917.

—Mar.

* (1) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross sales-----	\$108,986,877	\$63,852,469
Total income-----	108,216,313	65,000,430
Bal. after chgs.-----	3,298,482	2,827,113
Dividends-----	2,100,000	1,609,500
Deduct-----	11,198,482	
Surplus-----		1,217,613

†Consists of \$973,866 special payments to employees, and \$224,616 carried to common stock.

* (2) Earnings on Stock.—It was stated March 19, 1917, that this company's 1916 balance after charges of \$3,298,482 is equal to 21.98% on \$15,000,000 pfd. stock, compared with 18.84% earned on same stock in 1915. Deducting from the above amount full dividend requirements on the pfd. stock, the balance is equal to \$15.98 a share on the 150,000 shares of common stock.

* (3) Statement by President.—It was stated March 19, 1917, that Pres. H. B. Thayer, of this company, in his annual statement to stockholders, said, in part: "While the output of telephone apparatus has been large in 1916, deliveries were principally during the latter part of the year, and on orders received considerably earlier in the year, as in this class of work some months elapse between the beginning of the process of manufacture and final delivery of finished apparatus. Costs of all the items going into cost of manufacture have rapidly increased during the year, so that the profit on this department of the business has not been proportional to the volume."

"Sales for 1916 were \$106,987,000. For 1915 they were \$63,852,000, and for 1914 they were \$66,408,000."

"Orders on hand at Dec. 31, 1916, were \$22,028,000 in value more than on Dec. 31, 1915. The average value of an order filled during 1916 was \$75, as compared with \$55 in 1915."

* (4) Comment on 1916 Report.—On March 19, 1917, the "Boston News Bureau" said that this company appeared to have been the only portion of the great Bell system which did not do well in 1916.

There was an increase in gross sales. They jumped from \$63,852,469 to \$108,986,877, a gain of \$45,134,208, or 62%. And yet disappointing enough was the showing in net profits. The balance of net earnings was but \$3,204,710, an actual decrease of \$412,067, or 11%, from the previous year. On its gross business the company made about a 3% profit.

This is getting into the class of the packers. It is very clear from this record that the telephone purchasing companies throughout the United States got the advantages of rising prices, while Western Electric stood in the breach and took the penalty of rising costs of raw materials.

—Apr.

* (1) Preferred Stock Increase—Stockholders' Rights.—It was announced April 3, 1917, that stockholders of this company at a special meeting voted to increase the pfd. stock from \$15,000,000 to \$30,000,000 by the issuance of 150,000 extra shares.

It is part of the plan that each holder of common stock shall be entitled to subscribe at par for the new pfd. issue to the extent of their holdings of common stock.

* (2) Capital Increase Notice.—An Albany dispatch April 5, 1917, stated that this company had certified to the New York Secretary of State that its capital had been increased from \$15,750,000 to \$30,750,000 and the number of shares of pfd. stock from 150,000 to 300,000.

* (3) New Preferred Stock.—It was stated April 5, 1917, that the new preferred stock of this company is offered at cash at par, \$100 per share, to com-

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

mon stockholders of record at the close of business April 4, 1917. They may subscribe to one share of the new stock for each share of the common stock held at that time. Right to subscribe expires at close of business April 16. Payments for shares subscribed for may be made in two installments of \$50 each on April 16 and June 30, or the full amount may be paid on or before April 16 if the subscriber prefers.

Interest at the current dividend rate upon the company's pfd. stock, 6% per annum, will be allowed on all subscription payments made on or before April 16, 1917, from that date until June 30, 1917, and checks covering the same will be mailed to subscribers on the last-named date.

Negotiable receipts will be issued when requested, and will entitle the person named, or his assigns, of record in the office of the secretary, to the shares of new pfd. stock specified therein after full payment has been made according to subscription plan. Holder of a full-paid negotiable receipt must forward it to the secretary for delivery of his stock certificate.

Stock certificates will be issued under date of June 30, 1917, and will be delivered as soon thereafter as they can be prepared. The new stock will participate in any dividend declared after June 30, 1917.

(4) Full Pay for Employees Joining Army.—Stated on April 9, 1917, that this company would pay the full salaries, less Government pay, of its employees who were members of the National Guard or Naval Militia on June 18, 1916, or who had become members since with the consent of the company, while in the active service of the Government up to and including June 30, 1917. After such service is completed these employees will be taken back by the company, as its needs and the qualifications of the men permit.

(5) Comment on Issue of Additional Preferred.—On April 9, 1917, the "Wall Street Journal" said that the decision of this company to issue 100% additional preferred stock was simply frank recognition of the inability of a corporation to continue indefinitely to handle over \$100,000,000 of gross sales on \$30,000,000 of capital.

Western Electric sales are breaking all records. The pressure upon the company for deliveries is tremendous and deliveries are measured by the capacity of the Chicago Works to get raw materials to convert them into electrical goods.

Western Electric has outstanding \$15,000,000 preferred so that the new financing will involve that amount of additional preferred. There are also outstanding 150,000 shares of common of no par which do not appear at all in the balance sheet.

This financing is largely a matter within the Bell Telephone system. The company owes the parent organization about \$15,000,000 on money borrowed from time to time. This debt will be cancelled by the issuance of the new stock which will go into the American Telephone treasury. In 1916 Western Electric sales were \$106,987,000. At the rate business has been coming in this year gross may reach \$125,000,000.

(6) Capital Increase Notice Filed in New Jersey.—On April 16, 1917, this company a New York corporation, doing business in New Jersey as a foreign corporation, filed at Trenton its amended certificate of charter, showing that the capital has been increased from \$15,750,000 to \$30,750,000. The stock is of 300,000 shares of pfd. at \$100, and common consists of 150,000 shares of no nominal or par value.

(7) March Sales at Rate of Over \$120,000,000 Yearly.—On April 19, 1917, the "Boston News Bureau" said that this company's March quarter business was at the rate of over \$120,000,000 yearly. It added: "This can hardly be maintained for the full year and is likely to

slow down somewhat in the Fall. At the same time there is every probability that this year's shipments will outstrip last."

"The \$15,000,000 new pfd. stock which the company is issuing will give some new money. It had been assumed that it was all covered by previous advances from American Telephone. This is not the case. Western Electric has not been borrowing from the parent company, but from the banks, and even from the banks its loans have aggregated but \$5,500,000.

"The new financing will, therefore, give about \$10,000,000 of new money, or in other words, increase working capital from approximately \$40,000,000 to nearly \$50,000,000.

"Western Electric is spending this year over \$2,000,000 in new plants at Chicago. These are going up as fast as possible, but will hardly be finished in time to be any factor in 1917 operations. They will begin to be productive, however, early in 1918."

WESTERN ELECTRIC CO., LTD.

(1) Capital Increased.—On Dec. 19, 1916, letters patent were issued in Canada increasing the capital stock of this company from \$1,000,000 to \$7,500,000. The increase consists of 65,000 shares of \$100 each.

WESTERN EXPLORATION CO. (THE), PORTLAND, ME.

(1) Incorporated in January, 1917, in Maine, with a capital of \$2,000,000, to engage in the producing, transporting, refining, marketing, etc., of oils, gas, petroleum and their products. Pres., A. F. Jones, Portland, Me.

(1) Incorporated in February, 1917, in Nevada, with a capital of \$1,000,000. Directors: C. S. S. Fournay, B. F. Silverstein, Chas. J. Parks, Arthur L. Erb and Lon Claybaugh.

WESTERN HOLDING CORP. WILMINGTON, DEL.

(1) Incorporated on March 22, 1917, in Delaware, with a capital of \$500,000, to deal in investments. Incorporators: Wm. F. O'Keefe, Geo. G. Steigler and E. E. Wright, Wilmington, Del.

WESTERN INDIANA R. R. CO.

(1) Webb-Kenyon Liquor Law Upheld. See American Express Co.—Item No. 1.

WESTERN INDUSTRIES CO., SAN FRANCISCO, CAL.

(1) Incorporated on April 11, 1917, in California, with a capital of \$1,000,000. Incorporators: L. Bocqueraz, R. Bocqueraz, J. C. Meyerstein, C. de Guigne, P. A. Braugler, E. Dubedat and H. L. Hill, Jr. Principal place of business, San Francisco.

WESTERN MARYLAND CO.

(1) New Company Planned.—See Western Maryland Ry. Co.—Item No. 1.

WESTERN MARYLAND RY. CO.

(1) Merger Planned.—It was announced Jan. 3, 1917, that this company had applied to the Maryland Public Service Commission for the approval of a consolidation of several of its lines, including the Connelleville extension. They are to be merged in a new corporation to be called the Western Maryland Co. They include the Baltimore & Harriaburg Ky. and its eastern and western extensions; Baltimore & Cumberland Valley Rv., and railroad, Georges Creek & Cumberland R. R. and Connelleville & State Line Ry.

(2) Special Meeting Jan. 23.—Announced Jan. 6, 1917, that the annual meeting of this company will be held Jan. 23. Books close Jan. 4 and reopen Jan. 24.

(3) Merger of Subsidiaries Approved.—It was announced at York, Pa., Jan. 15, 1917, that the consolidation of the subsidiary corporations of this company had been ratified by the stockholders of the Baltimore & Harriaburg Ry. Co. Eastern extension and the Somerset Coal Co. at a meeting held there.

(4) Stockholders Ratify Merger Plan.—It was announced at Baltimore Jan. 23, 1917, that at a special meeting of stockholders of this company the plan to consolidate all the subsidiary lines of the system into one company, as provided in the new reorganization plan, was ratified without a dissenting vote. Over 80% of both classes of stock was represented.

(5) Earnings—	1916	1915
December gross—	\$1,023,563	\$852,747
Net—	315,951	321,771
6 mos. gross—	6,442,951	5,405,335
Net—	2,283,035	1,738,836

—Feb.

(1) New Equipment Planned.—It was announced Jan. 30, 1917, that this company had asked the Maryland Public Service Commission for authority to spend \$4,428,075 for new equipment. The company already has contracted with the Pullman Co. to furnish the equipment, calling for 2,000 all-steel twin hopper cars, 15 coaches, two passenger and baggage cars, two cafe cars, six express cars and 10 Mallet compound locomotives.

(2) Merger Approved.—It was announced Feb. 10, 1917, that the merger of nine railroad companies in Pennsylvania into the Western Maryland, which controls and operates them, had been approved by the Pennsylvania Public Service Commission.

—Mar.

(1) Earnings—	1917	1916
Jan. gross—	\$1,031,955	\$893,351
Net after taxes—	318,081	262,547

(2) Application to List.—It was announced March 12, 1917, that application had been made to the New York Stock Exchange to list \$17,760,400 of this company's 1st pfd. stock, \$9,999,000 of its 2d pfd. stock, and \$49,429,100 of its common stock.

(3) Listed in New York.—It was announced March 14, 1917, that the New York Stock Exchange had listed \$17,760,400 1st pfd. stock, \$9,999,000 2d pfd. stock, and \$49,429,100 common stock, to be admitted prior to Jan. 1, 1918, on official notice of issuance and distribution in exchange for securities of the constituent companies.

(4) Earnings Statement, Year Ended Dec. 31, 1916, of this company, before reorganization, as filed with the New York Stock Exchange, compares with fiscal year ended June 30, 1915, as follows:

	1916	1915
Oper. revenue—	\$11,967,982	\$8,683,450
Total income—	12,194,806	8,952,325
Surp. aft. chgs.—	1,319,059	↑907,905
↓Deficit.		

(5) Separation Completed.—See Davis Coal & Coke Co.—Item No. 1.

(6) Common Admitted to List.—Announced March 24, 1917, that the New York Stock Exchange had admitted to the list the Western Maryland new common stock, abbreviation, W. M. N.

(7) Second Preferred Stock Admitted to List.—On March 26, 1917, the New York Stock Exchange admitted to list this company's second preferred stock.

(8) Strike of Stevedores.—Announced on March 26, 1917, that about 150 stevedores and coal handlers working for this company had struck. The men asked for an increase in wages. This makes about 400 stevedores now out at terminals at Baltimore, Md.

(9) Earnings—	1917	1916

“(1) Stricken from List.—Announced April 3, 1917, that the New York Stock Exchange had stricken from the list the old Western Maryland pfd. and common stock.

WESTERN MOTOR CAR MANUFACTURING CO., DENVER, COLO.

“(1) Incorporated in April, 1917, in Colorado, with a capital of \$700,000, to manufacture automobiles. Incorporator: Walter Scott Campbell.

WESTERN NEW YORK & PENNSYLVANIA RY. CO.

“(1) Report, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross.....	\$13,682,410	\$10,871,845
Net after taxes.....	2,583,677	1,976,191
Def. after chgs.....	688,513	1,241,222

“(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$18,154,614, compared with \$17,486,111 Dec. 31, 1915.

WESTERN PACIFIC R. R. CO.

“(1) Application to List.—Announced April 9, 1917, that application had been made to the New York Stock Exchange to list \$20,000,000 of this company's first mortgage 5% series “A” bonds.

“(2) Admitted to List.—Announced April 12, 1917, that the New York Stock Exchange had admitted to the list this company's \$17,394,100 first mortgage 5% bonds, with authority to add \$2,605,900, making the total \$20,000,000.

WESTERN PACIFIC R. R. CORP.

“(1) Cash Removal Prohibited.—See Denver & Rio Grande R. R.—Item No. 4.

“(2) Net Income, November and Five Months.—On Jan. 10, 1917, it was stated that this company's net income for November, 1916, was \$357,000, compared with \$228,000 in November, 1915, an increase of \$129,000, or nearly 60%. For five months ended Nov. 30, net income was \$1,404,000, compared with \$1,062,000 in the same period of the previous year, an increase of \$342,000, or 32%.

This five months' surplus is equivalent to an annual earning rate of \$3,372,000, or over 12% on the \$27,500,000 pfd. stock outstanding. During the five months, however, only a part of the \$20,000,000 new 5% bonds issued in the reorganization was outstanding and drawing interest.

If the full amount of this issue had been outstanding, the interest charge in the five months would have been increased by \$232,873, which would have reduced the company's five months' surplus to \$1,171,000, or at an annual rate of 10% on the pfd. stock.

If, however, all of the bonds had been outstanding, the company's cash balance would have been proportionately increased and the item of \$86,068 interest on balances included in “other income” would have been considerably larger.

Hire of equipment charges in the period were heavy aggregating \$150,000, at an annual rate of \$360,000. This condition should soon be corrected, for Pres. Levey has announced that out of the available \$19,000,000 from sale of first mortgage bonds the company will expend \$3,500,000 for new equipment. This purchase should reduce, if not eliminate, in the future the existing unfavorable balances for hire of equipment.

“(3) Earnings on Stock in 1917, Estimated.—On Jan. 11, 1917, the “Wall Street Journal” stated that it seemed conservative to estimate that, given a continuance of satisfactory traffic conditions, the company this fiscal year will earn approximately \$2,750,000 for the pfd. stock, or the equivalent of 10% on the \$27,500,000 outstanding.

In addition to the purchase of \$3,500,000 worth of equipment, Pres. Levey announced that \$2,500,000 had been appropriated for improvements and betterments. The balance of the \$19,

000,000 secured from the sale of bonds, amounting to \$13,000,000, will be appropriated primarily for the construction of branch lines and feeders.

—Feb.

“(1) Bonds.—On Feb. 5, 1917, A. W. Krech, chairman of the executive committee of this company, announced that the balance of the purchase price of the new bonds issued under the plan of reorganization, namely 80%, will be payable June 20, 1917, at the Equitable Trust Co., New York, or at the First Federal Trust Co., of San Francisco.

The purchase price of the new bonds is 90 and accrued interest. The balance due on June 20, after making interest adjustments from March 1, 1917, and after allowing interest on the first installment from June 20, 1916, is at the rate of \$725.31 on each bond.

“(2) Acquisition Planned.—It was announced Feb. 1, 1917, that this company had applied to the California Railroad Commission for authority to buy 1,201,000 shares of the Tidewater Southern Ry. Co., in order to extend the Tidewater lines and to increase the traffic between the two companies.

“(3) Earnings, December and Six Months.—On Feb. 8, 1917, this company reported earnings for December and for six months ended Dec. 31, 1916, as follows:

	December	Six Months
Oper. revenues.....	\$715,969	\$4,752,973
Net after taxes.....	260,444	1,920,735
“(4) Earnings—	1916	1915

“(2) Acquisition Authorized.—It was announced March 3, 1917, that the California Railroad Commission had authorized this company to acquire 1,201,000 shares of a par value of \$1 each of the capital stock of the Tidewater Southern Ry. Co. The order will take its effect after the purchasing company files with the commission a copy of a traffic agreement to be binding between it and the Tidewater company, and has received approval of such agreement.

—Apr.

“(1) Additional Trackage Purchased.—Stated on April 9, 1917, that this company had purchased 60 miles of main line and 41 miles of branch line in California from the Nevada-California-Oregon Ry., together with terminals in Reno, Nev.

The Western Pacific will broad-gauge the main line from Hackstaff, Cal., to Reno, Nev., and will abandon the branch line, inasmuch as the Western Pacific's present line parallels the latter from Davies' Mills at Plumas Junction. The Western Pacific expects to have improvements completed before the end of 1917, until which time the road will be operated by the Nevada-California-Oregon Ry.

“(2) Application to List.—Announced April 9, 1917, that application had been made to the New York Stock Exchange to list \$27,500,000 of this company's pfd. and \$47,500,000 of its common stock.

“(3) Admitted to List.—Announced April 12, 1917, that the New York Stock Exchange had admitted to the list this company's \$14,779,300 6% non-cumulative pfd. and \$25,227,600 common, with authority to add \$12,720,700 of pfd. and \$22,272,400 common stock, making the total amount listed \$27,500,000 pfd. and \$47,500,000 common stock.

WESTERN POWER CORP.

“(1) Application to List in San Francisco.—It was announced Jan. 5, 1917, that application had been made to the San Francisco Stock and Bond Exchange to list 70,354 shares of 6% cumulative pfd. stock and 140,823 shares of common stock of this company, of New York.

WESTERN RESERVE STEEL CO.

“(1) Liquidation.—It was announced Jan. 5, 1917, that this company, whose main plant at Warren, O., was recently purchased by the Brier Hill Steel Co., is being liquidated. It was a \$600,000 concern with \$150,000 bonds. The Sykes Metal Lath & Roofing Co., a subsidiary of Western Reserve Steel, with a plant at Niles, was retained and will be operated as heretofore.

WESTERN RUBBER CO.

“(1) Capital Increase.—On Dec. 26, 1916, this company filed notice at Seattle, Wash., of an increase in capital stock to \$5,000,000.

WESTERN SLOPE OIL CO., PHOENIX, ARIZ.

“(1) Incorporated in April, 1917, in Arizona, with a capital of \$5,000,000. Incorporators: W. E. Hocker, J. N. Cook and J. G. Scott.

WESTERN STATES GAS & ELECTRIC CO.

“(1) Earnings—

	1916	1915
November gross.....	\$112,442	\$108,197
Net after taxes.....	56,954	49,928
12 mos. gross.....	1,232,887	1,183,884
Net after taxes.....	593,958	569,941

“(2) New Business.—It was stated Jan. 3, 1917, that for November the gain by this company in gross was at a rate of 6% and in net at a rate of 14% over the preceding year. New business is being connected to the lines at a gratifying rate, and the electric light and power demands are growing so rapidly that steps must be taken to increase distributing facilities.

“(3) Note Issue Planned.—It was announced Jan. 15, 1917, that this company, a subsidiary of Standard Gas & Electric Co., had applied to the California Railroad Commission for authority to create a 10-year 6% note issue for \$5,000,000 and to sell of this new issue \$1,564,000 for the purpose of paying existing indebtedness and for \$300,000 for construction during 1917.

The notes are to be sold at 92½, and proceeds will pay off floating debt and the expenses in connection with the purchase of the water system of the Placer-ville Gold Mining Co., amounting to \$215,000.

Net of Western States Gas & Electric for the year ended Nov. 30, 1916, was \$597,438, with a balance after bond interest of \$351,863, thus showing in excess of three times the interest on the notes which it asks authority to issue.

“(4) Note Sale.—Announced Jan. 16, 1917, that this company, a subsidiary of the Standard Gas & Electric Co., had sold to H. M. Byllesby & Co. and William P. Bonbright & Co. \$1,564,000 10-year 8% notes.

—Feb.

“(1) Notes Called.—It was announced Feb. 5, 1917, that this company, a subsidiary of Standard Gas & Electric, had called for payment April 1 at 100½ and

JANUARY 1 TO APRIL 30, 1917

interest at the Guaranty Trust Co., New York, its \$625,500 3-year 6% notes. The notes will retire out of a part of the proceeds of the sale of \$1,239,000 10-year 6% notes, for approval of which application has been made to the California Railroad Commission.

(2) Earnings— 1916 1915
December gross \$112,900 \$106,549
Net after taxes— 55,960 51,778

—Mar.

(1) Note Issue Authorized.—On March 24, 1917, the California Railroad Commission authorized this company, a subsidiary of Standard Gas & Electric Co., to issue \$1,564,000 of 10-year 6% notes at not less than 92, with the Guaranty Trust Co. as trustee, of the indenture securing an authorized issue of \$5,000,000 of the notes.

Proceeds of the notes authorized will be used, \$625,500 to refund on April 1 the \$621,500 of three-year 6% short time notes falling due Oct. 1, 1917, \$405,000 to refund bank loans, \$112,380 to reimburse the treasury of the company for expenditures made for capital account and \$315,640 for improvements and additions to the properties. The net yield from the sale of the \$1,564,000 to the company is expected to be \$1,438,880.

—Apr.

(1) Income Account, Year Ended Dec. 31, 1916.—This company's report for the year 1916 showed gross of \$1,239,338 and net of \$507,276. Deductions, including interest, were \$370,257, which, after payment of dividends of \$223,478, left a total surplus Jan. 1, 1917, of \$139,606, compared with total surplus Jan. 1, 1916, of \$144,740.

(2) Note Issue of \$1,564,000 Underwritten by Syndicate.—On April 15, 1917, the "Detroit Free Press" said William P. Bonbright & Co., Inc., and H. M. Byllesby & Co. had underwritten and would offer to the public a new issue of \$1,564,000 of 6% gold notes of this company, of California.

The notes are due Feb. 1, 1927. The proceeds will provide funds for retirement of \$621,000 of notes and for extensions and additions to the properties, and payment for recently acquired water rights and storage reservoirs on the south fork of the American River.

(3) \$1,564,000 Notes Sold.—This company April 19, 1917, sold to H. M. Byllesby & Co. and W. P. Bonbright & Co. \$1,564,000 6% notes.

Western States Gas & Electric serves 27,830 customers. In 1916 the business of the company increased 15.3% over 1915. The company has recently closed several large power contracts, one of these being for current for the operation of a six-ton electric furnace.

WESTERN STEEL CAR & FOUNDRY CO.

(1) Locomotive Order.—See American Locomotive Co.—Item No. 2.

(2) Damage by Fire.—It was announced Jan. 23, 1917, that a fire at the plant of this company at South Chicago, Ill., destroyed only 60 old cars that were to be taken into the plant for repairs. There were no shells in any of the cars. The loss was fully covered by insurance.

WESTERN UNION TELEGRAPH CO.

(1) Report, Year Ended Dec. 31, 1916, shows earnings as follows:

	1916	1915
Gross	\$63,632,295	\$52,475,721
Net after taxes, rents, etc.	13,849,269	11,503,180
Surp. after chgs.	12,517,419	10,167,592
(2) Earnings— 1916 1915		
November gross	\$5,733,256	\$4,585,280
Oper. income—	1,901,385	1,516,014
11 mos. gross—	56,241,286	46,597,866
Oper. income—	15,762,879	12,967,728

(3) Comment on Yearly Earnings.—On Jan. 12, 1917, the "Boston News Bureau" said, in part:

"Western Union lived up to the confidence of its friends by closing the 1916 fiscal year to Dec. 31 with a balance for the \$99,786,900 stock of slightly better than 12.5%. This compares with

share profits of 10.19% in 1915, 5.33% in 1914, and 3.24% in 1913.

"Another feature of 1916 results was the huge expansion in gross income. The 1915 increase in gross of \$4,907,018 was hailed as a rather remarkable record for 12 months. But it is put absolutely in the shade by the record figures of \$11,156,579 added to gross earnings during the late fiscal period. This increase is equal to 21.8%, the largest percentage of increase in any year within the last 20 years. More than that, it brings gross income up to the \$60,000,000 mark for the first time in the corporation's history.

"Back in September it looked as if the year would add at least \$10,500,000 to gross. The actual outcome for the year shows new receipts of \$11,156,579, or \$565,000 better than earlier expectations.

"It took Western Union five years to bring its gross up from \$40,000,000 to \$50,000,000. The latter figure was reached in 1915 for the first time. Now in a single step gross receipts have touched \$60,000,000, with a margin of at least \$1,500,000 to the good.

Western Union expended at least \$1,500,000 more in supplies and reconstruction materials in 1916 than it would have under the 1915 schedule of prices for wire, instruments and supplies. This is one reason why the \$11,156,000 addition to gross was accompanied by but a \$2,400,000 gain in surplus for dividends."

—Feb.

(1) Earnings— 1916 1915
December gross \$5,677,854 \$4,750,493
Oper. income— 1,276,366 1,282,230
12 months gross 61,919,140 51,348,359
Oper. income— 17,039,245 14,249,968

(2) Contract Upheld.—See Baltimore & Ohio R. R. Co.—Item No. 2.

—Mar.

(1) Dividend Increased.—Announced March 13, 1917, that this company had declared a quarterly dividend of 1½%, payable April 16 to stock of record March 20. This is an increase of one-fourth of 1% quarterly. For the purpose of the annual meeting April 11, transfer books close March 20 and reopen April 12.

(2) Comment on Dividend Increase.—On March 16, 1917, the "Wall Street Journal" said that the decision of this company's directors to increase the regular dividend rate from 5% to 6% came as a surprise. It had been expected that the company would wait until the end of 1917 before taking this action.

In 1916 stockholders received 6% in dividends, of which an extra 1% came at the time of the final quarter's dividend payment.

The query naturally will be raised as to whether this 6% dividend means that the 1% extra which was paid in 1916 will be abolished. The matter is undecided and obviously will not be even considered until time comes to act on the December quarter's dividend. At the same time there is no warrant for the assumption that because the regular rate has been established at 6% therefore no further extras can be expected.

Western Union during the last two or three years has made very radical improvements in its cable service. If it had not been for these improvements its facilities during the strain of war conditions would have been taxed beyond capacity.

Officials feel that even when the war is over the cable traffic will not recede back to the levels of the ante-war days. It is not unlikely that during the period of reconstruction in Europe the cable facilities will be more taxed than ever before.

If copper prices become more normal in another 12 or 18 months, Western Union will seriously set about a direct cable to South America. This project will cost money, but Western Union is very well fixed, having as of Dec. 31, 1916, over \$14,000,000 tied up in outside securities, most of them bonds and stocks of the highest grade investment character.

(3) Earnings— 1917 1916
Jan. gross— \$5,555,007 \$4,572,979
Operat. income— 1,676,299 1,446,575

(4) Annual Report, Year Ended Dec. 31, 1916.—Gross revenues \$61,919,140, against \$51,171,795 last year; operating income \$13,191,219, against \$10,199,254 last year; other income \$1,702,400, against \$1,303,925 last year; fixed charges \$1,331,850, against \$1,333,588 last year; surplus after dividends \$6,410,838, against \$5,181,227 last year.

(5) Balance Sheet, as of Dec. 31, 1916, showed profit and loss surplus of \$24,568,068, compared with \$18,882,909 last year.

(6) Earnings on Stock.—The balance after charges of \$13,561,829 is equal to 13.59% on the \$99,786,727 capital stock, compared with 10.19% earned in 1915.

(7) Statement by President.—In conjunction with the annual report issued in March, 1917, Pres. Carlton said in part: "Net additions and betterments to plant and equipment during the year amounted to \$3,060,705. On Dec. 31, 1916, there were 208,474 miles of pole line, 936,214 miles of iron wire, 663,932 miles of copper wire, 2,988 miles of land line cables, and 22,728 nautical miles of ocean cables. Operated offices were 25,234 in number, an increase of 92 offices since last year.

"Stocks of telegraph, cable and other allied companies operated under term leases have decreased \$47,495, chiefly due to the annual writing down of the stock owned in American Telegraph & Cable Co. Stocks of telegraph, cable, and other companies have increased \$182,341. The item investments, appearing in last year's balance sheet, have been separated; securities of closely allied companies, amounting to \$1,117,017, are now included with stocks of telegraph, cable, and other companies, and marketable securities at cost of \$14,470,828 appear under current assets. The latter securities have increased by \$1,780,040 and produce an annual return of 4.8%.

"Material and supplies show an increase of \$924,686 over that of last year. Liabilities in respect to shares in the hands of the public of merged companies controlled by perpetual leases and by stock ownership have been reduced by \$1,933,695 through purchases at prices returning an average of 5¼%, and thereby reducing the annual fixed charges by \$83,882.

"Accounts payable have increased \$580,712, consisting chiefly of increases in accounts for the purchases of supplies, etc., not due on December 31. Accrued taxes show an increase of \$438,940, mainly for reserves required to meet the British excess profits tax and increased income tax and the addition in 1916 of 1% to the United States income tax.

"Reserve for maintenance of cables has been increased by \$1,179,118, or which \$1,000,000 was transferred from surplus for depreciation accrued on ocean cables prior to Dec. 31, 1915. Reserve for depreciation of land lines remains practically unchanged, since the amounts charged to operating and credited to this reserve approximately balance the value of plant replaced, plus the cost of removal, less salvage. Volume of business during the year 1916 has been the largest in the history of the company."

(8) Discussion of Earnings.—On March 30, 1917, the "Wall Street Journal" said that excellent as were the earning results of this company in 1916, it is considered most likely in banking circles that the 1917 net for the \$100,000,000 stock will break into new high ground. In 1916 Western Union earned 13.59% for its stock above charges, but not before the liberal \$1,166,424 special payment to employees to tide over these times of extraordinary costs of living.

If Western Union continues during the rest of 1917 as it has started, it seems likely that the year will produce share profits of between 15% and 16%. For a year or more after the war started there was a general feeling that the dilation in cable-line earnings would

JANUARY 1 TO APRIL 30, 1917

quickly disappear after the restoration of peace.

The ideas of Western Union officials and directors on this score have undergone considerable change since 1915. Cable gross receipts have continued to expand. It is realized that some of this business will drop away in the normal times of world peace. But it is also realized that the cable companies have had the advantage of a quick and permanent addition to their cable gross. The dilation has been so long-continued that it has become a fixity. The United States is losing its provincialism and its future cable relations will be on a parity with the change in our international position.

It is interesting to note from study of Western Union's annual statement that as of Dec. 31 last 58% of its 1,600,146 miles of land lines were iron wire. At the end of 1915 59% of its total land mileage was iron wire. There will probably be an upward climb in the percentage during 1917 due to the decision to use this year more iron than copper on account of high cost of copper.

—Apr.

*(1) Report, Quarter Ended March 31, 1917 (March estimated), shows:

	1917	1916
Gross revenue...	\$17,132,187	\$14,350,613
Net income.....	3,886,920	3,204,601

*(2) New Director.—It was announced April 11, 1917, that at the annual meeting of this company's stockholders Benjamin F. Bush, head of the Missouri Pacific, was elected a director to succeed George J. Gould. Other directors were re-elected.

WESTERN UNITED GAS & ELECTRIC CO.

*(1) Report, Year Ended Dec. 31, 1916, shows gross of \$1,571,710; net of \$607,874, with interest charges of \$321,588 and dividends of \$270,000, leaving a surplus of \$78,286.

WESTERN UTAH EXTENSION COPPER CO.

*(1) Incorporated on March 30, 1917, in Delaware, with a capital of \$1,500,000 to do a general business of mining, milling and refining of ores, metals, etc. Incorporators: Herbert E. Latter and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

WESTERN VERMONT POWER & LIGHT CO.

*(1) Sales, 1916.—See Rutland Railway & Light Co.—Item No. 1.

WEST INDIA ELECTRIC CO., LTD.

*(1) Report, Year Ended Dec. 31, 1916, shows total receipts from all sources were \$286,321, as against \$274,317 for 1915, an increase of \$12,003. Total operating expenses were \$144,064, as against \$143,368 in 1915, an increase of \$691, the resulting net profit being \$142,257, out of which sum were paid: interest on bonds, \$30,000; payment to Government of 4% tax on railway receipts, \$7,887; rental to the Jamaica Light & Power Co., Ltd., \$12,000, the total fixed charges amounting to \$49,887, leaving a net income of \$92,369, being 11.54% on capital stock of the company.

This amount was transferred to surplus account, out of which were paid four quarterly dividends amounting to \$40,000 and a subscription to the Canadian Patriotic Fund of \$500, leaving a balance at credit of surplus account of \$478,143.

• WESTINGHOUSE AIR BRAKE CO.

*(1) Exchange of Stock.—See Union Switch & Signal Co.—Item No. 1.

*(2) Merger Completed.—See Union Switch & Signal Co.—Item No. 2.

*(3) Stock Increase.—Announced Jan. 24, 1917, that the New York Stock Exchange had received formal notice of the company's plans for increasing the capital stock from \$20,000,000 to \$30,000,000.

—Mar.

*(1) Special Meeting March 15.—It was announced March 9, 1917, that this company had called a meeting of stockholders for March 15 to vote on the proposed increase in capital stock from \$20,000,000 to \$30,000,000 and on the approval of the agreement for acquiring the Union Switch & Signal Co. through an exchange of stock.

*(2) Stock Increase Approved.—It was announced March 15, 1917, that at a special meeting stockholders of this company voted to approve of an increase in capital from \$20,000,000 to \$30,000,000 and the plan of the directors for the acquisition of control of the Union Switch & Signal Co.

*(3) Stock Dividend.—Announced March 15, 1917, that directors of this company had declared a stock dividend of 50% and a quarterly dividend of \$1.75 a share in cash, payable April 21 to stock of record March 31.

*(4) Capital Increase Approved by Stockholders.—It was announced March 17, 1917, that at a special meeting of stockholders of this company the increase in capital from \$20,000,000 to \$30,000,000 was approved and the plan of the Board of Directors for the acquisition of control of the Union Switch & Signal Co. was ratified. After the meeting the directors declared a stock dividend of 20% and a quarterly dividend of \$1.75 a share in cash, payable April 21 to stock of record March 31.

*(5) Stock Dividend.—Announced March 17, 1917, that directors of this company had declared a stock dividend of 20% and a quarterly dividend of \$1.75 a share in cash, payable April 21 to stock of record March 31.

*(6) Additional Stock Listed.—On March 28, 1917, the New York Stock Exchange admitted to the list \$10,000,000 additional stock of this company, making the total amount authorized to be listed \$30,000,000.

WESTINGHOUSE, CHURCH, KERR & CO.

*(1) Income and Surplus Account, Year Ended Dec. 30, 1916.—See Electric Properties Corp.—Item No. 1.

• WESTINGHOUSE ELECTRIC & MANUFACTURING CO.

*(1) Orders in December.—It was stated Jan. 2, 1917, that orders placed with this company during December for the regular product, not including war contracts, amounted to \$12,000,000.

*(2) Rifle Profits, Estimated.—On Jan. 15, 1917, in commenting on the possible amount this company would make or lose on the Russian rifle contracts, said: "When the company signed the two contracts calling for 1,800,000 rifles the prospects were very bright for minimum profits of \$18,000,000. Of this perhaps \$6,000,000 would have been represented in plant and \$12,000,000 in cash.

"But the rifle contract as is generally appreciated has not been a bed of roses. Delays and difficulties, great and varied enough to outwear the patience of Job, have been encountered. They have been overcome, but at the expense of time. In the adjustments made in all American rifle contracts late in 1916 Westinghouse Electric was included.

"It is now understood that on a minimum basis the company expects to make a profit in filling its rifle contract which will be sufficient to cover the entire cost of plant and equipment and leave a profit of about \$2,000,000 in cash. Some estimates of the cash profit have gone as high as \$5,000,000, but \$2,000,000 is felt to be a safe figure.

"The alarmist stories which have at times been whispered about regarding the loss which the company would face in its rifle contract are the invention of apprehension and not of sober fact.

"Even without any cash profit Westinghouse would still find itself with a first class rifle plant all paid for and capable of showing some earning power when the war was over."

*(3) Construction Plan Approved.—It was announced Jan. 24, 1917, that directors of this company had formally approved erection of a new plant at Essington, Pa., on the Delaware River. Work will begin immediately and the cost of the new plant will be between \$5,000,000 and \$7,000,000.

The additional facilities are made necessary on account of the great increase in the company's business. Orders are greatly in excess of existing plant capacity.

*(4) Decision to Build New Plant.—It was announced Jan. 29, 1917, by Pres. E. M. Herr, that this company had decided to build a plant, costing from \$5,000,000 to \$7,000,000, at Essington, Pa. The site for this plant has a frontage on Delaware Bay of 1,800 feet.

—Feb.

*(1) Earnings Discussion.—It was stated Feb. 2, 1917, that when its 1916-1917 fiscal year is concluded on March 31 and results are definitely known, directors of this company will make another move in the direction of an increase in the dividend rate on the \$59,000,000 common.

On Dec. 21, 1916, directors advanced the common rate from 6% to 7%, or on the \$50 par stock to a distribution of \$3.50 per year. Paying 8%, or \$4 per share, Westinghouse would have joined company with General Electric, which for years has maintained an unbroken 8% distribution from electrical production.

*(2) Capital Increase Approved by Stockholders.—It was announced Feb. 15, 1917, that the stockholders of this company at a special meeting had consented to the enlargement of the capital stock from \$30,000,000 to \$75,000,000, the additional stock to consist of 300,000 shares of common stock at a par value of \$50.

Holders of subscription warrants issued to stockholders pursuant to the offering of Dec. 13 are entitled on their surrender and the payment of the subscription price at the company's office, 165 Broadway, New York, to subscribe to the new stock by Feb. 21.

*(3) Application to List.—Announced Feb. 17, 1917, that the New York Stock Exchange had received application to list \$15,000,000 additional common stock of this company.

*(4) Orders, December and January.—It was stated Feb. 23, 1917, that during December and January this company booked \$20,000,000 of electrical orders. This is at the rate of \$120,000,000 per year, which is 75% to 80% more than present plant facilities could possibly turn out. This business consisted of \$12,000,000 of orders in December and \$8,000,000 in January. The December orders were abnormally increased by electrical work on three Government ships. This work will be spread over a three-year period, so that it constitutes no special problem of production or delivery.

Westinghouse is getting its rifle production up to very satisfactory figures.

It is expected that rifle output gradually will mount above the 3,000 per day mark.

*(5) Statement to Stockholders.—In a statement to stockholders Feb. 23, 1917, in connection with the recent stock offering, Chairman Tripp, of this company's board, said that earnings for the year ending March 31, 1917, would approximate \$15,000,000.

It was reported unofficially that the surplus for dividends earned in the nine months ended Dec. 31, 1916, was \$11,582,000. This is at the rate of somewhat better than \$15,000,000 per annum, or more than 25% on the \$60,000,000 stock outstanding. These figures, it is stated, do not include the results of operations of the New England Westinghouse Co., which has the rifle contract.

As of Dec. 31 the company had cash, receivables and materials on hand valued at \$68,379,053.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

(6) Over 60% of New Stock Subscribed For.—It was announced Feb. 26, 1916, that the shareholders of this company had subscribed for over 60% of the \$15,000,000 par value of stock for which the right to subscribe expired on Feb. 21. Kuhn, Loeb & Co., syndicate managers, concluded a negotiation as to the stock not taken by the shareholders, including the private sale of a very considerable part thereof.

—Mar.

(1) Earnings Statement, Nine Months, Ended Dec. 31, 1916, as filed with New York Stock Exchange, it was announced March 5, 1917, compares with fiscal year ended March 31, 1916, as follows:

	9 Mos. Ended Dec. 31, 1916	Year Ended March 31, 1916
Sales billed.....	\$62,350,929	\$50,209,240
Net profits.....	11,155,128	9,429,896
Total income.....	12,110,628	10,536,626
Surp. after chgs., pfd. and com- dividends.....	8,807,915	6,859,929

(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$18,349,534, compared with \$9,246,707 March 31, 1916.

(3) Earnings, January and Ten Months.—It was stated March 8, 1917, that net profits of this company in January totalled \$2,082,700 after all interest and other charges, making the total of net profits for the ten months ended January \$13,665,200, equal to 22.66% on \$60,000,000 stock. This compares with 17.0% earned in the full fiscal year ended March 31, 1916.

(4) Earnings Discussion.—On March 9, 1917, the "Wall Street Journal" said that this company's January profits of better than \$2,000,000 are substantially ahead of expectations and make previous estimates of \$15,000,000 for the fiscal year which ends in March appear low. If February and March results should approximate those for January, the 12-month period will be closed with the record balance of profits at about \$17,500,000, equal to 29% on the stock. It is certain that the stock balance will exceed the 25% which the previously predicted surplus of \$15,000,000 represented.

As the stock is now on a 7% dividend basis, it can be stated with assurance that dividend requirements at this rate in fiscal year to end in March will be earned about four times over.

(5) Unfilled Orders.—It was stated March 8, 1917, that the unfilled orders on the books of this company at that time, in its regular line electrical business, such as electrical machinery, turbines, etc., totaled the record figure of \$41,000,000. This is entirely distinct from the company's munition work.

This volume of \$41,000,000 of business, without the receipt of a single additional order, is sufficient to keep the plants of the company working at 100% capacity for nine months.

(6) Status.—On March 12, 1917, it was stated that when this company closes its books at the end of March for its 1917 fiscal period, the status of its finances will be such that its plants, franchises, etc., carried at \$4,231,645 could be written entirely off the books, and still the company would show assets of over \$53,000,000 behind the \$59,855,500 capital stock.

Emerging from a serious receivership in 1909, the Westinghouse Co. now has a profit and loss surplus approximately equal to its entire plant and good-will accounts and has business on its books which without the receipt of an additional order would keep its plants working to capacity for nine months.

It had long been an ambition of the Westinghouse management to be in a position to write off to \$1 its patents, charters and franchises. The finances of the company are now such that it would be possible to write off the entire plant account in addition to patents,

and leave assets practically equal to par on the stock.

Disregarding the plant and equipment account, and the patents account, the total assets of the Westinghouse Co., according to its balance sheet of Dec. 31, were \$83,961,806, against which there were outside liabilities of only \$30,500,410, leaving a net balance of \$53,461,396. Net profits in the current quarter can be safely placed at \$6,000,000, January actual figures showing \$2,082,700.

After allowing for dividend accrual on the full \$75,000,000 capital stock (the \$15,000,000 new stock also receiving the April dividend), there is a net addition to assets for the closing quarter of about \$4,700,000.

This makes total assets, exclusive of plant and patents, of \$58,161,396, or 98% on the \$59,855,500 pfd. and common stocks.

The new \$15,000,000 stock will be outstanding at the close of March, and will figure in the statement at the end of the 1917 fiscal year, but the condition will not be affected, as the stock was issued practically for par.

The recent stock financing by Westinghouse gives the company ample working capital for its big business. As of Dec. 31 the quick assets were \$66,379,053, compared with current liabilities of \$27,516,680, showing a net working capital of \$38,862,393.

(7) Earnings, February and 11 Months.—It was stated March 20, 1917, that net profits of this company after all charges in February amounted to \$2,423,805. This brings the total net profits for the 11 months ended February to \$16,079,038, equivalent to 26.66% on \$60,000,000 stock, or \$13.33 per share of \$50 par value.

March is certain to contribute an additional \$2,000,000, so that net profits for the fiscal year to end in March are assured of over \$18,000,000, or more than \$15 per share, compared with the present dividend rate of 7%, or \$3.50.

In his circular in December, 1916, in connection with the \$15,000,000 stock offering, Chairman Tripp stated that a continuance of the rate of earnings current at that time would bring the year's total to over \$15,000,000. This estimate is exceeded by \$3,000,000 on account of the sharp increase in monthly returns. Toward the close of 1916, Westinghouse Electric's monthly net was running about \$1,600,000. January's net was \$2,082,700.

(8) Merger Plan Abandoned.—See Westinghouse Machine Co.—Item No. 1.

(9) Foreign Order Completed.—It was announced from Pittsburgh, Pa., on March 28, 1917, that the plant of this company, which had been manufacturing 7-inch shells for the Entente Governments, had closed down, the contract having been completed. The 2,000 men were dismissed.

(10) Syndicate Stock Sold.—On March 29, 1917, Kuhn, Loeb & Co. announced that the stock of this company, acquired by the underwriting syndicate, had been sold.

—Apr.

(1) Earnings, Quarter Ended March 31, 1917, Estimated.—It was stated April 2, 1917, that this company had completed the most profitable three months period in its history.

Final figures for March results will not be available until year-end adjustments are decided upon, but an estimate of \$2,250,000 net profits after all charges for the month will prove conservative. This figure would bring the total for the quarter to \$6,765,500, just 9% on the full \$75,000,000 capital stock outstanding, or \$4.50 a share as the three months balance.

Figured on the \$60,000,000 stock, which was the amount outstanding up to Feb. 21 when the new \$15,000,000 stock was paid for, the quarter's surplus of \$6,765,500 would be equal to 11.3%, or \$5.60 per share.

Average net earnings since Jan. 1 have been \$2,250,000 a month, compared with a monthly rate of \$1,600,000 in the Fall of 1916, and with the monthly average in the nine months ended Dec. 31, 1916,

of \$1,287,000. In other words, the net in the closing quarter of the fiscal year ran practically \$1,000,000 a month ahead of that in the first three quarters.

Including \$2,250,000 as the contribution of March, net profits after all charges (and exclusive of the rifle contract) for the fiscal year just ended approximated \$18,329,038, compared with \$9,860,758 in the preceding fiscal period and with \$2,009,744 in the 1915 year. This total is equal to \$12.20 per share on the increased amount of stock, or \$15.30 on the slightly under \$60,000,000 stock, which was the amount outstanding for all but a month and a half of the year.

While large banking interests took a portion of the Westinghouse new stock recently closed out by the managers of the syndicate, the larger amount was taken by private investors.

The entire \$75,000,000 stock receives the April dividend. The stockholders subscribing for the new shares paid 18 cents a share above par as the amount of the April dividend accrued from Jan. 31, the payable date of the previous dividend, to Feb. 21, the date when subscriptions were paid. The stock on April 5 sells ex-dividend 87½ cents a share.

WESTINGHOUSE LAMP CO., NEW YORK.

(1) New Plant.—It was announced March 8, 1917, that this company had broken ground for the erection of the first building of its new plant at Trenton, N. J. The structure will be four stories, of reinforced concrete, estimated to cost \$280,000.

WESTINGHOUSE MACHINE CO.

(1) Merger Plan Abandoned.—A Pittsburgh dispatch March 20, 1917, stated that this company had abandoned its plan for a special meeting to consider the sale of the company to the Westinghouse Electric & Manufacturing Co. It is stated, however, that the latter company, which owns 95% of the stock, will pay \$35 for all Machine Co. shares deposited with it before April 14.

(2) Report, Year Ended Dec. 31, 1916, shows that this company, serving the shore resorts and other points of Southern New Jersey, in 1916 carried 1,816,369 more passengers and hauled 413,904 tons more of freight than in 1915. The total number of people who rode over its lines was 11,983,739, and the amount of freight hauled 3,958,845 tons. The average gross revenue for transporting a passenger one mile was 1.45 cents, and the net revenue, after paying operating expenses and taxes, was 2.2 mills.

The company earned for the year a net income of \$940,315. After making proper provision for the sinking fund, this represented 7.3% on the total outstanding stock. The usual 5% dividends were paid, and the entire balance, amounting to \$369,350, remaining from the net income, was appropriated for improvements, including revision of grades, alignment and tracks, betterments of equipment, etc.

This information, while not guaranteed, is believed to be correct.

¹(2) Plans for Merger With West Penn Rys. Co. Completed.—A Pittsburgh dispatch, April 27, 1917, stated that plans had been completed for the merger of this company and the West Penn Rys. Co., two of the electric railway subsidiaries of the West Penn Traction & Water Power Co., controlled by the American Water Works & Electric Co.

The new company will be known as the West Penn Railways Co., and will have \$20,000,000 stocks equally divided between 6% cumulative pfd. and common stock. The present pfd. stocks of both companies will be exchanged share for share for the new pfd. The present common stock of the West Penn Traction Co. will be exchanged for a like amount of new stock and \$1,544,700 of the stock will be sold for cash at par, thus making \$8,044,700 outstanding and \$1,955,300 unissued.

The new stock has been underwritten and the stockholders will receive valuable rights. A saving of \$350,000 a year in interest and overhead charges will result from the consolidation and the complete plan will be presented to stockholders of the two companies at special meetings May 15, 1917.

WEST PENN TRACTION & WATER POWER CO.

¹(1) Dividends Resumed on Preferred.—Announced Feb. 28, 1917, that dividends on this company's pfd. stock had been resumed by the declaration of 1½% on the issue, covering the quarter ended Dec. 31, 1916, payable March 15 to stock of record March 10. This is the first dividend paid since March, 1914.

—Apr.

¹(1) Plans for Merger of Subsidiaries Completed.—See West Penn Traction Co.—Item No. 1.

WEST PORTO RICO SUGAR CO.

¹(1) Incorporated on April 24, 1917, in Delaware, with a capital of \$3,000,000, to acquire sugar plantations and to erect and maintain sugar factories. Incorporators: Carlos Cabrea, Julian B. Shope and Bartolmi Surda, New York.

¹(2) Earnings on Stock.—It was stated Feb. 27, 1917, that this company's 1916 balance, after pfd. dividends of \$1,126,711, is equal to 24.49% on \$4,600,000 common stock outstanding, compared with 24.78% earned on \$4,000,000 common stock in 1915.

¹(3) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$747,155, compared with \$540,444 Dec. 31, 1915.

—Mar.

¹(1) Directors Re-elected.—It was announced March 6, 1917, that at this company's annual meeting retiring directors were re-elected.

¹(2) Officers Re-elected.—It was announced March 7, 1917, that at an organization meeting of this company's directors retiring officers were re-elected.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

*** (3) Extra Dividend on Common.**—Announced March 7, 1917, that this company had declared the regular quarterly dividend of 3% on the common stock and 1½% on the pfd., also an extra of 2% on the common, payable April 2 to stock of record March 19. Three months previously an extra dividend of 4% was declared on the common stock.

WEYMOUTH LIGHT & POWER CO.

*** (1) Issue of Stock for Improvements Planned.**—On April 21, 1917, the Boston Daily Advertiser said this company had petitioned the Gas and Electric Commission for permission to issue 1,900 new shares, par \$100, to be issued at \$160, to pay for permanent improvements and additions to the plant. This will increase the authorized stock from 2,000 to 3,900 shares.

WHALEN BROS.

*** (1) New Paper Plant.**—It was announced on Jan. 15, 1917, that plans were nearing completion for the paper manufacturing plant to be built in Port Angeles, Wash., by this company, which operates a paper plant at Mills Creek, B. C.

The original plans called for a daily capacity of 60 tons, but it will be built on a much larger scale. The company will be incorporated for \$1,000,000 and is said to be backed by Peabody, Houghteling & Co., Chicago.

—Apr.

*** (1) New Paper Mill.**—It was announced April 13, 1917, that this company had completed plans for the construction of a paper mill in Port Angeles, Wash., to cost \$1,800,000. The main building will be 1,480 feet long, three stories, of reinforced concrete. A sawmill will also be erected. The headquarters of the firm remain at Vancouver, B. C.

WHARTON STEEL CO.

*** (1) Development by New Ownership.**—It was stated Jan. 5, 1917, that general development work had been started on this company's plant at Wharton, N. J., in which work R. L. Replogle, representing the new ownership, plans to spend between \$2,000,000 and \$3,000,000 in modernizing equipment and facilities for the manufacture of steel products.

*** (2) Sale Consummated.**—Announcement was made Jan. 15, 1917, of the final consummation of the sale of this company at Philadelphia to J. Leonard Replogle.

The latter is now in control of the property, consisting of three blast furnaces, holdings of iron ore, lands, most of the town of Wharton and also the Wharton Northern Railroad Co.

*** (3) Improvements Planned.**—It was stated Jan. 16, 1917, that plans contemplating an outlay involving from \$10,000,000 to \$15,000,000 for steel mills are under consideration. Meanwhile the three furnaces are undergoing repairs. The Wharton Northern R. R. has never ceased operating.

The properties were got together by the late Joseph Wharton, one of the originators of the Bethlehem Steel Co., which was acquired about 16 years previously by Mr. Schwab and his associates. Since Mr. Wharton's death this group of Wharton properties has been managed by Harrison Morris and Bert-ran Lippincott, of Philadelphia.

—Feb.

*** (1) Officers.**—It was announced Feb. 8, 1917, that J. Leonard Replogle, who, with his associates, recently purchased control of this company, had been elected chairman of the board. Other officials are: H. S. Endsley, Pres. and Treas.; I. Townsend Burden, Vice-Pres.; Ernest Hillman, Vice-Pres.; H. C. Wenner, Sec'y, and F. B. Dutton, general superintendent. Directors: J. L. Replogle, H. S. Endsley, Harry Payne Whitney, Charles MacNeill, James J. Flannery, J. Rogers Flannery, L. W. Baldwin, I. Townsend Burden and L. G. Waring.

It is understood that the company has secured large orders for pig iron from Europe and its furnaces are being prepared for operation before April 1.

One or two changes in the personnel of the management are likely at that time.

*** (2) Capital Decrease.**—It was announced Feb. 9, 1917, that this company, which has a plant at Wharton, N. J., had filed an amended certificate with the Secretary of State, Trenton, N. J., to decrease its authorized capital stock from \$10,000,000 to \$2,002,000. Under the provisions of the act of 1884 this company is exempted from the payment of any taxes due to the fact that at least 50% of its capital stock is employed in manufacturing and mining in New Jersey.

—Apr.

*** (1) Furnaces "Blown In."**—Announced at Wharton, N. J., April 12, 1917, that the blast furnaces of this company, shut down for more than six years, had been "blown in" on that date. There are three furnaces at the plant, each with a capacity of between 125 and 150 tons every 24 hours.

J. Leonard Replogle, Pres. of the American Vanadium Co., and for a short time owner of the Cambria Steel Co., which he sold to the Midvale Steel & Ordnance Co., acquired the Wharton properties in October, 1916, in order to get the iron ore lands in Northern New Jersey.

WHEELING CHEMICAL PRODUCTS CO.

*** (1) Plans.**—It was announced Feb. 1, 1917, that this company, organized with a capital of \$300,000, would produce daily 40,000,000 matches, 1,500 pounds of glue, 1,000 pounds of paste and 1,000 pounds of nitrated products. The company is building its own machinery. Its officers are: A. A. Schramm, Pres.; H. C. Kalbetszer, Vice-Pres.; E. S. Romine, Sec., and O. V. Snyder, Mgr.

WHEELING & ELM GROVE R. R.

*** (1) Bonds Called for Payment.**—It was announced Feb. 23, 1917, that ten of this company's first mortgage bonds of 1898 had been called for payment at par and interest on March 1, 1917, at the City Bank of Wheeling, W. Va.

• WHEELING & LAKE ERIE R. R. CO.

*** (1) Stricken from the List.**—Announced on Jan. 25, 1917, that the New York Stock Exchange had stricken from the list this company's common, 1st and 2d pfd. stocks.

—Feb.

*** (1) Stricken from List.**—It was announced Feb. 6, 1917, that the New York Stock Exchange had stricken from the list this company's 20-year equipment sinking fund 5% bonds, due 1922.

*** (2) Reorganization Effective.**—On Feb. 10, 1917, Kuhn, Loeb & Co. and Blair & Co., reorganization managers for this company, announced that the property had been vested in the new corporation, the Wheeling & Lake Erie Ry. Co. The securities of the latter have been issued and are ready for distribution.

Holders of certificates of deposit for the first consolidated 4% bonds and three classes of stock of the old company and unsecured claims against it, and also holders of syndicate receipts issued by the Central Trust Co. in respect of Wabash-Pittsburg Terminal certificates of interest, upon surrender of the same to the Central Trust Co. on and after Feb. 10, are entitled to the securities provided for in the plan.

* (3) Earnings—	1916	1915

Deficit.		

• WHEELING & LAKE ERIE RY. CO.

*** (1) Board of Directors.**—On Jan. 5, 1917, Pres. L. F. Loree, of the Delaware & Hudson Co. and chairman of the

Kansas City Southern, announced the names of directors of the Wheeling & Lake Erie Ry., which took over on Jan. 1 the Wheeling & Lake Erie R. R. from the receiver.

Mr. Loree will be chairman of the new Wheeling board. The other members are Johnston de Forest, W. M. Duncan, F. H. Ecker, N. S. Meldrum, Warren Bicknell, James A. Campbell, Arthur House, J. H. McClement, H. Hobart Porter, W. R. Begg, Thomas S. Grasselli, E. A. Lagenbach, and F. A. Seiberling.

The principal offices of the company will be in Cleveland, and the office of the chairman of the board will be at 26 Liberty Street, New York.

—Feb.

*** (1) Successor Company.**—See Wheeling & Lake Erie R. R. Co.—Item No. 2.

*** (2) Admitted to List.**—Announced Feb. 15, 1917, that the New York Stock Exchange had admitted to the list \$10,344,900 of its pfd. and \$33,641,300 common stock, with authority to add \$100 par value of pfd. stock and \$1,100 common stock, making the total amount authorized \$10,345,000 pfd. stock and \$33,642,400 common stock.

*** (3) Application to List.**—Announced Feb. 28, 1917, that this company had made application to the New York Stock Exchange to list \$11,697,000 of its refunding mortgage bonds, series "A," due Sept. 1, 1966.

—Mar.

*** (1) Bonds Listed in New York.**—It was announced March 1, 1917, that the New York Stock Exchange had listed an additional \$2,500,000 of this company's refunding mortgage bonds, series A, with authority to add \$9,197,000.

* (2) Earnings—	1917	1916
January gross	\$630,917	\$692,324
Net after taxes	145,005	197,842

*** (3) Equipment Trusts.**—It was announced March 15, 1917, that Kuhn, Loeb & Co. and Blair & Co. had purchased \$4,620,000 of this company's 5% equipment trust certificates to be dated April 1, 1917, and mature in annual payments of \$460,000 each, beginning April 1, 1918, and ending April 1, 1927. The certificates are to be redeemable on April 1 in any year at 102½ and dividends.

The issue is purchased subject to ratification by the Ohio Public Utilities Commission. The Union Trust Co. of Pittsburgh is trustee. The certificates will be issued under an equipment trust between the vendors, the Union Trust Co. of Pittsburgh as trustee and the Wheeling & Lake Erie Ry. Co.

The trustees will make a lease of the equipment to the railway company, under which will be reserved rentals sufficient to pay off the equipment trust certificates and the dividends thereon as they severally mature.

*** (4) Equipment Trust Issue Planned.**—A Columbus, O., dispatch March 23, 1917, stated that this company had asked the Ohio Public Utilities Commission for authority to issue \$4,620,000 of 5% trust equipment bonds, proceeds to be used in purchasing 20 Mallet type freight locomotives, 1,000 gondola cars, 1,000 hopper cars and to pledge \$4,122,000 of bonds for acquiring part of the Lorain & West Virginia R. R.

*** (5) Application to Issue Equipment Bonds.**—On March 23, 1917, the company applied to the Ohio Public Utilities Commission for authority to issue \$4,620,000 of 5% trust equipment bonds, the proceeds of which are to be used in purchasing 20 freight locomotives, 1,000 gondola cars and 1,000 hopper cars and in pledging \$4,122,000 of bonds used for equipment and in acquiring part of the Lorain & West Virginia R. R.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

WHEELING MOULD & FOUNDRY CO.
 (1) Extra Dividend.—On March 23, 1917, directors declared, along with the regular quarterly dividend of 1%, an extra of 1%, both payable May 1 to stock of record April 1.

WHEELING STEEL & IRON CO.
 (1) Stock Dividend.—Announced Feb. 2, 1917, that this company had declared a stock dividend of 20%, payable March 1.
 (2) Capital Increase Planned.—It was announced Feb. 8, 1917, that the stockholders of this company, Wheeling, W. Va., would meet Feb. 13, 1917, to vote on an increase of capital from \$7,500,000 to \$10,000,000.

—Mar.

(1) Steel Pipe Advanced.—On March 28, 1917, this company advanced its quotations on all sizes of standard steel pipe 5 points or \$10 a ton quoted. For all country goods prices are quoted only on application. Other makers have withdrawn their prices and will name formal advances. The last change in wrought pipe prices was made March 5.

WHITAKER-GLESSNER CO.

(1) To Build New Furnace.—It was announced Jan. 5, 1917, that this company, Wheeling, W. Va., had given a contract to the William B. Pollock Co. of Youngstown, O., for the erection of a 500-ton blast furnace at its Portsmouth, O., plant. It is planned to have the new stack in operation late in 1917. The new blast furnace will furnish pig iron for the Whitaker-Glessner open hearths being erected in connection with its southern Ohio sheet mill plant. The company is also erecting a Smet-Solvay by-product coke plant at Portsmouth.

—Feb.

(1) Report, Year Ended Dec. 31, 1916, shows net earnings, after deducting the entire expenses of the bond issue and providing adequately for property and other depreciation, of \$4,868,656. From this, dividends totaling \$442,638 were paid. Reserves during the year increased \$1,689,386. In the total reserves there is carried \$2,024,503 of contingent profits, to provide against shrinkage of materials on hand and under contract.

WHITE & BROTHER, INC.

(1) To Take Action on Stock Increase.—Stated on April 10, 1917, that a special stockholders' meeting would be held April 12, to take action on the proposed increase in capital from \$100,000 to \$2,000,000.

WHITE CAP MINING CO.

(1) Litigation Ended.—See Manhattan Consolidated Mines Development Co.—Item No. 1.

WHITE & CO., NEW YORK.

(1) Taken Over.—Announced March 19, 1917, that this firm, of which Archibald S. White was the head, had been succeeded by a new corporation having the name of Ussing, Poole & Simmons, Inc., with a paid-in-capital in excess of \$2,500,000. Mr. White has retired from business.

WHITE (J. G.) & CO., INC.

(1) New Vice-President.—Announced Jan. 12, 1917, that A. L. Matthews had been elected a Vice-Pres. of this company to take charge of a new department organized for the management of sugar properties.

(2) New Officers.—Announced Jan. 30, 1917, that Douglas I. McKay, who had been assistant to Pres. White, and Sanger B. Steel, former Chicago manager for Paine, Webber & Co., had been elected Vice-Pres. of this company.

—Feb.

(1) New Vice-Presidents.—Announced Feb. 2, 1917, that at a meeting of the Board of Directors of this company Douglas I. McKay and Sanger B. Steel were elected Vice-Presidents.

WHITE (J. G.) ENGINEERING CORP.

(1) Mining Contract.—It was announced Jan. 17, 1917, that this company had been awarded a construction and engineering contract by the Senorita Copper Corp. of Senorita, N. M., in the Naclemento district, 90 miles northwest of Albuquerque.

The contract covers installation of a mill and power plant, a two-mile tramway, necessary mining machinery and equipment of the company's coal mine to produce fuel for the power plant. Initial installation will be for production capacity of a quarter million pounds of copper per month.

—Feb.

(1) New Station Contract.—See Virginia-Western Power Co.—Item No. 1.

WHITEHEAD & TURNER, LTD.

(1) Incorporated on Feb. 24, 1917, in Canada, with a capital of \$300,000, divided into 3,000 shares of \$100 each, to carry on business as wholesale grocers, importers, exporters and dealers in all kinds of groceries, teas, wines, liquors, etc. Incorporators: Richard Turner, Archibald Miller, Albert James Turner, Evan Ewart Turner and Reginald Meredith. Chief place of business, Quebec, Que.

WHITELEY MALLEABLE CASTINGS CO., MUNCIE, IND.

(1) Capital Increased.—In December, 1916, the company filed notice at Indianapolis, Ind., of an increase in capital stock from \$250,000 to \$450,000.

WHITE LUNCH CO.

(1) Stock Issue.—It was announced Jan. 5, 1917, that this company, San Francisco, a Delaware corporation operating eating-places in San Francisco, Portland, Tacoma and Seattle, had been permitted to sell 5,000 shares of its pfd. stock at par, \$10 a share, to net the company not less than 95¢, the proceeds to be used for the purpose of extending and enlarging the company's business.

WHITE MOTOR CO.

(1) First Annual Report, Year Ended Dec. 31, 1916, shows net profits amounting to \$4,441,041, from which \$740,000 was set aside to reduce value of inventory to value based on prices current Dec. 31, 1915. After this provision surplus is \$3,701,041, equivalent to 23.13% on \$16,000,000 capital stock outstanding, or \$11.56 per share on 320,000 shares of \$50 par value.

Current assets, as of Dec. 31, 1916, were \$11,674,873, and current liabilities were \$1,579,267, leaving a net working capital of \$10,095,606.

(2) Combined Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$2,541,041.

(3) Statement by President.—In his annual remarks to stockholders Pres. Windsor T. White, of this company, it was stated April 1, 1917, said in part: "The capital assets of the company and its subsidiaries have been increased during the year 1916 to the extent of \$616,262, the principal items being (1) purchase of additional land for the factory, (2) erection of a new factory building affording approximately 111,000 square feet additional manufacturing space, (3) payments on the new sales building at the northwest corner of Park Avenue and Fifty-seventh street, New York City, (4) additions of machinery and equipment.

"Purchase money obligations to the amount of \$215,000 were paid as they became due.

"The railroad congestion and the company's consequent inability to make delivery of a large number of completed cars materially reduced the profits.

"The business during the year was characterized by a large increase in our domestic business and it is a pleasure to report that up to the present time the sales continue to show a very satisfactory growth."

WHITE OAKS MANGANESE CO., DOVER, DEL.

(1) Incorporated in April, 1917, in Delaware, with a capital of \$250,000, to engage in the business of mining for manganese and other mineral.

WHITE PASS & YUKON RY. CO.

(1) Bond Interest Deferred.—It was stated Jan. 20, 1917, that, under agreement between this company and the debenture holders, coupon No. 32 of the 6% debentures, due Jan. 1, was not paid, but, with the interest due July 1, 1917, will be exchangeable for income debenture stock.

(2) Status.—It was stated Jan. 20, 1917, that this company is an English corporation, registered in 1898, which acquired the capital stock of the Pacific & Arctic Ry. & Navigation Co., the British Columbia-Yukon Ry. Co. and the British Yukon Ry. Co., whose powers comprise the construction of railway from Skagway Harbor to Fort Selkirk, on the Yukon, about 325 miles. In 1901 the steamships and other properties of the Canadian Development Co. were acquired and the business transferred to the British Yukon Navigation Co.

For the year ending June 30, 1916, the company's income was \$56,333, compared with \$54,248 at the end of the 1914 period and \$100,976 in the year ending 1913.

No dividends have been paid since 1913.

WHITE PINE COPPER CO.

(1) Production, December and 12 Months.—Announced Jan. 23, 1917, that this company in December produced 246,608 lbs. of copper, against \$14,534 in November.

During 1916 production totalled 4,215,750 lbs., against 2,824,145 in 1915.

—Feb.

(1) Production.—Announced Feb. 19, 1917, that this company in January produced 368,697 lbs. of copper.

—Mar.

(1) Production, February, 1917.—Announced March 16, 1917, that this company in February produced 250,449 pounds of copper, compared with 368,697 in January, 1917.

—Apr.

(1) Report, Year Ended Dec. 31, 1916, shows gross receipts of \$1,124,934 and surplus after charges and pfd. dividends of \$474,122. The company produced 4,207,449 pounds of copper at an average cost of 11.22 cents per pound and sold the metal at an average of 25.26 cents per pound.

(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$613,908.

(3) Production, March, 1917.—This company April 18, 1917, reported March production as 268,274 lbs. of copper, compared with 250,449 previous month.

WHITE PINE EXTENSION COPPER CO.

(1) Report, June 9, 1915, to Dec. 31, 1916, shows: Total receipts, \$851,073; expenditures, \$802,839; surplus, \$48,233. June 9, 1915, is the date of organization of the company.

(2) Statement by President.—It was announced April 10, 1917, that Pres. J. R. Stanton, of this company, in his remarks to stockholders at their annual meeting said: "Since Jan. 1, 1917, the work of sinking the shaft and drifting on the lodes has continued without serious interruption, the shafts rapidly approaching the fourth level and drifting continued in line of exploration several hundred feet, and stoping has been started. The directors are now considering means of further financing, and application for listing the stock on the Boston Stock Exchange will be made within a short period."

WHITE, POOLE, HOWARD, SIMMONS & CO., WILMINGTON DEL.

(1) Incorporated in February, 1917, in Delaware, with a capital of \$500,000, to handle investments of all kinds.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

WHITIN MACHINE WORKS.

*(1) Financial Statement.—It was stated Feb. 28, 1917, that this company, incorporated under the laws of Massachusetts, had filed with the Massachusetts Secretary of State a statement of its financial condition, dated Dec. 30, 1916, which compares as follows:

	1916	1915
Assets—		
Real estate—	\$638,658	\$500,000
Machinery—	370,111	300,000
Merchandise—	1,029,215	516,352
Cash and debts receivable—	2,198,760	2,116,726
Securities—	1,032,115	—
Total—	\$5,268,860	\$3,433,078
Liabilities—		
Capital stock—	\$600,000	\$600,000
Accts payable—	138,382	62,838
Funded debt—	722,000	272,000
Floating debt—	3,758,478	2,443,240
Profit and loss—	50,000	50,000
Surplus—	—	—
Total—	\$5,268,860	\$3,433,078

WHITMAN & BARNES MANUFACTURING CO., AKRON, O.

*(1) Capital Increased.—On March 17, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$2,267,400 to \$2,500,000.

WHITMAN MOTOR CORP., ST. LOUIS, MO.

*(1) Incorporated on Dec. 30, 1916, in Delaware, with a capital of \$3,000,000, to manufacture automobiles of all kinds. Incorporators: M. L. Rogers, L. A. Irwin and Harry W. Davis, Wilmington, Del.

*(2) Capital Increased.—On Jan. 18, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$3,000,000 to \$10,000,000.

WHITNEY POWER & ELECTRIC CO.

*(1) Earnings Statement, Year Ended Dec. 31, 1916, shows gross revenue of \$782,207, net of \$441,373 and surplus after charges of \$241,799.

WHITEMAN AIRCRAFT CO., INC., NEW YORK.

*(1) Capital Decreased.—On Jan. 2, 1917, the company filed notice at Albany, N. Y., of a decrease in capital stock from \$300,000 to \$75,000.

WICHITA FALLS & NORTHWESTERN RY.

*(1) Bondholders' Committee.—It was announced Jan. 4, 1917, that a committee had been formed with Elisha Walker, of William Salomon & Co., as chairman, to act for holders of the first and refunding 5% gold bonds of this company, a subsidiary of the Missouri, Kansas & Texas Ry. Co.

The Wichita Falls & Northwestern is not in receivership and the interest on its bonds has been paid promptly; but, in view of the fact that a plan for the reorganization of the Missouri, Kansas & Texas is under consideration, the committee believes that the deposit of the bonds to secure concerted action will be beneficial to the Wichita Falls bondholders.

WICHITA INDEPENDENT CONSOLIDATED CO.'S

*(1) Incorporated on March 13, 1917, in Delaware, with a capital of \$25,000,000, to produce and sell crude petroleum and its products, acquire and obtain mineral lands, of lead, zinc, copper, aluminum, etc. Incorporators: H. J. Buser, A. F. Buser, F. A. Leach, C. J. Carney and W. R. Hockems, all of Wichita, Kan.

WICHITA INDEPENDENT CONSOLIDATED OIL & REFINING CO.

*(1) Merger.—The merger of a number of companies, to be capitalized at \$25,000,000 and known as this company, was announced at St. Joseph, Mo., on March 11, 1917.

Among the companies merged are the Wichita Independent Oil & Refining Co., Wichita, Kan.; the Willhauser Property and Kauffman & Co., Eldorado, Kan.; the British-American Oil Co., New York, and plants and properties at Augusta, Leone, Winfield and Argonia, Kan., and in the Blackwell region of Oklahoma.

WILLEY (C. L.) CO., CHICAGO.

*(1) Incorporated in April, 1917, in Illinois, with a capital of \$350,000, to engage in a manufacturing and mercantile business.

WILLIAMS BROS. CO.

*(1) Dividend.—It was announced at Detroit March 16, 1917, that the Security Trust Co., receiver of this company, had sent out checks for a second dividend of 20% to the creditors. This makes a total of 50% which the receiver has already paid to creditors.

WILLIAMS, HARVEY & CO., LTD.

*(1) New Tin Smelter.—See Williams-Harvey Corp.—Item No. 2.

WILLIAMS-HARVEY CORP.

*(1) Tin Plant for National Lead.—See National Lead Co.—Item No. 1.

*(2) New Tin Smelter.—It was announced April 12, 1917, that this company, which is connected with Williams, Harvey & Co., Ltd., said to have the largest tin smelters in Europe, had bought a nine-acre plot in Mill Basin, Jamaica Bay, for a smelter.

WILLIAM (134) STREET CO., INC.

*(1) Incorporated on Jan. 8, 1917, in New York, with a capital of \$250,000, to handle realty and interests in 130-134 William St., property. Incorporators: F. Rosenzweig, C. H. Meyer and W. J. Rose, No. 2 W. 89th St., New York.

WILLYS-OVERLAND CO.

*(1) Statement by President.—On Jan. 12, 1917, Pres. John N. Willys, of this company, was quoted as saying in New York that the company had orders on hand for all the cars that can be produced by it in 1917, numbering 200,000. Inventories on hand amount to \$30,000,000, which cover requirements through the first two-thirds of the year. The requirements for the remaining period are covered by contract.

—Mar.

*(1) Vice-President Resigns.—It was announced at Toledo, O., March 1, 1917, that at a meeting of the Board of Directors of this company H. T. Dunn, Vice-Pres., resigned, effective May 1, to devote his attention to the Flisk Rubber Co. and Federal Rubber Co., of both of which he is Pres. He will remain a director of the Willys-Overland Co.

*(2) Report, Year Ended Dec. 31, 1916, shows net earnings of \$10,016,420, after allowing for the following deductions: \$1,049,141 for repairs and maintenance, \$951,379 for renewals and depreciation, \$1,028,133 for tool replacement and other reserves. This figure of net is exclusive of the profits on shipments to distributing branches which were unsold Dec. 31, amounting to \$1,318,665. Adding this latter item to make comparison of the two years on an equitable basis, net earnings in 1916 of \$11,335,075 compare with \$11,201,255 in 1915.

Net, without including the \$1,318,665 on shipments to branches unsold at the end of the year of \$10,016,420 is equivalent to 22.85% on \$37,273,844 common stock outstanding Dec. 31, equal to \$5.71 a share, after allowing full 7% dividends on \$15,000,000 pfd.

In 1915 net earnings of \$11,201,255 were equivalent to 46.76% on the \$21,000,000 common stock outstanding in that year.

*(3) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Net earnings—	\$10,016,420	\$11,201,255
Net income—	9,565,718	9,870,678
Surp. after pfd. & com. divs—	4,912,074	7,068,618

*(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$27,596,594, compared with \$14,720,550 Dec. 31, 1915.

*(5) Statement by President.—It was announced March 10, 1917, that in his annual remarks to stockholders of this company Pres. John N. Willys said in part: "An important change was made during the year in the method of distribution of our products. At many important cities we took over the business of distribution from outside agencies and established our own branches. This had an important effect on net earnings, as the profit on cars delivered to distribution points under the agency system appears in the accounts at the time of the shipment, while under the new system such profits are delayed to the date of ultimate sale."

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

"If the net profits of the year had been compiled on the same basis as in 1915 they would have been \$1,318,665 larger than reported.

"In the volume of business transacted, the year 1916 exceeded all previous years in the records of the Willys-Overland Co. At the present time unfilled orders for immediate delivery are over 20,000 cars.

"Cost of manufacture advanced during the year, due mostly to many important causes not peculiar to our company, but almost universal among American manufacturers.

"The rapid growth of the business necessitated capital expansion during the year. In January the pfd. stock was retired and a new issue of \$25,000,000 was authorized. Of this new issue \$15,000,000 7% cumulative stock, convertible into common stock, was sold at 102½. Late in the year the common stock was increased from \$25,000,000 to \$50,000,000 and \$15,000,000 of the new stock was offered to stockholders at \$44 per share.

"Part of the capital raised by these sales was used for expansion of plants, warehouses, office facilities and distributing branches. The larger part of it, however, remains as a free working capital.

"The administrative policy of the company remains unchanged. The building plans of 1916 are completed except for about \$635,000 unexpended at the close of the year.

"Its financial policy is definitely conservative, the fundamental feature of it being a determination to maintain at all times an unassailable cash and credit position."

"(6) Comment on 1916 Report.—On March 15, 1917, the "Boston News Bureau" said that with net profits of \$11,335,000 for the 12 months ended Dec. 31, 1916, this company just about fulfilled the expectations of those who realized the effect which freight embargoes in the final months must have had upon shipments and profits. In the first six months the company earned slightly over \$7,000,000, or in other words nearly two-thirds of the full net up to June 30. Considering the fact that only half as many cars could be shipped in the last six months as in the first, the showing is doubly satisfactory.

Including the \$1,318,665 balance of profits properly accruing to shareholders by reason of shipments made to the company's own distributing branches, but which hereafter are not to be credited until sold, the balance for the \$37,000,000 common figures out at \$6.63 a share, as compared with \$48.76 upon the \$21,000,000 common of \$100 par value in 1915. Strictly speaking, the comparison is inequitable as the \$15,000,000 additional common was outstanding less than three months. On the average amount of common out Willys earned close to \$10 a share.

The phenomenal expansion of Willys-Overland in the year is evidenced in plant, working capital and capital stock accounts. Willys realized about \$34,000,000 during the year from the sale of new pfd. stock and the block of \$15,000,000 common and retained about \$7,000,000 from earnings—all used for development of a 200,000-car output.

With a working capital of over \$38,000,000 Willys now has better than \$1 of net quick for every \$4.50 of sales.

"(7) Earnings, 1917, Estimated.—It was stated March 15, 1917, that, based on the results of the first quarter of the year, Willys-Overland should earn close to \$10,000,000 for the first half of 1917, and allowing for the normal reduction of profits in the final six months, it should earn \$18,000,000 for the full 12-month period. As common stock increases 5% April 2, 1917, by reason of the stock dividend, the balance for the full junior issue should be between \$10 and \$11 a share.

"(8) Taxicab Order.—See Westcott Express Co.—Item No. 1.

"(9) Additional Common Stock Listed.—On March 28, 1917, the New York

Stock Exchange admitted to the list \$1,966,125 additional common stock of this company, making the total amount authorized to be listed \$41,621,825.

—Apr.

"(1) Shipments, Quarter Ended March 31.—Total shipments of this company for the quarter ended March 31, 1916, were 44,409 cars of a gross value at distributors' prices of \$28,280,864. This output was within four hours of the scheduled production laid out last December, and was obtained notwithstanding the unusual freight car shortage.

Output in April, May and June is expected to run between 18,000 and 20,000 a month, and raw materials for this production has already been arranged. It is officially stated large orders are being received daily for cars despite the increase in prices which were effective April 2. Distributors are demanding increased allotments and cars are being driven away to points as far as St. Louis and Erie, Pa.

"(2) Order for Motors.—Stated on April 7, 1917, that this company had accepted orders for 4,500 Curtiss aeroplane motors. It was said that this work could be profitably handled in connection with regular output of cars.

"(3) Comment on Shipments.—On April 11, 1917, the "Boston News Bureau" said: "Despite the unusual freight car situation Willys-Overland closed the first quarter of this year with its production within about four hours of the schedule planned last December. Total shipments for the first three months of this year aggregated 44,409 cars, the gross value of which, figured at distributor's prices, footed up to \$28,280,864.

"This compares with 47,465 car output to March 31, 1915. Willys-Overland's banner first quarter. Only two years ago, 1914, the entire output of Willys-Overland was only 48,000 cars.

"The present outlook is for a production of from 18,000 to 20,000 cars per month in April, May and June, always the heaviest shipping quarter for automobile companies. Even allowing for a falling down on the raw material the big Toledo company ought to reach the coveted 100,000 mark by the close of June."

"(4) Output Over 750 Cars Daily.—On April 25, 1917, the "Boston News Bureau" said: "Talk of retrenchment and economy has not yet made itself felt in a material way upon the big automobile companies. Willys-Overland incoming business, for instance, is about as large as at any time this spring and on certain popular models, like roadsters and the Willys-Knights is more than can be handled.

"There are cancellations to be sure, here and there as there always are from those who periodically run to cover at the slightest alarm, but there is nothing to suggest a nation-wide curtailment by distributors.

"Willys-Overland at present is producing between 750 and 800 cars a day, or at a 25% higher rate than the average of about 600 in the first quarter of the year. The planned production up to July 1 of between 18,000 and 20,000 cars a month gives every indication of being fully met, which would mean an output for the first half year of approximately 100,000 cars."

WILMINGTON ARMS & MUNITIONS CO.

"(1) Incorporated on Jan. 6, 1917, in Delaware, with a capital of \$700,000, to manufacture firearms and munitions of all kinds. Incorporators: Wm. Boyd, W. I. N. Lofland and Charles H. Jones, Dover, Del.

WILMINGTON CANNING CO.

"(1) New Plant.—On April 13, 1917, it was announced that future operations of this company, Los Angeles, Cal., include the construction of a shipbuilding plant. It has secured about 150 acres and has appropriated \$500,000 for expansion in 1918.

WILSON BODY CO., DETROIT, MICH.

"(1) Ground Bought for Plant.—On April 19, 1917, the "Iron Age" said this company had purchased 40 acres of land at Bay City, Mich., and had made an agreement with the Board of Commerce whereby the city will provide a fund of \$250,000 for the construction of buildings for the company. The property is located on the Pere Marquette and the Michigan Central belt lines, and will be devoted entirely to the construction of a plant for the manufacture of automobile bodies.

WILSON & CO., INC.

"(1) Application to List.—Announced Jan. 11, 1917, that the New York Stock Exchange had received application to list this company's \$11,483,400 pfd. stock, \$20,000,000 voting trust certificates for common stock, and \$15,000,000 first mortgage 25-year sinking fund Series A bonds, due 1941.

"(2) Listed in Chicago.—Announced Jan. 17, 1917, that the Chicago Stock Exchange had listed \$10,000,000 of this company's pfd., \$20,000,000 voting trust certificates for common stock, and \$15,000,000 6% bonds.

—Mar.

"(1) Earnings Statement, Year Ended Dec. 30, 1916, of this company and its subsidiaries, compares with the earnings of Sulzberger & Sons Co., the predecessor company, as follows:

	Year Ended Dec. 25, 1915	Year Ended Dec. 30, 1916
Net profits.....	\$5,710,358	\$2,463,732
Surp. after chgs. & pfd. divs.---	4,213,159	1,779,883
Total surplus.....	11,043,372	6,850,213
†After deducting depreciation and interest on current debts.		

"(2) Balance Sheet, as of Dec. 30, 1916, shows a profit and loss surplus of \$9,359,817, after deducting \$1,683,560 for adjustment of surplus covering reorganization expenses, bond discount, losses through detained steamers and all other uncertain items of previous years not hitherto fully ascertainable. The profit and loss surplus as of Dec. 25, 1915, was \$6,830,213.

"(3) Two Plants Purchased.—It was stated March 9, 1917, that this company had purchased two salmon packing plants, one in Alaska and one in Washington, with a capacity of 250,000 cases yearly, which will be marketed under the Wilson Brand.

"(4) January Earnings, Estimated.—It was stated March 24, 1917, that the net earnings of this company for January, after bond interest, were understood to have been in excess of \$25,000. This is equal to approximately entire year's dividends on the \$12,000,000 of pfd. stock, leaving 11 months' earnings for the \$20,000,000 common.

"(5) Status (March, 1917).—On March 29, 1917, the "Wall Street Journal" said that the advance of 15 points during the previous few days in this company's common stock had been due to heavy buying by two distinct groups. One is the "Bethlehem crowd," made up of the interests that were the largest purchasers of the old Bethlehem stock below \$75 a share. The other consists of Chicago packing interests in close touch with the industry and who are convinced that on its earnings Wilson common is selling out of line with other industrials.

is not yet complete, the rate of gain started in January was easily maintained in the second month of the fiscal year. In other words, the full 11 months' earnings, after bond interest, starting with Feb. 1, in addition to about \$100,000 of the January net, will be applicable to the \$20,000,000 common stock in 1917.

For the year ended Dec. 31, 1916, Wilson earned a net of \$5,710,358. Bond interest amounted to \$796,485 and pfd. dividends \$700,714. This left \$4,213,159 for the common, or \$21.07 a share. Net for the common in 1915 was equal to \$8.89 a share for the same amount of

JANUARY 1 TO APRIL 30, 1917

stock. On the basis of January and February business, Wilson is earning \$45 a share for the common stock in the current year. Interests close to the management will be much disappointed if the full year does not return at least \$40 a share for the junior issue, and some estimates run as high as \$50.

Wilson's business is expanding rapidly in all departments. According to one who should know, the packing industry shows the smallest profit on the turnover of any business in this country. The sugar industry ranks second.

—Apr.

*(1) Net Earnings, Two Months, \$1,625,000.—This company reported earnings in February, 1917, as in excess of \$800,000, after allowance for interest charges on \$15,000,000 of bonds.

This means that net for the first two months of 1917 amounted to over \$1,625,000 after fixed charges. After allowing \$116,000 pfd. dividend requirements for the two months period, this leaves a little over \$1,500,000 for the \$20,000,000 of common, or \$7.50 a share. Earnings of \$7.50 a share for the common for first two months of 1917 compare with \$21 a share for the full year 1916 and a little over \$8 in 1915.

*(2) Four New Vice-Presidents Elected.—At the organization meeting of this company April 18, 1917, C. E. Wilson was elected Pres. and James A. Howard, Vice-Pres. In addition the following four new Vice-Presidents were elected: George H. Cowan, A. E. Petersen, J. A. Hawkinson and V. D. Skipworth. Other officers were re-elected.

*(3) Status, April, 1917.—On April 20, 1917, Dow, Jones & Co. said that although the facts have never been made public, the syndicate of New York bankers which took over control of Wilson & Co. in 1916 secured about \$12,000,000 of the common stock at approximately \$8 a share. This syndicate was made up of interests associated with the Guaranty Trust Co., the Chase National Bank and Hallgarten & Co.

In buying the company the syndicate of course assumed the maturing debenture bond obligations of \$8,000,000. With the taking up of these bonds the syndicate sold \$15,000,000 of new bonds. The net result was an addition of close to \$7,000,000 to the company's working capital. The pfd. stock is well distributed, but remains as before the change of control. There are now about 1,000 holders of the common.

The turning over of approximately \$12,000,000 of common stock left about \$8,000,000 in the hands of the Sulzberger family, founders of the company, as the common stock is \$20,000,000.

Since that time a New York banking house has sold 50,000 shares of Wilson common, made up of about 25,000 shares of syndicate stock and about the same number of shares of Sulzberger family stock. This house secured the stock in the neighborhood of \$52 a share and sold it for \$57.50 a share.

With the completion of these transactions about \$5,000,000 of the common stock remains in the Sulzberger family.

On this basis about \$10,000,000 of Wilson common is original syndicate stock.

It is understood that G. F. Sulzberger, one of the two active members of the family now owning Wilson stock, has been devoting his time to other South American interests.

An over-the-counter bid for 10,000 shares of Wilson stock in the neighborhood of \$70 a share has met with no response.

Despite the present large earnings, there has been no discussion of any plan for the inauguration of dividends on the common stock. There is a provision for the retirement of 2% of the 7% pfd. each year. The outstanding pfd. issue now stands at slightly less than \$10,000,000.

• WINCHESTER REPEATING ARMS CO.

*(1) Earnings for 1917, Estimated.—On Jan. 17, 1917, the "Boston News Bureau" said: "With Winchester Repeating Arms 2-year 5% notes selling on an 8% basis

the inference is natural that something is out of plumb in the affairs of a corporation which during the 11 years ended Feb. 5, 1916, averaged to pay 55% annually in dividends on its small stock issue of \$1,000,000.

"Winchester Arms has outstanding \$16,000,000 of these notes issued in March of last year. The notes were sold to finance some \$35,000,000 of war orders which the company had on hand as of March 1 last.

"In the 1916 fiscal year the company earned net of \$4,652,004, which after deductions left a surplus of 350% for the stock.

"The current fiscal year it was expected that profits would nearly double this total and reach at least \$8,000,000.

"This expectation of \$8,000,000 net in the year to Feb. 5, 1917, will not be realized for the simple reason that the company has had trouble with its rifle contracts just as have all other manufacturers.

"At the same time adjustments have been made, arrears of delivery have been cleaned up and the company will undoubtedly be able to realize a substantial profit on that portion of rifle orders not affected by the adjustments made a few months ago.

"It is understood that the company's net quick assets are \$21,000,000, or \$5,000,000 more than entire par of the \$16,000,000 notes.

"A great deal of money has gone into plant, probably over \$20,000,000. War profits will, of course, be largely represented by plant and not by cash.

"Winchester Arms shares have had a drastic decline from their high of about \$2.70 per share to the recent level of \$300 to \$225."

—Feb.

*(1) New Officer.—Announced Feb. 1, 1917, that John E. Otterson had been elected Vice-Pres. and Gen. Mgr. of this company.

*(2) Report, Year Ended Feb. 5, 1917, shows:

	1917	1916
Gross sales	\$26,441,075	\$20,309,085
Net income	4,448,850	4,652,004
Net after taxes	1,627,778	---
Surp. aft. fixed charges	10,562	---

*(3) Balance Sheet, as of Feb. 5, 1917, shows a profit and loss surplus of \$18,343,487.

*(4) Earnings on Stock.—It was stated Feb. 13, 1917, that this company's net of \$2,390,631, before payment of taxes, for the year ended Feb. 5, 1917, is equal to 239.06% on the \$1,000,000 capital stock.

*(5) Report on Rifle Contracts.—It was announced Feb. 14, 1917, that the annual report of this company said that special business taken from August, 1914, to Dec. 31, 1916, exclusive of a contract for Enfield rifles which was amended recently, amounted to \$37,149,169. Of this amount, cancellations removed \$7,153,681, and at the end of the period \$3,664,113 remained to be completed. Deliveries were delayed and manufacturing costs greatly increased because of abnormal industrial conditions which affected the whole country.

Referring to the rifle contract with the British Government, which was altered two months previously, the report said that the company would be reimbursed for expenses. The payment is to be made partly in cash and the balance in British Treasury notes.

Rifle contracts of the Midvale Steel & Ordnance Co. were revamped in the same way at that time.

*(6) Directorate Reduced.—It was announced Feb. 14, 1917, that the number of directors of this company had been reduced. Henry Stoddard was elected and Henry Brewer and F. G. Drew retired.

*(7) Comment on Annual Report.—On Feb. 17, 1917, the "Boston News Bureau" said, in part: "The Winchester Arms story is a rather sad one from the standpoint of an old-time gilt-edge stock, but it need not be a particularly serious one from the standpoint of the

\$16,000,000 two-year 5% notes, sold to the public in March, 1916.

"The story of Winchester Arms is one of over-building. The company is 'factory poor.' The campaign of physical expansion ended in the investment in plants and machinery of over \$15,000,000.

"During the two fiscal years ended Feb. 5, 1917, Winchester earned net profits of \$9,100,944. In pre-war days its normal manufacturing net was about \$2,350,000 a year. On this basis the war profit for the past two years has been about \$4,400,000. This means that \$10,000,000 more must be earned before the physical expansion created by war orders can be written down on the books to nothing.

"There is perhaps no need of writing this \$15,000,000 plant investment down to nothing. On the other hand, for a normal domestic business the company had about enough plant capacity before the war started.

"Viewed from the standpoint of the \$16,000,000 notes the hopeful fact is that they are more than covered by quick assets. Net working capital is about \$22,000,000. The company will not make anything out of filling its 400,000 Lee-Enfield contract. On the other hand, it is practically guaranteed against loss.

"During the 1916-17 fiscal period gross sales showed a gain of almost 30% over the previous year, reaching a total of \$26,443,075. Only \$3,664,113 of unfilled war orders were carried over and no more will probably be taken. This excludes the gross of the rifle business which from the standpoint of net is no longer a factor.

"In other words, during the 1917-18 year there will undoubtedly be a severe and continuing decline in the company's gross sales. It will be steadily getting back to normal gross and normal net. This means gradual liquidation of the big inventory account.

"It means that the \$22,000,000 working capital should be ample to cover the \$16,000,000 notes and still leave margin enough so that when they mature March 1, 1918, some \$4,000,000, or perhaps even \$6,000,000 can be paid off in cash and the balance refunded into a new issue.

"During 1916 Winchester Arms had a manufacturing profit of but 16.8%. The previous year it was 22.9%. In short, net profits were \$203,244 smaller, although gross sales gained nearly \$6,200,000 or 30%.

"The stock was \$2,550 per share when the notes were sold and is now quoted \$850 per share."

WINNIPEG ELECTRIC BY. CO.

*(1) Earnings, January, 1917.—It was announced March 8, 1917, that this company's gross for January, 1917, amounted to \$319,945, an increase of \$22,033 over January, 1916, while net was \$88,522, a decrease of \$20,304, and surplus after charges, \$26,573, a decrease of \$25,089.

—Apr.

*(1) City of Winnipeg Threatened with Suit for \$1,000,000.—General Manager Wilford Phillips, of this company, in a letter to the City Clerk of Winnipeg, Man., April 14, 1917, said the company was at a loss to know why the Council objected to the proposed legislation of the Province of Manitoba to bring "Jitneys" under the operation of the Public Utilities Commission, referred to taxes paid, and said the city would be sued by the company for reimbursement to the amount of at least \$1,000,000 for losses sustained as a result of "unfair competition" unless the Council took immediate steps to "carry out its part of the contract."

WINNIPEG PAINT & GLASS CO.

*(1) Report, Year Ended Dec. 31, 1916, shows cash on hand and material, raw or in process of manufacture, amounting to \$759,852, or \$58,000 in excess of a year previously. The moneys held in investments were \$686,279, as against \$768,370 the previous year. In plant,

JANUARY 1 TO APRIL 30, 1917

equipment, etc., the company has \$320,236.22 invested, as against \$323,368.90 at the time of the previous report.

The company's current liabilities amount to \$476,357.75, which must be placed over against \$472,203.36, the similar item a year previously.

WINNIPEG STREET RY.

*(1) To Sue Municipality.—On April 10, 1917, this company served notice on the city officials of the intention to bring against the municipality a suit for damages of \$1,000,000 because of the municipality permitting the operation of jitney in connection with the street railway, despite the exclusive franchise held by the company for all transportation facilities. For the exclusive franchise the company pays the city 5% of its gross revenues and \$20 a year per car operated. In 1916 these taxes returned to the city \$500,000, although it is estimated that in 1916 the revenues of the street railway were reduced \$1,000,000 by the jitney competition.

WINNSBORO MILLS.

*(1) Capital Increased.—Announced Feb. 19, 1917, that this company had decided to increase its capital stock from \$800,000 to \$900,000. It is a Massachusetts corporation.

*(2) Note Issue.—It was announced March 10, 1917, that this company, a Massachusetts corporation, owning a cotton manufacturing plant at Winnsboro, S. C., which is being enlarged and reconstructed so as to manufacture for the United States Rubber Co. a substantial part of its requirements for specialty tire fabrics, had sold to Lee, Higginson & Co. an issue of \$900,000 four-year 6% notes.

Total cash cost of the plant alone will be about \$1,500,000, and it will be ready to start operations on the new product soon after July 1, 1917. The company's contract with the United States Rubber Co. runs at least until Jan. 1, 1921, and insures payment of principal, interest and sinking fund of the notes, in addition to costs of manufacturing.

The mills will be operated by Lockwood, Greene & Co., of Boston.

WINONA COPPER CO.

*(1) Annual Report, Year Ended Dec. 31, 1916, shows balance of assets of \$330,045, including \$162,840 copper sold, payment not due. This compares with balance of assets Dec. 31, 1915, of \$223,324, and \$92,648 on Dec. 31, 1914. Receipts for 1916 totaled \$489,083, and expenditures \$545,201. In addition to the \$162,840 for copper sold, there was \$9,937 for unpaid assessments. The company produced 2,167,255 pounds of refined copper in 1916, which was sold at an average price of 28.03 cents a pound.

WINSLOW BROS. & SMITH CO.

*(1) Capital Stock Increased.—Reported on March 26, 1917, that this company had increased its authorized capital from \$500,000 to \$1,500,000 by issuing 10,000 new shares of common stock to stockholders of record March 24.

WINSTON-SALEM SOUTHBOUND RY.

*(1) Earnings—

	1916	1915
Nov. gross.....	\$79,003	\$49,198
Net after taxes..	42,045	24,954
5 mos. gross.....	359,013	109,424
Net after taxes..	191,545	74,730

*(2) Tentative Valuation Report.—Announcement was made at Washington Jan. 10, 1917, that the Interstate Commerce Commission had made public the tentative report of the field force upon the valuation of this company's property. It shows the original cost of the road was \$5,153,996 and gives the cost of reproduction new as \$5,121,188; same, less depreciation, \$4,753,006.

Original cost of land is given as \$401,546 and the present value thereof as \$538,924. The summary sheet attached to the report gives the following data:

Road: Original cost, \$4,637,819; cost of reproduction new, \$4,493,137; cost, new, less depreciation, \$4,206,604.

Equipment: Original cost, \$293,881; cost of reproduction new \$292,165; cost new, less depreciation, \$232,626.

General expenditures: Original cost, \$222,296; cost of reproduction new, \$335,886; cost new, less depreciation, \$313,776.

This road is 89 miles long, between Winston-Salem, N. C., on the Norfolk & Western and Wadesboro, on the Atlantic Coast Line. Its \$125,000 stock is owned jointly by the two connecting roads mentioned, which guarantee its \$5,000,000 4% first mortgage bonds. In addition, the road had on June 30, 1916, \$1,185,000 loans and bills payable. The line was completed in 1911.

This valuation is subject to objections by the company and also to modifications by the commission itself, which has not finally passed upon many of the principles and methods observed in reaching these tentative figures.

In the cases of the Kansas City Southern and the Atlanta, Birmingham & Atlantic, the President's conference committee on Federal valuation, which is looking after the interests of practically all the railroads, has filed a long list of objections to the methods of the field forces, and may be expected to repeat these as to every tentative valuation filed until the commission passes upon them.

If they are then not satisfied, the companies will have recourse to the courts.

WINTON MOTOR CARRIAGE CO., CLEVELAND, O.

*(1) Capital Increased.—On Feb. 6, 1917, the company filed notice at Olympia, Wash., of an increase in capital stock from \$200,000 to \$1,000,000.

WINTON PLACE BUILDING & LOAN CO., CINCINNATI, O.

*(1) Capital Increased.—On April 2, 1917, the company filed notice at Columbus, O., of an increase in capital stock from \$750,000 to \$1,000,000.

WIRE WHEEL CORP. OF AMERICA.

*(1) Incorporated on Jan. 5, 1917, in New York, with a capital of 25,000 shares of \$100 each, 100,000 shares, no par value, to carry on business with \$3,000,000 in wheels, axles, autos and aeroplanes. W. R. Murrin, J. O. Adams and I. B. Hamilton, Plainfield, N. J.

—Mar.

*(1) Large Stock Interest Purchased.—Announced on March 27, 1917, that White, Weld & Co. and Bertron, Griscom & Co. had purchased a large stock interest in this company, a new organization formed under the laws of New York State as a consolidation of Houk Manufacturing Co., the Hendeeville plant of the Hendee Manufacturing Co., the House Wheel Interest and the Rudge-Whitworth Wheel Interest. The company has a capitalization of \$5,000,000 8% cumulative pfd. stock, of which \$4,000,000 is outstanding and 100,000 shares no par value common stock. The pfd. stock is redeemable as a whole or in part on any dividend date on thirty days' notice at 105 and accrued dividend to April 1, 1918. Thereafter at 107½ and accrued dividend to April 1, 1919, and thereafter at 110 and accrued dividend.

—Apr.

*(1) New Company.—It was stated at Boston, April 2, 1917, that public financing of the wire wheel business is involved in the formation of this company, with \$4,000,000 8% pfd. and 100,000 common shares of no par value.

The company has purchased the Houk Mfg. Co., of Buffalo, the latter's selling agency, and the Hendeeville plant of the Hendee Mfg. Co., which will be developed into a manufacturing unit with a daily capacity of 2,000 to 3,000 wheels, making a total capacity of 5,000 wheels. In addition, the company has purchased the entire American rights of Rudge-Whitworth patents, Dunlop, Cowles, House and Houk patents, the entire group covering every phase of wire-wheel construction.

John F. Alvord, Pres. of the Torrington and Hendee manufacturing companies, heads the new company. Financing is being handled by Bertron, Griscom & Co.

*(2) Capital Increased.—On April 7, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$3,000,000 to \$5,500,000.

• WISCONSIN EDISON CO., INC.

*(2) Earnings on Stock.—It was stated Feb. 23, 1917, that this company's appropriation for depreciation for the 12 months ended Jan. 31, 1917, amounted to \$1,116,212, an increase of 29.49% over that for the preceding 12 months, and after deducting interest, taxes and other charges and expenses of Wisconsin Edison Inc., for the 12 months the balance for the period was equivalent to \$4.65 a share on the stock, compared with \$3.01 a share for the 12 months ended Jan. 31, 1916. The company is a North American Co. subsidiary.

—Mar.

*(1) Report, Year Ended Dec. 31, 1916, shows gross earnings of \$1,430,882 and net income of \$971,610.

*(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$1,133,418.

*(3) Directors and Officers Re-elected.—Announced March 20, 1917, that at the annual meeting of this company retiring directors were re-elected. At a subsequent meeting of directors retiring officers were re-elected.

*(4) Dividend.—Announced March 30, 1917, that the company had declared a quarterly dividend of \$1 a share, payable April 15 to stock of record March 31.

*(5) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Gross earnings..	\$1,430,882	\$1,068,396
Net income.....	971,619	600,714
Surp. after divs.	57,869	9,464

*(6) Comment on 1916 Report.—On March 22, 1917, the "Wall Street Journal" said that the combined revenues of this company's subsidiaries for 1916 increased 18.24% from \$3,605,380 in 1915 to \$10,175,072, and the combined net rose \$425,530, or 32.88%, in spite of a depreciation reserve of \$1,105,861. The Milwaukee Electric Ry. & Light Co. did an excellent business, increasing its gross to \$6,961,151, a gain of \$859,436. The net for the same period increased \$305,021, or 29.25%.

The Milwaukee Light, Heat & Traction Co. showed a decrease in net of \$178,274, due to the transfer of \$9,000,000 par value of the common stock of the Milwaukee Electric Ry. to the Wisconsin-Edison, and thereby diminishing its income. Both the Wisconsin Gas & Electric Co., the North Milwaukee Light

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

& Power Co., and the Wells Power Co. showed substantial gains in net.

The general business conditions in the territory covered by the Wisconsin Edison are reflected in the earnings of the company. The growth of the electric load has resulted in the adoption of plans for a substantial increase in the generating plants, aggregating 75,000 kilowatts.

High coal prices and the shortage of railroad cars which have limited the output of industrial plants has acted as a brake to the earnings, but these are expected to show improvements as the situation straightens itself.

The appropriation for depreciation of subsidiary companies for the 12 months ended March 31, 1917, was \$1,097,117, an increase of 11.92% over the appropriation for the preceding year. After deducting interest, taxes and other expenses of Wisconsin Edison Co., Inc., the balance for the 12 months ended March 31, 1917, was equivalent to \$4.38 a share on its capital stock, compared with \$3.52 a share for the 12 months ended March 31, 1916.

WISCONSIN-MINNESOTA LIGHT & POWER CO.

*(1) Operation Plans.—It was stated Jan. 17, 1917, that early in January the hydro-electric development of this company, subsidiary of American Public Utilities Co., would be completed, and the company would be in position to begin the delivery of power from the new generating station at Chippewa Falls, Wis.

The company purchased the power sites on the Chippewa River two years previously and in 1914 construction was started on a 50,000 horsepower development, involving the expenditure of approximately \$2,500,000. The dam for the power station is 60 feet high and 7,200 feet long, and the water above the dam has an area of 12 square miles. The company secured the funds for the work from bonds, pfd. stock and advances from the parent company.

The last statement showed that \$1,163,000 of bonds and \$792,000 of pfd. stock had been sold and \$437,056 advanced, making a total of \$2,392,056, almost all of which had gone into the new development.

This new investment during its unremunerative period, which is now ending, called for a substantial increase in the interest and pfd. dividend charges, but with the opening of the new plant a large increase in revenues will be shown.

A large amount of the energy to be generated by the new plant has been sold to the Northern States Power Co. under a 30-year contract, which became effective Jan. 1, 1917. Northern States Power has constructed a transmission line and also sub-stations in Minneapolis and St. Paul, where the energy will be largely distributed.

Northern States Power has the right, but is not bound to take any surplus energy from the plant until 1918, in which year it shall take a minimum surplus amount of 13,000,000 kilowatt hours; in 1919, 24,000,000 kilowatt hours; in 1920, 34,000,000 kilowatt hours; and in 1921 and each year thereafter a minimum of 52,000,000 kilowatt hours of surplus energy.

For the constant energy Northern States Power is to pay .0055 cent a kilowatt hour and for the surplus energy .003 cent a kilowatt hour.

—Feb.

*(1) New Hydro-Electric Plant.—See Northern States Power Co.—Item No. 1.

*(2) Earnings Statement, 12 Mos. Ended Dec. 31, 1916, compares as follows:

WISCONSIN MOTOR MANUFACTURING CO., MILWAUKEE, WIS.

*(1) Stock Dividend.—Capital Increase.—It was announced March 1, 1917, that this company at its annual meeting had declared a stock dividend of 100% in addition to the regular cash dividends, and to accomplish this voted to increase the capital stock from \$350,000 to \$1,000,000. The new issue will consist of \$300,000 of 7% pfd. and the remainder common.

It is planned to enlarge the works so that the capacity will be doubled. The company is one of the largest manufacturers of internal combustion engines in the United States. It specializes in automobile, motor truck, tractor and aviation engines. Charles H. John is Pres. and Gen. Mgr.

WISNER ESTATES, INC.

*(1) Incorporated on April 23, 1917, in Delaware, with a capital of \$10,000,000, to encourage immigration and develop agricultural and manufacturing interests in Louisiana. Incorporators: F. D. Buck, M. L. Harty and K. E. Longfield, Wilmington, Del.

WOLF BROS. & CO., CINCINNATI, O.

*(1) Capital Stock Reduced.—On March 26, 1917, the company filed notice at Columbus, O., of a reduction in capital stock from \$250,000 to \$10,000.

WOLF (FRED W.) CO., CHICAGO.

*(1) Capital Decreased.—On Jan. 8, 1917, the company filed notice at Springfield, Ill., of a decrease in capital stock from \$250,000 to \$25,000.

WOLFENDEN (R.) & SONS.

*(1) Plant Addition.—It was stated March 1, 1917, that this company had completed plans for the erection of two additions to its plant at an approximate cost of \$20,000. Machinery has been contracted for to bring up the capacity to 50,000 pounds a day.

WOLLTHAUSES HAT CORP., LTD. (THE).

*(1) Tenders Asked.—Announced March 4, 1917, that the National Trust Co., Ltd., Toronto, Ont., trustee, would receive until March 19, 1917, proposals for the sale to it of sufficient 1st mortgage 6% 20-year sinking fund gold bonds, dated Feb. 22, 1917, to exhaust \$3,450, each offer to include interest.

• WOLVERINE COPPER MINING CO.
*(1) Production, December, 1916.—Announced Jan. 26, 1917, that this company's output in December totaled 487,658 pounds, compared with 528,294 in November.

—Feb.

*(1) Dividend Increased.—Announced Feb. 27, 1917, that this company had declared a semi-annual dividend of \$7 a share, payable April 2 to stock of record March 7. This is an increase of \$1 a share over the dividend declared six months previously.

—Mar.

*(1) Production, January, 1917.—Announced Feb. 28, 1917, that this company in January produced 501,478 lbs. of copper, compared with 487,658 in December and 460,967 in January, 1916.

*(2) Estimate of Earnings, Six Months to Dec. 31, 1916.—Net earnings of this company in the first half of its fiscal year, the six months to Dec. 31, 1916, were about \$590,000, against which dividend of \$420,000, or \$7 a share, were disbursed.

Approximately one-half of Wolverine's present output comes from old foot walls in the mine. Its No. 4 shaft has about 200 feet to go before striking depth of the property and to work out the remaining virgin ground tributary to that opening will require, it is estimated, between one and two years.

But a dozen years remain for Wolverine, according to estimates of the management, in the cleaning up of the property from bottom to top. This will be accomplished through extracting every available pound of copper from all stopes, foot walls and supports that have remained.

—Apr.

*(1) Production, March, 1917.—This company April 17, 1917, announced its March production as 481,720 lbs. of copper.

WOLVERINE SUGAR CO.

*(1) New Name.—See German-American Sugar Co.—Item No. 3.

WOOD (J.) & BROS. CO.

*(1) To Be Taken Over.—See Wood (Alan) Iron & Steel Co.—Item No. 1.

WOOD (ALAN) IRON & STEEL CO.

*(1) Acquisition Planned.—It was stated March 14, 1917, that this company, Philadelphia and Conshohocken, Pa., had completed plans for the acquisition of the J. Wood & Brothers Co., Conshohocken. Actual transfer of the property has been awaiting the settlement of many problems which arose from the fact that the J. Wood & Brothers Co. was 85 years old.

Through the purchase of the company, the Alan Wood Iron & Steel Co. adds 20,000 tons per annum to its capacity for the production of sheets and light plates.

WOODMEN BUILDING ASSOCIATION, ST. LOUIS, MO.

*(1) Incorporated on Jan. 26, 1917, in Delaware, with a capital of \$250,000, to deal in land, build offices, etc. Incorporators: Herbert E. Latta and Norman P. Coffin, Wilmington, Del., and Clement M. Egner, Elkton, Md.

WOODS CUSHION WHEEL CO., CLEVELAND, O.

*(1) Incorporated on Jan. 4, 1917, in Ohio, with a capital of \$500,000. Incorporators: Ed. D. Woods, Geo. H. Eichelberger H. Koren, Herman J. Nord, Leif Koren and Frederick Schussler.

WOODS (A. H.) PICTURE CORP., INC.

*(1) Incorporated on March 3, 1917, in New York, with a capital of \$1,000,000, to deal in motion pictures and theatricals. Incorporators: R. I. Kohn, M. Herman and A. H. Woods, 236 West 42d Street, New York.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

**WOODS (A. R.) THEATER CO.,
CHICAGO, ILL.**

¹(1) Capital Increased.—On Jan. 23, 1917, the company filed notice at Springfield, Ill., of an increase in capital stock from \$500,000 to \$800,000.

WOODWARD IRON CO.

¹(1) New By-Product Ovens.—A Woodward, Ala., dispatch Dec. 23, 1916, stated that construction of the 60 Wilputte by-product coke ovens had been started by this company there. With their addition the Woodward company in eight months' time will have 170 modern ovens producing coke and the valuable by-products.

These ovens will give the Woodward company a large tonnage of coke, inasmuch as they will produce 3,000 tons every 24 hours. The company already has 110 Koppers by-product ovens operating.

WOOLWORTH (F. W.) CO.

¹(1) December, 1916, Sales Set New Records.—It was stated Jan. 2, 1917, that sales of this company's stores on Dec. 23, 1916, were \$1,629,714, the largest day's business in the history of the company. Compared with sales on Dec. 24, 1915, they showed an increase of \$382,536, or 30.67%. Of the increase \$281,844, or 72%, came from the old stores.

Sales for the seven days before Christmas were \$6,761,736, compared with \$5,994,581 for the same period of 1915, an increase of \$767,155, or 12.80%. Of this increase \$384,715, or 55%, came from the old stores.

For the full month of December sales should be approximately \$13,750,000. Eleven months' sales were \$73,449,946, so that the full year should show about \$87,200,000, the largest sales in the company's history and an increase of more than \$11,000,000 over 1915.

With sales of more than \$87,000,000 assured an estimate of net can be made. In 1915 the company showed 9.9 cents profit on each dollar's sales. Assuming that the same profits will accrue in 1916, net can be figured at \$8,632,800. After allowing 7% on the \$13,000,000 pfd. there would remain \$7,722,900, or \$15.44 for the \$50,000,000 common, compared with \$13.18 the previous year. Incidentally, 1916 will set a new high record for earnings on the common.

During 1916 the company opened 112 new stores and now has 920 stores operating. Some other locations were under lease to be opened late in 1916, but on account of alterations they will have to be opened during the early months of 1917.

¹(2) Sales, December and 12 Months.—Sales of this company for December, it was announced Jan. 4, 1917, were \$13,636,513, compared with \$12,194,590 in December, 1915, an increase of \$1,441,917, or 11.82%. Of this gain \$674,494, or 46.9%, came from the old stores.

For the 12 months, sales were \$87,082,513, compared with \$75,973,515 for the full year 1915, an increase of \$11,109,400, or 14.62%. Of this increase \$6,312,382, or 57.36%, came from stores which were operating in 1915.

Sales for 1916 are the largest on record, and compare with \$60,557,767 in 1912, the first year the company was formed. In 1916, a new record was established for the number of new stores opened, the chain being increased by 112 new locations, there now being 920 stores in operation.

—Feb.

¹(1) Lease.—It was announced Jan. 30, 1917, that this company had taken a 40-year lease on 403-409 Fifth Avenue, opposite the New York Public Library, and would erect a six-story building, the lower floor to be used for a five-and-ten-cent store. The rental of the property is \$112,250 a year.

¹(2) Income Account, Year Ended Dec. 31, 1916, compares as follows:

	1916	1915
Net sales.....	\$87,089,271	\$75,995,774
Net income.....	8,713,445	7,548,210
Bal. after pfd. div.	7,785,945	6,594,460

Surp. after com.

div. & premium on pfd. 3,792,319 3,208,950

¹(3) Earnings on Stock.—It was stated Feb. 6, 1917, that this company's 1916 balance of \$7,785,945, after pfd. dividends, is equal to 15.57% on the \$50,000,000 common stock, as against 13.81% on the same stock in the previous year.

¹(4) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$15,838,000, compared with \$11,576,842 Dec. 31, 1915.

¹(5) Comment on Annual Report.—On Feb. 8, 1917, the "Wall Street Journal" said that the outstanding feature of this company's report for 1916 is the showing of 10.01 cents profit on each dollar's sales. For a number of years the managements of the various five-and-ten-cent chains have been trying to attain what they term the "bull's-eye," that is, ten cents profit on each dollar's gross, and the Woolworth chain is the first to attain it.

The surprising part of this feat is that it was accomplished in a year when the prices of commodities were at their highest point, and in a year when the company increased its chain by 115 stores.

Much adverse comment has often been provoked by the fact that the company's "good-will" item was valued at \$50,000,000 at the time of its organization in 1912, this being the amount of the common stock issue. The company has just completed its fifth year's business, and a table showing what has been placed behind this common stock in the five years is timely.

Good-will in a chain store system undoubtedly is of real value, but disregarding this figure entirely the following showing is made:

	1916	1912
Property assets.....	\$31,079,390	\$19,437,483
Outside liabil.....	1,371,742	640,826
Net asset value.....	29,707,657	18,796,657
Pfd. stk. at par.....	13,000,000	15,000,000

Balance	\$16,707,657	\$3,796,657
Book value, per share of com.....	33.40	7.59

In addition to this enhancement in book value, it might be well to point out that since its organization the company has paid \$30 a share in dividends on the common stock.

A pertinent factor in the success of the Woolworth chain is the efficiency of the management and its ability to get more cents profit on each dollar's sales than any other five-and-ten-cent store chain.

There were a few changes in the balance sheet.

¹(6) Sales, January, 1917.—Announced Feb. 7, 1917, that this company's sales in January amounted to \$5,559,975, against \$4,648,257 in January, 1916, an increase of \$951,718, or 20.47%.

—Mar.

¹(1) Sales, February, 1917, amounted to \$5,643,719, compared with \$5,347,262 in 1916, a gain of \$296,457, or 5.54%. For the first two months of 1917 sales were \$11,241,759, compared with \$9,995,519 for the same period of 1916, a gain of \$1,246,239, or 12.46%.

The small increase in sales in February, compared with a gain of 20.47% in January, was mainly due to the fact that there were only 24 business days in February, 1917, against 25 in February, 1916.

—Apr.

¹(1) Sales, March and Three Months.—It was announced April 13, 1917, that this company's sales during March, 1917, totaled \$7,235,548, compared with \$6,244,843 for March, 1916, a gain of \$989,704. Sales for the first three months of 1917 were \$18,478,808, against \$16,246,047 for the same period in 1916, a gain of \$2,232,850.

**WORCESTER CONSOLIDATED
STREET RY. CO.**

¹(1) Bonds.—It was announced Jan. 23, 1917, that this company had filed a

petition with the Massachusetts Public Service Commission to issue \$240,000 4½% gold bonds in order to retire an issue of \$200,000 20-year 4½% mortgage bonds of Worcester & Blackstone Valley and \$40,000 bonds of Uxbridge & Blackstone street railway companies, assumed by the Worcester Consolidated Street Ry. Co. when these companies were taken over.

¹(2) Pfd. Stock Issue Planned.—It was announced Jan. 23, 1917, that this company had petitioned the Massachusetts Public Service Commission for permission to cancel 33,750 of its total of 66,260 common shares, par \$100, and issue 45,000 shares of 1st pfd. stock, cumulative at the rate of 5% per annum.

**WORCESTER, NASHUA &
ROCHESTER R. R.**

¹(1) Bonds.—See Boston & Maine R. R.—Item No. 5.

**WORLD'S CHEAPEST POWER
CO. (THE) OF AMERICA.**

¹(1) Incorporated in January, 1917, in Delaware, with a capital of \$500,000, to operate water-power plants. Incorporators: Harry Ebert, August Muer and Henry Muer, of Frederick, Md.

WORLD'S STAR KNITTING CO.

¹(1) Additional.—It was stated March 9, 1917, that this company, manufacturer of underwear and hosiery, would erect additions on recently purchased block adjoining the factory. The company is capitalized at \$250,000.

**WORLD SYNDICATE CO., INC.,
NEW YORK.**

¹(1) Capital Increased.—On Jan. 6, 1917, the company filed notice at Albany, N. Y., of an increase in capital stock from \$150,000 to \$250,000.

WORTH BROS.

¹(1) Locomotive Orders.—See Baldwin Locomotive Works.—Item No. 2.

WORTH BROS. CO.

¹(1) Large Earnings on Stock.—See Midvale Steel & Ordnance Co.—Item No. 2.

**• WORTHINGTON PUMP &
MACHINERY CORP.,
RICHMOND, VA.**

¹(1) Incorporated on Feb. 19, 1917, in Washington, with a capital of \$36,000,000. Incorporators: Gardner P. Lloyd, Thomas B. Gay and W. A. Strata.

—Mar.

¹(1) Earnings Statement, Nine Months Ended Dec. 31, 1916, shows gross, including other income, of \$10,785,756 and surplus, after charges and pfd. dividends on class A stock, of \$670,460.

¹(2) Earnings on Stock.—It was stated March 1, 1917, that this company earned \$964,092, or 17.23%, on its \$5,592,833 7% pfd. "A" stock outstanding during the first nine months of the company's operations, which ended Dec. 31, 1916. This is at the rate of 22.97% on that issue. After this dividend of \$293,623 was paid there remained \$670,469 applicable to the \$10,321,671 6% pfd. "B" stock outstanding, on which no dividends are being paid and which is not cumulative until April 1, 1919. Balance on this issue was equivalent to 8.66% for nine months a rate of 11.64% per annum. Assuming dividend on this issue had been paid for the nine months there would have remained \$105,994 available for the outstanding \$12,992,149 common stock.

¹(3) Income Account, Nine Months Ended Dec. 31, 1916, shows manufacturing and trading profits of \$2,013,629, as compared with gross billings to customers of \$10,655,576, a ratio of 18%. These figures include no war business. Manufacturing profits of \$2,013,619 for nine months are at the rate of \$2,824,836 per annum. In 1907 the International Steam Pump Co. had highest manufacturing profits in its history, when they were \$2,288,914.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Billings to customers of \$10,655,576 for nine months, or at rate of \$14,000,000 per annum, indicate that the company's plants are operating close to their maximum capacity. It is understood the company has approximately \$9,000,000 of unfilled orders on its books, exclusive of war business.

⁽⁴⁾ Balance Sheet, as of Dec. 31, 1916, shows current assets of \$11,535,884, against current liabilities of \$1,116,002. General balance sheet as of April 1, 1917, showed current assets of \$11,824,342, against current liabilities of \$966,590. Net working capital at beginning of 1917 was then \$10,421,282, against \$10,957,752.

Balance sheet shows net assets of ammunition department are \$3,006,420, against which are liabilities in form of advances on uncompleted contracts to amount of \$1,087,500. This means that the company has tied up \$1,917,920 of its funds in manufacture of munitions.

⁽⁵⁾ Comment on First Report.—On March 16, 1917, the "Wall Street Journal" said that during the first nine months of its career to Dec. 31, 1916, this company's operations have been at a rate well in advance of those of the companies of which it is the successor. Goods billed out from factories aggregated \$10,655,576, while orders booked were \$15,285,592. Plants have been working at full capacity, and unfilled orders, exclusive of ammunition business, on Jan. 1, 1917, of \$9,234,721 assure that this pace will be continued during the current year.

Comparison of bookings, billings and profit of this company and predecessor companies for the calendar year 1916 and for the fiscal year ended Sept. 30, 1915, for the old companies, shows the advances Worthington's business has made:

	1916	1915
Bookings	\$19,844,452	\$10,154,879
Billings	14,087,031	8,558,197
Mfg. profits	2,681,855	975,001
Ratio of profits to billings	18.8%	11.4%

†Subject to depreciation.

⁽⁶⁾ Unfilled Orders, as of Dec. 31, 1916, amounting to \$9,234,721, compare with \$3,405,275 in 1915 and \$1,414,700 in 1914.

⁽⁷⁾ Statement by Vice-President.—On March 15, 1917, it was stated that Vice-Pres. Coleman, of this company, in remarks to stockholders on the ammunition contract which should be completed by June, 1917, said: "Under the terms of the contract which this corporation has taken for shrapnel shell bodies for Russian ammunition, which provides that payment is to be made to this corporation only when the parts to be supplied by our associated contractor are added and the complete round of ammunition delivered f. a. s. New York Harbor, practically no payment for the portion completed by your corporation has been received; but an advance of \$1,087,500 was made at the time of the signing of the contract."

"These terms of the ammunition contract, together with the necessarily increased inventories of raw materials and supplies, and work in progress and accounts receivable in our regular lines of manufacture, due to the increased output and to the volume of orders in hand, have occasioned a heavy demand on our cash, which it is anticipated will be relieved as soon as material shipments of the completed articles under the ammunition contract go forward."

⁽⁸⁾ New Directors.—At the annual meeting of the shareholders on March 28, 1917, N. M. Clark and W. H. Baumes were elected to the board and retiring directors were re-elected.

—Apr.

⁽¹⁾ Estimate of Earnings.—On March 31, 1917, the "Wall Street Journal" said that this company's bookings for the current year were expected to aggregate about \$22,000,000. There were also unfilled orders totaling \$9,234,721 on the books of the company Jan. 1, 1917. Billings to customers in excess of \$16,000,000 are hoped for. These figures make no account of the corporation's Russian shell contract. The records

made by Worthington and its predecessor companies in 1916 are eclipsed by this prospective business. Assuming that the ratio of profit from manufacturing and trading to billings, of 18.8%, which was attained in 1916, should be maintained this year, this profit would be approximately \$3,008,000.

Assuming that miscellaneous income from investments, from interest on current accounts and bills receivable, etc., for 1917 would be equal that for twelve months of 1916 as based on the income account for the nine months ended Dec. 31, 1916, or \$173,574, the gross income for 1917 would total \$3,181,574.

If deductions for depreciation of plants and equipment, interest on bonds of the Holly Manufacturing Co. and the Jeaneville Iron Works and for cash discounts, estimated on the same basis as the miscellaneous income, totaling \$748,422, were made from the gross income, there would be left a net income applicable to dividend of \$2,433,152.

WORTH STEEL CO., COATESVILLE, PA.

⁽¹⁾ Incorporated on Jan. 24, 1917, in Delaware, with a capital of \$2,500,000, to manufacture, sell and deal in and with iron, steel manganese, etc. Incorporators: John S. Worth, Wm. P. Worth, Ed. H. Worth, Wm. A. Worth and Norman L. Entekin, all of Coatesville, Pa.

WRIGHT-HIBBARD INDUSTRIAL ELECTRIC TRUCK CO., INC., BUFFALO, N. Y.

⁽¹⁾ Incorporated on Jan. 22, 1917, in New York, with a capital of \$300,000, to deal in autos, industrial motors, water motors, steam turbines and locomotives. Incorporators: R. F. Hibbard, G. A. and W. H. Wright, 48 South Division Street, Buffalo, N. Y.

WRIGHT-MARTIN AIRCRAFT CORP.

⁽¹⁾ Operating Plans.—It was stated Jan. 6, 1917, that the new plant of this company will begin aeroplane motor production on or before Feb. 1 and a production of 10 motors daily is confidently expected within a reasonable time after that. Some estimates place the profit per motor at \$1,500. More conservative figures reduce the anticipated profit to \$1,000 per motor.

This might mean in a 300-day year net profits from motors alone of \$3,000,000 against a cumulative preferred dividend of \$350,000 yearly.

It is thought that when the Simplex motor car construction programme is in operation the automobile end of the business alone will show the pfd. dividend twice earned. The pfd. is paying no dividend, and it is likely that none will be paid until the operating end is well on its feet. In the meantime the dividend is accruing.

⁽²⁾ Development.—On Jan. 16, 1917, a shareholder of this company was quoted as saying:

"I don't know what the contracts are with the Wright-Martin Aeroplane Co. for the manufacture of the wonderful new aeroplane motor, but as the men behind this company are the richest and shrewdest in the United States, I don't think they converted the Simplex Motor Car Co. over from 200 motor units per annum to 5,000 motor units per annum at an expense of some millions without contracts for business insuring good returns on the investment."

"I recently looked into the matter and I was surprised to find the size of the business as compared with the Wright-Martin capitalization. There is only \$5,000,000 pfd. stock. These aeroplane engines cannot cost less than \$5,000 or \$6,000. They are built like a watch and are the most expensive motors, and for size the most expensive piece of machinery that I ever examined."

"Five thousand of them at \$5,000 each would be \$25,000,000. Studying these figures, I cannot understand why the pfd. stock is offered at 60. This war is going on and the world is going to get from it an aviation development such as it might not get in 100 years of peace."

⁽³⁾ New Plant Ready in February.—It was stated Jan. 23, 1917, that in February this company's new plant would begin production. The management is figuring on an initial production of about 800 large size and perhaps 400 to 500 small sized Simplex cars per annum.

The plant has a capacity of 5,000 motor units yearly, but it will probably be a number of months before any such rate of output is attained. The prospects favor a 10 motor per day or 3,000 per year production within a reasonable time after production starts.

On this production the company is expected to earn from the outset several times the 7% dividend, on the \$5,000,000 pfd.

This \$350,000 of accumulating dividends on the pfd. is such a small matter, however, that it is not likely to receive any consideration from directors until it has run for at least 19 months.

—Feb.

⁽¹⁾ Government Negotiations.—It was stated Feb. 6, 1917, that the United States special advisory board on aeronautics, appointed by Pres. Wilson, had been in important negotiations with officials of this company. This committee reports direct to the Pres., who in turn advises with War and Navy Departments on recommendations received.

As a result of negotiations, it is learned the Government may commandeer the 450 Hispano-Suiza aeroplane motors in process of manufacture by the company for the French Government at its plants at New Brunswick, N. J.

As a result of discussion on the patent situation, it was stated that the advisory board is in favor of paying the Wright Corp. a lump sum tentatively placed at \$1,000,000, in order that aeroplane manufacturers may without restrictions go ahead and make aeroplanes without fear of suits by the Wright Corp.

In this event the Government will collect royalties from individual manufacturers at rate of 2% on gross business up to \$300,000 a year, and as a further consideration is to have privilege of purchasing the Wright patents for \$2,000,000, the initial payment of \$1,000,000 applying on this purchase.

⁽²⁾ President Resigns.—It was announced Feb. 15, 1917, that Edward M. Hagar had resigned the presidency of this company to accept service in an important capacity with another company.

⁽³⁾ Executive Staff Reorganization Planned.—It was stated Feb. 15, 1917, that this company, which recently completed the largest aeroplane motor plant in the world, was planning a reorganization of its executive staff in order that production could be facilitated when the Government's plans are completed.

⁽⁴⁾ Merger Plan Reported.—On Feb. 27, 1917, the "Wall Street Journal" said: "In connection with the rally of Wright-Martin from \$6 to \$9 a share, it is said that an important announcement favorable to the company will be made shortly. It is current gossip that a consolidation of Wright-Martin and the Curtiss Aeroplane & Motor Corp. is under consideration."

—Mar.

⁽¹⁾ Change in Management.—On Feb. 28, 1917, the "Boston News Bureau" said that the eminence of this company's directors and their absorption in their own lines of financial and business activity had prevented their giving that close attention to the management which was demanded.

"The serious mistakes of the management were finally discovered and a change has occurred. A new hand is at the helm and it is hoped that the net result of the serious errors of the former executives will be nothing more than a few months' delay in getting started."

JANUARY 1 TO APRIL 30, 1917

"Wright-Martin has not yet begun to turn out aeroplane motors from their own dies and tools.

"One complete motor has been made and tested, but it is a hand-made motor. Few persons appreciate the delicacy and refinement which production of aeroplane motors demands. It took some of the rifle producers six to nine months to get their jigs, dies and tools for the making of rifles. But an aeroplane engine is a much more complicated proposition than a rifle. It is made with the precision of a watch.

"It seems likely, therefore, that the six or seven months which have so far been devoted by the Wright-Martin management to getting equipment and tools ready will have to be lengthened out a bit. These, however, are details. There is no question in the minds of directors but that the company can successfully produce motors in quantity and probably at a reasonably early date.

"The \$5,000,000 pfd. in the meantime is selling for about \$2,000,000, or less than 25% of the cash which has gone into the proposition."

"(2) Merger Discussion.—On March 6, 1917, the "Boston News Bureau" said that while it is true that negotiations for the consolidation of the Curtiss Aeroplane Motor Corp and this company are in progress, it is by no means certain that this deal will come to a head. There are interests in Wright-Martin who feel that the company can work out its own salvation. Already since the old management was ejected there have been a number of important operating economies introduced. In November and December the company was actually losing money in producing Simplex cars. No legitimate excuse existed for such a situation. To-day the company is making a little profit on the production of Simplex cars.

Wright-Martin has made a very few finished aeroplane engines with its own tools. They have been tested out in the shop with the result that it has been found that they develop one horse power for each three pounds of weight. This is believed to be a unique record.

Wright-Martin will shortly need some new cash. It is not actually in debt to the banks as yet, but it has used up nearly all of the new cash provided by the 1916 refinancing, which resulted in the sale of \$5,000,000 pfd. This pfd. issue gave money to pay off \$3,000,000 of old debts.

"(3) Merger Plans Abandoned.—It was stated March 22, 1917, that negotiations for the consolidation of this company and the Curtiss Aeroplane & Motor Corp. had been discontinued and would not likely be resumed.

While generally admitted that eventually there might be a consolidation of these two companies, the interests in the individual companies were not able to reconcile their differences of opinion concerning earning and assets values.

The Curtiss plant has been engaged in production of aeroplanes for the Allied governments, the United States Government and private purchasers for more than a year. Orders on the books total \$12,000,000, and output is at the rate of approximately \$1,000,000 a month.

The Wright plant is perhaps the largest plant ever constructed for the manufacture of aeroplane motors. After discouraging delays and disappointments it is organizing and systematizing the new plant which has been constructed and equipped in 18 months.

Early in January the Curtiss Company financed its maturing notes by the sale of \$2,000,000 two-year serial notes and \$2,000,000 ten-year debenture notes. This company's working capital is low, but no new financing is contemplated.

The Wright-Martin Corp., however, is confronted with immediate necessity for raising new funds for working capital because of the exhaustion of working capital through payroll and overhead charges during the period of unproduction.

It is thought, however, that the strong interests behind this company will see it through financially.

—Apr.

"(1) Motor Deliveries to France.—On April 14, 1917, the "Boston News Bureau" said: "It is understood that the Wright-Martin Co. has already delivered ten aeroplane motors to the French Government on account of the contract received last year. This contract called for 450 motors, but production has been greatly delayed.

"It is expected that in April the company will produce double the March figure. It is, of course, obvious that at present the company is making no net profit."

"(2) Production Increased at Rapid Rate.—The "Wall Street Journal" April 26, 1917, stated that better production is being secured at this company's plant at New Brunswick, N. J., and there are indications that the production of Hispano-Suiza motors will be between 40 and 50 during May.

The 21st and 22nd Hispano-Suiza motors produced at this new plant have been accepted by the French Government, which placed an order for 450 with the company. The 23rd and 24th motors are on the testing blocks and it is expected will be delivered the first week in May.

The company is producing an average of one Simplex motor car a day. The company has taken an order for 16 aeroplanes for the United States Government. These will be manufactured at the Martin plant near Los Angeles.

A comprehensive plan for financing and reorganizing the company is under discussion.

YELLOW PINE PAPER MILL CO.

(1) Capital Increased.—Announced Jan. 8, 1917, that this company, of Orange, Tex., had increased its capital from \$500,000 to \$1,000,000.

YELLOWSTONE PARK CAMPING CO.

(1) Incorporated on Feb. 23, 1917, in Delaware, with a capital of \$300,000, to transport passengers and freight. Incorporators: A. W. Miles, L. Chester Shaw and I. D. Powell, Livingston, Mont.

YEOMANN MINES & METALS CO., EVERETT, WASH.

(1) Incorporated on March 17, 1917, in Washington, with a capital of \$1,000,000. Incorporators: David Alden, R. E. McFarland and George W. Dutton.

YOLANDE COAL & COKE CO.

(1) New Mine.—It was stated Jan. 3, 1917, that this company plans to spend \$300,000 for a new mine at Yolande, Ala. Diamond drills are boring for the opening, and \$100,000 will be invested for the initial purchases of engines, boilers, tipples, washers and other necessary machinery. Further expenditures will amount to \$200,000. This new mine is to have a daily capacity of 3,500 tons.

This will be the seventh Yolande mine, and it will be on the Black Creek seam. The company's other mines are on the Blue Creek and Jagger coal seams.

YOLA OLIVE CO., INC.

(2) Balance Sheet, as of Dec. 31, 1916, shows a corporate deficit of \$268,181.

YOUNG (RICHARD) CO.

(1) Stock Increase Planned.—It was announced Jan. 25, 1917, that the annual and a special meeting of the stockholders of this company had been called for Feb. 1 to vote on a proposition to increase the capital stock from \$600,000 to \$1,000,000 and to increase the board from five to seven members.

YOUNG-HARTSELL MILLS CO.

(1) Officers.—It was announced Feb. 21, 1917, that at this company's annual stockholders' meeting directors were re-elected and the following officers were elected: W. W. Flowe, Pres.; A. J. Yorke, Vice-Pres.; J. J. Hartsell, Sec'y and Treas. A 6% dividend was ordered paid at the same meeting and the company's name was changed to Hartsell Mills Co.

YOUNGSTOWN IRON & STEEL CO.

(1) Sale.—See Youngstown Sheet & Tube Co.—Item No. 4.

(2) Sale.—See Sharon Steel Hoop Co.—Item No. 2.

(3) Sale Price for Stock.—A Sharon, Pa., dispatch Feb. 16, 1917, stated that shareholders of this company would re-

ceive \$200 a share for their stock as the result of the acquisition of the works at Lowellville and Haseltown, O., by the Sharon Steel Hoop Co. Prior to the sale the stock was selling around \$130 a share. The Youngstown Co. has a capitalization of \$3,000,000, \$800,000 in pfd. and \$2,200,000 in common. Of the latter \$1,200,000 is issued and all of the preferred.

There are four smelters in the plant, each of 75 tons capacity. In addition there are roughing sheet mills, eight hot sheet mills, four cold sheet mills, one roughing jobbing mill, one finishing and one plate mill. At the Lowellville plant are the open-hearth furnaces, steel ingot department, billet and bar mills, black galvanized and blue enameled sheet and plate department, and a lath and other fire-proofing specialty plant.

(4) Merger Plans.—It was announced at Youngstown, O., Feb. 16, 1917, that enough of this company's stock had been placed in escrow here Feb. 15 subject to the option of Severance P. Ker, Pres. of the Sharon Steel Hoop Co., to effect sale of the property of the former company to Mr. Ker and associates. Mr. Ker obligated himself to pay \$200 a share for all Youngstown Iron & Steel stock if at least 60% of the \$2,200,000 outstanding stock is delivered.

The amalgamation of the Sharon Steel Hoop and the Youngstown Iron & Steel companies into a \$10,000,000 concern is planned.

An extension of the Youngstown plant is also projected.

(5) New Officers.—Announcement was made Feb. 16, 1917, that Frederick H. Schmidt had been elected Pres. and C. B. Cushwa Gen. Mgr. of this company. They succeed John O. Pew, who resigned as Pres. and Gen. Mgr. H. W. Heedy was elected Treas. to succeed Mason Evans, resigned.

(6) Temporary Organization.—It was announced Feb. 20, 1917, that temporary organization of this company, recently absorbed by the Sharon Steel Hoop Co., had been effected by the election of Henry Schmidt, as Pres., and Charles B. Cushwa, Gen. Mgr. Henry W. Heedy will be Treas. Dissolution of both the Youngstown Iron & Steel Co. and the Sharon Steel Hoop Co., and a formation of a new company to take over both concerns is indicated. The Sharon Co. has acquired full control of the Youngstown plants and paid \$200 a share for the stock.

(7) Pres. of New Company.—It was announced Feb. 22, 1917, that Severance P. Ker, Pres. of the Sharon Steel Hoop Co., would be at the head of the new \$10,000,000 corporation to take over the properties of the Sharon Co. and this company. Plans are under way to form a new holding company to take over both concerns. It is stated that executive offices will be maintained for each company, which means there will be radical changes in the official staff of the Youngstown concern.

(8) Initial Payment.—It was announced Feb. 26, 1917, that an initial payment of a half million dollars on the stock of this company optioned to S. P. Ker at \$200 a share had been made. Ninety-five per cent. of the stock is already in escrow at Youngstown, O., subject to Ker's option, and it is expected that all will be turned in. Purchase of the outstanding Youngstown Iron & Steel Co. stock will require \$4,400,000.

—Mar.

(1) Stock Deposit.—It was announced March 7, 1917, that 99% of this company's stock had been placed in escrow subject to the option of Severance P. Ker, Pres. of the Sharon Steel Hoop Co. at \$200 a share. But for the absence of some shareholders from the country it is believed all stock would be available for the optioner. Mr. Ker has already paid \$500,000 on his option.

(2) Sale Discussion.—See Sharon Steel Hoop Co.—Item No. 1.

(3) Statement About Deal.—See Sharon Steel Hoop Co.—Item No. 2.

(4) Deal Concluded.—New President.—See Sharon Steel Hoop Co.—Item No. 4.

(5) Reorganization of Board of Directors.—It was announced March 24, 1917, that this company, whose acquisition by the Sharon Steel Hoop Co. has been completed by the transfer of all its capital stock upon full payment by the Sharon Co., had reorganized its board by the resignation of Mason Evans, C. D. Hine, C. A. Cochran, L. E. McKelvey and F. H. Schmidt, and the election in their stead of Severance P. Ker, G. W. Short, J. Reid Evans, of Sharon, W. G. Kranz, of Cleveland, and F. C. Perkins, of Pittsburgh, all of whom are directors in the Sharon Steel Hoop Co.

The board of the Youngstown Iron & Steel Co. reorganized by the election of Severance P. Ker as pres., G. W. Short as first vice-pres., W. G. Kranz, second vice-pres., and J. Reid Evans as secy. & treas.

YOUNGSTOWN & OHIO RIVER

E. R.

(1) Earnings, November and Five Months.—For November this company reported gross of \$27,651, compared with gross of \$24,992 for November, 1915, while surplus for the month was \$4,750, compared with \$4,755.

For the five months ended Nov. 30 gross was \$98,128, compared with \$80,918 for the corresponding five months of 1915, and surplus was \$57,627, compared with \$23,179.

—Mar.

(1) Earnings Statement, Year Ended Dec. 31, 1916, shows:

	1916	1915
Gross.....	\$337,557	\$290,374
Net after taxes..	131,050	108,011
Surp. after chgs.	76,438	52,916

(2) Balance Sheet, as of Dec. 31, 1916, shows a profit and loss surplus of \$64,954.

—Apr.

(1) February Earnings.—February, 1917, gross of this road \$24,317 compared with \$23,833 for February, 1916. After providing for expenses, taxes and interest, surplus for the month was \$4,026 compared with \$4,814. For the twelve months ended February 28, 1917, gross was \$338,238 compared with \$294,417 and the surplus for the period was \$115,183 compared with \$54,686 for the twelve months ended February 28, 1916.

YOUNGSTOWN SHEET & TUBE CO.

(1) Bond Payments.—It was stated Jan. 3, 1917, that this company had paid off bonds and mortgage obligations amounting to \$1,545,000. The sum, with interest, was \$1,668,600.

(2) Dividend Discussion.—On Jan. 10, 1917, it was announced officially that whether or not the proposed 100% common stock dividend will be paid by this company is to be determined at the annual meeting Feb. 13.

In the meantime, stockholders, it is likely, through a circular letter, will be offered alternative propositions of distributing surplus profits other than by means of a stock dividend. The directors may or may not reconsider their recommendation of a \$20,000,000 common stock increase to be used so far as necessary in making the stock dividend distribution.

The fact that the stock offered as a dividend is subject to the Federal income tax, is causing officials of the company to consider seriously other means of disbursing some of the accumulation surplus unofficially reported between \$25,000,000 and \$30,000,000 as of Jan. 1.

—Feb.

(1) Capital Increase Plan Dropped.—It was announced Jan. 31, 1917, that the directors of this company had reconsidered their recommendation of a \$20,000,000 increase in common stock for the purpose of paying a 100% stock dividend on \$18,500,000 outstanding stock of that issue. This action was announced by Pres. J. A. Campbell in a letter to stockholders, as follows:

JANUARY 1 TO APRIL 30, 1917

"In view of the recent and proposed legislation and uncertainty which exists as to the construction which may be placed on the same, it is the judgment of our Board of Directors that it would be unwise to increase our capital stock at our next annual meeting, but that it would be wiser to defer such action until a later date, when the land is in a more settled state, and that for the present at least, it would be better to increase the rate of cash dividends than to increase the number of shares."

²(2) **New Bar Mill Started.**—It was announced Feb. 7, 1917, that the new nine-inch bar mill of this company had been put in operation, launching the corporation in the merchant bar business.

³(3) **Extra Dividend on Common.**—It was announced Feb. 13, 1917, that this company's shareholders rejected a proposal to pay a 100% stock dividend.

The directors declared the regular quarterly dividend of 1% on the pfd., payable April 1 to stock of record March 20. The regular quarterly common dividend of \$2 a share and an extra common quarterly dividend of \$3 a share, payable April 1 to stock of record March 20, were also declared.

⁴(4) **Report, Year Ended Dec. 31, 1916.** showed net earnings, with subsidiaries, as \$18,741,502, with surplus as of Jan. 1 about \$22,000,000. Gross business for 1916 was \$56,919,268, about double 1915 gross. During the year the company shipped 908,000 tons of finished steel, as compared with 800,000 tons for 1915. Payroll for 1916 was \$11,079,087.

The sale of the controlling interest in Youngstown Iron & Steel Co. to the Sharon Steel Hoop Co. was unofficially reported, at \$200 a share.

⁵(5) **New Directors.**—It was announced Feb. 14, 1917, that Amasa S. Mather, Cleveland, and C. H. Booth, Youngstown, had been elected directors of this company to succeed Harry G. Dalton and H. H. Stambaugh, resigned.

Mr. Dalton remains 1st Vice-Pres.; W. E. Manning and L. J. Campbell have been named Vice-Presidents, ranking with Richard Garlick and C. S. Robinson. Dudley R. Kennedy has also been named assistant to the Pres., in charge of industrial relations.

—Mar.

¹(1) **Acquisition.**—It was announced March 1, 1917, that this company had purchased 1,000 acres of Southwestern Pennsylvania coal land, adjacent to other of the company's holdings. It was stated shafts producing 6,000 tons daily would be sunk at once.

²(2) **Acquisition.**—It was stated March 22, 1917, that this company had acquired a 30% interest in the Bennett Mining Co., holding valuable iron ore rights on the Mesaba range. The corporation thereby added several million tons of ore to its reserves. The corporation is now interested in the Crete, Seneca, Volunteer, Balkan, Mahoning and Bennett mines. Its annual ore consumption is substantially over 2,000,000 tons at its six furnaces in this district.

Credit losses of the Youngstown Sheet & Tube Co. during 1916 were scarcely one-fortieth of 1% of the total volume of sales, which exceeded \$56,000,000, announced Walter L. Kauffman, credit manager.

³(3) **Subsidiaries Being Merged.**—Announcement was made on March 26, 1917, that the Andrews & Hitchcock Iron Co. and the Western Conduit Co., subsidiaries of this company, were being dissolved and merged by the parent corporation. The former company operates two blast furnaces in the Youngstown district and the latter electrical equipment.

—Apr.

⁴(4) **Purchase of Trumbull Co. Planned.**—A Sharon, Pa., dispatch April 14, 1917, stated it was reported in steel circles

that this company had completed plans for the purchase of the Trumbull Steel Co. at Warren, O., capitalized at \$10,000,000. The price at which the concern is to be absorbed is \$200 a share. The stock of the Trumbull company is now \$160. The acquisition would mean an outlay of \$18,000,000 to \$20,000,000 by the Youngstown company. The Trumbull Steel Co. has \$4,000,000 outstanding pfd. stock and \$5,250,000 common. The Warren concern did gross business of \$15,000,000.

⁵(5) **Trumbull Purchase Plan Denied by President.**—A Youngstown, O., dispatch to the "Wall Street Journal," April 19, 1917, stated that Pres. Campbell, of the Youngstown Company, when asked about the report that the company was planning to absorb the Trumbull Steel Co., Warren, O., said: "It's all nonsense."

YOUNGSTOWN & SUBURBAN RY. CO.

²(2) **Earnings on Stock.**—It was stated March 18, 1917, that this company's 1916 balance after charges of \$1,097,511 is equal to 6.27% on \$17,500,000 capital stock, compared with 6.19% earned on the same capitalization in 1915.

³(3) **Balance Sheet,** as of Dec. 31, 1916, shows a profit and loss surplus of \$650,344, compared with \$602,833 Dec. 31, 1915.

⁴(4) **Statement by President.**—It was stated March 19, 1917, that Pres. Wm. Loeb, Jr., of this company, in his annual remarks to stockholders said, in part: "The gross profit from the year's operations was \$2,092,360, or approximately the same as that of the preceding year. The amount written off to depreciation and amortization either directly or through operating costs was \$608,967. There was added to surplus account \$47,510, after distributing in dividends \$1,050,000."

"The company several years ago inaugurated the policy of adding new properties to take the place of those being exhausted, and in pursuance of this policy has acquired during the past year, either by purchase or lease, properties in California, Nevada and Idaho."

"The company's proportion of net profit in these properties on the basis of the present development is estimated to be approximately \$3,500,000."

"The Yukon-Alaska Trust referred to in the last annual report of this company was duly formed and acquired the eight serial notes of \$625,000 each, bearing interest at the rate of 5% per annum, representing the loan to the Yukon Gold Co. of \$5,000,000."

"In arranging for an extension of sideration the fact that the company has made an investment as pointed out above in new properties and equipment of \$1,893,105 during the past year, and that further expenditures will be required for expansion of our property holdings and proper equipment thereof."

"It will be noted that the cash on hand and bullion in transit on Dec. 31 together amounted to a little over \$2,000,000."

⁵(5) **Comment on Acquisitions.**—It was stated on March 28, 1917, that during the year 1916 this company had acquired by leasing agreements three new gold dredging properties located in California and Idaho. These have an estimated gross gold content in excess of \$5,350,000, with considerable further development work to be done. The company's proportion of net profit on the basis of present development is estimated at \$2,000,000.

The first of these properties is that of the Coeur d'Alene Mining Co., on Prichard Creek, near Murray, Idaho. The developed area contains about 8,500,000 cubic yards, with an estimated gold content of over \$1,350,000.

The company acquired river claims and leases on the North Fork of the American River in California, containing approximately 7,000,000 cubic yards, with an estimated gold content of over \$1,000,000. This ground is located near the company's American River dredge, which will be moved to the North Fork property when its present work is completed.

The third acquisition is a group consisting of the Trinity Exploration and Carr properties. These are in Trinity County, Cal., adjacent to the company's present holdings. They are estimated to contain approximately 21,000,000 cubic yards of gold-bearing gravel, with a gross content estimated at \$3,000,000.

ZANESVILLE BELT & TERMINAL RY. CO.

¹(1) **Capital Reduced.**—On April 10, 1917, the company filed notice at Columbus, O., of a decrease in capital stock from \$750,000 to \$100,000.

ZEE RUBBER CO.

¹(1) **Capital Increased.**—On Jan. 12, 1917, the company filed notice at Dover, Del., of an increase in capital stock from \$400,000 to \$1,000,000.

ZEHNER METAL SASH & DOOR CO.

¹(1) **Capital Increased.**—In January, 1917, it was announced that this company, Canton, O., had increased its capital stock from \$600,000 to \$2,000,000. The increase was made because of the erection of a larger plant on a site where the original plant was destroyed by fire several weeks previously.

ZELNICKER (WALTER A.) SUPPLY CO.

¹(1) **Acquisition.**—It was announced Feb. 22, 1917, that this company, St. Louis, Mo., had purchased the Idaho Southern R. R., which runs from Gooding to Jerome, Idaho, and the Milner & North Side R. R., extending from Milner to Oakley, Idaho, comprising a total of approximately 60 miles. These abandoned railroads were built only a few years previously by Pittsburgh capital. It is understood the buyer will dismantle the roads and sell the rails and other equipment, which are practically new.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

ZIETLER & LAMSON MOTOR TRUCK CO.

¹(1) **Capital Increased—Plant Removal.**—It was announced Jan. 21, 1917, that this company, Chicago, had increased its capital stock from \$100,000 to \$500,000 and had decided to remove its plant and headquarters to Wausau, Wis., where the Business Men's Association had agreed to furnish a 6-acre site and to erect a factory and shop building.

ZIMMERMAN (M.) CO.

¹(1) **In Bankruptcy.**—It was announced

Jan. 22, 1917, that an involuntary petition in bankruptcy was filed in the Federal District Court at New York against this company, dealers in sausages and provisions.

The liabilities were placed at \$300,000 and the assets at \$200,000.

ZINC CONCENTRATING CO.

¹(1) **Options Secured.**—It was announced March 24, 1917, that this company had taken an option to lease for ten years the Marion Mines in Colorado. These mines have a large tonnage of

ore blocked out, and it is planned to install a zinc concentrating plant on the property for the extraction of the zinc values thereof on a royalty basis.

The company has also taken options on a number of mines in the Wisconsin field. It has been diamond-drilling on this property all winter and results therefrom have been very satisfactory. The company's plant at the Utah-Apex property at Bingham, Utah, is expected to be ready about June 1. Officials expect that this plant will add approximately \$60,000 to the company's earnings.

JANUARY 1 TO APRIL 30, 1917

INTERNATIONAL STEAM PUMP CO.

PLAN OF REORGANIZATION.

History and Property.—The International Steam Pump Co. was incorporated in New Jersey on March 24, 1899. Acquired control of the following companies, either through conveyance of title to property or by ownership of over two-thirds of capital stock:

Blake & Knowles Steam Pump Works, East Cambridge, Mass.	Snow Steam Pump Works, Buffalo, N. Y.
Deane Steam Pump Co., Holyoke, Mass.	Holly Mfg. Co., Buffalo, N. J.
Henry R. Worthington, Harrison, N.J.	Clayton Air Compressor Works, New York, N. Y.
Laidlaw-Dunn-Gordon Co., Cincinnati, Ohio.	

In 1906, acquired the entire capital stock of the Power & Mining Machinery Co. In 1910, acquired the property and entire stock of The Jeansville Iron Works Co., Hazleton, Pa., and the entire capital stock of the Fred M. Prescott Steam Pump Co.

On Aug. 27, 1914, C. Philip Coleman and Grayson M. P. Murphy were appointed receivers in New York, and on Jan. 8, 1915, Gilbert Collins was appointed receiver for the Company's property in New Jersey.

Introductory Statement to Plan.

The plan of reorganization now submitted is based upon a most thorough examination of the properties and business of the Company. This examination was in general charge of Mr. J. E. Sague, formerly Vice-President of the American Locomotive Company and subsequently a member of the Public Service Commission for the Second District of New York. The books and accounts of the Company for five and one-half years prior to the receivership were examined by Messrs. Price, Waterhouse & Co. The plants were appraised by the Coates & Burchard Company of Chicago, and by a special committee of the Company's plant managers. The committee feels that the results of this investigation furnish accurate and reliable data upon which to base the plan of reorganization.

In framing the Plan of Reorganization the committee has endeavored to remedy the defects in the financial structure and organization of the Company which brought about the receivership. The more important of these defects were the following:

1. Inadequate working capital resulting primarily from the payment of too liberal dividends on a heavy capitalization.
2. Excessive fixed charges in the way of interest and sinking fund payments on the Company's bond issue and interest and dividends upon underlying bonds and preferred stocks.
3. Restrictions in operations resulting from the existence of subsidiary companies having securities outstanding and owning factories, thus preventing complete consolidation in manufacture.
4. The lack of an executive management having a direct financial interest in the success of the Company.
5. The failure of the Company, partly through lack of working capital and declining credit, and partly through lack of a progressive and energetic policy, to make improvements in its products and manufacturing methods.

It was chiefly because of these defects that the Company failed, notwithstanding the excellence of its plants, its dominating position in an important staple industry and the undoubted efficiency and loyalty of the rank and file of its organization.

The following is a summary of the results of the committee's investigation into the value of the assets and the earnings:

Valuation.

After allowing for depreciation, obsolete inventories, bad debts and other deductions, the value of the property of the Company and its subsidiaries to a going concern as of September 30, 1914, without allowance for patents or good-will, was reported to be as follows:

*Plants	\$10,537,000
Investments (chiefly in English companies)	1,181,000
Trusted Cash	90,000
Cash, inventories, accounts and bills receivable, work in progress and other current assets, net	17,481,000
Total	\$19,289,000

*In valuing the plants the lower valuation of the Committee of Plant Managers was taken, the appraisal of the Coates & Burchard Company having been about \$2,850,000 in excess of their valuation.

†As of June 30, 1915, these assets were reported to be \$7,657,794.

This information, while not guaranteed, is believed to be correct.

Advantages.

The Committee believes that the Plan of Reorganization now submitted goes far toward meeting the difficulties which embarrassed the old company and providing for the successful conduct and development of the business in the future.

The advantages of the plan to which the committee wishes to call particular attention are the following:

(1) The new money to be furnished by the stockholders, or, to the extent of their failure to participate, by the underwriters, is deemed to be adequate to provide for such of the underlying securities as it may be advisable to retire and also to provide sufficient working capital to enable the Company to deal with a substantially larger volume of business than it has hitherto done.

(2) The new capital will also provide for the considerable expenditures required to bring the Company's factories and manufacturing facilities up to date and for the redesigning of the Company's products which is necessary for carrying out a progressive manufacturing policy.

(3) The capitalization of the new Company has been confined to what may fairly be regarded as the value of the enterprise as a going concern. The appraised value of the assets, including the new cash but excluding good-will and patents, exceeds the par amount of the preferred stocks and underlying securities by an amount equal to over \$45 per share upon the common stock on the lowest appraisal and over \$65 per share on the higher appraisal of the Coates & Buchard Co.

(4) Provision is made for reducing or eliminating the subsidiary organizations and effecting the needed consolidation of operations. While the provision for the preferred stock of Henry R. Worthington is more liberal than would be justified if only the relative position of that preferred stock and the bonds were considered, the desirability of getting rid of the necessity of maintaining a separate organization for Henry R. Worthington was deemed to justify an offer to its preferred stockholders so liberal as to encourage, if not insure, their assent to the plan. The protective committee representing a large amount of this preferred stock has approved the plan and recommended the acceptances of it by its depositors.

(5) While it seemed necessary to create for the new money a security (Class "A" preferred stock) prior to that issued to the bondholders (Class "B" preferred stock), the two classes of preferred stock will be on a parity, except as to the rate of dividend, after the Company shall have paid for three consecutive years full dividends on both. Thus the Company should be able to do as soon as the business has been re-established by the new management and normal business conditions have been restored.

(6) As the Company will have no bonded debt (except such liability as it may assume on two small underlying issues aggregating \$692,100), it will be in a position to face periods of depression without anxiety, and it is believed that the added strength to its position due to the absence of a considerable fixed charge will enable it to pay full dividends upon the preferred stocks more readily than it could earn interest at a lower rate upon an equal amount of bonds. Through their participation in the Common Stock the bondholders are given a substantial interest in the future growth of the enterprise.

(7) Provision for securing a management having a direct interest in the financial success of the new Company has been made by reserving under the plan \$1,500,000 new common stock, which, in the discretion of the Board of Directors and with the approval of the Voting Trustees, may be disposed of for the purpose of interesting in the new Company manufacturers and other business men whose experience gives them special qualifications for the successful management of this enterprise, or otherwise in the interest of the new Company.

Messrs. Charles H. Sabin, Lewis L. Clarke, George G. Henry and Percy Jackson have consented to act as Voting Trustees of the stock of the new Company. As provided by the plan, this number of Voting Trustees may be increased.

Out of the \$1,000,000 new common stock which will be distributed under the plan to the Syndicate Managers, Messrs. William Salomon & Co. will retain only \$500,000 thereof for their own account for their services as such Managers.

JANUARY 1 TO APRIL 30, 1917

Scope of the Plan.—Under date of Aug. 5, 1915, the Joint Reorganization Committee, representing the various Bondholders' and Stockholders' committee, offered a plan for reorganization, providing for the organization of a new Company to acquire the plants and property of the International Steam Pump Co., or as much of such property as may be deemed advisable by the Committee, who may also cause the New Company to acquire other property. The Plan provides for an assessment of \$12.50 per share upon the present Preferred and Common Stock, thus providing \$3,639,062.50 cash. Assenting holders of preferred stock become bound to pay in addition to \$12.50 per share such proportion of the unpaid assessments on the common stock as the par amount of his preferred stock bears to the total amount of preferred stock outstanding, receiving therefore, his pro rata share of new stock which would have been distributed to common shareholders.

Securities at Present Outstanding—

International Co. First Lien 5% Gold bonds, Principal	\$9,347,900
Interest accrued on above, to Nov. 1, 1915	778,992
Holly Mfg. Co. First Mortgage 5% Bonds	492,100
Jeansville Iron Works Co. First Mortgage 5% Bonds	200,000
Henry R. Worthington 7% Cum. Pref. Stock	2,000,000
Accrued dividends on above to Nov. 1, 1915	288,900
The Blake & Knowles Steam Pump Works 8% Cum. Pref. Stock	400,558
Accrued dividends on above to Nov. 1, 1915	67,548
International Steam Pump Co. 6% Cum. pref. stock	11,350,000
International Steam Pump Co. common stock	17,762,500
Total	*\$42,739,596

*For convenience of tabulation, 23 shares of common stock of Henry R. Worthington not owned by the International Co. are disregarded.

Securities Outstanding Upon Consummation of Plan—

†Class A, 7% cumulative preferred stock	\$5,639,062
Authorized issue \$10,000,000, the balance to be issued only for cash at not less than par. Preferred as to assets and dividends over Class B Preferred and Common, but such preference over Class B to continue only until both classes of preferred shall have received full dividends for three consecutive years; redeemable at option of the Company at 115 and accrued dividends.	
†Class B, 6% preferred stock	10,126,892
Authorized issue \$11,000,000, providing a reserve for additional capital. Entitled to dividends at 6%, non-cumulative for three years, then cumulative, and to preference as to assets and dividends over the Common stock; redeemable at option of the Company at 105 and accrued dividends.	
†Common stock	12,923,037
Authorized issue \$15,000,000, providing a reserve for additional capital.	
Holly Manufacturing Co. 5% bonds	442,890
Guaranteed as to principal and interest by the New Company.	
*Jeansville Iron Works Co. First Mortgage 5% bonds	200,000
*The Blake & Knowles Steam Pump Works 8% cum. preferred stock with accrued dividends to Nov. 1, 1915	528,104
Total	\$29,859,986

†The authorized issue of the above classes of stock shall not be increased and neither shall any mortgage or lien be created by the New Company except on the vote of two-thirds of each class of stock in the first instance and two-thirds of both classes of preferred stock in the second instance. In case the common stock of the New Company is issued without par value, the amount of the common stock to be issued shall equal one share for each \$100 par value of the common stock as provided in the Plan.

*The Plan makes no provision for the assumption of these securities by the New Company. They will be dealt with as the Committee or the New Company shall deem wise.

Cash Requirements.—The amount of cash estimated to be required to carry out the Plan is \$3,600,000, which is to be applied, viz.:

To pay receivers' certificates, the portion of purchase price of the property which is payable in cash, accrued dividends, part or all of floating debt of the present company, reorganization and underwriting expenses, counsel fees and also to provide additional working capital, etc.

This information, while not guaranteed, is believed to be correct.

STANDARD CORPORATION SERVICE

JANUARY 1 TO APRIL 30, 1917

Provision for Securing Cash.—The above cash requirements of \$3,600,000 are to be met by payments of \$12.50 per share by preferred and common stockholders of the International Steam Pump Co., the preferred stockholders to make such proportion of the payments of the non-participating common stockholders as the par value of their preferred shares bears to the total amount of preferred stock outstanding. The subscriptions for such cash requirements are also underwritten. See "Plan Underwritten" below.

Reduction in Capitalization and Interest Charges.—The Reorganization Plan effects a reduction in the capitalization of the Company of \$12,879,610; the annual fixed charges are reduced by \$469,900, and the funded debt by \$9,398,000.

*Every holder of the Preferred Stock assenting to the Plan becomes bound to pay in addition to the regular assessment of \$12.50 per share, such proportion of the \$12.50 per share required from, but which is not subscribed by, the Common Stock, as the par value of his preferred stock bears to the total preferred stock outstanding.

Distribution of Securities.

Existing securities	Will receive in new securities.
\$10,126,892, Internat'l Co. 5s, princ. & int.	100 %—\$10,126,892, preferred B.
2,000,000, Worthington preferred stock	35 %—3,544,412, common.
†11,350,000, International Co. pfd. stock	14 %—280,000 in cash.
•17,762,500, International Co. com. stock	100 %—2,000,000, preferred A.
492,100, Holly Mfg. Co. 5% bonds	12½ %—1,418,750, preferred A.
	34 %—3,859,000, common.
	12½ %—2,220,313, preferred A.
	17 %—8,019,625, common.
	2½ %—12,303 in cash.
	90 %—442,890 in New Holly Mfg. Co. 5% bonds.
To Syndicate Managers in consideration of the underwriting of cash requirements	\$1,000,000 common
Reserved in treasury to be used in securing the aid of new interests in the management of the New Company or otherwise for its benefit	1,500,000 common
†Holder assessed \$12.50 per share, plus a contingent assessment.	
•Holders assessed \$12.50 per share.	

Results of Distribution.**International Steam Pump Co. 1st Lien 5s, 1929.**

The holders of these bonds are not assessed. For each \$1,000 bond will be received under the Plan, 10 shares of the Preferred B Stock and 3½ shares of the Common Stock of the new Company.

Worthington Company Preferred Stock.

Under the Plan, the holder of each share of this stock will receive \$14 in cash and 1 share in the Preferred A stock of the new Company

International Steam Pump Co. Preferred.

This stock is required to pay an assessment of \$12.50 per share and a contingent assessment of such proportion of the \$12.50 per share required from, but which is not subscribed by the Common Stock, as the par value of the holders' shares bears to the total preferred stock outstanding. The following examples illustrate the results:

(1) If all the common stockholders pay their assessment of \$12.50 per share, each share of preferred will pay only the \$12.50 assessment and will receive \$12.50 in 7% Preferred "A" Stock and \$34 in Common Stock of the New Company.

(2) If only 60% of the common stock pays the assessment (the Stockholders' Committee states that they are reasonably assured that common stock in excess of this amount will assent) each share of preferred will be called upon to pay \$20.33 and will receive \$20.33 in 7% Preferred "A" Stock and \$44.64 in Common Stock of the New Company.

International Steam Pump Co. Common.

Each share of this stock is required to pay an assessment of \$12.50 and will receive \$12.50 in 7% Preferred "A" Stock and \$17.00 in Common Stock of the New Company.

Stockholders not paying their assessments will receive nothing under the Plan.

This information, while not guaranteed, is believed to be correct.

Page 427

JANUARY 1 TO APRIL 30, 1917

Payments by Stockholders.—No payment need be made by preferred and common shareholders within 30 days from the date of mailing notice of the adoption of the Plan, the period allowed by the Stockholders' Committee for the withdrawal of dissenting stockholders. Thereafter the payments of \$12.50 per share shall be made to the Guaranty Trust Co., the Depositary, upon notice from the Committee and within such period (not less than 20 days) as may be specified in such notice. Payments may be made in full on the date specified or, at the holders' option, 40% on specified date and the remainder in three installments of 20% each on dates two, four and six months subsequent to said date. Interest at 6% will be allowed on payments from date of payment to the date from which the dividends on the new Class A Preferred stock shall accrue.

Voting Trust.—In the discretion of the Committee, the stock of all classes or any class, may be deposited with Voting Trustees, designated by the Committee, for a period not exceeding 5 years.

Plan Underwritten.—Messrs. Wm. Salmonson & Co. as Syndicate Managers have secured underwriters for the cash requirements of the Plan up to \$3,889,063, who have agreed to make the payments of \$12.50 for each share of stock, aggregating \$3,639,063, which are not made by the stockholders and also to provide up to \$250,000 the cash which will be distributable from the proceeds of any sale to such International bondholders as do not elect to participate in the Plan.

The underwriter shall receive a cash commission of 5% on such aggregate obligation of \$3,889,053, and the Syndicate Managers shall receive \$1,000,000 common stock. In case the underwriters are required to make the payments of any stockholders, they will receive the Class A preferred stock and common stock which would have been distributable to the stockholder, and in case they are required to provide cash distributable to non-participating bondholders, the Class B preferred stock and common stock which would have gone to the bondholders, provided their distributive share of the proceeds of the sale of the property does not exceed \$250,000. If the distributive share of non-assenting bondholders exceeds \$250,000, the underwriters shall receive the Class B preferred stock and common stock which would have gone to the holders of such an amount of bonds as receive \$250,000 from the proceeds of sale.

ST. LOUIS & SAN FRANCISCO R. R. CO.

PLAN OF REORGANIZATION

Showing the Capitalization of the New Company, Description of Its Securities
and on the Basis of Present Earnings the Amounts
Available for These New Securities.

History.—The St. Louis & San Francisco R. R. was organized in June, 1896, under the laws of Missouri as a reorganization of the St. Louis & San Francisco Ry., which was organized in 1876. The Company as of June 30, 1915, owned 3,537.67 miles of road and leased the Kansas City, Ft. Scott & Memphis Ry. and the Kansas City, Memphis & Birmingham R. R.

In 1908 control of the St. Louis & San Francisco R. R. was acquired by the Rock Island Co., but in 1909 the stock owned by the Rock Island Co. was sold to a syndicate headed by B. F. Yoakum. On May 27, 1913, the Company was placed in the hands of receivers by Judge Sanborn in the U. S. District Court at St. Louis.

Scope of Plan.—The Plan of Reorganization, dated Nov. 1, 1915, provides for the formation of a New Company to acquire the property and assets of the Old Company, excepting, however, the New Orleans, Texas & Mexico R. R., the Chicago & Eastern Illinois R. R. and the New Orleans Terminal Co. If the Reorganization Managers shall so decide, all the outstanding stock and First Mortgage Bonds of the New Mexico & Arizona Land Co. will be acquired. The plan provides for raising \$25,000,000 new cash; it reduces the capitalization to \$364,408,318, or \$37,768,068 (exclusive of the Kansas City, Ft. Scott & Memphis System); it reduces the fixed interest charges to \$9,158,190, or \$5,728,135 less than those of the Old Company, and the fixed and contingent interest charges to \$13,702,579, or \$1,183,746 less than the fixed charges of the Old Company (exclusive of the Kansas City, Ft. Scott & Memphis System).

Introductory Statement.

The undersigned have been for a long time engaged in an examination of the affairs of the St. Louis and San Francisco Railroad System, and the relative value and earning capacity of its various lines, with a view to formulating a Plan of Reorganization which would fairly recognize the rights of the security holders. Much time and attention have been devoted to acquiring knowledge as to details, and a careful expert examination of the Company's operations and physical condition, and of its financial requirements, has been made by Mr. J. W. Kendrick. The following plan for the reorganization of the System has been formulated which it is expected will accomplish, among other things, the following results:

- (a) Reduction of the fixed charges to a limit believed to be safely within the net earning capacity of the reorganized property;
- (b) Adequate capital provision for present and future requirements;
- (c) Payment or adjustment of all debts, guaranties, etc., and provision for existing equipment trust obligations;
- (d) The preservation of the parts of the System deemed advantageous, and such control for the reorganized property as shall safeguard the rights of security holders.

Having these objects in view, the annexed Plan has been prepared, and Messrs. J. & W. Seligman & Co. and Speyer & Co. have undertaken to act as Reorganization Managers to carry out the Plan.

Estimated Cash Requirements.—The amount of cash estimated to be required to carry out the Plan is \$25,000,000, which is to be applied as follows:

Equipment Trust Obligations maturing after July 1, 1916, and prior to July 2, 1917	\$1,932,752
\$54,000 Pemiscot Railroad Company, First Mortgage Six Per Cent. Gold Bonds	54,000
\$65,000 Kennett & Osceola Railroad Company First Mortgage Six Per Cent. Gold Bonds	65,000
\$4,500 Southern Missouri and Arkansas Railroad Company First Mortgage Five Per Cent. Gold Bonds	4,500
July 1, 1914, January 1, 1915, and July 1, 1915, interest on the Refunding Mortgage Bonds	4,113,420
May 1, 1914, and November 1, 1914, interest on the General Lien Bonds	3,469,200
Interest at 6% per annum on foregoing interest instalments from date of maturity to date of actual payment, calculated as of July 1, 1916	789,167
Cash payments in connection with exchange of underlying bonds	310,650
Payments in connection with adjustment of Secured Debt, Judgments and Preferred Claims (estimated)	2,000,000
January 1, 1916, and July 1, 1916, interest on \$68,763,750 Prior Lien 4s, Series A	2,750,556
Commissions to Purchase Syndicate	1,000,000
Commissions to Loan Syndicate	675,000
Organization, franchise and other taxes, including stamps	1,400,000
Expenses of Committees and other representatives of existing securities, including their compensation	1,000,000
Other reorganization expenses, including the compensation of the Reorganization Managers, legal expenses and miscellaneous expenses	1,258,000
Improvements and betterments, additions, acquisitions, including Equipment, and working capital for New Company	4,177,761
	\$25,000,000

The receivers estimate that on July 1, 1916, the cash in hand, after providing funds for payment of Equipment Trust Obligations maturing up to July 2, 1916, inclusive, of interest on securities paid regularly during the receivership, and of the cost of current improvements, will be not less than \$3,193,000, the greater part of which should be available for the corporate purposes of the New Company.

For provisions for securing cash requirements, see "Purchase Syndicate."

(1) To retire prior liens	14,790,000
(2) To purchase equipment, at cost, at the rate of \$2,000,000 annually, cumulative to Jan. 1, 1922; thereafter at two-thirds of cost at the cumulative rate of \$4,000,000 biennially	*32,500,000†
(3) For improvements, betterments and additions (other than new mileage constructed or acquired), at cost, at the rate of \$3,000,000 annually, cumulative to Jan. 1, 1922; thereafter at two-thirds of cost at the cumulative rate of \$4,000,000 biennially	32,500,000†
(4) For construction of new mileage and acquisition of other roads or securities thereof	**45,000,000†

†To be issued at par.

*Any amount not used shall be available after Jan. 1, 1933, for purposes of (3).

**Any amount not used shall be available after Jan. 1, 1931, for purposes of (2) and (3).

Note.—The \$93,398,500 Series A 4s so far as not used in partial exchange for existing securities are to be reserved for such purpose under restrictions to be fixed by the Reorganization Managers, but if in their judgment it will facilitate the carrying out of the plan to provide cash for the purpose for which such bonds might otherwise be reserved, they may sell such bonds and may cause them to be issued as Series B 5s.

Nature of Lien.—Secured by a direct or collateral lien on 3,944.86 miles of road owned, 1,211.03 miles of leasehold interests, securities, terminals, trackage right, etc., viz:

A Direct or Collateral First Lien on 2,958.38 miles—

Monett, Mo., to Red River, exclusive of bridge over Arkansas River	285.79
Fayetteville to Powell, Ark.	25.61
Oronogo to Joplin, Mo.	9.32
Pierce City, Mo., to Wichita, Kan.	217.40
Girard to Galena, Kan.	46.93

Also secured on the leasehold interest of the Company in the Kansas City, Ft. Scott & Memphis Ry. Co. (1,311.03 miles) and on the entire capital stock of that company, consisting of \$15,000,000 preferred and \$16,654,500 common stock. (The Company covenants that the outstanding mortgage indebtedness of the K. C., Ft. S. & M. shall not exceed \$75,000,000.)

Also secured on over about 200 miles of trackage rights.

Also secured on the entire equipment of the Company, subject on a portion thereof to \$5,306,000 equipment trust obligations, maturing after July 1, 1917.

Further secured on the interest of the Company in various terminal properties, operated jointly with other railroad companies.

The preferred and common stock of the New Company may be deposited hereunder for 5 years as additional security (see "Voting Trust").

Rate per Mile.—On total mileage covered, \$30.012 per mile; on mileage covered by first lien, \$40.026 per mile. The prior lien on the 986 miles it covers is outstanding at the rate of \$9.618 per mile.

Prior Liens.—Subject to \$14,790,000 prior liens, as follows:

St. L. & S. F. Gen. 5s and 6s, 1931	\$9,484,000
St. L. & S. F. Equipment Trust Obligations maturing after July 1, 1917	5,306,000

Note.—The \$14,790,000 reserved to retire prior liens (see "Provisions of Issue") provide for the retirement of these issues.

Equity.—Prior in lien to \$40,547,818 Cumulative Adjustment "A" 6s, 1955, and \$35,192,000 Income "A" 6s, 1960.

Cumulative Adjustment Mortgage Gold 6s, Series A, due July 1, 1955.

Dated July 1, 1915.

Interest Rate not to exceed 6%.

Interest Payable April and Oct. 1, at New York, etc. Interest is payable out of the available net income of the Company (see "Income Available for Contingent Interest Charge") and will be cumulative. At maturity of the principal all arrears of interest will be payable.

Note.—Principal and interest payable so far as permitted by law, without deduction for Federal, State and Municipal taxes in the United States.

Authorized.—\$75,000,000.

Outstanding.—\$40,547,818.

Trustee.—Bankers Trust Co., New York.

Redeemable.—Series A is redeemable at par and interest.

Provisions of Issue—

Authorized	\$75,000,000
Series A issued in partial exchange for securities of the Old Company	40,547,818
Reserved:	
(1) To purchase equipment after Jan. 1, 1922, at cumulative rate of \$2,000,000 bi-annually, for one-third of cost	(a) 10,000,000†

This information, while not guaranteed, is believed to be correct.

STANDARD CORPORATION SERVICE

JANUARY 1 TO APRIL 30, 1917

(2) For improvements, betterments and additions (other than new mileage constructed or acquired), at cumulative rate of \$2,000,000 biennially, for one-third of cost ----- (b) 10,000,000†

(3) To be issued after Jan. 1, 1932, at cumulative rate of \$3,000,000 annually for that part of the cost of improvements, betterments and additions (other than new mileage constructed or acquired), for which Prior Lien Bonds shall not be issued ----- (c) 14,452,182†

†To be issued at par.

(a) Any bonds not issued to be available after Jan. 1, 1932, for (2) or (3).

(b) Any bonds not issued to be available after Jan. 1, 1932, for (1) or (3).

(c) Any bonds not issued to be available after Jan. 1, 1932, for (1) or (2).

Nature of Lien.—Secured on all the property, leaseholds, equipment, securities, etc., covered by the Prior Lien 4s & 5s, 1950, but are subsequent thereto. (For details, see description of same.) The bonds are outstanding at the rate of \$10,278 per mile, subject to prior liens outstanding at the rate of \$32,416 per mile.

Prior Liens.—Subject to \$133,188,500 prior liens, as follows:

Prior Lien A 4s & B 5s, 1950.....	\$113,398,500
St. L. & S. F. Gen. 5s & 6s, 1931.....	9,484,000
St. L. & S. F. Equipment Trust Obligations maturing after July 1, 1917.....	5,306,000

Equity.—Prior in lien to \$35,192,000 Income "A" 6s, 1960.

Income Mortgage Gold 6s, Series A, due July 1, 1960.

Dated July 1, 1915.

Interest Rate not to exceed 6%.

Interest payable annually Oct. 1, at New York, etc. Interest is payable out of the available net income of the Company (see "Income Available for Contingent Interest Charge") after payment of interest on the Adjustment Mortgage Bonds, and will not be cumulative.

Note.—Principal and interest payable so far as permitted by law, without deduction for Federal, State and Municipal taxes in the United States.

Authorized.—\$75,000,000.

Outstanding.—\$35,192,000.

Trustee.—Union Trust Co., New York.

Redeemable.—Series A is redeemable at par and interest.

Provisions of Issue—

Authorized	\$75,000,000
Series A issued in partial exchange for securities of the Old Company.....	*35,192,000
Reserved for improvements, betterments, additions and equipment after Jan. 1, 1922, at the cumulative rate of \$2,000,000 annually to 1931; thereafter at the cumulative rate of \$3,000,000 annually.....	†39,808,000

*Bonds not used in partial exchange for securities of the Old Company to be available for corporate purposes of the New Company.

†To be issued at par.

Nature of Lien.—Secured on all the property, leaseholds, equipment, securities, etc., covered by the Prior Lien 4s & 5s, 1950, but are a lien subsequent thereto and to the Cum. Adj. A 6s, 1955 (for details, see description of Prior Lien 4s & 5s). The bonds are outstanding at the rate of \$8,920 per mile, subject to prior lines outstanding at the rate of \$42,694 per mile.

Prior Liens.—Subject to \$173,736,318 prior liens, as follows:

Cumulative Adj. A 6s, 1955.....	\$40,547,818
Prior Lien A 4s & B 5s, 1950.....	113,398,500
St. L. & S. F. Gen. 5s & 6s, 1931.....	9,484,000
St. L. & S. F. Equipment Trust Obligations maturing after July 1, 1917.....	5,306,000

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

PREFERRED STOCK (6% Non-cumulative)----- \$7,000,000

To be entitled to dividends at the rate of 6% per annum (and no more) and such dividends will not be cumulative. To be redeemable (if allowed by law) at par and accrued dividends. No dividend shall be paid on the Common Stock in any fiscal year until full dividends have been paid or set aside on the Preferred Stock and no dividends shall be paid on the Preferred Stock other than out of the net income for such fiscal year applicable to the payment of dividends, unless for the two fiscal years next preceding, the full interest shall have been paid on the Income Mortgage Bonds.

Authorized ----- \$200,000,000

Issued for adjustment of outstanding indebtedness ----- *7,000,000

Reserved for corporate purposes of the Company ----- 193,000,000

*Any amount not used for adjustment of outstanding indebtedness to be available for corporate purposes of the Company.

The reserved stock, when issued, will be entitled to such rate of dividends not exceeding 7% and will be redeemable on such terms as determined by the board of directors. See "Voting Trust."

Note.—Provision is to be made that the New Company shall not create any additional mortgage, nor increase the amount of preferred stock authorized under the plan except with the consent of holders of a majority of the preferred stock outstanding, given at a meeting of the stockholders called for that purpose, and the consent of holders of a majority of such part of the common stock as shall be represented at such meeting, the holders of each class of stock voting separately. During the existence of the Voting Trust, similar consent of holders of like amounts of the respective classes of certificates of beneficial interest shall also be necessary for the purposes indicated.

Provision is also to be made that neither the New Company nor any company controlled by it, shall purchase or take a lease of any line of railroad (other than industrial tracks) or guarantee any part of the principal or interest on any obligation of, or any dividend or other payment on the stock of, any other company or acquire more than 25% of the stock of any other company except with the assent of the holders of a majority of the outstanding stock present at a meeting called for that purpose.

COMMON STOCK ----- \$48,480,000

Authorized ----- \$250,000,000

Issued to be sold to Purchase Syndicate ----- 43,180,000

Issued for adjustment of outstanding indebtedness ----- *5,300,000

Reserved for corporate purposes of the Company ----- 201,520,000

*Any amount not used for adjustment of outstanding indebtedness to be available for corporate purposes of the Company. See "Voting Trust."

Note.—So far as the reorganization may be subject to the approval of the public utilities or public service commission in certain States, the amount of capitalization of the New Company may be reduced in order to comply with the order of such commission. In the event of such reduction it shall be made in the Common Stock. See also "Note" under Preferred Stock.

STOCKHOLDERS' ASSESSMENT.

Upon depositing 1st Preferred, 2d Preferred or Common stock under the Plan, the holder may either pay the full assessment of \$50 per share and receive the securities set forth in the explanatory note (1) below, or he may pay only \$5 and agree to pay the balance of \$45 upon the expiration of the loan to be made by the Loan Syndicate, at which time the new securities will be received. The Reorganization Managers reserve the right to substitute for the Prior Lien B 5s cash at 85 flat. The assessment per share therefore amounts to \$50 to those who elect to pay the full amount upon depositing, while to those paying only \$5 per share when depositing their stock the assessment may amount to either \$45 additional or to \$2.50 additional, depending upon whether or not cash at 85 (or \$42.50) is substituted for the \$50 in Prior Lien Bonds per share.

Details of Assessments and Securities Received.

No holders of stock will be entitled to deposit it or to receive a certificate of deposit therefor without making a payment of \$5 per share at the time of deposit. As to further assessments they may select one of the two alternatives:

- (1) To pay also at the time of deposit an additional \$45 per share plus accrued interest on the bonds received which entitles the stockholder to a Fully Paid Subscription Certificate and the following, per share:

1st Pfd. Stock.	2nd Pfd. Stock.	Common Stock.
\$50 Prior Lien B 5s	\$50 Prior Lien B 5s	\$50 Prior Lien B 5s
\$190 Com. Stk. (tr. cts.)	\$90 Com. Stk. (tr. cts.)	\$82 Com. Stk. (tr. cts.)

- (2) To make no further payment at the time of deposit, but agree to pay at the time of the expiration of the loan to be made by the Loan Syndicate (see page 438), an additional \$45 plus accrued interest on the bonds received which entitles the holder to a purchase warrant and the following securities per share.

1st Pfd. Stock.	2nd Pfd. Stock.	Common Stock.
\$50 Prior Lien B 5s or cash at 85 flat in lieu of bonds not delivered.	\$50 Prior Lien B 5s or cash at 85 flat in lieu of bonds not delivered.	\$50 Prior Lien B 5s or cash at 85 flat in lieu of bonds not delivered.
\$190 Com. Stk. (tr. cts.)	\$90 Com. Stk. (tr. cts.)	\$82 Com. Stk. (tr. cts.)

Note.—If all the stock and 1st Mtge. Bonds of the New Mexico & Arizona Land Co. shall be acquired, that company will be recapitalized with a capital stock of \$500,000, which will be delivered proportionately to depositing stockholders.

So far as the reorganization may be subject to the approval of the public utilities or public service commission in certain States, the amount of capitalization of the New Company may be reduced in order to comply with the order of such commission. In the event of such reduction it shall be made in the Common Stock and the amount of stock trust certificates deliverable to the three classes of stock will be reduced by an equal percentage.

STANDARD CORPORATION SERVICE

In respect of each share of C. & E. I. Preferred Stock represented by surrendered trust certificates: \$18 in 6% Preferred Stock (trust certificates) and \$2.50 in Common Stock (trust certificates).

In respect of each share of C. & E. I. Common Stock represented by surrendered trust certificates: \$30 in 6% Preferred Stock (trust certificates) and \$4.25 in Common Stock (trust certificates).

\$14,000,000 New Orleans Terminal Co. 1st 4s, guaranteed both principal and interest, jointly and severally, by Southern Ry. Co. and St. L. & S. F. R. R. Co.

The Southern Ry. Co. has taken over the stock of the New Orleans Terminal Co. formerly held by the St. L. & S. F. and the Terminal Company is to release the latter from all indebtedness or liability now existing or which may hereafter arise on the various agreements with respect to the properties and stock of the Terminal Company or on said guaranty. The Reorganization Managers will deliver \$118,000 in cash and \$650,000 in 6% Preferred Stock (trust cfs.)

Voting Trust.

The Preferred and Common Stock of the New Company will be assigned (but in the event hereafter stated, subject to the prior pledge thereof under the Prior Lien Mortgage) to the following Voting Trustees: Frederic W. Allen, James W. Lusk, Charles H. Sabin, James Speyer, Frederick Strauss, Eugene V. R. Thayer and Festus J. Wade, and will be held by them jointly for five years.

The Voting Trustees will issue certificates of beneficial interest entitling the registered holders thereof to receive stock certificates for shares of the number and class specified in such certificates, and in the meanwhile to receive payments equal to the dividends received by the Voting Trustees upon shares of the number and class therein specified. In the event of death, failure or refusal to serve of any person designated as a Voting Trustee prior to the creation of the Voting Trust, the vacancy shall be filled by the Reorganization Managers.

STANDARD CORPORATION SERVICE

JANUARY 1 TO APRIL 30, 1917

If the Reorganization Managers shall so determine the Preferred and Common Stock of the New Company may be pledged as additional security for the Prior Lien bonds for five years, and for that purpose be vested in the Trustee under the Prior Lien Mortgage by agreement made or approved by the Reorganization Managers, under which the voting power on the stock so pledged shall be exercised by the Trustee under the Prior Lien Mortgage as directed by the Voting Trustees. In the absence of such direction, or in case of default in the payment of interest on any Prior Lien bond, such voting power shall be directed by a majority of the Trustees under the Prior Lien Mortgage, the Adjustment Mortgage and the Income Mortgage.

Undisturbed Securities.

The following are the only securities which remain undisturbed under the Plan:

St. L. & S. F. Gen. 5s & 6s.....	\$9,484,000
St. L. & S. F. Equip. obligations maturing after July 1, 1917..	5,306,000
Birmingham Belt R. R. 1st 4s.....	1,000,000
Kansas City, Ft. Scott & Memphis Ref. 4s.....	25,835,000
Kansas City, Ft. Scott & Memphis Cons. 6s.....	13,736,000
Kansas & Missouri R. R. 1st 5s.....	390,000
Current River R. R. 1st 5s.....	1,606,000
Kansas City & Memphis Railway and Bridge 1st 5s.....	3,000,000
Kansas City, Memphis & Birmingham Gen. 4s.....	3,323,390
Kansas City, Memphis & Birmingham Income 5s.....	5,923,280

Purchase Syndicate.

For the purpose of meeting the estimated cash requirements of the Plan, Messrs. Speyer & Co., J. & W. Seligman & Co., Guaranty Trust Co. of New York and Lee, Higginson & Co. have undertaken to form a Purchase Syndicate, of which they will be Syndicate Managers. This syndicate will purchase \$25,000,000 Prior Lien B 5s and \$43,180,000 Common Stock (trust certificates), for \$25,000,000 and accrued interest on the bonds, against which will be credited the amounts paid by stockholders as a condition of participating in the Plan. The syndicate will offer the Prior Lien B 5s and Common Stock (trust certificates) so purchased, to the extent and on the terms stated in the Plan to depositing holders of stock. At the request of the Reorganization Managers the syndicate will purchase additional Prior Lien Mortgage bonds to an amount not exceeding \$5,000,000.

Loan Syndicate.

Guaranty Trust Co. of New York has undertaken to form a Loan Syndicate, of which it will be Syndicate Manager. This syndicate will, against the pledge by the Purchase Syndicate of the Prior Lien Mortgage bonds and Common Stock (trust certificates), which will not be purchased and paid for in full by depositing stockholders, advance to the Purchase Syndicate up to 90% of the face amount of said bonds so pledged.

Reorganization Managers.

J. & W. Seligman & Co. and Speyer & Co. The Reorganization Managers, for their services shall be entitled to compensation as determined by the presidents of the New York Trust Co., Columbia Trust Co. and Equitable Trust Co., New York.

Terms of Participation.

Holders of securities entitled to participate in the Plan may deposit them on or before April 15, 1916, with their respective Depositories. Holders of stock were permitted to deposit their holdings up to and including Jan. 16, 1917.

Note.—It is intended on the completion of the reorganization to set aside the new securities and cash to which under the Plan, holders of non-deposited Re-funding 4s and General Lien 5s would be entitled if deposited, until the expiration of one year after the conclusion of peace (abroad), by treaty, to be deliverable at any time during such period to holders of such bonds who may so desire and who shall give satisfactory reasons for their previous inability to deposit the same under the Plan.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Depositories.

Central Trust Co., New York, Mississippi Valley Trust Co., St. Louis, Berliner Handels-Gesellschaft, Berlin and Associatie Cassa, Amsterdam.

St. L. & S. F. Ref. 4s (with July 1, 1914, and all subsequent coupons).

Bankers Trust Co., New York.—

St. L. & S. F. Gen. Lien 5s (May 1, 1914, and all subsequent coupons).

Guaranty Trust Co., New York.—

St. L. & S. F. First Preferred Stock (and \$5 per share).

St. L. & S. F. Second Preferred Stock (and \$5 per share).

St. L. & S. F. Common Stock (and \$5 per share).

Central Trust Co., New York.—

All other securities (with coupons maturing after July 1, 1916).

All bonds and trust certificates deposited must be in negotiable form and all stock certificates and registered bonds must be either endorsed in blank for transfer or accompanied by proper transfers in blank duly executed. All securities and all certificates of stock must bear proper stamps for transfer in New York.

Income Available for Contingent Interest Charge.

The net income for any fiscal year (as that term is defined in the accounting rules of the Interstate Commerce Commission, but without deduction for income transferred to other companies for capital purposes) shall be applicable to the payment of interest on the Adjustment Mortgage bonds and thereafter to the payment of interest on the Income Mortgage bonds.

The board of directors may first reserve therefrom an amount which shall not exceed 15% of the net income of the New Company, nor in any event, \$660,000. The amount so reserved at any time unpaid shall not exceed, exclusive of interest, \$2,000,000.

No reservation shall be made except for a period of ten years from and including the earliest fiscal year in which such reservation shall be made. No amount shall be reserved from net income during the life of the Voting Trust (five years).

To the extent to which such reservation shall result in withholding from the Adjustment Mortgage bonds any part of the full interest on the Adjustment Mortgage bonds, the amount so withheld shall be carried to a fund to be designated Adjustment Mortgage Reserve Fund, and to the extent to which such deduction shall result also in withholding from the Income Mortgage bonds payment of any part of the full interest of the Income Mortgage bonds, the amount so withheld shall be carried to an amount to be designated Income Mortgage Reserve Fund.

From time to time, as any arrears of interest on the Adjustment Mortgage bonds shall be paid out of subsequent Available Net Income, an amount equal to so much of the arrears so paid as would otherwise be applicable to the payment of interest on the Income Mortgage bonds for such year and is withheld therefrom, shall be transferred

from the Adjustment Mortgage Reserve Fund to the Income Mortgage Reserve Fund.

The amounts carried to such Funds shall respectively constitute and be carried as corporate liabilities in the corporate accounts and shall carry interest at the rate of 5% per annum with semi-annual rests. The Income Mortgage Reserve Fund shall be distributable solely to the Income Mortgage bonds but no such distribution shall be made at a time when interest on the Adjustment Mortgage bonds shall be in arrears.

Subject as aforesaid, the Income Mortgage Reserve Fund may be so distributed in the discretion of the board of directors in any amount and at any time. Such distribution shall be made in addition to the full interest accruing on the Income Mortgage bonds and also in case the full interest on said bonds is not earned. The Adjustment Mortgage and the Income Mortgage may provide for interim payments out of accruing Net Income.

No dividend shall be paid on the stock of the New Company unless all amounts in either Reserve Fund shall have been paid to the Trustee under the proper Mortgage for payment not later than the next succeeding interest date to the bonds secured by such mortgage.

All amounts in both Reserve Funds must be distributed to the bonds for which such amounts are held, not later than the interest day on such bonds next succeeding the expiration of a period of ten years from and including the earliest fiscal year in which any reservation shall have been made. Failure to make such payment shall constitute default under the appropriate mortgage on the happening of which the principal of the bonds issued under such mortgage may become or be declared due.

STANDARD CORPORATION SERVICE

JANUARY 1 TO APRIL 30, 1917

PERE MARQUETTE R. R. CO.

PLAN OF REORGANIZATION.

History.—The Pere Marquette R. R. Co. was incorporated on August 12, 1907, in Michigan and Indiana as a consolidation of the Pere Marquette R. R. Co. of Michigan and the Pere Marquette R. R. Co. of Indiana. The former Michigan Company was a consolidation effected Nov. 1, 1899, of the Chicago & West Michigan Ry., Detroit, Grand Rapids & Western R. R. and Flint & Pere Marquette R. R. On April 5, 1912, a receiver was appointed by the Court to take possession of the property owing to the refusal of the Michigan State Railroad Commission to grant permission to carry out arrangements for meeting maturing obligations. Paul H. King and Dudley E. Waters are the present receivers.

Scope of Plan.—The various properties will be sold under foreclosure of the Divisional Mortgages, the Consolidated Mortgage, the Refunding Mortgage and the Improvement Mortgage or any one or more of them, and/or under the general creditor bill or otherwise dealt with, and a new company will be organized. It is intended ultimately to vest in the new Company all the lines now covered by said mortgages and subject to existing liens thereon all interests in securities representative of the Canadian Lines.

Introductory Statement.—The committees representing the holders of the Divisional Bonds, the Consolidated 4s and the Refunding 4s have been for a long time engaged in the examination of the affairs of the System, and the relative value and earning capacity of the lines covered by the different mortgages. Careful expert examinations of the Company's operations and physical condition, and of its financial requirements, have been made by Mr. L. F. Loree and Mr. J. W. Kendrick. The following plan of reorganization has been formulated and adopted by said three committees, and is expected to accomplish, among other things, the following results:

- (a) The preservation of the Pere Marquette R. R. as a system, and such control for the reorganized property as shall safeguard the rights of security holders;
- (b) Reduction of fixed charges to a limit believed under all conditions to be safely within the net earning capacity of the reorganized property;
- (c) Adequate capital provision for present and future requirements;
- (d) Payment or adjustment of all debts and provision for existing equipment trust obligations.

Estimated Cash Requirements.—The estimated cash requirements of the Plan are \$15,000,000, to be applied as follows:

Receivers' Certificates and Notes.....	\$4,615,000
Equipment trust obligations as of January 1, 1917.....	1,056,000
Claims requiring settlement in reorganization not otherwise provided for	350,000
Commission to Purchase Syndicate, including compensation of Loan Syndicate.....	800,000
Organization, franchise and other taxes, including stamps.....	150,000
Expenses of committees, including their compensation, and fees of their counsel, and engineering and accounting experts	675,000
Reorganization expenses, including compensation of the Reorganization Managers, legal expenses and miscellaneous expenses	1,054,000
Payments for interest on new bonds and in recognition of interests of new preferred stock for period from July 1, 1916, until possession by New Company.....	1,300,000
Additions, improvements, betterments, new construction, new equipment, working capital, etc.....	6,000,000
	<hr/>
	\$16,000,000

The Receivers estimate that on Jan. 1, 1917, the cash on hand, after providing funds for payment of interest on Receivers' Certificates and Notes, interest on securities paid regularly during the receivership and all overdue and current interest on equipment trust obligations, will be approximately \$2,500,000, which, after payment therefrom of foreclosure and receivership expenses, should be available for the corporate purposes of the New Company.

Provisions for Cash Requirements.—To meet the estimated cash requirements of the Plan the New Company will sell to the Purchase Syndicate \$6,000,000 1st A 5s, 1956, \$11,200,000 Prior Preference Stock (trust cfs.) and \$25,675,400 Common Stock (trust cfs.) for \$16,000,000.

Capitalization and Fixed Charges of Old Company and New Company Compared.

	Old Company	New Company
Undisturbed Securities (Canadian Lines):

In effect a third collateral lien on 198.81 miles—

Covered by the 1st collateral lien of the Lake Erie Div. Coll. 4½ and by the second collateral (in effect) lien of the Coll. 4s, 1923.

Walkerville to St. Thomas, Ont.....	126.78
Sarina to Rond Eau, Ont.....	72.03

*An agreement has been entered into between the Receivers of Pere Marquette R. R. Co. and the Pennsylvania Co., which contemplates the joint use of the road between Alexis, Ohio, and Carleton, Mich., 25.28 miles (included in the foregoing table of mileage owned), and of a new double-track line to be constructed by the Pennsylvania Co. The interests acquired by the New Company in said lines, whether represented by securities, contracts or otherwise, it is intended to subject to the lien of this mortgage.

‡Half interest.

Rate per Mile.—On total mileage covered, \$14,819 per mile; on mileage covered by first lien, \$16,408 per mile. The prior liens on the 190 miles they cover are outstanding at the rate of \$29,497 per mile. Including prior liens the bonds are outstanding at the rate of \$17,676 per mile.

Prior Liens.—Subject in effect to \$5,870,000 prior liens, viz.:

Pere Marquette Coll. 4s, 1923.....	\$2,870,000
Pere Marquette Lake Erie Div. Coll. 4½s, 1932.....	3,000,000

Note.—The prior liens are closed at their outstanding amounts and sufficient of these bonds are reserved to retire them at maturity.

5% PRIOR PREFERENCE STOCK—Cumulative.

This Stock will be entitled to receive cumulative preferential dividends at the rate of 5% per annum before any other stock of the Company, and no dividends shall be paid in any fiscal year upon any other stock of the Company unless all accumulated dividends upon this Stock for all previous fiscal years shall have been paid and full dividends thereon for the proportionate part of the current fiscal year shall have been paid or declared and set aside for payment. This Stock shall not be entitled to any further dividends.

Redeemable.—To be redeemable at par and accrued and accumulated dividends.

In the event of liquidation, holders of this Stock shall be entitled to receive par and accumulated dividends before any amount shall be paid to holders of any other stock of the Company, but they shall not be entitled to any further distribution.

Authorized.—\$11,200,000—to be sold to Purchase Syndicate.

5% PREFERRED STOCK.

This Stock shall be entitled to receive preferential dividends at the rate of 5% per annum (cumulative after Jan. 1, 1919) in priority to dividends upon the Common Stock. This Stock shall not be entitled to any further dividends. No dividend shall be paid in any fiscal year upon the Common Stock unless all accumulated dividends upon this Stock for all previous fiscal years or portions thereof subsequent to January 1, 1919, shall have been paid and full dividends thereon for the proportionate part of the current fiscal year shall have been paid or declared and set aside for payment.

Redeemable.—To be redeemable at par and accumulated dividends.

In the event of liquidation, holders of this Stock shall be entitled to par and accumulated dividends before any amount shall be paid to the holders of the Common Stock, but they shall not be entitled to any further distribution.

Authorized.—\$12,429,000—to be issued in exchange for existing securities.

COMMON STOCK.

Authorized	\$45,046,000
To be issued in exchange for existing securities.....	19,370,600
To be sold to Purchase Syndicate.....	25,675,400

Note.—Provision is to be made that the New Company shall not create any additional mortgage except after there shall have been given, at a meeting of the stockholders called for that purpose, the consent of the holders of a majority of the Prior Preference Stock outstanding, the consent of the holders of a majority of the Preferred Stock outstanding, and the consent of the holders of a majority of such part of the Common Stock as shall be represented at such meeting, the holders of each class of stock voting separately. During the existence of the Voting Trust, similar consent of holders of like amounts of the respective classes of trust certificates shall also be necessary for the purposes indicated.

Voting Trust.—The Prior Preference, Preferred and Common Stocks of the New Company will be assigned to James S. Alexander, Francis R. Hart, Frederick Strauss, Eugene V. R. Thayer, Robert Winsor and Beekman Winthrop (and, if the Reorganization Managers shall so determine, additional persons)

JANUARY 1 TO APRIL 30, 1917

to be jointly held by them as Voting Trustees for not exceeding five years. The Voting Trustees will issue trust certificates entitling the registered holders hereof to receive stock certificates for shares of the number and class specified in such trust certificates, and in the meanwhile to receive payments equal to the dividends received by the Voting Trustees upon such stock.

The following table shows the securities to be distributed under the Plan and the amount to be received by the present bond and noteholders. (See also "Rights of Purchase of New Securities from Purchase Syndicate," page 6.)

*Does not include \$175,000 deposited under Pere Marquette Refunding Mortgage.

Includes \$3,808,000 which were pledged under the Improvement Mortgage, and upon default of latter were sold at auction. Also includes \$875,000 subject to Equipment Trust Agreements, the equity in which was sold.

These notes aggregated originally \$1,200,000 and were secured by \$1,200,000 Improvement Mortgage Bonds and certain Cincinnati, Hamilton & Dayton Ry. General Mtge. Bonds. On account of default in payment of principal and interest of these notes the said collateral was sold at auction and the net proceeds of sale were applied toward payment of the notes.

†Per \$1,000 face amount of original notes (\$1,200,000).

*\$9,207,000 of these bonds are guaranteed principal and interest, by endorsement, by the Cincinnati, Hamilton & Dayton Ry. Co. The reorganization managers have entered into agreements under which it is expected, if sufficient of the guaranteed bonds are deposited by March 1, 1917, to cancel said guarantee against a net cash payment of \$12.50 for each \$1,000 bond. Whether or not such arrangement is carried out, any net amount received in discharge of such guarantee will be distributed pro rata among the holders of certificates of deposit for these bonds so guaranteed.

Rights of Purchase of New Securities from Purchase Syndicate—The Purchase Syndicate offers to depositors of *Divisional Bonds, Cons. 4s, Refunding 4s, Collateral Trust Notes, Debentures, First Preferred Stock, Second Preferred Stock and Common Stock the opportunity to subscribe for \$11,200,000 5% Prior Preference Stock-Cumulative (trust ctfs.) and \$22,400,000 Common Stock (trust ctfs.) at the following rate:

\$1,000 par value Prior Preference Stock (trust ctfs.) } For \$975 in Cash
\$2,000 par value Common Stock (trust ctfs.) }

This offer may be availed of by depositors of said securities up to any amount, but in case applications be made in excess of the amounts offered, an allotment will be made to the depositors of the following securities, to the extent indicated in the following table, and allotment will be made of any balance substantially in proportion to the additional amounts applied for.

Table of minimum amount of new stock which may be acquired by the following depositors:

For each \$1,000 principal or par amount of:	Prior Preference Stock (trust ctfs.)	Common Stock (trust ctfs.)	Cash Payment
Refunding 4s	\$250	\$500	\$243.75
Collateral Trust Notes	400	800	\$390.00
Debentures	380	760	\$370.50
First Preferred Stock	100	200	\$97.50
Second Preferred Stock	100	200	\$97.50
Common Stock	100	200	\$97.50

†Of original notes.

*Includes all bonds (except Cons. 4s and Ref. 4s) given in the table on page 5.

Holders of the following securities desiring to subscribe for said Prior Preference Stock and Preferred Stock, upon presentation of their securities on or before Dec. 4, 1916, and upon payment for account of the Purchase Syndicate:

This information, while not guaranteed, is believed to be correct.

STANDARD CORPORATION SERVICE

JANUARY 1 TO APRIL 30, 1917

For each \$1,000 principal or par amount of:	*Amount
Refunding 4s (assenting to plan)-----	\$43.75
Collateral Trust Note-----	70.00
Debenture-----	66.50
First Preferred Stock-----	17.50
Second Preferred Stock-----	17.50
Common Stock-----	17.50

*This amount is taken as part of the required payments.

shall be entitled to receive Subscription Warrants (specifying the minimum amount of new stock to which such holder is entitled) and Application Certificates.

Holders, upon presentation on or before Dec. 4, 1916, of certificates of deposit for Divisional Bonds and Cons. 4s, stamped as assenting to the Plan, will be entitled to receive Application Certificates only.

Attached to the Application Certificates will be forms for subscription to Prior Preference Stock (trust ctfs.) and Common Stock (trust ctfs.), which forms must be properly filled out and filed (with cash equal to \$17.50 for each share of Prior Preference Stock applied for), with the Central Trust Co., New York, on or before Dec. 18, 1916. Application Certificates in case of allotment, will be exchangeable for Subscription Warrants. The cash accompanying applications exceeding \$17.50 in respect of each share of Prior Preference Stock (trust ctfs.) allotted will be returned at the time of exchange for Subscription Warrants.

Subscription Warrants will be issued in two series, Series A and Series B. When making the required payments to obtain Subscription Warrants, depositors must elect whether the Subscription Warrants shall be of Series A or Series B, and the holders of Application Certificates must similarly elect at the time of filing their application forms.

On consummation of the Plan, holders of the Subscription Warrants, Series B, upon payment of \$80 (balance of cost) for each share of Prior Preference Stock allotted will be entitled to receive the Prior Preference Stock (trust ctfs.) and Common Stock (trust ctfs.) specified in said warrants.

On consummation of the Plan holders of the Subscription Warrants, Series A, will be entitled to exchange same for Purchase Warrants.

Purchase Warrants will be issued by Guaranty Trust Co., New York, and will be delivered on behalf of the Purchase Syndicate. The Purchase Warrants will specify the amounts of Prior Preference Stock and Common Stock allotted and will certify that on payment of the loan to be made by the Loan Syndicate (see "Loan Syndicate" below) of \$80 for each share of Prior Preference Stock allotted, the Guaranty Trust Co. will deliver to holders thereof the Prior Preference Stock (trust ctfs.) and Common Stock (trust ctfs.) allotted or will in lieu of all or fractional interests of such Prior Preference Stock (trust ctfs.) pay cash at 70% flat. Holders of Purchase Warrants will not be entitled to dividends received on the Prior Preference Stock (trust ctfs.) and Common Stock (trust ctfs.).

Purchase Syndicate.—J. & W. Seligman & Co., Robert Winthrop & Co. and Kidder, Peabody & Co., New York, have formed a Purchase Syndicate, of which they are Syndicate Managers. The Syndicate will purchase:

\$6,000,000 First Mortgage A 5s, 1956,
\$11,200,000 Prior Preference Stock (trust ctfs.),
\$25,675,400 Common Stock (trust ctfs.),

for \$16,000,000. The Syndicate will offer the Prior Preference Stock (trust ctfs.) and Common Stock (trust ctfs.) to holders of certain securities of the Old Company (see "Rights of Purchase of New Securities from Purchase Syndicate"). The Syndicate will be given a commission of 5% on the maximum syndicate obligation of \$16,000,000, which shall include the commission of the Syndicate Managers, and from the compensation of this Syndicate shall be paid the compensation of the Loan Syndicate.

Loan Syndicate.—Guaranty Trust Co., New York, has formed a Loan Syndicate, of which it is Syndicate Manager. This Syndicate will, against the pledge by the Purchase Syndicate of such Prior Preference Stock (trust ctfs.) and Common Stock (trust ctfs.) as shall not be purchased and paid for in full by depositing security holders advance to the Purchase Syndicate up to 80% of the Prior Preference Stock (trust ctfs.) so pledged. Such advance shall be repayable after 10 to 12 months, but not later than Jan. 1, 1919.

Reorganization Managers.—J. & W. Seligman & Co., Robert Winthrop & Co. and Eugene V. R. Thayer. These Managers shall receive a sum equal to ¼% of the new bonds and ¼% of the new stock to be issued under the Plan.

TERMS OF PARTICIPATION.

(See also "Rights of Purchase of New Securities from Purchase Syndicate.")

*Divisional Bonds.—The Plan has been adopted by the Committee representing these bonds. Any holders may on or before Dec. 1, 1916, surrender his certificates of deposit and withdraw the bonds represented thereby upon payment

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

of \$10 for each \$1,000 bond so withdrawn. Holders of certificates of deposit not so withdrawing will be deemed to have assented to the Plan.

Holders of these bonds not deposited with said committee and desiring to participate in the Plan may deposit their bonds on or before Dec. 4, 1916.

*Includes all bonds (except Cons. 4s and Ref. 4s) given in the table on page 5.

Consolidated 4s.—The Plan has been adopted by the Committee representing these bonds. Any holder of a certificate of deposit may, on or before Nov. 29, 1916, file written dissent with the Depositary. Unless holders of more than one-third of the amount of bonds deposited under the agreement dissent, said Plan shall be effective and binding on all holders of certificates of deposit.

Holders of these bonds not deposited with said Committee, and desiring to participate in the Plan may deposit their bonds on or before Dec. 4, 1916.

Refunding 4s.—The Plan has been adopted by the Committee representing these bonds. Any holder may, on or before Dec. 1, 1916, surrender his certificates of deposit and withdraw the bonds represented thereby upon payment of \$10 for each \$1,000 bond so withdrawn. Holders of certificates of deposit not so withdrawing will be deemed to have assented to the Plan.

Holders of these bonds not deposited with said Committee, and desiring to participate in the Plan, may deposit their bonds on or before Dec. 4, 1916.

Detached Coupons of

All certificates of stock must bear proper stamps for transfer in New York.

Provisions for Declaring Plan Operative.—The reorganization Managers shall be the sole and final judges as to whether and when sufficient of the securities of the various classes shall have assented, to declare the Plan operative. They may declare the Plan operative as to all or only certain classes of securities. In case the Reorganization Managers shall declare the Plan operative but shall exclude any class of the deposited securities, such securities shall be returned to holders of certificates of deposit representing same upon payment of only such taxes imposed upon the transfer thereof.

STANDARD CORPORATION SERVICE

JANUARY 1 TO APRIL 30, 1917

WESTERN PACIFIC RY. CO.

PLAN OF REORGANIZATION.

Under date of Dec. 15, 1915, the Reorganization Committee (see page 4) drew up the following Plan of Reorganization. It is proposed that a new corporation (the "Operating Company") be organized to acquire the lines of the Company and that another corporation (the "Holding Company") be organized to acquire the entire capital stock, except directors' qualifying shares, of the Operating Company. The Holding Company shall also hold and enforce the claims against the Denver & Rio Grande R. R. Co. arising out of the latter's guarantee of the Western Pacific First Mortgage Bonds.

Capitalization of the Old Company Compared with the Capitalization of the Combined New Companies (Operating and Holding Companies)—

	Old Company	New Company	Decrease
First Mortgage 5s.....	\$50,000,000	\$20,000,000	\$30,000,000
Second Mortgage 5s.....	25,000,000	-----	25,000,000
Unsecured debt, about.....	26,800,000	-----	26,800,000
Miscellaneous claims as ascertained by receivers (not including claims of considerable amount paid just prior to receivership).....	163,626	-----	163,626
Capital stock.....	75,000,000	*75,000,000	-----
Total	\$176,963,626	\$95,000,000	\$81,963,626
Fixed charges.....	†4,700,000	1,000,000	3,700,000

‡Includes notes, open accounts, traffic and car service balances and claims for interest in default owing to the Denver & Rio Grande as of date of appointment of receivers.

*Includes \$27,500,000 Preferred Stock and \$47,500,000 Common Stock. This amount may be somewhat diminished, according to the number of the new bond which the underwriting syndicate may have to take up.

†Does not include interest on several million dollars of indebtedness to the Denver & Rio Grande R. R. Co. and Utah Fuel Co., upon which the payment of interest was not regularly accrued upon the Western Pacific books prior to the receivership.

Cash Requirements.—

The estimated cash requirements of the Plan are \$18,600,000, which it is expected will be applied as follows:

- (a) To the purposes indicated below in this clause (a), in the amounts so estimated or in different proportions as the Reorganization Committee, prior to the completion of the reorganization, or the Board of Directors of the Holding Company, thereafter, may determine or approve; the unexpended balance if any to be employed as specified below in clause (b) \$8,098,750

To the distributive shares of non-assenting bondholders, underwriting commission, expenses of foreclosure and reorganization, including court costs, compensation and allowances of the Receivers and their counsel, the trustee and its counsel, taxes on creation and issuance of new securities, compensation and expenses of the Protective and Reorganization Committees, their depositaries and counsel, fees of engineering, accounting and other experts, engraving, printing and miscellaneous requirements..... \$2,000,000

To betterments of existing road..... 2,579,750

To acquisition of new passenger and freight equipment for Operating Company..... 3,514,000

\$8,098,750

- (b) To the acquisition by purchase, construction or otherwise of extensions and feeders, including payment of interest during construction; the acquisition of additional new property other than extensions, including floating equipment; payment of the Receivers' car trust obligations; provisions of working capital for the Operating Company; and supplying for any of the purposes mentioned in clause (a) any amount required therefor in excess of the amount there specified; (moneys to be applied in such amounts severally as the Reorganization Committee, prior to the completion of the reorganization, or the Board of Directors of the Holding Company thereafter may determine or approve); and, if the Board of Directors of the Holding Company and the Board of Directors of the Operating Company—or the Reorganization Committee prior to the completion of the reorganization—shall so determine (in every case by vote of three-fourths of all members and subject to the approval and upon such conditions, if any, as may be imposed by the Railroad Commission of the State of California), to the protection of the claims against the Denver & Rio Grande R. R. Co. to be acquired as contemplated by the Plan and of the Operating Company's situation with respect to its traffic relations..... \$10,506,250

Total

\$18,600,000

The foregoing cash to be provided for as follows: It is estimated that on March 1, 1916, the receivers shall have on hand \$600,000 available for use by the Operating Company and \$18,000,000 will be realized by the sale at 90 of the \$20,000,000 new 5% bonds.

This information, while not guaranteed, is believed to be correct.

JANUARY 1 TO APRIL 30, 1917

Disposition of New Securities.—The holder of 1st Mtge. 5% bonds of the Old Company will be entitled to purchase at 90 and interest the (new) 1st 5s, 1946, to the extent of 40% of the amount of old bonds deposited by him. Such holder will receive an addition to the new bonds purchased by him preferred stock of the Holding Company equal to 55% of his deposited bonds and common stock equal to 95% of his deposited bonds.

If the holder of the 1st Mtge. 5% bonds of the Old Company does not purchase the new bonds he will be entitled to receive preferred stock of the Holding Company equal to 50% of his deposited bonds and common stock equal to 75% of his deposited bonds.

Holders of the 1st 5s of the Old Company who	Will receive:
Purchase the new bonds at 90.....	\$400 (new) 1st 5s 550 Preferred Stock 950 Common Stock
Do not purchase the new bonds.....	\$500 Preferred Stock 750 Common Stock

Description of New Securities.—**Operating Company.**—(Western Pacific R. R. Co.)

First Mtge. Gold 5s, due March 1, 1946..... \$20,000,000

Dated March 1, 1916; interest payable March and Sept. 1; authorized, \$50,000,000; redeemable on any interest date at par and interest; \$30,000,000 will be issuable for betterments, additions and extensions at not exceeding the actual cost thereof; to bear interest at not exceeding 6%; rates of interest, dates of maturity and redemption prices to be fixed by the Board of Directors of the Operating Company with the approval of the Board of Directors of the Holding Company.

Preferred Stock (6% non-cumulative)..... *\$27,500,000

Preferred both as to dividends and in liquidation; redeemable at 105 and accrued dividends; convertible par for par into common stock at any time prior to any date fixed for redemption.

Common Stock..... *\$47,500,000

*To be acquired by the Holding Company.

Note.—In its discretion and with the approval of the Railroad Commission of California, the Reorganization Committee may cause the Operating Company to issue its obligations bearing interest at the rate of at least six per cent. per annum in place of its preferred stock provided for in the Plan and, in its discretion and with the approval of said commission, may cause obligations, junior to said obligations last mentioned, to be issued in place of such part as it may specify of the common stock of the Operating Company provided for in the Plan, and either of said issues or any part of either thereof may be fixed obligations or income obligations and may or may not have fixed dates of maturity and said obligations may be of such character otherwise as the Reorganization Committee may determine.

Holding Company.—(Western Pacific R. R. Corp.).

Preferred Stock (6% none-cumulative)..... \$27,500,000

Preferred both as to dividends and in liquidation redeemable at 105 and accrued dividends; convertible par for par into common stock at any time prior to any date fixed for redemption.

Common Stock..... \$47,500,000

Underwriting Syndicate.—Such of the New Bonds as shall not be purchased by the holders of certificates of deposit are to be taken by an underwriting syndicate which has underwritten the sale, at 90 and interest of all the \$20,000,000 new 1st 5s and is to receive \$1,000 principal amount of new bonds, \$125 par value of preferred stock and \$500 par value of common stock of the Holding Company for each \$900 of cash (and accrued interest upon \$1,000 principal amount of new 1st 5s) paid by it. The securities received by an underwriter in consideration of any given payment are to be the same in character and amount as those that will be forfeited by holders of certificates of deposit who fail to exercise their privilege of purchasing new 1st 5s by payment of an equal amount.

The Equitable Trust Co., Blair & Co. and Wm. Salomon & Co., New York, have undertaken to form the syndicate referred to and will receive as compensation therefor \$100,000 (being ½% of the principal amount of the bonds underwritten).

Terms of Participation.—Holders of certificates of deposit may withdraw on or before Feb. 3, 1916, the bonds represented by such certificates upon payment of their pro rata share of the compensation and expenses of the committee. Holders who do not so withdraw shall be conclusively deemed to have assented to said plan. Holders of the 1st 5s who have not deposited their bonds may do so on or before June 1, 1916, as assenting to the plan.

Claims Against the Denver & Rio Grande R. R. Co.—The Denver & Rio Grande R. R. Co. guarantees by endorsement the interest and sinking fund requirements of the Western Pacific 1st 5s, 1933. Interest on these bonds was defaulted in March and September, 1915, and suit has been filed to foreclose on the mortgage securing the bonds. If this mortgage is foreclosed the Denver & Rio Grande R. R. Co.'s entire investment in the Western Pacific will be wiped out (this investment is represented by a debt of \$55,500,000; viz., \$25,000,000 second mortgage bonds of Western Pacific, all owned by the Denver & Rio Grande R. R. Co., with interesting accrued

This information, while not guaranteed, is believed to be correct.

STANDARD CORPORATION SERVICE

JANUARY 1 TO APRIL 30, 1917

thereon amounting to \$3,200,000; \$17,500,000 advanced by the Denver & Rio Grande R. R. Co. upon promissory notes or open account with interest accrued thereon amounting to \$4,800,000). This foreclosure, however, will not discharge the obligations of the Denver & Rio Grande R. R. Co. to the Western Pacific bondholders.

The articles of incorporation of the Holding Company shall provide that the board of directors of the Holding Company shall have power to enforce against the Denver & Rio Grande R. R. Co. the claims against the latter company to be acquired by the Holding Company, or to compromise such claims or to enter into any arrangement in satisfaction thereof, but only upon the condition that their action shall be authorized or ratified by the vote of the holders of two-thirds of such shares of the capital stock of the Holding Company (preferred and common stock voting together) as shall be represented in person or by proxy at a special meeting of the stockholders to be called upon not less than thirty days' notice for the purpose of considering such settlement, compromise or other adjustment, which vote shall represent not less than a majority in amount of the outstanding capital stock of the Holding Company.

It shall be provided by some effectual means that the net proceeds realized by the Holding Company from the enforcement or compromise of claims against the Denver & Rio Grande R. R. Co. and all avails thereof in the form of securities or property shall be paid over or transferred to the Operating Company, and the Holding Company, in the discretion of its board of directors, may transfer said claims to the Operating Company, which may if it shall so determine cause the same to be subjected to the mortgage securing the new 5% bonds.

Reorganization Committee.—Alvin W. Krech, Chairman; A. M. Hunt, James D. Phelan, Geo. Whittell, David R. Forgan, I. de Bruyn, C. Ledyard Blair, Frederick H. Ecker, Starr J. Murphy, Wm. A. Read, Wm. Salomon and Richard B. Young. Lyman Rhoades, Secretary, 37 Wall Street, New York; Byrne & Cutcheon, New York, and Chas. S. Wheeler and John F. Bowie, San Francisco, Counsel; Equitable Trust Co., New York, Depositary, and First Federal Trust Co., San Francisco, Illinois Trust & Savings Bank, Chicago, and Old Colony Trust Co., Boston, Agents for Depositary.

Board of Directors.—

The first Board of Directors of the Holding Company shall be: A. M. Hunt, James D. Phelan, Geo. Whittell, David R. Forgan, I. DeBruyn, C. Ledyard Blair, Frederick H. Ecker, Alvin W. Krech, Starr J. Murphy, Wm. A. Read, Wm. Salomon and Richard B. Young. Their successors shall be elected at the annual meeting of the stockholders of the Holding Company to occur during the year 1917.

The first Board of Directors of the Operating Company shall be named by the Reorganization Committee, but members of said Board will at all times be subject to removal and their successors will be elected by the Holding Company, which will be substantially the sole stockholders of the Operating Company.
